ODDS & ENDS

News of globe-trotting Sonorans came to us this week from Nancy Neill, currently enjoying a tour of Europe with her sister Jane. We quote from parts of Nancy's letter:

"A German friend of mine picked up my copy of the Devil's River News the other day and first asked, 'A rive goes through your village?' I started to explain when he asked, 'What means the Capitol of the Stockman's Paradise?' With that I decided not to go into it.

"Jane and I have had such a wonderful trip, see so many new things and learned so much. (The most important, I imagine, is how little we knew before and how far we have to go.) One of our biggest regrets all along has been that we couldn't share everything with all the folks at home.

"I hope to see Jan, Shannon, and Mr. Davis when they are in Ausburg, July 23 I believe. A meeting of six Sonorans, including Ethel Alley, in Germany would be quite an occasion.

"Jane is flying home the 30th of July and I'm going back to Spain for a few weeks."

Looking through the little magazine "Cheer" we found the following quotables:

"How does a boy know just how much soap and water to use so that most of the dirt will come off on the towel?"

"Meal time is that period of the day when the kids sit down to continue their eating."

"In a small town, you can chat over the phone even when you get the wrong number."

And from the "Texas Outlook":

A man recently claimed that the word "Ghoughphtheightteau" spell potato.

Here's the way he figures it:

"Gh" stands for "P" as you will find in the last letters in "hiccough"; "ough" stands for "o" as in "dough"; "phth" stands for "t" as in "phthisic"; "eigh" stands for "a" as in "neighbor"; "tte" stands for "t" as in "gazette"; and "eau" stands for "o" as in "beau".

4-H Teams Place Second At Ozona Judging Meet

County Agent D. C. Langford and his 4-H Club judging teams participated in range judging contests at the Crockett County SCD field day held near Ozona Friday, July 13.

Both junior and senior teams placed second in the contest, and Jack Baker was second-high individual in the junior division.

The junior team, composed of members 12 years old and under, was made up of Jack Baker, John Friess and Dick McMillan. The senior team members were Tommy Love, Claire Jones and Joe Friess.

Harold Friess, George Wallace, Mrs. Cleve Jones, Jr., and W. L. (Tom) Davis accompanied the group.

Mr. and Mrs. J F. Howell returned to their home in New Orleans after two weeks spent here with his parents, Dr. and Mrs. J. F. Howell and in Big Spring with Mrs. Howell's parents, Mr. and Mrs. H. W. Smith. They went by way of Dallas where they visited two days with friends.

Mississippi Boy Scouts Enjoy Night's Sleep On School Grounds

Thirty-five Boy Scouts from Creole and Moss Point, Mississippi, sang the praises of the wonderful Sonora breeze when they "camped" Friday night on the school yard. The Scouts were enroute to Los Angeles, California, on a sightseeing tour, having earned $3,000 for the trip by giving fish fries, collecting paper, and other group jobs.

The Scouts, traveling by chartered bus, were met at the edge of Sonora by local Scouters E. A. Brodhead and Herbert Fields, and by A. E. Prugel, Lion Club secretary. Soutmaster W. P. Spruell said they were running late because one of the boys was lost three hours in a zoo.

The Scouts visited Randolph Field and the Alamo at San Antonio before coming here Friday. They were somewhat disillusioned to find the Alamo in busy downtown instead of out on the "lone prairie". They missed seeing Davy Crockett, too!

The boys planned to wake at 5:00 a.m. Saturday morning but the cool breeze and soft grass kept them in the sack until nearly seven. In fact, one Scout slept so soundly that he didn't know his cot was turned over twice!

The Scouts were a well behaved group of boys reflecting credit to the organization and to their leaders. They appreciated Sonora's hospitality in providing the camping facilities. They departed for Disneyland via Carlsbad Caverns and a bull fight at Juarez.

Gas And Alcohol Don't Mix Says Patrolman

State Highway Patrolman Herman E. Moore issued the following statement this week on the proportion of DWI charges on rural highway accidents in Texas:

"Last year, in 1955, we had 1,592 Fatal rural accidents in the entire state, killing 1,993. Out of the 1592 rural fatal accidents, 37 per cent of them showed drinking while driving as the major causative factor. In other words, at least 589 people were killed on our rural roads in Texas, in 1955, due to a drinking driver. (This is only the rural roads figures, not counting the accidents in the cities.) For several years the drinking driver has been one of the leading causes in our fatal accidents.

"Last year in the San Angelo District of the Texas Highway Patrol (20 counties including Sutton County), there were 79 people killed, in 69 accidents. Out of the 69 accidents, 34 accidents had a drinking driver involved.

"In 1954 Texans consumed over seven million gallons of whiskey and other distilled spirits, more than four milion gallons of wine, more than 126 million gallons of been and almost three-quarters of a million gallons of ale. It cannot be coincidence that Texas has such a high highway death toll."

Ozona Stockman —

Looking forward to the community's needs in the way of expanded water and sewer service for the next ten years, members of the board of directors of the Crockett County Water Control and Improvement District No. 1, which embraces the boundaries of the town of Ozona, plan sometime in the near future to submit to the people of the district the decision on activating the long-range plan.

Assurance of the final construction of the Johnson Draw watershed control dams, now considered a matter of a few more days before final determination by Congress, will pave the way for redevelopment of housing areas in the once flood-section.

Winkler County News —

The Winkler County News now has its own form of automation-automatic type-setting.

A teletypesetter perforator machine, which is similar in operation to an electric typewriter but cut code symbols into a type instead of impressing letters on paper, has been installed along with a new type casting machine made especially for the teletype-setter.

The new machines, which cost a combined total of $14,000, represent one of the latest technological advances in the printing industry.

Johnson Draw Flood Project To Congress

HOUSTON, July—Work Plan for the $200,00 Johnson Draw Watershed Project has been approved by the Bureau of the Budget and has been submitted to Congress, Percival Brundage of Washington, D. C. director of the budget advises.

Action upon the project came at the request of ranchers, farmers and citizens in the Ozona area who suffered a disatrous flood last year. R. A. Harrell, Ozona, Republican County Chairman of Crockett County, and Edwin S. Mayer of Sonora, District Committeeman, aided in getting the data prepared for the project.

A good heavy, steady rain began falling in Sonora Friday night about two o'clock and continued until noon Saturday. It came mostly from the north and the coolness of the atmosphere and lowness of the clouds would indicate that has covered a large territory and it likely to continue. The north and east rivers at Sonora are running.

E. F. Vander Stucken received his new Jackson auto Friday. It is a good looker and has all the latest improvements.

WELL WORTH THE EFFORT
An Editorial

Passage by Congress of the stringent narcotics control bill sponsored by Senator Price Daniel marks the culmination of months of diligent effort and nation—wide inquiry by the Texas senator so that a major scourge of mankind may be more effectively controlled.

Senator Daniel conducted hearings in many major cities throughout the country, and the evidence overwhelming was in favor of the legislation he championed. The worse phase of the illicit traffic in narcotics is the insidious development of the habit among young persons. For hat reason Mr. Daniel urged the provision that the death penalty may be imposed for sales of heroin to persons under 18 years of age. Heroin is the most habit-forming of all the drugs. Other penalties for sale and possession were tightened by the Daniel-Boggs bill.

In this country there are an estimated 60,000 addicts, who spend about $350 million a year on illicit drugs, according to government figures. When an addict lacks the money to buy narcotics, he or she may commit any crime to satisfy the craving. Arrests for narcotics violations amount to about 25,000 a year.

Drug addiction has been termed "murder on the installment plan." The term has been coined by an informed authority, Harry J. Anslinger, chief of the Federal Narcotic Bureau. Because of the enormous profits in the nefarious dope traffic, it is directed by higher-ups in the underworld. If the Daniel-Boggs bill reaches them and imposes justice commensurate with the crime, the measure should prove a supreme achievement in law enforcement. —Fort Worth Star-Telegram.

Edwards Plateau Soil Conservation District News

By E. B. Keng
Soil Conservation Service

An important- but often neglected- item among ranch people is Safety. More work deaths occur in farming and ranching than in any other major industry. Some 2,100,000 farm residents were injured in 1954.

Ranchmen and ranch employees are subject to a wide variety of accidents. Poisonous snakes, spiders, and plants, vehicle mishaps, falling objects, rabid animals, livestock accidents, and injuries caused by equipment and machinery- to only mention a few.

A tractor can kick you, and so can a horse,
And fingers in a belt can cause great remorse.
Take time to be careful when the windmill you pull,
And never neglect to watch out for the bull.
A rattlesnake can bite you as sure as you're born,
Be always alert to avoid the poison thorn.
A hunter with "buck fever" is as wild as a goat,
Be sure the deer is dead before you cut his throat.
A horse at full speed on a steep rocky hill
Can break all your bones when he gives you a spill.
Tight wire can break, as well as old chains.
A small draw can drown you following big rains.
To sum it all up- there's never a day
That you can't help an accident come your way.
But if safety conscious like a wise old sage
You can live amid danger to a ripe old age!

Motor vehicles took 5,900 farm lives in 1954. Accidents in the home accounted for 3,500, farm and ranch work accidents took 3,800 lives, and 1,300 lives were lost from assorted causes.

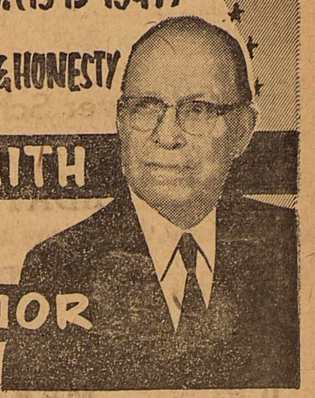

The nation will observe the 13th National Farm Safety Week July 22-28, 1956. Let's observe this week and all other weeks of the year by following safety rules and using good "old horse sense" to make certain that we are not one of the statistics when the farm accidents for 1956 are compiled.

SAFETY PAYS ALWAYS!

Mrs. P. C. Dunbar of Rocksprings was the guest of Mrs. Tom Sandherr early this week.

Mrs. Annie Sharp and Mrs. Jackie Sharp visited Jack Sharp in Monahans last week.

43 YEARS AGO

ANNOUNCEMENT PARTY - Mrs. Herbert Wardlaw entertained last Monday night at her home mith an announcement party in honor of the popular bride to be, Miss Marjory Merchant Aldwell, at which time her wedding to Mr. John Lee Nisbet, of Davenport, Iowa, was announced.

The guests were appropriately entertained with the game of "Hearts" and the hours slipped by in a hurry, amid the excitement and laughter of the Interesting game. The high score was made by Miss Maud House and she was presented with a beautiful hand painted water tray with a silver railing, as a token of her skill, which she in turn presented to the honor guest.

After the games were finished the announcement cake was brought forth, and each of the guests, with the assistance of a keen knife, endeavored to cut a slice of the cake that would tell them with certainty what the future held for them. Bart DeWitt cut the piece containing the announcement card, which he read aloud to the assembled guests. Miss Myrtle Briant secured the ring; Rector Cusenbary got a safety pin, E. C. Beam got the dime (which he kept), and Marjory Aldwell got the thimble.

This solemn ceremony was followed by a toast to the guest of honor, given by Bart DeWitt, upon which the assembly drink to the health of the bride to be, the drink being a draught of Sonora's famous water. The toast was responded to by Miss Aldwell in her own charming manner to the delight of her hearers.

Delicious fruit punch was served throughout the evening by Mrs. Charles Evans, and at a late hour the following guests thanked Mrs. Wardlaw for the pleasant time they had had and departed for their respective homes, Misses Briant, Cusenbary, Rogers, Tillman, Jessie Smith, Mrs. Cornelius, Miss Baker of Dallas, Misses Allie and Maud House of Mansfield, Miss Aldwell, Mmes. H. P. Allison, W. L. Aldwell, Mr. and Mrs. Charles Evans, Messrs Bart DeWitt, Harry Meckel, Wallace Keesee, Lem Johnson, E. C. Beam, Rector Cusenbary, J. Green, Ica Adams and Oscar Cain of San Angelo.

Chevy beats own Pikes Peak record . . . and tops all rivals including cars in every price range!

Last fall, Chevrolet broke the Pikes Peak record in a history-making pre-production test.

Chevrolet takes first, second and four of the top six places! Beats its own stock car record by a full minute and 16 seconds!

Running against the hottest competition in the land, Chevrolet won the Pikes Peak climb—a towering challenge open to all makes of cars.

This is unquestionable proof of Chevrolet's supreme *roadability*—the accuracy of Ball-Race steering, the solidity of outrigger rear springs, the traction "bite" of balanced weight distribution.

There is no greater test of a car's road safety qualities than Pikes Peak climb. Come in and drive the car that's won the "crown" twice in a row!

Local livestock shipping gathered momentum this week as several choice bunches of feeder lambs moved out at better prices than last week.

* * *

One of the best bunches of crossbred lambs we have seen this year were weighed Thursday, when Louis Wardlaw received 1,300 lambs from Lee Fawcett to go to Kansas City. They weighed 75 pounds and brought 16½c.

* * *

Jake Merck received 200 Renfro pairs at $10 and 500 pairs from Herbert Fields at $12.

Pictured above is the pen of 400 blackface crossbred lambs sold last week to Leroy Russell by Sol Mayer. The lambs brought 16 cents and averaged 71½ pounds.

* * *

Johnny Hamby sold 640 light lambs to C. T. Jones. The lambs were grown by Trav Glasscock.

* * *

And for a note of encouragement, we overheard two buyers say at the stockpens that Lee Fawcetts lambs would be worth 17c "today". (Thursday).

* * *

Frank Bond's blackface crossbred lambs weighed 77 pounds, when Carroll Farmer received them this week. They brought 16c and went to Illinois.

* * *

D. Hyde of Rocksprings brought in three truckloads of 57 pound whiteface lambs which went to Roy Bratton.

* * *

C. T. Jones received the Sam Jones calves Thursday at an undisclosed price. The heifers weighed 381 and the steers 467.

* * *

Jake Merck bought 600 Rambouillet lambs for 15c from Aldwell Brothers. The lambs weighed 52 pounds.

* * *

Merck also bought one carload of lambs from John Fields at 15c. Weights were reported at 51 pounds.

* * *

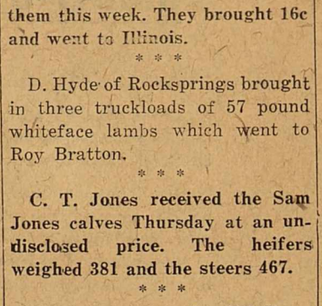

Country calf buying continued at about 17c and 19c, with a few choice bunches being bought and contracted at higher prices.

* * *

C. T. Jones weighed Mrs. Mae B. Sawyers lambs to Carroll Farmer at 15c. These lambs haven't had feed since May 1, but weighed 67 pounds.

* * *

Cattle slaughter the first five months of 1956 was up 6 per cent. Due to heavier weights, tonnage slaughter was up 10 per cent. Informed sources are giving credit to the feeding of stilbestrol for the heavier cattle. Corn belt feeders say that the feeding of silbestrol to two year old cattle makes it necessary to feed them to heavier weights in order reach profitable market grades. It is reported to us that corn belt feeders are saying that they don't want any more two year old steers. It is quite likely that calves will be in stronger demand at better prices from that source, and that 2 year olds will be harder to sell in the future, even at lower prices.
