Our Town...

By JOE BELL

Harry Snyder, the diminutive Ohioan with the king-size voice, does the unexpected.

Four years ago doctors told him to prepare himself for the life of an invalid. Instead, he climbed out of bed and went to work.

Today, while West Texans shake their heads in amazement, he is rolling tumbleweeds into a big thing for Colorado City and his own Gen Floral Company Inc.

HERE'S A secret, though. The idea for his latest rush into the unexpected was planted by a female — his wife, to be exact.

It happened about 4 or 5 months ago when the Snyders were viewing television in their Cincinnati home. A tumbleweed rolled across the screen during a show.

"She didn't even know what the thing was," Snyder reports.

But she turned to her husband and asked him why he didn't "do something with that weed" in a decorative sort of way.

SNYDER, AS those new friends of his here in Colorado City have learned, isn't one to sit around and twiddle his thumbs over wishful words.

He went to a friend of his who heads a department in the Cincinnati Chamber of Commerce, asking the chamber official to contact some towns where tumbleweeds grow.

The friend still was laughing when Snyder left the office, but he wrote a letter asking for a few tumbleweeds with which Snyder could work with in experiment.

THEREIN IS one of the missing links in the tumbleweed story.

Snyder doesn't know why his friend selected Colorado City Chamber of Commerce as the destination for the letter.

He did, though. And Rex Felker, the local chamber manager, boxed up 3 medium size tumbleweeds and shipped 'em to Cincinnati.

Few weeks later there was a second request and Felker stuffed 8 or 9 of the weeds into 2 burlap bags, sending them to Snyder.

THE OHIO manufacturer quickly developed a process for working with the thorny weeds. Quick steaming made the plants easily pliable, so they could be baled or shaped.

Another treatment made the weeds fireproof for safety in the either interior or exterior decorating.

And the character of the weeds — along with the never ending demand for changing decorations to meet the seasons, holidays and occasions — provided manufacturing versatility.

Even more, tumbleweeds aren't the highest priced crop on the market right now. Thus, it shaped up as an economical material.

SNYDER, WHO traveled by plane back to Cincinnati over the weekend to keep the movement rushing toward his new tumbleweed enterprise, admits the whole idea was still almost a joke when he left Ohio for Colorado City a few weeks ago.

"I was still laughing the night before I left," he said, "and my friends still thought I was crazy."

But not any more.

And the play time, the laughing part is over for Snyder too, as he gets down to serious business now of perfecting his manufacturing operation here in Colorado City, setting up a system for obtaining sufficient tumbleweeds and supplying what he believes will be a nationwide market in all types of decorative items.

In the market of a few months ago, the price of a ton of tumbleweeds was \$1.50.

Now it's \$1.50 a ton. Snyder's business is booming.

Tumbleweed King

Harry Snyder mixes a happy smile and his new Texas style hat with a display of wreaths and decorations which he makes from tumbleweeds. The Cincinnati, O., floral decorations manufacturer began Tuesday to prepare his new floral plant here for processing tumbleweeds into decorations for a nationwide market. Millinery department of The John Shillit Company of Cincinnati, one of Ohio's largest department stores, wired Snyder Thursday for 81 dozen decorative wreaths for April 27 delivery.

2 NIGHT, 1 MATINEE

Sons of Pioneers to Make 3 Appearances

A full afternoon and night of entertainment jelled Thursday for Colorado City's Tumbleweed Festival, April 29.

Sons of the Pioneers, the famed western band from Hollywood, agreed to contract for 3 appearances during the festival.

And Governor Price Daniel switched his original plans so that he could be here for a noon luncheon, then appear in the festival's afternoon parade.

Sixteen floats, each a galaxy of tumbleweed decorations, already had been assured Thursday by local merchants for the parade.

Total number of floats is expected to increase to about 25 as more merchants join the list of sponsors.

Governor Daniel changed his itinerary for the festival day so that he would be here for the afternoon parade feature instead of visiting only in the morning.

The governor will be honored guest at a Tumbleweed Festival luncheon in Civic House and then lead the 2:30 p. m. festival parade.

Sons of the Pioneers and Pat Brady, Roy Rogers' sidekick, also will be parade attractions.

The Pioneers and Brady confirmed contract agreement by phone Monday with Tumbleweed Festival officials for their appearances.

They will be the stars of 3 festival entertainment programs in Colorado High Gym.

The Hollywood entertainers will play for a special matinee performance immediately following the parade and then again that night.

Brady and the Pioneers also will stage a show at the Tumbleweed Festival queen pageant the night before, April 28.

Final arrangements for the western musicians' appearance will be completed by the festival committee.

County Approves New Library Cash

Attorney's Opinion Requested

Mitchell County Commissioners Court Tuesday joined the city in meeting the request for more money to operate the federation-sponsored County Library.

Just like City Council, the commissioners voted unanimously to increase the county's library appropriation from \$150 to \$250 each month.

However, the Commissioners Court action has one stipulation — that the allocation coming after the 1960 county budget already is approved and in operation, must meet legal requirements.

And to be certain, the commissioners asked County Attorney Frank Ginzler to rule on the legality of the extra financing.

If the county action is viewed as legal by the county attorney, then the library will begin receiving a total of \$500 in city and county funds.

Women's delegations appeared before city and county officials early in March asking each governmental body to raise appropriations from \$150 to \$250 monthly.

City Councilmen agreed immediately to the hike, but commissioners paused for a study.

Precinct 1 Commissioner Sam Thompson placed the motion before Commissioners Court Tuesday to increase the county's portion of the library financing.

In the past, commissioners sometimes have backed off from new financial commitments after the year's budget already was adopted and in operation.

But Thompson's motion Tuesday incorporated into it a request for the review of the legality of the higher library financing at this time.

And when commissioners backed the motion with unanimous vote, it assures the \$250 appropriation unless the county attorney says it is illegal.

Here is the exact text of the appropriation motion as adopted by commissioners: "That at the time the 1960 budget was approved and adopted, it was not foreseen that the Mitchell County Federation Library would need any additional financing. However, at this time, there exists a necessity for such funds.

That the Mitchell County Federation Library be allowed \$500.00 additional per month."

League Baseball Meeting Friday

Organizational meeting for Colorado City's 1960 Little Pony and Minor League baseball is scheduled Friday at 7:30 p. m.

Managers, coaches and all interested persons — especially parents — are urged to attend the meeting in Junior High School, according to league officials.

The Friday night session will be specifically for setting up the community's baseball program, plan for the drawing of players and other details.

At the same time, reports will be made concerning operation, finances and other pertinent details holding over from last year's baseball.

Parental releases have been distributed to boys in local schools who are interested in playing in Pony and Little League this season.

These releases must be signed by parents or guardians of any boy playing in the baseball leagues. Therefore, league officials emphasized Thursday that it is important that parents of boys planning to play in the league return the signed releases now to the schools.

"Without properly signed release, a boy cannot even tryout or practice for a league team," K.C. McAdams, Little League president pointed out.

Both McAdams and Therman Moore, Pony League president, urged all managers, coaches and interested parents to participate in the Friday night meeting.

They also asked persons holding league-owned equipment to return the equipment immediately to McAdams.

Caddell's '59 Driving Wins Safety Award

Caddell Transit Corporation received top safety honors Wednesday during the motor transportation luncheon of 21st Annual Texas Safety Conference and Governor's Highway Safety Conference in Dallas.

The Colorado City firm received the fleet safe driving award for Group B size transportation firms within the state.

And Lee E. Morris, Caddell Transit driver for 5 years, received the award for outstanding individual drivers.

The competitive awards are presented annually by Texas Safety Association to business firms, government agencies and individuals for exemplary safe driving records.

Caddell's fleet award was based on the corporation's 1,064,000 miles of operations in 1959 without an accident.

Morris drove 68,000 miles in 1959 without an accident. His award provides Caddell Transit with a perfect record — every driver a recipient of the individual award over a period of years.

Attending the awards luncheon were M. N. Caddell and Max N. Caddell of the local firm. Major Kent Odom, Corpus Christi regional commander in the Texas Department of Transportation, presided.

IN FRIDAY MEETING

Award Books, Writer's Life Viewed by 1921 Study Club

Featured on the program for the day were Mrs. Pete Ainsworth and Mrs. M. J. Dawson when the 1921 Study Club met in the home of Mrs. Lee Lavender Friday afternoon.

Mrs. Ainsworth discussed National book award winners and best sellers in the United States.

Mrs. Dawson presented an outline of the life of Harry Golden, essayist to the group.

Mrs. Ainsworth stated that the battle between the National Book award winners and the year-round best sellers shows up clearly in the facts and figure department.

Matching the years of the best sellers, she said, against the National Book award books of the appropriate period, we find that not a single top seller made the grade as far as the National book award was concerned.

In 1957 the best seller book was "By Love Possessed" while the National Book award went to "The Wapshot Chronicle."

She stressed that the awards have called attention to some excellent books, they have put them into the hands of people who want them and at a time when big-minded writing is threatened from every quarter.

Mrs. Dawson reviewed some of the highlights of Harry Golden's life.

She stated that he settled in Charlotte 15 years ago, after a picturesque career that began on New York's lower east side.

The speaker stated that according to Golden's "Vertical Negro Plan," all the state legislators needs to do is pass one small amendment which would provide only desks in all the public schools no seats.

She continued that since no one pays the slightest attention to a Vertical Negro, this will completely solve the problem.

She stated that it is no such a terrible inconvenience for young people to stand up during their classroom studies in fact, this may be a blessing in disguise.

The speaker stated that Golden said "the south voluntarily has all but eliminated vertical segregation," he continued "the white and negro stand at the same grocery and supermarkets, counters deposit money at the same bank tellers window, pay phone and light bills to the same clerk." He explained that it is only when the Negro sits that the fur begins to fly.

Mrs. Dawson said that Harry Golden is unique among journalists because for years he has been the owner, editor of, and sole contributor to the monthly called "Charlotte, North Carolina."

She said that Golden called his paper, "The Carolina Israelite," in effort to avoid criticism from any who might consider it a mouthpiece of some particular group is disguise.

The paper, she said, has 16 pages and about 100 ads and about 10 editorials.

Carl Scharf, she stated, has called Golden the Jewish Wall Street.

Mrs. Dawson said that Harry Golden is too concerned to serve as anyone's folks here, and not all of his views endear him to liberals.

She said that down in Dixie, Golden runs a witty one-man newspaper which regularly stamps for integration.

The speaker stated that he studies himself a radical and advocates immediate total desegregation.

Mrs. U. G. Hardison presided during the business meeting when Mrs. Sam J. Malors Sr. led the club collect.

Mrs. W. C. Hooks, secretary read the minutes and corresponding secretary reported on the correspondence.

The club members voted to send the president, Mrs. U. G. Hardison to the called meeting at Stamford.

Refreshments were served to Mrs. Bill Doss, Mrs. P. K. Mackey, Mrs. J. T. Pritchett, Mrs. Hooks, Mrs. W. R. Martin, Mrs. Majors, Mrs. W. W. Rhode, Mrs. Ainsworth, Mrs. Dawson, Mrs. C. L. Root, Sr., Mrs. R. P. Price, Mrs. S. O. Heitman, Mrs. Hardison Mrs. V. R. Trulock and Mrs. Lavender.

If it's redwood, you can make it new and beautiful again... with Jones-Blair Velva-Grain Redwood Finish. It will positively restore stained, darkened and mildewed redwood to its original and natural beauty.

What's more, it will keep it looking that way! New redwood need never grow old. Velva-Grain will protect and beautify it — give it a low-luster finish that looks like the natural, unweathered wood — and keep it that way. Velva-Grain prevents the growth of black, dingy mildew, too.

J-B best test after test! In carefully supervised tests, Velva-Grain showed its superiority to other leading redwood finishes. When continuously exposed to the weather for many months, only Velva-Grain finished redwood panels did not yellow, chalk or discolor.

Mr. and Mrs. T. J. Green Sr. visited in Corpus Christi from last Friday until Wednesday of this week with their daughter and family, Mr. and Mrs. Marlon Rhodes and daughter, Marian.

MONDAY AND TUESDAY EVENING

21 Seniors to be Featured in Play

Members of the Colorado City High School Senior class under the direction of Miss Gladys Miller will present Monday and Tuesday at 7 p. m. in their annual Senior Class play, "Once and for All" by Sidney Divall.

The play a 3-act comedy will feature 21 members of the senior class.

Miss Miller states that this 3-act comedy is a little more difficult than the average-run of high school plays.

She related that it has an unusually interesting plot and a completely different set from ordinary interior settings.

It takes place in a small court between apartment buildings that once was the abode of the well-to-do. But now, with the shifting of real-estate values, the little court is in different hands.

Those featured in the cast will be Laura Barber, Nick Martinez, Larry Moser, Gary Yancy, Gloria May, Jay Allen, Liney Johnston, Natilyn Smith, Anna Lee Root, Linda Garcia, Byrdie Herring, Larry Hardecastle, Jackie Joiner, Russell Morris, Sheila Wallace, Flippin, Carolyn Howell, Peggy McCallie, Marilyn Perry, Jay Shimer and Billy Bobo.

Those working behind the stage will be Patricia, Khun, Sue, Windham, Bob Grant, Steward, Dickson and Larry Greathouse, Industrial Arts instructor.

The play will be presented Monday and Tuesday night in the Colorado City High School auditorium beginning at 7 p. m. and admission price has been set at 50c and 75c.

The money raised will be used for the annual senior trip that will be coming up shortly.

Shoe Covering Classes to be Conducted

An adult class in shoe covering will be taught by Mrs. J. S. (Jay) Craddock in the Colorado City High School Home-making Department April 4, 5, and 6 from 2 p. m. to 4 p. m.

The course is free but each person must furnish his own supplies which are: shoes to be covered (no open toes or heel fabric for covering (1 1/2 yards) narrow, masking tape, plastic electrical tape, glue, pins, thread and other small sewing equipment.

Mrs. Craddock stated that you would also need a screw driver, razor-blade and clothes pins.

OUR TOWN

Continued from pg. 1 will be the job of planning and decorating about 25 floats for the Tumble Weed Festival parade here April 29.

THE PLAN still is so surprising to West Texans that it is funny. But Snyder is serious with it all behind his ready smile. Just as serious as when he ran the docs out of his room when they told him to relax and get used to the idea of being an invalid.

He was in a cast, then, with a broken back—caused when he fell 4 floors down an elevator shaft in his Gem Floral Company plant in Cincinnati.

SNYDER CALLS himself the tumbleweed king now. He can do things with the cussed weeds others never dreamed about. But he's puzzled over one particular achievement.

How did Felker get 8 dry tumbleweeds into burlap bags, in the first place? We have several nice 2 and 3 bedroom houses with low equity. See L. E. Jordan, 133 W. 8th or dial 8-3235.

Without opposition on the ballot are Eldon B. Mahon, candidate for 32nd District judge; Weldon Kirk, candidate for district attorney; County Attorney Frank Ginzle, candidate for re-election; Precinct 2 Constable, J. W. Plummer, candidate for re-election; County Demo Chairman Raliff, Demo Precinct Chairman Max Caddell, W. H. Gregory and J. C. Hall Jr.

Governor Price Daniel has the No. 2 spot below his opponent Jack Cox on the ballot. Lt. Gov. Ben Ramsey has the lead-off place above Don Yarborough while Attorney General Will Wilson has the No. 4 in his race with Robert Everett L. Looney and Waggoner Carr listed No. 2 and No. 3.

Illegal Fishing Robs Real Sportsmen

Call it what you want, but the illegal fishing in Champion Creek Reservoir reported by Texas Game & Fish Commission is a short-sighted kick in the teeth to a real sportsman.

Those persons now taking fish from the new lake apparently can't see beyond their noses. That's because the Champion Reservoir was originally stocked only last year and the fish in its waters are brooder type. And every time a person pulls a brooder fish from the lake, he robs the reservoir of better fishing potential in the years-to come.

Fishing, within its legal limits, is truly a splendid sport exemplified in the best manner by thousands of West Texans. But when the unsportsmanlike turn to illegal tactics, they give a blackeye to the great majority who respect the laws, the rights of landowners and seek to conserve and perpetuate our wildlife attractions.

Here's hoping the proper enforcement agencies make it their business to see that the law is applied firmly to those who can't be trusted with the responsibility of good sportsmanship.

Business Men Learn From Preacher

Business men usually are proud of their own "college of hard knocks" through which they become educated in the profit and loss tactics of competition. For that reason, they sometimes are dubious of advice from outsiders, especially when those outsiders haven't climbed the same business ladder.

But a preacher turned the tables on them being fast week in the West Texas Chamber of Commerce workshop. The table was turned neatly and efficiently.

Rev. Gage Lloyd, Presbyterian minister of the Spring, did the trick as he mapped a 4-point program for civic leaders in their leadership responsibility.

Here's the 4 markers the preacher posted for responsible leadership and service to community: (1) planning, (2) capital, (3) the will to reach out and (4) courage to propose new progress in face of opposition.

The minister's talk wasn't just a jaw-jaw speech. He backed it with evidence all along the line — pointing out cities that became leaders in their respective fields only because of planning, plainly emphasizing that communities don't grow by stealing from others but by developing their own projects of progress, stating the clear fact that there always is opposition when

ever a person proposes something new. The minister, who probably has looked at as many money worries as businessmen while fighting the never-ending battle with church budgets, focused special attention upon the matter of capital — risk money, in particular. "When you find tight money," he warned, "you find a community that is dead."

The applause from more than 100 Chamber of Commerce leaders from an area reaching from Canadian to Del Rio was enthusiastic — a pretty fair indication of agreement.

Our Gain

It is a lengthening list of Colorado City High teachers who are qualifying for National Science Foundation scholarship awards this summer at leading universities and colleges.

This is a record with significant value to the community. First, it assures our youth with even better and more inspired teaching in the future. And, second, it evidences that fact that our public school staff has those teachers with the invaluable asset to better themselves through extra preparation.

TEXAS AGRICULTURE

Farm Legislation Pattern Develops

By JOHN C. WHITE, Agriculture Commissioner

The value of agriculture of Washington farm legislation for the 1960's is beginning to appear dimly, and a better idea of what to look for next might be gained by glancing at what has happened in the past three decades.

Each of these three decades has been marked by different and distinct attitudes in Washington toward the problems of agriculture.

Going back to the 1930's, the decade of the Great Depression, there was an economic disaster that stifled the entire economy and pushed one out of every four farmers into bankruptcy.

The problem then was

strictly a dearth of markets instead of excessive production, and the Washington remedy was to plow up crops, kill little pigs and put the government into the cattle-buying business.

The beginning of the 1940's saw the technological revolution in farm production coming to the front, producing what at that time appeared to be huge surpluses. But there was war and post-war recovery that took up these apparent surpluses, with high prices encouraging maximum production.

Prices went up from 38 per cent of parity in the 1930's to 123 per cent of parity in the 1940's.

But in the 1950's the vast increases in production again developed serious surplus troubles.

Eventually, in 1955, a Democratic Congress gave the Republican Secretary of Agriculture, the authority to flex price supports between 75 per cent and 90 per cent of parity for basic crops. This was done on the theory that since high supports had encouraged excessive production, lower supports would cause farmers to reduce production.

The theory, however, has not been borne out by the facts, with total farm production continuing to set new record highs year after year.

This year, the best collective thinking of Democratic farm-minded congressmen perhaps is reflected in the "Family Farm Income Act of 1960" by Rep. Bob Poage (D-Tex.). The bill is not expected to pass this session of Congress, but it indicates what can be expected next time if the Democrats retain control in the House and Senate.

It has two fundamental aims: First, to strengthen the income and security of family farms; second, to provide farmers with a variety of programs from which to choose. It is based on higher price supports with production under strict controls.

LOCAL BUSINESS

Merchandise Must Go as It's Wanted

By ROY V. FOX, Record Co-Publisher

A merchant who has any doubt about what to advertise, would not go wrong in giving heed to a rule followed by a successful drug store operation in Texas.

W. Groce Lallier, president of Mading Drug Stores of Houston has said:

"For retail business, newspaper advertising is most valuable in presenting merchandise most wanted. That's why we spend close to \$30,000 annually in retail line."

This advice would apply to any retail business of any size. For no advertising man, honest and in his right mind, would argue that advertising could or should sell unwanted merchandise.

Very often a retailer who is disappointed in his advertising has been expecting advertising to sell goods which would not sell under any conditions. Or, as one of our local merchants put it: "Too many of us look for miracles. We can't hope to sell something through advertising which we could not sell to a customer if we met him face to face."

By VERN SANFORD, Texas Press Association

It's nine months until the 57th Legislature comes to Austin to pass laws, appropriate money and, probably, enact new taxes. But the major decisions are being made now.

Whether it's the warmer weather or the dwindling time—first primary is only a little more than a month off—the deciding process is now going full tilt.

Candidates have their literature off the presses and their campaign organizations in action. Challenges and promises are being made, mostly centered on one issue—meeting the state's in-the-red financial predicament.

In most areas legislators are being forced, if their announcement platforms aren't clear, to say pretty specifically what sort of new tax they would favor.

On the statewide level, it's the same. Jack Cox, with the backing of Former Gov. Allan Shivers, has come out for a 2 per cent sales-tax-for-education. Gov. Price Daniel has consistently maintained that the state's financial problems are not so great they cannot be solved by other means.

Jake Pickle is leaving his post as director of organization for the State Democratic Executive Committee and will work in Governor Daniel's campaign. Jake Jacobson, former Daniel aide, will head the Daniel headquarters.

EXPECT GOOD year. Rejoicing the age-old Texas philosophy that everything depends on rain, most Texas ranchers are wearing a smile this spring.

Members of the Texas and Southwestern Cattle Raisers Association meeting in Austin said wet weather had put a "season" in the ground. Prolonged cold meant a lot of expensive feeding but, in general, the cattlemen look to this year as one of the best ever.

Amid the optimism, U. S. Sec'y of Agriculture Ezra Benson warned against too-rapid expansion of herds. It will almost certainly result in a sharp drop in prices, said Benson.

Benson noted that in the past two years cattle in the U. S. had increased by almost 4,000,000 head a year, double the rate he felt the consumer market can easily absorb.

He estimated there were a record-breaking 101,000,000 head of cattle in the country at the start of the year. This is "not yet excessive," said Benson, but he urged that future increases be "moderate."

Governor Daniel warned the cattlemen to watch the import situation. Governor's Exhibit A was the Texas oil industry which has suffered crippling setbacks from the competition of lower-priced imports.

Secretary Benson opposed raising import barriers. He suggested that losses would offset gains in that a \$4,000-

Cox Puts Sales Tax Issue in Heart of Governor Campaign

000,000 export business in hides and tallow would be choked off.

Dolph Briscoe of Uvalde, former legislator, was elected president of the Cattle Raisers Association.

CATTLE MEASURES — Cattlemen voted to seek governmental action in these areas:

1. State and federal agency help to enable railroads to operate more efficiently and economically.

2. Legislative enactment of a stronger trespass law to protect landowners.

3. Full authority for the Texas Animal Health Commission to direct the brucellosis eradication program begun under a law passed by the Legislature in 1959.

4. Confirmation by the U. S. Sec'y of Agriculture of the Association's right to carry out its brand registration and inspection program.

5. Launching by the U.S. DA, as quickly as possible, of a screwworm eradication program in the Southwest similar to the dramatically successful Florida program.

COLLEGE COSTS — Next legislature probably will be asked to appropriate about 23 per cent more for support of Texas state colleges and universities.

Ralph Green, director of the Commission on Higher Education, said an estimated \$31,400,000 more than present allocations would be needed for the 1961-63 biennium.

This is some \$15,000,000 a year more than the \$65,000,000 being spent this year. Green told a Legislative Economy Committee the extra funds would be needed to meet increased enrollments and improve faculty salaries.

Green reminded the lawmakers that part of increased cost results from the legislature's having made a junior college into a senior college — against the Commission's recommendation.

RIBLE COMMENT

He Was No Rebel Despite Revolution

Jesus was the cause of a spiritual revolution, but he was not a rebel. He sought a revolution through positive constructive action and teaching.

Jesus said that He did "not come to destroy, but to fulfill" (Matthew 5:17). If He set His "I say unto you" against what people had been taught in the past, it was an advancement from the law of measured justice — from the law of "an eye for an eye" to the larger law of love and mercy.

This, as Jesus knew, was the only way toward constructive and better relationships from the jungle of mutual recrimination and revenge.

Who is right and who is wrong in the international and personal disputes that range around us are not

YOUTH AID — Texas Youth Council has announced it will try again to get a paid parole supervision system for juveniles released from state training schools.

Legislature failed to enact this last session.

Council also outlined need for establishing a home for dependent and neglected Negro children and expanding other state schools for young people.

Other two members of the Council refused to add their support to a wide-scale delinquency prevention program proposed by Chairman W. C. Windsor Jr. of Dallas. It included such recommendations as making 12 years of schooling compulsory, keeping schools open to 5 p. m. for students with special needs, working with the Texas Employment Commission to provide more job opportunities for youngsters, more emphasis on child and family guidance centers, etc.

Louis Henna of Round Rock and Robert Kneebone of Houston said Windsor's program invaded the fields of other state agencies.

SAFETY LAWS — Brad Smith, director of the Texas Traffic Safety Commission, has proposed a four-plank platform for cutting Texas' traffic toll. Planks are:

1. Provide driver education for every public high school that wants it.

2. Revise the 20-year-old drivers license requirements.

3. Set up a statewide chemical test for suspected drunk drivers.

4. Set up a system of traffic courts.

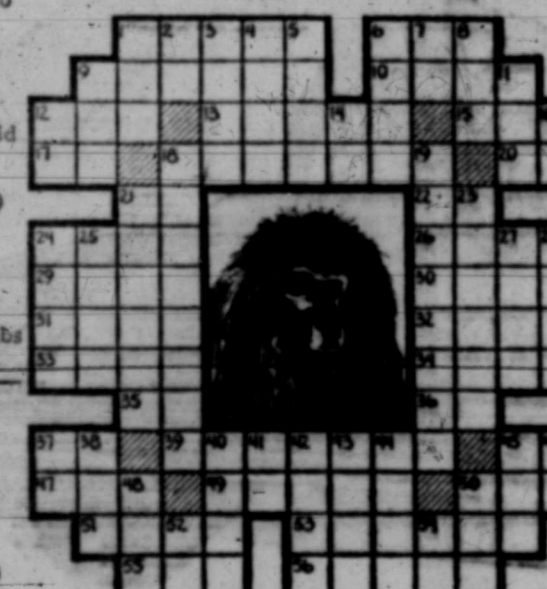

BRIDGE WORK — Texas Highway Commission has announced plans to spend \$5,216,500 in strengthening or rebuilding more than 100 bridges.

They are bridges regarded as not strong enough to take the increased 72,000 lb. load limit authorized by the last Legislature. At present these bridges are "zoned" to prevent use by trucks loaded to the limit.

SHINNERY PHILOSOPHER

Insurance Ripe for New Style Policy

Editor's note: The Shinnery Flats Philosopher on his Johnson grass farm on Bone Hollow Creek won't get anywhere with his idea this week, but still it's a thought.

Dear editor:

Some people are always saying there aren't any more opportunities left in this country to get ahead, and while getting ahead hasn't been my prime goal, after all, if some of us don't drag behind, we'll rob those ahead of the glory of being there— whoever heard of a situation where everybody was equally ahead and everybody was satisfied with it—at any rate, to get on with this sentence, I wish to point out that there are still plenty of opportunities.

For example, an insurance salesman was out here the other day trying to sell me some insurance that would protect me in case a cow of mine got out and damaged a neighbor's property, whereas what I really need is mainly just a better fence, although he didn't seem to be interested in helping me build one, said he had to get on and try to sell some more insurance.

I got to thinking after he left and discovered a brand

new field for the insurance people.

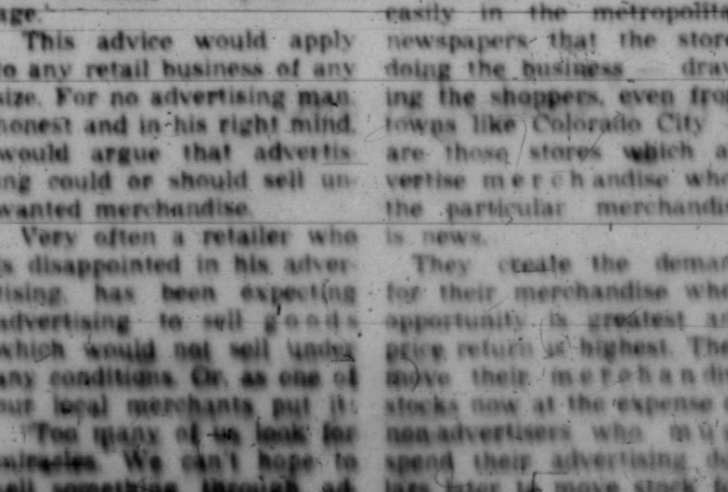

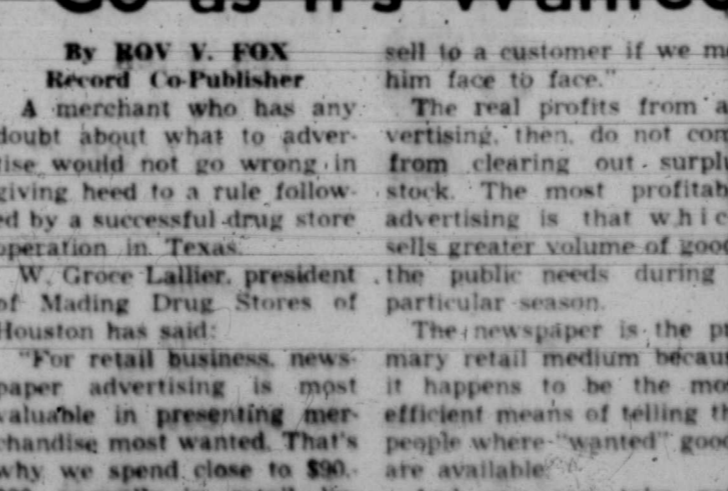

If the insurance people really want to do some business, what they ought to do is work up a policy that protects people from the Russians. It would sell like hot cakes.

Everybody knows those Russians have all those guided missiles aimed and cocked, and while I doubt if they have one zeroed in on my Johnson grass farm out here, they might not be as accurate as they're reported, you can't trust them Russians, and a five-tonner aimed at Abilene might very easily overshoot or undershoot and land in my backyard.

That's where I'd like to have some insurance. Not insurance though that would go to my estate, which by that time would be a big hole in the ground, but insurance that would stop that missile somewhere near the middle of the ocean, or make it turn around and head back toward Russia.

I think they call this living insurance, and if the insurance industry can work up such a policy, I'm in the market.

Your faithfully,
J. A.

A Church Going Family Is a Happy Family

It might seem that it would be fun if life were like one great slide downhill. It might be; however, life is not that way. It has a great many ups and downs, good and evil, sadness and joy. How will this little boy feel about life when he learns that it has incredible sorrow as well as great joy? Will he learn that life, whatever it holds for him, can be trusted because this life, every minute of it, is a gift from God? Will he learn that God has his breath in the palm of His hand, and that the fulfillment of every life is His dearest desire. Don't let your boy or girl miss a moment of life; it's too wonderful. Teach them now to trust in God and live to the full the life He gives.

Is something wrong with your life—
an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure.
Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. *Everyone should be in the Church and the Church in everyone!*

26 CITIZENS ORGANIZE

King Heads Loraine's New Golden Age Club

By MRS. C. C. HAMILTON, Record Correspondent
 LORAININE—Twenty-six citizens of the Loraine community organized Loraine's Golden Age Club here Monday night. The organizational meeting was in the Lions Building with 2 couples from Westbrook's Golden Age Club assisting with the project. Named first president of the Loraine club was J. W. King, publisher and editor of Mitchell County News. Other officers elected for the club's initial year are Mrs. T. C. Wilson, secretary; T. R. Bennett, assistant secretary; Mrs. Lester Webb, treasurer; Dan Butler, chaplain, and Mrs. Ida Baird, reporter.

Two committees — by-laws and membership — were appointed by King to important jobs for the club's foundation. Serving on the membership committee are Mrs. Dottie Marshall, Mrs. Dan Butler, Mrs. Ted Lefevre and Mrs. James Bennett.

Members of the by-laws group are Joe Bennett, chairman; Mrs. Cora Hall and Mrs. Lynn Compton. The new club selected the marigold as its club flower and "Blest Be the Tie that Binds" as the club song. Selected as colors for the club were purple and gold. Golden Age members will meet the third Monday of each month in the Loraine Lions Building.

Membership fee is only \$1 and all 26 persons from Loraine community participating in the organizational meeting Monday night paid membership fees, according to King. Dr. Bruce Johnson was temporary chairman for the initial part of the meeting, until the club was actually organized. Assisting with the organization and relating data from the successful Westbrook Golden Age, which celebrated its birthday recently, were Mr. and Mrs. N. J. Stokes, Mr. and Mrs. C. D. Coburn.

Mr. and Mrs. Jim Moore of Westbrook visited here Sunday afternoon with his cousins, Mr. and Mrs. T. T. Boatler. Mr. and Mrs. Winston Gann and children, Elaine and Graig, of Abilene spent the weekend here with his mother, Mrs. M. A. Gann.
