Viet Cong Bases Raided

The SDN Column

Western Texas College's first crop of freshmen have the assurance that by the time they complete their two years at the local college it will be fully acredited by the Southern Association of Schools. WTC is now a "corresponding member," which is the first step toward becoming at full-fledged member of the accrediting organization. The steps have been charted to gain full membership at the earliest possible date.

Meanwhile, Dr. Robert Clinton, president of the local college, assured public school administratirs and counselors at a meeting here Thursday night, that students who wish to transfer credits from WTC before full accreditation is attained should have no problems. It will begin with full state accreditation and most other colleges and universities usually accept all academic credits earned at such institutions.

★ ★ ★

Public school administrators in the area apparently are keenly interested in new state regulations which will permit high schools to contract for pupils to take vocational courses at the junior college without affecting the average daily attendance of the home school.

This may be one of the most popular services to be offered by the local junior college.

There also will be college-level vocational courses, of course, and Dr. Clinton has assured that the vocational department of the college will be fully equal in rank to all other departments.

★ ★ ★

Reports are that the Texas High School Coaches Association was highly disappointed over the turnout at its all-star football game in Houston, barely above the 20,000 mark. If you can't get them to turn out for a game in the Astrodome, where do you go? The answer might be to one of the lesser cities, such as Abilene, Lubbock, etc., but the problem of accomodations for the coachesbecomes a problem when they look outside the bigger metropolitan areas. It requires literally thousands of hotel and motel rooms to house the coaches alone, and then there are the other interested people, such as the sporting goods distributors and manufacturers and even colleges. Most of the larger colleges and universities of the region send delegations and require their own facilities for displays, etc.

Today In History

By THE ASSOCIATED PRESS

Today is Sunday, Aug. 16, the 228th day of 1970. There are 137 days left in the year.

Today's highlight in history:

On this date in 1896, the Klondike gold rush was set off as gold was discovered on Bonanza Creek in Alaska.

On this date:

In 1777, American forces were victorious in the Revolutionary War battle of Bennington, Vt. Today is a legal holiday in the state.

In 1812, Gen. William Hull surrendered Detroit to the British and Indians without putting up a fight.

In 1861, the U. S. government prohibited trade with Southern states then seceding from the Union.

In 1914, in World War I, the British Expeditionary Force landed in France.

In 1956, a Democratic National Convention in Chicago picked Adlai E. Stevenson as the party's presidential candidate.

In 1960, the British colony of Cyprus was granted independence.

Also 10 years ago: The U. S. offered to close down gradually plants producing the atomic raw materials, uranium and plutonium, if the Soviets would do the same.

Five years ago: 50 persons were killed in an avalanche in the Andes Mountains in Argentina.

One year ago: A Greek airliner was hijacked to Albania.

★ ★ ★

THE WEATHER

SNYDER TEMPERATURE: High reading Friday; 96 degrees; low reading, 71 degrees; reading at 7 a.m. Saturday, 72 degrees; precipitation, trace.

Northwest Texas: Clear to partly cloudy in south tonight and Sunday, mostly cloudy, and showers and scattered thunderstorms in north. A few afternoon and evening thunderstorms in south. Low tonight 60 in northwest to 75 in southeast. High Sunday 82 in northwest to 96 in southeast.

North Central Texas: Clear to partly cloudy tonight and Sunday. Widely scattered thundershowers in west and north Sunday afternoon. Cooler in northwest Sunday, high 92 to 101. Low tonight 73 to 81.

Northeast Texas: Clear to partly cloudy and hot tonight and Sunday. Widely scattered afternoon and evening thundershowers in south. High Sunday 94 to 98. Low tonight 70 to 77.

South Central Texas: Partly cloudy and hot through Sunday with a few, mainly afternoon, showers and thundershowers. High Sunday 92 to 100. Low tonight 72 to 80.

Southeast Texas: Partly cloudy and hot through Sunday with a few afternoon showers or thundershowers mainly near coast. High Sunday 89 to 94. Low tonight 70 to 80.

Southwest Texas: Clear to partly cloudy and hot through Sunday with a few afternoon showers or thundershowers. High Sunday 95 to 102. Low tonight 65 to 75.

West of the Pecos: Clear to partly cloudy and hot through Sunday with a few afternoon and evening thundershowers, mainly over mountains. High Sunday 89 to 102. Low tonight 54 to 70.

Brownsville to Port O'Connor: Southeast winds 8 to 18 knots through Sunday.

Port O'Connor to Port Arthur: South to southeast winds 5 to 15 knots through Sunday.

NIXON GREETED BY PROTESTORS — President Richard Nixon waves from his car in the New Orleans French Quarter as he passes anti-war demonstrators waving a banner protesting the Vietnam war. Another sign waver at left calls for the execution of all war protestors. Nixon was in New Orleans to meet with groups from Southern states concerning school desegration. (AP Wirephoto)

By S-Viet Militiamen

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — Some 5,000 South Vietnamese militiamen, guided by Viet Cong defectors and intelligence that the enemy was planning an offensive next month, raided 80 Viet Cong base areas south of Da Nang and claimed one of their biggest victories of the Vietnam war.

The South Vietnamese claimed killing 125 Viet Cong in two days of lightning raids with no air or artillery support. Government losses were put at r killed and 11 wounded.

A high-ranking U.S. adviser said today the enemy dead included a lieutenant colonel, the military province chief of the region stretching from Da Nang 40 miles southward. Three other high Viet Cong officers were believed killed, including the chief political officer.

"I've never experienced anything like this as far as planning, coordination and spirit," said the senior American adviser, Lt. Col. M.G. Stafford of Eagle Pass, Tex.

Meanwhile, U.S. B52 bombers pounded North Vietnamese positions on both sides of the Laotian and Cambodian borders today in efforts to stem a threat to South Vietnamese forces.

The bombers dropped 750 tons of bombs on North Vietnamese base camps and supply and staging areas between besieged Firebase O'Reilly and the Laotian border. Additional waves of B52s hit rear North Vietnamese positions on the other side of the border.

The aim of the bomb strikes was to block North Vietnamese reinforcements and supplies destined for O'Reilly, an artillery base that sits on a jungle mountaintop between the Laotian border and South Vietnam's northern coast.

Associated Press correspondent Willis Johnson reported from Da Nang that heavily reinforced South Vietnamese ground forces continued fighting against what spokesmen called "heavy resistance" from North Vietnamese troops in fortified positions closer to the base.

South Vietnamese troops aided by U.S. fighter-bombers, tried repeatedly to dislodge the North Vietnamese Friday. But by nightfall, the South Vietnamese infantrymen had pulled back into defensive positions, and bombers and artillery continued their around-the-clock assault. No clear result was reported from the bombing raids, but ground forces reported five enemy killed in one area. South Vietnamese losses were said to be light.

North of O'Reilly, government forces claimed killing 58 enemy soldiers in the fourth day of fighting along the northern coastal strip called the "Street Without Joy." By allied count, this raised the enemy toll to 308 dead. South Vietnamese losses in the latest clash were put at four killed and 18 wounded.

Twenty-seven enemy were reported killed in three other scattered clashes, one of them just inside Cambodia.

United Fund Prepares For Drive

The Scurry County United Fund has elected officers and launched plans for its annual request for funds to support nine agencies.

New officers of the United Fund are Don Wooten, president; John Jarrell, vice president; Rex Robinson, treasurer; Lyle Deffebach, chairman of the budget and admissions committee; and Mrs. Joe Pitts, secretary and chairman of the publicity committee.

Others on the publicity committee are Mrs. C. B. Coleman, Mrs. William Nixon and Mrs. Derl Lovell. R. C. Patton is the campaign chairman for the 1970 drive.

The nine agencies requesting support through the Scurry County United Fund, and their representatives on the board, are: Scurry County Boys' Club, Jack McGlaun; Boy Scouts, H. W. Cargile; Girl Scouts, Mrs. Franklin Pruitt; Red Cross, Mrs. Sis Jones; Salvation Army, Dale Stuard; Texas Association of Mental Health, Don Wooten; Texas Rehabilitation Center; the USO, and Cerebral Palsy Association.

Serving on the United Fund board of directors are Rex Robinson, David Burkett, Ernest Sears, Roy Carter, Don Wooten, Bill Seale, Lyle Deffebach,, Mrs. Joe H. Pitts, Bill Gilliland, John Jarrell, Les Francis H. F. Clark. The United Fund has only one paid position, and it is part-time. It is the office manager's position, which is filled by Mrs. Marvin Dozier.

The goal for the 1970 campaign is $42,442.44. Anyone wishing to work in the campaign is urged to contact any of the officers, board members or committee chairmen.

Law Eased On Drug Offenders

FRANKFORT, Ky. (AP) — Marijuana offenders are getting a break under a new guideline issued by the Department of Mental Health.

A minimum 90-day rehabilitation sentence for first offenders replaces the previous sentence of up to one year in prison.

Gunfire Dims Middle East Peace Settlement

By THE ASSOCIATED PRESS

Hopes for quick progress toward a Middle East peace settlement dimmed today as gunfire crackled across the Jordanian border and Jordan accused Israel of trying to torpedo peace efforts by violating the cease-fire.

The Israeli command in Tel Aviv said one Israeli soldier was injured by light arms fire along the border. It did not say whether the fire came from Arab guerrillas or Jordanian army forces.

The Jordanians accused the Israelis Friday of two "flagrant" cease-fire violations, while Israeli officials indicated their government would not sit down to talk until Egypt pulls back the defensive antiaircraft missiles it reportedly has moved closer to the Suez Canal truce line.

Israeli jets struck at Jordanian army positions and guerrilla camps Friday. The Israeli command said the Jordanian army strongholds were attacked because they assist Palestinian guerrillas and make it possible "for them to act against Israeli civilians."

Jordan complained to the United Nations and the United States that the attack was the second within 24 hours and charged that Israel was making a deliberate attempt to sabotage peace efforts.

Jordanian U.N. Ambassador Muhammed El Farra met with U.N. peace envoy Gunnar Jarring and U.S. Ambassador Charles W. Yost and told then Israel was resorting to "sensationalism and fabrications in an attempt to mislead world public opinion and divert it from the Israeli defiances and acts of lawlessness."

The Middle East cease-fire plan—initiated by the United States and accepted by Israel, Egypt and Jordan—includes a ban on shooting for at least 90 days. It went into effect a week ago. In agreeing to the cease-fire, Jordan stipulated it could not be held responsible for attacks by guerrillas, who have vowed to intensify their efforts against Israel.

The Israeli attacks came a day after Jerusalem accused Egypt of violating the cease-fire's military standstill provision by moving missile emplacements to within 12 to 18 miles of the Suez Canal. The Egyptians have denied the charge.

The latest Israeli charge, filed Friday with the U.N. truce supervisor in Jerusalem, accused the Egyptians of emplacing an additional missile battery and resuming work on incomplete and empty missile sites.

Israeli officials expressed bitter disappointment in the United States, holding Washington responsible for seeing to it that the Egyptians honor the truce and pull their missiles back.

Deputy Premier Yigal Allon said over the army radio that American failure to get the missiles removed would undermine Washington's credibility in the Middle East. "I hope that a power of her stature knows how to honor commitments," Allon said.

A dove in the cabinet of Israeli Premier Golda Meir, Tourism Minister Moshe Kol, said the missile controversy has caused a breakdown of Israel's confidence in the United States. "One can doubt the effectiveness of starting talks before the mutual confidence has returned," he said.

Kol said Israel accepted the American plan on the basis of a "clear commitment from the U.S. government in respect to maintaining the balance of arms and keeping the cease-fire and standstill." Defense Minister Moshe Dayan and other Israeli officials have also said they hold the United States responsible.

Registration For Grade Schoolers

Registration for all children who will attend Snyder elementary schools this school year will be held Wednesday, Aug. 19.

The registration hours are 8:30 a.m. to 12 noon and 1 p.m. to 4 p.m. Registration will be conducted at each of the six elementary schools. Parents are urged to determine the attendance area in which they reside so that children will be registered in the proper schools. Clarification of the elementary school boundary lines may be obtained from any elementary school in the system.

It is necessary that a parent or legal guardian accompany each child at registration, since the various elementary schools must have signatures of parents authorizing emergency care for the child.

Lunch tickets will be sold on the registration day. A ticket for one month (20 meals) sells for $8, while a ticket for one week (five meals) sells for $2. An activity fee of $2 per child will be collected on registration day. This fee helps defray some of the costs of work books, art supplies and other consumable materials.

Parents of children enrolling in a Snyder school for the first time are requested to bring with them the immunization and health records of such children. Also, if any child is entering the first grade, the school officials must see and record his birthdate from an official copy of the child's birth certificate.

If a child is not available for registration on Aug. 18, a parent can complete the registration without him, providing all necessary information is presented by the parent or guardian.

Orientation For Sophs

An orientation session for all sophomores of Snyder High School for the coming school term will be held in the high school auditorium at 10 a.m. Thursday, Aug. 20. Students who attended a Snyder school and those who will be new in the system this year are being urged to be present. Information will be shared and an opportunity for questions to be answered at this meeting.

Immediately following the general session, the sophomore students who will be in the local school system but have not registered will meet with the counselors and register.

Registration for junior and senior students who were not in the local high school last spring will be held at 1 p.m. The counselors will be present to help plan a schedule for each student's individual needs.

107 Wells Completed

AUSTIN (AP) — The Texas Railroad Commission reported Saturday that 73 oil wells and 34 gas wells were completed during the past week in Texas.

That raised the total oil well completions for the year to 3,193, compared with 3,176 a year ago, and gas well completions to 1,211 compared with 1,545 at this time in 1969.

Depression Degenerates

MIAMI (AP) — A squally tropical depression which threatened for a time to grow into a hurricane degenerated today and remained dangerous only to small craft in the Bahama Islands and along the Florida East Coast.

But after 36 hours of lashing the Atlantic with winds up to 60 miles an hour, the depression had built up tall seas north of the Bahamas, including the area off Cape Kennedy where the Army plans to dump deadly nerve gas rockets.

The aged Liberty ship loaded with the rockets remained in port at Sunny Point, N.C., its departure postponed because of the rough seas.

Nixon Assures South's Leaders

WASHINGTON (AP) — President Nixon, assuring Southern leaders of an even-handed policy on school desegregation, says he has no intention of waiting for trouble before enforcing the law.

After meeting in New Orleans Friday with federally sponsored citizens committees on desegregation from seven states, Nixon said:

"I believe that leadership in an instance like this requires some preventive action. We are trying to take some preventive action and we are getting magnificent cooperation from dedicated people in seven states involved."

The President was greeted warmly on a motorcafe through downtown New Orleans. He offered no new policy in his statements about school desegregation, but it was considered significant the comments were made to an audience in the Deep South.

"I emphasize this is one people, and we are going to carry out the law that way, not in a punitive way, treating the South as basically a second-class part of the nation," Nixon told newsmen in relating details of the meeting with Southern leaders.

But, he added, his administration will exercise strong leadership on desegregation "because we believe in order and justice and believe in enforcing the law."

Resistance to integration, the President declared, will hurt most the next generation of Southerners. "They will pay the price, the price for failure of leadership," he declared.

He urged members of the local advisory committees to use their leadership to prevent possible disruption and unrest accompanying the breakdown of separate school systems.

The President met first with the newly formed citizens' panel from Louisiana. He conferred later with the chairmen and vice chairmen of units from Alabama, Georgia, Mississippi, South Carolina, North Carolina and Arkansas.

Bekore the two-hour conference on desegregation, Nixon held a briefing on national security problems for Southern newspaper editors.

In the news conference, he urged cooperation of news media in telling of peaceful examples of desegregation in the South this fall.

Good Adverse Neutral

Punishment 'love' motive here

By Abigail Van Buren

(© 1970 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: What's wrong with me? I'm in love with a guy who treats me like dirt. The worse he treats me, the more I love him. I've walked away from him a hundred times, vowing never to see him again, but I always call him up and ask him to forgive me for blowing my stack, when he's the one who should apologize to me.

I'm a good looking girl with a good figure, and could have lots of men who would treat me a lot better, but I always go back to this guy who gives me nothing but heartaches. I am 26 and he is 29 and this has been going on for nearly 3 years. How can I kill a love that is killing me?

CARMEN

DEAR CARMEN: What you call "love" is a physical attraction, passion and a compulsion to punish yourself—all tightly bound together. Unless you want a life of misery, walk out for good next time he has it coming. And pray for the strength to never again "love" a man you cannot like.

DEAR ABBY: What does a wife do about a husband who never writes to his mother? She is an ailing widow, and if I didn't write to her, she'd never hear from him. This goes for acknowledging her Christmas gifts, birthday gifts, etc. Naturally, I'm the one who buys and sends all our gifts to her. This has gone on ever since we were married—20 years ago!

I honestly didn't give it too much thought until recently when I realized from her letters how hurt she'd been.

We live a long distance from her. Over the years I've begged him to write a personal note to his mother, but he's always had a dozen excuses and my pleas have been ignored. My husband says it's a wife's "duty" to take care of the letters and gifts. What do you say? HIS WIFE

DEAR WIFE: Attention to Mother—tho the results of prodding affords as much pleasure as the sincere and spontaneous kind—if the prodding doesn't show, that is. It's sad when a wife must beg her husband to show his mother a little consideration, but if that's the only way to accomplish it, better that way than not at all.

DEAR ABBY: Our church attendance is made miserable by selfish slobs who bring crying and talking babies to church services. Abby, there is a nursery for little ones right in the church, so there is no excuse for this sort of thing. The sermon cannot be heard at times, and even when it can, the outbursts are distracting. Our minister seems impervious, but we are annoyed. How do you feel about this, and what do you suggest? AUBURN, N. Y.

DEAR AUBURN: Short of telling the offending "selfish slobs" directly, there is nothing you can do. I suppose some parents bring their little ones to services "praying" they'll behave, but I do believe if a child makes even one annoying sound, he should be removed from the audience for the duration of the service.

CONFIDENTIAL TO "EMBARRASSED" IN TULSA: Don't be. Don't go into debt for a showier wedding than you can afford. It's usually the girls who marry the little drips who insist on the biggest splash.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Letter writing can be a breeze. For Abby's booklet, "How to Write Letters for All Occasions," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

Barnes Gets LBJ's Support

By GARTH JONES
Associated Press Writer

AUSTIN (AP) — Lt.Gov. Ben Barnes, generally viewed as a likely candidate for governor or U.S. senator in 1972, "has what it takes to go as far as his vision will carry him," says former President Lyndon Johnson.

Supporters of Barnes heard this ringing endorsement Friday night at a $100-a-plate dinner held in Austin's municipal auditorium.

Mentioning that Barnes now is 32 years old, Johnson likened the lieutenant governor's decade in elective offices to the public careers at such periods of Thomas Jefferson, Andrew Jackson, Theodore Roosevelt, Franklin D. Roosevelt and John F. Kennedy.

"Each of these," said Johnson, "wound up leading this country ... You and I know that Ben Barnes is going to be a leader too."

Addressing himself to Barnes, the former president said, "Where you lead us, we will follow. We have enlisted for the duration."

Barnes, in a brief talk after a 20-minute speech by Johnson, said he presently seeks only another term as lieutenant governor but he would be willing to follow the dictates of backers in the future.

Then only 22, Barnes was elected a state representative in his first race in 1960. He staged a quick and successful campaign for speaker of the House in 1965 and made his first race for lieutenant governor in 1968, winning handily.

Although mentioned as a possible contender for governor this year, Barnes left Gov. Preston Smith unopposed in the Democratic primary. He was renominated for lieutenant governor and opposes Republican candidate Byron Fullerton, a former associate dean in the University of Texas law school, in the Nov. 3 general election.

Johnson said the appreciation dinner was "a remarkable tribute to a man who was born in the (West Central Texas) peanut country—paying $100 a plate in the midst of this Republican economy is not peanuts."

The former president concluded, "When I left office, I knew that we had only begun to face up to the problems ahead of us ... Ben Barnes, you and these energetic young people with you, you are the kind who will have to wrestle with these programs now ...

"Ben, I believe you are ready to face up to these problems. I believe you have the capacity and your associates will furnish the kind of support that will get results. Our job is to fight with you and for you ...."

Former Govs. John Connally and Allan Shivers and astronaut Alan L. Bean were among those at the dinner.

The porpoises present eleven shows each day in a specially-built saltwater pool.

Corn Leaf Blight Spreading Across US

ATHENS, Ga. (AP) — An epidemic of southern leaf blight, a fungus disease which attacks corn, is spreading across the United States and could destroy 50 per cent or more of the 1970 corn crop, a group of scientists and seed producers says.

The group, meeting at the University of Georgia, said in a series of reports Friday it had confirmed that the disease had hit the nation's corn belt and reached the epidemic stage as far north as Des Moines, Iowa, and Terre Haute, Ind.

They also said it may have spread into Canada.

Agriculture Department spokesmen in Washington said the disease had been found in at least 60 Illinois counties and as far north as Wisconsin. They said reliable estimates of damage in most areas were difficult to obtain but that field reports said corn production had been cut by 50 per cent in Mississippi and also reduced in other Southern areas.

Plant pathologists at Iowa State University said the blight had been spotted on one to two per cent of the plants in eastern and central Iowa.

A spokesman for the group in Athens, including 125 agriculturalists from 10 corn-growing states, said the seriousness of the disease cannot be fully determined until after the fall harvest. However, he said that some members "are predicting that as much as 50 per cent or more of this year's anticipated yield could be lost."

The Department of Agriculture is estimating this year's corn crop at 4.6 billion bushels.

At current prices, the officialy said, such a loss could cost the nation's farmers more than $2.5 billion in income.

One of the agriculturalists said this would send corn prices skyrocketing, increasing costs for producers of poultry and livestock, because corn is a primary feed for both.

The officials said their estimates were based on what already has occurred in six Southern states.

"We don't know that it will hit the Midwest as hard as it has here," said one Southern scientist who asked that he not be quoted by name. "We're hoping and praying that it doesn't, but it's going to be a touch-and-go situation at best."

The officials—federal and state scientists, corn breeders and seed growers—met to share research data in a battle to cope with the disease.

In Washington, Dr. Harlan Smith, a U.S. Extension Service plant pathologist, said there is no effective treatment once the disease has started in corn plants. The remedy, he said, is in producing new, disease-resistant seeds.

He said southern leaf blight has existed for many years but hybrid corn had been developed to resist it. Now a new, more virulent form has emerged to attack these hybrids, Smith said.

No one is sure where the new fungus variety originated, Smith said, but it was reported earlier in the Philippines. Last year it attacked Florida sweet corn severely and has spread rapidly.

Weather Delays 'Gas' Disposal

By HOWARD BENEDICT
Associated Press Writer

SUNNY POINT, N.C. (AP) — An aged Liberty ship loaded with poisonous nerve gas remained in port today, its trip to an ocean burial ground delayed by the swirling winds of a tropical depression.

The Navy had planned today to begin towing the hulk to a point in the Atlantic Ocean where it was to have been sunk on Monday. But Friday night, officials postponed the departure at least 24 hours because of the threat posed by the storm bearing down on the Bahamas.

If the operation is not held up by a U.S. Court of Appeals hearing Monday, the ship is to be sunk with its 418 vaults of obsolete Army nerve gas northwest of the Bahamas, 283 miles east of Cape Kennedy, Fla.

A Navy spokesman reported Friday night the storm was located just south of the Bahamas chain and "its projected course will put it in the disposal area at a time that could affect the scuttling."

He called it a big storm that could be damaging. At the time, winds were 40-45 miles per hour, gusting to 63 mph.

There is a good possibility of additional delay. Navy Capt. A. G. Hamilton, in charge of the sea phase of the operation, said he will not start towing the Liberty ship and its lethal cargo to sea until he has a forecast of 96 hours of good weather.

He said once the tugs get under way, it will take about 40 hours to reach the disposal zone, an area in the Atlantic where for years the Army has dumped obsolete munitions—but not gas.

Some gas could escape soon after the sinking, but Army chemical specialists say the gas would be neutralized within 10 hours by mixing with sea water.

Each coffin contains 30 rockets, a total of 12,540, of GB nerve gas, capable of killing a person within two minutes.

Principal opponents of the dumping have been Florida Gov. Claude Kirk and the Environmental Defense Fund, a nonprofit group of scientists and citizens.

They filed suit in U.S. District Court in Washington, D.C., seeking to halt the dumping. They claimed disposing of the GB gas in more shallow waters would be safer because of less pressure.

Campus Is 'Open' To Seniors

Snyder High School will have an "open campus" policy for its senior students the coming year.

This means that seniors may stay at home or leave the school campus at their own discretion when not in scheduled classes, advisory periods or assemblies.

However, a minimum of four academic subjects are required and the seniors must be certain that they have enough credits for graduation and college entrance requirements. Also, all are encouraged to take additional courses for enrichment when possible.

Those remaining on campus during non-scheduled periods may use the library or go to the cafeteria for study or snacks.

Other rules which must be observed in commention with the "open campus" policy: stay out of halls unless using the center stairway to go to or come from the library; stay away from all other school campuses in town; remain away from the downtown business district during school hours; comply with rules on parking, smoking, etc.

School officials said they believed that the open campus policy would provide the seniors with a valuable opportunity to practice self-discipline and assume responsibility.

Cyclist Hurt In Traffic Mishap

One person was injured in an automobile-bicycle accident Thursday at 6:53 p.m. at the intersection of Forty-second and Ave. V.

Jon Goodwin was taken to Cogdell hospital by Snyder Ambulance service after the bicycle he was riding was struck by a 1965 Oldsmobile driven by Delbert Roy Johnson of 2309 Forty-second.

Damage to the bicycle was estimated at $15.

No-Knock Bill Is Approved

WASHINGTON (AP) — A narcotics control bill allowing police under some conditions to break into homes without warning has been approved by the House Commerce Committee.

The idea of the no-knock provision is to prevent destruction of evidence.

The bill lowers penalties for drug possession, provides for rehabilitation of addicts and drug research, and generally parallels proposals made by the Nixon administration. It would cost about $400 million.

The measure applies to barbiturates, amphetamines, tranquilizers, marijuana and the hallucinogens, such as LSD. It also seeks to control imports and exports of hard narcotics.

High Cost Hits Servicemen

LONDON (AP) — Britain spends $14,186 a year to maintain each of its 385,000 servicemen, compared with $11,400 for each of 453,000 men four years ago, according to the Defense Ministry. It says the per-man increase is the result of pay raises and purchases of sophisticated equipment.

Rev. Fletcher To Conduct Service

The Rev. Custis Fletcher, former vicar of St. John's Episcopal Church, now of Madisonville, Ky., celebrated Holy Communion at the 9:15 a.m. service at St. John's today.

Rev. Fletcher moved from Snyder to Madisonville seven years ago, and is here on a visit in the home of his son and family, the Tommy Fletchers.

Rev. Fletcher will conduct the service at St. John's in the absence of the Rev. Charle Bowyer, the present vicar, who is on vacation.

Lost Tot Found In Tub

CROYDON, England (AP) — More than 50 police spent five hours searching Croydon when 4-year-old Lisabeth Bastrod from Norway disappeared. She was found enjoying a soak in the bathtub in another guest's room in the hotel where she was staying.

VFW Session Set Monday

The Veterans of Foreign Wars, Post 8231, and its Ladies Auxiliary will meet at 8 o'clock Monday night at the post home.

District 8 Commander A. D. Payne and District 8 Auxiliary President Cel Payne of Abilene will be present for official inspections.

The Ladies Auxiliary will have a special election to fill the post of junior vice president. All members are urged to attend.

MRS. LARRY WELDON WIGGINS

Everett-Wiggins Vows Are Pledged Aug. 9

Miss Dorothy Dee Everett and Larry Welden Wiggins were married Sunday, Aug. 9 at four p.m. in Saint Luke's Episcopal Church in Stephenville, by the Rev. Martin LeBrecht.

Parents of the couple are Mr. and Mrs. George Dudley Everett, Jr. of Stephenville and Mr. and Mrs. Welden Paten Wiggins of Snyder.

Given in marriage by her father, the bride wore a floor length gown and chapel train of satin peau overlaid with re-embroidered chantilly lace. The empire style had a high neckline with long, scalloped sleeves. Crystal sequins, rocailles and seed pearls outlined the designs of the lace. Her waltz-length veil of imported English silk illusion was attached to a crystal, pearl and lace petals. Her only jewelry was a single strand of pearls. Her bouquet was a cascade of white orchids and stephanotis atop a white lace and ivory Bible.

Miss Mary Jo Chandler of Stephenville was the bride's only attendant. Her gown was a yellow taffeta of the Empire Style. Her headdress was a matching bow. She carried a white nosegay of carnations circled with lace.

Edwin Gail Murphy of Abilene was the best man. George Dudley Everett, III of Stephenville, brother of the bride, and Dale Edgar Wiggins of Snyder, brother of the groom, were the ushers. Alcolytes were J. Frederic Everett, Jr. and Victor Lee Everett of Bay City, cousins of the bride. Larry McMahan rang the wedding bells.

Organist was Dudley Duncan McMahan, cousin of the bride and the soloist was Dr. Aarons Grant.

The reception was held in Caterbury House following the ceremony.

Greeting the guests was Mrs. Fred McCleskey. In the receiving line were Mr. and Mrs. G. D. Everett, Jr., parents of the bride, the bride and groom, Mr. and Mrs. W. P. Wiggins of Snyder, parents of the groom, Miss Mary Jo Chandler of Stephenville and Edwin Murphy of Abilene, the couple's honor attendants.

The bridal table was covered with a white satin and lace cloth centered with yellow and white flower arrangement. The silver punch bowl was at one end of the table and the four-tiered wedding cake topped with the miniature bride and groom and their sacrament of marriage cross was at the other. Silver and crystal appointments were used. Assisting at the table were Miss Kay Pilcher of Dallas, Mrs. Jerry Turnbow of San Antonio, Miss Elizabeth McMahan of Stephenville, all cousins of the bride, and Mrs. Gene House of Stephenville, sister of the groom.

Miss Doris Wiggins of Snyder, sister of the groom, and Miss Alice Anne Everett of Bay City, cousin of the bride, passed rice bags to the guests.

Others in the houseparty were: Misses Karen Fitzgerald, Deana Koonsman, Connie Morton, Vickie Bills, Johnnye Engler, and Mrs. Royce Carpenter, L. D. Piper, Charles Jones and Elizabeth McMahan of Stephenville and Mrs. J. F. Everett of Bay City. The latter two are aunts of the bride.

Mrs. Lawrence Keyser was at the bride's book and Mrs. J. D. Pilcher bid good-bye to the guests.

After a short honeymoon, the couple will live in Amarillo. Mrs. Wiggins will be a student at Amarillo College and Mr. Wiggins will teach in Palo Duro High School there.

For her wedding trip the bride wore a mauve silk coat dress with bone accessories. Her corsage was of orchids.

Mr. and Mrs. W. P. Wiggins of Snyder and Mr. and Mrs. Gene House of Stephenville entertained with a rehearsal dinner at the Twentieth Century Club Room in Stephenville on Saturday Aug. 8.

When you are freshening salt mackerel by soaking it, change the water a couple of times during the soaking period.

Tribes And Wars In 5th Century Britain

THE CRYSTAL CAVE. By Mary Stewart. Morrow. $7.95.

In this whopping, 507-page novel, Miss Stewart turns to Britain of the 5th century to construct a tale from the fragments of legend that have been handed down from that period.

It was a time of tribal strife among Britons, Welsh, Saxons and many others, with each tribe having its king who must make war on the other tribes for the sake of survival. And there were Druids and followers of Mithra scattered all around.

The central figure and narrator is Merlin. Most of us have a vague recollection that Merlin was some sort of magician in King Arthur's court, but the Merlin of this story is a younger figure, and the novel ends before Arthur is born.

Merlin is the illegitimate son of one of the tribal kings. He learns the mysteries of conjuring from an old hermit in a cave, studies engineering with an old master of the trade, picks up the lore of the medicine men and has the gift of prophecy—a psychic, as he would be called in modern times.

With these many talents he becomes a court follower of Ambrosius, who turns out to be Merlin's father, and Ambrosius temporarily unites the British tribes by means of the sword.

There is a lot of huffing and puffing about sword-play, horsemanship, signs from on high and melodramatic torchlight intrigue.

Miss Stewart is a successful novelist who should have made this historical tale more interesting than it is. Other writers have been more convincing, with less tedium. This is the sort of novel that wears out the reader.

Hair-Dressers Wear Overalls

SANDTON, South Africa (AP) — A bylaw requiring women's hair-dressers to wear overalls at work is being enforced by local health inspectors. Hair stylist Ronnie Dreger, who came here from London last year said: "It's the most ridiculous thing I've ever heard of. Never once in the 16 years I ran a salon in London was I required to wear an overall."

The national secretary of the South African Hairdressers' Employes Industrial Union, J. Daniel, supported the council and said: "Hairdressers who do not wear pocketless overalls tend to put combs and scissors in their pockets instead of in sterilizers."

GRADUATION CEREMONY — The D. M. Cogdell Memorial Hospital School of Vocational Nursing will have their graduation ceremony Friday, August 21 at 7:30 p.m. at the First United Methodist Church. A reception will follow the ceremony. The public is cordially invited. Pictured on the bottom row from left are: Rose Minor, Glenda Wallace, Jeanette Hodges, Mae Hancock, and Yvette Sickler. Pictured standing from left are: Glenda Thomas, Monia Alexander, Bertha Deere, Janie Fortner and Betty LaFlower, R. N., Director of Vocational Nursing. (Photo By Raun)

MR. AND MRS. JAMES WAYNE HEADSTREAM

(Craft Photo)

Ward-Headstream Vows Exchanged July 31

Donna Lynn Ward and James Wayne Headstream were married July 31 in the Colonial Hill Baptist Church. Rev. Glenn Ward, brother of the bride, of the Cherry Heights Baptist Church officiated in the double ring ceremony.

Parents of the couple are Mr. and Mrs. J. P. Ward and Mr. and Mrs. J. W. Headstream, of Snyder.

Given in marriage by her father, the bride wore a gown of angel-skin peau and lace with empire A-line silhouette. Bodice and bishop sleeves were of lace. Skirt and chapel train were accented with lace and beading. The wrist length veil was accented with chiffon bow. She wore white satin shoes and for the traditional something old, new and blue, the bride wore a blue garter, an heirloom necklace belonging to the grooms family and coins minted in the year of their birthdates in her shoes. The cathedral bouquet of phalaenopsis orchid stephanotis topped a white lace covered Bible.

Mary Corenlius, cousin of the bride, of Tempe, Arizona was matron of honor. Her costume was a deep orchid nylon lace dress accented with orchid satin bow at empire waistline and had bishop sleeves.

Candlelighters were Ann Williams, cousin of the groom and Melissa Ward, cousin of the bride. Teressa Strickland served as flower girl. She carried a white lace basket with orchid petals and wore an orchid and white carnation wristlet. Their costumes were of light orchid dotted swiss fashioned like that of the matron of honor.

Mrs. Don Kelly of Dallas was the bridesmaid and junior bridesmaid was Vickie Ward of Snyder. They wore dresses made like that of the flower girl. Jay Bryan Ward of Anson was ring bearer. He wore a white dinner jacket with black pants and black bow tie. The rings were carried on a heart shaped pillow.

Chris Headstream, brother of the groom served as best man. Danny Lunsford and Neil Fernstron were groomsmen. The ushers were Benny Ward and Ronald Ward, brothers of the bride.

The church was decorated with baskets of gladiolas with greenery and candles. Mike Springer was organist. Carolyn Ward, sister-in-law of the bride, was soloist.

The reception was held in the fellowship hall of Colonial Hill Baptist Church. The brides' table was decorated with white carnations and the nosegays of the attendants. The four tiered wedding cake was served by Mrs. Evelyn Duff, Mrs. Donald Ward and Mrs. Bill Wayne Williams presided over the brides' table. The grooms' chocolate cake was served by Mrs. Charlene Erwin. Mrs. Jimmy Swain also served at the grooms' table.

For the wedding trip to Old Mexico the bride chose a long sleeved A-line dress of sheer orchid embroidery on white. After the one week trip the couple plan to make their home at 1541 North Third in Abilene.

The bride attended Snyder High School and is a 1970 graduate of H-SU. She is a member of Beta Gamma Epsilon Social Club. The groom is a Snyder High School graduate and a senior at H-SU in Abilene. He is the assistant manager of McDonald's of Abilene.

Out-of-town guests for the wedding were from Tempe, Ariz., Anson, Amarillo, San Angelo and Seaford, Delaware.

Mrs. Lizzie Webb is visiting with Mrs. Nettie Webb in Ira this week and attending the revival.

Mr. and Mrs. Jimmy Boyd and children of Mineral Wells, spent Sunday night with her mother, Mrs. Delia McPherson.

Kyle Ramsey of Lubbock is spending the week with his grandparents, Mr. and Mrs. Jack Ramsey.

Novel Goes Deep Into Young Mind

MY SWEET-ORANGE TREE, By Jose Mauro de Vasconcelos. Knopf. $4.95.

A book about a precious little boy who lives with his poverty-stricken family in a suburb of Rio de Janeiro, this unusual novel has been a best seller in Brazil.

Zeze de Vasconcelos is the boy's name. He is only 5 years old, but claims to be 6 so he can enter school. Sometimes he wanders the streets with his little shoeshine box, hoping to earn a little money.

He has a small sweet-orange tree in his yard; he talks to the tree and the tree talks to him. Now that sounds pretty fey, but somehow the author makes it sound convincing—it's simply that Zeze has a very vivid imagination.

He is a very mischievous boy and can't stay out of trouble. So he is always getting a beating. But sometimes he keeps out of trouble by taking care of his little brother, a toddler named Luis. By chance Zeze gets acquainted with an elderly Portuguese, and for once in his life has a friend to talk to him and counsel him.

The novel is a penetrating study, full of poignant incidents and a remarkable comprehension of the very young mind.

Miles A. Smith

The Tale Of Semi-Square With Hippies

FALLING UP. By Miles Donis. McKay. $5.95.

There is this 31-year-old semi-square named Peter Becky, who has a mental block about being too old to swing with the hippies and bead-wearers.

Peter has been making his bread on the fringers of the film industry, but he has a thing about the 9-to-5 discipline of the establishment. So he quits his job as a press agent for a minor film distributor, collects his unemployment checks and tries to live it up in a "new freedom" from responsibility.

This novel relates a day in the life of Peter, who goes bicycling around Manhattan, visiting his erstwhile friends and colleagues, who include a lustful suburbanite, a small time producer of blue films, a former college teacher who is far gone on drugs and sex, and a woman who has resisted his efforts to make her a mistress, mainly because she has fallen under the spell of a mouthy but commercially successful creator of 60-second television advertisements. Wry humor.

Peter, a potsmoker at times, is somewhat shaken up when he accidentally finds himself in a confrontation with a young girl who offers him a half dozen ways of making a hard-drug trip.

The story has its ironic finish. For Peter is becomes a bit nauseated at the drugs-sex-copout-alineation syndrome and decides to join the human race again.

The novel is not amateurish. But it has slight appeal, unless the reader has a morbid interest in slum humor and the vagaries of what used to be called the hippie style.

ENGAGEMENT ANNOUNCED — Mr. and Mrs. L. V. Rasco have announced the engagement of their daughter, Susie, to Douglas White, son of Mr. and Mrs. R. D. White of Ira. The wedding date is set for Oct. 24.

By ANDY LANG
AP Newsfeatures

Pre-mixed cement products requiring only the addition of water have made it a lot easier to do small repair jobs around the house.

Where once it was possible to patch sidewalks and similar surfaces only with a mixture you made yourself, you can now buy a bag of exactly what you need, add water and go to work. These pre-mixes are priced reasonably for small or moderate-sized projects, but might be too expensive for large jobs because of the quantity that would be required. In that event, you are better off buying the ingredients and doing the mixing yourself or, in the case of major undertakings such as a complete driveway, having ready-mixed concrete delivered to the premises.

A common mistake is to select a bag of pre-mix, pay for it, load it into your car and drive home, often without knowing that there are special kinds of pre-mixes for special purposes.

When you have to make patches in a sidewalk or walls where the thickness is only an inch or two, you should purchase a sand mix. This contains only sand and cement. When extra strength is required on surfaces more than two inches thick, buy and use a concrete or gravel mix. This consists of sand, cement and gravel. And when you want to patch the joints between bricks, concrete blocks and the like. Use a mortar mix. This is composed of sand, cement and lime.

There are a few other mixes carried only by well-stocked dealers, but the chances are you'll never have any use for them. If you think you might, see what your local store carries and explain your problem to the dealer before you make a purchase.

Even though the materials in the product you buy are pre-mixed, they should be well worked into the water, since there often is a tendency for the ingredients to separate a bit in transportation. Also, it is very important that you carefully follow the directions on how much water should be blended with the pre-mix. Too much and you will get a weak mixture. Too little and the material will not be easily workable.

As with any such mixture, the resulting patch should be cured after it has been applied. Curing consists of wetting down the patch a couple of times a day for several days or covering the area with a wet piece of burlap or similar material for a few days. This curing, intended to prevent the patch from drying out too quickly, is especially important in hot weather and when the repair is exposed to the sun.

(For Andy Lang's helpful booklet, "Here's The Answer," with replies to 35 household questions, send 25 cents and a long, stamped, self-addressed envelope to Know-How, P.O. Box 477, Huntington, N.Y. 11743.)

Flower Talk

By HERSHEL HINSHAW

DID YOU EVER TASTE A FLOWER?

Did you ever eat a clove? It is simply the flower bud from a tropical tree. The seed from the flowers of anise, dill, coriander, cumin and lovage are used to flavor foods.

In some parts of the world flowering daisies and lillies are eaten. Violets are made into salads and wine is made from dandelions.

We feel they are to be seen, admired and enjoyed. Your order for flowers when placed with us, is given special attention. We love flowers, and it shows up in our efforts.

MRS. LELAND SMITH HEROD JR.

(Craft Photo).

Miss Faver, Mr. Herod Exchange Vows Here

Barbara Lynne Faver became the bride of Leland Smith Herod Jr. during candlelight services at the Colonial Hill Baptist Church in Snyder on Thursday, August 13, at 8 in the evening. Rev. Miller Robinson, pastor of the church, performed the double-ring ceremony.

Given in marriage by her father, the bride wore a floor length gown of white silk organza trimmed with chantilly lace. Elizabethian styled sleeves and high neckline were delicately accented with the imported lace. Mantilla veil was of chantilly. The bridal bouguet consisted of yellow sweetheart roses and daisies, with stephanotis and gypshopilia.

Mrs. Bob Carlisle of Fort Worth served as Matron of Honor. Miss Nita Renfro of Pawhuska, Oklahoma, served as bridesmaid. They wore matching floor length gowns of yellow silk organza over peau de soie. They featured long sleeves, with organdy ruffles trimming both the sleeves and high neckline. They wore wide-brimmed hats of silk organdy. Their bouquets were nosegays of white daisies and yellow roses.

Leland Herod, Sr., father of the groom, served as best man, while Richard Hall of Snyder served as groomsman. Ushers for the evening were: Steve Holder and Richy Thompson, both of Snyder, Mitchell Rambin and Joe Greer, both of Lubbock, and Tommy Faver, brother of the bride, of Paso Robles, Calif.

The church was decorated with candelabras of white burning tapers adorning the choir loft, with an arch candelabra centered in the middle of two trees of the burning tapers. Swirled stems were used on either side of the choir with English ivy entwining around each candelabra.

Ralph Wesson, organist, presented the wedding music and accompanied Miss Mina Emerson who sang "The Wedding Paryer" and "Eternal Life."

The reception was held in the reception hall at Colonial Hill Baptist Church. The bride's table consisted of a cerpiece of yellow roses and white daisies amidst silver candelabras honding six white burning tapers. The cake was three-tiered and topped with a pair of white dove and miniature bells clustered with white pearl beads. Serving at the table were Miss Emily Kincaid, and Mrs. Ronnie Odom of Snyder.

Mrs. Jerry Wyatt of Lubbock and Mrs. John Greene of Snyder served at the groom's table.

Miss Elaine Spradling of Fort Worth registered guests.

For her wedding trip, the bride chose an aqua linen dress with white accessories. Her corsage was a white orchid.

The mother of the bride wore a shell pink silk chantung dress with embroidered lace and pearl beading. She wore matching accessories.

The groom's mother wore an aqua dress of chantilly lace over satin and matching accessories. Both wore corsages of white orchids.

After a week's stay in Acapulco, Mexico, the couple will be at home at 3501 Bellaire North in Fort Worth.

A 1968 graduate of Snyder High School, the bride attended North Texas State University her freshman year. She will attend Texas Christian University in the fall.

The groom is also a graduate of Snyder High School and will be a sophomore at TCU.

Out of town guests were from Lubbock, Fort Worth, Pecos, Abilene, Sweetwater, Temple, Odessa, Roswell, N. M., Oklahoma, and California.

Mr. and Mrs. Leland Herod, Sr., hosted the rehearsal dinner at the Martha Ann Woman's Club.

The bridal luncheon was hosted by Mrs. Scott Casey, Mrs. Clyde Hall, and Mrs. Lee Smyth, in the home of Mr. and Mrs. Lee Smyth.

Supper Picnic

By CECILY BROWNSTONE
AP Food Editor
PICNIC SUPPER

This cake carries well and stays moist.

SOUR CREAM DATE CAKE

2 cups sifted flour
½ teaspoon baking powder
1 teaspoon baking soda
½ teaspoon salt
½ cup finely chopped walnuts
½ cup (1 quarter-pound stick) butter
1½ cups sugar
Grated rind of 1 medium orange (1 tablespoon)
2 large eggs
1 container (8 ounces) commercial sour cream
Topping, see below

Grease and flour a 9-inch angelfood cake pan with a removable bottom. On wax paper sift together the flour, baking powder, baking soda and salt; add dates and walnuts, separating date pieces. In large mixing bowl cream butter, sugar and grated rind; thoroughly beat in eggs, one at a time. Stir in flour mixture, alternately with sour cream, in 4 additions just until batter is smooth each time. Turn into prepared pan. Bake in a preheated 350-degree oven until a cake tester inserted in center comes out clean—about 1 hour and 15 minutes. Slowly spoon Topping over cake, letting cake absorb it before adding next amount. Let cake stand on wire rack for 5 minutes; with a small spatula loosen tube and edges; turn out on rack; with another rack, turn right side up. Cool completely. Wrap in transparent plastic wrap and store in tightly covered tin box.

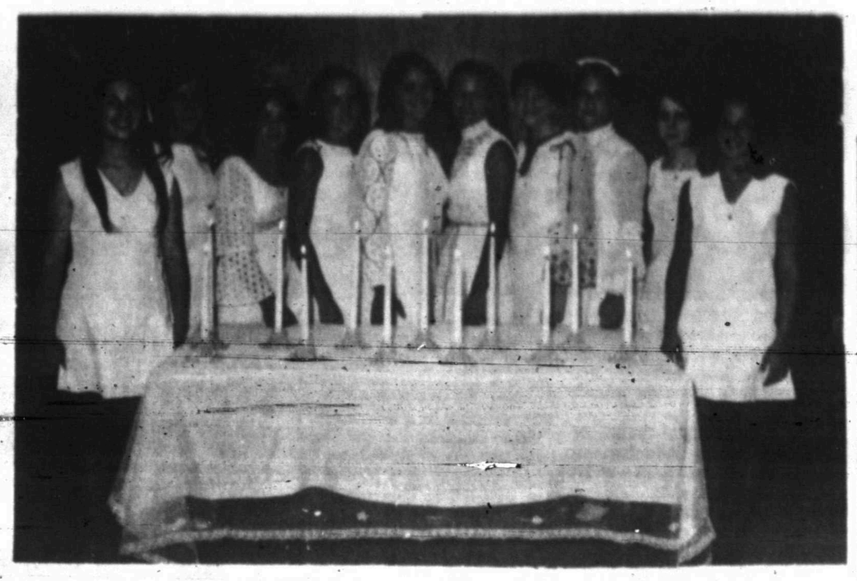

TOPPING: Stir together the strained juice of 1 medium orange (¼ to 1-3rd cup) and ¼ cup sugar until sugar dissolves.

Women's Comments

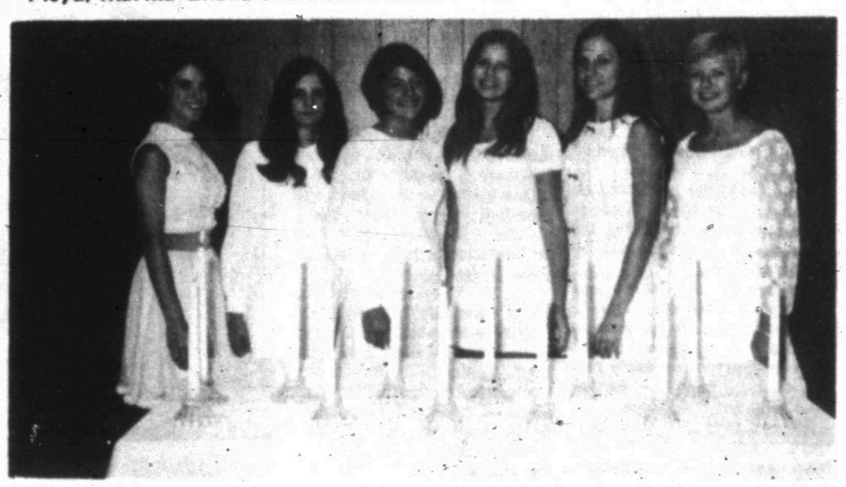

"It's a square job, but beautiful. After all, how often do you get a chance to be nice all the time? To express appreciation for the good things people do?" —Actress Laraine Day, who presents official commendations from the National Association of Real Estate Boards for accomplishments in its Make America Better program.

"I'm not sure what women's liberation is all about, but I think women should do whatever they want."—Tammy Grimes, at a women's liberation fund-raising party.

"Any Army wife has to learn the Army is always going to come first, ahead of a wife and child. Once you accept that, you learn to accept everything that goes with it."—Kathy Neswiacheny, 24-year-old wife of Capt. Bohdan Neswiacheny, who left for Vietnam on their second wedding anniversary.

NEW MEMBERS — The Gay 20 Club held the installation of new members Monday at 7:30 in the community room of the Snyder Savings and Loan building. New Towns Designing Problems Out Of Future

By DEE WEDEMEYER
Associated Press Writer

RESTON, Va. (AP) — William Nicoson drives in an endless stream of traffic, past shopping centers and subdivisions, to reach, not just his home, but a better way of life at a place where there are no neon lights or television antennas in sight and neighbors can sail to the grocery store.

He goes home to Reston, Va., a community of 9,000 population which as late as 1961 was rolling Virginia countryside. Now it is a virtual oasis on a desert of sprawling urbanity.

"No one can day new communities are the answer to all urban problems, but they are a way future problems can be designed out of the future," Nicoson said as he turned off the highway to plushly green Reston, past swimming pools and a golf course, to his town house on Lake Anne.

Nicoson's residency in this community is significant, not only because he is one of many Americans who have sickened of urban sprawl and sought a better life style, but because he is in a position to do something about it.

He heads the Housing and Urban Development Department's New Communities program, which by the year 2000 should have helped some 300 new communities get started.

Through the program, HUD has the power to provide loan guarantees up to $50 million to private developers. Since the program began in 1969, they have granted three guarantees and expect to add two to seven more this year.

Nicoson's goal is to help 10 new communities with populations of 100,000 each get started annually for the next 30 years. Even so the new towns will accommodate less than 20 per cent of the projected 100 million new people who will be added to the population by the year 2000.

Nicoson, who doesn't believe the nation will build as many new towns as are needed, nevertheless remains optimistic about the prospects of new towns.

Reston, 18 miles from Washington, was started by real estate developer Robert E. Simon in an effort to provide an alternative to another kind of plague —the subdividing of the nation's metropolitan areas into endless rows of look-alike houses on quarter-acre lots.

He wanted Reston to be a town where people lived and worked and played, not just a bedroom cummunity for commuters. He wanted to make it possible for people of all ages and economic backgrounds to live in one neighborhood by providing houses of all different sizes and prices, side by side.

He planned to deed 42 per cent of the land to the community schools, roads parks and other public facilities. A 1,000-acre area was set aside for industrial use.

So, in 1961, Simon purchased 7,400 acres in Fairfax County, Va., and started to build town houses in the country.

He spent $13 million of his own money to acquire the land and was loaned $15 million and $20 million from the Gulf Oil Corp. and John Hancock Life Insurance Co. for development.

Still, money ran out. Houses were sold but Reston lacked a large inventory of houses to interest enough buyers.

It was taking $2.5 million a year just to service debts, and Reston had still not begun to pay for itself.

In 1967, with the population at only 2,500, Gulf Oil took control.

An original plan for seven village - shopping centers was changed to four. Costs were cut where possible.

Some of the new plans, however, appear to be even more grandiose, including two more lakes with a connecting waterfall.

Gulf-Reston executives now predict that no new money will have to be poured into Reston after 1971. They project that Reston will reach its 80,000 population mark by 1980. Eventually Reston should be worth $2 billion.

Simon, still a firm believer in the future of new towns, recently announced plans to build Riverton, a 1,500-acre project on the Genesee River, near Rochester, N.Y.

In fact, the promise of profit and the opportunity to build something better than an ordinary subdivision has attracted a number of builders. HUD has 36 applications on file now for a variety of projects, including civil rights leader Floyd McKissick's "Soul City" in Warren County, N.C.

Some 40 miles from Reston, the Simon principles have been most effectively used to build Columbia, Md.

James W. Rouse, a prominent builder of shopping centers, purchased an original 14,000 acres in 1963. Later, another 3,500 acres were acquired, making Columbia larger than Manhattan.

Columbia opened in 1967 and already has equalled Reston's 9,000 population mark.

Columbia executives say there are tremendous profits to be made in building new towns but they required unlimited amounts of "patient" money, not necessitating returns for aat least 10 years.

"You can't build a town looking over your shoulders at a banker," said Columbia's John Shallcross. "You have to have almost unlimited funds."

At Columbia, Rouse planned not to make a profit for at least 10 years.

Columbia was financed with an initial $50 million loan from Connecticut General Life Insurance and Teachers Insurance and Annuity Association. Later, another $30 million was borrowed. The loan terms do not require payments on the principal until 1972.

From a physical point of view, what keeps Columbia and Reston from looking like most subdivisions are rules banning neon lights, permanent clotheslines, television antennas and visible trash cans. Trees are plentiful and pedestrian walkways have been built under roads for children's safety.

A reviewing committee must approve all construction and landscaping plans, a fact that is well received by residents as an assurance that they do not have to worry about their towns becoming run down.

Neither town has a municipal government yet. Both are ruled by community associations in which each resident is a member and pays dues, in lieu of town taxes.

Eventually, the towns will be completely run by the associations, but for the time being, the associations are dominated by the developers.

Mothers say they worry less about their children in traffic because there are pedestrian walkways to cross streets and there is every conceivable recreational facility—Reston even has a small ski slope.

Nicoson lives in a three-bedroom townhouse just 25 feet from Lake Anne, a 30-acre manmade lake. Every day after work he swims or sails in his sunfish, "Matters of State."

At twilight, the Nicosons can sit on their patio and watch sailboats glide by and a fountain spray water in the middle of the lake.

Mrs. Nicoson, a blue-eyed blonde, can walk the 200 yards to the Lake Anne Shopping Center for groceries or lunch at an outdoor cafe. Some of her neighbors sail to the grocery store.

Not everything is perfect, of course. Builders put hot water faucets where cold water faucets should be. Columbia residents have had sewage back up in their basements and they complain that Wilde Lake, also manmade, would be lovelier if it did not require frequent dredging to remove silt. Since both towns are less than one-quarter finished, the sounds of construction appear to be a way of life.

Some residents feel the towns have not gone far enough toward encouraging a heterogenous population. The fact that houses in Reston begin at $27,500 has made it a predominantly upper middle class community. Columbia has sold houses as low as $15,500 and has a more middle class population.

Columbia's Inter-Faith organization took the initative to build 300 units of low and moderate income rental units and Reston has received federal assistance for 198 units of apartments whose residents include a few families on welfare. Another 1,300 units are planned at Reston.

Ironically, it is the black residents of the new towns who feel life there is too perfect.

One black Reston couple was horrified when their child, watching the Washington riots on television, asked, "What are those Negroes doing?"

The black residents in Reston felt it necessary to form Black Focus, an organization devoted to helping black children keep their identity in the 96 per cent white community. In Columbia, about 20 per cent black, residents also wonder if they haven't turned their backs on the ghetto.

"We are dreadfully torn by what's going on in the country," said Mrs. Robert Secundy, who heads Black Focus. "We are enjoying ourselves but this is not where we need to be."

Many of the new town residents are people who said they might not be welcome other places.

Mrs. John M. Hamilton, a white amother of three, is married to the distinguished black psychiatrist who is superintendent of Maryland's Perkins State Mental Hospital and a member of Columbia's Human Rights Commission. Previous to building their house in Columbia, the Hamilton's answered another advertisement for an "open" community and discovered only Negroes would buy the lots.

Quickie Divorces Halt Costly

JUAREZ, Mexico (AP) — President Gustavo Diaz Ordaz' plan to outlaw quickie divorces in Mexico would cost this border city $3.2 million a year, says the man in charge of the municipal finances.

The loss in taxes alone would reach $1.4 million to $1.6 million annually, Ignatio Duarte, the tax collector, said. The rest would be living expenses for divorce seekers in this city across the Rio Grande from El Paso, Tex.

Duarte said Juarez awards 18,000 quickie divorces every year, mostly to Americans.

Diaz Ordaz is seeking a tougher national policy on divorce in keeping with "the respect that the people of Mexico have for the family as an institution." Current law requires Mexican citizens to wait three months before a final decree is granted. But in some states—including this state of Chihuahua—foreigners can obtain a divorce in a day by paying the necessary taxes.

The proposed law would have no effect on Mexicans, but foreigners would have to present residency certificates from the Interior Ministry before their divorces could be granted.

FBI Arrests Robbery Suspect

DALLAS (AP) — Dallas FBI agents arrested Ormand R. Looney, 28, Friday in connection with the robbery of the Guaranty Bank and Trust Co. of Oklahoma City.

The FBI said Looney was arrested on the basis of a warrant filed by the FBI before Commissioner James L. Gullett in Oklahoma City, charging him with the robbery.

J. Gordon Shanklin, agent in charge of the FBI office in Dallas, said Looney was jailed in the Dallas County Jail and will be arraigned at the "earliest possible time."

The bank was robbed of $19,000 Thursday. Bank officials said the stolen money was "bait money"—cash reserved especially for holdups which could be traced later. The FBI did not say if the money was recovered.

Bank officials said the man entered the bank with a paper sack which tellers, acting on standing orders, filled with the "bait money."

During thunder storms lightning frees nitrogen from the air, and rain washes it into the soil at the rate of a hundred million tons a year.

Junior Editors Quiz on BOY SCOUTS

QUESTION: *Who started the Boy Scouts and when?*

* * *

ANSWER: We believe that Boy Scouting has become the great worldwide movement which it is because it responds to a boy's natural craving for action. Scouts just don't talk, they do. If it's outdoor life, they hike, camp, explore, swim, fish. If it's working with their hands, they learn all kinds of skills and hobbies. If it's personal health and cleanliness, they keep fit by exercise and good driving activity. They really clean up, take great pride in looking neat and sharp. If it's neighborhood and community service, part of their creed is to watch out all the time for opportunities to serve their fellow men, and really do something about it. If it's reverence, they go to their own church and share in its activities. If it's preparation for later active and useful citizenship, what better preparation could a boy make than by joining the Boy Scouts? Scouting originated in Great Britain, in 1907, under the leadership of Sir Robert Baden-Powell. In 1910 began its American career, sponsored by William D. Boyce, Daniel Beard and others. Since then Boy Scouting has spread around the world.

College Football Season Unpredictable

By BOB HOOBING
Written For The Associated Press

College football faces its most unpredictable season since World War II. At the same time, it offers new faces with great potential such as Bert Jones and Jesse Truax of Louisiana State.

Campus unrest—active protest against war, discrimination, the 'establishment'—played a role in 1969. Schools such as Wyoming, Washington and Indiana have the scars to prove it.

Add an election year and it is difficult to assess the impact on Football '70. Certainly many university authorities are concerned about the possibilities ranging from demonstrations to cancellations.

Meanwhile, as preparations for fall practice are completed, attention is drawn to the annual list of varsity newcomers.

There may be none better than Jones, 6-3, 21-, a boy the Louisiana State Tigers say has the potential to be the game's next great quarterback. Son of famed Cleveland Browns' receiver Dub Jones, he has a strong, accurate arm, size, dedication and leadership qualities.

A promising teammate is tight end Truax, brother of Los Angeles Rams all-pro Billy, 6-5, 225 who was red-shirted last year after a sensational freshman campaign.

Isaac "Bobby" Curtis bursts into the California running back picture with credentials including a 9.3 in the 100 and a 7.4 yard rushing average with the frosh.

A few others to remember include tackle John Hannah, 6-3, 277, SEC heavyweight wrestling champion and running back Dane Brungard, Alabama; sprinter-defensive back Mike Fink and tight end John Matuszak, 6-7, 270, Missouri; wide receiver Don Schneider, a 9.4 sprinter transfer from Southern California, at Boston College; defensive tackle George Hasenohrl, 247, and guard John Hicks, 240, Ohio State; halfback Brad Dusek, Texas A&M and guard John Meyer, SMU.

Extremely proud of its alumni in the pros, Grambling offers sophomores Matthew Reed, a 6-4, 225 pound quarterback and defensive end Albert Dennis, 264.

Back in World War II, there were the teams relying on 4F's and 17-year olds, those bolstered by the Navy V-12 program and, of course, Army and Navy.

Before the 1970 season begins, it's hard to know where unrest will do the most damage.

The dismissal of 14 black athletes from the Wyoming squad during last season knocked the Cowboys out of the Western Athletic conference title race. A U.S. District Court judge has since dismissed a suit by the 14 asking $1.1 million in damages and reinstatement on the team. One of the things Wyoming has done to regain its manpower is junior college recruiting.

What happens now will watched with interest. So will games involving Brigham Young, the object of black and anti-discrimination protests throughout the winter sports season.

Only four of 14 blacks boycotting Indiana last fall were reinstated. Three, including Big Ten sprint champion Larry Highbaugh, were invited to spring practice but it was later withdrawn in the face of news interviews in which the three took part.

If Washington had a multitude of internal problems so did Iowa —but of a different nature. In the wake of the rumblings, Forest Evashevski resigned as athletic director, coach Ray Nagel with strong player support was dismissed and then re-hired in a matter of a few days. During the turmoil offensive ace, quarterback Larry Lawrence, and fine fullback Tom Smith transferred in protest to Miami.

Protesting their contemporaries, six players including guard Steve Henson transferred away from Miami, claiming teammates "don't care about winning."

Planning has been jolted in other ways, too. Arizona quarterback Mark Driscoll, injured part of '69, has signed with the baseball Cardinals. Texas A&M star defensive end Mike DeNiro was killed in an auto accident. And spring knee surgery has likely knocked out Michigan State's top running back, sophomore Jesse Williams.

While the short passing game is still the fad, there are converts to the Texas triple-option or Wishbone-T and Houston Veer-T which stress running. Northwestern is going triple option while West Virginia, which put in the Wishbone for its Peach Bowl victory, will emphasize it more.

Note these other changes:

—Holy Cross, forced to cancel most of its '69 season due to a hepatitis epidemic, held its first spring practice since 1951 while an ad hoc committee issued a report recommending athletic de-emphasis.

—The 11-game schedule, following NCAA legislative approval, becomes general.

— The single wing offense disappeared from major college ranks when East Carolina switched to the pro set.

—A tougher pass interference rule has some coaches expressing concern before the first whistle.

—Cincinnati departs the Missouri Valley Conference to go independent

Colorado State College becomes the University of Northern Colorado.

—The trend to artificial turf continues with added converts such as Texas A&M, Texas Tech, Mississippi, Vanderbilt, Boise State and the Penn State practice field.

—John Tanner, 6-5, 220, a Florida JC transfer with basketball scholarship, shows up as Tennessee Tech's middle linebacker.

The annual coaches' shuffle is highlighted by Doug Dickeys's move from Tennessee—where Bill Battle replaces him to Florida and Jim Carlen's switch to Texas Tech from West Virginia where Bobby Bowden has taken over. Other new coaches include: Hooty Ingram, Clemson; Claude Gibson, Tulsa; Don Robbins, Idaho; Bob DeMoss, Purdue; John Jardine, Wisconsin; Richard Selcer, Xavier; Lou Ferry, Villanova; Mike McGee, East Carolina; David Fagg, Davidson; Jerry Wampfler, Colorado State,

Needing to rebuild the secondary, Michigan sent "Wolf Man" Tom Darden to cornerback and quarterback Jim Betts to safety. LSU, on the other hand, has converted All-SEC corner Tommy Casanova to running back where he averaged 7.9 yards on 25 carries, returned four kicks 51 yards and an interception for 7 in the rain-swept spring game.

At Kansas starting quarterback Phil Basler has gone to linebacker and the No. 2 ground gainer of '69, Ron Jessie, to flanker. Ex-quarterbacks Stahle Vincent of Rice and Dennis O'Hare of Maryland go to running back and split end, respectively.

Defensive back-split end Billy Watson becomes the starting quarterback at The Citadel.

New coach Carlen at Texas Tech has switched nine lettermen headed by Johnny Odom, flanker to tight end. Receiver Gary Hammond becomes an SMU ball carrier.

Kansas' Dan Heck and Iowa State's George Amundson are those schools' attempts to fill the starting quarterback boid via the transfer route.

No Alibi For Chiefs

By ROBERT MOORE
Associated Press Sports Writer

KANSAS CITY (AP) — Coach Hank Stram and the Kansas City Chiefs had no alibies after losing 17-3 national televised exhibition football game Friday night to the Baltimore Colts.

"We made too many mistakes," Stram said of his world champions. "It's as simple as that. The odd thing about it is we haven't been making that many mistakes in practice. We weren't as sharp and crisp as we should be.

"Defensively, I thought we played well enough to beat anyone but you can't throw the ball away six times and beat a team like Baltimore."

Stram's reference to throwing the ball away was to six Colt interceptions, three off the celebrated Len Dawson.

"We played without some people," Stram explained. "We didn't have our top three running backs—Mike Garrett, Bobby Molmes and Warren McVea. That makes a difference, too."

In Friday night's other exhibition, five field goals by Erroll Mann helped the Detroit Lions roll to a 22-6 victory over the Buffalo Bills.

Field goals by Baltimore's Lou Michaels and Kansas City's Jan Stenerud were the only gestures until 12 minutes remained.

Tom Maxwell, a second-year cornerback, broke the 3-3 deadlock by stepping in front of a Mike Livingston pass intended for Gloster Richardson and romping 28 yards to paydirt.

Tom Matte swept left end, brushing off tacklers en route, for a 28-yard clinching touchdown in the game's dying moments.

Baltimore put together the game's best defensive stand soon after Michael's field goal. Dawson's 43-yard pass, thrown as he scrambled out of trouble, to Ed Podolak, put the Chiefs on the Baltimore four. From there, Podolak stabbed into the line four straight times and was a yard short.

Mann, starting his third year of pro football, had field goals of 20, 24, 30, 31, and 34 yards against Buffalo. The Lions' lone touchdown came on a four-yard run by Mel Farr.

Detroit rookie Steve Owens, last year's Heisman Trophy winner, rushed 38 yards in 10 attempts, a slightly better showing then the 31 yards, also in 10 carries, by Buffalo's O.J. Simpson, the 1968 Heisman Trophy winner.

Saturday exhibition action in the NFL: Cleveland vs. San Francisco at Tampa, Fla.; Houston at New Orleans; the New York Giants at San Diego; Chicago vs. Green Bay at Milwaukee; Atlanta vs, the New York Jets at Winston-Salem, N.C.; Dallas at Los Angeles; Cincinnati at Miami; Pittsburgh at Minnesota and Denver at St. Louis.

Travelers Hold To Lead

By THE ASSOCIATED PRESS

Relief pitcher Tim Thompson steered the Arkansas Travelers to a 5-2 victory over Amarillo in the Texas League Friday night.

For the Travelers, who lead the league's Eastern Division, it was their second straight triumph over the Giants.

Thompson took the mound trailing 2-1 in the fourth inning, fanned six batters and allowed only one runner as far as third base. Amarillo starter Jim Barr took his fourth straight loss.

The Shreveport Braves pulled their game out of the fire when shortstop Leo Foster belted a two-run homer in the last of the ninth for a 3-2 edge over the El Paso Sun Kings.

In other games, Dallas-Fort Jworth took San Antonio 8-6 and Memphis upset Albuquerque 5-3.

Tonight Memphis plays at Albuquerque, Amarillo at Little Rock, Dallas-Fort Worth at San Antonio and El Paso at Shreveport.

Dizzy Oil Bowl Won By Texans

By DENNE FREEMAN
Associated Press Sports Writer

WICHITA FALLS, Tex. (AP) — It was the dizziest of Oil Bowl—with quarterback Tim Trimier and his underdog Texans outlasting Brent Blackman and his favored Oklahomans Friday night 38-28 — and it was much closer than that.

Quarterback Trimmier of San Antonio Lee, who will attend Texas A&M University, fired four touchdown passes—three to lanky Oscar Roan of Dallas South Oak Cliff.

Blackman of Tulsa, who is Oklahoma State bound, matched Trimmier shot-for-shot in the 33rd annual test of the neighboring states' schoolboy power.

Texas coasted to a 32-6 lead early in the third period before Blackman took quirt in hand and lofted touchdown passes of 36 and 7 yards to Jimmy Edwards of Oklahoma City, 9 yards to Clyde Powers of Lawton, Okla. and 9 yards to Grant Burget of Stroud, Okla.

Oklahoma, which now trails 18-5-1 in the overall series, pulled to within at 32-28 of the Texans with 5:06 remaining as the crowd of 17,500 in Coyote Stadium stirred for a dramatic finish.

It came alright, but Trimmier supplied it. Trimmier found Charles Davis of West Columbia floating free and nailed him with a 33-yard touchdown pass with 8 seconds remaining to ice down the red hot Sooners.

Trimmier, who completed 14 of 20 passes for 327 yards, was voted the most valuable back. He said after the game, "My arm is tired from throwing so many passes."

Roan, voted the most valuable lineman, caught four passes for 91 yards and Perry Young of Brownwood snatched seven for 173 yards.

Trimmier said "Fourteen of 20 isn't bad—but about 10 of those were great catches."

Blackman hit 10 of 30 for 153 yards, but suffered three interceptions, two by Brownwood's Jimmy Carmichael.

Texas scored its other touchdowns on a one-yard sneak by Trimmier and Carmichael's three-yard scoring toss to Young.

Trimmier's touchdown passes to Roan went 38, 34 and 10 yards.

"Roan found out that the safety was slower than he was so we went to work on him," Trimmier said.

"JONES WAS STILL THE BEST" — Jess Sweetser, 68, who was Bobby Jones chief amateur rival in the 1920s, wishes Jack Nicklaus best of luck in the PGA Championship at Southern Hills Country Club, Tulsa, Okla. Sweetser, retired industrial exeuctive, traveled from his home in Asheville, N. C. to watch Nicklaus play in the PGA. "Jack Nicklaus is absolutely marvelous," Sweetser said, "but I've never seen a golfer better than Bobby Jones. (AP Wirephoto)

Football Drills Begin Monday

Snyder High School football players are scheduled to hit the practice field at 8 a.m. Monday to begin preparation for their 1970 season.

The Tigers of Coach Wayne Tyrone have until Sept. 11 to prepare for their first game, a non-conference affair with the Stamford Bulldogs in Tiger Stadium.

Players should report not later than 7:30 a.m. Monday so that they can draw their equipment and be on the practice field by 8, it was emphasized.

Tyrone indicated that the Tigers would work out twice a day, 8 a.m. and 8 p.m., throughout the coming week, except on Wednesday when the evening session will begin at 9 p.m. The morning workouts will be conducted at the high school practice field, while the evening drills will take place on the Travis Junior High field.

Approximately 80 prospective football players had been issued shoes by the end of the week. The footballers had their physical examinations, along with other athletes in the high school, last Monday and Tuesday.

The Tigers have three non-conference football games this year, the first time they have had any games with teams outside the district since 1967. They played some non-district games last year when the district was zoned, but all of the non-league games were with teams in District 3-AAA but in the other zone. There is no zoning this year, since Littlefield and Slaton have gone back to Calss AA and Levelland has gone into District 1-AAA. This leaves an eight-team district, enabling each team to play three non-conference games and then play all others in the loop for the championship.

The Tigers have six home games this year, since two of the non-conference games, Stamford and Big Spring, are booked in Tiger Stadium.

Ponies Prepare For Sooners

DALLAS (AP) — The SMU Mustangs begin training this week in preparation for their September 12 opening game with the Oklahoma Sooners in the Cotton Bowl.

SMU head coach Hayden Fry said about 100 players will undergo physicals Wednesday then start three days of conditioning before donning pads August 24. The Mustangs will drill twice each day through the remainder of the week.

Although the Mustangs are a little shallow on experience and depth, several outstanding players return to the lineup this season.

Quarterback Chuck Hixson will be starting his senior year with the best two-year passing and total offense record in NCAA history. Receiver Ken Fleming has caught more passes than any tight end ever to play in the SWC.

Crenshaw Wins Jr. Tournament

WICHITA FALLS, Tex. (AP) —Ben Crenshaw of Austin won the Junior Texas-Oklahoma Golf Tournament Friday with a total score of 283. Crenshaw fired a 74 in final rounds of the tourney at the municipal golf course.

Runnerup was Mike Huebinger of San Antonio who shot a 71 for a total match score of 285.

Jimmy Wheeler of Dallas was third with a 288 after shooting 73 Friday. Fourth place went to Mark DeBolt of Oklahoma City who shot a 78 and a total score of 295.

The annual tourney is for youngsters 10 to 18 years of age.

MUN?

Flames Rip Lamesans

The Snyder Flames bombed the Lamesa Blue Angels 23 to 3 Friday night in the first game of the Flames' softball tournament.

Flame hitters included Jane Roddy with two hits, Kruze with a single and two doubles, Moffett, Hudgens, McClain, Henry, and Sullivan with a double each, Thompson with two doubles and a single, and Weber with a single.

The Flames record now is ten losses and nine wins.

Abilene won the second game of the tournament by default. Snyder played Abilene Saturday at 1 p.m., Carlsbad took on Lubbock at 9 a.m., and San Angelo tangles with Hamby at 10:30 a.m.

The championship game was set for 7 p.m. Saturday night.

Senior Title To Goldman

PAMPA, Tex. (AP) — A Dallas man, Spec Goldman, won the Tri State Senior Golf Tournament here Friday with a one under par 70.

Col. D. W. Eisenhart of San Antonio was runnerup to Goldman, the tourney favorite, with a one over par 72 on the final 18 holes of medal play.

Eight finalists from an entry field of 165 finished the last round of play Friday.

Former Winners Are In Race

DALLAS (AP) — Two former winners of the American Hot Rod Association Championship at Green Valley Raceway will participate September 5, 6 and 7 for the AHRA Labor Day Championship at the North Richland Hills race track.

They are Don Garlits of Seffner, Fla. and the Carroll brothers of Irving, Tex. Garlits won in 1969 and the Carroll brothers in 1968.

Garlits, winner of every major prize in drag racing, plans to have his fuel dragster at the $20,000 Green Valley meet. Garlits was injured in a racing accident earlier this year and has been recuperating.

The Carrolls, using Bob Gibson of Arlington as driver, claimed this year's NHRA Springnationals title.

Both dragsters will be shooting for the $2,000 top fuel eliminator first prize.

More than 500 cars are expected to be entered in the race in 16 categories.

The world fencing championships for men and women will be held in Ankara, Turkey on Sept. 13-24.

Five SWC Teams Open Grid Practice Thursday

By THE ASSOCIATED PRESS

Five Southwest Conference schools open fall practice sessions Thursday with almost six of every 10 of last year's lettermen back at their posts at the eight SWC schools.

Baylor, SMU, Texas A&M, TCU and Texas Tech will start workouts Thursday with the Arkansas Razorbacks and the Rice Owls starting drills Aug. 24 and defending champion Texas opening fall practice Aug. 25.

Players will limit themselves at all schools for the first three days to conditioning drills.

The quantity of returning SWC veterans is high this season and so is the quality. Back for at least another year are 10 of the 22 players who were last year named concensus all-conference.

Six returning All-SWC offensive players are wide receiver Chuck Dicus and tailback Bill Burnett of Arkansas; wide receiver turned running-back Gary Hammond of SMU and Texas end Cotton Speyrer, tackle Bobby Wuensch and fullback Steve Worster.

SMU will have individual champions returning in three categories—1968 passing champ Chuck Hixson, pass receiver Gary Hammond and pass interception champ Pat Curry.

Last year Hixson completed 217 passes for a total of 2,202 yards gained. Hammond snatched 51 passes gaining 722 yards while Curry led the conference with seven interceptions.

Arkansas' Burnett led in three categories last year—rushing (900 yards), tandem offense (947) and scoring)20 touchdowns).

Baylor's Ed Marsh held last year's national punting title with a 43.6 yard average for 68 punts.

Here's a capsule rundown on the experience each SWC team brings to the gridiron this fall and their last year's record:

—Arkansas (9-1) 30 lettermen, seven starters on offense and seven on defense but only two of interior five in offensive line. Returns entire front four on defense;

—Baylor (0-10) 29 lettermen, five starters on offense and six on defense with all three quarterbacks returning;

—Rice (3-7) 35 lettermen with eight offense and 10 defense starters;

—SMU (3-7) 22 lettermen, fewest in the SWC, including five offensive and four defensive starters. May open with three sophs on offense and three on defense;

—Texas (10-0) 33 lettermen, six on offense and five on defense, with three of four defensive backs first time starters this year;

—Texas A&M (3-7) 29 lettermen including three offensive and six defensive starters. Aggies have only four senior lettermen and may start four sophs on defense and four on offense;

—TCU (4-6) 28 lettermen but fewest starters—four on offense

Texas Tech —(5-5) 31 lettermen; eight offensive starters and seven defensive starters.

Nation Moves Closer To Abandoning Trade Policy

By CAROLE MARTIN
AP Business Writer

NEW YORK (AP) — The nation this past week moved a step closer to abandoning the liberal foreign trade policy it has been pursuing since the 1930's.

At the same time, the country seemed to be pulling closer to a long-awaited upturn in the economy.

Chances that a major departure in trade policy would occur were improved by the House Ways and Means Committee's approval of trade legislation that would impose quotas on shoe and textile imports and would pave the way for import restrictions on a host of other products.

The bill contains a drastically revamped "escape clause," which would allow industries claiming injury from imports to petition for relief to the Tariff Commission.

The Nixon administration, which favors a continuation in substance of the present trade policy, is known to be cool to the bill approved by the Ways and Means Committee.

Nevertheless, the legislation approved by the committee represents something of a victory for the administration. The President had threatened to veto the original committee bill and under administration pressure a new proposal was drafted.

Evidence that the economic slowdown may have spent itself included the following news released this past week:

—Industrial production for July increased after a year of nearly uninterrupted decline.

—Revised estimates of the gross national product for the second quarter indicated that the production of goods and services was higher than had been originally reported.

—Total personal income surged upward in July.

—Corporate earnings, which had fallen sharply, didn't decline much further in the second quarter.

Less encouraging was a government report that the nation's unemployment rate bounced back up to 5 per cent in July to match the five-year high posted in May. Unemployment had dropped to 4.7 per cent in June.

The Commerce Department reported that total inventories held by manufacturing and trading companies rose $350 million in June although manufacturers reduced their stocks during the month for the first time since September 1967.

The June increase brought the total accumulation for the second quarter to $1.3 billion.

New car sales in early August fell 4 per cent from a year ago with dealers reporting sales of 148,577 American-type cars compared with 155,439 a year ago. This represented the lowest rate of sales for early August since 1963.

It was also learned this week that Paul W. McCracken, chairman of the President's Council of Economic Advisers, has been meeting with top auto industry officials in Detroit.

It was reported in Washington that McCracken and other top Nixon administration officials are keeping close watch on the auto talks and the automakers' apparent determination to push for price increases when they introduce the 1971 models next month.

Meanwhile, General Motors, the nation's largest automaker, agreed to pay consumer advocate Ralph Nader $425,000 in an out-of-court settlement of his suit against the company for alleged "Harassment" and invasion of privacy.

The suit alleged that in 1965 when GM learned of Nader's book charging the automakers failed to design safe cars, it started a campaign to intimidate the author and other potential critics of GM products. As part of that campaign, the suit alleged that GM hired a private investigation agency to inquire into Nader's private life.

Meanwhile, another critic who headed a study which concluded that the Federal Trade Commission should be completely reorganized or else abolished was named by President Nixon to head the agency.

He is Miles K. Kirkpatrick, a Philadelphia lawyer, who will replace Casper W. Weinberger as chairman. Weinberger has become a deputy director of the new Office of Management and Budget.

Kirkpatrick's nomination was announced hours after a departing member of the commission, Philip Elman, proposed fundamental changes in all the government's independent agencies that directly regulate business.

In another development his past week William H. Moore, executive vice president of the Southern Railway System, was named new president and chief executive officer of the Penn Central Transportation Co., which applied for reorganize under federal bankruptcy laws on June 21.

"I certainly realize the Penn Central has many, many problems," said the 55-year-old executive who has a reputation of being a tough, "old-line" railroad man. "But I feel capable of solving them, otherwise I would never have taken the job."

Britain Doctors Settle Abroad

LONDON (AP) — One in three of Britain's new doctors leaves the country each year to settle abroad permanently, a study in St. Bartholomew's Hospital Journal says.

The survey of major embassies here showed that more than 700 of the 2,000 doctors Britain trains every year leave to practice medicine abroad. Canada is the most popular destination.

Many British doctors earn more in private practice overseas than they would here in the state-run national health service.

Experts Study Data From SS Manhattan

By MAX B. SKELTON
AP Oil Writer

HOUSTON, Tex. (AP) — Experts and computers in Houston continue to study data collected by the SS Manhattan on its two historic voyages into the Northwest Passage.

Some observers, particularly in Canada, are somewhat pessimistic about the feasibility of using the ice-jammed passage for a year-round tanker route to move oil from Alaska's North Slope to the East Coast.

Humble Oil & Refining Co. officials will not even hint what the studies of the Manhattan data to date may have indicated as to economic feasibility. Any decisions are months away.

The Humble officials emphasize, however, that even before the specially converted Manhattan began its round trip through the passage last year, Humble and other companies were launching studies of other methods for moving the Prudhoe Bay area's vast oil resources to market.

While the old Manhattan was being cut into four pieces and reassembled as the world's largest icebreaker, Humble and seven other companies were rushing plans for a $900 million Trans-Alaska Pipeline (TAPS) that would link Prudhoe with a seaport terminal on Alaska's south coast.

But TAPS' snarl of political problems far outnumbered the ice problems and dents and scars encountered by the Manhattan.

It remains to be seen whether TAPS or a similar project will ever overcome the problems raised by politicians and conservationists but the companies with Prudhoe reserves continue to explore other possibilities.

While the Manhattan was on its first venture, Humble, Atlantic Richfield, and BP oil companies started a feasibility study of building a 2,600-mile pipeline from Puget Sound to Washington state to the eastern seaboard by way of Chicago. TAPS, or a similar line, would be the source of supply, with tankers moving to Puget Sound from the terminal on Alaska's south coast.

The Manhattan was back home from its 1970 voyage and being prepared for resumption of its normal services after having been leased for two years when Humble and five other companies came up with another feasibility study. This one involves a 2,600-mile natural gas pipeline that would cut across the northeastern tip of of Alaska and then sprawl across Canada to link in northern Wisconsin with lines capable of moving the Alaskan gas to major Canadian and U.S. markets. The cost: $2.5 billion.

Governmental approval of the gas line has not been sought but an arctic test facility is being established on the MacKenzie River in the Northwest Territories at a cost of $3.5 million.

In addition to Humble, the gas line feasibility study group includes Atlantic Richfield and Standard Oil Co. of Ohio and three pipeline companies — Trans-Canada, Michigan Wisconsin, and Natural Gas Pipeline Co. of America.

Some observers have indicated the prospects for a major gas or oil pipeline across Canada may have prompted some of the Canadian pessimism over the prospects for a Northwest Passage oil tanker route.

HOWARD COUNTY JUNIOR COLLEGE

CLASSES BEGIN THUURSDAY, AUGUST 27

Important Notice:

Students entering H.C.J.C. for the first time should have application for admission and transcript from former school on file in the registrar's office.

Students who pre-registered in the summer may pay their tuition fee in the library Aug. 25 and 26.

Enrollment Schedule

All beginning freshmen will receive registration packets during the orientation period Tuesday, Aug. 25 at 9 a.m. in College auditorium, and be assigned a time to register on Wednesday, Aug. 26, these students will then report directly to the library building on Wednesday, Aug. 26. Sophomore students will reoprt to the library on Tuesday, Aug. 25 between 1:00 and 4:00 p.m. for registration instructions. Evening students will begin registration procedures at the library from 6:00 to 8:30 p.m. Tuesday and Wednesday, Aug. 25 and 26.

Credit Card Solves Mystery

DALLAS (AP) — Unexplained use of a credit card finally solved for William Cunningham the mystery of his wife's tragic disappearance.

It still took his fourth trip in six weeks to Los Angeles, however, for Cunningham to find her previously unidentified body in the city morgue.

He returned to his home in suburban Irving to tell Friday how he finally untangled a puzzling sequence of events.

Cunningham related these details:

His wife Mittie, 48, took a plane June 28, to Los Angeles. After telephoning family friends she disappeared from the airport. Her unclaimed luggage was returned to Dallas eight days later.

Cunningham, who had been unable to dig up any clues to his wife's whereabouts, at length received a BankAmerica inquiry about a sudden climb in charges against him which topped a $300 limit.

He learned two men had tried to buy liquor in Dallas with a BankAmerica card bearing his name—obviously his wife's copy, Cunningham said, because his own was not missing.

An oil company letter asking about credit charges which included motel rooms arrived next day.

Playing a hunch, Cunningham checked a number of Dallas motels and found that someone had registered under his name at one place. Police determined that three men using the Cunningham credit card had stayed at the motel and, after they departed, one called back to ask about a letter he expected.

Detectives waited until the men reappeared and arrested two of them. The third escaped by sprinting across a busy expressway but was nabbed a day later.

Officers said the third man was carrying Mrs. Cunningham's credit cards and identification along with two airline tickets she had bought. They said the trio, all from Philadelphia, claimed the card were purchased from another man in Los Angeles.

Cunningham went back Wednesday to check in Los Angeles for police information about women found dead in that vicinity. He found that the body of his wife had lain unidentified in the morgue since it was found July 3 beside a road outside the California city.

Investigators in California told Cunningham his wife apparently was dragged from a car and allowed to roll down an embankment. He said they had not decided whether she was slain or died from exposure to the sun.

Dallas police charged one of the three men picked up here with forgery and all three with illegal possession of dangerous drugs. They said only the man accused of forgery remained in custody.

Road Sign Didn't Work

SEATTLE (AP) — A local woman became tired of the dust ruining her laundry. So she hung a sign outside which read: "Wash Out."

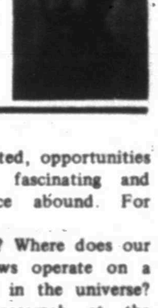

She was arraigned in the local court on a charge of erecting illegal traffic controls. Her attorney claimed that all day long cars sped past the home of the woman on a rural road, despite the sign.

Astronomy Careers Limited

Career Corner

by Joyce Lain

what job would you like to see explored in this column?

It seems there are few observatories and radio telescopes. Does this indicate that the opportunities in astronomy are limited? Would you tell me about the careers in astronomy? -- W.L., Irwin, Pa.

This is a small profession (about 1400) and the number of annual job openings is only about 100. While numbers are limited, opportunities for investigating some of the most fascinating and fundamental problems of all science abound. For instance:

How did the stars and galaxies evolve? Where does our universe end? How do our physical laws operate on a cosmic scale? What is the origin of life in the universe?

ASTRO-CHOICE. *Teaching and/or research* at the university level (this covers about 75 per cent of astronomers) . . . *Observational research* at an observatory . . . *Astronomical education* at a planetarium or museum . . . *Technical design and execution* in electronics, optics, mechanical engineering and space technology.

Astronomers are employed by colleges and universities, observatories, government, planetariums and industry. Some 15 per cent of astronomers are women.

SKYLINE SPECIALTIES. *Astrophysics:* the application of physics to the atmospheres and interior of stars. *Celestial mechanics:* in part, the analysis of the motion of objects in the solar system (important in calculating orbits of spacecraft, artificial earth satellites and paths of ballistic missiles).

Radio astronomy uses radio telescopes to study radio waves emanating from celestial sources. *Astrometry* maps the sky – positions and movements of heavenly bodies. *Photometry* measures the intensity of light from stars. *Spectroscopy* analyzes wave lengths of astral radiation. *Statistical astronomy* studies large numbers of celestial objects to determine average properties.

PRE-SCANNING PLANNING. It is difficult to find a high-level professional position without a Ph.D. Well-qualified bachelor's and master's degree holders work primarily as research and technical assistants. While in high school, your college prep course should include algebra, geometry, trig, physics, chemistry, and German, French or Russian.

TELESCOPE JOBSCOPE. Astronomers work with telescopes and other mechanical, optical and electronic apparatus. Beginners (with a Ph.D.) can earn $10,000 and up yearly; experienced astronomers scintillate in the $20-30,000 range.

FOR MORE INFORMATION. Write for one free copy of "A Career in Astronomy." Address your request to: American Astronomical Society, 211 FitzRandolph Road, Princeton, N.J. 08540.

* * *

What bugs you about your job? I'd like to know. (If I print your letter, I won't use your name.) Send your gripes to Joyce Lain in care of the Editor of this newspaper.

Public Notice

THE STATE OF TEXAS
TO: A. WILDENTHAL AND E. E. McMAHAN: If living, whose places of residence are unknown to plaintiff, and if dead, the legal representatives of each of said named defendants, and the unknown heirs of each of said named defendants; the legal representatives of the unknown heirs of each of said named defendants; and any other persons claiming any interests in the land here in after described., Defendant, Greeting:

YOU (AND EACH OF YOU) ARE HEREBY COMMANDED to appear before the District Court of Scurry County at the Courthouse thereof, in Snyder, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 28th day of September A. D. 1970, to Plaintiff's Petition filed in said court, on the 11th day of August A. D. 1970, in this cause, numbered 10,112 on the docket of said court and styled R. W. WEBB, Plaintiff, vs. A. WILDENTHAL & E. E. McMAHAN, ET AL, Defendant

A brief statement of the nature of this suit is as follows, to-wit:

Removing Cloud From Title

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Witness, ZADA D. CHAPMAN, Clerk of the District Court(s) of Scurry County, Texas.

Issued and given under my hand and the seal of said court at Snyder, Texas, this the 13th day of August A. D. 1970.

Zada D. Chapman Clerk,
District Court
Scurry County, Texas.
By, Deputy.

AND SUDDENLY YOU'RE IN BUSINESS MAKING GOOD MONEY

(Recession Proof)

We're proud to talk about our business. It's fascinating. Dynamic. Appeals to the small investor. No experience necessary. With very little money he or she can achieve financial satisfaction—quickly or moderately. It's yours to decide.

Ours is a vending machine program. The best. We establish route locations. Provide finest line of snack items. We train, counsel, guide, hold your hand until you're firmly entrenched. No experience necessary. Just honesty, integrity, willingness to listen, work and give good service.

You need a car and at least $600 for minimum investment strictly for equipment and inventory. No fee or extra of any kind required. Be ambitious and willing to expand.

Vigorous 4-billion plus recession proof business. Cash sales. No credit risks. Works for you day and night—even while you sleep. Quick turnover. Original investment can be returned in short time.

Requires only 6 to 8 hours per week of serious attention. Like getting retirement pay, annuity or pension — only better!

If you're serious, sincere, let's talk. Letter preferred, giving name, address, phone number, and sufficient references to verify. *Write to:*

Airlines File Requests For Increased Fares

By VERN HAUGLAND
AP Aerospace Writer

WASHINGTON (AP) — Most of the nation's airlines have filed requests for higher fares, ranging from 3 to 6 per cent.

All but one of the 11 trunk airlines, and five of the nine regional carriers, filed proposals with the Civil Aeronautics Board Friday for higher fares to take effect Oct. 15.

The remaining companies—Northwest, a trunk airline, and North Central, Ozark, Piedmont and Texas International merely proposed that present fares be continued beyond their expiration date.

This tactic left them free to make competitive filings after the CAB has ruled on the proposals that are acceptable to it, probably about Sept. 15.

The airlines, burdened by rising costs and by heavy commitments for new equipment, have long complained that rates are unduly low.

A year ago they proposed a variety of fare increases, to take effect last Sept. 15, which the CAB rejected as unwarranted.

Instead the CAB made public Sept. 12 a fare formula and said it would approve tariffs filed in accord with it. The formula increased fares for the trunk airlines by 6.35 per cent, and for the local airlines by 7 per cent.

The airlines promptly complied, and the fares went into effect last Oct. 1.

Rep. John Moss, D-Calif., and 31 other members of Congress fought the increase and won a Court of Appeals ruling July 9 that the new fares were illegal because they were imposed without public notice.

Accordingly, the CAB ordered the airlines to file new tariffs by Aug. 14, to become effective Oct. 15.

The congressmen since have asked for hearings on the overcharges resulting from the illegal fare increase of last October.

Twelve airlines have supported that request, and two have expressed opposition.

Representative of the larger group was the argument of Delta Air Lines that public hearings would help dispel uncertainty over the present fare structure, particularly with regard to pending lawsuits in various parts of the country which seek damages and refunds for the 6.35 per cent excess over the legal fares.

United, the largest domestic airline, proposed that fares be increased 5 per cent over the present level on Oct. 15.

Other proposed increases were said to range from 3 to 6 per cent.

FCC Rules For Equal Time

WASHINGTON (AP) — Noting President Nixon has made five nationally televised speeches on the Vietnam war in nine months, the Federal Communications Commission has ruled the networks must give time for opposing views.

The FCC, in the ruling announced Friday, said it was neither criticizing the networks' news coverage of the war nor discouraging broadcast of presidential reports.

The critical consideration, the FCC said, is whether the public has a reasonable opportunity to be informed when the leading spokesman for one side uses five prime-time opportunities to present his views.

The case for rebuttal time could not be made on the basis of one presidential speech the commission said.

The FCC decided the question in response to complaints filed under the fairness doctrine by the Committee for Fair Broadcasting of Controversial Issues, Business Executives Move for Vietnam Peace and 14 U.S. senators.

Network spokesmen declined comment on the ruling.

The doctrine requires a broadcast licensee who presents one side of a controversial question to give the public a reasonable opportunity to be informed on other sides of the question.

The FCC also ordered the Columbia Broadcasting System to give the Republican Party an opportunity to reply to a July 7 television program by Democrats.

The commission said that while CBS acted in good faith in giving Democrats time to reply to President Nixon, the presentation did not fulfill the network's intention.

Nixon's addresses had dwelt mainly on the war issue but the Democrats' broadcast, featuring Democratic National Chairman Lawrence F. O'Brien, referred only briefly to the war, the FCC held.

O'Brien attacked that ruling as based on false premises and promised an appeal unless the FCC reverses the decision,

It was not the network's intention at all to confine the content of the Democratic reply to the war, O'Brien said.

CV-AE Is Going Into New Phase This Year

The Snyder Public School system is instituting a new phase of an existing program that has been in operation for the past several years. The program is called Coordinated Vocational Academies Education, (CV-AE) and is designed for students with special learning needs.

The program includes a combination of vocational and modified academic institution that provides the dual educational opportunities of acquiring a saleable vocational skill while also acquiring basic knowledge in the fields of Math, Science, English, and Social Studies. This dual approach enables students enrolled to receive maximum personal development, including employment potential within their ability, in the shortest possible time.

The school system has been working for the past three years with these students in academic areas and also in various shop and trade programs to expose the students to various types of employment which they might wish to pursue.

This year, the school plans to institute a cooperative part-time training program where the student attends school in the morning and will be available for on-the-job-training in the afternoons at various locations within the community.

Female students are interested in various positions such as housekeeping, patient care, upholstering, waitresses, cooks' helpers, salad girls, tec. Boys' interests lie in various occupations such as the mechanical trades, welders' helpers, lawn and yard maintenance, building trades and janitorial services.

Anyone in the community interested in having student workers on a part time basis in the above mentioned or related fields, is asked to contact the CV-AE coordinator, Lowell Marble, at the high school for further information at telephone number 573-6301.

RE-ENLISTS IN NAVY — Navy Petty Officer First Class Joe D. Rhodes re-enlists in the U. S. Navy for two years, with Capt. H. K. Hanship, commanding officer of the Naval Air Station at Albany, Ga., administering the oath. Rhodes is the son of Mr. and Mrs. Joe P. Rhodes, 3707 Muriel Drive, and husband of Mrs. Anna M. Rhodes, Route 3, Snyder.

Chrysler Increases Prices

DETROIT (AP) — Chrysler Corp. has become the second major U.S. automaker to announce a tentative increase in the price charged dealers for its 1971 models.

Chrysler said the increase will be 5 to 6 per cent—an average of about $125 per car. Ford Motor Co. announced last week a 5 per cent wholesale price boost for all lines except the Maverick and 6 per cent hike in the price of the economy compact.

The price increases announced so far affect only cars shipped to dealers before 1971 prices are formally set. Both Ford and Chrysler say the final prices paid by dealers can be adjusted up or down once final prices are announced.

American Motors Corp. officials have indicated they plan to raise the dealers' price by about 5 per cent. General Motors, the No. 1 automaker, traditionally does not bill its dealers until after final prices are announced.

Chrysler officials said Friday they have not decided on their warranty policy for new models. This year's Chrysler products carried a 12-month, 12,000-mile warranty on all components and a five-year, 50,000-mile warranty on engine, transmission and other drive-train parts.

Ford announced last week that the five-year drive-train warranty, available as an extra-cost option on 1970 models, will be discontinued when new cars are introduced.

Cyclamates Banned From All Foods

WASHINGTON (AP) — All foods containing cyclamates must be taken off the market by Sept. 1, the Food and Drug Administration has ordered in accepting a report the artificial sweetener could cause cancer.

The deadline is the same date by which all soft drinks containing cyclamates must be removed from grocery shelves under a previous FDA order.

The National Canners Association immediately attacked the order issued Friday. The group estimated the ruling will cost the industry $30 million to $35 million, in addition to the cost of disposing of present stocks.

"We are troubled that in a hungry world such destruction is necessary under the FDA's new ruling," the association said in a statement.

A seven-member medical group advising FDA said use of cyclamates—even in sugar-free diet foods at previously permitted levels—could allow young diabetics to consume amounts which caused bladder cancer in experimental animals.

The panel concluded that a safe-level consumption of the sweetener would replace only 21 calories worth of sugar. "It is evident that the ... saving is not substantial and that the benefit as a sweetener has virtually disappeared," the report stated.

The group said cyclamates could be a factor in heart disease by breaking down the heart muscle through calcium deposits.

The FDA originally set Feb. 1 as the deadline for banning cyclamates from soft drinks, while allowing use of the sweetensr in dietetic foods which were labeled as drugs.

American Jailed In Czechoslovkia

WASHINGTON (AP) — A young American formerly employed by Radio Free Europe has been jailed in Czechoslovakia on suspicion of spying, the State Department says.

It said Friday that the Czech foreign ministry had informed the United States Aug. 6 of the arrest three days earlier of Fred H. Eidlin, 27, of Rochester, N.Y. It said Eidlin had entered Czechoslovakia July 25 and there were indications the actual date of his arrest may have been any time after that.

U.S. Embassy officials in Prague have not been allowed to talk to Eidlin. "We are concerned about this continued failure of Czech authorities to grant prompt access," said State Department Press Officer Robert McCloskey in a news conference.

In Rochester Eidlin's father, Ephraim, said, "I am shocked." He said he had last heard from his bachelor son Aug. 2 when he received a postcard mailed from Czechoslovakia. He said young Eidlin had been touring Europe.

Kentucky Changes Parks' Policies

FRANKFORT, Ky. (AP) — Kentucky has changed its policy on reservations for state parks, shelving the previous rule that they can be made only after Jan. 1 for the next 12 months. Henceforth they can be made a year in advance any time.

US To Help Train Thai Troops

WASHINGTON (AP) — The United States has agreed to help train 5,000 Cambodian and Khmer-speaking Thai troops in Thailand, a move denounced as a violation of the intent of the Senate-passed Cooper-Church amendment to limit U.S. involvement in Southeast Asia.

State Department Press Officer Robert J. McCloskey said in announcing the tentative agreement Friday that no overall agreement had been made. He said that would depend on arrangements to be worked out between the Thais and Cambodians.

But Sen. Frank Church, D-Idaho, cosponsor of the amendment with Sen. John Sherman Cooper, R-Ky., said it was the second violation of its intent this week, the first being "direct American air support" for Cambodian troops.

The coffee tree is subject to 375 diseases, including 10 serious ones, of which the worst is the coffee rust.

41 Day Filibuster Staged In 1923

PROVIDENCE, R.I. (AP) — The Democratic minority in the 1923 Rhode Island Senate, led by Lt. Gov. Felix A. Toupin, staged a 41-day filibuster to force a vote on three measures in the party's platform. When the Republicans finally consented, the bills were defeated.

POLLY'S POINTERS

DEAR POLLY—A great timesaver when sewing is to have the measuring tape right at hand. Sew it across the bottom of your sewing apron. Just lift the bottom edge of the apron and check the measurements of anything you may be working on. Such aprons are nice to make for a bazaar or to give as shower gifts.—BRENDA

DEAR POLLY—To display a few flowers to good advantage, use an old-fashioned cruet set. I have an antique one with glass containers in a silver rack and it is great for this. A very charming bouquet can be made with only a few roses, etc., and pansies show off especially well in it.—H. B. K.

Polly pays a dollar for every idea used. Send them to her, care of this newspaper.

DEAR POLLY—The picture holders in billfolds make nice places to carry samples of material or paint colors when shopping.—CHERYL

DEAR POLLY—I use the wire from used spiral notebooks for small household repair jobs. It is flexible and better than any I have been able to buy in small quantities, and certainly a money-saver.—MRS. P. W.

DEAR POLLY—Here's a great carpet-saving pointer: We had three badly burned spots on our carpet. At my brother's suggestion I rubbed the spots with a silver dollar and then shampooed them. Now we cannot find the burned spots.—C. M. F.

DEAR POLLY—Here's one of those "Why didn't I think of it before?" ideas. I took three antique house keys to the jeweler, had him silverplate them and attach each to a bar pin. Now I have a set of scatter pins that are unique.—TRUDI

DEAR POLLY—When I finish a painting job I put a piece of clear plastic over the top of the paint can before putting the lid on. This helps prevent a skin from forming over the paint.—ARLENE

DEAR POLLY—I have one preschooler and I baby-sit with others, so I cut sponges to make blocks for them to play with. No one is hurt when their buildings tumble down.—DEBORAH

DEAR POLLY—I remove the brushes from the lids of empty fingernail polish bottles, clean them well with polish remover and then use them to apply cosmetics.—L. S.

DEAR POLLY—To heighten wigs or hair pieces without ratting or teasing I place nylon net in the dome of the wig. This cuts down on that constant job of ratting, and then having to get it out.—MRS. R. G.
