City Moves To Aid Unemployed

COMMON LABOR TO BE SPLIT INTO TWO SHIFTS SO THAT TWICE AS MANY MEN CAN BE USED PART TIME; WAGE SCALE IS 40 CENTS

While the unemployment problem in Lubbock is not as acute as in other places the local city administration today announces steps to combat the possible spread of such a condition here in plans for the employment of twice the amount of men ordinarily used for common labor.

This plan will be made possible through the adoption of a three-day working week. Explained by city officials today, the new plan would allow just double the amount of men now being used. In detail a week's labor for twenty men will become a week's labor for forty men. This will be brought about through the employment of one shift for three days of the week and the employment of a second shift for the remaining three days.

To Aid More Families
While this plan will not bring about any great wages for the laborers, city officials stated, "it will offer employment for men who otherwise would have to depend on charity. It will allow a greater number of families to make their own way and offer a measure of relief through the winter months."

The scale of wages paid by the City of Lubbock for common labor is 40 cents per hour, a total of \$3.20 per day. Officials point out that while this amount will not provide any luxuries of life it will at least keep a family from want of the bare necessities.

Several Projects Underway
Several projects are underway at this time which will require common labor, according to city officials. Improvement of one of the city's parks is going forward, further extension of the street lighting system, sanitary sewer and water main extensions are some of the planned activities which will fall under the new plan.

City commissioners are in meeting at the city hall this afternoon for consideration of the plan and its adoption is expected at today's session.

WAIVER OF OKLAHOMA'S "BONE DRY" PROVISION ON USE OF LIQUOR FOR MEDICINAL PURPOSES IS PETITIONED

(By The Associated Press)
OKLAHOMA CITY, Dec. 11.—A petition seeking waiver of Oklahoma's constitutional "bone dry" provisions to permit use of whiskey and other intoxicants for medicinal purposes was presented today to J. Berry King attorney general, by Dr. Wann Langston, superintendent of the University of Oklahoma hospital here.

The petition was signed by heads of other large hospitals in the state and by 156 physicians. It asked that the attorney general provide them with authority to use alcoholic stimulants in their practice.

Would Not Step In
King replied to Langston that he would not "usurp the function of the courts and the legislative branches of the state."

Each of the petition signers submitted affidavits setting out benefits which might accrue if liquor could be used in hospitals.

One affidavit cited a case in which a wealthy Oklahoma City man suffering from gonorrhea had his own whiskey taken to a hospital. It probably saved his life, the physician averred.

Another doctor said he lost a pneumonia patient who might have been saved if the "proper stimulant" had been available.

The legislature has held that pure grain alcohol could be made available for hospital use, but Dr. Langston said it does not serve the same purpose as whiskey for treatment of pneumonia.

"There is no way in the world in Oklahoma that hospitals legally can possess whiskey," King advised Langston.

FEAST DAY TO BE OBSERVED

OVER 1,000 MEXICANS TO HAVE CEREMONY HERE TOMORROW

More than 1,000 Mexicans of Lubbock and vicinity will transgress from their lairs here tomorrow when the Feast of Our Lady of Guadalupe, patron saint of Mexico and Mexicans everywhere, will be observed.

With this year marking the 399th anniversary of the appearance of the Blessed Virgin to an Indian boy named Juan Diego near Mexico City, the feast day will be appropriately observed from both religious and social standpoints, Rev. Gregory Boeckman, pastor of St. Joseph's Catholic church, located in the Mexican section in the northwest part of the city, said this morning.

High Mass Planned
At 9:30 o'clock tomorrow morning, priests from nearby points will join with Rev. Mr. Boeckman in a solemn high mass at the church. Rev. Joseph Wondery, of Pampa, will be celebrant; Rev. Raphael Kramer, of Childress, will be deacon; Very Rev. Thomas D. O'Brien, of Slaton, will be sub-deacon and Rev. Thomas Burger, O. S. B., from Nazareth, will be master of ceremonies.

Rev. Charles Dvorak, of Littlefield, relative of Anton Dvorak, composer of "Humoresque," will officiate.

Germany Censors "All Quiet" Film
BERLIN, Dec. 11.—Germany's board of film censors today ruled the picture "All Quiet on the Western Front," out of the country's theaters on the ground that it "endangered Germany's international standing."

This was the film whose showing at the theatre here resulted in riots inspired by the national socialist political party. The ban was voted after an attorney for the producers had said his company would take the film out of Germany circulation regardless of the censor's decision.

Public Opens Support Of New T.-P. Line

RESIDENTS OF SECTION TO BE HEARD

OFFICIAL TESTIMONY OF COMPANY ENDS BEFORE NOON

BY HARRELL E. LEE
Associated Press Staff Writer
The Texas & Pacific today concluded the testimony of its officials and the procession of witnesses of the public who favored the proposed new railroad north of Big Spring started.

A. J. Barid of Dallas, T. & P. auditor, was the last railroad witness to testify in the hearing before an Interstate Commerce Commission examiner.

R. M. Kelly of Longview, former president and one of the organizers of the East Texas Chamber of Commerce was the first of the witnesses of the public. He stated the new railroad would use East Texas croplands, thus stimulating that industry. It would supply better service on grain sorghums from the Plains territory to East Texas, he asserted.

Residents Are Heard
Several ranchers and farmers living along the route of the proposed line came next. Among them were A. M. Clayton, who has 144,000 acres in Borden county, Tom Good of Big Spring, who operates a ranch in Borden county, and C. H. Deak of O'Donell, who has farms in both Lynn and Gaines counties.

Clayton said the factor which had most retarded agricultural development in Borden county was the lack of adequate rail facilities.

LEGGE WARNS ON ACTION

FARM BOARD CHAIRMAN SAYS CAPPER ACT WOULD REACT

(By The Associated Press)
WASHINGTON, Dec. 11.—Chairman Legge of the Farm board warned the senate agricultural committee today enactment of the Capper resolution to distribute 40,000,000 bushels of the grain stabilization corporation's wheat for benefit of the unemployed might affect prices adversely.

Legge said the corporation, to maintain prices in event of such a distribution, would have to buy back a large proportion of the amount devoted to relief purposes.

Would Replace Other Grain
"It would just replace so much wheat coming from other sources of supply," he said of wheat.

He pointed out the domestic price was now approximately 30 cents above the world price and to maintain that level the board would have to bear the burden of carrying a surplus on the surplus.

Legge would not estimate the amount of increased consumption if the 40,000,000 bushels were diverted for relief, but said it would be small.

DR. EINSTEIN PLEADS FOR AMERICA TO PUT AN END TO MILITARISM IN HIS MUCH DREADED INTERVIEW IN U. S.

(By The Associated Press)
NEW YORK, Dec. 11.—Dr. Albert Einstein, father of a scientific theory so complex that few human beings can understand it, landed today in the United States and gave to the American people by radio a simple, forceful message pleading for an end to militarism.

From the drawing room of the liner *Belgenland* he spoke in German:

"Kill the monster of militarism. Your political and economic position today is such that you can entirely destroy militarism whenever you set your hand to it."

His wife is translator. The physicist's wife translated his address.

"Your country, through its peace and labor, has reached a preeminent position in the world," Professor Einstein said.

"Through your free government you have put liberty above the power of any tyranny."

A hundred reporters and cameramen met the scientist when the *Belgenland* reached quarantine, and he jested with them in his native tongue and caused many a photographer to miss a good camera shot by making the picture man laugh just as he was about to make

ATTENDANCE MARK SET AT 5,000; EXACTLY 900 BIRDS SHOWN

(Special To The Journal)
SLATON, Dec. 11.—Watching a demonstration of culling for certification, held early this morning on the R. O. Carnes place here by Dr. D. H. Reid, head of the poultry department at Texas A. & M. college, breeders and members of the Panhandle-Plains Poultry association saw the second day of their annual three day show get under way this morning.

A short course, at which Dr. Reid, I. L. Bandy, of Godley; R. B. Galloway, of Amarillo, and Prof. Ray C. Mowrey, of Texas Tech, are chief speakers, began at 10 o'clock in the Texas theatre building. This afternoon at 3:30 o'clock the Titman Egg Corporation, of Lubbock, will display various types of dressed poultry as well as demonstrate methods of plucking and dressing.

2,000 On First Day
Two thousand persons thronged the show yesterday after the doors were opened in the downtown building packed with pens. The show's total is sure to surpass the two-day attendance record for a similar show at Dallas and the four day attendance record set three weeks ago at the East Texas Chamber of Commerce Poultry show at Paris, Dr. Reid reported.

Banquet Last Night

General Barnhardt Dies On Wednesday

EL PASO, Dec. 11.—Salute guns boomed at intervals today at Fort Bliss, in honor of General George C. Barnhardt, 62, commanding officer of the post, who died in a hospital last night of blood poisoning.

It was considered probable the body would be sent to Washington, as General Barnhardt was eligible for burial in Arlington cemetery.

A round of golf played last Friday was believed to have aggravated a toe infection, causing blood poisoning, and the general's physician sent him to a hospital Monday evening.

Former Minister On 40-Day Fast

WICHITA, Kas., Dec. 11.—E. W. Parkes, former Holton, Kansas, minister, in jail here for attempted extortion, today started the 19th day of his proposed 40-day fast. Parkes was charged with robbery in Tulsa, Okla., yesterday in connection with an attempt to extort \$5,000 from Ed Hawkins, an oil man.

ACE PENDLETON IS BELIEVED HELD

ODESSA, Dec. 11.—A man of officers believe is Ace Pendleton, widely-sought bank robber, was held here today by officers. He was arrested Monday night while trying to start an automobile after a robbery.

Officers said the man had been identified by fingerprints as Pendleton, wanted in Pampa, Texas, Porell, Okla., and many other points of the southwest on bank robbery charges.

Pendleton and his companions had left their guns in the tonneau of the automobile they were attempting to start and officers surprised them.

Shotgun Is Stolen From Local Store

Looks like it might be a "bang-bang" good Christmas for someone. Thieves last night or early this morning "jimmied" the lock on a display window at Sherrod Bros. hardware store, selected a 20 gauge shotgun from the case and carefully closed the door.

Although there were numerous other articles of merchandise in the window nothing but the gun was taken. Entrance into the window was gained by prying the lock loose.

WHEAT BEING BURNED FOR WINTER FUEL BY RESIDENTS OF IDAHO TOWN; COST PER TON MUCH LOWER THAN COAL, WOOD

NEZ PERCE, Idaho, Dec. 11.—Residents of this town, ten miles from big timber and in the midst of a wheat region, are burning wheat for fuel. Coal costs \$18.20 per ton and wood \$10 a cord, a business man said today, while wheat costs \$9 a ton, delivered to bins and basements.

Wheat produces an even heat and holds the fire about as long as coal, one business man said. A gasman, who found his grades too coarse for the new fuel, said he ordered new grades and expected to burn wheat all winter.

ONE MORE DAY OF CAMPAIGN REMAINS

TOTAL IS \$12,931.14 FOR TWO DAYS OF SOLICITING

With but a single day remaining in which to raise the budget of \$2,750, goal set for the second annual Lubbock Community Chest drive, a little more than half of the amount had been subscribed at noon today, according to a report given at a meeting of the local Kiwanis club with campaign workers at the Hilton hotel.

Total subscribed in the campaign thus far, representing two days of solicitation on the part of 34 teams, was \$12,931.14. Of this amount \$9,802.14 was raised Wednesday the first day of the drive, while the remaining \$3,129.00 was subscribed today.

Cash collected in the campaign totals \$1,589.98. Of this amount the second day's solicitation was \$915.75 while that of the first day was \$3,774.14.

As of the first day, the largest subscription were turned in by teams of the men's division, total being \$2,752.75 with cash amounting to \$806.50. The women's division reported \$336.25 in subscriptions and cash to the amount of \$107.25.

Campaign officials will gather all their forces for the last day of the drive in an effort to reach the goal and citizens who have not been solicited by workers in the drive are being urged to make contributions before close of the campaign.

P. R. Payne Safe At His Home Today

PECOS, Dec. 11.—Under medical care after wandering on the plains 61 miles south of here for several days, P. R. Payne, Pecos dairyman, was safely at home today. He was found yesterday by cowboys on the "U" ranch and although he carried extra clothes, food and money, did not seem to know what had happened.

Payne was a brother of A. D. Payne, Amarillo attorney who recently killed himself by an explosion in the jail at Amarillo while awaiting trial on murder charges in the death of his wife, who was killed by the explosion of a bomb which demolished the family automobile.

Members of P. R. Payne's family said he had worried over the tragic death of his brother and his wife until he seemed mentally dazed.

MUDDY TRAIL OF FRANKSTON BANDITS SOUGHT BY OFFICERS IN NORTHEAST TEXAS TODAY; \$11,236 LOOT IS TAKEN

(By The Associated Press)
FRANKSTON, Dec. 11.—The muddy trail of four men who robbed the Frankston State Bank of \$11,236 yesterday and fled in a truck, after a gun fight with officers, was sought today by officers and citizens all over northeast Texas. Two of the robbers were believed wounded in the fight in which two officers also received wounds.

A small truck in which the four men escaped was found last night at Athens. It was covered with mud, evidence that it had been driven rapidly over well high impassable roads. A canvas sheet was missing from the truck and officers believed it had been used to carry two of the robbers who were thought

wounded. Search was directed particularly toward nearby river bottoms, where the men could easily have found a hiding place.

The bank was robbed just after noon yesterday. Four men entered together. Two remained at the front door while their companions held pistols on Ray Perry, cashier, and Mrs. Carrie Watkins, assistant cashier, and forced them into the vault. The robbers took all the money in sight and backed, closing the vault door and throwing the bolt.

Forty or 50 citizens immediately joined in the chase. Deputy Sheriff Charles Curry of Frankston, Deputy Charles Emerson of Pomeroy and Constable Charles Slaughter of Frankston met the men in a small, stalled automobile 12 miles from here. Both groups began firing. Emerson was wounded in the chest and Slaughter in the hand.

The robbers, two of them dragging their wounded companions, dashed through roadside brush and soon afterward stole a truck from a passing driver, on which they placed their wounded and sped away.

FATHER FINDS DAUGHTER IN BEDROOM

VICTIM WAS KILLED BY PISTOL; APPARENTLY TRIED TO FLEE

(By The Associated Press)
AUSTIN, Dec. 11.—Slumped into a corner of her bedroom, the body of Mrs. Tom Carpenter, 35, was found early today by her father, A. W. Bankston. She had been shot with a pistol just above the left eye.

Mrs. Carpenter was clad in her night clothes. She apparently had

been disturbed early this morning, jumped from her bed, and covered in the corner, where she was shot.

Her father said he went to the room about six a. m., to awaken her as was his daily custom, and found the daughter dead.

HUSBAND CONFESSES
AUSTIN, Dec. 11.—Police said today that Tom Carpenter, 47, confessed to detectives that he had shot and killed his wife, about 25, "some time after midnight last night."

Police said Carpenter, in his statement, detailed how he had gone to the home of his wife, from whom he had been estranged five weeks, about 11 o'clock last night, and that he talked with her several hours. The shooting occurred, Carpenter told police, when his wife made a movement which he interpreted as "reaching for her pistol." After the shooting Carpenter said he fled out the back door.

He was disturbed early this morning, jumped from her bed, and covered in the corner, where she was shot.

SADLER DEATH HALTS SHOW
SHOWMAN'S FATHER IS VICTIM OF STROKE AT CROSBYTON

(Special To The Journal)
CROSBYTON, Dec. 11.—J. E. Sadler, 72, father of Harley Sadler, widely known and popular West Texas showman, died here at 8 o'clock Wednesday night. His death, due to a heart stroke, was unexpected.

Funeral services will be held Friday afternoon in Avoca, Jones county, where the body was sent today. Exact funeral arrangements were not known here.

Show At Big Spring
The Harley Sadler show was filling an engagement in Big Spring when the news of Mr. Sadler's death was brought to his showman son. The show was immediately closed.

In addition to Harley Sadler, the elderly man is survived by three other sons and a married daughter, residing in Weimar, Texas. The sons are Ferd and Leonard, farmers of near here, and Luther A., an Athlete banker.

DISCOVERY OF HOW ANTISEPTICS KILL BACTERIA MADE; MEDICINES PARBOIL GERMS COLD, CORNELL EXPERTS FIND

By HOWARD W. BLAKESLEE (Associated Press Science Editor) ITHACA, N. Y., Dec. 11. (AP)—Discovery of how antiseptics destroy bacteria was made public at Cornell University today.

They cook the germs cold—that is, coagulate as in boiling, but without the use of extra heat. Thus is bared a vulnerable side of microbes hitherto little known. It promises chemists and physicians a better target to guide them in making more fatal toxins.

Weakness Found. The parboiling weakness of the "bugs" was found by Dr. Wilder D. D. Bancroft, noted colloid chemist, and Dr. G. Holmes Richter, national research fellow, working under a Heckscher foundation grant. With ultra-microscopes and the new tests of colloid chemistry they were able actually to see the physical carnage among microbes caused by antiseptics and disinfectants. They report these medical remedies instead of producing chemical changes as many authorities have believed, nearly always make direct, physical attack upon the bodies of bacteria.

The medicines stick to the germs, or cause other foreign substances to stick—and in either event if enough of the substance adheres, it is all up with Mr. Microbe. Absorption is the scientific name for this process.

Eventually Kills Them. As a result of adsorption the living protoplasm in the bacteria thickens and irreversibly coagulates. This soon stops the microbes activity and eventually kills them. This is the effect, and the only important effect, says the report, of nearly all kinds of antiseptics and disinfectants. Formaldehyde is an exception, killing in part by causing chemical changes. There is an intimation of wide applications for the discovery. The report states any method which produces narcosis in higher animals is likely to retard growth and activity of bacteria and "if pushed far enough will act as a disinfectant."

Sixty per cent of the English-speaking people of the world are in the United States, and 70 per cent of them are on the continent of North America.

Habitual Criminal Statute Enforced

LAGRANGE, Dec. 11 (AP)—W. R. Brock, 55, married in jail here last week, will have to wait seven years for his honeymoon, if he serves the sentence imposed by a jury today on a charge of forger, brought under the habitual criminal statute. It was the first time an indictment of that nature was returned by a Fayette county grand jury. The defendant had served three years on a similar charge and pleaded guilty this time to forging a chattel mortgage.

Fourteen of the 48 states pay 25 percent or more of the cost of public education within their borders.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified croscote that is pleasant to take. Creomulsion is a medical discovery with two-fold actions: it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs croscote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to croscote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the croscote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

TECH DEBATE TEAM MEETS BRITONS

WILLIAM SEWELL AND W. CASTLEBERRY COMPOSE TEAM

Texas Technological college's debating team, composed of Bill Sewell and Wayne Castleberry, tomorrow night will take the platform against a crack team from England, composed of B. J. Crehan and D. Hope Elletson, in the gymnasium. The only engagement for the fall term, the question to be discussed is "Resolved, The Principle of democracy has been tried and found wanting."

The two local speakers will defend the negative side of the question. The two Englishmen have debated teams from the University of Nebraska, the University of Oregon, the University of California, Texas State College for Women, the University of Oklahoma, Denver university, Simmons university, and teams from several other colleges and universities in the United States. The Simmons team will be their last opponents before coming to Lubbock.

Both are veterans Sewell and Castleberry are veteran debaters at the local college, both backed by years of debating in high school and college. Sewell is in his fourth year on Tech's forensic squad while Castleberry is in his third.

Crehan, of the English team, is from the University of Liverpool. At present he is working toward a B. A. degree in social science and economics. He is active in political work for the Socialist party.

Young Elletson at this time is studying law at Oxford. The two will close their American tour in a debate with the University of Texas on December 15.

General admission for the debate will be 50 cents, according to Miss Annah Jo Pendleton, director of debates in Tech and acting head of the speech department. Students will be admitted for 25 cents.

Two Houses Burn Here Early Today Well underway before an alarm was sounded at the central station, fire destroyed one residence and did heavy damage to another early this morning. The alarm was received at 3:10 o'clock and when firemen arrived the houses were a mass of flames while another close by had begun to blaze on its north wall and roof.

The two residences, located at 1615 and 1617 Avenue E, were both vacant and cause of the blaze was undetermined this morning. The house at 1617 Avenue E, only partially damaged, is thought to have been property of C. E. Stephenson although owner of the other is not known.

Abernathy Woman Is Being Buried Today Funeral services for Mrs. W. L. Rea, 61, of near Abernathy, are being held this afternoon at the Church of God in the Lakeview community. Burial will be in Abernathy under direction of Bynum-Morgan funeral home.

Mrs. Rea died Wednesday afternoon at her home. In addition to her husband, Mrs. Rea is survived by eight children: Albert Daugherty, Redger Daugherty, Morgan Daugherty, Dee Daugherty, Mrs. Katy Elford, Mrs. Carrie Bright, Mack Rea and Emma Rea.

HE WAS RIGHT His Truck Wouldn't Make That Speed

OMAHA, Neb., Dec. 11 (AP)—"This truck," Leo Curtis told Judge Lester Palmer, "won't go 40 to 45 miles an hour."

"This truck," reiterated Curtis, "won't go 40 to 45 miles an hour. Let the police try it." Police took him up and a plain clothesman was assigned to drive it. He was arrested for speeding by the same officer who apprehended Curtis.

But your honor," the disguised police driver said, "I was only going 34 miles an hour by the speedometer."

Result: All police cars were sent to a shop for speedometer tests.

Warning Given On Displaying Plates

A warning that display of 1931 automobile licenses on cars before January 1 is a violation of the state law and violators are subject to a fine of not less than \$1 nor more than \$200, was issued here Wednesday.

Judge G. R. Scott stated yesterday that the lowest assessment meted out to a person found guilty of displaying the 1931 plates before first of the new year is \$13.14, or \$1 fine and \$12.14 costs.

"The state highway police have received orders from Austin to file complaints against all persons violating the law and we are warning them—already today I have warned two such violators," said Justice Scott.

AIR CIRCUS TO BE PRESENTED

"THE THREE HAWKS" TO STAGE THRILLS HERE FOR CHEST FUND

Thrilling stunts in midair, stunt flying, races, formation flying, wing walking and parachute jumping will be seen here Sunday afternoon when "The Three Hawks" make their appearance in Lubbock. The day's events will be held southeast of Lubbock near state highway No. 53. A percentage of the gate receipts are to go to Lubbock policemen who have agreed to give the money to the Community Chest.

"The Three Hawks" are government licensed pilots in government licensed aircraft. Personnel of the trio includes: "The Tommy Hawk," a three-place open sport plane, piloted by Robert (Whirlwind) Hohag, "The Mohawk," a special job for exhibition flying and painted in 21 colors, piloted by Paul (Streamline) Milner, "The Black Hawk," a six-passenger cabin monoplane, piloted by L. P. Quinn.

Stunt flying, spins, loops, barrel rolls, inverted flying and other air maneuvers will be executed by the trio. Other spine tingling events scheduled include loops without motor and upside down flights by Lieut. Carl (White) Leuth, wing-walking by Hohag and a parachute jump by Louis Tjaden.

Tjaden is billed to drop more than 1,000 feet before pulling the rip cord of his chute. Passengers also are to be taken aloft during the afternoon.

CATO WINS IN DAMAGE SUIT

INSTRUCTED VERDICT IS GIVEN HERE IN SHOOTING CASE

An instructed verdict favoring the defendant in the \$50,000 damage suit of Mrs. E. L. Bracken et al versus W. F. Cato, Garza county sheriff and his surety, American Surety company, was handed down Wednesday afternoon in United States district court by Judge Wm. H. Atwell.

The suit followed the fatal shooting of Mrs. Bracken's husband in the Garza county jail at Post. Mrs. Bracken asked damages for herself and her five minor children and a married daughter, Mrs. Dana Moran, and her husband also asked damages.

Was to Go to Pen J. H. Ramsey, deputy sheriff and jailer, shot and killed Bracken the morning of October 18, 1929. Bracken was in jail awaiting arrival of an officer to take him to the state penitentiary to serve a two year sentence for assault with intent to murder.

The shooting was reported to have occurred during an altercation between Ramsey and two unruly prisoners whose attempts to break jail previously had been frustrated by the deputy. Bracken was not involved in the attempted jail break.

Your Whole Family will Enjoy This MODERN WHITE LIGHT

HERE is a new light that will bring endless joy and comfort to the home without electricity. It gives a flood of the softest, mellowest modern white light that has ever been man-made. It does it so simply, so safely, and is so sanitary, it will startle and surprise you. Sunlight alone excels it. It makes sewing, reading, studying a pleasure. And above all it gives the utmost in efficiency and economy.

Saves Its Cost in a Few Months' Time Not alone does this remarkable new lamp give you an abundance of pure white light but it uses so little kerosene compared to the old style oil lamp, that it will actually save its cost in a few months, and continue to save and save and save, year after year. In supplying yourself with an Aladdin you are in reality making an investment which pays you liberal dividends as long as you use oil for lighting.

BURNS 94% AIR The Wonderful New Instant-Light Aladdin

Will Both Brighten and Beautify Your Home A match and a minute is all it takes to light it. Burns common kerosene (coal oil) with 94% air—only 6% fuel. Gives a modern white light nearest to sunlight. Burns without smoke, noise, smell or trouble. Absolutely safe. Operates as simply as the old style lamp and runs for 50 hours on a gallon of oil. Tested by 33 leading Universities and Colleges and every claim verified. Approved by Fire Underwriters and Good Housekeeping Institute. No other artificial light has such endorsements.

A Style for Every Purpose at a Price to Suit Every Purse Aladdins are modern too in style and finish—can be secured in table, vase, hanging, bracket and floor lamps—a style for every purpose and need.

Exquisite Shades—Hand Decorated in Either Glass or Parchment Beautiful multicolored shades in either glass or parchment are available—exceedingly decorative and pleasing in design. Plain glass shades too if you prefer.

Thought For Today

It is more blessed to give than to receive.—Acts 20:35. Great minds, like Heaven, are pleased in doing good, all the ungrateful subjects of their favors are barren in return.—Rove.

The Real Fact

Football games are being played for charity. Cities in registering their unemployed and urging householders to find odd jobs wherever they can. New roads are being laid down and new buildings are being built; factories are "staggering" their working shifts, so that a given number of jobs can be had to give the unemployed a chance to get on their feet.

Plainly, the nation is devoting itself to the relief of the misery brought on by unemployment. If anything that might be done is being done, or at least attempted, it is hard to think what it could be.

Nevertheless, without in any way criticizing any of the relief measures that are being undertaken, it would be a good thing if we could be made to understand that we have no reason to feel especially proud of ourselves for the work. No matter how splendidly these relief jobs are performed, at the end we shall have done no more than the very least we could do in decency.

For this whole relief program is at best only a stop-gap measure—something to tide us temporarily over a sudden crisis. Even after due allowances are made for the fine spirit of charity and brotherhood that enters into it, in the last analysis it is not a pretty business.

What does this whole program of relief work mean, anyway? Simply that our civilization has proved itself to be terribly defective somewhere; simply that the richest country in the world, the country that has more millionaires than any other country on earth, a country that boasts only recently about the imminent abolition of poverty, finds itself utterly unable to provide some millions of its citizens with a chance to earn a living.

Giving a hungry man a bowl of soup and a cup of coffee is a fine thing. It is like a very good friend sending coal to families that cannot afford to buy any, and to provide part-time work for men who have been idle. But such things only scratch the surface. What the unemployed worker needs is a job—a real job, full-time and regular, carrying with it the assurance that it is going to last as long as he does his work decently.

That, of course, is elementary. But it needs to be said, and to be repeated over and over again. For if it is not, we are too apt to get self-satisfied, and forget that our whole economic machine needs a bit of overhauling.

Probably it will be necessary for this relief work to continue through most of the winter. When spring comes, most of it can be discontinued, as there will be a revival of business. But the fundamental problem will be just as bad then, as it is now.

Just what the solution may be is a puzzling question. The important thing, however, is to remember that a question that has to be answered. All of our relief work is only a temporary expedient.

Not Finished

There is not much that can be said about the California supreme court's second refusal to recommend a pardon for Warren K. Billings; not much that can be said, for the simple reason that practically everything has already been said, over and over again.

Billings and his comrade in the 1916 bombing case, Tom McCony, are thus due to lie in prison for a while longer yet. But no one need assume that the last has been heard of this famous case. It is not a closed issue. A tremendous number of people are firmly convinced that a monumental injustice has been done, and the California justices realize that they will eventually have to look into the case again.

THE PLAINSMAN

Says: That Girl on Broadway says being a washwoman's daughter has its good points. You can have a line of your own.

Oh, the bird who writes a column is a hero and a bum! He takes the slings and arrows and the roses when they come! He feels the sting of wrath and jibe. But shrills to every cheer 'Till he knows not when to laugh or cry.

THE Plainsman's telephone has been doing some mighty left-handed, plain and fancy ringing since the new twist to the gas company-school board negotiations. Since it's generally popular to 'top on' a utilities concern, the great majority of the calls have been of the 'pour it on 'em' variety. However, in fairness to the gas company there have been several calls to the effect that "the gas company can run its own business" so The Plainsman, like in the little jingle above, is unable to report at this time whether he's a hero or a bum. Time alone will tell!

But there's this much about it. The ruckus is going to get to Independence, Kansas, where John D. Rockefeller's boy friends are located, and in the final analysis, they're going to decide the issue. If enough thunder is raised by the city administration, the newspapers, the school board and the people, something will be done. If not—well that's that.

The gas company's franchise has only about 16 more years to run and that's a short period for a franchise. When renewal time comes along it's going to mean a lot to the gas company to have public opinion in its favor. For that reason The Plainsman is hopeful for a satisfactory conclusion in the rumpus.

THERE'S one thing The Plainsman wants to say in regard to the differences this column, the city administration and the school board has with the gas company. That is, the local chiefs of the company are not to be held responsible if the heads of the Standard-owned concern balk against giving Lubbock school the same "break" El Paso and Amarillo schools have gotten. But if the 'break' does come—they ought to get the lion's share of the credit.

This isn't any brother-in-law stuff. Mr. R. F. Hinchey, vice-president of the company, doesn't know The Plainsman. The Plainsman doesn't know Mr. Hinchey. But this column learns from an authoritative source that Mr. Hinchey is doing everything he can to settle the question and the people who know him say he's as fine a man as ever came down the pike.

He hasn't been in Lubbock as long as W. O. Dan Daniels, the commercial manager, who has made Lubbock a crackerjack citizen. Dan is helping too, and if the thing doesn't shape around like it should, we'll just have to blame Czar Nelson K. Moody, president, who can't even be coaxed to answer a letter.

Mayor Jerry Clements has gone to work in earnest on the proposition in his own way and because Jerry has slipped into the harness The Plainsman hopes for and really expects an early settlement. It will mean a big saving to the schools as well as a big slice of public favor for the gas company. And anyway, Lubbock is entitled to as good a proposition for its schools as any city—bar none.

That Man on Avenue Q says science has scored another triumph. Canned soup is now being put up so it may be used in several keys.

ODD facts: Poney community was named after the father of W. O. Dan, vice-president of the First National bank. Slaton was named for O. L. Slaton, president of the same bank. Dr. J. W. Hunt, president of McMurry college, used to be editor of what is now the Lubbock Avance and his sister, Mrs. George R. Bean, was typesetter. Mrs. Bean, incidentally, has been on the Plains longer than any other member of the Lubbock County Pioneers association and her father's home stood where the City hall is now. Max Coleman reports that the first cemetery in Lubbock county was located on what is now Fourth street, between Avenues P and Q and that Judge J. D. Caldwell, then a merchant, made the first coffin.

Leaves on the cottonwood trees are sticking to the branches longer than usual this year. What is now the Lidel hotel was Doctor Overton's hospital, forerunner of the Lubbock sanitarium, and Dr. M. C. Overton, ex. of the Lubbock sanitarium and Dr. Charles J. Wagner, of the West Texas hospital, were partners in a hospital formerly housed in the Lubbock Inn. Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes—Byron

Federal Foodstuffs Survey Shows People Today Consume More Meat, Fats, Oils And Milk Than Thirty Years Ago

By RODNEY DUTCHER, NEA Service Writer WASHINGTON, Dec. 11.—The average American annually consumes 145 pounds of meat, nearly 30 pounds of breakfast food, 214 quarts of milk, 177 pounds of wheat flour and 24 of corn meal, 33-4 of corn meal, 33-4 of macaroni, spaghetti and noodles, about 110 sticks of chewing gum, 14 pounds of lard, 10 pounds of cotton-seed oil, 17-1-2 pounds of butter, 4 pounds of cheese, 21-2 or more gallons of ice cream, 18 dozen pounds of evaporated milk, 18 dozen eggs, 20 pounds of chicken, 31-2 pounds of strawberries, 20 pounds of oranges, 5-1-2 pounds of grapefruit, 4-3-4 of lemons, 22 of bananas, 68 of apples, 16 of peaches, 9 of pears, 21 of grapes, of canned fruits, half a watermelon, 3-1-2 pounds of grapes, 6-2-3 heads of lettuce, 10-1-2 pounds of onions, 3 bushels of potatoes, more than a pound of cauliflower, 4-1-4 pounds of celery, 11-1-2 of corn, 2-1-2 of carrots, 9 of dried beans, 2 of fresh beans, 4 of green peas, 2 of spinach, 18 of sweet potatoes, of tomatoes, 27 of sweet potatoes, 28 pounds of canned vegetables, 21-4 pounds of canned salmon, 12 ounces of sardines, about 11-4 pounds of smoked, dried, salted and pickled fish, 61-2 pounds of peanuts, 11-2 pounds of walnuts, 12 pounds of coffee, less than 1 pound of tea, 102 pounds of sugar and 12 pounds of candy.

Plus many other things, of course, in smaller quantities. Those figures represent what the foodstuffs division of the Commerce Department, after thorough research, calls the apparent per capita consumption of principal foodstuffs. It has compared the amount of various foods consumed about 30 years ago per capita with the amount in the period of 1922-27 and it finds that:

Cereals (wheat, flour, rice, corn meal, breakfast foods, etc.) have decreased in per capita annual consumption 120 pounds, from 350 to 230. The average person eats 145 pounds of meat, an increase of 3 pounds, although it was up to 155 pounds in 1907 and down to 120 in 1917.

Consumption of fats and oils increased 10 pounds, from 34 to 44. Dairy products consumption, expressed in terms of milk, increased from between 800 and 900 pounds to 1040.

Fruit consumption increased from 169 pounds per person to 192. Corn bread and corn meal mush had a terrific decline in popularity, one judges, because whereas the average American consumed 103 pounds of corn meal in 1899 he only ate 24 pounds a year from 1922 to 1927.

Beef was the most popular meat in 1899. Now it's pork. The average annual consumption of beef went down from 67.8 pounds to 61.4 and pork eating increased from 64.7 to 70.2. Mutton and lamb dropped from 6.8 to 5.3 and veal went up from 3.5 to 8.

Less Butter Used Now Butter is about 1 pound per person less popular than in 1899. Ice cream is eaten in about the same proportion as 10 years ago.

Among canned fruits peaches are most popular—each of us eats 3 canned pounds of peaches a year and 2.9 of canned pineapple, which in Lubbock was located near where the Burrus elevators now stand. Dr. P. W. Horn used to be a reporter,

When I was in army service there was a scare rumor started that German spies were putting ground glass in the American doughboy's food. We could not find any ground glass, but a husky sergeant offered to eat some ground glass to watch its effect. He did so for several weeks and remained in the best of health.

Questions From Readers M. J. B. Rochester, N. Y.: "I have cooked food in aluminum dishes for 25 years. Very recently I was told this is one of the causes of cancer. I hunched 'agateware' from my kitchen on account of the easily chipped glass surface, which I was told caused appendicitis. This rather puts me in the position of choosing the one with the less evil effect."

Answer: Cooking in aluminum will not cause cancer, and "ground glass" will not cause appendicitis. Comes next. Per capita consumption of canned vegetables for 1922-27 included tomatoes 7.4 pounds, baked beans 4.7, corn 4.3, peas 3.9, string beans 2.1 and less than a pound each for the others.

Perhaps 2-1-2 loaves of bread a week is about the per capita consumption for most city families, as a study in 15 cities of Pennsylvania two years ago showed average per capita consumption of 2.33 loaves or 3.15 pounds.

Consumption of potatoes is popularly supposed to have decreased, but the foodstuffs division gives a per capita consumption of 3.12 bushels for 1899 and 3.11 bushels for 1927.

In New York With Swan Glibert Swan

NEW YORK, Dec. 11.—The group around the round table was talking about the old days of the Metropolitan Opera House.

And whenever the past tense of the tense past, if you prefer—bobs up in connection with music in Manhattan, the wraith of old Oscar Hammerstein is certain to wander through the conversation.

At any rate—so goes the tale—Hammerstein had sold his opera house for a million dollars to the Metropolitan. And he was found shaking his head in wonder at this fortune.

"Vy should they pay me a million?" he asked with a twinkle in his eye. "They pay all this money for an opera—and there ain't any opera. Veil—not good opera, anyhow."

Which caused Keyly Allen, one of Manhattan's better raconteurs, to recall the time when a certain prominent singer was to appear in a certain widely heralded production.

This woman, long since departed from the stage, has married into European royalty and maintains fashionable and smart salons on both sides of the Atlantic.

At any rate, a court action followed Hammerstein's disagreement with the merits of the performance and the show.

"Very well," commented the old impresario. "All I gotta say is this: I want a jury trial and if any jury can sit through just three acts of the show—and there's four—I'll pay any damages."

"And vot I've got furder to say is that ven they put dot woman on as a singer, someone lost a swell cook."

It was one of the out-of-door roof repairs, entering particularly to summer trade. But this was a particularly cruel summer. For weeks the weather remained unseasonable. And, as the result, business suffered. The tables on the roof went empty, the entertainers performed to empty seats.

One day a New York scribe found the "old man" in a disconsolate mood.

"What's the matter Mr. Hammerstein? Isn't the roof doing so well?"

"Doing so well?" came the reply. "How can we get customers up on the roof when the manager stands in the lobby with a winter coat on?"

Hammerstein's Victoria theater was the pride of his heart. It is now the Rialto, a moving picture theater, though the stage manager has been there since the days when the "old man" had his famous musical house there.

In those days there was a bar on the mezzanine floor, and there are actors about Broadway who still recall the days when, between acts, they would run up for a "snifter" in order to be in good shape for the coming acts.

Said Scouty, "Gee, I wouldn't miss the water on the oasis. It's just as cool as it can be. I'll drink more than my share. The rest of you can do the same and you'll be mighty glad you came. Then when we're through with drinking, we'll snooze in the open air."

"Oh, no!" the Travel Man replied. "It's better that we go inside the little shelter building. Then we'll be out of the sun. You see, the sun out here is hot. 'Twould overheat you, like as not. Please hurry up and have your drinks. Then right inside we'll run."

"Oh, will I sleep? You bet I will," exclaimed "Tired" Little Clowny. "I am sure it will feel grand. The Travel Man is right. I think I know I couldn't sleep a wink if I was forced to flop down in this spread of blazing sand."

For 'bout an hour they all slept sound. When they woke up again they found that everything was set to go. The Travel Man called out, "Hop in the car. We're leaving here. Don't worry. There is naught to fear. We're going to cross the desert and find what it's all about."

Once more the big truck moved away. It was a very pretty day. Said Copsy, "This is really quite a funny looking land. I don't know just where we are bound, but every time I look around, I cannot see a single thing except a stretch of sand."

"Oh, I see something," Carry cried. "Some men are coming See them ride! They're both on lazy camels. My, I'd much prefer to walk. Right soon both of the camels stopped and to the ground the riders hopped. The Travel Man walked up to them and had a friendly talk."

(The Tinymites run into a sand-storm in the next story.)

Colds and Coughs Yield To Calotabs

Medical writers agree that the important point in the treatment of a cold, or cough due to a cold, is to relieve the congestion in the nose and throat, thereby preventing serious complications which may follow a neglected cold. To stop this congestion Calotabs are the accepted and standard remedy.

Calotabs, the improved calomel compounds tablet was introduced.

Now that science has robbed calomel of its nausea and danger, making it pleasant to take and perfectly safe for general use, over forty million Calotabs are consumed in the U. S. yearly with only the most pleasant and satisfactory results. In millions of

homes Calotabs have proven their superiority in the prompt relief of colds and coughs due to colds.

One or two Calotabs at bedtime with a glass of sweet milk or water. No salts or purgatives. No nausea nor the slightest interference with your eating, work or pleasure. Next morning the congestion has subsided, your cold or cough is relieved, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you wish—no danger.

Get a family package of Calotabs, containing full directions, only thirty-five cents. Trial size, ten cents. At any drug store. (adv.)

EDDIE SHEA IS WINNER OVER LA BARBA

ITALIAN YOUNGSTER IS CHALLENGER FOR THE TITLE NOW

BY CHARLES W. DUNKLEY Associated Press Sports Writer CLEVELAND, Dec. 11.—Eddie Shea, two-listed Italian youngster from Chicago, is up at the top of the heap today as a challenger for the world's featherweight championship.

The match, one of three 16-round contests, was fought under auspices of the Cleveland News, which sponsored the show to raise funds for Christmas charities. It drew the biggest crowd to ever witness a boxing show in Cleveland with gate receipts at \$42,300.

Jackie Fields of Los Angeles, former world's welterweight champion, had no trouble in defeating Paul Pirrone of Cleveland in 10 rounds, while Johnny Farr of Cleveland battled out a decision over Ray Miller, Chicago lightweight, in another 10-rounder.

Amarillo's Golden Sandstorm leaves the Panhandle tonight on a mission that is strange to it. It will arrive in Fort Worth in the morning and Coach Cherry will send his district and bi-district champions through a good workout on the Texas Christian University field tomorrow.

No matter how you look at it, the Comanche High school Tigers are favored to lick the Sandies and this goes on to a state schoolboy championship by beating Amarillo or Tyler next week.

The Navarro county outfit has passed an updated and united season, and has played some of the toughest teams of the state. Waco and Cleburne had fair combinations, and Oak Cliff had a powerful team.

Be all that as it may, Amarillo is bound to give the Central Texas something to think about in the holidays. Were the game to be played in Amarillo, the Sandies would enter the game on even terms, if not with a slight edge.

Tech coaches and officials are in Dallas today attending the meeting of coaches and officials from every school in the Southwest Conference, Texas Conference, T. L. A. and will go into a session with the executive committee of the Texas Conference to present reasons why Tech should be ex-

WESTERNERS IN FOR STATE GRID HONOR SELECTIONS TEXAS COLLEGES A WAITING REPORT

KNUTE ROCKNE, MASTER MIND OF U. S. FOOTBALL, IS SICK AND TIRED OF IT ALL; BAD LEG BOTHERING HIM AGAIN

(By The Associated Press) SOUTH BEND, Ind., Dec. 11.—Seated on football's throne and gazing reflectively on all the trophies and testimonials of greatness he and his Notre Dame eleven have won, Knute Rockne today pondered: What price glory? What price success?

He was ill, physically and mentally weary, and worried if it was worth it all. He was tired of football, tired of the plaudits of the crowds, and yearned to cast it all aside.

When the tumult died after yesterday's rousing receptions for the master coach and his team, back from their conquest of Southern California, Rockne held on until he could say a few words to the student body and the South Bend citizenry and then stumbled to bed.

SLATON LEAVES FOR OLNEY TO BATTLE FOR REGIONAL CLASS B CHAMPIONSHIP

(Special) SLATON, Dec. 11.—Coach Paul Wright and twenty-two of his Class B championship Tigers of Slaton High school left early this morning for Olney, where they meet the Olney High school eleven for the regional grid championship of Northwest Texas.

Apparently every man was in good condition, the injured ones having recovered in time to get in a couple of days practice before leaving for the site of the most important game of the season. The team travelled by automobile, Slaton business men offering their cars and taking them to Olney.

"I have just notified the account of the selecting of the Class B football eleven for this district. You state in the article that these teams together with the honorable mentions were selected by the coaches of the district. I wish you would explain the fact that we were not notified of the meeting wherein they were selected or even notified of the method of selection. I am sure that this was an oversight, but it seems to me that this end of the all-district teams.

"I am willing to admit that we had no outstanding players, and probably none that are worthy of being placed on the first team, but surely you could find places on the team in as much as they could not have been of any service to their team in winning a place in the district race. If you failed not to satisfy all the people, you would not be working for a mere salary—you would be a genius. I do want to thank you for the consideration given our football club by your section. We appreciate that and do realize that it has helped us.

To which we humbly reply that the sports department of this paper had nothing whatever to do with the selecting of all-district teams for Class B. It was repeatedly announced that the coaches would pick their teams, that we would count the votes from the composite selections, and announce the results. True, not all of the coaches filled out the blanks sent out by us and returned them in the self addressed stamped envelopes enclosed. Littlefield's coach was one who failed to send in a selection. The blank was mailed to Coach Tucker, whom we understand

MCGEEHEE MAY BE ELECTED ALL-STATE

(By The Associated Press) CLEVELAND—Eddie Shea, Chicago, outpointed Fidel La Barba, Los Angeles, (10), Jackie Fields, Chicago, outpointed Paul Pirrone, Cleveland, (10), Johnny Farr, Cleveland, outpointed Ray Miller, Chicago, (10).

MYTHICAL SELECTIONS NOW CONSIDERED BY STATE PAPERS

Although they were able to finish no higher than third place, the result of losing one game and tying another during the season, Lubbock's high school Westerners of 1930 will vie with gridsters from championship team members all over Texas for honor positions on the state schoolboy mythical selections. This was indicated yesterday when a popular state paper waded the Journal for a picture and data relating to one of Lubbock's greatest lineemen.

It is possible that other members of the powerful Western team of the late lamented season will gain recognition on all-state selections, but it is fairly certain that Milton McGehee, all-district guard and one of the mainstays of the Lubbock line, will place high in the honor selections.

McGehee, Big Mac to Coach Henry Frnka and his team mates, has been one of the outstanding lineemen of District 1 for two seasons, and was doped for all-district honors before the season started. He has played in nearly every game this season, being barred from one or two games because of more or less serious injuries. Aggressive, determined, sprited and powerful within, Big Mac has shown service against the best of them, and has held down his position with great success.

McGehee is capable of playing almost any line position. He has been known to act as center in practice sessions, and has held down end in scrimmage in the Lubbock-Amarillo game when McCasland, a regular tackle, was out with injuries. McGehee played the entire game at tackle, and due to his fine work there were few gains made over his side of the line. A fighter to the limit of his extensive ability, cool, clear-headed and competent, the 165-pound youth has earned every distinction that has come to him and will come to him.

He was a unanimous favorite with coaches, officials, and sports writers for all-District 1 honors in the recent election, coping a big majority of votes.

Stribling Meets Griffiths Friday

(Special) CHICAGO, Dec. 11.—W. L. "Young" Stribling of Macon, Ga., and Jerry "Tuffy" Griffiths of Sioux City, Ia., completed their battle plans today for their ten round bout in the Chicago stadium tomorrow night.

Stribling was still a two to one favorite, chiefly because of his earlier experience and harder punching. Griffiths, however, was accorded a chance to outpoint his higher ranking foe. Griffiths weighed 186 yesterday while Stribling scaled 188.

FIGHTS LAST NIGHT

(By The Associated Press) CLEVELAND—Eddie Shea, Chicago, outpointed Fidel La Barba, Los Angeles, (10), Jackie Fields, Chicago, outpointed Paul Pirrone, Cleveland, (10), Johnny Farr, Cleveland, outpointed Ray Miller, Chicago, (10).

SPUR MEETS POST ALL-STARS FRIDAY

(Special) SPUR, Dec. 11.—The Spur High school Bulldogs, every man in top form, will meet the Post All-Stars in a post-season game here tomorrow afternoon. Light workouts every afternoon this week preface a shadow scrimmage and a signal drill this afternoon as the Bulldogs, unofficial champions of the southern half of District 2, prepare for the game.

The Spur team is pointing to the game next week with the Lubbock ex-Westerners at Lubbock. The game, proceeds of which will go toward the benefit of charity, will be played at the Texas Tech field on Wednesday afternoon. It was formerly announced that the game would be played on Thursday, but the date was moved up a day on account of final examinations at Lubbock High next week.

COLLEGE YOUTH BESTS SONNENBERG

(Special) LOS ANGELES, Dec. 11.—One of the professional wrestling world's heavyweight title claimants, Gus Sonnenberg, has been elbowed out of the circle of champions by a younger collegiate youth, Don George.

The former national amateur champion from Michigan university disposed of Dartmouth and Detroit universities' flying tackle exponent, two falls out of three here last night.

The upset terminated Gloom's reign of 23 months, in which he never dropped a match.

Rice to Lose Only Two by Graduation

(Special) HOUSTON, Dec. 11.—At about the time of the year when it is customary to hear lamentations from various Southwest conference schools as to football stars to be lost through graduation, there is news, perhaps, in information from Rice Institute here that only two men will leave via that route.

They are Captain Billy Morgan, the stalwart guard, and George McCasland, an end, who was pushed, on occasion, by the youngsters to retain his regular place.

Final examinations, of course, might take a toll from the squad.

SUBSIDIZATION FINDINGS TO BE GIVEN

(By The Associated Press) DALLAS, Dec. 11.—Three major items faced the Association of Texas colleges in its annual session here today.

THREE MAJOR ITEMS UP IN MEETING TODAY AT DALLAS

First, and deemed by President D. A. Penick of the Southwest Conference the most important item, was the promised report by Major John Griffith, special investigator, who has devoted months to ferreting out any evidence of subsidization in Texas schools. Just what evidence the Big Ten official has accumulated, if any, has been kept secret pending today's meeting.

Secondly, and of intense interest to sponsors of the Dixie classic, annual all-star benefit tilt here, was the scheduled vote by the Southwest conference faculty committee on the question of abolishing the so-called "anti-senior" rule passed a year ago. The rule forbade any senior playing in post-season football contests, on penalty of becoming ineligible to participate in basketball, baseball and track.

Third, there was the annual problem to admit or not to admit another member to the Southwest conference. Centenary college of Shreveport and Texas Tech of Lubbock were regarded as certain applicants.

To Maintain Line-up Prospects were, however, that the seed would fall on barren soil, as the conference seems disposed to worry along for a while, at least with its present seven-school lineup.

While the section's major circuit was thrashing out these problems, the executive committee of the Texas conference and Texas Inter-collegiate Athletic association were to review the year 1930 in their respective sessions.

Maroons Drilling For Tilt With Tyler

(Special) AUSTIN, Dec. 11.—A heavy signal drill was on tap today for the Austin High school Maroons, who Saturday will meet Tyler in the semi-final in the state high school football championship race. The Reds will taper off their training tomorrow with a light workout and limbering up exercise.

Sell-Out Sought For Service Tilt

(By The Associated Press) NEW YORK, Dec. 11.—The Army-Navy football game Saturday is going to be a sell-out if there is any means within the powers of the various people who are handling ticket sales in New York to make it one.

With a few thousand good seats still to be sold, one of the biggest selling stunts ever to be tried is scheduled to take place with a grand windup when the Navy team, arriving here tonight, joins the balmy parade.

A parade up Broadway, in which a 90-piece navy band and detachments from various Army and Navy units around New York will take part, is to start the program. The parade will end at 48th street and Broadway where a concert by the band is expected to stimulate sales from 45 army trucks in which will be in the line.

Whether the game is a complete sell-out, the prospects are that it will be highly successful as a means of raising money for the benefit of unemployed. And as a great football spectacle the outlook is even better. Reports from the two practice fields indicate that an offensive battle is to be expected rather than a waiting game and that it may result in a duel which each team tries to outscore its rival.

WARREN HEADS SOONERS

(Special) NORMAN, Okla., Dec. 11.—Guy Warren of Norman, flashy little halfback was elected captain of the University of Oklahoma football team for 1931 at a banquet for the 1930 lettermen here last night. Warren is a junior.

The Happy Task of Choosing Christmas Gifts is Now the Rule—Choose Practical Gifts Here

There is a joy about Christmas shopping that is in the air just now—a thrill to the hurry and rush—to hearing the tinkle of the Salvation Army Bell at the corner—to seeing the green and red decorations on every hand. It's almost Christmas.

We are again featuring the ideal of practical gifts—stressing it even greater than in former seasons. We have refused to believe that there is any actual "depression" here on the South Plains so we present you with a store full of the finest of practical gift items. Choose them now, for experience has proved that last minute shopping is far less satisfactory all around.

Ladies' Underwear Is So Pretty And Dainty For Gifts

Some of the most unusual things that we have ever featured are now on display. Gowns that are unusual—new types in Bloomers and Undies—especially striking Lounging and Sleeping Pajamas.

- Crepe De Chine Undies**
Unusually high qualities in crepe de chine and satin—garments that again have the lacy touch that makes them so intimate—Gowns, Teds, Dance Sets, French Fancies—just imagine them in pretty Christmas wrappings. You'll be decidedly pleased also with the moderate prices.

LEGION PLANS ANNUAL DRIVE

Final plans for the annual membership drive of the Allen Brothers post, American Legion, will be formed tonight at the regular meeting of the post, according to announcement by Tom H. Carter, chairman of the membership committee and director of the campaign.

The drive will be started tomorrow morning and an effort will be made to obtain at least 250 members for the local post. The chairman tonight will appoint 10 men to work with the membership committee and each of the chosen ten will be expected to select one or two legionnaires to aid him.

Quota Is Increased
The membership quota heretofore has always been 200 but this has been increased to 250 for 1931. Carter states. Paid memberships in the Legion this year totaled 230.
In addition to Chairman Carter, Legionnaires composing the membership committee include Tom Barber, Glen Burson, J. B. Jones, J. O. Graham, J. C. Dunkin, W. G. Doss, C. M. Eoff, L. A. Howard and Hamp Spillar.

Employee of Fort Worth Public Schools Relates Experience with Konjola

MRS. DAISY DAWKINS

"The sharp constant pains of rheumatism in my limbs were so severe I could scarcely bear them," said Mrs. Daisy Dawkins, cafeteria employee in the Fort Worth Public schools residing at 1711 Washington avenue, Fort Worth. "I suffered in this manner for eight years. My knees and ankles were stiff, sore and swollen, and I became very nervous. Indigestion, too, caused me much misery and distress.

"Konjola certainly made a remarkable change in my condition. Rheumatism vanished entirely and my limbs are much more flexible than they have been for years. My nerves are calm and indigestion no longer bothers me. I feel better in every respect and am glad of this opportunity to tell what Konjola has done for me."

Konjola is free from alcohol or nerve-deadening drugs.
Konjola is sold in Lubbock, Texas, at Bowen's drug store, and by all the best druggists in all towns throughout this entire section.—Adv.

Are MOTOR BUS Companies REGULATED?

YES

They are under the constant supervision and control of the Motor Transportation Division of the Texas Railroad Commission with headquarters in the State Capitol at Austin.

Four inspectors travel over the State continually checking up on motor bus operators and reporting violations of the law to the proper authorities, who prosecute these cases like any other offense.

Special permits must be obtained by bus companies before they can legally operate; insurance must be provided by the company and other requirements designed to promote the convenience and security of the traveling public are required of all legal operators.

REAPPORTIONMENT OF CONGRESS NOW BEING STUDIED; LARGE CENSUS GAINS ARE REVEALED IN 3 REPRESENTATIONS

(By The Associated Press)
WASHINGTON, Dec. 11—A picture of congress in its present proportions is being prepared by the census bureau as a basis for reapportionment.

congressional district lines laid out 20 years ago has proven a ticklish task for the census geographer. Eighteen cities had to be carefully checked, precinct by precinct, to give each representative his correct constituency.
After days of detailed studies of Detroit, the census bureau soon will be able to inform Representative Hudson, of Michigan, the exact population of his district, the most populous in the United States. It will be close to 1,300,000.
Texas, to which 3 more representatives have been allocated, now has 511,276 in its eighteenth district, represented by Marvin Jones. Three other districts exceed 400,000.
