## 1957 Cotton Crop to Double Last Year's Production With 25,000 Bales in County

IT ISN'T JACK and his beanstalk (left), it's just farmer Rodney Walker with a stalk of his irrigated Mitchell County cotton part of the greatest area crop in recent years.

### First Bale Signals Top Crop, Gins Say

Mitchell County ginners Thursday predicted that the fall cotton harvest would reach approximately 25,000 bales. The huge machinery in gins around the county ground into action this week as the initial handful of bales were ginned.

And where ginning had not started, workers were busy preparing the gins for harvest which promises to double that of a year ago.

The county's first bale of cotton was ginned at Westbrook last Friday.

Five bales of cotton have been ginned so far at Buford and each of Loraine's three gins has produced two bales.

No cotton had been ginned in Colorado City Thursday, but the first trickle from county fields was expected to reach gins here late this week or early next week, local ginners reported.

The first bale of cotton was ginned at Loraine Saturday by the Coop Gin. It was raised by Joe Garcia on the A. D. Palmer farm a mile northwest of Loraine.

Garcia received a premium of over \$100.

The county's first bale, produced near Westbrook by H. H. Allard, was on display in Colorado City at the front of the National Bank building for three days this week.

A. L. Young, manager of the Westbrook Gin said that more cotton was being pulled in the area and that he expected the gin to handle about 2,500 bales during the harvest.

T. T. Smith at Buford reported Thursday that five bales had already been ginned at the Buford Gin. Smith said he expected about 3,000 bales.

Operators of Loraine's three gins estimated that the cotton harvest in that area would run to 9,000 bales or more.

Rodney Walker at Producers Gin in Loraine said he was looking for 2,500 bales of cotton this fall.

H. G. Holmark, manager of the Gulf Gin on the east side of Loraine placed his estimate at 3,000 bales.

At Loraine's Coop Gin, E. J. Schrader said that he expected to gin 3,500 bales this fall.

Loraine ginners, who have each ginned two bales, said that the main bulk of cotton in that area would not be ready to gin for two or three weeks at least.

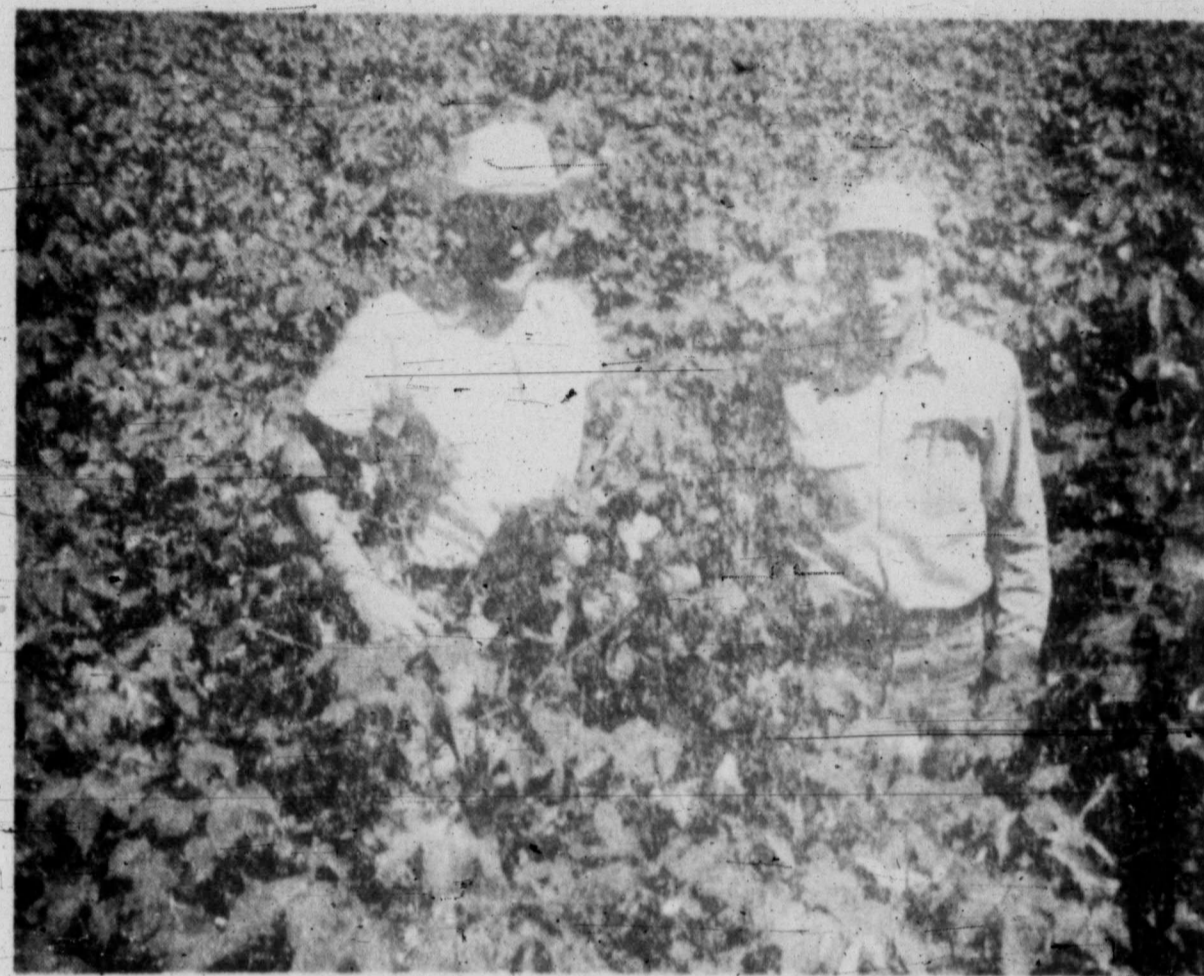

The irrigated crops are running later than the dry land cotton in the area, they said.

Most Colorado City ginners said they were expecting their first cotton soon—either this week or next.

W. M. West at Swift and Company Gin said he expected to gin 2,000 bales and expected a small amount of cotton to begin to come in next week.

Del Yeakum, manager of the Farmers Gin in Colorado City estimated his share of the 1957 crop at 2,500 bales.

ALMOST READY FOR HARVEST. The irrigated cotton shown here will be ready for harvest in approximately four weeks, according to its grower, Rodney Walker (right). The cotton is part of 26 acres raised by Walker on land south of Loraine.

### Experimental Cotton Offers Good Yield

Most of the cotton grown in West Texas is what is known as short staple cotton. It has a shorter staple length than the long staple cotton which produces fibers from 1 1/2 to 2 1/2 inches in length.

But at least one farmer in Mitchell County is growing long staple cotton, and his experiments are being conducted all over the area in the search for higher farm incomes.

Wayne Walker, who has managed the Producers' Cotton Planting Service since 1948, has been growing long staple cotton on a 20-acre tract

near Colorado City since 1948. He has found that the long staple cotton produces about 10 percent more lint than the short staple cotton.

Walker points out that the long staple cotton is a more expensive variety to grow, but the extra yield makes up for the extra cost.

Walker said that he has found that the long staple cotton is a more profitable variety to grow than the short staple cotton.

IN ST. LUKE CHURCH

Miss Bobbie Dee Carter Becomes Bride of Walter Earl Johnson

Miss Bobbie Dee Carter became the bride of Walter Earl Johnson last Friday evening in a double ring ceremony in St. Luke Methodist Church.

The bride's father and step-mother are Mr. and Mrs. O. D. Carter, of 834 East 14th Street. Her mother is Mrs. Roger Hines of Abilene.

Parents of the bridegroom are Mr. and Mrs. J. A. Johnson of 1620 Hickory street.

Rev. Joe McCaskey, pastor of the Westbrook Methodist Church officiated in the several-step ceremony.

Church altar was marked by an arch of candelabra and twin baskets of white gladioli. White satin bows accented family pews.

Mr. Carter gave his daughter in marriage.

She wore a beautiful gown of Eleanore-type lace and tulle over white tulle taffeta. The bodice, covered with lace and draped with plaited tulle, was fashioned with an escaloped Sabrina neckline and long sleeves which tapered to points over her hands. The princess styled skirt featured a short pedum of scalloped lace and a back panel of tulle which swept into a skirl at the bride.

Her waist-length veil of white tulle fell from a small lace hat. She carried a cascading bouquet of pink rosebuds.

Diamond earrings, belonging to the bride's mother, served as something old; her wedding attire, something new; and a starter, something blue. She wore a string of pearls borrowed from Miss Nell Johnson, the bridegroom's sister.

Howard Hardcastle sang "The Lord's Prayer". He was accompanied by Mrs. Jesse Watson, pianist, who also presented traditional wedding music.

Miss Nell Johnson was maid of honor. She wore a beauteous length dress of beige tulle and taffeta, which was designed with a Sabrina neckline and three-quarter length sleeves.

She carried a hand corsage of pale pink carnations.

Miss Janet Sue Carter of Abilene, sister of the bride, and Dany Fisher, the bride's cousin, were bridesmaids.

James Carol Moody of Westbrook was best man.

Serving as ushers were Kerry Savant of Westbrook and Jimmy Cawthon of Cumbert, cousin of the bride.

Mrs. James Carol Moody of Westbrook, registered wedding guests.

The wedding couple was honored at a reception in the Carter home following the ceremony. The bridal table, laid with a crocheted cloth over pink, was centered with the bride's and maid of honor's bouquets.

Arrangements of white gladioli, lilies, queen's wreath and Dainty Bess rosebuds decorated reception noons.

Miss Sue Clark ladled punch. Mrs. Lennie Wyrosdick served. The three-tiered wedding cake, which was topped with a miniature bride and groom.

For traveling the bride wore a brown velvet sheath dress, fashioned with a short fitted jacket. Beige accessories and a corsage from her bridal bouquet completed her attire.

The newlyweds are residing at 235 East 11th Street following their brief wedding trip.

The bride and bridegroom were graduated from Westbrook High School. Mr. Johnson is employed here by Lone Wolf Electric Cooperative.

Out-of-town guests here for the affair included Mrs. Roger Hines, Mr. and Mrs. John R. Cook, Mr. and Mrs. Gordon Cook, Mr. Marvin Cook of Abilene; Mr. and Mrs. W. W. Brewer and children, Mrs. Elva Brewer of Lexington.

Mr. and Mrs. James Skilton, Mrs. J. E. Skilton of Midland; Mr. and Mrs. Frank Orlesky of Westbrook; Mr. and Mrs. Phil Gingerich of Loveland; Mr. and Mrs. Ocie Henson.

Other friends and relatives were present from Snyder, Westbrook, Cuthbert and Ira.

Mr. and Mrs. Miles of Abilene, Thursday announced the birth of a son, Clayton Darnold, who was born Sept. 11 in Abilene. The Miles also have a four-year-old son, Terry.

Grandparents are Mr. and Mrs. E. S. Miles of Route One, Mr. and Mrs. Ted Roensch of Tulsa, Okla., former Colorado City residents.

## "NO JOB FOR STRANGERS"

### Wilson Points to Better Curriculum

Supt. Frank Wilson told Hatch Elementary School PTA Tuesday night that immediate avenues for improving Colorado City public schools curriculum.

Wilson pointed out that the ultimate aim of a good curriculum is to eventually make a good citizen of a student.

The superintendent was principal speaker for the opening meeting for Hutchinson parents and teachers. More than 100 persons heard him talk that pointed the way for parent and teacher cooperation for an improved curriculum.

Wilson pointed out that the citizens' committee conference so that a citizenship should be interested in "total curriculum," which means the total experience of a child in school in his home and throughout his community.

Total learning goes to the whole of the child—the super-intendent said—and that includes his association with those on the street in the neighborhood.

"But the school curriculum is for all those experiences that happen to the child as related to his school."

Wilson said the school attempts primarily to develop the child through organized subject matter. But he pointed out that other factors—like community or the school's curriculum health services, educational activities, extra-curricular, and parent and teacher.

Prescriptions cannot be mass produced on assembly lines. Each one must be compounded individually because it is specifically written for one person. For that reason it usually shortens sickness time.

Invariably the medicines in a prescription give relief much more quickly than patent medicines or home treatments. Your physician's skilled diagnosis usually prevents serious sickness — if you consult him at the first sign of trouble. The shortest way to continued better health is to do this one thing first — consult your physician when sick.

COLORADO SEEKS WIN NO. 2

Beefy Bearcats Outweigh Wolves 26-Lbs. Per Man

It will be weight against speed in Wolf Stadium Friday night...

And Colorado High Wolves will be trying for victory No. 2 after last year's Semifinal 23-0 last Friday.

Whether or not Colorado City's speed can offset the Ballinger-Bearcats' weight advantage will be seen at kickoff Friday, 8 p. m.

Here's the breakdown of just how badly the Wolves will be outweighted:

Ballinger's backfield averages 174 pounds; Colorado City's 142. Difference: 32 pounds.

Ballinger's line averages 187 pounds; Colorado City's 167. Difference: 20 pounds.

Ballinger's starting line-up averages 180; Colorado City's 151. Difference: 29 pounds.

Wolves' line that held Semipole to 48 yards rushing will be weakened this week.

Two of the mainstays Raymond Weaver and Joe Maddox were ill this week and won't be at full strength Friday.

Weaver was still in bed Wednesday, but was expected to be ready at least part-time on defense Friday.

Marion Fippin and Gene Blasingame were both bothered this week by knee injuries.

Scout reports given on Friday for this week indicate the Bearcats are just as tough as they are large.

They lost to El Paso and last week lost 8-0 to Stamford.

Brady and Stamford were the Class AA finalists in the state schoolboy football tournament last week.

The Ballinger team that will invade Wolf Stadium Friday is practically the same team that whipped the Wolves 37-14 last year in Ballinger.

At ends will be Wesley 212, and Mack Petty, 140, both regulars last year. Stokes was a starter at fullback last season.

Delbert Wiley, a giant senior at 240 pounds, holds down one tackle spot, while Kenneth Fugua, a 180-pound new arrival is at the other tackle.

Jerry Beaver, 180-pound sophomore, is the fullback.

At quarterback is Ronal Everett, 192 pounds, right halfback is...

The left half is Jody Chandler, 180, seeing his fourth letter and a regular in the backfield since his freshman year.

He played quarterback the prior three years.

Seven Kirk, a 170-pound sophomore is the fullback.

According to the Colorado City Scouts, the Bearcat team likes straight dive plays and power plays behind the giant tackle.

Brady and Stamford's lines were able to stall the constant pounding of the big backs.

But whether Colorado City's light line can do the same will be answered Friday.

Coach Bob Reilly pointed out in the Semipole game movie Tuesday night at Quarterback Club that the Wolves made a lot of mistakes on defense.

STACK OF WOLVES - These five linemen on the Colorado High School football team will handle the guard and tackle positions against Ballinger's Bearcats Friday night at Wolf Stadium...

But the boys are really trying this year and playing together more as a team...

There are two new faces in the Bearcat backfield. One is the quarterback Kenneth Wigton...

At ends will be Wesley 212, and Mack Petty, 140, both regulars last year.

They Make Us Proud

Proper harvesting and handling of seed cotton can add from \$2.50 to \$19 a bale to the income from this year's cotton crop, says Fred C. Elliott, extension cotton specialist. Careless methods of harvesting and handling on the other hand can cause great damage to lint quality and lower its value.

Legislature Will Convene for 72nd Special Session in Fall

By VERN SANFORD, Texas Press Association. For the 72nd time in Texas, the Legislature will convene in special session Oct. 14.

Throughout the summer there was lively debate as to whether such a step should be taken. Gov. Price Daniel set an end to speculation by setting the date. Purpose: to enact laws in regard to lobby control, representation before state agencies, crime study and water development.

Calling special sessions has been the custom of Texas governors than not. Of the 71 previously called since Texas became a state, 41 have failed in the 46-year period since 1911 - almost one a year.

Almost all Governor Daniel's predecessors in the past 30 years called lawmakers back at least once, (exceptions: Beauford Jester and W. Lee O'Daniel.) Gov. Dan Moody holds the record for keeping the Legislature busy. In 10 months of 1929 and 1930, he called five special sessions.

State Capitol NEWS

had a states rights vs. federal courts problem in that the U.S. Supreme Court had negated Texas' oil proration laws. Mrs. Ferguson had to call lawmakers back again and again to wrestle with the "difficult times" of the thirties. Relief bonds to help the unemployed and destitute were passed. In one of her calls, Mrs. Ferguson, with an eye for housewife problems, called on lawmakers "to make needed appropriation for refrigeration in the Governor's Mansion."

Governor Allred's special sessions dealt with some of the most stirring issues of the thirties. He asked for liquor selling regulations following the repeal of Prohibition and for a law banning pari-mutuel betting at race tracks. He also asked for money for old age pensions (\$15 a month in those days) and for more taxes to get the general revenue fund out of the red.

In most cases the governors got the laws they wanted passed - sometimes by calling one session on the end of another, sometimes by a session as short as two days. Water program okayed. In one area water development, legislators have their work cut out for them.

THIS WEEK IN WASHINGTON:

Farm Bloc Question May Be Answered

The question of whether the shattered Farm Bloc will pull itself together, and again become a power in Washington may be answered here this week. The National Conference of Commodity Organizations, after two preliminary meetings during the spring and summer, is attempting to draft a new, broad scale farm program.

Window Jumping Deferred

Several people in Austin have

suggested forming an "I'm bored with BenJack" Club. Their attitude stems from Promoter BenJack Cagle's refusal to testify about his part in ICT affairs during his appearances in Austin. During his flamboyant return to Texas several weeks ago Cagle promised to tell things about the bankrupt companies' affairs that "would have people jumping out of windows."

Cagle stayed only 10 minutes when he appeared before the Travis County grand jury. When called by the House investigation committee, he invoked the Texas brand of the Fifth Amendment and refused to testify.

Officer Raps Laws. Texas is behind other states in traffic regulations and ahead on traffic accidents, says a Texas state official. C. G. Conner, assistant chief of the Highway Patrol, said Texas has one of the highest traffic death tolls in the nation. It's as much as three times as safe to drive in some other states where more up-to-date laws are being enforced, he said.

Good farming plus early spring rains are paying off for Texas cotton growers. U.S. Dept. of Agriculture predicts the state's 1957 crop will be well above average - 4,000,000 bales. Average for 1946-55 is 3,712,000.

Each of the commodity groups will present its proposals for legislation dealing with that specific commodity. For example, wheat growers favor a certificate plan that would assure them a parity price in the market for wheat consumed for food domestically, and a lower price for secondary uses and export.

BIBLE COMMENT:

Dishonest Gain Has Disastrous Results

We know a man who does not pursue honesty as merely the best policy, but who is honest even if it is not to his own best interests. He speaks out of the voice of experience, as a father of sons to whom he is determined to set a good example.

By MRS. C. C. HAMILTON, Record Correspondent.

LORAIN.—The first of a series of six studies was presented this week by the Women's Society of Christian Service of the Loraine First Methodist Church.

Mrs. Frank Crowmeyer, named songleader for the studies and Mrs. K. L. Taylor, named pianist.

Mrs. Jim Johnson and Mrs. Taylor prepared the worship center for the meeting.

Monday's program opened with prayer by Mrs. J. D. McDonald followed by the introduction of the book by Mrs. Harold Martin.

The devotionals was given by Mrs. Jim Johnson and was based on the theme of the book, "Where two or three are gathered in my name, there am I."

Mrs. Bruce gave a travelogue of Japan, telling of the church in a panel discussion entitled "Christian Church Life Unique" was led by Mrs. Percy Bond.

Others taking parts in the panel were Mrs. Martin, Bruce, Johnson, McDonald, Lily Bennett and Kirk Taylor.

Armando Shorty, Baumann this week made manager of the Cross Pratt grain elevator, according to Woodward Pratt, co-owner of the firm.

Pratt said this week that 10 nations of grain have already been shipped out of Loraine and "his harvest" has barely begun since most of the grain in this area will be harvested late.

Mr. and Mrs. C. L. Mendenhall and Mrs. Allen of Andrews visited for several days here last week with Mrs. Mendenhall's parents, Mr. and Mrs. Roy Wells. Also visiting in the Wells home Wednesday night was Mrs. T. A. Goble of Dublin.

**Man Leaves Couden for Transit Firm**

LORAINA, Mo., son of Mrs. Josephine Marshall and the late John Marshall of Loraine, has joined the H. W. Smith Transport Company as vice-president of the firm. It was announced this week.

Marshall, a native of Loraine, is a graduate of Loraine High School and attended Garden-Simmons University in Abilene.

For the past 17 years, Marshall has been employed by Couden Petroleum Corporation in Big Spring, serving as administrative assistant at Couden for the past few years.

He and his wife, the former Rachel Ford of Windom, and their 13-year-old daughter, Nancy, live at 1023 Pennsylvania St. in Big Spring.

Mr. and Mrs. Hubert Thomas visited in Lubin Sunday with their parents, Mr. and Mrs. E. E. Thomas.

Mrs. Thomas returned home with them to visit this week in their home and in the home of another son and daughter-in-law, Mr. and Mrs. Irvin Thomas.

Mr. and Mrs. Charles Hamilton spent Saturday night in Abilene with Mr. Hamilton's brother-in-law and sister, Mr. and Mrs. C. W. Groom.

The Groom and Hamilton families visited at Dudley Sunday with C. W. Wilkerson, another brother-in-law.

NOTHING SACRED—Seems even the world of pipe smoking isn't limited to men any more. These ladies joined the putting at the World Champion Pipe Smoking Contest at Lake Placid, N. Y. However, a man—Harold R. Soden of Lake Placid—won the contest by keeping his pipe going 20 minutes and 15 seconds.

TEMPERATURES MADE ... MORE PEOPLE DRIVE CHEVROETS THAN ANY OTHER CAR

**Spunk to spare!**

It's beautifully behaved in town, you ... but it's not namby-pamby, this Chevrolet. Head it into the open and it has the muscle, brawn and V8 power to hold sure on turns and straight-aways ... or take any mountain in your way.

There seem to be two kinds of roads around the country lately. There are dull, ordinary everyday roads. Then, there are the same roads when you take them in a Chevrolet—fun roads!

Stepping along nimbly, surely—staying on course—traits like these come just a little more naturally to Chevrolet. Few cars at any price are so beautifully balanced. None in Chevrolet's field have Ball-Race steering, extra-long outrigger rear springs—or Body by Fisher—to name just a few of Chevy's exclusives.

As for spirit, well—take a Chevrolet out and feel that eager 215-horsepower! Just drop in at your Chevrolet dealer's—soon!
