Billy Still Smiles

"I'M STILL GETTING THE BREAKS, BUT NOT THE RIGHT KIND," SAYS 14-YEAR-OLD BOY WHO HAS HIS BONES BROKEN 53 TIMES

(By NEA Service)

BELLAIRE, O., May 27—"I'm still getting the breaks, but not the right kind," says Smiling Billy Neuhart, 14, the most successful and most cheerful bonebraker in existence, with 53 fractures in his record. He has been breaking one bone after another since he was a baby.

This brave youngster has quit taking anesthetic and just grits his teeth when his broken bones are set "because it costs too much to go to the hospital." He came into national prominence two years ago when his 30th bone was broken and the Newspaper Enterprise Asociation Service sent out to its clients all over the country a little story about Billy.

Brings Letters

That story brought Billy 50,000 letters and postcards, including a treasured letter from John Coolidge, son of the former president.

Trouble seems to just keep on troubling Billy.

Two months ago he bumped into a table Presto! Broken leg. Then another was crushed as Billy was being carrid hom from school.

And now Billy faces another bad "break." He may be forced to give up his education because his big sister, who in the past has carried him to his fifth grade classes, enters h'gh school next fall

Physicians are at a loss to determine the reason for Billy brittleness, except that they know his bones do not have sufficient lime.

"I've quit taking anything when I ge 'em set," Billy informed his visitor. "Takes too much money to go to the hospital for ether. I have cost dad and mother plenty of money as it is. So I just grit my teeth and tell me to go to it."

TWO TEXAS CITIES ADOPT DAYLIGHT SAVING TIME BUT STATE AS WHOLE IS NOT INTERESTED IN TIME CHANGE

(By Associated Press)

Two Texas cities have adopted daylight saving hours for their employes, but a partial canvass of the state indicated there was no demand for embracing the plan generally, although 433 cities in the United States had accepted it for the summer period.

Texas normally is one hour behind Eastern Standard time, one hour ahead of Mountain time and two hours ahead of Pacific Coast time. But with daylight saving adopted universally in the East, Texas time is two hours behind that section of the country, the considerable lagging on part of our time pieces working what some claim is a hardship in transaction of business. For instance, when, at 3 p. m., the Texas business man is just getting back from lunch, the New Yorker is going to dinner.

Accept New Hours

Marshall and Beaumont municipal employes have voluntarily accepted daylight saving hours, going to work at 7 a. m. instead of 8, a. m., and leaving the office at 4 p. m. in preference to 5.

H. J. Graeser of Marshall, city manager, said that "during this time of depression" he believed the adoption of daylight saving time would "be of great advantage especially to those who could utilize the long evenings to profitable advantage."

In Beaumont, not only had city employes embraced the 7 a. m. to 4 p. m. schedule, but oil refineries in that section had adopted it.

People Should Adopt It

Mayor Jack E. Pearce of Galveston said he favored daylight saving time, but expressed the opinion the people should adopt it voluntarily instead of the city government attempting to enforce it.

Mayor Walter E. Monteith said he saw no objection to adoption of the plan but had noticed no public de-

CONNALLY NOT FOR GAS TAX

TEXAS SENATOR SAYS CONGRESS NOT TO FOLLOW MELLON

(By Associated Press)

AUSTIN, May 27—Senator Tom Connally today expressed opposition to a federal sales tax on automobiles or a levy on gasoline.

The Texas member of the senate finance committee explained that Andrew W. Mellon, secretary of the treasury, had been quoted as considering urging congress to impose these taxes.

"Gasoline and automobile taxes are the chief source of state revenue for the construction and maintenance of highways," Senator Connally said. "That source should be left to the states which are already hard put to find revenue to meet their expenditures."

He said "congress, in my opinion, will not follow Mr. Mellon."

"It is true that the present Republican administration has so administered the affairs of the government as to bring about a treasury deficit of nearly a billion dollars in this fiscal year, but other means of meeting the deficit can be secured. Interest on foreign debt payments can be applied to the general revenue fund. Other federal taxes may be revised or modified in such manner as to meet the needs of the government."

SENATOR HARRISON OPPOSED TO REVISION

WASHINGTON, May 27 (AP)—Opposition to any increase in taxes at the next session of congress was voiced today by Senator Harrison of Mississippi, ranking Democrat on the finance committee.

The Mississippi senator assailed Secretary Mellon for suggesting a tax revision program at this time.

Three Youths Are Being Tried Today

CORSICANA, May 27. (AP)—Cases charging kidnaping, conspiracy to commit a felony, and assault while in disguise against three youths, Jimmie Nash, Charles Hassell, and Walter Currie Caldwell, were set for trial here today. All the charges resulted from the kidnaping of Robert Cerf, son of a Corsicana banker, last December. He was released in Dallas on payment of a $15,000 ransom.

Mineral Wells Gets Retailers Meet

CONVENTION IS CLOSED TODAY AT NOON

BOARD TO ELECT HEAD OF ASSOCIATION AT 1:30 TODAY

Mineral Wells was selected to play host to the Retail Merchants Association of Texas, and its affiliated bodies, Texas Retail Credit bureaus and Associated Retail Credit Men of Texas, Wednesday morning at the final business session of the organizations annual convention here.

The vote was 435 for Mineral Wells, as compared with 253 for Galveston, the only other city bidding for the convention.

Officers of the Retail Merchants association were to be chosen Wednesday afternoon at an executive meeting of the board of directors. The meeting was called for 1:30 p. m. The credit men and credit bureaus elected their officers for the ensuing year at separate sessions held yesterday.

Fight Doesn't Materialize

The majority report of the committee on revision of the constitution and by-laws was adopted with only one dissenting vote. The expected fight for the passage of a minority report submitted by C. E. Dinkle, of Greenville, failed to materialize. Mr. Dinkle's recommendations provided for the allotting of certain portions of the Retail Merchants association's budget for the operation of the Texas Retail Credit bureaus and Associated Retail Credit Men of Texas by constitutional amendment. Funds for the two organizations are now provided for by action of the executive board.

Changes Approved

Changes approved, in adopting the plan of Robert Stern, chairman, and H. B. Jewett, concern duties of officers and rules for eligibility to membership in the association. Resolutions adopted at the final

GERMAN OFF IN SKYWARD HOP

PROFESSOR SEEKS TO STUDY ATMOSPHERE ABOVE CLOUDS

(By Associated Press)

AUGSBURG, Germany, May 27—Hermetically sealed within an aluminum ball, Prof. August Piccard, Brussels physicist, and his assistant Charles Kipfer soared away in a giant balloon today on a scientific mission into the stratosphere—that eerie fringe of the earth's atmosphere never seen by man.

In contrast to thir first attempt last September when unfavorable winds held them to the ground, they made a perfect take-off early this morning. Piccard, wearing a stocking cap and a gray suit, and Kipfer climbed through the porthole of their cage and attendants screwed on an airtight cover. The great bag shot upward to an altitude of a thousand fet and drifted swiftly toward the northwest.

Largest In Germany

The aluminum "basket" is seven feet in diameter and carries a supply of artificial oxygen without which a journey into such altitude would mean certain death. The balloon, the largest ever built in Germany, has a diameter of 100 feet and hold 500,000 cubic fet of hydrogen. She contained only 95,000 fet at the start but this was expected to expand to full capacity at a height of about 40,000 feet.

Piccard hopes to explore the stratosphere, from 40,000 to 60,000 feet above the earth, and with his instruments to obtain new data on the origin of cosmic rays. He plans to demonstrate as well that human beings can travel and live in such an atmosphere.

LIQUOR RING IS BROKEN

HALEY DEFENSE CONTINUES TO GIVE DATA

DEPOSITIONS AND TWO WITNESSES HEARD THIS MORNING

Expressing the belief that "John Spikes bled to death" from a wound in his right leg, Frank Bond, who lived on Mesa Redonda at the time John and Dick Spikes were killed, testified as to the wounds on the bodies of the two men. Mr. Bond prepared them for burial and had an opportunity to know the location of the wounds.

The testimony was cross-examination in the case of Fred Spikes vs. J. Evetts Haley, et. al. in which Mr. Spikes is asking $200,000 damages for publication of the purported story of the slaying of his brothers in the book by Haley," The XIT Ranch in Texas."

Bond's deposition was first read yesterday by the defense. This morning the prosecution read their cross-examination into the record, with Tom Garrard and Frank Brown reading and answering the questions.

Oral Testimony Up

Following this there was some oral testimony by Odin M. Conley, of Amarillo, and Joseph de Graftenreid, of Albuquerque, N. M. and depositions by Jim Kurlie, C. E. Burjois, Francisco De Baca and E. S. Gholson. The latter was not completed when noon recess came.

Bond testified that when he arrived at the place where the bodies were he found both Dick and John

TWO AVIATORS ARE READY

WILEY POST AND GATTY PREPARED TO BEGIN HOP THIS WEEK

(By Associated Press)

NEW YORK, May 27—Wiley Post and Harold Gatty, two prudent young men, have figured out the comparative hazards of flying around the world and trying to cross a busy street—and they've decided to fly around the world.

"We got an expert to look over our motor," said Post at the Hotel Biltmore today. "Then we figured out our chances. We found we had something like 3 1-2 chances of getting hit by an automobile for every one chance that the motor would stop when it wasn't supposed to.

"No, we're not afraid. If we were, we wouldn't go."

Post, who used to do what he called 'rough necking" in Oklahoma oil fields, and Gatty, an Australian marine navigator, hope to start for Harbor Grace and Berlin Friday or just as soon as Dr. James H. Kimball, weather man, gives the word.

They've got a great, shiny monoplane on which they pin their confidence of circling the globe in something less than ten days for a new record. The Graf Zeppelin took 22.

MICKEY MOUSE CLUB MEMBERS ALL AGOG OVER SATURDAY'S ELECTION

ALL the Mickey and Minnie Mouses—or is it Mice?—in Lubbock are wondering who the King and Queen will be when election day rolls around on Saturday. Prospective candidates were laying their political plans for, in addition to the honor, both King Mickey and Queen Minne will be presented with a $5.00 gold piece as an emblem of their power.

The Mickey Mouse club will hold its regular weekly meeting at the Palace theater clubrooms, where, after the election of the King and Queen, another picture show treat will be offered.

And, as an added attraction, mothers of club members will be honor guests upon presentation of regular membership cards, available from merchants sponsoring the club. The merchants themselves will also be there to help make the election and coronation a big event in Mousedom.

Lamont Urges Attempt To Discourage Setting Up Of Trade Barriers

J. P. MORGAN & COMPANY MAN DECLARES "WE MUST MAKE IT AS EASY AS POSSIBLE"

(By The Associated Press)

NEW YORK, May 27—Thomas W. Lamont, of J. P. Morgan & company, welcoming delegates of the National Foreign Trade convention today, urged that "we should attempt to discourage artificial barriers to foreign trade."

RAIDS MADE IN THREE AREAS OF NATION

WHOLESALE HAUL SAID TO HAVE BEEN MADE IN KANSAS CITY

(By Associated Press)

KANSAS CITY, May 27.—Federal agents asserted today they had broken up a wholesale liquor ring operating in seven middlewestern states with the arrest of twenty men and seizure of records here last night.

Officers said the roundup climaxed eighteen months of investigation under the direction of H. L. Duncan, special agent, which indicated the Capone ring of Chicago was a source of raw alcohol.

Nine of the men, alleged leaders of the ring whose business, agents said, had totalled $500,000 in the last five months, were arrested at a downtown hotel. The others, including June Kathrens, operator of a trucking fleet as the head of a storage and transfer company, were taken in custody later.

Liquor and alcohol, agents reported, was imported from the gulf and eastern points by the carload and processed for distribution in Kansas, Missouri, Oklahoma Arkansas, Colorado, Nebraska and Texas.

BILLS SIGNED BY STERLING

PEDDLERS' TAX BILL AND 23 OTHERS ARE APPROVED TODAY

(By Associated Press)

AUSTIN, May 27 — Governor Sterling today cleared his desk of much of the work the legislature left him when he signed the sulphur-cement-peddlers tax bill and 23 other proposals.

The tax law will increase the sulphur levy from 35 to 75 cents a ton, place a five cents a barrel levy on cement and revise the general occupation taxes. It will go into effect August 221. Estimates were it would increase the state's revenues almost $1,000,000 annually. It also included a cigaret dealers license tax.

Other new laws will permit towns between 500 and 2,000 population to regulate utility rates the same as larger cities, appropriate $20,000 for annual firemen's training schools at A. & M., permit cities to collect poll taxes up to $1 from every woman and require non-resident fishermen to buy licenses.

Charges brought against her father and two brothers by Mrs. Pinker had been set for trial last Monday but were continued until the next term of court.

GOODWIN MUST PAY PENALTY

APPEALS COURT DENIES PLEA FOR TRIAL IN DECISION TODAY

AUSTIN, May 27—The Texas court of criminal appeals today refused to grant Dave Goodwin, Bowie county slayer, a new trial.

Goodwin was convicted of the murder of Lloyd Elliott at Sulphur Springs after an argument over a hog. He was alleged to have thrown Elliott's body in the Sulphur river.

Attracted Attention

His case attracted attention when the court of criminal appeals in its original decision declared Goodwin must go to the electric chair despite the fact he had "manifestly not been given a fair trial."

The court in the first opinion declared technicalities of the law prevented a reversal of the case. A bill was introduced in the legislature to grant the court authority to reverse and remand the case but it died on the calendar.

Goodwin's attorneys claimed he was not given a fair trial because of the high feeling against him and because of admission by the trial judge of improper testimony.

Today's opinion was written by Judge Morrow, presiding judge and concurred in by other members of the court.

Spirit Of Late President Hovers Over Baylor Commencement

DR. BROOKS LEAVES MESSAGE TO SENIORS, AND ALUMNI W HICH IS READ IN EXERCISES AT UNIVERSITY TODAY

(By The Associated Press)

WACO, May 27.—Although thwarted by death scarcely three weeks before the commencement, the guiding spirit of the late Dr. Samuel Palmer Brooks, president of Baylor university for 29 years, hovered today over graduation exercises at the university.

In his determination to project his life span to the close of the school year the veteran president failed, but as a final gesture he addressed a farewell message "to the senior class of 1931, to the seniors of all years, those seniors of the past and those seniors yet to be."

"I stand on the border of mortal life but I face eternal life," wrote the president, who had known for two weeks before the end came that death for him was in certain prospect.

"I look backward to the years of the past to see all pettiness, all triviality shrink into nothing and disappear. Adverse criticism has no meaning now. Only the worthwhile things, the constructive things, the things that have ben built for the good of mankind and the glory of God count now.

"There is beauty, there is joy and there is laughter in life—as there ought to be. But remember, my students, not to regard lightly not to ridicule the sacred things, those worthwhile things. Hold them dear, cherrish them, for they alone will sustain you in the end; and remember too that only through work and ofttimes through hardships may they be attained. But the compensation of blessing and sweetness at the last will glorify every hour of work and every heartache from hardship.

"Looking back now as I do, I see things with a better perspective than ever before and in their truer proportions. More clearly do I recognize that God is love. More clearly do I understand the universal fatherhood of God. More clearly do I know the brotherhood of man.

"Truths do not change. The truths of life which I learned as a student at Baylor have not varied, nor will

(Turn to Page 9, Column 8, Please)

"This I do," he wrote, "because I love them all equally, even as I love all mankind, regardless of station or creed, race or religion."

After the degrees had been conferred today upon 279 young people, the hushed assembly heard that message read by Dean W. S. Allen, who acted for the president during his illness and who yesterday was named acting president until the board shall name a permanent successor to Dr. Brooks.

Four Parties Are Given Tuesday Afternoon; Bride, Visitor Are Complimented

Pearl Gray Tone

BY MME. LISBETH

Pearl Gray is always a lovely tone, and is especially good this season.

In the little frock pictured and worn by Constance Cummings, screen player, the gray is combined with pink which is used for the tucked net vestee and the ruffles on the elbow-length sleeves.

Flat crepe is the material used for this frock which has a smart little bolero and a belt of self-material. With it Constance wears a wide-brimmed, rough-textured, loosely-woven pink straw hat with three small pompoms for trimming. Patent leather opera pumps and three-quarter-length pearl gray gloves complete the ensemble.

Doctor Myers' Daily Column On Child Welfare

DR. MYERS

BY GARRY C. MYERS, PH. D. Head Division Parental Education Cleveland College, Western Reserve University

BE SPORTS

THIS IS the time when many mothers are leaving office and others taking their place, particularly in the P. T. A.

I suppose it is about as hard to be a good ethical Ex as to be a worthy in. Human Nature has her way of making the person leaving office entertain at times some ugly hidden wishes for the failure of her successor. Such wishes lurk in hearts of missionaries, Sunday school superintendents, preachers and government officials, as well as in the hearts of outgoing presidents of P. T. A.s. Human Nature is Human Nature, regardless.

These insidious wishes would not be so harmful if they were to stay forever hid; but they don't. They have a way of slipping out from ambush and they stab by day or night.

Fortunate for the P. T. A. there is growing up a custom of not shelving the outgoing officers, but of keeping them for councils and committees. How wise, for their rich experiences are at hand to help the new officers avoid pitfalls and to capitalize on the best already done. In local P. T. A.'s and the State and National Congress of Parents and Teachers, I have observed inspiring samples of appreciation by each new administration of their predecessors. Not always does such sportsmanship prevail; but when it does prevail we know that a vast amount of wisdom and idealism is triumphant over human frailties.

* * *

The problem would not be so important if the individuals involved were the only ones concerned. But the whole organization, including every member and their children and the cause for which the organization stands, are helped or hindered to the degree to which sportsmanship rises above selfishness.

Since a large number of mothers are serving in some official capacity in an organization they pass through the stage of out and in. They, therefore entertain definite attitudes in regard to their predecessors and successors. No matter how carefully they may guard themselves, they reveal, in all sorts of ways, these attitudes before their children.

Wishing to help their children grow up with a minimum of jealousy and a maximum of sportsmanship to see them cultivate ability to get along well with others, to be lovable and happy, the mother about to leave an office or to enter one, has an opportunity to do more than she has ever dreamed for the moral welfare of her children.

* * *

I suppose we parents do not realize how much we do unwittingly to cultivate in our children some of the very vices which we dread to see in them. On the other hand, we should know that every victory over selfish jealous felings in ourselves is a victory likewise for our children.

Every mother leaving an office who has at heart the welfare of her organization, the character of her children and peace of her own soul, ought often to pray fervently for the power to entertain good wishes for her successor, and every one entering such an office, for power to deserve such wishes.

ROASTING CONTROL IS FLAVOR SECRET OF RARE COFFEE

Scientific Control Gives Hills Bros. Coffee the Flavor of Flavors

Invariably foods cooked in small quantities taste the best. The cook is able to control every step—perfectly—mixing, flavoring and cooking.

The principle of Hills Bros.' patented, continuous roasting process is based on the same idea. Instead of roasting their exclusive blend of coffee in bulk, measured quantities of about three pounds pass continuously through the roasters. The heat and speed of operation are accurately controlled with the result that Hills Bros. Coffee is absolutely uniform.

No other coffee can have the same delicious, uniform flavor of Hills Bros. Coffee because no other coffee is roasted the same way. This process—Controlled Roasting—was originated and patented by Hills Bros.

The vacuum can in which Hills Bros. Coffee is packed keeps it fresh always. By the vacuum packing process, air, which destroys the flavor of coffee, is taken out of the can and kept out. Ordinary cans, even if air-tight, will not keep coffee fresh. Grocers everywhere sell Hills Bros. Coffee. Ask for it by name and look for the Arab—the trade-mark — on the can.

COMPANIES ARE TO OBSERVE ORDERS

LONGVIEW, May 27 (AP)—A. B. Capers and Ray Richmond, proration umpires of the Lathrop and Kilgore areas, respectively, announced today that effective at once 17 wells, formerly running at "outlaw" production, had come into proration observance.

They said the production represented holdings of five companies.

Cranfill and Reynolds announced that their Lathrop well was being pinched today at noon. Richmond stated the same firm had four Kilgore producers which will be affected.

In addition, Richmond said, 12 wells in the Henderson field would be on a proration basis today at noon. These represent production of the Imperator Oil company, George Anderson, Shaw Oil company and the McIntyre Drilling company, according to Richmond.

Richmond said there had been 33 companies running outlaw production in the East Texas field, four having been in the Lathrop pool adjacent to Longview and the others in the Joiner and Kilgore pools.

Richmond said there remained 28 companies disregarding proration regulations.

VISITING LIONS GUESTS OF CLUB

Lubbock Lions were luncheon hosts Tuesday to about twenty-outtown Lions and their wives here for the annual convention of the Texas Retail Merchants association.

H. B. Jewett of Houston spoke on marketing of cotton. Exports of cotton by the United States to Europe last year were 1,700,000 bales less than in any previous year, and India's cotton exports were a million bales more than ever before, he said.

Other guests who spoke included Sam S. Salinsky of Beaumont, H. C Barnhart of Austin, Max Stehling of New Braunfels, J. V. Wallace of Port Arthur, R. M. Chamberlain of Port Arthur, and George Mendell of Austin.

Dr. S. S. McKay, president of the Lubbock club, presided at the luncheon, which was at the Hilton hotel.

Interest Required By Government Cut

WASHINGTON, May 27 (AP)—The treasury announced today it had reduced interest required on government deposits from 1 to ½ of one per cent per annum on daily balances effective June 1.

It was explained that the action was taken to aid the general economic condition and because banks had found it necessary to reduce the interest rates paid on deposits by them.

The order affects all general and special deposits of government monty and applies to about $100,000,000 held as deposits by banks throughout the country.

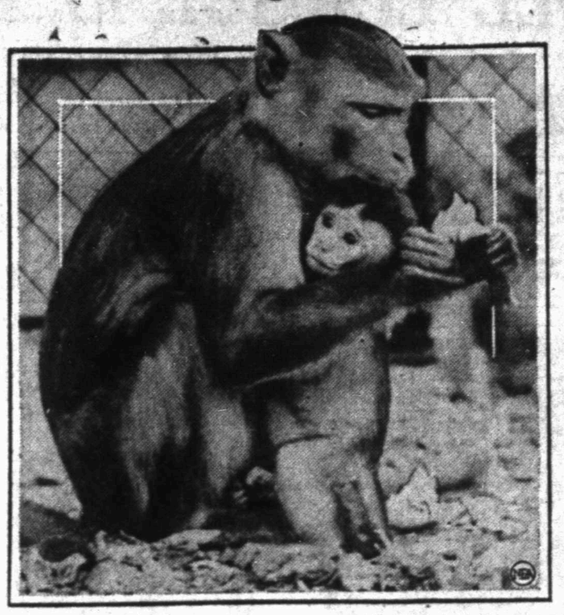

The reduction also applies to the balances in special depositories resulting from sales of certificates of indebtedness and government securities between the time the purchaser pays for them and that on which they are delivered by the government.

AVC Store Head Is In City This Week

J. L. Hunter, of Plainview, president of the AVC stores, is in Lubbock attending to business affairs.

Mr. Hunter heads the organization operating stores in Clovis and Tucumcari, New Mexico; Plainview and Shamrock, Texas, in addition to the store here. He expects to spend the balance of the week in Lubbock.

"Hold Me Tight, Mamma!"

Little African Monkey, Jr., was frightened when the cameraman "shot" him in Overton Park zoo, Memphis, Tenn. He clutched his mother and cried "Eeek, eeek!" which translated into the English language means "Save me from that bad man and his machine!" But Mrs. Mama Monkey knew there wasn't any danger. She reassured her startled offspring nibbled unconcernedly on a lettuce leaf.

FAITH AND CONFIDENCE IS BASIS OF BUSINESS, DR. HORN TELLS RETAIL MERCHANTS IN BANQUET LAST NIGHT

The foundation of the credit system used by modern business is built from faith and confidence, Dr. Paul W. Horn, president of Texas Technological college, told members of the state Retail Merchants association at their annual dinner last night.

More than 200 persons attended the affair at Hotel Lubbock, climaxing the annual meeting of the Retail Merchants association and its affiliated bodies, the Associated Retail Credit Men of Texas and the Texas Retail Credit bureaus, which opened here Monday.

Mueller Presides

Carl Mueller, president of the retail merchants' organization, presided last night as toastmaster.

Dr. Horn in opening his address, paid a tribute to the delegates, stating they represented the right blood of the nation.

Tribute Paid

"You people go out and do things we in other professions talk about," Doctor Horn said. "You put into practice the principles that we of the teaching profession expound in theory only.

"We talk about faith, and we talk confidence, but you people base your business on those two factors. Nothing is of greater importance in the business world than faith and confidence. We often are inclined to think of those principles as something belonging to the spiritual world, but instead, on close observation, we find them to be of the most practical nature.

Faith Is Cited

"When you sell your goods you have faith in the purchaser," he said, "believing that you will get what he promises to pay. When you buy goods from the factory, you have confidence in them and believe that you will receive the quality of goods you order."

The speaker said the really successful salesmen were not those who tried to sell the purchaser all that they could, but were those who tried to fulfill the needs of the purchaser. Over-selling, rather than under-buying, has played its part in bringing about business depressions, he said.

Entertainment was furnished by a male chorus, with orchestra accompaniment, and whistling numbers by Miss Dorothy McFarland, Technological college student. Miss McFarland's numbers were received with a great deal of enthusiasm as was a song by the male chorus. The whistler was accompanied by Miss Helen Womack, also a Technological college student.

Members of the chorus were H. W. Moore, B. D. Jeffery, Edgar Shelton, Harry Blocker, John Spencer, G. E. Damewood, J. D. Carroll, W. W. Rix, John Gelin, H. F. Godeke. Accompanists were Mrs. J. B. Galland, piano, Howard Hunt, clarinet, and Jack Stahl, violin.

Presentation of the W. H. (Joe) Bailey golf trophy, to the winner of the Retail Merchants association golf tournament, was made by Judge George Mendell, attorney for the association. Nelson Munger, by making a local course in 41, was announced as the winner, making his second consecutive annual victory.

Konjola Gives Blessed Relief

Here Is A Medicine of Deeds, Not Words—Read What Former Sufferers Have To Say

No medicine ever became famous by accident. A medicine must make good to win the praise and endorsements of tens of thousands. Konjola is a household word just because this medicine does what it is intended to do.

Mrs. T. G. Moore

Just see what Mrs. T. G. Moore, 314 Mission street, San Antonio, says of Konjola: "Three years ago I began having trouble with my liver and constipation. I felt thoroughly down and out. But after taking Konjola for a month I am feeling better than in a long time, and am more than pleased with results".

Mrs. Edna Barnett

Another staunch friend of Konjola is Mrs. Edna Barnett, 713 N. Pearl street, Dallas, who exclaims: "Every day for the past year I was in misery, with a burning sensation after meals. I was tired, worn out and nervous. I took just four bottles of Konjola and haven't had a trace of indigestion since. I have gained weight, and certainly owe much to Konjola."

Mrs. Emily Kimes

And read of the experience of Mrs. Emily Kimes, 314 McKinney avenue Houston, who says: "I suffered for many months with severe headaches and constipation. I was badly run down and nothing helped me. I have taken seven bottles of Konjola and it was certainly a good investment. I am no longer nervous; have no headaches. Konjola was just what I needed."

So it goes; victory after victory, when Konjola, with its juices of 27 roots and herbs, goes to work. Buy Konjola in any drug store, and do not accept a substitute.

THREAT OF WEDDING DAY BOMB GIVEN FULFILLMENT FOR ENGLISH PRINCESS

* * *

PARIS (AP)—Blood splashed over her bridal dress . . . exiled with her husband on her silver wedding day.

That is the story of the English princess who was queen of the Spaniards.

Just 25 years ago, May 31, Princess Victoria Eugenia Ena of Battenburg became the bride of Alfonso XIII.

All Madrid was gay with banners. The capital was thronged with Spain's grandees and foreign royalty and dignitaries.

It had been a love match, all agreed. The future beckoned with security, for monarchs were still in favor.

Then, as the young king and his bride were driving back to the palace after the wedding ceremony, a strange bouquet was tossed at the royal carriage.

It was a bomb, decked with flowers, flung by an assassin.

Falling between the horses and the coach, it killed four soldiers, an officer and a groom. If she had not chanced to look out of a window at that very moment the young queen, too, might have perished. The blood was spattered over her silver and white dress.

But she was a queen from that day, in courage, at least. While the acrid fumes of the bomb still hung about the carriage she said: "I'll show you I know how to be a queen."

Next day she rode, unprotected, in an open carriage with her husband about the streets of Madrid.

She was a granddaughter of Queen Victoria, born in Kensington Palace. It was at a dance there that she met her future husband.

She, a debutante of 18 in her first season, quickly enchanted the young king, then only 20 himself. Even autocratic Wilhelm II of Germany was unable to make Alfonso forswear her for a German bride.

Back in England they have always considered her as a British princess, visiting a foreign land. At least once a year she has returned for a visit, bringing her children with her. The English welcomed her as the little princess who used to play at Balmoral, who wanted to be a shop-keeper and once said: "I never want to be a queen; they are all unhappy people."

QUEEN VICTORIA

She was born in October, the "opal month," married Alfonso the Thirteenth and was the first royal baby born north of the Tweed in 287 years. The last before her was Charles I of England, even more ill-fated.

Actually, it has been related, her third name was an accident. "Eva" had been selected, but the clergyman at the christening misread her mother's writing and made it "Ena."

"Mr. and Mrs. V. P. Adrian announce the marriage of their daughter, Amy, to Mr. John McMurry, Jr., Monday, the twenty-fifth of May, nineteen hundred thirty-one, Denison, Texas. At home until September first West Minster Encampment Kerrville, Texas."

* * *

Such did yesterday's mail bring to this desk. Mister John W. McMurry, Jr., is none other than our own "Swede" McMurry, (though we've been spelling it McMurray) who has taken unto himself a wife. Our most sincere congratulations to him and to the new Mrs. Swede.

* * *

It has always been a source of wonder and worry to us why the gentleman in the case always gets the congratulations after the big event and very little mention before. The above records one of the many instances where both should be congratulated. Mrs. Swede, whom we do know not personally but whom we shall welcome home with due grace and cheer, coud have done a lot worse than select Mr. Swede as a partner in the matrimonial game. And we left everything up to Swede's good judgment in making his selection.

* * *

IN DUAL ROLE

In explanation, Swede is assistant coach at Lubbock High school. Last year he was coach of the Pioneers, the younger and less experienced Westerners who will be Westerners next fall. McMurry will direct the boys department at Westminster encampment at Kerrville this summer, having full charge of the department. He is a favorite with boys and his hobby is dealing with them.

Perhaps we shall know something definite about the formation of the proposed Panhandle Baseball league after tonight's mass meeting at the city hall here. We have been led to believe that the league was already organized with its four team towns and ready to go. An opening date and schedule was even announced, with Lubbock playing at Plainview in an opening series June 10 and 11. But all was not hunky dory.

* * *

Harry Wanderling, who is alleged to hold the Lubbock franchise and who will be active manager of the local team, should it be organized, came down from Amarillo last week full of ambition and hopes but not with a flush pocketbook, as formerly announced. He was handicapped by not knowing many of the local populace and refused to be shaken when advised that Lubbock was not a baseball town. He deserves commendations for his determination. Straightway he began to hold conversations with the town's leading business men and found them in good humors and ready to hear about the plan for inaugurating night baseball here. They volunteered to help look into the situation and see about raising a few thousand dollars to get things started.

* * *

We've been waiting nearly a week now and nothing further has developed except the call for a mass meeting tonight. Once started, we are of the opinion that night baseball on an organized basis will be somewhat successful here. All that's lacking is a couple of millionaires who will kick in in order to get the thing started.

* * *

Wanderling is very anxious that the ownership of the Lubbock club remain in Lubbock. He desires that a local man or group of men undertake to own the club while he will act as manager. Other than the dues paid to the National Baseball Association of America, we are led to believe that the Panhandle league is purely a West Texas organization. This is another point in favor of Lubbock. If a man or group of men here will undertake to sponsor the local club, which, we understand, will be composed of professional players who know the baseball rules and who are capable of entertaining dyed-in-the-wool fans, we can see no reason for objection.

But we do want to see some action!

* * *

DO YOU REMEMBER? One year ago today—the biggest trading deal of the major league baseball was completed by the New York Giants and the Cincinnati Reds. The Giants gave Pitcher Larry Benton, Infielder Pat Crawford and cash to the Reds in exchange for Second Baseman Hugh Critz, Outfielder Ethan Allen and Pitcher Pete Donohue—Five years ago today—Willie Ames of Akron got off the floor after a count of nine in the fifth round and beat Charlie (Phil) Rosenberg, world's bantamweight champion in a ten-round bout. Ten years ago today—By a score of 12 and 11, W. I. Hunter of Walmer and Kingsdown Golf club won the British Amateur golf championship over Allan Graham, conquerer of Bobby Jones in the fifth round.

LOCAL MEN TO HEAR PLANS OF LOOP

MEETING CALLED FOR 8 O'CLOCK AT C.-C. ROOMS TONIGHT

A mass meeting of all parties interested in the destination of the proposed Panhandle Professional Baseball league and particular so far as it concerns Lubbock has been called for 8 o'clock tonight at the chamber of commerce rooms in the city hall. Prominent business men of Lubbock have requested that the meeting be held to estimate the degree of interest that will be attached to a professional club in organized baseball here.

H. E. Shell and John Dalrymple, local contractors, C. A. (Shef) Sheffield, local hotel manager and other business men of Lubbock are interested in the move toward making Lubbock the seat of a Panhandle League team and have volunteered their services in helping promote the movement.

Need $3,000 Fund

Harry Wanderling, once a power in the Western Association, Western League and one of the founders of the East Texas and West Texas leagues, has been given charge of the local situation and will work with Luobock men in promoting the deal. It will be necessary to provide a starting fund of approximately $3,000 before Lubbock will be admitted to the league, Wanderling, who will manage the team, stated.

J. Alvin Gardner, president of the Texas League, has been elected president of the Panhandle organization, which includes Amarillo, Pampa, Clovis, N. M., and Lubbock as the starting clubs. Wanderling states that he is very anxious that the franchise here be in the hands of local men rather than resting with him or any of the other founders of the league. He will be present at the meeting tonight to answer all questions regarding the proposal of entering Lubbock in the league. Lights will be installed in each of the league parks, it was announced, and night baseball will be played throughout. The season is scheduled to open June 16.

H. H. Shell, who called the mass meeting tonight, urges that as many Lubbock men who can be present.

Boston has been a tough customer for most of the National league's clubs this season, but the Giants have gone right along handing the Braves one setback after another.

The count now stands 7 to 3 for New York as the Giants, a bit behind in their race with the St. Louis Cardinals, scored two shutout victories yesterday to regain their odd position of being a half game ahead of the Cards by one method of counting but a few points behind in the percentages.

Southpaws Win

Manager John McGraw teamed up his pair of star southpaws for the afternoon, sending out Carl Hubbell to take a 3 to 0 victory in the first game and Bill Walker to win the second 6 to 0. Hubbell gave the Braves only two hits while Walker allowed eight.

St. Louis held its place at the top of the standing with some difficulty, winning a wide-open slugging match from Pittsburgh 11 to 9. The defeat dropped Pittsburgh into sixth place as the Phillies beat Brooklyn 8 to 4.

YESTERDAY'S STARS

Karl Hubbell and Bill Walker, Giants—Held Braves to ten hits in double-header and blanked them twice, 3-0 and 6-0; Babe Ruth, Yankees—Hit home run, double and single as Yankees stopped Athletics' winning streak; Walter Miller and Mel Harder, Indians—Pitched Indians to double victory over Browns, allowing 13 hits between them; Buzz Arlett, Phillies—Pounded out three doubles and a single against Robins, drove in two runs and scored two; George Uhle, Tigers—Pitched Tigers to win over White Sox and smashed homer with one on; Jim Bottomley, Cardinals — Drove in four runs against Pirates with double and single.

Chicago's Cubs had little trouble taking two games from Cincinnati, improving their position in fourth place until they are only a half game behind Boston. Bob Smith hurled the first game, winning 7 to 2 on an eight-hit job and Ed Baecht and Charley Root divided the work in the second, granting seven hits for a 9-6 triumph.

Athletics Lose

The New York Yankees supplied something of a sensation for American league fans when they downed the Philadelphia Athletics 6 to 2, stopping the winning streak of the World's champions after 17 straight games. Lefty Gomez halted the A's with seven hits while the Yanks drove Ed Rommel out with a three run burst in the second inning. Boston also ended a streak, one of seven straight defeats, by beating out Washington 6 to 4. Jack Russell outlasted Sam Jones, who had won four games without being charged with a defeat.

Cleveland cut loose a real attack to down St. Louis 12 to 6 and 4 to 2, and got some good pitching to support it. Walter Miller held the Browns to seven hits in the opener while Mel Harder allowed six in the second clash. As the Indians went into fifth place, Detroit stayed just ahead by beating the Chicago White Sox 4 to 2.

Lott, Van Ryn U. S. Hopes In Singles

AUTEUIL, France, May 27 (AP)—America's threat for the men's singles title of the French Hard Court tennis championships still was two-fold today—George Lott and John Van Ryn—but only Helen Jacobs of Berkeley, Calif., remained to carry on in the women's division. Elizabeth Ryan still was a contender but she has lived in England so long that she no longer can be considered as entered from the United States.

Lott, favored to reach the final round against Jean Borotra of France, gave a brilliant exhibition of tennis yesterday in trouncing Charles H. Kingsley of England, 6-0, 6-1, 6-4. Lott's opponent today was the young German, T. Von Kramm.

Van Ryn is in the same half of the draw as Borotra and may not even get as far as the French ace if his play does not improve. He was pressed to eliminate Andre Merlin of France, 4-6, 8-6, 6-1, 6-2, yesterday. His opponent today was Hans Menzel of Czechoslovakia.

AMHERST HERE FOR GAME

GAME STARTS TODAY AT 3:30; A.-J. MEETS RAINBOW

The Lubock Hubbers will meet the Amherst amateur baseball team this afternoon at 3 30 on the Merrill Park field. It will be the first meeting of the season between the clubs, which are considered about evenly matched before game time.

At 6 o'clock on the Merrill Park field the Avalanche-Journal team will clash with the Rainbow club in a City League game, the first of the week. The Avalanche-Journal club has yet to win a City League contest, having lost its first two starts.

Manager Waller of the Hubbers announces as his starting lineup, Pressley as pitcher and Galey as catcher. Del Morgan at first, Clarence Hodges at second, Lawrence France at short, Waller at third, and Raymond "Evo" Marshall, Ed Hambright and Buddy Brothers in the outfield.

SPECTATOR TRIUMPHS IN MAT BOUT

TWO-HUNDRED-POUND, SIX-FOOT GROCER PUTS CALIFORNIAN OUT WITH HEAVY HAYMAKER

(By Associated Press)

BALTIMORE, May 27.—The main bout of a wrestling match here last night ended in a knockout and the blow was delivered by a 200-pound six-foot spectator on the jaw of Dick Daviscourt, a Californian, who had a stranglehold on Gino Garibaldi, an Italian.

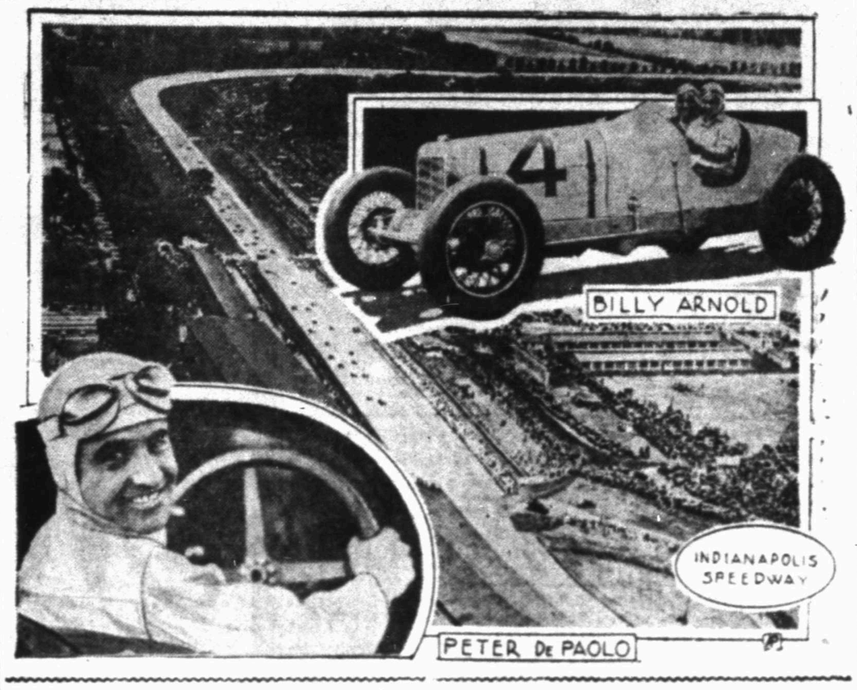

Daviscourt recovered from the blow after reaching his dressing room. There was a lump the size of a pigeon egg and a cut under his ear. The assailant, who was arrested and charged with disorderly conduct, gave a Baltimore address and declared he was a grocer. He refused to discuss the incident.

The attack came after the bout had been in progress about 20 minutes. Daviscourt had wrapped his hands around his opponent's neck. Referee "Cyclone" Burns ruled it a stranglehold and tried to break it as Lusso entered the ring.

Burns declared he did not see the blow struck and gave the bout to Garibaldi but after a conference with the members of the boxing commission this was reversed and it was declared a contest but no decision.

Spudders Down Fort Worth Cats In Second Straight Game; Race Tight

BY BILL PARKER,
Associated Press Sports Writer

Beaumont, Houston and Dallas, three of the four first division teams in the Texas league flag race, won their respective games Tuesday night but the Fort Worth Cats, pace setters, lost their second consecutive tilt to Wichita Falls. The Cats lead has been whittled, and the first division race is tight.

The flying Beaumont Exporters swept a doubleheader from the Galveston Buccaneers at Galveston, 9 to 1 and 8 to 0. It was a great day for Beaumont and Haskell Billings. Billings worked the second game, and proved that his pitching arm, injured three years ago during a major league ball game, is again O. k. He stopped Galveston with two hits. It was Billings first full game this season, and many Texas leaguers believe it was the signal that he is on his way back to the major leagues.

Houston Regains Ground

At San Antonio, Houston regained lost ground by whipping the Indians 9 to 3 and 4 to 3. After taking the first contest with ease, the Buffaloes had to register three runs in the last inning to win the second combat. Working as relief man after Rose and Durham had failed to hold the Indians, Jerome "Dizzy" Dean returned to form and held the Indians, although Durham got credit for the win.

Fort Worth not only lost 5 to 4 to Wichita Falls, but Dick Whitworth, ace Fort Worth pitcher, lost his first game this season. He now has seven wins and one defeat. Ash Hillin started for Wichita Falls and received credit for winning, but it was Florid's relief pitching that saved the spudders.

Steers Pick Up

After losing a listless 9 to 1 game Monday night to Shreveport, the Dallas Steers closed their home stay Tuesday night with a dashing brand of baseball, beating the Shreveport Sports, 5 to 3. Big Lou Garland, right hand smoke ball pitcher, limited Shreveport to four hits, and would have scored a shutout had it not been for his lack of control. He loaded the bases in the sixth on three straight walks, allowing the sports a pair of runs.

OWNERS MEET TODAY FOR ELECTION

LEAGUE SECRETARY IS FAVORED FOR POST UNTIL AUTUMN

(By Associated Press)

CLEVELAND, May 27.—Barring unexpected opposition, William Harridge of Chicago will be named president of the American league, succeeding the late Ernest S. Barnard, at a conference of club owners today.

An unofficial consensus of opinion among the club magnates prior to the hurriedly called meeting was that Harridge, who has been connected with the league for the past 20 years in a secretarial position, would be named to lead the junior circuit at least until the regular December meeting, when he would be elected for a full term of four years if still satisfactory.

Harridge, a quiet, unassuming person who has been behind some of the stormiest figures the league experienced during the regime of the late Byron Bancroft Johnson, broke into baseball because Johnson took a fancy to him and his ability. Twenty years ago, Harridge was assigned the task of routing American players over a certain railroad. He handled the job so well that Johnson hired him as his private secretary, an office he held until Johnson was forced out of office. When Barnard took over the office in 1927 Harridge was named secretary of the league, an office he has held since.

BRITISH OPEN IN SPOTLIGHT

MORE THAN 200 OF THE WORLD'S BEST GOLF STARS TO PLAY

(By The Associated Press)

CARNOUSTIE, Scotland, May 2.—More than 200 of the world's finest golfers will gather here next Monday for the British Open championship and among them 14 Americans.

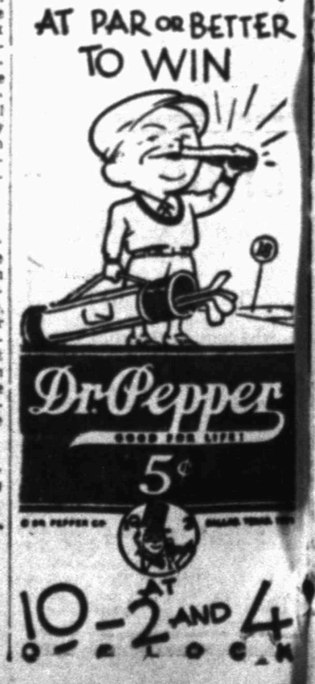

With Bobby Jones letting the title go by default, the ten professionals in the American contingent loom much more formidable than the amateurs. The pros include Tommy Armour, Gene Sarazen, Johnny Farrell, MacDonald Smith, Horton Smith, Joe Kirkwood, Joe Turnesa, Tony Manero, Willie Hunter and Arthur Straub.

George Voigt who reached the fifth round of the British Amateur ten days ago, stands head and shoulders above the other American amateurs who include Joshua Crane, John De Paolo and Tom MacGurie.

The "old course" of Carnoustie where the open will be played is almost as famous in Scotland as St. Andrew's although this is the first time the event ever has been taken there.

Carnoustie has at least 400 years of written golf history for local chronicles dated "the 2eir of God 1527 or there abouts" tell of a Sixteenth century gentleman, one Sir Robert Maule "of comlie behaviours" who "exercisit the gowf." He was "colarique of nature and subject to sudden anger." It must have been the same game.

LABRADOR MAY BE SOLD

EUROPEAN INTERESTS SAID TO BE AFTER OLDEST COLONY

(By Associated Press)

OTTAWA, May 27—Wide interest was aroused today by St. John's dispatch to the New York Herald-Tribune concerning a reported attempt by European interests to buy Labrador.

The dispatch said the government of New Foundland, Great Britain's oldest colony, was facing bankruptcy and that in certain political circles it was being charged that the situation was brought about deliberately to force the people of the colony to agree to the sale of Labrador.

European interests, not identified, were said to be prepared to pay $100,000,000 for Labrador, with its yet largely unexplored resources of timber minerals and water power.

Count Still Equal

NEW YORK—Notwithstanding figures, sponsors of an annual count argue that the number of white horses in this town equals the number of red-headed women. Langdon McCormick, playwright, and some friends, in their latest cruise by taxicab, noted only 82 white horses and 20 red-headed women. McCormick reconciled the results with his theory by saying that this year only one woman in four wears her hair so it is visible beneath her hat. Hitherto the figures have coincided.

CHIEF JUSTICE HUGHES ABOUT TO LET GOLF GO BECAUSE HE'S NOT USED TO FAILURE; MAY SURPASS TAFT'S WORK

EDITOR'S NOTE: The following story on Chief Justice Hughes is another in the series giving little known facts concerning prominent personages.

BY S. B. BLEDSOE
(Copyright, 1931, By The Associated Press)

WASHINGTON, May 27 (AP)—The chief justice of the United States has mastered almost everything he ever attempted but golf.

Charles Evans Hughes regretfully classes himself among the dubs at the game. The only phase of it in which he ever showed aptitude was the precise art of putting.

Not Accustomed To Failure

He never gives way to intemperate remarks after missing the ball, but his famous beard has veritable bristled on a few trying occasions. He is not accustomed to failure. Now he has about abandoned the ancient game in favor of brisk morning walks.

He has a kindly courtesy toward those who come in contact with him at the supreme court that is reminiscent of the geniality of William Howard Taft.

Few know that he has a rich fund of humorous stories, or that he can hold his own in repartee with Will Rogers. They are friends and Will has a photograph autographed by the Chief Justice which says: "Yours for more and better wisecracks."

Watches Drama Closely

Spectators at a recent mystery melodrama saw him seated in a box, leaning forward and watching the stage intently. His eyes never wandered, and those who knew his powers of analysis had an idea he knew the solution a good bit before the final curtain.

He has amazing power of rapid and thorough work. If he is to deliver an opinion he examines every precedent cited in the briefs. His decision arrived at, he calls a stenographer and dictates rapidly. There are few alterations to be made when he is through.

Already, at this term of court he has delivered 15 opinions and he probably will surpass the 256 decisions handed down by Taft in his nine years on the bench if his excellent health continues.

Italy has spent $51,336,000 in earthquake and volcanic-eruption reconstruction in the last eight years.

NEW PLAN ANNOUNCED FOR RAILROADS IN ICC RULING

Merchandise shipped on the Santa Fe railway in West Texas for 300 miles or less will be picked up at quarters of the shipper and delivered to the consignee at the destination without any charge for the additional service.

Under plans perfected by the Santa Fe and a group of about 20 southwestern railroads, the plan will become effective about the first of August, R. F. Bayless, local general agent of the Santa Fe, explained.

The Interstate Commerce Commission has authorized the railroads in the southwest to work out the plan. Under the authorization, the railroads are to file a tariff with the I. C. C. by about June 15, covering the new service. After this tariff has been published for 30 days, the new rates will become effective.

"We are permitted to pick up and deliver free of charge, all packages and shipments in less than carload shipments, where the destination is not to exceed 300 miles from the point of origin," the railroad man said.

"This does not include shipments from Dallas or Fort Worth. We could not get the commission to agree to let us include these towns, as there were some objections from other railroads.

"However, we are permitted to make a charge of 10 cents per hundred pounds for pickup and delivery service, and we will do this for all shipments. This ten cents is for both."

It is the plan of the Santa Fe, and other railroads, to arrange contracts in the larger towns of the South Plains area, with local draymen, to make the deliveries or pickups. These contracts are now made and will be prepared for the starting of the service as soon as it can be done.

The Santa Fe has been working on the plan for some months, making tentative contract arrangements with draymen. These were made on the basis of a possible free delivery plan. Now officials will have contracts signed covering the service.

Authority was recently given by the I. C. C. to the railroads operating in the southwest. These include, besides the Santa Fe, the Fort Worth and Denver, Rock Island, Missouri Pacific, Texas and Pacific, Southern Pacific, Burlington, system, Union Pacific and other lines.

Police Obey Orders In Morton Grove, It Seems

MORTON GROVE, Ill., May 27 (AP)—The Morton Grove highway police snapped an airy finger today at those who would question their resourcefulness.

The order came yesterday:

"There's two aviators flying reckless. Arrest 'em."

"But we run motorcycles," protested the officers.

One man glanced out the window.

"Ah behold!" he said.

There were the two planes circling over adjoining airports.

Edith Paselk and Charles Moran came down into their arms. It was a two-point landing for police.

TALKIE OF GANDHI TO BE SHOWN SOON

NEW YORK, May 27. (AP)—Talking picture audiences in hundreds of first run houses throughout the United States will soon see and hear James A. Mills" interview with Mahatma Gandi at Borsad India, April 30. Mills' is a foreign correspondent of the Associated Press.

Associated Press newspapers printed cable accounts of this unusual interview May 1, and readers then were told how the Mahatma said he was tortured by his first experience before the microphone. The leader's voice was weak and low. He was repeatedly urged to speak louder, and consented although he protested it was painful.

The Gandhi film was brought to the United States by airplane and shi and is now being shown in one theatre in New York City. It will be sent out Wednesday for general release throughout the United States late this week.

Leslie's Change His Address The Next Time He Dies

CHICAGO, May 27 (AP)—Leslie Hollen got himself dead and buried but he forgot to change the address.

He needed money badly, and since his father, J. D. Hollen in San Antonio, failed to respond to the direct touch system, he tried a telegram.

It read: "Your son, Leslie Hollen, died May 23. Send $137 to cover the cost of burial."

He signed the name D. E. Deleraty. But he gave Leslie Hollen's home address.

The father sent a wire, only it was to the detective bureau. They have arrested Leslie. He confessed and is held.

Grape Bricks Said To Be Law Violation

BOISE, Idaho, May 27 (AP)—Attorney General Fred Babcock ruled today in an informal opinion that any product sold in Idaho with the suggestion that it will make liquor is a violation of law.

The opinion was given to representative of a California fruit house which proposed selling bricks of pressed grapes and oranges. The wrapper in the bricks explained that unless a preservative was added, the bricks would undoubtedly ferment and generate alcohol. A small amount of the preservative was attached to each brick.

Thought For Today

Being forty days tempted of the devil. And in those days he did eat nothing, he afterward hungered.—St. Luke 4:2.

• • •

Every temptation is an opportunity of our getting nearer to God. —J. Q. Adams.

Beauty Or Industry

EARLY as the season still is, the matter of summer automobile touring is already beginning to occupy people's minds. Those who are going to go touring are beginning to day-dream about the places that they will visit, and to wonder if they will be able, by good luck, to afford new cars in which to do the visiting; and towns that are on the tourist routes are likewise beginning to figure out new ways for attracting more visitors than they had the summer before, to their greater profit and glorification.

In this latter connection, there is a remark in Charles J. Finger's recent book, "Adventure Under Sapphire Skies," that is very much to the point. Every town in America that hopes to attract tourists ought to heed it, and it is worth reprinting here.

Mr. Finger remarks that every town has its "boosters' club" that tries to attract the visitor; and he continues:

"But how do they set about attracting him? By making pictures of the beautiful places near their town? By seeing to it that natural beauties are undisfigured? Not a bit of it.

"In nine cases out of 10 they will tell you about the factories and the banks and the churches and the good water and the schools in their community. Now to do that is every bit as silly as if a business house should advertise that it had safes and cash registers and typewriters and ledgers. Such things are necessities and rightly taken for granted. So are schools and good water and banks necessities, and it should be taken for granted that every community has them.

"But what the towns might do is see that no local high board advertisements disfigure the landscape. They should search out their beauty spots and clear ways to them. They should look to the beautification of their town, so that travelers might wish to stay there, as the city of Leamington in England has beautified its streets and made them gay with flowers and potted plants.

"To put matters in a nutshell, the active-minded people who would do the right thing by their town should give some consideration to the tourist's point of view. But that they do not do.

"Neither we, nor you who read, were ever, or are ever, likely to visit a town because it has an overall factory in full blast, or because there is a coal dealer and a paint and wall paper merchant in it, no matter how much of a citizen of credit and renown the advertiser might be."

Would that civic boosters might ponder deeply over this advice! It would make automobile touring in the United States infinitely more enjoyable.

Well Chosen

THERE can be little disagreement with the choice of the four famous Americans whose busts were unveiled in New York University's Hall of Fame the other day.

These four—as you probably know—were President James Monroe; James A. McNeil Whistler, the artist; Matthew Fontaine Maury, the oceanopragher, and Walt Whitman, the poet.

Whitman and Maury belong there beyond any question; Whitman as one of the greatest of all poets, and Maury as an extremely useful scientist whose work has been invaluable to sailors for generations. Whistler, while not among the greatest of artists, left work that will endure for many years; and Monroe, at the very least, will be remembered as long as the Monroe Doctrine lasts.

The names of these four will live for a long time. Their inclusion in the Hall of Fame was very fitting.

That Girl on Broadway says a successful linguist is one who can bore you in at least four languages.

TODAY'S BEST STORY

LOS ANGELES, May 26. (AP)—Lynn Hilliar is even with that automobile of his. It wouldn't start.

In trying to make it go, he wore out the battery. The crank was of no avail so he hurled it through the windshield and then set the car on fire.

He was arrested on suspicion of arson.

(P. S—This is a true story!)

EVER since Mr. Hoover has been president most of the people up in the Panhandle have been living off of jackrabbits. In fact, they've eaten so many jackrabbits in the Amarillo country that a lot of the folks have begun looking like jackrabbits.

A week or two ago a prominent Panhandle man was traveling in New Mexico and ran across one of the old nesters stalking through the mesquite with a long rifle hung over his arm.

"What are you huntin', pardner", the Panhandler asked, "jackrabbits?"

"Gee whiz, no!" was the answer, "we've et up all the jackrabbits months ago. We're a-hunting lizards now!"

While many of our larger American newspapers are crying against advertising competition from radio and talking pictures, William Randolph Hearst, greatest publisher of all, has added the 'enemies' as allies. Hearst news features, gathered the globe over, are printed in his papers, broadcast over his radio stations and offered movie fans in their favorite cinema houses.

* * *

WHEN a Hearts pictorial worker 'shoots' a news event in far off Singapore he also takes a talking picture for the Hearst news reel. The Hearst reporter 'covering' the story writes it for the Hearst papers and all are released as simultaneously as possible. Typical of Hearst ingenuity in this latest move of the most powerful man in America. Leadership by the rich Hearst papers will be followed, no doubt, by other leading metropolitan journals and in years to come the smaller papers, such as The Journal, will likely be able to receive the same service through a league large enough to stand the tremendous expense attached.

LUBBOCK is giving the smaller cities 'something to shoot at' in this business of entertaining important gatherings and conventions. Of the cities of the 'second population class', the Hub of the Plains is 'way out in front as a center of meetings of state and sectional nature.

* * *

Lubbock energy and enthusiasm, coupled with a tremendous amount of constructive publicity concerning the city's growth over recent years, are responsible for the conventions which are following one another here in a regular parade. And unless The Plainsman is overenthusiastic, Lubbock is playing the host in a way that will engender more conventions in the days to come.

* * *

The fact that 1931 is the city's banner convention year is a 'break' for us all. Conventions engender business—are furnishing every business house in town with more trade than it would have had normally. Further than that money loosed here by visitors is 'outside money', brought from other points and placed into circulation here. There's no getting away from the fact that we may thank our lucky stars for the conventions.

DR. W. B. BIZZELL, former president of CIA and Texas A&M and now president of the University of Oklahoma, has set to rest the rumors that he will succeed his late friend, Dr. S. P. Brooks, as president of Baylor. Perhaps regents of Baylor have never considered Doctor Bizzell for the post—perhaps they have. But regardless, Doctor Bizzell would make any college a good president because he is one of the South's leading educators.

* * *

Incidentally, Doctor Bizzell's decision to remain at Oklahoma shows the love of the man for his work—his preference to stick to a principle. With Wild Bill Murray in the saddle in the Sooner state and the university a pawn in the disgusting Murray plan of politics, Doctor Bizzell may be forced to accept a salary cut if he remains where he is.

* * *

The Plainsman would like to see Doctor Bizzell come back to Texas—back to a school that would appreciate him as he should be appreciated. The man who addressed Tech graduates of the class of 1929 is the type of educator and leader needed by any state.

No One Knows Which Will Be In Power, But Both New York Party Branches Want More Recognition In 1932

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, May 27.—This may be an item of blissful unconcern to 47 other states, but we now have both Republicans and Democrats from New York complaining that their state isn't getting a fair break here in Wasnington.

Of course nobody down here is ever dumb enough to ask for anything in the name of fairness, so there are muttered threats and warnings.

The climax of New York's bid for recognition will be observed when it becomes clear just who will be in a numerical position to organize the House in the next Congress.

New York's Republican congressmen will be advancing the thought that it is essential to the party's national prospects to elect Congressman Bert Snell as speaker of the House, pointing out that although New York has persistently contributed more electoral votes to Republican presidential victories than any other state her people hold hardly any of the biggest and best jobs down here.

South Would Get Plums

On the other hand, if it appears that the Democrats can organize the House and elect Leader Jack Garner of Texas to the speakership, Democratic congressmen from New York—probably with the support of other northern Democrats—will be hollering because the old seniority practice will then give virtually all the important committee chairmanships to southern members. A few Tammany congressmen might even refuse to vote for Garner unless they could make some arrangements about the chairmanship.

The first bleat of the Empire State's Republicans was emitted by Congressman James S. Parker of Salem, who solemnly warned that the Democrats were depending on getting New York's 47 electoral votes in order to elect a president in 1932. Those votes were vital to the G. O. P. he said, and Snell's election as speaker would "help tremendously."

New York had been drifting gradually toward the Democratic column, Parker said, and its Republicans needed encouragement. Right now New York has hardly any of the key positions down here unless you include Secretary of State Stimson who, as Parker implied, doesn't really do the state any good. Snell, as chairman of the rules committee, has plenty of power, and Parker didn't mention Chief Justice Charles Evans Hughes of the Supreme Court or Undersecretary of the Treasury Ogden Mills. It is true, however, that except for rules, New York Republicans are chairmen of no important House committees—nor of Senate committees because both New York senators are Democrats.

47 Available Chairmanships

There are 47 committee chairmanships which will be available for Democrats if they organize the next House. Many of the committees are so unimportant as to be hardly worth mentioning.

Taking ranking Democratic members for chairmanships in accordance with custom, 31 chairmanships would go to the south, seven to New York and nine to Democrats in the rest of the north and west. That sounds as if New York were getting a good break, but the only chairmanship of any importance among the seven is that of the immigration committee which would go to Congressman Sam Dickstein.

All other important chairmanships would go, along with the speakership, to the south—agriculture to Jones of Texas, appropriations to Byrns of Tennessee, banking and currency to Steagall of Alabama, foreign affairs to Linthicum of Maryland (or isn't that in the south?), judiciary to Sumners of Texas, military affairs to Quin of Mississippi, naval affairs to Vinson of Georgia, rivers and harbors to Mansfield of Texas, rules to Pou of North Carolina, ways and means to Collier of Mississippi and veterans' to Rankin of Mississippi.

The squawk northern Democrats would make about that setup would be more serious and far-reaching as a party row than anything New York Republicans will do to further the Snell candidacy, but there may not be any Democratic dissention at all. The question of who will organize the next House continues to be unanswerable for us human beings.

ERUPTION FROM GLASSES

"METALLIC DERMATITIS," reports an author in the Journal of the American Medical Association, is occasionally observed in the practice of every dermatologist who attends the laboring people of various occupations, more especially by dermatologists who look after the skin eruptions of employes of large public utility and industrial plants."

Dr. Clendening

One of the causes for these skin eruptions is nickel and nickel salts. Polishers of metal and platers often get it on their hands.

The new source of such an eruption is described as due to the contact of the skin of the temples and ears and across the bridge of the nose from wearing spectacles with white gold frames. The metal, white gold, used in these frames is an alloy of gold, copper and nickel. The eruption should be easily recognized for it occurs exactly on the spot where the frames rest on the skin, and does not extend beyond this era.

An optical company which manufactures these frames wrote that complaints about such eruptions came to them, though at rather infrequent intervals, so it cannot be very common. A great deal of time and trouble has been spent by the laboratories of the company trying to avoid this uncomfortable occurrence.

"The trouble seems to be due largely to the nickel that is found in white gold alloy. We believe that the action is largely electrolytic; that is an electrolytic battery action is produced when there are dissimilar metals and an acid, or in some instances, an alkaline fluid present and in contact with these dissimilar metals. When the perspiration which is an electrolyte, acts upon the base, metal salts are formed and such action is more pronounced in the presence of heat. It is probably a salt of the nickel which causes irritation of the skin where the metal comes in contact. The irritation seems to be analogous to a trouble that is present in the nickel plating industry called commonly 'nickel itch'."

The situation is not, however, easy to remedy unless the metal frames are discarded for sold gold frames. A plating process has been developed but results in quite an expense product. However, it does not seem to occur frequently enough to warrant much excitement.

The eruption goes away promptly upon removal of the spectacles. A soothing lotion or ointment, such as zinc oxide or calomine, is all the treatment needed.

SWAN

In New York With Gilbert Swan

NEW YORK, May 27.—Life like that!—And it's also like this:

Just a month or so ago, a certain novelty play was announced for Broadway production. It was titled "Two's Company," and there were exacty two people in the company. Once before a two-character play had been attempted, but despite the reputation of the leading players, it struggled to slow death.

Since that time there has been a sort of curiosity about the possibilities of a two-person drama.

At any rate, a couple of days before "Two's Company" was scheduled to open, announcement was made that its curtain would not rise. The play had been called off. And up and down the "big street" went all sorts of rumors. It was whispered that there had been heart interest off stage, and all that sort of thing; that there had been jealousies.

Very well—the author of the play was one John Patten Russell; the leading woman was Ann Davis and the producer was to have been one Howard Schnebbe. Schnebbe postponed the opening once and then wrote to the Actors' Equity that he had thrown up his hands. He just couldn't get the production under way. On the night of the final dress rehearsal, he reported, Miss Davis didn't know her lines.

Less than one month after the play was to have opened, the playwright and the leading woman appeared in a small suburb of New York and took out a wedding license.

No wonder the actress had seemed "impossible" to the producer. The poor child was in love with the author!

Which, in itself, might be an idea for a three-character play.

But you never can tell just what tricks romance will play either on stage, or at the box office.

For years, both films and theaters have covered up, insofar as possible, the married states of many of the players. The theory was that greater romantic appeal attached to the unmarried than to the married.

David Belasco, for instance, was reported to have urged some of his most charming stars not to mix wedlock with a stage career.

Very well—not so many weeks ago, Helen Gahagan, one of Belasco's most charming leading ladies, and his newest, married the leading man in the production of "Tonight or Never." No one knows for sure just how the dean of the theater took this arrangement, but outwardly he made his best "bless you my children" gestures.

But—it so happens that "Tonight or Never" had been running along to a very decent sort of box office business. And after the wedding announcement was made and the newspapers printed pieces about the pretty romance—the lines began to gather at the box office. Business soon reached capacity.

All the curious ones came out to get a personal view of the romantic newlyweds.

Persons who had seen the play before—particularly women — returned to see if the love story would make any difference in the acting stage. Chatterers recalled how they had "thought they made love on the stage just a wee bit realistically."

And so don't be surprised if you find producers trying to arrange rendezvous between the leading players, if and when unmarried.

THE TINYMITES

STORY by HAL COCHRAN—PICTURES by KING

(READ THE STORY, THEN COLOR THE PICTURE)

The flower girl smiled as she came near, the sort of smile that spreads good cheer. She pointed to her flowers and spoke some words in Japanese. The Travel Man said, "I'll explain so what she said won't be in vain. She said, "I have some pretty flowers. Won't you all buy some, please?'

"We'll, tell her that we gladly will," said Clowny. "I can't wait until I get a posey in my hand. I'll bet they smell real sweet. They're just as fresh as they can be, but how they stay so I can't see. The sun is shining bright. You'd think they'd wilt out in the heat."

The Travel Man turned to the miss and said. "Here, Flower Girl, you take this and we'll each have a pretty flower." He handed her some change. She let them pick their flowers out, which all the bunch did, with a shout. Then Coppy eyed the girl and said, "My isn't she dressed strange!"

Upon her dainty little feet were sandals and they looked real neat. She wore a very blousey dress, with broad sash at the waist. The skirt part of the dress was white and though it seemed a bit too tight wee Carpy said "I think that she is dressed in real good taste."

They shortly left the girl and then began to tour around again. The Travel Man said, "Would you like to see a famous bell? It hangs within a Temple near and from it peals ring out real clear. But come, you'll shortly see more than a man could ever tell."

Chion-in Temple, near at hand was of the finest in the land. The Tinies entered cautiously. The place seemed rather queer. The bell, a very large affair; was, in its glory hanging there. Melodic peals soon filled the air and, my, but they were clear.

(The Tinymites visit a cloisonne vase worker in the next story.)

Modern William Tell In Action

William Tell shot the apple off his son's head, but Elwood L. Mould ft, runnerup in the 1930 national archery championships, surpasses en the gallant Swiss by clipping off the thin stem of a pipe in the outh of his friend, Chester Seay, at Los Angeles. The closeup shows e bowl of the pipe dropping after Mould had made a perfect hit.

Another Pipe Line Into Area Planned

DALLAS, May 27 (AP) — Another pelline to the Gladewater area was nnounced here today, the Humble irposing to lay a system of gath- ing lines into the new district in orthwestern Gregg county. The xas company last week announced line to the area.

The Humble line is to connect th wells on the western side of e Lathrop area. Pending comple- n of its line, the Texas company as erecting storage for Glade- ater wells. It expected to begin nning oil in three or four weeks.

The price situation was said to continue acute, with a large per- centage of East Texas crude being sold below posted prices. Some operators were concerned as to whether the major companies would continue to pay the midcontinent scale. Fear of chaos should the posted price be abandoned had been expressed by a number of operators.

DAILY MARKETS

Stock Market

WALL STREET REPORT

NEW YORK, May 27 (AP)—Renewed selling of the rails interrupted a cautious early advance in the stock market today.

Gains of a couple of points in American Can, American Tobacco "B", Woolworth and Case and similar improvement in other leaders were lost. New York Central, Illinois Central, Atchison, Baltimore & Ohio New Haven, Pennsylvania and Union Pacific declined one to nearly three points.

Miscellaneous heavy issues included Crucible Steel, Bethlehem, Borden, Byers and Union Carbide although the recessions were moderate. U. S. Steel, after a small rise, went a point under Tuesday's close. Shell Union Oil preferred dropped 4.

Call money renewed at 1 1-2 per cent.

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, May 27 (AP) — Cotton here had a steady opening in sympathy with better Liverpool cables than due. First trades showed gains of 3 to 5 points which was hardly a full response to the advance abroad. As the stock market opened steady, prices here soon improved again, July trading up to 8.76, October to 9.13 and December to 9.32, or 12 to 13 points above yesterday's close.

Near the end of the first hour the market was steady and near the highs.

After having advanced to levels 14 to 16 points above Saturday's close, the market turned weak later in the morning owing to a break in stocks and before the offerings were absorbed the price level had made new lows both for the day and for the season. July dropped to 8.33, October to 8.88, and December to 9.07, or 26 to 28 points down from the early highs.

Near mid-season, the market steaded up two to four points on covering by satisfied shorts. Trading became rather active on the decline.

NEW YORK REPORT

NEW YORK May 27 (AP) —Cotton opened steady today 9 to 12 points higher in response to steadier Liverpool cables than expected and early in the day made further gains on domestic and foreign trade buying and covering.

Privvte reports indicated slow growth and grassy fields as a result of recent unfavorable weather. July sold up to 8.77 an advance of 18 points and December to 8.33, or 15 points above the previous close. There was less evidence and liquidation and while the demand was not active, offers were readily absorbed.

Liverpool cables said the market there had declined early under continental liquidation but rallied on covering, calling and trade buying.

The early advance extended to net rallies of 16 to 18 points but at these levels local selling pressure became more active when the stock market showed renewed weakness and cotton lost most of the gain.

July sold off from 8.79 to 8.64 and December from 9.35 to 9.19, or to within a point or two of the previous close.

The weekly report of the weather bureau said that because of persistant coolness, the week was generally unfavorable for cotton, although warmer and more favorable weather developed at the close. The report evidently had been discounted and was without any appreciable effect on the market, but prices rallied a few points from the lows when selling pressure subsided and at around midday the market was ruling 4 to 7 points net higher.

NEW YORK, May 27 (AP)—Cotton futures opened steady today: July 8.73; Oct. 9.08; Dec. 9.28; Jan. 9.39; March 9.61.

LIQUOR RAIDS

men they were told knew something about the robbers' raid on the legation of El Salvador in which 17 cases of liquor were taken and Dr. Carlos Leiva, charge d'affaires, attacked by a marauder.

In each of the five speakeasies they entered, after telling proprietors they were looking for a "couple of fellows," the detectives saw evidences of gaming and liquor selling. A police squad under Inspector T. R. Bean followed the detectives and made the arrests and seizures.

ONE MAN SHOT, TWO HELD IN COAST RAID

NEW YONDON, Conn., May 27 (AP)—One man was shot, two others were arrested and 500 cases of liquor seized by a coast guard patrol boat early today after a long chase in long island sound. Coast guard headquarters reported the seized speedboat was the Java, listed as a rum runner on the coast guard records.

The wounded man said he was Harry Barber of Oradell, N. J. Names of the other two men were not given.

by adopting this plan," he said.

Sees No Need

Mayor Pro Tempore A. E. Thomas of Fort Worth saw no need for his city adopting the plan.

"The daylight saving plan here apparently would have no material benefit," he stated.

Already confronted with the problem of wrestling with two methods of time keeping, El Paso can do without further annoyance by adopting a third, R. E. Sherman, mayor of the border city, commented.

"El Paso operates on Mountain time, only a few miles to the east we find Central Standard time, so I believe daylight saving time would be confusing here," he said.

MERCHANTS MEET

(Continued from Page One)

session of the assembly included a memoriam to the late A. A. Billingsley, who was a prominent worker in the association; appreciation of the hospitality accorded the convention delegates by the Lubbock Retail Merchants association, business establishment, press and individuals of Lubbock; appreciation of the part taken in the convention by Guy H. Hulse, secretary of the National Retail Credit association.

Reports from the credentials and auditing committees also were read.

Papers were read by E. S. Cummings, Abilene attorney and former member of the legislature; Arthur H. Hert, business research department of the University of Texas, and B. F. Condray, jr., head of the department of economics of Texas Technological college.

Pointed Out Fallacies

Mr. Cummings pointed out the fallacies of the present used in recording judgments granted in Texas courts. The assembly voted to instruct the executive committee to consider reforms suggested by the attorney with the view of staging an active campaign for their passage.

"Texas needs a centralized recording system for caring for judgments returned in its courts," he said. "At the present time these judgments are recorded only in the counties in which they are returned. It is then up to the person who is granted the judgment to follow the judgment through. Often it is found that the person against whom the judgment is granted has property in other parts of the state which is subject to attachment to satisfy the grant.

Proves ostly Task

"Often, this proves to be a costly task. If all judgments were recorded at the state capital, this matter would be greatly simplified. Filing fees would care for the expense of maintaining the state office," he said.

Mr. Hert gave an analysis of accounts charged off to profit and loss in 1930 by retail merchants, using Austin as an example.

During 1930, Austin merchants charged off 1,678 accounts, representing about nine per cent of their charge account customers, representing a loss of over $46,000, he said. Sixty-four percent of the accounts charged off had been opened by men, and 46 per cent by women. Although in the name of the male head of the family, many of the accounts falling under the first classification in reality were conducted by women, he said.

"Dead Beats" Head List

Causes for the charging off of accounts last year, the speaker explained. About 44 per cent of the items were charged off because the persons opening the accounts were considered "dead beats." "Skippers" or persons leaving the city without settling their accounts, came second with 20 per cent.

"Why Blame Business" was discussed by Mr. Condray. Business receives most unjust criticism for the failure of almost everything, including the loss of football games, the speaker said. Business in reality is responsible for the establishing of many philanthropic institutions designed to aid the human race, he said.

Election of officers for the ensuing year featured meetings Tuesday afternoon of two of the groups in convention here in connection with the thirty-first annual meeting of the Retail Merchants Association of Texas.

W. H. (Joe) Bailey, Fort Worth, credit manager of Poindexter Furniture company was named president of the Associated Retail Credit Men of Texas to succeed Paul J. Katzmark, of San Antonio.

Wendt Is Head

Headed by G. O. Wendt, of Temple, president of the Texas Retail Credit bureaus, with the exception of the board of directors, were re-elected for another term at the final session of that group Tuesday afternoon.

Other officers of the credit men elected were:

J. R. Clark, Fort Worth, first vice-president; J. D. Hassell, jr., Lubbock, second vice president; L. M. Jahn, Houston, G. B. Peyton, San Antonio, H. M. Tobolowsky, Dallas, and Francis Ansler, Austin, directors for two years and E. G. Parker, Fort Worth, and G. A. Marbach, San Antonio, directors for one year.

New directors on the retail merchants board are Paul J. Katzmark, retiring president, and J. M. Jahn, Houston.

Secretaries Choose

Other officers chosen by the secretaries were: H. C. Barnhart, Austin, re-elected vice president; Mrs. Alice D. True, Ranger, reelected secretary-treasurer; Mrs. Daisy Burton, Quanah, Sam Solinsky, Beaumont, O. R. Pennington, Abilene, and Gordon Lewis, Corpus Christi, directors. C. R. Pennington was the only director reelected. Members of the secretaries directorate are directors of the state retail merchants organization.

In the secretaries election a contest developed in the offices of president and secretary-treasurer. The nominating committee recommended that the present executive board be reelected.

Report Adopted

H. C. Barnhart, vice president, was nominated for the presidency by a delegate from the floor. Mrs. Idalia Young, of Breckenridge, was placed as the vice presidential nominee on the opposition ticket. Both were defeated and then a motion to adopt the nominating committee's report was approved.

Temple was selected as the host city for the meeting place of the secretaries school, to be held in October. No other bids for the semi-annual session were made.

Juarez, Mexico, across the Rio Grande from El Paso, has used daylight saving time several seasons, making the change on May 1 annually.

Texarkana city officials said they did not want the change unless all cities in the four states adjacent to their municipality adopted the plan.

LIBEL SUIT

(Continued from Page One)

Spikes dead. He described the location of the bodies but was unable to accurately describe their dress. He took off the gloves from Dick Spikes' hands. He did not see a revolver on him but next day said he found a "six shooter in a holster hanging on a mesquite bush a little ways from where he was found."

Three Wounds Found

Three bullet wounds were found on Dick's body, in the chest, another 1 tnhe arm and one near the shoulder blade. The body of his horse was nearby.

"It looked like he had been killed and the horse killed at the same time," witness said.

The body of John Spikes was northeast of that of Dick Spikes, he stated, "about 40 steps more or less. He was dressed in his everyday clothes but there was no guns on him. I did not look for any guns and did not notice any", he said. "I was told later he had. I was told a Winchester was found under his horse."

Witness said he saw a good many shells near the bank where the slaying took place. He saw shells at the mouth of the draw, also, he stated.

"There was only one wound, in the right thigh," wintss testified. "The bullet went in towards the rear and came out in front of the thigh. It was in his right leg."

Later, he said, he saw Fred's horse, dead, in a creek a half or three quarters of a mile away.

Two Out Of Country

Ernest and Jeff Spikes were "not in the country," he testified in response to a question as to where the other Spikes boys were. Sam was at his home." "I told him the next morning about the boys being killed," de deposed.

"Isn't it a fact that John Spikes ness was asked. "I: looked like lay there and bled to death," wit- that to me," was the reply.

Defense offered as testimony statement that the bullet in the leg "cut a blood vessel and he bled to death."

Olin Conley ran a meat market and grocery in Hereford at the time of the shooting. He detailed his various places of residences and said while in Hereford, meeting people in his store from New Mexico, he became acquainted with the reputation of the Spikes boys. He "knew John and Dick Spikes", but "just knew Fred when I saw him."

Helped Wounded Man

Relating his seeing Fred Spikes when he was brought to Hereford after the shooting, in a wounded condition, he testified to having been asked to help carry the wounded man up the stairs of a roming house, "I helped carry him up on the bedding he was lying on," he stated, adding the place was known as the "Old Humphrey house," with a cafe downstairs. The room Fred was taken to was a corner room. "I did not talk to him," he stated, adding he never saw him after that.

Conley said he knew the "general reputation" of the Spikes brothers "by heresay."

On cross-examination by G. E. Lockhart he mentioned the names of some who told him of the alleged reputation of the boys. He admitted some of those who talked to him were, he heard "the bunch" that killed the brothers.

Other Witness Called

Joseph Graftenreid, 69, of Albuquerque, N. M., an official of the sheep sanitary board of New Mexico and a resident of that state since 1882, testified as to having met the Spikes boys once at a roundup near Fort Sumner about 1900. Witness gave the date and later said it was about six or eight weeks before the boys were killed.

Living on a ranch near Alamogordo, south of Fort Sumner, he had an opportunity to know the general reputation of the boys. He heard of them as "gun men".

Details of the incident at the roundup were given. It happened at a wagon near Fort Sumner and John Spikes had some calves in the general roundup, he said on cross-examination.

Redirect questioning brought out more details of the trouble. "A Joe Spitz, who worked for the Fernandez brothers," he said, "was cutting out a cow with a burnt brand' when the two Spikes brothers rode up to get the animal. Joe got his horse in front of them and things were 'tense' for a moment." The details of the alleged burned brand which was 'blotched' were given.

Deposition of C. F. Burjois, a stock man who operated a ranch in Apache Canyon, near Mesa Redonda, in 1901-1902, was read. He lived 12 or 15 miles from the Spikes boys and had an opportunity to know their general reputation. One incident of a bunch of calves, about 75, branded and without their mothers being found on his range, was told. He was unable to connect the Spikes brothers in any way with the calves. Some of the calves, he said, had the brands of the Spikes brothers on them, although he was only able to recall the "Lazy-S" brand.

Kurlie Is Called

Kurlie's deposition related to an incident he recalled on the range of the St. Loius Cattle company in Crosby county in the 90's. He knew the family well, having come to know all of the boys after they arrived in Crosby county. Kurlie said he knew their general reputation in that county and that that of John and Dick was "bad."

Once, he said, he saw some unbranded calves being driven and went over in the pasture to see who was doing the driving. He found Jeff and John, he stated. They pretended they were lost and explained they were working the calves," witness said. The cows in the bunch had the St. Louis cattle brand on them, he stated.

De Baca's deposition related to his knowledge of the brothers as a whole, not individually. He was not personally acquainted with any of them.

Gholson's deposition related to location of the homes of a number of men heretofore mentioned in connection with the case, from Mesa Redonda. He testified as to his knowledge of the general reputation of the brothers in both Crosby county and New Mexico, he having known them in both places. It was not completed at the noon recess.

KIRKLAND GETS PEN SENTENCE

SECOND TRIAL RESULTS IN CONVICTION ON GIRL'S DEATH

(By Associated Press).

VALPARAISO, Ind., May 27—Virgil Kirkland's long fight to escape the electric chair or a life sentence on a charge of responsibility for the death of Arlene Draves ended successfully for him. The jury in Judge Grant Crumpacker's court last night found him guilty, not of murder, but of assault and battery, in an attempt to attack the girl.

The verdict, carrying a sentence of one to ten years imprisonment, and considered by Kirkland, his attorneys and his friends as a victory for the defense, will result in a dismissal of the charges against four other youths indicted with him, Prosecutor Robert Estill said. They are Henry Shirk, Leon Stanford, David Thompson and Paul Barton.

Ought to Award Others

"After what happened to Kirkland we ought to pin a medal on the others and send them off with a hurrah," the prosecutor declared.

The 20-year-old Gary, Ind., steel mill worker and former high school football player was elated with the outcome.

"Gee I'm happy" said the youth, whose first trial last March resulted in a recommendation for life imprisonment. There were some in the courtroom, however, who cursed him as he was led to await the formal passing of sentence by Judge Crumpacker today.

Deliberated 3 Hours

The jurors, nearly all elderly farmers required three hours to reach their verdict, guilty of assault and battery with intent to rape. They passed over the charge of murder in commission of a rape, involving the death penalty, and the charge of rape alone, calling for a sentence of five to 21 years.

After one ballot they apparently determined that Kirkland, had not criminally attacked the girl he took to the Gary party, and that the head hemorrhage agreed to have been the primary cause of her death had not been incurred in any criminal attack.

A FRIEND IN NEED

BALTIMORE—Joseph Delso made good in one of the strangest debts ever incurred in this state. After he had been prosecuted by Assistant State's Attorney Charles C. Di Paula, the court ruled that he must pay $2.50 to a store owner from whom he had stolen that amount of cigarets. Weleo was broke so what did he do but go over to Di Paula and borrow the money from him. He paid it back the next day.

RUBBER-TIRED TRAINS

PARIS—Noisy locomotives will be more quiet in the future if experiments with rubber tires for such trains are proven successful. Some of France's gasoline-driven engines have been equipped with rubber tires, and dining cars are soon to be put on rubber. The advantages of such wheels lies in less noise, shock and deterioration of the rails.

JURY SELECTED

MINEOLA, L. I., May 27 (AP)—The jury to try Francis Crowley for the murder of Policeman Frederick Hirsch was completed shortly before noon today.

they vary. I know now that life has been a summary of that which was taught me first as a student here. As my teachers have lived through me, so I must live through you, my students. You who are graduates today will go out into the world to discover that already you have touched much of what the future holds. You have learned the lessons which must fit you for the difficulties and joys of the years to come. Then hold these college years close in your hearts and value them at their true worth.

"Do not face the future with timidity nor with fear. Face it boldly, courageously, joyously. Have faith in what it holds. Sorrow as well as happiness must come with time. But know that only after sorrow's hand has bowed your head will life become truly real to you. For only then will you acquire the noble spirituality which intensifies the reality of life.

"My own faith as I approach eternity grows stronger day by day. The faith I have had in life is projected into this vast future toward which I travel now. I know that I go to an all powerful God wherever he may be. I know he is a personality who created man in his image. Beyond that I have no knowledge—no fear—only faith.

"Because of what Baylor has meant to you in the past, because of what she will mean to you in the future oh, my students, have a care for her. Build upon the foundations here the great school of which I have dreamed, so that she may touch and mould the lives of future generations and help fit them for life and hereafter. To you seniors of the past, of the present, of the future I entrust the care of Baylor university. To you I hand the torch. My love be unto you and my blessing be upon you."

TELEVISIONS

You would say she had X-ray eyes . . . was clairvoyant . . a fortune teller—except that thousands of shoppers see as clearly as she into the contents of perfectly opaque jars, and foretell with the same swift accuracy the future of the things they buy.

Avalanche-Journal advertising is her television. It gives her complete advance information. Quietly, in a congenial corner of her home, she thinks and determines before she buys. Finding out about the newest foundation cream, the crispest breakfast food, the most gossamer brand of hose. Comparing these with others. Making selections serenely. Going forth to buy . . .

She has only this left to do. No worrying or hesitating when confronted by two jars, each equally inviting. No doubts about their makers. Avalanche-Journal advertisements have told her the invisible merits—given her clear true images of the contents of those jars, and the results of their use.

Rare is the woman who can boast she has never bought anything she wishes she hadn't bought. But with the aid of Avalanche-Journal advertisements, that sort of buying is almost entirely done away with. A regular reading of advertisements keeps shopping-tempers sweet.

And there is BIG News, too, in Avalanche-Journal advertising!

Those scheduled for trial next week are: A. L. Hoffman, Hub Johnson, Ray Holding, H. L. Fulton, Frank Connell, A. H. Beasley, G. G. Fleming and A. E. McDonough, charged with prohibition law violations; Aurelio Lucero, theft from person; Hugh Jordon, negro, assault with intent to murder and Herman Edgar, forgery.

Mexican Soldiers Said To Be Mining

MEXICO CITY, May 27 (AP)—Charges that troops detailed to guard the recently discovered gold field area near Tambor in the state of Sinaloa were themselves digging gold and driving out the prospectors were made today by representatives of a group claiming to be the discoverers of the field.

The group asserted that after staking their claims to the field, said to be one of the richest uncovered in Mexico, they were driven from their holdings by the troops on the pretext that their claim had been disputed and that they would have to cease operations until the matter was settled by the government.

The troops are shipping the gold to the United States to be sold, the prospectors charged.

Chicago Man Killed In Collision Of Cars

LARGE DELEGATION FROM SOUTHWEST IS EXPECTED AT NATIONAL SESSION OF RETAIL CREDIT UNIT IN ST. LOUIS

* * *

A large delegation from the southwest is expected to attend the annual convention of the National Retail Credit association, to be held in St. Louis, June 16, 17, 18 and 19, Robert Stern, the Southwest's only director on the national board, announced today.

Mr. Stern has been attending the annual convention of Retail Merchant association in session here since Monday. Guy H. Hulse, national secretary, also has been attending the convention sessions here.

Named Chairman

Mr. Stern has been named chairman of the department store conference to be held during the St. Louis meeting.

Mr. Hulse yesterday told of the scope of the national association. "In our organization there are 1,200 credit bureaus with 140,000 merchant members,' he said. "The 1,200 bureaus have had as high as 60,000,000 accounts. The local credit organizations have helped the country beyond words."

TARIFF NOT FACTOR IN DEPRESSION OVER WORLD, JAMES A. FARRELL SAYS

(By Associated Press)

NEW YORK, May 27—"Other causes," not the tariff, are the major factors "which have tended to disturb the balance between production and consumption throughout the world," James A. Farrell, president of the National Foreign Trade council, told the council's convention at its opening session today.

The tariff occupied a formal place on the agenda of the council for the first time in its history. Mr. Farrell mentioned the subject but briefly then turned to price cutting as one of the "major factors."

Demand Wage Cutting

In a speech a few days ago before the iron and steel institute, he denounced price and wage cutting.

"There is much confusion of thought regarding our tariff schedule," Mr. Farrell said, today, "as a factor in our present trade recession. Seeing that the unfavorable conditions apply indiscriminately to all countries, low tariff, high tariff and free trade alike, it must be obvious that tariff discussions between opposing schools of thought are of academic interest only in a period that calls for early adjustment of our difficulties.

"To those who complain that American trade has suffered through the present tariff law, I need only point to the fact that similar complaints were made concerning the effects of the lower tariff schedule of 1913. In neither case has the existing law availed to prevent a business slump.

"An essential requirement of the present economic situation is an advance in commodity prices. When prices fall, buyers withdraw from the market. It is rising prices that stimulate buying and consumption, and a return of prosperous times. Anything, therefore, which tends to postpone recovery in commodity prices, more especially those influences which are unfair and uneconomic in character, should be discountenanced at the present time.

"The importance of fair prices cannot be overestimated in determining the influences favorable to an advance in commodity prices and the restoration of trade. Competition is unfair in industry and to the community when price cutting has the tendency, as in all uneconomic activities, of taking the form of profitless merchandising."

France has decreed that if date of a check drawn in the country is written in figures instead of words the government will assess a penalty of six per cent of the amount of the check.

CRUDE PRODUCTION SHOWS INCREASE

NEW YORK, May 27 (AP)—Daily average gross crude oil production in the United States increased 10,750 barrels in the week ended May 23, totaling 2,437,150 barrels, the American Petroleum Institute's weekly summary indicates. Daily average production east of California increased 9,650, barrels to 1,990,000 barrels.

Refineries representing 95.7 per cent of their capacity, reported daily average runs of crude to stills as 2,441,700 barrels. Daily average the previous week for refineries representing 95.7 per cent of total, operated at 68.2 per cent of capacity, was 2,434,000 barrels. Gasoline stocks at these refineries were 45,449,000 barrels against 45,663,000 barrels.

Production of cracked gasoline by refineries representing 94.9 per cent of total charging capacity was 3,335,000 barrels. Production the previous week by refineries representing 94.9 per cent of total was 3,194,000 barrels.

Imports of crude and refined oils at principal United States ports totaled 1,331,000 barrels against 1,357,000 barrels.

CARRIERS MUST SEEK CHANGES

RESPONSIBILITY UPO RAILROADS, I. C. C. STATEMENT SAYS

(By Associated Press)

WASHINGTON, May 27.—R sponsibility for definite propos toward increased freight rates re once more with the railroads.

This interpretation was attach by Interstate Commerce Comm sion officials to that agency's of cial announcement yesterday th it does not plan to investigate, its own initiative, the financial co dition of railroads.

Concerned Over Decline

The announcement was made ter Daniel Willard, president of Baltimore and Ohio railroad, h conferred informally with commi sion officials, discussing the ca riers' concern over the sharp decli in earnings. He is one of the co mittee of railroad presidents des nated at a meeting of eastern ex cutives in New York last Thursd to study rate increases and the nancial situation.

The commission's statement sa "The Interstate Commerce Co mission today in response to pr cedural questions informally pr sented to it by Daniel Willard, behalf of eastern railroad exec tives, informed him that the co mission will not at this time ins tute a general investigation in the general railroad situation on own motion."

When eastern railroads present a generalized petition last Nove ber asking a study of the effect the depression on railroads' ear ing power, the commission made similar decision. Commissioner M Manamy, then charman, held th since the petition made no sugg tions deemed by the applicants be feasible to relieve the reven situation of western railroads legally necessary in the premise the commission could not act.

Just now the commission is e gaged in a revision of freight ra under the Hoch-Smith resolutio It has not yet decided upon ra for a number of sections, partic larly in western trunk line ter tory.

Picture Shown Here By Merchants Today

A motion picture, "Making Good In Homeville," was to be exhibited at the Lindsey theater at 10 o'clock this morning to close a meeting of the Texas Retail Grocers association.

The grocers met in conjunction with the convention of the state Retail Merchants association. Henry Law, president of the grocers group, of Fort Worth invited Lubbock and visiting grocers to attend the special meeting. He urged as many clerks as could to see the picture.

The film, said to be both entertaining and instructional, shows the operation of a modern grocery store, the president of the association said. It was prepared by the National Retail Grocers association and was forwarded to Lubbock for the convention at the request of the state association.

"The purpose of the picture is to directly suggest better stores and better displays giving instruction all along the line," he said. "It makes no effort to play up particular setups."

Assisting Mr. Law in the arrangements for the group meeting is Roger Q. Flournoy, of Dallas, secretary-treasurer of the grocers' organization.
