Sparkle Award Goes To Snyder

The SDN COLUMN

There is a high school diploma here at the newspaper office which someone may want to recover.

It was issued on May 17, 1945, by the Dowell High School to Dorothy Ellouise Edwards and is encased in a red cover.

The diploma was found by Jake Amato at 1803 Thirty - ninth Street, the residence of his father, Salvatore Amato. Jake Amato, the Boy Scout executive here, said the diploma was found when he went under the house to inspect plumbing. There was a box of old magazines, etc., under the house, and the diploma was at the top of the stack.

Pat Falls, Assistant Superintendent of Snyder Schools, said he believed that the Dowell school, located northeast of here in either Jones or Fisher County, was consolidated with another district and closed down soon after World War II. So, this diploma may be one of the last issued by that school.

★ ★ ★

James J. Rowley, head of the U. S. Secret Service who will speak at the Chamber of Commerce banquet here Friday night, undoubtedly has many interesting experiences that he can tell, but probably more that he cannot divulge.

From 1939 to 1961 (when he became Director of the Secret Service), he was assigned to the Secret Service's White House Detail. Most Americans know that the Secret Service has the responsibility for protecting the President, members of his family and other high officials, and that the men in this service are experts and fulfill their responsibilities without regard for personal danger.

Rowley served in the White House Detail during a historic era embracing World War II, accompanying Presidents Roosevelt and Truman to such well - known sites as Yalta, Gasa Blanca and Potsdam.

Despite the many things he cannot say, it should be an interesting evening.

★ ★ ★

If you're wondering why the tickets to the Chamber of Commerce Banquet are priced at $4 each this year, there is a reason.

"For many years the Snyder Chamber of Commerce used school facilities which were graciously made available because there was no other place in town adequate to take care of the banquet," said Chamber Manager Gene Merrifield. "Now that the coliseum is available, we believe the banquet should stand on its own feet, and reports from other towns indicate that banquet tickets range from $3.50 to $5 each. We calculated that our banquet could be self sustaining at $4 each and that the price would not be out of line with many other such events."

—WACIL McNAIR

Today In History

Today is Thursday, Jan. 25, the 25th day of 1968. There are 341 days left in the year.

Today's highlight in history:

On this date in 1915, transcontinental telephone service was inaugurated.

On this date:

In 1779, the Scottish poet, Robert Burns, was born.

In 1819, the University of Virginia was established.

In 1831, the independence of Poland was declared.

In 1858, Felix Mendelssohn's "Wedding March" was played for the first time.

In 1944, in World War II, the long, costly battle for Cassino began in Italy.

In 1949, the first election was held in the new state of Israel.

Progress On Robert Lee Dam Advances

The contractor has moved 53.6 per cent of the earth and rock that will go into the dam across the Colorado River at Robert Lee.

Progress on the spillway is not so far advanced, but at 43.79 per cent, it is coming up steadily.

These are figures in the latest estimates on which the Colorado River Municipal Water District has paid Clement Bros., and the spillway sub-contractors, Terry Bros.

Latest reports show 7,115,182 cubic yards of core trench embankment and rip rap have been handled. The original estimates were for 13,327,000 cubic yards for the entire job, although this will be exceeded by around half a million cubic yards due to considerably more shale excavation.

So far the contractor has excavated and back-filled with select material 926,448 cubic yards of ordinary core trench, 876,105 yards of shale in core trench, has laid down 5,227,097 cubic yards of wetted, rolled embankment. The upstream side of this has been protected with 29,097 cubic yards of gravel or crushed rock, and 56,435 cubic yards of rock riprap.

Chapman Service Set Here Friday

Jones Chapman, 62, who had lived in Scurry County for over half a century, died unexpectedly today. He was pronounced dead on arrival at Cogdell Memorial Hospital at 7:45 a.m. after he had been stricken.

Mr. Chapman, who lived at 2705 Twenty - fifth Street, was a native of Taylor County.

Funeral service will be held at 2:30 p.m. Friday at the Bell-Seale Chapel. The Rev. Miller Robinson, pastor of Colonial Hill Baptist Church, will officiate. He will be assisted by the Rev. Charles Bowyer, vicar of St. John's Episcopal Church.

Mr. Chapman is survived by his wife of the home; his father, J. E. Chapman of Snyder; two daughters, Mrs. Bill Line of Snyder and Mrs. Jimmy Everett of Lubbock; a son, F. J. Chapman Jr. of Snyder; four sisters, Mrs. Floyd Weems and Mrs. Dent von Roeder, both of Snyder, Mrs. Ulmer Vernon of Hermleigh and Mrs. Ruby McKenzie of Cloudcroft, N. M.; two brothers, T. E. and Harry R. Chapman, both of Snyder; and seven grandchildren.

SELLS TICKETS — Ernest Sears, ticket chairman, makes a sale to Gary Stevens, Southwestern Bell Telephone Co. manager, for the annual Chamber of Commerce Banquet to be held at 7 p.m. Friday in the Scurry County Coliseum. James J. Rowley, head of the U.S. Secret Service, will be the principal speaker. Tickets can be purchased from members of the Producer's Club, directors, or at the Chamber of Commerce office in the City Hall.

KOREAN CRISIS

Reserves Activated

WASHINGTON (AP) — More than 14,000 Air Force military reservists are being called to active duty in the wake of the North Korean takeover of a U.S. ship, the Pentagon announced today.

The Pentagon announcement followed speedily on the heels of word from the White House that President Johnson had called for the recall to active duty of a number of Air Force and Navy air reservisits.

A Pentagon spokesman said the 14,000 are included in Air Force and Air National Guard units, and other Navy reserve units also are involved. No number was available immediately for the Navy.

Johnson acted shortly after Clark M. Clifford, his choice to become the next secretary of defense, had told a Senate committee that a call-up of U.S. Military reservists could come about as a result of Far Eastern developments including the seizure of the USS Pueblo by North Korea patrol boats.

Johnson directed Secretary of Defense Robert S. McNamara to place on active duty enough men to man and maintain 372 fighter and transport aircraft. The White House said it did not know how many men would be involved.

Press secretary George Christian, making the surprise announcement in the Pueblo crisis, raised the possibility of mobilizing ground forces by saying:

"When and if decisions are made on call-ups of Army or Marine Corps reservists, announcements will be made promptly."

SIXTH STRAIGHT DAY

US Air Offensive Continues

SAIGON (AP) — An armada of American bombers pounded North Vietnamese gun and troop concentrations threatening U.S. Marines in the Khe Sanh valley for the sixth straight day today in one of the biggest air campaigns of the Vietnam war.

Despite nearly 6,000 tons of bombs and record air attacks for the third day in a row against the dug-in North Vietnamese, enemy guns continued to hit at the Khe Sanh base and the three strategic hills the Marines control just to the northwes.

By noon today, the North Vietnamese had dropped another 20 mortar and rocket rounds on the Marine positions protecting the northwestern approaches to South Vietnam 16 miles below the demilitarized zone.

The day's barrage followed on the heels of perhaps 300 rounds of heavy artillery, rockets and mortars that Communist gunners slammed into the combat base and the adjacent peaks Wednesday night, killing seven Leathernecks and wounding another 77. Of the 77 wounded, 37 had to be evacuated.

The North Vietnamese fired their 152mm guns, their biggest artillery, at Khe Sanh for the first time.

U.S. officers continued to expect a big enemy offensive against Khe Sanh. But the heaviest ground fighting reported was on the central coast some 230 miles to the southeast, where troops of the U.S. 1st Air Cavalry Division and the South Korean Capital Division reported 179 North Vietnamese killed in fighting Tuesday and Wednesday near Phu Cat.

AP correspondent Peter Arnett reported from Marine headquarters at Da Nang that the Leathernecks apparently feel they can hold the Khe Sanh combat base but other positions in the neighboring hills are being dangerously squeezed.

Despite the massive aerial bombardment, four landing zones in the hills are still too dangerous for helicopters except in extreme emergency. The North Vietnamese are reported to be all around the hills with 50-caliber machine guns positioned so they can fire on cargo planes landing at Khe Sanh with supplies of ammunition and food.

New Quakes Bury Sicilian Rescuers

PALERMO, Sicily (AP) — A strong new earthquake jolted western Sicily today, burying rescue workers still digging for bodies from the island's worst quake disaster in 60 years. The tremor killed at least four persons and injured about 50, police reported.

The epicenter of the new tremors was in the same hilly, poverty-stricken countryside where hundreds were killed Jan. 15.

It toppled scores of walls and buildings in the same dozen towns badly hit by the first quake and in some communities which previously suffered little or no damage.

Police in Trapani said they received reports that a police sergeant and two firemen were crushed to death under a falling wall in Gibellina, a town that had been totally destroyed 10 days ago.

Another death was reported at Partanna, which was also badly hit earlier.

The island's rescue forces returned immediately to a disaster footing. More soldiers were rushed to the stricken area from Trapani.

Helicopters took to the air with plasma and medicine. Ambulances raced out of Trapani and sped off along the winding, cracked country roads.

Police evacuated all populated centers that had been left standing after the first disaster. Even the thousands of refugees who were being lodged in outdoor tents fled.

In the larger cities of Palermo, Trapani and Agrigento, on the edge of the disaster zone, the new tremor panicked tens of thousands. They rushed out of houses and offices and made off in cars that clogged country roads.

Gardner Resigns

WASHINGTON (AP) — The resignation of John W. Gardner as secretary of health, education and welfare was announced by the White House today.

Presentation Made Today

ABILENE — Snyder was officially designated a "Sparkle City" in its own right today at a tourist development conference of the West Texas Chamber of Commerce.

The WTCC "Operation Sparkle" award for cities in the 5,000 to 15,000 population bracket was presented by Harry Clark, former executive director of the Texas Industrial Commission. Accepting the award for Snyder were Bentley Baize, who served as president of the Snyder Chamber of Commerce, and M. L. Broman, mayor.

McCamey received the award for cities under 5,000, while Borger won the division for cities of 15,000 to 25,000 and Big Spring was the winner for cities 25,000 to 50,000. Some two score entries were judged last week.

Merit awards went to Burkburnett, Hamilton, Jacksboro, Littlefield and Quanah.

The presentation of awards was made at a luncheon meeting at the Abilene Country Club today.

A substantial delegation from Snyder was on hand at the WTCC conference and at the luncheon where the awards were presented.

The awards were made for improvements and beautification projects within the competing cities within the past two years. Each city entering the contest was required to furnish a scrapbook containing exhibits of projects. The scrapbooks were judged last week by a special committee at Austin.

Snyder's "Operation Sparkle' has involved work and financial support of many organizations, individuals and business firms.

The beautification and improvement work that ultimately led the local Chamber of Commerce to enter the WTCC Sparkle contest actually stemmed from efforts of the Chamber's Civic and Beautification Committee, headed by Mrs. Forrest Sears, widow of a former Mayor of Snyder. Under the leadership of Mrs. Sears, several projects aimed at improving the appearance of the city were launched and cooperation and support of various organizations was solicited.

The big central project was the downtown improvement work which was recommended by the Chamber of Commerce and ultimately carried out by the city government and property owners. However, more than 30 organizations were involved in other projects that figured prominently in the Sparkle exhibits submitted for judging in the WTCC contest.

These organizations and firms were listed as being directly involved in projects included in the scrapbook judged at Austin late last week, the results of which were announced today:

Texas Highway Department, Jaycees, Jaycee-ettes, Twilight Garden Club, Snyder Garden Club, Beta Sigma Phi, Kiwanis Club of Snyder, Snyder Lions Club, Snyder Rotary Club, Business and Professional Women's Club, American Business Women's Association, The City of Snyder, Scurry County, various committees of the Chamber of Commerce, Scurry County Historical Survey Committee, Texas Electric Service Co., KSNY Radio, Snyder Nursery, the Fluvanna Community, The Snyder Daily News, Altrurian Club, Atheneum Club, Southwestern Bell Telephone Co.

Also, Snyder Public Schools, Snyder Community Antenna Television, Lone Star Gas Co., RS&P Railroad, Scurry County Boys' Club, The American Legion, The Veterans of Foreign Wars, Santa Fe Railway, Ballard's Cafe, Von Roeder Seed Farms, Bill's Auto Salvage, Boy Scout Troop No. 36, Bill Wright Sign Co., Alpha Study Club, The Art Guild, Cosmorama Study Club, West Texas State Bank, Snyder National Bank, Snyder Savings and Loan, Forrest Builders Supply.

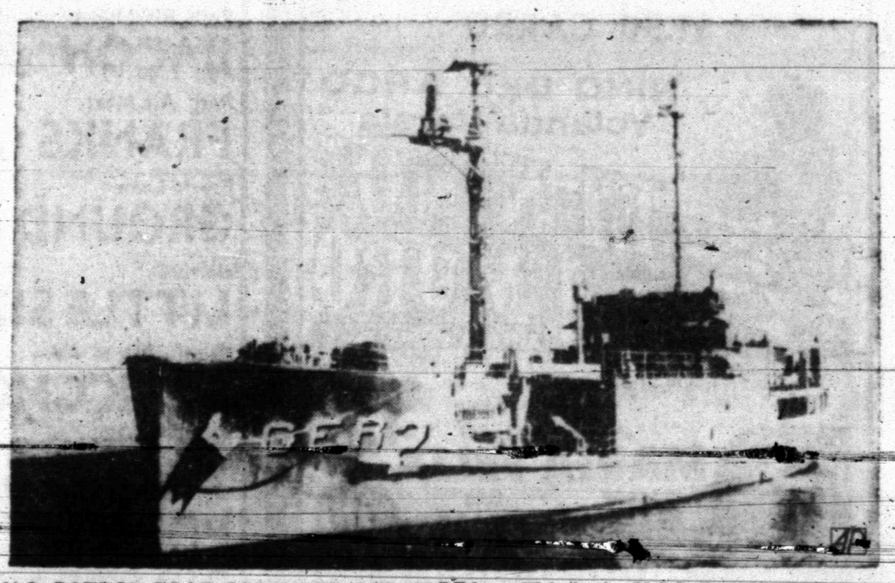
As a result of the improvements already made and others planned for the future, the city adopted the nickname of Sparkle City and this name, along with appropriate illustrations and slogans is being used on highway signs at approaches to the city.

Adult Classes Will Begin

Adult education classes will be organized tonight at Snyder High School in subjects where there is enough interest.

Available will be courses in bookkeeping, shorthand, typewriting, modern mathematics, woodworking and metals shop. A minimum of 15 students will be required for a class to be organized.

Tuition for shop classes will be $10 for the semester and for other classes the tuition fee will be $20 for the semester.



U.S. PATROL BOAT CAPTURED OFF KOREA — This is the U.S.S. Pueblo, the Navy patrol boat with 83 men aboard which was seized by the North Koreans. The U.S. announcement said the vessel was boarded by an armed party about 25 miles off the North Korean coast and taken to Wonsan. Department of Defense, which released this photo, did not specify when it was taken. The Pueblo, a Navy intelligence auxiliary ship, had a crew of six officers, 75 enlisted men, and two civilans. (U.S. Navy Photo via AP Wirephoto)

Dolph Briscoe In Governor's Race

UVALDE, Tex. (AP) — Dolph Briscoe Jr. got in the governor's race today with the pledge that he would use the philosophy of former Vice President John Nance Garner as a campaign guide.

Briscoe, 44, former state representative and prominent South Texas rancher, banker and businessman, made his formal announcement to a home town crowd at the former home of Garner, who died last November.

He was introduced by Tody Garner, son of the former vice president. He said that immediately following the Uvalde announcement he planned to fly to Austin and file for a place on the May 4 primary ballot. He scheduled a 3 p.m. news conference in Austin.

Briscoe joins six other Democrats in the race. A Republican candidate, John Trice of Waco, is expected to file Friday.

"Mr. Garner's great wisdom has stood the test of time and his philosophy of government, expressed many years ago, is just as sound today," Briscoe said. He quoted Garner as saying:

"'There are just two things to this government, as I see it. The first is to safeguard the lives and property of our people. The second is to insure that each of us had a chance to work out his destiny according to his talents.'"

Snyderite Is Promoted

ABILENE — The Hardin-Simmons University Department of Military Science has announced the promotions of 43 ROTC cadets. Nine seniors and 34 sophomores were promoted to fill positions normally filled by junior cadets. The juniors are assigned to the Leadership, Drill and Command Company, which prepares them for summer camp.

Company A promotions are Captain Richard L. Brasher of Abilene, company commander; 1st Lt. Frank C. South, Jr. of Curundu Heights, Canal Zone, executive officer; 1st Lt. Cecil R. Biggers of Pampa, platoon leader; 1st Lt. Robert A. Craik of Abilene, platoon leader; 1st Sgt. Glenn C. Thomas of Snyder; Platoon Sgt. Johnny L. Snapp of Abilene and Platoon Sgt. Joe R. Sublett of Abilene. Staff Sgts. serving as squad leaders are Charles B. Cason of Sublette, Kansas; Ronald W. Hayden of Dallas; Harrell D. Adkinson of Spearman; Philip J. Tyler of Artesia, N. M.; David M. Brownlee of Odessa and Gary D. Rice of Abilene.

Heart Month Events Set

The Scurry County Heart Council has launched plans for Heart Month events here.

At a luncheon session Wednesday, it was announced that the annual Coffee Day will be held on Feb. 14, Heart Research Day on Feb. 22 and Heart Sunday will be observed on Feb. 25.

The events are aimed at informing the public on heart research, heart care and to stimulate contributions to the Heart Fund, which finances research and educational projects.

Wilson Bright is chairman of the activities this year.

Sneed Rites Here Friday

Funeral service will be held at 4 p.m. Friday at the Mount Olive Baptist Church for Mrs. Cammie B. Sneed, 65.

Mrs. Sneed, who lived at 1112 Thirty - fourth Street, died at 6:45 p.m. Wednesday in Cogdell Memorial Hospital. A native of Waskom, she had lived in Snyder for the past 26 years.

The Rev. F. Nelson will officiate at the funeral service. Burial will be in the Snyder Cemetery, under direction of Boiger Funeral Home.

Surviving are two daughters, Mrs. Vernice Singletary of Waskom and Mrs. Verdell Moore of Oakland, Calif.; two sisters, Mrs. Sarah Oliver and Mrs. Faye Lee Kirksey, both of Snyder; a brother, Lewis Flanagan of Los Angeles, Calif.; 19 grandchildren and three great - grandchildren.

Firemen Called Out

City Firemen answered calls to two grass fires yesterday.

At 1 p.m., they put out a fire on a vacant lot at 413 Thirty - second Street. At 2:35 p.m., they extinguished a fire behind the Catholic Church in Hermleigh.

Reds Take Laotian Outpost

VIENTIANE, Laos (AP) — North Vietnamese troops have captured a Laotian outpost near the Vietnamese border, forcing the garrison to flee into South Vietnam, Lao military sources said today.

The sources said three to four battalions of North Vietnamese and Pathet Lao troops attacked the outpost of Ban Houei Sane in southern Laos Wednesday.

The outpost, manned by about 300 Laotian troops, is situated about 2.5 miles from the South Vietnamese border.

Contact with the Laotian battalion was lost today Lao military officers said.

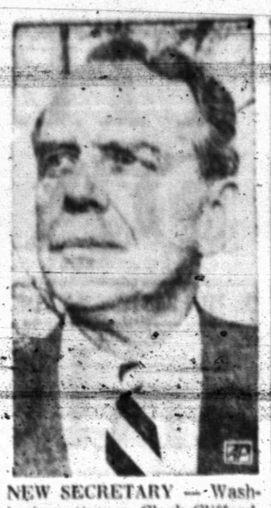
The Communist force used mortars and artillery to soften up the Lao base before attacking with machineguns and infantry.

HOSPITAL NOTES

Chaplain: Rev. John Bollinger.

ADMISSIONS: R. D. Faver, 4012 Irving; Randy Caddell, 2102 Forty - second; Edward Cox, 1601 Ave. Q; William Pearson, 1409 Twentieth; Helen Westbrook, 2705 Twenty - eighth; John Lambrecht, Childress; Jake James, Rt. 2; Jerry Clift, Hermleigh; John Davis, 1302 Twenty - fifth; James McDaniel, Midland; Janie Hammit, 1601 Ave. L; Estevan Orosco, Ave T; Maggie Garrison, 2606 Ave. V.

DISMISSALS: Coral Mayo, Margaret Huntsman, Ray Kizer, Travis Clark, Arel Faver.



NEW SECRETARY — Washington attorney Clark Clifford, above, has been nominated by President Johnson as Secretary of Defense to succeed Robert McNamara. (AP Wirephoto)

Casualty List Includes 2 Texans

WASHINGTON (AP) — The Pentagon listed Wednesday the name of two Texans killed in Vietnam.

They were Army Spec. 4 Seaborn D. Jones, husband of Mrs. Georgia M. Jones, P.O. Box 342, Shelbyville; and Air Force T. Sgt. Gordon L. Lawrence, husband of Mrs. Ruby L. Lawrence, 1120 Barlow, Bellmead.

Clifford To Get Speedy Approval

WASHINGTON (AP) — Signs indicate the Senate Armed Services Committee will give quick approval to the nomination of Clark Clifford to be the nation's defense chief.

Clifford, 61, tapped last Friday by President Johnson to succeed Secretary of Defense Robert S. McNamara, appears today before the committee.

The panel's chairman, Sen. Richard B. Russell, D-Ga., already has praised Johnson's selection of the lawyer and presidential adviser as "an excellent choice" and reaction from other panel members was along similar lines.

The committee's approval would send the nomination to the Senate floor for final action.

Although both Democrats and Republicans on the Armed Services Committee applauded the nomination, some senators said they would make certain that Clifford disposes of any securities or other interests in corporations linked with defense contracts.

Clifford already has announced he would do this and sever all connections with his law firm here if confirmed.

Price Daniel Jr. Backs Nomination

LIBERTY, Tex. (AP) — A man with a name fimiliar in Austin, Price Daniel Jr., has announced he'll run for the Democratic nomination for state representative.

Daniel, a son of the former governor, is a lawyer here. He is a candidate to succeed Rep. David Crews of Conroe, who is not asking re-election, in Dist. 6 embracing Chambers, Liberty and Montgomery Counties.

WOMEN

ITALIAN FIBRANNE rayon in a lino weave is used for a coat and dress with the unmistakable Texas look. The Space Age costume is precisely tailored with four pretend pockets and brass buttons. The slender dress is belted.

Almond Cheese Chicken

1 cup whole natural almonds
½ cup minced parsley
¼ teaspoon each oregano and thyme
1 jar (5 ounces) process American cheese spread
¼ cup soft margarine
1 clove garlic, minced
¼ teaspoon pepper
1 frying chicken (about 3½ pounds), cut up

Finely chop almonds; toss with parsley, oregano and thyme. Blend cheese spread with margarine, garlic and pepper. Wash chicken pieces and dry thoroughly. Arrange in a 13 by 9 by 2 inch pan, skin sides up. Spread chicken generously with cheese mixture. Sprinkle with almond-parsley mixture, pressing it into cheese. Bake at 350 degrees until chicken is fork-tender — about 1½ hours. Serve with rice. Makes 4 to 6 servings.

Clean and dry ribs of celery, removing the leafy part. Cut into wedges that are several inches long. Stuff with a mixture of cream cheese mixed with finely chopped pimiento-stuffed olives. A small package of cream cheese will fill about 24 wedges of the celery.

Crips rice cereal and marshmallows, melted with a little butter, make candy that children love.

Jaycee-ettes On Program

Two Snyder Jaycee-ettes appeared on the Chamber of Commerce closed circuit television program Monday.

Mrs. Tommy LaRoux and Mrs. Bill Massey discussed plans for the Outstanding Young Farmer Convention of Jaycees with Gene Merrifield, master of ceremonies for the program. The OYF event is set for Feb. 16-17 with awards to be presented at the banquet on the closing night.

The Snyder Jaycee-ettes have been busy working on the scrapbook to be sent to the state convention. Last year's scrapbook was three first place awards out of four. Also, the Jaycee-ettes have helped with the Head-start Program this year, and the Snyder Jaycee-ettes helped the Colorado City Jaycee ttes to form their club.

Quebec Pork Pie

½ pound ground lean beef roundsteak
½ pound pork sausage meat
½ teaspoon salt
¼ teaspoon each allspice, cinnamon, cloves and nutmeg
2 medium potatoes, pared and diced (about ½-inch cubes)
1 medium onion, finely chopped (½ cup)
9-inch pastry-lined pie plate and rolled-out pastry top (from a pie mix and unbaked)

In a 10-inch skillet over moderately low heat cook the beef and sausage, crumbling with flat tines of a fork, until beef loses its red color and all the meat is in small particles. Mix in salt and spices. In a small saucepan cover the potato and onion with water; boil until tender; drain and mash, saving liquid; add enough liquid to the mashed vegetable to make mashed - potato consistency; add to meat in skillet; mix well. Turn into lined pie plate; cover with top pastry making several vents in it and sealing edges well. Bake in a 425 - degree oven for 30 minutes. Cool, cover; refrigerate. Reheat in a 350-degree oven for 45 minutes. Serve at once. Makes 6 servings.

Fill and frost a chocolate layer cake with fluffy white frosting; top with flaked coconut and shredded (not grated) orange rind. Good combination of flavors!

"CUT THE BOMBING AND WE'LL TALK!"

Trying To Figure Koreans An Adventure In Fantasy

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — Trying to guess at this moment what the North Koreans and the North Vietnamese Communists are up to is like trying to guess why Santa Claus always looks fat. It's a bit of a fantasy.

The reason is simple: Nothing positive has been disclosed yet about the motives behind their most recent actions.

This week the North Koreans captured the USS Pueblo, a Navy intelligence-gathering ship loaded with electronics, and her crew of 81 plus two civilians off the Korean coast. You really need a crystal ball on this one.

One idea comes to mind immediately: That the capture was part of a plot worked out with North Vietnam to add to the pressure on this country to make peace in Vietnam, for otherwise it might be faced with a war in Korea, too.

But before any guess is sensible one question has to be answered beyond dispute, and that hasn't happened yet: Was the American ship in international waters, where she would have a right to be, or was she in Korean territorial waters, spying on Korea?

There's not much doubt about the spying. The ship was equipped for that.

The North Koreans say the Pueblo was in their territorial waters and issued what they say is a "confession" by the American skipper, Cmdr. Lloyd Mark Bucher, admitting his ship was spying within Korean territorial waters.

The Defense Department quickly called the alleged "confession" a "travesty on the facts" and that, judging by the kind of language used, Bucher couldn't have written the kind of statement attributed to him.

But—at the White House President Johnson's press secretary, George Christian, was something less than positive about where the ship was.

"To the best of our information," Christian said, it was in international waters. He refused to be more positive.

This brings up the memory of the American U-2 spy plane shot down over the Soviet Union in 1960 during the administration of President Dwight D. Eisenhower. This government at first denied the plane was on a spy mission, tried to say it was simply gathering weather information.

The Soviets had too much evidence and a few days later the United States admitted the plane had been spying. But the guessing on this Korean episode is peanuts compared with some of the guessing about North Vietnam.

For weeks, perhaps months, there has been this kind of guessing:

North Vietnam believes public feeling in this country is so intensely antiwar that Johnson is bound to be defeated in this year's election and that then maybe business can be done with his Republican successor.

Until then, as this particular guess sees it, the North Vietnamese have decided they must continue the war doggedly. But there's a soft spot in this thinking.

Of the four Republicans talked of as possible presidential candidates, three are generally behind Johnson on the war. They are former Vice President Richard M. Nixon, New York's Gov. Nelson A. Rockefeller, and California's Gov. Ronald Reagan.

The fourth, Michigan's Gov. George Romney, has been all over the lot on the war but very recently backed Johnson on continued bombing of the North.

All kinds of hocus-pocus can be read into North Vietnam's persistent refusal to accept Johnson's condition for ending the bombing: That the North must give some assurance it would then be willing to talk peace quickly.

What could be the motives behind the refusal. Several come to mind:

That the North Vietnamese are not anxious to end the war; that the longer the war, the more antiwar sentiment in this country will pressure Johnson into making concessions; or that they're just mumbling about peace to make themselves look good in the eyes of the world.

Robertson Sees Chance For Knockout

By HAL BOYLE

NEW YORK (AP) — Cliff Robertson is a take a chance guy.

Although the handsome young actor has been one of the busiest and most successful performers in television, he felt that in none of his 13 movies had he been given a really great role.

"Some of them were pretty suffocating," he said. "So since the mountain wouldn't come to me, I decided to go to the mountain."

Five years ago he bought the film rights to a short story called "Flowers for Algernon," by Daniel Keyes. It is the touching story of a young bakery worker who aspires to lead a normal life but is handicapped by the fact he has an intelligence quotient of only 59.

Retitled "Charly"—that's how the retarded boy spells his name—the film will be released by ABC-Paramount in a few months.

"I've had this story in my guts for five long years," said Cliff, who worked on the writing of the screen play and also beat on Hollywood's golden doors until he found a financial sponsor.

"I may not make a nickel out of it, but I'll at least have the satisfaction of having done it. I didn't want to be the kind of a guy who 20 years from now would be sitting around saying to himself, 'If only I—.'"

Actually, Robertson is probably overcritical of his own work in films. His screen credits include "Picnic", "PT-109," "The Best Man," and "The Honey Pot."

But he did get a little vexed at having some of the best roles he played on television or Broadway wind up on the screen being played by Jack Lemmon, Paul Newman, and Marlon Brando, friendly as he happens to be with each of them.

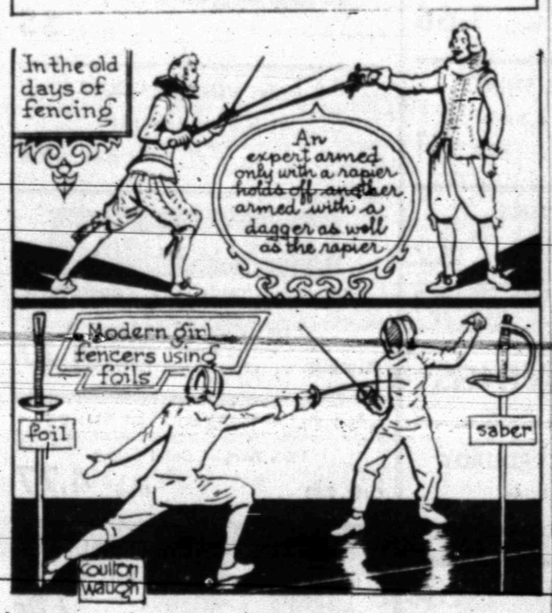
"I felt like I was often a bridesmaid, but never the bride," he said. "My career has been one of defensive fighting. Now I've got a chance for the knockout."

Since youth Robertson has led a life of knockabout adventure and variety. At the age of nine he was working a newspaper route in his native La Jolla, Calif.

While attending Antioch (Ohio) College, he wrote a radio column and served as an announcer. During the later years of World War II he was a junior Navy officer aboard ammunition ships in Atlantic and Mediterranean combat areas.

Determined to follow a theatrical career, Cliff studied at the Actors Studio here, earning his way as a bus boy, waiter, stevedore, and taxi driver. His first professional success was with an acting group that toured the Catskills Mountain resorts. His pay: $5 a week and room and board.

Junior Editors Quiz on FENCING



QUESTION: *How did the art of fencing develop?*

* * * *

ANSWER: There was a time when men carried swords and settled personal quarrels by duelling, one antagonist often killing the other. As law and order became more widespread, duelling ceased, but the skill which had been developed by so much swordplay turned into the sport called fencing. When you fence, you wear a mask so your face will not be damaged. The swords used, called foils, épées or sabers, have blunted points. To score a point, you do not injure your opponent, but merely touch a certain part of his body with your weapon. Rules for foil, épée and saber fencing are slightly different. For example, in foil fencing, if you attack you have the right of way while your opponent parries. Then he gets the right of way and attacks. With épée, both fencers can attack at the same time. With the sabre, you can score a point using either the edge of the blade or the tip. Fencing is a thrilling sport, but don't try it unless you have the right equipment and the right instruction, for it can be dangerous.

1-25

(Adison Mack of Chicago, Ill., wins a prize for this question. You can win $10 cash and a World Yearbook if your question, mailed to Junior Editors in care of this newspaper, is selected for a prize.)

Big Basketball Tilts Loom; Froggies Win

By MIKE RECHT
Associated Press Sports Writer

As if Holy Cross didn't have enough trouble with a game against UCLA Friday night, now the Crusaders have heaped upon themselves added pressure.

"They'll (the Bruins) come into Madison Square Garden quite loose now that they've lost," Holy Cross Coach Jack Donohue said earlier this week.

"And if we win Wednesday night against Colgate, we'll be on a two-game winning streak. That can hurt us with pressure," he quipped.

For what it's worth, the pressure is there now after the Crusaders breezed by Colgate 98-81 Wednesday night for only their seventh victory in 12 games.

The pressure is also building for Louisiana State, which stomped Clemson 104-81 for its 10th victory against two losses, despite a meager 33 points by Mete Maravich. The triumph was the third straight for the Tigers, who must face nationally ranked Southeastern Conference foes Kentucky twice and Tennessee and Vanderbilt once each in their next four games.

In other games on a light college basketball night, West Virginia trimmed Penn State 77-63; Temple nudged Rider 75-73 and Penn upset LaSalle 57-45 in a Philadelphia doubleheader; Western Michigan hammered Miami of Ohio 91-71, and Marshall tumbled Ohio U. 82-73.

Also St. Peters swamped Siena 98-72, TCU routed visiting Austin 117-78, host DePaul belted Illinois Wesleyan 93-77, and Evansville whipped Southern Illinois 52-45 at home.

Donohue, who coached UCLA's Lew Alcindor in high school, will be facing the All-American in college for the first time and few people give him and his Crusaders much chance.

"Unless we play real well Wednesday night," he said, retaining his sense of humor, "they may be favored."

Holy Cross was impressive against visiting Colgate, particularly 6-foot-4 Keith Hockstein, who scored 26 points and grabbed 10 rebounds. Naceo Giles added 19.

LSU was equally impressive, although its home court fans left unhappy because Maravich, the nation's leading scorer, fouled out after only 7½ minutes of the second half. His point total was 12 below his season average.

When he fouled out, the capacity crowd howled and sent paper wads and cups raining onto the court. But his loss didn't affect his teammates who turned a 51-42 halftime lead into a rout.

Ron Williams scored 20 points and added eight assists as West Virginia, playing at home, won its fourth straight.

Who Is Sub For Willie?

ARCADIA, Calif. (AP) — Who will be the lucky jockey to take over for the injured Bill Shoemaker and ride Damascus?

That was the question as word was awaited today from Damascus' front office, Thomas Bancroft, whose wife, Edith W., is the official owner, and trainer Frank Whiteley, who will decide on a rider.

Shoemaker, meanwhile, reportedly was resting well with a broken right leg injured in a spill at Santa Anita Tuesday. The Shoe will be out of action several months, according to Dr. Robert Kerlan.

Damascus' next major objective is the $100,000-added Charles H. Strub Stakes here Feb. 3.

The colt's trainer has not indicated when a decision will be made.

Racetrackers on the backside, however, were ready to nominate such good riders on the grounds as Walter Blum, Manuel Ycaza, Don Pierce, John Sellers and Ismael Valenzuela. Each is a seasoned man in big money stakes.

CHIEFS TEST TIGERS HERE

Snyder's hustling Tigers get another chance. They open the second round of the District 3-AAA basketball schedule at home tomorrow night with Lake View's Chiefs providing the challenge.

Tipoff is set for 8 p.m. in Tiger gym following a "B" battle at 6:15 p.m. The tilt will be held in the high school gym since the annual Chamber of Commerce Banquet will be held in the Scurry County Coliseum on the same night.

Coach Ned Underwood's Bengals will be heavy favorites.

NEW HEAD GEAR FOR CONIGLIARO — Boston Red Sox slugger Tony Conigliaro, wearing a special cheekbone protector, is set to swing during batting practice at Harvard University. Protector is made of reenforced sponge rubber. Conigliaro, bothered by blurred vision in hs left eye for many weeks after he was hit by California's pitcher Jack Hamilton, reports the left eye is back in focus again. (AP Wirephoto)

Long Island Moves Up To Top Of Poll

BY THE ASSOCIATED PRESS

Undefeated Long Island University moved into first place in The Associated Press' small-college basketball poll today, shading twice-beaten Evansville by one point in the voting by a national panel of 14 sports writers and broadcasters.

The Blackbirds, No. 1 for the first time this season, hurdled both Evansville and Kentucky Wesleyan in taking over the top position from the Purple Aces. The Panthers from Owensboro, Ky., dropped to third.

LIU collected six votes for first place and 110 points in the latest poll based on games through last Saturday. Evansville had three votes for the No. 1 spot and 109 points, the latter on a basis of 10 points for a first-place vote, 9 for second, down to 1 for 10th.

Kentucky Wesleyan had 98 points. Southwestern Louisiana is fourth followed in order by Southwest Missouri State, Indiana State, Trinity, Tex., Guilford, Pan American and Lincoln, Mo.

In last week's games, LIU won its 12th straight by downing Philadelphia Textile 76-65. Evansville, 11-2, was beaten by Ball State 91-82 after defeating Valparaiso, 97-74. Kentucky Wesleyan, 9-3, trounced Kentucky State 125-80.

Southwestern Louisiana, idle last week, climbed two positions and replaced Indiana State in the No. 4 slot. Indiana State, slipped to sixth after losing to Butler, a major team, 86-85.

Southwest Missouri State, also not scheduled last week held fifth place.

There were no changes in the No. 7 through No. 10 rankings. Trinity, Tex. beat Houston Baptist 93-53 for an 11-4 mark while Pan American, 10-3, whipped Tennessee Tech, 75-71.

Guilford, 11-1, and Lincoln, Mo., 14-2 did not play.

The Top Ten with first-place votes in parentheses and total points:

1.	Long Is. Univ. (6)	110
2.	Evansville (3)	109
3.	Kentucky Wesleyan	98
4.	SW Louisiana (1)	72
5.	SW Mo. St. (1)	63
6.	Indiana State	62
7.	Trinity, Tex.	43
8.	Guilford (1)	37
9.	Pan American	24
10.	Lincoln, Mo.	23

SPORTS

Palmer Defends LA Crown

By BOB MYERS
Associated Press Sports Writer

PASADENA, Calif. (AP) — The 42nd annual Los Angeles Open Golf Tournament got under way today with Arnold Palmer, the defending champion, the main target of his brother professionals.

The scene, transplanted from nearby Los Angeles, was Brookside Park, a revamped course located adjacent to Pasadena's famed Rose Bowl for this tournament. Brookside measures 7,021 yards, with par 36-35—71.

Palmer, who first won the Los Angeles Open in 1963, made it two in a row a year ago with a 72-hole score of 269. The site was the par-71 Rancho Municipal layout in West Los Angeles.

Whether Brookside will be easier or tougher remains to be seen during the four rounds of golf coming up. But the pros didn't exactly slaughter things in Wednesday's pro-am.

Only 16 pros managed to break par in their individual efforts, while Palmer had a 73 and Billy Casper a 72.

Leading the way with three-under par 68s were Mason Rudolph, Charles Coody, Howie Johnson and Dave Hill.

Al Geiberger, Dave Marr, Charley Sifford and Steve Spray made the tour in 80-degree weather in 69, while the 70 group included Frank Beard, Gay Brewer, Bob Goalby, Tommy Aaron, George Knudson and Bruce Crampton.

Buccaneers Edge Chapparals

BY THE ASSOCIATED PRESS

The Buccaneers attacked inland from their home port of New Orleans and came away with the loot—another American Basketball Association victory.

The scene of the Buccaneers' latest success was Jackson, Miss., where 5,200 fans watched the Western Division leaders beat the Dallas Chapparals 112-94 Wednesday night.

Second-place Denver fell three games behind New Orleans by losing 101-100 to Kentucky.

In the only other ABA action, runner-up Pittsburgh moved to within a half-game of idle Minnesota in the Eastern Division by edging New Jersey 124-119 and Anaheim topped Houston 106-96.

There were no games scheduled in the National Basketball Association:

Doug Moe and Jackie Moreland scored 21 points each for the Buccaneers, who erased a 51-50 halftime deficit, with a 35-point third quarter. Player-Coach Cliff Hagan led Dallas with 20.

Denver's loss snapped a seven-game winning streak. Kentucky hit on 1 of 7 foul shots to 22 of 40 for the losing Rockets and also cashed in on six three-point baskets. Darel Carrier led Denver with 33 points. Larry Jones got 25 for Denver.

Charlie Williams scored 13 and Connie Hawkins got 10 of Pittsburgh's 32 points in the fourth quarter to hold off New Jersey. Hawkins finished with 32 points and Williams 25. Bruce Spraggins poured in 30 and Tony Jackson 25 for New Jersey.

Miner In Pro Gird Limelight

By LEW FERGUSON
Associated Press Sports Writer

ST. PAUL - Minneapolis (AP) — Who will have the distinction of being the No. 1 draft choice in professional football's 1968 college player draft next Tuesday?

Barring an unforeseen 11th-hour trade of their bonus selection, the Minnesota Vikings will make that pick shortly after 10 a.m. EST, Tuesday. And the Vikings aren't saying who they may tab.

It could be Kevin Hardy, Notre Dame's giant defensive tackle, or linebacker Fred Carr of Texas Western, or quarterback Gary Began of UCLA, or offensive tackle Ron Yary of Southern Cal.

"We've narrowed the field down to four or five," is all that Vikings' General Manager Jim Finks would say Wednesday. "Now we're in the process of making contact with these prospective draftees.

"We're checking things like recent injuries, military status, and so fourth.

"We still haven't made a decision and we may not until Tuesday morning. And we won't announce it even if we have made the decision before that."

It still is possible, although apparently not probable that the Vikings will trade the bonus selection they received last year from the New York Giants as part of the Fran Tarkenton trade. Minnesota could have exercise the bonus last year, but delayed its use until this year.

The Giants had received the bonus as a condition in the merger of the National and American football leagues.

Mentioned as quarterbacks who might be involved in a trade with the Vikings are Bill Munson of the Los Angeles Rams and John Brodie and George Mira of the San Francisco 49ers.

"Yes, I've heard those stories," Finks said. "I would say that the Vikings might be interested in one of them. I'll leave it to you to figure out which one.

"It's early yet. The draft isn't until Tuesday."

Matson Seeks Gold Medal

COLLEGE STATION, Tex. (AP) — Randy Matson, the towering Texan who is the world's champion shot - putter, thinks that winning the Sullivan Award is the second nicest thing that could happen to him. Winning a gold medal in this year's Olympics would be the nicest.

The 6-foot-6½ inch, 260-pound Texas A&M senior beat out three women in different fields to win the Sullivan Award as the outstanding amateur athlete of 1967.

"I was real surprised to learn that I have been named to receive the award. It is a great honor. I feel like it is perhaps the highest award an amateur athlete can get. The gold medal in the Olympics is the only thing that would surpass it," Matson said Wednesday on being informed of his selection.

Matson, who is more than twice the weight of his two closest rivals, received 787 points from 1,000 amateur sportsmen, sports writers, broadcasters and former Sullivan Award winners in the Amateur Athletic Union poll.

Billie Jean King of Long Beach, Calif., recognized as the world's No. 1 woman tennis player, received 579 points; Deborah "Debbie" Meyer, 15-year-old swimming star from Sacramento, Calif., had 528; and Peggy Fleming of Colorado Springs, Colo., world figure skating queen, received 486.

Five points were given for a first place vote, three for a second and one for a third.

Shattering records ever since he was at Pampa, Tex., High School, Matson bettered his own world mark last April 4 when he hurled the 16-pound ball 71 feet, 5½ inches. In the 1964 Olympics he won a silver medal, second to Dallas Long, but the following year he shattered Long's world record with a heave of 70 feet 7¼ inches. He is the first and only 70-foot shot putter.

Half of the 14 Sullivan Award nominees were women.

Others receiving votes included Charlette Cooke, Washington, D.C., track; Lt. Micki King, Ann Arbor, Mich., diving; Larry Kristoff, Carbondale, Ill., wrestling; Ron Laird, Pomona, Calif. race walking; Margo Ann McGrath, San Francisco, synchronized swimming; Lindy Metheny, Tuscola, Ill., gymnastics; Joe Puleo, York, Pa., weightlifting; Mark Spitz, Sacramento, Calif., swimming; James Wallington, Fort Bragg, N.C., boxing; and Ron Whitney, Boulder, Colo., track.

Protestors Picket Big Benefit Ball

By LOUISE COOK
Associated Press Writer

NEW YORK (AP) — Politics and partying, demonstrators and diamonds were features of a $150-per-person benefit ball Wednesday night. The guest list was headed by Vice President Hubert H. Humphrey.

A crowd of antiwar demonstrators ranging up to 300 in number milled outside the Plaza Hotel on Fifth Avenue in advance of Humphrey's appearance at the annual Diamond Ball for the Institute of International Education. Most of the pickets had left by the time Humphrey arrived—almost an hour late.

Police said 33 of the demonstrators were arrested and charged with disorderly conduct.

Inside the hotel, meanwhile, about 400 guests sipped cocktails and gazed at the $257,000 worth of diamonds on display in a heavily guarded case and at the uncounted thousands of dollars of diamonds worn by the women.

Although Humphrey refused to comment either on domestic or international affairs, Senate Majority Leader Mike Mansfield of Montana and Sen. Charles Percy, R-Ill., discussed issues with newsmen.

Questioned about the incident involving North Korea and the USS Pueblo, Mansfield said, "I would hope we would keep our emotions in check and keep our shirts on. There's too much we don't know."

Percy agreed, commenting only, "Those who, in the administration, have command of all the facts, should make the decisions minute by minute."

Others on hand for the ball included Treasury Secretary Henry Fowler, Sen. John Sherman Cooper, R-Ky., George Woods, president of the World Bank, and Gov. Nelson A. Rockefeller of New York.

Rockefeller told newsmen he still wasn't a candidate for the Republican presidential nomination despite support from various areas.

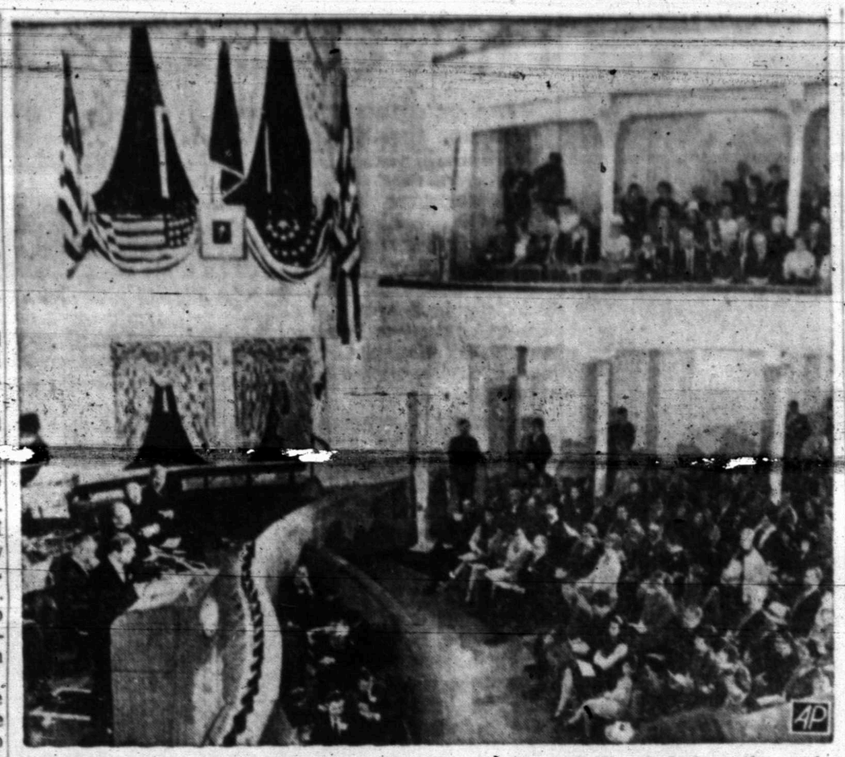
The problems of the world couldn't completely dim the brilliance of the gowns and jewels worn by the guests.

Mrs. Charles Engelhard, ball chairman, was in a white silk net dress with embroidered silver medallions by Mila Schon of Milan and wore huge, pear-shaped diamond earrings. "I haven't the slightest idea how much they're worth," she said.

Other guests—such as Mrs. Nelson Rockefeller—wore no jewelry at all. Some wore fabulous fakes by designer Kenneth Lane.

There were no pickets by the time Humphrey left and the demonstrators didn't seem to bother the guests.

"The pickets aren't there, but there are about 2,000 cops," commented one man, referring to the heavy security guard ringing the hotel.



FORD'S THEATER DEDICATED — Sen. Charles Percy, R-Ill., reads from the works of Lincoln during the ceremonies marking the dedication of the restored Ford's Theater — the scene of President Lincoln's assassination — in Washington. Behind Percy is Interior Secretary Stewart Udall. Lincoln's box, draped with flags, will not be occupied when stage performances begin Feb. 26. (AP Wirephoto)

Railroads Plan Sweeping Change

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — Despite a lot of talk about 160 mile an hour trains, few Americans would believe that the description, "America's Modern transportation Miracle," refers to railroads.

Instead, if presented a booklet of that title, they would expect to see pictures of jets whisking relaxed couples in silken smoothness to a distant island resort, to Europe or to the Orient.

The railroads are serious, however, and that quotation is used as the subtitle of a booklet produced by the Association of American Railroads called "Railroads Unlimited!" and carrying the inscription:

"A continentwide story of sweeping change and challenge—a modern industrial miracle . . ."

Why, then, has the public been so unaware of this great change by which American railroads are "overcoming awesome obstacles . . . moving along a track that leads to unlimited public service?"

Primarily because the revolution referred to is occuring, if at all, primarily in freight rather than passenger traffic. It refers to piggyback cars, unit trains, automatic freight car identification, mergers.

"We are faced with the hard facts of life," said Thomas Goodfellow, president of the association. "People have deserted us. The public says it doesn't want to ride trains," he said in an interview.

Goodfellow, who has described himself as a country boy but who is past president of the Long Island Rail Road, is certain that it wasn't the other way round—that rails weren't ingenious or progressive or broadminded enough to keep their passengers.

And, lest thousands of harried commuters take exception to so sweeping a statement, Goodfellow adds some qualifications. He believes that the future of rail passenger traffic exists in the heavily populated "corridors"—San Francisco-Los Angeles, Richmond-Boston, Chicago-Milwaukee, Dallas-Houston, for example—and, of necessity, in commuter transportation.

"There is no future for the long haul passenger train," he said. "Some remnants are left, like the Florida service. But long haul service is being deserted very rapidly. Passengers now account for only 5 per cent of revenue.

As Goodfellow spoke, the Southern Pacific Co. was seeking to discontinue its City of San Francisco passenger train between Oakland and Chicago, claiming it was losing many thousands of dollars a year on the service.

The Skaneateles Lake, in New York State, has an area of about 6 square miles.

UNIVERSITIES SEEK PRIVATE MONEY

Spending Cut To Crimp Research

By DICK BARNES
Associated Press Writer

WASHINGTON (AP) — Defense and space agency spending for research at universities is being sliced by 20 per cent this year. A private government memo says the cuts threaten programs and jobs at some schools.

Other government agencies also are reducing research spending, putting an additional squeeze on the academic community.

Universities that exultantly rode the government research roller-coaster to a $1.6 billion crest are beginning to tremble on the ride downhill.

Faculty and staff hiring in some areas is near a standstill.

Graduate admissions for next September probably will be cut.

Some schools are hunting more intensively for private money.

Shirley A. Johnson Jr., director of research at the University of Denver, said, "If we feel a cut here we'll just have to decrease our activities." His school did $3.27 million in Defense Department business last year and also has seven space agency contracts.

"We're hurting in the graduate education area," said James J. Brophy, academic vice president at Illinois Institute of Technology, where government research finances one-third of the entire academic program.

Defense officials expect private schools with little or no endowment—Denver and IIT, for example—to be hurt more than state universities such as Michigan and California, or heavily endowed private schools like Stanford and Harvard.

The Defense Department talked with officials at 33 schools to measure the impact. The private memo reported:

—"The cuts have just not hit them yet but are only beginning to be felt."

—Schools "realize it is going to get worse, will probably peak next spring (when contract decisions will be made)."

—"Because impacts haven't hit yet, no firm plan of how to deal with them has evolved at any institution interviewed."

—"There is general agreement on priorities: Post-doctoral fellowships in-take in school year 1968 will be reduced . . . no investment will be made in major pieces of equipment and technicians will be let go . . . the number of graduate students admitted will be down this year . . . some faculty members' summer salaries will not be covered as in the past by grants and contracts . . . the more affluent universities who believe that the trend will change in '69 will commit some of their own private resources to tide them over during this period."

The government spent about $1.6 billion for college and university research in 1967. Overall research and development obligations totaled $17.5 billion—but they're being cut about $1 billion in the 1968 budget year.

Defense Department research support to schools is dropping from $284 million in 1967 to about $225 million this year.

The National Aeronautics and Space Administration cut its sustaining university program from $30 million to $10 million, and lopped about $9 million from the $87 million in program research that went to universities in 1967.

In addition to the research cutback, colleges and universities also face a $208 million deferral in spending for new campus construction by the Department of Health, Education and Welfare.

The Defense Department is either slowing the effort or shortening the contracts for projects it could continue full tilt if it had the money.

Projects affected by the NASA cutback won't be abandoned—they have phaseout money appropriated in earlier years.

Both agencies hope President Johnson's fiscal 1969 budget will provide money to reaccelerate the programs and that Congress will abstain from budget slicing. Some congressmen have frequently criticized research programs, leveling charges of poor administration, duplication, concentration of dollars at a few schools and waste on studies they regard as unneeded.

The National Institutes of Health, which poured $600 million into colleges and universities in 1967, is holding at that level for 1968. But with rising costs it expects to get about seven per cent less research per dollar.

The Bureau of the Budget, acknowledging it knows little about what is happening on campus, is setting out to trace research dollars in the hope of learning what effect their presence—or absence—is having.

Concern has been voiced periodically about what might happen when federal research money declined but until now the discussion has been mostly theoretical.

NASA, which gave 750 predoctoral three-year fellowships in 1967, is giving 75 this year. The National Science Foundation is cutting its training fellowships from 1,200 to 700. National Defense Education Act fellowships are being halved to 3,000.

The military draft is another factor complicating the graduate admissions picture. Schools expect the axing of graduate study draft deferments by Congress last year to cut the pool for 1968 graduate admissions by from 10 to 25 per cent.

For a graduate student who survives the draft and the cut in fellowship money, said Dr. Harold F. Bright, vice president for academic affairs at George Washington University, the caliber of his training could be diminished since "a major advantage of the research contracts has been the opportunity for graduate students to get some support on real life research."

Dr. Edward P. Todd, deputy associate director of research for the National Science Foundation, said: "If we don't turn out a certain number of PhD dissertations in a given year, we'll be in trouble 10 years after that. We have to maintain a community of scientists for the future."

Wanted List Shortened

TUCSON, Ariz. (AP) — FBI agents crossed two more names off their list of 10 most wanted criminals with the arrest of two men from Texas here Wednesday.

They identified the captured pair as Donald Eugene Sparks, 38, a native of Electra, and Jerry Ray James, 28, born in Corpus Christi.

Tucson police teamed with agents of the Federal Bureau of Investigation in capturing them at a house rented by Sparks under an alias.

FBI spokesmen said James is charged with a March 16, 1966, burglary of the First State Bank at Mobeetie, in the Texas Panhandle, and broke out of the county jail at Gulfport, Miss., where he was held in a holdup at a Biloxi, Miss., club.

James' wife Joan was arrested in Tucson several days earlier. Both are accused along with 18 other persons in a federal grand jury indictment at Del Rio, Tex., with being involved in a bank robbery and prostitution ring.

The FBI reported Sparks had been sought for fleeing to avoid prosecution on charges of three armed robberies of homes at Collinsville and Fort Payne, Ala.

Owners Tell Dealers About Autos

An owner relations meeting for owners of GM automobiles was held at noon Wednesday at the American Restaurant.

Company representatives present included Keith Pitner, manager of Snyder Motor Company, and his wife, Chiva; Jack Heiser, Abilene District manager and Oldsmobile sales representative; Bud Hammond, service representative from Odessa; and, Jake James local service manager.

Owners present were Juanita Hart (Oldsmobile - Pontiac), Joe Pate (Pontiac), Mackie Greene (Cadillac), Tommy Mills (Oldsmobile - Tornado), Worth Sayner (Buick), and A. Z. Glover (Oldsmobile).

Owners were asked questions concerning performance and design of present models and given an opportunity to make suggestions concerning future improvements.

Heiser, the district manager, said that most of the owners expressed approval of existing models, although one or two made suggestions for minor changes in exterior design.

New Dump Truck Crashes To Safety

OLD TOWN, Maine (AP) — David Brown crashed the town's new $6,500 dump truck through the closed doors of the municipal garage Wednesday to get the vehicle out of the burning building.

Brown, a mechanic, was servicing the truck when the fire was discovered.

Another city employe operating a snow blower nearby ran into the burning building and drove out a $20,000 road grader.

Plans Fund Drives

WICHITA FALLS (AP) — Industrial Development Inc. of Wichita Falls, an organization that seeks new businesses for this area, will conduct a $1 million fund campaign. Charles N. Prothro has been named new president of the organization.

City Council Approves Group Taxi Riding

NEW YORK (AP) — A one-year trial of group taxicab riding from an airport has been approved by the City Council.

Under the measure, the mayor's task force on taxis will supervise rides from the Eastern Air Lines shuttle terminal at La Guardia Airport to four zones in Manhattan. Investigation Commissioner Arnold Fraiman said rates to each zone would be fixed. A maximum of four persons will be allowed to share the cab.

Every year the great gray whale migrates from Arctic feeding grounds to breeding grounds off Mexico's Baja California.

By ABIGAIL VAN BUREN

DEAR ABBY: I am 26 and Henry is 33, and here is my story.

We moved in with Henry's parents right after we got married ("Only until we find a place of our own," he promised). Well, it's been four years, and here I sit with two lovely children and a closet full of unwrapped wedding presents.

My in-laws are very nice, and some people think I've got it easy with Henry's mother to do all the cooking, and a built-in baby sitter for the children, but I am miserable, Abby. Henry's mother has her own way of doing things, and I help her as much as she lets me, which isn't much. And it's still her house.

Every time the subject of moving comes up, Henry's father says, "Why move and pay rent when you can live here for free? We have plenty of room." (It's true, but I would rather have one room of my own.)

The children are getting spoiled by their grandparents and I feel trapped. Please help me.

NO NAME, PLS.

DEAR NO NAME: Face it. You are married to a man who isn't ready to give up the comfort and security provided by his parents. And unless you can help him grow up sufficiently to make him want to leave the nest, you can expect to be there indefinitely. In other words, he needs the counsel of a wise and impartial friend. This could be a clergyman, doctor, or marriage counsellor.

• • •

DEAR ABBY: I used to think you made up all the letters in your column because I couldn't believe that people could be so dumb, but here I am, with a problem of my own that sounds like it couldn't be true, but it is. I am 23 and I have been married for five weeks to a swell guy I've known for a year. This is my second marriage and I have three small children.

My husband never said anything about his being married before, but now I find out that he has been married twice and has five kids whom his mother is taking care of. I found out only yesterday and I am ready for a nervous breakdown. When I told my husband I knew about the five kids, he said he was glad, as he didn't know how much longer he could keep it from me. Then he said as long as I knew, would I mind taking his five kids to raise as his mother was not in good health.

Abby, I do waitress work 10 hours a day, and I have enough with my own three and I can't raise eight kids. All the love I had for my husband is dead. Do I have grounds for divorce?

SHOCKED

DEAR SHOCKED: Talk to a lawyer. You might even have grounds for an annulment.

• • •

DEAR ABBY: In answer to "WAITING," the girl who took her engagement ring to a jeweler to find out how much it was worth, then felt "hurt" when he told her it was a fake diamond: I think that girl showed her true colors. It showed she cared more about the worth of the ring than the worth of the man she was getting. So why didn't you tell her that?

LET DOWN

DEAR LET: Perhaps she took the ring to the jeweler to have it appraised in order to insure it.

• • •

CONFIDENTIAL TO 'DREAMS A LOT": Don't complain. At least your're sleeping!

Problems? Write to Abby, Box 69700, Los Angeles, Cal., 90069. For a personal reply, inclose a stamped, self-addressed envelope.

Rockefeller, Connally At News Confab

LITTLE ROCK, Ark. (AP) — Gov. John Connally of Texas was on the positive side Wednesday about several topics when he appeared at a news conference with Gov. Winthrop Rockefeller of Arkansas.

Said the Texas governor:

—He plans no public support for any candidate for governor of Texas.

—He does not anticipate receiving an appointment from President Johnson after he leaves the governor's office and he does not seek one.

—He said he reserved the right to defend himself and his record should either become an issue in the governor's race in Texas.

—He called the campaign situation in Texas "confused."

—He said the Republicans have a real problem in "trying to choose a candidate" to run for President.

The Texas governor was in Arkansas to promote HemisFair '68 which opens in San Antonio in April.

Connally handed Rockefeller the first shipment of tickets to the Western Hemisphere fair to be sold outside Texas.

During the course of his remarks, he commended Arkansas for erecting a pavilion at the HemisFair and called it a "sound investment for Arkansas."

Stock Show At Fluvanna

FLUVANNA — The annual Fluvanna Junior Livestock Show is scheduled for Jan. 27 at the Fluvanna High School.

This year's show is sponsored by the Fluvanna Young Farmers, and will begin at 10:30 a.m. with the fat steers. After the fat steer show there will be a barbecue dinner served in the high school cafeteria. The fat burrows will show at 1 p.m. and the lambs will be at 2 p.m.

Jerry Stockton, vocational agriculture teacher at Wolfforth will judge all classes. The showmanship award will be given at a later date.

Miss Cindy Patterson, the FFA Chapter Sweetheart, will present ribbons to the winners following judging of each class.

Superintendents of the various divisions are: Sheep: Glenn Toombs, Swine: Donn Wills, and Steers: Ray Herring.

All members of the Fluvanna Young Farmers will be general superintendents.

The public is invited.

Japanese Vessel Sinks After Crash

TOKYO (AP) — An 89-ton Japanese fishing vessel sank and its crew of 12 was missing after a collision off Kyushu, southwestern Japan, with the 7,638-ton American freighter Beatrice Victory early today, the Maritime Safety Agency said.

A spokesman said the Beatrice Victory, owned by the U.S. Department of Commerce, appeared undamaged and remained in the area to search for the missing crewmen of the fishing craft.

The Japanese craft was identified as the No. 22 Junwa-Maru.

WEDDING GOWN DESIGNED BY ELIZABETH TAYLOR—A model wears a white tulle wedding gown designed by actress Elizabeth Taylor during the presentation of Mia Fonssagrives and Vicky Tiel's spring collection at Maxim's restaurant in Paris. The gown is dotted with jasmine blossoms. It was the only dress designed by Miss Taylor for the show. (AP Wirephoto)

Gets Chair In Slaying

WACO (AP) — Oscar Turner, 23-year-old, 350-pound Negro truck driver from Dallas, received a death sentence Wednesday for the slaying of two men during a filling station robbery.

Turner sat impassively and without apparent emotion as the jury was polled and as Dist. Judge Vic Hall read the death sentence.

"Judge, I want to let you know that I want to appeal," the big man said calmly. The judge told his court-appointed lawyers.

Turner was found guilty of murder in the slayings of Anton Kaska, 41, and Kaska's 20-year-old son, David Kaska. The pair drove onto the gas station driveway while trying out a used car they were considering buying.

Two station attendants were shot during the same robbery but recovered and testified against Turner.

Also charged in the incident was Willis Scott, 24, another Dallas man. He is to be tried later.

Turner's defense was based on a plea of insanity. The jury returned the guilty verdict Tuesday but heard additional testimony Wednesday before deciding the accused should die in the electric chair.

Little Chance For Rights Bill

By JOHN CHADWICK
Associated Press Writer

WASHINGTON (AP) — Even its most ardent Senate admirers concede President Johnson's civil rights program has little chance of getting through Congress this year.

Johnson offered the package Wednesday in a special message asking Congress for measures to ban discrimination in housing, employment and federal jury selection.

He also urged protection for Negroes and whites who are helping Negroes try to exercise their civil rights.

It marked the third time around for a program first submitted in 1966 and reoffered last year.

The House passed the package of measures in 1966, after modifying the President's open-housing proposal, but the legislation was strangled by a Senate filibuster.

Senate backers of the program take a glum view of its prospects now, partly because of the climate created by riots and other racial disturbances.

But the President told Congress action should not be delayed because "the air is filled with the voices of extremists on both sides."

Although his over-all civil rights program is in trouble, parts of it are making headway on a piecemeal basis.

Shortly after he submitted his message, a House Judiciary subcommittee unanimously approved a bill to ban discrimination in selection of federal juries.

Similar to a bill passed by the Senate without objection last December, it provides for random selection of jurors from voters' lists without regard to race, religion, sex or economic status.

Senate sponsors of the measure had steered it to passage as a jury reform bill rather than civil rights legislation.

However, a separate bill to prohibit discrimination in the selection of jurors in state courts has proved much more controversial and appears unlikely to pass.

Johnson's renewed call for legislation to ban discrimination in the sale or rental of housing also is given no chance by its backers. Under the President's proposal it would take effect over a three-year period.

These Detectives A Jinx To Burglar

NEW YORK (AP) — An escaped mental patient, suspected of 200 burglaries, was recaptured Wednesday night by the four detectives who had caught him in the first place.

"My God, not again!" cried John DiGaglia, 35, as the four picked him up outside a Bronx housing development.

During the New Year Gas Range Sale

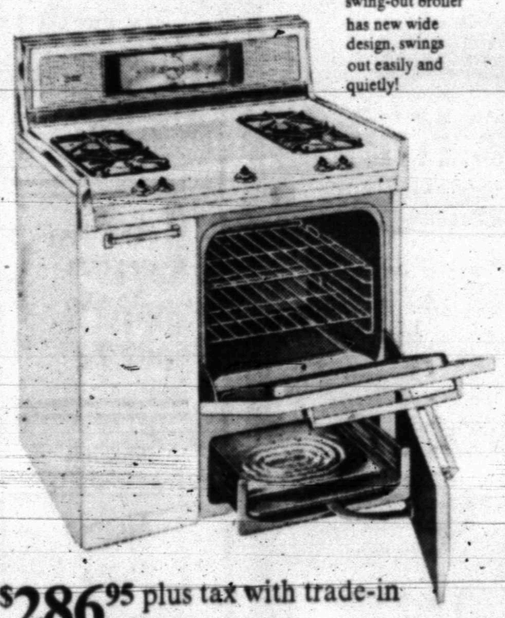
roper 1328

This new 30" gas range has smart looking top-front controls, easy roll-out smokeless broiler, handy clock-timer. The deep-design oven increases capacity more than 10%, and you can set heat as low as 140° to keep foods serving hot. Available in custom colors avocado, coppertone, turquoise or white—all with lifetime porcelain enamel finish, and burners guaranteed for the life of the range. Disposable oven lining makes cleaning a snap!

$199.95 plus tax with trade-in.

roper 1658

Cook-top side panels fit flush with countertop for smooth "built-in" look. Cook-top recessed to a lower, easier-to-use height. Completely seam-free. All burner and oven/broiler controls are top-front mounted on separate level for added convenience. Automatic oven lets you select time and temperature . . . automatically drops to "keep-warm" when food is done. Tem-Trol top burners make all range top utensils automatic! Deluxe swing-out broiler has new wide design, swings out easily and quietly!



$286.95 plus tax with trade-in

NEW BIOLOGICAL BLINDFOLD

New Serum Aids In Transplants

By BURL OSBORNE
Associated Press Writer

DENVER, Colo. (AP) — Doctors here have devised another tool—a sort of biological blindfold—to help lessen the great danger of rejection following organ transplants, without killing the patient with massive drug doses.

This new serum, antilymphocyte globulin, or simply ALG, already has been used with impressive results in kidney and liver transplants at the University of Colorado Medical Center. It may prove to be useful in future heart transplants.

The serum was developed by the transplant research team at the medical center. It works on white blood cells called lymphocytes, the body's microscopic warriors that fight off strangers, whether they be germs bringing infection or the protein of an organ transplanted from another person.

ALG "blindfolds" these lymphocytes to the presence of the new organ, rendering them incapable of rejecting the new kidney or liver.

The doctors say ALG is no panacea—"there's nothing magical about it," said one—but they see it as a promising step along the way to controlling rejection, the big bugaboo facing any transplant, whether it be kidney or heart.

Though some questions about ALG remain unanswered, the Denver team, headed by Dr. Thomas E. Starzl, reports the survival rate of kidney patients one year after transplant—with related donors—has risen from 70 to 95 per cent. About 60 kidney patients have received ALG since mid-1966.

Five liver transplant patients were given the injections. Three still are living, the only known survivors of such operations.

In both kidney and liver studies, the fatalities were not related to the serum.

Preliminary work on heart transplant is under way with animals in the laboratories here, but the transplant team has emphasized it is preliminary, and no immediate attempt with man is foreseen.

However, Dr. Gilbert Blount Jr., head of the university's cardiology department, said in a speech in Texas the university should be capable of conducting a heart transplant by spring.

Dr. Christiaan Barnard, who has performed two human heart transplants in South Africa, said he and his associates "have thought a lot about this serum. We have carried out a lot of experiments with it, but have not used it clinically. There is still a lot of uncertainty and danger in it. In a new operation we do not want to risk complications."

The most common weapons used to head off rejection of new organs have been the drugs azathioprine and prednisone.

But massive doses of prednisone can open the way to diabetes, decalcification, ulcers, Cushing's disease and high blood pressure. It can mask infection until the body is ravaged, and throw body chemistries drastically out of balance.

Azathioprine, or imuran, is also heavily toxic in large doses.

Doctors here found that by giving ALG just before and up to four months after transplant, the prednisone dosage often could be halved, and the amount of azathioprine significantly reduced, without harming function of the new kidney.

Antilymphocyte globulin is obtained by injecting horses with human lymph nodes, spleens and thymus, then extracting the serum from the immunized animals and refining it.

The drawbacks to its use include evidence that overdoses can lead to nephritis in the transplanted kidney. That is the same disease that in many cases destroyed the patient's own kidneys. However, biopsies of the first eight kidneys implanted in patients getting ALG showed no sign of this.

ALG, like other known immunosuppressive agents, is not selective. While it dampens the body's capability of fighting off the new organ, it also lowers resistance to infection.

Pain, fever and tenderness at the injection site almost always accompany the ALG shots. Patients often develop hives. Some patients developed more serious reactions, and injections were halted in the case of eight. But in no case was the patient's life endangered, and after more than 2,000 doses there have been no drug-related fatalities.

Dallas Man Named Cattlemen's Official

OKLAHOMA CITY (AP) — Fellow members elected Ben H. Carpenter of Dallas a regional vice president of the National Cattlemen's Association Wednesday.

They chose Bill House, a Hereford breeder from Cedar Vale, Kan., to succeed John H. Guthrie of Porterville, Calif., as president.

Texas City Grows

HEREFORD, Tex. (AP)—The annexation of 17.42 acres into the Hereford city limits by action of the city commission gives Hereford a land area of 2,980.50 acres, or more than 4.65 square miles. Since 1950, Hereford city limits have more than doubled.

NEW OFFICERS — Incoming officers of the Producer's Club (Gold Coaters) of the Snyder Chamber of Commerce were elected by acclamation at a luncheon meeting, held Wednesday in Carlos' Little Mexico Cafe. They are, from left to right, Gene Merrifield, secretary; Tommy Deffebach, president; and Olin Bunch, vice-president. Joe Sentell ,outgoing president (far right) offers congratulations.

Tommy Deffebach Elected To Head CC's Producers

New officers of the Producer's Club (Gold Coaters) of the Snyder Chamber of Commerce were elected by acclamation at a luncheon meeting Wednesday at Carlos' Little Mexico Cafe.

The new officers are Tommy Deffebach, president; Olin Bunch, vice president; and Gene Merrifield, secretary. Their names were put before the club by Mel Gilbert, head of the nominating committee.

Ernest Sears, chairman of the ticket sales committee for the annual Chamber of Commerce banquet to be held at 7 p.m. Friday at the Scurry County Coliseum, gave a report. He said sales have reached the 250 to 300 mark. An additional 200 tickets must be sold for the event to "break even," he declared.

Merrifield, manager of the Chamber of Commerce and secretary of the Producer's Club, pointed out that "it costs more to hold the banquet at the Coliseum." He reminded members that other area towns are charging up to $6 per plate for similar banquets. Main speaker for the occasion is James. J. Rowley, head of the U. S. Secret Service. Tickets may be purchased at the Chamber of Commerce or from any member of the Producer's Club or directors. There also is a possibility that a limited number of tickets will be available at the door.

In other business, Joe Sentell, outgoing president, appointed Gilbert and Bill Seale to a committee to determine where gold coats of standard color can be purchased.

Also present were Broadway Browning, Bentley Baize, Doug McGlaun, Max von Roeder, John Thomas, Wayland Holt, H. F. Clark, Gary Stevens, Jack Nesbitt, Junior McCormick, Guy Sullivan, Jay Rogers, and L. A. Patterson and his son, Roger.

Protection For Young Workers

(EDITOR'S NOTE: This is the fifth in a series of articles by Erven Fisher, manager of the Big Spring District Social Security Office, on new Social Security laws.)

* * *

By ERVEN FISHER
District Manager

New protection for the young worker and his family stands out among the new provisions in the social security law for the disabled.

For young workers who became disabled before they had a chance to work under social security for at least 5 years, new change in the disability benefit provisions is a boon.

For benefits to be paid to a disabled worker and his dependents under the old law he needed social security credits for at least 5 out of the 10 years before becoming disabled. Now, if you become disabled between 24 and 31, you need credits for only half the time between age 21 and the time you became unable to work. If you are disabled before you reach age 24, you need only 1½ years of work under social security out of a 3 year period ending when your disability began.

Benefits under this new provision are first payable for the month of February, 1968. About 100,000 people — disabled workers and their dependents — are eligible. An estimated $70 million in additional benefits will be paid out in the first 12 months.

The new law could mean benefits even for some people who have recovered from their disabling condition, or if they were denied benefits previously because they lacked enough work credits. You should seek more information at your social security office at 1009 Gregg, Big Spring, Texas, if you think you qualify.

Mayor Won't Enter Race

DALLAS, Tex. (AP) — Mayor Erik Jonsson of Dallas declined Wednesday to run as a Republican candidate for governor of Texas because of what he termed the problems of the metropolis.

Jonsson said increasing pressure on American cities induced him to stay on as mayor of Dallas despite the honor he felt in being asked to run for governor.

"The cities are now in the front lines," the former Texas Instruments executive said.

He listed as the most pressing problems the current crime wave, the need for adequate housing and the necessity for modernization.

The mayor spoke of what he considered a solid achievement of goals in Dallas in the fields of education and modernization of the city.

But he added that he realized that further progress was required, a major reason for deciding to stay at his present post.

Trial Awaits Ruling By Supreme Court

NEWPORT, R.I. (AP) — A Family Court judge says he is awaiting a decision by the U.S. Supreme Court before ordering a jury trial for a youth accused of assault.

Judge Michael Deciantis replied to a request for trial made by counsel for the 15-year-old boy, charged with assault with a rock on a woman in Newport Nov. 16. The U.S. Supreme Court has announced that it will hear an Ohio case on juvenile trials in March.

Demand Approved

PORTLAND, Ore. (AP) — The Oregon State Board of Higher Education has approved University of Oregon President Arthur Flemming's demand that fraternities and sororities at state-supported schools make their own decision on members. Flemming said this rule will prevent local chapters from using national rules or complaints from alumni as excuses for discriminating.

Has Lots Of Polish

PITTSBURGH (AP) — Ellen Provost is a shining example of what a curvy young girl with lots of polish in a miniskirt can do at a barbershop.

Since she became Pittsburgh's only shoeshine girl three weeks ago the customers at the Razor's Edge—a men's hair styling shop—have looked sharp and waxed eloquent.

"It's groovy," agrees Ellen, a 20-year-old blue-eyed brunette whose long tresses extend almost as far as her skirt.

"I'm supposed to look young and fresh and sexy," she said before sitting down to polish another pair of shoes.

She took the job, she said, because she was out of work and needed money to go back to school.

Now she makes $10, even on a bad day, at 50 cents a shine plus tips that usually are generous, working from 9 a.m. to 8 p.m. six days a week.

"I never had shined a pair of shoes," Ellen said. "The fellows just told me what they liked about it and I went from there."

But the brushing will bush you," she said. "If I hadn't been a tomboy for years I might not have been able to do it. It gets you in the back."

Debra Barnes Claims She's 'Plain Girl'

DALLAS (AP) — "I'm just a plain, common girl," said a 36½-24-36½ beauty, shedding her mink coat to show off her red-white-blue Ban-Lon outfit.

She plays the piano, organ, trumpet and French horn and bakes chocolate chip cookies. She sings like a bird and looks as wholesome and bouncy as Doris Day's baby pictures.

She water skis and makes the dean's honor roll at Kansas State College in Pittsburg. She writes music and yearns for a doctor's degree in piano pedagogy.

Aside from that maybe Debra Dene Barnes, 20, is a plain, common girl. She's also the reigning Miss America.

With two suitcases filled with sensible suits and comfortable evening dresses (a wardrobe for one month), she arrived here Wednesday for a department store fashion show.

She calls herself "a corn-fed Kansan" and, at 5-feet-9, recalls how she was taller than any of the boys in her classrooms until she was 13—and liked it that way.

Maybe one reason was that she was giving piano lessons to people older than herself. She began teaching piano when she was 12 and she taught 40-year-old women how to play.

When she was 17 she had male students 20 years old.

Speaking of men, she said she goes on blind dates only "if I know the friend who set it up very well and I know that I can trust her judgment."

What word would she give American males generally in proving themselves?

"Too many are too nervous. They should let themselves go. A dud can become a real interesting date."

And women? She said if anybody wanted her opinion, it would be a warning against "affectations." A woman should "be herself."

That's the secret of how a girl from a Kansas town of 550, Moran, came to be Miss America last September.

She didn't go to charm school. Nobody taught her poise, she said. She lost the first pageant she entered. "I wasn't mature enough," she said.

The way to win is "naturalness," said Miss America.

Gas-Leak Scare Is False Alarm

PORTLAND, Ore. (AP) — More than 400 employes and scores of customers fled from a Portland department store Wednesday when they smelled a strong gas. But fire investigators couldn't find any leaks.

A call from a nearby freight company explained what had happened.

The company said one of its trucks, which was carrying a chemical that is added to odorless natural gas to give it a detectable smell, had a leak. As the truck drove by, the store's ventilation system sucked the strong-smelling gas additive inside.

Christmas Tree Is Finally Carried Off

COLUMBIA, S. C. (AP) — South Carolina's official Christmas tree was carted off from in front of the State House Wednesday two hours after the State Senate passed a resolution that it be removed or decorated with valentines.

The State Division of General Services took down the tree without waiting for the State House of Representatives to concur in the resolution. The 40-foot tree had stood in front of the State House since mid-December.

Liquor Board Hearing May Be Short Of Witnesses

By LEE JONES

AUSTIN (AP) Is Monday's widely heralded hearing into alleged irregularities in liquor law enforcement going to suffer because of a shortage of witnesses?

That question emerged today as the Department of Public Safety and the Attorney General's Department prepared to put together the results of their investigations into the reported problems of the Liquor Control Board.

"People who have been mentioned in newspapers as knowing a great deal have told our investigators they couldn't testify as to what they've heard," said Asst. Atty. Gen. Nola White, who is directing the attorney general's probe.

"I thought the hearing might go on for several days, but now I don't know."

But all who are involved in the various probes say cautiously they don't know what is likely to turn up before it is all over.

Aubrey Cartlidege, chief of the LCB's enforcement division and the man who supervises all of Texas' liquor agents, said his own "personal investigation" urned up nothing to justify losng confidence in the "L-men."

Dallas Dist. Atty. Henry Wade said the grand jury in that city, where the first allegations concerning alleged misconduct by LCB agents were made, has only begun its investigation. Four men appeared before the grand jury Tuesday. Wade said "a good many more witnesses will appear before the grand jury later on."

Included in the group called before the grand jury were two of the six Dallas LCB agents fired because of alleged misconduct involving sale of a confiscated truck.

White said one of his investigators has returned to Austin from Odessa, where published reports said a gambling operation had been located in a well-known hotel. The Odessa investigation is "not necessarily through" and is not concerned with gambling itself but "only from the LCB standpoint," he said.

Enforcement of laws against gambling is the concern of local police agencies and district attorneys, he pointed out, but "we want to know if there has been some payoff or bribery in connection with that (LCB) angle."

White's investigators in Tyler and Jasper submitted preliminary reports that they produced no evidence or witnesses of misconduct by board employes.

The DPS also is investigating, and White said the two agencies would "correlate" their reports Friday in anticipation of Monday's hearing.

Humphrey, McCarthy May Attend Confab

— Vice President Hubert H. Humphrey and Sen. Eugene J. McCarthy may be among Minnesota's 62 delegates to the Democratic National Convention.

Aides of the two have indicated that both are prepared to support the other for seats on the state delegation—which has 52 votes.
