DECLARE MARTIAL LAW

MAINLY ABOUT PEOPLE

By H. N. F.

Representative John M. Garner of the Caeti district is a minority leader. He may not have the tile but he is doing all the work. He is one of the most interesting of all the men that Texas has sent to Washington in two decades. Mr. Garner is a wit as a caustic speaker. He was ridiculing "the comic performance," as he termed it, of Chairman Richard W. Fordney of the house ways and means committee. Among other things the Texan said: "I am sure that every member has enjoyed the comic performance given us by our friend from Michigan, but I would not say we had been enlightened by it," declared Congressman Garner. "In fact, the thing he tried not to talk about was the bill we are about to consider. The only thing I remember about it are the three stories which he told us several weeks ago in the last speech he made on the tariff. The long string of figures which he talked about in referring to war expenditures calls to my mind an incident which happened down in Texas in the nineties, when the populists were very strong and the democrats were having some considerable contest with them at the polls. Our friend 'Cyclone' Davis, member of congress at large from Texas, a few years ago, but then a prominent leader of the populist party, was making a speech over in Tom Connally's district, in McLennan county, and our democratic organization sent out a man by the name of Russell Kingsbury to meet 'Cyclone' and demolish him. Our side got a division of the time, and of course 'Cyclone' insisted that he should open and close. In his opening address he gave out a row of statistics which were as bewildering as Einstein's theory of relativity. He had the entire audience spellbound by the thousands of millions and hundreds of billions of dollars which he talked about. When Kingsbury's time came, not to be outdone, he proceeded to give some few statistics himself. I have heard that there never was such a mass of statistics reeled off in any one speech ever delivered in Texas, before or since, as Kingsbury reeled off on that occasion. He began by talking in millions and billions and from that he 'riz' until presently he was talking in figures which were so big that they were absolutely beyond comprehension, when 'Cyclone' interrupted to say, 'My God, man, where did you get your figures?' Kingsbury quickly replied, 'I made them just like you did.' (Laughter). When the gentleman from Michigan was reeling off his big line of figures about expenditures during the war and at the peace conference, I knew that, as to some of them, he was playing the Kingsbury act and was making them as he went. Of course, he knew it, too." Representative Garner had the facts all right but not the names of the two participants. Representative Reese De-Graffenreid, known to the people of East Texas as "The Black Eagle," should be substituted for the Hon. Russell H. Kingsbury. This celebrated joint debate between a populist and a democrat was held in Wood county and when it was over whole pages of the sayings of Jefferson had been added to American history by "The Black Eagle," who was a most eloquent orator, as game as a bull dog and one of the most resourceful politicians that Texas has ever known. Cyclone Davis is in the land of the living; Russell H. Kingsbury is pursuing the law at Waco; "The Black Eagle" pass on years ago and those who knew him best sincerely mourned when their idol was called home.

Lieutenant Governor Davidson has appointed the committee to inspect the Palo Duro Canyon on September 19, as to the feasibility of making a state park of it. The committee is as follows: From the senate, John H. Bailey, Cuero; H. L. Darwin, Paris; R. M. Dudley, El Paso; J. N. Fairchild, Lufkin; A. E. Woods, Granger and those from the house of representatives are Speaker Charles E. Thomas, Lewisville; J. W. Hall, Humble; John Davis, Dallas; R. E. Seegley, Palestine; Newt Williams, Waco, and Dr. A. R. Shearer from Mount Belleview. They do say that Lynch Davidson may be a candidate for governor next year. State Senator Archie Parr of Duval county whispered in the ear of former Lieutenant Governor W. A. Johnson that Davidson's friends would force him to enter the race and Parr volunteered the additional information "that they would put him over."

Bexar county faces a probable loss of $147,000 in two years as the result of the provisions of the rural school aid bill passed by the legislature and signed by the governor, it is estimated by County Judge Augustus McCloskey of that county. This figure is based on the loss sustained by the county during the school year 1920-21 as the result of the rural school cut. The bill appropriates $1,500,000 the first year and $1,000,000 the second year. It provides that no school district shall receive in excess of $1000 per year from the state fund and that no school with more than 500 scholastics can receive aid. Another restriction is that any school where aid has been received before must show that a local tax of at least 50 cents is collected before being eligible for further help. During the year

NEW HORRORS WILL SHOCK WORLD, IF IRISH REPUBLICANS RENEW WAR, AMERICAN OBSERVER DECLARES

By VICTOR McNAUGHT.

DUBLIN, Sept. 2.—Possibility of the resumption of hostilities between crown forces and the Irish republican army is regarded with sick hearts by the majority of the people of Ireland. Without coming here, no one can realize the ghastly and brutal fetures of the struggle as wagged during the past few months.

Sinn Fein leaders take pride in saying that thus far they have fought as the American colonies fought in their revolution. This suggestion brings to mind the immortal fields of Bunker Hill, Bennington, Saratoga, and Yorktown, where our men fought in the open. The I. R. A. has had no engagement to parallel any of these, as all of its chief operations have been conducted at night. Perhaps Sinn Fein has reference to the operations of Marion and others, who harassed the British forces after Tarleton, Cornwallis, and Benedict Arnold had laid waste whole countrysides in the south.

In repressing turbulence and pursuing the slayers of Irish constbales, the British have employed the "black and tans," who look very much like the strikebreakers that we sometimes see in America. Their record is well known. They burned a good part of Cork after some of their number had been killed in ambush.

The Irish Republican army does not fight battles in the daylight, but keeps in hiding in out-of-the-way places until nightfall makes it possible to gather and proceed to a distant spot where an ambuscade is to take place. A very dark spot in a deep, wooded glen is always preferred for an operation like this. A trench is put across the road to halt the British motors when they come, and the party then hides among the trees and undergrowth along the banks at either side of the road. When the English come up and are stopped by the trench, the Sinn Feiners proceed to shoot them from cover.

Atrocities of the World War Outdone.

In one of these affairs a party of seventeen English soldiers, all of them officers in the war with Germany, were killed, with the exception of one man who managed to

TEXAN BEGIN FIGHT FOR REDUCED RATES ON GRAIN SHIPMENTS TO GULF PORTS

By Associated Press.

HOUSTON, Sept. 2.—First steps toward the co-relstion of all opinions of shipeprs and others intended in the movement of grain through Texas to Gulf ports in regard to the proposed change of relatins between Atlantic and Gulf ports on grain rates were taken at a meeting held Friday morning at the rooms of the Houston Chamber of Commerce under the auspices of the Texas Chamber of Commerce.

The meeting was called as the resul; of the Interstate Commerce Commission granting permission to eastern carriers to publish a 7 1-2 cent reduction in grain rates from Kansas ity to Baltimore.

Following the granting of this permission, Gulf lines asked permission of the Interstate Commerce Commission to publish a reduction in rates to Gulf ports of only 5 1-2 cents instead of the 7 1-2 cent reduction granted the eastern lines.

The question has come up amonge th Texas grain interests whether they care to accept the new differential of eight cents or fight for the maintenance of the previous standard of ten cents.

It was the unanimous opinion of the meeting Friday that a co-related opinion of the Texas interests should be presented to the Interstat Commerce Commission. Prviously each individual organization has separately expressed its view to the commission.

MINERS IN TEXAS WILL ACCEPT CUT

DISTRICT PRESIDENT EXPECTS WORKERS WILL AGREE TO WAGE REDUCTION

By Associated Press.

FORT WORTH, Tex., Sept. 2.—Coal miners in Texas are expected to agree to lower wages and thus permit mining to be resumd, John Wilkinson, president of district 21, United Mine Workers of America, said here today. The executive committee of the district is meeting here to discuss an agreement.

Mr. Wilkinson said the miners probably would offer to work for less than $7.50 a day or $2.65 per ton contract, which the Texas operators say they cannot pay. The operators offer of $5 per day or $2 per ton contract was rejected by the miners several months ago and the mines at Thurber, Strawn and Lura, employing about 2,500 men, have since been closed.

H. Christopher of Iowa Park, is in a serious condition at the Wichita General hospital, following a shooting at Iowa Park late Friday, according to the report of attending physicians.

Willie Adcox, 12-year-old son of A. L. Adcox, restaurant proprietor of Iowa Park, was taken into custody by City Marshall W. H. King of Iowa Park shortly following the shooting.

The boy was later turned over to Sheriff Fred Smith and transferred to the county jail at Wichita Falls. A. L. Adcox, the father, also was taken into custody by Sheriff Smith, who visited the scene of the shooting, and removed to te county jail here. The shooting occurred in the restaurant owned by Adcox.

According to Sheriff Smith the shooting occurred about 5 o'clock Friday afternoon during the absence of Adcox, who left the restaurant in charge of his son while he attended to business in Wichita Falls. Another small boy whose name could not be learned, was reported by Sheriff Smith to have witnessed the shooting.

The Adcox boy, according to Iowa Park officers, was unable to give a connected narrative of the shooting and offered no explanation save that there had been a quarrel. Sheriff Smith asserted that there had been other quarrels between boys in the restaurant at other times. A 22-Calibre rifle was found in the restaurant with one exploded shell in it.

RECOVER BODY OF YANK CAVALRYMAN

SHOT TO DEATH WHILE MAKING ESCAPE BY JUMPING INTO RIO GRANDE

BROWNSVILLE, Texas, Sept. 2.—The body of Private Van Jones, 21, who escaped from the guardhouse at Fort Brown Wednesday night, was recovered from the Rio Grande half a mile below the army post today. It had five bullet wounds. Jones was being pursued by post guards when he jumped into the river and was fired upon. He was under sentence to Leavenworth prison for alleged desertion. His home was at Knox, Ind.

Unconfirmed reports from Mexican sources said two other bodies of American soldiers were found in the Rio Grande today fifteen miles above Fort Brown. An investigation is being made from Fort Brown.

TROOPS SENT INTO VIRGINIA TO DRIVE MALCONTENTS AWAY

MADISON, W. Va., Sept. 2.—The first contingent of federal troops reached here late tonight. With the exception of a guard, the men remained in the special train that brought them here.

Shortly after the arrival of the soldiers several men were seen to start in the direction of Clothier. It was believed they were sent here by armed bands for the purpose of reporting the arrival of the troops.

Madison is twelve miles from the Clothier-Sharples-Blair district.

By Associated Press

WASHINGTON, Sept. 2.—The war department set in motion today machinery to apply irresistible force to disorderly elements in the five mining counties of West Virginia, where labor disorders have smouldered into what officials term insurrection. By train from four army camps an expeditionary troop force numbering 2100 men was routed for separate destinations on the edge of the mountain country.

Brigadier General H. H. Bandholtz, the government's agent on the scene, has been designated to command the troops.

Behind the force is motion. Secretary Weeks said, were as reserves another 2000 men, and bombing airplanes which already have arrived in the disturbed area. President Harding's proclamation, formally putting McDowell, Mingo, Logan, Kanawha and Boone counties under martial law, is in the hands of General Bandholtz and will be issued at the discretion of Secretary Weeks.

The government's action in sending troops into West Virginia. Secretary Weeks said today, evidently had the approval of mine union officials, as well as the civil authorities of West Virginia, who had asked for them. He called attention to General Bandholtz's report earlier in the day that Phillip Murray, international vice president of the United Mine Workers, had joined in urging upon him the recommendation for troops.

"When railroads are closed up, and armed bands of men established themselves in the country march to and fro, overpowering resistance," the secretary said:

"You may call it what you please. We call it insurrection."

The Nineteenth Infantry from Camp Sherman and Columbus, Ohio, and the 26th from Camp Dix, N. J., which were the first to move for the scene of the disorders are provided with machine guns, Howitzers, radio and headquarters machinery, one pounders, specialists in gas warfare, as well as rifles, riot guns, automatic rifles and revolvers. The enlisted strength of the two organizations, according to the latest reports is 2100 exclusive of the personnel of the 88th light bombing squadron, estimated at 150 men. The 19th infantry was brought to field strength by replacements.

Reports Country Quiet.

By Associated Press.

WASHINGTON, Sept. 2—A report received at the war department tonight from Brigadier General Bandholtz in West Virginia said:

"Airplane reconnaissance upon return reported everything quiet throughout the disturbed area during reconnaissance. Other reports indicate that there was at least the usual amount of fighting during the day."

Officers of the war department familiar with martial law precedents and the policy of the administration, said the extent and duration of its existence in West Virginia, if declared, would depend largely upon the discretion of General Bandholtz.

It's primary object, it was explained, is the quelling of disturbance, and the reinstatement of proper and constituted civil authority in the disturbed area.

Unconfirmed reports from Mexican sources said two other bodies of American soldiers were found in the Rio Grande today fifteen miles above Fort Brown. An investigation is being made from Fort Brown.

GOVERNOR SAYS STATE POLICE NOT TO BLAME

By Associated Press.

CHARLESTON, W. Va., Sept. 2.—Governor Morgan issued the following statement bearing on the telegram sent to the war department last night by Brigadier General Bandholtz to the effect that it was believed the withthdrawal of invaders last week would have been achieved but "for the ill advised and ill timed advance movement of state constabulary on the night of August 27, resulting in bloodshed.

"The squad of state police that went to Beech Creek on the night of August 27, led by Captain Brockus, of the public safety department, did not enter that section to attack the insurrectionists, but to serve warrants on approximately forty individuals who were charged with attacking two state policemen and robbing them of their equipment several days prior to that date.

"For ten days these armed men had patrolled the roads and committed offenses against the peace and dignity of the state. They had refused to disperse even when requested by federal officers and when Captain Brockus made his entry down Beech Creek his force was attacked by these armed insurgents. When fired upon his force returned the fire.

"As governor of the state, I have insisted that these warrants me served and have so advised the leaders of the United Mine Workers. If efforts to serve processes in a legal and orderly manner result in riot and insurrection, it should not prevent the constituted authorities from making an honest effort to perform their duties. There must be enforcement of the law and armed resistance must be overcome, even if the presence of federal troops is requested to overcome those who are defiant."

LOGAN, W. Va., Sept. 2.—Heavy fighting on the west end of the Spruce Fork Ridge line was reported in an official statement issued by Colonel W. E. Eubanks tonight. His announcement added that toward the center some firing was in progress, but that to the east where Blair mountain is located, was quiet.

Sheriff Don Chafin late today permitted newspapermen to interview 3 prisoners taken by the Logan county forces who were brought here yesterday. They were John Stollings and French Hager, both of Logan county, and Clyde McGarvish, of Clancy, Ohio.

Stollings and McGarvish were arrested in the coal river coal field here last night and Hager was taken by a trooper at Sharples last Sunday.

Stollings asserted that he was returning to Logan from Boone county where he had visited his mother.

Forced to Fight

"I encountered a band of men who placed a rifle in my hands, tied a red band around my arms and forced me to march at the head," Stollings said.

According to McGarvish he had been working on horse creek, Boone county when word was received that the men at his camp should march to Logan and Mingo, or it would be "worse for them."

He added that he was given a pistol. When arrested, he said he was trying to escape from the front of a group of marching men going in the direction where firing was heare.

Hager, who said he was a union miner, made this statement:

Guarding Road

"I was informed by my local officials that the superintendent of the Boone county coal corporation wanted men to guard the plant. Together with several others I was patrolling the Charleston road when arrested." Hager who appeared to be about 16 years old, said that he had no idea there was to be a march to Mingo.

Stollings and McGarvish said they had learned "through union officials" that it was planned to organize the Guyan or Logan field and march to Mingo. Both added that "Mingo, I come creeping," and "swift" were pass words freely used by the armed bands.

Among the passengers were Mrs. John Gore, widow of the Logan deputy sheriff, who was reported from Logan as having been killed on Spruce Fork Rirdge Wednesday. She was suffering from a nervous collapse.

The wounded men were bound for Hansford, W. Va., to be placed in a miners hospital and refused to discuss events in the disturbed district other than to say that when they left there this afternoon fighting was continuing on Blair Mountain and was, if anything, more severe than at any time this week. OPENING OF ASYLUM NOT TO BE DELAYED

Opening of the Northwest Texas Insane asylum at Lake Wichita will not be delayed through the paring of the appropriation bills by Governor Neff, it became known Friday through a wire from the governor received by Representative Johnson.

The appropriations for this institution were only pared $15,000 by the governor's veto, the wire said.

Besides the salary appropriations made, the funds for this institution was placed in a contingent fund to be disposed of as the board of control deemed wise in the opening of the institution. The board of control expects to be able to open the asylum by October 1, or by November 1 at the latest, they have informed Representative Johnson.

Applications for a number of positions at the new institution, outside of the medical and scientific positions, have already been made by a number of Wichitans, it is reported.

The salary scales, while considerably under those prevailing in Wichita Falls, carry board and oldging, which brings the total remuneration to about in line with the scales prevailing here.

WASHINGTON FOLK ASK HIGH RENT FOR ARMAMENT MEETING

WASHINGTON, Sept. 2.—The attempt of some property owners in Washington to boost rentals on homes desired for the staffs of foreign delegates who will attend the disarmament conference was brought to the attention of the cabinet today.

In working out preliminary plans, chief of which relate to the problem of finding adequate accommodations for minor officials and clerical forces, cabinet members found that one owner of a house, for sale at $15,000 had demanded a monthly rental of $3,000.

Administration officials declared the incident showed "such a violation of the spirit that ought to be maintained" that it called for a cure by good sense of the people of Washington.

The conference, as an official explained it, is not "a lark." Washington committees are co-operating with the administration in the task of finding homes and it was said that the first case of profiteering might be handled under the District of Columbia rent control act, which congress recently extended until May.

NEW HORRORS WILL SHOCK WORLD IF IRISH RENEW WAR

(Continued from Page One)

escape. With only dead and dying before them, the Sinn Feiners proceeded to mangle some of the bodies with axes in a manner precluding description. A British surgeon who examined the bodies later testified that nothing he had seen in the world war had been quite so trying. The burning of Cork followed an affair of this kind.

With the event just described in mind, Mrs. Lindsay of Coachford, County Cork, a widow of 60 years saw preparations for another ambush one day when out driving in her car. She notified the military, the plan was frustrated, one Sinn Fein soldier was killed in the skirmish, and several others were hanged. Mrs. Lindsay was taken from her bed at 1 o'clock in the morning, and with her chauffeur was carried away to secret captivity. A few days ago the Sinn Fein minister of defense, Burgess, notified Mrs. Lindsay's sister that "stern necessity" had required Sinn Fein to shoot both Mrs. Lindsay and the cheuffeur. The two had been buried in one grave. Mrs. Lindsay was the eighth woman to suffer death at the hands of Sinn Fein. The Belfast papers denounced this act as worse than the execution of Nurse Cavell by the Germans, but the press of England, anxious to avoid reference to anything that might disturb negotiations, minimized the matter.

An English officer has been under sentence of death for some time, sentence having been passed at a Sinn Fein court martial at which he was of course not present. If the truce is ended, any Sinn Feiner is free to execute the sentence. The officer never goes out without a strong guard, but he is aware that unless he leaves Ireland he is doomed, if hostilities are renewed. This officer narrates some of his observations thus:

Living Persons Thrown in Quicklime.

"I have known persons not yet dead to be thrown into beds of quicklime. A family that had given offense by informing the military of Sinn Fein plans was rounded up for punishment. The women were compelled to strip, and sit astride a rail laid between two wooden horses. Their ankles were tied together so they could not get away. The male members of the family were also compelled to strip and line up near by. Sinn Fein riflemen then proceeded to shoot off portions of their persons until, having sufficiently mutilated their victims, they shot them dead." This story has not been verified, but is offered for what the reader may believe it worth.

The British commander of a military post told his wife at luncheon one day that she had better warn a neighbor woman to remove to safety her valuable old furniture, as her house had a flat roof and might be required later by the military for machine gun emplacements. That night a Sinn Fein party called at the house, drove out the occupants and tied them to trees, and then fired the house with all its contents. "Your house has a flat roof," the leader laconically informed the owner. A Sinn Finn servant had overheard the commandant's remark to his wife, and had informed the I. R. A.

Irish roads are still full of trenches, huge boulders, and pitfalls, and many bridges have been partially wrecked. These obstructions have not been removed during the truce, and are ready for the resumption of bushwhacking warfare.

We are told that if the English government concludes to resume operations, it is likely to employ regular army units in place of the "black and tans," and to seize and occupy hostile territory in a systematic manner. A cordon will be drawn around the Sinn Fein forces, if possible, and tightened until the I. R. A. is cornered. It can hardly be foretold whether Sinn Fein plans to fight in regular battle formation at any time, although it has been drilling and equipping its men diligently throughout the period of the truce.

The hearing is one of the series being conducted by Frederick S. Tyler, special commissioner, for the purpose of gathering evidence on which the supreme court will decide the location of the south bank of Red River.

Hearings on the Texas side are expected to begin next week, beginning at Boston, Texas, and continuing through each border community seat to Childress county, with the final hearing at Austin.

FIRE CAUSES LOSS TO HOUSE OF $300

Fire, belived to have originated from an automatic water heater, broke out Friday morning in the home of A. B. Patate, 807 Eighth street, causing damage estimated by firemen to be approximately $300. The chief damage, according to firemen was badly charred walls in two rooms and water damage to the contents.

A call for firemen turned in from the Majestic theater at 4 o'clock Friday afternoon revealed nothing more serious, firemen reported, than burned insulation in the motor to an electric piano, caused by a short circuit in the wiring of the motor.

WIFE TAKES HUSBAND'S ADVICE

And Is Made Well Again by Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound. For the first four months I could do but little work, had to lie down most of the time, and was very nervous, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."—Mrs. M. NATALE, 72 Fremont St., Springfield, Mass.

Sickly, ailing women make unhappy homes, and after reading Mrs. Natale's letter one can imagine how this home was transformed by her restoration to health. Every woman who suffers from such ailments should give Lydia E. Pinkham's Vegetable Compound a fair trial. It is surely worth while.

BRECKENRIDGE SPECIAL TRAIN RUNS SEPT. 22

September 22 was definitely set as the date for the Breckenridge excursion by members of the Chamber of Commerce committee in charge Friday. The date was set to September 22 in order to escape a conflict with the Style Show Week. The excursion, as previously announced, wil be a one-day excursion. The start from Wichita Falls will probably be made about 6:30 in the morning, reaching Breckenridge just before noon, leaving there at about 4:00 p. m. and reaching Wichita Falls just after 9:00 o'clock.

HANEY SAYS HE SPENT ENOUGH TO BUY A HOME

"I spent enough money in 20 years trying to get relief to buy a fine home and just to think of it, a few bottles of Tanlac have done for me what everything else failed to do," said John W. Haney, 808 Kentucky street, Dallas, Texas.

"Before I had stomach trouble I weighed 210 pounds and was the picture of health and as good a man physically as could have been found in Dallas. I ran down until I weighed only 155 pounds and was a mere shadow of my former self and got so weak I could hardly stand on my feet.

"I was just about as miserable as a man could be when I started on Tanlac and I can hardly realize it, although it is true, that I'm at last a well man. I enjoy eating now like I did when I was a boy and my digestion is perfect. I have gained back 20 pounds of what I lost and am gaining every day. There is no doubt in my mind that Tanlac saved my life and I feel I would be showing a spirit of ingratitude not to tell others about it."

Tanlac is sold in Wichita Falls by Miller Drug Store; in Electra by Tarlton Drug Store; in Burkburnett by West End Drug Co., and by all leading druggists.—Adv.

ANGORANS WITHDRAWN.

By Associated Press.

LONDON, Sept. 1.—Advices from Constantinople dated Wednesday say that the Angora government is withdrawing to the east as a result of the fighting between Greeks and Turks on the Turkish left flank.

PETITIONING RECALL OF CISCO JUDGE

CISCO, Sept. 2.—Voters of the county are calling for the resignation or removal of County Judge C. R. Starnes. This is an aftermath of the $4,500,000 road bond issue.

Cisco public schools will open as usual on September 12 regardless of rumors to the contrary. It is denied that the public school money was tied up in a closed bank at Eastland.

Farmers from various sections of West Texas are now coming in to this territory in search of cotton pickers. Three men are here and need forty-five pickers while there are many men riding freight trains who are refusing to accept this employment.

Further proof of a conspiracy to burn business houses and residences have been uncovered by the police. They found a house in Harreld addition, the floor of which had been saturated with kerosene and set on fire. Mayor Williamson believes that the ring of fire bugs is rapidly being stamped out.

OPPOSES USE OF NEGROES ON ROAD

COMMISSIONER SAYS USING CONVICTS THROWS WHITE MEN OUT.

Opposition to the use of negro convicts on the county roads was expressed Friday by J. P. Jackson, county commissioner from the Wichita Falls precinct. Mr. Jackson's objection was that the employment of the convicts in this work would throw out of employment several white men—the remainder of the greatly reduced force.

Mr. Jackson expressed himself, however, as in favor of the employment of the negroes in public work, pointing out that there was plenty of work of a character that they could do.

County Judge Jones said that while there are no arrangements in force for handling negro convict labor gangs, arrangements to do so could quickly be made should the vagrancy round up result in the arrest of sufficient negroes.

URGES CANADIAN PARLIAMENT END

LONDON, Ontario, Sept. 1.—A recommendation that the Canadian parliament dissolve at an early date to provide time for full discussion and election before the new year, was declared by Premier Meighan tonight to be, in his opinion, the proper course to follow. It was his intention, he said, to pursue that policy.

In the Alaska Gold Rush of 1902

When thousands of men rushed to Alaska for gold, it was necessary to ship in sufficient food to last through the long winter months. In such a climate, coffee, when packed in the ordinary way, deteriorates rapidly, but Hills Bros., who originated the vacuum process several years previously, were there with Red Can Coffee, packed in vacuum cans, insuring the Klondikers of having their coffee as fresh and flavory as when at home.

COTTON AND ITS ADVANCE.

The Record News never boasts. The Record News has been telling its readers that the cotton crop will be the smallest in many years.

The Record News has been telling its readers that before the close of the cotton year there will be a minimum supply to meet a maximum demand. Now the government has made its report.

Bears said that the report would show 50 per cent of normal but the figures are 49.3 being the lowest of record. This the estimate for the United States: 7,037,000 bales or a lint yield per acre of 127 pound.

These figures also indicate for Texas a total production of about 2,000,000 bales.

According to the government report everything seems to have gone wrong with the crop. Not everything. Seventeen cents was passed in all the active months in the contract markets while 17 cents or better is now quoted in many of the spot markets.

According to the cotton sharps there is a carry over in America of five to eight million bales, mostly of a very low grade. There is going to be a demand for cotton and 20 cents for the new crop would be worth more to the farmers than the 40 cents he received two years ago.

Then the American dollar had a purchasing power of 38 cents. Then labor dictated its own terms. Then the high cost of living made the cost of production climb to the sky.

There is money in cotton this year for the man who knows how to market it and there is a lot of cotton in West Texas and the Panhandle country.

BUSINESS IS BUSINESS.

Former State Treasurer John W. Baker is the active vice president of the State Bank at Breckenridge which has increased its capital stock from a hundred thousand to two hundred thousand dollars. There are bank consolidations everywhere and bank consolidations are a good thing for a thriving city. Boston is a financial center and in recent years many small banks have been taken over by large banks and powerful institutions are the result of the consolidations or the withdrawal from business of the small or the weak. Business is business.

Conversion of its engines from coal burners to oil burners at a cost of $2,000,000, is announced by the Missouri, Kansas and Texas Railroad. All divisions north of the Red river are affected. Contracts for a steady supply with a number of independent companies operating in the Mid-Continent are now being made. Annual consumption is expected to exceed 2,000,000,000 barrels and immense storage tanks will be erected along the line. Now why should the price of crude, home or foreign, remain at a dollar a barrel?

Governor Neff struck out entirely the contingent funds for the various eleemosynary institutions of the state amounting to a total of $277,500 for each year. This amount was tacked on in conference committee by the compromise which left in the bill the Pope amendment requiring that all funds not expended for the specific purpose set out be left in or be returned to the state treasury. Representative Pope won his place in the sun—that is the governor won it for him.

Federal government experts predict a crop of seven million bales of cotton. A Texan predicts a crop of 2,500,000 bales for the Lone Star commonwealth. Three weeks ago the number of bales stored in a Dallas concern approached 40,000; now there are but 23,000 bales. Old cotton appears to be moving. There will be a maximum demand before the cotton year is over and a minimum supply.

Reports from the Concho river country indicate that the drouth has been broken by an hour and forty minute deluge that totaled 3 1-2 inches. Stockmen and sheepmen are happy. There had been no rain during June, July and August and water supplies were very low. It was an old timer that said, "When it is dry in Texas it is as dry as hell, but when it rains in Texas, it rains like hell."

San Antonio is one of the twenty cities where milk is high. In the so-called "good old days" it was one of the twenty cities where beer was cheap but who wants to go back to the "good old days."

Houston received 200,000 bales of cotton in August. Hopkins appears to be a Gulf port city. Men and women made it a Gulf port city when they widened and deepened the channel for the coming of ocean liners.

GRANARY OF AMERICA.

According to a correspondent of the Dallas News so much wheat was raised in the Panhandle this year that hundreds of thousands of bushels are still piled loose on the ground for want of shipping cars and this despite the fact that harvest has been over about three weeks. The south and east sections of the Panhandle will soon be harvesting their row crops. Several million bushels of maize and kafir will be shipped to California points, where it is used as poultry feed, and vast quantities of it will be fed to hogs and cattle. Rains came just about right to mature these crops. This is not a prediction but the day is coming when West Texas and the Panhandle and the Plains country will be recognized as the fat granary of America.

MAN IS WISE IN HIS OWN CONCEIT.

We of America without unnecessary boasting have come nearer to civilized warfare than any nation.—President Harding. There can be no such thing as civilized warfare and the president added that he thought "it perfectly futile to think there never may be armed conflicts." Less than fifteen years there were millions of wise Americans who said that prohibition would never be tolerated by the civilized world. They said that woman's place was in the home and the ballot would never be placed in her hand. Well, prohibition is a permanent institution and the American woman is a full fledged voter.

There is a marked blief in official war department circles that the whole West Virginia situation is saturated with "rumora."—Washington dispatch. Sure the mine owners have their publicity agents and their gun men; the miners have their publicity agents and their gunmen. When a governor of a commonwealth admits that he cannot suppress lawlessness within the borders of his state, he should resign his office and make way for a real governor. A spineless politician is not a real governor.

Chief Justice William Howard Taft favors the appointment of 18 new federal judges, two for each circuit in the United States to take care of the increased business of the courts. Since the federal has been turned into a police court, there is urgent necessity for 18 new judges for the country at large. Very busy men are the moonshine makers and the boozerunners. Penitentiary life has no terror for them.

There will be no world wheat bread famine this year. According to the department of agriculture the world wheat production will be 76,287,000 bushels more than last year. Only a very small area was sown in Russia and now millions of Russians are starving. When they abolished capitalism in Russia with it they appear to have abolished industry. The harvest is in. It is famine and anarchy.

Chief of Police Fitzmoris of Chicago says the robbery of safety deposit vaults in that city was a frame-up. That it is was an inside job and trusted employes were in on the deal. An old prospector in Mexico remarked once on a time to the editor of the Record News, "Wherever there is oil there is hell." Wherever there is a robbery, there appears to be suspicion until the right man has been found.

We ought not to have a conflict like that which is going on in West Virginia. It is due to lack of understanding.—President Harding. Then disband and disarm the private gunmen who slay for pay. Then disband and disarm citizens of West Virginia who rely upon the gun and not the law to protect their inalienable rights. Make the law uppermost and the state the master.

Lake Cisco is to cost $5,000,000 and when the dam is completed it will form a lake eleven miles long and having a short line of 35 miles. Its capacity will be 15,000,000,000 gallons and maximum depth will be 150 feet. It is estimated that the dam will be completed in the spring of 1923. To build a city it is first necessary to provide an adequate water supply.

Lamar county farmers are paying cotton pickers fifty cents a hundred and the price is not likely to go any higher. This year every Lamar county farmer is well provided with feedstuff for his stock and corn and meat and vegetables for his own table. Last year many farmers depended on buying their supplies. Texas farmers are diversifying now.

Low shoes and short skirts will continue to reign in America.—New York dispatch. Let them reign. "Why should the spirit of mortal be proud?" And why shouldn't man attend to his own business? Man isn't compelled to wear a skirt and if he doesn't like the short one he can turn his eyes the other way.

Colonel Charles C. Cresson has been exonerated. He had nothing to do with the escape or the flight of Grover Cleveland Bergdoll. First the congressional investigators cover a man with tar. After the tar has hardened they exonerate him. He has no redress.

Governor Neff is reminded that there is a job for his rangers at Texarkana where masked men brutally whipped a railroad man and then ordered him to get out of town in six hours. Why should the written law be trampled in the dust?

During the month of August, Galveston broke the record for the amount of grain handled. Ships carried from the port almost 10,000,000 bushels of American wheat for foreign ports. Galveston is a real shipping port.

Neuces county farmers have marketed 55,000 bales of cotton this year and the crop will go to 65,000 in that county. They plant early, pick early, gin early and sell early in the coast country.

Governor Oliver H. Shoup of Colorado has appealed to sixteen other governors to join him in a reduction of freight rates. All the politicians keep their ear to the ground. They know the difference between a rumbling and a whisper.

There is another Texas Republican slated for a fat job. F. E. Scobey of San Antonio is to receive apointment as director of the mint when the vacancy occurs next year. How would you like to be an Ohio man?

Governor Neff made free use of his veto power. He "cut to the bone." Now what are the professional critics going to do about it?

LESS COUNTRY BUTTER MADE.

Production of butter on the farms in the United States in 1919 amounted to 707 1-2 million pounds, a decrease of 187 million pounds, or nearly 20 per cent from the production in 1909. At the same time sales of butter fat were 532 million pounds, an increase of 227 million pounds, or 70 per cent over the sales in 1910. The figures seem to show a decided decline in the practice of making "country butter." The amount of butter made on the farms that was sold, was 208 million pounds in 1919, a decrease of 207 million pounds or 50 per cent from the figures for 1909.

Rippling Rhymes
By WALT MASON

GUNMEN.

The guys who'd kill us are running loose; they plug and drill us without excuse. Their guns are cracking throughout the land, the stiffs they're stacking to beat the band. When darkness gathers the gunmen rise, and shoot our fathers and other guys; they rise by dozens, a grisly crew, and shoot our cusins, and nephews, too. Their ways don't suit us, they jar our souls; they come and shoot us, then take our rolls; if they'd just rob us we might not care; alas, they mob us, with guns to spare. The bullets drizzle along the road; the law's a fizzle, cops buffaloed. The law seems able to cinch the gent who, at his table, drinks two-per-cent; it brings disaster to that poor cuss who fast and faster propelled his bus; with paltry muckers it fills the jails; it catches suckers and misses whales. The gunmen scamper, and crime is rife; they put a damper on modern life; their tribe increases, like fungus plants; they shoot our nieces and eke our aunts. I fear to travel around a block, lest shot and gravel give me a shock. In nooks and crannies the gunmen crouch, and shoot our grannies—and hence my grouch. —Copyright by George Matthew Adams.

MAINLY ABOUT PEOPLE

(Continued from Page One)

1920-21 Bexar county schools received from the state under the state aid bill a total of $3230. In the same period the county paid $112,000 to the state fund. In other words, according to Judge McCloskey, the county lost $108,770. This loss was sustained under a total appropriation for the state of $2,000,000 and the estimated loss for the next two years is proportionate to the reduction made in the coming appropriations. If the distribution of the money were made on the basis of scholastic population, Bexar county would have received $77,780, Judge McCloskey states. This would have been an additional $74,556. Dallas, Harris, Tarrant, Wichita and all other large counties are suffering the same injustice," declares Judge McCloskey. "There are 120 counties in the state that pay all the taxes. Eighty-eight of those counties then live off of what is collected." Judge McCloskey assigns as a cause for the discrepancies not that other counties are poorer than Bexar, but that they do not make an honest valuation of their property. As a consequence, they are forced to call upon the state to aid their schools. They have found that they can call on the legislature, he says, and are making use of that opportunity. H. N. F. is for the education of all the children of all the people but there are thousands of well-to-do parents in the rural districts who are willing that the property owners in the large cities and populous counties of the state should furnish most of the money for the education of their children. Is it just?

Abilene is the home town of Democratic Simolicity Blanton. It is the home town of the editor of the Daily Reporter. He reports as follows: "There is more going on in Abilene today than in any other dozen towns in West Texas. Conditions in Abilene today are better than in any other dozen towns in West Texas all put together. There is more genuine activity in the construction of permanent buildings and institutions including business houses, school buildings, industrial plants, municipal enterprises, churches, college buildings, public service utilities, residences and street paving, than in any other six cities in the state the size of Abilene combined." It is better to sing than to weal; better to laugh than to cry; better to smile than to sneer; better to move than to stand still; better to work than to grouch; better to fight than to run; better to hurl flowers than to brain people with brickbats. Abilene is on the map and neither grouches nor pessimist had a hand in placing Abilene on the map. Workers built Abilene and workers are the world winners. This is as it should be.

Chief Justice Nelson Phillips of the Supreme Court of Texas has ever opposed fundamental changes in American institutions. This conclusion of a recent speech delivered by the noted jurist and democrat may interest the reader: "The aftermath of the Civil War was the attempted and well-nigh accomplished centralization of governmental power. The aftermath of the European War, we find to our dismay, is the attempted socialization of the individual citizen. If the philosophic historian, Lecky, wrote, nearly twenty years ago, that we were living in a period of 'Tudor regulation of industry and almost Oriental exaggeration of the powers of the states,' what would he say now of the increased tendency of the time toward the subjection of all men to petty state servitude and paternalism and all industry to complex state regulation and control. Against this creeping, threatening thraldom the American spirit to my mind, cries out in indignant and defiant protest. The specious and subtle doctrines by which it is sought to lure us to this deadly embrance are of foreign birth. They tempted and seduced the ancient nations, and through them great peoples sickened and died. They are alien to every American tradition. They mock the sacrifice, the heroism in which the American Republic was founded, and the hard and honest toil by which it has been builded to its present splendid proportions. They are an assault upon the integrity of American life and American law, and imperil the freedom that American life and American law represent, and for the happiness and repose of the world must continue to represent to generations yet unborn." Judge Phillips could have been governor when James E. Ferguson tossed his hat into the ring. He was the choice of the leaders of the two wings of the democratic party in existence at that time. Phillips said the people had elevated him to the highest office in their gift and he would not desert the bench. He was later urged to become a candidate for the senate. His reply was the same. He is for the fundamentals of democracy and for American institutions as they were created by the fathers. Regardless of this prohibition is an established, as well as permanent institutions and the ballot has been placed in the hands of women for all time. Revolutions never go backward.

NORRIS RETURNS TO FORT WORTH AFTER VACATION

FORT WORTH, Sept. 1—The Rev. J. Frank Norris, pastor of the First Baptist church, returned last night from a ten weeks' visit to California. He was accompanied by Mrs. Norris and their four children.

The Rev. Mr. Norris stated that while away he had preached in a number of the largest churches on the Pacific coast. He also gave a series of addresses to the Baptist Young People's assembly at Switzer canyon. He said that he spoke at different places practically every afternoon and night except when traveling.

He will celebrate his thirteenth anniversary in Fort Worth Sunday. At the morning service he will discuss the plans for the year.

He stated that he met the Rev. Bob Schuler, pastor of the Trinity Methodist church in Los Angeles, who was formerly of Texas, and better known as "Fighting Bob," and that he was doing wonderful work.

Local politicians are asking of Norris will take a hand in the recall row now on. Ionna Ridgeway, who was ousted from the office of city attorney for alleged incompetency, is a personal friend of the "Fighting Preacher." There are men in this city who say openly that Norris dictated the appointment of Ridgeway. Mayor E. R. Cockrell, who appointed Ridgeway, voted to cast him out. More than 6,000 names are attached to the recall petitions. A well known banker and cattleman is said to have been the financial agent and a well known attorney the directing head of the recallers. Ever since Ridgeway was bounced the political enemies of Mayor Cockrell have been saying, "Just wait until Frank Norris gets back." He is back.

Dear Mister Bescher, All Us Fans—Are Full O' Faith Unshaken—But Take That Ol' Leg Out O' Hock—And Start Them Cats A-Quakin'.

SKIPPER SALM LOSES HIS SPUD, SO THE SPUDS CAN'T SPUD IN, AND THE CATS DEFEAT 'EM 6-1

By C. F. CARTER

The Spudders didn't even spud in yesterday. With a large crowd on hand waiting to see the new well started, and with fond hopes that it would prove a gusher, Head Driller Walter Salm lost his spud somewhere. We never saw a spud, and if one spoke to us on the street we wouldn't answer unless we had first been properly introduced—but whatever a spud is, the Spudders didn't have it yesterday. So the crowd drifted over to the adjoining acreage and watched the Fort Worth Cats bring in a 6 to 1 shot.

The Fort Worth well won't hold up, however, in the opinion of wise oil men, who expect the initial flow to be considerably reduced within a short time and who have little hope that the 6 to 1 shot will pay any dividends.

Nope, the Spudders lost their spud somewhere, and Rube Marshall lost everything. After the game got well under way Rube couldn't remember anything except the size of his shoes, there being no others in the south that large, Rube couldn't forget that. But he forgot his cunning, and his speed and his change of pace—and the Cats sucked his shoots right merrily.

Paul Wachtel on the other hand simply spat ferociously upon the Salmites. He had that saliva-coated pill performing many and various strange leaping, twisting, scaling, shooting, slanting antics—and the Spudders only hit it safely, four time; and when you can't hit 'em you can't win 'em.

One ray of glorious sunshine still peeps through the clouds that settled o'er that second loss—THE SPUDDERS CAN LOSE ANOTHER TODAY AND STILL HIKE OUT OF FORT WORTH LEADING THE TEXAS LEAGUE! And/personally, if you ask our humble opinion, which we realize isn't worth a hill of beans, we will arise to state emphatically that the Spudders ain't gonna lose today. They're going to win that old ball game this afternoon, get an even split in the stockyards city, and go on their way pouring it on Dallas and Shreveport.

Red Falls to Hit

Red Josefson held down a regular berth in right field yesterday, and occupied the lead-off position in the Spudder batting order. While Red handled three chances perfectly in the outfield, his ancient power with the bludgeon was sadly missing. Red couldn't gather a blow; he went to the plate four times, grounded out twice and fanned twice. We know not why, we only state what is; Red couldn't hit 'er, that was all—and neither could anyone else for that matter.

The Cats hopped on Rube Marshall in the third frame, and shoved two runs over before the Reuben came to earth. Rigney led off with a single to left, and went to second on Haworth's sacrifice. Paul Wachtel singled to left scoring Topper, and going to second on the throw to the plate. Chink Taylor flied to Josefson in deep right, and Wachtel reached third after the catch. Ziggy Sears soaked one to left for one-base, scoring Wachtel. Stellbauer lined out to Jo in right.

With Wachtel's big Maryland right arm cutting 'em over viciously, that two-run lead looked mighty big—but the Spuds reduced it a little in the fifth, when Clark led off with the first Spudder hit of the game, a single to center. Jake Miller planted a two-bagger in right field, and Danny moved on to third. Haley threw out Allen, Danny being unable to advance. Wachtel got two balls and two strikes on Caddy Works, and Salm yanked him, sending in Jack Johnston to bat.

Jack grounded out to Dutch Hoffman, Clark scoring. Kitchens had a chance to be a hero, but shot a grounder to Haley and was thrown out at first.

Cats Land on Rube

And then the Panthers rose in their wrath in the sixth frame and annihilated Rube. Stellbauer lined out to Clark. Kraft singled to left, and Hoffman singled to right. Haley singled to center and Kraft scored. Rigney also singled to center, Allen made it worse by fumbling the ball, and both Hoffman and Haley scored and Topper went to second. Haworth grounded to Johnston, but was safe and Rigney scored when Rube dropped Johnston's throw to the bag. Then Rube finally descended, got both feet on the ground and struck out Wachtel and Taylor.

Jim Sewell hurled the seventh for the Spudders and turned the Cats back scoreless and hitless. Bescher hit for Uncle Jimmy in the eighth, and Abe Bowman hurled that frame against the Cats, retiring them in order.

ALL RIGHT. LET'S GET TOGETHER NOW, GANG, AND GO FROM HERE. DON'T WEAKEN.

TRAPSHOT CHAMP COMES TO THIS CITY FOR NEW GUN STOCK

R. A. King, of Delta, Colo., state trapshooting champion of Utah, Colorado and Wyoming, holder of two world records and only recently winner of the national amateur championship at the grand American handicap events in Chicago, knows a good town and a good gun-maker—and therein lies a tale.

King, who for several months was in the oil business here and was a member of the Wichita Falls Gun club, bobbed up in this city two days ago and headed into the Little Sporting Goods store. He didn't stop until he reached the gun-room in the rear—and then he grabbed Hunter W. Dempsey, gun-maker, by the flipper:

"Hunter," he said, earnestly, "you've got to make a gun stock for me. I've been traveling all over these United Statese lately, shooting here and shooting there. My old gun's gettink shaky, and she needs a new stock. But I can't find a gun-maker with a new idea, and you've got to help me out."

King and Dempsey put their heads together, and after a couple of hours of planning, figuring, measuring and desinging, King grabbed his hat:

"Im headed for Colorado," he said. "You've got 'er, Hunter. Make it just like that, and ship it to me. That ought to be the baby!"

All of which is quite a feather in the cap of Hunter Dempsey, who is generally recognized as one of the best gun-makers in the country. Local shooters, remembering King's former connections with the gun club here, have been bragging considerable of late regarding the Coloradoan's shooting. In the Colorado state shoot at Denver last July he broke two world's records with 99x100 singles, and 195x200 doubles, while he hit the pinnacle of trapshooting fame in Chicago a week ago when he won the national amateur crown with a high average over all.

UNIVERSITY CLUB AND SUPERS PLAY 2-2 TIE

The University club and Super-Six teams of the Twilight league battled six innings to a 2-2 tie last evening at Athletic park, the game being called at the end of the sixth on account of darkness. Both "Sniper" Conley for the University Club and Wolf for the Supers hurled nice ball, infield errors figuring in the scoring of both teams.

DOWNEY READY TO PROVE HIS VICTORY OVER CHAMPION WILSON WASN'T FLUKE

Champion Bryan Downey exercising on the weight machine at Grupp's gym, New York, and inset of Johnny Wilson.

Bryan Downey, generally recognized as middleweight champion because of his knockout victory over Johnny Wilson in Cleveland a short time ago, is showing his sportsmanship by giving Wilson a chance to regain the title and prove his claim that he was "robbed" of the title. The pair meet Labor Day at the Jersey City arena where Dempsey dropped France's hope. Downey says: "I'm going to lick him again. That ought to end the dispute, hadn't it?" Wilson is equally confident of winning.

The Airdome fans are making a great struggle with their ballets these days in the effort to give Jake Miller an outfield berth on the all-star Texas league team. SPUDDERS vs. CATS

At 4 P. M.

Plaza Airdome

"We Pull 'Em Over at the Airdome."

WISDOM and WORSE

By C. F. C.

Say, it certainly must be tough when a feller's far away from home and can't get any news regarding the Spudders. Here's a letter just arrived from E. W. Williams, stranded 'way off in Wellington, Kan., and desolate 'cause he don't know the details of how the Spuds have been pouring it on 'em. Listen to E. W..

"I wish to ask a favor of you if it will not inconvenience you. Will you please send me the last twenty issues of The Record News, as I am very much interested in the outcome of the baseball series. The Kansas papers give no Texas league news whatever, except the scores.

"I saw Barney Burch and his men play at Wichita, Kan., a few days ago, but Barney is slipping now. He has a dandy pitcher named Orkie, who is just like Holly—almost.

"Send twenty papers, and if you can't send what you can. I will appreciate it very much if you will send them at once.

"Here's hoping you win the pennant and bring the howl out of the Cats, for I am still a Spudder rooter if I am away from home. Thanking you for the favor, and also wishing you luck in the serier, I remain as ever, A Spudder Rooter."

And did we send him the papers? You're darn right we did, the poor lonesome devil Doggone, but the Spudders CAN'T lose with support like that; everyone at home pulling for 'em, and all the old boys away from home thinking about 'em all the time!

The more we read Bill Ruggles's occasional baseball comment, the more we admire the honesty and fairmindedness Listen to this from Ruggles' typewriter, printed in yesterday's Dallas News:

"If Wichita Falls wins the flag, the club deserves all the credit in the world for an achievement under extraordinary difficulties. Playing on the road almost the entire last half of the second series, the Spudders will have accomplished an unheard of feat in Texas league company."

But you'll never hear the boys in Fort Worth speaking in the same square manner about the Spudders if our gang cops the flag. At least, we don't think so; we expect nothing but alibis for the failure of the Cats to win.

Doak Roberts, president of the Texas league; Walter Salm, Will Gray, Paul La Grave and Jakey Atz, were supposed to meet yesterday in Fort Worth to determine the conditions of the play-off between the Spudders and Cats should it be necessary—as all of us here believe it will. Doak Roberts called the meeting, so we reckon Prexy Roberts also has a hunch the Spuds are going to grab the second half.

To quote Bill Ruggles again, "Wichita Falls may not win this year's Texas league pennant, but it will not be because the Spudders' owners are leaving any stone unturned in their efforts to finish in front. Since the lid was thrown off, and there is no longer a player limit, the Spudder roster sounds like the muster roll of a regiment."

The Spudders have 22 men on the bench in Fort Worth as follows: Hollingsworth, Marshall, Bowman, Ramsey, Dorough, Knadler, Sewell, Kitchens, Bischoff, Wilson, Works, Clark, Tanner, McDonald, Gross, Bescher, Miller, Allen, Griggs, Josefson, Johnston, McElwee.

The Rev. J. R. Perkins, formerly warden of the Iowa state penitentiary, has made a sporting survey of the "pen" and has found only 2 men out of 500 who ever played tennis. Golf has driven many a man to drink, but tennis is the first sport, apparently, the playing of which guarantees freedom from the calaboose.

Jess Willard has started training for a prospective bout with Jack Dempsey; says he will "scale his present weight of 265 down to 238, his weight when he lost the title to Dempsey." Why should he be so darn proud of 238?

Jim Thorpe, according to the Associated Press, will again organize a professional football team this fall, following the close of the American association fseason. Games will be staged in the Toledo, O., baseball park—and we rather reckon one Cecil Griggs, 'Gene Leopold's baseball man, will be Jim's running mate in the backfield of the big Indian's eleven.

The fans in Dallas probably don't care particularly who owns the Marines; but if 1922 finds a new hand at the helm the Dallas fans will most positively insist that no hurlers of Mutt Williams' class are sold in the middle of the season!

YANKEE NET STARS TAKE FIRST ROUND

FOREST HILLS, N. Y., Sept. 2.—Possible prospects that the Davis cup, emblematic of the world's tennis championship, might travel to Japan this fall received a decided setback on the courts of the west side club here this afternoon when American defending players won two straight matches from their Japanese challengers.

William M. Johnston, of San Francisco, national champion in 1915 and 1919, defeated Ichyia Kumagae in straight sets at singles by scores of 6-2, 6-4, 6-2. Williams T. Tilden II, of Philadelphia, present American title holder had a far more difficult task in subduing Zenzo Shimidzu in a five set battle by scores of 5-7, 4-6, 7-5, 6-2 and 6-1.

Tmorrow Watson M. Washburn of New York and R. Norris Williams of Boston, the American doubles team will play the same Japanese players in the third match of the challenge round. A victory for the American pair would mean the retention of the cup, won in New Zealand last winter, as three victories out of five matches are required under the rules. Johnston's defeat of Kumagae was the result of far more perfect and convincing tennis than that shown by the present champion against Shimidzu.

Poet Warns "Jelly Beans" That Auto Flirting Must Come to End

A poetic warning to "jelly beans" and others who make light with women and girls to be "on their toes" or expect to meet retribution, was delivered by messenger to The Record News Wednesday.

"The writer gives this warning on the best of authority," the messenger said. "He has been holding it for two months until final plans of action were completed."

The warning follows:

Auto flirts beware, in approaching the fair,
I've heard there's a movement begun.
To eliminate public flirts in the state,
To stamp out your illicit fun.

'Tis a daily sight, we can see every night,
You vultures of prey ride about,
In your motor car, rank seducers you are,
Some woman you try to coax out.

You think you are wise, but look out a surprise,
I have heard is in store for you.
When in lobbies talk, heed your listeners take stock
For your boastful assertions you'll rue.

Have any of you, a mother, sister, too,
Who in reverence you hold dear.
Should they on the street, some evening your kind meet
For instance, say that you were near.

Now what would you do, I will leave it to you,
If a man I know you would fight.
A hint to the wise may save you a surprise,
Wrong never can overcome right.

Don't think that your kale gives you plenty of sail.
To tread where true manliness shuns.
You think it is smart, just to ruin a heart,
The way that a villain's mind runs.

Now every mother, does it to you occur,
Teach your daughter and son to do,
The things that are right, all that's evil to fight,
Thus diverting disgrace from you.

Of course we all know, everywhere that we go,
That vile wickedness seems to reign.
The good book does state, to the wicked their fate,
The wicked are going to be slain.

As I said before, auto flirts there is war,
A hovering and lurking close by.
So if you know aught, use your brains made for thought,
May save you trouble by and by.

I think I've been fair, so be wise have a care,
True Americans fight for right.
Fathers, husbands, too, and brothers will get you,
When you're auto flirting some night.

—By The Farmer Poet.

TOO HOT FOR COTTON PATCH, NEGRO SAYS

"Boss its jes' too hot in thuh cotton patch foah me to work theah now" R. H. Thurston, cotton grower of Frederick, Okla., declared Friday afternoon at the city police station was the reply received a few hours before when he offered a strapping negro a job picking cotton.

"The negro was loafing around a shack in the Flats district and apparently was entirely without occupation of any form," Thurston said.

Mr. Thurston said that cotton was beginning to open rapidly in the section west of Frederick and that prospects pointed to a heavy crop in that particular section. He said that farmers there are offering 75 cents a hundred for pickers.

Police Chief Morgan again Friday repeated his instructions to patrolmen to arrest every idle negro caught on the streets, declaring that "It may be too hot for a "broke" negro to earn an honest living in the cotton patch, but maybe he can earn it working for the city."

About twenty have been rounded up by the officers and escorted to the city jail to explain their means of livelihood to the police chief since the campaign to rid the city of idle negroes was instituted by Chief Morgan.

Officers Hackney and Belcher, who patrol Lake street beat, declare that the move is already having some effect and that numerous negroes, who hitherto have attempted to live in soft handed idleness have taken a "sudden interest" in getting a job.

BRADSTREETS REVIEW.

NEW YORK, Sept. 2—Bradstreet's tomorrow will say: Jobbing trade reports are much more cheerful, especially from the south and west and this access of optimism seems to have had a fairly good basis in a large volume of trading for nearby fall account. In addition the industrial situation is regarded as having improved somewhat, several important cities not a reduction of unemployment. There has been a quite marked upward surge in prices of raw cotton and cotton goods, grain marketing has been free, with exports heavy, and there is a rather better trend to late crop reports, cotton excepted. The stock market has continued to display indecision, but foreign exchange rates have generally ruled stronger and the bond market has shown a little more life. Retail trade is rather inactive, as is not unusual at the close of a summer season.

Weekly bank clearings $5,397,940,-000.

BULLS AGAIN HAVE COTTON AIRPLANING

By Associated Press.

NEW YORK, Sept. 2.—The influence of yesterday's bullish crop report continued the dominating factor in cotton. There was heavy realizing for over the three day adjournment at the times reactionary sentiment was much in evidence. Offerings were absorbed of comparatively moderate reactions, however, and prices made new high records in late trading when December made 18.30 compared with 17.38, the low point of the day. That delivery closed at 18.20 with the general market closing strong at a net advance of 52 to 68 points.

The market opened strong at an advance of 26 to 40 points on overnight buying orders and soon showed net advances of 50 to 62 points. There was a good deal of reactionary talk around the ring and probably some selling of that sort as well as heavy realizing for over the holiday's. This checked the advance and caused reactions of 40 to 50 points but there was heavy buying for Liverpool and continental trade account which helped to absorb offerings and the market turned very firm again during the afternoon. There seemed to be a feeling that the foreign trade buying might be continued in the Liverpool market while the futures markets here are closed on Monday while the late advance was also encouraged by bullish spot advices from the south and reports that the war finance corporation had arranged further loans to finance export cotton. October contracts sold up from 17.40 the low point touched on the reaction to 18.00 and January from 17.65 to 18.27 and the close was within a few points of the best.

Rather better weather was reported in the southwest, but without attracting any apparent attention. Advices from the goods trade indicated more or less confusion.

LIVERPOOL SPOTS.

By Associated Press.

LIBERPOOL, Sept. 2.—Spot cotton in fair demand; prices, strong. Good middling, 12.15; fully middling, 11.70; middling, 11.30; low middling, 10.50; good ordinary, 9.50; ordinary, 8.75. Sales 15,000 bales, including 7600 American.

COTTON TRADE AT STAMFORD VERY ACTIVE

STAMFORD, Texas, Sept. 2.—The cotton situation is very good and yesterday 17.25 was paid by J. E. Raines for good middling. Receipts of the yards yesterday were 55 bales and there were more than 75 bales on the streets.

The Pev. Dr. Martin will be here until September 7. Ezra Jacks has had a good choir and the music during the meeting has been of the best. John Hogan chaperoned Dr. Martin and Mr. Jacks to the Swenson ranch near Throckmorton as the revivalist and the singer expressed a desire to go over the place.

Stamford has a negro woman who has sixteen children and seventy grand-children. Her mother was the mother of twenty-six children.

Highjackers are becoming bolder. They cracked the safe of the Stamford Grocery last night and secured $52 in cash. A roll of bills in the safe was overlooked.

Urban H. Morgan has severed his connection with the Stamford Leader and will locate in Colorado where he will engage in the printing business.

S. J. Spratlin of Lueders brought the first and the largest bale of the season in and sold it for 14.10 cents per pound. The bale weighed 596 pounds.

Fire which started near the X ranch pasture burned over about 15 sections of grazing land. It was nearly to Bluff Creek before it was checked. Many Leuders people assisted the ranchmen and farmers to check the fire.

J. H. Morrow for a number of years a resident of Anson died at Houston last week. His parents and brothers are residents of Stamford.

A terrible wind and hail storm accompanied by torrents of rain visited this section Thursday and had a most beneficial effect on the surrounding country.

H. T. Hodge has purchased the Alcove Theater and will make Stamford his home. Former Manager Acuff goes to Merkel to engage in the movie business.

Stamford has invested $17,500 in a new fire fighting machine for the protection of life and property.

E. A. Bean has killed more than one hundred snakes from rattlers of the monster size down the line since he moved on the place that he now owns sixteen years ago, or ten rattlers a year in addition to the rattlers that he has slain Bean has averaged ten coyotes a year.

It is predicted by experts that the cotton crop is about one-third short in Jones county but the fall rains may make the yield higher.

The city council has ordered an election to be held on September 6 to issue bonds in the sum of $125,-000 for the completion of the city water works system.

REDUCTION IN SHORT ACCOUNT BOOST PRICES

NEW YORK, Sept. 2.—Further extensive reductions of the short account was recorded in the stock market today with resultant gains of one to three points among leaders and more substantial advances in special issues.

The cautious attitude of the bear faction seemed to be prompted by fear that events over the triple holiday might prove detrimental to their interest. Prices suffered a sharp setback at the outset, Mexican oils reacting one to three points on advices which suggested a pitch in the negotiations now under way between the Mexican government and foreign concessionaries.

This was offset however by the strength of other oils, as well as steels, equipment, motor, leather, tobacco sugar, shipping and chemical issues, rails also throwing off their recent heaviness. Many substantial gains marked the close.

Call loans again held at 5 1-2 per cent. Quotations for time money were unaltered, but in freer supply, with some demand for commercial paper.

A reaction of almost four cents in sterling and declines of the five to thirty points in continental remittances occasioned no surprise.

Trading in bonds diminished, but without impairment of the recent gains. Recognized domestic and foreign issues were firm and gains prevailed in the liberty group.

WHEAT PRICE SUFFERS LOSS ON PROFITING

CHICAGO, Sept. 2.—Closing of spreads between this market and Winnipeg the selling operations being at this end, together with considerable profittaking sales extended a weakening influence on wheat today and final prices were at the bottom with net losses of 1 1-2 @ 1 3-4 for the day. The close was weak with wheat 1 1-2 to 2 lower, corn 1 to 1 1-4 down and oats 3-8 to 1-2 lower.

Corn advanced early only to react later to under yesterday's final, large country offers and hedging sales being a factor, combined with a drop of 1-4 @ 1-2 in premiums in the sample market.

Oats were stronger earlier and lower later with other grains. Provisions averaged higher with the bulk of trade in lard.

D., 1921, the same being the 3rd day of October, A. D., 1921, then and there to answer a petition filed in said court on the 26th day of August, A. D., 1921, in a suit numbered on the docket of said court No. 11469-C wherein Lucile Durman is plaintiff and William L. Durman is defendant and said petition alleging that plaintiff was lawfully married to defendant about February 10, 1919, and continued to live with him as his wife until the latter part of June, 1921, at which time defendant wilfully left plaintiff without just cause on her part. That plaintiff at all times conducted herself with propriety, and treated defendant with kindness and forbearance. That defendant has disregarded the solemnity of his marriage vows and has been guilty of extreme cruelty and inhuman treatment of such nature as to render their further living together insupportable. That on numerous occasions he has cursed her and slapped her. That one child, a baby boy now 18 months old was born to this union.

Wherefore plaintiff be cited in terms of law to appear at the next regular term of this court and answer herein, for judgment dissolving the marriage relation now existing between them, for absolute divorce from defendant and for the care and custody of the minor child, William A. Durman, and for such other and further relief, special and general as she may be justly entitled to.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said court at office in Wichita Falls, Texas, this the 26th day of August, A. D., 1921.

That, heretofore, on the 17th day of September, 1919, the plaintiff, Frank L. Dittmeier entered into a contract in writing with the defendant, George E. Smith, a copy of which, marked "Exhibit A," is attached to plaintiffs' original petition and expressly made a part thereof; that under the terms of said contract the plaintiff, Frank L. Dittmeier agreed to purchase an oil and gas lease covering the south five acres of the west 10 acres of the south 30 acres of the north 60 acres of the A. A. Morgan tract, adjoining Block 71, Red River Valley Lands, Wichita County, Texas, and the defendant, George E. Smith agreed to drill two wells for oil and gas on three acres of the above described 5 acres of land and to furnish all machinery, tools, material, fuel oil, water, and labor to complete said wells in full, agreeing to pay for all of it, and that same would be first class in every particular, and that he would complete said well fully to tankage without cost to Frank L. Dittmeier, and as a consideration therefor said George E. Smith was to receive 7-16 of all oil and gas produced from said premises; that plaintiff, Frank L. Dittmeier performed his contract and executed and delivered to defendant George E. Smith an assignment of 7-16 interest in said oil and gas lease, a copy of which, marked "Exhibit B," is attached to plaintiffs' petition and made a part thereof.

That on November 21, 1919, plaintiff, Frank L. Dittmeier and defendant, George E. Smith, entered into a contract in writing, a copy of which, marked "Exhibit C," is attached to plaintiffs' petition and made a part thereof, under the terms of which defendant, George E. Smith agreed to drill two wells on the south 2 acres of the above described 5 acre tract; said 2 wells to be drilled and completed by defendant George E. Smith wholly at his expense and upon completion of the second well the plaintiff, Frank L. Dittmeier agreed to pay him $5500.00, and upon completion of said two wells to make an assignment of an undivided 7-16 interest in all oil and gas that may be produced from said two acres.

That on February 10, 1920, plaintiff Frank L. Dittmeier, together with George Grassmuck and E. P. Peers, sold and assigned to defendant George E. Smith, the remaining one-half interest in said oil and gas lease as to the entire 5 acres in consideration of $225,000.00, of which amount $50,000.00 was paid in cash, the balance of $175,000.00 to be paid out of 7-16 of the oil produced and saved from said premises, a copy of said assignment being attached to plaintiff's petition, marked "Exhibit D," and made a part thereof.

That defendant George E. Smith has wholly failed and refused to carry out and perform the several terms, conditions, and stipulations of said contract and assignments hereinabove mentioned, notwithstanding that plaintiff Frank L. Dittmeier and his successors in interest have in all things carried out all the terms, conditions, and stipulations of said contract and assignments and have made frequent and repeated demands of the said George E. Smith and his successors that the terms be carried out and performed.

That said oil and gas lease and leasehold estate is now owned by the plaintiffs herein as the successors in interest of said Frank L. Dittmeier who owned said oil and gas lease at the time of the execution of said contracts and assignments.

That since the execution of said contracts and assignments the defendants Humble Oil & Refining Company, McBest, J. B. Robertson, A. A. Brashear and Frank Dunlavy, composing the firm of Block 818 Water Co., Sioux Oil & Refining Co., G. B. Runnels and J. H. Runnels, composing the firm of Runnels Brothers, Producers Supply & Tool Company, J. F. Darby and Walter K. Campbell and George W. Snedden, composing the firm of Western Oil Corporation, J. H. Enreli and R. D. Ragan, composing the firm of Enderli & Ragan, W. T. Walton and V. E. Hutchings, composing the firm of W. T. Walton & Co., Fort Worth Well & Machinery Supply Co., and the First State Bank of Iowa Park, Texas, have been asserting some claim or interest in said oil and gas lease, the exact nature of which is unknown to plaintiffs, but said claim is inferior and subject to that of plaintiffs herein.

Plaintiffs pray that defendants be cited in terms of law to appear and answer herein, for judgment cancelling and rescinding said contracts and assignments herein referred to, for the title and possession of the oil and gas lease and leasehold estate as to said 5 acres, for cost of suit, such other and further relief, general or special, in law or in equity, as they may be entitled in the premises.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said court, at office in Wichita Falls, Texas, this the 31st day of August, A. D., 1921.

ASKS POLICE TO NOTE ALL WITNESSES

"Carry a loose leaf note book and list the names of witnesses and evidence known in connection with every arrest you make," urged John Martin, special city prosecutor, in an address Friday night before a "get together" meeting of patrolmen, in which he outlined his first steps toward systematizing and harmonizing the prosecutor's work with that of the officers. Mr. Martin declared that the cases, in which jury trials are going to be called within twenty-four hours of the time the defendant calls for one and urged that policemen be positive of their cases and ready to assist in producing testimony before making their arrests.

"Well, boys, at least I'll never disgrace it and I'll always do my best to do the square thing by every one of you," was the response of Police Chief R. W. Morgan when, at the meeting, he was presented with a solid gold police badge with his name and rank inscribed in black enamel.

The badge was presented to Chief Morgan by Judge John C. Kay.

In a short talk, before formally presenting the gift of the police department members to Chief Morgan, Judge Kay urged that every officer use care in the exercises of the power he possesses as an officer of the law. Judge Kay also urged that policemen of Wichita Falls never be guilty of "thumbscrew methods" or third degree shake downs in their efforts to extort confessions nfrom suspects, no matter how deep the conviction of the officer that the suspect is guilty.

The meeting was presided over by Police Commissioner Fitts, who introduced the two speakers of the evening.

DEALERS CUT FORD CAR PRICE

Another reduction in the price of Ford cars, the third within the year, has been made, according to an announcement Friday by Frank Queisser, manager of the Motor Supply Co. The reductions are approximately $40 on roadsters, $60 on touring cars; $30 on sedans and coupes; $50 on trucks and about $50 on the plain chassis.

The exact new prices will be given in a Sunday announcement by the Motor Supply Co.

3-IN-1
OIL-GAS-POTASH.
One or all three may be discovered in the same well. Mitchell county, Texas, is in the Permian red bed formation, similar to that of Electra and Burkburnett, with their long-lived wells. The first three wells drilled in Mitchell county hit the oil. Two of these wells are seven miles apart. Mitchell county has thick beds of salt and gypsum. The great potash beds near Stassfurt, Germany, were discovered in salt mining. The United States imports 80 per cent of its potash. United States Geological Bulletin, issued June 7, says:
"Two oil companies boring 80 miles apart in Western Texas, report salt strata of nearly same geological age and general character as potash-bearing beds of Western Europe of at least the richness of potash deposits of Alsace and Germany. Thickness unknown, however. Even if deposits in these two wells are not commercially valuable, richer deposits may be found elsewhere. The potash area, at any rate, is large."
I own 8,000 acres leases in solid body, want capital to join me in development on liberal terms. I own oil and gas leases in Eastland, Shackelford, Callahan, Taylor, Jones, Howard, Mitchell, Scurry and Brewster counties, Texas. My prices are attractive.

HUBBY HAPPY BECAUSE WIFE ARISES EARLY

It was about 10 o'clock Thursday morning.

The campaign manager of the Record News great $10,000 automobile and prize campaign was working away at his desk, almost buried under the deluge of nominations, votes, that had been rolling in since Sunday's big announcement.

The telephone bell jingled—an unusual sort of jingle it was, too.

"Hello," said a deep masculine voice at the other end of the wire, "Is this the campaign manager?"

"Yes."

"Well, Mr. Manager, I wish I had time to come down to your office and shake hands with you and thank you for the tremendous favor you have done me—do you know that in a single day, you have accomplished what I have spent more than ten years of married life trying to do?"

About this time the campaign manager began to wonder what was coming off—he hadn't read of any personal escaped lunatics or anything like that, and he couldn't figure out what the voice on the other end of the wires was driving at.

"What's the big idea," he inquired. "Why all the joy stuff for me?"

"Well, sir, it's like this: Yesterday my wife entered your big campaign—incidentally she's out after that big Haynes you're going to give away. And she has become so enthusiased over the prospects of winning that car that this morning she actually got up in time to cook my breakfast! It was the first time such a thing had ever happened in our home, and I tell you sir, I appreciate it. You never saw such transformation in a woman in your life. She explained that she didn't want to lose any time in gathering votes and that supper might be a little bit late, but I don't mind that—breakfast is the meal I'm for. There isn't anybody in the world who can cook waffles like my wife. I agree with you, sir, it's some campaign, I thank you again."

All Getting Up Early

Probably if the truth were known, the man who called up is not the only benefits from the Record News big race. The way the young women, both married and single are entering into the campaign makes it certain that more hours are going to be spent out in the open air in the health giving business of vote gathering than in lounging about the house. Probably local alarm clock dealers have noticed a slight increase in trade, because they are cetrainly getting up early.

Those are the ambitious ones who realize the tremendous advantage of an early start in the big race. Monday being the official opening day of the big campaign was a banner day in the point of interest. Scores of young women who seized the campaign offer, and the telephone jingled from morning to night. Not only did a number of contestants enter from Wichita but the outlying towns were heard from as well. The arrangement of the distribution of the big prizes, which gives an equal number of automobiles and other prizes to contestants, no matter where they live.

The Right Time to Start

The big inducement of 50,000 extra votes for every $15.00 worth of subscriptions turned in before Saturday, October 1st, is a wonderful opportunity for any young woman to jump right in and pile up a good vote total right at the start. The fact that there is no limit to the amount a candidate may turn in during this period and that extra votes will be issued for every $15.00 worth makes inducement particularly attractive. $30.00 worth of subscriptions brings 100,000 extra votes, and so on. These votes are extra, over and above the regular votes that are given with each subscription.

"It certainly is splendid as a starter," said one young woman. "I want a receipt book right away, so that I can start right in taking subscriptions."

A number of young women are still under the impressions that they are limited to the town in which they live to gather votes. This is wrong. Any candidate can go anywhere to get his or her votes. A candidate living in Wichita Falls can go into any of the other towns and obtain votes and subscriptions, if she desires or any place in the world as far that is concerned.

For Prompt Service

Candidates are urged to turn in their votes and subscriptions as fast as they are received in order that the subscribers may receive the papers promptly. In order to obtain the advantage of the 50,000 extra vote offer, it is necessary for the contestant to hold their subscriptions until the $15.00 worth has been gathered. The campaign department is keeping an accurate record of all the subscriptions turned in by each contestant, and at the end of the period a special voting ballot will be issued.

Probably there are few persons in Wichita Falls and surrounding territory today who have not heard of the Record News tremendous campaign. News of the tremendous offer is penetrating into every home in the vast territory in which the Record News circulates. Winning the big automobile is fast becoming the one thought of hundreds of young women. That $10,000 worth of prizes was to be given away, absolutely free by this great newspaper, was rather astounding to believe when the first announcement was made—it was so big, so gigantic, and so far in advance of anything ever attempted in this section before the Wichitans had difficulty in believing their eyes.

Haynes is Popular

The magnificient Haynes Six, costing $1985, continues to be the most sought after prize.

"I'm certainly going to do my very best to win," is the declaration made almost every hour in the campaign office. The other big cars, every one of them a beauty, and all the latest model touring cars, fully equipped and ready to drive away, are becoming more and more popular every day, as the realization that they may be had FREE for just a little time and effort dawns.

Right now is the best time of all to enter. By sending in your nomination today, and displaying energy and ambition for the next few days, you can have a good standing of votes opposite your name in the first standing of contestants to be printed.
