ARRIVING FOR COURT APPEARANCE — President Nixon's secretary Rose Mary Woods walks with her lawyer Charles Rhyne on the way to a court appearance before U.S. District Judge John Sirica today in Washington. Miss Woods has delivered testimony before Judge Sirica dealing with White House tapes.

## Nixon Wants Home Heating Oil Rationed

WASHINGTON (AP)— President Nixon says he is cutting 15 per cent from deliveries of gasoline and home heating oil to stave off severe fuel-shortage damage to the nation's economy.

The moves will mean homes six degrees cooler than normal this winter and not enough gasoline to go around.

To start saving gasoline, Nixon asked filling stations to stop selling it on Sundays, and pledged he would order such a ban once Congress gives him the authority.

**NO WITHOUT**  
In a radio-television address Sunday, Nixon said deliveries of airline jet fuel also will be cut 15 per cent, industries will

be denied 10 per cent of their oil wants and commercial buildings must do without 25 per cent of their heating oil.

These and other measures announced Sunday would reduce an expected 17 per cent petroleum shortage to perhaps 7 per cent, Nixon said, but the remaining shortage will require additional measures to close the energy gap and avoid economic damage.

Nixon continued to hold in reserve, as a last resort, the possibility of direct consumer gasoline rationing or high fuel taxes.

Under existing authority, Nixon announced these steps:

### RATIONING

—Publication, due Tuesday, of regulations to take effect next Jan. 1, ordering heating-oil dealers to sell householders 15 per cent less heating oil than they got in 1972, commercial establishments 25 per cent less; and industries 10 per cent less. This move imposes consumer rationing, but without the complication of issuing fuel coupons.

Proposal of regulations in December to impose controls on distribution of gasoline to wholesale and retail dealers, cutting deliveries 15 per cent below the anticipated demand for the first quarter of 1974. Refineries will be asked to start making such cuts immediately on a voluntary basis, the White House said.

—Government-controlled allocations of jet fuel to airlines will be cut Dec. 1, limiting international lines to their 1972 fuel consumption and domestic lines to 95 per cent of their 1972 levels. All airlines will be cut back 15 per cent below last year's supplies starting Jan. 7.

—Final regulations were scheduled for publication Tuesday, to take effect Dec. 7, forbidding coal-burning power plants from switching to oil.

Nixon pledged to take the following steps as soon as Congress passes emergency legislation authorizing them:

—A ban on gasoline sales from 9 p.m. on Saturdays to midnight on Sunday nights.

Nixon asked filling stations to adopt such a ban voluntarily in the meantime, beginning Dec. 1.

—Establishment of nationwide highway speed limits of 50 miles an hour for automobiles and 55 miles an hour for long-distance trucks and buses.

—Bans on ornamental residential lighting and on non-essential commercial lighting.

—Reductions of fuel deliveries for general aviation imposing a 20 per cent cut on fuel for air taxis and industrial flying, 40 per cent on corporate jets and other business flying and a 50 per cent cutback on flying for pleasure or instruction.

### WARNING

Nixon warned that "additional actions will be necessary to further offset the anticipated shortage."

"Above all," he said, "every step will be taken to insure that any disruptions to our economy which may occur are short-lived, and that they do not cause lasting damage."

## Area Not Directly Affected By Edict

Local power company spokesmen said today that measures outlined by the President in his fuel conservation speech Sunday night do not directly affect them.

"I don't see any problems the speech created that we hadn't already anticipated," said Tom Locke, division manager of Texas Electric Service Co.

Nixon's call for the rationing of home heating oil beginning Jan. 1 will not affect power users in this area, Locke said. By heating oil, Nixon referred to a high grade oil used to fuel furnaces for home heating in the Midwest and Northeast where natural gas is not available, Locke said.

He said he interprets Nixon's order for the elimination of commercial lighting except that which identifies places of business as referring to an end only to aesthetic lighting.

"We interpret it as a cutback not as an elimination of anything. Of course, lighting for strictly aesthetic purposes should be cut out, but functional lighting can be kept," Locke said.

He said he felt the President "carefully avoided referring to security lighting because I don't think he really wants to curtail it." Locke said Texas Electric maintains the position that security lighting for businesses is an important function in the prevention of crime.

He said, however, that TESCO itself as well as several other local businesses have begun cut-

ting back on inside lighting.

"It shouldn't affect us as far as our residential customers are concerned," said Dearl Pittman, manager of Pioneer Natural Gas Co. here. "We will be turning our thermostats down, too, though and that will, of course, save fuel."

## ENERGY-SAVING REACTION

### Many Worry About Economic Impact On Personal Lives

Service station owners reacting to President Nixon's energy message say they will for the most part voluntarily close on Sundays. But many of them are either skeptical of the effects Sunday closings will have or upset because they say their income is being cut.

### TIGHTER BELTS

Reaction to Nixon's speech also came quickly from homeowners, politicians and businessmen. But gas station owners were the most vocal.

"A Sunday sales halt probably will effect some fuel savings, but will kill off marginal

gas stations," said Walter F. Stein of Columbus, the Ohio representative to the National Congress of Petroleum Dealers.

There were station owners who echoed Phil Benson, a Shell station manager in Phoenix. "We'll just have to tighten our belts a little. This is an emergency," he said. "There is a shortage, and if we don't cooperate now, when the government comes down hard, we'll have nothing at all."

### WHIZZING PAST

Most station managers contacted after Nixon's Sunday night address said they would comply, but some were upset.

Some said the 15 per cent cut in gasoline production which Nixon will order will cut their profits unless the government allows them a greater profit margin. Others said the production cut would run them out of business. Representatives of dealers associations said that since the great majority of stations are closed anyway on Sunday the closing would have little of its anticipated effect.

Nixon also said Sunday night that he wants legislation to set mandatory speed limits of 50 miles per hour for cars and 55 m.p.h. for buses and trucks. He also said he will sign legislation cutting heating oil by 15 per cent to consumers, 10 per cent to industry and 25 per cent to commercial businesses.

Govs. Tom McCall of Oregon and David Hall of Oklahoma applauded the President's actions, but they said they

doubted the public would observe 50 m.p.h. speed limits if they see buses and trucks whizzing by them.

Pennsylvania Gov. Milton J. Shapp urged an immediate ban on all American oil exports and a restriction on oil company prices. He said unless such a restriction was imposed, "then the people are being asked to sacrifice more than the oil companies."

### NO CHOICE

Sen. Henry M. Jackson, D-Wash., a leading congressional proponent of strong government actions to deal with the energy crisis, said Nixon's actions were "phase one of what looks to be another string of phases. More and stronger action must follow this."

Homeowners and businessmen contacted after Nixon's speech were generally supportive of his proposals.

## LOOK TO RIGHT Bloodless Coup In Greece

ATHENS, Greece (AP) — Greece's new military rulers pulled most tanks and extra troops out of Athens today, indicating firm control of the country, and began removing pictures of ousted President George Papadopoulos from public buildings.

The ousted strongman who as an army colonel engineered the 1967 military takeover was reported under house arrest at his seaside home near Athens. He was deposed Sunday by a group of conservative generals in a bloodless coup.

### TRAFFIC HEAVY AS USUAL

No disturbances were reported anywhere in the country; activity in Athens today was normal, and the traffic was heavy as usual.

In one of his first official acts, the new president, Lt. Gen. Phaedon Gizikis, freed three former politicians who had been put under house arrest last week in the wake of the student uprising in which 13 persons were killed.

The three — ex-Premier Panayotis Canelopoulos and former ministers John Zighidis and George Mavros — had expressed support for the students demanding the overthrow of Papadopoulos.

### JUNKING PROMISE

Despite this overtone to the foes of military rule, the new regime indicated it was junking Papadopoulos' promise of a return to limited parliamentary government next year. The generals said they could not stand by while the country was being "dragged into an electoral adventure" and was threatened by "anarchy, chaos and vandalism," an apparent reference to the student uprising.

## Dutch Jumbo Jet Skyjacked

VALLETTA, Malta (AP) — A Dutch jumbo jet hijacked by Palestinian guerrillas arrived from Libya this afternoon.

A spokesman for the airline in Amsterdam said the plane carried the original 247 passengers and 17 crew.

It was understood the decision to bring the hijacked aircraft to Malta was made this morning during talks between Libyan President Moammar Khadafy and Maltese Premier Dom Mintoff.

## Boys Were Trying To Restore Image

Male chauvinists may have lost face in the famous King-Riggs tennis match, but they still get to climb obstacles to retrieve tennis balls.

A neighbor who passed the high school Sunday afternoon, reported to city police that three boys were on the roof of the high school "up to no good."

An investigation by the police revealed that the three youths were retrieving tennis balls from the roof. The girl tennis players were on the court, cheering them on.

## Holiday Traffic Toll Tops 500

By The Associated Press

More than 500 persons died in traffic accidents during the Thanksgiving holiday weekend.

The National Safety Council had estimated that 625-725 persons would die as motorists traveled to spend the holiday with friends and relatives.

At the end of the counting period, which ran from 6 p.m. local time Wednesday to midnight Sunday, 527 persons were reported killed.

A year ago the toll was 658.

## Asking Judge To Withhold Couple Tapes

WASHINGTON (AP) — The White House filed with U.S. District Judge John J. Sirica Monday a 22-page analysis and index for the subpoenaed Watergate tape recordings and other materials and claimed that two of the tapes should be withheld from the Watergate grand jury in their entirety.

The White House analysis claimed in the case of the two tapes "the conversation is subject in its entirety to a claim of executive privilege in order to protect the confidentiality of advice given to the President."

By claiming executive privilege the White House is asking Sirica to withhold the two tapes from the grand jury.

One of them is of a conversation between the President and John D. Ehrlichman on June 29, 1972 — the first part of a taped conversation that the White House says is marred later by an 18-minute hum.

## Dismembered Body Case

RICHMOND, Va. (AP) — Wayne Michael Valentino faced a preliminary hearing today on a charge of murdering a North Carolina woman whose dismembered body was found in Texas last Tuesday.

Valentino, 27, was arrested without incident here Saturday night, police said. He was jailed in lieu of \$50,000 bond in Henrico County, Va., and \$500,000 bond in El Paso, Tex., where the woman's body was found.

Police said the body of Betty Jean Clark Freeman, 33, of Haw River, N. C., was found in three green plastic garbage bags by a resident of Juarez, Mexico, who was scavenging a desert dump ground.

Mrs. Freeman's estranged husband identified the body through a birthmark and some pieces of jewelry with the remains, Sheriff's Capt. Mac Stout of El Paso said.

The sheriff's office said Valentino apparently had been traveling with Mrs. Freeman.

## Sunday Freeze Didn't Hurt

The Big Spring Experiment Station recorded a low of 30 degrees early Sunday morning.

The majority of the area residents alleged that it "didn't freeze at my house." Other company equipment in the county recorded a low of 36 degrees. Bill Fryrear, experiment station manager, stated, "The low was of such a short duration that the freeze did not damage any vegetation."

## 'Rough Situation' Is Seen By Cosden Executive Here

While the fuel conservation measures outlined by President Nixon in his Sunday evening message may not immediately affect Cosden Oil and Chemical operations here, the long range implications reflect a "rough situation."

This was the view expressed today by Paul Meek, president of Cosden. It is too early to know details of how the program will affect details of operations, but Cosden is currently little affected by the request for more fuel oil and less gasoline output by refineries.

This is because the Big Spring plant, part of the American Petrofina system, is designed primarily for gasoline production. Moreover, a greater portion of its feedstock is sour

crude, and thus its No. 2 fuel oil would have high sulphur content. The general demand is for low sulphur fuel oil in view of the ecological pressures.

### ONE-SIXTH

The Mid-East oil embargo will affect Cosden's crude oil supply to the extent of about one-sixth of its total, Meek indicated. Cosden has been receiving about 10,000 barrels foreign crude daily. The pinch has not been felt too severely, for much of the crude was from Petrofina SA's Nigerian sources, but American Petrofina has been asked to reduce its foreign crude draw by 100,000 tons in December and January.

Whether Cosden will be asked to alter its pattern of production remains to be seen. One prospect is that American Petrofina will make adjustments at other plants which could more easily shift to fuel oils, and thus achieve a balance on a system-wide basis. In that case, the feedstock for petrochemicals, closely attuned to the gasoline stream, at Cosden might not

be affected critically.

However, Meek viewed the situation from the larger picture of total fuel supplies and said that "it's going to be a rough situation." He said Cosden will do all it can to comply, and he felt that the president's action in suggesting in reducing consumption of all types fuel was proper.

### MANY THINGS

There are many things that can be done locally to contribute to the total savings, Meek felt. One is to reduce unnecessary driving. He said the offices would have thermostats turned down, and that lighting not essential to safety would be reduced at the refining and petrochemical and other fuel conservation measures taken. Some of these may require capital expenditures.

When it is considered that at times during last winter's severe weather, Cosden's gas supply was reduced as much as 60 per cent, the individual residential savings in gas consumption can have its effect on the company's supply, Meek said in a letter to employees.

"The energy shortage is not something in the future; it is now, and promises to be of no short duration," he noted. He also urged employees to dig in and help, to turn down home heaters, use car pools, walk more, turn off lights.

"We need to really get a lot behind this. Voluntary cooperation is better than compulsory rules, and if we all help, perhaps we can avoid rationing and similar measures."

## 'Boston Strangler' Stabbed To Death

WALPOLE, Mass. (AP) — Albert DeSalvo, who confessed to being the Boston Strangler of the 1960s, was found stabbed to death in his prison cell today, corrections officials reported.

Although DeSalvo confessed to killing 13 women in the Boston area between 1962 and 1964, he later retracted the confession and was never convicted of any of the 13 deaths.

The former handyman was serving a life term at the maximum security prison for assaults on four other women.

A prison spokesman said DeSalvo's body was found about 7 a.m. in a cell in the prison's hospital section where DeSalvo worked as an orderly.

### NO SUSPECTS

DeSalvo, 42, died of multiple stab wounds in the chest. No weapon was found and there were no suspects, the spokesman said.

During DeSalvo's assault trial in January 1967, his lawyer, F. Lee Bailey, attempted to get the confession to the stranglings entered into evidence. He was able only to present such testimony from psychiatrists whom DeSalvo had told he was the strangler.

DeSalvo was convicted of burglary, armed robbery and sexual molestation. State authorities have long

ALBERT DESALVO

maintained they did not have evidence to prosecute anyone for the stranglings.

The case of the Boston Strangler caused a worldwide sensation. The victims ranged in age from 19 to 75. Most had been associated with health care, either as nurses, hospital volunteers, workers in physicians' offices, or friends of nurses and doctors. All lived within a 26-mile radius of Boston.

WEATHER MAP - There will be rain or showers today in most parts of the East Coast. There will be snow in the northern Plains states, in the southern Rocky Mountain states and in the Pacific Northwest. It will be warmer in the Southwest and Southeast and cold in the south central portion of the nation.

# Energy Campaign Endorsed Here

County Commissioners Court voted to support President Nixon's energy conservation campaign this morning.

Eddie Harper, custodian; Mrs. Dorothy Moore, chief deputy district clerk; Bill Whitten, chief deputy sheriff; Marvin Hanson, road administrator; and County Extension Agent Bruce Griffith all met with the court on energy conservation.

And County Judge A. G. Mitchell told Mrs. Pauline Petty, county clerk, he "won't be a bit bashful" about asking the cooperation of abstractors working out of a courthouse office.

"We don't want any heaters burning in the courthouse," Judge Mitchell said. Women employed in the courthouse have been using these heaters this fall.

When Mrs. Virginia Black, county auditor, complained Commissioners Court room was hot and stuffy a window was opened.

Earlier a couple of lights were turned off.

Griffith was asked to stop booking the county fair barn for recreational purposes.

Commissioners discussed conservation at numerous county-owned buildings, including the vacant hanger at the airport, former surplus commodity building and volunteer fire stations.

With only a short agenda, the court's attention ranged to various topics, including cost of court appointed attorneys.

After a budget amendment a couple of weeks ago providing more funds for this and other categories, the line item for county financed criminal defense lawyers again had surpassed expectations.

"Used to be a good thing put back half of his earnings in a safe to pay for his lawyer,"

# New Construction Down During 1973

Note: This is the second of two stories dealing with the critical housing shortage that now exists in Big Spring.

By ANN STEVENS
City building permits show that the construction of new residences in Big Spring has declined from 113 in 1963 to 15 in the first 10 months of this year.

This decline in construction of new homes, caused primarily by soaring building costs and interest rates, has been a principal factor in what is regarded by many as a housing shortage locally.

All of the homes on which building has begun this year are over \$23,000 except one costing \$16,800. All but one are in the far southern sections of town in the Highland South, Western Hills, Colonial Hills and Coronado Hills Additions.

"When you go to buy a home here, you find either extremely expensive homes from \$25,000 up and the older homes below \$15,000. There's a big void between the two," commented Ron Mercer, manager of the Chamber of Commerce.

He went on to say that only a few can afford house payments of \$200 or more a month plus bills and that the homes in the sub-\$15,000 bracket are often old homes in poor condition and in poor locations.

"If you buy one of these houses, you have to spend another \$10,000 on rewiring, reroofing and redecorating to fix it up like you want it," he added.

Agreeing that there is not enough medium-priced housing here, Jack Shaffer, a local contractor said, "Most homes being built now are being custom-built for particular purchasers."

"Normally, we build speculatively and then look for buyers, but that's on the decline now. Your (the contractor's) margin of profit is so low that no one is going to go out and build some homes in that price range and risk not selling them," he said.

He added that to build in the \$15,000 to \$20,000 range, the builder "almost has to get FHA financing so that the customer can get a low down payment."

Down payments asked on homes here shocked one recent newcomer to Big Spring.

"I was warned when I first came here that the real estate values are vastly inflated and that it's a seller's market," the man, a hospital official who could be classified as being upper middle class, said.

"DUMBFOUNDED"
But the thing that dumbfounded me when I started looking for a home was the tremendous down payments. Also where I come from (a metropolis of 300,000) the seller pays all the closing costs. Here, the buyer does, so he gets stuck twice," he remarked.

"If anything ever happens to Webb, the bottom is going to drop out of the housing market here," he said disgustedly.

Speaking of Webb, how do the approximately 700 base families who arrive each year figure in the local housing situation?

Webb has 465 units of family housing (Webb Village) built in 1958. According to Webb housing officials, about 120 of the 700 arriving families move into base housing each year. The rest must find homes off base.

At the time this article was written, 30 families were on the waiting list for three-bedroom duplexes on base and 30 others on the list for two-bedroom homes. The occupancy rate at Webb Village normally stays above 99 per cent, according to the housing management office.

"Some arrivals spend more than a month searching for a place to live off base and some large families have to spend three or four months," said a spokesman from the Webb information office.

Commenting on the general situation and how it affects and is affected by the base, Chamber Manager Mercer said, "The housing markets here is very tight because the demand exceeds the supply, thus keeping prices high."

"IT'S HURTING US"
This is hurting us industrially and it is hurting Webb. What we need is some competitive speculation to build more housing. Then, prices would come down," Mercer claimed.

Chamber Secretary Barbara Giles said she gets dozens of calls each day from newcomers and possible newcomers asking about available housing. She refers these callers to local real estate agents.

Shaffer, a realtor as well a contractor, said the housing shortage and the high prices often sought by owners puts the real-estate agent "in a real bind."

Asked his opinion of what could possibly be done to solve the problems locally, Shaffer, "I just don't know. If I did, I'd have done something about it by now."

The whole matter of housing will be the topic at a meeting of community leaders and base officials Thursday.

120,000 Mark
LAMESA - The Dawson County bale count in its 1973 cotton harvest in approaching the 120,000 mark. A total of 119,887 bales had been processed late Friday.

Mrs. Robert Daley
Mrs. Lovell Daley, wife of Robert F. Daley (Lt. Col. USAF-Ret.), died unexpectedly Saturday of heart attack at Payson, Ariz.

Rites for Mrs. Daley, a former resident of Big Spring where her husband was stationed at Webb AFB for several years, will be held Tuesday 1 p.m. in Payson.

The Daley's address is P. O. Box 1456, Payson 85541.

With her husband, she had come here two weeks ago for the dedication of the former Fireside Room at Webb as the Whipkey Room, honoring the memory of their friend R. W. Whipkey.

While living here the Daley's were active in the St. Mary's Episcopal Church. It was while they resided here also that they lost a son, Robbie, to leukemia. The family suggested those wishing to make memorials consider the St. Paul's Episcopal Church in Payson.

Sister Dies
ABILENE - Services were held at 2 p.m. today in Elliott-Hamill Chapel of Memories for Mrs. Carrie Bell Davis, 70, who died in a hospital here Sunday after a long illness. Burial followed in Elmwood Memorial Park. Among survivors is a sister, Mrs. Ira Raley, Big Spring. Five other sisters and two brothers also survive.

James Marshall
LAMESA - Last rites for James Marshall, 72, a retired cotton sapper, will be at 2 p.m. Tuesday in St. John's Baptist Church here with the Rev. J. H. Nelson, pastor, officiating. Burial will be in Lamesa Cemetery under direction of Branon Funeral Home.

Mr. Marshall died about 4 p.m. Friday in a hospital here. A Henderson County native, he had lived in Lamesa 34 years.

Surviving are his wife, Samantha, a daughter, Mrs. Doris Parrish, Athens; two sisters, Mrs. Cresette Crayton and Mrs. Lois Sowell, both of Athens; and one grandson.

Lillie Lincincome
Mr. and Mrs. H. G. (Hank) Starr, their daughters and families returned this weekend from Shawnee, Okla., where they attended the funeral of Mrs. Ed (Lillie) Lincincome, 71, Mr. Starr's sister.

She died last Tuesday in a Shawnee nursing home. Services were Friday with burial in Shawnee's Fairview Cemetery.

Among survivors are two brothers, Henry Starr and Sam Starr, both of Big Spring.

Besides the H. G. Starrs, Mr. and Mrs. Charles Herring, Midland; and Mrs. Sharon Fowler and children, Big Spring, attended the funeral.

Deaths
T. H. McCann, 55, Dies; Church And Civic Worker
Tommy McCann, Big Spring, and a daughter, Mrs. Terry (Betty) Newman, Waco. He also leaves a brother, Dwight B. McCann, Big Spring, and a sister, Mrs. Charles Rhea, Graham; and two grandchildren.

Kenneth L. Barron
LAMESA - Funeral services will be at 3:30 p.m. Tuesday in First Baptist Church for Kenneth Lee Barron, 30, who was found dead early Sunday in his car in front of his father's farm near here. No death ruling has been made yet.

Officiating will be the Rev. Bill Hardage, pastor. Burial will be in Lamesa Memorial Park directed by Branon Funeral Home.

A ruling in the death was expected today.

A lifetime Lamesa resident, Mr. Barron was a farmer.

Survivors are his wife Donna; two sons, Stephen Lee and Timothy Barron, both of the home; his parents, Mr. and Mrs. Elmer Barron; a sister, Mrs. Bill Ellyson, Loop; his grandparents, Mr. and Mrs. Frank Barron and Mr. and Mrs. R. A. Carr, all of Lamesa.

DEATHS
T. H. McCann, 55, Dies; Church And Civic Worker
McCann Butane Company and an active church and civic worker, died suddenly of heart attack at his home, 702 Highland, at 2:45 a.m. today.

The funeral will be at 2 p.m. Tuesday in the First Baptist Church where he was a leading layman for many years. Dr. Kenneth Patrick, pastor, will officiate, assisted by Chaplain Lee Butler. Burial will be in the Trinity Memorial Park under direction of Nalley-Pickie Funeral Home.

Mr. McCann was a director of the Texas Association of Liquefied Petroleum Gas Dealers, and he was one of those most instrumental in preventing a closing of local and area LPG delivery last season when suppliers sought to cut off independent dealers.

He had served as head of the Howard County Sheriff's Posse and was currently its vice president. He had been a chairman of the church's Boy Scout Troop (No. 5) on several occasions. He had been in service club work. For several years, he was chairman of the board of deacons at the First Baptist Church.

He was a member of the Masonic bodies, including Staked Plains Lodge No. 598 AF&AM, Big Spring Chapter 178 RAM, Big Spring Council 117 R&SM, and Big Spring Commandary 31 Knights Templar.

Born in Cisco Jan. 6, 1918, he came to Coahoma with his parents as a small boy. He graduated from Coahoma High School, served with the Army Engineers Corps in World War II. Afterwards, he opened a grocery business in Stanton, then purchased a butane business here in 1950 and steadily expanded it over the years.

He was married July 11, 1942 to Ethelyn Allen in Houston, and she survives him as do a son, James Marshall.

Lillie Lincincome
Mr. and Mrs. H. G. (Hank) Starr, their daughters and families returned this weekend from Shawnee, Okla., where they attended the funeral of Mrs. Ed (Lillie) Lincincome, 71, Mr. Starr's sister.

She died last Tuesday in a Shawnee nursing home. Services were Friday with burial in Shawnee's Fairview Cemetery.

Among survivors are two brothers, Henry Starr and Sam Starr, both of Big Spring.

Besides the H. G. Starrs, Mr. and Mrs. Charles Herring, Midland; and Mrs. Sharon Fowler and children, Big Spring, attended the funeral.

Among survivors are two brothers, Henry Starr and Sam Starr, both of Big Spring.

Besides the H. G. Starrs, Mr. and Mrs. Charles Herring, Midland; and Mrs. Sharon Fowler and children, Big Spring, attended the funeral.

Deaths
T. H. McCann, 55, Dies; Church And Civic Worker
McCann Butane Company and an active church and civic worker, died suddenly of heart attack at his home, 702 Highland, at 2:45 a.m. today.

The funeral will be at 2 p.m. Tuesday in the First Baptist Church where he was a leading layman for many years. Dr. Kenneth Patrick, pastor, will officiate, assisted by Chaplain Lee Butler. Burial will be in the Trinity Memorial Park under direction of Nalley-Pickie Funeral Home.

Mr. McCann was a director of the Texas Association of Liquefied Petroleum Gas Dealers, and he was one of those most instrumental in preventing a closing of local and area LPG delivery last season when suppliers sought to cut off independent dealers.

He had served as head of the Howard County Sheriff's Posse and was currently its vice president. He had been a chairman of the church's Boy Scout Troop (No. 5) on several occasions. He had been in service club work. For several years, he was chairman of the board of deacons at the First Baptist Church.

He was a member of the Masonic bodies, including Staked Plains Lodge No. 598 AF&AM, Big Spring Chapter 178 RAM, Big Spring Council 117 R&SM, and Big Spring Commandary 31 Knights Templar.

Born in Cisco Jan. 6, 1918, he came to Coahoma with his parents as a small boy. He graduated from Coahoma High School, served with the Army Engineers Corps in World War II. Afterwards, he opened a grocery business in Stanton, then purchased a butane business here in 1950 and steadily expanded it over the years.

He was married July 11, 1942 to Ethelyn Allen in Houston, and she survives him as do a son, James Marshall.

Lillie Lincincome
Mr. and Mrs. H. G. (Hank) Starr, their daughters and families returned this weekend from Shawnee, Okla., where they attended the funeral of Mrs. Ed (Lillie) Lincincome, 71, Mr. Starr's sister.

She died last Tuesday in a Shawnee nursing home. Services were Friday with burial in Shawnee's Fairview Cemetery.

Among survivors are two brothers, Henry Starr and Sam Starr, both of Big Spring.

Besides the H. G. Starrs, Mr. and Mrs. Charles Herring, Midland; and Mrs. Sharon Fowler and children, Big Spring, attended the funeral.

**Losses Exceed \$100,000 In Gin Fire At Lamesa**

LAMESA — Flames fanned by 40 mile per hour winds engulfed at least 100 cotton trailers awaiting ginning at Cotton King Gin eight miles west of here on U.S. 180 late Sunday. Unofficial damage estimates set the loss at more than \$100,000, making the fire one of the most costly gin fires in history.  
The blaze, believed to have started in the seed bin or at the burr burner, spread quickly from the south part of the yard to the north, fanned by high winds from the southwest.  
The fire was reported to the Lamesa Fire Department at 7:09 p.m. at the same time a blinding dust storm blew into the area, cutting visibility to almost zero at times.  
No injuries were reported by late Sunday and witnesses said the gin plant did not appear

to be endangered by the fire. The gin, one of Dawson County's largest, is operating this year with completely renovated apparatus.  
George Elam, gin owner, said another 80-100 trailers were saved from destruction by the efforts "of a lot of good people." About 50 or 60 volunteers helped pull trailers out of the fire's path.  
An undetermined number of trailers were scattered up and down the highway where rescuers had dragged them from the gin yard.  
Spokesmen expected the fire to burn itself out by early today.

**Drop In Houston Area Jobless**

HOUSTON (AP) — Unemployment in the Houston area dropped three tenths of one percent from September to October, the Texas Employment Commission reported, from 2.8 to 2.5 per cent.  
The TEC said 11,300 were out of work in the five-county metropolitan area, compared with 952,400 persons working.  
The October unemployment rate was half a per cent lower than the 3.0 per cent rate of a year ago, the TEC said.

# Savings And Psychology

There is still more cosmetology than substance to the government's efforts so far to deal with the energy crisis. But that circumstance is due to change, and when it does, it will pinch hard.

Congress has rushed passage of the Alaskan pipeline bill, one of the jewels in the President's energy measure collection. But the pipeline bill is a long-term affair; it won't have the slightest effect on supplies of oil and gas for years.

Meanwhile, we are counseled to slow cars to 50 instead of going 70 on the highways. If everyone complied, that would save some gas, certainly. But there's a bit of show biz about it, too. Far greater amounts of gasoline are burned by traffic within city limits that never even approaches 50 m.p.h. speeds; it will continue to burn as before. But the people are given the idea of participating in sacrifices for the common good anyway, even if the real savings of fuel aren't terribly significant.

The same is true of widespread plans to dim Christmas lighting this holiday season. Again, the real saving of energy is negligible, considering the over all problem. Extending Daylight Saving

Time is in the same league.

All of this is psychologically preparing the nation for the crunch to come. Apparently the plans are well under way to establish gasoline rationing by early 1974, complete with coupon books and bureaucracy. The major energy bill before

Congress grants the President extraordinary powers to restrict store hours, cut school days, impose other fuel rationing.

If the toughening-up process now under way succeeds, perhaps we won't be jolted so hard when the going gets really tough.

## Defense Cuts Are Shaved

One "winner" of the Middle East war turns out to be the Pentagon. Big budget cuts in defense spending which seemed certain before the recent fighting now have been scrapped.

The House subcommittee presently considering the military appropriations bill has decided on a cut of \$2.9 billion. But that is a modest reduction; before the fighting and the alert of U.S. forces, a reduction of \$6 billion or more seemed likely.

And even that \$2.9-billion cut, if it survives congressional action yet to come, won't really be what it seems. Congress is also likely to approve that much and more in supplemental funds for

the Defense Department to cover needs for reserve ammunition and airlift capabilities exposed by the war. Too, Congress already has been requested to provide another \$2.2 billion to cover direct costs of emergency military aid to Israel.

Plans were to use cuts in the defense budget as funding for domestic programs, and still stay within over-all budgetary limits. Congress has increased several domestic programs already over amounts in the budget. Without the defense cuts to balance the books, overspending and a greater deficit loom, unless domestic programs are shaved

# Lunch Or Luncheon?

## Around The Rim

Tommy Hart

One thing and another: Professional sports (e. g.) get bigger and more attentive headlines. Only when some one gets busted for using pot or hard drugs is the recording industry spotlighted, analyzed and, likely as not, blistered by a critical press.

DESPITE THE fact that its news coverage suffers poorly in comparison with sports, however, almost four times as much money is spent on records in this country as on pro sports — \$2 billion to \$540 million.

It's not difficult to understand then, why disc jockeys get preferential treatment from promoters who would project records made by their clientele onto the 'best seller' lists by any means possible.

WITH SO much at stake, it's not surprising the disc jockeys are influenced by offers of sex, money, whiskey, expense paid trips and drugs. Scandals are the inevitable result in such transactions.

IF YOU hurry through a meal at a cafeteria, a short order cafe or eat from a sack while on a job, chances are you refer to your noon meal as lunch. Where you dine at a more leisurely pace, spread a napkin

on your lap and take your time in picking out the salad fork, it becomes luncheon.

Most Americans bolt down their food at noon time, either hurrying home to attack the tidbits the wife has put on the table or standing in line to get a table at a restaurant somewhere close to their work.

THE LATINS have it better. They look forward to their noon meal mainly because they are prone to take a siesta afterwards.

Breakfast and dinner are more serious repasts. With many, lunch becomes a boring meal, especially if they limit themselves to a salad and a glass of yogurt. Grilled cheese sandwiches are big at lunch time. Others settle for cranberry juice and a quarter of an apple. Soup would be more popular except that some white collar workers don't want to get it on their ties or blouses.

SOME SKIP lunch entirely. Others put away a couple of martinis and call it lunch. I knew one greybeard who limited his meals to one a day but it had to be more than lunch — he put away more food than the ordinary individual stashed in an entire day.

## My Answer

BILLY GRAHAM

Today begins a 5 week period in which Americans will spend more and party more than any other time of the year. Gambling also will come in for its share of spotlight. What about the matter of betting? To many, it seems like an easy dollar.

I've often heard primitivel gambling defended on the basis that most of the profits are given back to the bettors, or invested in some worthy cause. However, this is hardly sufficient to commend it.

Actually, gambling is one of the oldest and most devastating sins. Aristotle and Confucius denounced gamblers who by superior skills victimized their innocent patrons. I denounce it on the ground that we are stewards of God, and that all God has given us is a trust to be protected and invested for God's glory and man's welfare.

How much better it is to trust God, and not Lady Luck! Let's face it — happiness and success really come to us through honest toil, and genuine faith. To trust in chance is neither Biblical nor logical.

Gambling is also disqualified since it is a violation of the commandments: "Thou shalt not covet" and "Thou shalt not steal."

It is argued that people will gamble, and that the state may as well have the revenue. Former governor Thomas E. Dewey said: "It is fundamentally immoral to encourage people

to believe that gambling is a source of revenue. The history of legalized gambling in this country and abroad shows that it has brought nothing but poverty." Talk about a sure thing — how's this from 2 Corinthians 2: "Thanks be to God who always causes us to triumph in Christ."

COUNTEROFFENSIVE

## Check Your Prestige

Hal Boyle

NEW YORK (AP) — One of the surest ways to oblivion in this country is to fail to check your image regularly.

If your prestige slips, you drown — at least socially. Therefore it is better to keep your best foot forward at all times.

Howard Hughes phones to ask you to tide him over on the weekends when he runs a little short of cash.

Everybody wonders when your name will come up in the Watergate hearing.

Aristotle Onassis has named a new ship in your honor — and naturally it's a supertanker.

You may go to church only one Sunday out of four, but on the Sabbaths when you are absent, no other member of the congregation would dare to sit in your usual pew. Anyway, the

ushers wouldn't let him.

You have the only gold key to your mistress's apartment. All the keys she gave to other guys are made of brass.

The energy crisis doesn't worry you, because your assistant was thoughtful enough last spring to have a five-year supply of both gasoline and heating oil stored in the private tanks on your country estate.

Your wife had a hard time delivering your son and heir, because the kid was born with two gold spoons in his mouth.

Dr. G. C. Thosteson

## Hangover From Old Days

Dear Dr. Thosteson: My mother-in-law, now 83, taught my husband not to put leftover food in the refrigerator until it reached room temperature.

My husband thought this had something to do with the food, but I think it is a holdover from the days when refrigerators were ice boxes and people tried to conserve ice.

If I am correct, I shudder at the thought of how many undiagnosed cases of food poisoning must have occurred, and I think it's remarkable how many of us have survived.

However, the type and quantity of food involved has some bearing on how soon it should be refrigerated.

As a rule of thumb, a brochure from one of the university extension services says that food should not be left at room temperature for more than two hours.

The reason, of course, is that by that time bacteria begin to

multiply rapidly — in other words, food spoilsage begins.

"Room temperature" also is a variable term. It can mean anywhere from about 70 degrees to 95 or so on a hot day.

And waiting for a saucer of stewed tomatoes to cool down to room temperature can be quite a different matter from waiting for the remainder of a stuffed turkey to cool down.

The tomatoes will cool quickly, but the turkey (or meats with broth or gravy) would take much longer, and spoilage could start before you popped it in the refrigerator.

Keep this in mind, too: If you waited for the surface of the turkey to reach "room temperature," and then refrigerated it, the center of the bird, and the stuffing, would still require some time in the refrigerator before it would be cooled to the point of safety.

As long as it remained fairly warm, spoilage could progress.

In reverse order, don't stuff a turkey and then keep it in the refrigerator until you are ready to cook it. The problem is that, with the whole thing, and the stuffing, thoroughly cooled, the meat may be cooked on the surface before the stuffing gets enough heat to stop all bacterial growth. Rather, keep the turkey refrigerated, but don't stuff it until you're ready to cook it.

That two-hour rule of thumb probably will guide you on most things. Don't let food sit around longer than that before refrigerating. And if it is food containing egg or other material that spoils rapidly, get that into the refrigerator sooner rather than later.

## Case Closes In

Rowland Evans

WASHINGTON — Even while launching "Operation Candor" to restore his credibility, President Nixon was sidestepping questions about the White House Plumbers unit and trying again to shield its covert operations with a national security cloak.

OTHERWISE WELL prepared for his talks with Congressmen, Mr. Nixon had no ready answer when asked why in 1971 he secretly set up the Special Investigations Unit — the notorious Plumbers — in the White House without statutory authority.

He simply invoked again his May 22 statement claiming considerations of national security. Simultaneously, his lawyers are revealing to the Watergate prosecutor secrets of national security so sensitive that they must be safeguarded even at the price of letting the plumbers go free.

But special prosecutor Leon Jaworski's intention seems clear: vigorous prosecution of the Plumbers without worrying about national security. Unless Jaworski changes his mind, leaders of the Plumbers will soon be indicted — bringing into open court the aspect of Watergate most potentially damaging to the President.

EVEN SOME who fully accept Mr. Nixon's vow that "I'm not a crook" are concerned about his apparently intimate role in establishing a White House secret police, whose principals eventually pulled the Watergate burglary itself. His supporters worry over the possibility that prosecution of the Plumbers might confirm presidential culpability in their operations.

IT IS surprising, then, that the President was so seldom questioned about Plumbers' operations during last week's sessions with Congressmen. An exception: during Mr. Nixon's tense Nov. 14 evening session with Republican Senators, he was asked by Sen. Charles Mathias

of Maryland to justify the aborted secret intelligence plan (the so-called Huston plan) and the Plumbers.

Some, but not all, remember Mr. Nixon replying that the FBI, the CIA and "other agencies" urged that course — a statement unfounded in fact. At that point, presidential counselor Bryce Harlow broke in to suggest Mathias could get his answers from Mr. Nixon's statement of May 22.

MATHIAS RETORTED that the turgid May 22 statement, Mr. Nixon's first attempt to cover Watergate with a national security blanket, was part of the problem. The President ended the sterile dialogue by promising Mathias the answer in writing not yet received.

About the same time as that exchange with Mathias, the President's lawyers were warning Jaworski that the Plumbers case involved genuine national security information which could never be divulged.

Jaworski's deposed predecessor, Archibald Cox, was informed of the same secret material by the White House. Indictments were delayed but certainly not stopped.

SHORTLY AFTER Jaworski filed his brief in district court Nov. 12 — contending that not even the President can break the law in the name of national security — he was summoned to the White House. Like Cox, he was told about the national security matter, was convinced that the matter should not be divulged and did not reveal details to his staff. But unlike Cox, he ordered the prosecution to move against the Plumbers without delay.

Thus, while President Nixon responds to all questions about the Plumbers (most recently to the editors at Disney World) by invoking national security, the Plumbers case closes in on him.

Saturday's Jumbles: BURLY TULIP MISERY ISLAND

Answers: Sounds like a capacity for telling untruths — "LIESABILITY"

## Energy Avalanche

John Cunniff

NEW YORK (AP) — The only relief from one economic problem appears to be the distraction of a newer one. Because of their concern about energy, that is, a lot of people overlooked still another rise in living costs.

More accurately, they overlooked the government report on rising prices which came on schedule and contained no surprises, even though the timing, on the day before Thanksgiving, might have been inappropriate.

The over-all rise of 9.6 per cent was noteworthy in itself, but of even greater interest and concern was the realization that it represented a sharp acceleration from the 3.6 per cent rise in September.

FOOD PRICES rose, although only moderately, and some components of the food index, such as red meat, poultry and eggs, actually declined, which comes as no news to shoppers who are now more price conscious than ever.

But a new factor, the price of energy, introduced itself as a powerful inflation factor and will, in all likelihood, pace future increases in the cost of living. Its impact could be far greater than that of food.

While a 3 per cent increase in gasoline and a 5.7 per cent rise in heating oil-coal are large in themselves, they in turn can ignite explosive increases in other areas of economy. All industries are energy-dependent.

AS ENERGY prices rise, therefore, they can spark increases in such varied segments of the consumer economy as food, transportation and housing, to name only those most basic to the human condition.

Producers everywhere will find their costs of business higher and will try to pass them on in higher prices. It will cost more to heat and illuminate plants, run the machines and deliver the products.

The energy shortage will produce strains elsewhere too. The Cost of Living Council, to illustrate, is seeking to remove price controls — to get

the government out of the market — at the very time the situation is becoming incendiary.

MORE REALISTICALLY, the council will be needed more than ever, not so much to keep prices down, which it has been unable to do, but to bring order to the avalanche of price pressure that is almost certainly coming.

## Suburbanism Postponed

RIVERHEAD, N.Y. (AP) — Here on the eastern end of Long Island, Suffolk County plans to try and fend off creeping suburbanism and to retain some of its agricultural atmosphere by preserving farm land. Many of the farms have already been bought up by speculators who lease them back to the farmers while awaiting the proper time for development.

County legislators have agreed to spend \$45 million in a three-year period on the preservation project. One possible method is for the county to buy development rights of the land for about 70 per cent of its value, and let farmers continue to farm it.

## It Was Cheaper For Mexicans

DOUGLAS, Ariz. (AP) — The penny slots allowing 12 minutes of parking have been removed from the parking meters at this town on the Mexican border. A Mexican five-centavo piece, worth only a third as much, fitted nicely.

Only nickels and dimes are now accepted.

## A Hot Job

EREGLI, Central Turkey (AP) — Three thieves who raided the safe on a high school here on a hot night were arrested as they dipped into ice cream from the school's canteen refrigerator, police said.

## The Hand That Signed The Will

It was a scene fit for the movies. Old Mr. Watkins lay dying. His will was rushed to his hospital room, ready for signing. But as he was in the act of inscribing his name, his strength failed him.

"HELP ME FINISH," he whispered. A friend stepped to the bedside, held the dying man's hand, and helped him complete the signature.

Was the will valid? A court ruled that it was indeed, even though Watkins had not been able to finish the name himself. The court said there could be no doubt, under the circumstances, that the signature was his own voluntary affirmation of the will.

SOONER OR later, death overtakes us all. Yet, people persist in waiting until their final moments to make a will.

Obviously, this heightens the chance of a slip-up. Consider another death-bed case:

An elderly widow also felt her strength ebbing while she was part way through her signature. But instead of asking for assistance, she merely lay back and said:

"I just can't sign it now."

SHE NEVER did finish. In due course, her heirs tried to establish the validity of the will on the basis of the partial signature. But this time, their efforts were in vain. The court said the widow's own words indicated that she did not consider the document complete.

IN A THIRD case, a man had already lapsed into unconsciousness by the time the will was brought to his bedside. Here too a friend held his hand and guided his signature. Afterward, everyone agreed that the will had been drawn up in accordance with his instructions.

NEVERTHELESS, a court found the man's will null and void. The signature didn't become his, said the court, merely because his hand was in physical contact with the pen while his name was being written.

"There was no magic in his touch," said the court. "Both its power and the intelligence necessary to direct it were in a state of suspension."

(A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.)

## A Devotion For Today . . .

On seeing them (brethren from Rome) Paul thanked God and took courage. (Acts 28:15)

PRAYER: Our Father we would remember Jesus' answer to the question "Who is my neighbor?" Help us to put our faith into practice in response to our neighbor's need. In Jesus' name. Amen.

**British Movie Star Laurence Harvey Dies**

LONDON (AP) — British movie star Laurence Harvey died of cancer at his London home Sunday night, friends reported today. He was 45.

The actor with the soft, suave manner had been ill for the past 18 months. Friends called on him repeatedly in recent weeks.

Harvey was married for the third time at the end of last year. His bride was fashion model Paulene Stone, mother of his 3-year-old daughter Domino. The marriage was at Beverly Hills, Calif.

Harvey's previous wives were American millionairess Joan Cohn and British actress Margaret Leighton. Both marriages ended in divorce.

Harvey never attained the highest ranks of international stardom but his performances

in such movies as "Room at the Top," "The Manchurian Candidate" and "Darling" established him in the United States as well as this country.

His bride of less than a year tended the Lithuanian-born actor during months of illness at his elegant London home.

Harvey, born Larushka Micha Skirne, underwent surgery and cobalt ray treatment in Los Angeles last May.

During the last months at home Harvey worked on a script for a film he wanted to start shooting early next year.

Among the recent stream of callers were Elizabeth Taylor, Rex Harrison and one of his closest friends, playwright Wolf Mankowitz.

Friends said Harvey will be cremated at a private ceremony in Golders Green, London, on Wednesday.

Harvey, a chain smoker, always tried to live like a jet set star with stylish clothes, a big-spending manner and a fund of showbiz anecdotes.

On the screen he was more effective in roles that gave him the chance to exude quiet, well-bred menace.

LAURENCE HARVEY

**College Survey Being Conducted**

LAMESA — Howard County Junior College is conducting a survey to determine what courses to offer area residents through the Lamesa Extension Center.

The survey, which includes a list of 41 different college courses which could be offered here in Lamesa, will be vital to college officials in planning the spring semester in Lamesa.

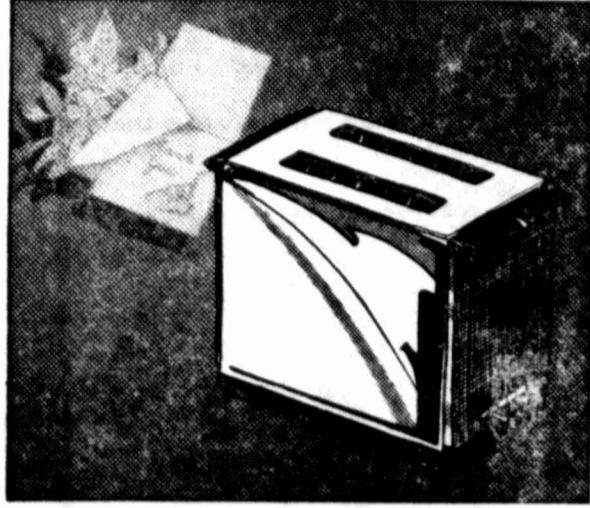

The courses offered include everything from welding to real estate. The survey forms should be turned in to the Lamesa Chamber of Commerce by Dec. 1.

# Economy in a Full Size Car WE HAVE IT!

THE 1974 FORD LTD (Equipped with 400 cubic inch engine, power steering, power brakes, automatic transmission, and air conditioning) driven at 70 m.p.h. averages 15 miles per gallon of gasoline. (Some drivers average more than 15 miles per gallon.)

**Prove It To Yourself—Test Drive One Today**

An economy car (4-cylinder engine, automatic transmission, air conditioned) will average 22 miles per gallon. Based on 12,000 road miles (average driver) at 38¢ per gallon, a Full Size FORD will cost you only \$96.72 more for 12,000 miles of road driving, over the compacts.

**In The Full Size FORD, You Have Comfort-Safety-Performance plus Economy**

With Our Big Sales Objective of 88 New Cars and Trucks for November We Must Sell 5 More New Units Per Day **"DON'T MAKE A \$300 MISTAKE!"**

**Our Volume Selling Saves You Money**

REGARDLESS OF YOUR AUTOMOTIVE NEEDS, WE HAVE THE CAR FOR YOU. Over 125 New Units NOW IN STOCK!! From the PINTO Compact To The Economy LTD

# Johnson's Passes Put Denver In Top Spot

By The Associated Press  
That is not a mistake in the National Football League standings. The Denver Broncos really are in first place.

The Broncos, accustomed to the glamorous surroundings, climbed to the top of the American Football Conference West Division Sunday by beating Kansas City 14-10. Denver turned the trick on a pair of touchdown passes 81 seconds apart from Big Spring's Charley Johnson to Haven Moses.

That moved the Broncos one-half game ahead of both Kansas City and Oakland, who are tied for second place. The Raiders moved into that deadlock with a 31-3 romp over San Diego.

Elsewhere, Cleveland closed to within one-half game of Pittsburgh at the top of the AFC Central Division, beating the Steelers 21-16. In the same race, Cincinnati moved only one game behind, defeating St. Louis 24-24.

In other games, Los Angeles defeated New Orleans 24-13, staying one game ahead of the Atlanta Falcons in the NFC West. The Falcons whipped the New York Jets 28-20. Minnesota belted Chicago 31-13. Buffalo downed Baltimore 24-17. New England shut out Houston 32-0, and Philadelphia topped the New York Giants 20-16.

In last Thursday's holiday games, Washington shut out Detroit 20-0 and Miami beat Dallas 14-7.

Green Bay's nationally televised game at San Francisco tonight completes the NFL's 11th week of action.

Even losing Coach Hank Stram couldn't feel too badly about losing to the resurgent Broncos, who have become winners for the first time in the franchise's history.

"I'm almost glad to see this franchise come along," said Stram, after his Chiefs bowed to the Broncos 14-10. "They've worked so hard and their fans have been so loyal over all these losing seasons."

Stram's Chiefs blanked the Broncos for most of the game. But Johnson's scoring pitches of 18 and 40 yards to Moses in the final two minutes of the first half proved decisive.

**Browns 21, Steelers 16**  
Greg Pruitt's 19-yard TD run with 61 seconds left, turned around Cleveland's game against Pittsburgh and gave the Browns their 21-16 decision. Moments earlier, he had caught a 42-yard pass from Mike Phipps to set up the winning score.

**Vikings 31, Bears 13**  
Minnesota's NFC Central Division champions mauled Chicago 31-13 in a game they dedicated to longtime Viking defensive back Karl Kasulke, who was paralyzed in a preseason motorcycle accident. Kasulke, confined to a

wheelchair, made his first public appearance since the accident, shaking hands with the players during halftime ceremonies.

**Bengals 42, Cardinals 24**  
Ken Anderson pitched three touchdowns, leading Cincinnati to its 42-24 victory over St. Louis. It was the Bengals' best scoring show of the season. Even though it came against the league's poorest defense, Anderson was glad to see it. "We finally got our offense untracked," the quarterback said.

**Raiders 31, Chargers 3**  
George Atkinson returned an early recovered fumble 59 yards for a touchdown and Ken Stabler passed for two more Oakland scores in the Raiders' 31-3 romp over San Diego.

**Rams 24, Saints 13**  
Los Angeles maintained its one-game lead in the NFC West by coming from behind to overtake New Orleans. John Hadl threw two TD passes for the Rams, the second one putting LA in front to stay late in the third period.

**Falcons 28, Jets 20**  
Bob Lee passed for two touchdowns and Eddie Ray ran for two more, giving Atlanta its 28-20 victory over the Jets and keeping the Falcons one game back of Los Angeles.

**Bills 24, Colts 17**  
Buffalo came from behind with a pair of touchdowns 23 seconds apart in the final 17 seconds of the game to defeat Baltimore 24-17. Dwight Harrison returned an interception 31 yards for the deciding score.

O.J. Simpson, zeroing in on Jim Brown's all-time single season rushing record of 1,863 yards, gained 124 in 15 carries. That pushed his season total to 1,448 yards, 416 short of Brown with three games to play.

**Patriots 32, Oilers 0**  
Jim Plunkett passed for a pair of touchdowns and New England wiped out Houston 32-0. Plunkett moved the Patriots to a 24-0 halftime lead and they coasted after that. He gained 175 yards passing before leaving the game. Houston, meanwhile, managed only 184 total yards.

**Eagles 26, Giants 16**  
Philadelphia's Tom Sullivan churned out 155 yards in a ground-oriented attack that carried the Eagles to their 20-16 victory over the New York Giants.

"TAKE THAT" — Haven Moses (25) gets ready to spike the ball in the Kansas City end zone after scoring his second touchdown for Denver, both on passes thrown by Big Spring's Charley Johnson. Mike Sensibaugh arrives a little late and did not join in the jubilation as the Broncos swarmed over Moses. Denver scored a 14-10 win over the Chiefs to take over first place in the AFC West. Kansas City and Oakland are a half-game back of the Broncos.

## AFTER NINTH WIN

### Hawks Square Off With Cisco JC

CISCO — Howard County's Hawks find out about another regional basketball foe tonight at 7:30 p.m. when the HCJC cagers visit Cisco Junior College.

Cisco cagers, who were ranked among the top 20 teams in the country at one time. One of the wins was a forfeit, one of five given up by Cisco because of an ineligible player, and another was for third place in the regional tournament in Brownwood, the last game of the 1972-73 season for both teams.

Starting for the Hawks tonight will be Taylor Williams and Thomas Bledsoe, both high-scoring 6-7 sophomores, at the inside positions, with Alfred Gladden at forward and Leroy Lumzy and Bobby Beall at the guards.

Mike Randle, Dave Matthews, Willie Young, Keith Lewis and David Tolliver will also get in on the action.

## AP Cage Poll No Shock To Wooden

LOS ANGELES (AP) — To nobody's surprise, certainly not John Wooden's, the UCLA Bruins are ranked No. 1 in The Associated Press preseason collegiate basketball poll.

Wooden said he's looking forward to Dec. 15 but that game takes secondary importance to the Pacific-8 Conference race.

Wooden said he doesn't feel more confident about this team than he has some of the others yet. "I do go into it optimistically," Wooden said.

"It's also going to take some time for this team to develop unity. I don't expect this team to have unity by Dec. 15 or be as strong then as it will be later on," Wooden said.

The UCLA team, with first-place votes in parentheses, 1973 season records and total points. Points tabulated on basis of 20-16-14-12-10-9-8-7-6-5-4-3-2-1.

Table listing top teams in the AP poll: 1. UCLA (39), 2. N. Carolina (27), 3. Indiana (26), 4. Michigan (25), 5. Kentucky (25), 6. North Carolina State (24), 7. Kansas State (24), 8. Providence (24), 9. Louisville (23), 10. Notre Dame (22), 11. Memphis State (22), 12. San Francisco (22), 13. Iowa (21), 14. Arizona (21), 15. Penn State (21), 16. Wake Forest (21), 17. New Mexico State (21), 18. Memphis State (21), 19. North Carolina State (21), 20. Virginia Tech (21).

UCLA is not the unanimous preseason choice of the panel of sports writers and broadcasters. The Bruins received 39 first-place votes and 816 points. North Carolina State is ranked second with the other two first-place votes and 706 points.

Indiana was third, followed by Maryland, North Carolina, Providence, Marquette, Notre Dame, Louisville, Kentucky, San Francisco, Long Beach State, Kansas State, Houston, Arizona, Penn, Jacksonville, Alabama, Nevada-Las Vegas and Memphis State.

UCLA which opens the season with a 75-game winning streak Nov. 30 against Arkansas, plays North Carolina

ing Los Angeles over Portland. Goodrich's total included his 12,000th NBA point.

## Frazier Has Bad Night, Knicks Lose To Bulls

It was a National Basketball Association game, but to Walt Frazier it looked more like football.

"Now I know how a quarterback feels — my teammates looked open but when I passed, it got intercepted," said Frazier after his Knicks were beaten 109-81 by the Capital Bullets Sunday night.

Almost nothing went right for the defending NBA champions while facing the Bullets' rugged defense.

The Bullets held an opponent under 100 points for the ninth time in 18 games this season.

In the other NBA games, the Milwaukee Bucks beat the Philadelphia 76ers 105-96; the Boston Celtics trimmed the Cleveland Cavaliers 107-101; the Seattle SuperSonics stopped the Kansas City-Omaha Kings 104-99 and the Los Angeles Lakers crushed the Portland Trail Blazers 137-109.

In the American Basketball Association, the Indiana Pacers nudged the New York Nets 126-124 and the Memphis Tams mopped the Denver Rockets 87-86.

Kareem Abdul-Jabbar scored 31 points and Lucius Allen 23 to lead Milwaukee past Philadelphia 105-96. The victory pulled the Bucks 1 1/2 games ahead of Chicago in the Midwest Division.

John Havlicek went on a third-quarter shooting spree to lead Boston to a 107-101 decision over Cleveland.

The game was tied at 76 with 2:42 to go in the third period before Havlicek broke loose, ripping off three straight baskets for an 82-76 lead. Havlicek finished with 25 points.

SuperSonics 104, Kings 99  
John Brisker scored 37 points as Seattle handed Kansas City-Omaha its seventh straight loss. Brisker scored 28 of his points in the second half as the Sonics wiped out a Kings' lead.

Lakers 117, Trail Blazers 109  
Gail Goodrich scored 40 points in three quarters, lead-

## STORM OF PROTEST

### Buckeyes Again Chosen To Play In Rose Bowl

Roses are red, Michigan's blue, Southern Cal's back, Ohio State, too.

That's the Rose Bowl story in a nutshell, which lined up a repeat performance Sunday when the Big Ten athletic directors surprisingly voted to send Ohio State back to Pasadena in the wake of Saturday's 10-10 showdown with Michigan.

Southern Cal, which nailed down the 1972 national championship by walloping Ohio State 42-17 in the last Rose Bowl, clinched the Pacific-8 crown and a return trip by defeating UCLA 23-13.

And while the Big Ten voted raised a storm of protest — mostly in Michigan, naturally — the outcome of the game was sure to shuffle The Associated Press national rankings, which will be released tonight.

Last week, Ohio State was rated first, Michigan fourth, UCLA eighth and Southern Cal ninth. Runner-up Alabama defeated No. 7 Louisiana State 21-7 last Thursday after fifth-ranked Notre Dame walloped Air Force 48-15.

Friday, third-ranked Oklahoma blanked No. 10 Nebraska 27-0 and on Saturday, sixth-ranked Penn State downed Pittsburgh 53-13.

Possibly the man happiest with the tie was Alabama's Bear Bryant... and 'Bama's not even in the Big Ten. But the Crimson Tide hopes to move up to No. 1 in the rankings as a result of the tie.

"Both Coach Woody Hayes of Ohio State and Bo Schembechler of Michigan are good friends of mine and I hate to see either one lose," Bryant joked. "I was kind of glad to see a tie."

Sunday's vote overshadowed Saturday's game in which Ohio State scored 10 points in the second period on Blair Conroy's 31-yard field goal and Pete Johnson's five-yard run and Michigan rallied in the fourth quarter on Mike Lantry's 30-yard field goal and Dennis Franklin's 10-yard run.

Franklin later suffered a broken collarbone and his likely absence from the Rose Bowl apparently was one factor the Big Ten athletic directors took into consideration in sending Ohio State back. The vote was believed to be 6-4, with Ohio State, in addition to its own vote, receiving the nod from Iowa, Michigan State, Northwestern, Purdue and Wisconsin.

Schembechler was furious. "I'm very bitter," he said. "I regret it. It's a tragic thing for Big Ten football. The Big Ten administration hasn't been very tough and it hasn't been very good."

Ohio State, of course, thought the vote went its way because the Buckeyes have been ranked No. 1 most of the season.

"HAD TO BE"  
"They voted for what they thought was the best team in the conference," said Ed Weaver, Ohio State's athletic director. "They wanted to send the team that was the most consistent. That had to be us. We were too good too long this season."

Hayes admitted he was "somewhat surprised," adding:

However, before the experts get all puffed up, it would be best to glance at the ledger of the Rice Owls before they host Baylor Saturday in Rice Stadium.

The Owls, should they defeat Baylor, would finish third — no small feat by Coach Al Conover's men, Rice was generally picked to finish last or next to last.

Rice downed Texas Christian 14-9 Saturday at Amon Carter Stadium. The game was the last home contest for TCU Coach Billy Tohlil who has been fired effective this Saturday. Lightning struck the stadium and held up play for 10 minutes. No one was injured. Carl Swierc provided Rice's own brand of lightning with a 99-yard kickoff return for a touchdown.

The game ended with Rice on TCU's one-yard line and Conover hoping his team wouldn't score.

Oh, how Texas Tech Coach Jim Carlen still wants Another Crack At Texas

By The Associated Press  
Oh, how Texas Tech Coach Jim Carlen yearns for September and just one more crack at the Southwest Conference football champion Texas Longhorns.

Asked to summarize the season Saturday after a 24-17 victory over Arkansas to give the Red Raiders second place and a 10-1 season, Carlen said: "I'd like to play Texas again."

But he quickly added "But then again I guess Darrell (Royal) would like to play Oklahoma and Frank (Broyles) would like to play teams which beat him."

"I was hoping we could be undefeated at the beginning of the year, but I'm like that every year. That's one reason I don't make predictions... I want to win them all."

Tech finished just where the pre-season experts said they would—second behind powerful Texas which will play Nebraska in the Cotton Bowl on New Year's Day.

STORM OF PROTEST  
Buckeyes Again Chosen To Play In Rose Bowl

ROSES ARE RED, MICHIGAN'S BLUE, SOUTHERN CAL'S BACK, OHIO STATE, TOO.

THAT'S THE ROSE BOWL STORY IN A NUTSHELL, WHICH LINED UP A REPEAT PERFORMANCE SUNDAY WHEN THE BIG TEN ATHLETIC DIRECTORS SURPRISINGLY VOTED TO SEND OHIO STATE BACK TO PASADENA IN THE WAKE OF SATURDAY'S 10-10 SHOWDOWN WITH MICHIGAN.

SOUTHERN CAL, WHICH NAILED DOWN THE 1972 NATIONAL CHAMPIONSHIP BY WALLOPING OHIO STATE 42-17 IN THE LAST ROSE BOWL, CLINCHED THE PACIFIC-8 CROWN AND A RETURN TRIP BY DEFEATING UCLA 23-13.

AND WHILE THE BIG TEN VOTED RAISED A STORM OF PROTEST — MOSTLY IN MICHIGAN, NATURALLY — THE OUTCOME OF THE GAME WAS SURE TO SHUFFLE THE ASSOCIATED PRESS NATIONAL RANKINGS, WHICH WILL BE RELEASED TONIGHT.

LAST WEEK, OHIO STATE WAS RATED FIRST, MICHIGAN FOURTH, UCLA EIGHTH AND SOUTHERN CAL NINTH. RUNNER-UP ALABAMA DEFEATED NO. 7 LOUISIANA STATE 21-7 LAST THURSDAY AFTER FIFTH-RANKED NOTRE DAME WALLOPED AIR FORCE 48-15.

FRIDAY, THIRD-RANKED OKLAHOMA BLANKED NO. 10 NEBRASKA 27-0 AND ON SATURDAY, SIXTH-RANKED PENN STATE DOWNED PITTSBURGH 53-13.

POSSIBLY THE MAN HAPPIEST WITH THE TIE WAS ALABAMA'S BEAR BRYANT... AND 'BAMA'S NOT EVEN IN THE BIG TEN. BUT THE CRIMSON TIDE HOPES TO MOVE UP TO NO. 1 IN THE RANKINGS AS A RESULT OF THE TIE.

"BOTH COACH WOODY HAYES OF OHIO STATE AND BO SCHEMBECHLER OF MICHIGAN ARE GOOD FRIENDS OF MINE AND I HATE TO SEE EITHER ONE LOSE," BRYANT JOKED. "I WAS KIND OF GLAD TO SEE A TIE."

SUNDAY'S VOTE OVERSHADOWED SATURDAY'S GAME IN WHICH OHIO STATE SCORED 10 POINTS IN THE SECOND PERIOD ON BLAIR CONROY'S 31-YARD FIELD GOAL AND PETE JOHNSON'S FIVE-YARD RUN AND MICHIGAN RALLIED IN THE FOURTH QUARTER ON MIKE LANTRY'S 30-YARD FIELD GOAL AND DENNIS FRANKLIN'S 10-YARD RUN.

FRANKLIN LATER SUFFERED A BROKEN COLLARBONE AND HIS LIKELY ABSENCE FROM THE ROSE BOWL APPARENTLY WAS ONE FACTOR THE BIG TEN ATHLETIC DIRECTORS TOOK INTO CONSIDERATION IN SENDING OHIO STATE BACK. THE VOTE WAS BELIEVED TO BE 6-4, WITH OHIO STATE, IN ADDITION TO ITS OWN VOTE, RECEIVING THE NOD FROM IOWA, MICHIGAN STATE, NORTHWESTERN, PURDUE AND WISCONSIN.

SCHEMBECHLER WAS FURIOUS. "I'M VERY BITTER," HE SAID. "I REGRET IT. IT'S A TRAGIC THING FOR BIG TEN FOOTBALL. THE BIG TEN ADMINISTRATION HASN'T BEEN VERY TOUGH AND IT HASN'T BEEN VERY GOOD."

OHIO STATE, OF COURSE, THOUGHT THE VOTE WENT ITS WAY BECAUSE THE BUCKEYES HAVE BEEN RANKED NO. 1 MOST OF THE SEASON.

"HAD TO BE"  
"THEY VOTED FOR WHAT THEY THOUGHT WAS THE BEST TEAM IN THE CONFERENCE," SAID ED WEAVER, OHIO STATE'S ATHLETIC DIRECTOR. "THEY WANTED TO SEND THE TEAM THAT WAS THE MOST CONSISTENT. THAT HAD TO BE US. WE WERE TOO GOOD TOO LONG THIS SEASON."

HAYES ADMITTED HE WAS "SOMEWHAT SURPRISED," ADDING:

HOWEVER, BEFORE THE EXPERTS GET ALL PUFFED UP, IT WOULD BE BEST TO GLANCE AT THE LEDGER OF THE RICE OWLS BEFORE THEY HOST BAYLOR SATURDAY IN RICE STADIUM.

THE OWLS, SHOULD THEY DEFEAT BAYLOR, WOULD FINISH THIRD — NO SMALL FEAT BY COACH AL CONOVER'S MEN, RICE WAS GENERALLY PICKED TO FINISH LAST OR NEXT TO LAST.

RICE DOWNED TEXAS CHRISTIAN 14-9 SATURDAY AT AMON CARTER STADIUM. THE GAME WAS THE LAST HOME CONTEST FOR TCU COACH BILLY TOHLIL WHO HAS BEEN FIRED EFFECTIVE THIS SATURDAY. LIGHTNING STRUCK THE STADIUM AND HELD UP PLAY FOR 10 MINUTES. NO ONE WAS INJURED. CARL SWIERC PROVIDED RICE'S OWN BRAND OF LIGHTNING WITH A 99-YARD KICKOFF RETURN FOR A TOUCHDOWN.

THE GAME ENDED WITH RICE ON TCU'S ONE-YARD LINE AND CONOVER HOPING HIS TEAM WOULDN'T SCORE.

OH, HOW TEXAS TECH COACH JIM CARLEN STILL WANTS ANOTHER CRACK AT TEXAS

By The Associated Press  
Oh, how Texas Tech Coach Jim Carlen yearns for September and just one more crack at the Southwest Conference football champion Texas Longhorns.

Asked to summarize the season Saturday after a 24-17 victory over Arkansas to give the Red Raiders second place and a 10-1 season, Carlen said: "I'd like to play Texas again."

But he quickly added "But then again I guess Darrell (Royal) would like to play Oklahoma and Frank (Broyles) would like to play teams which beat him."

"I was hoping we could be undefeated at the beginning of the year, but I'm like that every year. That's one reason I don't make predictions... I want to win them all."

# 'Freckles' Will Open Series For Children

A series of children's movies is scheduled to appear on four consecutive Saturdays at the Ritz Theatre. Sponsored by the American Association of University Women, the movies will begin at 10 a.m., Saturday, with the showing of "Freckles."

Subsequent movies will be

"Pinocchio in Outer Space," Dec. 8; "Snow White and the Three Stooges," Dec. 15; and "Puffstuf," Dec. 22.

The purpose of the series is to provide children with an opportunity to see and appreciate G rated films, as well as to raise funds for scholarships awarded by the AAUW. The project began in

1970 and has become an annual project of AAUW.

Tickets for the series will be sold in all local elementary schools Tuesday, Wednesday and Thursday. The price is \$1.75, which entitles a child or parent to see all four movies. Tickets may be purchased on an individual basis at the door for 50 cents each.

Local students who have received scholarships from funds raised by the movies include Miss Donna Stanley, Miss Marcia Dement, Miss Susan Trina, Miss Joann Allen, Miss Leticia Trevino and Mrs. Pamela Rawl. Two scholarships are awarded in May of each year.

## Still Crying

Dear Abby

Abigail Van Buren

DEAR ABBY: I have a good friend (I'll call her Nellie) whose husband died on Christmas Day four years ago. They had been married for more than 60 years, and Nellie is still mourning for him. She keeps crying: "Harry, why did you leave me?"

Abby, I have been a widow for 22 years, and I loved my husband as much as Nellie loved Harry, but I realized feeling sorry for myself and making everybody else miserable by crying all the time wasn't going to help, so I just put on a happy face and accepted it.

Nellie tells me that one of her friends wrote: "Cry as much as you feel like it, until you are all cried out."

I don't agree with that. I think if she would quit crying, and thank God for the 60 good years she had with Harry, she would be better off.

What do you say?  
GRANDMA I FLORIDA  
DEAR GRANDMA: I say, how one handles his grief is a very personal matter. (Some never are "cried out.") Putting on an "act" of courage often builds strength. And it certainly is an act of charity to one's friends.

DEAR ABBY: I read with interest your opinion of wife-swapping. Thank you

for saying: "To me, the sexual expression of love is a beautiful, private thing between two people, and using sex to achieve the ultimate in a thrill which could conceivably include the whole neighborhood is for animals."

Now, may I relate my own experience in that regard? After my husband and I had been happily married for 10 years, he suggested wife-swapping. The idea was disgusting to me, but he kept insisting it would improve our relationship, and even though I thought our relationship was fine, because I loved him and wanted to please him, I agreed to try it. It was the most foolish decision I ever made.

The result: Two divorces, and five beautiful children who now miss their daddies.

Contrary to what the swingers say, there can be no sex without some emotional involvement. Because I loved my husband, I went too far to please him, and lost my self respect.

TOO LATE:  
DEAR TOO LATE: My mail concerning wife-swapping is running 20 to 1.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212.

## Art Gallery Spotlights Feminists

By C. G. McDANIEL  
CHICAGO (AP) — A new feminist art gallery designed to show that "women don't just have to be mothers or dilettantes" has opened here.

This is one of the goals of Artists, Residents of Chicago (ARC), explained Mrs. Gerda Meyer Bernstein, an exhibitor. The new gallery is a cooperative effort, in which 17 Chicago-area women are participating initially. Those who belong pay \$30 a month to pay gallery expenses.

Similar galleries have opened in New York and Los Angeles, and a second such gallery is to open here Friday, next door to ARC. Mrs. Bernstein said the two galleries will not be competitive but will cooperate on community film making, poetry, drama and the dance.

Frances Schoenwetter, a spokeswoman for ARC, said programs and workshops in the gallery "will provide a vehicle for women artists to work together for mutual support and cooperation."

MISS TEENAGE AMERICA — Miss Teenage Honolulu, Lori Mateukawa, 17, shows her elation after being named the new Miss Teenage America Saturday in Fort Worth. She was chosen after a week-long series of festivities and events in conjunction with the pageant.

## Anniversary Celebrated With Family Reunion

Mrs. Granvil Miller has returned from Sulphur Bluff where she attended the 50th wedding anniversary of her parents, Mr. and Mrs. H. W. Weaver. Four generations were represented by Mrs. Weaver, Mrs. Miller, Mrs. Miller's daughter, Mrs. Charles O'Neal of Mt. Vernon and her daughter, Annetta.

Others attending were the Weavers' sons, Sammy

Miller, Sulphur Bluff, and Tommy Weaver of Odessa.

The honored couple, married Dec. 4, 1923, at Elmore City, Okla., has three grandchildren and four great-grandchildren.

Mrs. Miller made the trip to Sulphur Bluff with Sammy Miller and his son, Sammy Gay, who were deer hunting in the Oak Creek area, stopping in Big Spring on the way back home.

## Gardeners Plan For Holidays

"Getting Ready for the Holidays" was the program presented Tuesday to the After Five Garden Club by Mrs. J. O. Allen in the home of Mrs. Edward Shive, 604 Bucknell. Mrs. Allen displayed some of the Christmas needlework items and ceramics she has made. Throughout the program, Mrs. Allen assisted the members in making some festive felt tree decorations.

After Mrs. Huey Rogers' report on the city-wide "Clean Up-Shape Up" Program, the membership voted to participate along with other Garden Clubs of Big Spring. Mrs. Rogers and Mrs. Charles Porch were nominated to the telephone committee.

Mrs. John Hughes gave a report on the flower arranging workshop she attended for the Men's Garden Club State Meeting. Mrs. Hughes, along with Mrs. Tom Ivey and Mrs. Paul Sheedy were elected for the nominating committee.

Other committee members appointed were Mrs. Enoch Smith, Mrs. Dee Thomas, project; Miss Bessie Love, book; Mrs. Shive, Mrs. Charles Porch, yearbook; Mrs. Harold Bell, publicity; Mrs. Paul Sheedy, scrapbook.

## Scout Leaders Attend Seminar

Ideas for games and other leadership training concepts were discussed by Girl Scout leaders at a recent leadership seminar at First United Methodist Church.

Mrs. Gail Little, Brownie consultant, led a discussion about possible Brownie activities. Each leader present gave suggestions for activities.

# 4-H'ers Attend National Meet

Miss Donna James, daughter of Mr. and Mrs. Ovis James of Coahoma, was one of three Texas girls to win an all-expense paid trip to the 32nd National 4-H Congress in Chicago.

Miss James, 15, a member of Coahoma 4-H Club, won for her 1973 club project which was based on the bread program. She prepared 152 bread dishes throughout the project, and won blue ribbons with her demonstration entitled, "Whole Wheat Muffins." The recipe was her own.

"I've learned that the way I eat influences the way I feel and act," said Miss James, discussing her studies on the need for bread in a diet.

Other Texas winners for club projects were Karen Grigg, 15, Sherman, and Cheryl Hundley, 17, Claude. They are in Chicago for the convention which began Sunday and goes through Thursday. They were chosen by the Cooperative Extension Service and will be among some 30 state 4-H'ers at the

Congress. Miss Grigg won top honors in the 4-H conservation of natural resources program. She cleared her family's land in Grayson County of scrub bushes, filled in a gully to stop erosion and aided in planning the site for a new family home so that natural resources would not be disturbed.

Miss Hundley won the food preservation award, doing research on various methods of canning.
