

Mustangs Drill For Morton 11, Set Scrimmage

Football season is roaring over the horizon, and action in the Olton area is beginning to reach a feverish pace in preparation for the Mustangs' opening game at Morton Sept. 4.

Coach Walter Bryan has been sending the Mustangs through ever more vigorous workouts the past several days trying to get the team in shape for the upcoming battles.

A scrimmage has been set with Frenship this afternoon on the old football field, will be at 5 p.m.

Bryan has 47 boys trying out for the team now. These include 13 lettermen and seven starters from the team that was second in the district last year.

The way things are shaping up, Olton and Floydada are headed for a thunderous collision in the district wars. Consensus favors the Mustangs, but Coach Bryan picks Floydada as a strong possibility for the title--and Floydada's Bill Curry returns the favor by picking the Mustangs as a likely winner of the clash.

Be that as it may, the Mustangs should be in good shape this year. The loss of four lettermen from the 1963 team didn't help anything, but Bryan has a habit of finding replacements for even the severest losses.

Despite the losses, the Mustangs have back three All-District first team players--with three more who ranked right behind them.

Bryan still insists that the team has a long way to go to develop its full potential, and says the strongest handicap he sees to the potential development of the team is the lack of team speed.

The coach, who has posted a winning 26-16 record as Olton's head coach, does agree that a winning season can be expected from the 1964 edition of the Olton Mustangs.

Senior lettermen returning for the Mustangs are Junior Cordero, Dwight Clark, Dennis

Givens, Darrell Glover, Richard Hall, Leon Kendall, Jerry LaFrance, Joe Costello and Don Sopher.

Junior lettermen are Jackie Burkhalter, Charles Church, Don Mitchell and Joe Priest.

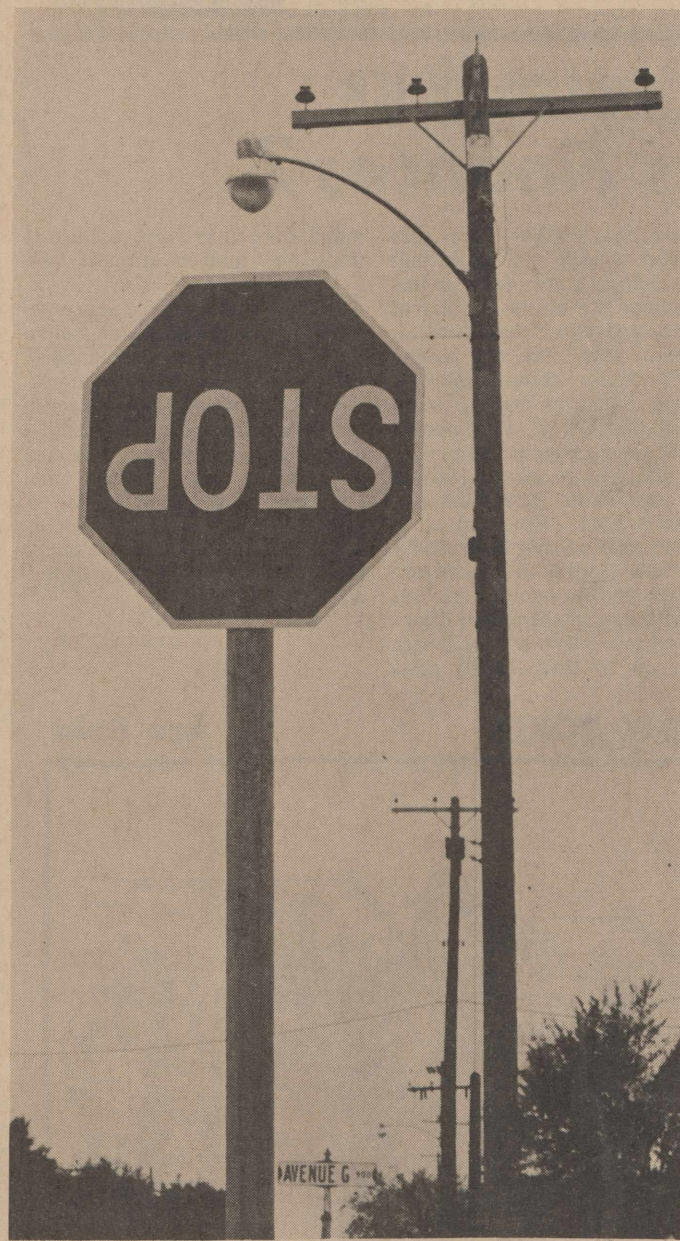

Other seniors in the crowd this year are Ronnie Digby, Joe Bob Smith, and Ronnie Trusty.

Juniors out for berths on the team are Aaron Roberson, Darrell Breland, Gail Bizzell, Stan Huckabee, Steve Huckabee, Bill Kemp, Burney Hooper, Tommy Hall, Curtis Hall, and Steve Moss.

This year's group of sophomores includes Tommy Sanders, Jerry Kemp, Ralph Pulido, Joe Fincher, David Aigaki, Harry Mac Thomas, Richard Zakka, Jim Huckabee, Roger Thompson, Albert Key, Jimmy Schreier, Larry Neinst, Jimmy Ivins, Dale DeBerry, Jim Smith, Eddie Smith, Jesse Buckner and Ernest Sanchez.

Team captains this year are senior lettermen--Joe Costello, Dennis Givens, Richard Hall and Leon Kendall.

Right now the coach is still in the process of "culling the football players from the spectators." And when the football players take to the field, there should be fireworks aplenty for even the most avid Mustang fan.

STOP???--What with the start of school just around the corner this is probably as good a time as any to point out that some people in Olton could use some of the "learning" their children are fixing to get. Even a first grader could tell at a glance that the stop sign on the corner of H. P. Webb Elementary School is upside down.

Olton School Bells Will Ring Monday

Monday marks the sudden end of summer for Olton youngsters. It is the day when all the joys of summer become memories, and the hard work of a new school year becomes a reality.

Monday is the first day of school for most Olton area students, and they will find that school is still what it always was--work.

A few changes have been made during the summer though. The gym floor has been refinished, the football field's been moved, the school's been repainted and spruced up, and the area is buzzing with construction work.

Some of the old, familiar faces will be gone; new faces will be taking their place. But strangers usually don't remain strangers long in a school, and the excitement of a new school year usually wears off pretty rapidly. It won't be long before things settle down to normal.

Then football season can live the old school back up. And after that Christmas and basketball season can break the monotony of classwork. Then another semester, a few more activities and a few more vacations, and pretty soon another summer will roll around.

The process is repeated every school year--as it probably always has been and always will be.

The Olton schools will have eight new teachers this year--and a second grade teacher and a science teacher are still needed to complete the Olton faculty.

Mrs. Raye Watson Igo is a graduate

of Wayland College this past year. She will teach English and shorthand in high school.

Mr. and Mrs. Harry E. Ford are returning to the Olton school system after several years of teaching in Littlefield. He will teach mathematics in the junior high school, and she will teach in the fourth grade.

Mrs. Walter D. Bryan, wife of the Mustang coach, originally from Plainview, attended Texas Tech in Lubbock. She will teach in the fourth grade also.

Mrs. C. L. Taylor is a graduate of Texas Tech and has taught at Whitharal. She has been a home demonstration agent, and is presently living in Plainview. She will teach home economics.

Mr. and Mrs. Tom Hamilton are Tech graduates, coming to Olton from Paducah. He will teach science in the Junior High school and she will teach English in the high school.

Miss Kay Taeff, who is slated to be Mrs. Cecil Todd by the time school starts Monday, is a recent graduate of Hardin-Simmons University in Abilene--majoring in science. She will teach in the fourth grade.

The Bohner school will get three new teachers this year, but only two had arrived in Olton when the faculty meeting was convened Tuesday. Those two are Miss Melba A. Payne, from Houston, and Mrs. Elizabeth L. Black, from Plainview.

Bohner's school year started this past Monday; so the summer is rapidly becoming a faded memory for Bohner students.

Olton Area Riding Club To Organize

An organizational meeting for a riding club in the Olton area will be Monday at 8 p.m. in the PCA party room, Calvin Horn announced this week.

Horn said that the basic business of the meeting would be (1) find out how much interest is present for such a club, (2) start the organization, (3) elect officers for the club and (4) plan activities to get the club started.

A possible project outlined for the club was the purchase of land and the construction of pens and paraphernalia commonly associated with a riding club.

Horn said that he had found that some people in the community have a strong interest in such a club, and he said that he had arranged for the meeting so that this interest could be put to a practical, concrete use.

He issued an open invitation to any interested area resident to attend the Monday organizational meeting and help make the club a reality.

First Olton Grain Rolls Into Market

Elkins Gets First Maize

Smiles were the order of the day Tuesday afternoon as the first load of grain for the Olton area was delivered.

L. G. Elkins rolled in with a 16,000 pound load of the golden grain, delivering it to M-C Grain Co. No. 2, five miles north of Circle.

The fact that it brought Elkins a premium price of \$2.00 per cwt. plus a new hat from M-C Grain put a smile on the farmer's sub-bronzed face.

Naturally, elevator manager Edd Burrus was happy.

"It's the first time for me to get a first load," he said.

And even a third party smiled. Gerald Elkins, son of L. G., harvested the maize and commented: "We must have set a record, because we never did have to stop the combine like you expect to when you're cutting this early. Everything went perfectly."

Moisture content of the As-grow R-10 grain was 15.9 per cent, considered dry for a first load.

Elkins planted the feed on May 5.

The load was cut off his acreage a half-mile north of Olton on the Hart Highway. The cutting plot was about three acres.

Elkins put down 200 pounds per acre of dry fertilizer before planting, and sidedressed with 100 pounds of anhydrous ammonia.

He pre-watered once and irrigated three times after putting down the seed.

OLTON'S FIRST GRAIN--L. G. Elkins, center, and Gerald Elkins, right look on as golden grain pours through the fingers of Edd Burrus, manager of M-C Grain No. 2. The first load was delivered by L. G. Elkins Tuesday at 2:30 p.m.

LEAD GAINED IN BURGLARY

The cold trail left by the burglars who broke into Cashway Food here last month may be getting pretty hot now.

The burglars made a successful exit from the Olton area after the burglary, but just scant seconds ahead of pursuing Olton night officer Harvey Castelberry.

Castleberry was not able to apprehend the fleeing thieves, but he was able to describe the car they were driving.

Among the items stolen from the food store were several thousand trading stamps. The stamps have turned up in the stamp redemption center in Amarillo.

According to Cashway operator Herman Meyer, the stamps were identified in Amarillo quickly enough to obtain the name of the person who redeemed them, a description of the car he was driving, and the license number of the car.

At any rate Meyer was called to the Olton City Hall Wednesday to sign a complaint, which opened the way for the issuance of a warrant for the arrest of suspects.

Amarillo police reported at 8 p.m. Wednesday that no suspects had been arrested at that time in connection with the Olton burglary, but they reported that the Amarillo force was working on the case.

The hot Amarillo trail could mean that the burglary will soon become a closed, solved case for Olton officers.

First Bale Honors Slated

The Olton Chamber of Commerce and Agriculture is now tabulating a list of merchants who desire to honor the first bale of cotton this year in Olton.

Manager Melvin McReynolds said the C-CA, as an organization, is not soliciting gifts, merchandise or money for the first bale.

However, if merchants desire to honor the farmer who brings in the first cotton, they may contact the C-CA and place their names on the lists.

McReynolds asked that interested merchants contact the Chamber prior to Friday, Sept. 4, if they wish to participate.

'63 Gross Farm Income In County \$55,572,000

From the standpoint of gross income, Lamb County farms were more profitable in the past year than were farms in most sections of the United States.

Their yield, in proportion to their farm population was better than average, according to a national survey of farm and ranch earnings.

Increased mechanization, coupled with more intensive use of fertilizers and insecticides, has enabled them to produce more per acre than ever before.

The details, showing how local growers made out in relation to those in other areas, are revealed in the county-by-county study, released by the Standard Rate and Data Service.

It lists gross receipts of \$55,572,000 from agricultural operations in Lamb County, in the year. This is the gross figure before deductions for taxes and for the cost of doing business.

Related to the number of people on local farms, it represented a gross income of \$7,509 per capita.

It was a better return than was achieved in most farm communities in the United States, the average being \$3,040 per capita. It also topped the \$3,952 of the State of Texas.

The income figures include the cash receipts from all crop and livestock marketing, together with Government payments and the value of products raised and used on the

farm, known as "income in kind."

Analysis of the local receipts from the sale of farm products, in line with Department of Agriculture findings, shows that some 84 per cent of the returns were from the sale of crops and 16 per cent from the sale of livestock, poultry and dairy products.

Farmers and ranchers throughout the country had to contend with a downturn in crop and cattle prices during the past year. At the same time, their operating costs were mounting.

This price squeeze prevented them turning their increased production into added net income.

Fire Rips Barn At Green Farm

An early afternoon fire Monday on the Lee Green farm southwest of Olton destroyed a barn and its contents.

The alarm was turned in shortly after 2 p.m. Monday, and Olton's Volunteer Firemen rushed to the farm and found the barn, near the house, blazing furiously.

Firemen were able to contain the flames and prevent their spread, but they were not able to save the barn. They stayed with the blaze for about an hour, according to Percy Parsons, the first volunteer to answer the alarm.

Asked about the discovery of the fire, Mrs. Green said, "I don't know who turned in the alarm. Apparently someone driving past discovered it and came into town and turned in the alarm."

Mrs. Green was in Olton at the time the fire broke out, and she didn't know of the loss until she was told by relatives. She said that the barn and its contents were a complete loss, except for one plow.

She said that the barn contained wheat and cotton seed and stored equipment and machinery--a motor, plows, stripper, feeder and loader--at the time of the fire.

She estimated her loss at "close to \$3000." Neither the barn nor its contents was insured.

RUNNING WATER PHILOSOPHER

Reviews Finances?

Editor's note: The Running Water Philosopher on his care-less weed farm on Running Water Draw surely must have a flaw in his thinking this week, but we'll let you figure it out.

Dear editor:

I have been reading the financial statements of the two candidates for President and the way it looks to me, the wives and children are worth more than the men, and I would like to ask you if you think this is a sound trend?

It's a fact, the total worth of Mrs. Johnson and children and Mrs. Goldwater and children is a lot more than the net worth of the two men, according to the financial statements the newspapers have been publishing.

Carrying this one step

further, you reckon it's possible the Court will rule that each United States Senator has represent the same number of people and two Senators from a state with 250,000 people aren't entitled to the same vote as two Senators from a state with 10,000,000? Why should two Senators representing only a handful of people in Nevada have the same power as two Senators from New York state with 10 million people or whatever the figure is? Anybody can see this is unconstitutional.

And there, if a Supreme Court Justice is confirmed by a Senate made up by this clearly one-

sided and unfair representation, isn't the Justice himself unconstitutional?

I tell you, the day the Supreme Court rules the Supreme Court rules the Supreme Court unconstitutional, where'll we turn?

Starting out on the financial condition of Presidential candidates and winding up on the unconstitutionality of the Supreme Court just goes to show you where thinking can lead both me and the Court, too. There are critical times we're living in.

Yours faithfully,
J. A.

COW POKES

By Ace Reid

"Now, Mister, calm down, or people will think you are a poor loser!"

Ask Amy

BY AMY ADAMS

Dear Amy:
My husband died 5 years ago leaving me with a 13 year old daughter. My other three children were married. One year ago I remarried and my single daughter (now 18) is giving me trouble. She finished high school a year ago and enrolled in a business college. She also has a job which pays for her tuition, but lives at our house not contributing one penny for room or board. I also give her carfare and lunches so that she can save her money for future tuition fees.

Now she wants to move to an apartment with a girlfriend who will pay the rent, but she wants us to continue giving her board money and more or less support all her needs and expenses. This I refuse to do! She also wants me to divide the money I received for selling my own home among my four children (naturally including herself) since I have a new husband who can continue to support me.

My daughter is welcome to live with us the way she has been... not lifting a finger nor costing her a penny. I worked hard raising and pleasing them all. No one ever handed me thousands of dollars.

Are all my kids entitled to all-I worked for because I remarried? It's all in their name if I should die, but I'd like to have my money for our keep when we are old and not have to depend on my children.

A Distraught Mother

Dear Mother:
When a son or daughter attends college and must work to pay their tuition fees, they need all the help they can get. Continue to help her while she lives under your roof (and suggest that she pitch in with the housework occasionally). But for her to expect you to finance her "apartment" or to share in the money from the sale of your home is unwarranted and not for her to decide. I think your plans are wise. Do not alter them.

Dear Amy:
Do all women take back whatever you buy them? If they do my wife would win first prize. She is the world's greatest "take-backer." I gave up buying her gifts so now I give her cash, but whatever anyone else buys her,

she can't wait till she can exchange it. I came to the conclusion that she enjoys knocking herself out. What do you think?
Carl

Dear Carl:
I agree. Women who have chronic 'exchange-itis' believe that "whatever you can buy, I can buy better!"

Let her alone. She's having a wonderful time. The day they start an exchange counter for husbands is when you have cause for alarm!

Dear Amy:
For someone who digs the Beatles, you should learn how to spell their name. Shame on you!
A Beatle Fan

Dear Fan:
OOPS! How right you are. I just didn't dig them deep enough!

Dear Amy:
I left home and got married when I was 15½. I am now 19, and about three months ago, my husband left me with three small children to support. I am unable to support my children because I lost a leg in a recent accident and am unable to work.

My physician has asked me to marry him and I feel he is the one for me. My husband has called and demanded the children. I love my children and do not want to part with them. I feel that my physician would make an excellent father for my children although he is 39 years older than I. He said he would divorce his wife to marry me.

What am I to do?

Totally Mixed-up

Dear Mixed-up:
You have a serious problem, but this does not give you the right to create problems for others. How can you knowingly let a man break up his family and home for you so that you can selfishly live with your children in the lap of luxury when you know you don't love him?

Let your conscience be your guide, my dear. Before you return to your physician's office, visit your clergyman's office.

MRS. WENDELL LEE SCRIBNER

Hall, Scribner Marriage Solemnized Here Saturday

Miss Rebecca Ann Hall and Wendell Lee Scribner were married in a double ring ceremony in the garden of the bride's grandparents, Mr. and Mrs. R. G. Walker, Saturday, Aug. 22, with Rev. Russell McAnally of Friona officiating. Parents of the bride couple are Mr. and Mrs. W. T. Hall, Jr., and Mr. and Mrs. Albert Scribner.

The bride was given in marriage by her father under a white arch covered with honeysuckle and bridal wreath, bordered by white wrought iron candle-labra. A white satin kneeling bench centered a white carpet in the aisle.

The bride chose a dress of silk organza over bridal satin. The bell shaped skirt, accented with a wateau train, was encased with wide hemlines of embroidered lace. The bodice was enhanced with a bateau neckline and short sleeves. The gown was designed and made by the bride. Her shoulder length veil of illusion was secured by a tailored bow. She carried an arrangement of white spider mums with pink organza puffs.

Attending as best man was Richard W. Hall, brother of the bride.

The matron of honor was Mrs. David Oates of Celina. She wore a street-length dress of pink organza over satin with a scooped neckline and short sleeves and carried a bouquet of pink spider mums.

Soloists were Mrs. Owen Norfleet and Richard Hall, brother of the bride. Organists were Mrs. Delmer Givens and Mrs. Bob Allford. The bride selected the songs "Whither Thou Goest," and "The Lord's Prayer."

A reception was held in the garden immediately following the ceremony.

The serving table was laid with white net over satin. The centerpiece of pink spider mums in a crystal bowl was flanked by pink candles in crystal holders.

Serving at the reception table were Mrs. Jack Keeble of Fort Worth and Mrs. Jack Straw of Hereford.

Mr. and Mrs. Scribner are 1961 graduates of Olton High School. They are also 1964 graduates of North Texas State University. She acquired her B. S. degree and he holds a B. A. degree in Spanish.

She was on the Dean's Honor Roll for three years and was president of Phi Upsilon Omicron. He was a member of Sigma Delta Pi Fraternity.

The couple will reside in Petersburg, where they will teach in the Petersburg School System.

Sweatt Family Tours Eastern Coastal Area

Mr. and Mrs. Loyd Sweatt and family recently returned home from a three week trip in the East.

They stopped in Saranac, N. Y., to visit with Mrs. Sweatt's father, H. R. Hayes, and other relatives and friends.

Points of interest visited were the Onondago Cave in Missouri, and the Ausable Chasm in New York.

"It was a special thrill" comments Mrs. Sweatt, "to walk aboard the USS Constitution, better known as 'Old Ironsides', in the Boston Harbor."

The ship is being prepared for exhibition at the World's Fair at the time of the Sweatt's visit.

They also visited the "Freedom Trail" in Boston. Mrs. Sweatt says that it is most interesting to see the places where our forefathers met to help us have the freedom we enjoy today.

While still in Boston, they visited the graves of Benjamin Franklin's parents and Paul Revere.

The Board Walk at Hampton Beach, N. H., and the Atlantic Ocean were two more exciting attractions they say. The ocean was much too cold for a swim, according to Mrs. Sweatt.

Returning toward home, they finished their touring with a look at the Blue Ridge Mountains of Virginia.
