Another Graduation Ceremony has come and gone and with those seniors go just a bit more of a little of all of us. Whether you know each of them personally or not, we all know of them and well, it just sorta gets to you to see the young-uns grow up so quickly.

However, enuff nostalgia I reckon.

Seems that last week John Marvin Wilson, over at the bank, got quite a bit of hoo-ah concerning his black eyes, and for a few days, his swollen nose.

Seems that John was playing a little ball one night and we don't know which base he was running toward but as he put it... "I got put out, out cold!"

Sure 'nuff, John took a hard-throwed ball right on the old schnozzola and it knocked him out for a while. The next morning he had a broken nose and the accompanying black and blue complexion.

However, John is recovering and we hope he doesn't get a bad cold or an attack of the sneezes before his nose knits completely.

Have you ever had the urge to "get-back" at someone without really hurting them?

Well, if you have you can identify with Phil Bain last week. Seems that Phil had been working on a truck motor trying to get the dogged thing to quit backfiring.

He put the truck out on the road to see if his work had gone for naught and had gone down Highway 54 east toward Texhoma from his place of business. Sure 'nuff, up about Oakley's he let off the gas and BAM! the truck motor backfired almost deafening Phil at the same time.

Phil continued on out the highway trying to figure out what to do about the hard-headed motor when he passed a hitch-hiking Hippie out by the airport. Phil says he waved to the boy, or whatever sex it was, motioning that he was going to turn off.

As he passed on by he looked in the rear-view mirror noticing the Hippie had given him a vulgar sign in reply.

Phil said this made him kinda mad, all the trouble he was having with that motor anyway and he went on. Well, he turned around and headed back toward town working over in his mind what could be wrong with the timing of the motor to make it backfire.

As he approached town he looked over and there was the same Hippie, still standing thumbing a ride...at this point we can just see the gleam come into Phillip's eye. He thought about the sign the hitch-hiker had given him and he had it all figured out...Phil downshifted the truck, revving up the motor and just as he came along in front of the hitch-hiker let off on the gas...Phil said the resulting backfire almost blew him out of the cab and his ears rang long afterward, but it was worth it to look out and see that hitch-hiker do a backflip into the borrow ditch!

Tracks got a note from Bob Beatty over at the Church of Christ the other day, a plea for help for blood for Mrs. Vern Vincent.

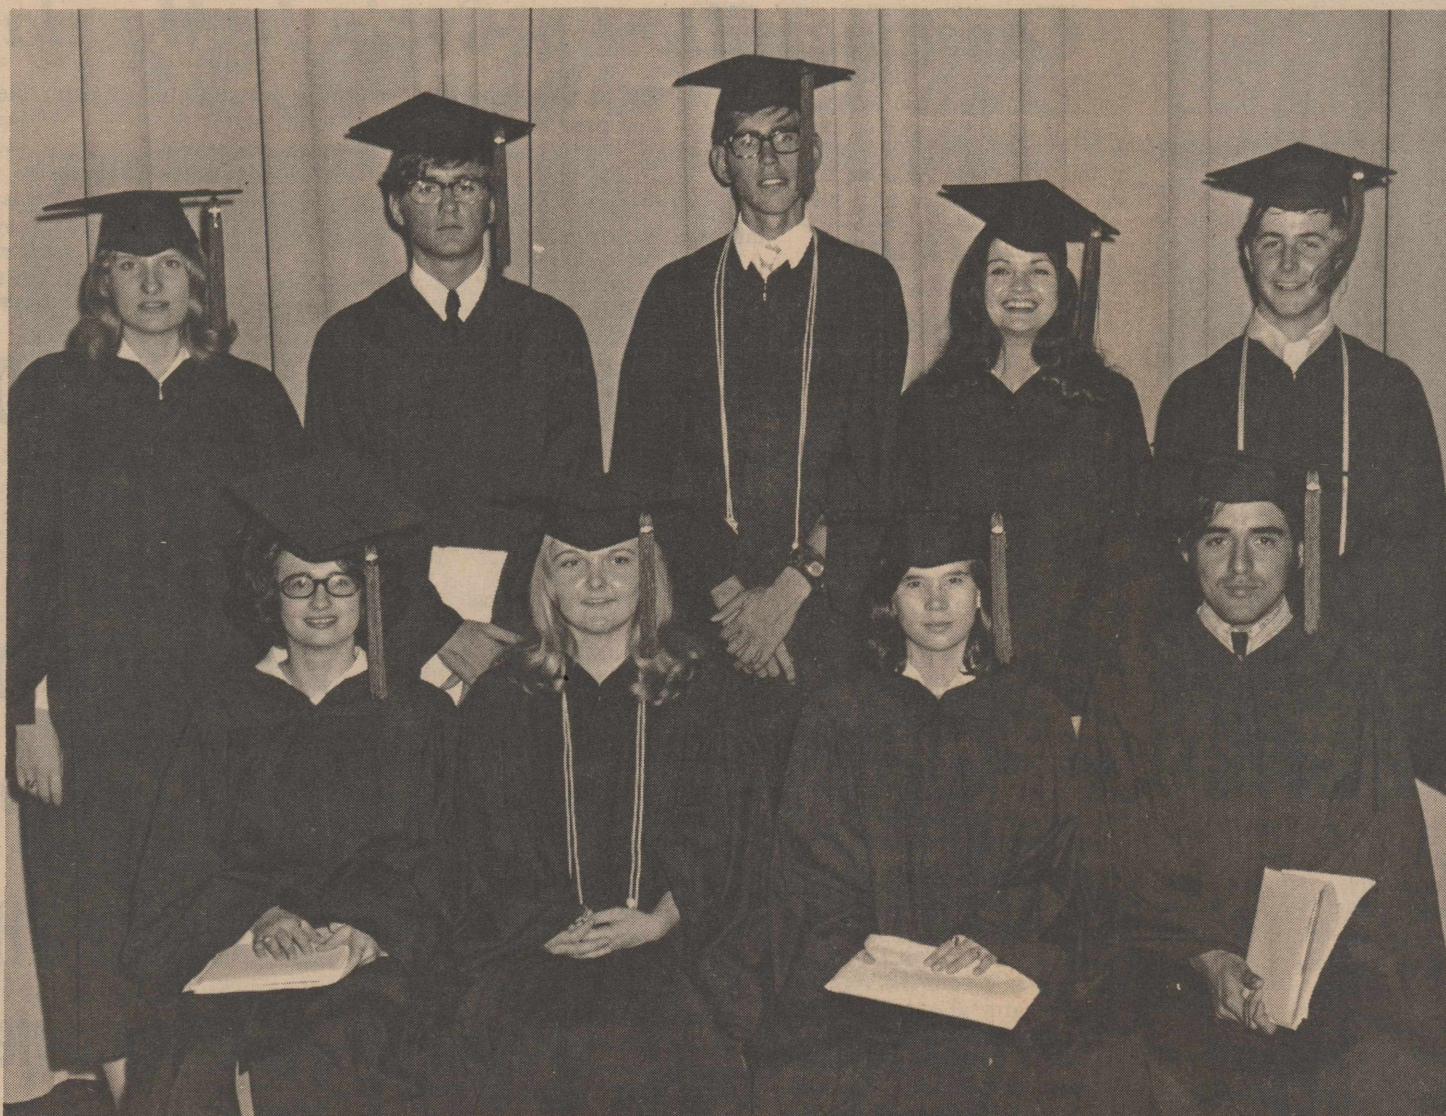

Mrs. Vincent needs blood donors, and several of them we may add. If you would like to help a neighbor in need, contact the Coffee Blood Center at 2911 Amarillo Blvd. West, in Amarillo or phone them at 374-0301 and make an appointment to give your blood. If you do, please tell them you wish to donate the blood for Mrs. Vern Vincent who is in the Wadley Institute, Rm 307, 9000 Harry Hines Blvd in Dallas. You will be glad you did!

"We urge anyone whether they are members of Farm Bureau, have our insurance or not, to attend the meeting," he said.

Local Election Count Contested By Morris

Sherman County's Democratic Primary Elections results in Precinct 1 were to be contested as a result of attorney's action taken late Friday night, announced Democratic Chairman W.C. (Bill) Martin Jr.

Martin stated that Sheriff Clois Vaughn served him with legal papers late Friday evening notifying him that the primary election involving the race for the office of county commissioner was to be contested by A.B. Morris.

Morris was a candidate for the office of Precinct 1 County Commissioner in the Democratic Primary on May 6. As a result of the tabulations of that election Morris was knocked out of the June 3 runoff by a single vote.

In the May 6 election Joe Everett received a total of 31 votes, Albert Zimmerman received 21 votes and Morris 20 votes.

"There had been a little confusion on election night," Democratic Chairman Martin stated. "Two absentee ballots were stuck down in the side of one of the election result boxes at the Court House and were not found until late that night. The results of these two boxes broke what had been a tie-vote between Morris and Zimmerman," Martin explained.

A NEAR MISS---Bill Taylor, son of Mr. and Mrs. Hap Taylor of Kerrick was late going to the graduation exercises Saturday night and as a result totalled out this 1970 Plymouth auto just across from the school when he lost control as he tried to dodge a dog in the street. Luckily, Bill was not hurt in the wreck and less than an hour following the wreck walked across the stage to receive his diploma. The auto came to rest in the yard of Mrs. Dorothy Frizzell adjacent to the school.

WHY TRUST DEPARTMENTS EXIST

"Property is dear to men not only for the pleasure it can afford but, above all else, because it is the safe-guard of those they love most against misery and all physical distress."

This being true, a great objective is achieved when property is transferred from hands not trained for its management to those that are.

We welcome the opportunity to discuss with you the many services available through our Trust Department.

"Thou wilt shew me the path of life:
in thy presence is fulness of Joy..."

PSALM 16-11

HERE IS THE PATH

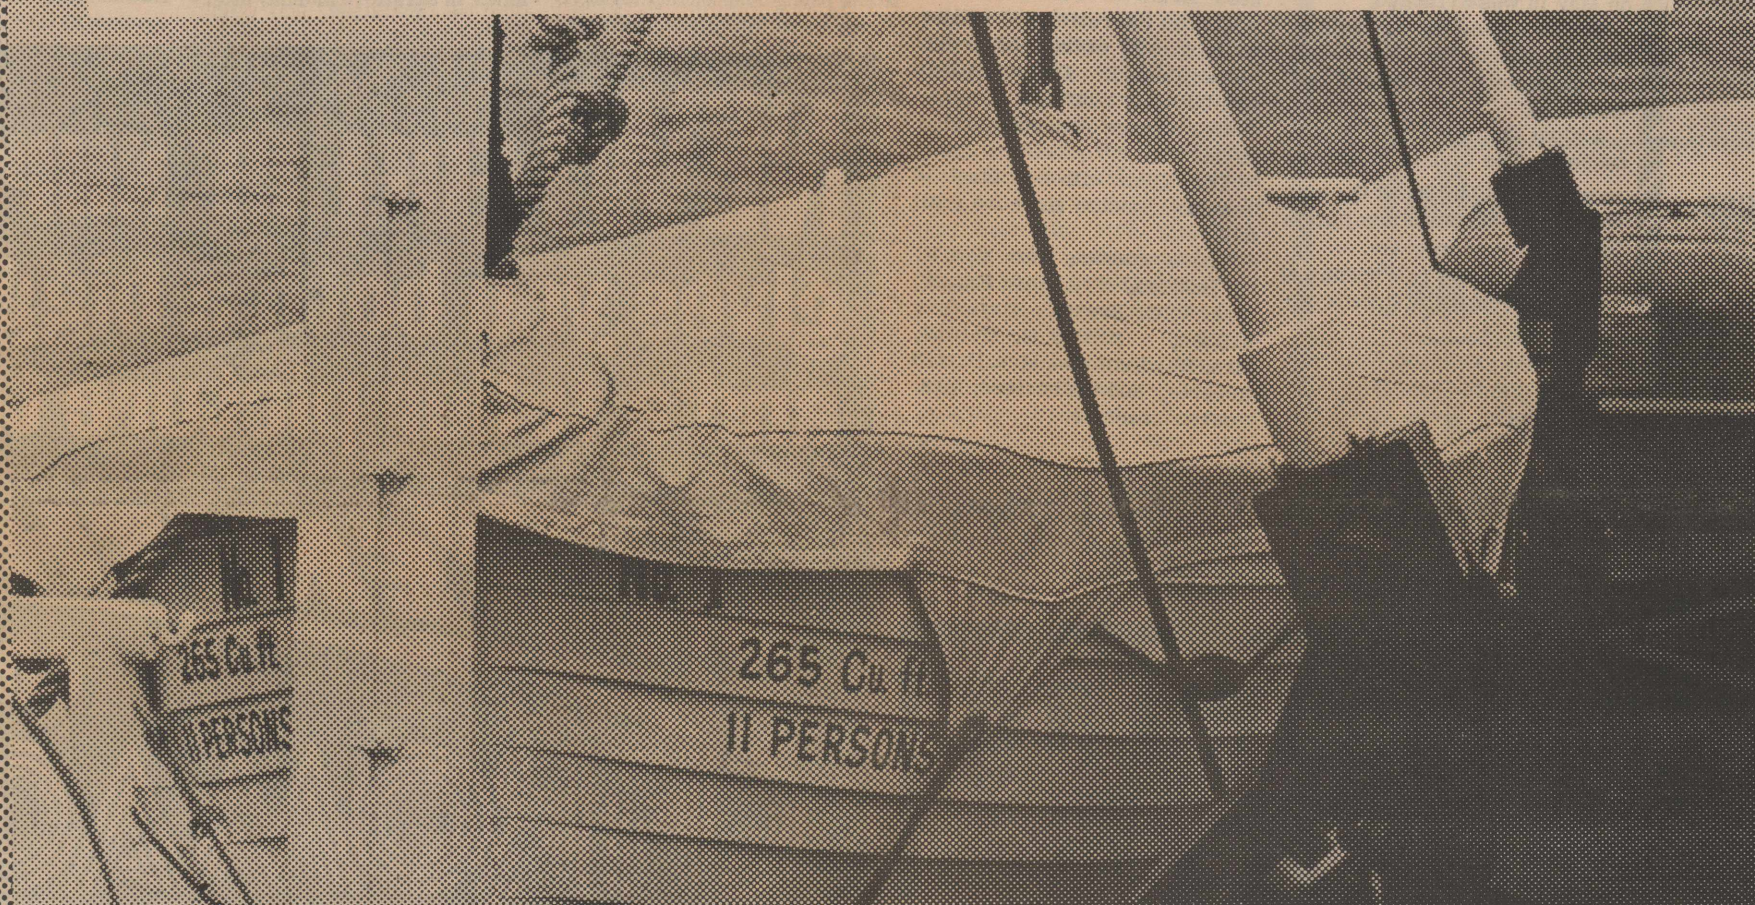

A SYMBOL OF SAFETY

When the ship is in danger, we can depend on the life-boats to take us over the seas to safety. It is comforting to glance at the life-boat when the seas are rough.

Our Armed Services are a symbol of safety when our country is in trouble, when war threatens to raise its ugly head. In the past, when war has come, our servicemen have not hesitated to give their lives to protect and defend us.

There is a special Day each year when we remember and honor our servicemen who have died in the defense of our blessed country. Let us not forget, as individuals, to honor these dead and give thanks to God for those who protect us even now. Remember them as you attend church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TOWN TALK

Kim Johnson of Del Rio visited in the home of his uncle Jerry Johnson Monday.

Gary Pratt Born in Auto East of City

Although Sherman County was recorded as being one of the fastest growing counties in the entire state following the 1970 census, due to the fact there are no hospital facilities it is seldom that any births are recorded as being born within county for a good number of years.

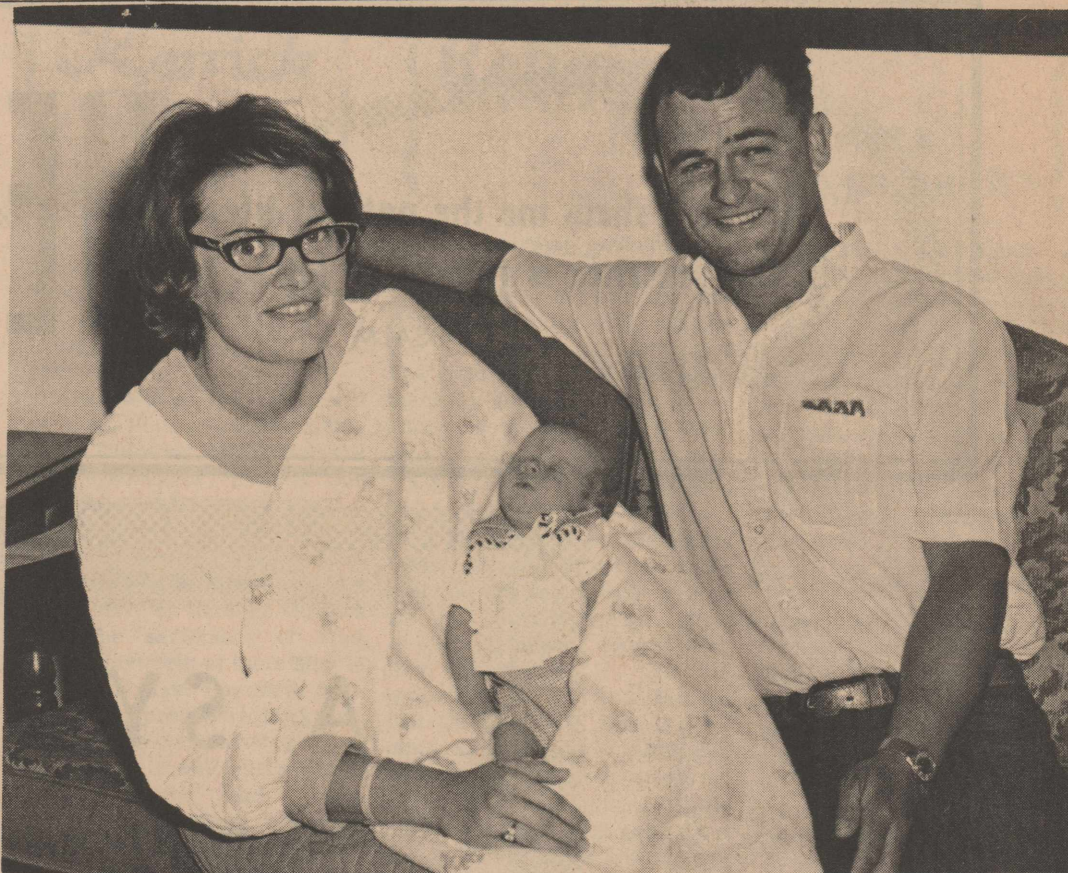

Sherman County will have at least one birth report following the arrival of a new citizen last Wednesday morning about 6:05 a.m.

Gary Lee Pratt Jr. is the name of the new citizen who arrived in his parent's auto about eight miles east of Stratford on Highway 15 as his parents lost the race with the stork on their way to the Boise City Hospital.

Gary Lee is doing quite nicely now and is the first son born to Mr. and Mrs. Gary Lee Pratt Sr., who make their home about 22 miles east of Stratford.

The father was understandably a little excited that morning and came on into Stratford to stop at Consumers for aid. Mrs. Jarne Hartman happened to be in the station getting change for the washing and ended up riding with the couple to Boise City to help out.

The boy is the first son born to the young couple, but they have three girls, Michaelle, 5; Denise

NEW SHERMAN COUNTY RESIDENT---It is unusual for a baby to be born in Sherman County anymore as we have no hospital facilities. However, Gary Lee Pratt Jr. wouldn't have been born here either had his parents been able to make it to the hospital as planned. But, as plans will go, Gary Lee was born in his parent's auto about eight miles east of Stratford on the Gruver Highway last Wednesday morning (May 17) at 6:05 a.m. He is shown here with his parents, Mr. and Mrs. Gary Pratt Sr., who make their home 22 miles southeast of Stratford.

Residents Return From Hawaiian Visit

Several adults from the Sherman County area made a trip to Hawaii May 10 through May 17.

Those traveling from Stratford were Mr. and Mrs. Jim Taylor, Mr. and Mrs. Harold Quinn, Mr. and Mrs. Thomas L. Taylor and Mrs. Maudie Flores. Mr. and Mrs. George M. Riffe from Texhoma also made the trip.

The men were entered in the Hawaii Cup Golf Tournament.

This golf tournament included 100 men from the state of Texas.

Religious Reflections

by LOYCE BROWN

What spiritual circumstance are you in as you sit reading this column? Or are you sitting? I am lying while writing it. I mean it was composed in a reclining position (the pose taken by John as he lay in the Master's bosom). Is it this: that of the Just living by Faith? Then Rejoice! For you possess the wherewithal to be "cuddled" by your Creator as His Spirit bears witness with your spirit that you are one of His! You've got that inward warm glow of wonderfulness haven't you? Are you sharing it? Or are you withholding the Good News... that Oneness with Him is possible, simply attained, a Delight. Are there positive words of Cheer, Encouragement, Love You could utter right now? Like lay down the paper and say something helpful, needful or kind to the human being nearest you? Will you communicate His Love? Or will you sit there and hold your tongue and take it to your grave with you in its self-bound silence? Maybe you are not an Enlightened kid of His. Maybe, spiritually speaking, you are unaware of the shining Treasure-Gift (Forgiveness-Eternal Life) He is proffering. Listen: God so loved us that he gave HIMSELF so to speak, to even up our lousied-up sin-debt? And if we hang all our convictions upon that (trust Him) we receive Eternal Life! ...sonship and/or daughtership with Him! That's great! From my Religious Reflecting I conclude that the whole world is already saved (from coming Judgment)!...it's just that individuals keep rejecting it! Are you?re-

jecting it that is? Don't! Receive it! Christians tremble for those who are in the condemned-already John 3:18 state! By means of His Atonement great liberty is ours...part of it being a delightful fellowship-oneness (with His Spirit) that is comparable in the flesh to a mother cuddling her newly created own. Andana! God loves me!

The Sherman House

by Olene Caraway

(DELAYED FROM LAST WEEK)

If you are really curious about how old Jane Doe is, or how many children John Doe has, and the year they graduated from Stratford High School you can find this at the museum. Gaynell Riffe brought her files of the "exes" to us and it's really interesting information. Stop by and read about your old friends.

As to our guessing games at the museum--No, the picture is not Opal Bryant and the object isn't a canoe for pygmies! Guess again.

Virginia Wells was our hostess on Thursday afternoon and she suggest that hostesses take a letter writing material or knitting to do as some afternoons it's as lonesome down there as a Maytag repairman's life! Have you visited the museum???

The display case that Bonnie and Jerry Hayworth gave--came from Liberal, Kansas. Mrs. Zeldia Dunlap said she learned

of it through a salesman who stopped at Kerrick. So, Mrs. Dunlap bought the case second-hand in 1947.

I had two hostesses show up for last Thursday as I had forgotten that the Kerrick HD Club promised to keep the museum open each second Thursday. It was almost as funny as the time three Santa Clauses showed up simultaneously at a Christmas party.

Out of town visitors Sunday were from Dumas and Elkhart, Kansas. I especially enjoyed having Mrs. Meredith (Marlou Alberts mother) tell of her Valentine collection and Lorraine Mehner tell about past events in her childhood. Marilyn just might let us display one of those valentines.

Two Wrecks Investigated By DPS Unit

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for April 1972 shows a total of 445 accidents resulting in 44 persons killed and 232 persons injured as compared to April, 1971 with 454 accidents.

MRS. JEWEL PETERSON

When Did I Have Time To Teach ?

"I often think how did I ever have time to teach school," replied Mrs. Jewel Peterson to a query this reporter asked last week of her.

Subject of discussion is what does a lady, or man, do upon retirement.

Mrs. Peterson, who taught school for 17 years in Stratford and took her retirement in 1968, has managed to more than keep busy since that day four years ago.

An avid collector of many things, Mrs. Peterson has a doll collection and a button collection which would cause envy in the eyes of many folks.

In addition to these pursuits, Jewel Peterson is always a gracious hostess and says she works in the yard when possible and walks a great deal "and I feel better than I've felt in years" she says.

Jewel says she learned in early life to appreciate the things around her. "My mother always told me to look about me and observe nature so I've always done this," she says.

Mrs. Peterson describes the thrill of watching a pair of birds make their home in her yard, the flowers grow and blossom and examine rocks, shells and the many myriad of things which her late husband used to bring home from his travels around the world.

Each of the many buttons, dolls and rocks all have a story for Mrs. Peterson. Among the many buttons she has are a group of old political buttons, the oldest dating back to the turn of the century. She has one of Teddy Roosevelt for President, William Howard Taft and William McKinley to name only a few.

While showing us the buttons she picked up on which reportedly came from the tunic of a British soldier who was killed in the Boxer Rebellion in China around the turn of the century.

She told us that an old gentleman gave it to her in San Diego with a tear in his eye and said he clipped it from the jacket of a comrade killed in that uprising over half a century ago.

Among her most precious possessions is an old stove in her kitchen. The stove was originally a coal-burner, but has been converted to natural gas. Manufactured in the 1880's, the stove is quite a sight to see as it

sits in a special corner of the neatly arranged kitchen.

The stove has a story also. It came to Mrs. Peterson "from Aunt Emma Rogers of Canyon," she recalls with a sparkle in her eye. She related to us of how she and her late husband, Roy, went to Canyon to get it one hot summer day.

In addition to her many "collectables" Mrs. Peterson is an active member of the Stratford Garden Club and the Delta Kappa Gamma organization of teachers.

In regard to Delta Kappa Gamma, Mrs. Peterson was recently elected to a two-year term as the group's recording secretary. As part of her work with this group, she and two other members have just completed preparing table decorations for the international convention to be held in July in Houston's Shamrock Hilton Hotel.

Mrs. Peterson is certainly a gracious hostess and is a strong advocate that an active mind and body keeps one a-going strong.

BUTTON, BUTTON WHO'S GOT IT---Just a few of Mrs. Peterson's buttons from all over the world. Among these are old political campaign buttons, from uniforms and just plain buttons!

transportation and if need be a temporary morgue will be located at the American Legion Building with a secondary location of the Sherman County Farm Bureau Building.

Donal Boner will be in charge of the ambulance with UTILITIES to be headed by Gene Wilson for electricity. Larnee Hartman for natural gas and Max Stephenson in charge of water. All these have standard emergency procedures which would go into effect immediately on the event of any disaster in this area.

FOOD & SHELTER will have a primary location of the Stratford High School with secondary location of the County Barn. Coordinators for Food & Shelter will be Fred Cross and Nell Rentschler with Gary Lundberg and Bill Sladek committee chairmen.

Bill Dyess will be in charge of the RED CROSS for the primary purpose of notification of relatives involved.

The Community Emergency Control System will hold another meeting later this month. Anyone interested in working in a particular area is urged to contact the coordinator in that division of responsibility.

Those on hand for the organizational meeting included Donal Boner, Larnee Hartman, Clois Vaughn, Ed Sanders, Bill Fitzgerald, George Oakley, Hinds McGowan, Wayland Brown, Nell Rentschler, Max Stephenson, Bill Frizzell and Annell Wall.

LEGALS

NOTICE OF INTENTION TO ENGAGE IN WEATHER MODIFICATION ACTIVITIES

NOTICE IS HEREBY GIVEN, That IRVING P. KRICK, INCORPORATED OF TEXAS, of Suite 216, 611 So. Palm Canyon Drive, Palm Springs, California 92262 who holds license No. 72-4 of the State of Texas is now applying for a permit to engage in operations and to locate ground-based generators for operational purposes in certain counties of the State of Texas on behalf of farmers and ranchers located in the State of Oklahoma and for the purpose of augmenting natural precipitation within said area of Oklahoma. These operations shall be by means of ground generators as follows:

1. Area in which equipment will be operated is the following: Counties in Texas consisting of: Hutchinson, Moore, Sherman, Hansford, Dallam, Hartley, Ochiltree, Roberts, Lipscomb and Hemphill.

2. The target area will be farm and ranch lands within counties in the State of Oklahoma, consisting of: Beaver, Harper, Woods, Woodward, Ellis, Major, Alfalfa, Cimarron and Texas.

3. The areas adjacent to target area which may be subject to effects of the operation are within the State of Oklahoma and in general within 15 to 20 miles of the target area. The maximum intentional effects is in the target, but some downwind effect may occur in Oklahoma, mostly to the immediate northeast of target. There would be no significant effect in Texas from the operation of any of these proposed generators. It is important to note that this notice is simply to apply for permission to install generators in Texas, not to increase rainfall in Texas, and for the sole purpose of increasing rainfall in the target area located in the State of Oklahoma.

4. The materials and methods to be used in conducting the operation are silver iodide electric arc (Model 1730) ground-based generators that have an output of an optimum amount of 0.5 grams per hour, per generator.

5. Person who will be in control and in charge of this operation is that person named in the Texas State License, Mr. Newton C. Stone.

The operation will extend during the period beginning about 5 June, 1972 (or as soon as authorized), and continue through 5 June 1973. No generators will be installed in Texas for this Oklahoma project until authorization is granted by the Texas Water Development Board.

Individuals, organizations, or agencies who consider that their interest will be adversely affected by the operation proposed may file a formal protest for consideration by the Board with the following:

County Agent's Report

By Fred Cross

There will be 71 different grain sorghum hybrids in the research plot on Jack Scarth's farm this year. The test was planted by experiment station personnel from Texas A&M University last Monday. Even though these tests are conducted on small plots, they are replicated three times. By statistical analysis, a mathematical treatment, the researchers can be nearly sure that the hybrids will perform the same in large fields as in the plots. In other words, to be considered different, the researchers are sure that the hybrids will perform the same 95 times out of 100. Since this test is being done right here in Sherman County, it should be of much value in selecting hybrids.

Draft Board Censors Names Of Inductees

A news blackout on names of North Plains young men being called for armed forces induction in June has been imposed by the Selective Service System office in Austin, the 4-county draft board office at Dalhart reports.

Induction orders are being issued for June to six young men in the 4-county area of Dallam, Moore, Hartley and Sherman counties served by the Dalhart board.

Another 15 men will be receiving orders for pre-induction physical examinations shortly, a Selective Service news report says.

The June induction will affect registrants with 1972 numbers up through 35 in the draft lottery system. Those with lottery numbers of 36 to 75 can expect orders to report for pre-induction physicals in June or July, the Dalhart office says. A new list of induction calls is due to go out on May 31.

New releases on numbers to be called, for examination or induction, omit names and names are not available to news media on request.

"We've been told from Austin to keep quiet about the (June) calls," reports Mrs. Cheryl Rickettson, clerk of the Dalhart draft board which serves Dallam, Moore, Hartley and Sherman counties. Mrs. Rickettson Thursday declined to release lists of persons on the June call list.
