Permit Total Increased by \$19,350 Here

Month's Building Total Goes Past \$100,000 Mark with Issuance of Permit for New American Legion Home

Abolishing the customary summer lull, building valuations in Lubbock were again given a substantial boost Thursday with the issuance of two permits totaling \$19,350, bringing the total for the month of June to \$103,510, for 17 permits.

The largest permit issued yesterday was for erection of the new American Legion home on a site directly north of the city hall. This project has been underway for the past two weeks and frame work is now rising above the ground with the laying of brick already started. The home is being erected by J. D. Maxey, local contractor, at an estimated cost of \$13,000. Site for the building was donated by the City of Lubbock to Allen Brothers bank and the structure is to be of brick and tile, 45,000 feet.

An additional permit was issued yesterday to Ralph Moore for erection of a brick and tile garage at intersection of 9th street and Ave. N. at a cost of \$4,350. H. H. Shell & Son are contractors for the job.

Valuations for the year steadily are rising and now stand at \$1,244,205, for 140 permits.

Loses Memory

Blond, brown-eyed Clarissa Morley, above, lost her memory when her sweetheart, Alan Steyne, disappeared. She is one of the principal characters in "Dancing Judith," a fascinating new serial story. It begins next Sunday in the Avalanches-Journal and continues daily in the Lubbock Morning Avalanche.

South Plains Area Spotted By Good Fall

Moisture Cools City After Three Days of Temperature Above 100-Degree Mark in Lubbock This Week

Crops To Be Aided

Concern Felt by Farmers for Crops During Hot Weather Relieved by Precipitation; Fall Near Half Inch Here

Breaking a siege of hot and dry weather when the mercury ranged between 100 and 106 degrees for the first three days of this week, rains visited in scattered portions of the South Plains and Panhandle last night and early this morning, according to special reports to The Morning Avalanche.

Thursday's temperature in Lubbock reached a maximum of 95 degrees, lowered by existing clouds, which hovered close throughout the day with indications of the evening's rainfall. Precipitation started falling in the city and immediately thereafter in the surrounding area and was continuing early this morning. While the fall was accompanied in some sections by hail, none had visited the Lubbock territory. No accurate gauge could be made of the extent here last night but estimates placed it at between a quarter and a half inch.

While all crops were benefited, farmers throughout the South Plains region have felt some concern during the past three days for crops due to the unusual hot weather. Maximum temperature was noted at Childress Tuesday with thermometers officially standing at 110.7 degrees. The highest official reading at Lubbock was recorded Wednesday at 106 degrees.

Southern Cross Ends East-West Atlantic Hop At New York Port

Big Ovation Awarded Kingsford-Smith Upon Arrival

NEW YORK, June 26—Officially ending a successful east to west trans-Atlantic flight, Captain Chas. Kingsford-Smith brought his monoplane Southern Cross to a perfect 3-point landing at Roosevelt Field here at 5:31 (CST) p. m. today.

Before he landed, the famous Australian aviator whose first exploit was a successful crossing of the Pacific in the same plane in which he and three companions have just journeyed over the Atlantic, gave a brilliant demonstration of vertical banking.

Swinging the plane around Kingsford-Smith taxied his ship to the field where photographers and sound reel men were banded close to the ground and the top of anybody's automobile that happened to be handy. Through the open windows of the cabin Kingsford-Smith and the three members of his crew, Captain J. Patrick Saul, Evert Van Dyke and J. Stannag, leaned to wave a greeting to the thousands who packed close to the plane.

The first man out of the plane was Van Dyke, who grimed with dust and streaming with perspiration he virtually fell out in the

Heat Takes 1st Texas Victim

DALLAS, June 26.—Torrid temperatures over Texas that reached a new high level for the year in Dallas today took a first victim when Edwin W. Wilkins, 32, suffered a sunstroke while at work on a house. He died in an ambulance en route to a hospital. Relatives at Paris, Texas, were notified.

North, West and Central Texas continued to suffer in one of the worst June heat waves of record. Due to the lack of rain, corn and truck crops were expected to be damaged considerably.

The thermometer at Temple soared to 107 degrees, for an all time June record there.

Unemployment Figures Drop

WASHINGTON, June 25.—(AP)—Census returns on unemployment announced today fixed the total of jobless persons in an area inhabited by one quarter of the country's total population at 574,647.

These returns, the first announced from the national survey in April as to the unemployment situation, indicated the total number able to work but unable to find jobs would be in the neighborhood of 2,000,000 which Secretary Lamont commented, was considerably less than the estimates generally current as to the probable number of unemployed in the nation.

Fair Sample

The first returns, Secretary Lamont added, constituted a fair sample of the country, since they gave the count from 758 scattered counties and 75 cities.

The average of unemployment in cities was indicated to be three per cent, slightly ahead of the national average. The absolute low of unemployment in a state was indicated in Arkansas where only four-tenths of one per cent of the persons visited were so classed.

The high for a single state was Nevada with 4.5 per cent of its population unemployed as far as counted.

Large Labor Bank Closed Thursday

CINCINNATI, O., June 26.—(AP)—The Brotherhood of Railway Clerks National Bank, one of the country's largest labor banks, failed to open for business today.

Harvey E. Mann, United States district attorney, said the bank's closure was a direct result of the \$1,000,000 check kiting operations of A. W. Shaler, who is under indictment for having embezzled \$210,000 of his firm's money and charged with having caused the closing of the Cosmopolitan Bank and Trust company sixteen days ago by his alleged speculations.

Pro Agencies Strengthened

Greater Activity, Effectiveness from State Officials Demanded by Mitchell as Enforcement Plans Made

WASHINGTON, June 26.—(AP)—Demanding greater activity and effectiveness from state authorities in the enforcement of prohibition, Attorney General Mitchell today outlined plans for a drastic reorganization of Government enforcement agencies.

The reorganizations will become effective July 1 when the department of justice takes over from the treasury the duty of administering the nation's dry laws.

To Cut Districts

The attorney general said the present 27 prohibition administrative districts would be cut to 15.

Farm Board Lays Hand On Wheat, Livestock Markets

By FRANK I. WELLES.

Associated Press Farm Editor.

WASHINGTON, June 26.—(AP)—In a couple of statements fraught with high charged possibilities the Farm Board laid a heavy hand today on the long protracted wheat and livestock markets.

O. S. Denton, board member representing livestock, said in effect that the retail price of beef should be reduced immediately wherever it already had not been brought in line with the sheep slaughter, wholesale beef and mutton, and other livestock products.

Three times the amount of the 1929 increase in the viable supply. Private trade estimates have placed the increase at from 17,000,000 to 20,000,000 bushels but the Department of Agriculture estimated it at about 25,000,000 bushels.

One Hope Liked

Mitchell said one hope that the stabilization corporation may be able to dispose of its holdings. It proposes to do this at the level at which the wheat was purchased, the corporation will receive a heavy loss in storage charges.

Most of Crew Perish After Bolt Strikes

Eleven Men Rescued, Thirty One Missing and Thought Dead in Ontario Disaster; Little Excitement Caused

Slight Hope Held

Victims Asleep in Bunks at Time of Blast; Vessel Is Blown to Bits; Accident Described by Witness

BROCKVILLE, Ont., June 26.—A roaring explosion caused by a flash of lightning tonight was believed to have snuffed out the lives of most of the crew of 42 of a drill boat engaged in dredging and blasting in the St. Lawrence river near here.

Eleven men were rescued, the others were missing and were feared to be dead.

Little Excitement

The disaster, the most serious in the history of this district, occurred so suddenly and with so little excitement that occupants of summer cottages nearby knew nothing about it for some time. They thought the tremendous roar was merely another blast designed to remove shoals from the river bottom in Brockville narrows.

The vessel, named the J. B. King, was said to have been blown to bits by the blast. Most of the missing men were part of the night shift, asleep in bunks below the water line when the lightning struck. There was little hope that more than one or two of them survived.

The eleven rescued were picked up by a United States coast guard boat and brought to hospitals here, where their injuries were said not to be serious.

Mrs. W. C. Walklate, who witnessed the explosion, said:

Governor Predicts He Will Be in Palace in Control of Government Reins After Fleeing to Juarez

EL PASO, June 26.—Governor Francisco R. Almada of Chihuahua, Mexico, flew back to his capital late today and declared he would again be domiciled in the governor's palace at Chihuahua City before sundown and in full control of the governmental reins.

He came to Juarez by airplane yesterday after his claimed impeachment by the chamber of deputies on charges of misconduct preferred by partisans of Manuel Prieto, candidate for governor of the state.

Plans Chartered

Almada's plane, chartered to take him back to the capital, was cheered as it took to the air at the Juarez airport early this afternoon, when members of the Partido revolucionario Rio del Norte gave a demonstration.

Almada decided to return to Chihuahua City immediately upon receipt of a telegram from Secretary of the Interior C. Riva Palacio in the City of Mexico assuring the governor of "safety and justice."

Safety Guaranteed

Palacios said he had sent instructions to the chief of military operations in the state of Chihuahua, General Eulogio Ortiz, to provide absolute guarantees of safety and justice while the political troubles continued in the state.

Almada was accompanied to Chihuahua City by Deputy Simon Puentes of the state legislature, and Salvador Valdes of the state police, who was named to succeed Gabriel Jimenez, chief of police, killed in yesterday's disorders.

Robbers Loot Lumber Firm

Value of Merchandise Taken from Higginbotham-Bartlett Lumber Co. Not Known; Guns and Knives Stolen

A quantity of merchandise, exact value not estimated, was stolen last Wednesday night or Thursday morning when robbers broke into the building of Higginbotham-Bartlett Lumber company at Shallowater, according to reports reaching the local sheriff's office yesterday.

Included in the loot taken by the prowlers were a Winchester pump 12-gauge shotgun, a .22 Winchester repeater, four or five pocket knives, one board of Krauter pliers, two or three Ingersoll watches and a quantity of shotgun shells.

Reports stated that the knob had been knocked off the safe but that thieves failed in their attempts to gain entrance into the box.

Local officers visited the scene in Shallowater yesterday afternoon but reported last night that no clue had been discovered.

Local Man Jailed After Beer Raid

Added evidence that the beer season is still in full swing in Lubbock came to light last night when city and county officers raided a house on Tenth street, confiscating between 60 and 70 bottles of "brew."

One man was arrested and lodged in the city jail. He will be transferred to the county jail tomorrow when charges will be made. Several other men were arrested but were released after questioning.

FARMER IS INJURED

I. W. Harden Barely Escapes Being Killed Thursday

I. W. Harden, farmer living near Mulhouse, was brought to the Lubbock sanitarium late Thursday afternoon suffering of injuries received when a tractor passed over his leg at his farm earlier in the day.

Physicians stated that while his condition is not regarded as serious he barely escaped fatal injury. The right leg was severely lacerated, all flesh and tissues being penetrated to a point very near the large artery. Attendants stated that had the gash gone an eighth of an inch deeper the man would have died almost immediately.

He was said to be resting well last night, though there is some danger of infection.

Morton Plans To Join Party

Over Fifteen Carloads from Cochran County to Enhance Lubbock Delegation on Way to Lovington Rails Party

Lubbock's delegation to the railroad celebration to be held in Lovington tomorrow will be enhanced by 15 or 20 carloads of Morton citizens, according to word received from that city last night. The Morton delegation will join the Lubbock group at Bronco about 9:30 Saturday morning and will parade with it upon reaching the New Mexico town.

Cars Needed

Cars are still needed for transportation for the band members and officials of the Chamber of Commerce are anxious that anyone who will take a car notify them at telephone 2083.

To Receive Bids On Airport Today

Following a long delay bids will be received for extensions at the city hall on proposals for a hangar and other improvements at the municipal airport, five miles north of Lubbock.

Plans and specifications have been completed for extension by architect, Eugene Brothers and have been in the hands of construction preparatory to letting of the contract by the city commission.

Lubbock plans to spend approximately \$10,000 for the hangar, while bids in the amount of \$25,000 for improvements have not been called. These, however, probably will be called within the next month, according to city officials.

LUBBOCK YOUTH HURT

Arm of Yukum Lynn Fractured in Fall from Ladder

Yukum Lynn, 12-year-old Lubbock youth, was painfully injured early Thursday evening when he fell from a ladder at the miniature golf course, Broadway and Avenue X.

The lad was taken to the Lubbock sanitarium for medical attention and physicians stated after an examination that the right arm had been fractured just above the wrist.

Episcopal Summer Conference Is To Close Today; "Exams" Will Be Taken

Classes are to be concluded by the North Texas Summer Conference of the Episcopal church this morning, and members are to leave after lunch.

Practically every one who registered is to take examinations for credit on a national sacerdotal leaders association diploma, a fact that gives the conference a high standing with the national department of religious education.

Miss Page Speaks

Mrs. Elizabeth F. Page, of Canyon, student organizer for the Episcopal church at West Texas State Teachers college, was the feature lecturer Wednesday evening, speaking on "Modern Christian Healing." Her thesis was that the church is concerned with the salvation of the body as well as the soul and is a healing society in which the physician is honored and in which individual believers should find and exercise a confident faith in God's love.

Sickness of soul resulting from an unrepentant of God often causes the head of the healing society, she affirmed, said. The value of modern healing movements comes largely out of the free discussion of ailments and their cures, with a recognition of God as the giver of life and health and the only dependable head of the healing society, she affirmed, said, quoted physicians, psychologists and ministers of the Gospel in support of her argument.

"Kid Party" Held

The latter part of the evening was spent in a "kid party" in which young people, ecclesiastics and clergymen all took part. Costumes and antics were enjoyed, and the refreshments were served as the games went on. The whole fellowship program was a demonstration of what can be done in the various young people's societies and Sunday schools represented in the conference.

President Paul W. Horn spoke at luncheon Thursday and expressed interest in leadership training courses for Christian work.

Rev. W. H. Martin, of Big Spring, is the speaker at 8 o'clock Thursday at Cheri Casa, his topic being "Personal Efficiency in Church Work." Following his address there was a program of music, "songs" and stunts.

Members of the Loyal Order of the Moose entertained their families with a picnic Wednesday evening at the Municipal Park.

The outing was held at 6 o'clock and was attended by Mr. and Mrs. Euclid Retiro, Mr. and Mrs. F. R. Huff, Mr. and Mrs. John R. Lutz and family and Mr. and Mrs. C. A. Paulger.

Flowers Used To Decorate

Attractive Party is Held for Needle Group in Home of Mrs. W. M. Petcolas Here Wednesday Afternoon

A profusion of summer flowers was used to decorate the entertaining rooms for the Lucky 13 club gathering Wednesday afternoon in the home of Mrs. W. M. Petcolas, 1911 13th street.

Mrs. Roy Furr presided for a business session, during which it was decided to meet at 4 o'clock during the remainder of the summer and to have a picnic on every other meeting day. The next gathering is to be on the afternoon of July 9 in the home of Mrs. Sidney Ogilvie, 1307 Avenue N.

Ceremonies Are Fayer

Small coronations of garden flowers were favored on plates of frozen salad served with sandwiches and mint leaf tea at the close of the afternoon.

Those present were Mesdames Allan Hill, Roy Furr, E. F. Alford, S. M. Reed, Elmer McClellan, L. L. Kohn, R. E. Dick and one visitor, Mrs. Albert Fryar.

Ask Mail Service Snyder To Lamesa

(By Staff Correspondent) LAMESA, June 26.—Request for the establishment of a first class post office service between Snyder, on the Santa Fe and Lamesa, over the Del-Paso highway, has been made of the Postoffice Department J. D. Dyer, postmaster, announced today.

The new service would concentrate at Sweetwater, mail for Lamesa from the east, southeast, northeast, north, northwest and west, and bring it to Snyder over the Santa Fe, arriving about 8 o'clock in the morning. This would enable a bus to pick up first class mail and get it into Lamesa in time to be delivered about 8:30 in the morning in the downtown business section.

Backed by the support of the chamber of commerce and other organizations, it is believed the department will authorize the new service.

As it now stands, first class mail arrives at 10 o'clock in the morning by way of El Paso.

TO ATTEND CAMP SEAGRAVES, June 26. (Special) Bay Scouts from Seagraves will take part in the annual Scout camp near Post, July 10 to 20. This is the second session of the annual camp.

Air Records? They Are Just Routine Work for Soucek; Now Goes West for Duty

Has Been Higher Up Than Any Other Human Flier

By ERNEST E. FYLE
Written for NEA Service.

WASHINGTON, June 26.—When Lt. Apollo Soucek, USN, put his airplane down on the Potomac with a "dead stick" just before dark a few days ago he had completed more high altitude flying than any other human has done before him.

Lt. Apollo Soucek, the world's highest flier, here is shown being congratulated by Rear Admiral William A. Moffett, chief of the Bureau of Naval Aeronautics.

In a year and a half he had set four world altitude records, two for land planes and two for seaplanes, and had made countless test flights above 30,000 feet, a region where humans seldom go.

Although Soucek is famous the world over for all this "higher research," the public actually knows very little about the man. The reason is simple. He is just the kind of a man the public wouldn't know much about. He is a quiet, sincere, modest and not given to publicity.

The other day, having accomplished more in the Bureau of Aeronautics than even his most optimistic supporters had expected, he was assigned for duty with the aircraft carrier Lexington on the Pacific coast.

Men Regret Transfer. An enlisted man at the Anacostia Naval Air station who has been putting in time on ballistics and land stations for 20 years, summed up this five pretty well when he remarked one day: "I sure hate to see that man leave Washington. There isn't a more perfect gentleman in the navy than Soucek."

They call him "Soukum." He is an Oklahoma farm boy of medium height and build, good looking and a good fellow. He has been in the navy 15 years, including his four years in the Naval Academy. He is a graduate of the Academy in 1921, served three years aboard the battleship Mississippi as junior officer and went to Pensacola, Fla., in the spring of 1924, for flight training.

Later he served with the aircraft squadrons of the battle fleet, then aboard the battleship Maryland, where he served as junior aviator officer until May of 1927, when he was transferred to the Naval Aircraft Factory at Philadelphia. He stayed there only a couple of months, then went to Washington, where he was assigned to the Power Plant Design section of the Bureau of Aeronautics.

Fixed For High Flying. He sat at the desk of Lt. C. C. Chapman, who had been the altitude flier before him. Soucek wanted to continue the work. He was put through the "re-breather" test, to see if he was fitted for altitude flying. He was. The test showed that he could go to 25,000 feet without any oxygen at all, which is indeed unusual.

For the last year and a half he has been doing altitude flying. First the world altitude record came to him. Then the world seaplane record. Then Germany took the first one back. He worked for almost a year on his plane before it was ready for the test. He had all kinds of troubles—propeller, supercharger, carburetor, oxygen. Everything went wrong, but one by one he ironed out the difficulties. When he finally was ready, he flew 4,000 feet higher than he ever had been before, and brought the record back.

Soucek is a thorough "navy." He never opposes what he has to do. He believes in the orderly upward progress of a naval officer's career, without hitches or friction of any kind.

Constantly Busy As Routine. He has remained absolutely unchanged throughout his years of growing fame. He has never understood why people should consider his flights remarkable. To him, they are just part of his duty.

Everyone who knows him is his friend. He is never too busy to do something for his friends, and never too busy to be courteous and hospitable to strangers. He is sober and serious, but not to a point of dullness. The gay life has no attraction for him.

He has suffered considerably in these altitude attempts. In his last month in Washington, when he was fighting against time to beat world's records before being transferred to sea, he lost 20 pounds.

Outwardly he was calm and untroubled, but the mental tension of his fight against time and mechanical obstacles, the confusion of

HOW MUCH EXTRA

ARE YOU GETTING FOR YOUR 3¢ EXTRA?

HERE'S what Texaco-Ethyl gives you for your three cents extra—all that is famous in gasolines! It's dry! It's high test! It's anti-knock!

The Ethyl compound in Texaco-Ethyl assures a smoother, quieter-running engine even on the hottest day—on the highest hill.

The dryness of the gasoline base—the new and better Texaco—assures complete and uniform diffusion of the anti-knock fluid through the manifold into the cylinders of your engine. That means greater power—quicker than ever before—without a sign of a sputter or a hint of knock!

The high-test rating assures quicker starts, extra power and greater mileage.

Nowhere have three cents ever meant so much as at the Texaco-Ethyl pump!

JOE'S GOING GOOD

BALTIMORE, O. June 26.—Joe Hauser, who used to play for Cleveland and the Athletics, has cracked 19 home runs in a large residential section to be cared for by the new cable.

THE LAST LONG MILE

Joe had teed up and driven—and how! Straight and low the ball sped from the tee and then started to rise. And when it hit it bounced and rolled. The others had pretty good drives, too.

THIS IS TERRIBLE

Joe had teed up eight strokes in a bunker on No. 2. In the first nine holes not one of them had sent his ball skipping along the ground a good 11 feet. Mike had sliced into the woods at the right and Bill had hooked into the woods at the left. Jack had sent up a high fango, straight into the air, and it had plopped down about five feet from Joe's puny bunk.

MILES-AND MILES

He took his stance with ceremony. He drew back and tapped. The ball rolled suddenly, taking the slope perfectly in its way. On and on it rolled over the 21 feet. It was 21 miles of close-cropped green grass. Then, after an a-p-ump! Right into the cup! Right smack into that little old cup! Wow! A three!

Whittkamp Is Made Manager Of Milk Plant

Wisconsin Man Is Selected Official of West Texas Milk Products Company at Lamasa; Has Experience

(By Staff Correspondent.) LAMASA, June 26.—Appointment of William Whittkamp, formerly of Claire, Wisconsin, an experienced milk products company official, as manager of the new West Texas Milk Products company plant here, to open shortly, is announced by O. J. Norman, president of the local company.

Mr. Whittkamp came here the first of the week and after a conference with members of the board of directors was elected manager. He assumed his new position at once.

Has Experience

Before coming to Lamasa Mr. Whittkamp had served in an executive capacity with the O'Claire Milk Products company for five and a half years. He has had about 15 years experience in some of the largest plants in Wisconsin and is thoroughly familiar with the manufacture of by-products of milk.

"I was most agreeably surprised at conditions in Lamasa as I found them," Mr. Whittkamp said. "I was led to believe this town was a small one and thought it was about a thousand population."

"From what I have seen of the territory around Lamasa and from what I can learn about the number of dairy cows in this territory, I believe that your future is assured."

The equipment of this plant is the very latest. It is the best kind of capacity is 100,000 pounds of milk every 24 hours and while it will not be expected to come to that capacity at once, we will be able to handle a good deal of milk from the very start."

Mr. Whittkamp said he could not definitely announce the date of opening of the new plant here but thought it would be around the first of August. "As far as I have learned, the main things now holding up the starting of the plant are the non-arrival of several small pieces of machinery and delay in signing the power contract. These will be arranged shortly," he explained.

Cobel Ready For Atlantic Hop

Colonel Arthur Cobel, winner of the Dole race across the Pacific and famous for his distance flights, has completed plans at Los Angeles for his forthcoming attempt to make a lone flight across the Atlantic ocean from Paris to New York. Portales Will Ask Branch of Cotton Co-Op

Efforts Being Made by New Mexico to Land Contract with Texas Association for Marketing of Cotton

Efforts are being made by Portales, N. M. to land a contract with the Texas Cotton Cooperative association for the marketing of 2,500 bales of cotton for next season. It was learned here yesterday when R. R. Walls, of that city, Roosevelt county agent, visited Lubbock.

He conferred in this city with N. M. Payne, field representative of the Texas Cotton Cooperative association, and D. F. Eaton, Lubbock county agent.

Has Four Co-Ops

Four cooperative marketing associations have been formed in Roosevelt county, said Mr. Walls. The association deals with the sale of sweet potatoes, broom corn, cream and poultry.

Lynn Stokes of Ballinger, president of the Texas Cotton Cooperative association, and general manager of the gin corporation which is a subsidiary of the association, was visiting in Lubbock yesterday.

Five gins are owned by the association in this county located at Slaton, Acuff, Idalou, Shallowater and Lubbock.

Officers Seek Motives After Brutal Murder

Body of Bridge Foreman Is Found on Railroad Right-of-Way Near Coene; Signs of Torture Discovered

CRANE, Mo., June 26 (AP)—Authorities today sought a motive for the apparent torture and brutal slaying of E. G. Ingram, bridge foreman whose body was found yesterday on the Missouri Pacific right-of-way within three blocks of the Crane business district.

Ingram's head had been badly crushed, apparently with the use of a blunt instrument, and several shots had been fired into his arm. There also appeared to be burned holes in one of his arms and a suit of underwear was drawn tightly about his neck.

The slain man resided at Yellville, Ark.

ORDER DEFIED

CARLO, June 26 (AP)—Defying a government order against parliamentary sessions, members of the chamber and senate broke through a cordon of police this afternoon and forced even the barred door to hold a sitting.

body of Mrs. Ida May Galbreath, her mouth sealed with adhesive tape and her head wrapped with cheesecloth, was taken from Lake Michigan at the foot of Hollywood avenue, today.

Miss Galbreath, a nurse, was 65 years old. The body was fully clothed, including a long-sleeved coat. Her purse was bound with a heavy cord.

Police believe the elderly nurse took her own life, but their first investigation failed to account for a bruise above one eye, nor did it explain the purpose of the cheesecloth head-covering.

Tangled Love

THREE young Greenwich Village artists found themselves involved in a strange love triangle. Clarissa Morley was in love with Alan Steyne and took it for granted that he wanted to marry her. . . . But Steyne really loved Judith Grant, Clarissa's chum, and asked her to be his wife. . . . and Judith, secretly liking Steyne, spurned his advances out of loyalty to her girl friend. How this tangled situation is unraveled is told in a fascinating new serial story, "Dancing Judith."

Hobbs Man Flies Here To Bedside Of Injured Wife

It is learning that his wife and 12-year-old daughter, Mary Pauline, were injured in an automobile crash near this city, Harry E. Hobbs, of New Hobbs, N. M., landed at the municipal airport 45 minutes later. The flight from New Mexico was made against a 75-mile wind.

Mr. Hobbs sustained slight chest pains, while the child suffered abrasions about the body when she was thrown from the car in which they were riding. She was taken to the hospital for treatment.

C. Chesler, also of Hobbs, accompanied Mr. Hobbs, and the flight was piloted by Loy Mitchell, of Hobbs, who is manager of the Hobbs towing company.

PENSION AGED FARMERS
BOUHATTA, La. (AP)—A bill to pension Louisiana farmers who have reached the age of 65 and who have tilled the soil consecutive years is planned for the June session of the state legislature by Representative W. H. Hankins of Red Parish.

SAP INFECTS ORCHARDS
SAN FRANCISCO (AP)—Thousands of acres of orchards, planted years ago or more, are infected with sour sap. This disease, caused by cold weather during a warm spring, causes slow death of the affected trees.

Cotton Develops Livestock Grain

NEW ORLEANS, June 26. (AP)—The cotton market developed an upward trend to price in fairly active trading today. Cables were better than day and prices advanced 15 to 16 points in early trading on new crop months. July was relatively easy, gaining only three points owing to the issue of additional notices of delivery both here and in New York.

Markets At A Glance

NEW YORK, June 26.—Stocks strong; pivotal shares rally 2 to 6 points. Bonds irregular; domestic issues firm. Corn firm; leaders rally one to three points. Foreign exchanges irregular; Spanish pegs again touches new low.

Grain

FORT WORTH, June 26. (AP)—Wheat values on the Fort Worth cash grain market Thursday followed the contract market advance with demand reported good at the advance. Export bids were around \$1-20 1/2c, basic delivered Texas Gulf ports, bills were bidding \$1-20 1/2c, basis ordinary No. 1 hard delivered Texas common points. Fair demand was reported for corn and oats. Offerings and demand for barley were light; while sorghum values were nominal with little trading.

Bears Beat Orderly Retreat As Stock Market Ends In Rally For Second Day

By JOHN L. COOLEY, Associated Press Financial Writer. NEW YORK, June 26. (AP)—The bears nudged their drums and spiked their big guns today, beating an orderly retreat that enabled the stock market to close on a rally for the second consecutive day, thereby establishing a record for the current month. Sales, however, were the smallest since June 13, totalling only 2,371,080 shares.

Livestock

FORT WORTH, June 26. (AP)—In point of dullness and bearish demand, trade in slaughter steers and butcher cows Thursday bore a strong resemblance to Wednesday's market. Prices paid for slaughter steers suggested further weakness or fresh declines of 15 to 25c and butcher cows had to sell on an uneven, catch bid market, averaging around 25c lower.

Local Markets

These prices are furnished by the following Lubbock firms: Poultry—Lubbock Poultry and Egg company; Dairy—Producers-Bell Ice Cream company and Milksteds Creameries; Grain—E. C. Coon Grain and Seed company, and Cotton—Blocker Cotton company. Prices subject to change during day.

Pro Agencies

live districts would be cut in 12 to correspond in some measure to the judicial circuits and the enforcement districts would be left as at present. There are 27 in conformity with the judicial districts.

Explosion

As soon as government examinations were completed, police cleared a path through the crowd, so that the plane might be hoisted by the hoist until it takes off in a few days on a non-stop flight for the West Coast, completion of which will mark the end of its long journey around the world.

Southern Cross

Looking around bewildered, by a quarter of "float" in the air. The other three followed and the quartet, the second group ever to make the perilous crossing of the North Atlantic by airplane, was immediately seized by the army of customs men, news reel men and representatives of the law country-wide broadcasting systems.

McKee Appeal

M. McKee, chief defense counsel, is making his appeal to the higher court on the grounds that McKee was unlawfully exhibiting himself to witnesses before the trial. This is alleged to have occurred on Wednesday of last week when Mrs. Kate Billingsley, the widow, and Mrs. Mary E. Boyd, whose filing suit was held by the state, were talking to John Keller of Lubbock, a state highway patrol officer in the county jail. The woman did not see McKee, but testified on the witness stand that they heard the "same voice" as the one they heard talking to John Keller of Lubbock, a state highway patrol officer in the county jail.

"Hard Times" See Depositors Rush For Postal Savings Bank Of U. S.

BY RODNEY DUTCHER
Service Writer
WASHINGTON, June 26.—Hard times are always boom times for Uncle Sam's bank—the Postal Savings System.

Business depression, bank failures and economic uncertainty always make the safety of such deposits attractive to a certain number of citizens, even though Uncle Sam only pays a per cent on their money.

Frederic A. Tilson, above, Third Assistant Postmaster General who has general supervision of the Postal Savings System.

Many depositors, becoming unemployed, undoubtedly have withdrawn their postal deposits from their banks. But there have been more than enough timid souls to make up for such withdrawals with new deposits.

So today there is more money deposited in the Postal Savings System than at any previous time in its history. At the end of May it had on deposit \$170,474,505, a large increase over the amount at the end of the 1929 fiscal year—\$132,143,348.

In 1929, the biggest previous year since the system opened in 1911, deposits totaled only \$137,000,000.

Average Deposit \$370
Nearly 460,000 persons are now using postal savings. It is estimated, and the average principal per depositor is about \$70.

The year the United States declared war, 1917, was the year in which the largest number of timid persons rushed to trust their small savings to Uncle Sam. There were 675,000 depositors then.

Heaviest deposits are made in large cities by depositors either foreign born or of recent foreign extraction. New York City leads in total postal savings deposits, with Brooklyn, Boston and Chicago next in the order named.

At first a majority of postal savings depositors were foreign born but with the passage of restrictive immigration laws the time has come when nearly two-thirds are native born.

The depositors are mostly persons unfamiliar with modern banking or those who have been stung by or frightened by the failure of commercial banks. Often they are folks who, for one reason or another, wouldn't use any other bank—unless an old sock or a tomato can may be called a bank.

Postal savings increases invariably following bank failures in any section. Large increases were noted in Florida, Texas, Illinois, Alabama and Nebraska during the past year.

At the end of 1929 these states led in respect to total deposits:

New York	\$32,000,000
Pennsylvania	9,000,000
Iowa	8,000,000
Minnesota	7,000,000
Illinois	7,000,000
Montana	6,300,000
Massachusetts	6,400,000
Florida	6,000,000
Missouri	5,200,000
Oklahoma	5,000,000

Other states with more than \$2,000,000 in postal savings deposits were California, Colorado, Idaho, Kansas, Michigan, New Jersey, Ohio, Oregon, South Dakota and Texas.

Large Number of Depositors
States with the largest number of depositors were New York 112,000; Washington, 28,000; Florida, 26,000; Minnesota, 16,000; Massachusetts, 15,000; Illinois and Washington, 14,000; Iowa and New Jersey, 13,000; Missouri, 12,000; Montana and Oklahoma, 11,000; and Texas, 10,000. The variance in average deposits by states is obvious.

When the system was established there was considerable objection on the ground that the government was going into competition with the banks. But that argument is seldom heard now.

Postal savings officials point out that there is no real competition with the banks because the deposited money goes into the banks anyway, at 2 1/2 per cent interest. If the banks took this money directly from the depositors they would be

paying 3 or 4 per cent interest and as it is they receive it in a single account, saving considerable overhead.

Bankers are consequently glad to get this money, although they have to put up bonds to cover and must be members of the Federal Reserve System. The amount of postal savings deposits in any community is proportioned among local banks in accordance with their amount of capital and surplus.

Since the establishment of postal savings the limit on individual deposits has been raised by jumps from \$500 to \$1,500. Postmaster General Brown wants the limit raised to \$3,000, arguing that the value of the dollar has changed, that postal savings bring to life money which otherwise would be dormant, and that the system being operated in the interests of the banks as well as the timid thrifty.

Three Charged With Forgery

Earl Walters, Jack Ramsey and Hoyt Meador Transferred from City to County Jail by Local Officers

Earl Walters, Hoyt Meador and Jack Ramsey were charged with forgery yesterday by District Attorney Durwood Bradley, following their transfer from the city to the county jail. They were arrested Tuesday night.

According to allegations, one check was cashed at Montgomery Ward & company and another at Heep's Cheesy store.

In possession of the men were four checks for \$9.53 each, made payable to George Owens and signed "W. W. Cowan by Mrs. W. W. Cowan." Another for \$13.75, made payable to Jesse Wilson, was signed "H. A. Freeman," and the sixth for \$11.50 was made payable to Jack Johnson and signed "D. W. Gill.

Advancements Of Communism Is Published

Front Page Review Printed by Soviet Press of Eve of Sixteenth Congress of All Union Communist Party

MOSCOW, June 26. (AP)—Incident with the opening of the sixteenth congress of the All Union Communist party, the Soviet Press prints a long front page review of the achievements of the bolsheviks since the last meeting of the party two years ago.

The statement says the communist regime in the two years has made more progress industrially, socially and agriculturally than during the entire preceding decade.

Industrially, asserts the review, Soviet Russia within a short period will catch up with and even surpass the foremost capitalist countries like the United States, this without the aid of foreign loans.

The so-called socialist sector or combined state and collective farms, the review declares, which two years ago produced only two per cent of Russia's agricultural output today is producing 50 per cent of the marketable grain yield.

The review continues: "These achievements by the proletarian party were accompanied by a bitter fight against the capitalist elements and the class enemy. Our agricultural collectivization scheme already is so highly successful that it will enable us to exterminate the kulak (rich peasant) as a class within the Soviet union which opens a new era in socialist construction."

"Thus we are approaching a period when 'nepean Russia' (new economic policy) will be reconverted into 'socialistic Russia.'"

Declaring that members of the right wing opposition are agents of the kulak, the review, which undoubtedly was inspired by the Krenin, warns opponents of the communist party that they will no longer be tolerated. The review adds: "The sixteenth congress will go down in history as the congress of victorious advance toward socialism."

Reviewing the work of the communist international, the newspaper Pravda urged the American party to intensify its activities among negroes and workers of foreign nationalities, as well as the native American laborers in the United States.

Ignored Instructions
Jay Lovestone, who formerly led the American communist party, Pravda ignored the instructions of his directors. After his expulsion, however, the newspaper declared, the American communist party under new leadership became much more active, developing its work on a wide trade union basis.

This increased activity, Pravda asserted, was evidenced by the number of strikes carried out in the United States in 1929 and 1930, such as the textile strike at Gastonia, N. C., the miner's strike in Illinois and other labor disturbances.

"Another fact showing that the American party now is more active and consequently a greater menace to capitalism is the increased suppression of its work by government authorities, as for example, the arrest of W. Z. Foster, police attacks upon strikers and the government's investigation of the activities of the communist party in America."

"It is the problem of communists in America to plant the seeds of communism so deeply into the masses that the bourgeoisie will be unable to tear their roots from the hearts of workers."

Negro Sought For Attack On Couple

PORT ARTHUR, June 26. (AP)—Police today sought to apprehend a negro who last night attacked Monroe Dorsey, and his companion, Miss Louie Borel, with the butt of a revolver, inflicting severe injuries upon the girl, which necessitated taking of eight stitches in her head.

The couple was driving in the vicinity of the old acid plant on the Texas company road, about 10:10 o'clock, according to Chief M. B. Wort.

According to police, Dorsey reported that a negro jumped to the running board of the car and attacked him with his fists. Dorsey jumped from the car and ran for aid. While Dorsey was absent the girl was jerked from the car and severely beaten. Her screams frightened the negro away.

N. Y. Woman Lost 14 Pounds of Fat

Huntersville from the various farms, 28,000 pounds of surplus vegetables were shipped to the state hospital at San Antonio. Coon said much of the surplus had been canned.

Horton said the planting of truck was part of a program laid out last December by the board's agricultural committee headed by E. H. Austin of Bryan.

"I am starting on my second bottle of Kruschen Salts and am real pleased with results. I take it for reducing and so far have lost 14 pounds and I think it is doing wonders for me. I do not feel tired evenings when I get home from work."

A generous bottle of Kruschen Salts lasts 4 weeks costs but 85 cents at the City Drug Stores or any drug store in America—take one half teaspoon in a glass of hot water every morning before breakfast—cut down on starches and walk a little each day.

Fresh Vegetables Cut Prison Bill

SHERMAN, June 26. (AP)—Use of fresh vegetables in feeding prisoners in the state penitentiary system has brought a saving of 23 per cent in the cost of food compared to the same period last year. Fred Horton of Greenville, member of the state prison board, said today.

He based his statement on a report of Horace Coon, prison steward, which showed that in addition to the products received at
