EXTRA LARGE WHOLESALE PRICES TO FURNISH

EAGLES DEFEAT TIPTON IN LAST TILT OF SEASON

According to athletic officials it marked the last game, also, for nine of this year's players. Some are graduating while others come

GAME PLAYED HERE FRIDAY

Cochase and members of Team Given High Praise For Showing

In the last game of the season the Chillicothe Eagles smothered the Tipton, Okla., eleven here last Friday afternoon by a 26-0 count. It was a non-district setto and had no bearing on the race.

CONFERENCE STANDINGS

Teams.	G.	W.	L.	T.	Pct.
Chillicothe	6	5	0	1	.833
Cochase	7	6	1	0	.857

This week's games

Seymour at Olney.

under the eight semester rule. Archer City, which trounced the Eagles in the first game of the District 9, Class B, chase wound up in a tie with the team eleven for third place with a percentage of .571. After a slow start Jesse Muse finally brought the youngsters around to winning form and in closing the race was one of the best teams in the district. The Eagles lost to Archer City, Crowell, and then Olney. In the game against Crowell here on a muddy field—the Eagles' footwork was lacking, and local fans feel had the field been dry might have been a different story. They are as just as firm in their conviction, too, the Eagles would have come out of the Olney fray had they had two passes over the goal line, straight into the arms of receivers, been held. The Eagles might have come home on the long end of the score.

But that—"it!"

RED CROSS DRIVE PROVES SUCCESS

Response of Chillicothe Public Gratifying

Approximate amount of funds derived from this year's Red Cross drive is \$235.50. It was revealed this morning by one of the officials, and might be slightly higher than that figure, when reports of all teams are received. There are two yet to make reports.

Compared to last year's roll call it is slightly under the \$248 received then, but based on the number joining the Red Cross this year the average amount for each member is higher than in 1934.

The two teams to be heard from are headed by Raymond Touchstone and A. L. Honeycutt.

Officials are very well satisfied with the response if the Chillicothe public.

Back From Hospital

Shirley Hamm, infant daughter of Fred Hamm of this city, who has been in a Vernon hospital for medical treatment, was dismissed last Tuesday and returned to her home here.

DAY OF THANKSGIVING

Although this edition reaches you a day earlier due to Thursday, the regular press day, being Thanksgiving, the date line, however, is Thursday, November 28.

Consequently, the News will observe, like most everyone else in Chillicothe, the day for hatching momentarily in the rush of everyday life and give thanks on the part of the staff for what has come to each one since the last Thanksgiving.

Since olden times people of this country have paused to reflect upon what has come to them. It has come on through all these many years to be handed down to us—and the will and spirit is just as manifest today as it was in the beginning; we believe that in all sincerity. Some of us celebrate, others make it a day of rest. Yet, whatever choice may be the observance, it is done to evidence thankfulness and to commemorate the work of our forefathers.

So, it is with this Thursday, November 28, all people of the United States will declare their appreciation. The News staff will be included. Let us, in so doing, however, be mindful of what the day means; let us first thank the Almighty Saviour for His goodness in giving us as a great, industrialized country, free of war, free of petty jealousies; let us look upon our neighbors, as a friend, and return that friendship; let us give and receive graciously, marked by that ever-renewing thought that life is not worth living unless there be some giving; and, too, as some of us depart from our own city to visit with loved ones elsewhere remember that ever present danger, on the highways—automobile accidents, already huge in death toll. Let us conserve our life, and the lives of others, and be able to arise on the morning of the next day and say, "Well, I was sane in my driving, I am still alive, and my loved ones are alive, to live, perhaps, for another day of Thanksgiving."

Then there is something else: A person has the tendency to look upon Thanksgiving Day as a time for eating heavily. There usually is found a large turkey on the dining table, and because turkey dinner is a little later than the usual time for the noon-day meal, folks naturally become hungry. When they sit before the table they start in to eating and never stop until forced to. That is a sin committed against your body. The reaction is usually painful to say the least. Avoid overeating is the doctor's warning.

Let all of us, therefore, spend Thanksgiving Day sanely and wisely. Let us have a good time, to be sure, but a good time can be had without overindulgence in some of the ways mentioned above. And the News extends to you the best wishes for an enjoyable day. Live it for what it is meant for.

To all the several business establishments of Chillicothe having conducted in any way the success of The Valley News, the Publisher desires to express his most sincere appreciation. He hopes each one has benefited by so doing, and please be assured for this next year it will be the aim to continue to serve Chillicothe better and better through the medium of The Chillicothe Valley News.

VERNON MAN IS MAIN SPEAKER AT BREAKFAST

Held Monday Morning As First of Series for C-C Directorate

First of a series of Monday morning breakfasts for the directorate of the Chillicothe Chamber of Commerce, was held last Monday in the Denver Hotel dining room.

L. A. Wilson, secretary of the Vernon Chamber of Commerce, was the principal speaker. He stressed the importance of a chamber of commerce in an informal manner for the securing of new enterprises, yet, in so doing, not neglect the further importance of protecting what is already had. He was roundly applauded for a very interesting talk.

O. H. Dodson and F. L. Moffett were present. They are present to the school, the tract of land just east of the high school building, which is to be turned into an athletic field, a city park and a bathing pool. At the suggestion of J. W. Hulsey, secretary of the Chillicothe Chamber of Commerce, it is hoped that the park, known as "Moffett" park, derived from the names of the donors.

The breakfast proved very successful with the entire directorate in favor of continuing such a plan as it brings them more closely together in an informal manner. C. L. Glazener of the Glazener Chevrolet Company, automobile consultant, heads the organization and is in charge of breakfasts at his instigation.

Goes to California

C. W. Lawton, for several years manager of the Lawson Service Station in Chillicothe, has relinquished his interests and left for a few days for Los Angeles, Calif., where he will make his home.

Returns to Chillicothe

Claude Henry, living in Vernon with his family for the past few months, has returned to Chillicothe to reside with his family at H. C. Farrington house, west of the city. He moved last Thursday.

Chillicothe Rises, Falls Twice A Day

Is Like Lofty Ship Riding Ocean Tide, Says Scientists

Like a lofty ship riding the ocean tide, the Bank of Chillicothe, the building, for instance, rises and falls twice each day on a dry land tide corresponding with the surge of the sea.

That's the verdict of a well-known scientist. Columbus claimed the world was round. "King" Wilbur Glenn Voliva, of religiously zealous Zion City, Ill., tells the world that it is flat and four-cornered. Geographical scientists, painstakingly measuring and graphically recording the undulating ebb and flow of dry land tides 24 hours each day know the world is not flat; never will be round, even if it stops revolving and loses its centrifugal force, which flattens the earth at the poles and bellies it out at the equator. They have definitely established the combined land and marine tides dis-

GINNINGS FAR AHEAD OF LAST YEAR'S COUNT

Total Counted to Date is 5,251 Bales, Revealed This Morning

Thanks to clear weather during the latter part of last week Chillicothe gins were able to turn out a total of 584 bales to hike the season's run so far to 5,251 bales. Compared to last year at the same time when there were only 3,269 bales as the count, the increase is 1,982 bales.

Rainy weather during the first part of this week brought a halt to cotton ginning, however, it is thought work can be resumed to some extent during the latter part of the week due to fair weather again prevailing. Approximately an inch and a half fell in the major portion of the community, and while it interfered with plans of cotton farmers, wheat growers had the opportunity of smiling as it is thought there will be enough moisture to carry the wheat through until this next spring.

News files reveal, in a comparison of gin figures, that this year's run is far below the year of 1933 when 14,264 bales had been ginned.

Lions Entertain Eagles Football Team and Coach

Final Record Established by High School Team This Season

Members of the 1934 Chillicothe High School football team were guests of the Chillicothe Lions Club at the noon-day luncheon held Tuesday. They were made to feel their record is appreciated, and while not being able to win any championship honors, wound up the season in a tie for third place with Archer City.

SCHOOL CARNIVAL IS HELD THURSDAY

Conducted by PTA of Medicine Mound School

The Medicine Mound Parent Teacher Association sponsored a school carnival Thursday night, November 21. The different booths were under the supervision of faculty members who were assisted by a few of the patrons. The outstanding feature of the evening's entertainment was the crowning of the winner of the popularity contest as queen of Medicine Mound school. Vera Davidson, representing the ninth grade, won this contest.

The proceeds are to be used to carry on extra curricula activities in the school.

REPRESENTATIVE GIVEN HISTORY OF THIS COUNTY

Created By Legislature and Approved February 1, 1858, Moffett Told

IS NAMED FOR TWO HARDEMAN

Bailey and Thomas Jones Hardeman Came to Texas From Tennessee

Rep. George Moffett, who has just returned from Austin where he was in attendance at a special session of the Texas Legislature, points out the significance of knowing something about Hardeman county since Texas is to celebrate, starting next June, the 100th anniversary and as a result has secured from Clarence R. Wharton of Houston information of historical interest pertaining to this county.

In reply Wharton has furnished the following: "Hardeman county was created by an act of the Legislature of Texas approved February 1, 1858. It was named for Bailey and Thomas Jones Hardeman who came to Texas from Tennessee in 1835 and located on Caney Creek in Matagorda county. They were both born in Davidson county, Tennessee, about three miles from Nashville. Bailey on February 26, 1785, Thomas Jones on February 31, 1785. Their father, Thomas Jones Hardeman, had been prominent in North Carolina before he moved to Tennessee and served in the North Carolina Convention that ratified the Federal constitution in 1788. He moved with his sons from Davidson county to southwest Tennessee and Hardeman county, Tennessee, where he lived the remainder of his life. His son, Bailey, studied law and located at Bolivar, the county seat of Hardeman county, Tennessee.

Bailey and Thomas J., his brother both took part in the Revolution of Texas in 1835 and Bailey, as you know, was a delegate from Matagorda county to the March, 1835 Convention, one of the signers of the Declaration of Independence and Secretary of the Treasury of the Republic. He served in this capacity thru the term of the act interim government, March to October, when the constitutional convention was inaugurated, and died in October. In June, he had been selected by Burnet as one of the Commissioners of the Republic. Anna from Velasco to Vera Cruz and had gotten on the boat for the purpose of accompanying the Dictator when El Presidente was taken from the boat by insurgent soldiers.

"The other brother, Thomas J., continued to live in Matagorda county for a while. When Ira Ingram, the speaker of the House of the First Republic, a member of Congress from Matagorda, died during the First Congress, Thomas J. Hardeman succeeded him and served during that session and served in the House of the Second Republic. This Thomas J. had two sons who became prominent in Texas. One of them, Thomas J., Jr., was in the battle of San Jacinto, another, William P., was a Brigadier General in the Mexican War.

NEW BUILDING TO BE STARTED SOON

Open Bids Saturday on Medicine Mound Project

The day for the erection of Medicine Mound's new school building is slowly being drawn nearer. The school board will meet at 2:30 Saturday to open bids on the construction of this new building. Actual work is expected to begin not later than December 15. The plans call for six class rooms with a combination auditorium and gymnasium. The building will be 126 feet long and 90 feet wide.

VALLEY NEWS BARGAIN RATES NOW IN EFFECT

COMBINATION DAILY PUBLICATION RATES ALSO OFFERED

Make less money by more reading. The Valley News Bargain Rate is now in effect, offering one whole year's subscription for a dollar.

Then here is another greater value: The News Combination Rates:

The News, one year, and the Vernon Daily Record, one year, for \$3.75.

The News, one year, and either of the Wichita Falls papers, one year, daily and Sunday, for only \$3.00.

The News, one year, and the Fort Worth Star-Telegram, daily and Sunday, one year, \$7.10.

The News, one year, and the Dallas Morning News, daily and Sunday, one year, \$8.00.

The News, one year, and the Dallas Semi-Weekly Farm News, one year, for only \$2.00.

Keep in touch with the news of the day by reading your favorite daily newspaper, and then for city, county, and state happenings, read your Valley News.

FINE PROGRESS MADE TO RAISE CHURCH FUND

Hope to Start on Presbyterian Church Structure By January 1

Gratifying progress is being made in raising funds for the new Presbyterian Church, with the committee active work on the proposed building to begin not later than January 1. It was announced this morning by Rev. J. A. Phillips, pastor.

Business men and other citizens of Chillicothe have been very courteous and liberal in their contributions. Many have not as yet been solicited, but the building committee will possibly call on them this week or next. It was further made known.

Rev. Phillips stated they are trying to raise \$500 more before beginning to place material on the ground.

Brisk Trading At Chillicothe Stores Reported

Saturday's Business Said to Have Reached New High For Season

Volume of trading done at Chillicothe stores Saturday is said to have been the highest reached this season, and brought smiles to merchants.

Weather prevailing this last week made it possible for certain stores to get in a few days work, and when they reached town were in a humor to buy necessities. Monday's shopping was also brisk, merchants declared. Rainy weather kept people out of the cotton fields.

Another large crowd was on hand Wednesday for the weekly trade day, doing considerable shopping.

Said to Be Quite Ill

Little Emily Ledbetter, daughter of Mr. and Mrs. W. Ledbetter, is said to be quite ill at her home. Her condition is not thought to be serious, however.

Is Recovering

Mrs. C. R. Tobbs, who has been ill for the past five weeks at her home here, is reported to be recovering, and able to be up.

Has Infected Hand

C. W. Edwards of Chillicothe was admitted to a Vernon hospital Saturday morning for treatment of an infected hand.

L. L. Rutledge was a business visitor in Vernon Tuesday.

DRINKING TO BE PROHIBITED AT PLACE OF SALE

Beer and Wine of 14% or Less May be Drunk at Place of Purchase, However

80c PER GALLON TAX IS ASSESSED

Sales Method Believed Practical Basis for Dispensing Whiskey

Representative and Mrs. George Moffett and daughter, Joy, returned from Austin last Friday, where Mr. Moffett had been in attendance at a special session of the Legislature. They expressed themselves as being very glad to be back home. When asked for a statement concerning the Legislature's activities, Mr. Moffett said the following to say: "It may have seemed to the folks at home that the Legislature was too slow, but it is a fact that we were legislating upon difficult subjects, and hasty action would have been worse than no action at all. Many of us worked in a summary of the laws of other Nations, and trying to frame laws that would be fair, and workable among the six million people of this state. I have been asked so many times what the new liquor law was, that I am going to give a brief summary of the main features of that law, and if your readers are also interested in a summary of other laws recently passed, I will furnish you that at a later date, Mr. Moffett asserted.

There is probably more divergence of opinion concerning the regulation of liquor in Texas than in any other State. Practically all shades of opinion, concerning liquor are represented, and, therefore, it is a practical impossibility to pass a law that would meet with anything like unanimous approval. Furthermore, the Constitutional Amendment which was adopted was not very well drawn and the language used therein was not clear in its meaning, thus giving rise to endless argument as to what the people meant by their vote for repeal last August.

"The law, which the Legislature passed, prohibits the drinking of spirituous alcoholic liquor in the place where sold. It does permit the drinking of beer and wine up to 14 per cent alcoholic content. In the place, or places where sold, the sale of whiskey, gin, brandy and etc., can only be made in licensed packaged stores and the packages cannot be opened in the store where sold. More than twenty states have such a law. All counties or parts of counties in Texas that were dry in 1919, when state-wide prohibition became effective, remain dry until the people of such counties, or parts of counties, vote for the sale of one of the various types of liquor. A county-wide election may be called by the Commissioner's Court.

GROUP PRESENT AT A-M CLUB MEET

Held at Faith Cafe in Vernon Monday Night

J. Roy Quinby, Jack Molnar, and George Moffett, of Chillicothe, together with Com. Frank Wendt, of Quannah attended a meeting of the Northwest Texas A. M. Club at the Faith Cafe in Vernon, last Monday night.

Among other things it was voted to have a rally of all the ex-students of the A. M. College in this section of Texas on Monday, February 24, 1936, when R. H. McQuillan, secretary of the State organization will be the honor guest and principal speaker, and at which every ex-student of the College in this district are expected to attend. After a short business meeting the meeting adjourned until the above date.

STOP WHEN YOU CANNOT SEE WHERE
YOU ARE GOING

Frequently in motor car crashes on the highways it is explained that a motorist crashed into somebody because he was blinded by the lights of a car he was facing. But in Texas the courts have rejected the excuse. They say that a motorist who is blinded by the lights of an approaching car and who crashes into something or somebody, is guilty of negligence.

The exodus is on. Fake security dealers are on their way out of Texas and legitimate dealers who offer the public sound investments are able to do so without fear of suspicion.

The Texas Securities Act, which passed both houses of legislature without a dissenting vote, is responsible for this happy condition.

However, the state is not completely rid of all fraudulent security dealers and the public is charged with the final responsibility. It is up to the persons who invest in stocks, bonds and oil, gas and mining leases to demand that the dealers they encounter be registered under the state securities law.

If a doubt as to the eligibility of any dealer exists in the mind of any citizen it is the duty of that citizen to inquire immediately. This information can be secured from the Secretary of State's office in Austin.

Many dealers in gas and oil leases contend that they are exempt. Such a contention is a misunderstanding of the law. In some cases lease dealers are sincere in this belief and are laboring under a false impression. In many more cases the dealer does not want to know the law. He is aware that his past record as a swindler and a crook will not permit him to become a registered dealer in Texas.

Under Article "A" of Section 2 of the Tex-

as Security Act it is plainly stated that "any instrument representing any interest in or under an oil, gas or mining lease, fee or title" is to be classed as a security.

This clause was necessary in the law due to the existence of a great number of fake lease dealers in Texas. These parasites have preyed upon the unsuspecting small investors. They have steered clear of wise investors who take time to investigate before they invest.

Under all conditions potential purchasers of securities are urged to be certain of the dealers who approach them.

IMPROVING BUSINESS

Is business improving? Is there reason for believing that permanent improvement is actually under way? We are not attempting to answer these questions to your satisfaction. You wouldn't pay much more attention to our opinion on these points than we would to yours, so we are leaving the answers to an institution that commands attention because it is qualified to speak with authority.

The institution referred to is the National City Bank, of New York, one of the country's greatest financial institutions. Like all other great financial institutions, the National City Bank is conservative in its statements, and when it permits a note of optimism to get in it means something, means a great deal, in fact. Here, in its own words, is what it has to say in its monthly review of economic conditions released recently:

"The persistence and spread of the business improvement over the past nine or ten months, despite both political and economic handicaps, have made a strong impression upon all observers.

"None of the previous upswings during the depression has extended as widely into the durable goods industry; also, and doubtless for that reason, none has shown such staying power. From the peak of the rise, reached in late winter, subsequent reaction amounted to only four percent in terms of the Federal Reserve Board's index to industrial production, and now another rise is apparently under way.

"This supplies an encouraging contrast to the sharp recession that followed every other upward movement. Moreover, business had to overcome the disturbing influence of the NRA, the AAA, and other court decisions; the continuous apprehension as to the treasury deficit, and the effects of a series of important legislative enactments, all creating difficulties and new uncertainties."

Carpenter Is Named To Head Pension Board

To Resign As State Auditor When Pension Law Takes Effect February 14

AUSTIN, Nov. 27.—"We are going to be fair to the old people of Texas," said the new pension chief this week.

Orville S. Carpenter, 36-year-old State Auditor, was named executive director of the old-age assistance board, November 29, by the new three-member commission. He will resign as Auditor and take up his new duties when the pension law becomes effective February 14.

"We are going into the matter carefully. I am studying the pension systems of other states that have pension laws," he said.

Mr. Carpenter probably knows more about pensions than any other man in the State. At request of Governor Allred, Mr. Carpenter made a survey in September on the "Cost and General Plan for Old-Age Pensions." This was prepared for the Legislature, and the new law reflects his survey in many ways.

The Dallas businessman was appointed last August by the Governor to reorganize the office of the State Auditor. To the Legislature, he made reports on pensions, liquor, and fees. Other surveys were on taxation, bank deposit insurance, and a number of lesser subjects. He is now conducting audits of the Treasury and Banking Departments.

He estimated that there were 283,195 people in this State, 65 years of age or older. Considering the experience of other states, he calculated that there would probably qualify for old age assistance in Texas 62,932 people.

"As there are 41,787 persons 65 years of age and over on the Texas relief rolls, this apparently is the minimum number able to qualify for old-age pensions," Mr.

Carpenter stated. "I am not sure about the reducing effect of the regulations passed by the 44th Legislature. My calculations were made in September before the new law had been passed," he said.

FARMERS UNION MEETING CALLED

Officers to Be Elected For Coming Year

Officers to serve for the coming year will be elected at a meeting of the Chillicothe Farmers Union on Saturday, December 7. The meeting is to be held in the City Hall.

President Underwood of the organization stated it was urgent every member be present as well as others who would like to attend. The hour for meeting is 2:30 p. m.

Here Saturday

Mr. and Mrs. O. T. Murphy, former residents of this city, were here Saturday night and part of Sunday. They now live at Quitaque where Mr. Murphy is superintendent of a cotton compress.

John Clarke of Memphis is here for a visit with V. O. Williams, Jr.

Mr. and Mrs. Ferrel Pogue and son, Darwin, spent Sunday with friends in Chillicothe, from Quana.

10,000 Jobs In Texas Offered Boys and Girls

Eligibility for WPA and NYA Explained By J. C. Kellam, Director

AUSTIN, Nov. 27.—Ten thousand and part-time jobs are ready for Texas boys and girls. J. C. Kellam, assistant director of the National Youth Administration, announced today.

In order to be eligible for these jobs on WPA and NYA projects, Kellam said, boys and girls must be between 16 and 25 years old, must come from families eligible as eligible for work on WPA projects, and must register with the National Re-employment Service. This registration is required solely because all assignments for work are made by the NRS.

"Boys and girls now enrolled in school are urged to continue their school work and not drop out to accept the part-time jobs offered through the NYA," Kellam said. "Education is as much a part of the NYA program as work-relief. These jobs have been provided only to care for youths who have finished school or need or desire no further education."

Youths employed on WPA projects will work 46 hours a month, Kellam said. The WPA authorities have agreed youths may be

worked on consecutive days each 15-day period, thus enabling them to complete the maximum 22 hours each period in as few days as possible. For example, a youth working on a Harris county WPA or NYA project, will report for work Monday morning and work each day thereafter until he has worked 22 hours. He will not report again for the job until the second 15-day pay period, at which time he will repeat the process.

His pay, Kellam said, in Harris county, will be \$1.82 a day. Wages are based on the security wage scale of the WPA. Youths are classified as unskilled, intermediate, skilled, and professional workers. Pay graduates upward according to this classification.

Mr. and Mrs. D. P. Adrian and daughter, Mrs. Paul McGinnis, spent Sunday in Fort Worth.

CHEVROLET
The Complete Car

THANK YOU, AMERICA,

for more than a Million cars in 1935

This year Chevrolet has two very good reasons for saying, "Thank you, America."

One reason is that people have bought so many Chevrolet cars that production for the year will reach 1,040,000.

And the other reason is that they have placed a record number of orders for new

1936 Chevrolets during the first few weeks they have been on display.

Chevrolet is indeed happy to say, "Thank you, America," and to pledge continued adherence to the manufacturing and service policies which have won and held the friendship of the nation.

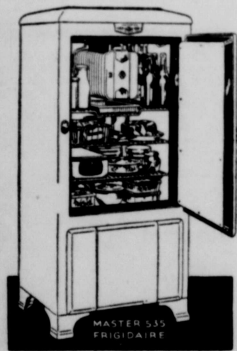

CHEVROLET MOTOR CO., DETROIT, MICH.

6% NEW GREATLY REDUCED G.M.A.C. TIME PAYMENT PLAN

CHEVROLET

A GENERAL MOTORS VALUE

The only complete low-priced cars

1. Buy In Quantities.
2. Watch For Specials.
3. Save Unused Portions.
4. Have Year-round Refrigeration.

Tests recently made over the country show the necessity for year 'round refrigeration. The Government Weather Bureau reports show that there are only nineteen days in the average winter, when temperatures remain throughout the day at "safety zone temperatures"—below 50 degrees and above 32 degrees.

Natural refrigeration is not dependable. It is always summer in the kitchen. Tests in various cities during the winter season, show an average temperature of 76 degrees (26 degrees above the danger-line).

Electric refrigeration is dependable. It makes possible your planned program of saving.

HOW EXPERIMENT STATIONS HELP

All Work Tended to Prove Aid to Farmer

By A. D. Jackson

I saw a beautiful field of oats. Every head seemed to be as good as the best. One did not have to know much about oats to be able to say that was a good yield. It was the field of Norton, a red rust proof type of winter oats developed from local seed supplies on the Denton Experiment Station. The first steps toward producing this oat resulted, I am told, in finding the mixture comprised dozens of distinct types. The type found best was named "Norton," and increased until a large part of the winter and spring oat crop

of Texas is planted to Norton.

I saw alongside a fine field of selected wheat, a small plot that had been planted with millrun wheat and it was pumy in comparison with the selected wheats. The farmer may not know how improvement in grain crops is brought about; how it is that his wheat, oats, and barley and rice are likewise better adapted than their formerly were, but he likes it.

When the Experiment Station found how to select the best types of grain sorghums, and pureline them to a point where almost every head is as good as the best one, a supply of seed became available that any farmer could get, and soon the fields were beautiful and uniform. With dwarf types, the proportion of roughage was reduced and the grain easier to harvest. The farmer is pleased to be able to get grain sorghums that are uniform and produce high yields of good type heads all the same height from the ground and all maturing at the same time so that heading by machinery is practicable. It is almost a dim memory when a feterita field was razed with plants of varying heights and such varying maturity that many heads would be over-ripe and shatter when cut while many others would be immature. In fact, all of the grain sorghums had such objections and the earlier maturing of a few heads and the progressive ripening of the crop over a prolonged period not only made harvesting difficult and yields low, but encouraged the development of insect injury as several successive broods of insects could find food in these fields of mixed crops.

Everybody knows that good seed corn is available, and makes far better corn than poor seed of ill-adapted varieties, but it should also be known that it was the Experiment Station that identified the better sorts and pointed to the tremendous increases in yield that follow the planting of the better seed. In the same way, better seed, but better tillage methods and better knowledge of

when to plant as well as when and how to fertilize are common property, to say nothing of the vast body of technical knowledge necessary to successful fruit and truck growing.

When you take your milk to your creamery, a sample is taken, the butterfat estimated most accurately, and you are paid according to the quality of your milk, and you well know that your milk is bringing you more than milk of poorer quality. That is because S. M. Babcock, a Wisconsin Experiment Station worker, found the means of measuring the butterfat in milk which has caused a system of selection that has resulted in doing away with many of the cattle that give poor milk. When you buy a fine bull or a fine heifer, you have all the markets of the world to select from, because the fever tick has been practically eradicated and in sections where it has not been eradicated, you can still safely bring your fine animals into the tick territory by inoculating them against tick fever. The Texas Experiment Station in developing this process, speeded up by many years the general improvement of the beef cattle and dairy cattle of the state.

When you buy an expensive ram, the Experiment Station has found a means by which you can know that his get will be as superior as the ram himself if your eyes are the right type, and when the lambs get sore mouth, they can be inoculated for almost nothing and losses that were evaporating are now very low. The same thing is true of the angora goats. In fact, all the farm animals can be kept at high production thru the knowledge developed by the Experiment Station. Through patient experimentation means have been developed for measuring the excellence of the breeding material, and for predicting successfully what the product will be. Stockmen and poultrymen could by no means carry on their business successfully without this valuable knowledge.

Not only are farmers aided by the latest and best information on breeding, but they are aided by exact and ever improving information on the best feeds and methods of feeding. It is not necessary for the stockmen to experiment as to whether a certain ration is a good one, for he can find that the State Experiment Station has probably already conducted one or many experiments that have yielded the desired information. It was Experiment Station work that made ton hatters of pigs plentiful. The experimenters showed how to select

GIST OF LICENSE LAW FOR DRIVERS OF CARS IS GIVEN

Persons Now Qualified to Drive Allowed License Free for One Year

All persons driving must have licenses granted by state and given at any regularly established collection agency. License will be denied persons under 14 years of age except on authorization of county judge. Parental consent registered and sworn to will be required for children under 18, and parents assume responsibility in case they give consent for these ages to drive. Collections in counties larger than 75,000 would issue the license.

Truck operators license excepted. Chauffeurs license will be \$2.00 annually. All persons now qualified to drive will be supplied the license at no cost for one year. These may be revoked for the following six reasons:

1. Negligent homicide resulting from operation of a motor vehicle.
2. Driving a car while intoxicated.
3. Any felony in connection with the motor vehicle laws of the state.
4. Failure to stop and render aid.
5. Two separate convictions of aggravated assault with a motor vehicle.
6. Three convictions within a year of violating the "law of the road."

The first suspension would be for six months and subsequent ones for one year. Driving without license will be prosecuted to the end of either imprisonment or fine or both. sows that would have plenty of pigs in the first place, and how to feed these pigs so that the litters would weigh a ton or more at six months of age, and Extension workers were prompt to take such experimental knowledge and cause many farms to profit by it. Experimental workers found how to produce hens that would lay 300 eggs or more in a year, and they found how to make baby beavers big enough to be highly profitable, and records for heavy butterfat and milk production are constantly climbing, but more important than a few outstanding producers is the high general level of production due to intelligent selection of all the herd or flock that makes the dairy barn a more certain source of profit, and the poultry yards and feed lots yield better incomes.

HEALTH TALK

By John W. Brown, M. D.
(State Health Officer)

The first Thanksgiving Day was proclaimed for the purpose of giving thanks for the colonist's health that had allowed them to survive the first rigorous year in America. Dr. John W. Brown, State Health Officer, asks that citizens of Texas give thought to their own health at this season of the year.

Although we have experienced one of the longest depressions in history, the people have retained their health to a remarkable degree. Last year Texas was one of the few states to show a further decline in deaths among infants.

During the last fifty years health departments have been established for the purpose of preventing disease. While their activities have been hampered by a lack of funds, a great improvement in the general health has resulted. During this period the life of the average person has been increased by fifteen years. In other words a baby born now is expected to live fifteen years longer than if he had been born in 1885.

So let each give thanks for the methods that have helped in the conservation of life and, also, pledge to assist in furthering the work being done to improve health conditions throughout the nation.

446 Total Count Of Registration At Sunday School

Most of Forty-nine Revealed By Officials of Four Churches

Dropping to a low of 397 on November 17, four Sabbath schools boosted the total this past Sunday for an increase of 49. It is revealed by officials, there being 446 present.

Churches	Nov. 24	Nov. 17
Methodist	191	87
Presbyterian	159	137
Baptist	45	51
Rapists	141	122
Totals	446	397

Summary: Presbyterian, loss, 6; Church of Christ, increase, 14; Baptist, increase, 19; Methodist, increase, 22.

Ayers Member Crop-Judging Team of TTC

Competed With Team At Kansas City Crop-Judging Contest November 22

LUBBOCK, No. 27—Geoff Ayers, son of Irvy Ayers, Chillicothe, was a member of the Texas Technological College crop-judging team, which left here by automobile November 19 to compete with colleges from all over the United States at the Kansas City Crop-Judging contests held November 22.

Students making the trip, accompanied by Dr. Arthur Young, associate professor of agronomy, were: Melvin Mitchell, Winters; Bailey Maner, Hillsboro; J. Rex Johnston, Floydada; and Ayers. One was to be an alternate. Enroute, the team practiced judging at Oklahoma A. and M. college, Stillwater.

November 23, all members of the grain-judging teams were guests on a demonstration tour of the channels through which grain passes on the Kansas City market. The Tech judges returned November 25.

Week-end Visitor
L. I. Stewart, representing the Air Reduction Sales Company was in the city for over the week-end for a visit with relatives. Mr. Stewart is being transferred from Oklahoma City to Wichita, Kansas. He left for his new home Monday.

Bill Briggs and J. B. Rich were business visitors in Farmers Valley Sunday.

Mr. and Mrs. Henry Moore had as their guests Sunday, Mr. Moore's mother, Mrs. B. F. Moore and his brother, Jesse, and family. They reside at Duke, Okla.

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you don't know all about the relief of headaches; or the pains of rheumatism, neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about it were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains . . . and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

Bayer Aspirin

Proved in '35—NOW BETTER THAN EVER! FORD V-8 TRUCKS FOR 1936

TRUCK operators bought nearly 100,000 Ford V-8 Trucks and commercial cars the first 6 months of 1935—58% more than in the same period last year.

These operators found the 80 h. p. Ford V-8 engine ideal for modern trucking. It has exceptional power, flexibility, stamina—and their records prove that the V-8 is the most economical Ford Truck ever built.

And they prove far more—the Ford's ability to stay on the job, out of the repair shop—its rock-bottom upkeep costs—the tremendous strength of Ford's heavy-duty chassis and frame.

You get these proved qualities in the 1936 Ford V-8 Truck—plus new improvements for even greater efficiency and dependability. Read the features at the right. Think what value they make at Ford's low prices.

Make Your Own "On-the-job" Test

Ask your Ford Dealer to loan you a 1936 Ford Truck. Let your driver and load prove Ford V-8 value to you with the greatest truck Ford ever built. There's no obligation.

AUTHORIZED FORD DEALERS OF THE SOUTHWEST

'500 AND UP, F. O. B. DETROIT—Easy terms through Universal Credit Co., the Authorized Ford Finance Plan.

ONLY THE FORD V-8 TRUCK HAS ALL THESE IMPORTANT FEATURES

- 80 HORSEPOWER V-8 ENGINE—down-draft carburetion—exhaust valve seat insert—improved crankcase ventilation.
- IMPROVED COOLING—with larger, 19-in. fan—exhaust type hood louvers—radiator of flat tube and fin construction.
- STRONGER FULL-FLOATING REAR AXLE—heavier shafts, new cone locks between shaft bolts and wheel hub.
- FULL TORQUE-TUBE DRIVE—with radius rods for positive axle and wheel alignment, longer life wear, more braking.
- NEW OIL-SEALED MULTIPLE ROLLER BEARINGS for universal joints.
- RED-COLORED BRAKES—self-cleaning shoes, rubber-cord cast alloy non-scoring drums.
- HEAVY DUTY CLUTCH—centrifugal action increases capacity 100% at high engine speeds—large diameter plates for long life—pedal pressure reduced 25% at starting and shifting speeds.
- EXTRA HEAVY DUTY FRAME—high carbon pressed steel, with full channel depth cross members.
- CORRECT LOAD DISTRIBUTION—more room in cab—more loading space ahead of rear axle.
- COUPE-TYPE CAB—insulated and lined—seat adjustable to 3 positions.
- GREATLY REDUCED MAINTENANCE—with low cost engine and parts exchange plan.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN—Massed in the east gallery of the house of representatives, lobbying brains that are paid perhaps \$25,000 a year and expenses to influence Texas lawmakers, snickered at each other last Thursday night, as they watched the hands of the big house clock move ponderously to the midnight adjournment hour. Throughout the evening, they watched the house and sales tax majority, snarled in a parliamentary tangle, struggle futilely to extricate the revenue bill from a hopeless conference deadlock. Speaker Coke Stevenson ruled that nothing could be done about the dying tax bill unless the conference committee reported formally a deadlock, so a new committee could be named that would bring in a tax bill without a sales tax, as the house had instructed its conferees.

The lobbyists cheered as they heard this ruling; they cheered as they heard Bob Calvert, Hillboro legislator, regarded as an administration spokesman, who has always opposed the sales tax, waver and offer a resolution instructing the conference committee to take a "reasonable sales tax on luxuries." They cheered again as Calvert's resolution went down to defeat, but by a narrow margin of only eight votes. They had cheered previously, when Walter Woodruff, the lieutenant governor, broke a tie vote in the senate, and put the sales tax into the revenue bill.

These developments marked the denouement of the lobbyists' plan, outlined two weeks ago in this column, of offering the legislature the alternative of accepting a sales tax or passing no bill at all. The governor asked for a special session for January to raise revenue. The lobbyists immediately began making plans for their biggest push. Opponents of the sales tax began making plans to force through an income tax along with the sales tax. They recognized that Texas will have a sales tax next year, unless a miracle happens and the people turn loose tremendous pressure on the legislature in the next 60 days. They do not believe that will happen, because the people are unorganized and the sales tax lobby is highly organized.

The house, which changes its mind often, then the most tickle woman, will induce his mania again for investigating, by probing the public opinion commission and its advisers on the sales tax.

NOTICE TO TAXPAYERS

All Persons Wishing to Avail Themselves of the HALF PAYMENT PLAN

may pay HALF of their 1935 taxes, plus the poll tax by November 30 and have until June 30 to pay the remaining half.

Any person becoming 21 years old after January 1st, 1935 or who may become 21 on or before the day of an election at which he or she wishes to vote, must obtain a CERTIFICATE OF EXEMPTION from the tax assessor-collector's office; which exemption certificate will be issued without cost.

Persons past sixty years of age not effected.

Jack Brazil
Tax Assessor-Collector
Hardman County, Texas

Jones and Smith Clash Verbally About How Agricultural Program Functions; Read What They Say

(W. E. Ramsey)

Mr. Jones: "You claim that this internal AAA is pretty equitable then how do you reconcile the fact that two farmers on the same amount of land, side by side, and one is allowed 10 bales and the other one 20 bales?"

Mr. Smith: "Because one produced on an average twice as much cotton as the other during this base period. The man who produced just half as much as his neighbor would like to be allowed the same amount but that would not be fair."

Mr. Jones: "It is right that I am allowed only 100 pounds of lint per acre on so many acres when some of my neighbors—who pay no more taxes on their land than I pay, and the one allowed 150 or 200 pounds of lint per acre?"

Mr. Smith: "I thought the same thing until I took the trouble of going to the office of the county agent and inquired about it. They have a complete list of the acres and pounds of lint on each farm and after looking them over I found them to be about right. Not exactly right, it is too big a thing for them to be doing as good a job as they are mighty close to it. Instead of listening to all the wild rumors that go around I go and look for myself. You can do the same thing."

Mr. Jones: "If this thing is any good why are so many people complaining about it?"

Mr. Smith: "This is perfectly natural. Everyone one is mad about some little something that does not amount to a darn thing and they cannot tell you just exactly why, but it is everyone's constitutional right to be mad about something. As long as 90 per cent or more say they have been 'stung' or 'robbed' in their allotment it is pretty equitable."

"Another reason. You will find the big complaints to come from those who would not cooperate with the trial of the cotton program. That starts many others to complain. Another reason. Since the Government made it possible for us to produce what we wanted to do for so long, and we have got to the price up, most of us would like for the other fellow to reduce his acres and let me alone. Another thing, many of us did not depend much on cotton and planted little during the base period and we would like to increase now—at the expense of the regular cotton producers. Still there is another group (since the price has gone up) who want to put in new land and produce more cotton. Would that be fair to those who have been depending upon cotton for their cash crop during the hard years?"

Add all these together and you have about 99 or 95 per cent who are not satisfied, yet we all know that this program has pulled us all out of the hole and we are making money again. We know about what everybody has produced for several years and what he got for it—so when they tell you that the program has ruined them they are usually talking in some place, and by the way, under a sworn statement."

Mr. Jones: "Won't you admit it is a fact that the ones who were the biggest liars have gotten more out of the program than those who were truthful?"

Mr. Smith: "The committees have gone

week at Los Angeles, when the American Petroleum Institute seconded the sentiment of the Independent Petroleum association at its earlier Dallas convention, declaring the state compact plan the best practical method of achieving conservation of oil." Col. E. O. Thompson, chairman of the Texas railroad commission and original proponent of state control of oil—back in the days when it wasn't popular—was accorded the place on the API program occupied at the 1935 Dallas convention by Secretary Ickes, father of the federal dictatorship for oil plan. Thompson reported on Texas oil industry prospering under the compact, written by Governor Allred, and administered by representatives of the oil producing states, with Thompson as Texas representative.

Rid Yourself of Kidney Poisons

Do you suffer burning, scanty or too frequent urination; backache, headache, dizziness, loss of energy, leg pains, swellings and pain under the eyes? Are you tired, nervous—feel all unwell and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

DOAN'S PILLS

over these records in question time and again, and made many inquiries, and have found some of the men are insisting on greater comfort for the Saturday night work. The day's sweat out of the eyes and the whiskers off the face makes men critical of their surroundings. The husband and wife collaborated to clean up more than five thousand yards, fence 281, and plant shrubs and flowers in nearly a thousand in one month. One thing to another and houses were given such a going over as they had never received before. Walls were cleaned, floors finished, pantries built, furniture made and bedding washed and aired.

Texas was literally blanketed with new and renovated bedding. Families who formerly thought bed linen were for the rich now finding them necessary for their own welfare. Rural resettlement women made and renovated 2,325 pieces of bedding in September and 2,791 in August. November will far surpass these two months in bedding activity. Straw ticks have given way to home-made mattresses which utilize cotton grown on the farm.

These families are also reading to learn new and better ways of working. In the last two months thirty-three hundred and thirty pieces of literature (books, magazines, bulletins) were passed from one family to another. Several newspapers are giving short time subscriptions to Resettlement Administration farmers.

Many Families In Texas Ready To Give Thanks

More Than 20,000 Rehabilitated Families Face 1936 With Faith

DALLAS, Nov. 27.—Thanksgiving Day will be thanks giving in Texas in a way not witnessed since the Pilgrims offered their first thanks for plenty, safety, and a promising future. More than twenty thousand farm "rehabilitated" families in this state are facing 1936 with the same Pilgrim's faith; and this after similar years of dreading the winter and finding no promise in the spring.

These families are thankful for the plenty of cupboards, pantries and cellars overflowing with food. They are thankful for the average of 250 quarts of canned foods in each family's store-house. They are thankful for bushels of potatoes and many pounds of dried fruits and vegetables, and popcorn filling large lard cans. They are thankful for the hundreds of pounds of canned and cured meats, and animals yet to be butchered. They are thankful for grain and roughage to carry the stock through until another crop is made.

These families have lived on their own this year. For this the resources to repay money borrowed for food they are grateful. In many instances they are doubly grateful because they have been able to repay the cost of equipment, livestock, and feed and seed secured through a Resettlement Administration loan, and the low interest-free as well as self-sustaining.

Thanksgiving will be the equinox between their seasons. Last season they have tried to forget. In the new season men will go to fields with a more hopeful attitude because they eat three square meals a day, meat balanced by the variety of foods produced by the family. Women will greet Thanksgiving with a special thankfulness for a special plump goose turkey, and have carefully fattened for the occasion. Many of these mothers will have such a feast for the first time in "ages."

"I never canned before in my life, and only 13 jars out of a thousand," a Spokane woman bespeaks the success and pride with which these homesteaders have watched their food supply increase. It is easy to take other steps with the first successful. Homes were improved yards cleaned, clothing worked over, and even the Saturday bath was renewed with money for soap and tubs. The purchase of 58 large wash tubs in September (1935 in August) doesn't neces-

NOUPSETS

The proper treatment for a bilious child

THREE STEPS TO RELIEVING CONSTIPATION

A cleansing dose today; a smaller quantity tomorrow; tea each time until bowels need no help at all.

ANY mother knows the reason when her child stops playing, eats little, is hard to manage. Constipation. But what a pity so few know the sensible way to set things right!

The ordinary laxatives, of even ordinary strength, destroy all hopes of restoring regularity.

A liquid laxative is the answer, mothers. The answer to all your worries over constipation. A liquid can be measured. The dose can be exactly suited to any age or need. Just reduce the dose each time, until the bowels are moving of their own accord and need no help.

This treatment will succeed with any child and with any adult. Doctors use the liquid laxative. Hospitals use the liquid form. If it is best for their use, it is best for yours. The liquid laxative generally used is Dr. C. Caldwell's Syrup Pepsin. Any druggist has it.

on a main irrigation canal in that area, first WPA project completed in Texas. Fall vegetable planting was made possible by the rehabilitation of the large irrigation channel, made useless by the destruction of spring floods.

Other work projects which have occasioned commendation for the type of work being undertaken by WPA in Texas include:

Paving of city streets in Lubbock.

Rebuilding of a school house in Moss Hill, Liberty county, to replace an edifice which burned last year. This project is being financed by an appropriation of \$2,500 from the State Legislature, \$3,000 of WPA funds, and a public subscription list initiated by citizens of the community.

Seeing rooms in Fort Arthur and Beaumont. One of these projects, utilizing materials supplied by the Texas Relief Commission, will make children's clothes to be distributed to needy families.

Drainage and flood control work in Harris county is providing a project which will employ approximately 1500 men in that district.

Encouragement from a different source is gained from the fact that private employment is being placed in the hands of laborers in some sections of the state. Cotton picking employment has caused available relief labor to drop from 2,159 persons to \$72 in the Big Spring area. Employment conditions prevail similarly farther west toward El Paso and Yuma, more centrally located, also furnishes reports that many persons formerly on relief have found private employment.

WPA Projects Dealing Death Blow To Dole

Much Work Already Underway Throughout Texas As Aid To Unemployed

SAN ANTONIO, Nov. 27.—Enthusiastic reception of many WPA projects by sponsors is providing great encouragement to officials of the organization which is striving to eliminate the dole in Texas. H. P. Drought, state WPA administrator, declared today.

Especially heartening, said Drought, are favorable comments from farmers in the Quemado Valley irrigation district concerning the flood damage repair work.

Canyon: Slage in a "ditch" silo is cheap cow feed according to R. O. Allison, a dairy farmer who lives west of Canyon in Randall county.

Mr. Allison has just finished filling a 100 ton ditch with grain sorghum at a total cost of \$2 per ton. This included 40 cents a ton paid for the operation of a cutter. He estimates the cost of filling the silo at about the same as the cost of cutting, shelling and stacking the same acreage of feed in the dry state.

Last winter, he says this silo is on for cow quality roughage to feed his cows. He says this silo will be better as well as cheaper.

SOCIETY

CLUB MEETING

DATE CHANGED

Date for the meeting of the Junior Blue Bonnet Study Club is scheduled to be held December 1 and instead of Mrs. J. C. Fish as hostess, Mrs. Alvin McCallin will act at the home of Mrs. W. M. Sims.

The change was made to avoid making the trip to the McCallin country house, it was announced.

ENJOYS CHICKEN

DINNER MONDAY

"It's lovely for lonely people to be remembered by friends on a rainy, dreary Monday. If you do not believe it just ask Mrs. Early Hendrick, who enjoyed a most delicious chicken dinner with Mr. and Mrs. E. W. Geo. Monday."

MEETING OF CIRCLE 1

HELD LAST MONDAY

On Monday afternoon, November 25, Circle No. 1 of the Baptist Women's Missionary Society met at the home of Mrs. S. H. Williams.

The Bible study program was opened with prayer by Mrs. Early Hendrick in the absence of the chairman, Mrs. W. W. Johnson. Mrs. G. B. Oliver gave the devotional and presided over a short business session. A committee was appointed composed of Mrs. Dick Ewin, Mrs. Ira Parrack and Mrs. Early Hendrick, to solicit food, clothing, quilts, bed linen and money for the Buckner Orphan Home Christmas box. It is hoped each person will be ready to contribute one or more of these items when the committee calls. "Let's all do our best for the orphans," one of the committee members urged.

The topic for the lesson was "Characters of the Old Testament." Mrs. Oliver, in her most delightful manner, portrayed the scenes and characters of the Old Testament in a very interesting picture, teaching wonderful lessons from the lives of such great characters as Abraham, Isaac, Jacob, Moses, and Joshua, Gideon, Sarah, Ruth, Esther and others.

Mrs. Williams, in her happy way, gave the story of Elisha, the Prophet, and the cure of Naaman the leper.

Mrs. Early Hendrick gave the life story of Caleb, the most cheerful character in all the Bible, who wholly followed the Lord. At the close of the gracious meeting the hostess, Mrs. Williams, assisted by her granddaughter, Miss Albertine Ferris, served lovely refreshments to the following:

Headmaids E. W. Geo, Dick Ewin, G. B. Oliver, Early Hendrick, the hostess, and Miss Ferris.

Inclement weather kept many from being present. There will be no meeting of Circle No. 1 in December. The next meeting will be the fourth Monday in January at the home of Mrs. E. W. Geo.

It is hoped every member will be present at that time, as plans are being made to do great things for the Lord in 1934, and members are very thankful for all the interest and love manifested in the meetings during the year of 1933.

IS HOSTESS TO

SUB-DEB CLUB

The Sub-Deb Club met at Mattieheila Brewer's Monday night November 25.

The club selected their song, written by Mary Louise Higginbotham, as "Don't Forget." The club is giving a Thanksgiving charity box to a poor family in town.

Refreshments were served to the following: Genevieve Anderson, Martina Beene, Frances Brock, Jewell Boucher, Othra Campbell, Geraldine Campbell, Anna Sue Cole, Yada Honeycutt, Mary Louise Higginbotham, Albertine Schulke, Tommy Turner, Odessa Walser, Ila Rue Young and the hostess, Mattieheila Brewer.

FARMERS VALLEY CLUB

MEETS FOR PICTURE STUDY

Pictures was the program topic at a meeting of the Farmers Valley Home Demonstration Club. At the home of Mrs. T. C. Frost, Thursday afternoon. A song of thanks was given by Mrs. Dale Baldwin and a Thanksgiving devotional was conducted by Mrs. N. D. Brock reading from Psalms 100 and 103.

Each member showed a famous picture, and gave a brief history of the painting and its artist. Plans were made for a chicken supper to be given by the club Wednesday evening, Nov. 27.

Mrs. Etta Randel gave a council report and Mrs. N. D. Brock made an interesting talk on "Pictures" discussing how to use them in the home, and illustrating those appropriate for boys and girls rooms.

Refreshments were served to one guest, Mrs. J. C. Smith, and the following members: Mrs. J. E. Calvert, Mrs. Etta Randel, Mrs. N. D. Brock, Mrs. E. S. Dockery, Mrs. G. F. Vaughn, Mrs. Elmer, Mrs. E. H. Baldwin, Mrs. E. Phipps, Mrs. P. H. Phipps, and the hostess, Mrs. J. C. Smith.

Harvey Carr was a business visitor in Quannah Saturday.

BIRTHDAY PARTY

GIVEN MONDAY

Monday afternoon at his home Calvin Lowery Brewer entertained in honor of his ninth birthday. Many enjoyable games were played and many nice and useful gifts were received.

Refreshments of molasses candy popcorn balls, hot chocolate and cake were served to the following: Bobbie Lavern Norwood, Sam Ray Kenshalo, Bobbie Waldrip, Claud and Don Estes, Joyce Lawson, Edna Florence and Earl Hendrick, Henry Burnam, S. L. Hagg, Edward and T. C. Stevens, Rebecca and Pat Davis, Katherine and Denton Rose, Langston Ayers, Mattieheila Brewer, Miss Ivy Jackson and Mrs. Northcutt, and the host.

Denton Graham, student of North Texas State Teachers College, has arrived home for the Thanksgiving holidays.

Mr. and Mrs. L. J. Nuckles and Mrs. Early Hendrick were in Vernon Sunday afternoon. Mrs. Hendrick and Mrs. Nuckles had a very pleasant visit with an old friend, Mrs. J. T. Williams, while Mr. Nuckles played a round of golf.

Rev. Parrack At

Home After Being

Called to Merkel

Conducts Funeral Service For Pioneer Resident of That Section

Rev. Ira L. Parrack, pastor of the First Baptist Church, this city returned home Monday evening from Merkel where he was called to officiate at a funeral service for J. T. Howard, 89, of Abilene, but a former resident of Merkel. The deceased settled at Merkel in 1882, and was one of the leaders of the Baptist Church while Rev. Parrack was serving as pastor.

Rites were conducted Sunday afternoon with the body being interred in the Merkel cemetery.

His wife preceded him in death several years ago. He is survived by seven children, five daughters, and two sons, one of the sons being L. B. Howard of the J. C. Penny store at Vernon, and the other Dr. Howard of Dallas.

Colds Cause Half Of All Diseases Gas Company Says

A caution against huddling in one room with windows closed during the winter has been issued by the gas company, which is continuing its series of educational messages on prevention of colds by proper heating and ventilation.

The company started the winter heating season with a program of information designed to assist customers to make their homes more comfortable and more healthful. According to investigations by the company, many colds and other respiratory diseases prevalent in this section in the winter time are due to improper house heating. After exhaustive study and advice from the medical profession, the gas company advises its customers that an even temperature throughout all rooms of the house with a certain amount of moving fresh air is one of the best preventatives of colds to be found.

"Many families huddle in one or two rooms during cold days around a small open flame heater with windows and connecting doors tightly closed," says a current ad in the heat-for-health campaign. "If you are a huddler, you are violating one of the most important rules of personal hygiene, and good health. Without adequate circulation air may become as foul and unhealthy as that of a tenement slum, even though the home may be the most beautiful in the neighborhood."

The advertisement states that if people go from an overheated room into a cold hall or unheated adjoining room they have subjected themselves to a condition that makes them highly susceptible to communicable winter diseases.

The common cold germ is called America's Public Health Enemy Number One, because, according to medical authority 50 per cent of all diseases are traceable to the cold germ. In order to reduce this menace, the gas company advises an even temperature throughout the home with warm air in every room.

Chilliothe Boy

Home On Furlough

From Marine Corps

J. B. Simmons, Jr., Here to Visit Parents and Friends

J. B. Simmons, Jr., a member of the United States Marine Corps, and stationed at Quantico, Virginia, arrived in this city Monday afternoon for a visit with his parents, Simmons was allowed a ten day furlough. He hopes to have it extended a few more days to enable him to stay here longer.

J. B. stated he liked the Marines, and preferred being in the East rather than in the west, or on the Pacific Coast. He was mighty glad to meet his friends who were just as pleased to see him.

Miss Ethel Delaney of Houston, connected with the home economics department of the United Gas System, was a visitor in the city Monday.

Mr. and Mrs. Audie Hindman of Pampa were in the city for over the week-end for a visit with relatives and friends.

Mr. and Mrs. Horace Turner and family were in Vernon Sunday evening.

Miss Kathryn Boaz arrived home Wednesday to spend the Thanksgiving holidays with her parents, Mr. and Mrs. J. W. Boaz. She is a student in McMurry college, Abilene.

Mr. and Mrs. Jack McMichael and Mrs. A. E. Howard were visitors in Frederick, Okla. Sunday.

Mr. and Mrs. Ray McClintock have as their guests Mr. and Mrs. E. F. Bacon of Frederick, Okla.

"Where Most People Trade"

**WHEN SIX YEARS OF AGE CAME WITH PARENTS TO TEXAS
FROM TENNESSEE; FIRST LIVED IN GRAYSON COUNTY AND
THEN MOVED TO COMANCHE COUNTY; IN 1920 MOVED HERE**

L. N. Higginbottom Lived On J. C. Flynt Farm For Five Years and Then Bought What is Known As "Khron Farm," Where With Family Has Lived Since; Success Has Been His Due to Sound Judgment, and Energy Sufficient to Become One of Best Farmers In All Hardeman County.

One of the most up-to-date farm homes in Hardeman county is the one owned by L. N. Higginbottom, residing about four miles southwest of Chillicothe, in a section where the soil is rich and fertile.

That success has come Higginbottom's way is clearly evident in the amount of improvements to be found, having his home arranged for most every convenience. There are six rooms to the house, large and roomy, and well arranged. He built the present structure in the year 1928. It sets back from the main road some 100 yards, and surrounding the place are beautiful shade trees that adds much to the appearance. From the house a distance will be found a well-built barn showing the owner also believes in taking care of his work stock and other animals, protecting them in the winter time from the rigors of cold weather.

He is one man who believes in having a fine stock of milch cows. There are, now, about twenty head furnishing him with plenty for home consumption as well as cream being sold on the Chillicothe market. These cows are of the Jersey breed.

His work animals are kept in good shape for use. He gives them plenty of feed. They are as good as one will find in this country.

He should not want for eggs as there are some 150 White Leghorn hens on the place to do the egg producing for family consumption and also to sell on the market. If these hens are producing as they should at this time he is undoubtedly "cash in" since eggs are selling around 35 cents per dozen. On the farm he centers on cotton for the money crop, grows plenty of feedstuffs and some wheat. Since this farm has rich soil with any kind of chance crops will produce. There are 140

L. N. HIGGINBOTTOM

acres and was owned by a gentleman by the name of Khron before Mr. Higginbottom became the owner.

When he first landed in Hardeman county, however, he farmed on the J. C. Flynt place for five years.

Where was he born? Well, sir, back in the fine state of Tennessee. That was in the year 1872, but when only six years old he came with his parents to Texas, settling in Grayson county. For a time the parents lived there then moved to Comanche county. While in that county he was married to Miss Edna Waldrip, daughter of Mr. and Mrs. W. J. Waldrip of Chillicothe. She is now deceased, having passed on in 1928. Four children were born to this union, being Mrs. Estelle Huff, Decatur; Mrs. Lois Baird; a son, Curtis, and another daughter, Elsie, all living with the father. The latter daughter is now attending the Chillicothe high school and is rated as high in class work.

Mr. Higginbottom moved to this county in 1920, and after farming on the Flynt place, bought the present farm. He has never left it and will perhaps remain there the rest of

his days.

Just what kind of a man is L. N. Higginbottom, you say? Well, here is what one man says, and he should know:

"L. N. Higginbottom is one of the finest men in Hardeman county. He loves his family, wants the children to have every advantage possible. He is a good neighbor, and certainly a credit to his community. I love him because of his fine traits; others love him for the same reason. You just don't find men any better."

That should be convincing to everyone that Higginbottom is a good man, to come from another state, and while making the assertion took time to emphasize this man's fine points.

He trades in Chillicothe, another fine "trait" L. N. has. Nothing pleases Chillicothe merchants more than to have these fine farm folks come to this city and do their trading, and to show appreciation these same merchants make it doubly advantageous. Therefore, just such citizens as Mr. Higginbottom is why the Chillicothe community is a fine place in which to live, why it is gradually growing, becoming better and better as the years pass.

And lastly, because of having a good business head L. N. Higginbottom is not neglecting his duties on the farm to mill around with cranks bemoaning the country and the times that have existed for the past four or five years. When he realized things were not as good as in some other years, he just pulled in a notch or two of the old belt, and hit harder to realize something from his work. That's the kind that are not bewailing, who are enjoying better living conditions because they had enough brain and brawn to achieve.

And, in parlance of the street, "More Power to 'em."

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of
Hardenman County, Greeting.

You are hereby commanded to
summon Ethel Simon by making
publication of this Citation once
in each week for four successive
weeks previous to the return day
hereof, in some newspaper pub-
lished in your County, if there be
a newspaper published therein,
but if not, then in the nearest
County where a newspaper is pub-
lished, to appear at the next regu-
lar term of the District Court of
Hardenman County, to be held at
the Court House thereof, in
Quannah, on the 1st Monday in De-
cember A. D. 1935, the same being
the 2nd day of December A. D.
1935, then and there to answer
a petition filed in said Court on
the 2nd day of November A. D.
1935, in a suit, numbered on the
docket of said Court as No. 2388,
wherein Lee Simon is Plaintiff,
and Ethel Simon is Defendant,
and said petition alleging that

That he is and has been for a
period of twelve months prior to
exhibiting the petition herein an
actual bona fide inhabitant of
the State of Texas and has resid-
ed in the County of Hardenman
and State of Texas for at least
six months next preceding the
filing of this suit.

That on or about the day of
—A. D. 1932, in Dallas County,
Texas, plaintiff was lawfully mar-
ried to defendant then a single
woman by the name of Ethel
Parker, that they continued to live
together as husband and wife
until on or about the day of Sep-
tember A. D. 1935, when the de-
fendant without any fault on the
part of this plaintiff, abandoned
their home and that he has not
since said time heard of her or
knows anything about her where-
abouts, and that he does not
know in what State or County
this defendant resides.

Wherefore plaintiff prays the
Court that the defendant be cited
to appear and answer herein and
for a judgment dissolving their
marriage relations, for costs of
suit, and for such other and fur-
ther relief, special and general, in
law and equity, that he may be
justly entitled to.

Sam Robinson, Attorney for
Plaintiff.

Herein Plaintiff Not, and have you
before said Court, at its aforesaid
next regular term, this writ with
your return thereon, showing
how you have executed the same.

Given under my hand and the
Seal of said Court, at office in
Quannah, this 2nd day of Novem-
ber, A. D. 1935.

Birdie C. Hood, Clerk, District
Court, Hardenman County.
(Seal) 15-4tc

ant were married in 1931 and
continued to live together as hus-
band and wife until August 1934,
that on or about the 14th day
of August 1934, the defendant
left the home of the plaintiff in
company with another man and
that she has lived with said other
man as his wife, and that as soon
as this plaintiff learned that the
said defendant was living in
adultery with said other man she
has not lived with defendant.

Wherefore the plaintiff prays
that the defendant be cited to ap-
pear and answer herein and that
on final trial hereof he have
judgment dissolving the bonds of
marriage now existing between the
plaintiff and defendant and for
general and special relief.

C. V. Welch, Attorney for plain-
tiff.

Herein Plaintiff Not, and have you
before said Court, at its aforesaid
next regular term, this writ with
your return thereon, showing
how you have executed the same.

Given under my hand and the
Seal of said Court, at office in
Quannah, this 2nd day of Novem-
ber, A. D. 1935.

Birdie C. Hood, Clerk, District
Court, Hardenman County.
(Seal) 15-4tc

CITATION BY PUBLICATION

THE STATE OF TEXAS

To the Sheriff or any Constable of
Hardenman County, Greeting.

You are hereby commanded to
summon Joseph Johnson by mak-
ing publication of this Citation
once in each week for four suc-
cessive weeks previous to the re-
turn day hereof, in some news-
paper published in your County,
but if not, then in the nearest
County where a newspaper is pub-
lished, to appear at the next regu-
lar term of the District Court of
Hardenman County, to be held at
the Court House thereof, in
Quannah, on the 1st Monday in
December, A. D. 1935, the same
being the 2nd day of December,
A. D. 1935, then and there to
answer a petition filed in said
Court on the 18th day of Novem-
ber, A. D. 1935, in a suit, num-
bered on the docket of said Court
as No. 2372, wherein Vannie
Johnson is Plaintiff, and Joseph
Johnson is Defendant, and said
petition alleging that

That the plaintiff and defendant
were lawfully married in
Dallas County, Texas, on or about
the day of September, A. D.
1926; that they continued to live
together as husband and wife un-
til on or about the day of Decem-
ber, 1932, when the defendant
abandoned the plaintiff and the
plaintiff with out any fault of the
part of this plaintiff abandoned their
home, and that he has not since
heard of her or knows anything
about her whereabouts.

That while they lived together
as husband and wife that on dif-
ferent occasions the defendant
was guilty of cruel treatment;
that he would curse and abuse
this plaintiff and strike her with
his fist.

Wherefore plaintiff prays the
court that the defendant be cited
to appear and answer herein and
for a judgment dissolving said
marriage relations, for her costs
of suit, and for such other and
further relief, special and gen-
eral, in law and equity, that she
may be justly entitled to.

Sam Robinson, Attorney-at-
Law.

Herein Plaintiff Not, and have you
before said Court, at its aforesaid
next regular term, this writ with
your return thereon, showing how
you have executed the same.

Given under my hand and the
Seal of said Court, at office in
Quannah, this 18th day of Novem-
ber, A. D. 1935.

Birdie C. Hood, Clerk, District
Court, Hardenman County.
(Seal) 17-3tc

Docket No. Tex-1306

NOTICE TO HUSBANDS

Sealed process will be received
addressed to Dewey Marsh,
President of the Board of Educa-
tion, Chillicothe, Texas, for the
construction of a Vocational

School and Gymnasium Building,
Chillicothe, Texas, for the
purpose of plumbing, gas fitting
and wiring. All in accordance with
plans and specifications of Voele-
ker & Dixon, Inc., Architects.
Bids will be received at the office
of the President, in the Bank of
Chillicothe, Chillicothe, Texas,
until 2 P. M., December 9th,
1935, and then publicly opened
and read.

The successful bidder will be
required to enter into a contract
with the Chillicothe Independent
School District, which contract
shall conform to the provisions
conforming to the require-
ments of the Federal Em-
ergency Administration of Public
Works, as set forth in PWA Form
No. 166, or Form 179, issued
July 22, 1935 and revisions there-
of, and the special requirements
of the State Director, PWA. The
owner has available for this con-
tract approximately \$25,000. A
Cashier's or Certified Check, pay-
able without recourse to the
order of Dewey Marsh, President,
or an acceptable Bidder's Bond,
in an amount not less than five
percent (5%) of the largest
possible total bid, including con-
sideration of alternates, must ac-
company each bid as a guarantee.
If awarded the contract, the
bidder will promptly enter into a
contract and execute a bond on
the forms provided, as outlined
in the specifications and contract
documents.

A Performance Bond, in an
amount not less than one hundred
percent (100%) of the contract
price, conditioned upon the faith-
ful performance of the contract
and upon the payment of all per-
sons supplying labor or furnish-
ing materials, will be required.
Attention is called to the fact
that not less than the prevailing
rates of wages as established by
the Chillicothe Independent
School District, apply in the
State Director, PWA, and as here
in set forth must be paid on this
project.

In case of ambiguity or lack of
clearness in stating prices in the
proposal, the Owner reserves the
right to adopt the most advan-
tageous construction thereof, or to
reject the proposal.

Labor Classification and Minimum
Wage Scale

The Labor Classification and
Minimum Wage Scale below have
been predetermined by the Owner
in accordance with the statu-
tory and PWA requirements and
the prevailing local wages, and
shall govern on all work perform-
ed by the Contractor in connection
with the construction of the
project covered by these speci-
fications. The bids submitted are
based on not less than the rates
of pay indicated in this predeter-
mined Labor Classification and
Minimum Wage Scale; in no event
shall rates of pay be lower than
those established by recognized
unions operating in the community
at the time of the bid opening.

Unskilled Mechanics, Whose Minimum
Rate shall be \$1.00 Per Hour:
Carpenter, Cutter, Assembler,
Welder, Arc Welder, Asbestos
Worker, Bricklayer — Building,
Sewer, Manhole, Carpenter,
Finish, Tinsmith, Building, Re-
frigerator, Building openings, Ce-
ment Finisher—Building, Works

rier—60, Kettlemaster—Trench
Pipe Joining Material and or tar
for roofing—65, Labor Foreman
—65, Loader—Two Wheel Scrap-
er or Fresno Four 12—50, Fresno
Less than four, top and slip scrap-
er—50, Machinist's Helper—50,
Mechanic (Repairman)—75, Mor-
tar Mixer (Brick and Plaster)
—55, Operator, Air Compressor—
65, Blaster—Powderman—75,
Bull Doser Tractor—75, Cement
Finisher (Trowel)—75, Cement
Gun—75, Mixer—Over 108 under
278—60, 108-1010 or smaller—
60, Oiler and or greaser—50,
Power Saw—75, Power Shovel
Pitman—50, Pump—50, Truck
1½ Ton and or over—60, Under
1½ Ton—50.

Pipe Fitter (Cast Iron)—50,
Pipe Layer (Not in charge of
Pipe laying gang)—50, Pipe
Joint Material Worker—50, Plow-
man—50, Roof—Pot and Gutter
Man—75, Shovel, Shovel
Bracing, etc.—60, Teamster—
More than three up—50, Tunnel
Laborer—60, Waterproofer Mop-
man—75, Window Cleaner—30,
Serving Laborer—Laborer who
delivers material to a mechanic
as the last operation prior to in-
stallation or assist the mechanic
without using tools on Union
Projects—50.

Unskilled Workers
Camp Assistant, etc., under 20
hours per week—\$1.00 per week
40 hours per week—\$12.00 per
week, Calson Laborer (open)—
40, Common Laborer—40, Pipe
Handler, (Water-gas)—40, Team-
sters—less than four up—40,
Watchman (under 30 hours per
week)—40, Waterboy, messenger,
cook, 20 to 40 hours per week—
\$5.00 per week, over 40 hours per
week—30.

Clerical Force
Clerical Forer, under 20 hours,
per week—40; 30 to 40 hours,
weekly—\$12.00.

The award of the contract shall
be conditioned upon funds
being made available, and the
Chillicothe Independent School
District shall have the right to
hold the bids for a period of sixty
(60) days from the date of the
bid opening. No bid may be with-
drawn within 30 days after the
date of the bid opening.

Contract will be awarded sub-
ject to the approval of the State
Director, PWA.

The Owner reserves the right to
reject any and/or all bids and

ALL THE WORLD ENVIES YOUR

CHEAP NATURAL GAS

THE MATCHLESS FUEL

FOR COOKING • WATER HEATING
HOUSE HEATING • REFRIGERATION

ALL OVER the world, people are talking
about your Cheap Natural Gas. They want
it in their homes. Some of them will never have
it. As you travel among them, you can hear
them say, "If I lived where Natural Gas was
cheap, as it is in the South, I'd take every possi-
ble advantage of it."

• You have at your door what they can't have!
Check over the household services you are
using! Get your share of the marvelous econ-
omy and benefits of Cheap Natural Gas.

SEE YOUR DEALER! He will tell you how cheaply Natural Gas can
serve you. Ask him to show you his stock of Gas Ranges, Water-Heaters,
Floor Furnaces and Refrigerators. He has the model you want.

A modern Gas
Range is the most
economical cook-
ing equipment
known.

No other fuel can
compare with
Natural Gas for
providing hot wa-
ter in your home.

Natural Gas for
House Heating is
so cheap, a floor
furnace should be
in every home.

The Gas Refrig-
erator has no
equal for beauty,
silence and econ-
omy.

Fine List of Pictures Will Be Shown Here

"China Seas" Major Attraction; Booked Wednesday and Thursday

"Annie Oakley", famed at one time as the world's greatest rifle shot, and with Buffalo Bill's wild west show, is impersonated by Barbara Stanwyck in the Palace Theatre offering for Friday and Saturday, with the title of the picture, "Annie Oakley". At a Saturday night preview,

then held over for Sunday and Monday, Manager Jeter announces Katherine Hepburn in "Alice Adams," the Booth Tarkington play.

Tuesday Ted Lewis is starred in "Here Comes the Band," and the regular feature, which rounds out a good show for Chillicothe theatre-goers.

Wednesday and Thursday Jeter is bringing to the Palace screen "China Seas" with three stars featured Clark Gable, Joan Harlow and Wallace Beery. "This is a wonderful picture, and all that can possibly do so, should see it," is the verdict of the Palace Theatre manager.

Chillicothe—

(Continued from Page 1)
tort the earth's shape like a ball of putty—elipsoid at times, egg-shaped at others, depending upon the gravity pull of the moon and sun.

Concerned with dry land tides only in so far as they affect extremely delicate gravity instruments used in locating oil beneath the earth's surface, even leave it to laymen to ponder: do earth tides cause earthquakes? When is it high tide at Kansas City? In Death Valley's desert wastes?

One thing laymen may readily deduce, the earth is not solid, but viscous. Its thick crust is a poor indication of its interior which is, beyond a doubt, a molten mass.

Chillicothe is rising and falling from 13 to 23 inches twice each day, that is if scientists are to be believed.

Representative—

(Continued from Page 1)
General during the Civil War, a daughter of one of these Hardemans, but I am not sure whether it was Thomas J. or Bailey, married Captain Robert Eden Handy at Richmond just after the Revolution. When he died in 1857 she married Dr. Joseph H. Barnard, one of the survivors of Fannin's massacre and they moved to and lived near Gollard for many years.

A year ago Mr. Kemp of this city and I visited this daughter at her home on a little ranch near the Fannin battlefield. She is now nearly one hundred years old.

"Hoping that this information will be interesting and useful and that I can serve you in the future I beg to remain,

"Yours very truly,

"Clarence R. Wharton."

Mrs. Vernon O. Williams and Mrs. C. E. Carlock will go to Lubbock this week-end to get their daughters, Misses Anna Ruth Williams and Virginia Carlock, who are to spend Thanksgiving holidays at home from Texas Tech.

Pie, Box, and Sox Supper to Be Given

Announcement is made of the pie, box, and Sox supper to be held Friday night, December 6, at the Elm Drive school house. Proceeds will be used to buy a new piano for the school. Everybody is urged to attend and take a pie, box, Sox, and a pocketful of money.

PTA Meeting to Be Held Next Tuesday

Regular monthly meeting of the Parent Teachers Association will be held at the grammar school building Tuesday, December 3, at 4 o'clock p. m. All members are urged to attend.

J. D. Mahoney of Quannah was a business visitor in the city this morning.

Mrs. Lee Womack left Wednesday afternoon for Gladewater where she will visit her husband.

Mrs. Ed Robertson returned to Williams High last Sunday where she is teaching school this year.

"Punch" Stuckey of Vernon was a business visitor in the city Tuesday.

JUST THINGS GOSSIPY

Dashing in to Wallace Waldrup's grocery store the other afternoon was an old customer, saying "Give me some prunes, give me some prunes."

"All right, all right," replied Waldrup.

"How much are they," asked the customer.

"Twenty cents a pound," warbled the grocer.

"Huh, ten years ago I only had to pay ten cents a pound for these prunes," said the customer.

"Not these prunes, these are less than seven years old," barked Wallace.

Did you ever own a kicking cow—the kind you had to put a pair of "kickers" on, and then after placing them at the wrong place, started to draw the liquid from the old huzzy, peaceful-like, all at once you find the bucket flying and milk all over your person. Is that the time when it would make a preacher cuss as the saying goes? Luther Rutledge agrees. It would. He experienced the attempt of milking a kicking cow the other morning. Previous to that he had put the kickers right over her yoke, and he thought that would do it. Didn't. Consequently, she kicked one loose and the other came swinging around at Luther. He is recovering from the injury.

The pretty young lady who visited in Gollard so long ago wearing boots, and had the misfortune to lose one while there, says never again.

There is another pretty young lady who declares she will yet be able to view her picture from the society page of the Valley News. I can assure her once it is printed the society page will be greatly improved.

The Style Trend:

Although the new short length skirts for day-time wear has been sponsored by several modistes in Paris, all of them are not unanimous on this score, so that if the longer skirt is more becoming, one may continue to wear it. That's the short and long of the whole thing, I suppose.

One for the Believe It or Not: J. A. McCall bought Gene Williams a cup of coffee—and no questions asked.

I presume there will be plenty of turkey facing you at noon. Don't refuse—it's a long time until another tummy-full.

I'll warn, one thing and that is Ernest Hutchens keeps a closer tab on his britches hereafter.

Oran May is a mighty proud papa.

It Doesn't:

At 29 we don't care what the world thinks of us; at 30 we worry about what it thinks of us; at 40 we discover it doesn't think of us.—Newark Ledger.

The "boss" said if I would work hard I could take Thanksgiving off. I hope I have him fooled.

Well, it's about time for Cardui or Peruna calendars. I'll take one—thanks.

Hope you don't eat too much, nor drink too much, nor smoke too much, nor lie to your wife today.

Goodlett Man—

(Continued from Page 1)
Buckanan to Quannah. Funeral services were held from the First Methodist Church at Goodlett Monday afternoon at 2:30 o'clock. The body was interred in the Quannah cemetery. The victim was born at Acme, and is survived by the parents, Mr. and Mrs. F. M. Buchanan of Goodlett.

VOCATIONALLY SPEAKING

Timely Topics as Viewed By Local Instructor of Vocational Agriculture

Outlook For Feed Crops

The total 1935 production of corn, oats, barley, and grain sorghums was 91,366,000 tons (October 1 estimates) compared with 59,781,000 tons harvested in 1934, and 100,642,000 tons the average. The 1935-36 will each supplemented by unusually small carry-overs of old-crop feed grains at the beginning of the 1935-36 season. About the same quantity of wheat, but more rye, may be fed in 1935-36 as in the previous season. Supplies of commercial feeds in 1935-36 will probably be somewhat more plentiful than in 1934-35, particularly the high-protein supplements. Taken all together, the 1935-36 supply of feed grains, including the carry-over of old-crop grain, probably quantities of wheat and rye that may be fed, and the prospective supplies of by-product feeds total approximately 106,000,000 tons compared with 120,000,000 tons, the annual average for the period 1928-29 to 1932-33. Allowing for an average carry-over into the 1936-37 season, and for commercial use of feed grains, the 1935-36 supply of these items for feed purposes would give each grain-consuming animal unit, including poultry, about the same quantity per unit as on the average in the years 1928-29 to 1932-33. Therefore we look toward a lower price for our feed stuff.

Beef Cattle Outlook

The number of cattle on farms and ranches at the beginning of 1935 will be about unchanged from 1935 but the trend thereafter is likely to be upward, says the Bureau of Agricultural Economics in its annual outlook report. By 1939 a larger increase is in prospect, fewer cattle and calves will be slaughtered next year, but the supply will be of better quality and of heavier weight since a larger proportion of the slaughter will be of grain fed cattle.

Most of the increase during the next few years, it is stated, will be in states west of the Mississippi river where cattle were reduced sharply by the 1934 drought and government cattle buying programs. No material change in production is in prospect in other areas unless hay and pasture production should greatly expand.

ly expand.

More cows and heifers and fewer steers were slaughtered during the first nine months of this year seasonally seventeen years of government records, says the Bureau. Slaughter of cows is expected to continue large the remainder of this year; to be reduced thereafter.

The Bureau is informed there will be a material increase in cattle feeding this fall in the Corn Belt and other areas where many cattle are finished for market. There is a wide spread tendency to turn to cattle feeding to utilize available feed; it is stated. But, with prices of feeder cattle and corn relatively high, the cost of finished cattle this winter and next spring will be the highest since the winter of 1930-31.

Market prices of these cattle, says the Bureau, are likely to decline seasonally during late winter and spring and to average lower than in the corresponding period of 1935. Prices of the lower grades are expected to advance seasonally during this period.

The sharp advance in cattle prices this year was due mainly to short supply of hogs and high prices of hog products, it is stated. The hog situation is expected to continue to be a strengthening factor to cattle prices during most of 1936.

Explains Law—

(Continued from Page 1)
upon its own motion, or upon a petition of 10 per cent of the qualified voters thereof. The election must be held in not more than ten nor less than twenty days. The law provides for separate votes on: (1) the sale of beer of not more than 4 percent alcoholic content; (2) wine and beer of not more than 14 percent; (3) the sale of all liquors of whatever alcoholic content; (4) the prohibition of the sale of liquors. Doubtless quite a few counties will vote to legalize the sale of beer, or beer and wine, that will not legalize the sale of all liquors.

The tax on whiskey or other spirituous liquor is placed at 80 cents per gallon. The license fee for package stores is \$500.00 in the larger places and scales downward to considerably less than one half of that amount in the smaller places. The license fee for wholesalers is \$2500.00 per year. The license for the sale of medicinal liquor is \$500.00 per year, and very strict regulations are thrown around the sale of medicinal liquor. It is expected that the State will receive about four million dollars in revenue from this bill. In pre-prohibition days the largest amount of revenue from liquor ever received by the State in any one year was less than one million dollars.

"This latest liquor law certainly does not suit the extremes on either side of the liquor question. It is perhaps more suitable to the dry than the wets, but it is generally believed to be a practical working basis for the regulation of the liquor traffic which can be amended in the future, as experience dictates."

AT THE CHURCHES

FIRST BAPTIST CHURCH

Ira L. Parrack, Pastor

All regular services Sunday and during the week.

Sunday school, 9:45, with a congenial class and an earnest teacher to welcome you.

The Down-town Bible Class, taught by the pastor, meets in the Odd Fellows hall at 10 a. m. and welcomes all men not in other Sunday school classes.

The pastor expects to be in his place at both services Sunday, 11 a. m. and 7 p. m.

Training service, 6:15 p. m.

May every heart be turned to some place of worship on this coming Lord's Day as we enter the month when we commemorate His Birth.

Any church in town will be glad to welcome you as a worshipper.

FIRST PRESBYTERIAN CHURCH

J. A. Phillips, Pastor

Regular services will be observed at the Presbyterian Church as follows:

Sunday school at 9:45 a. m., Carter Forbes, superintendent.

Communion service at 11 a. m. and preaching at 7 p. m., by the pastor.

Christian Endeavor at 6:15 p. m.

Women's Missionary Society at 2:30 Monday afternoon.

A cordial welcome awaits you.

E. W. Gees, L. T. and E. J. Randel were visitors in Southwestern Oklahoma Friday.

M. T. YORK STORE

5c—10c—25c—\$1.00

For two weeks we have been working, trying to display at least a sample of the hundreds of items we have for the holiday trade. It seems like we will not have space in our building for this. Come and see for your self. This year York's has the merchandise. Chillicothe merchandise for everyone. Welcome to the big little store. Let's go!
