

Two Additional Speakers at Farm Meeting Thursday

Two additional speakers have been secured for the first agriculture clinic sponsored by the Chamber of Commerce Thursday, February 3.

One of these was born and reared here, John Henry Baumgardner, the son of Mr. and Mrs. J. B. Baumgardner of near Wellington. The other speaker will be W. H. Gohmert, supervisor of District 8, Bureau of Entomology and Plant Quarantine, Division of Pink Bollworm Control, Altus, Okla.

The two speakers announced earlier are Don Jones, of the Texas Agriculture Experiment Station, Lubbock, recently named "Man of the Year" by Progressive Farmer magazine; and J. Roy Quinby of the Texas Agriculture Station, Chillicothe.

The meeting will begin at 1:30 p.m. and will be held at the community building. It is for every farmer and business man of the county, and is one of a series to be sponsored by the Chamber of Commerce Agriculture committee.

Mr. Baumgardner, now a member of the faculty of the agricultural department of Texas Technological College, will discuss "Dry Lot Feeding of Livestock." His talk is due to be of particular interest to local residents, not only in view of outstanding work he has done at the college, but also from the fact that he is one of a family outstanding in farm life of this county. He is a graduate of Wellington High School and Texas Tech, and served as a combat officer in the Army Air Force during (Continued on Page Ten)

Charles Kenney Joins Faculty

A new teacher, Charles Douglas Kenney, has been added to the staff of Wellington High School, E. L. Pritchett, superintendent, has announced. Mr. Kenney started his teaching duties on Monday, January 31.

Mr. Kenney attended T. C. U. where he majored in physical education and minored in general science and education. He is taking the place of Selby Sharp, science teacher, who resigned earlier because of his health.

Mr. Kenney, whose home town is Fort Worth, is a veteran of World War II, having served in the Navy for thirty-nine months. This is his first teaching position. His wife and baby son, James Thad, accompanied him here.

Shamrock Boxers Here Friday

Skyrocket sluggers will be hosts to boxers from Shamrock Friday night, February 4, in the high school auditorium, Coach John Lee has reported.

These bouts will be the second home performance of Wellington boxers this season. Approximately fifteen bouts have been planned for the evening.

Although Wellington boxers have matched only one other team this far, the boys have not been idle. Skyrocket boxers dominated the fights during the three nights of the Childress district Golden Gloves tournament, and two of the sluggers, Gene Cook and Bob Phillips won trophies during the regional Golden Gloves even in Amarillo last week.

Cook won the runner-up trophy in the 135-pound class in Amarillo Saturday night after losing his final fight by a close decision. In his previous fights in the Golden Gloves event, Cook won two fights by decision and had another fight forfeited to him.

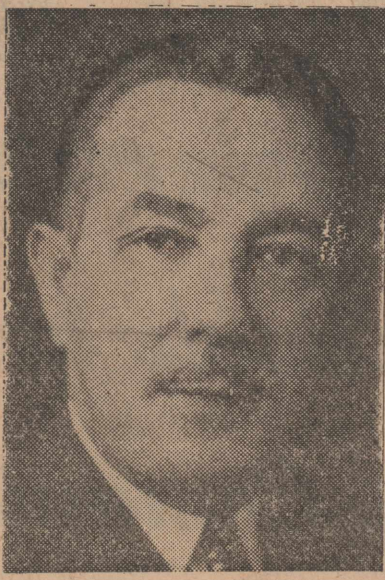

Phillips won the heavyweight championship by taking a decision on both his fights.

Bad Weather Brings Increased Business At Post Office

Wellington merchants may report that business has fallen off this bad weather, but there's one place that has felt an increase — the Post Office.

Asked if there'd been any drop in mail during the almost four weeks bad weather, R. F. Curry, postmaster, laughed heartily.

"There's been a big increase. People don't have much to do, so they write letters and come to the Post Office. We've been busier than usual," he said.

EDUCATION MEET SPEAKERS

Speakers at the Education meeting sponsored by the Chamber of Commerce education committee in Wellington Wednesday night, February 9, will be H. J. Dollinger, assistant manager of the southwestern division of the United States Chamber of Commerce, Dallas, and Paul H. Good, Washington, D. C., who is in charge of the education division of the United States Chamber of Commerce.

Poll Taxes Paid Only Half Number For Last Year

Poll tax payments took a dive in Collingsworth County this year, an off election year, Hubert Mauldin, assessor and collector of taxes reported Monday, January 31, as the deadline was reached.

Approximately 1350 poll taxes were paid this year — only half the number for 1948, an election year, when more than 2,600 receipts were issued.

In addition to the taxes paid, 10 exemptions were issued to unders, and there are approximately 400 overs eligible to vote, bringing the voting strength of the county to approximately 1960 this year, as compared to approximately 3,000 last year.

Mr. Mauldin said that he believed the bad weather conditions responsible for the big drop. It is normal, he pointed out, for the number of taxes paid to drop during an off-election year, but there are on the tax roll names of many whom he feels would have paid both property tax and poll tax had it not been for the weather.

Tarleton to Honor Two War Dead From County

Glynn C. Moore and Melvin Keith Thomas of Wellington, former students of John Tarleton College who lost their lives in World War II, are among the 184 ex-student war dead who will be commemorated by the erection of a Memorial Stadium. Both boys attended Tarleton in 1938-39 and 1939-40.

East Ward School Condition Bad

The urgent need for Wellington's new ward school building was emphasized this week when it became necessary to transfer part of the East Ward pupils to other buildings because of the condition of the old school.

Teachers reported the situation in the building the worst they had ever seen. Ice melting on the roof dripped through into the rooms until it became difficult to find any dry enough to teach in.

The East Ward janitor, inspecting the roof Tuesday, said there was a layer of ice around six inches thick.

Third grade students were sent to the high school building for their classes. First graders are being taught in a barracks building at the high school. Second grade students were kept at East Ward as teachers sought to find a place dry enough for them.

Cameron Beam, president of the school board, said Wednesday that no date has been set for moving into the new building, and that the school board is meeting with the architect and contractor Saturday in an effort to get several situations worked out before the board can accept the building. Several things have developed, he said, which the board feels should be corrected before they can take over the responsibility of the building, although the board is as eager as the parents to get the children into the new school.

March of Dimes Time Extended

An extension of two weeks has been made in the March of Dimes campaign in Collingsworth County, E. L. Pritchett, county chairman, announced today.

"Need of this extension in our drive resulted from the weather during part of our campaign period," Mr. Pritchett stated. "With this additional time and the cooperation of the people of the county, I believe we can successfully reach our quota of \$1,500," he added.

Veterans School Serves 196 Men Brings \$300,000 Payroll to Area

The practical and long-range effects of the Veterans Vocational School for Collingsworth has been recognized since its organization to train young men who served in the Armed Forces during World War II.

It is less well known, however, that this is one of the biggest concerns from a financial standpoint in the county, for it brings into Collingsworth something more than \$307,000 each year!

These figures were revealed last week by John Colman, county coordinator.

Working with a staff of nine,

dium. Both boys attended Tarleton in 1938-39 and 1939-40.

Sponsored by the Tarleton Ex-Students Association, a three-year fund raising plan, now in its second year, has raised approximately \$55,000 toward its \$100,000 goal. The college recently acquired a 38-acre tract west of the present campus for the location of the stadium. A football field has been leveled and sodded in the new area and games will be played there next fall. Plans for the stadium include a seating capacity of 8,000 with dressing rooms, showers, and other facilities located beneath the stands. The stadium is designed to accommodate agricultural fairs, livestock shows, and for general community use as well as to provide a place for athletic contests.

Happy Birthday

Fundamental Bapt. Church to Open Revival Feb. 7

Revival services will open at the Fundamental Baptist Church in Wellington Monday, February 7, and continue through Friday, February 18, the Rev. George Shoff, pastor, has announced.

The Rev. Clarence Bishop of Dumas will be in charge of the preaching. An outstanding preacher of the denomination in the Panhandle, Rev. Bishop at one time lived here.

Services will be held each evening at 7:30 p.m., and the public is cordially invited to attend, Rev. Shoff said.

The church is located at the corner of 9th and Floydada Streets.

Rockettes Sponsor All-Girl Tourney

Wellington High School's Skyrockettes are sponsoring an all-girl basketball tournament which will be held in Wellington on Friday and Saturday, February 11 and 12, Mrs. Marshall Baxter, coach, has reported.

The games will be played Friday morning and afternoon and Saturday morning and afternoon. Trophies will be awarded to the winner, runner-up team and consolation winner.

In addition to the high school division a division for women's independent teams is being set up. Awards will be presented separately in each division.

Plans are underway to make this all-girls tournament an annual affair, Mrs. Baxter said.

Brothers Admit Taking Articles and Money From Catholic Rectory

Two brothers, 15 and 14 years of age, have admitted to local officers that they entered the Rectory of Our Lady of Mercy Catholic Church on several occasions and took articles belonging to the Rev. Charles Knapp and money belonging to the church, R. N. Barnett, deputy sheriff said Monday.

The articles belonging to Father Knapp, including a watch, pen and pencil sets and other items, have been returned, and the boys agreed to work and place the money, amounting to between \$80 and \$100, which was taken, Mr. Barnett said.

Educational Leaders to Speak January 9 at Meeting Here

School administrators, teachers, and the general public interested in education will hear a down-to-earth, factual discussion, particularly in regard to federal aid to education, Wednesday night, February 9, when two leaders in the field speak in Wellington.

The speakers will be Paul H.

Good, Washington D. C., secretary of the National Chamber of Commerce Committee on Education, and H. J. Dollinger, Dallas, assistant manager of the Southwestern Division of the Chamber of Commerce.

The meeting is sponsored by the Wellington Chamber of Commerce,

and arrangements have been under the direction of Dr. C. B. Jones, chairman of the C of C Committee on education, and T. C. Crabtree of Quail, co-chairman.

It will be held at the community building, beginning at 8:00 p.m.

Invitations are being sent to school administrators and the general public in all surrounding towns to attend this meeting.

"It will be a meeting devoted to the problems of education. It is not an entertainment program, but one which will be invaluable to the man or woman regardless of his occupation or station in life, if he is interested in our schools," Dr. Jones declared.

The problems of education over the United States, as well as proposed federal aid to education, will be gone into by Mr. Good, whose business it is to keep in touch with these trends in education for the Chamber of Commerce.

Emphasis will be put on what local communities can do about their educational problems and their acceptance of this responsibility.

"It will be an overall picture of the present educational setup," Virgil Johnson, Chamber of Commerce manager, said.

In the meeting here he will probably discuss the bill now before Congress which proposes large-scale aid to those states whose educational facilities are below standard. Texas is among these states. The proposed bill would be permanent, it is pointed out. Considerable opposition has been raised against federal aid to schools, many feeling that it is contradictory to the American way of thinking.

One of the major objectives of the National C of C educational committee is the development of a new approach to the relationship of education to the world of business.

Mr. Good's activity in helping to boost the interests of education and business on a national scale stems from his efforts made more than 15 years ago to enlist teachers of his home community of Wichita, Kansas, in the work of the local Chamber of Commerce. He worked for a closer relationship between business interests and education. He maintained that business should be interested in the school product and that educators and businessmen should be working cooperatively in the development of the city's growth and prosperity. So successful was that cooperative program that the Teachers' Association carried a number of memberships in the local Chamber and has taken an active part in Chamber of Commerce work.

Mr. Dollinger has had more than 25 years experience in Chamber of Commerce work and his experience not only in this field, but in historical research, Veterans affairs and credit control is national scope.

This open meeting is one a number, on various phases of business, education and agriculture, that will be brought to the people of this area during the coming months under the direction of the Chamber of Commerce.

Mr. Clark died in a Dumas hospital at 5:00 p.m., January 26. She had been in ill health for more than a year, and hospitalized for three weeks.

Pall bearers for the funeral service were Grif Finley, Rufus Hays, L. C. Hill, N. M. Higdon, James Williams, and Luther Sullivan. Burial was in the Arlie cemetery under the direction of the Kelson Funeral Home.

Mr. Clark had lived in this area, principally at Arlie, for around 28 years. Two years ago the family moved to Dumas to make their home.

Mrs. Clark was before her marriage Miss Zettie Maybly Wyatt, the daughter of Mr. and Mrs. M. L. Wyatt of Hollis. She was born May 20, 1905, in Cooke County, and at the time of her death she was 43 years, 8 months, and 6 days of age.

She was married to Lucion V. Clark at Arlie January 13, 1924.

Mrs. Clark had been a member of the Baptist Church since 1920, and was a member of the Woodman Circle.

Surviving are her husband and three sons, and a daughter, S-Sgt. D. D. Clark and Mrs. Otis Holmes of Roswell, N. M.; Jimmie Clark and Don Clark of Dumas; her parents, Mr. and Mrs. Wyatt; two sisters and five brothers, Mrs. Guy Brown of Lubbock, Mrs. Christine Earles of Los Angeles; Cleburne Wyatt of Myrtle Creek, Oregon; Ruel Wyatt of Littlefield; Lloyd Wyatt of Napa, Calif.; J. T. Wyatt of Fresno, Calif.; and Leon Wyatt.

The hour of the singing has been moved forward to 2:00 p.m. The new song books will be used.

A number of out of town singers are expected to be present, and everyone who likes to sing or enjoys singing is invited to attend.

Lindsey Chickens Win at Boston

V. H. Lindsey received word last week that the three bantam chickens he had entered in the 101st Annual Boston, Mass., Poultry Show had won him three first places.

These included a cock, cockerel and pullet. The cock was also judged "best of variety" in the show.

Mr. Lindsey's chickens are White Crested Black Polish bantams.

He has been a consistent winner in the Boston show for several seasons, as well as other shows that he enters the birds.

This is the last show for the season and he does not plan to show his chickens again until the State Fair of Texas next fall, he reported.

Teachers to Hear Dr. Boren at Annual Meet

Dr. James B. Boren, president of Hardin College, Wichita Falls, will be the guest speaker when teachers and trustees of Collingsworth County schools gather for the annual Texas State Teachers Association Banquet at the community building in Wellington Monday, February 7, at 7:30 p.m.

During a business session which immediately follows the banquet the local unit of the Association will be re-organized and officers for 1949 will be chosen.

Orville, Cunningham, president for 1948, will act as toastmaster at the banquet. E. L. Pritchett, superintendent of the Wellington schools, will give the invocation,

Return Body of Pvt. Dreborn Mars

Mr. and Mrs. Virgil Mars of Vernon, formerly of Wellington, have received word that the body of their son, Pvt. Dreborn Mars, is en route to the United States and should arrive for reburial during the first part of this month.

Pvt. Mars was killed while fighting on Okinawa May 5, 1945, at the age of 19.

Pvt. Mars was reared here and graduated from Wellington high school in 1943. He was married to Miss Margaret Souder on August 15 of that year. They had one son, Dreborn Lee. He farmed until he entered the Army October 3, 1944, after going overseas, he was stationed first in Hawaii, then the Marianas Islands being sent to Okinawa, where he landed only two days before his death. He was an assistant machine gunner.

The parents of the young soldier moved from Wellington to Vernon early in 1945.

Arrangements for his reburial have not been learned here.

George Keller Jr. Has Commission

George Keller Jr., son of Mrs. George Keller, district clerk, has received a commission of second lieutenant in the regular Army and will report for duty at El Paso around March 1.

Keller served in the United States Navy during World War II, and since his release from service, he has been a student in Southern Methodist University, Dallas, where he has completed two and one-half years work.

Mrs. Keller said that her son plans to make a career of his Army service.

He will remain in Dallas until late February, when he will come here for a week's visit.

Billy Joe Keller, her younger son, has entered Southwestern Tech at Weatherford, Okla., as a freshman student. He plans to become a coach.

Keller worked as an apprentice at The Wellington Leader while attending high school here, and has been a regular employee in the mechanical department of the paper since last summer.

Former Resident Fares Well During Wyoming Blizzard

Mrs. Fred Kummerfeld, a former Collingsworth County resident, now living in the snow-covered ranching country of near Moorcraft, Wyoming, phoned Monday, January 31 to tell her mother, Mrs. J. L. Gladney, that she and her family are doing fine, in spite of the prolonged cold.

Mrs. Kummerfeld, who will be remembered as Miss Ada Lee Gladney, said that they had plenty of feed for their stock. Due to the depth of the snow, however, her husband must make all trips to town, seven miles, my sled, and that at present they are unable to get mail out of that area.

and afterward each principal will introduce the teachers of his school.

The program will be opened with numbers from each of the four larger schools, Dodson, Samnorwood, Quail and Wellington. These are not to be announced until the time they are presented.

T. E. Lennon, superintendent of the Dodson school, will introduce Dr. Boren, who will speak along some line pertinent to present-day education.

Music for the occasion will be furnished by the Rhythm Kings orchestra.

Approximately 200 teachers, trustees and their guests are expected to attend, according to B. W. Baird, county superintendent, who is in charge of arrangements.

The local unit of the Texas State Teachers Association has 100 per cent membership among teachers of the county.

Funeral Here on Friday for Former Area Resident

Funeral services for Mrs. Lucie W. Clark Dumas, a former resident of this area, were held Friday January 28, at the First Baptist Church in Wellington, with the Rev. Howard Jones, pastor, in charge.

Mrs. Clark died in a Dumas hospital at 5:00 p.m., January 26. She had been in ill health for more than a year, and hospitalized for three weeks.

Pall bearers for the funeral service were Grif Finley, Rufus Hays, L. C. Hill, N. M. Higdon, James Williams, and Luther Sullivan. Burial was in the Arlie cemetery under the direction of the Kelson Funeral Home.

Mr. Clark had lived in this area, principally at Arlie, for around 28 years. Two years ago the family moved to Dumas to make their home.

Mrs. Clark was before her marriage Miss Zettie Maybly Wyatt, the daughter of Mr. and Mrs. M. L. Wyatt of Hollis. She was born May 20, 1905, in Cooke County, and at the time of her death she was 43 years, 8 months, and 6 days of age.

She was married to Lucion V. Clark at Arlie January 13, 1924.

Mrs. Clark had been a member of the Baptist Church since 1920, and was a member of the Woodman Circle.

Surviving are her husband and three sons, and a daughter, S-Sgt. D. D. Clark and Mrs. Otis Holmes of Roswell, N. M.; Jimmie Clark and Don Clark of Dumas; her parents, Mr. and Mrs. Wyatt; two sisters and five brothers, Mrs. Guy Brown of Lubbock, Mrs. Christine Earles of Los Angeles; Cleburne Wyatt of Myrtle Creek, Oregon; Ruel Wyatt of Littlefield; Lloyd Wyatt of Napa, Calif.; J. T. Wyatt of Fresno, Calif.; and Leon Wyatt.

The hour of the singing has been moved forward to 2:00 p.m. The new song books will be used.

A number of out of town singers are expected to be present, and everyone who likes to sing or enjoys singing is invited to attend.

Location of Three Offices in Court House Changed

The location of three offices in the court house have been changed for the general convenience of each.

The Veterans Vocational school office, which had completely outgrown its previous quarters, has moved to the room formerly occupied jointly by the County Service Officer, Rolly Fisher, and the Soil Conservation Service.

This is on the west side of the second floor.

The service officer and Soil Conservation Service have moved two doors north to the room labeled Jury Room, not previously used for office space.

FAMILY GROUP

HOSPITALIZATION and SURGERY

Covering Sickness, Accidents and Operations

Recommended by Your Local Medical Authorities

Reserve Life Insurance Company
Dallas, Texas
Gentlemen:

We take the attitude that every family should have a prepaid hospital and surgical plan in a good company, making it easier for them to pay their hospital and surgical expenses.

Your contract is broad in coverage and we are pleased with the way you have handled your claims.

This community has been in need of an adequate prepaid plan of surgical and hospital care for some time and we feel that your plan will cover that need very well. It follows the American way of life, offering to the individual a free choice of doctor and hospital.

Yours Very truly,

JONES-WATKINS CLINIC

E. K. Jones M. D.

300 Attend Barbecue and Show at D & M Thursday

Nearly 300 persons attended on January 27th a program arranged especially for farmers, their families, and friends of this community. This program which was held in Wellington and which was highlighted by the showing of two feature movies in color, was sponsored by D&M Farm Machinery Co., local Minneapolis-Moline farm implement dealer.

The films shown were entitled "This Heritage of Ours" and "Reasons for the Seasons." The first film told the story of growing America from the time the first colonies were established to the present and included such episodes as the Oregon and Mormon trails in opening of the West and the

discovery of gold which brought on one of the greatest mass migrations in the history of mankind.

The second film, entitled "Reasons for the Seasons," was a story of the seasons, the sun, and the soil. By means of colorful animation and straight photography, the vital facts concerning the seasons were graphically explained. Included in this film were sequences showing how modern farm machinery is helping farmers cope with seasons as they affect him and his work.

Commenting on the event, L. D. Meriwether, whose business firm sponsored the program, reported that it included, in addition to the films, a free lunch at noon.

Readers of The Leader

Accompanying her subscription recently came this cordial note from Velma P. Clinkscapes of Dallas, who will be remembered by many here as Velma Pritchett: "Enclosed is my check to cover renewal of my subscription to The Leader, which we feel that we can't do without."

Other subscribers are: J. T. Harrison, 1333 Normal Avenue, Chico, Calif.; Mrs. Charles L. Graves, Route 3, Box 484, Lancaster, Calif.; W. H. Williams, Route 2, Tahoka; J. H. Palmer, Route 6, Lubbock; Pfc. Bruce W. Hite, AF 18346739, 3712 Tng. Sk., Flight 3894, Lackland Air Base, San Antonio;

Austin, city; Mrs. Sallie Killingsworth, city; G. C. Riddle, city; E. S. Copeland, Route 5, city; Mrs. O. E. Rogers, city; W. E. McBride, Route 5, city; Mrs. Ada Thompson, Shamrock.

Changes of address were received from: Mrs. Irene Stall from Laurel, Miss., to 822 Giddings St., Clovis, N. M.; Ira Brisbin to 4537 Chapparel St., Philrich Branch, Borger; Grady Belew to West Star Route, Portales, N. M.; J. D. Long, Memphis, to Box 74, Atwater, California; and W. P. Gilbreth from Route 3, Wellington, to Memphis, Quail Route.

Men are queer animals. They have always known that one horse can run faster than another and yet they will squander millions of dollars to see that simple fact demonstrated over and over.

The human ear is a delicate organ; so delicate that no one but a physician should explore the canal leading to the middle ear.

TENSE MOMENT IN GOLDEN GLOVES FIGHT IN AMARILLO

A breath-taking minute in one of the closest bouts on the program of the opening night of the 1949 Golden Gloves tournament was caught by an Amarillo Globe-News camera man, showing Wellington's Gene Cook, right, as he battled Burl York of Amarillo in the

135 pound class. Cook won the bout. York scored this shot to the left of Cook's nose, but failed to parry a long left counter. There was no doubt among the fans that Cook deserved the victory.

—Picture Courttest Amarillo News

D. A. Shirley, West Texas State Dean, Retires

CANYON—Dr. D. A. Shirley, Dean and senior member of the West Texas State faculty, handed his resignation to President James P. Cornette this week retroactive to January 1.

His action was due to poor health which has kept him from his desk since last October.

In accepting his resignation, Dr. Cornette said: "The history of any college is the composite shadow of the great personalities whose lives have gone into its making. The personality of Dean D. A. Shirley, or Doug, as he is affectionately known

by those who know and love him best, is one of the greatest of West Texas State personalities and its brightness as well as his contributions will endure through many years to come."

Dean Shirley came to West Texas State in 1913 as a physics teacher. Before that he was with

Christian College in Herford and the Herford public schools. In addition to his teaching duties, he was football coach in the early years and served as chairman of the athletic committee from its inception until this year.

In 1923, Dr. Shirley became registrar, a position he filled until

1945 when he became Dean of the College. He received his Bachelor degree from Texas Christian University, his Master's from the University of Michigan and was awarded an honorary LL.D from T. C. U. in 1940.

The popular dean is also an ardent civic worker, having served in the Christian Church and the Canyon Chamber of Commerce. He is a member of Phi Delta Kappa, National Education Association, Texas State Teachers Association, American Association of College Registrars, Blue Lodge Chapter of Masons in Canyon, Commandary and Shrine in Amarillo.

This is the time of year to treat your cattle for grubs . . . This is grub season. They cause a big loss in meat, milk and leather. Ask the county agent about cattle grub control.

It's not the size of the boy in the fight that counts, so much as the size of the fight in the boy.

Arkansas has a coal reserve of over 300,000,000 tons.

Beware Coughs From Common Colds That HANG ON

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

HIGH AND LOW BLOOD PRESSURE SUCCESSFULLY TREATED

H. M. Thompson

H. M. Thompson of Lakeview, Says

I was brought to the hospital on a stretcher. I couldn't walk or turn over in bed. This medicine gave me entire relief. I didn't take medicine before I took this and I have never had to take any since. Before I took it I couldn't get out of bed and now I'm working for the County Bridge Gang, and now I am entirely cured. Before taking Boaz' tablets I had a blood pressure of 176 over 98, accompanied by headaches, pains in the back of the neck and in the region of the heart. After using Boaz's Tablets under the direction of a physician and for a period of ten days, I was relieved of these pains and my blood pressure dropped to 132 over 70.

I have taken no other medicine during this time and feel it was the use of Boaz's tablets which helped my condition.

H. M. Thompson
Boaz's Tablets can be purchased at

FOR

FARMS -- RANCHES -- BUSINESS

We of the City State Bank count it a privilege to work in close co-operation with our friends and neighbors of this community. Because we live here and have cast our lot with the people of the community, we have learned how essential to the general welfare is an ample supply of credit . . . available instantly as needed.

Ready cash can make the difference in profit and loss for a farmer and rancher, as readily as for a merchant. The individual, too, encounters the need for cash to help him through difficult periods.

It is our aim to make your borrowing as quick and as convenient as possible and at reasonable rates. Keep in touch with us. Let us know how you are faring and what your probable needs will be.

We'll do our best to help you!

Who's New in Collingsworth

Mr. and Mrs. Henry Deskins Wells of The Wellington Leader are the parents of a son, born Tuesday morning, February 1, at 8:25 a. m. in St. Joseph's Hospital.

He has been named Henry Willis, for his grandfathers, the late Henry Wells and the late Vander Willis.

The baby's weight is seven pounds and one ounce.

Both Mrs. Wells and her son are doing fine

Rev. and Mrs. C. W. Garrison are the parents of a son, Garry LeRoy, born January 25 in St. Joseph's Hospital. He weighed 7 pounds 15½ ounces.

Mr. and Mrs. William Smith are the parents of a daughter, Janis Elaine, born January 27 in St. Joseph's Hospital. She weighed 9 pounds 3 ounces.

Mr. and Mrs. David Kilough are the parents of a son, Nathan Lynn, born January 31 in St. Joseph's Hospital. He weighed 7 pounds 5 ounces.

Miss Ruth Dennis of Aurora, Missouri, and Miss Peggy Newberry of New Orleans, La., were guests in the home of Mr. and Mrs. John Coleman during the past week. Miss Dennis and Miss Newberry are students of A. C. C. in Abilene.

Mrs. Roberts Opens Alteration Shop

Mrs. Thad Roberts this week announced the opening of the Home Alteration Shop in her home at 1200 Arlington Street.

Mrs. Roberts will specialize in making covered buttons and buckles, buttonholes, belts, and in altering men's, women's and children's clothes, as well as in tailoring to measure skirts and blouses.

Mrs. Roberts has had several years experience in tailoring and alteration work, having been em-

Two Countians Listed On Southwestern Tech Honor Roll

Two county men, James W. Cochran of Wellington and William T. Malone of Dodson, were among the fifty-five students of Southwestern Tech, Weatherford, Okla., to earn grades of B or better in all courses in which they were enrolled, and to gain distinction as members of the college Dean's honor roll for the first semester.

They played in tailor shops here during the time.

WILLYS and Packard

Deliveries on new cars are getting better. I think I will be able to keep a pretty full line on hand at all times now and invite you to drop by and look them over.

I have the agency for the Packard line of cars now and can make deliveries on any type you might prefer—The prices ranges from \$2,274.00 up F. O. B. Detroit.

Here is a listing of used cars and pickups on hand which I think is well worth the money.

1946 Willys Jeep—Clean.

1947 Kaiser 4-door sedan—heater & defroster.

1942 Pontiac convertible—radio—heater and defroster.

1941 Chrysler 4-door sedan—radio, heater and defroster.

1939 Chevrolet coupe—radio, heater, & defroster.

1937 Chevrolet coupe—heater

1942 Dodge 1 ton pickup—dual wheels—4-speed transmission.

1941 G. M. C. ¾ ton pickup—4-speed transmission.

1939 International Truck—Van body.

I now have Loyd Harper as service manager and invite all his friends to come to see him.

'Innocent Affair' At Ritz Feb. 6 and 7

At the Ritz Theatre Sunday and Monday, February 6 and 7, is United Artists' "An Innocent Affair," co-starring Madeleine Carroll and Fred McMurray.

This story of a bright young advertising executive whose business dealings, strictly on the up-and-up, with a beautiful young widow create suspicions on the part of his wife and prompt her to initiate a flirtation of her own to arouse his jealousy is packed with sophisticated humor and ludicrous entanglements which take nine reels of chuckles to straighten out.

Produced by James Nasser as his initial independent venture, the film features Charles 'Buddy' Rogers in his first acting stint since he starred producing pictures some years ago, Rita Johnson, Louise Albritton and Alan Mowbray. Lou Bheslow and Joseph Hoffman wrote the original screenplay for "An Innocent Affair" and Lloyd Bacon directed.

Miss Carroll, who has been off the screen for the past seven years devoting herself to Red Cross work overseas on the various battlefronts, has appeared with MacMurray some four or five times already in "Cafe Society," "Honeymoon in Bali," "Virginia" and "One Night in Lisbon." "An Innocent Affair" is her second film since her return, the first having been "High Fury."

The person who said that "one should not pick his ears or nose with anything less than his 'elbow'" was giving sound advice.

Gridsters, Speakers Brave Icy Weather to Annual 2-A Banquet

By FRANK A. GODSOE, JR.
Sports Editor, Amarillo Globe-News

Over ice-covered roads and through sub-freezing weather, the football stalwarts of District 2-A gathered at Wellington Thursday night, to feast, have football-talk and fun.

Hosts to several hundred guests at Wellington's excellent community building were the Wellington Skyrocket football team and the local Chamber of Commerce.

The guest list included the first and second all-district 2-A football teams, their dates, coaches and school officials and their wives, representing Wellington, Shamrock, McLean, Lefors, Memphis and Clarendon.

Wellington has made it a custom for several years to give the party, always an elaborate affair. It was worth the trip, whatever the travel risk.

J. B. "Uncle Jay" Linn of KGNC in Amarillo came down to act as master of ceremonies. Speeches by Athletic Director Bill Carmichael and publicist Dub King of Texas A&M College were featured parts of the program. A film of the Texas A&M-Texas University battle last season was shown.

Andy Gardenhire of Memphis, Ed Briggs, of Shamrock and Freddie Newsom of Lefors received awards of "Player of the Week" during the 1948 season by the News-Globe.

The glib, free-wheeling, acrobatic Linn, one of the popular radio personalities of Texas, put on the major portion of his entertainment while mounted atop one of the banquet tables. He was assisted by good-natured Ed Briggs, Shamrock's 250 pound tackle. The tables were very sturdy.

The district 2-A championship trophy was accepted by James Love, coach of the Lefors Pirates, who swept to the championship in an all-victorious surge in district clashes.

The Pirates were short on manpower (the school was voted into Class A competition and had one of the smallest enrollments of any in Texas to win a district title) but saturated with determination and ability.

Pirate Co-captains Ike Doom and Tommy Jinks soon too charge of the championship award, fondled it as carefully as if it had been the Kohinoor diamond. They play for keeps in District 2-A. It's one of the better-balanced Class A districts in Texas and a real honor win in football.

King, recognized as the best informed sports writer in the state on schoolboy football while a member of the Fort Worth Star-Telegram staff, also is a sharp shooting publicity director and public

speaker. He distributed a pocket-size brochure of information on the educational and athletic features of Texas A&M, bound and printed as elaborately as the average college yearbook.

"We'll expect," he said lightly, "for all the schools here to send us at least one lineman or back each—boys about six feet tall who can step a hundred yards in 9.8 seconds and throw a football with either hand."

There was some mention, too, of a fact King has managed to get printed in almost every newspaper in Texas: "The Texas Longhorns haven't beaten the Aggies in any sport since last March 15."

Members of the first and second mythical all-district teams include:

First team: Ends: Joe Pafford of Lefors and Wayne Martin of Shamrock; tackles: Jimmy Brock of Wellington and Ed Briggs of Shamrock; guards: Tommy Jinks of Lefors and Ike Doom of Lefors; center: Jack Brooks of McLean; backfield: Freddie Newsom, Lefors; Johnny Griffin of McLean; Parley Bulman of Clarendon and Kenneth Strickland of Wellington.

Second team: Ends: Lynn Wright of Wellington and Tommy

Keathley of Clarendon; tackles: Kenneth McQueen of Memphis and Don Stokes of Lefors; guards: Gene Hamill of Shamrock and T. C. Blackmon of Memphis; center: Jack Knight of Memphis; backfield: L. M. Watson of McLean; Gaston Williams of Wellington; Andy Gardenhire of Memphis and Johnny Haines of McLean.

Can Black-Draught help that dull, dopey feeling?

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental haziness, bad breath—and if these symptoms are due only to constipation—try Black-Draught. Get a package today.

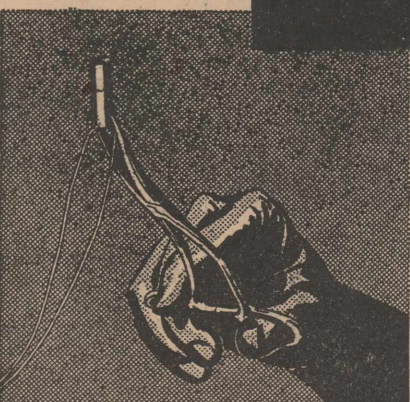

Value? Only a parent can tell you. Cost? Uncle Sam allows a \$600 income tax exemption to cover a year's board and keep—a parent has ideas on that too!

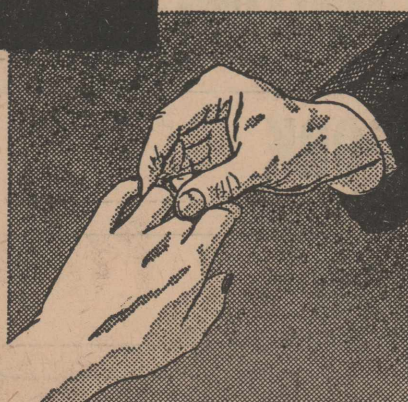

4 small things of great value

Value? What else gives you so much for so little as electricity? It lights, heats, cools, cleans and entertains; saves you time, money. Cost? A few cents a day!

Value? Ask any doctor the value of radium—or a patient whose life it has saved. Cost? A single ounce would cost you around \$650,000—if you could buy that much all at once!

Value! You can measure a diamond's value only in a woman's eyes. Its cost? About \$900 for a good-quality, one-carat stone... and it takes more than 140 carats to make one ounce!

Rubinoff Plays at Shamrock Feb. 15

Eastern Panhandle and Oklahoma residents are assured of a musical highlight on February 15th, when Rubinoff and his Violin, internationally famed popular concert artist, appears at Clark Auditorium in Shamrock under sponsorship of the Shamrock Jaycees.

Rubinoff and his Violin, long a favorite American combination, is well known to millions both from his current concert appearances, nationwide radio broadcasts with Eddie Cantor, and his motion picture engagements. A conductor and composer of note, the popular Maestro has retained unanimous public approval through his constant rendition of selections the public actually desires to hear.

The Famed Musician will bring here for his concert the fabulous Stradivarius violin which, insured for \$100,000, is reputed to possess the most beautiful tonal qualities in the entire world; and a brand new program of famous favorites loved by the American people, such as Chopin's Polonaise, Debussy's Claire de Lune, Gershwin's Rhapsody in Blue, and delightful popular numbers, such as Don't Fence Me In, arranged by Rubinoff in several different manners. This concert will feature the same program as planned in Amarillo and Oklahoma City.

Out of town people may obtain reservations by mailing self-addressed stamped envelopes with money orders or checks to E. R. Gobble, Box 669, Shamrock, Texas. Reserved seats are \$2.88 — General admission for lower floor and first three rows in balcony are \$2.40 and rear of balcony \$1.80. All prices include Federal taxes. Only the seating capacity of the auditorium will be sold, thereby assuring all ticket holders of the seat to which they are entitled. Tickets are also on sale at all Shamrock Drug Stores.

Soil conservation specialists say it takes approximately 100 years to add one inch of topsoil to the land.

'PAUL BUNYAN' STARTLES CAPITOL

Washington's Capitol police got a start when they spotted this giant visitor carrying a double-bitted ax through the Capitol corridors. But it turned out that Len Costley of International Falls, Minn., a self-styled "Paul Bunyan," was a wooden dummy. The giant woodsman is shown visiting with Sen. Margaret Chase Smith (R) of Maine and Rep. Edith Nourse Rogers (R) of Massachusetts.

LOCO

By BETHINE ADKINS

The snow here has blown and drifted, but no roads are blocked. Our community was saddened by the passing of two former residents.

Mrs. Beulah Fowler, 82, passed away Monday at her home at McLean. She lived here for a number of years, having homesteaded south of Loco in September of 1890. She was a cousin of George Adkins and M. L. Adkins. Mr. and Mrs. W. D. Durfee and Mrs. G. W. Adkins and Miss Bethine Adkins attended the graveside services at Childress Thursday.

Mrs. Zeta Clark passed away Tuesday at her home near Dumas. She and her husband and four children were residents of this community for many years. She was a cousin of Silas Crawford and Mrs. Wilbur Johnson.

Mr. and Mrs. W. C. Minter visited in the Buford Minter home in Lefors last week.

Mr. and Mrs. A. B. Crawford of Hollis visited in the Silas Crawford home Thursday.

Miss Dorothy Harbin of Abilene visited in the W. F. Harbin home this week.

Mr. and Mrs. W. L. Adkins of

near Hollis visited in the M. L. Adkins home Sunday.

Mr. and Mrs. E. C. Hutchins received word this week that their son, Paul, who is receiving treatment for infantile paralysis in Abilene, is getting along just fine. Fifteen of the children in the hospital have measles, but luckily, Paul has already had them.

Bill and Gene Thomas of Dallas visited in the J. R. Thomas home Saturday.

Congratulations to Mr. and Mrs. Herschel Mayhugh on the arrival of their new son.

Waters in the unfathomable depths of Lake Crescent, Wash., are so cold that the bodies of several persons drowned in the lake have risen to the surface in a perfect state of preservation after many years of submerison.

According to an eye witness of the atomic bombing in Nagasaki, the people wearing white were not hurt nearly as much as those wearing colors. Advertisements in the railroad station showed the black printing obliterated, while the surrounding white paper was untouched.

Blackhead is recognized as the most destructive disease of the turkey industry.

A BEAUTIFUL CAR DESERVES...

Good Beauty Care

Rely on MOPAR PROTECTIVE MATERIALS —
factory-engineered for your CHRYSLER or PLYMOUTH car

MOPAR Pre-Wax Cleaner. Cleans lacquer or enamel finishes quickly, safely. Prepares surface for application of wax or polish.

MOPAR Liquid Auto Wax. Forms brilliant, long-lasting film to protect surface from sun, rain, snow. Easily applied.

MOPAR Spot Remover. Cleans all non-rubberized fabrics. Removes oil, grease, tar, paint or chewing gum. Cap has cloth top for easy application.

MOPAR Glass Cleaner. Quickly and thoroughly removes grease, grime, bug spatters from lamp lenses, windshields. Non-streaking. Excellent for mirrors.

MOPAR Chromium Polish. Helps to protect against rust, corrosion, tarnish... restores brilliance... cleans nickel, copper, bronze. Quicker results!

Jack Atkinson, senior student in Southwestern Tech, Weatherford, was here last week for the between semester vacation, visiting his mother, Mrs. Virgie Atkinson.

Visitors here last week were Mr. and Mrs. Jimmie Cochran of Weatherford. Mr. Cochran, son of Mrs. A. L. Cochran, is a student in Southwestern Tech.

Miss Gay Reeves of Texas Tech, spent a few days with her mother, Mrs. Bill Reeves, of the Shinnery community.

Mrs. Jack Hurst and her parents, Mr. and Mrs. R. C. Ritchey of Quanah, were in Amarillo Sunday Saturday attending the funeral of S-Sgt. Richard B. Carroll.

Miss Joyce Woods of Texas Tech, visited this week in the home of her parents, Mr. and Mrs. Jim Woods.

Mr. and Mrs. Morris Reed were Sunday guests in the home of her sister, Mr. and Mrs. Hank Hankins of Memphis.

John Martin Jones, a student in Texas Tech, Lubbock, returned to school Monday after spending the between-semester vacation with his parents, Mr. and Mrs. T. J. Jones, and his brother, Bill.

V. C. Saied of University of Texas, is spending a few days with his parents, Mr. and Mrs. Mack Saied.

Charles Hester of WTSC, Canyon, spent a few days with his mother, Mrs. Vera Hester.

Ansel McDowell Jr. of the University of Texas visited with his parents, Mr. and Mrs. Ansel McDowell this week.

Week end guests of Mr. and Mrs. Jack Hurst were Mrs. Hurst's parents, Mr. and Mrs. R. C. Ritchey of Quanah.

Mrs. Bertha Hefley and daughter, Rose Mary of Amarillo visited over the week end with Mrs. Hefley's parents, Mr. and Mrs. N. C. Tennison. They also visited in the home of her sister, Mr. and Mrs. Guy Bumpas.

Miss Tommie Ann Campbell of Texas Tech, visited with her parents, Mr. and Mrs. Tom Campbell this week.

Mr. and Mrs. Darwin Nix were in San Antonio recently buying cattle. Mrs. Nix also visited in Corpus Christi.

Mrs. C. A. Kesler returned from Littlefield, where she was with her sister, Mrs. Tom Stansel, who had undergone an operation at that town.

Wellington visitors Friday were Mrs. Ada Thompson and Lt. and Mrs. C. D. Reeves and children, Mary Lyndel and Jimmy of Shamrock. They were here attending to business and visiting in the home of Mr. and Mrs. Fred Thompson. Fred Thompson is a nephew of Mrs. Thompson and a cousin of Mrs. Reeves.

Mr. and Mrs. P. E. Starr left Thursday for Fort Worth to visit and attend the Fat Stock Show.

Two South Texas women driving up to visit their families recently were Mrs. Jack Rogers of Refugio, who visited her parents, Mr. and Mrs. B. Hamman of Arlie, and Mrs. Jimmie Dee Moss of Aransas Pass, who visited her mother, Mrs. W. B. Wyrick, also of Arlie.

Mrs. Argie Jones and small daughter, Linda, returned Saturday to their home on the Blaine Ranch, near Erick, after visiting relatives here.

Mr. and Mrs. Jimmie Kelso and their younger daughter, Ann Katherine, were Dallas visitors from Sunday until Tuesday. They went to attend the graduation of her brother, Robert Manley, from an accounting school. Mr. Manley, who has been with the Federal Reserve Bank since prior to the war, is being named a bank examiner for the Federal Reserve Bank upon completing this course.

Mrs. Jess Lawson and baby, Dickey of Dalhart are spending this week with her parents, Mr. and Mrs. A. T. Smith.

Mr. and Mrs. Jack Gibson spent the week end in Oklahoma City.

Mr. and Mrs. Sam Raburn of WTSC Canyon, are spending a few days with his parents, Mr. and Mrs. O. B. Raburn.

Mrs. Odell Fenley and daughter, Janette, were in Amarillo for a few days this week where they attended the funeral of her brother-in-law, L. M. Tucker.

Mr. and Mrs. E. G. Fenley were in Wichita Falls over the week end visiting in the home of Mr. and Mrs. D. H. Ingram.

Mack Saied Jr., student at Texas Tech, and a friend, Al Salem of El Paso, also a student of Texas Tech, are spending a few days in the home of Mack's parents, Mr. and Mrs. Mack Saied Sr.

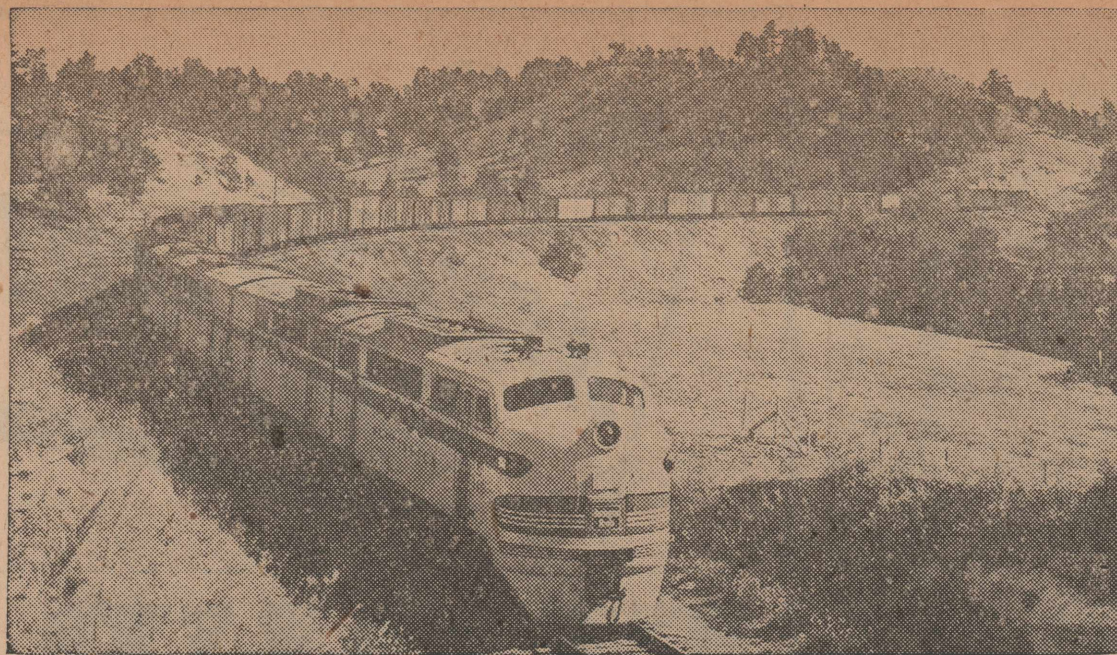

Mr. and Mrs. Tom Bryant and son, Tommy, were in Amarillo over the week end.

Mr. and Mrs. Dewey Owens of Amarillo were week end guests of his sister, Mrs. Eva Fulcher.

Some of the students of Texas Tech, Lubbock, who are visiting home folks for a few days are C. G. Gray, Howard Moore, Denzil Bevers, Jackie Strong, Charles Hake, Jack Covey and Tim Hatch.

Swine production calls for increased efficiency of feeding and management rather than for increased numbers.

The poultry situation during 1949 promises to be very favorable for producers.

DIESEL-ELECTRIC FREIGHT

A demonstration of the power inherent in the new Burlington Lines diesel-electric locomotive recently placed in operation between Texas and Colorado is shown in the above picture of a diesel freight train.

"Zero-Zero" to "CAVU"

By BILL HUGHES

They say that someplace in the world a death occurs every minute. This has very little meaning to us individually except when the person is famous, near, or dear. Many times, however, near though the death may be the ripple is exceedingly small among the living who know about it.

Two years ago Frank and Fanny Wooldridge came to work for us at Cottonwood. The work Frank could do was limited because he had a bad heart. Over the two years his condition had its ups and downs, but the general trend was ever toward that Monday morning a week ago. He arose early as always, had breakfast, and then retired to his chair until Fanny could have time to bring our ever-ready Peter into the kitchen for breakfast. He loved Peter as though he were his own. He more or less always began his day of labor by a short visit with Pete in the high chair. Frank fell asleep that day. I am sure he paid the visit as always, but it was not on his way to feed the chickens this time. And this time Pete didn't know he had been there. Frank came by unseen on his way to answer the summons that inevitably all life must answer no matter of how high or low degree or of what color, race, or creed.

As I said before, aside from those dear to him and a few near to him his passing scarcely caused a ripple, but let me tell you why it made me stop and think and wonder very much. If ever I knew a man understood the meaning of work as a fundamental necessity of life and of happiness he was one. He did not write or talk it; he lived it. If ever I knew a man who believed in God and strove to live accordingly, he did. He did not preach it; he strove to live it. He succeeded in it better than any

I have known. If ever a man truly loved, was truly kind, if ever one was faithful, if ever one was dependable and loyal, he was Frank. He left no estate. He was a colored man—but a man, a man of true heart and soul.

The Bible says that man should beware of passing judgment, but man heeds not and passes judgment every moment of his waking day. The small stir of Frank's passing is unnoticed — lost in the tremendous splashes of the so many thousand spectacular and great — a matter of man's judgment. It will be interesting to see what God has to say on the Judgment Day.

The communities' needs determine the character of the studies undertaken by the Agricultural Industrial Development service.

Americans ate 155.2 pounds of meat per capita in 1909; but ate only 132.8 pounds per capita in 1939.

United Nations Material Available To Texas Teachers

AUSTIN — Teachers who want information for reports or special lessons on the United Nations can write to the University of Texas Extension Loan Library which has recently been designated the correspondence center for Texas schools by the Department of Public Information of the United Nations.

Except in cases where teachers want a quantity of free material in regard to the United Nations and its activities, requests for information should be addressed to the University Loan Library rather than United Nations Headquarters.

A large amount of material suitable for school use has already been received from the United Nations and is available for circulation.

Material is available to schools and colleges for students to compile reports on such topics as: Work and Achievements of the

United Nations, The Palestine Problem, the Work of the Security Council, United Nations Headquarters, The Structure of the United Nations, UNESCO's Expanding Program, Delegates to the United Nations, United Nations or World Government, Atomic Energy Commission, Charter of the United Nations.

The Library supplies materials only on a two-week loan basis, but it lends lists of free and inexpensive material which may be obtained from the United Nations and other organizations, such as the American Association of United Nations, the National Educational Association, and the Foreign Policy Association.

WEEDS AND PESTS TAKE A LICKING WHEN YOU USE A MASSEY-HARRIS NO. 2 SPRAYER

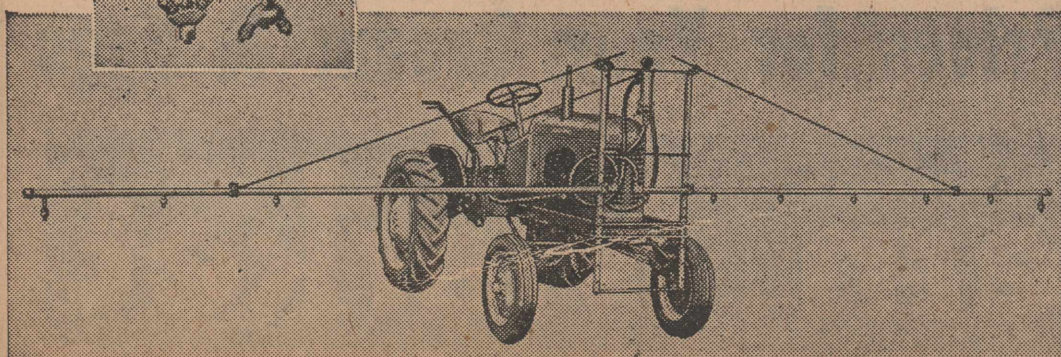

... and the result is clean, high yielding fields... crops that produce better because they're stronger, healthier. In the new Massey-Harris No. 2 low gallonage Sprayer you have a front-mounted tool custom designed to reduce weed, insect and cultivating expense.

The pump on the No. 2 is P.T.O. driven... small, compact, out of the way. Made of bronze it resists corrosion, lasts longer. You control pump and boom pressure right from your place on the tractor seat. Booms are specially toughened aluminum, 20 or 30 feet long, with nozzles spaced 20 inches apart. Nozzles are of all brass with removable tips and screens... the bases remain in the boom. Ample filtering capacity means reduced clogging, fewer stops in the field.

Stop in soon for complete details. Let's talk over this new method of applying 2, 4-D and D.D.T.

Special cone drops with reversible nozzle adaptors are available for spraying row crops with 2, 4-D or D.D.T.

Williams Machinery Co.

FARM AND RANCH CHATTER

WITH LAYNE BEATY WBAP
6:30 AM Week Days - 10:15 AM Sundays

It had to happen sometime, I suppose.

But a lot of Hereford breeders wish it hadn't.

For the first time in 21 years (the old timers tell us) an Aberdeen-Angus steer has been named grand champion of the Southwestern Exposition and Fat Stock Show.

It was a fine animal, weighed an even 1000 pounds, and sold at auction for six dollars a pound.

Young Robert Henry Johnson of Goldthwaite, the exhibitor, was mighty pleased, but just as proud was Tommy Brock, who bred the calf and sold him to Robert Henry at the age of six weeks. But Tommy gives full credit for the winning to the lad's feeding and care of the animal.

It was a great day for the Angus breed. The reserve championship went to a black also, shown by Hank Hermelbracht of Nebraska. Young Johnson, the Mills county farmer, says ranch life is tough and he wants to be a doctor. He plans to use some of the money he made and attend Baylor University to study dentistry. Maybe he figures by fixing up the teeth of America we'll be able to eat more beefsteak, but I never knew anyone with teeth so bad he couldn't make a good T-bone or sirloin off a Texas steer.

Heretofore, the "feed lift" has meant to us lifting a forkful of black-eyed peas from plate to mouth, but since the air force's efforts to supply feed to the marooned livestock on the blizzard swept western ranges, we have a new respect for the air force, livestock economy and blizzards.

When the final results of this operation are known we'll be proud of the air force (again), and grateful to those who made such a thing possible.

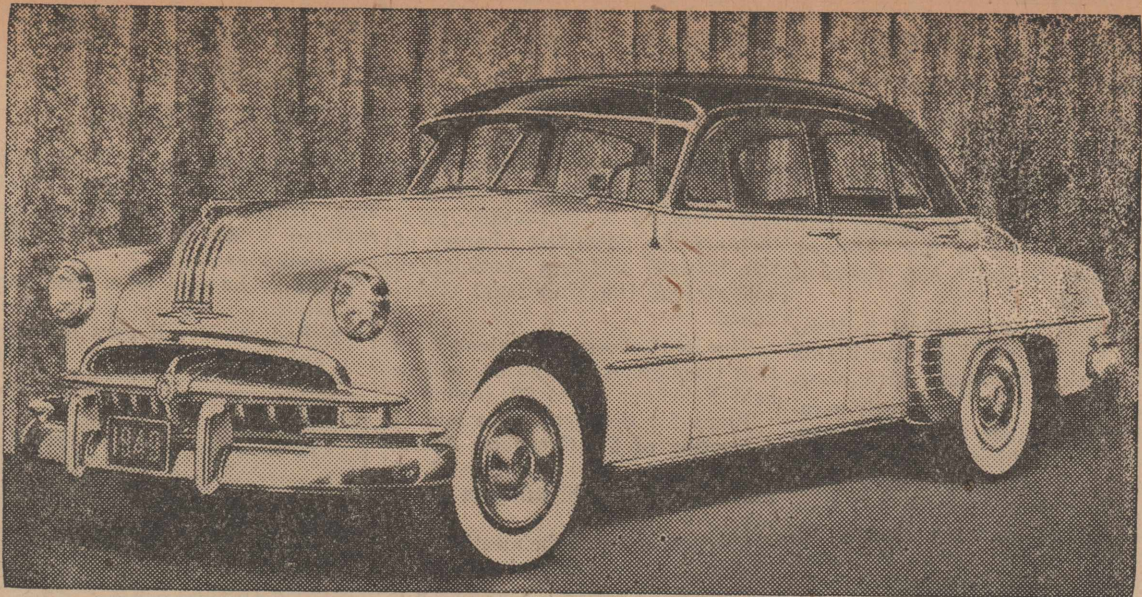

Of course, this sort of thing has been talked of by the "flying farmers" for years now. On a much smaller scale, these farmers and ranchmen who use airplanes have been dropping feed to lost animals, riding fences, shooting coyotes and a lot of other chores that are important.

We think it's a fine idea to attend weddings now and then, especially the kind where the minister gives full attention to the wording of the Christian marriage ceremony. We witnessed such a knot-tying at Longview the other night.

This has nothing to do with weddings, but the makers of the insecticide, DDT, say that their chemical is still the best weapon with which to attack flies, in spite of reports that some species of flies are developing an immunity to it, and that furthermore, the U. S. Department is going to recommend DDT again as the best fly poison. Naturally, some ways of using it are more effective than others.

The ice and snow brought welcome moisture last week. Too bad the limbs which the ice broke off trees couldn't have been the ones that needed pruning anyway.

The Constitution guarantees your right of pursuit of happiness, but you have to catch up with it yourself.

ENTIRELY NEW PONTIAC FOR 1949

The Pontiac Chieftain line of which the four-door deluxe sedan is shown here has a 120 inch wheelbase. Roof lines have been lowered without sacrifice of comfort. Trail pattern of the Chieftain series consists

of two gracefully arched steps from roof crown to trunk deck to lower edge. Both Pontiac Streamliner and Pontiac Chieftain lines average 38 percent more glass area. Visor on car pictured is an accessory.

Study Shrub Types Before Landscaping The Farm Home

COLLEGE STATION — There's a big difference in many of the shrubs commonly used for landscaping the home grounds. That's why the placing of shrubs is pretty important.

Some of the shrubs grow tall, and some grow wide, so you'll have to be careful how close to the house and to each other you plant the wide growing ones, says Sadie Hatfield, extension landscape gardening specialist of Texas A. & M. College.

When the shrubs are given plenty of space, they don't have to be pruned so often. They will be easier to spray and dust when it comes to the job of controlling diseases and killing insects, too.

Grouping shrubs of the same kind makes it easier to fertilize them and keep them attended to, says Miss Hatfield. Sometimes you run into trouble when you don't group like shrubs together. For example, ceniza and gardenias will not grow together at all. The ceniza needs an alkaline soil, while the gardenia grows best in the acid soils of East Texas. If the landscape gardener puts lime on the soil for the ceniza, the gardenia roots are injured. And, if he adds acid on the gardenia, the ceniza

Do This for Head-Cold Stuffiness!

Instantly—the moment you put a few drops of Vicks Va-tro-nol in each nostril—you'll feel your cold-stuffed nose start to open up and give you wonderful relief from sniffling head-cold distress. Va-tro-nol acts so fast because it works right where trouble is. It relieves stuffy congestion, and makes breathing easier. If used in time, Va-tro-nol helps prevent many colds from developing! Try it! Vicks Va-tro-nol Nose Drops.

Assembly of God Services Planned

Revival services opened at the Assembly of God in Wellington Sunday, January 30, with the Rev. Claude Wyrick of Mooreland, Oklahoma, in charge of the preaching.

The revival will probably continue for three weeks, the Rev. R. A. Jolliff, pastor of the church, said.

Services are held each evening at 7:30 p.m.

In addition to the revival, a fellowship meeting will be held at the Church Thursday, February 3, with representatives of churches over much of the Panhandle attending. Altogether, approximately 200 guests are expected, if the weather continues favorable.

Morning and afternoon services will be held on that day.

Under the direction of Rev. Jolliff, who arrived to take over the pastorate of the church only a short time ago, the interior of the church building has been redecorated, and minor repair work has been done.

Rev. Jolliff has extended a cordial invitation to the people of Wellington to attend the services at his church, either the revival, the fellowship meeting or the regular services.

The eardrum is a delicate membrane and is located less than one and one-half inches inside the external auditory canal.

Two Additional - (Continued from Page One)

World War II.

Mr. Gohmert will discuss the question now pertinent locally of the "Pink Bollworm Quarantine Regulations."

His talk will have direct bearing on the situation which prevents cotton farmers of this county, now under pink bollworm quarantine, from putting their cotton burs back on the land after the seed cotton has been ginned, but which makes it mandatory, instead, that the burs must be burned by the gins.

Of the two talks announced earlier, Mr. Jones will speak on "The Immediate Outlook for the Cotton Industry and the Possibility of Mechanization;" and Mr. Quinby will discuss Future Development of Grain Sorghums. Each man is outstanding in the field on which he will speak.

"Not only is this the first, but it is one of the outstanding and informative programs which the Chamber of Commerce will sponsor this year," Virgil Johnson, manager, declared.

"Because of its dollars and cents value to the people of this county—farmers and merchants alike—we urge that every one of you who can get over the roads be here to listen to these men."

The orchard should never be cultivated more than four or five inches deep, and three inches is better.

J. Gordon Breaks Shoulder in Fall

J. A. Gordon of Wellington fell on the ice Wednesday afternoon, January 26, breaking the bones in one shoulder.

He was rushed to St. Joseph's Hospital, where he remained until Monday, but Mrs. Gordon reports that the doctors will be unable to set his shoulder until the swelling has gone down.

The accident happened just north of the Church of Christ, as Mr. Gordon was returning home from the Post Office, his wife reported.

Mr. Gordon will observe his 83rd birthday on February 9.

Sullivan Graduates At New Mex. A&M

Lloyd Earl Sullivan of Wellington is one of 68 New Mexico A&M College seniors who will receive bachelor's degrees at the mid-year commencement exercises Friday, February 4, at Hadley Hall.

New Mexico A&M is located near Las Cruces.

Sullivan will receive his bachelor of science degree in agriculture.

The son of Mr. and Mrs. C. E. Sullivan of Wellington, he was reared in the Lillie community, and served in the armed forces during World War II.

Veterans School - (Continued from Page One)

per month or \$72,000 over a 12-months period.

"As far as I know, only the Greenbelt Rural Electric Co-operative is bringing more money into the county than is the Veterans Vocational School," Mr. Coleman commented.

Training in this school is thorough. Classes are held five nights each week, five hours each class.

Members of the new refrigeration class include Jack O. Bowen, Wilson E. Dobbins, Joe E. Claunch, Malcolm Dobbins, Sylvester Hardin, Charles E. Henrich Jr., Garland Hodge, Kenneth Hodge, Riley J. Hooper, Lewis P. Jones, Doyle O. Lewis, Raymond H. Newman, William R. Nichols, Vernon L. McLendon, Samuel I. Seales, Terrel E. Sisk and J. R. White.

Any other men interested should in becoming a member of this class contact Mr. Coleman, whose office at present is on the second floor of the court house, in the room formerly occupied by the county home demonstration agent.

Farrell Ray Kent underwent major surgery in St. Joseph's Hospital Sunday morning.

Observe National Security Week

Plans for Wellington's observance of National Security Week were announced Tuesday, February 1, by William W. McClaskey, president of the Greenbelt Chapter of the Reserve Officers Association, sponsors of the traditional observance.

The local observance, along with that throughout the nation, will be held February 12 to 22, inclusive.

Plans for the week were laid at a meeting of the Greenbelt Association at Childress January 26, at the regular monthly dinner meeting.

Guest speaker at the meeting was Major J. C. Howard, who has just returned from Japan, where he was defense counsel for the Japanese vice-minister of War, Kimure, who was later hanged, along with Tojo, as a Japanese war criminal. Attending the meeting from here were Mr. McClaskey and J. M. Moore.

Complete plans for the observance of National Security Week will be announced next week.

Mrs. D. E. Nored and daughter Cheryl are medical patients in St. Joseph's Hospital this week.

Mrs. Irene Kennedy Suffers Stroke Tuesday Morning

Word was received in Wellington Tuesday morning, February 1, that Mrs. Irene Kennedy of Lamesa suffered a severe stroke at 1:00 a.m. that morning.

Going to Lamesa upon receiving the message were her sister, Mrs. John Rogers, Mr. Rogers and his son, and Mrs. Jack Hurst, a close

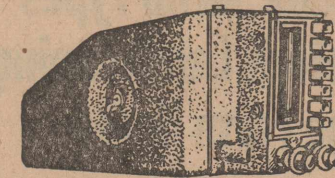

friend. No further word of Mrs. Kennedy's condition has been received.

Mrs. Kennedy lived here for a number of years, and since leaving several years ago has made her home in Amarillo, and later with a niece at Lamesa.

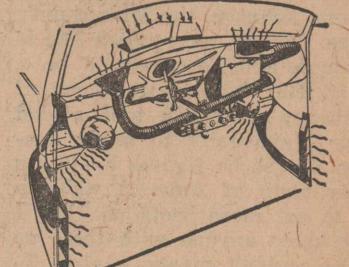

Tamara Frisbie is a medical patient in St. Joseph's Hospital this week.

Gentlemen:

We take the attitude that every family should have a prepaid hospital and surgical plan in a good company, making it easier for them to pay their hospital and surgical expenses.

Your contract is broad in coverage, and we are pleased with the way you have handled your claims.

This community has been in need of an adequate prepaid plan of surgical and hospital care for some time, and we feel that your plan will cover that need very well. It follows the American way of life, offering to the individual a free choice of doctor and hospital.

Yours very truly,

JONES-WATKINS CLINIC

Candlelight Ceremony Unites Miss Betty Alexander and Ellis Earl January 28

In a lovely candlelight ceremony at the Church of Christ in Dodson, Miss Betty Jean Alexander, daughter of Mr. and Mrs. E. C. Alexander of Dodson became the bride of Ellis W. Earl, son of Mr. and Mrs. H. W. Earl of Clyde, Friday evening, January 28.

Van Borneau, minister of the Church of Christ in Dodson, read the vows for the double ring ceremony before an altar of gladioli, stock and fern, in the presence of the immediate families and close friends.

The bride, who was given in marriage by her father, wore a white slipper satin gown with train and finger tip veil and carried a white Bible topped with American beauty roses. Her matron of honor, Mrs. Thomas A. Moore of Aspermont, sister of the groom, wore a pink taffeta gown with corsage of pink carnations and head dress of pink carnations.

The bridesmaids, Miss Barbara Baumgardner of Wellington and Mrs. Newell Burk of Lubbock, wore blue and yellow taffeta gowns and pink carnation corsages and head dress. The flower girls were Miss Fay Pope of Wellington and Miss Zenith Swift of Dodson. They wore

the same pink carnation head dress and corsage as the matron of honor and bridesmaids, and were dressed in yellow taffeta.

Doyal McGough of Peacock, was best man. Ushers were Rufus Earl of Clyde, brother of the groom and Ruel Alexander, brother of the bride. Candle lighters were Freddie Alexander, brother of the bride and Jimmy Thompson of Wellington. Ring bearer was Eddie Hunt of Dodson.

Mrs. Earl graduated from Wellington high school. The bride and groom are both students in Texas Tech, Lubbock.

Following the wedding a reception was held at the home of the brides parents. Approximately 70 guests were present.

After a short wedding trip the couple will make their home in Lubbock where they will both continue their college work with Texas Tech.

Samnorwood H. D. Club Meets With Mrs. Alfred Knoll

The Samnorwood Home Demonstration Club met with Mrs. Alfred Knoll as hostess.

The president, Grace Knoll, led the study and filling out of the new year books and plans for the coming year.

The club voted to meet once a month and carry out the demonstrations to the best of their ability until a new Demonstration Agent could be obtained.

Our next meeting will be with Mrs. Otis Bradley on February 11.

After the business meeting a social hour was enjoyed in which games were played and refreshments served to Mes. Bill Knoll, Bockman, Otis Bradley, and daughter, Lee Thompson, Charley Bradley, Willard Ethridge, and the hostess, Mrs. Knoll.

Mrs. C. A. Stephens of Hedley underwent major surgery in St. Joseph's Hospital this week.

Recent Shower Honors Mrs. Troy Godbey

Miss Peggy Jean Langford was hostess at a recent bridal shower honoring Mrs. Troy Godbey, the former Miss Jo Evelyn Hackler, in the home of Mr. and Mrs. Frank Langford.

Arrangements of pink and blue carnations decorated the entertaining rooms, and the gifts were on display throughout the evening. Refreshments of cakes and coffee were served to the guests.

Present and sending gifts were Mr. and Mrs. Earl Harrison, Mr. and Mrs. Lewis Cotton, Mr. and Mrs. J. R. Godbey, Mr. and Mrs. Earl Reynolds, Mr. and Mrs. Marshall Baxter, Mr. and Mrs. A. R. Cokendolpher, Mr. and Mrs. Marvin Clements, Mr. and Mrs. G. V. Rose, Mr. and Mrs. Earl Hackler, Mr. and Mrs. W. E. McBride, Mr. and Mrs. R. B. Martin, Mr. and Mrs. Enis Schaded, Mr. and Mrs. Joe Thompson, Mr. and Mrs. Floyd Dickey, Mr. and Mrs. Emory Hunter, Mr. and Mrs. Howard Hackler and Mr. and Mrs. O. B. Raburn.

Mr. and Mrs. Ray Clubb, Mr. and Mrs. A. N. Wiseman, Mr. and Mrs. M. C. Pigg, Mr. and Mrs. Joe Tipton, Mr. and Mrs. R. A. Williams, Mr. and Mrs. B. C. Hackler, Mr. and Mrs. Harold Morrow, Mr. and Mrs. M. Hackler, Mr. and Mrs. Clyde Hackler, Mr. and Mrs. C. E. Vaughn, Mr. and Mrs. Floyd Cole, Mr. and Mrs. Wallace O'Rear, Mr. and Mrs. Floyd Morton, Mr. and Mrs. Frank Fournentin, Mr. and Mrs. Dan Jones, Mr. and Mrs. Charles Cason Jr., Mr. and Mrs. Troy Hackler, Mr. and Mrs. Jess Robinson, Mr. and Mrs. Jones, Mr. and Mrs. Charles Caldwell, Mr. and Mrs. Charles Cason Sr., Mr. and Mrs. Ray Burgess, Mr. and Mrs. Alvis Derryberry, Mr. and Mrs. Langford, Rev. and Mrs. Howard Jones and Mr. and Mrs. Roy Cunningham. J. R. Godbey, Jr., Jerry Don Godbey, Mrs. A. L. Cochran and Misses Jo Ann Morton, Barbara O'Rear, Carolyn Cheatham, Earlene Harrison, Mr. and Mrs. Levi Needham and the hostesses.

J. A. Gordon was a recent medical patient in St. Joseph's Hospital.

Mr. and Mrs. R. A. Covey Jr.

Mr. and Mrs. R. A. Covey Jr. are seen at the reception which followed their marriage Sunday morning, January 16. Mrs. Covey is the former Miss Cathryn Swaim, daughter of Mr. and Mrs. J. P. Swaim of Hollis. The groom is the son of Mr. and Mrs. R. A. Covey of Arlie. The couple will make their home near Dodson.

Impressive Double Ring Ceremony Unites Miss Cathryn Swaim And R. A. Covey

In an impressive double ring ceremony performed by the Rev. Howard Jones at his home, Miss Cathryn Swaim, daughter of Mr. and Mrs. J. P. Swaim of Hollis, and R. A. Covey Jr., son of Mr. and Mrs. R. A. Covey of Arlie, were united in marriage. The rites were read Sunday, January 16.

The bride wore a grey suit with harmonizing accessories and a white orchid corsage. For something "old" she wore a ring which her mother had worn on her wedding day; and the something "borrowed" was a necklace belonging to her sister, Mrs. G. W. McDonald.

The couple's only attendants were Miss Beth Jackson of Hollis, and R. W. Alexander of Arlie.

HOUSELOG

By MRS. R. L. KARNES

It sure seems good to see the sun shining on the snow. It makes us think that we will soon be able to see the ground again. Although we have had a seige of cold weather, we are mighty thankful for the good moisture.

We were sorry indeed to learn of the death of Mrs. Gragg, mother of Lee Gragg, mail carrier on Route 2. He has been our mail carrier for several years, and he always makes his rounds, despite the hills he has to climb. I'm sure there are more ups and downs on this route than any other in the county, to say nothing of the creek he has to ford. It gives one a feeling of gratitude to be sitting by the fire in a good warm room on a cold blustery day, so cold one would think that no one would dare get out, then to look out of the window and see your postman stopping at your mail box, bringing the letter that you had wanted so badly. I have heard different ones speak of the efficient service Mr. Gragg renders. We are taking this opportunity to express our appreciation for his kindness and also extend our deepest sympathy to

J. W. Gray of Muleshoe and C. G. Gray, a student in Texas Tech, Lubbock, were in Wellington over the week end visiting their sisters, Mrs. Dean Lindsey, Mrs. Obert Childress and Miss Jocile Gray.

Bert Weaver visited Monday night with his sister, Mr. and Mrs. D. W. O'Brian.

the bereaved family.

Last Sunday, January 30, was little Miss Linda Karnes second birthday. Her mother, Mrs. Leonard Karnes, prepared a dinner and had as their guests Mr. and Mrs. O. B. Wilson and LaJuan.

George Brawley and family were on their way to town Saturday night, when Bang! out went a tire. Being near the M. C. Pigg place, they drove in and while Mr. Pigg assisted in changing the tire, Mrs. Brawley, her two daughters and two grandchildren visited with Mrs. Pigg.

La Juan Wilson spent most of last week with her grandmother, Mrs. W. W. Johnson, in order to attend school.

Mr. and Mrs. Lewis Morris and son, Darryl, of the Marella community, spent Thursday of last week with Mr. and Mrs. O. B. Wilson. Mrs. Morris and Mrs. Wilson are sisters.

Marriage of Miss Helen Harris Of Dumas and Sam Raburn Announced This Week

Announcement was made this week of the marriage of Miss Helen Harris, daughter of Mr. and Mrs. Pete Harris of Dumas, and Sam Raburn, son of Mr. and Mrs. O. B. Raburn of Wellington. The wedding took place May 28, 1948, at Paducah.

Mrs. Raburn, who is the granddaughter of Mr. and Mrs. W. D. Aldridge, is widely known in this area, having spent many of her summer vacations in Wellington with them. She was active in the social affairs of the younger set during the times she was here.

Graduating from Dumas high school last spring, she has been a student in Texas Technological College, Lubbock, during the fall

semester. Mr. Raburn is a member of a pioneer Collingsworth County family, being the grandson of Mrs. E. B. Haralson and the late Mr. Haralson.

He has spent his entire life here and graduated from Wellington high school in 1948. He was an outstanding athlete during his high school years, and was a member of the Skyrocket football squad.

During the fall semester he has been a student in West Texas College, Canyon. The young couple will make their home there and continue their studies at WTSC.

Mr. and Mrs. Raburn were in Wellington during the week end as guests of his parents.

Spring Forecast: Flowers

Belle Baldwin shows what the ladies' spring hats will look like at the 1949 spring show in New York. She wears a white oversized cartwheel of rough straw trimmed with vari-colored velvet sweet peas. She holds (left) a pink straw roller trimmed with asters and (right) a natural straw bonnet trimmed with daisies.

Miss Iva Dean Browning Becomes Bride of Cecil Joe Phillips In Vernon Friday Evening

Miss Iva Dean Browning, daughter of Mr. and Mrs. C. D. Browning of Childress, formerly of Lutie, and Cecil Joe Phillips, son of Mr. and Mrs. O. D. Phillips of near Memphis, were married Friday evening, January 28, at the home of the officiating minister, Rev. E. S. James, pastor of the First Baptist Church in Vernon.

Maid of honor was Miss Norma Dee Price of Childress. Miss Margaret Jean Spain was also a member of the wedding party. Ray Nelson of Newlin was best man.

The bride wore a suit of gray gabardine with navy and white accessories. Her corsage was an orchid. The maid of honor wore a grey suit and brown and pink accessories and corsage of pink carnations and corsage of pink carnations.

Mrs. Phillips is a graduate of

the Samnorwood high school and for the past two and one-half years has been employed by the Southwestern Bell Telephone Company in Childress.

After a short honeymoon in Abilene, the couple will make their home near Memphis where Mr. Phillips is engaged in farming.

Mrs. Bobby Bullington Honoree at Shower

Mr. and Mrs. Walter Boggs and Miss Edith Boggs were hosts at a shower Wednesday, January 19, at their home near Hollis, Oklahoma, honoring Mrs. Bobby Bullington who before her marriage was Miss Beth Wilkerson.

Causing much merriment was the mock wedding, with Miss Patsy Jean Weldon as the bride, Miss Vermo Humphreys as the groom and Miss Edith Boggs as the officiating minister.

Presenting gifts were Messrs. and Mes. L. J. Wilkerson, Walter Boggs, Carl Bullington, Harold Whisenant, Cecil Weldon, Fred Humphreys, Wesley Boggs, Mrs. Hightower, Billie Ray Bledsoe, Misses Verma Humphreys, Patsy Jean Weldon, Edith Boggs.

Sending gifts were Messrs. and Mes. Raymond Estes, Raymond Horton, John King, Houston Beard, E. J. Norman, L. V. Bruce, Johnny Cagle and Betty, Earl Tollett, Bob Benge, Jim Casey, of Vinson, Oklahoma, Carl Sanders and family, Theodore Wilkerson, Marion Purce of Nocona, Jackie Wilkerson, Miss Charlotte Eubanks, Mrs. Cleo Eubanks, Mrs. Jack Knight, Janet Penix, Mrs. B. A. Bledsoe, Curtis Bullington, Mrs. Frank Burns, Miss Nellie Jo Beardin of Shamrock, Mrs. Bernice Wilkinson of Los Angeles, Mrs. Coleman Polvador of Los Angeles.

Buffett Luncheon for Wedding Party

Mrs. L. A. Hunt and Mrs. Frank Pope were hostesses at a buffet luncheon in the home of Mrs. Hunt, given for the wedding party of Miss Betty Jean Alexander and Ellis W. Earl, Friday noon, January 28, after rehearsal.

Those who enjoyed the luncheon were the bride and groom elect, Minister Van Borneau, Mr. and Mrs. E. C. Alexander, Mr. and Mrs. H. W. Earl, Mrs. Thomas A. Moore, Misses Fay Pope and Zenith Swift, Doyle McGough, Rufus Earl, Ruel Alexander, Freddie Alexander, Jimmy Thompson, L. A. Hunt, Frank Pope and the hostesses.

James Beam, head high school football coach at Muleshoe, and Doc Brantley, coach at Fresno, were recent guests in the home of Mr. and Mrs. N. C. Beam. James Beam and N. C. Beam are brothers.

Mrs. R. C. Morgan and children of Salt Fork transacted business in Quail and visited her parents, Mr. and Mrs. D. W. O'Brian Friday.

Good Troopers

These taffeta nylon dresses can go to the theatre, party or anywhere and never be "prima donnas" when it's time for the wash tub. They can be rinsed as easily as stockings, dried in an hour and will

remember and keep their lines without a single cue from the flatiron. Of nylon, they're called Cin-dereila taffetas and come in black, gray, coffee and navy.

Miss Dorothy Robertson Hostess to Epsilon Sigma Alpha

The Beta Zeta Chapter of Epsilon Sigma Alpha held its regular meeting in the home of Miss Dorothy Robertson Thursday evening, January 27, with Miss Dora E. McClaskey, president, in charge.

Miss Robertson was in charge of the program and gave an interesting discussion on "Self Confidence."

Refreshments were served to the following members: Mes. Willie B. Harwell, Clara Terry, Misses Anna Lee Graham, Lucille Bennett, Virginia Cooper, Barbara Wilkins, Lura Finley, Dora E. McClaskey, and the hostess.

Louie Beam of Hardin-Simmons University, Abilene, visited his parents, Mr. and Mrs. N. C. Beam this week.

Quail Host to District 3-B Basketball Tourney

Quail School will be host to the district basketball tournament for schools in the south half of District 3-B Thursday, Friday and Saturday, February 3, 4 and 5. Superintendent Noah Cunningham reported this week.

Both boys and girls will compete. Winner of the Quail tournament will meet the winner of the north half of the district, and the winner of the boys division of the district will take part in the regional interscholastic play at Lubbock. The girls competition stops with the district.

Teams taking part in the Quail tournament will be Lelia Lake, Hedley, Quail and Sammorwood. Member teams in the north half of the district are Claude, Groom, White Deer, Panhandle and Goodnight.

SALT FORK

This community has been having its share of snow and cold weather. The farmers are sure thankful for the moisture, though. When it clears up and gets warm enough to work outside, how the tractors will hum. The ground will be in fine shape to plow, and will also be in good shape to really blow if it isn't plowed.

The Free Will Baptist Church between Salt Fork and Marella burned Friday. Our sympathy goes to Rev. Martin, who worked so faithfully trying to build and carry on over there.

There was singing at the J. P. Cummings home Friday night. Those present in spite of the cold and snow were the C. A. Wright family, the J. W. Gollighugh, Mr. and Mrs. Eugene Morrow, Mr. and Mrs. R. H. Isbell. After singing awhile, Mrs. Cummings served ice cream and cake. Last week the community singing was at Mr. and Mrs. C. A. Wright's. We haven't decided when or where we'll meet next time.

R. H. Isbell, J. W. Gollighugh and C. A. Wright were business visitors in the Marella Community Saturday.

Both Sunday services were well attended and very much enjoyed last Sunday. Mr. and Mrs. Bill Clifton of Vinson were here for services Sunday night. The children were very much thrilled to see Auntie, as Mrs. Clifton is lovingly called. She has charge of the children's part of our Sunday night services, but since moving over in Oklahoma, the Cliftons can't attend regularly. Mrs. Ted Isbell will be in charge when Mrs. Clifton is not here.

If you are not attending church elsewhere, we invite you to Salt Fork.

Uncle Bob Isbell, who is staying in the home of his son at Altus, Oklahoma, and who has been ill this winter, was in Wellington last week, and he stayed at his nephew's, Ted Isbell, two or three days, then returned to Altus. He hopes to move back to his little home in North Wellington soon, although his son wants him to remain at Altus until spring.

Mr. and Mrs. Ernest Maxwell were Sunday visitors at the C. A. Wright home.

Mr. Sweden, who is working in Oklahoma, came Sunday to visit his family.

CARD OF THANKS

We wish to take this means of expressing our appreciation for all the expressions of sympathy, the flowers, and for the many kind deeds done during the death of our dear one.

May God bless each and every one of you is our prayer.

The wife, son, Brothers and sisters of the late G. M. Stokes.

Questions on Veterans Aid

Q. Can my National Service Life Insurance include coverage for total disability?

A. Yes. For a small additional premium, there may be added to any NSLI policy a total disability rider which provides monthly payments to the insured while he is totally disabled longer than six consecutive months. Such payments begin with the seventh month of such total disability.

Q. I am a World War II veteran and would like to know how to get a concession to operate a stand at one of the VA hospitals?

A. Under Public Law 636, Veterans Administration operates canteens with fountain service and a stock of cigarettes, shaving cream, razors and similar items. Therefore, VA no longer lets out concessions.

Q. May I assign my National Service Life Insurance to a lender who will lend money to go into business?

A. No.

SHE GOT 'EM

Little Patricia Ann O'Brien was born in Philadelphia during the holiday season and came full equipped with two front teeth. Perhaps a popular song of the season had something to do with it. Her mother, Mrs. Theresa O'Brien appears to have gotten what she wanted for Christmas, too.

Plenty of Green Feed Needed After Summer Drouth

COLLEGE STATION — There is a saying that history repeats itself. And that's just what it will do this year, unless Texas stockmen do something.

About a year ago, a number of West Texas cattle feeders had trouble. Their cattle lost their appetites and didn't gain as well as they should have. The blame went to the late summer drouth of the year before, says Dr. W. C. Banks, extension veterinarian of Texas A. & M. College.

Texas had a good share of dry summer ranges this past year, so history may repeat itself again this year unless Texas stockmen keep a good eye on their cattle. Cattle are facing a tough winter. They have spent a lot of time on drouthy ranges, and now there is little green feed in the winter pastures. It takes high quality green feed — and lots of it — to keep the cattle in shape. Good quality alfalfa hay is one of the best sources

of vitamin A there is, says Dr. Banks. Two to four pounds per day supply enough vitamin A to keep the cattle in good shape.

Cattle that don't get plenty of green hay will soon become night blind. After that, if they still don't get their vitamin A, they will have convulsions and later become totally blind.

Here's a recent report from Paul T. Marion, assistant animal husbandman of the Spur Experiment Station. On the night of December 22, one Hereford steer in a pen of five was found to be completely night blind. Two others had affected night vision. These steers had not had any vitamin A in their ration in 44 days. They came from grass pastures that had dried out back in August and September. They just didn't have any green feed to furnish them vitamin A.

Other steers just like these — on the same pastures — have been fed the same ration plus alfalfa hay and silage. All this group had normal night vision.

If nothing is done to correct the vitamin A deficient ration, all the steers in this group will become night blind. They will soon lose their appetites, some may fall to the ground and have convulsions.

Later they may become totally day blind.

Last year, reports Marion, steers from these same pastures showed more severe symptoms of vitamin A deficiency after 84 days on the ration that didn't have green feed. Before the end of the experiment it was necessary to feed vitamin A to them so they would recover their appetites and be able to finish the experiment.

Now is the time to see that your cattle get plenty of high quality alfalfa hay or silage, says Dr. Banks.

This will keep them off the sick list later on.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS

DUE TO EXCESS ACID
Free Book Tells of Home Treatment that Must Help or It Will Cost You Nothing

COMPANY
HOUSTON, TEXAS

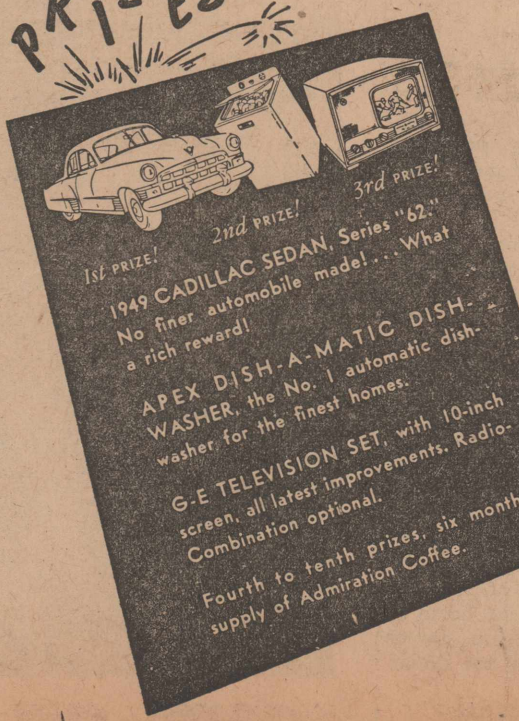

MANY BELIEVE IT'S

freshness

FIND IT YOURSELF AND WIN WONDERFUL PRIZES

All of a sudden it will dawn on you—the single word that covers the Secret Ingredient. Buy a pound of Admiration. Sample it, test it, enjoy it! Fresh as new-fallen snow, you can taste the full rich body, the appetizing goodness, the wholesome, delightful flavor. The Secret Ingredient made these possible—cup after cup, pound after pound, for thirty years.

PRIZES

Just write a letter of 50 words or less telling us why that Secret Ingredient is important to you. Enter as many times as you wish, but include with each entry any of the following: (a) 2 inches of metal opener strip from can; or (b) slogan "The Cup of Southern Hospitality" cut from jar label or paper package. Contest closes April 20, 1949. Judges' decision final. Winners announced May 24, 1949. All entries become the property of the sponsor. Mail your entry to Admiration Coffee Contest, Post Office Box 285, Houston, Texas.

P.S. The secret is in the cup. Buy a pound and try it!

Savings Bonds a Crop that Won't Fail Farmers

COLLEGE STATION — There's one crop that Texas farmers can always harvest, come rain, shine, flood, drought, insects or plant diseases. And that is United States Savings Bonds, says C. H. Bates, extension farm management specialist of Texas A. & M. College.

The 1947 income from farm marketings in Texas totaled almost two billion dollars, says Bates, and that's a lot of "lettuce." This figure was 74 percent above the 1945 income of 1,115 million dollars Texas received for crops and livestock.

Bates also has some figures on the influence of inflation, and what it means to Texas farmers and ranchmen to buy "E" bonds. Some of the nations economists expect our present 57-cent dollar to be up around the 62- to 65-cent value in buying power within less than five years.

Assuming this trend is correct, Texas farmers and ranchmen will likely find a good harvest in Savings Bonds. It's good business to salt away part of these earnings in government securities for at least two reasons: (1) By purchasing these bonds, the farmer is siphoning off money which would otherwise be bidding up prices, and (2) it builds up liquid reserves for more advantageous uses in the future.

These bonds offer a farmer a chance to hedge against possible reductions in farm income and land values, and, at the same time offers a rainy day reserve that is safe and interest bearing.

So, it's really a good way to safeguard your economic future, says Bates.

Social Hygiene Day February 2

AUSTIN — Throughout America men and women have become conscious of the necessity for fighting the menace of venereal diseases, and it is a matter of pride to public health workers that the entire nation now joins in the observance of National Social Hygiene Day, which in this year is dated February 2.

Dr. Geo. W. Cox, State Health Officer, states that at the present time three rapid treatment centers are being operated in Texas, located at San Antonio, Waco and Rocky Mount, and that a total of approximately 15,000 patients per year are being treated in these centers. Ninety-six venereal disease clinics are also in operation throughout the state, and these clinics as well as the rapid treatment centers are primarily for the treatment of indigent and semi-indigent persons referred by physicians or local health units.

In the past two years a blood testing survey of more than 80,000 Texans has disclosed that between seven and ten per cent of that number had positive tests for syphilis and that a large majority of them did not know that had the disease and had never had medical treatment for it. The vast reservoir of untreated syphilis is one reason for its continued spread, and it is a notable achievement in furthering public health that approximately 98 per cent of these persons have been brought under treatment so that they can no longer spread the disease. More than 43,000 contacts have been investigated and placed under treatment until no longer infectious. A

AIRLIFT TAKES SNOWFALL IN ITS STRIDE

Snowfall in Berlin doesn't prevent the Russian blockade city from getting its share of food and other needed supplies. Tempelhof Airfield is crowded with planes, most of

then airlift aircraft grounded only temporarily because of low ceiling. The supplies continue to pour in.

There is something the stockman can do, but not much. Cattlemen who have dealt with the disease think that lots of roughage in the diet works pretty well in preventing wheat poisoning. The type of roughage doesn't seem to be important. Feeding good quality minerals also helps in the prevention of this wheat region disease, says Dr. Banks.

Drouth Part of Twelve-Year Climatic Cycle

AUSTIN — The recent Texas drouth was part of a climatic cycle which can be expected to recur about every 11 or 12 years, says a University of Texas archaeologist who is interested in the relation between climatic change and human history in North America.

Alex D. Krieger, participant in a program on weather cycles at the recent Plains Archaeological conference in Lincoln, Neb., says drouths have recurred repeatedly for many centuries in the Great Plains states, and this information should be a sign-post to farmers to anticipate these changes in their crop planning.

He points to modern drouth periods in 1934-36, 1923-24, 1910-12, 1899-1901, and the 1880's as examples of climatic cycles which have had profound effects on American economy.

Establishment of the exact dates on climatic periods in North America during the past 25,000 years is one of the problems facing climatologists.

The archaeologist can date his finds through geological and other means, thus helping the climatologists.

ASTHMA
Don't let coughing, wheezing, recurring attacks of Bronchial Asthma ruin sleep and energy without trying MENDACO, which works thru the blood to reach bronchial tubes and lungs. Usually helps nature quickly remove thick, sticky mucus. Thus alleviates coughing and aids freer breathing and better sleep. Get MENDACO from druggist. Satisfaction or money back guaranteed.

ogist to determine the date of climatic periods which changed life on this continent during the past 25,000 years, Krieger says.

Roofs of any type — shingle, slate or tile — should be inspected for broken or loose pieces before cold, wet winter months set in.

Arthritis Pain

For quick, delightfully comforting help for aches and pains of Rheumatism, Arthritis, Neuritis, Lumbago, Sciatica, or Neuralgia try **Round**. Works through the blood. First dose usually starts alleviating pain so you can work, enjoy life and sleep more comfortably. Get **Round** at druggist today. Quick, complete satisfaction or money back guaranteed.

THE NEW FERGUSON TRACTOR

MORE POWER! MORE SPEEDS! GREATER ECONOMY!

Open the throttle of the new Ferguson Tractor under a full 2-plow load. You'll fully appreciate the responsive power that walks away with your work!

Stepped-up Power

There's no secret about what gives the new Ferguson Tractor improved performance. It's the combination of the genuine Ferguson System with a new, special-design, valve-in-head engine, product of Ferguson and Continental engine designers. With the Ferguson System to develop traction without excess built-in weight, plus this wonderful valve-in-head engine, you'll be amazed at the amount of work you can do with a gallon of fuel.

But stepped-up, valve-in-head engine power is only one of the reasons why you can save so much time, money and work with a new Ferguson Tractor!

So easy to use! The original built-in system of hydraulic implement control, both

Finger Tip and Automatic, with 3-point, one-minute attachment of Ferguson unit implements. 4 forward speeds. Front wheel tread adjustable without the bother of adjusting steering linkage. Automatic hydraulic overload protection if unit implement hits a solid, hidden obstruction. Individual turning brakes, plus a single pedal that brakes both rear wheels to stop the tractor without side pull. Tip-up hood to give instant accessibility.

But try it for yourself! We'll gladly show you the proof of the pudding, with a demonstration on your farm, at your own work. Just tell us a convenient day.

Powerful Fuel-Miser Valve-in-Head Engine
Exceptionally high torque at low engine speeds gives amazing lugging power—often lets you use third gear when you'd expect to need second. "Wet" sleeves fully water-jacketed, improved cooling fan, full pressure lubrication and precision manufacture—it's an engine built to take it!

PLENTY OF EQUIPMENT AND PARTS

We have a full line of Genuine Ferguson parts and also a full line of Ferguson Implements—Ask the man who has a Ferguson Tractor.

We also have several late model Ford Tractors for sale with full line of Equipment.

Department Store Sales Up 47 Per Cent in December

AUSTIN — December sales of Texas department and apparel stores climbed 47 per cent from November, the University of Texas Bureau of Business Research reported. This rise was slightly below the seasonally expected rise of 49 per cent.

Sales for December 1948 were up 3 per cent from a year earlier.

Following the seasonal trend, all Texas cities recorded November-to-December gains in department and apparel store sales. Increases ranged from 31 per cent in Plainview to 125 per cent in Cleburne. Other notable advances from the previous month were: Baytown, 84 per cent; San Angelo, 81 per cent; Corpus Christi, 80 per cent; and Temple, 59 per cent.

In comparison with December 1947, 13 Texas cities reported declines in department and apparel store sales. These setbacks ranged from a fractional dip in Plainview to a 16-per-cent drop in Orange.

On the other hand small increases over December 1947 were turned in by other Texas cities. Department and apparel stores in Tyler tallied a 13-per-cent rise; Temple's sales were up 11 per cent; Beaumont, 8 per cent; Baytown, Cleburne, and Denison, 7 per cent.

Department and apparel store sales for the year 1948 were 7 per cent higher than that reported for the year 1947. Houston made the best showing, with a 21-per-cent increase. Plainview, Tyler, and Abilene stepped up their sales 13, 12, and 10 per cent, respectively, during the 12-month period.

Credit sales in proportion to net sales in department and apparel stores averaged 59 per cent in December, as compared to 62 per cent in November, and 58 per cent in December 1947. The average collection ratio declined to 52 per cent from 54 per cent in November and 56 per cent in December 1947.

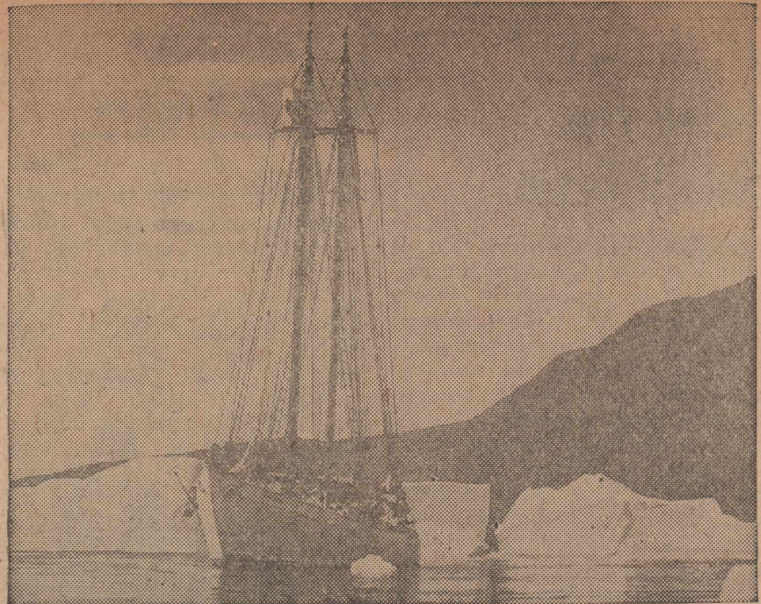

Silver Collection To Museum

CANYON—A large collection of rare and beautiful silver was given to the Panhandle-Plains Historical Museum January 1 by Judge James D. Hamlin of Farwell. Judge Hamlin has given numerous gifts of art to the museum in the past.

The exhibit will not be on display for several weeks until other exhibits are moved to make room.

The collection includes today ladies with whalebone handles, forks made in Dublin in 1790, marrow scoops, pistol handle knives and forks, muffinier for powdered sugar and other spoon sets.

There are two tall Sheffield candlesticks, a silver chamber candlestick, and snuffer and a Sheffield chamber candlestick and snuffer. Waterford glass of five pieces with stand dated London, 1784. Besides cream pitchers, tea caddy,

SEAGOING HYDROGRAPHIC OFFICE

Each month more than 2,000,000 charts roll off the U. S. Navy Hydrographic Office, giving detailed, vital data on the harbors and expanses of the seven seas. U. S. Navy ships are constantly charting new segments of the ocean, new ports of call, new reefs and channels. Not only the Fleet, but friendly mariners of many nations profit by charts. Above is the USS BOWDOIN, famous exploration ship formerly owned by Cmdr. Donald B. McMillan, Arctic explorer, which is still in active service for the Hydrographic Office of the Navy.

mustard containers and loving cup dated 1790; there are two a Burma Buddhist bell, 1700; vinaigrettes made in 1785 and 1730; wine strainers and doolers, snuff box, a Sheffield plate milk jug dated 1775.

Included in the donation was a collection of bells. One bronze bell, on a teakwood frame, was made of ancient metallic ore during the Han dynasty, 206 B. C. to 208 A. D. It was a temple piece for musical instruments.

Other bells in the collection are

an Egyptian cow bell dated 1500; dated London, 1790, there are two a Burma Buddhist bell, 1700; Spanish monastery bell, 1600; early Spanish monastery bell, 1500; bronze monastery bell from Flanders, 1520; Italian Renaissance ecclesiastical bell designed as a church steeple with a cross, 1450.

Witch-hazel, the North American shrub, derives its name from the use of twigs as divining rods—just as hazel twigs were used in England.

Spanish Gold Still Tickles Imagination

AUSTIN — A treasure in Spanish gold is still buried somewhere in West Texas, according to a legend recounted in the current issue of the Junior Historian by Frieda Lucas of Wichita Falls.

Writing for the magazine which

has publication headquarters in the Texas Historical Association offices at the University of Texas, Miss Lucas relates that many fortunes have been poured into a futile search for the \$50,000,000 worth of gold and other treasure, reportedly buried by the Spaniards between Clyde and Abilene.

The original story, according to Miss Lucas, states that leaders of a Spanish pack train transport-

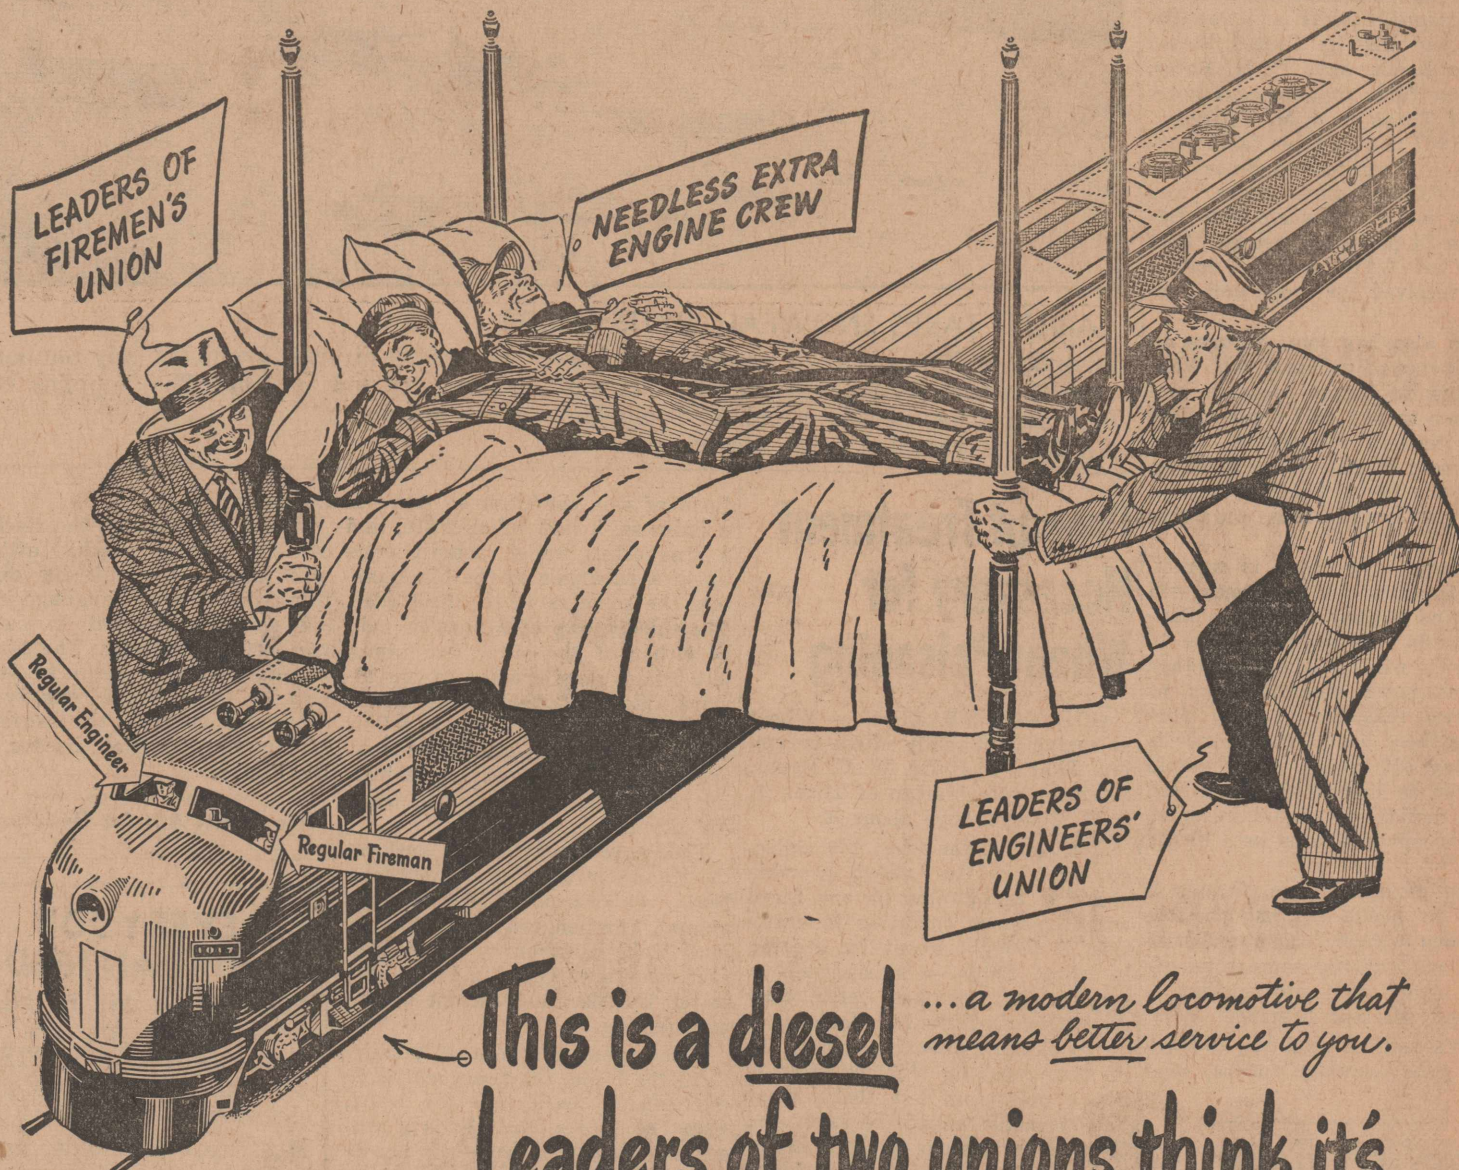

ing the gold to the coast, heard Indians were planning to attack them and buried the treasure.

The map indicating the treasure's location was sent to Spain where it was found many years later in a cathedral, and returned to Texas. As late as 1937 men were digging at the site where the treasure is believed to be buried, the young author writes.

Other contributors to the current

issue are from chapters in schools in Texas City, Fort Worth, San Marcos, Palestine, Baytown, Huntsville, Wichita Falls, Cuero, Dallas, Henderson, San Antonio and Iraan.

The largest bomber in the United States holds 21,760 gallons of gasoline — enough to take an ordinary automobile 13 times around the world and then through all the states in the Union.

● Leaders of unions representing railroad engineers and firemen seek to force railroads to add extra, needless men on diesel locomotives. This is sheer waste—a "make-work" program which would mean fewer improvements and higher costs—for YOU!

Railroads use modern diesel locomotives because they are one of the means of giving faster, better service to you.

Two men compose the crew of a diesel. They occupy a clean, comfortable cab at the front. The engineer handles the throttle. The fireman sits and watches the track ahead. With no coal to shovel, he has practically nothing else to do.

No Benefit To You

Now the leaders of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen want to use the diesel locomotive as a means of forcing a feather-bedding scheme on the railroads. The extra men they propose to add to the diesel crews are not needed. There is no work for them.

The union leaders are fighting among themselves about which union should furnish these extra, needless men. The Brotherhood of Locomotive Engineers have even threatened a strike. You may not be interested in this dispute of these two unions, but you would be vitally concerned if these groups succeed in putting through this feather-bedding scheme, because it would mean a slowing up of the improvement program of the railroads—of which the diesel is the outstanding symbol. Diesel crews are among the highest paid

railroad employees—real aristocrats of labor! Their pay is high by any standard. Granting of these demands, therefore, would mean that the railroads would be paying out millions in unearned wages to those in the very highest pay brackets.

We'd Like To Spend This Money On You

You know how much the diesel has meant to you in increased speed, comfort and convenience. The railroads have many more of them on order for even greater improvement in service to you. But needless drains of money, such as this present demand of the unions for needless men on diesels, reduce the ability of the railroads to spend money on better service for you.

Proud as the railroads are of the diesel, it is only a small part of their improvement program. Since the War, literally billions of dollars have been spent on improvement of

tracks and stations, on new passenger and freight cars, as well as on diesel locomotives, and on the many other less conspicuous details of railroading that contribute to improved service.

Feather-Bedding Means Less Service To You

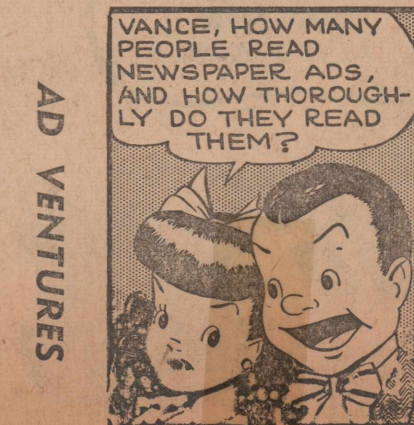

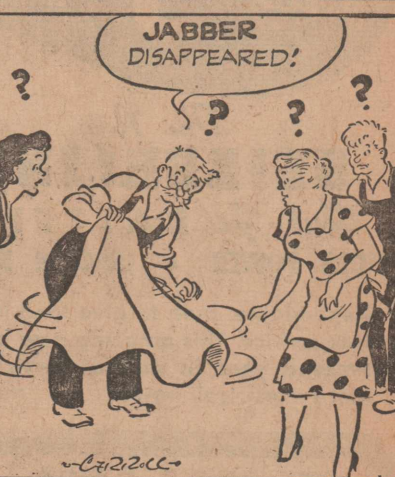

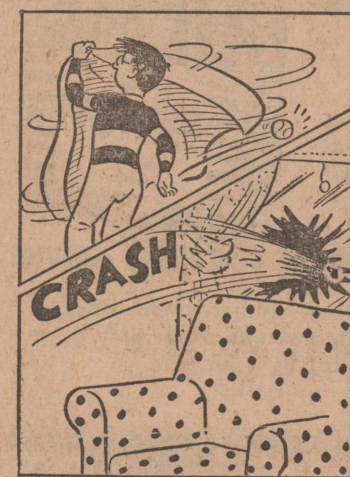

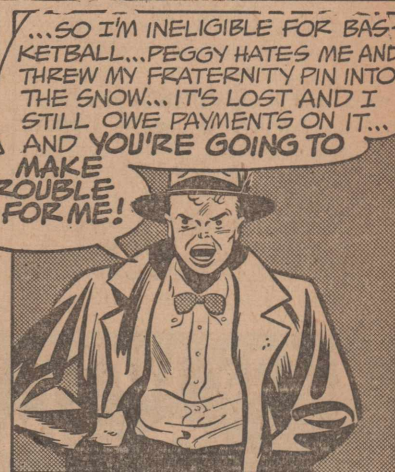

But brazen feather-bedding schemes like the one now proposed would, if successful, divert large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their operation prohibitive. These demands are against YOUR interests—as well as those of the railroads. They are schemes to "make work". Neither you nor the railroads should be forced to pay such a penalty for progress.

That's why the railroads are resisting these "make work" demands to the last ditch—and why they are telling you about them.

Editorial

A state-wide system of juvenile courts is proposed in the State Senate. The juvenile court, now tried and proved in most metropolitan areas, is a necessity in smaller communities. Delinquency, dependency and neglect among juveniles are not misfortunes solely of the city; the city, in fact, must handle many of these cases whose roots sprang in the rural community.

The Senate bill, introduced by Rogers Kelly, would merely recognize importance of such litigation and designate courts to handle it.

Setting up of such courts will have one particularly fine effect: There will be more specialists in child litigation. Courts which heretofore have not handled these cases will have to learn something about them. In turn, the community will become more aware of its responsibility.

It should be warned that the courts will be effective only if the judges are of the highest type, understand children and have a zeal for social betterment.

Need for juvenile courts obviously springs from neglect of children's problems. The problems are a result of many forces. Primarily, the 300 per cent increase in divorces since 1900—and its subsequent disruption of homes—is now being felt in the social fabrics.

A child neglected and dependent through no fault of his own needs help. He needs judicious help. Competent courts can give Texas undoubted service in this field, and they will be a solid investment in the future.

—The Dallas News

Buck Creek Philosopher

Editor's note: The Buck Creek Philosopher on his Johnson grass farm on Buck Creek is about half-way serious this week, his letter reveals.

Dear editor:

I borrowed a copy of a newspaper out of my neighbor's mail box Monday mornin and am almost ashamed of it due to the fact there wasn't enough news in it to justify makin my neighbor mad if he finds out I took it, although the way I see it he's already mad at me anyway and a few more degrees one way or the other won't make no difference, but since there wasn't anything else much in it to read I went thead and read the latest poll Dr. Gallup has taken.

I notice now that Dr. Gallup is takin polls on subjects considerably safer than elections, for example, he has recently taken a poll to find out who the ten most popular men in the United States are, and since this ain't subject to votin on, it's a entirely safe subject. I ain't no expert, but I got sense enough to know a smart poll taker will stick to unverifiable topics and come down with a bad cold just before time for polls on elections.

At any rate, I notice Dr. Gallup has now discovered that most folks is satisfied with their lot in life, which I could have told him without the expense of payin his poll-takers. They're satisfied, with a few exceptions. That is to say, most people are satisfied with the community they live in, even if they live in Shamrock, although some improvements in one or two neighbors could be made; most folks are satisfied with the house they live in, although this doesn't include my wife or very many other wives I know; most people are satisfied with the kind of education their children are gettin, although I ain't no authority on this and doubt if most folks know what kind of education their children are gettin, as so many of the folks I know ain't very educated themselves, don't make on difference if some of em did go through college; most folks is satisfied with the United States, although this of course don't take in Russia's feelin in the matter.

To tell you the truth, although Dr. Gallup is just spinnin his wheels goin to the trouble of tryin to prove it scientifically, this is a pretty satisfactory country.

Yours faithfully,
J. A.

Headline: "Italy's Largest Battleship Seized for Debts." Pity the poor finance company man who has to pick that one up.

Building Permits Drop in State During December

AUSTIN — Texas building permits fell 12 per cent from November to December, the University of Texas Bureau of Business Research reported.

Building permits in 54 Texas cities totaled \$26,971,401 in December, lagging 9 per cent from December 1947.

After adjustment for seasonal variation, the Bureau's index of building permits dropped 33 per cent from November to 417 per cent of the prewar (1935-39) base period.

Decreases from November were turned in by 28 Texas cities. Building permits dropped 86 per cent from the previous month in Borger; 83 per cent in Pampa; 82 per cent in Jacksonville; 81 percent in Corsicana; 79 per cent in Greenville; and 71 per cent in Brownsville.

On the other hand, building permits were more than double the November level in Lamesa, Paris, Denison, Lufkin, Nacogdoches, Tyler, Kenedy, Texas City, and Victoria.

toria.

During the 12-month period, building permits fell sharply in Texas City, Greenville, Corsicana, Brownsville, Galveston, and Borger. Declines from December 1947 ranged from 2 per cent in El Paso to 94 per cent in Texas City.

Counter to the downward movement, outstanding gains over the year were registered by a number of Texas cities. Paris stepped up building permits almost twelve fold, for the best record in the State. Permits more than tripled

the December 1947 level in Denison, Lufkin, Childress, Gladewater, Del Rio, Midland, and McAllen.

Continuing to lead the State since July, Houston's building permits totaled \$7,886,950 in December. Permits totaled \$2,658,083 in Fort Worth; \$2,566,606 in San Antonio; and \$2,496,568 in Dallas.

NEW RELIEF! WHEN COLDS CAUSE

Croupy Coughs

VAPORUB STEAM
Brings relief with every breath!

Mother, you know what wonderful relief you get when you rub on Vicks VapoRub! Now...when your child wakes up in the night tormented with a croupy cough of a cold, here's a special way to use Vicks VapoRub. It's VapoRub Steam—and it brings relief almost instantly! Put a good spoonful of Vicks VapoRub in a bowl of boiling water or vaporizer. Then...let your child breathe in the soothing VapoRub Steam. Medicated vapors penetrate deep into cold-congested upper bronchial tubes and bring relief with every breath!

VICKS VAPORUB

Maybe you're the "slow" one!

Have you been a little slow about giving your engine the extra protection it needs for winter-weather driving? It's easy to change now to winter-grade Conoco Nth Motor Oil and the extra protection of an engine that is OIL-PLATED!

Because free-flowing Conoco Nth actually fastens extra lubricant right to cylinder walls. This extra OIL-PLATING protects working parts from winter's grinding "dry-friction" starts... from metal-eating combustion acids... and from power-robbing sludge and carbon due to wear.

So stop trouble before it starts...

Oil-Plate for Extra Protection!

Curtain Goes Up on the Silver Streak Pontiac

Jack Gibson of Gibson Motor Company has returned to Wellington after attending a dealers' preview of the new 1949 Pontiac Silver Streaks in Oklahoma City, Oklahoma.

Following the meeting, veteran Pontiac factory officials said that the enthusiasm of dealers for the new cars here and elsewhere where similar meetings are being held is greater than for any other new model Pontiac has ever produced. Dealers clapped, whistled and cheered when the curtains went up on the new Silver Streaks.

More than 150 dealers from this area saw the new cars for the first time and attended a day-long sales meeting conducted by Dan O'Madigan Jr., Assistant General Sales Manager of Pontiac Motor Division.

Using elaborate slides, stage props, movies and skits, department heads from central office presented the latest dealer programs covering merchandising of parts, accessories, service and used cars. Presentations also were made on

local advertising, promotion and customer good will.

Mr. O'Madigan revealed to dealers that the 1949 Pontiac Silver Streaks feature two completely new and distinct lines of cars. Entirely new to Pontiac is the Chieftain line, which is functional in design and of the notch or bustle back type.

Its companion is the new Streamlines series, an up-to-date version of the slant or fast back type made popular by Pontiac. Both body styles are mounted on a 120-inch wheel base. The former Torpedo series has been discontinued.

Pontiac will make 10 body styles for 1949 and, with the exception of the convertible (Deluxe only) and the swank new sedan delivery (Standard only), all will be available with either standard or deluxe equipment.

Pontiac production for 1948 totaled 245,000 cars, the division's third best year. Mr. O'Madigan said he expected 1949 production to exceed this figure, but was unable to estimate the percentage of increase.

County Men Enlist In Army, Reserve

Two Wellington men have applied for service in the United States Army through the Amarillo Army Station, it was announced there Tuesday. Two additional county men were accepted for duty in the Organized Reserve Corps.

Men entering the Army were Billy L. Hays and Lloyd Sutton, both of Wellington.

Accepted for duty in the Reserve Corps were M. K. Anthony, Wellington, and Guy W. Owens of Quail.

Hoblitzelle Heads State Cancer Drive

HOUSTON — Karl Hoblitzelle of Dallas, president of Interstate Theaters, Inc., and widely-known Texas philanthropist, will serve as 1949 campaign chairman for the American Cancer Society, Texas Division.

His selection was announced at the Society's Texas headquarters here by Tom E. Braniff of Dallas, chairman of the board of directors.

Mr. Hoblitzelle heads the annual cancer control month in Texas, the month of April. It is set aside by act of congress for a special educational and fund raising effort.

Accepting the chairmanship, Mr. Hoblitzelle said that the Texas Society's program is in itself proof of a job well done.

"In the brief life of this humanitarian organization we have seen it develop into one of the state's most worthwhile endeavors," he said. "Through the activities of its members more and more cases of cancer are reaching the doctors while in earlier, and very often curable, stages.

"I shall urge upon every Texan the necessity for membership in the American Cancer Society, and for donations of effort and of money in order that true facts about cancer may be placed within the reach of everyone in our state."

The cancer society seeks to control cancer through programs of education, service, and research. Sixty per cent of all money raised for it in Texas remains in the state for use in local and statewide projects, Mr. Braniff said.

Now is the time to build for those dreams of tomorrow. Buy U. S. Savings Bonds.

An Indian skeleton found near Leander has been given to the University of Texas and will be placed in its anthropology museum.

Don't Wait for Construction Drop

COLLEGE STATION — Don't wait. Do it now.

That's the information W. S. Allen, extension agricultural buildings engineer of Texas A. & M. College, has for the folks who are waiting for construction costs to drop back to normal.

There just isn't much chance that will happen, says Allen. Fact is, construction costs have continued to rise slightly in recent months, but appear to be leveling off right now. House building fell off during the late summer, but has picked up a little the last month. Farm building, on a national scale, continues at a faster pace than was predicted earlier in the year.

Prewar building costs are just history now. It's not likely that folks will see them again in any period ahead for which they can plan. In short, for those holding off to build, Allen can give little or no encouragement to wait.

There's a reasonably good supply of lumber, both in quantity and quality. Hardware, plumbing and nail supplies vary with different localities. But when a little planning ahead is done, these materials can usually be had. Cement supplies are short right now, but more is expected later on.

There's a need to think in terms of structures for production during 1949. Forecasts believe there will be a shortage of grain storage, and in order to make the most of continued high prices, there's going to be a big need for broiler houses, laying houses, milk sheds, and dairy barns.

The farm home is just as big a part—if not the most important—of the farm production plant as the farm building, reminds Allen.

So now is as good a time as any to build up the farm production plant.

Prices aren't going down — just yet, anyway.

Announcing the 1949 PONTIAC *Now on display*

The Finest of all New Features in the Smartest of all New Cars!

We extend to you and your family a most cordial invitation to come in and see the great new 1949 Pontiac! Definitely and decidedly, it's the finest, most beautiful Pontiac we have ever been privileged to show. You will admire everything about it: the flashing smartness of its completely new *Bodies by Fisher*—its many new features—its fine performance. Here's a *real step forward* in the motor car world . . . one that you should see *without delay!*

PONTIAC—Division of General Motors

Jack Gibson Motor Co.

903 East Ave.

Wellington, Texas

SEE THE NEW PONTIAC ON DISPLAY FRIDAY FEB. 4

1. THE YEAR'S OUTSTANDING BEAUTY
2. LOWEST PRICED CAR WITH GM HYDRA-MATIC DRIVE
Optional at additional cost
3. COMPLETELY NEW BODIES BY FISHER
4. WIDER SEATS—ADDED ROOM
5. WIDE, EASY-ACCESS DOORS
6. NEW WIDE-HORIZON CURVED WINDSHIELD
7. SAFE-T-NEW DRIVER VIEW
8. NEW DIAL-CLUSTER DASH
9. EXCLUSIVE TRAVELUX RIDE
10. NEW FINGER-TIP STARTER BUTTON ON INSTRUMENT PANEL
11. NEW HEATING AND VENTILATING SYSTEM
12. CARRY-MORE LUGGAGE SPACE
13. NEW LOW-PRESSURE TIRES, 15" WHEELS AND WIDER RIMS
14. PONTIAC FAMOUS IMPROVED STRAIGHT EIGHT AND SIX CYLINDER ENGINES

Mixing Old Feed With New Prevents Colic in Horses

COLLEGE STATION — Most of the time it's pretty easy to spot a horse that has colic.

A horse affected by colic may throw itself around rather violently. The animal often shows signs of sweating, anxiety and paws the ground. Usually the horse lies down and is up again in a matter of only several minutes. This means he's pretty uncomfortable in any position. Sometimes the horse will roll over on the ground. But whatever the symptoms are, colic in horses is a pretty serious thing, says Dr. W. C. Banks, extension veterinarian of Texas A. & M. College.

Probably the biggest cause of colic is sudden changes in feeding. For example, at haying time, the farmer may feed his horses the old hay before allowing them to have the fresh, green hay. Or the stockman may feed his whole supply of thoroughly cured oats before changing over to his new supply of freshly cut oats.

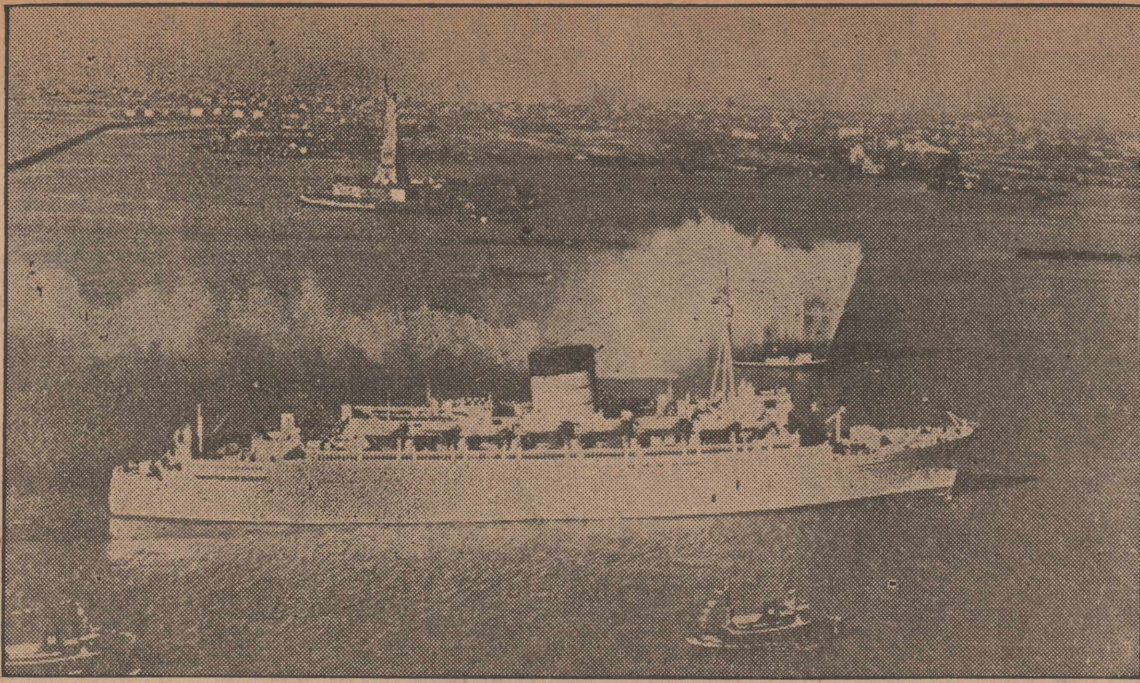

Either way, there's a good chance such a practice will bring about colic. It's best to mix up the old and new feed supplies — whether it's hay or grain — for five or six days before the switch-over, says Dr. Banks.

Sour, moldy, frozen hay, or hay that has not been properly cured are good examples of feed that might easily give horses colic. Also, if horses go too long without feed, then get all they want at one time, check closely for signs of colic. The same thing goes for water, too. If a thirsty horse gets too much cold water — or water that is too cold — it will upset his digestive system. This horse is just about number one in line for colic.

There are several ways of preventing colic, says Dr. Banks. The first is to feed good hay and grain. Feed regularly, and avoid sudden changes in feeding habits. Mix the old and new feed supplies, and provide water that is cool in the summer and moderately warm in the winter.

If one of your horses does get colic, it's a job for the veterinarian, says Dr. Banks.

Go slowly and watchfully — give them a BRAKE!

LUXURY LINER COMPLETES MAIDEN VOYAGE

The Cunard White Star Line's newest luxury liner Caronia, escorted by tugs and saluting fireboat, sails past the Statue of Liberty into New York harbor, completing her maiden trans-Atlantic voyage from Southampton, England. The Caronia, largest vessel built since the war, boasts the largest stack in the world and a hull painted in three shades of green.

in 1947 and 318 in the past year. These typhoid cases could also have been prevented by immunization.

The results of malaria and typhus control work throughout the State is reflected in the total number of cases for 1947 and 1948. Malaria dropped from 4,729 to 3,577, and typhus was cut nearly in half with the total falling from 610 to 344.

Dysentery continues to be a serious problem in public health in Texas. The incidence of this disease jumped from 15,863 in 1947 to 20,920 during the past year. Influenza dropped off from 116,564 to 76,823, and mumps was reduced by nearly half, from 17,202 in 1947 to 9,893 in the past year.

Dr. Cox emphasized that while there are many diseases like poliomyelitis against which there is no specific protection, it is a tragic mistake for any person to be allowed to have diphtheria, smallpox or typhoid fever, when he can be completely protected through the simple means of immunization.

Blackhead disease was the cause for the shifting of the turkey industry from the eastern to other sections of the United States.

Turkey poult should be fed as soon as they are dry and able to walk well.

Letters From The PEOPLE

Mr. Deskins Wells:

I know my subscription is about out and I don't want to miss a copy. I have got to hear from Wellington and I think the Well-

ington Leader is the best way to get the news, so I am sending you \$3.00 for one year.

I'll be looking for the paper every week.

Very truly,
Mrs. A. F. Scott,
Arlington, Texas
Route 3, Box 71-C

A 10 per cent cut in your pay right now could be met by reductions of your living budget, but how in the world can your widow take a 100 per cent cut.

1948 Top Year for Museum Visitors

CANYON — More tourists thronged through the Panhandle-Plains Historical Museum during 1948 than in any previous year, announced Boone McClure, assistant curator. The 50,677 visitors last year brought the total of persons registering at the museum since its opening to 539,704.

Texans led the parade with a total of 44,532 persons. Oklahoma ranked second with 1,132 and New Mexico had 817. Other states represented with more than 100 visitors show California, 478; Kansas, 346; Illinois, 315; Missouri, 307; Colorado, 192; Arkansas, 184; Nebraska, 146; Iowa, 140; Ohio, 127; Indiana, 124; Louisiana, 120; and Michigan, 102.

August was the best month for visitors with 6,092. May tourists registered to the tune of 5,831; April had 5,517 and July saw 5,274 visitors. Other monthly totals are: March, 4,628; October, 4,466; June, 4,365; September, 4,250; February, 4,183; November, 2,774; December, 2,195 and January, 2,052.

Attendance at the museum has grown from 22,767 during 1933 after it opened in April, to the pres-

Health Hazards Drop in 1948

AUSTIN—Every citizen of Texas should be greatly interested in the over-all health picture in the State as indicated by the morbidity report just released by Dr. Geo. W. Cox, State Health Officer, showing the year's totals on communicable disease.

Comparing the 1948 figures with the totals of 1947, a great reduction is shown in some of the major health hazards. For instance, in 1947 there were 1,125 cases of diphtheria, while in 1948 the total had dropped to 924. This was 924 cases too many, since none of them need have occurred if the persons had been immunized. This same statement applies to smallpox, in which the total dropped from 15 cases to 4. Vaccinations would have prevented the incidence of even one case of smallpox. Typhoid fever

ent total of more than 50,000. Other yearly totals are: 1934, 29,355; 1935, 26,299; 1936, 36,104; 1937, 27,806; 1938, 30,672; 1939, 36,849; 1940, 39,787; 1941, 40,330; 1942, 26,618; 1943, 25,698; 1944, 27,413; 1945, 35,266; 1946, 39,617; 1947, 44,507.

remained at a comparative standard, with 317 cases being reported

1/5 KEVA's Time Belongs to WELLINGTON

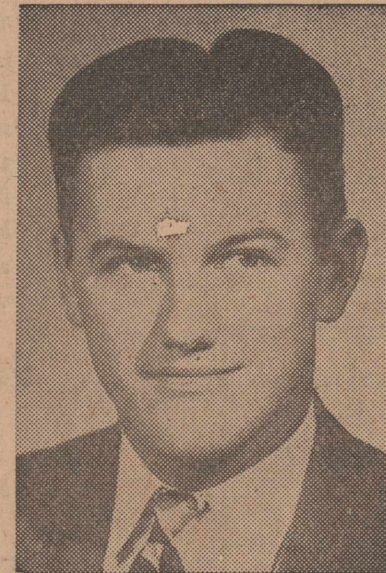

Radio Station KEVA hit the airwaves on a frequency of 1580 on January 20 as "The 5-Town Station"—to serve the interests of WELLINGTON, McLEAN, WHEELER, ERICK, and SHAMROCK.

KEVA blankets the area served by Wellington—30 miles or more in all directions. We want to serve your needs.

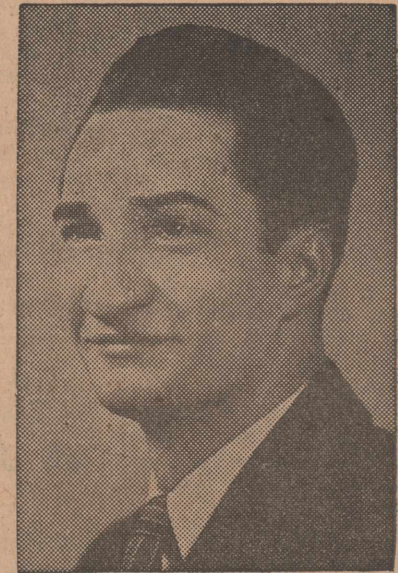

Write or Call Radio Station KEVA, Shamrock, for commercial rates or information about the many free program services available in the public interest.

SCOTT FARMALL TRACTORS INTERNATIONAL TRUCKS TRUCK & TRACTOR CO. Wellington, Texas

● John Brim was in last week and bought a fertilizer box which he aims to put on his planter. John is a strong believer in soil conservation and practices it. He has observed neighbors who found the use of fertilizer increasing their crop yields and will add this to his other modern farm practices. These fertilizer boxes are cheap and I don't make much off the sale of them, but I have yet to talk to a man who tried using fertilizer without good and profitable results. If fertilizer pays the farmer, then it's good for the whole community.

● We were called out a few miles on the Dodson highway the other day to do some work on the D30 International truck belonging to Clark Bumpass of near Shamrock.

● Pat Bradley was in the store the other day after some more tractor parts, and I enjoyed a pleasant and instructive half hour in conversation with him. I wonder sometimes if all of us in this territory adequately appreciate having so many 1949 model cattlemen and farmers among us. These are the men who, more than any others, are responsible for the prosperity we have enjoyed and hope to continue to enjoy.

● G. K. Patterson brought his International truck to the shop the other day for a small job, and Truman Estes had his KB-5 here for tune-up during last week.

● A. F. Knoll, C. A. Amerson, Lee Minyard, E. W. Carter, Sr., Floyd McIntush, Jim Langley and several others were in the store, or sent in after tractor parts the last few days.

● Palo Cummings was in Saturday after some parts for a row binder. If you want to know why he was buying binder parts this time of the year, better ask him.

● Denny Judd has found the weather a little rough for trucking, but came in the other

Here is the picture of a Farmall Cub tractor working in a bean patch. The Cub hasn't been out very long and not many of them have come into this country, but Joe Baumgardner is finding it useful for a lot of jobs around his farm as extra power. Lots of other large-scale farmers would find the Cub a profitable investment, and there is no better tractor on the market for the man who is farming small acreages of 30 or 40 acres or less.

day to buy some tire chains, which, I hope, made the going a little easier.

● R. E. Bradley and Mr. Cunningham of the Quail schools, have been in several times the last few days after parts for their International busses. Mr. Bradley says they are operating 13 busses from Quail this year. He didn't say so, but I know that must be a big job for somebody, keeping that many on the road, considering the roads most of them have to travel over, and the weather we've had lately.

● Ira Page bought a new hydraulic power lift attachment for his Farmall F30 last week. Which brings to mind what I consider the best recommendation there is for Farmall tractors—the number of old, old models which are still on the job. No farmer can afford to operate a tractor which has a useful life of only five or six years—and there are several Farmalls right around us which have made twenty or more crops and are still going.

● We have on hand now some equipment which has been scarce in the past, some which is still scarce, and some which never has been scarce.

2-row tool bar type listers for Farmall H and M.

2-row Cultivators for Farmall H and M.

Fertilizer attachments.

14-inch Lister Bottoms.

Chisel teeth to make tool-bar listers into chisel plows at low cost.

Easy-ride Hydraulic Tractor Seats.

Hammer Mills.

4-wheel rubber tired trailers.

Tractor-mounted chisel plows. 4-row tractor mounted stalk cutters.

Used Farmall Regular with equipment—a good extra tractor for the man who needs one occasionally.
