College Returns

Dr. Dawson DeViney (left), administrative dean at Howard County Junior College, turns over the 100 per cent report for the United Fund to Dr. W. A. Hunt, college president. Dr. DeViney said every employe and faculty member of the college participated in the college's UF campaign. (Photo by Danny Valdes)

Dominican In Upheaval

SANTO DOMINGO, Dominican Republic (AP)—Members of the Dominican Republic's shaky provisional government appeared today to be nearing a showdown over whether to fire the top leaders of the armed forces.

The danger of more large-scale violence was believed ruled out by the presence of the 10,000-man Inter-American Peace Force patrolling the capital.

SERIOUS SETBACK

But there was a possibility that the long and costly rehabilitation program for the country might be dealt a serious setback if President Hector Garcia-Godoy was forced out by the crisis. Then the Organization of American States would be faced with the task of creating a new provisional regime.

The prevailing view in influential circles was that the major portion of Garcia-Godoy's Cabinet, sympathetic to the rebel cause, would resign if the president did not immediately fire the armed forces secretary, Commodore Francisco J. Rivera Caminero, and the chiefs of staff of the army, navy and air force.

HOLDS OFF

The president was reported unwilling to take this decisive step because the U.S. government and the OAS had made clear that they considered such action undesirable at this time. Garcia-Godoy reportedly does not wish to alienate the only source of badly needed economic support for the country, which is on the brink of bankruptcy.

Rebel sympathizers charge that the military chiefs ordered indiscriminate bombing of Santo Domingo's civilian population in the early days of the April revolt.

DENY CLAIM

The military leaders deny this and fear their ouster would pave the way for extreme leftists to take over the armed forces.

This fear has chilled relations between the president and the military, which considers that Garcia-Godoy picked a Cabinet that is oriented too much toward the rebels.

GIVE THE UNITED WAY

Stocks Pushing Further Into Record High Ground

NEW YORK (AP)—The stock market widened its gains early this afternoon and pushed further into record high ground under the leadership of steels and other heavy industrials.

Trading was very active.

The Associated Press average of 60 stocks at noon was up to a substantial gain of 2.4 at 355.0 with industrials up 3.5, rails up 1.0 and utilities up 1.3.

Steels were inspired by U.S. Steel's report of a jump in profits.

Record sales and earnings by General Motors spurred the entire automotive group.

Chemicals, rails, building materials, utilities, electronics, office equipments and aerospace issues joined in the advance.

The Dow Jones industrial average at noon was up 614 to 962.46.

U.S. Steel and Jones & Laughlin were up more than a point each.

GM touched another new high but it was content with a fractional gain.

Huddles Hint Racial Protest In Dixie Spots

ATLANTA, Ga. (AP)—A series of conferences behind closed doors in Atlanta set the stage for possible new racial demonstrations in the South and what could be a solution to the school desegregation problem in Georgia's Taliaferro County.

Dr. Martin Luther King Jr. cut short a European tour to return to Atlanta Tuesday because, he said, he was "outraged at the acquittal of Collie Leroy Wilkins in Hayneville, Ala."

EUROPE REACTION

The Negro integration leader reported a similar reaction in Europe to the jury's verdict last Friday in the case of the 22-year-old Ku Klux Klansman charged with the slaying of Mrs. Viola Liuzzo, a Detroit civil rights worker.

"It appears urgent that the civil rights movement must voice all its influence in insisting on the proper administration of justice," King said. "I think it necessary to dramatize what has happened at a very high level and Hayneville occupies a symbolic position."

PLAN PROTESTS

Then he met with his aides in the Southern Christian Leadership Conference to plan the demonstrations.

SCLC members have been active recently in demonstrations protesting school segregation at Crawfordville, Ga., the Taliaferro County seat.

McNamara Denies Talk

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara has relayed a denial: he hasn't talked with President Johnson about resigning.

The statement came after a syndicated news column reported Tuesday that the Defense Department chief had told the President he planned to return to private life by the end of the year.

Assistant Secretary of Defense Arthur Sylvester conferred with McNamara.

He reported: "Mr. McNamara told me he never has had any such discussion with the President."

Other McNamara associates insisted that the secretary plans to stay on the job as long as the President wants him.

Money Released For Webb Jobs

The Air Force is authorizing its construction agent, the Army Corps of Engineers, to proceed with procurement for four jobs at Webb AFB, Rep. George Mahon advised Wednesday.

Funds in the amount of $1.2 million will be released in the near future for the work.

Included in the work will be a flight training facility, ware house conversion, provision for additional bachelor quarters, and a non-commissioned officers open mess.

CAPT. O'BRIEN'S WIDOW

Friendship, Comfort Remembered Generously

A young woman who suffered tragedy in the loss of her husband in a military aircraft crash has remembered in a generous way the friendship, help and comfort she found among friends in Big Spring and at Webb Air Force Base.

KILLED IN CRASH

Last Armed Forces Day, May 11, Capt. Michael O'Brien, stationed at Webb, met death when the T-38 in which he had appeared in air maneuvers at Duluth AFB, Minn., crashed as he and a fellow pilot took off for a return to Big Spring.

He left the widow, Felicia, and six boys (including twins) ranging in ages from five years to five months.

Mrs. O'Brien remained here at 2707 Carol, for some time after the tragedy, has since moved to Tempe, Ariz., where she has established permanent residence.

This week, her local attorney received a check for $300, to be forwarded to the Howard County Rehabilitation (Crippled Children's) Center. With it, her letter said:

"I have racked my brain as to how, in some small way, I could repay all of you in Big Spring and at Webb for the many nice memories I have of Big Spring. If it helps just one of you, I will consider it a very worthwhile memorial to my husband."

ARMED FORCES DAY

Capt. O'Brien had been in maintenance check flight at Webb, having come here in February, 1965. He and Lt. Francis Hunn had gone to Duluth to appear in the Armed Forcse Day demonstration. Both were killed when their T-38 dropped shortly after takeoff. Capt. O'Brien's parents, Mr. and Mrs. Ray O'Brien of Cohasset, Minn., were in the crowd and witnessed the tragedy.

Card Destroyer Admits It, But Pleads Innocent

NEW YORK (AP) — David J. Miller, 22, publicly admitted today that he burned his draft card, but pleaded innocent of a federal charge that he did.

As he arrived at the courthouse here, the slender, red-haired Miller handed a reporter a typewritten statement attacking the draft, U.S. involvement in Viet Nam and the draft card mutilation law itself.

Loudly and firmly, Miller pleaded "not guilty" after the one-count indictment was read.

U.S. Dist. Judge John M. Cannella freed him in $500 bail pending trial.

Men Over 26 Not Likely To Be Inducted

WASHINGTON (AP) — The deputy director of the Selective Service said today that men over 26 have little to fear from the draft at this time — the bumper crop of postwar babies is filling the bill to a great extent.

"Under present circumstances, I don't anticipate that we'll be getting into men over 26," Col. Daniel O. Omer said in an interview. "Right now about 150,000 to 160,000 youths a month are coming into their 19th birthday, and this year about 2 million men will reach the age of 18."

BE ELIGIBLE

Under present law, youths under 19 cannot be drafted. But Omer estimated that about 30 per cent, or 600,000, of the 2 million 18-year-olds will be eligible for induction next year. About 40 per cent will be excused because of school, he said.

As for the 19-year-olds, Omer said that a large number of them will enlist.

"Always when draft calls are high, enlistments are up," he said. "Right now enlistments are good.

33,000 ENLIST

"Last month we had calls for 27,000 men, and 33,000 men enlisted after they were examined and found acceptable."

Because of the great number of volunteers, he said, "we missed our call by a few men — about 500.

"So we sort of feel that we were responsible for getting many men into the service who probably would not have enlisted if they hadn't known the call was large and they were acceptable."

MARINE VOLUNTEERS

Gen. Wallace M. Greene Jr., Marine commandant, said Tuesthat the Marine Corps may be able to eliminate part of its draft calls because of increasing volunteers.

In a talk at Los Angeles, Greene said the corps hopes to increase its manpower by 30,000 men within the next five months.

Selective Service officials revealed Tuesday that the ban against drafting childless men who were married before midnight Aug. 26 had been lifted, enabling local draft boards to meet the recently increased manpower quotas.

President Johnson's announcement of the Aug. 26 cutoff date, made that afternoon, precipitated a rush to the altar by many young couples hoping to beat the draft.

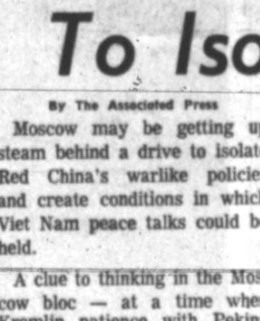

Rebuffs Given Peking Cited

DALLAS (AP) — Red China has been revealed in the eyes of the world as a militant power and is being rejected by nearly every other country, Secretary of State Dean Rusk said Tuesday night.

Speaking at Southern Methodist University to a crowd estimated by police at 8,500, Rusk said that "those that want a totalitarian existence are being rebuffed" by nations on every continent.

"Freedom is deeply in the nature of men," he said.

America's commitment to maintaining the freedom of Southeast Asia's people is the primary protection of peace in the world, Rusk said. Since World War II, he said, every president has considered Southeast Asian security as essential to the Free World.

AFAS

The Air Force Aid Society is the official emergency financial assistance organization of the Air Force. It provides funds to meet temporary emergency needs when Air Force personnel cannot get such assistance from other sources. This agency, one of the 14 in the United Fund family, works with the Red Cross in helping Webb personnel and their families. Last year, the society made loans totaling $2,674.87, in addition to one grant of $75.

Airliner Disaster Claims 36 Lives

A Hit By The Cong

An American-style helmet, with Vietnamese Ranger's camouflage, rests on the ground outside the Plei Ma camp in Viet Nam. The holes, top and through the other side at bottom, testify to the hazards of sniper fire by the Viet Cong as the Rangers went on patrol outside the post. (AP WIREPHOTO)

LATEST PEACE HOPE

Red World May Try To Isolate Red China

By The Associated Press

Moscow may be getting up steam behind a drive to isolate Red China's warlike policies and create conditions in which Viet Nam peace talks could be held.

A clue to thinking in the Moscow bloc — at a time when Kremlin patience with Peking seems near the breaking point — came in a broadcast from Czechoslovakia. It contained one of the most outspoken condemnations of China's Viet Nam policy from a Communist source and carried a hint of division in the Viet Cong leadership over peace talk demands.

SEEN OFFICIAL

The broadcast concerned a statement in Finland last week by the Moscow representative of the National Front for Liberation of South Viet Nam — NFLSV — the Viet Cong's political front. It came at a time when an international Communist meeting was in session in Prague, and it is unlikely that it could reflect anything but an official view.

The Prague version of the Viet Cong representative's remarks to a group of students differed to a degree from a report carried by Helsinki newspapers. The difference was one of shading — perhaps indicating wishful thinking.

"NOT WARM"

According to the Helsinki papers, he said "relations between China and the Viet Cong are not very warm, even now." In this version he repeated Communist demands that the Americans withdraw completely from South Viet Nam and end raids on the North as preconditions for talks. Then, when asked if U.S. withdrawal was a fixed precondition, he replied: "It does not matter if they are there or not, as long as they accept our final conditions."

The Prague radio's version went this way:

"Nguyen Van Dong, NFLSV representative in Moscow, said that relations between the Viet Cong and People's China now are considerably strained. The Viet Cong, in his words, has no definitive claims under which the United States would have to withdraw its units from South Viet Nam before it would be possible to start peace talks. The Viet Cong only insists that the United States must recognize the NFLSV as a partner in the talks."

EASED DEMAND

This seemed to lift the precondition of U.S. advance withdrawal and limit the Viet Cong demands to a seat at a conference table, rather than recognition as South Viet Nam's only legal representative, as Hanoi and Peking have insisted.

The way Prague quotes the NFLSV representative, there is a hint of division in the Viet Cong ranks and probably in Hanoi, which fathered the liberation front. It also adds substance to a growing impression that Peking is becoming more and more isolated in the Com-

Two Held In Torture Death

INDIANAPOLIS, Ind (AP) — A mother of seven children and a 15-year-old neighbor boy were held today on preliminary charges of murder in the torture death of the 16-year-old daughter of a carnival family.

Homicide Detective Sgt. William Kaiser said the words, "I am a prostitute and proud of it," had been scratched on the abdomen of the girl, Sylvaia Marie Likens, with a needle and that she had been beaten repeatedly.

Mrs. Gertrude Wright, 37, with whom the girl had been left while her parents were traveling, insisted the girl stumbled into the backyard of the Wright home here Tuesday night and said she had been attacked by a gang of boys.

But Sgt. Kaiser said Richard Hobbs, the neighbor boy, related a gruesome story of Miss Likens being imprisoned in the Wright basement for a week and repeatedly beaten with a poker and curtain rods while filth was rubbed on her face.

Death was attributed to a head injury after police were called Tuesday night and Dr. Arthur P. Kebel, deputy coroner, conducted an autopsy.

The girl's parents, Mr. and Mrs. Lester Likens, were notified and were reported flying back from Florida.

London Fog Blamed In Fiery Deaths

LONDON (AP) — A British domestic airliner exploded in flames on its third attempt to land in shifting fog at London Airport early today, killing all 36 persons aboard.

"We could see a sheet of flame which seemed to stretch the length of the runway," said one airport employe. "We could see people among the flames but they were obviously dead."

The plane, a four-engine Vanguard turboprop designed to carry 139 passengers, was landing at 1:23 a.m. after a flight from Edinburgh, Scotland. Operated by British European Airways, it carried 30 passengers, one a child, and a crew of 6.

BODIES RECOVERED

The airline said it was believed all aboard were British. Four hours after the crash all the bodies had been recovered.

It was the first fatal crash for a passenger-carrying Vanguard, which since 1961 has been BEA's workhorse on domestic routes. The deaths also were London Airport's first passenger fatalities in almost 15 years. A BEA twin-engine Viking from Paris crashed and killed 28 persons Oct. 31, 1950. That crash also occurred in fog.

Airport officials said visibility on the runway at the time of the crash today was 500 yards. As fire engines and ambulances raced out, it closed into less than 100 yards and sometimes to zero as fog patches rolled over the No. 1 runway.

FULL POWER

The airline said the pilot had made two previous attempts to land, and just before the crash was heard to turn on full power, apparently trying to get airborne again.

John Dabbs, working at an airport service station, said he heard the impact and saw a huge orange flame light the sky.

"Then I saw the plane coming along the runway from the east, breaking up and exploding as it went," he said.

"Seats and bodies were scattered all over the runway. Then the wings broke off.

"Finally the nose ended up in some buildings at the end of the runway."

The Ministry of Aviation ordered an inquiry.

Brazilian Military Courts Given Sweeping Powers

RIO DE JANEIRO, Brazil (AP) — The Brazilian government today abolished all political parties and gave military courts sweeping powers in a decree after Congress refused to act on the executive program.

President Humberto Castello Branco told the people the step was necessary because the nation needed to get on with a program to bring it back from the brink of economic chaos.

NEW ACT

Castello Branco is empowered to declare a state of siege and rule by decree up to 180 days under a new institutional act superseding portions of the constitution. He can grant military courts jurisdiction over cases heretofore limited to the Supreme Court.

Congressional backers of ex-President Joao Goulart, the leftist thrown out by the military in April 1964, and ex-President Juscelino Kubitschek refused to go along with the government program laid before Congress. Most of the program was incorporated in today's act.

LBJ Signs Water Bill, Rusk Visits

JOHNSON CITY, Tex. (AP) — A visit to President Johnson's ranch by Secretary of State Dean Rusk shared center stage at the Texas White House today with the $2-billion rivers and harbors bill.

He signed the bill today.

Rusk flew to the LBJ Ranch, 15 miles west of here, late Tuesday night after addressing a Southern Methodist University audience in Dallas. Spokesmen said no emergency was involved in his meeting with Johnson — that Rusk just happened to be in the neighborhood and was asked to drop by.

Johnson spent a quiet Tuesday at the ranch: walking a mile, sunning himself by his swimming pool — without venturing into the water — and driving with Mrs. Johnson around the countryside.

In his only official act of the day, beside signing some minor legislation, Johnson issued a statement in connection with the award of a presidential unit citation to the 42nd Ranger Battalion of South Viet Nam.

Johnson said the unit's action in Bac Lieu Province on May 13 "affords the world still another example of the courage and steadfast determination with which a brave people struggles to preserve its freedom."

As for the omnibus rivers and harbors bill, authorizing 142 water projects, assistant press secretary Joseph Laitin said this morning Johnson has signed the measure into law. This was the second such announcement in as many days.

AMENDMENTS—8

Establishes Age 75 For Judges' Retirement

(This is the eighth in a series of 10 articles on the proposed amendments to the State Constitution, which will be considered by voters Nov. 2—Ed)

AMENDMENT NO. 8

Under the constitution, the Legislature now is authorized to provide for the retirement and compensation of judges and commissioners of the appellate courts and judges of the district and criminal courts. The proposed amendment would establish age 75 as the maximum age for justices and judges of the appellate courts and district and criminal district courts.

The amendment proposed also would create a State Judicial Qualifications Commission, to make recommendations to the Supreme Court for retirement or removal of judges or justices by the Supreme Court. The commission would consist of nine members as follows: two justices of courts of civil appeals; two district judges; two members of the State Bar, who have practiced over 10 consecutive years; and three citizens of least 30 years of age who are not licensed to practice law nor holding any salaried public office or employment. Commissioners appointed from the bench would be selected by the Supreme Court with the advice and consent of the State. Those from the State Bar would be chosen by the board of directors of the State Bar, with the advice and consent of the State, under regulations to be prescribed by the Supreme Court.

The citizen - members would be selected by appointment by the governor with the advice and consent of the senate. The terms of commissioners would be for six years and they would serve without pay for their servicse, except reimbursement of necessary expenses.

The provisions of this proposed amendment for automatic retirement of judges at a fixed age and creation of machinery for involuntary retirement for disability was sponsored by the State Bar)including the judicial section) and the League of Women Voters. The purpose of the amendment is to promote more effective judicial service. Twenty-one states now have provisions for automatic retirement of judges at ages ranging from 70 to 75.

The Texas proposal is patterned after that provided in California, which was adopted in 1960 at the suggestion of the California judiciary.

'Nothing New' Seen In U.S. Aid To Church

HOUSTON (AP)—There never has been complete separation of church and state as some Baptists claim, Baylor President Abner McCall said Tuesday night.

As far back as the second decade of the last century the Baptists themselves used federal money in building and staffing mission schools for Indians, he told the Texas Baptist Convention.

An example of how Baptists operate with government subsidy and regulation today is found in their mission schools in Nigeria, he said, adding that they have only one other choice: Get out of Nigeria.

That's the way the Nigerian government wants it, he said.

Is it more important "to preserve pure separation of church and state in Nigeria or to continue to teach the gospel of Christ to Nigerians?" Dr. McCall asked.

A leading advocate of Baptist college autonomy on federal aid to colleges, he cited several examples of Baptist acceptance of government money.

Steady Progress On Lake Reported

Steady progress is being made toward the Colorado River Municipal Water District's new lake on the Colorado River, just above Robert Lee.

Core drilling on the northwest flank of the dam site will be completed within another 10 days or two weeks, O. H. Ivie, CRMWD general manager, estimated. Findings so far have indicated no foundation problems.

Surveying crews, running lines at the damsite and around the perimeter of the lake basin at flood mark, are about 30 per cent through with their work, he said.

As these reports become available, information will be turned over to George Thompson and John Berry of Sweetwater for land appraisals. When these are reported to the district, negotiations for land purchases will begin.

Colorado State University at Fort Collins is well along on its scale model of the giant spillway for the lake, and within two months data from tests is due to begin flowing to the engineers, Freese, Nichols and Endress of Fort Worth.

District officials are giving preliminary studies to immediate pipeline requirements, and at the same time they are checking costs of financing the project.

Previously, Ivie had estimated that it would be spring before bids for revenue bonds to finance the job could be received. He also thought June was the probable earliest date for letting the construction contract. By that time, however, the district hopes to have most of the land purchased and arrangements made for relocating about eight miles of the Robert Lee - Sterling City state highway, which will be inundated.

Police Quell Youth Rioting In Phoenix

PHOENIX, Ariz. (AP)—About 200 shouting, rock-throwing Negro and Spanish - American youths rioted near downtown Phoenix late Tuesday night. Police brought it under control two hours later.

The rock throwing started outside a dance at a Negro neighborhood park southeast of downtown Phoenix. An officer said two Negro youths were fighting when police arrived, then without apparent explanation, others started throwing rocks at passing cars.

One of the two 17-year-old youths who were fighting was detained by police, the other was released to his parents.

Space Craft Will Fly In Formation

MANNED SPACE CENTER, Houston, Tex. (AP) — The next U.S. manned Gemini flight will include a modified space rendezvous, called station keeping, it was learned today.

Details of Gemini 7's flight plan came to light as engineers and scientists sought causes for the failure of an Agena rocket, which canceled the first actual attempt to rendezvous and dock two satellites in space Monday.

Station keeping is similar to airplanes flying in formation. Air Force Lt. Col. Frank Borman and Navy Cmdr. James A. Lovell Jr., the Gemini 7 astronauts, will try to keep within 100 to 300 feet of their Titan 2 second-stage booster for two and one-half orbits.

ALL FAIL

The United States attempted rendezvous exercises on the last three Gemini missions. All failed.

Air Force Lt. Col. James A. McDivitt and Edward H. White II, the Gemini 4 astronauts, tried to "fly in formation" with their booster but could not keep up with it. They had to cancel the experiment when fuel ran low.

While Borman and Lovell are flying along with their booster, they will take pictures and make radiation readings of the burned-out rocket shell.

After 3 hours and 56 minutes of station keeping, astronaut Borman, of Tucson, Ariz., will fire his 9 and 10 aft rocket thrusters for 54 seconds to climb into a safe orbit for the 331-hour and 18-minute, 209-orbit trip.

OVER AUSTRALIA

This maneuver will take place over Australia. The Titan 2 booster section will gradually slip into the atmosphere and burn up. The Gemini spacecraft would return the same way if the firing to boost the orbit were not executed over Australia.

Gemini 7 was expected to be launched about Dec. 10 but could be moved up as near as Thanksgiving. The flight is primarily a medical data gathering mission.

There are 19 experiments to be performed during the 14-day trip, the longest manned flight yet.

Included in the experiments are eight medical tests. One of these is to determine by an exhaustive method the amount of calcium astronauts lose during a space flight.

EXTENSIVE TESTS

Two weeks before the flight, Borman and Lovell, of Cleveland, Ohio, will have all their food and water measured. Body waste will be measured also. This check, which even includes measuring perspiration, continues through the two weeks in space and the next two weeks.

Lovell also will have a patch of his head shaved so a sensor can be attached to measure brain waves while asleep during the flight.

Another experiment will attempt to transmit voice communications over a laser beam from the spacecraft to earth.

Income Up, Deliveries Dip

Revenues for the Colorado River Municipal Water District continue to run slightly ahead of a year ago, although water deliveries are lagging.

This is due to oil companies increasing their demands, plus one new contract which involves payment of a pipeline use fee.

Through September, member cities of Odessa, Snyder and Big Spring paid $1,108,271 for water, which is about $85,000 less than for the same time a year ago. Recreation revenues of $40,208 are down $9,000. Oil company payments for water amounted to $887,346, up $104,000, and the pipeline fee of $17,267 did not exist a year ago. Thus, revenues of $2,053,718 are up by $25,000.

Water sales covered 8,602,048,000 gallons for the nine-month period, compared with 9,190,068. Of the total so far, 7,759,077,000 gallons came from Lake Thomas, the remainder from district and city well fields.

Library Friends To Review Film

Friends of the Library will review a recently-purchased children's film "Magic Book," at a called meeting in the Howard County Library at 7:30 p.m. Thursday, according to James Brooks, publicity chairman.

All interested in working with the library, or the Friends of the Library, are invited to the meeting, Brooks said.

The bidding:

South	West	North	East
1 NT	Pass	3 NT	Pass
Pass	Pass		

Opening lead: Three of ◇

Today's hand in which South was the declarer at a contract of three no trump features fine play on both sides, and the ultimate triumph by the defense may be attributed to their capitalizing fully on the advantage offered by the opening lead.

North and South reached three no trump with dispatch and, against the final contract, West opened the three of diamonds, East put up the queen and South made a good play when he permitted his opponent to hold the trick. Observe that, if declarer releases his ace immediately, the defense will be able to cash the setting tricks in diamonds when East gets in with the king of clubs.

When East continued with the ten of diamonds, South covered with the jack in the expectation that East would soon be exhausted of that suit, in which case the club finesse could be taken without the least concern. If West continues diamonds when he is in with the king on the second round, South would, in fact, come home an easy winner for, after the club finesse loses, East is unable to cash another trick until declarer has nine in.

West was aware that his hand would shortly become a dead issue, for he had no entry to run the diamonds once they became established. He decided therefore to make a play for his partner in the only suit that appeared to offer any hope to the defense. He accordingly shifted to the nine of hearts, with very gratifying results.

A small heart was played from dummy and East's ten forced out the ace. South led the jack of clubs for a finesse, losing to East's king. With three tricks already in, East hastened to cash the king and queen of hearts to send his opponent down to defeat.

Trustees Given Progress Reports, OK Band Tour

Big Spring school trustees Tuesday heard several building reports and discussions, and approved a tentative high school band concert tour.

Architect Atmar Atkinson said the Marcy school addition is on schedule, with outside walls up. He said delay in arriving of metal door framing for corridors had delayed work to some extent.

At the Kentwood site, he said, foundation work is done, underground plumbing is in, and the contractor is about ready to begin pouring the floor. Crews were working on fills Tuesday.

Atkinson said not too much building construction is visible at the high school, but that a lot of concrete footings and walls had been poured around the vocational area and physical education building site. Curb and gutter have been laid for the parking area, and practically all grading is at approximate level pending settling. The parking area will be given its caliche base and traffic permitted for "packing." No topping will be put on until the possibility of heavy trucks, or other equipment, passing over it is past. It may be used for parking later.

The field house at Memorial Stadium will soon be ready for inspection, the architect said. The architects will first inspect the building for possible minor corrections, and then both school and Howard County Junior College trustees will inspect it for acceptance.

Board president, Harold Talbot, said most of the property being purchased by the school for parking purposes south of Eleventh Place has been approved, but that some legal matters are still pending. He said most or all of it should be completed within the next 30 days.

A discussion of parking regulations on the property, when buildings are cleared, may call for fencing and painted lines for control. Plans will be submitted later.

A request, from Doug Wiehe and Mel Ivey, and approved by High School Principal John Smith, was granted by the board for a concert tour of the band and choir for May 4-6 this year, in lieu of their annual trip each spring. Permission was asked for a concert at North Texas State University and at Stephen F. Austin College if performance dates can be arranged with the two schools. They are asking also for a concert in New Orleans, La., May 6. If the concert cannot be arranged there, the group asked for permission to spend the day in New Orleans. No school funds are used for the trips.

Director of educational services, Dr. Len Ainsworth, told the board that enrollment for the first night class of adult education being held at the high school, saw 123 enrolled. He said this was about 50 per cent above expectations and that extra teachers and materials had to be arranged.

"Those enrolling are between the ages of 18 and 62 years," Ainsworth said. "We have 45 taking work in grades one through three, with about 25 non-English speaking adults. We will know more about the final enrollment following the first week or so, since some may 'drop out' before they have completed courses being held three nights a week."

Streamlining Of Law Enforcement Is Goal

WASHINGTON (AP) — At precinct headquarters, a policeman checks an instrument panel to see if the doors of all merchants in the area are locked for the night.

On the street, a patrolman takes careful aim at a fleeing suspect, fires his weapon and brings him down, asleep and unharmed — with a tranquilizer dart.

If this doesn't sound like any police department you've ever heard of, wait a while — it may figure in police work of the future. The federal government is pitching in to try to streamline law enforcement at state and local levels as part of the Johnson administration's "war on crime."

UP TO DATE

After long years of staying out of "crime in the streets," the federal government is going to spend $7,249,000 in hopes of modernizing police department, court and correctional practices.

"Of course, we're not going to do it all in the three-year life of the Law Enforcement Assistance Act," said Courtney A. Evans, a former FBI official who has been given the job of putting the new law to work and earmarking the federal money for local projects.

TRY TO HOPE

"We're just hoping the little bit of money we can invest will result in substantial benefits to many persons beyond the immediate field of law enforcement," Evans, 51, said in an interview. "Perhaps we can set up some models in law enforcement for others to copy and record and disseminate what's been learned so that it becomes the literature of law enforcement."

Evans expects the first demonstration grants will be distributed in January and will range between $20,000 and $150,000.

Much of the impetus for application of the new law will come from suggestions of the National and District of Columbia crime commissions, Evans said. Meanwhile his office plans to recruit a panel of scientists to study the application of modern science to law enforcement.

NEW APPLICATIONS

"I think we have to generate additional, radically new applications of scientific methods to law enforcement," he said. "Police still go on patrols in 1965 as they did in 1700, and patrols are primarily used to prevent and detect crime.

"Why can't we develop a whole new field of scientific research devoted to law enforcement just as we did when we decided to explore outer space?"

Evans cited continuous electronic surveillance of a neighborhood at night as a sample of what the scientist might do for the policeman.

More Streets Ready To Pave

Two more Big Spring streets are almost ready for paving, according to Ernest Lillard, director of public works. North Tenth Street has curbs and gutters, and is prepared for the placing of base materials preparatory to paving, Lillard indicated.

Mesa Street is primed, base material is in place, and is ready for hot asphalt mix to be poured by the paving contractor, W. D. Caldwell. Paving on Mesa will be started during this week, and North Tenth should be completely ready for asphalting by the end of the week, Lillard said.

"All I said was:
Show me a filter that delivers the taste and I'll eat my hat."

Grand Jury Commends Enforcement Agencies

Howard County grand jurors in session Tuesday, took time out from their routine work to commend the peace officers and law enforcement agencies of the city, county and state for their "vigilance and dedication" to duty.

The grand jury, likewise, in a resolution adopted by the body and signed by the foreman George Oldham, recommended:

"In order that law enforcement may be further strengthened and improved, this grand jury recommends and urges all parents to give 100 per cent cooperation with all law enforcement agencies."

The grand jury, in its resolution, pointed out that the crime rate nationally has been constantly rising, but that the rate in Big Spring and Howard County reflects no such increases.

The grand jurors said they desired to commend all law enforcement agencies "including the Big Spring Police Department, the Howard County Sheriff's Department, the Texas Highway Patrol, and the Texas Liquor Control Board for their constant vigilance and dedication which has prevented a like increase in Howard County."

The grand jury likewise commended the city and county officials and the courts "for their most efficient manner of operation."

Property Tax Sale Slated

Twenty-nine pieces of property, on which taxes are delinquent to the City of Big Spring, Big Spring Independent School District, and Howard County, will be sold by the sheriff Nov. 2 on the courthouse steps between 10 a.m. and 4 p.m.

The total appraised value of the delinquent tax property is $83,785, and total tax judgment is $19,575.

Several other sales will be held in the future, with the three taxing agencies taking turns in bidding in property for up to the amount of the judgment against it. The first 29 tracts will be purchased by the school district, if private bidders fail to bid them in for as much as the judgments.

This property, if purchased by the school, will be sold later, with deeds handled through the sheriff's office, and proceeds pro-rated according to the amount of taxes due each of the three agencies.

City Attorney John Burgess, as delinquent tax attorney, said total judgment against each tract included court costs and fees for sale.

Midland Firm Gets School Contract On Split Vote

Lydick Roofing Co., Midland, submitted the low bid Tuesday for 4.18 acres of roofing and sheet metal (about equal to 12 standard football fields) for the Big Spring High School additions and remodeling. His bid was $90,900 as compared to the original contract estimate of $90,086 in the bond program.

Bids were opened at 2 p.m. Tuesday in the board meeting room, later analyzed, tabulated and submitted for board action at the 7:30 p.m. meeting. The board approved the contract with Lydick who becomes a subcontractor under general contractor, J. W. Cooper, Odessa.

Second low bid of $92,343 was submitted by West Texas Roofing Co., Big Spring, and third, by Hamilton Roofing Co., Lubbock, was $115,966.

Lydick's bid covered 1,918 squares of roofing. One square is 100 square feet, or a total of 191,800 square feet.

The difference between the low and second bid was $1,443, and between the low and high was $25,066.

Lydick was also low bidder on roofing for the Kentwood and Marcy Elementary school additions, at about the same percentage under Hamilton and West Texas, with a bid of $9,932.

Some discussion arose about awarding the bid to the local firm because of only $1,443 difference. Motion was made by Dr. Carl Marcum and seconded by Bennett Brooke to award to West Texas Roofing Co. Mrs. R. B. G. Cowper, Jack Haralson and Harold Talbot voted against the motion. On motion to award to Lydick, Dr. Marcum voted no.

Following a discussion of availability of National Defense Education Act funds for certain laboratory equipment for school use, Supt. Sam Anderson and the architect were told to call for bids within two weeks for this shipment for a later delivery. Specifications are needed by contractors for electrical conduits, water lines, and drains where needed in setting up equipment. Funds are allocated according to bid made by the successful bidder, under the NDEA participating program.

A Devotional For The Day

That they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us. (John 17:21)

PRAYER: O God, teach us to work together at all times for Thy glory. May we never covet for ourselves any praise or honor or glory. This we ask in Jesus name. Amen.

(From the "Upper Room")

Remarkable Record

In terms of dollars, the fire in Cosden Oil & Chemical Company's polystyrene plant during the weekend is a major one. The loss will run into several hundreds of thousands of dollars.

It is a tribute to Cosden's management and personnel that this is the first blaze of such scope in a quarter of a century. It is a further tribute to the men who operate the plant that flames were confined to the area in which they erupted and were brought so quickly under control. And it is a final tribute to the resourcefulness and teamwork which exists at Cosden that production from the polystyrene unit will be only briefly interrupted.

With this background and spirit, it is rather to be expected that Cosden will emerge with a still better facility. Meantime, we salute a program of safety and operation which manages to hold these events to an absolute minimum.

Three We Oppose

Three of the 10 proposed amendments to the Texas Constitution which we do not merit, in our view, approval in the Nov. 2 voting.

One of these would extend the veterans' land program for eight years and underwrite issuance of $200,000,000 in bonds. The program began in 1949 with $25 million, got another $75 million in 1951 and $100 million in 1956. Two years ago voters turned down a constitutional amendment for $350 million more. Within the limitations set for it, this program has about served its usefulness. Much of the applications now are purely speculative. That the returns do not furnish sufficient volume in the revolving fund is evidence that it must be fed continuously with more and more underwriting.

Another is the proposal to exempt a Houston hospital from ad valorem taxes, but the principle would apply to other institutions elsewhere. This would open the door to all sorts of exemption requests.

The third proposal which we feel is not wise at this time is that which would give members of the Texas House of Representatives four-year terms. If this sounds inconsistent with our support of a four-year term for administrative officials, then we hasten to point out that the situation seems different to us. State officials are serving from the entire state, and even the state senators who enjoy four-year terms are serving from vast spreads of territory or areas of intense population. Representatives, because of the nature of their offices and of their number, serve from much smaller areas. Their expenses of election are not as great. Their closeness to the populace requires a more frequent accounting at the polls. Until the time comes when the United States elects its representatives to four-year terms, we cannot see the advisability of picking our Texas representatives for more than two years

Richard Starnes

Disastrous Air Pollution

WASHINGTON—Duty recently summoned this one to New York, a circumstance that occurs every few weeks and is in no manner remarkable.

This trip was different, however. Different and profoundly disquieting. If offered a glimpse of a nation that is suffocating.

IN RURAL AREAS the phenomenon that weather scientists call "temperature inversion" contributes to picturesque autumn haze, big orange harvest moons, and possibly a measure of bucolic romance. But in the industrial wasteland that stretches from Baltimore to Boston, it causes a murderous, choking, yellow pall to be cast over the countryside like a shroud.

A FEW MILES northeast of Washington, the haze assumed a greasy, ochre color, and eddied sullenly as far as the eye could reach. Our airplane, serene in the clear air 10,000 feet above the muck, passed east of Baltimore's fulminating steel plants, across the upper end of the Chesapeake Bay, over the flat, lush Eastern shore and along the Delaware River past Philadelphia. Nowhere was the ground seen clearly. It shimmered uncertainly in the oozing, coiling gas that is strangling a whole civilization.

ON THE GROUND in New York the smog was in its third day. It had apparently killed no one outright, and the city was bearing up bravely under what is perhaps the worst affront urban-dwelling man has devised for himself. New Yorkers commonly endure an environment that would destroy the meanest bacteria on earth, but last week's smog was rather much even for this hardy species.

The dirty, poisonous atmosphere was not confined to the Eastern Seaboard. It cloaked the nation from Cincinnati in the east to Utica in the north and nearly to the nation's capital in the south. But for a providential change in the weather, the deadly gas would have remained, and intensified, perhaps until it reached disaster proportions.

SMOG NORMALLY is a slow killer, and it slyly gives credit to heart disease, lung cancer and other respiratory ailments. But it can kill quickly, as it did in Donora, Pa., in 1948 (29 dead and nearly 6,000 made ill). In London, between Dec. 5 and 9, 1952, a killer smog engulfed the city and took 4,000 lives.

The magnitude of the problem can be judged from such dispiriting statistics as a daily production of sulphur dioxide (which burns the eyes, ruins nylons and smells like hell) estimated at 50,000 tons. Autos contribute an additional 300,000 tons of pollutants a day.

EVEN UNDER the goad of these frightening figures, attempts to combat the deadly threat of air pollution have been limited. Only one state now requires anti-pollutant exhaust systems on automobiles, and until this year the Federal government's total expenditure in the field was $12 million annually. That has now been doubled, but it still falls far short of meeting the problem.

The blunt truth is that mankind is now capable of rendering this planet uninhabitable. One authority caused a stir recently by estimating that man would perish and disappear as a consequence of air pollution within 100 years. Flying into New York last week it was possible to believe his timetable erred on the side of optimism.

Billy Graham

I believe that religion should progress and adapt itself to society as it is now and not as it was. What is your opinion? P. N.

The Christian faith is more pertinent to society now than any of the world religions for more than one reason.

First, it is adapted to the deeper spiritual nature of man and meets a need that is constant. Man needs to know God, and the gospel is adapted to make God known in all of His aspects through Jesus Christ.

Second, the problem of sin is persistent. It is always with us. No matter what advance is made, sin is not yet eliminated. Therefore, the gospel is applicable because it deals with sin as a destructive principle at work in man.

Third, let me remind you that while there has been definite technical progress and literary advance, the facts of history once established cannot be changed. The death of Christ and His resurrection are facts that are established. They have meaning for all time, and must be reckoned with before we are able to interpret our present problems.

Glory Days

NEW YORK (AP) — A gallery of souvenirs from the glory days of vaudeville is being assembled for exhibit at Broadway's Palace Theater.

The playhouse, for years the country's prime variety showcase, is being converted now into a legit theater for drama and music. The first production booked, "Sweet Charity," opens in January.

Ralph Alswang, designing the renovation, is seeking memorabilia for display in the lounge that will feature a giant mural of vaudeville's top entertainers.

Arkin Back

NEW YORK (AP) — After time out for a movie, actor Alan Arkin plans to return to Broadway next season in another play by Murray Schisgal.

Arkin recently withdrew from Schisgal's comedy "Luv" to make the film, "The Russians Are Coming." Unlike "Luv," which has just three players, the next drama "Jimmy Shine" uses 20 performers. In it Arkin will enact a man at various stages of a 30-year life. Burgess Meredith may direct.

'GO HOME, YOU LOOK PLUMB TUCKERED OUT'

James Marlow

Congress' Heavy Production Raises Question

WASHINGTON (AP) — Congress has come to expect a vacation of two or three months, unlike the rest of the population which considers a job a yearly occupation with perhaps no more than a month off at most.

Thus the moans and groans about fatigue and overwork and the need for rest coming from the Capitol before Congress finally closed up for the year Oct. 23.

The big exception was in 1963 when it stayed until Dec. 30. No peacetime session was ever longer. But in 1964 it quit Oct. 3, in 1962 on Oct. 13, and in 1961 on Sept. 27.

This was a highly productive Congress — President Johnson called it "fabulous" and it was probably the greatest producer in American history — but this very fact raises a question.

Why should such production be so unusual?

It wouldn't be so unusual if Congress generally worked harder, cut out some of the bombast and oratory and stalling and, instead of voting as parties, lined up for or against a piece of legislation on its merits.

THERE HAVE been few Congresses in history which could not have done more than they did. And in a society like this, with political parties, there will be politics in legislation except perhaps in emergency.

But it's an unhappy reflection on the congressional process when Congress is most productive only in times of national peril or when prodded, driven and guided by a strong president.

The two most productive peacetime Congresses in this century were in the depression days when President Franklin D. Roosevelt's New Deal was trying to avoid disaster and now under Johnson.

Johnson, the most experienced of all presidents in the ways of Congress since he spent 25 years there, happens to be a political genius.

BUT EVEN this would not have been enough to get his load of major legislation approved this year if the Democrats had not won such overwhelming control of Congress in the 1964 elections.

And even that might not have been enough if Johnson, who has practically no outside recreation except when on his Texas ranch, hadn't worked almost around the clock lining up congressional votes for his legislation.

When this Congress finished, the Republican leaders — Sen. Everett M. Dirksen of Illinois and Rep. Gerald R. Ford of Michigan — made the usual comments that minority leaders make at a time like this.

Ford complained about the "evils of one-party dominance" and that, under the insistence of Johnson for action, a lot of Democrats didn't know "whether to clap their hands or click their heels." He called this a "hip-pocket Congress."

DIRKSEN, CLOSER to Johnson than Ford, called this Congress "an echo, not a choice."

But the question neither Dirksen, Ford nor anyone has offered an answer to is this: Granted Johnson never got off Congress' back, but why does Congress have to be pushed into a great performance?

Why can't it do the same job on its own? The answer of history seems to be: it is not capable of it by itself. It would be nice to think otherwise but the record speaks for itself.

Hal Boyle

Daily Office Ritual At Quitting Time

NEW YORK (AP) — Quitting time is as much a daily ritual in the American business office as coming to work in the morning.

If you check the lowing herd in your own white collar zoo, you might note the following familiar characters at the hour of closing:

Methodical Milton — Somebody stole a paper clip overnight from Milton 15 years ago and he is determined never to let it happen again. He puts everything that is on top his desk inside his desk, checks each drawer carefully to see that it is locked, then locks his file cabinet, padlocks his typewriter and hides the cushion of his swivel chair in his locker.

FUN LOVING Freddy — As soon as Milton is gone, the office boy, who has keys to everything, opens Milton's desk, puts a well-chewed apple core in the top drawer, then relocks it. Milton will worry for a month how the apple got there.

Hangover Harry — He has spent the day hiding out in the washroom. At 5:29, still a bit foggy, he wheels in and calls out, "Anybody ready for lunch? I found a great place — the house buys every third martini."

SUBURBANITE SAM—In the summer this prisoner of the outer spaces sneaks out at 5 p.m. so he can spend more time whacking away at his crabgrass before dusk. In winter he starts wrapping up in heavy clothing at 5 p.m. so he can make the long voyage home without freezing.

Madcap Molly — The office Cleopatra never gets much done after 4 o'clock. From then on she tours the place, sitting on the desk of one junior executive after another, swinging her shapely legs and indulging in gay banter. Her big hope: One of them will weaken and take her to dinner and a movie.

LIGHT - FINGERED LEO—The office wolf has everything tidied up at 5:15. Then he stations himself near the door, hoping he can get in one more pinch as the girls from the stenographic pool pass by.

The Great Man Himself — As soon as Leo goes, the boss clumps out to the empty room, looks around at the empty desks.

"What a menagerie," he mumbles. Then, as he goes around switching out the lights, he grumbles:

"Why do I have to think of everything around here?"

To Your Good Health

Sniffing Salt Water Won't Help Sinuses

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: Is there anything beneficial in sniffing into the nasal passages a palm full of warm water mixed with about one-quarter teaspoonful of salt? I have sinus trouble.—V.K.

I oppose indiscriminate sniffing of salt water into and through the nose. This is no personal prejudice on my part. It is the result of a great deal of observation, thought and study by many physicians.

The practice can be harmful, and the possible benefits are small or non-existent.

We have known for a long time that salt water has a feeble antiseptic action. We also know that a good many of our natural body fluids are slightly salty—tears, and blood, and nasal secretions.

If we have a sore throat, from some transient infection, we can gargle with hot, slightly salty water—as hot as can be tolerated—and it does some good. This may suppress the germs that cause the sore throat. But the greater benefit is simply that the water, being hot and salty, rinses the throat without irritating it. Make the water too salty, and it irritates the throat tissues instead of soothing them. (For this purpose, a quarter teaspoon of salt in a full glass of warm water is about right. More than that is irritating.)

Now let's get back to the nose —and sinus trouble. A quarter teaspoon of salt in "a palmful" of water is far too much. Yet even a less salty solution can do more harm than good.

Why? Because sinus trouble is primarily a matter of obstructed flow into and out of the sinuses, the sinuses being, really, just some caves or caverns which connect into the nasal passages.

True, a severe cold and its associated germs and inflammation may swell the tissues so the entrances to the sinuses are clogged. But when chronic sinus trouble exists, one must look for other causes. We can't have colds ALL the time. Rather, the trouble may be from excessive smoking. Or from polyps (little growths) in the nose, or allergies, or an old injury to the nose, so that the septum, or partition between the nostrils, is bent out of shape and partially clogs the sinuses. Chronic infection, such as diseased tonsils, can be the root cause, too.

Hence, while the obstructed, irritated entrances to the sinuses may develop (probably will) some infection, clearing up the infection won't correct the basic trouble. And until we correct the basic trouble, we won't make much progress.

Thus mildly antiseptic salty water won't get at our real problem at all. What is worse, the snuffling of the water tends to spread germs to new locations faster than it suppresses them.

If, as in your case, V. K., your trouble is sinus, tackle the underlying problems instead of hoping salt water will do it.

Around The Rim

A Bit Of Dedication

Whether it be yo-yo, tops, hula hoops, pogo sticks, or cliches, we are great hands for wearing something to a frazzle.

I cite as a case in point the use of the perfectly good word "dedicated."

MR. WEBSTER sets up some concise, incisive definitions for dedicate, and until recent months it generally carried an almost sacred connotation. Webster says that to dedicate is to devote exclusively to service or worship of a divine being or sacred uses; to be consecrated; to set apart formally or seriously; to inscribe, or address in honor of a person or thing; to open or present formally.

KEEPING THIS in mind, I find it a trifle difficult to reconcile the almost flippant application of dedicated to someone who is simply an eager beaver, a devotee of intellectual or professional pursuits, or a plain all-out nut on some subject or activity.

For example, let a physician be wrapped up in his practice of medicine, or a lawyer given over to the law almost to the exclusion of everything else, and we say they are dedicated.

LET A FOOTBALL player perform to the very best he knows how all the time, to relish physical contact, to endure practice and ask for more, and he is a dedicated player.

Let some volunteer selling tickets for the club raffle drop everything else and beard one and all with chances for a color tv, and he or she is a dedicated worker.

LET A GARBAGE man hoist more cans than his colleagues on the truck, and whistle while he works, and by golly, what do you know, he's a dedicated garbage man.

And so it goes. This intensity of effort, this preoccupation with what one may be doing, may be commendable (although I have observed that a lot of these dedicated souls aren't very useful outside their own little circle of consuming interest), but this does not mean dedication in the deepest and purest sense.

SO THE NEXT TIME the mailman comes rain or shine, the lineman climbs that power pole in foul weather, or John Doe serves two terms as president of the Ancient Order of the Prairie Dogs, please just say they're on the ball or mighty fine folk. Bless you, and if you do, I'll dedicate this column to you.

—JOE PICKLE

Holmes Alexander

Bum's Rush With Velvet Gloves

WASHINGTON — Brutus Coste is a tall, inflexible Rumanian diplomat. If he'd been a tall, flexible diplomat, as he remarked to me, he'd probably be the Rumanian foreign minister by now.

He'd be met at the airport by Averell Harriman, and be taken into consultation by Sen. Bill Fulbright, chairman of Foreign Relations. Instead, Harriman and Fulbright have, for years, given the brush-off to Coste, though he's one of the most important East European exiles in America. Coste's a courtly - mannered and attractive intellectual, but he's too anti-Communist for our policymakers who're bent on "building bridges" to the captive nations.

BEGINNING in 1954, Coste was elected annually to the post of Secretary General of the Assembly of European Captive Nations (ACEN). This month he was deposed by a 5-to-4 vote of the nine-national group. He was ousted by what he regards as a rigged election. Coste believes — as do such sapient Senators as Douglas (D., Ill.), Dodd (D., Conn.), Dominick R., Colo.), Lausche (D., Ohio), Hruska (R., Neb.) and others — that his displacement was another of the bum's rush tactics used by the State Department to get rid of hardliners against Communism.

HE BEGAN to feel weird hands tugging at the rug back in 1963, when President Kennedy sprung the Wheat Deal which proposed shipping American grain to Russia to bail Khrushchev out of his agriculture failure. Coste objected vigorously, then and continuously, not only to this particular transaction, but to the sick-sick policy which is called "building bridges" to the Captive Nations by strengthening their captors.

IN CONGRESSIONAL testimony and in public addresses, Coste said that the only way to break the political enslavement, short of a now-impossible war, was to let the Communist economic system collapse of its own failures. Only then would the Reds make meaningful concessions toward freedom. He called for the State Department, at the very least, to demand the release of political and religious prisoners in return for food and machinery traded or sold behind the Iron Curtain.

THE RUG under Coste registered a sharp jerk last June when he was out of the country on a speaking tour. His organization, the ACEN, is financially dependent upon the Free Europe Committee at 2 Park Avenue, New York City. In midsummer, the ACEN's $300,000 budget (it supports offices and publications around the world) was cut to $200,000. His own salary and that of his private secretary were abolished. The State Department began to "lean on" contributors to withhold funds so long as Coste was in office. He got the word to conform or else. His refusal to conform, to sing for his supper about "building bridges," brought about his purge in October.

COSTE DOESN'T want his office back. He tells me he wouldn't accept it under present U. S. policies of coexistence (a Russian term) with the Soviet Union.

Harsh words like those, hard-liners like Coste, tough policies like liberation have had their day.

(Distributed by McNaught Syndicate, Inc.)

David Lawrence

The Billionaire's Congress

WASHINGTON—It's natural for an administration which has behind it a rubber-stamp Congress to try to brainwash the public by boasting about the quantity of bills passed. But it's not the quantity of laws enacted or the vast amounts of taxpayers' money spent that counts—it's the quality of the legislation and what the American people will get in return.

The principal fault of the Congress which has just completed its first session was the indifference shown to waste and to the need for safeguarding the people's interest against political corruption.

THIS COULD aptly be called "a billionaire's Congress." For a majority of the members of both houses spent tax money without regard to the deficit being incurred and the ultimate damage that may be done to the purchasing power of the dollar. All the assurances of a year ago that the budget would be kept under $100 billion went by the boards. Expenditures were at a higher rate than they have ever been in American history.

CERTAINLY THERE are worthy objectives in some of the important bills just passed. Everybody wants to see the health of the nation preserved and old people taken care of and education improved and highways beautified and poverty reduced to the minimum. But there's a right way and a wrong way to handle such problems. Haste is too often rationalized as at least "getting a start" on reforms which, it is argued, have too long been neglected.

BUT THIS IS a dangerous philosophy. For it could bring an adverse reaction and a severe cut in appropriations for social legislation some day when the people come to recognize that they were beguiled largely by "pork barrel" tactics, whereby the politicians and their henchmen in local organizations get lots of the money in the form of high salaries or special contracts.

Huge sums have been appropriated by Congress without setting up restrictions and rules to protect the interests of the people as a whole. Thus, it is possible now for a federal bureaucracy to control what shall be taught in public schools and how teachers shall be chosen.

IT WILL BE ASKED why there wasn't a substantial opposition in Congress to the careless enactment of legislation involving so many billions of dollars. The answer is to be found in the political poison which has infected the whole legislative system. Far too many representatives and senators feel they must get some of the money for their districts or states and, because almost all other members are benefitting, they themselves will be criticized back home for failure to get a share of the pie.

THIS, HOWEVER, is not the way the American people really expect their legislators to function. It's only a question of time before the local newspapers begin uncovering the scandals—such as have already appeared in the poverty program in Harlem and elsewhere—and the people start demanding a change in the attitude of their legislators, if not a change on election day when the voters turn to the opposing candidates.

Congress must go before the people again in just a year. Will the American people be sufficiently informed by that time to repudiate those members of the national legislature who have been profligate with the people's money? That's the billion-dollar question.

(Copyright, 1965, New York Herald Tribune, Inc.)

Bard Leads

NEW YORK (AP) — The most popular playwrights on college stages last year were William Shakespeare, Edward Albee and Eugene Inoesco.

A survey by Alan A. Stambusky, assistant professor of dramatic art at the University of California, showed 292 exhibits of 29 plays by the bard; 137 for 5 by Albee; and 108 for 11 by Ionesco.

Hot Issues

NEW YORK (AP)—Evangelist Billy Graham surveys the world's problems of racial conflict, Communism, immorality, the population, uncontrolled science and the atomic bomb in a new book, "World Aflame," published by Doubleday. And he concludes:

"Our world is on fire, and man without God will never be able to control the flames."

Marry In Florida

Mr. and Mrs. Ronald Linden Harris are shown at a reception following their wedding Oct. 7 in Jacksonville, Fla. The bride is the former Miss Roberta Gail Curts, daughter of Mrs. Ruby G. Curts of Jacksonville. The bridegroom is the son of Mr. and Mrs. Harry Sanders, Sterling City Rt., Big Spring. The couple are at home at 3009½ Dignan, Jacksonville, where Harris is stationed with the United States Navy.

'ROUND TOWN

By LUCILLE PICKLE

It's been some time since I have felt like one of the younger people but I did Saturday night when I attended the 1918 class reunion of Big Spring High School. All of you who realized it dated you should have thrown caution to the wind and come on out to the Ramada Inn and joined the group. We had a fine time with fine people and enjoyed hearing the stories that meant so much to the class.

No one looked as pretty as the honoree, MISS CLARA POOL, who was as lovely as the orchid she had pinned to her fur. If time should treat us so lightly I shall look forward to a celebration with my class years hence. And she wasn't a student . . . she was the teacher of this 1918 class.

• • •

MR. and MRS. JOE B. HOARD have returned to their home in Forsan after visiting their son-in-law and daughter, MR. and MRS. E. E. WOODSON, in Gadsden, Ala. While in Gadsden they toured the largest tire manufacturing plant in the world.

• • •

PAUL and JOE DAILY of San Antonio were guests of their aunt, MISS CARRIE SCHOLZ, over the weekend and attended the 1918 class reunion.

• • •

MR. and MRS. LEIGHTON MUNDT spent the weekend in Fort Worth as the guests of MR. and MRS. DARRELL WEBB and their sons. During the visit Mrs. Mundt spent some time in Denton at NTSU where she earned a degree 50 years ago.

• • •

NAVY CMDR. and MRS. S. W. WOODS and children of Albuquerque, N.M., are guests in the home of her parents, MR. and MRS. JOE B. HOARD.

• • •

Former residents, MR. and MRS. J. O. ALLEN of Gulfport, Miss., have been the guests of their one-time neighbors, MR. and MRS. J. C. EUDY. They have been in Austin where they visited a son, Jim, who is a graduate of the University of Texas Pharmacy School and has purchased the North Loop Pharmacy in Austin.

Before returning home the Allens will visit another son, Gene, in Dallas.

• • •

The JOE MOSS family was in Austin for the Rice - Texas game Saturday.

• • •

Also in the Austin area over the weekend were MR. and MRS. TOMMY STEPHENS and their children. They forgot about the football game and the President being at his ranch and as a consequence they were hard put to find a place to stay that wasn't already taken by news media personnel and football fans.

• • •

Here are some highlights from the reunion: J. O. HOARD was the only one in the class who graduated in knee pants because he was so small. He had the nickname of Nehi, and one class member recalled "we would have picked him as the least likely to succeed." But Hoard went into the oil business, hit several strikes overseas and now "he could buy us all." Regrets came from several, including DAN PAINTER, Houston; DR. ERNEST H. POTEET, president of Texas A&I and who was principal of BSHS then; CORA MARTIN MITCHELL, Corpus Christi, ADM. JOHN QUINN, Washington, D.C., J. I. (Buck) BONNER, San Anselmo, Calif., retired from the Chase National Bank of New York; CHAUNCEY PENIX, Graham; and JOSEPHINE COSTLOW, New York.

• • •

CONGRESSMAN and MRS. J. J. (Jake) PICKLE of Austin spent the night with us for a visit with his father, J. B. PICKLE, who has been dismissed from a local hospital after several days illness.

NCO Wives Plan Costume Ball

Final plans for a Halloween costume ball were made during the Tuesday evening meeting of the NCO Wives Club. The members met at the NCO Open Mess with Mrs. Glen Philipi and Mrs. Johnnie Clements as hostesses. The Mystics will provide dance music for the Saturday 9 p.m. party.

P-TA Holds Leadership Workshop

A leadership training course, sponsored by the Big Spring City Council of Parents and Teachers, was held Tuesday from 9:30 a.m. until 3:30 p.m. at the Wagon Wheel Restaurant.

Mrs. Arlice Brooks of San Angelo, state vice president, was the instructor.

Eighteen persons took the written course based on Parent-Teachers objects, policies and structure of the organization. Duties of officers and chairmen were reviewed and basic parliamentary law discussed.

Eight local units were represented, and Mrs. Alvie Cole of Sterling City, 16th district president, was a guest.

Rebekahs Plan Party

Fortune tellers and the music of Tom Castle's band will be highlights of the Halloween party planned by the Big Spring Rebekah Lodge No. 284.

The final plans were completed during the Tuesday evening meeting of the members. Miss Shirley Lee presided.

The public is invited to attend the 7 p.m. Saturday party, and a hot dog and chili supper will be served. Prizes will be awarded for the most original costume and to the various game winners.

During the business session, Mrs. Wayne Moore presented Mrs. Albert Gilliland a certificate of perfection in unwritten work, and 38 visits to the sick were reported.

Tacky Party Held Tuesday Evening

A Tacky Party was held during the Tuesday evening meeting of the TOP Pound Rebels. The members met at the Community Room of the First Federal Savings and Loan Association building.

Mrs. Al Scott won the prize for the most original costume, and prizes were given to game winners.

Two new members, Mrs. Carroll Dyess and Mrs. B. J. Scarbro, were welcomed, and Mrs. Bobby Masters was a guest. Mrs. E. J. Engel was elected October queen.

The club will award a turkey to the member losing the most weight between October and Thanksgiving.

The next meeting will be in the Conference Room of the chamber of commerce office.

Initiation Rites Held By Order

An initiation ceremony was held at the Tuesday evening meeting of the Order of the Rainbow for Girls. The members met at the Masonic Temple with Mrs. Adele Roberts presiding.

Miss Brenda Gail Webb was the new member, and Miss Katherine Homan and Mrs. J. C. Pickle served refreshments to the 26 members attending.

The refreshment table was covered with a white linen cloth and centered with an arrangement of blue and silver flowers.

Supper Planned By Bykota Class

A salad supper will be held Thursday at 7 p.m. by the Bykota Sunday school class of First Baptist Church. The meeting will be at the home of Mrs. Olen Jamison, 608 Highland, and all members are urged to attend.

Society Selling Season Cards

Mrs. L. D. Jenkins distributed Christmas cards during the Tuesday evening meeting of the Immaculate Heart of Mary Altar Society in the church hall. The cards will be sold as a fund-raising project.

Mrs. E. W. Brewer, vice president, conducted the business session and prayers were led by the Rev. Francis Beazley. Mrs. Earl Taylor was introduced as a new member, and Mrs. Riley Ward was welcomed back to Big Spring after an absence of five years.

Mrs. Don Mastas gave a general report on family night entertainment, and Mrs. Ward, Mrs. Jenkins and Rev. Beazley reported on the recent Diocesan Council of Catholic Women meeting in Brownwood.

During the study hour, Rev. Beazley discussed "Bible Service for the Laity." The study stressed that a Christian should not feel generally superior, and that when he does, he is committing a sin.

A mass for the society will be Nov. 3 and a birthday mass for Mrs. Lena Hearne will be Oct. 30.

Refreshments were served by Mrs. Mastas and Mrs. Harry Woodley.

HINTS FROM HELOISE

Empty Medicine, Pill Bottles Down Drain

Dear Folks:

Once in a while, we must all be reminded that accidents are CAUSED by carelessness (which many of us are guilty of).

Here's a little BIG hint I would like to pass along:

NEVER throw away medicine or pill bottles unless you first empty the contents down the toilet! Then flush it immediately!

HELOISE

NEVER put half - full bottles of anything in your garbage either. Lots of people do this, especially when they move, and clean out their medicine cabinets.

Little children just love to go through neighbors' trash cans and play with the bottles. Some children died from this very thing last year. Pets often get into garbage cans, too. Neither knows any better.

So, take the time to empty all bottles and boxes, because you just might save a life. . . Heloise.

• • •

Dear Heloise:

Here's a real good hint for avid readers:

Cut a book mark from the corner of an envelope, and slip it over the corner of a page to keep your place.

Why not mark favorite recipe pages in a cook book the same way? One can utilize old envelopes this way.

It works, and is so quick and handy. . . S. Land

• • •

Dear Heloise:

I have an old whiskbroom that had seen its last days—so I thought.

The idea hit me to cut the worn bristles off, and see if I could salvage something. So, I cut it at a 45 degree angle, and lo-and-behold, if I don't have the greatest gadget imaginable!

That little point sweeps out all sorts of places that my vacuum can't, etc. . . Harry S.

• • •

Dear Heloise:

I have found a great way to de-fuzz a garment.

I use a dry sponge (completely dry), or a piece of dry foam rubber.

My husband washed some black trousers with a white throw rug. Boy, I thought they were ruined! Then I discovered, by experiment, that the regular, clean, dry sponge would remove the specks of fuzz which were all over the garment.

Foam rubber does a good job, but a sponge is easier to brush the clothes with. . . Sue Jean Wray

• • •

Dear Heloise:

My two teenage boys could use a bottle of hair tonic in nuthin' flat until I hit upon the idea of putting the tonic in a hand lotion dispenser bottle.

Works wonderfully, is much easier to use, and the tonic lasts much longer. . . Emily B.

Shipwreck Party For Mu Kappas

Dead Man's Cove and Minnie the Mermaid set the scene for the "Shipwreck Party" held Saturday evening for members of Mu Kappa Chapter, Epsilon Sigma Alpha, and their husbands. The party was held at the home of Mr. and Mrs. Richard Egan, 2710 Rebecca, where decorations were made with fishnet and crepe paper.

Star fish hung from the ceiling and a large paper octopus centered the refreshment table.

Nine couples attended, including Mr. and Mrs. Warren Black who won the costume prize. Mrs. Black is a rushee.

The Nov. 8 meeting will include a pledge and jewel pin ceremony during a dinner at the Ramada Inn at 7 p.m.

Dry Vermouth

Dry vermouth may be substituted to advantage in many recipes calling for dry white wine.

Six New Members Join Faculty Ma'ams

Six new members were introduced at the Faculty Ma'am meeting held Tuesday afternoon in the home of Mrs. Kenneth Roach, 2217 Lynn.

New to the club are Mrs. Wayne Bonner, Mrs. Jack Dunn, Mrs. Joe Shafer, Mrs. Jimmy Witcraft, Mrs. Larry Nutter and Mrs. Dal Herring.

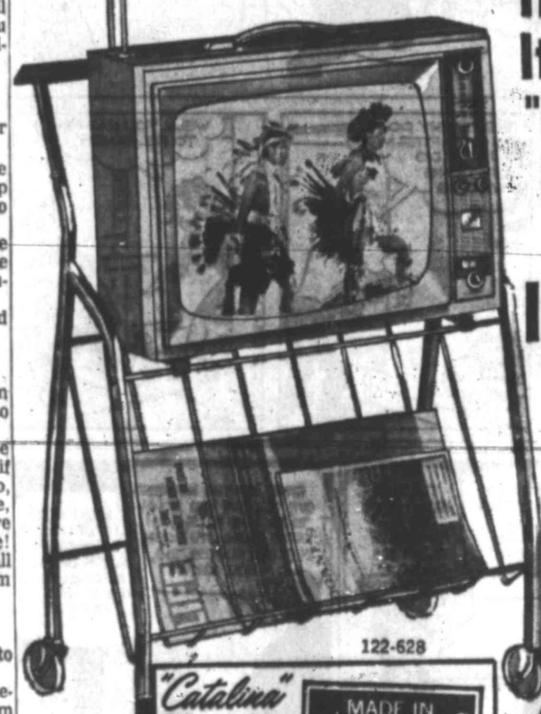

Mrs. Dunn was elected to fill the corresponding secretary post vacated by Mrs. Bobby Smith, and hostesses were named through August of 1966.

Mrs. W. A. Hunt announced that the Christmas Tea will be held in her home Dec. 12.

Mrs. J. T. Clements, 1604 Tucson, will be hostess to the club at 4 p.m., Nov. 23, when Mrs. B. M. Keese will show slides of her recent trip to Hawaii.

Coahoma Residents Busy With Homecoming Activities

COAHOMA (SC) — Visiting for the homecoming activities were Mr. and Mrs. Bobby Hicks and children, Elaine and Robert, Houston; Mr. and Mrs. Henry Hicks and girls, Seminole; and Mr. and Mrs. Lynn Holder and children, Midland. They were guests of their parents, Mr. and Mrs. Sam Hicks.

Mr. and Mrs. J. C. Foster, Stamford, spent the weekend with their son-in-law and daughter, Mr. and Mrs. Paul Mosley.

Mr. and Mrs. Eldon Amonett and daughter of Denver City spent the weekend with her parents, Mr. and Mrs. L. H. Aberegg.

Weekend visitors in the Raymond Morrison home in Sand Springs were Mr. and Mrs. Connie Morrison and children of Dimmitt and Jack Morrison of Bovina.

Mrs. Mamie Hallman of Los Angeles is visiting with her son-in-law and daughter, Mr. and Mrs. Joe Whirley. Also, Saturday, Mr. and Mrs. Jimmy Hallman, Odessa, and Mr. and Mrs. Gerald Hallman, Midland, visited here.

A recent visitor in the home of Mr. and Mrs. Cliff Harrison was her mother, Mrs. Sue Lindsay, of Oklahoma City, Okla.

Guests in the Herbert Love home for the weekend were their son and daughter-in-law, Mr. and Mrs. Mike Love, Abilene; and their daughter, Martha, and her friends, Barbara Churchill and Carrie Green, all students at Abilene Christian College.

Weekend visitors in the C. A. Denton home were Mrs. J. W. Denton and daughter, Jamie, of Odessa and Mrs. Mike Williams and children of Amarillo. Also visiting were Mr. and Mrs. Manley Denton and children, Dent and Laurie, of Austin.

Mr. and Mrs. Ovis James and children, Donna and Guy, spent the weekend in Albuquerque, N.M., with his brother and family, Mr. and Mrs. Larry James, and sons.

The Bob Pucketts of Dublin spent the weekend with Mr. and Mrs. Grady Tindol.

Mrs. Fred Willis and children of Odessa spent the weekend with her parents, Mr. and Mrs. Dewitt Shive.

Visitors in the Truman Pherigo home over the weekend were Mr. and Mrs. George Montandonna, Snyder, and her cousins, Mr. and Mrs. Troy Stewart, Sweetwater.

Willie McCutchen of Lamesa spent Sunday here visiting.

Mrs. Vera Knight of Cleburne spent the weekend with her brother-in-law and sister, Mr. and Mrs. Clovis Phinney Sr., and with her brother and sister-in-law, Mr. and Mrs. Tollie Hale.

Mr. and Mrs. Elvon DeVaney and children, Muleshoe, spent the weekend with his parents, Mr. and Mrs. C. H. DeVaney.

Mr. and Mrs. Troy Roberts and daughter, Ginger, spent the weekend with her brother-in-law and sister, Mr. and Mrs. Marrian Hays, and his brother and sister-in-law, Mr. and Mrs. Ross Roberts. Sunday visitors in the Ross Roberts home were his mother, Mrs. Pat Roberts, Midland, and Carol Ann and R. T. Halle.

Cassie DeVaney, daughter of Mr. and Mrs. Arlton DeVaney, is a patient at the Howard County Hospital Foundation following a tonsillectomy.

Visitors in the Oscar Self home for the weekend were their children, Mr. and Mrs. Gene Holley, Snyder; Mr. and Mrs. Myron Lee Self and sons, Snyder; Mr. and Mrs. Everett Self and sons of Hobbs, N.M.; and Mr. and Mrs. Weldon Self and daughter, Lubbock.

Lakeview Access, Health Center Furniture Okaved

Improved access to Lakeview School was approved by city commissioners Tuesday evening, when they agreed to open a street from Sixth and Glasco to Seventh and Channing. Cost, estimated by Ernest Lillard, director of public works, will be about $6,700. The school board had agreed previously to pay $4,000 to the city if it would open a street.

Lillard said he and city planner Marvin Springer had both decided the Sixth to Seventh opening is the best choice for future needs of the Northside area. He said the cost for that street will be about $5,000 less than opening Seventh Street straight through, as recommended by school board members.

"The only problem with either opening," Lillard said, "will be the 12 per cent grade from the railroad tracks east of the school down to Channing Street. It will be a short grade, and there may be a problem with cars bottoming when they enter or leave Channing on Seventh."

He said moving the crown of Channing Street from the center to the east side would help level the sharp grade.

Access to the school has been one of the chief complaints of Northside United, a group which has protested the closing of Kate Morrison School, and the school board requirement that former Kate Morrison students register at Lakeview School.

Lillard said stabilization of the street will cost about $3,248. Purchase of right-of-way of about 1.4 acres will be in the neighborhood of $1,700, with an additional $1,500 or so for cutting, filling and building drainage structures.

"We should be able to get possession of the property within five or six weeks," John Burgess, city attorney, said.

Burgess meant that possession could be gained in that time if condemnation procedures have to be used to get it. But commissioners agreed to negotiate with property owners before exercising the city's right of eminent domain. But whenever possession is achieved, commissioners instructed Lillard to begin immediate construction of the street.

Purchase of furniture for the Health Center was also agreed on, with one change from that recommended. The city had agreed to buy five book cases at $87.50 each, but at the urging of Mayor George Zachariah, they decided to substitute five credenzas at about $154 each.

"If we're going to furnish the center at all," Zachariah said, "we might as well do it as best we can." He said the credenzas will hold as many books as the book cases as well as provide additional storage and table-top space.

Grand total of the cost of Shaw-Walker furniture and clinic equipment from other sources was estimated at $3,371.

"Shaw-Walker furniture is top-grade equipment," Arnold Marshall, commissioner, said.

"I feel we should furnish the center as well as possible, with furniture that will last 30 or 40 years at least. It'll be cheaper in the long run." About 46 pieces of furniture and clinic equipment will be bought for the center.

Roy Anderson, assistant city manager, said today the equipment and furniture may possibly be shipped and received by the middle of November.

Final Season Rodeo Slated

Pro rodeo spurs into its last contest for the season this week, at the Cow Palace in San Francisco, to decide the 90 top money winners — 15 men from each of six events — eligible to compete for 1965's national cowboy championships.

The National Finals, rodeo's world series, will be held Dec. 4-11 in Oklahoma City, co-sponsored by the chamber of commerce and the National Cowboy Hall of Fame.

Division of the finals $55,000 prize money is added to a contestant's seasonal winnings to determine the year's titlists.

Leading all - around cowboy title charts, as he has for the past two years, as the Cow Palace opens Friday, will be Idaho's great, Dean Oliver, who hiked his total to $31,775 with a $1,150 grab over the weekend at a rodeo in Las Vegas, Nev.

But the calf roping title, in Oliver's possession for the last five years, appears lost to husky, Glen Franklin, 30, House, N.M.

Franklin pushed his calf roping loot to $28,952 over the weekend, setting a new record for money corraled in one rodeo event. The old mark, $28,841 was set by Oliver in 1960.

Former Glasscock Agent Promoted To New Post

A man who served as county farm agent in Glasscock County in 1936 and who prior to that time was assistant in cotton adjustment in Borden, Scurry, Dawson and El Paso counties, has been promoted from state agricultural leader to assistant director of the Texas Extension Service.

He is V. G. Young and his new promotion became effective Oct. 1. He will be replaced as state agricultural leader—a post he has held for eight years—by Joe H. Rothe. Rothe has been district agricultural agent since 1954.

Young was first employed in 1934 as an assistant in cotton adjustment in the counties named. In 1936, he became county agent for Glasscock County, and in 1940 became county agent for Midland County. In 1941, he entered the military service, returning to Midland in 1946 with the rank of major. A year later he became district agent and continued in that capacity until 1957, when he became state agricultural leader.

Moss Represents WT Chamber At Wash. Hearing

ABILENE — The West Texas Chamber of Commerce, will have a representative in Washington Oct. 28 when the federal government opens a special hearing on the petrochemical industry.

The Interior Department has called a public hearing to get more information on petrochemicals. The Commerce Department will also participate.

Preston Mangum, chairman of the petroleum and chemicals committee of the WTCC, announced that Joe Moss, vice president and chief counsel, Cosden Oil and Chemical Company at Big Spring, would represent the West Texas Chamber of Commerce at the Washington hearing.

The West Texas Chamber's Board of Directors passed a resolution Oct. 2 regarding the petrochemical industry and the Washington hearing, saying that it "may well be the first step to federal legislation."

WEATHER

Mike Readings Another Factor In Cotton Loans

The U.S. Department of Agriculture has announced that micronaire readings, commonly referred to as "mike," will be included as an additional quality factor for 1965-crop upland cotton going under price support loan after Oct. 31, 1965.

However, loans disbursed after Oct. 31 on cotton classed prior to that date on which the classification cards do not show micronaire readings will be made without regard to micronaire.

Mike readings determine the fineness and maturity of the fiber. These qualities affect spinnability and value of the cotton, and mike readings are widely used in commercial cotton transactions. The micronaire premiums and discounts will be in addition to premiums and discounts for grade and staple announced last May 17.

A mike reading will be determined free of charge and shown on the classification memorandum by the cotton classing offices of the Consumer and Marketing Service for each bale of 1965-crop upland cotton classed after Oct. 24, for producers.

Nothing To Take

The Teenage Baseball Park concession stand was burglarized sometime Tuesday, officers said today. Nothing was taken, however, as the stand contained practially nothing of value.

Police List Only One Wreck, Radar Snags Speeders

Only one minor traffic accident occurred Tuesday, police said today.

The cars of James Wylie Daves, 1510 Scurry, and William Alton Woods, 2211 Main, were in collision at the intersection of Seventh and Lancaster streets. No one was injured, officers said.

A large number of tickets were issued via "hidden" radar sets Monday and Tuesday, officers said, indicating knowledge of the radar may have slowed enough drivers down in the past couple of days to result in fewer accidents.

Nine speeding tickets were issued from information gathered by a radar unit this morning. The unit was a marked police car, officers said, but the unmarked cars will be used for an indefinite period.

Baptist Convention Chooses President

HOUSTON (AP) — The Rev. J. Carroll Chadwick, 50, pastor of the First Baptist Church at Center, was elected president of the 1,700,000-member Baptist General Convention of Texas today.

The new president has been chairman of the convention's 192-member executive board the past two years. He succeeds Dr. Abner V. McCall, president of Baylor University.

The Rev. Mr. Chadwick received 1,051 votes to 751 for the Rev. L. L. Morris, pastor of the First Church at Midland.

The convention also adopted a record $11.6 million budget for 1966. The budget reprcsents a $300,000 increase over 1965. The largest item calls for $3.8 million for worldwide missions coordinated through the Southern Baptist Convention cooperative plan.

An anticipated floor fight over acceptance of federal aid by Baptist educational and welfare institutions did not develop during two business sessions.

Bell's Future Being Decided

Joe Neil Bell will find out Friday at 10 a.m. if his three-year probated penitentiary sentence is to be revoked.

Bell, convicted of theft some months ago, was given probation on the three-year sentence imposed as punishment. He was recently brought back to Big Spring from Weatherford and is being held in jail here on a complaint that he has violated terms of his probation.

Judge Ralph W. Caton, 118th District Court, held a brief hearing today and announced that the decision on Bell would be reached Friday.

At Conference

Dean H. Lagerstrom, chief of business services division, Big Spring VA Hospital, is in Denver, Colo., today attending a three-day conference of supply officers and chiefs of business service divisions of the St. Louis area. The conference will feature discussion of several program changes including the conversion to automated payroll accounting by several of the hospitals in the area.

Plans Divorce

Miss America of 1964, Donna Axum Buckley, above of El Dorado, Ark., says she plans to divorce her husband of less than a year, Michael Alan Buckley of Bloomington, Ill. The couple eloped and wed Dec. 21, 1964, in a quiet ceremony in Pine Bluff, Ark. She did not reveal the grounds of her divorce or whether she would seek custody of the couple's child. (AP WIREPHOTO)

Klan Official Won't Answer

WASHINGTON (AP) — A North Carolina Ku Klux Klan offical was quoted today as telling a rally that state troopers who were taking down Klan license numbers "must be part nigger."

"If they had any guts and were decent white men they would take off their badges and be resurrected," George F. Dorsett was quoted as telling a rally at Henderson, N.C., last April 17.

WON'T REPLY

Dorsett himself refused to answer any questions before the House Committee on Un-American Activities — even to say where he was born. But committee investigators identifed him as a 48-year-old former house painter from Greensboro, N.C., who is now Imperial Kludd (chaplain) in the Klan, as well as head of the order in North Carolina's Fifth Congressional District.

"A DISGRACE"

Chief investigator Donald T. Appell said a committee investigator had attended the Henderson rally, and he read the quotations from the investigator's report.

The report said Dorsett singled out a state police officer at the rally, identified only as Sgt. Cook, and called him "a disgrace to his race, his uniform and the state of North Carolina."

Appell produced photographs he said showed Dorsett at Klan rallies, dressed in a military-type uniform with a captain's bars on one shoulder and a chaplain's cross on the other.

Extradition Seen Unlikely

AUSTIN (AP)— Dismissal of assault charges against Mrs. Madalyn Murray O'Hair in Maryland probably will stop extradition proceedings in Texas, her lawyer believes.

Criminal Court Judge Shirley Jones in Baltimore dismissed the indictment Tuesday, citing a recent ruling by the Maryland Court of Appeals that jurors cannot be required to affirm a belief in God.

Arthur Mitchell, Mrs. O'Hair's lawyer here, said there is no legal basis for extradition now that the complaint has been dropped.

Gov. John Connally already had ordered her extradition to Maryland. Mrs. O'Hair, who is free on bond, appealed, saying she feared for her life in Maryland.

"We will now take legal steps to have her released," Mitchell said.

Houston Meeting

Dr. Paul C. Furgason, chief of the physical medicine and rehabilitation service at the Big Spring VA Hospital, and Rex M. Bishop, coordinator, will be in Houston attending a conference of PM&R personnel from the St. Louis, Mo. area. The conference ends Oct. 29.

Carnival King, Queen Will Be Named Thursday

The parent - teacher sponsored Halloween carnival, for Lakeview Elementary School, will be held from 7 to 9 p.m. Thursday in the school gymnasium.

In addition to the regular festivities held during the carnivals, the Halloween King and Queen will be crowned at 8:45 p.m. Each grade level at the school selected candidates for each. Cup cakes were sold by the students in the hallway and each penny paid was good for one vote for the favorite for the king and queen. Each grade was assigned periods for the cake sales so that classes were not interrupted.

A radio will be given to some one attending the carnival.

Weather Forecast

Fair weather is expected to continue over the entire nation Wednesday night except in the Pacific Northwest where intermittent light rain and showers are expected. Temperatures below seasonal averages will continue over most of the eastern half of the nation while above-average temperatures will prevail in southern California and Nevada. (AP WIREPHOTO MAP)

Cong Defector Details Plight: He's Had It

(AP) — Dang Van Trong, a Viet Cong second lieutenant, came out of the jungle on a steaming hot day with a few dried beans clutched in his hand.

For him the war was over. He had had it.

Lt. Trong had been walking for three months and four days. An infiltrator from North Viet Nam, he left a staging area above the 17th Parallel with a platoon of 28 men. Only 18 were left. Ten had died in the past week, four of starvation.

That in statistical form was Trong's story. How much he held back or how much he invented can only be ascertained by trained intelligence teams.

TO ZONE D

Trong said his orders were to get his men to Zone D, a vast jungle area 100 miles wide and 60 miles deep. Government troops have penetrated only its fringes. The Viet Cong is suspected to be staging a massive troop buildup there with fresh units infiltrated from the North. But Trong, a North Vietnamese regular, never got there.

Instead, he slipped away from his men in the dense jungles of Quang Duc Province, somehow made his way to Route 14, walked into the nearest Montagnard village, and gave himself up.

He was given some beer and rice, which immediately made him sick, and was treated kindly by the raggedly uniformed popular force guards who man sandbagged outposts in the little hamlet.

FOR GRILLING

The Montagnards passed Trong onto Gia Nghia, the province capital, where again he was treated kindly and taken to the officers club for beer and rice, while waiting to be shipped on to corps headquarters at Pleiku for extensive questioning.

Conclave Planned

C. R. McClenny, commander, and Willard Sullivan, recorder, have announced a stated conclave of the Big Spring Commandery No. 31, set for 7:30 p.m. Nov. 8. The Order of Knight of Malta will be conferred at the conclave, and visiting Sir Knights are invited to attend.

Mrs. Locke, Active In Church-Civic Affairs Dies

Mrs. Mary Virginia Locke, popularly known church and civic worker, died in a local hospital shortly after 6 p.m. Tuesday. She had been in declining health for a long time, and in latter years confined to a wheel chair. She entered the hospital Saturday.

Mrs. Locke, 77, had made her home here for many years with a daughter, Mrs. Adolph Swartz, 909 Mountain Park.

Funeral services will be held at the 14th and Main Church of Christ at 2:30 p.m. Thursday, with the minister, Perry Cotham, in charge. He will be assisted by Dean Walter H. Adams of Abilene Christian College. Burial will be in Trinity Memorial Park, under direction of Nalley-Pickle Funeral Home.

The body will lie in state at Nalley-Pickle until time for the services. The casket will not be opened at the church.

For those wishing to offer offer memorials, the 14th and Main Church of Christ was suggested.

Until her infirmities precluded it, Mrs. Locke had been extremely active in her church and in the Ladies Bible Class. She had been a staunch worker in the USO unit here during World War II, and was one of the original Gray Ladies in volunteer work at the VA Hospital.

Mrs. Locke was a "Leap Year" baby, having been born in Throckmorton, Texas, Feb. 29, 1882. The family lived for a time in Miami, Tex., then she moved to Abilene so that her children might attend college.

After two of her children got degrees at Abilene Christian College, Mrs. Locke, a woman of remarkable talent, herself went to college and earned her own degree. She had taught painting for ACC in the early years at Abilene, then became head of the art department. She was with the college from 1923 to 1938. She came to Big Spring in 1941.

For a brief time she returned to Abilene to direct hobby activities for the Williamsburg Home, a residence for the aging.

A sprightly conversationalist, who maintained an interest in public affairs, she was a delight to many who called to see her after she became inactive.

Besides Mrs. Swartz, other survivors are a daughter, Mrs. Willie Smith, Bishop, Calif.; a son, C. B. Locke, Dallas; a brother, Glenn Coffee, Amarillo; seven grandchildren and five great-grandchildren.

Pallbearers will be Carl Coleman, Ray Richey, Jim Mc-Whorter, George Weeks, Gilbert Gibbs, Roy Brown, Walter Stroup and D. W. Pierce. Named as honorary pallbearers were Obie Bristow, Robert Currie, Horace Garrett, Truman Jones and Dr. Lee Rogers.

MARY LOCKE

Church Scores High Attendance

COAHOMA (SC) — The largest attendance in the 61 year history of the Coahoma Church of Christ was recorded Sunday for Homecoming.

Bible School attendance was 283. Morning worship was 350, and for the noon meal others attended from surrounding congregations totaling 400. People attended from Big Spring, Dublin, Midland, Lubbock, Dallas, Colorado City, Abilene, Austin, Odessa, Denver City, Rising Star, Stanton, Stamford, Snyder, Lamesa, Levelland, Houston, Hobbs, N.M., and Idabel, Okla.

Herbert Love is minister for the church.

J. D. Boren minister from Dallas, was guest speaker for the morning service.

OIL REPORT

Felkin Project Pumps 185 Bbls.

Gordon Knox Oil & Petroleum Corp. has completed its No. 1-B Wright in the Felkin (7500-foot Spraberry) field to pump 185 barrels of 39 gravity oil in 24 hours.

Operator drilled to 7,580 feet, set 4½-inch casing on bottom and perforated between 7,505-11 feet. He acidized with 1,000 gallons, and fractured formation with 20,000 gallons, plus 40,000 pounds of sand. Gas-oil ratio was 660-1.

Location was spotted 1,980 feet from the south and 1,320 feet from the east lines of section 8-I, J. Poitevent survey, 17 miles northeast of Lamesa.

The same operator is moving off the rotary rig, and preparing for completion of the No. 2 Wright in the same section and block. He drilled to 7,582 feet, and set 4½-inch casing on the bottom. It is 1,320 feet from the north and 1,980 feet from the west lines.

Three field locations have been staked in Howard County, two of them water supply wells.

W. F. Company Ltd. staked the No. 31-W-C TXL, and the No. 33-W-A TXL in section 33-30-1s, T&P survey, eight miles southeast of Coahoma in the Snyder (San Angelo) field. Both will go to 2,800 feet.

The first is spotted 10 feet from the north and west lines of the section, and the second will be 10 feet from the north and 1,330 feet from the west lines.

Moss Petroleum Co. has spotted No. 25 A. J. Hooks, 1,650 feet from the north and 930 feet from the west lines of section 140-29, W&NW survey, three miles east of Forsan, to go to 2,800 feet in the Howard-Glasscock field.

Enrollment Gains 13

Big Spring school enrollment continued to climb during the past week, with a net gain of 13 students over the previous week. Figures compiled Friday showed a total of 7,820 students in all schools. Elementary schools gained 15 and secondary enrollment was down 2.

Enrollment by schools, with the increase or decrease figures in parentheses, showed: Airport 509 (up three); Bauer 543 (down four), Boydstun 459 (down four), Cedar Crest 298 (up one), College Heights 453, Gay Hill 101, Kentwood 105 (up three), Lakeview 246 (up seven), Marcy 675 (up four), Park Hill 315 (up one), Washington 666 (up four); total elementary 4,361 (up 15); Goliad Junior High 1,001 (down six); Runnels Junior High 928 (down two), Senior High 1,362 (up six); total secondary 3,291 (down two); Special Education 168; total all 7,820 (up 13).

DAILY DRILLING

BORDEN

H. L. Brown Jr. and W. J. Heath No. 1 McDowell Estate, spotted 1,980 feet from the south and 1,787 feet from the east lines of section 84-25, H&TC survey, as a Wolfcamp prospector, was making hole below 5,574 feet.

DAWSON

Midwest Oil Corp. No. 2 D. E. Richards, in the Block 35 (Dean) pool, 6 miles southeast of Lamesa, was drilling ahead at 5,342 feet in lime. Location was staked 600 feet from the south and east lines of section 35-35-5n, T&P survey.

GLASSCOCK

Connally Oil Co., Inc. No. 1 Gordon Stone, prospecting the Wolfcamp 660 feet from the south and west lines of section 46-36-1s, T&P survey, 10 miles southeast of Stanton, is drilling below 9,635 feet.

David Fasken of Midland No. 1 Gladys Clark et al, in the Garden City (Fusselman) field, 8 miles east of Garden City, is making hole below 3,545 feet. It was spotted 467 feet from the north and east lines of section 6-33-4s, T&P survey, 1¼ miles northwest of the discovery in the three-well pool.

Penroc Oil Corp. No. 1-A Tom is drilling below 7,115 feet in the Gordon Street, South (Lower Wolfcamp) field. Location is 640 feet from the north and 1,000 feet from the east lines of section 48-36-1s, T&P survey.

Samedan Oil Corp. No. 2 Beth Fowler, 1,000 feet from the north and 1,940 feet from the west lines of section 6-35-2s, T&P survey, 6 miles southeast of Stanton, was drilling below 3,486 feet.

HOWARD

Apache Oil Corp. No. 2 P. B. Adams, 660 feet from the north and 780 feet from the east lines of section 42-33-3n, T&P survey, is below 6,520 feet, making hole.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, WEDNESDAY, OCTOBER 27, 1965 SEC. B

DEAR BOSS:

They'll Probably Mark Halloween Both Days

DEAR BOSS:

Your disturbing inquiry — "since Halloween falls on Sunday this year, when will the youngsters do their trick-and-treating?"—is at hand.

After deep and long research, I have come up with the only possible answer:

"Yes."

The last time we had a Halloween on a Sunday was in 1954. Who remembers how it was celebrated?

The kids who were out tricking and treating that night are grown now. Some may even have kids of their own out on the town.

DULY NOTED

It is quite enough to know that there is a Halloween. It will be duly noted on the calendar as Oct. 31. It will probably be noted by kids of assorted sizes on both Saturday and Sunday.

I have discussed this issue with many of our more learned citizens. One made a classic reply to my question "What night will the kids celebrate Halloween?"

His answer:

"Who?"

He then explained he didn't know it was so close to Halloween and, the way things were, he figured every night these days was Halloween. "I just ain't getting my share of treats any time," he cried, "and tricks ain't what they should be either."

I note that the stores have stocked generous supplies of Halloween costumes. Apparently they are not worrying over the fact that the date is Sunday.

If you haven't looked, Boss, they've some jimdandy getups this year. They are guaranteed to scare the livin' daylights out of any kid who puts one on and looks in a mirror. You can get all kinds of costumes—witch, ghost, werewolf, pirate, skeleton, devil, owl, bird, wizard, superman.

VAGUE ORIGIN

The origin of this annual celebration, Boss, seems to grow vaguer each year. The celebration, too, has tamed down a lot from what it was half a century ago—if we are to believe the tales told by the middle- and a little past middle-aged gents of how they used to tear things up on Oct. 31.

The big books say that the date goes 'way back beyond the day of the historians. The Druids made a to-do of it when they were in charge of things in what is now the British Isles.

The best I can figure out, there were so many holy persons who were entitled to honor, the Church in ancient times set up one celebration called "All Saints Day" or "All Hallows Day". The date was Nov. 1. Hence, Oct. 31 became Hallows Eve, then Hallowe'en.

In old days, the night was largely devoted to trying to peer into the future—it being believed there were spirits abroad who could tell one what was ahead.

There was a belief, too, Boss, that babies born on Oct. 31 were gifted with the ability to converse with supernatural beings. Spirits, you might say.

I missed being born on Halloween by six days. Hence no gift to talk to spooks was granted me.

DON'T KNOW

If I had been born on Oct. 31, I might be able to answer your question about when the kids will be trick-and-treating. As it is, I just don't know.

Your Spook-Minded Reporter
SAM BLACKBURN

P.S. Nevertheless, I think it would be a good idea to nail every loose thing down around your place before Saturday night.—SWB

Funds Sought For Women Interested In Teaching

A move to find and support local college women, 35-years-old or over, in graduate study to prepare for careers on college and university faculties has been announced by Mrs. Gary Sims, president of the Big Spring Branch of the American Association of University Women. She has announced the appointment of Anna Smith, 1308 Runnels, as chairman, and Nell Brown, 411 Bell, as advisor of the college faculty program (CFP) in its drive for funds.

Mrs. Sims, in making the announcement, pointed to the rapidly growing need for faculty members in Texas colleges and universities. She said nearly 24,000 more students needed additional faculty members last year than the year before, and that the need would grow.

"New teachers for them must be found," she said. "We know there are many able women eager for this career, who are now free to undertake it, but unable to finance the necessary graduate study. Miss Smith will take the lead in Big Spring's search for funds for local women."

The college faculty program will provide each woman selected tuition and fees for an academic year, plus a personal stipend related to her needs. These stipends will range from $600 to $2,000 for full-time graduate study. Awardees may attend any regionally accredited graduate school or program, but the stipend is based on the assumption that the school will be within commuting distance.

"The program has recently been renewed in Texas after concluding a successful three-year demonstration, in June of this year, in 11 southeastern states," the president said. "In that period, 126 southern women achieved their goals, and are either studying or teaching in accredited colleges and universities."

For more information about this program, telephone AM 4-2262 or AM 3-6788 in Big Spring or write AAUW College Faculty Program, 2401 Virginia Avenue, N.W. Washington, D.C. 20037.

MRS. WANDA KNOX

Missionary To Speak Tonight

A missionary to New Guinea, and widow of the late Rev. Sidney Knox, pastor of the Big Spring Church of the Nazarene from 1952 to 1959, will speak at the 7:30 p.m. service there today. She is Mrs. Wanda Knox. The couple entered the mission field in 1959. Their term of service was shortened by the Rev. Knox's death that year.

Mrs. Knox and her two children returned to the field, however, and she has earned a year's furlough to return to the states.

She is now doing graduate study in Bethany (Oklahoma) Nazarene College, and spends the weekends speaking at churches within driving distance of the college.

The Rev. D. M. Duke, pastor, said the public is invited to hear the missionary who is a dynamic speaker with a personality to interest and inspire in her work.

Exile Pleads Guilty In Air Piracy Try

KEY WEST, Fla. (AP)—High above the Florida Keys Capt. K.I. Carlile faced a decision aboard National Airlines Flight 209 from Miami to Key West:

He could obey the desperate commands of an armed Cuban exile and fly the plane on to Havana, or he could gamble and attempt to overpower him.

DISARMS EXILE

Carlile decided to gamble, and with the help of his crew disarmed the would-be hijacker Tuesday. The plane landed at Key West at 1:09 p.m. (EST), only nine minutes late.

The exile, Luis Medina Perez, 20, who said he wanted to see his family in Cuba, was wounded and taken prisoner in the 1961 Bay of Pigs invasion. He was one of 60 prisoners returned to the United States April 14, 1962.

Perez pleaded guilty Tuesday to attempted piracy of an airplane—a federal offense which could carry the death penalty—and was held here in default of $25,000 bond.

The propjet Electra, with a crew of five and 27 passengers including Medina, was 20 minutes out of Miami when the control tower at Miami International Airport got its first word of the incident.

BB PISTOL

The FBI said Medina was armed with a BB target pistol which he concealed in a paper bag so that only the butt protruded.

FBI Agent Ralph Jensen of Key West said this made the pistol look like a 45-caliber automatic.

Urges Strict Auto Laws

To the Editor:

In your Editors' column Oct. 19, 1965, you ask a question "can we do something?" You bet we can do something. And it is long overdue. Here is what should have been done long ago.

Instead of requesting that those who register cars try to make provisions for having sufficient financial backing to cover any likely damage cost should they be at fault for causing a wreck, a law with long and strong teeth should be put on the books that demanded that before a car could be licensed (tags issued) the owner of the car should be required to produce an insurance certificate showing that there was insurance property loss and property damage of $10,000, $20,000 and $5,000 at least for a minimum of 10 months or until the end of the registration period, whichever comes first. If he does not have this coverage, no tags.

If this were the situation, many of the cars which are owned by those who cannot afford to carry insurance would not be driving and endangering responsible citizens. If caught driving without proper authorization, then to the pen for him.

Yes! Something can be done, and it is high time it is done. This town has lost two very good citizens because of the laxity of our automobile laws which permit irresponsible characters to operate a machine and use it as a deadly weapon.

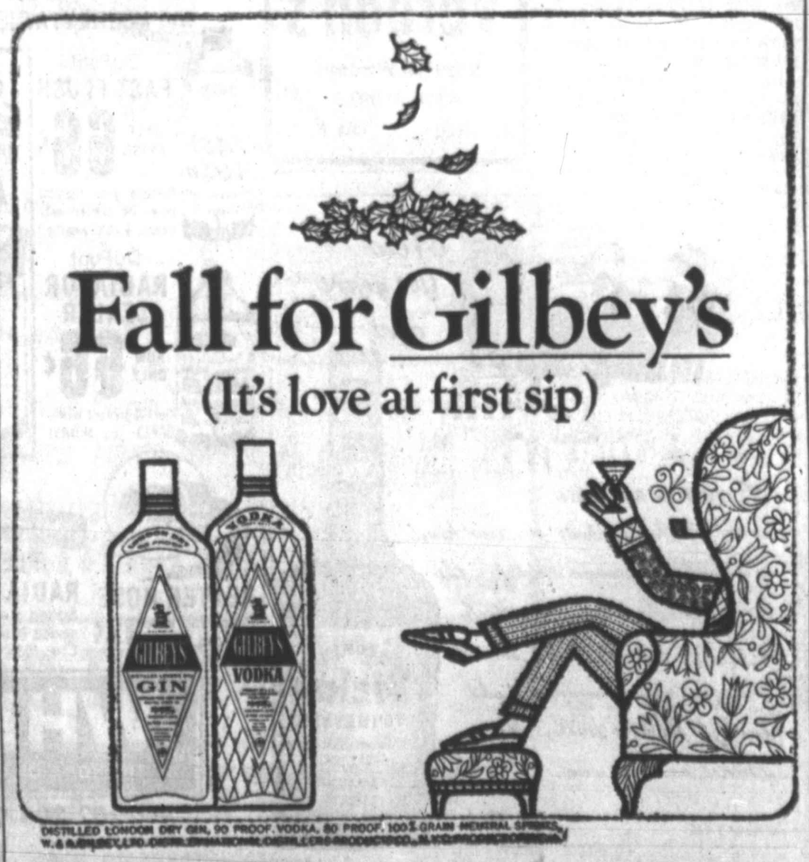

Let's see you run something in your paper that will stir up the citizens of this county, and where your paper is distributed, that will make them get so mad that they will harrange their state representative so consistently that he will drive legislation through to do what I have outlined above. How about it?

JACOB W. UNGER
1024 Birdwell Lane

Defendants Must Wear Jacket, Tie

PROVIDENCE, R.I. (AP)—Lumberjack shirts, sweaters and open collars have their place, but not in Superior Court presided over by Judge Joseph R. Weisberger.

He has warned lawyers that defendants appearing before him should wear jackets, shirts and ties.

Howard Twilley Mad Over Bobbled Pass

TULSA, Okla. (AP) — Tulsa end Howard Twilley and his battery mate, quarterback Billy Anderson, are a couple of perfectionists who won't be satisfied as long as some passes miss the mark.

Twilley, named Lineman of the Week for his performance last Saturday in Tulsa's 49-6 win over Cincinnati, was still disgusted over the one he missed when informed of the honor.

"I'm surprised I got it," he said, shaking his head slowly from side to side. "Did you see the one I missed?"

The miss that upset the Galena Park, Tex., senior brought a gasp from the crowd and the comment, "Well, now we know he's human," from a Cincinnati sports writer.

"I had it on my finger tips but my knee hit it when I started to bring it in," Twilley said. "I'd have had it if I had dived.

"I really hate to miss a pass," he added. "It's such a long way back to the huddle."

The 5-foot, 10-inch, 180-pounder recalled that he missed one almost as easy back in the Houston game, Tulsa's first of the season.

In the meantime, he's caught 73 (enough to win the NCAA pass receiving title in any year but 1964 when he won it with 95) for 1,014 yards and seven touchdowns.

In the Cincinnati game, Tulsa's sixth of the season, he caught 14 passes for 226 yards and two touchdowns. He also kicked a conversion and caught a conversion pass.

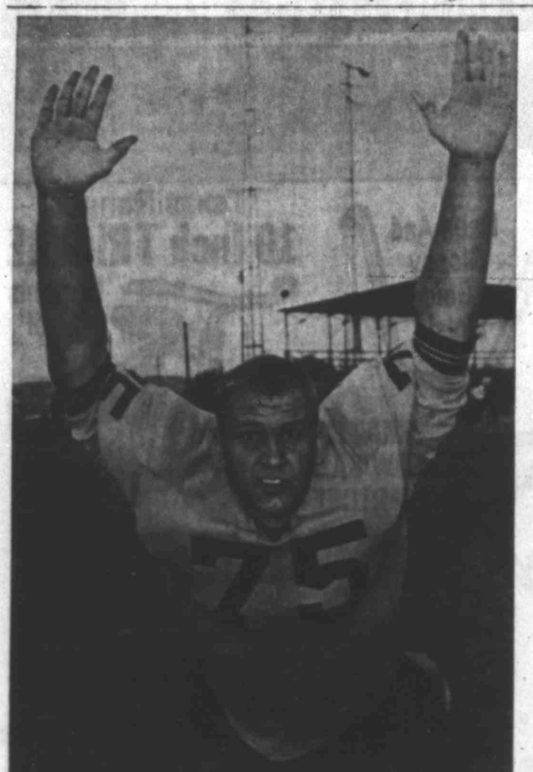

"I had a pretty good game," he smiled, "but I think my best one was against Memphis State."

Against Memphis, Twilley caught 16 for 267 yards and two touchdowns.

The only national pass receiving record Twilley doesn't own outright is the one for career touchdowns. He's tied with Vito Ragazzo (William & Mary 1947-49) with 23.

Anderson, the nation's leading passer, hit 32 of 55 for 451 yards and six touchdowns against Cincinnati.

"I wasn't really sharp," he said. "I missed some early that I should have had."

Awaits Cougar Test

Wesley Ballou, senior tackle with the Big Spring Steers, will be very much in evidence when the locals play host to the rugged Abilene Cooper club at 8 o'clock here Friday night. Ballou is a 212-pound senior. (A Good-Valdes photo)

Cooper Has Best Punter In State, Says King

Abilene Cooper, next football opponent of the Big Spring Steers, was described as a team "strong on defense, with the best kicking game in the state" by Steer scout Tom King in a talk made before members of the Quarterback Club at the High School Cafeteria Tuesday night.

King said the Cougars, who are playing under a new coach, are using four seniors, two sophomores and five juniors in their starting unit.

The Big Spring scout said the Cougars had had the misfortune of playing three of the area's top Class AAAA teams in their first district assignments and had lost all three games.

Their punter, Mitch Robertson, compares favorably with good college kickers, according to King. He was described as the kind of punter that gets a team out of a jam with his high, long boots and forces a team to march a long way for its touchdowns.

Cooper played San Angelo off its feet although trailing until ten minutes to play, then was forced to gamble and finally lost, 36-0.

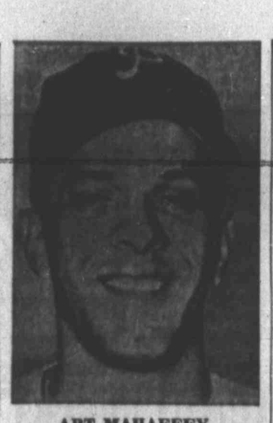

In Larry Mildren, the Cougars possess perhaps the best sophomore quarterback in the state, King said. He is a boy who overshadows a lot of seniors at that position, the scout added. Mildren can throw any type of pass with authority and is good on the sprint-out type of play.

The Cougars also have another fine sophomore back in Randy Allen, a 155-pounder.

Action films of the Big Spring-Abilene High game were screened for the benefit of the audience. Head coach Don Robbins offered the commentary.

Magallanes Wins

CARACAS, Venezuela (AP) — Magallanes swept a doubleheader from Aragua, 6-0 and 2-1, in Venezuelan Winter League baseball action Tuesday night.

ART MAHAFFEY

DICK GROAT

Cards, Phils In Big Trade

PHILADELPHIA (AP)—The Philadelphia Phillies obtained first baseman Bill White, shortstop Dick Groat and catcher Bob Uecker from the St. Louis Cardinals today for pitcher Art Mahaffey, outfielder Alex Johnson and catcher Pat Corrales.

The deal obviously opened the way for other trades, especially for the Phillies, who already have slugger Dick Stuart at first base and both Bobby Wine and Ruben Amaro for shortstop.

White and Johnson apparently were the key figures in the six-player swap. It was known that the Phillies were disenchanted with Stuart and figured to look for help at first base.

The Cardinals recently began a house-cleaning of the team that won the National League pennant in 1964 but slumped to sixth last season with the trade of third baseman Ken Boyer to the New York Mets for southpaw pitcher Al Jackson and infielder Charles Smith.

Griffin Is Low In Links Play

ANDREWS (AP)—The West Texas PGA Golf Tournament hits the mid-stretch today, with C. G. Griffin of Brownfield out in front. He shot a 3-under-par 67 Tuesday in first round play.

Griffin was followed by Jack Walker of Midland, 68; and Bobby Westfall of Floydada, Harold Beavers of Lubbock, Benny Adams of Lamesa, F. A. Smith of Andrews and Bob Baker of Hereford, all tied with 69s.

The 54-hole tournament runs through Thursday.

Griffin lived in Big Spring several years ago, at which time he took up golf as an amateur.

Mexico Winner

MEXICO CITY (AP) — Mexico came from behind and defeated Cuba 95-89 and Puerto Rico whipped the Virgin Islands 93-52 in the Central American and Caribbean Basketball Tournament Tuesday night.

LOOKING 'EM OVER

With Tommy Hart

The State of Texas will likely be represented by three men on this fall's concensus All-America football team. There could be four.

The three who are front runners for positions on the elite eleven are Donnie Anderson of Texas Tech, who hails from Stinnett; Tommy Nobis of Texas, a native of San Antonio; and Carl McAdams, Oklahoma, whose home is in White Deer, Texas.

Howard Twilley of Tulsa University, a resident of Houston, has a good chance to rate the squad, too.

* * * *

Wally Bullington, head coach at Abilene High School, hasn't had one of his teams lose two games in a row since he took over as head coach there in 1960.

His overall record there in 5½ seasons is 38-18.

Wally played his high school football under Hal Self, who guided the Alabama Crimson Tide to a Rose Bowl championship as a quarterback.

In college at ACC, he was coached by Tonto Coleman and Garvin Beauchamp.

* * * *

On only two occasions since he took over in 1963 as head football mentor here has Don Robbins seen his teams lose two in a row. Back-to-back defeats were inflicted on the Steers by Snyder and Wichita Falls in 1962. The Longhorns have now dropped successive decisions to Midland and Abilene this year.

The Steers' longest winning streak during the Robbins' era, starting with the last game of the 1964 campaign and extending through the first four games of '65.

* * * *

Snyder High School benefited from the transfer from the state of Colorado of a sophomore named David Mills, a first string defensive guard for his school before he moved.

He won't be eligible to play against Big Spring next fall but can perform against the Steers in 1967.

* * * *

Spike Dykes, head coach at Coahoma High School, played his high school ball at Ballinger. If fans anywhere come any more rabid than they do at Ballinger, they'd have to be given a saliva test.

Spike hasn't lost his affection for the Ballinger spirit, even though he's been gone from there several years. He recalled that at home games some years, fans would start gathering at the park as early as 5 p.m. Once the game started, the Ballinger fans stand up throughout the action.

Dykes found himself coming down with a fever and a slight chill last Thursday but the malady soon left him. Looking back, he thinks the spirit being generated at a Ballinger pep rally probably converged on him for a time. Ballinger fans were conditioning themselves for a crucial game with Winters at the time.

Whatever the cause of his temporary misery might have been, Dykes wishes communities everywhere showed the same kind of appetite for football the Ballinger fans have.

* * * *

A good bet for the Heisman Award this year is Mike Garrett of the University of Southern California, who does everything to near perfection for the Trojans.

Only West Coast player ever to win the honor was Terry Baker, then of Oregon State, in 1962.

Two Southwest Conference gridders—Davey O'Brien in 1938 and Doak Walker a decade later—have been awarded the trophy.

Porkers, Huskers Get Nod In Games

By HAROLD CLAASSEN
By The Associated Press

NEW YORK (AP) — It is getting to be the time for the traditional college football game. That means, they are traditionally tough to pick.

Last week's selections brought the season average to .727.

Michigan State over Northwestern — Lightning does strike twice in the same spot but will it strike four times? Three times previously under Coach Duffy Daugherty the Spartans have been tagged the nation's best only to be upset in the next game. This week they again are No. 1—but the lesson has been learned.

Arkansas over Texas A&M — The schedule maker has been kind to Arkansas since its terrific triumph over Texas.

Nebraska over Missouri — The Huskers have the nation's best total and rushing offenses and lead in team scoring. They also have a dual carburetor in quarterbacks Bob Churchich and Fred Duda. Against this, Missouri offers Charlie Brown.

Notre Dame over Navy — The Middies have no answer for Notre Dame's Larry Conjar and Nick Rassas.

Louisiana State and Alabama over Mississippi and Mississippi State — A college football doubleheader played on a neutral field at Jackson, Miss., with Alabama and Mississippi State playing the daylight half.

Purdue over Illinois — Bob Griese does Purdue's passing and kicking.

Florida over Auburn — Steve Spurrier, the Florida quarterback, has the pro scouts drooling.

Texas over Southern Methodist — Who can remember when Texas lost three Southwest Conference games in a row?

Syracuse over Pittsburgh — Many great gifts come in small packages, says an old axiom. At Syracuse you pronounce small like Little, Floyd Little.

Georgia Tech over Duke — Scotty Glacken, Duke quarterback, hurt and likely will not play again this year.

Oregon State over Washington State — The Cougars have beaten three Big Ten teams, but Oregon State is a member of Coast Conference.

Stringer Top 2-4A Scorer

Frankie Stringer of San Angelo, Larry Gatlin, Odessa; and Tim Thurman, Abilene High, are closely bunched in the District 2-AAAA scoring race, following last week's games.

Stringer leads with 48 points while Gatlin and Thurman each have 42 points.

Fourth in the scoring derby is Julio Guerrero of San Angelo, who has accumulated 39 points.

The scorers:

Packers Play Tough Defense

NEW YORK (AP) — Quick now, which attack is best — Green Bay's or New York's? Ninety nine out of 100 will say Green Bay but the latest National Football statistic show the Giants have gained more ground.

Statistics can be most misleading. For instance, they show Green Bay eighth in running, 11th in passing and ninth in total offense. But the all-important won-and-lost standings show Green Bay way out there with a 6-0 record. New York is 10th in running, seventh in passing and eighth in total offense. But they are 3-3 in the standings after absorbing a 38-14 beating from Cleveland.

The figures also show that Cleveland's much-maligned defense is better than a year ago when the Browns won the championship. Cleveland has permitted opponents to complete 45.1 per cent of their passes, has intercepted 10, given up 4.3 yards per rush and permitted 1,894 yards over-all.

However, the Browns are not among the leaders on defense. Baltimore's strong unit is showing the way in both total defense and rushing defense.

Queens Win 3rd In Row

FORSAN — The Forsan Buffalo Queens won their third straight basketball game at the expense of Ira here Tuesday night, 53-32.

Coach James Blake used reserves largely in the second and fourth periods. Jody Dodd led the Queens in scoring with 20 points. Connie Sterling paced Ira with 14.

In the back courts, Patsy Gooch, Sara Findley and Valyncia Conway excelled for Forsan, which returns to competition here next Tuesday night against Coahoma.

Forsan also won the B game 32-20. Angie Tidwell tossed in 17 points and Marsha Kirkpatrick ten for Forsan while Pam Sallee had nine for the losers. Forsan's B team is currently 2-0.

A game:
FORSAN (53)—Jody Dodd 8-4-20; Sherry Walraven 3-2-8; Mary Simpson 1-0-2; Mollie Condren 4-2-10; Nancy Anderson 6-1-13. Totals 22-9-53.
IRA (32)—Renoka Hooker 2-3-7; Jan Williams 3-4-10; Linda Wiggins 0-1-1; Connie Sterling 5-4-14. Totals 9-14-32.
Score by quarters:

Forsan	21	25	38	53
Ira	9	21	27	32

Cater On Beam

SAN JUAN, P.R. (AP) — Danny Cater of the Chicago White Sox hammered a home run in the eighth inning off his major league teammate Juan Pizarro to propel the San Juan Senators to a 4-3 victory over the Santruce Crabbers Tuesday night in a Puerto Rican winter baseball league game.

Rose Bowl Fever Comes Early

With the Michigan State University football team ranked first in the nation, students from the Bryan dormitory on the campus started encouraging the team (foreground) with a banner draped on an exhibition locomotive adjacent to the practice field. (AP WIREPHOTO)

Heffner Won't Direct Reds From 'Book'

CINCINNATI, Ohio (AP)—"I wasn't a 'book' player and I'm not a 'book' manager," is how Don Heffner describes the way he is going to manage the Cincinnati Reds' baseball team.

The 54-year-old Heffner, who once played second base on the same New York Yankees' team as Babe Ruth, was named to the job Tuesday. He succeeds Dick Sisler, who was dismissed as manager on Oct. 4 after the Reds folded in the final week and ended the season in fourth place.

Heffner's new boss is an old friend, Reds' President-General Manager Bill DeWitt, who gave him his first minor league manager's job in 1947 with the St. Louis Browns' organization. Heffner had been a coach with the New York Mets for the last two seasons. He has a two year contract with the Reds at an undisclosed salary.

"There are times to gamble and there are times to be conservative," said the pipe-smoking Heffner, discussing his baseball strategy.

"Take this situation: your lead-off man in the first inning hits a double down either line and everybody in the park knows it's a sure double. I'll settle for the double and don't believe in having the man try to stretch it into three unless it's obvious that he can go into third base standing up."

If there were one out when the batter hit the double, he would send the man on to third, Heffner added.

In disclosing Heffner's appointment at a news conference, DeWitt said he had talked to about six other candidates for the job. Heffner's name as the next Cincinnati manager was mentioned several times during the World Series, but both he and DeWitt said they came to terms only Monday.

Goliad's Mavs Slam Edison Tide, 32-0

Goliad Junior High's eighth graders vanquished Edison JH of San Angelo, 32-0, here Tuesday night in what must have been a surprise performance for all concerned.

The win was the fourth in seven starts for the Mavericks and their coaches said it was far and away, their best game of the season. All 42 boys who suited out got to play for the Big Springers.

Goliad scored twice in the opening period and two more touchdowns in the third.

Leonard Basco got the first Goliad touchdown from 55 yards away and Tommy Ryan added the two extra points on a run.

Ronnie McCarty collected the second six - pointer on a 35-yard run and Ryan again added the two extra points.

On the first play from scrimmage in the third, McCarty ran 45 yards for the Mavericks' third touchdown and Basco tacked on the two extra points on a dash.

Ryan added an insurance score before the third period ran out on a 70-yard run that started out as a reverse. Tommy Tanner scored the two extra points on a quarterback keep.

San Angelo did not threaten until the last 90 seconds, when the Crimson Tide manaaged to get to the Goliad 18.

Larry Brown of Goliad intercepted an Edison pass on his own 15 at one stage of the game and, behind excellent blocking, ran it back as far as Edison's 40. At the time, Goliad's third unit was in the game.

On offense, Jerry Stewart, Phil Guinn, Mike Murphy, Larry Milch, Tony Dean, Dan Cunningham, Mike Hudson, Tanner, Basco, McCarty, Steve Tidwell, Ryan and Brown stood out for Goliad.

Those boys also starred on defense, as did Lynn Cauley, Jim Gibbs and David Hanson.

The Mavericks play their next game a week from Thursday, at which time they play a return game with Sweetwater here. The locals will be seeking revenge in that one, since Sweetwater upset the locals recently, 14-12.

Edison left the park with a 2-4-1 record.

Aggie Frosh, Picadors Card Game In S'water

SWEETWATER—Texas A&M and Texas Tech play the second freshman football game in the history of the schools at Sweetwater's Mustang Bowl Saturday, November 13, at 7:30 p.m. under the auspices of Sweetwater Chamber of Commerce Athletic Events Committee. Tech won last year's game, 27-17, at Midland.

Plans are underway for a meeting of A&M and Tech alumni before the game, including a barbecue dinner. Thousands are expected from West Texas alone to the alumni meeting and game. Arrangements are under the supervision of Ed Aiken Jr. and Walter Maloney of Sweetwater, co-chairman of the committee and Tech alums.

The A&M team will reach Sweetwater the morning of November 13. Tech's team will arrive later in the afternoon. Mustang bowl, which will hold 7,000 football fans, is expected to be full for the game. Tickets are $1.50 for adults, 75 cents for students (both high school and college). Officials are members of Sweetwater Officials Association.

Coaches of high school teams in a 100-mile radius have been invited to bring their teams to Sweetwater for the game. High school teams will be admitted free when accompanied by their coach.

Texas Tech, by a flip of the coin, was selected as home team for the event. Tickets for the game go on sale November 1. Tickets will be sold by section with no reserved seats. Center sections will go on sale first. There are 2,800 center section seats.

Texas A&M Exes associations are contacting former graduates to attend the event, as are Texas Tech Exes groups. Final plans for alumni group seating and barbecue will be made as former students are contacted.

Aggies' Tackle May Miss Game

COLLEGE STATION (AP)—Texas A&M tackle Jack Pyburn is the only Aggie footballer not expected to be able to take the field Saturday against Arkansas, coach Gene Stallings said Tuesday.

Pyburn hurt his knee in practice and it looks like he is lost for the season, Stallings said at a news conference.

Coach Says Bears Still Contenders

WACO (AP)—That Good Old Baylor Line is getting pretty good again.

The Bears held Texas A&M to 99 yards total offense last week while sweeping to a 31-0 victory, and that's good defense in anybody's book.

Baylor has been characterized in recent years by a potent, protype offense and a defense more or less in name only.

Coach John Bridgers had this to say about the Bruin defense against the Aggies:

"You have to 'get good play from lots of boys when you hold the other team to less than 100 yards in modern-day football."

Early season predictions had it that Terry Southall's passes would put a lot of points on the scoreboard, but Baylor couldn't stop the opponents from scoring.

But Southall is out for the season with an injury, and Baylor is still doing pretty well. They've lost only one Southwest Conference game (to leading Arkansas) and Bridgers isn't near ready yet to count the Bears out of contention.

He (and a lot of other SWC coaches, after Rice's 20-17 victory over Texas), believe in the idea that any Southwest Conference team can beat any other league team on a given Saturday.

Deer Hunting Is Legal In Parts Of County

For the first time in five years, deer hunting is to be permitted in Howard County this fall, Royis Tucker, game warden, said today.

The season opens Nov. 13 and closes Dec. 31. The game limit is two bucks.

Tucker said there are "a few deer" in the county. They are of the white tail variety. He also warned that hunting in all parts of the county is not allowed—an area in the southeast portion of the county is still closed under the Wildlife Management Area regulation. He suggested any hunter should contact the property owner and determine for sure if hunting is permitted.

Announcement of the deer season was included in a general list of hunting seasons which are soon to open.

Sandhill Crane hunting opens on next Saturday. It extends through Nov. 28. Hunting time is sunrise to sunset. The area where crane hunting is permitted is in that part of Texas west of a line from the international toll bridge at Del Rio in Val Verde County northwesterly along US 87 to its junction with US 287 at Dumas in Moore County, then northwesterly following US 287 to the intersection with the Texas-Oklahoma line in Dallam County.

The daily bag limit of cranes is two, with not more than four in possession. Only shotguns may be used, plugged to three-shell capacity.

The Sandhill Cranes are moving in larger numbers this season than last according to residents of the west and southwest part of the county.

Other seasons and their dates:

Quail, Nov. 13 through Jan. 31. Bag limit 12 per day, not more than 36 in possession. Turkey season, Nov. 13, through Dec. 31. Bag limit one gobbler or bearded hen.

Duck, Nov. 24 through Jan. 2 from sunrise to sunset with a daily bag limit of four. The bag cannot contain more than two wood duck, two camvassback, one mallard or one pintail.

Tucker said that on the opening day of a season a person shall be permitted to possess only one day's limit of the species of game taken on the opening day. One fully feathered wing must be retained on all harvested migratory birds in the field or while in transit to the home of the hunter or to any public storage place.

Dove season is still under way, Tucker said. The dove crop this year has been exceptionally fine. The number of hunters, however, has been extremely small.

CHEVROLET WORKPOWER

WITH DOUBLE-STRONG CONSTRUCTION
Chevy pickups for '66 are built strong to stand up to tough jobs. Cabs, for example, have double-wall roof construction, a rigid double-wall cowl and husky framing around door openings. Lower side panels of Fleetside models are also double-walled. Chassis, too, is designed for extra strength. You can get a 6½-, 8-, or 9-ft. body and a big new 250-cu.-in. Six. Or specify a rugged 327-cu.-in. V8. Get a double-strong pickup that's a glutton for work!

Seven Indictments Returned Tuesday

Howard County Grand Jury voted seven indictments against six defendants Tuesday — including one bill charging murder with malice — in one of the shortest grand jury sessions in many months.

The grand jury was organized at 10 a.m. It submitted its report to Judge Ralph W. Caton in 118th District Court at 7 p.m.

The grand jurors indicted Dee Scaggs Jr. for the murder of Norris Saddler, but did not return a bill against him for the slaying of Curtis Saddler. Both men were killed at the same time and in the same episode. The grand jury also billed Scaggs for assault with intent to commit murder in connection with the shooting of Willie Roy English in the hand. This affray occurred Sept. 30.

The slayings of the two Saddlers was on Oct. 1.

A spokesman said the grand jury decided that the charge against Scaggs for the death of Curtis Saddler was not applicable, since there was evidence the victim was advancing on Scaggs as if to attack him. The slaying of Norris Saddler, however, lacked the self - defense element.

Other indictments voted were against George Raymond Maxwell, DWI second offense; Jerry Roberts Arrick, DWI second offense; T. L. Rupard, worthless check, repeater; Billy Dee Clark, burglary; Thomas B. Mundell, assault with intent to murder. Mundell was accused of stabbing Billy Stover in a fight Sept. 10.

The grand jury did not indict Arthur Lee Parker, charged with shooting Clereca Ezell Sept. 4. It also did not vote indictments against E. L. Hughes, charged with writing a worthless check; E. T. Tucker, charged with writing a worthless check; and Richard and Claude Hodnett, charged with theft.

The grand jurors, headed up by George Oldham as foreman are:

Harry L. Adams, Donald Lay, W. T. Abbott, Walter Ross, Mrs. Adelie Smith, Mrs. H. M. Smith, Tom L. South, J. L. Ridden Jr., Walter L. Wheat, Delbert M. Bardwell and Mrs. Ray Boren.

Fiedler, Marsh Headline Concert Season Opening

Ozan Marsh, one of the world's top keyboard virtuosos, will be soloist with the Buffalo Philharmonic Orchestra when the current season of the Big Spring Concert Association opens here this evening at 8:15 o'clock in the Municipal Auditorium.

OZAN MARSH

The orchestra, under the direction of Arthur Fiedler, who also has led the Boston Pops touring orchestra, is one of the outstanding symphonic groups of the nation. Thus, musical fans appear to be in for a rare double treat.

Marsh has been interpreting Busoni's arrangement of Liszt's "Spanish Rhapsody" for his spotlight. This has won universal acclaim from critics.

Arthur Fiedler needs no introduction as one of the leading conductors of the country.

Nor does Ozan Marsh for that matter, although the current tour is giving him a wider exposure than he has had before.

"He has few if any peers," noted the New York Herald Tribune concerning his solo appearance in a program of Franz Liszt music. Frequently his concerts are sold out. An indefatigable artist, Marsh made 59 appearances in 58 nights on a coast-to-coast swing.

The soloist was a scholarship pupil of the great Dutch pianist, Egon Petri, whose teacher was Busoni. Another of Marsh's teachers was Emil Sauer, who studied with Franz Liszt, thus he has a double exposure to the master composer and one of his leading interpreters. So much in demand is Marsh that he has made 12 appearances with the New York Philharmonic alone.

Admission is by season membership only, and these may be obtained through this evening's program. Others on the series include Nelson & Neal, piano duo; the Canadian ballet and dance troupe, Les Feux Follet; and Carlos Montoya, famous flamenco guitarist.

Commissioners Forbid Funerals On Sundays

City commissioners Tuesday decided there will be no funerals conducted in City Cemetery on Sundays, beginning Dec. 1. Local undertakers, florists, representatives of the city's commercial graveyard, Trinity Memorial Park, and pastors, requested the policy change in letters to the commission.

They said about 50 persons are generally required to conduct a funeral and burial on Sundays, which prevents their taking in church services and deprives them of their day of rest. The commission agreed without discussion. Commissioners agreed to give notice to the presidents of the three local banks that they, or whoever they appoint, make up the permanent care fund committee for the cemetery.

Trinity Memorial also will observe the Sunday bans.

ONE ATTENDED

Only one owner of structures decreed hazardous, under the city's hazardous structures regulation, appeared at a public hearing on nine questioned structures. He came about one hour after the commission decided to raze all but two of the structures, but was told he will have time to improve the building before the city gets around to levelling it.

Structures belonging to Mrs. W. S. Weatherby, 205 Jones, and the Will Davis Estate, 712 San Antonio, will not be torn down for at least another 60 days. The commission granted requested extensions in each case. Letters indicated Mrs. Weatherby is in the process of trading off her property, and that a new trustee has taken over the Davis Estate affairs and needs more time to decide what to do with it.

TAKE TURNS

The city will begin taking a turn bidding on property in sheriff's delinquent tax sales from now on, the commissioners decided. This means, John Burgess, city attorney, said, that the school board will bid up to tax value on the property on one sale, the county on the next, and the city each third sale. If bids do not go above the tax owed, the city, or county or school board, depending on which is bidding, will have the responsibility of selling the property to pay the tax owed.

Burgess was authorized to sign a supplemental water contract agreement with Webb AFB. He said the agreement contained some minor changes under a new Air Force contract manual. One of the changes is a clause stating the city will abide by the Equal Opportunity Act in its contract. He said the clause is now standard form with the military, even in contracts where there can be no application of the Act. The other change was requested by Burgess. It added a phrase whereby the city and Air Force agree that the city is the rate-making authority on water price.

A mutual fire protection agreement between Webb and the city was authorized. Under it, the city may call on Webb AFB fire-fighting equipment in emergencies, and the base may call on city equipment.

IMPROVE POOL

Larry Crow, city manager, told commissioners at least $12,000 will be needed in the near future to replace outdated filtering equipment at the big city park swimming pool.

"The park and recreation board was supposed to work up a study of future needs in the swimming pools, but has not yet done so," Crow said. "There are no funds budgeted now for such heavy expenditures the parks board needs, and we're going to have the problem of deciding whether we can fix the pool before next summer."

He suggested commissioners study the matter, and recommended budgeting enough money to revamp the pools in next year's budget.

APPROVAL GIVEN

Final approval reading of Mrs. Ann Scarbro's request for on-premises consumption at her Northside cafe was made. Jay Banks, police chief, who had expressed reservations about the licensing previously, has said he no longer disapproves of the request since Mrs. Scarbro told him she will close the cafe at midnight rather than remain open later for food sales.

Mrs. Adams, Resident Almost 50 Years, Dies

Mrs. R. N. Adams, 77, who resided in Howard County for almost half a century, died in a Dallas Hospital about 3:30 a.m. today.

She had been in failing health for the past two years and had been hospitalized here before she entered Baylor Hospital in Dallas two weeks ago.

Funeral will be held at 10 a.m. Friday, in the Baptist Temple Church, with burial in Trinity Memorial Park under the direction of Nalley - Pickle Funeral Home.

Mrs. Adams was born Fannie L. Lloyd in 1888 at Curten, Texas. She came here in 1907 with her parents, Mr. and Mrs. J. H. Lloyd, and the following year, on Sept. 6, she was married to Reese N. Adams.

Together they settled on a farm in the northwest part of Howard County, and over the years gradually added to their farm holdings. Mr. Adams, before his death in May, 1950, was regarded as one of the county's outstanding farmers. He also had been a trustee for the Soash school district.

For the past 10 years, Mrs. Adams had made her home at 1209 Dixie. She was a member of the Baptist Temple Church.

Surviving her are three sons, Paul Adams and Ray Adams, who live in the northwest part of the county, and Harvey Adams, Big Spring.

Mrs. Adams also leaves two sisters, Mrs. Pearl Scott, who made her home with Mrs. Adams, and Mrs. Dora Hicks, Dallas; three brothers, John Lloyd, Floydada, Arthur Lloyd, Napa, Calif., and P. E. Lloyd, San Jacinto, Calif. She also leaves eight grandchildren and one great-grandson.

Acreage For Peanuts Set

WASHINGTON (AP) — Texas received a peanut crop allotment of 356,851 acres Tuesday from the Agriculture Department.

Secretary of Agriculture Orville Freeman said the total 1966 allotment for peanuts would remain the same as last year, 1,610,000 acres.

He also set a Nov. 23 grower referendum to decide whether marketing quotas shall apply to the three crop years through 1968. The referendum will be conducted at the same time as a producers' poll on upland cotton and extra long staple cotton.

Madrid Abolishes Water Restrictions

MADRID, Spain (AP)—An end to water restrictions in effect in the Spanish capital since last May 15 has been announced. Officials said recent heavy rains led to the restoration of normal 24-hour service.

Hospitalized

Mrs. G. E. Fleeman, 901 Lancaster, is receiving treatment in the Medical Arts Hospital in Lamesa this week. She is now in Room 41, but may be permitted to convalesce at the home of Mrs. C. W. Schafer, 209 N. 14th, Lamesa, when she leaves the hospital.

Relief Force Battered At Besieged Spot

PLEI ME, South Viet Nam (AP) — After seven days of continuous action, the handful of U.S. Army advisers behind the barbed wire at Plei Me know they have been pitted against the Viet Cong's first team — a regiment from North Viet Nam's 308th Infantry Division. It shows on every haggard, grime-smeared face.

A relief column of more than 1,300 Vietnamese rangers, infantry, tanks and armored personnel carriers reached the besieged Special Forces camp Monday. The Viet Cong caught them in the open, and for more than an hour enemy mortars, heavy machine guns and automatic weapons poured fire into the relief force and into the camp.

CARRIED IN

Capt. Russell Hunter, the camp's doctor from Abilene, Tex., seemed to be everywhere inside the camp's perimeter as dead and wounded were carried in.

His week-old growth of beard was caked with brick-red dust and his eyes stared with fatigue.

One wounded U.S. adviser was brought to Hunter's underground aid station by other Americans. They carried him through the wire, under sniper fire, when South Vietnamese soldiers balked at bringing him in.

For some of Plei Me's defenders, the assault was too much. A noncom ripped the bandage off one Vietnamese soldier's arm and found no wound. Screaming with rage and grabbing him by the jacket, the noncom hauled the cowering soldier from a trench and kicked him back into the fight.

DEFENDERS RETALITE

The camp's defenders retaliated with 50-caliber machine guns, mortars and small arms. U.S. Skyraiders and jet attack bombers pummeled thickets on a gentle rise south of Plei Me where the Viet Cong lay hidden.

Each time there was a lull, shots from concealed Viet Cong snipers sent everyone scurrying for cover.

Bomb fragments and shrapnel splattered the camp as the planes and big guns hit close to the wire. Gunners of the U.S. 1st Air Cavalry division fired volley after volley of white phosphorus and high explosives with terrifying accuracy.

The Americans in Plei Me credited the planes with saving the camp. American pilots flew hundreds of sorties by day and night.

"When I meet a flyboy after I get out of here, I'm going to hug him and kiss him," said Maj. Charlie A. Beckwith. He commanded an American team which came to the rescue of Plei Me's beleaguered troops last Thursday with two companies of Vietnamese airborne rangers.

FROM ATLANTA

With no water for washing or shaving, Beckwith, 36, looked like an emaciated grizzly bear. He is from Atlanta, Ga.

"I thought it was all over, chief," said Staff Sgt. Frank Kowalski of Utica, N.Y. Kowalski, an artilleryman from the 1st Cavalry, had been attached to the Vietnamese 22nd Ranger Battalion.

"I bounced into a hole but it was a real small one and I bounced right out again," he said. Kowalski counted 10 mortar shells passing overhead as he sought a better hole.

Kowalski's forward artillery observer — another American — was wounded in the arm by a mine.

PINNED DOWN

The onslaught pinned down part of the rangers in trenches, bunkers and tunnels dug by the Viet Cong less than 100 feet from the outer wire on the northern edge of Plei Me, scene of the heaviest attacks last week.

The Viet Cong abandoned the earthworks and several of their dead.

"It was as much as I could do to stay there," said Capt. Paul Leckinger, 32, of Rochester, N.Y., senior U.S. adviser to the 21st Rangers. Leckinger had spent part of his fourth son's first birthday hugging the dirt Saturday night when a North Vietnamese regiment began to attack the relief column on its way to Plei Me.

Crouching in forward trenches inside the camp were Plei Me's garrison and their families. Wives comforted infant children next to their menfolk. Most are members of the Montagnard tribes of Viet Nam's central highlands. The camp is about 210 miles north of Saigon.

YOUTHFUL FIGHTERS

Montagnard youngsters in their early teens shouldered carbines and prepared to defend their squalid bunkers.

After one brief firefight, a Viet Cong prisoner was brought in. He was Cao Xuan Hai, 22, a master sergeant in the 324th Regiment of the North Vietnamese 308th Division.

He smoked a cigarette as he sat on the floor of a hut and answered questions put to him by Brig. Gen. Doan Van Quang, commander of South Viet Nam's Special Forces, who had flown into Plei Me that morning.

Work, Quality Demanded Of School Band Members

MOREHEAD, Ky. (AP) — "Let's go. Get down to that 20-yard line. Fast! Fast!"

Down the football field come two lines of young people.

"You there. Out for a Sunday stroll? Pick up those feet. Precision, precision!"

Left knees thrust waist high, left feet come snapping down. Right knees up. Right feet down. Again and again, eight steps for five yards.

"Oh, perfection! Whatever happened to perfection?"

The grass shreds along the sideline where Fred Marzan walks. His pipe bounces in the pocket of a brown shirt now past the saturation point. At his whistle, the lines halt.

"Everybody to the showers. And everybody back in two hours."

Football practice? No, another field drill for the Morehead State College Band.

A RECRUITER

The 150 bandsmen at this school of 4,300 near the northern tip of the Cumberland National Forest were hand-picked by Marzan. Now in his 10th year here, Marzan has borrowed some of a football coach's techniques to attract the students, recruiting and scholarships.

"It's quite frankly a recruiting job," said Marzan, 40, a native of Pittsburgh. "I started with a 17-piece outfit. It took some bush-beating for a while. We had to stimulate an interest, let them know that we had something to offer them—an education, a chance to develop a talent, the knowledge they could take back to their home communities and teach to others.

"This is being done, a good deal of it through state funds, so we look first in Kentucky. Our annual band clinic, set up in 1957, gives them a chance to meet the best players of their age group and to work with directors from throughout the state."

"B" AVERAGE

Students on scholarship are required to maintain a B grade average. The school furnishes instruments to those who cannot afford to buy them. Many of the bandsmen come from the tobacco and mountain country. Some of them have had extensive musical instruction, others have never worked with a music teacher.

"A youngster never leaves my band out of need for money," he said.

Marzan and his staff of nine teachers and graduate student aides spend a week preparing music and equipment for the "basic training" of a band camp before the start of the school year. The bandsmen then work a 12-hour day for six days to whip their basic program into shape.

Practice sessions are conducted daily during the school year, usually at least 90 minutes of group work and then individual practice as needed.

DEMANDS QUALITY

"I work them hard and demand quality, Marzan said. "They must try to develop their talents. I make a special point to get to know as much as possible about each of them."

"Sometimes, perhaps, I'm too strict—you know, I'd hate to be a student of mine. And other times I'm so pleased with their progress that I'm probably almost human to get along with."

The band has a new routine for each home football game and usually goes to at least one of the school's road games. During the rest of the year it plays on tour in parades in the region and holds concerts on campus.

Pack Makes 29 Awards

Pack 137 has been busy with its advancement, and Tuesday evening 29 awards were presented to boys at the monthly pack meeting at Washington Place School.

At opening ceremonies, the Pledge of Allegiance, was in charge of Den 4, Den 2 was in charge of the preview, and Den 3 presented a Halloween skit. The attendance banner went to the Webelos and the attendance monkey to Den 1. Bendiction was worded by Bob Bradbury, and the next meeting was set for Nov. 30.

Receiving Bobcat badges were Ronnie Huff, Tim Yates, David Travis, Robin Travis, Jimmy Shanks, Jay Mounce; Wolf badges, Rex Mayes, Tim Yates; arrow points, Robert Bradbury (3), Barry Canning (2), Mark Clark, Mike Clark, Troy Hogue.

One-year service stars went to Stanley Adams, Gary Bifson, Kelly Johnson, Chris Simpson, Gary Loving, Mike Clark, Mark Clark, Troy Hogue, Dennis Churchwell; denner bars to Don Rice, Randy Weaver, Mark Clark, Randy Christian; assistant denner bars, to Don Stewart, Ronny Huff, Ruel Metcalf. Mrs. Della Hogue was presented with a one-year service star and a den mother certificate of appreciation.

City Jail Has Extra Big Load

City jail has been well filled during the past two weeks, police said today. Of the 45 prisoners registered at the reception desk, 35 are Mexican nationals brought in by the Border Patrol, according to Leo Hull, assistant police chief.

But there is plenty of room left for lawbreakers, he added.

Police are really quite happy about the influx of "wetbacks," as the department receives a $2 check from the U. S. Treasury for each of the Border Patrol's charges each day the illegal entrants remain in the jail, Hull said. This turns into a profit, because meals for jailees run only 30 cents per prisoner per day.

Day Of $100-Billion Budget Seen As Near

WASHINGTON (AP) — The $119.3 billion in appropriations voted by the 1965 Congress reinforces the view of fiscal experts that the day of the $100-billion-plus budget is not far off.

The only question, they say, is whether the ceiling will be pierced in the current fiscal year or in the one that starts next July 1.

An appropriations total is no sure guide to what the actual spending will be in a specific year. Much of the money voted in 1965 will not be spent this year.

HIS FORECAST

President Johnson held his first two spending budgets, submitted last year and this, slightly below the $100-billion mark. His budget message to Congress last January forecast spending of $99.7 billion for the current year, fiscal 1966.

So far the administration has not revised this figure, although it probably will do so when the Budget Bureau completes its review of actions of the 1965 Congress.

SURPASS FIGURE

Congressional experts believe the spending estimate for fiscal 1966 may be revised upward to exceed $100 billion.

Charles L. Schultze, the budget director, already has conceded the budget for next year, fiscal 1967, will go above $100 billion.

The $119.3 billion in appropriations voted this year was exceeded only by the $147.1 billion in 1942, the first year of World War II. It is $13.2 billion more than Congress voted last year.

Johnson submitted appropriations requests this year of $121.7 billion, so Congress achieved a $2.4-billion cut.

India Aim: Self-Support

NEW DELHI, India (AP) — Lal Bahadur Shastri is telling the ragged and underfed of India's 480 million people: Hold up your head and act proud.

Behind the prime minister's appeal is a desire to build a war machine and a supporting civilian economy that will not have to depend on outside help for anything.

India, he says, must be independent and self-sufficient, able to fight and live on what it can produce itself.

If India is to fashion its own destiny, he says, the country must be free of the fetters and restrictions that go with reliance on outside help.

Shastri began this campaign after the September conflict with Pakistan had showed how vulnerable foreign aid had made India's strategists and diplomats.

PRESSURE ON

Much of the army's equipment comes from abroad, as does the food eaten by hundreds of thousands of Indians. Heavy pressure to stop the conflict was brought on India by aid suppliers.

The United States made it clear that future economic aid to India would depend to a large extent on an immediate ceasefire. Washington let India know it had no intention of financing a war in the subcontinent.

Lumber Company President Dies

Joseph Higginbotham, president of Higginbotham - Bartlett Lumber Company and son of one of the founders, died Tuesday in Dallas.

Services have been set for 2 p.m. Thursday at the First Community Church in Dallas, and the Higginbotham - Bartlett Company outlet here at 300 E. 2nd will be closed from 2 p.m. to 5 p.m. in memory of Mr. Higginbotham.

Kiwanians To Be Honored

Eleven Kiwanians, who collectively have 321 years of service in the Kiwanis Club, will be honored at the ladies night dinner of Kiwanis Thursday at the Big Spring Country Club.

Nine of the 11 members will receive pins and certificates making them Legion of Honor members. Two have already received such certificates and will be recognized, but will not be presented with any new mementoes at this time.

The Kiwanians who are to be initiated into the Legion of Honor are:

T. B. Atkins, 26 years membership; John Coffey, 25 years; R. B. G. Cowper, 31 years; W. B. Hardy, 31 years; Horace Reagan, 25 years; Nat Shick, 36 years; Sherman Smith, 26 years; Merle Stewart, 30 years; and Robert Stripling, 28 years.

The two other members to be recognized are Harvey Clay, 34 years; and H. W. Smith, 29 years. They have already received certificates.

The dinner is to be at 7 p.m. at the country club.

No luncheon meeting will be held at the Hotel Settles Thursday. However a "roundtable" will be set up in the hotel coffee shop for Kiwanians who cannot attend the evening event and who wish to maintain their attendance record.

Bob Travis, president of the club, said that the program at the country club dinner will be short.

Oliver's Case Set For Trial

Raymond Oliver, under indictment for assault with intent to commit murder, will be one of 10 defendants whose cases have been set for trial at the 118th District Court criminal jury docket opening next Tuesday.

Oliver is charged with shooting Lorenza Jackson in the heart. Jackson, despite the gravity of his wound, survived. He is now out of the hospital and will be a witness for the state against Oliver if the case comes up next week, Wayne Burns, district attorney, said.

Also set again, after being passed at the jury docket of last week, is the embezzlement case against Will E. Pharr. Pharr is accused of taking money from a loan company office here, when he was manager of the office. His case was passed last week because his attorney said that Pharr had been in a car accident and had not recovered from his injuries.

Also slated again next week is the case against Benjamin DeLeon, charged with burglary. DeLeon was tried on one occasion some time ago and a jury disagreed on the verdict. A mistrial was entered in the case.

Other cases on the docket, which will be started Tuesday, are: Doyle Denton, habitual theft; Crawford Burns, DWI second; Bill Franklin, forgery; Laurel B. Caughey, DWI second; T. V. Thompson, theft by bailee; Raymond V. Brock, DWI second; and Walter D. Chaney, DWI second.

Judge Ralph W. Caton has announced he will call the docket at 10 a.m. Monday. Any cases set for trial will be scheduled with the No. 1 case to begin Tuesday at 10 a.m. A jury panel is to report at that hour.

Commission Trio Named

AUSTIN (AP) — Gov. John Connally has appointed Mrs. Alfred Ratner of El Paso, Woodrow Sanderfer of Houston and Frank Robertson of San Antonio to the State Commission for the Blind.

Mrs. Ratner has taught visually handicapped children in El Paso schools. Sanderfer is assistant director of the Houston Lighthouse for the Blind. Robertson is executive director of the Texas Lions camp at Kerrville.

Mrs. Ratner and Robertson succeed James Curtis of Longview and Reginald Taylor of Columbus for terms expiring Jan. 1, 1971. Sanderfer succeeds Burt Risley of Austin for a term expiring Jan. 1, 1967.

Direct Space Transmission Lease Asked

WASHINGTON (AP) — The Associated Press has asked adoption of a policy which would let news media lease space communication channels directly.

The AP proposal was in response to a Federal Communications Commission request for ideas on what its policy should be regarding commercial use of the global operation of the Communications Satellite Corp.

AP APPLIED

The AP applied for a channel last April 15. It was the first news service to make such an application and it suggested this policy statement:

"Service to non-carriers shall be permitted when the purpose of such use is the dissemination of national or international news, in textual and pictorial form, intended for publication or broadcast by newspapers, other news publications, radio stations and television stations."

Federal law now permits Comsat to furnish circuits "to the carriers and other authorized entities."

FIRM CARRIERS

Carriers are such firms as American Telephone & Telegraph Co. and Western Union.

The law does not define "other authorized entities," and The AP seeks recognition as such an organization.

Cong Losses Heavy In Raid

SAIGON, South Viet Nam (AP)—While U.S. troops fanned out around Plei Me in mop-up operations, a toll of 101 Viet Cong dead was claimed today in fighting only 20 miles northwest of Saigon.

A U.S. military spokesman reported the heavy Communist casualties were suffered in an attack by an estimated two battalions of Viet Cong on a Vietnamese ranger battalion camped at Duc Lap.

Government casualties were termed moderate. American advisers with the rangers suffered light casualties, but all returned to duty after treatment, the spokesman said.

MORTAR BARRAGE

The Viet Cong hit the ranger camp at Duc Lap last June and again last month. The attack early today followed the same pattern — a barrage by mortars and small arms and then an assault on the camp.

The rangers fought back, and artillery and air assaults were made quickly on the attackers. The spokesman credited the repulse of the attack and the high Viet Cong casualties to coordination of ground and air fire power.

SWEEP SOUTH

At Plei Me, airborne American cavalrymen landed and swept south to clear out the last Communist strongpoint threatening the Special Forces camp.

Light mortar and recoilless rifle fire fell during the night near the camp which had been under siege for a week. But the troops of the U.S. 1st Cavalry Division met no resistance as they pushed through the jungle 210 miles northeast of Saigon.

Water Put In Well Storage

Recharge of specified areas in the Martin County well field was started Tuesday by the Colorado River Municipal Water District.

In two previous years of experimentation, the district has perfected techniques for putting water from Lake J. B. Thomas into the dewatered zones of the well field during winter months. This puts the water nearer to Odessa where it can be used to meet peak demands in summer.

The district has a 27-inch pipeline from Big Spring to Odessa, but from the Martin County well field there is a parallel 33-inch line to Odessa. When summer consumption rises, both lines are utilized to serve Odessa.

Approximately 2,000,000 gallons a day of lake water will be injected into the well field, principally into new leases obtained last year. The water is chlorinated before injection.

Collegians Give Blood To Military

By The Associated Press

Thousands of college students are giving blood to the armed forces with Pentagon appproval as a gesture of support for U.S. policy in Viet Nam.

The junior class at Washington State University collected 750 pints in three days. Hundreds more were turned away for health reasons.

A "bleed-in" is being organized by the Denver Center of Colorado University.

"We wanted to show that not all college students rush around saying 'no' to everything," said sophomore Bill Van Pelt of Denver, drive organizer.

RAISE FUNDS

Pentagon approval came as it was revealed that the May Second Movement prepared to raise funds to send medical supplies to the Communist Viet Cong.

Steve Cherkoss of Berkeley, Calif., a West Coast leader of the movement, who called the United States the "aggressor" in Viet Nam, said his group had "the go-ahead" from the International Red Cross to send the supplies. He did not elaborate on "the go-ahead."

Students at more than a dozen American universities and colleges across the nation are involved in blood drives. The drives came into being after the anti-Viet Nam demonstrations.

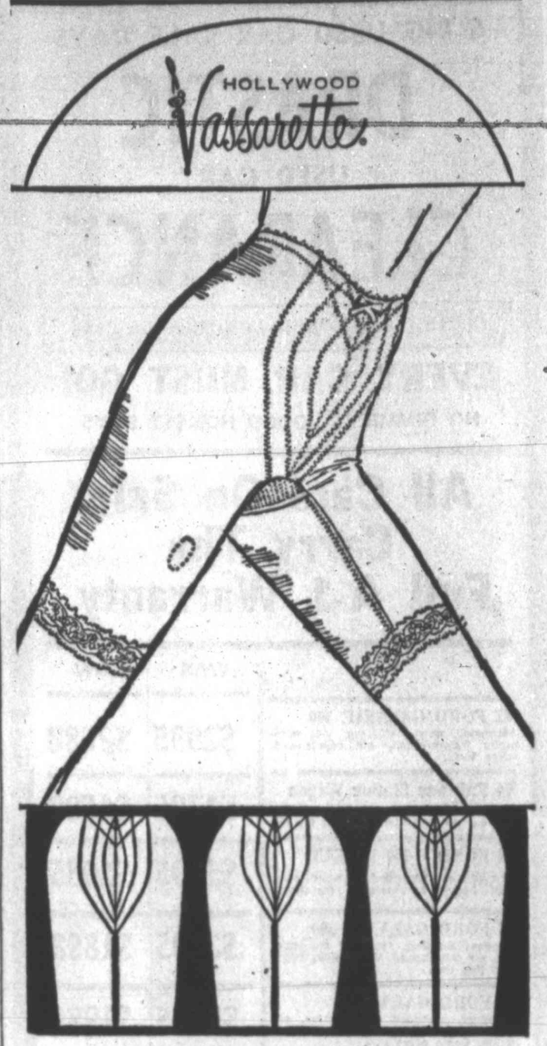

COLLECT BLOOD

The Defense Department said Tuesday it has asked the American Red Cross to collect the blood donations. A defense spokesman said that while the blood is not needed in Viet Nam, it will be used for military requirements within the United States.

He said the first collections will be made early next month at the University of Illinois, where 2,000 volunteer donors have signed up.

"We've had several inquiries already from groups on other campuses who want to provide donations," said Philip Hinterberger, 22, of Alton, Ill., president of the Sigma Alpha Epsilon fraternity at Illinois, sponsors of the drive.

Let us fit you with a "SHAPEWALKER" GIRDLE the new measure of comfort!

Does your present girdle always seem too short, or too long? Tired of having to tug and pull it up or down in order to feel comfortable? Then you're ready to switch into a new "Shapewalker" by HV!

- Girdles that fit as nature intended. HV dimensional sizes are based on how many inches your torso measures up and down, as well as around.
- "Shapewalker" fits so perfectly, so personally, it can't ride up on the waistline, won't need jerking down at the bottom, never gets in your way!
- Sheer Lycra® spandex powernet with dainty petals of graduated front control panels to trim your tummy. Stretch lace legbands.
- Leg-panty in short, average, long rise measurement, S-M-L . . . white and my skin . . . 9.00

Yesterday's Jumbles: FLORA EINER BETOOK WHITEN

Answer: What a girl said when her boyfriend proposed marriage—LET'S "KNOT" NOW!

DEAR ABBY

He's Not For Her

DEAR ABBY: I am 22 and recently met a fine young man of 28. We hit it off perfectly. I've never known a young man who had so many of the qualities I admire. He told me he "loved" me, and I told him I loved him, too. Then he said he didn't think we should get "too serious" as he couldn't propose marriage. The reason: His parents were very much prejudiced against people of my religious faith, and he would never marry a girl his parents didn't approve of. He said he realized that a "real" man would probably marry the girl of his choice and disregard his parents' wishes. But material things were his weakness, and if he were to marry me he'd have to change his standard of living, and give up all hope of eventually falling heir to the family business. Should I continue going with him, hoping he will change his mind? Or hope he can get his parents to change theirs? I love him, Abby, and can't give him up just like that.

DISQUALIFIED

DEAR DISQUALIFIED: If he can't propose marriage, what does he propose? Run fast, in the other direction, unless you are content just to go with him until he meets a girl of whom his parents will approve.

* * *

DEAR ABBY: My husband, who is a professor at one of the local colleges, is very well-liked by his students. Consequently during the school year we receive many wedding invitations, and we usually accept them all. We are on a very tight budget and must watch our expenditures closely. Is it necessary for us to give the couple a wedding gift if we attend their wedding? Many of our friends who are also teachers (even the single ones) are wondering about this, too. We know the students invite my husband because they want him, and the gift is unimportant.

TIGHT BUDGET

DEAR TIGHT: If you want to attend the wedding, go, and take a gift. It isn't necessary to strain your budget. Browse around in an antique shop, or a book store. You can find some small, appropriate item for a dollar or slightly more. A second-hand book, or paperback edition of one of the classics, selected with the couple's special interest in mind, could be more meaningful than a more pretentious gift.

* * *

DEAR ABBY: How do you get rid of the neighbors' kids? Except for eating and sleeping, those kids spend all their time here. We have no youngsters their age for them to play with. We have only one, and she's still an infant. It gets awfully crowded with three and four children in our house all the time. Two of them are old enough to be "all ears" and there is no privacy at all. Sending them home does no good. They come right back again. We can't understand what kind of parents would let their children impose on the neighbors so much. What should we do?

CROWDED

DEAR CROWDED: Don't blame the parents. They probably assume you enjoy having their children in your home because they're there so much. When the youngsters invite themselves in, tell them you are busy, and say it like you mean it. They'll get the idea before long. (Most children are smarter than adults.)

Morocco Fiscal Plan Announced

WASHINGTON (AP) — A stand-by arrangement for the government of Morocco authorizing drawings up to the equivalent of $45 million during the next 12 months has been announced by the International Monetary Fund.

The arrangement will provide support for the continuing efforts of Moroccan authorities to restore and maintain internal and external financial stability, the fund said.

Is continental comfort a complimentary cup of coffee in the morning?

Partly. But it's also many other niceties you'll find at The Worth. For example, finding that the maid has turned down your bedding for the night. And that some thoughtful someone has shined your shoes during the night.

The Worth has the features you'd expect in a fine hotel, of course — free garage parking . . . family plan . . . air conditioning . . . fine food . . . convention facilities. But it's our continental extras that make all these other things so much more enjoyable!

Feeder Cattle In Shipments

WASHINGTON (AP) — The number of feeder cattle and calves shipped into the eight north central states during September totaled 906,000, up 5 per cent from September 1964, the Agriculture Department reported today.

The 298,000 moved through public stockyards were 11 per cent above the September 1964 level.

But the 1.8 million cattle and calves shipped into the eight states during the July-September quarter were 2 per cent below the number for the corresponding period last year.

September shipments of stocker and feeder sheep and lambs into the eight states totaled 342,000, down 21 per cent from a year earlier, and third quarter shipments of 646,000 were 30 per cent below last year's.
