## Carla Clark Named To All-State

Texas Sportswriters Association last week selected All-State Track Teams and cited Carla Clark for the elite list.

Miss Clark took the 880 State title last month in the OHS Fillies super performance in Austin. Her 2:19.7 performance was the best halfmile time on the honor roll.

Daughter of Mr. and Mrs. George Clark and a senior at OHS next year, the All-State runner joined the ranks of other 880 runners, Laura Davis of Spring Branch Memorial, Carol Sheffield of New Braunfels, Becky McClenny of Richardson Lake Highlands and Julie Campbell of Austin Anderson.

Miss Clark was one of only six Panhandle tracksters selected by Sportswriters to the All-Star list.

## 'Father Of Year' Sought

Some lucky man living within the boundaries of Olton Independent School District will be chosen Olton's Father of the Year. He may be your father or some one else's father. Your letter of nomination could bring him that honor and the valuable gifts that go with the title.

Selection of the Father of the Year will be made by a panel of out of town judges based solely on the contents of the letters of nomination. Letters must be in the Enterprise office no later than Tuesday, June 17.

Length of letters is no determining factor. The choice will be determined only by your own words telling why you believe your father is deserving of this honor.

Identity of the Father of the Year will be revealed in the June 22 issue of The

By Mozelle Trotter  
Webster, take note! We have some new definitions for "father" or "daddy" and with Father's Day coming Sunday, we share them.

In a telephone survey made Wednesday to the younger set, boys and girls who have not yet started to school, we came up with the general description that a father was "someone who works." Gratifying isn't it dads, to know your children are aware that you work.

"I don't know," was the second most popular answer given by the young telephone conversationalists to the query, "Can you tell me what a daddy is?"

Frequently, too, the youngsters described a father with their own parent's name. Little Mister Anthony Cole replied, "He's a Wayne," and added, "he works. He works on the radio."

His older sister, Taralena, pondered awhile and answered, "He talks to me and he takes me to the show. He loves me and sometimes he buys me stuff."

Master Cory DeBerry told us a daddy was "a Gary. He works. He drives a tractor, he drives a combine," and

explained he was "a big man." Cory is the son of Gary DeBerry.

Not sure how to answer the query, Little Miss Crystal Hamby was asked, "Well, what does a daddy do?" Her reply to that, "He just talks. Sometimes he plays with me." Her dad is Houston Hamby.

Answering the ringing phone himself, young Chad Phares quickly explained a father was someone who "works. He's a policeman, a fireman, a farmer," and in an off-the-phone explanation to his mother's "Who is it?" he answered, "It's for me." He then went on to explain a father "has cows. Sometimes I help him. I help water....A father is somebody that's friends. He give away presents.....and he's a buddy." Chad's father is Wayne Phares.

Little Tommy Cook informed us that his father "takes care of me. He plays with me. He tells me stories. He watches TV. with me." Tommy's father is Richard Cook.

Calling little miss Janet Miller, we learned she was visiting grandmother and were told by her older brother, Jeff, "a daddy

helps a mother." The young Millers belong to Coach Eddie Miller.

The young son of John Jefferies, Brian, explained a father "works. He works on stuff that's broke. Sometimes he lets me help him."

Little Sharla Digby also confided her dad "works. He plays with me," she said and added, "he's a Ronnie."

Farmer's daughter, Teresa Snider, said a father "works on the farm. He puts us to bed," and added those words more valuable than presents money can buy, "I love him." Her dad is Terry Snider.

Benny Moore's little daughter, D'Andrea, said a daddy "works. He lets me go outside and play."

Two little friends were a bit more talkative and might have shared more about their fathers if given time.

Little Jennifer Kelley told of her father Gary, "he works. He gave me a sucker. He plays with me. We've got a flower. He works in the fence but he lays with me anyway."

Master Justin Chaney informed us that "a daddy makes food for people to eat. He's nice. He lets me drive the tractor for him. He

feeds pigs and drives the tractor. He talks on the telephone." And with a giggle he described his father, Bill, with the simple statement, "He's got whiskers."

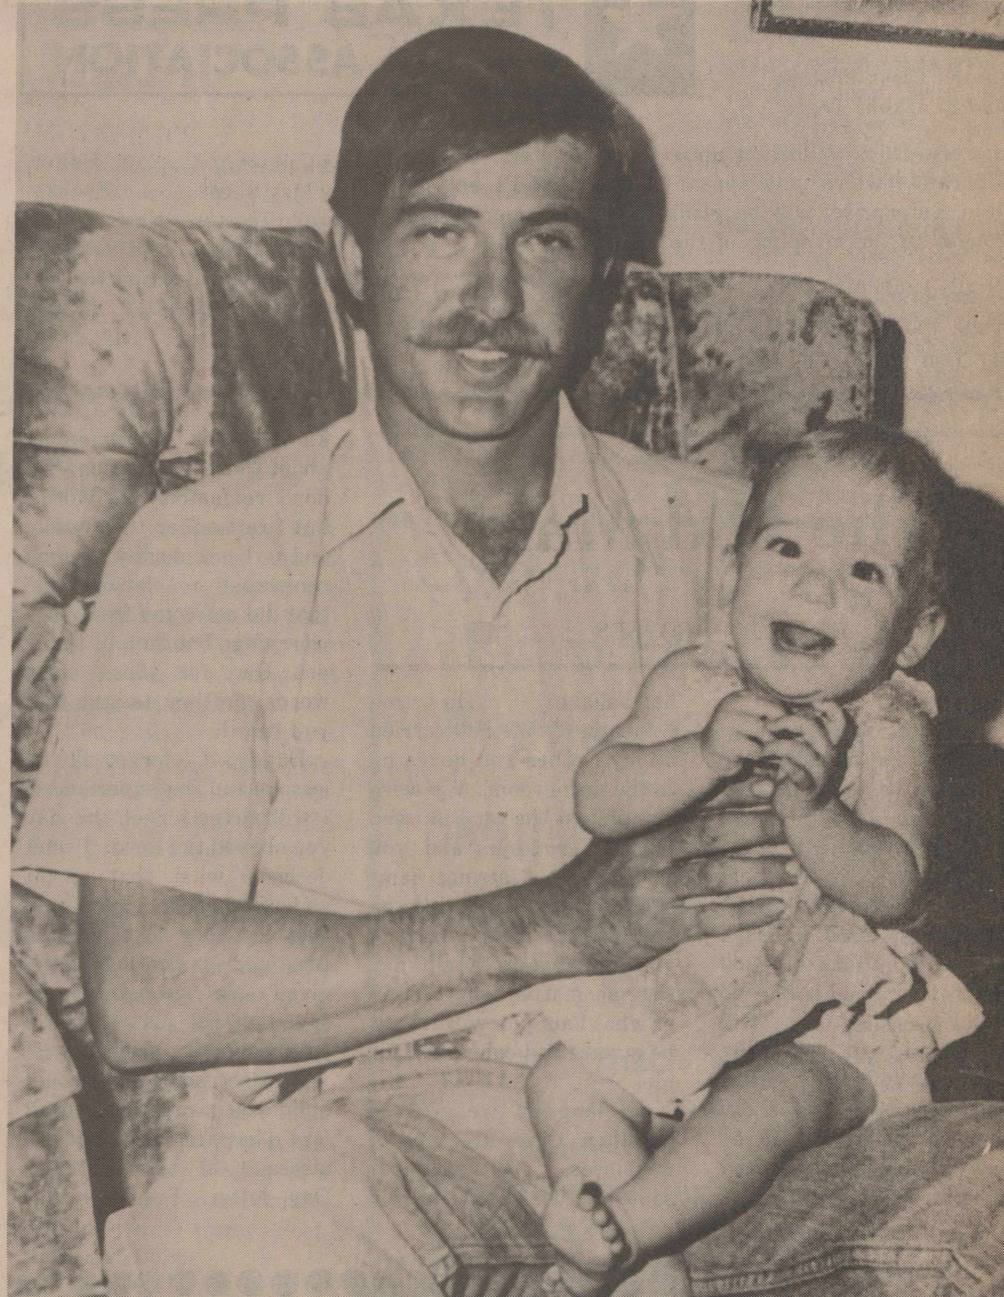

## Child Bitten; City Seeking Animal Owner

City authorities are searching for the owner of either a full grown Swift Fox, or a Coyote puppy, with a chain around its neck.

The animal was caught Wednesday and penned for observation, but not before it had bitten one child and one adult.

Diligent search is being made for the owner of the animal to learn whether or not it had been given rabies vaccination. Those who were bitten will be subjected to very painful rabies injections if this becomes necessary, but they need to hear from the owner of the pet before doing so.

Persons who may know anything about the unusual pet and its owners are asked to contact City Hall with the information as soon as possible.

# Patrolmen Reprimanded By Local City Council

Tempers flared as city councilmen, gathered Tuesday night for a regular meeting, began discussing the duties of local police.

Councilman Raymond Powers and Councilwoman Billie Norfleet told other members of the council that they felt the police department was not performing its duties as it should be. They gave examples of the night patrolman, David Dalton, leaving the city limits for personal reasons.

Powers told the council that Police Chief Glen "Bun" Combest flatly refused to learn to run the teletype. He said he and Mrs. Norfleet, who were appointed by the council recently to head up the police department, had each talked with him about the operation of the teletype and pointed out how important it was.

They also said they felt like it was the duty of the chief to check on the night man and see that he was doing his job and they didn't think this was being done.

Combest was called to the meeting to give his views on the situation and he said he was unaware that Dalton was leaving the city limits. He stated that he had told him his job was to check the business houses and make a run through the residential section of the city several times during the night.

Powers then told Combest that this was part of his job, to check on him. Councilman Joe Hall asked Combest if he had agreed to learn to operate the teletype when he was hired as Police Chief. He agreed that he did. Hall then said that what the council is asking, "are you willing to learn to operate the teletype as you agreed and watch your night man and help him become a better patrolman."

Combest retorted that

the council was asking him to be a dispatcher, teletype operator, patrolman, make reports and watch the night man.

He told them that since he had been attending school that he didn't have time to try to learn to operate the teletype.

He then told the council, "I'd like a dispatcher, teletype operator and filing clerk."

Asked if he had been

Hall replied, "No way, we can't hire someone to help you out in the police department, when all other city employees are needing raises."

Combest finally agreed that he would try to learn to operate the teletype and to keep an eye on the night man.

Dalton was then called into the meeting.

Asked if he had been

leaving the city limits, he replied, "Yes."

Asked if the reason for leaving was that he had been called by a state or county official for aid, he said that it was not.

Powers asked him how many times over the past few months he had been told (by Powers) not to leave the city limits unless called by a state or county official, he said many times.

He admitted he had been told by Combest that he was not to leave the city limits. He also stated that he thought Combest could teach him a little more.

Mrs. Norfleet told Dalton that the council would like for him to learn to operate the teletype and he said he would like to learn.

An instructor from Lubbock will be in Olton to instruct both the patrolmen in the operation of the teletype.

Dalton was told by Councilman Vernon Nixon to make out a log each night showing the activities and hour so that Combest might know if there were any unusual happenings during the night.

In other action, an ordinance pertaining to parallel parking in the city in some blocks was adopted and appears on page 9 of this issue of the Enterprise.

Alternating watering days were set by the council effective immediately.

Hackler was instructed by the council to order a striping machine and parallel parking signs for the compliance of recent ordinances passed by the council.

## Watering Days Set By City

Effectively immediately, residents are asked to observe alternate watering days in the city.

The west side of the town will water lawns and gardens Tuesday, Thursday and Saturday. Eastern part of the city and the schools will water Monday, Wednesday and Friday.

Everyone is free to water on Sundays.

# Teachers, Coach Hired; Legislature Discussed

A girls' basketball coach, a resource teacher for junior high and an elementary teacher were employed for the school year 1975-76 as the board met Monday night in regular session.

Mrs. John Paul Jones was hired for placement in elementary. Larry Ledbetter and his wife, Barbara, were approved as girls' basketball coach and junior high resource teacher, respectively.

The Ledbetters will move to Olton from Knox City.

Reports from the superintendent, Joe Turner, showed the final average daily attendance to be just over 913, qualifying the school for state funds for the same number of teachers as last year. The state pays base salaries for 37 teaching units, agriculture teachers, home economics teachers, John Paul Jones and David Maxey and 80 percent of the superintendent's salary.

Local funds pay all teachers' wages above the state base pay plus eight and a half teacher units which are necessary but not state funded.

Discussing the new legislature just passed, the board was told that the local fund

assignment will increase from \$94,000 to \$188,000. State funds have been in the neighborhood of \$400,000 and will increase to \$500,000, Turner said. The teachers will each receive a \$1400 raise due to the legislature just passed setting base pay at \$8,000.

## Industrial Commission Member To Speak

Homer Tucker of the Industrial Commission, Austin, has scheduled a seminar to be held in PCA Hospitality Room, Tuesday, June 17 from 1:30 to 3 p.m. according to announcement made through the Chamber of Commerce office.

Two other members of the Commission will accompany the speaker, but their names were unavailable at press time.

The session will involve methods of attracting and preparing for the coming of industry in to a town.

Those persons attending the seminar will be divided into "teams". Each team

A report on the lunchroom showed a final balance of \$11,785.88 when all state and federal funds are received.

Next board meeting is scheduled for the first Monday in July instead of the second Monday, due to a summer workshop being held July 14.

will be given questionnaires or surveys to work from as they vie in theory upon methods to be used.

Mr. Tucker and his associates will evaluate the reports worked out by each team.

All persons interested in attracting industry to Olton, or preparing for industry, are urged to be present for the training session.

Members of Olton Industrial Foundation, Chamber of Commerce, Retail Merchants Association, and all individuals seeking betterment and growth of the city are especially invited to attend.

## The Old Man

BY REX BOYLES

Dear Dad,  
There will be no banners tied across the streets of the hometown to welcome you on your day, June 15th. On Father's Day you'll hear no 21 gun salutes. No trumpets will sound. There will be no monuments raised to mark your contributions of good toward your neighbors. No special proclamations will be given to officially consecrate your day, Daddy. Probably none of these things you deserve will be done on your day, but they ought to be.

I don't have the banners, the trumpets, or the monuments, but I do have something I want to say. I want this letter to be your banner, your trumpet, your proclamation, and your monument on your day. Daddy, I want this letter to tell you something I may have never told you with my lips, I love you. I love you for the little things, the big things, the good things you taught, gave, and shared with and for me.

Daddy, it's funny what I remember now as good moments. I remember your patience and impatience as you taught me how to set a crust-buster. I thank you Dad for what you taught me, not just how to turn a nut but how to work with my hands. Thanks for teaching me that there is no shame in getting dirty and tired.

Daddy, to you remember what you did with me after I lost my second puppy? I can still remember sitting with you in the living room in front of that old gas heater. I don't remember all the things you said, but I do remember the good feeling I had as I soaked up your

concern. I thank you Daddy for that moment, not just for the comfort, but for the lesson. In that warm chair in front of that fire you taught me that there is no shame in caring, even for the little hurts of children.

I was thinking the other day about our first real

hand-shake. Do you remember? We had carried all my clothes and boxes up to the dorm room. We were standing at the car. I kissed Mother good-bye, and you held out that strong hand. You shook my hand. I thank you for that shake. I thank you for what it taught me, that no matter where I am or what I am you will always be strong and concerned for me.

As long as we worked together, there are tons of memories. I remember some lectures, but do you

know what I remember about those "discussions"? I don't remember the words, but I remember the reason; and I honestly don't remember a "chewing-out" that did not come from your worrying about me. I thank you Dad for those stern words for they taught that you cared.

Daddy, if I forget all the lessons and the experiences, I will never forget the day you obeyed the Lord. I can't describe what that meant and still means. I thank you Dad for your love for the Lord and for the joy that it gives me to anticipate spending not just 18 years with you but an eternity.

I wish someone would build you a monument Dad for I'd have marked on it the message of this Father's Day letter, I love you...  
Rex

## Today's Logic

BY JAMES PHELPS

Will the U.S. back down? Russia backed down during the Cuban missile crisis for the plain and simple reason that we had superior military strength.

We no longer are superior. Russia has better ABM protection than we do, she has more ICBM's and her leaders are in firm command of the Russian people.

Our people are demoralized by a war we never fought to win. In the beginning of that war most Americans were in favor of containing communism. Now the principles of isolationism prevail.

Russia will precipitate another crisis as soon as her leaders feel that the time is ripe. When this time comes, will our president stand up to Russia, or will he back down?

If he backs down, our enslavement or destruction becomes a certainty, for our avowed enemy would never give us time to rebuild our strength.

If he doesn't back down, one of four things will happen:

(1) Russia may back down again—but this is wishful thinking if she has sufficiently greater strength and is capable of destroying us.

(2) Russia may ignore our protestations and proceed with whatever takeover produced the crisis—and we will have neither the will nor the power to stop her.

(3) Russia may attempt to destroy us with an overwhelming first strike.

(4) The doves, the peace mongers, and the faint of heart may clamor so loudly for surrender that the voices of freedom and justice cannot be heard. Our president will lose his determination and back down, or the enemy will have sufficient assurance of our lack of will to resist that she will proceed with our enslavement or destruction.

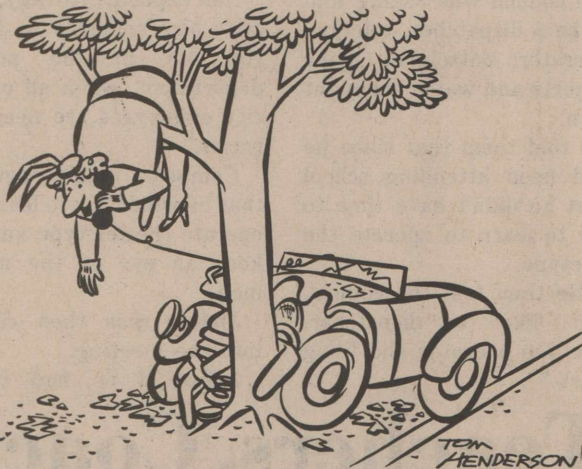

We must regain our lost military superiority before the next crisis occurs or the freedoms so many of our finest have fought and died for will be lost for many generations to come. That they were lost because of our desire for peace will make their loss no less painful.

If we have military

superiority and are willing to use it, we will never have to use it. This is the way to peace.

If we are weak our enemies will try to subjugate us. This is the way to war.

Write your congressman, your senators and the president. Tell them whether you want America to be weaker or stronger than Russia.

"Madge!—Madge? Oh, good—I was afraid we'd been cut off."

## Everything But The Kitchen Sink

By Mozelle Trotter

We went "adventuring" last week. For a stationary type person that must be the best way to describe moving.

The Better Half and I helped The Young Trotters move to Kansas where Son Number One plans to earn his doctorate. It was an opportunity to help all mixed up with work, fun, pride, and a bit of sadness but, most of all, love. It was also an awakening—next time, we'll call Mayflower! (No, that's merely a feeble attempt at humor.)

However, if you don't believe two young people can accumulate quite a bit of worldly goods in just nine months of marriage, let me inform you they can!

We did forget one or two (maybe by now they've discovered "dozen" should follow those numbers) items. And we were forced to leave a little bit behind because there's just so much you can "squish" into one pickup and

one car, then you reach the stage where some thing or some one has to be left out. Intentionally we left behind such useless items as a briefcase for school books and laundry basket!

Unintentionally, it was umbrellas (it knows how to rain there!) and Cher's (the hamster) sunflower seeds.

The trip was not without a touch of the "good old days"—you know, the era before air conditioned vehicles and power steering? Old Yeller, our trusty pickup, doesn't sport those comfortable "extras."

When I (the cold natured one who isn't bothered when the mercury starts climbing—the one "they" freeze with their air conditioners) sagely remarked, "Folks used to have to travel this way," I was repaid with a lecture on the ridiculous use of the word "good."

Lucky for me I was cold natured for I will confess it did get "warm" in mid-afternoon—especially when poor Old Yeller had been loyally humming since 5 a.m.

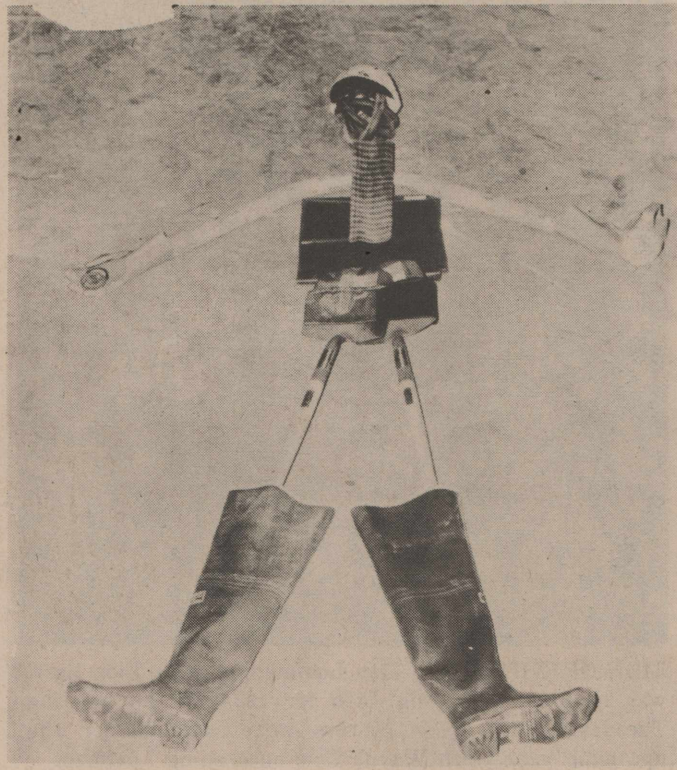

Manhattan, Ks. is a beautiful town and the campus of Kansas State University is handsome with its old buildings of native stone. There are some mighty fine people there too.

Driving into Olton late Sunday evening brought a welcome feeling. Isn't it good to be home and a wonderful blessing when the journey's been safe?

Judy and Billy lived in a mobile home when they first came to Olton but decided no more "portable living" was wanted after a freak windstorm last summer moved their trailer home from its well-anchored foundation. They have lived at 1010 9th Street since September.

Originally from Lubbock, Judy met her husband there. He comes from Morton. Billy is assistant manager for Leon's Grocery. The Rays attend Main Street Church of Christ.

Judy's hobbies are reading, sewing and knitting.

She has just recently completed a pretty red and white knitted afghan.

An important member of the Ray household is their white French poodle, Andre, although they have had him only a short time.

MR. AND MRS. VANCE ALEXANDER

## Alexander-Cooper Wedding Solemnized

Miss Leona Ann Cooper and Vance Glenn Alexander exchanged wedding vows Friday, June 6, in a ceremony held in the 11th and Amarillo Church of Christ, Plainview. The Rev. Tommy Beck, pastor of Trinity United Methodist Church, officiated the double ring vows.

The bride is the daughter of Mr. and Mrs. Raymond Cooper. Mr. and Mrs. Vernon Alexander of Plainview are parents of the groom.

Presented in marriage by her father, the bride wore a formal length wedding gown of white bridal satin. Styled with a softly gathered skirt, the close fitting bodice featured a high Victorian neckline and lantern sleeves. The skirt, sweeping into a chapel train edged with scalloped lace, repeated the lace trim used on bodice and deep cuffs of the gown.

Atop a white wedding Bible, inscribed with the couple's name, she carried a bridal bouquet of white daisies and gypsophila.

Her shoulder length veil fell from a Juliette cap of white satin, embossed with seed pearls.

For "something old" the bride wore wedding rings belonging to her paternal grandmother; "new" were her shoes; and "borrowed" was the wedding gown belonging to Mrs. Lynette Ware. She wore the traditional "blue" and carried a six-pence in her shoe.

Miss Joanna Carlisle, serving as maid of honor, wore a formal length gown of mint green, with sheer overlay. The gown feature long sheer sleeves and high neckline. She carried a nosegay of daisies and gypsophila.

Billy Newsom of Lubbock served as best man.

Guests were registered by Mrs. Debbie Cooper, sister-in-law of the bride.

For her daughter's wedding Mrs. Cooper chose a three-piece ensemble in apricot. She added white accessories. The mother of the groom wore a pink knit gown, with white accessories.

Immediately following the ceremony the young couple was honored with a reception in the home of the groom's parents. The refreshment table featured the traditional tiered white wedding with touches of mint green and white daisies. The heart-shaped top layer of the cake was inscribed with the names of the bride and groom.

Pale green party punch was served along with the cake, finger sandwiches, assorted nuts and mints. Presiding at the table were Mrs. Jennifer Cooper, sister-in-law of the bride, Mrs. Lynette Ware, sister of the groom, and Miss Vicki Friener, daughter of Dr. and Mrs. Gale Seigler, Plainview.

May graduate of Olton High School, the bride has

been employed by Pro-Sox of this city, and Sears in Plainview.

Alexander, 1971 graduate of Plainview High School, and United Electronics Institute of Dallas, is presently employed as X-ray Service Engineer in Amarillo.

Following a wedding trip to Colorado, the couple will make their home at 3807 S. Virginia, Apt. 14, Amarillo.

## Chris McClure Attends Annual American Legion Boys State

Chris McClure, son of Mr. and Mrs. Carl McClure attended the 35th annual American Legion Boys State sponsored by the Department of Texas which was held on the campus of the University of Texas. The annual affair got underway Wednesday with 900 high school boys from all parts of Texas and two from Mexico.

Following registration, the delegates were assigned to one of two political parties—the Nationalist or Federalist. Each citizen functioned as a member of his party, attended its precinct, county and state conventions and voted in its primary.

Boys State helps to develop civic leadership and pride in American citizenship. This program arouses a keen interest in the detailed study of our government. These civic workshops stress the importance of maintaining our form of government and bring better understanding of our national traditions and beliefs to the more than 28,000 young men who are participating this year.

In Boys State, The American Legion provides the type of program where the young citizen has the opportunity to learn for

himself that his government is just what he makes it. The boy "learns to do by doing."

The program takes on added significance since the vote has been extended to 18 year olds. Most Boys Staters are in the 16 to 17 age category.

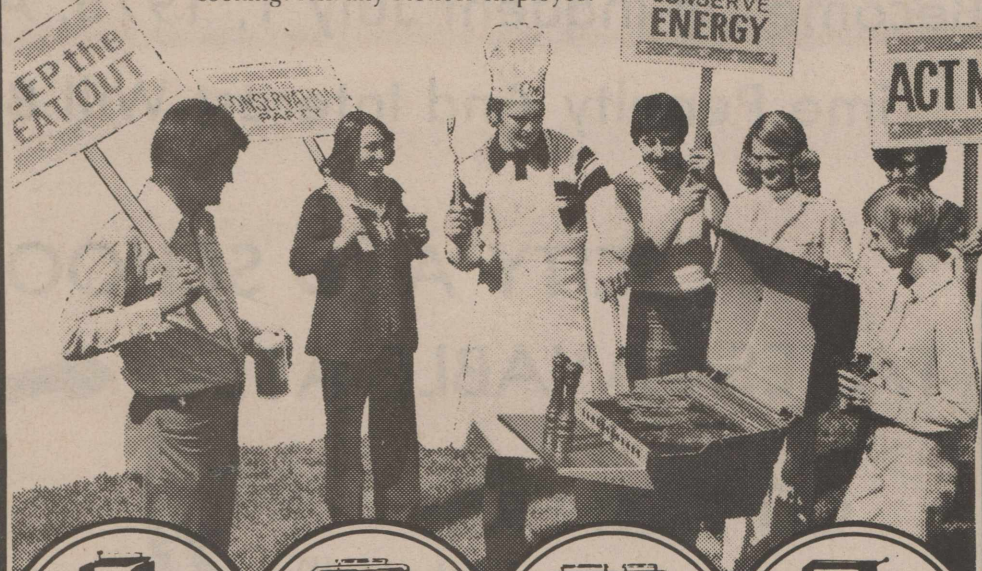

Highlight of Boys State was a trip to the Capitol

Tuesday morning where each elected Boys State Official was given an opportunity to serve in his respective office for a day.

Boys State enrollment this year brings the total to 19,251 junior high school boys who have attended since 1940, when Boys State was first inaugurated in Texas.

Garry LaDuke and Kody Carson getting bases on balls and Lacy slamming a two base hit.

Co-Op Grain scored five runs in the second inning of Saturday night's game with Olton Butane and held on to preserve a 5 to 4 victory.

Butane did not score until the fourth although Rusty Powers connected for a single in the second. In the fourth frame, Ruben Contreras and Luis Casares drew walks. Scott Parker scored Contreras. A single by Larry Perez drove in two more runs. Perez scored on an error.

Grain Co-Op tromped Thompson Implement 15 to 7 Monday night. Grain failed to score in the first after Brad Allcorn reached first and made it to third base via errors. Thompson took advantage of miscues, turning their at bat into a three run barrage with no hits.

Shorty Lacy was on with an error, Jackie Fuentez walked and Bart Barnett made it to first on an error. Hobby Thomas struck out but was safe at first via an error. Co-Op scored one run in the second when Rene Saldivar singled and sacrifice hits by Tommy Seawright and Kevin Noack and a walk by Rodney Smith put a mark on the scoreboard.

Martin Brown reached first on an error in the third for Co-Op. Ray Van Banks walked and Caleb McClure singled. Allcorn hit a sacrifice grounder, Saldivar reached on an error, Seawright walked and Smith was safe on an error.

Four runs scored in the inning to make it 6-5.

WERNER METSCHKE of Hameln, Germany has been a guest in the home of Mr. and Mrs. Archie Sorley and Cynthia. Metschke is pictured here with Mrs. Sorley and her daughter.

## German Sergeant Visits Olton Family

Werner Metschke of Hameln, Germany is presently concluding a visit in the home of Mr. and Mrs. Archie Sorley and Cynthia. He is the third member of Hameln Baptist Church to return a visit made by the Sorleys to Hameln with a five-member team from Olton First Baptist Church in June 1973.

Metschke, who is 20 years of age, is a sergeant in the West German Army. He "saved a few days leave" from last year to combine with his annual time off

making this American holiday possible.

The flight across the Atlantic, via German airline, was Werner's first big-jet-trip. Landing in John F. Kennedy Airport was very exciting, he said and was made very pleasant by assistance from a German man he met, who helped him through customs clearance. A Braniff flight brought him to Lubbock where he was met by his host family.

Following his stay in the city, Werner plans a short visit in Greenville where he

will see a young lady who also visited Hameln in June of '73 as a member of Baylor University choir.

The young sergeant was born in Rehren, A/O, but has been a resident of Hameln for 16 years. He describes his schooling as "four years in elementary, seven years in middle school and two and three-fourths years in engineering of machines". Speaking English with very little hesitance, he says he began his study in middle school.

Following his studies, Werner took his compulsory service in the German army. He liked it so well, he stayed on to make it a career. He is now an instructor of young men in the air force of the army, teaching maintenance

of helicopters and small weapons.

His work begins with new recruits, and for three months he gives ground instruction. "The first four weeks" he said, "We cover military marching, shooting small arms, and creeping."

The second phase of instruction is in engineering. Werner hopes to continue at this post, but he says competition is very keen.

Allowed one weekend off each month, he spends his leaves at his home in Hameln which is only 16 miles distant.

He laments that his greatest problem in the army is dealing with young men who dislike enforced military service, and often try to lose themselves in alcohol. Many of them face the problems of alcoholism.

"If I teach young men discipline", he stated, "I must teach self-discipline by example. I am a Christian, but it is very hard to be a committed Christian in the Army. I often wish for just one friend who holds the same standards and beliefs that I have."

Werner takes much pride in the work that he is doing and he says "I love my country, just as you love yours."

The visitor loves to travel. He spent one holiday in Sweden before coming to America and said he enjoyed it greatly. He plans a trip to Hawaii, but he hopes prior to that he can visit next year in Israel, subject of course to mid-east conditions.

In Texas he has enjoyed the sights and experiences of the area. As a guest of the Gerald Alcorn family he attended a rodeo in Clovis, N.M. Friday. He is taking home a collection of western style shirts, and a leather western belt with his name tooled upon it.

Werner had wanted to visit in El Paso where a group of German pilots are training, but time and distance have prevented this visit.

His paternal grandmother lives in East Germany. Earlier he had been allowed to make occasional visits

into that area, but now that he is in service, these visits are forbidden.

His father and mother, Gerhard and Charlotte Metschke, are parents of one other child, a daughter Christa, who is presently an instructor of nursing.

Aside from travel, he lists his hobbies in collections. He names an impressive list of record albums and tapes, mostly by American and English artists, about the same collections held by many American youths of today. And, he has an "army" of miniature forces and all equipment, made of plastic, branded "made in England".

He has enjoyed most, during his stay here, the "wonderful sunshine" because his area has so much of cloudiness and rain. He has also been pleased that people have been so friendly for he said "the German people are not so outgoing and friendly."

Werner has great admiration for girls with blonde hair and brown eyes. Some day he wants to marry some such beauty, but he specifies, "She must be Christian, intelligent and friendly."

In discussing the language barrier encountered in his visit here he explains, "something I can think in English, but much conversation has to be translated from German thinking."

"In Texas," he continued, "All words are long." Werner is quite adept at demonstrating the Texas drawl he hears.

"But," he concluded, "When I go home, I'm going to rush in and say 'Hi, Mom'.....and she'll have no idea what I mean."

### MOTHER VISITS

Mrs. J.E. Stewart of Lake Whitney came the first of this week to be with her son-in-law and daughter, Mr. and Mrs. Joe Roberts.

### FROM HUGOTON

Saturday luncheon guests of Mr. and Mrs. Billy Carson and Rachel were the host's brother and family, Mr. and Mrs. James Carson, Angela and Jamie Ann of Hugoton, Ks.

To me,  
nothing tastes better  
than fine tobacco.  
But I don't smoke.

To millions of Americans, the good taste of tobacco doesn't always come from smoking.

It also comes from tasting. From placing a pinch of tobacco between cheek and gum, and savoring it.

And yet, to millions of others, this age-old tobacco pleasure is still a mystery. Possibly because they've never tried it.

Or because, as is true, the use of "smokeless" tobacco is an art, and takes practice.

### A pinch in a pouch.

So, to make it easier, we've made it different. We've made Good Luck. A whole new way to enjoy tobacco.

Good Luck is a pinch of choice "tasting" tobaccos, in a neat little pouch. And the pouch is what makes it different.

You place Good Luck, pouch and all, between your cheek and gum. Then, as it rests there, the pouch works like a tea bag. To let tobacco flavor out, while the tobacco stays in.

### Nobody knows.

Naturally, any form of "tasting" tobacco

takes a little getting used to.

But with Good Luck, it's easier because the pouch holds the tobacco all in one place. It sits comfortably, and no one knows it's there, but you.

Also, each pouch comes properly pre-measured, so you always get the right amount.

### Sealed in foil.

To keep the tobacco fresh and moist, each Good Luck pouch is sealed in foil. That also keeps it from spilling into your pocket.

And because you don't smoke Good Luck, it's perfectly welcome in places where smoking isn't. Such as a courtroom, on a bus, or near inflammables.

And unlike a cigarette or a pipe, Good Luck won't tie up your hands. You enjoy its tobacco flavor no matter what you're doing.

### Rich tobacco tradition.

Now you're acquainted with Good Luck's little pouch. But what about the tobacco that comes inside?

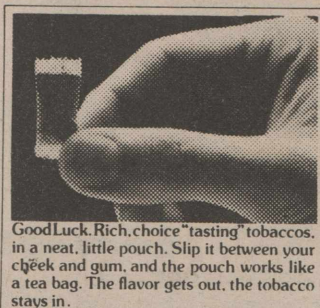

Well, it's made by United States Tobacco Company, whose other tobaccos, without a pouch, are now enjoyed by over 6 million Americans. And Good Luck is part of the same tradition. Only the pouch makes it easier to use.

### For people like you.

But no matter how you use tobacco (or even if you don't), we think Good Luck will add to your pleasure.

Try it.

We put Good Luck in a pouch, for people like you.

Good Luck, Rich choice "tasting" tobaccos, in a neat, little pouch. Slip it between your cheek and gum, and the pouch works like a tea bag. The flavor gets out, the tobacco stays in.

## Nation's Top Cowboys Set For Bar None Rodeo

Many of the nation's top professional cowboys will be competing for over \$10,000 in prize money at the first Annual Plainview Bar None Rodeo June 19, 20, and 21.

J. Bassett Smith, President of the Plainview Rodeo Association, announced that entrants include last year's best all around cowboy, world's champion calf roper Tom Ferguson, and last year's world's champion bull rider Don Gay.

Performances will be held each night beginning at 8:30 p.m. A single steer roping event will be held Saturday afternoon, June 21, at 2 p.m.

Last year Ferguson set the record for most money won in one year of professional rodeo competition with \$66,929 in total prize money. Ferguson became the first man in pro rodeo history to win more than \$40,000 out of a single contest—calf roping. He placed second in national steer wrestling competition in 1974—winning a total of \$25,893. The 25-year-old Ferguson is from Miami, Okla.

Twenty-one year old Don Gay earned \$32,917 last year becoming the world's bull riding champion. Gay, from Mesquite, Texas, is the son of rodeo stock contractor Neal Gay.

Other entrants include three times world's champion steer wrestler Roy Duvall, Australian bareback rider Jimmy Dix, and last year's third place national calf roper Barry Burk.

Plainview's Bar None

Rodeo is sanctioned the R.C.A.—the Professional Rodeo Cowboys' Association, and will be produced by Beutler Brothers and Cervi, the world's largest rodeo stock contractor.

Other events associated with the annual rodeo are a rodeo queen contest, downtown parade, and retail store window decorating contest.

### TEXAS TALK

By  
Billy Davis

Dead as with the camel. That's where the experts say beef ranks as a preferred meat in the mid-east. Goat and lamb are way out in front and it'll take some mighty tempting T-bones to turn the tide. This is an Arabic fact-of-life depressing to cattlemen trying to build a fire under the export meat business. On the positive side however, proponents of the U.S. Meat Export Federation say there is major demand for prime beef in many of the European and Asian markets. Organizers of the fledgling federation hope to obtain the blessing of the Foreign Agricultural Service in the near future and establish international offices to promote the sale of U. S. meat throughout the world. Model for the ambitious undertaking is the highly successful National Feed Grains Council whose members have shown how well consistent international promotion works. Japan and Germany are most often mentioned as locations for the first two offices of the new Export Federation.
