Robert and Ray Acuna of Mergargel gather broomweed in Collingsworth County, right, and load it into a trailer, upper left. The broomweed is then packed into 20 lb. boxes, lower left, to be shipped to florists all over the country and in Japan. Broomweed, sometimes dyed, is used by florists in dried arrangements. The Acuna's are part of

a team that gathers the weed from Dallas to Matador. Landowners, who are glad to get rid of the weed anyway, receive about \$60 per ton. About 300 20 lb. boxes will fit onto a truck trailer. Harvest season is from December 1 through January, usually. The weeds must be dry and florists don't want them after they turn dark.

General Telephone Asks for \$85.5 Million

SAN ANGELO--General Telephone Company of the Southwest asked the Public Utility Commission of Texas today (Feb. 11, 1983) for \$85.5 million in new revenues, almost half of which the company says is due to changes dictated by various governmental actions.

E.L. "Buddy" Langley, president of General Telephone, said the request is being made because earnings have fallen to 9.5 percent from 12.5 percent authorized last year, which was never obtained; interest coverage, critical to the company's bond rating among financial agencies, has fallen to 2.68 and poses a danger of having the company's A-rating downgraded to a BBB; and the dramatic impacts of deregulation of the industry and the restructuring of prices mandated by governmental actions.

"All of these factors require us to either raise

rates or cut back our service improvement and modernization program," Langley said. "As distasteful as raising rates is, we prefer this rather than reducing these programs which our customers have told us they expect."

"During the 12 months covered in our filing, we reduced our companywide work force the equivalent of approximately 700 employees in an effort to reduce costs, but we have reached the point we cannot reduce much more without adversely affecting service," he continued.

"As a public utility we do not have the option of curtailing expansion and investment during periods of recession and high interest rates. We have the obligation to have facilities to meet our customers' needs when they request them. Therefore, we can only proceed with prudent programs and seek permission from the state commis-

sion to raise our rates.

"We realize our customers expect quality service and it is our objective to provide it. It is unfortunate that this costs money."

The company president said earnings have been reduced despite stringent budget controls and productivity increases due primarily to the new investment in Texas.

"Our customers and regulators have told the company they expect the most modern telephone system available," he explained. "During the period covered in our filing, we spent over \$321 million in Texas to meet our commitments to improve service and to modernize. Our modernization program is in

high gear and we want to continue this momentum. But it is essential that we receive adequate revenues if we are to do so."

Langley said that while inflation has not been as dramatic as in the past, it

has continued to drive prices up. "Our cost to build telephone plant continues to be higher than past costs. In September 1981, our investment was \$1,561 per

Hightower to Make Middle East Defense Trip

Washington, D.C.--Congressman Jack Hightower announced Friday, Feb. 11 that he will be making a short 13-day defense inspection trip to five key Middle East countries in connection with his responsibilities on the House Appropriations Committee and particularly as a result of his new

Defense Subcommittee assignment. The trip will start the third week in February when no legislative business is scheduled in the House of Representatives.

"My committee assignments involve various kinds of appropriations and one of the reasons for the trip is to see first-hand how some of our money is being spent and whether we need to make some serious adjustments," Hightower said. "We have U.S. troops now in the Middle East, in Beirut where we're going, and I want to talk with some of them to get their own assessment of whether they

should be over there and how long they should stay." The defense trip will include stops at U.S. military and diplomatic posts not only in Beirut, Lebanon, but also Egypt, Israel, Saudi Arabia, Tunisia and Italy.

"We have the A.W.A.C.s planes in Saudi Arabia, foreign assistance going to Egypt and Israel, critical Middle Eastern oil fields important to the Western democracies, and a number of hungry countries that I would like to see purchase more of the 13th District's farm commodities," Hightower said. "I think I'm going to get better answers

to questions my constituents are asking if I talk face-to-face with some of our people over there as well as our allies and adversaries," Hightower said.

While on the Appropriations Committee, Hightower has been directly involved in subcommittee work effecting U.S. trade, promotion of U.S. exports, drug enforcement programs, and especially the effort to improve security for American personnel and communications at U.S. missions and embassies overseas. Hightower will be accompanied by other members of the Committee and by Under-

secretary of State Jerome Van Gorkom and Mr. Sheldon Kryss, Executive Director of Near Eastern and South Asian Affairs.

"As most people know, last year I voted against the Reagan Administration's foreign aid bill, the largest ever, and I think we need to take a very hard look this year at foreign aid in general because of our own domestic economic situation," Hightower said. "I think a trip of this sort can help us focus on where American military aid should be provided, and where we should restrict or end it."

Computer Workshop Set

A computer workshop will be held Thursday, February 17th from 7:30-9:30 p.m. in the Bura Handley Community Building.

It is being sponsored by Collingsworth County Program Building Committee and Texas Agriculture Extension Service.

Briggs Myrick, Extension Computer Specialist will discuss computer terminology and different types of hardware available to consumers. Bonnie Piernot,

family resource management specialist will discuss the art of selecting a computer. She will take you through the steps in purchasing a computer as well as tell them many uses in a farm or ranch operation or in the home. Afterwards the opportunity to sit down with a computer will be available, said Nancy Bigby, extension agent.

Computers are a part of the latest technology wave. Many elementary school

children in Wellington are already using them in school. The opportunity to know what your children and everyone else is talking about is here so come and learn what the computer can do for you.

Education programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion or national origin.

The chamber and Wellington Industries plan to sponsor the project of presenting a desk pen and railroad spike to each Texas congressman and senator. This will be given through the West Texas Chamber in Washington in March.

Tommy Hudson, the president, reports that work has begun on accumulation and typing of post office addresses. They should be ready in ten days to two weeks.

Firms to Decorate

The Chamber of Commerce met Monday night, February 14.

They voted for each business to construct a centerpiece to be used at the Chamber banquet, Saturday, February 26, which in some way reflected their business.

Norwood Benefit Classic Set

Thursday and Friday, Feb. 17 and 18, is the new date of the 1st annual Firemen's Basketball Classic, featuring boys and girls teams made up of children in the sixth grade and below.

Weather caused postponement of the classic earlier.

Samnorwood Fire Department is the sponsor of this

benefit event.

Four games will be played each evening, beginning at 4:30 p.m., said Fire Chief Kenneth Martindale.

Four teams are participating and the schedule will be:

Thursday, 4:30 p.m. Alanreed and Kelton girls, 5:30 Alanreed and Kelton boys; 6:45 Norwood and Lela girls, 7:45 Norwood and Lela boys.

Friday games will be: 4:30 p.m. Lela and Alanreed girls, 5:30 Lela and Alanreed boys; 6:45 Kelton and Samnorwood girls; 7:45 Norwood and Lela boys.

These are not contested games, and each team will receive a participation plaque, said Martindale.

Admission will be \$2 for adults and \$1 for students. Concessions will be open

where spectators and participants may buy hamburgers, homemade ice cream, brownies and chili dogs, pop and coffee.

Officials will be Doug Coleman, Jr., Randy Breeding, Ralph Decker and others to be named. Mike Smith will be clock keeper.

Proceeds from the classic will go toward paying off the Samnorwood fire truck.

Norwood Asks Fire Department Funds

Samnorwood Volunteer Fire Department has started a fund drive to complete payment on their second fire-fighting vehicle, a four-wheel drive vehicle that will give added protection from fire to a 366 square mile area.

The Commissioners Court in its regular meeting Monday, February 14, agreed to pay \$3,000 toward clearing the fire truck of debt. This action was taken after Kenneth Martindale, fire chief, Clinton Oldham, first lieutenant, and Doug Coleman, Mark Tarver, and Gary Tarver, members, met with the commissioners.

Approximately \$2,000 will remain to be paid after the commissioners donation, Martindale said.

An entertainment which Norwood firemen had hoped would help finish the payment, fell through a few weeks ago, and the department had to fall back on asking for public donations.

The Samnorwood Fire Department serves an area that extends from the Oklahoma State Line and the Wheeler County Line south of Salt Fork, with the exception of that area in the northwest and north parts of the county that are in the McLean and Shamrock School Districts, and an area north of Salt Fork which is due east of Wellington, that is in Wellington School District.

The people of the Samnorwood School District have been generous with their giving, and some have made donations twice.

Some of these are as much as \$150 from Samnorwood area farmers and ranchers.

Interest in the project is growing, and some donations have been made by anonymous donors, and some by people who formerly at Samnorwood but who now live elsewhere.

Samnorwood Fire Department does more than fight fires, Martindale points out its record in that department is excellent. At a recent fire at Dozier, 6 miles from Shamrock, the alarm was sent out, the fire trucks taken out and firemen were putting water on the fire in 15 minutes.

The department owns 10 base radio stations and 42 radios and it answers many types of emergencies besides fires.

They are used to relay messages to people who are without telephones. They are used for storm watch situations.

They are especially valuable in keeping track of school buses during mud or snow. They can pinpoint where a bus is located. Norwood school buses travel some of the roughest terrain in the county.

"We can call someone and ask if the bus has gone by their house. If it has, we call the next person. If it has not, we can backtrack."

The Fire Department radios were put into service during the ice storm recently to determine whose places where without electrical power. Several electric lines come into our part of the county, and it is not difficult to locate the point of an outage," said Martindale.

Anyone who wants to make a donation to the new fire truck is invited to do so, and these donations may be left at either the City State Bank or Wellington State Bank.

The area served by Samnorwood Fire Department is especially prone to have grass fires, and fires in wheat and grain sorghum fields, at the time those crops are ripe.

As the new fire truck is a four wheel drive vehicle, it can go into almost any area in this rough country of north and northeast Collingsworth, it is pointed out.

Playoff Game Scheduled Thurs.

Wellington boys varsity will have a play-off game with Shamrock Thursday night, February 17 at 7:30 in Memphis.

Shamrock won second place in first half of district play and Wellington won second place in the last half. UIL rules allow first and second place to go to Bi-district, and this game will decide the second place winner.

The winner of the play-off game will play Stinnett, who are number one in their district.

Langford New Coker Manager

LUBBOCK - Loyd Langford of Lubbock has been appointed research station manager of Coker's Pedigreed Seed Co.'s plant variety research station here.

In announcing the appointment, Joe Dahmer, president of Coker's, said that Langford as manager will have the overall responsibility under the direction of Henry Webb, director of research, to continue Coker's major commitment to develop, produce and market superior cotton and grain sorghum varieties adapted to the Texas Plains.

"The immediate emphasis," Dahmer said, "will be on bringing advanced cotton strains to the market. Langford will team with Henry Webb to develop and evaluate new material for future release."

A native of Wellington, Langford has been involved in the Coker research and marketing effort for 13

years. He holds a B.S. degree in agronomy from West Texas State University and M.S. in crop science from Texas Tech.

Langford announced the introduction of a new, storm resistant stripper cotton, Coker 500. "This variety is early and high yielding with premium micronaire and excellent fiber strength," he said. "Being a new variety, suppliers are somewhat limited, but we expect Coker 500 to become widely established on the Plains."

He cited impressive test results for the new variety. Of 22 varieties tested in the 1981 Floyd County Irrigated Cotton Demonstration, Coker 500 placed first in gross return per acre and fiber strength, placed second in loan value and third in yield with 804 pounds of lint per acre. Another Coker variety Coker 4360, was first in yield. In 1981, Coker 500 also recorded the top lint yield, 1,425 pounds, in the New Cotton Variety and Strain Test at Pecos.

CONGRESS WANTS A PIECE OF YOUR SAVINGS.

WHAT THEY NEED IS A PIECE OF YOUR MIND.

Recently, Congress quietly passed a withholding law that will cost American savers and investors the use of 10% of their interest and dividends.

In simple terms, effective July 1st, 1983, this new law requires banks and other financial institutions to deduct 10% of the interest or dividends you earn on your savings and investments. That money then goes to the Internal Revenue Service in much the same way as payroll deductions are now handled.

The sponsors of this law have told us it was designed to catch a small minority of Americans who evade taxes on their interest and dividends. But the truth is the law penalizes the great majority of America's savers and investors who pay their taxes faithfully. What's more, the federal government is now receiving all the necessary information to curtail tax cheating.

Though the law does include exemptions for some low income and elderly Americans, if they go through the red tape of filing an application, most savers and investors will forfeit some of the money they could earn in compounded interest.

We urge you to join our efforts by writing letters to your representative in Congress and to the two senators from this state. Tell them you want the 10% withholding tax repealed, because it would impose an unfair penalty on savers like yourself.

For assistance in contacting your representative and senators please ask any of our bankers. If we all act now, Congress will get a clear message from the voters back home, and they will work to repeal this needless law.

PLEASE WRITE:

Washington, D. C. 20510.

U. S. Sen. Lloyd Bentsen, 240 Russell Senate Office Building, Capitol,
Washington D. C. 20510.

U. S. Cong. Jack Hightower, 13th District, 2348 Rayburn Building, Capitol,
Washington D. C. 20515.

SAMPLE LETTER:

Dear Senator:

As a taxpaying citizen, I am adamantly opposed to the provisions in the new tax legislation requiring my bank to withhold 10 % of the interest earned on my deposits and dividends.

I feel that this is completely unnecessary, because I already pay taxes on my savings interest each year when I file my Federal Income Tax return. I also feel it's unfair, because it reduces my compounded savings growth. It is respectfully requested that you work for an immediate repeal of this legislation. Thank You.

Henry Wells, Carol Gantt Marry Saturday in Dallas

Miss Carol Alice Gantt of Dallas and Henry Willis Wells were married in Perkins Chapel of Southern Methodist University, Dallas, on Saturday, February 12. The Reverend Tom Thomson, pastor of First United Methodist Church, Wellington, performed the ceremony at four in the afternoon.

The bride is the daughter of Doyle Kidd Gantt of Arcadia, Louisiana, and the bridegroom's parents are the late Mr. and Mrs. Henry Deskins Wells.

At each side of the altar, a pedestal supported a large bubble bowl filled with peach gladioli.

Ann Ables of Dallas was the organist, and before the ceremony, Mrs. Tom Thomson of Wellington sang, "Jesu, Joy of Man's Desiring," by Bach and "The Lord's Prayer" by Malotte at the close of the ceremony.

Mr. Gantt gave his daughter in marriage.

Her white dropped-waist wedding gown, designed by Priscilla of Boston, had a fitted bodice of re-embroidered Alencon lace and long fitted sleeves of tulle appliqued with lace motifs. The wide boat neck was edged by a tiny ruffle, which was repeated at the wrists. Self covered buttons closed

was gathered onto a garland of white silk flowers. She carried a bouquet of white roses and miniature carnations.

Senator Bill Sarpalius

Reports

FIRE AT CAPITOL

AUSTIN -- No matter what steps you take to prevent a tragedy, there's always a chance something will happen.

Most of you know by now that our State Capitol building in Austin caught fire on Feb. 6. During the 3-hour fight to bring it under control, 23-year-old Matthew Hansen of New Caney lost his life and six others were injured.

As earlier reported, the young man that died was extremely intoxicated at the time of the fire. This is not surprising, as 80% of all fire deaths are related to alcohol. We feel this fact shows the need for legislation that will increase Texan's awareness and knowledge of the dangers of alcohol. Perhaps in this way, the state can prevent similar untimely deaths in the future.

The fire started in Lt. Gov. Bill Hobby's apartment on the second floor of the East Wing. He has never lived in the Capitol apartment, but used it as guest quarters for visiting friends and dignitaries who stay overnight.

The fire started shortly before 6 a.m., and after it was over, officials began assessing the loss.

Personally, we were heartbroken that several of the beautiful composite pictures of the Texas Senate from the early 1900's were destroyed in the blaze. A number of other irreplaceable paintings and artifacts were lost, although Capitol officials praised the Austin Fire Department for saving many items.

Firemen speculated that

had they arrived even 15 minutes later, the fire probably would have engulfed the entire building. As it was, heaviest damage was confined to the East Wing of the Capitol, which houses the Senate offices.

In Hobby's apartment, also on the East Wing, dining room walls were charred. An antique crystal chandelier acquired in New Orleans during the early 1950's fell 20 feet from its gold chain onto the dining room table, a Chippendale reproduction. The hand-carved wooden door and window casements in the second floor hallway were reduced to ash.

Damage estimates have climbed into the millions. Surely this is a tragic loss for the people of Texas. For nine members of the Senate, including myself, it means an office outside the Capitol for the duration of the session, because repairs will take months and possibly even years.

But we think Gov. Hobby summed it up well when he said that the firefighters prevented a tragedy from becoming a catastrophe. As is characteristic of the good people of Texas, we'll simply "pick ourselves up, dust ourselves off, and start all over again."

Also, don't forget to keep in touch by writing Sen. Bill Sarpalius, P. O. Box 12068, Austin, Texas 78711. Although we are now temporarily located in room 1010 of the Sam Houston building on the Capitol Complex, our mailing address is the same. We can be reached by telephone at 512/475-3222.

When Our Trees Go Down In Flames, Our Dollars Go Up In Smoke.

Southern forests are more than homes for our wildlife and playgrounds for our people.

Today they play a bigger-than-ever role in our economy. The South already provides nearly one-third of the nation's wood. Within four decades, we'll be expected to furnish more than half. This, of course, represents thousands of jobs and millions of dollars to our people and communities.

When our forests burn—by accident or arson—jobs and money are lost. And prices go up on the thousands of items made from wood and paper.

Please help stop Southern forest fires. Be careful in the woods and report anything suspicious to your sheriff or local forestry agent.

Now, more than ever, we can't afford lost jobs, lost income or higher prices.

February 9, 1983

Several trial balloons, with reference to increased tax proposals, have been released over the Capitol every day since the Session started on January 11. To date, all have been quickly shot down. One of the most absurd was to raise the license fees of automobiles based on value; some estimates were that registering a new auto would cost up to \$300.00 per year. This would be an annual fee, in addition to the initial state tax of 4.25 percent, plus a federal tax. This would be just what it would take to put the auto business back into a tailspin. Gib Lewis, the Speaker, is dead set against a tax raise. Governor Mark White recently made the same commitment. What we need down here is for some straight-thinking, business people to converge on Austin and do a quick study of the Legislative Budget Board's proposals. Then, take a pruning knife to a lot of the items that have been added to the budget, since we started running a surplus in the early seventies. We

have been into an easy-come-easy-go spending spree during the surplus seventies. Next week, I will make some specific recommendations where sizable sums could be cut from the budget.

The smoke scent still prevails in the Capitol building from the fire that threatened to destroy the entire building. At this writing, no determination has been made as to the cause of the fire.

The 2nd and 3rd floor levels, in the extreme East end of the Capitol, were extensively damaged. Eight Senators, including Senator Bill Sarpalius, have had to move into a building just to the North of the Capitol. Bill has been doing his telephoning from my office the last several days. The East wing of the Capitol is still out of heat and electricity. The West wing, which houses the offices of the State Representatives, is operating normally. One humorous note came out of the Capitol fire, "A large number of bad bills were destroyed."

A seven-million-dollar appropriation was passed in the Senate for repairs. This does not mean this amount will be spent.

Next week, hearings on

the hundreds of bills that have been assigned to committees will begin. This tracks the Constitution which says the 2nd thirty days of the regular session shall be reserved for testimony for or against bills. To date, 694 House bills have been introduced. Two years ago, 920 had been introduced. No doubt the large freshmen class this year cut down on the number of bills introduced. To date, the Senate has introduced 388 bills. Two years ago, 464 Senate bills had been introduced at this time.

Saturday, Feb. 19, participants will assemble at 9 a.m. and go to a lumber yard. There they will select materials and work in teams to construct solar collectors.

Leading the workshop will be Bob Dunsmore of the San Luis Valley (Colo.) Solar Energy Assn. Also on the program will be Weedon Echols of Lubbock, energy specialist with the Texas Agricultural Extension Service.

"Because of the great interest, with 237 persons registered in advance before we had to postpone the program in January, the rescheduled program will be limited to the first 300 to register," said Jimmie D. Walker, Oldham County Extension agent.

Each participant must pay a \$15 fee. Advance registration can be completed by mailing the \$15 fee with you name, address and telephone number to County Extension Office, Box 380, Vega, 79092. Checks should be made payable to Oldham County Program Building Committee.

Care-Support Speaker Here

The Cancer Care and Support Group is sponsoring a program Thursday evening, Feb. 17, at 7 p.m. that will be of interest to many people in this area. It will be in the Heritage Room of Wellington State Bank.

Miss Sandie St. John, a

representative of the Cancer Society. Amarillo, will outline services available to local residents through the American Cancer Society. The public is invited to attend, said Mrs. P.M. Scott.

Highway Mowing Bids Announced

Lewis White, district engineer, State Department of Highways and Public Transportation, has called for local invitations to bid on highway mowing.

Sealed proposals for 5 separate mowing contracts in Childress, Collingsworth, Donley and Wheeler Counties will be received at the district office, 1700 Avenue F, NW, Childress until 9 a.m. on March 9.

The Collingsworth County bid is for U.S. Highway 83 from the Collingsworth/Wheeler county line to State Highway 256 (the Memphis Y) a distance of 45.8 miles.

The approximate area includes 374 acres of Type 1 mowing (on right of way) and 448.4 acres of Type II

mowing.

Proposal plans and specifications for this contract may be obtained at the office of Maintenance Construction supervisor Donald Fowler in Wellington or at the district office in Childress.

Proposals will not be consolidated for bidding purposes, White said.

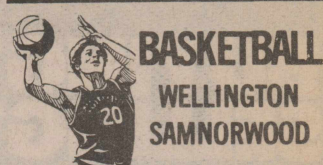

Bidders must submit separate individual bids for any of the separate highway mowing contract.

There will be another letting of bids on March 10 for counties south and east of Childress.

The contract will go to the lowest responsible bidder, according to White.

D.R. McKinney Honored For 30 Years Service

Jim's OK Tire Store this week is recognizing D.R. "Bo" McKinney for 30 years of loyal service. He began work for J.Y. Martin on February 3, 1953.

At that time, the business was active in recapping car and truck tires and vulcanizing farm tires. The regular flat repair was all done by hand. In-the-field-servicing became popular as tractors and tractor tires became larger. The business had one truck designed to handle this type service. Also, added was an inventory of new tires along with used tires. Today, recapping is no longer done at the store. Vulcanizing and regular flat repair are aided

by tire changers and machines.

Also, two service trucks are available to handle in the field servicing on almost any size tractor or equipment. Mr. McKinney's knowledge of servicing farm tires is valued by many farmers and ranchers throughout this country and surrounding counties.

Mr. McKinney is married to the former Nell Arthur. Mrs. McKinney is employed by the City of Wellington as City Secretary. They are

members of the First Baptist Church. The couple have three children, Mrs. Kenneth Davis, Billy and Harold McKinney and six grandchildren, all of Wellington.

D.R. McKinney and his wife were honored with a steak supper hosted by Mr. and Mrs. J.Y. Martin and Mr. and Mrs. Danny Martin. He then was presented with an engraved pocket watch as a token of appreciation for 30 years of loyal service.
