STEWART REPORT SAYS COMPANY IN BEST OF CONDITION

(By Associated Press)
WHITING, Ind., Mar. 7.—Col. Robert W. Stewart, beginning the last round of the fight to retain the chairmanship of the Standard Oil Company of Indiana, opened the annual stockholders meeting promptly at noon today in the company's offices here and adjourned it two minutes later. The session was to convene at the community house within an hour.

The board of election reported that a total of 8,446,120 votes had been cast, 817,410 being represented by person and 7,628,710 being proxy.

After the report of the board had been approved, the minutes of the meeting were read by Felix T. Graham, secretary.

The election of the directors was deferred until after Mr. Stewart had said his annual business report.

WHITING, Ind., Mar. 7.—A \$900,000 corporation today painted, in a Whiting canvas, an epic in oil. It was a picture made by the strokes of the 56,000 shareholders of the Standard Oil Company of Indiana, a picture of Col. Robert W. Stewart, its executive head, riding the forces of the younger John D. Rockefeller.

The best information available before the annual meeting of stockholders was called to order at noon today was that Col. Stewart, former state lawyer, politician, rough rider and 62 year old chairman of the company's board, was whipped; that the Rockefeller forces, assaulting his "moral fitness," had more

ROTHSTEIN PAL SLAIN IN FIGHT

MYSTERIOUS SLAYING TAKES PLACE AT MIAMI HOTEL

MIAMI, Fla., March 7 (P)—The man killed in a mysterious card game shooting affray at the Miami-Biltmore Hotel here last night was identified today as Tom Walsh, a former associate of Arnold Rothstein, New York gambler. Police expressed belief the slayer followed him from New York.

Identification was by Arthur L. Clark, participant in the game, who was wounded. Under police guard at a hospital, he said a man unknown to him suddenly entered the Walsh suite unannounced while bridge games were in progress and opened fire.

Clark, who said that Walsh came to Miami from New York three weeks ago and that they had lived together at the hotel since his arrival a week later, told police: "You can say for me that I didn't shoot Arnold Rothstein."

The authorities, however, announced they intended to continue to question Clark and three other men held in connection with the shooting, concerning the possibility that the slayer of Walsh was linked with that of the former gambler, or whom he acted as bodyguard.

Continue Testimony In Sanitarium Suit

Hearing of testimony in the \$30,000 damage suit of Mrs. Clara McCallan and Mrs. Elmina McCallan against the Lubbock Sanitarium continued today in the 72nd district court before Judge Homer L. Pharr.

The suit is an outgrowth of an appendicitis operation on the late Ray McCallan, whose death, the petition alleges, resulted from the operation.

Vickers and Campbell represent the plaintiffs and Bledsoe, Crenshaw and Dunree represent the defendant.

SEEN IN CAPITAL AS NEW PRESIDENT IS INAUGURATED

Some of the most noted figures at the inauguration of President Herbert Hoover are pictured above. No. 1 is the daughter-in-law of the new First Lady, Mrs. Herbert Hoover, Jr., with the First Lady's granddaughter, Peggy Ann Hoover. The man at the microphone, Graham McNamee himself, as he appeared during the inauguration ceremonies, is shown

in No. 2. Next are President and Mrs. Hoover, the center of an admiring throng of Washingtonians. No. 4 shows "Ex-President" and Mrs. Coolidge, just before the inauguration ceremonies began. No. 5 is Major John Coolidge and his fiancée, Miss Florence Trumbull, who were among those present. In No. 6 are pictured two of the gray-clad veterans

of the south, who rode in the inaugural parade. They are Major General A. T. Goodwyn of Birmingham, left, and Major General N. D. Hawkins. Goodwyn is commander-in-chief of the Confederate Veterans, and Hawkins is acting adjutant general.

EXPLOSION IS FATAL TO TWO

THREE BLASTS OCCUR IN STATE DURING WEDNESDAY

(By Associated Press)
BRECKENRIDGE, Texas, March 7.—The second death from the explosion at the Humble Oil company's experimental station occurred today. Jack Lucas, died in a hospital.

Dr. J. W. Pugh, 35, plant superintendent, died several hours after being rushed to the hospital.

G. A. Anderson, the third victim of the blast to be sent to the sanitarium, was in a serious condition, and little hope was held for his recovery. Several other persons sustained minor burns.

Company officials were unable to give the cause of the blast. They said there was a terrific detonation and that an instant later the laboratory burst into flames.

To reach the bedside of her husband before his death Mrs. Pugh chartered an airplane at Austin and flew the 228 miles here. She reached the hospital an hour before Dr. Pugh died. Mrs. Pugh is an employee of the house of representatives.

PRAIRIE FIRE IS STARTED BY BLAST

AMARILLO, Texas, March 7 (P)—Officials of the Morrissey Torpedo company plant 10 miles from here, destroyed in an explosion last night, said after a checkup that no lives were believed to have been lost.

Cause of the blast that demolished the big nitro-glycerin plant had not been learned. The explosion was heard 10 miles away and houses shaken for several miles around.

Fire which followed the explosion spread over the surrounding prairie

POSTAL RECEIPTS FAR AHEAD HERE

January, February, Income Shows \$3000 Advance

An increase of more than \$3,000 in the postal receipts for January and February of this year over the first two months of 1928 is revealed by figures made public today by Postmaster John L. Vaughan.

February's receipts totaled \$8,196, an increase of only about \$600 over the corresponding month of last year. January's total of \$9,731 was an increase of about \$2,500 over the first month of last year. The present total for the year is \$17,927.

Postmaster Vaughan estimates that the total for the entire year will reach \$110,000 as compared to slightly more than \$100,000 last year.

Daughter Shoots Father In Back

LOUISVILLE, Ky., March 7 (P)—Shot in the back with his own pistol by his 17-year-old daughter, E. B. Smith, 40, railroad boilermaker, was not expected to live today. The shooting followed a family altercation last night in which the daughter asserts her father knocked down her mother, Alice Smith, the

The consideration was named as \$89,000 and the sale constituted one of the largest real estate deals recorded in Lubbock for some time.

The property included three lots with a 75-foot frontage on Broadway.

According to the warranty deed, the sale was made to Dr. Krueger from the George T. Morrow estate by W. E. Bailew, A. G. Hunt, and J. F. Perry, independent executors of the estate.

SHIP AGROUND IN GOTHAM BAY

NEW YORK, March 7 (P)—The Lampor and Holt liner Van Dyck, sister ship of the Vestris, went aground off Governor's Island in the upper bay today as she battled a whole gale on her way to her pier from Buenos Aires.

Wrecking-tugs went immediately to the assistance of the 12,000-ton liner. She was in no danger as she stuck fast in the mud off the easterly side of the island. She had 275 passengers.

The 60-mile northwest wind blew down a fifteen foot section of a smokestack on the hotel Claridge and sent the huge fragment crashing through the roof of a cafeteria on West 44th street. Twenty-five employees and a score of patrons of the restaurant escaped injury as the stack cut a 30 foot hole in the roof and wrecked the kitchen equipment.

At 2 p. m. the Van Dyck was still aground but it was believed she would be floated at high tide late today. The passengers were still aboard and it was said no attempt would be made to take them ashore until the liner docked.

MAY RETURN VERDICT BEFORE TONIGHT IN TRIAL

Testimony was completed this morning in the case of the State of Texas against M. S. Ruby, former city manager, charged with swindling city funds.

Arguments were scheduled to begin shortly after noon today before Judge Clark M. Mullican. The case in all probability, will be given to the jury this afternoon, and it is possible that a verdict will be rendered before tonight.

Golf Clubs, Ring And Pistol Returned to Officers

Nine golf clubs, one ring, and a pistol, stolen recently in the wave of petty thefts by a band of Lubbock youths, were recovered yesterday by the city police department.

Chief of Police John Lemond said today that additional stolen articles were recovered yesterday. The articles have been found in vacant houses, partially burned houses, in a sack in an old lake near the city, and in various other places. Many of the things have been found by other persons, and it is requested that anyone who has found anything thought to have been stolen report to police headquarters.

NEW COOPERATIVE CREAMERY NOW OPERATING IN HALE COUNTY SEAT

PLAINVIEW, March 7.—Fifteen hundred people visited the Hale County Dairy Association's new cooperative creamery owned by a number of dairy farmers of Hale county Friday when it was formally opened for business.

The creamery is one of the largest in the South Plains, having a capacity for making approximately a million pounds of butter annually. C. M. Anderson is the manager. Anderson has been in Plainview for the past several months familiarizing himself with conditions in this territory and helping to get the creamery completed, financed, and built. He comes from Iowa and is an experienced creamery man.

Represents \$25,000.

The creamery represents a total investment of approximately thirty-five thousand dollars. Over four hundred farmers are members of the Hale County Dairy Association, which owns the plant, and this association has been co-operatively selling cream and dairy products for the past five years. The volume has grown until it was found necessary to build the creamery in order to market it efficiently.

A program was given at the formal opening. George W. Louthan, president of the association, presiding. Several local people made addresses, and in addition, M. Renner, of the Texas Technological col-

\$1,250,000 Loss In Auto Show Fire

LOS ANGELES, March 7.—The Los Angeles Automobile Show, composed of 300 cars, several airplanes and motor boats, was in ruins today after a fire which swept the four large tents in which it was housed. Loss was estimated at \$1,250,000.

About 2,500 persons who were in the tents when the fire broke out yesterday left quietly while the orchestra continued with its program. The cause of the fire was thought to have been sparks from an electric circuit or flame from the exhaust of an airplane motor. The wings of a plane first caught fire and the flames soon consumed one of the tents and spread to the others.

Cabinet Members Sworn In Office

WASHINGTON, March 7.—Cabinet members who will work President Hoover were at their desks today, the last two to be sworn in. James W. Good, as secretary of war, and Arthur M. Hyde as secretary of agriculture taking the oath of office today.

Secretaries Mellon, Davis and Kellogg are holdover members of the Coolidge cabinet, but Mr. Kellogg will be relieved soon by Henry L. Stimson, of New York, former governor general of the Philippines, en route across the Pacific to take up his new duties.

Founder Of Buick Automobile Dead

DETROIT, Mich., March 7.—David D. Buick, founder of the Buick Automobile company, now a unit of the General Motors Corporation, died of cancer here last night. He was 74 years old.

Mr. Buick, who was known as one of the pioneers of the automobile industry, died in comparative poverty. For the past two years he had held an instructorship in the Detroit School of Trades. In 1901 Mr. Buick was a wealthy man. After many unsuccessful adventures with "horseless carriages," during which he formed the Buick Company, he lost his fortune, and asked W. C. Durant of the Durant-Dort Carriage Company of Flint, to take over the tottering Buick Company.

News Tidbits From Many Places

Robbery Nets \$500

RANGER, March 7.—Robbers entered the Atlantic and Pacific grocery store here through a skylight and obtained \$500 which had been hidden in four places in the store, according to police reports here Monday. The theft is believed to have occurred Saturday.

Amarillo Air Stop

AMARILLO, March 7.—James G. Woolley, Los Angeles, vice-president of the Western Air Express, announced here today that Amarillo and Holbrook, Ariz., will be the only two regularly scheduled stops on the Los Angeles to Kansas City air line to be inaugurated by his company in May.

Arrangements for the new line virtually are complete, Woolley said.

Electra Woman Dies

ELECTRA, March 7.—Stricken Sunday night with apoplexy, Mrs. May Jones, 58, Electra, died Monday morning without regaining consciousness. Her husband, S. N. Jones, six sons and two daughters survive.

The family came to Electra from Hamlin 18 years ago. Funeral services probably will be held Tuesday with burial in Vernon.

Store Is Robbed

SWEETWATER, March 7.—While the voice of Herbert Hoover in his inaugural address came in over the radio to a crowd in the Quast Music Store Monday morning, sneak thieves took a cash drawer containing \$223.61 from the safe and made their getaway, leaving the new president orating on a plea for general obedience to the laws of the land.

Dr. P. T. Quast, owner of the store, discovered the loss at 11 a. m. He said \$96 in cash and about \$127 in checks were stolen.

Track Walker Killed

COLORADO, March 7.—Ross Armstrong, 37, for several years an employee of the Mitchell County Maintaining Department, was killed instantly by a Texas and Pacific freight train at Loraine yesterday while walking along the track.

Crops Look Good

ELECTRA, March 7.—Although cold weather and severe sandstorms have delayed spring oat sowing, Electra farmers will have finished planting by the end of the week. Heavy frosts have put the soil in mellow condition and, while there is sufficient moisture to bring the grain up, more rain is needed for both wheat and oats. Experienced grain men predict that a bumper grain crop will be raised here, as the plants have excellent root formation and the cold weather will tend to retard the ravages of green bugs and Hessian fly, which have taken toll of the grain here during the past three years.

Girls Hurt In Crash

AMARILLO, March 7.—Three Dallas girls were in an automobile which crashed into a house here Tuesday. The front of the building was demolished, and it was moved several inches on its foundation.

Billie Rich and Peggy O'Neal were in the hospital suffering from cuts and bruises. The girls told the officers they were visiting here from Dallas.

SIGNALS OF CONFIDENCE

Watch them!... those impatient cars that wait, on their marks, at each traffic signal!... Staccato blasts come from exhausts as nervous feet tap accelerators... Americans hate to wait! Then a battalion leaps ahead with a cannon roar of gasoline explosions... Another red signal looms ahead, this time the form of a triangle... now watch again, for a file of that steel brigade will break as a member speeds into a side drive and comes to rest beside a Marland pump... 390,000 times each week this happens... 390,000 discerning citizens of this hurried age, pausing at the Red Triangle to nourish their steeds of steel with the finest motor fuels and lubricants... 390,000 Marland enthusiasts who underwrite the slogan "Always Better" every seven days!

MONTEREY QUIET

Engineer Says All Orderly In Interior Railroad Center

LAREDO, Tex., March 7. (AP) — C. E. Simmons, American mining engineer, who arrived here late yesterday from Monterey, declared there were no troops of any description in the city when he left there yesterday morning.

Simmons said General Escobar, rebel leader, left Monterey at 5 o'clock Tuesday afternoon with five train loads of troops, supposedly for Saltillo. General Sanmartin, formerly in command at Saltillo, was left in charge of a rebel garrison at Monterey. But he and his troops also left during Tuesday night, Simmons said. Bridges south of Monterey were burned, the American revealed.

According to Simmons, the rebels' occupancy of Monterey was orderly. Several soldiers who attempted to loot business places were shot, he said.

Simmons was uninjured. He estimated the damage at \$5,000.

Hunt, enroute to Santa Rita from New York, made a forced landing on the farm Monday because of engine trouble. He previously had left Cromwell at Bradford, Pa., where the oil man boarded a train after a snowstorm made flying difficult.

Lindbergh Again Can Use His Arm

MEXICO CITY, Mar. 7 (Wednesday) (AP) — Colonel Charles A. Lindbergh had the use of right arm restored for the first time since the accident a week ago at Valbuena field when his plane capsized on landing from a picnic trip with his fiancée, Miss Anne Morrow.

His physician allowed him to remove the sling which had held his arm in place until the effects of a dislocated shoulder could be overcome. Meanwhile popular interest in revolutionary activities has drawn attention away from the colonel and his romance. Both Colonel Lindbergh and Miss Morrow are delighted with their freedom from publicity.

Canyon Stock Team Enters At Ft. Worth

CANYON, Mar. 7. — The stock judging team of the West Texas State Teachers college left Thursday night for Fort Worth to attend the 33rd annual fat stock show.

DENIES LECTURE

Judge Says It Wouldn't Do Young Bandit Any Good

FORT WORTH, March 7. (AP) — Judge George E. Hosey yesterday refused a jury's request that he "give the young man a lecture on keeping bad company" after a verdict of acquittal had been voted for Elmer Watkins, 22, tried on a charge of attempted burglary. The request came after the jury had learned a suspended sentence could not be given.

Judge Hosey informed the jury that he was sorry he could not warn Watkins about his associates "because it wouldn't do any good," and that he was already under one suspended sentence and is facing indictments for burglary, forgery and theft over \$50.

Watkins was convicted of robbery and sentenced to five years last May in the looking of Natorium Laundry safe after his uncle, R. N. Howell, 68, night watchman, had been bound, gagged and placed in a laundry basket. The defendant appealed and is awaiting retrial.

How To Get HEALTH and How To Keep It

If the reading of this article teaches you only this one lesson about your own body it may be worth more than millions of dollars to you; for of what use is money without health, or after you are dead?

The lesson is this: "Keep your system pure and you will have health and strength to gain and enjoy happiness, success and length of years."

But you may ask:—

How Can I Keep My System Pure?

That is not a hard question to answer, for physiology plainly teaches you that your liver, which is larger than any of your other vital organs, has the special work of purifying your blood and thereby your entire system and of keeping it pure and healthy.

How Does the Liver Purify?

Physicians tell us that the liver has several functions, one of which is to manufacture a greenish-yellow, bitter fluid called the bile, which, between meals, is stored up in the gall-bladder, but after each meal is poured out into the intestines. The bile is purgative and antiseptic or prophylactic. In health, it is your bile that makes your bowels act regularly and freely every day—it is Nature's only purgative. It is your bile that keeps your bowels pure, sweet, clean and free from fermentation (gas) putrefaction and decay. Remember that germs do not thrive where there is fresh bile and there can therefore be no fermentation to cause gas, nor putrefaction or decay to produce poisons or toxins. Also, as bile is Nature's purgative, there can be no constipation if the bile is flowing naturally and freely from the gall-bladder into the bowels after each meal.

But when the bile becomes stagnant and stops flowing freely, your bowels stop acting regularly and the contents become a food, stagnant breeding bed for the germs of fermentation (gas) decay and disease. These poisons, (called toxins) are gradually absorbed into your blood and circulate all over your body, poisoning, irritating or inflaming your brain and nerves, your muscles and joints, your heart, lungs, skin, kidneys, bladder, spleen and every vital organ of your body, including your liver, stomach and bowels. Your doctor calls this "intestinal toxemia."

Functions of Gall-Bladder

In 24 hours your liver secretes about 25 to 30 ounces (5 to 6 teacupful) of bile, which flows through millions of minute canals, or ducts, uniting to make a large tube which empties into the gall-bladder, as creeks and rivulets unite to form a river that flows into a lake. Your gall-bladder is a hollow muscle that serves the double purpose of a reservoir and a pump. Its functions are similar to those of the urinary bladder. About two hours after eating, when the food is passing from the stomach into the intestine, your gall-bladder should begin its peristaltic contractions, thus pumping the bile into the small intestine where it is mixed with your food. Bile is also a very important digestive fluid, aiding in the digestion and absorption of fats and oils. But that is too long a story to relate here.

Nature's Danger Signals

When your car gets out of fix you can tell it. It is the same way with your bile. Nature gives you warning—not by words, but by signals or symptoms. Your doctor recognizes these danger signals and you also should know them and instantly heed them. It may save you much pain, serious illness and perhaps, big repair bills.

When the bile becomes stagnant in your gall-bladder and is dammed back into your liver instead of flowing freely into your bowels you, sooner or later, begin to feel some of the following symptoms:—Your breath may become heavy or foul, your tongue coated, a bad taste in your mouth, your food (and tobacco) lose their natural flavor, your food does not agree with you; you may have heartburn, gas, or fluttering around the heart, dizziness or blind spells; you may be troubled with

belching or frequent passages of gas from the bowels; the gas "balloons" your bowels and presses so hard on the kidneys that it gives you pain, soreness, stiffness in the small of your back over your kidneys, making you think you have kidney trouble; at night the gas in your bowels presses upon your bladder making you get up frequently, thus breaking into your sleep. In the morning you are tired instead of refreshed. Gradually your health is injured. Your complexion becomes sallow, muddy or yellow—your skin may be disfigured with liver spots or pimples; dark rings may appear under your eyes, you may become sleepless, restless and irritable or blue and melancholic. You may have frequent colds or dull headache; your bowels stop their free, full and natural action; you have constipation, fermentation, gas, putrefaction and self-poisoning or "intestinal toxemia," as the doctors call it. High blood pressure, with headache and swooning spells, may result from continued neglect.

How to Make the Bile Flow

But when the bile stops flowing freely, how can we start it up again? The answer is: Take Calotabs at bedtime and drink water freely the next day. This formula represents the best thought and experience of the best physicians in every civilized country in the world. No other purgative will do. If you take oils, salts, cascara, or the many other simple-laxative syrups, powders and candy laxatives, you are merely wasting valuable time. They only make you feel better for a day or two. They do not remove the cause, for they do not promote the flow of the bile which is Nature's only purgative and intestinal antiseptic. When you take Calotabs you know that you have taken a real, doctor's medicine. It cleans you out thoroughly. Every inch of your twenty-five foot canal, including your stomach, small intestines and large intestines, is thoroughly cleared and washed clean and pure and your bile is flowing freely. Next morning your system feels purified and refreshed and you are feeling fine, with a hearty appetite for breakfast. Eat what you please and go about your work;—there is no danger, for Calotabs are perfectly safe and create no habit except the habit of healthy bowel action.

What are Calotabs—How do They Act?

Calotabs are composed of a thoroughly purified and refined calomel combined with assistants and correctives. The calomel increases the flow of the bile from the gall-bladder into the intestines, and also serves as an intestinal antiseptic. Every physician knows that no other medicine can take its place; there is no such thing as a substitute for calomel. The assistants act like salts, washing the calomel out of the system and preventing its accumulation and any possibility of danger. The correctives settle the stomach and bowels, preventing nausea, sickening and griping effects. Calotabs, (and water) therefore, give you the combined effects of calomel and salts without the nauseating, sickening, griping and dangerous effects of either.

The medicine chest of every home should be supplied with Calotabs, one of the most important of all family medicines, for it is needed in many cases of sickness, and, if used promptly, may prevent many cases of serious illness.

Avoid disappointment by refusing imitations and substitutes. Your druggist can supply you with genuine Calotabs if you insist. For your protection, Calotabs are marketed in original packages only, having the copyrighted trademark shown above. Family package, containing full directions, only 35 cents.

Mrs. W. P. Jennings Is Speaker At PTA

Mrs. Walter P. Jennings was the principal speaker Wednesday afternoon when the Senior High School Parent-Teacher Association met at the school in regular session.

Choosing as her theme, "Playing the Game of Life," the speaker said that many of youth's troubles are caused by parents who do not know how to teach their children the game of living. The genuine truths of life are unchangeable, but standards of conduct vary with generations and the field of goodness is as yet unexplored, she stated.

Mrs. Clyde F. Elkins was appointed chairman of a committee to nominate officers for next year and 10 mothers were asked to work with the senior class in preparations for Senior Day at Silver Falls Park on May 8.

Living and Loving

BY MRS. VIRGINIA LEE

"How far that little candle throws its beams," says Portia in Shakespeare's "Merchant of Venice," "so shines a good deed in a naughty world."

Conversely, how very far goes the influence for evil of a lie, maliciously told.

An unselfish young wife writes me of the unhappiness touching three—perhaps four—lives, by such a lie, and asks me to help her solve the problem involved.

"Dear Virginia Lee: I have been married only a few years but I am not happy. My husband loves another girl that he was once engaged to marry. He has never told me anything about this girl, as he is not that kind. He is true, but not happy. I hear his first name when he talks in his sleep. Some one told a lie about her to split them up. We have one baby and he loves her better than anyone.

"Should I give him up? I know he is unhappy as well as I, but do not know if this girl loves him."

"RUTH KIVA."

"P. S. I could never marry with my baby. Do not think I do not love my husband. I do. He has been very sad for the last month, and often sleeps only a couple of hours a night."

"The only thing I can think of to do is to tell him what you suspect. It is possible, of course, that the other girl is not the trouble that is worrying him. On the other hand, if it is the girl, the best way to settle is to talk frankly to one another."

Needle Society Is Formed Wednesday

The Lucky 13 Needle Society was organized yesterday afternoon when a group of women gathered in the home of Mrs. Burton S. Burks at 2429 21st Street with Mrs. Burks and Mrs. Sidney Oglesbee entertaining.

Mrs. Elmo McClellan was elected president with Mrs. S. M. Reed as vice-president. Mrs. Oglesbee, secretary-treasurer, and Mrs. Burks, reporter.

Members of this club, which is to meet bi-weekly, are Mesdames C. A. Henderson, A. K. Kelly, Burks, S. Burks, S. M. Reed, Alfred Short, L. L. Kieso, Lee Royalty, Elmo McClellan, Sidney Oglesbee, W. M. Pettigrew and V. H. Lindsey.

The hostesses served sandwiches, tea and cakes yesterday.

LANDSLIDE BURIES SCORES IN MADEIRA

LONDON, Mar. 7 (AP)—Details were being sought today of a disaster in the Madeira islands. Messages from Funchal said 100 persons had lost their lives in a great landslide. Reuter advised that five had been killed and 100 were homeless. Reliable information was unobtainable.

The place where the slide occurred was variously described as the valley of St. Vincent and Sao Vincente, on the north coast of Madeira island. The victims were occupants of houses which were swept into the swollen waters of a river and out to sea.

McDonald Case Is Up At Third Trial

PARIS, Tex., Mar. 7 (AP)—The William J. McDonald will case was up for its third trial in district court here today.

A large number of witnesses were called to hear the contention of relatives that the aged capitalist was not of sound mind when he drew his will leaving \$1250 to Texas university for an observatory.

The first jury to hear the case

decided for proponents of the will, but the verdict was set aside. A second trial last November resulted in a hung jury.

Judge Newman Phillips overruled a motion by contestants for a change of venue.

Tax Survey Board Was Constitutional

AUSTIN, March 7 (AP)—The Travis County district court committed error in holding that the resolution passed by the 40th legislature creating a tax survey commission was unconstitutional insofar as it directed the payment of money out of the legislature's contingent expense fund for expenses of the commission, but it did not err in holding that the resolution was unconstitutional insofar as it directed the payment of money out of the fund for compensation to members of the committee, the supreme court held today.

Five Month Term Is Hen Theft Penalty

Following a confession that he had invaded a number of henhouses recently, Vibert Peters this morning pleaded guilty to charges of chicken theft in the Lubbock county court and was sentenced to five months in jail by County Judge Robert H. Bean.

Peters was arrested in Slaton by officers of that city last week after he sold considerable stolen poultry there. In his confession before County Attorney Vaughn Wilson,

SPECIAL FARM RELIEF SESSION MAY BE CALLED FOR NEXT APRIL

(READ THE STORY, THEN COLOR THE PICTURE)

The Maple Tree said, "I'll be nice to you if you'll take my advice. Who'll go upon an errand that is not so hard to do, it merely means you'll have to run, but will lead to heaps of fun." I will!" exclaimed we Scouty, and the tree said, "Good for you!"

Just over the hill, I find a house. Go up as quiet as a mouse and gently knock upon the door. A fat man will appear. You'll find he's dressed up very slick. Please tell him that I want him quick. Then wait until he comes with you, and bring him right back here."

Then Scouty said, "I'll find that man." And over the hill he quickly ran. It wasn't very long until he came back on the run. The fat man yelled, "Hello there, bunch. I guess you're ready for some lunch. I've brought my pancake batter and my stove. We'll have some fun on my little stove burned gasoline. The Times watch with interest keen while Mister Baker baked some cakes. Oh, my, but they looked fine. The Times gathered round a tree, sawed off as nice as it could be. Then Clowdy shouted, "Hurry up. I'm ready now for mine."

The Maple Tree then hollered, "Wait. I'll pay for you to hesitate. Your cakes will taste lots better with my syrup spread on thick. Walk by me with your plates in hand, and I will show you something grand. Don't get my syrup on your clothes. It's always bound to stick." So with their pancakes piled up

high, the Times calmly sauntered by the queer old maple teapot and its syrup slowly spilled. And then the whole bunch slowly ate. At last the baker said, "I guess you are nicely filled."

**Favorable Report
On Ship Channel**

WASHINGTON, March 7 (AP)—A favorable report on the proposal that the government appropriate \$923,000 for improvement on the Houston ship channel at Houston, Texas, was urged today at a hearing before the Army board of engineers by representatives of the Navigation and Canal Commission of the port of Houston.

T. H. Ball, general counsel for the commission, said United States engineers had approved the project and that continued growth of Houston as a port depended on federal aid in widening and deepening the canal and turning basin.

The board of engineers, which was only one of many which had been arranged for the president during his second day in the executive offices since his inauguration.

TARIFF REVISION WILL GET CONSIDERATION AT APRIL MEET

(By Associated Press)

WASHINGTON, Mar. 7.—President Hoover soon is to issue the call for the special session of the seventy-first congress for the consideration of farm relief and limited revision of the Fordney-McCumber tariff act.

He had called in Representative Tilson of Connecticut, the republican leader of the house, for conference today to discuss the date for the convening of the law making body, a matter depending upon how soon the house ways and means and agriculture committees can have the bills in shape for presentation.

The majority leader has estimated that this could be by April 19 and if the chief executive is convinced that this estimate is accurate the call probably will be for that day.

Mr. Hoover already has discussed the extra session with Vice President Curtis and Senator Moses, of New Hampshire, president pro tempore of the senate, and he probably will take the matter up with other leaders during the next few days.

Lawrence Robinson, who writes snappy golf pieces for the New York Telegram, holds a high school romance responsible for the excellent golf game that Helen Hicks, the 17 year old, is putting on display these days.

"A high school romance—that led not to the altar but to a probable golfing championship—took place at Lawrence L. I. high school a few years ago when Helen (Billy) Hicks, the metropolitan district's foremost feminine golfer at the present time, met Jack Mackie, son of the veteran Inwood pro, when the girl was freshman and the boy was a sophomore.

"Her game, but five years old, was founded on the teaching that the son of the Inwood pro inculcated in her game when she was starting. The smooth freedom of her drive and fairway play was patiently developed by the lad who won the New York state championship at Iado in 1925.

Helen first became acquainted with the game five years ago when her father presented her with a mid iron and allowed her to follow him when he played over the Hempstead Country club course near their home.

She showed such a liking for the game that her father presented her with a complete list of clubs. And then she met young Mackie.

"He immediately began the task of smoothing out her game. He did a fine job of it, for Helen has never had to take a lesson from a professional, yet she has at times grounded a game of golf as any woman player.

THOSE MISSING FACES

The names of Ty Cobb and Tris Speaker will be missing from the big league box scores this season. They are the most important ones who tagged their last active service, such as it was, in the majors during the 1928 season.

Speaker is managing the Newark Internationals this season, having taken over the job handled by Walter Johnson in his first managerial attempt. Cobb, however, plans no baseball. He entertains the idea of a trip to Europe, and probably will visit the continent soon.

Their departure leaves Eddie Collins with the Athletics, Max Carey with the Robins and Cy Williams with the Phillies as the three oldest veterans in the majors, excluding pitchers, in point of service.

THE END IS NIGH

The coming season should prove the last in which fans will witness their participation in major league games as active combatants.

They probably won't see much more service this summer than they did last year and it is extremely doubtful whether they will get in the game even as often as they did last year. Cobb and Carey may escape old Father Time, and play for the Dodgers, but the general impression is that he will serve only in a reserve capacity.

It looks as if their playing days are through. Perhaps the 1928 averages listed them for the last time. If not, surely 1929 should prove the end for three fellows who have performed in capable fashion for many seasons.

Calles' Relative Caught By Rebels

NOGALES, March 7 (P)—Revolutionary leaders in Nogales, Sonora, have received a report of the arrest of Gonzalo A. Gonzales, brother-in-law of former President Calles, of Mexico and formerly collector of customs at Nogales, Sonora, by rebels at Piedras Negras, state of Coahuila. Gonzales last Thursday took office as collector of customs at Piedras Negras.

ROCHESTER, N. Y.—Joe Trabon, Kansas City, knocked out Nick Zina, New York, 3-0.

MANAGER PAYS STRICT ATTENTION TO HIS MOUND STAFF

BY BRIAN BELL
Associated Press Sports Writer
TAMPA, Fla., March 7 (P)—Walter Johnson, who spent 21 years in the ranks of the Washington baseball club, has returned to assume the post of commander-in-chief facing an unusual handicap.

Johnson

The big fellow is held in such affection by his fellows it is possible they will be too enthusiastic in trying to win for him.

The great mound vote of the Washington club has cast a shadow over the big fellow's return to the mound.

Johnson, 33, Needle Society member, returned yesterday afternoon, and over half of the crowd gathered to greet him.

ORIOLE STARS STILL ACTIVE

Stars of the early '30's, John McGraw and "Kid" Gleason are taking a hand in the 1929 festivities.

PORT MYERS, Fla., March 7 (P)—Two old-time major leaguers who were doing spring training 40 years ago are actively participating in the 1929 pre-season preparation in the southland.

Here in Fort Myers at the camp of the Philadelphia Athletics, "Kid" Gleason, now 60, is out on the field in uniform daily. Gleason is a coach.

Performing in similar fashion is John McGraw, 56 year old manager of the New York Giants, whose club is training in another sector of the spring training front at San Antonio, Texas.

Gleason and McGraw, who learned a great deal of their baseball during the National league days of the great Orioles of Baltimore, are out on the field every day swinging a bat, usually presiding over the infield workouts.

Both wield a wicked bat when it comes to driving grounders to the infield.

These two agile old timers played with the Orioles when they were the best ball club in the land. The Orioles won three National league pennants in a row, beginning in 1884.

McGraw, a star at 18, was with the club for all three successful seasons and Gleason served during the first two years. Gleason started his career as a pitcher and was a wonder until he pitched his arm out helping to win that first flag in '94.

The next year he played second base and became one of the best in the game.

The little Napoleon of modern baseball did his big time playing as a third baseman.

BLACKBURN HAS DECIDED UPON LINEUP

WHITE SOX REGULARS DEFEAT 'GOOFS' IN WEDNESDAY GO

DALLAS, Texas, March 7.—Manager "Lefty" Blackburn appears to have decided already as to the makeup of his White Sox infield.

Blackburn has indicated the lineup will be: Autry, catcher; Shires, first; Kerr, second; Kamm, third, and Cissell, shortstop.

A merry fight is being fought on the outfield posts, however.

With Bill Cissell doing most of the hitting, the "Regulars" defeated the "Goofs", 9 to 3, in the first practice game yesterday. Eli Ward, big right hander from Ypsilanti, Mich., state normal was the "goat" of the game. He tolled four rounds for the "Goofs", walking seven, hitting one, and allowing four hits.

DETROIT ROOKIE WAS DEVELOPED BY MAN WHO ONCE PASSED HIM UP

Stone as a promising player.

DETROIT, Mich., March 7.—There's an ironic touch to the story of how John Stone became an outfielder for the Detroit Tigers.

The man who once said Stone wasn't such a promising youngster is the same man who had to develop Stone for the Tigers.

When Bob Coleman, now owner-manager of the Evansville Three-Eye club, was manager of the Knoxville Sally League club, in 1926, Stone was playing with the Marysville College team.

Coleman heard of Stone's ability and, with Colonel Frank Moffett, a veteran baseball man, went over to see the 1926 season.

Stone as a promising player. Billy Doyle, Detroit scout, happened to watch Stone early last season and liked him. He signed him for the Tigers.

And then came the ironic act—the Tigers sent Stone for seasoning to Evansville and his boss there before he returned to Detroit was Bob Coleman, the man who had passed him up a year before.

Stone finished the season with the Tigers last year and played in such fashion that he is counted upon as a regular outfielder for the coming season.

He was rated one of the best youngsters to hit the majors in the 1928 season.

HUNDREDS ARE EXPECTED TO PARTICIPATE

PRELIMINARIES COM TODAY AND FINAL EVENTS FRIDAY

Intramural tracksters will through their final workout Wednesday afternoon for the fourth annual track and field meet which starts this afternoon on Tech field.

More than one hundred contestants are expected to enter the various events in the two day meet which will settle the track supremacy of the three major schools of the state.

Ideal spring weather favored thinly clad athletes in their final warmups and if the weather man continues the present mood, the speed demons will have perfect weather day and tomorrow.

Beginning at 4 o'clock this noon, the preliminaries in all dashes will be run off and the in the pole vault will be held.

On Friday, the finals in dashes, distance races and remaining field events will wind up the meet.

WESTERNERS PLAN GAMES

'TOUGHS' AND 'JELLIES' TO CLASH IN TRIO OF GRID TILTS

Following several weeks of intensive training, the "Toughs" and "Jellies" of Lubbock high school will clash next week in the first game of the championship of spring football training according to Coach Frank and Morgan, who have been working with the squad of 54 gridiron hopefuls.

The Westerners mentors have divided the griders into two squads of 27 each. Three games will be played to settle the title. In addition to winning the games, attendance, drive, fight and other football essentials will be considered in awarding the championship.

Robert Rich and W. D. Lawson are the co-captains of the "Toughs" and R. E. Hardberger and Mina Watkins are the leaders of the "Jellies".

The outlook for the 1929 season will depend upon the showing of the newcomers in camp. A number of veterans are back for another season, but the majority of positions will likely be filled by recruits. The newcomers have displayed plenty of speed but the entire squad is noticeably lacking in size.

TEAMS ARRIVE FOR CAGE TILT

TOURNAMENT WILL BE PLAYED ON AGGIE COURTS

(By Associated Press)
COLLEGE STATION, March 7.—Most of the teams that will compete in the state high school basketball tournament here Friday and Saturday had arrived today to begin practice for the event, to be played on the Texas A. & M. Memorial court.

It was arranged for contenders to get on the floor for a time today and get the feel of the court. Bryan High school, one of the entrants, is fortunate in having been able to play on the championship court many times this season.

In the opening round tomorrow Athens will meet May, El Paso will face Denison, and Main Avenue of San Antonio will tackle Cisco in the upper bracket. In the other rung Corsicana is paired against Perryton, Denton against McAllen, and Bryan versus Estelita. San Jacinto of Houston and Knappa drew byes in the opening round.

RARE OFFER

We wonder if you would be interested in the best purchase of raw land on the Plains. If you will take the pains to go to Morton, then about two miles this side, on the north side of the highway, and lying broadside with it, you will see what you yourself will say is the best looking quarter section of land you ever saw. Big statement, you say? Yes it is, but every word true.

No soil any richer, no table any more level, no sand, no grubs, two miles from fine school, court house and gin, an ideal location for a home.

We are authorized to sell this land for \$25 per acre, and when we say that do not get it confused with low land and lots at \$20 and \$15, and that are not worth one-half the price.

Its special value is due to the high quality of its soil, its beauty, its location close to Morton, the ease and certainty of getting a bountiful supply of the finest water. As a matter of fact if this land should sell for its value it would not be one cent less than \$35.00 per acre. Let us tell you more about it.

STOCK TRADE LIGHT TODAY

JOHNS MANVILLE DOWN FIFTY POINTS FROM YEAR'S PEAK

(By Associated Press.)
NEW YORK, Mar. 7.—Price movements were still confused at the opening of today's stock market, with trading relatively light in volume. Johns Manville fell back 2 1/2 points to 191, or more than 50 points below the year's high, and Electric Auto Lite dropped 1 point. New Haven and Greene Cananes each opened a point higher, and U. S. Steel common, Union Carbide and American Smelting improved fractionally.

The market quickly turned reactionary when weakness cropped out in a few high priced specialties. The rise in call money from 8 to 12 percent yesterday seemed to serve notice on speculators that the Federal Reserve Board through its banks was carrying out its intention of forcing a reduction in brokers' borrowings.

Johns Manville broke 11 1/2 points to 182 1/2 and rebounded to around 190. American Woolen issues sank to new low levels for the year. Simmons Co. dropped 3 1/2 points. Safeway Stores 2 1/2 and Union Pacific 2 1/4. Early losses of a point or more were recorded by U. S. Rubber, Montgomery-Ward, Cerro de Pasco and Baltimore and Ohio.

Radio (old stock) which broke 18 points yesterday, rallied 8 and United Fruit, Lamport, American Sugar Refining and American Bosch Magneto rallied 2 to 4 1/2 points.

Foreign exchanges opened easier with cables down 1-3/4 of a cent to 48 5/8-32.

Big Spring Aviation Company Organized

BIG SPRING, Mar. 7.—G. H. Byrne and Frank R. King of this city have formed a partnership and are establishing the first aviation agency to be opened here, under the name of the Big Spring aviation company. Headquarters will be maintained in Big Spring but the territory they cover will include Sweetwater on the east, El Paso on the west, San Angelo, McCombs and Rankin on the south, and Lubbock on the north.

The purpose of the agency will be to sell planes, instruct students in aviation and to conduct taxi service to all parts from Big Spring. Lloyd Mitchell has been secured as chief pilot. King and Byrne have purchased a mono-prop plane and have placed an order for a mono-prop to be used on local field.

COTTON SHOWS OPENING GAIN

BETTER CONSUMPTION REPORT CREDITED FOR UP TREND

NEW ORLEANS, March 7.—The cotton market opened rather firm owing to much better Liverpool cables than due and to a bullish report from the International Spinners federation making the world's consumption of American cotton for the first six months of the season 7,613,000 bales.

First trades showed advances of 8 to 11 points and demand continued aggressive until all active positions showed gains of 11 points over yesterday's close. At these levels considerable profit-taking entered the market and prices sold off 7 to 8 points from the best.

Trade and speculative buying induced by the may indications of warmer and unsettled weather for the western belt absorbed offerings and carried May up to 24.1, July 20.45 and October 20.13, or 18 to 19 points above yesterday's close.

Whatever profit taking was brought about by this bulge, was quickly absorbed at small recessions.

COTTON IS STEADY WITH ADVANCE

NEW YORK, March 7.—Cotton opened steady today at an advance of 9 to 14 points on covering or rebuying by recent sellers and a renewed demand from the trade or commission house sources, which was promoted by relatively steady Liverpool cables and continued favorable reports from cotton goods markets.

May sold up to 21.07 and new October to 20.22 on the initial demand, but this was satisfied by further realizing and prices eased off some 6 or 10 points from the best during the first few minutes.

Rallies from the early setbacks carried the market up to 21.15 for May and 20.31 for the new October contracts before the end of the morning, or about 19 to 21 points net higher.

The bulge met some further realizing but it was absorbed on set-backs of 3 or 4 points. Business tapered off but prices held steady at midday.

PLAN SURVEY ON DAIRYING

MEETING OF C. C. GROUP CALLED TO BE HELD SOMETIME FRIDAY

The dairy committee of the Lubbock Board of City Development tomorrow will begin a county-wide survey in an effort to determine the best step to be taken in the interest of dairying in this county.

Although a number of suggestions have been offered to the effect that Lubbock needs additional milk plants, cheese factories, and other markets for the milk products of this section, it is the opinion of the committee that the present need of the industry is additional dairy cows rather than markets. After the survey determines the outstanding need, steps will be made to satisfy this need.

Following a series of weekly meetings, the committee has worked out an intensive questionnaire to be presented to virtually all of the farmers of the county. The county has been divided into six divisions, each containing from four to seven schools. F. A. Norman, chairman of the committee; W. A. Myrick, Jr., K. M. Renner and Dick Smith, members of the committee; together with Joe Nislar and County Agent D. P. Eaton, will each be given a district. School teachers will give the questionnaires and will distribute them among the pupils who will take them home to their parents. It is hoped to have the survey completed in the near future.

Miss Mae Murfee, Lubbock county school superintendent, has written to the principals of all of the rural schools, announcing the visit of the committee members and asking for the cooperation of the schools.

Other than the ones named, the dairy committee included A. H. Leidigh, W. L. Stangel, and I. E. Barr.

"Wife" Learns Her
Husband A Woman

LONDON, Mar. 7.—The "wife" of "Captain Leslie Barker" was surprised today to learn her "husband" was a woman.

"Captain Barker," a boxing instructor, was arrested in connection with a bankruptcy proceeding and is held in the woman's prison at Holloway.

"He" married Elfrida Howard, daughter of a druggist at Little Hampton, at Brighton in November 1921, after a courtship of two years.

The wedding was witnessed by the parents of the bride, who said their daughter at first was very happy but later became miserable and left "him" two years ago.

The wife is now living with her parents who said she was unaware of the masquerade.

Dallas Women Are
Victims Of Attack

DALLAS, Mar. 7.—Mrs. R. M. Bryan and her mother, Mrs. Ellen McCone, were the victims of assault here last night for the second time this year. Poisoning may be the motive of the newest attack, they told police.

The youngest woman said she went to the bath room and discovered a man working with powders and the contents of the medicine cabinet. He bound her to pipes in the bath room and fled, she said, just as her mother awakened in another room. Mrs. McCone said she fired three shots at the intruder as he fled through the back yard. The powders and the contents of the cabinet are being analyzed by chemists.

Woman, In Frenzy
Shoots Daughters

ST. LOUIS, Mar. 7.—Crazed, presumably by worry over the suicide of her husband, Mrs. Lena Hawkins, 42, shot and killed one of her daughters and wounded another while they slept at their home here today.

The daughter slain was Winifred Krape, 17. The other girl, Bernice Krape, 18, was wounded in the left arm. Both were daughters by a previous marriage.

The scene of the shooting was a three-room flat. Neighbors found Mrs. Hawkins, lamenting that she had failed to end her own life for want of another bullet.

Lindy May Pilot
Plane On New Line

MEXICO CITY, March 7.—Colonel Lindbergh refused to confirm announcements in Mexico City newspapers that he would pilot a mail plane to Brownsville, Texas, Saturday inaugurating service over the route.

The Mexican Aviation Company is known to be ready for the informal opening of service to Brownsville today but the official start will not take place until Saturday.

RYLANDER IS CLUB SPEAKER

ASKS FOR EXTENSION WORK BY KIWANIS THIS SEASON

W. C. Rylander, district lieutenant-governor for Kiwanis International, was the principal speaker at the weekly luncheon meeting of the Lubbock Kiwanis club today noon, and made an earnest plea for this club to sponsor one or more new clubs in towns of this section during the year.

Another feature of the meeting was an exhibition, by living samples, of what the American Legion minstrel is to be. Mayor H. D. Woods, in announcing the minstrel to the club, stated it would be a "knock-out." He introduced Dr. G. H. Ater, who is producing the big show, who, in turn brought in two minstrels, all blacked up, they being Bob Peck and Lionel Merrill. A short program of minstrelsy, including songs, jokes and dances was given. Bob Stevens being at the piano. G. A. Meiser favored the club with the singing of "Sonny Boy."

C. J. Meyers announced that the club's Pig Project, in which they are to purchase 25 pigs, to be distributed among members of the 4-H club boys on farms of the county, was nearing completion. The pigs are expected to be ready for distribution within a few days and are to be given to the club boys. County

Agent D. P. Eaton is to work with the club in placing the animals.

Jack M. Lewis presided during the meeting. President A. H. Leidigh reporting a hoarseness too great for speaking. Dr. G. G. Castleberry was in charge of the day's program. Hub Jones and H. A. Davidson are to prepare next week's program, it was announced.

Motorists Warned
About New Lines

A warning that motorists stopping on the left side of the yellow lines while waiting for traffic lights to change was made today by Chief of Police John Lemond.

"No one will be excused if they violate this ordinance," he said. "Those lines were placed in the middle of the street as a dividing line, and motorists will be expected to stay on the right side."

Death Penalty Is
Asked For Fritts

ANSON, March 7.—The death penalty will be asked for Bill Fritts, Haskell county farmer, on trial here for the murder of D. W. Hamilton and son, Earle, shot to death in

front of their home near Rochester last October. Fritts is expected to plead insanity.

Seven jurors had been selected when court adjourned last night. Fritts' plea for a continuance on the ground that his wife, an important defense witness, was the mother of a two-day-old child and could not attend court, was denied.

WEALTHY, RETIRED BUSINESS MAN IS STRONG INDORSER

"I have always been a strong healthy man up to a few months ago when I had a bad attack of 'Flu'. My whole system became badly run down. I lost my old-time strength and energy. I began to suffer with indigestion and biliousness.

Everything I ate disagreed with me and I was constantly spitting up undigested food sour as vinegar. I was constipated, had severe headaches and was continually taking laxatives. My tongue was coated and my breath was awful. I would tire easily and my sleep was badly broken. These troubles were new with me.

"In only a few days after I started taking Sargol and the pills, I began to improve. Four bottles of Sargol and two of pills made me feel like a different man. I have regained my lost weight and am always hungry. What I eat, digests. I am no longer bothered with bloating, gas or belching, nor biliousness and headaches. I sleep soundly and have my old-time 'pep' and energy. I feel fine all the time.

"I have never indorsed a medicine—but I'm telling all my friends about the Sargol treatment."

The above statement was made by Charles E. Burns, wealthy retired real estate and insurance man of Girard, Kan., a recent Kansas City visitor. Since his wife's death a few years ago, Mr. Burns turned his farm over to his son, sold his other business and is taking life easy. He is a Mason and one of the best known men in that part of the state.

Sargol may be obtained in Lubbock at the City Drug Stores and in Slaton from the City Drug.

devices to the Associated Press to report from Guaymas, Sinaloa, stated that General Huerbe, leading a body of rebel troops, is advancing southward through that state and is expected to take Culiacan, the state capital of Sinaloa, today.

COAHUILA CHIEF MOVES TO BORDER

EAGLE PASS, March 7 (AP).—Acting Governor Sillar of Coahuila, Mexico, has moved his headquarters from Saltillo to Piedras Negras, across the Rio Grande from Eagle Pass, because of conflicts between General Gonzalo Escobar, rebel leader, and loyal troops near Saltillo, it was reported here today.

GIL REPRESENTATIVE LEAVES FOR TEXAS

BROWNSVILLE, March 7 (AP).—Roberto V. Persukieles, Mexican finance minister who is acting as personal representative of Provisional President Portes Gil, left here in an airplane at 10:10 a. m. today for San Antonio, after flying here yesterday from Mexico City.

From San Antonio, Persukieles and his party will go to El Paso, presumably to assist Matias Ramos, former assistant secretary of war, in preparing an offensive in Northern Chihuahua against the rebels. Persukieles would say nothing about reports that Mexican troops might be brought across the border and sent to El Paso. He instructed Consul L. Lopez Montoro of Brownsville, however, to ascertain the truth of such reports.

JUAREZ WATCHED BY MILITARY LEADERS

EL PASO, March 7 (AP).—A handful of federal troops in Juarez, across the border from here, prepared today to defend the city against an attack by rebels under General Marcelino Caraveo. Machine guns were mounted around barricades at the barracks and at the principal street intersections. Reinforcements were reported to be on the way but it was doubtful whether they would arrive before the revolutionaries.

The rebels, reported to be advancing on Juarez, were believed to be in the mountains 20 miles south, railroad tracks in that direction have been destroyed by government troops.

Following reports that a pro-revolutionary movement was gaining headway in Juarez, the federal established military rule, took over the customs house, disarmed police,

SCHOOL ADDITIONS FOR LUBBOCK RECOMMENDED BY COMMITTEE

NEW HIGH SCHOOL IS ONE FEATURE OF PLAN OUTLINED

The report of a committee of representative citizens, selected recently by the Lubbock school board to make an investigation into the local school problem, that numerous additions should be made to the present school buildings and that an adequate high school building and several ward school buildings should be erected has been unanimously adopted by the board.

Growing out of the urgent need for additional space in the local schools, a committee of five persons was selected about two months ago to make an exhaustive investigation into school conditions. This committee was composed of A. H. Leidigh, chairman; Mrs. W. B. Price, Mrs. Walter P. Jennings, R. D. Moxley and Judge George R. Bean.

E. E. Maedgen and Neil H. Wright were authorized to announce that the board pledged its support in carrying out the recommendations of the committee. The board selected Peters, Strange and Bradshaw as architects to draw plans for a modern adequate high school building, which it is hoped will be erected in time for the 1930 school term.

All members of the committee agreed in the report except Judge Bean, who feels that the present need for room will justify the immediate erection of a new high school building to be ready by the opening of the next school term. He suggests that the lower grades be placed in the present high school building and that construction begin soon on a new building. Before making the report the committee visited all of the city schools, finding crowded conditions in each instance.

It is thought that a bond election will be called probably in May for proposed additions to the city school system. The board feels that it is impossible to plan to erect a new building by the next school term.

HEAT EXPANDING DRUM IS BLAMED

DALLAS, March 7 (AP).—Heat expanding a drum of high test gasoline was believed to have caused an explosion which wrecked the interior of the Texas Testing Laboratories and injured an employee, P. V. Crehan, here yesterday. Crehan was burned severely about the face and arms when flames enveloped the office.

banquet would be best ever to be held by the organization both from the standpoint of attendance and program. Invitations have been sent to the officers of other retail merchants associations, and chambers of commerce throughout the South Plains and to newspaper editors. All local merchants, whether or

U. S. Troops May Take Hand

On this side of the border, United States army officials at Fort Bliss watched the situation closely. They indicated that American troops would cross the border and enter Juarez should fighting develop there in such a way as to endanger the lives of Americans in El Paso. American troops drove Francisco Villa out of Juarez in 1915 after stray bullets had killed several residents of El Paso.

General R. Ramos, who resigned as assistant secretary of war to assume command of the troops in Juarez, said he would defend the town unless overwhelmingly outnumbered, in which case he would withdraw his troops and retreat.

General Ramos arrived here last night by airplane from Brownsville in an interview with El Continental, Spanish language newspaper, outlined a part of the government's plan of operations.

He said two columns of troops, some 1500 men, aided by two squadrons of airplanes, are advancing against General Jesus Aguirre, one of the leaders of the revolt. General Almanzan is in charge of the federal troops, Ramos said.

Some 20,000 men in four columns are moving upon General Escobar, another revolutionary leader, at Monterrey. The columns are moving from Saltillo, Tampico and Zaca-tecas.

In the Sonora area, Ramos said, General Cardenas is organizing troops to attack the rebels. He is recruiting upward of 10,000 men in the states of Aguascalientes, Queretaro and Michoacan.

The Seventh United States Cavalry at Fort Bliss was under orders to move today with full field equipment. No details or reason for the move were announced.

than enough proxies to end his 11 years leadership.

This Col. Stewart would not admit; nor would he make advance claims of victory, as did his antagonists. He said he had made an energetic campaign for support; that he had a majority of stockholders behind him, though they might not represent a majority of the stock; that his fellow directors had given him their endorsement.

Stewart is Favorite
Quite generally Col. Stewart was regarded as the "sentimental favorite." But sentiment was no deterrent behind him, though they might not represent a majority of the stock; that his fellow directors had given him their endorsement.

At the last minute the talk had turned to the election of directors, but to how great an advantage the Rockefeller group would possess. The estimates ran from a million to a million and a half votes, as votes are counted in shares of the company's stock. The Rockefeller forces claimed control of 59 per cent of the company's 9,000,000 votable shares. The claim was made after a check of all proxies had been made.

Three Vacancies Left

Should Col. Stewart lose, there would be three vacancies on the directorate to be filled. It was understood the Rockefeller leaders had decided these vacancies should be filled by the election of Dr. William M. Burton, former president; Thomas C. Cooke, now in charge of manufacturing for the Pan-American Petroleum Transportation cor-

poration, a subsidiary, and Dr. G. Cash, manager of the Whiting refinery.

Earlier predictions that Ed G. Seubert, president of Standard of Indiana, would succeed Stewart as chairman should the election go favorably for the Rockefeller group, were regarded today as erroneous. The best information was that Seubert, who has been supporting Col. Stewart, would remain as president and executive officer, but that Dr. Burton would be named chairman with final authority.

\$83,437,166 EARNING DURING PAST YEAR

WHITING, Ind., Mar. 7 (AP).—Net earnings of \$83,437,166 in 1928 established a new record for the Standard Oil company of Indiana, the annual report showed today. Surplus and earnings per share also established new high marks, said Col. Robert W. Stewart, chairman of the board. The net earnings were \$50,239,710 greater than for 1927, amounting to \$8.33 a share as compared to \$3.36 for 1927. This represented a profit of 16.76 per cent on capital invested which, at the close of 1928 was \$461,462,304, as compared with \$407,639,379 at the end of 1927. Total assets, including investments in subsidiary and affiliated corporations were listed at \$498,371,642.

General Agent Wanted

A large Old Line Life Insurance Company has an opening in this territory for a General Agent.

While we would prefer a man between the ages of 30 and 45 who has had previously successful life insurance experience, this is not absolutely necessary. A well-organized plan of Home Office instruction together with close personal supervision and cooperation make our proposition especially desirable to some one who has some sales, organizing and executive ability.

The Man We Are Looking For May Be—

- (1) A successful Life Insurance Salesman, looking for broader opportunity.
- (2) A School Teacher, who feels that his training and standing in the Community can be made to yield larger returns.
- (3) A Salesman, Sales-Manager, or executive who is not advancing with his firm as rapidly as his capabilities warrant.

In order to save time, please give us the following information in your letter: Age, present occupation, average income per year, health, education, family, your former address and connections, together with your reasons for desiring to make change.

A personal interview may be arranged within ten days from date of this advertisement. All communications and negotiations will be treated in a strictly confidential manner.
