Traditional post Christmas let-down was almost absent in Hereford as several stores started their annual clearance sales on Tuesday and more are coming up the last of this week and early in January.

Our only let-down was a feeling of too much eating and not enough exercise. This is a common holiday malady and can be remedied by such strenuous efforts as Onias Carroll indulged in by playing baseball until after dark Monday.

Santa Claus is a fine old gentleman, but he must have slipped up somewhere. This is the first Christmas in years that he failed to bring at least one battery-operated toy to our boys. The high point, as I recall, was two years ago when his gifts called for about 12 batteries just for initial operation. That is about like buying a yacht. It isn't the initial cost that hurts... it's the operational upkeep that ruins you.

Project Christmas Card in Hereford this year netted \$1,493.25 for the Hereford Medical Auxiliary. These funds will be used to buy more equipment for the obstetrical wing of the county hospital. It also will provide a scholarship for a high school graduate who will enter nursing. (Continued on page 2)

Luther Lesly Receives State Soil Conservation Award

Luther Lesly of Hereford has been named one of five outstanding Soil Conservation Area Supervisors in Texas for 1961. He was named from Area 1.

Announcement of Lesly's selection was made by Claude Jones of Gainesville, chairman of the State Bankers Award Program Committee.

A formal presentation of a silver service tray from Texas Bank and Trust Company of Dallas will be made to Lesly at the 21st annual State Association of District Supervisors Convention in San Antonio on Jan. 12.

Supervisors were judged in each of the 182 Soil Conservation Districts by a Bankers Awards Committee. District winners then were judged by the area committee and these were narrowed down to the top five men in the state committee.

Lesly was elected a supervisor for the Tierra Blanca Soil Conservation District in October, 1951. A native of Motley County, he moved to Deaf Smith County from Lockney in 1944. In 1947 he purchased a 447-acre irrigated farm north of Hereford and immediately developed a Conservation Plan.

He realized early the importance of conserving precious irrigation water and good top soil. Through the years he has supplemented his original plan and kept his farming operations current to meet the changes in a progressive agriculture. His sound conservation cropping system includes rotation of wheat, barley, grain sorghum, cotton, vetch and vegetables over his entire farm.

He has installed underground irrigation pipe and manages his irrigation system so he can make maximum use of rainfall and efficient use of irrigation water without causing erosion. Diversification also is important to his farming operations. Each year he plants wheat and vetch for soil improvement and to furnish grazing for livestock.

One of the most important parts of his conservation plan is his 22 acres of blackwell switchgrass irrigated pasture. Planted in the spring of 1957, the grass has furnished a remarkable amount of grazing. (Continued on page 2)

1962 Political Activities Get An Early Start

For an off-year as far as elections are concerned, 1962 promises a lot of political activity on the local level as city and county residents fill positions on the City Commission, the school board and a number of county posts.

In the upcoming local elections to be held in the spring, Hereford residents will vote on two members for the City Commission.

These posts are the ones presently held by Troy Moore and (Continued on page 2)

Auditing Firm Hired By County

Meeting in a special session Friday afternoon, the Deaf Smith County Commission voted to hire a firm to audit county books for a two-year period.

Hired was the firm of Brown, Graham and Glover of Hereford. The firm will audit all accounts for the county for 1961 and 1962.

In other action, Commissioners re-appointed three persons to the Deaf Smith County Hospital Board. Carl Perrin, J. T. Gilbreath and Wayne Thomas were re-named for two-year terms on the board.

In action Friday morning, the Commission had voted to hire Oscar A. Schilling of Amarillo as architect for a small children's addition to the present hospital building. The group also approved plans for the addition as recommended by the hospital board. The addition is expected to cost about \$54,000. Bids on the project are to be opened on Jan. 22, during a regular County Commission meeting.

CHRISTMAS VISITOR

Cite Promising Outlook For Cattle In Honduras

One of many Latin-American countries which is gradually undergoing an economic renovation, Honduras sports a growing cattle industry that is joining the fruit industry in the tropical land.

J. O. Cappel, Jr., father of Mrs. Gerald McCaskill of Hereford, is partly responsible for the improvement and enlargement of the cattle enterprises in Honduras.

As head of the United Fruit Company's cattle development program in the small country located in Central America, Cappel has charge of some 26,000 head of beef cattle.

Spread over many ranches in the Honduras coastal area, the cattle are raised by the fruit company to supply the beef needed by the company employees.

Cappel has charge of all cattle growing and breeding operations, as well as packing, and some exporting.

Along with his wife, Cappel is in the United States on vacation. After visiting two sons in the armed forces, he came to Hereford Dec. 20 to visit with his daughter, Mrs. Gerald McCaskill and family. He will return to Central America Jan. 12.

"The United Fruit Company is primarily concerned with bananas," states Cappel. "We raise cattle to help support employees. The company also has interests in cocoa and palm oil in Central and South America."

Cappel went to work with the company in 1926, and was sent straight to Honduras. "I only signed on for one year," he stated, "but I liked it so well

I'm still there." He now has charge of all cattle operations for the country.

"Honduras is very promising for the cattle industry," according to the cattleman. "There are lots of possibilities, and the government is now encouraging cattle raising."

"We raise Brahmas, for the most part. We have a large herd of pure-blood Brahmas, as well as cross-breeds." Since Cappel has been with the company, many Santa Gertrudis have been imported from Texas, Florida, and Jamaica.

"We now have about 600 Santa Gertrudis," he added, "that are doing quite well." Because of the tropical climate, none of the northern breeds, such as Herefords, can be grown in Honduras.

"Feed is expensive and meat is cheap in Honduras," states Cappel. "All cattle are fattened on grassland. We have good grass the year 'round."

On the huge ranches controlled by the company, Cappel employs native labor, with only a few American supervisors.

Like all industry, the cattle growers in Honduras face problems. Cappel states that there (Continued on page 2)

Hereford Faces Vernon In Lubbock's Caprock Tourney

Hereford takes on Vernon in its first game of the annual Caprock Holiday Invitation basketball tournament in Lubbock Thursday. Game time is set for 2:30 p.m. in the huge Lubbock Coliseum.

Vernon will enter the game with a 4-4 record, while Hereford has a deceiving 4-7 mark

for the season. The Lions' quintet beat Childress by six points at home and then lost to them by two points on the road. Vernon also has chalked up a pair of wins over Burk Burnett and one victory over Stephenville.

Their losses include 10 and 15 point decisions to Wichita Falls and a 10-point loss to Pampa. Ronny Harvey is the tallest starter for Vernon at 6-2. Four other 6-0 players round out the starting five for Vernon. Lesley Nelson and Wesley Nelson are twins, with Lesley the team's top scorer. Grady Stowe and Larry Appleby are the other starters.

Appleby is a junior while the rest are seniors. Top reserve is Dan Keese, a 6-4 sophomore.

On paper, at least, the two teams look about even since Hereford dropped a pair to Pampa, 57-67 and 51-63. The Whitefaces also have lost twice to Palo Duro and Plainview and once to Amarillo High.

They have victories over Canyon twice, Tulla and Clovis.

Top scorer for the Herd is 5-8 guard Dennis Hodges, an all-tourney selection at the Caprock meet last year. He also is the only returning starter.

Rounding out the first five are: Mack Cansler, 5-11 senior; Jerry Curtis, 6-2 senior; Randy Dowell, 6-2 senior; and either

Dwight McGee, 6-0 junior; or Jim Haney, 6-2 sophomore.

Only Junior Coffey of Dimmitt has repeated as an all-tournament choice at the Caprock tourney, but Hodges is just one of several who could repeat this year.

All other first-round games in the large school bracket were slated for Wednesday evening. In the bottom half of the bracket with Hereford and Vernon (Continued on page 2)

Cansler And Walterscheid On 'Dream Team'

Butch Walterscheid and Mack Cansler added to their growing list of football honors last week, as they were named to the Lubbock Avalanche-Journal's "Dream Team" for South Plains gridsters.

Composed of stars from all area AAA schools and smaller, the offensive squad included both Herdmen's names on the first string offensive unit.

"Dream Team" members are selected each year by the sports staff of the Lubbock paper, with the aid of area coaches.

Others on the mythical team include Leonard George, Brownfield end; Alton Sossaman, Denver City tackle; John Porter, Lamesa tackle; Buddy Price, Littlefield guard; Donnie Hanst, Lockney guard; Dale Dixon, Matador center; and backs Hal Hudson, Springlake; Rodney Teague, Floydada; and Randy Hicks, Seminole.

On the separate defensive unit were ends Larry Lee of Hart and Herb Sorley of Stanton; tackles John Clare of Brownfield, and Doug Reed of Levelland; guard Jim Vining of Seminole; linebackers Charles Edwards of Ralls, Don Crumpton of Bovina, Jerry Lovelace of Farwell, and Robert Duncan of Denver City; and halfbacks George Curtis of Denver City and Sammy Faulkner of Seagraves.

Dimmitt's Wayne Meacham was named as end on the second team, the only gridster from this area to make the second team roster.

Coach Leo Fields, who tutored the underrated Kress Kangas to the state quarter-finals, was named to lead the honorary South Plains "Dream Team."

Hereford's end and linebacker Butch Walterscheid, along with halfback Mack Cansler, have both been tabbed on the All-District and All-Regional squads picked earlier.

Walterscheid was named to (Continued on page 2)

Committee Posts To Be Filled In Election Jan. 9

The annual election of directors and county committeemen for the High Plains Underground Water Conservation District has been slated for Tuesday, Jan. 9, as Deaf Smith County residents go to the polls to elect two committeemen.

Up for re-election to the five-man county board is Clinton Jackson, 807 N. Miles, for commissioner's precinct 3. Nominated to fill the post vacated by Jack Higgins is Billy B. Moore, Wildorado, for precinct 4.

Polls will be open at the Deaf Smith County Courthouse from 8 a.m. to 7 p.m. on election day.

Qualified voters residing within the county are eligible to vote in the election. It is not necessary to be a farmer, an irrigator, or involved in any specified occupation to be eligible.

The only requirement to cast a ballot in the upcoming election is that a voter must present his 1960 poll tax receipt.

COMFORTABLE AND CONTENTED, "Spot" receives a pat on the back from Kelly Coplin, his faithful master. After his many travels, the Collie has returned to his home, this time to stay. People are funny, they say, and so are dogs. Two-year-old Spot showed little interest in Coplin, but went a long way to prove his love for "his man." (Staff Photo)

One-Man Dog Returning Back To Favorite Master

A man's best friend is his dog. A dog's best friend is his man, according to "Spot".

Spot is a two-year-old Collie, who came to live with Kelly Coplin at the H. M. Thomas home at 145 Sunset Drive.

The lively Collie was given to Coplin only seven weeks ago. After staying with Coplin just two weeks, the dog was given away because he would have nothing to do with his new master.

Spot was taken to a comfortable farm home, almost 14 miles away from Hereford.

Five days later, he lay on the front porch as Coplin opened the door. Spot had walked home, and was none the better for wear. Coplin fed the dog and showed him his highest affections, but Spot was only around at mealtime.

Once again, he showed little interest in Coplin's friendship. Finding the Collie a "perfect" home, Coplin sent Spot to live with a farmer south of Dimmitt. Companionship, love,

and food were plentiful for Spot at his new home. . . . but two weeks later Spot arrived once more at the Thomas home.

"His feet were worn to the quick from his long walk," says Coplin. "It had been snowing and he was half-frozen."

"Since that dog thought enough of me to come back, I didn't have the heart to give him away, no matter how he acted towards me," Coplin recalled.

"He was a different dog this time, though," said Coplin. "When I go out to feed him, he is always right there. He will not eat until I leave, because he had rather play with me."

"It's funny," mused Coplin. "Spot had stayed with a family for the first two years of his life, but he came back to me although he had only known me this short time."

Spot is obviously a one-man dog.

Deadline For Poll Tax Just A Month Away

Deadline for paying poll tax is only one month away as midnight, Jan. 31, is the final date for obtaining the receipts.

Only 665 county residents have obtained receipts so far. Poll tax is only \$1.75, and must be paid by all voters between the ages of 21 and 65 in the state of Texas.

Such important spots as the state governor and several county offices will be up for election during 1962.

Poll taxes must be paid at the county tax - Assessor Collector's office in the Deaf Smith County courthouse.

Lamesa is 11-1 with a single loss to Midland. Wallace Franklin is averaging more than 19 points per game, aided by Gene Westmoreland, who is hitting about 14.

Top guns for Snyder are Pooch Hatter and Tim Marcum.

Midland is 10-3 so far with a Mutt and Jeff scoring punch in 6-7 James Adams and 5-8 Warren Lynn.

Levelland is expected to provide scant competition with its 2-9 mark. The Lobos are paced by Dave Schmidley and Rocky Hill.

Open since last Friday night, the Whitefaces have been working out twice daily in preparation for the tourney and are expected to be in top condition for the games.

BUS FOR BLIND

CHARLESTON, W. Va. — A little bus that makes a 68-mile daily round trip to carry eight blind youngsters to and from school is rolling again. A few weeks ago the bus operation was in trouble. The parents needed \$1,000 to repair the creaking vehicle and meet other expenses for the remainder of the year.

Then a Charleston auto dealer came to the rescue, overhauling the bus without charge. A rental-car firm loaned a station wagon for use while the bus was being repaired. Then a bake sale, held by the parents netted \$75 and several donations were received.

As a result the bus again is running from Nitro, west of Charleston, to the Glenwood School here, where special classes are held for the blind.

Lesly was elected chairman of the Board of Supervisors for the Tierra Blanca Soil Conservation District in January, 1953, and has served continuously in that capacity since that time. Under his leadership, the District program has progressed very rapidly.

To date, there are 777 Soil Conservation District cooperators covering 658,732 acres.

The Tierra Blanca District is one of the few districts in Texas which has heavy earth-moving equipment that is self-sustaining. The District has a large crawler tractor, carry-all and motor grader which are used on such items as farm ponds, land leveling, diversion terraces and waterways.

It's not that they are anti-social or anti-progressives, but the children along our block (85 per cent boys) are quite disturbed that stakes have been laid out for a new house on one of the few remaining vacant lots. It seems that the proposed house will be located roughly along the first base line, extending across the pitcher's mound and almost to second base, then on into right and right-center field of the neighborhood baseball diamond. That leaves only one lot large enough for a new ballpark, and it will have to be leveled and cleaned of weeds before play resumes. May be that clearing the lot will occupy a large part of the energy this spring and summer.

Luther Lesly has been honored as one of the leading soil conservationists in the state and we'd like to add our congratulations for the recognition. Luther is sincerely devoted to soil and water conservation and has been a leader, not only in this county, but throughout the state. He richly deserved the honor and would have won it last year except for a technicality. He and his wife will be in San Antonio next month to receive the honor. Also attending the state convention are expected to be Mr. and Mrs. Don Newman. Don is head of the Soil Conservation Service here and was instrumental in collecting the material submitted for judging about Luther and his many projects.

Cuby Kitchens and his Whiteface cagers will be in Lubbock Thursday afternoon for their first game in the Caprock Tournament. If they win, they will play Friday. If they lose, they will play Saturday.

Texas set a dubious record of being second in the number of traffic deaths during the Christmas weekend. Now the New Year's weekend and the rush of home-bound holiday traffic will combine for another bloody record on our streets and highways. Texas has always bragged, but having more than 50 traffic deaths on a single weekend is a tragic thing we can do without. For your own sake, for that of your family and your fellow man, be careful this weekend. Drive as if your life depended upon it... it does.

The class receives a share of the rental for maintaining the equipment. This helps provide funds for the FFA chapter and also teaches the boys the use and maintenance of farm machinery.

Lesly also is instrumental in the District's annual land-judging contest for 4-H and FFA boys. He is also active in the District's annual essay contest for high school students on soil and water conservation. The local winner goes on to compete with others in the statewide contest.

In 1955, Lesly was elected by other SCD supervisors as an Area Supervisor. Other activities in this District, developed under his leadership, include a wildlife conservation program, which saw 200 Bobwhite quail put out in the county in 1959. He was instrumental in organizing and conducting annual soil conservation tours for farmers, ranchers and businessmen.

And, each year, the District sponsors Soil Stewardship Week, which is built around the churches of the district.

Since being named a supervisor, Lesly has attended every annual state convention and has also attended one national soil conservation convention.

are no really outstanding problems, however. The government is quite lenient with cattle raisers, he says.

LET'S COOK SOMETHING!

Try These To Clean Up That Left-Over Turkey

Good luck is bound to be with you on New Year's Day if you serve HOPPIN' JOHN, made with hog jowl, as is customary in many Southern homes. Boil a cup of rice and a cup of black-eyed peas with a hog jowl or a piece of fat back. A shaker of cayenne pepper and a bottle of Tabasco sauce on the table will permit individual seasoning to taste. Fresh, frozen, canned or dry peas may be used.

This recipe is good for using left-over vegetables from the holiday meals.

Upside-Down Vegetable Cake

2 cups sifted flour
1/2 teaspoon salt
1 egg, beaten
4 cups mixed cooked vegetables (peas, carrots, celery, lima beans)
2 teaspoons baking powder
1/4 cup shortening
1 cup milk
1/2 cup vegetable stock
2 tablespoons butter
Mix all dry ingredients together and sift and cut in shortening. Combine egg and milk and add to dry ingredients, stirring until mixed. Arrange hot seasoned vegetables in the bottom of greased shallow baking pan, add vegetable stock, dot with butter and cover with the first mixture. Bake in a hot oven for 20 to 25 minutes. (Oven at 425 degrees F.) Turn out on hot serving plate with vegetables on the top. Serve with tomato sauce.

Methods of fixing left-over meats are many, making delicious dishes.

REP. WALTER ROGERS WRITES

Presidents Often Present Budgets Showing Surplus

TO THE PEOPLE OF THE 18th DISTRICT:

Soon after January 10, 1962, the President of the United States will submit his annual Budget Message to the Congress. This will be the first official Budget Message to be submitted to the Congress by President, John F. Kennedy.

The Budget Message for Fiscal Year 1962 was submitted to the Congress on January 16, 1961 by President Eisenhower, having been prepared by his Bureau of the Budget and other departments of the government. Fiscal Year 1962 began on July 1, 1961, and continues through June 30, 1962. The total budget request was \$80.9 billion.

The estimated income or receipts during the period were \$82.3 billion. The word "estimated" is used because it is impossible to tell just what the actual receipts will be, since these depend upon economic growth and many other factors.

It is not unusual for Presidents to present a budget which reflects that there will be surplus. For instance, in 1958 the President's Budget Message made this statement: "The President's Budget proposes that the Federal government spend \$1.8 billion less than its estimated revenue in Fiscal Year 1958."

The Budget receipts from taxes and other sources are estimated to be \$73.6 billion in the next Fiscal Year. From this income, the 1958 Budget provides for expenditures totaling \$71.8 billion.

When the smoke had all cleared away and actual figures could be found, there was a deficit in the year 1958 of \$2,819 million. This was so because the income of the government was not \$73.6 billion, as estimated, but was only \$69.1 billion.

In 1959, the Budget Message indicated the budget receipts would be \$74.4 billion and that expenditures would be \$73.9 billion, leaving a surplus of \$506 million.

million. However, in September of 1958 the President's office issued another Budget Message on the 1959 proposals, which was termed "The Mid-Year Review," in which it was stated in "A substantial deficit is now in prospect for Fiscal Year 1959."

When the smoke had cleared and actual figures were available, the budget expenditures had amounted to \$80.7 billion as against the original estimate of \$73.9 billion. The income had amounted to \$68.3 billion as against the previous estimate of \$74.4 billion. Hence, instead of a surplus of \$500 million, the result was the largest deficit in peacetime history, to-wit: \$12.4 billion.

In the year 1953, the budget report indicated an estimate of \$71 billion in income. Actual income amounted to \$64.8 billion. In 1954, the estimated income was \$68.7 billion. The actual income was \$64.6 billion. In 1955, the estimated income was \$62.7 billion. The actual income was \$60.4 billion.

In 1956 it was estimated that the income of the government would be \$60 billion and that the expenditures would be \$62.4 billion, leaving a deficit of \$2.4 billion. However, the guess was wrong again, both as to receipts and expenditures. The actual receipts were \$68.1 billion, while the expenditures were \$66.5 billion. The unexpected receipts should have resulted in a surplus of some \$6 billion, but the overall result was a surplus of only \$1.6 billion.

In 1957 it was estimated that the income would be \$66 billion, but when the year was over it had amounted to \$71 billion, an increase of \$5 billion. However, instead of a \$5 billion surplus it was discovered that the expenditures had been over-estimated and the taxpayers ended up with only a \$1.5 billion surplus instead of the \$5 billion.

REVERSE RUN
NEW BERN, N. C. — Pat White, management forester for the North Carolina Wildlife Resources Commission, did a double take while driving in the Croatan National Forest near New Bern.

White saw a six-point buck deer chasing a small hound along a road. The deer chased the dog for about a mile before scampering off into a wooded area, White said.

WOMEN ABOVE PAR
CHICAGO — Developer of a new indoor golf game, David Bremson, says, "women are simply better players."

Bremson thinks it's something about the female feel for precise detail. The game hinges on picking the right golf club to use in situations determined by the draw of a card.

"When it's a cardboard course, and the only clubs in sight are in a deck of playing cards, the male advantage of strength disappears," Bremson says.

OFF THE Shelf

BY H. A. TUCK
Between 1920 and 1926, roughly, land values in Florida skyrocketed, sometimes doubling in value overnight.

This phenomenon is explored by Wyatt Blassingame in *The Golden Geyser*, a new fiction release at the Deaf Smith County Library.

Although he plots his story as fiction, it is dotted with interesting historical notes and brief biographical sketches of some of those who were central figures in the Florida real estate boom.

Bob Nolan returned to Florida after World War I. He had trained in Florida and bought a small truck farm with some gambling winnings. He wanted to establish a nursery, provide tropical plants for the few large estates and cross-breed new flowers.

But his plans changed when he married Shirley Anders Maynard, former wife of a small-time gambling casino-nightclub owner.

Shirley and Bob got along well. Bob liked his work and Shirley liked Bob.

Shirley's father, Sam Anders, fished and traded some real estate. When a couple of big sales came his way, he opened an office and enlisted his daughter and son-in-law to help

larger ones. Land values dived even faster than they had risen. Bob and Shirley were hit by the bust, along with many others. But they, unlike others, still had something of value.

Particularly for those too young to remember the great Florida boom, this is a most interesting book. The plot is a composite of many development towns that mushroomed during the Florida boom, but it is typical. The Golden Geyser is nothing to get excited about, but it is a good book with a rich fund of information about Florida.

Developments were grubbed out of the hills and forest. Others were dredged out of the swamps. Buyers needed nothing more than 10 per cent down. It was really a seller's market, with property values jumping every month, then every week, then three or four times a day. The boom kept getting larger and larger.

Bob and Shirley become more involved in it. Bob became office manager of Sam Anders' firm, then regional developer. Life became a never-ending race with money floating in from everywhere. His salary went up, along with his opportunities to get in on more sure things. Deals were in the millions and Sam Anders wanted the best, as he exclaimed, "It's only money!"

It was inevitable that Bob and Shirley would have less time for each other. For Shirley, the attraction was the cynical Lou Kleinman, whose glib tongue could sell even real estate men a worthless bit of swamp and make them think they were buying part of paradise.

For Bob, it was a struggle with his conscience. He liked the money, but he also valued his dignity and his friends. But the merry-go-round wouldn't stop.

Then came the explosion that ended the boom. It caught the small operators first, then the

Teachers Enjoy Helping Students

BY CINDY SANDERS

Mrs. Mildred Ramey teaches seventh grade social studies in Stanton Junior High School. She teaches about Texas as this is her favorite state. Mrs. Ramey was born in Paris, Texas. She attended Baylor University for 3½ years and Wayland College for three months. Mrs. Ramey has three children, two sons and one daughter.

For 17 years, she has taught school, teaching in Paris, Waco, and then Hereford. She is qualified to teach English, Latin,

and Spanish, but she states firmly that Texas social studies are her favorite subjects.

Mrs. Ramey became a teacher because she likes children and enjoys seeing their progress in learning and growing up. She enjoys teaching very much.

Alex Glass is assistant principal in Stanton Junior High School. He is also athletic director and ninth grade coach. Glass was born in Watonga, Oklahoma on Feb. 14, 1933. He attended Southwestern State College in Weatherford. He is qualified to teach industrial arts

and physical education.

Glass enjoys teaching and gives his reason for becoming a teacher as he enjoys teaching and working with young boys. He also says he has enjoyed being a part of junior high the past three years and particularly being part of the athletic program.

As his pet peeve, Glass says people with excuses for everything and people who say one thing and believe another.

B. H. Baldwin, junior high school counselor, received his Bachelor's degree from Texas

Tech and his Master's degree from West Texas State. He has been in Stanton Junior High for four years. Baldwin thinks that the major problem that students have is that they have too many things that are in competition with their school work.

Baldwin has lived in Hereford for seven years. He said, when asked what his most embarrassing moment was, that it was not printable.

Mrs. Caudie Ola Brown was born at Summerfield and has three daughters and one son. She attended West Texas State College. She chose teaching because she enjoys helping boys and girls to become better citizens of tomorrow. She says that teaching gives one a real purpose in life. This school year will complete 27 years of teaching for Mrs. Brown.

When asked what her most embarrassing moment was, Mrs. Brown related the following: "One year when we were still having graduation from the eighth grade, I was on the committee to arrange diplomas. They were arranged in alphabetical order in stacks of 10 each. Just before the first name was called, it dawned on me that the stack was upside down and the principal had to take the diplomas from the bottom of the stack. Was my face red."

HOLIDAY VISITORS

Mr. and Mrs. Ted Myers and son of Amarillo visited in the home of her parents, Mr. and Mrs. Walter London Sr., for the Christmas holidays.

TULSA VISITORS

OKLAHOMA VISITORS

Members of the food class prepared the supper and arrangements. The art class had charge of decorations. (Brand Staff Photo)

Well, the Christmas holidays are here and I'm sure everyone is glad. Sometimes we students do not stop to think that the teachers enjoy the holidays as much as we do.

This month, I would like to recognize Linda London as my silent helper of the Dogie. She has helped a lot with the many things that aren't necessarily her duty, but has always pitched in when called on. The whole Dogie Staff would like to thank her.

Some of the Stanton staff made the Dogie this time. It's been reported that Mr. Sims will gladly give you four nickles for a dime. If you don't believe it, ask Mr. Templeton. Hey! Judy Mc., what's this about you getting the wrong towel. Beth B., is it true that the only time the bathtub leaked is when you were in it? and - Mr. Glass, we would like to know if it's true that you're the one who sang the Christmas carols from the office every morning?

Karen B., what were you doing with your ring December 14 at lunch? Girls, that F. F. A., F. H. A. party was over at 9:00 p.m. How come some of you didn't get home until 11:00?

That's about all the time we have for now. Be good over the holidays!

Honor Students Deserve Recognition, Says Poll

Around Stanton Junior High School there has been quite a lot of discussion on the following question: Should those students who make B's and above be recognized in some way? The following interview has brought out quite a few viewpoints on the part of teachers and students.

Vicki Inman — I think "A" students should get recognition because if a student is able to make an "A" in our grading system they are very good students. "A"-"B" is very good also, but I think recognition should be for the very best.

Mrs. Shook — I think students should receive more recognition,

for it would give them reason to want to make better grades. I think homeroom officers next semester should be chosen from "A" and "B" students only.

Myrna Botkin — Yes, if a student can make an "A" with our grading system, they deserve recognition.

Mrs. Collier — I think an honor roll would be appropriate but it does have its good and bad points. I have taught in schools with and without honor rolls. I think one of the bad points is the student doesn't care what he learned. He's just grade crazy. They cause too much friction between the student and the teacher. If there is a way it can be done without too much friction, I am all for it.

Jo Harold Childers — I think that good students should be honored because it presents a goal or reason for wanting to be above average.

Mr. Martin — I think it's a good idea to have some kind of recognition.

Mike Ranspot — Yes, because if a student is capable of making an "A" or "B" he ought to be on an honor roll. It's pretty hard to make a "B."

Charlotte Babione — Yes, I think they should be honored because A's and B's deserve re-

cognition.

Kathy Pool — If our students can make A's or B's they should get recognition.

Berta Lindsey — An honor roll encourages students to make higher grades like A's and B's.

Retha Kelly — I think they should be honored because they work hard to get an "A" they ought to get something.

Armadina Valdez — I think the A's should, but not the B's because "A" is superior.

VISITED PARENTS

Mr. and Mrs. Cuby Kitchens, Keith, Karen and Kelly, visited Christmas Day in the home of her parents, Mr. and Mrs. Guy Ford, Sr. in Canyon.

CALIFORNIA VISITORS

Mr. and Mrs. R. A. Burgess of Vandenberg, Cal., arrived Tuesday morning, Dec. 26, for a visit in the home of Mr. and Mrs. Cuby Kitchens and family of Hereford. Mrs. Kitchens and Mrs. Burgess are sisters.

VISITED FAMILY

Mr. and Mrs. Vance Crume and family of Hereford visited Christmas Day in Farwell with her brother and family, Mr. and Mrs. W. H. Graham, and his father, C. E. Crume, also of Farwell.

VISITING IN OKLAHOMA

Harry Linderer and daughter, Joyce, spent the Christmas holidays visiting relatives in Clinton, Enid and Watonga, Okla.

Band Personality

BY ANN MERCER

David Marcontell has been picked as the band personality for this month. He is in the ninth grade and lives at 135 Avenue G. His parents are Rev. and Mrs. V. W. Marcontell. David's hobby is hunting and fishing. His ambition is to learn to run an I.B.M. machine. David sits first chair in the baritone section of the band. David joined the band because he wanted to learn to play a horn and he wanted to see what it was like. His advice to young band members is, "don't let Mr. Gollehon catch you leaving your horn in the band hall after school."

A GIRLS SEXTET presented selections at a special Christmas assembly held Wednesday in the Stanton auditorium. Comprising the group were from left: Wanda Holt, Beth Ballard, Jo Ella McGee, Barbara Langley, Penny Johnson and Linda London. (Brand Staff Photo)

'Operation Deathwatch' Is Most Urgent, Banks Balk

"Operation Deathwatch" which began Saturday midnight and ends at midnight New Year's Day, is the most urgent business of the Governor's office today.

Gov. Price Daniel has written every Texas sheriff and chief of police, asking each law officer in Texas to help make the State's streets and highways safer for Texas drivers during the 10-day holiday season.

Governor Daniel said anticipated toll of 88 holiday traffic deaths is the lowest estimate ever made, and stated "it pinpoints the progress of recent years in reducing Texas traffic fatalities during the year-end holiday. However, even more lives can be saved this year if the people obey the laws and drive safely."

Newspaper publishers, the Texas Press Association, broadcasters and billboard owners are cooperating in the campaign, urging Texans to take individual responsibility for traffic safety, and asking drivers to keep headlights burning during daylight hours as a reminder that safe and legal driving is the best way to avoid holiday crashes.

BANKS STILL BALK
Most Texas banks balked at the Legislative committee's request that they make their dormant accounts public.

Five of the 38 banks subpoenaed to appear before the committee filled out questionnaires by deadline time. Twenty-two banks were represented at the hearing. Eleven failed to show up.

Houston's City National Bank attorney, Raybourne Thompson, speaking on behalf of all 22 banks present, and two others, requested that the committee get an opinion from the Attorney General as to whether it has the power to force testimony "that would destroy banker-depositor confidences."

Thompson said if the committee refused, the banks would testify "under protest."

Committee had sent questionnaires to 469 national banks in Texas. Only 66 gave some or all information about the number of dormant accounts they hold and the amounts in these accounts.

Out of the 536 state banks queried by the committee, only 100 furnished the information.

Prime reason for the specially called session by Gov. Price

Daniel is the enactment of laws to force banks to locate the owners or heirs of unclaimed deposits.

Governor Daniel feels that little effort is being made by the banks to find the rightful owners. He says that more than \$3,000,000 is being held unlawfully by the financial institutions. Some banks are even levying charges against the accounts even though the accounts are inactive, he reports.

Few, if any of the banks, have ever advertised to find the rightful owners.

Governor Daniel feels that the banks should exert every effort possible to locate the owners, including advertising, or turn the funds over to the state for the protection of the depositors. Such steps have been taken in a number of other states.

HOPEFUL SIGN
Texas Commission on Alcoholism reports good results in its six-year-old program of rehabilitation for alcoholics in state hospitals, and progress with prison system inmates. But it is still concerned about the estimated 250,000 drinkers in Texas who need treatment.

Commission says 2,334 patients were treated for alcoholism in six state hospitals during fiscal 1961.

Improvement after six months from date of discharge was reported by about 500 out of 1,600 patients released last year.

In less than 18 months, the number of alcoholics participating in prison rehabilitation programs has grown from 800 to 3,000.

Commission now lists councils on alcoholism in 29 Texas cities, working to educate the public to recognize alcoholism as a disease. Their attempts are aimed at the 250,000 ailing alcoholics and their families - as well as the 4,000,000 Texans who use alcohol.

CHAIRMAN CHALLENGED

Gubernatorial candidate Will Wilson has charged State Democratic Executive Committee Chairman J. Ed Connally with reserving the committee's mailing list of 20,000 Democrats for incumbent governors, "to the exclusion of other Democrats outside the Executive Committee itself."

Wilson contended that the list is the property of all Texas Democrats. He asked the committee to adopt a resolution making the mailing list available to all Democratic candidates, for use in party primaries.

Wilson has accepted an invitation to face opponent John Connally in a debate.

Weslaco attorney Jon Dee Law-

rence extended the invitation to both gubernatorial candidates on behalf of the Weslaco Jaycees, but Connally hasn't replied.

Principal issue of the debate would be: "Is the Governor of Texas To Be a Number One Chief Executive - or somebody else's agent?"

THE BUSINESS AT HAND

The Attorney General's assistants have been busy writing opinions on everything from a major gas company dispute to a matter of land willed to the Baptist General Convention.

The Attorney General intervened in a case in the 43rd District Court at Parker County, making a motion to set aside a default judgment voiding conveyance of 4,000 acres of land to the Baptist General Convention.

Mr. and Mrs. W. H. Stocks Sr. willed the land in Parker and Hood Counties to the Baptists in 1955, but their son John Stocks alleges his parents were not legally competent at the time.

Wilson made his motion under a statute which said the Attorney General may be made a party to any suit to annul or impair any instrument creating or affecting a charitable trust.

As representative of the Texas Railroad Commission, the City of San Antonio, the City Public Service Board and Alamo Gas Supply Company, the Attorney General filed a motion with the Supreme Court asking it to compel 126th District Judge Jack Roberts of Austin to enter judgment in San Antonio's gas contract dispute.

Motion arises from a suit filed by United Gas, which is contracted to supply gas for San Antonio until April 1, when Alamo Gas is scheduled to take over. Judge Roberts has said the case was out of his court's jurisdiction. Railroad Commission ruled that it has no jurisdiction in the dispute.

The Attorney General has ruled that:

1. Failure to possess a valid poll tax does not disqualify a juror in any criminal case.
2. It is unconstitutional for a court to authorize a sheriff to destroy property seized from arrested persons in county jail, even if property is unclaimed for 90 days.
3. State Education Commission has the right to audit state funds in county administration and school transportation funds.

SHORT SHORTS

Speaker James A. Truman says the "staggering costs of government" could be reduced if qualified voters would take an

active interest.

He estimates spending in local, state and national government has risen 156 per cent since 1950, and points to the fact that recently two state representatives were elected by less than six per cent of the qualified voters in their areas.

Capitol hostess Mrs. J. W. Beck will resign on February 1. The senator's widow, who has talked to hundreds of thousands of tourists in her 14 years at the Capitol, is staying through the special session at the Governor's request.

State Securities Commission issued permits to sell more than \$49,000,000 worth of securities during November.

Welfare Commissioner John H. Winters says the Aid to Dependent Children program is "charged with aiding immorality," but that only 20 per cent of the 59,809 Texas children receiving ADC are illegitimate.

On the other hand, there are 121,133 illegitimate children in the eligible age bracket (under 14) in Texas today, he states.

U. S. Senator Ralph Yarborough called on Secretary of Agriculture Orville Freeman to act immediately to establish a price support program on some 10,000 tons of peanuts damaged in a freeze in Texas.

Yarborough, in his Austin office, also asked Freeman to support the use of cotton wrapping for cotton bales.

VANDY ENVIES JAY

TAMPA, Fla. (AP) - Johnny Vander Meer of double no-hit fame says he envies Joey Jay,

Cincinnati's star pitcher who won 21 games for the National League champions of 1961.

"I envy Joey because he won 21 games," says Vander Meer who managed the Tampa Smokers in the Class D Florida State League last season. "I knocked on the door several times, but winning 19 isn't 20."

Best lifetime batting average

for a member of the Hall of Fame is the .367 turned in by Ty Cobb. Rogers Hornsby is second with .358.

"GO IN, GO IN!" shouts Hereford's Jerry Curtsinger (21) as Canyon Eagles Wayne Rutherford (40), Warren Rutherford (30), and Harry Lisle wait patiently for the ball to fall from its perch — on one side or the other. Hereford claimed a 55-48 win over Canyon, and will enter the Caprock Tournament at Lubbock Thursday. (Staff Photo)

JUST BEFORE GETTING CLOBBERED, Canyon's big Bob Begert (10) gives a questioning look as Whiteface Dennis Hodges is headed his direction. Hereford took a 55-48 decision over the Eagles at Canyon Tuesday night. (Staff Photo)

DESIGNS CHURCHES

VANCOUVER — Churches, like homes, should be designed for those who live in them, says architect William Wilding.

Color, light, fabric and the use of appropriate wood can induce a worshipful response on the part of the church-goer, just as a well-planned home gives a sense of warmth and security to a family, he says.

Wilding says the order of service of the church should have an effect on the design of the building:

"Some denominations require a church that could almost be classed as an auditorium, others with a strong emphasis on liturgy require focusing of the main attention on the chancel and the minister."

HAPPY NEW YEAR

... it is midnight, and the toll of the bells announce a brand New Year. It is time to begin again. God hands us 365 clean, new days and as we accept his proffer we must make valid resolutions to discharge all the responsibilities that automatically come with them. Our world is confused. Seeds of destruction are planted everywhere. It is not a time for indecision. May we resolve, right now, to get a clearer view of destiny... to understand more of the meaning and purpose of life. May we have more time for God, and somehow, may He make us realize, He is in front of all our tomorrows. Happy New Year!
