Olton Schools will begin observance of the week by holding Open House in elementary, junior high and high schools Monday, March 1, from 7 until 9 p. m. according to Joe Turner, superintendent.

"Open house gives all people an opportunity to visit at school, even those who can't come during the day," said Turner.

In urging parents to maintain an active interest in schools he continued "...the role of the parent is a significant one, and can be a deciding factor in the way a youngster feels about school. Visitors will be welcome anytime during the week. We are hoping for a record turn-out of parents and other interested community members."

Outstanding Man, Woman Named

OUTSTANDING CITIZENS OF OLTON were named at the fourteenth annual Chamber of Commerce and Agriculture Banquet Tuesday night. Berl Huffman, former Texas Tech coach, was

speaker. Conservation farmer award went to DeVern Mandrell. Fred Thompson received the "Outstanding Man of the Year" award and Lucille Bryant was named "Outstanding Woman."

Soil Conservation Group Names Outstanding Farmer

"Happiness Is...Being Cotton Conscious in '71" was the theme of the fourteenth annual Chamber of Commerce and Agriculture banquet Tuesday night, which was held in the school cafeteria.

Basil Sherman served as master of ceremonies.

Invocation was given by the Rev. Al Jennings, pastor of the First United Methodist Church. Benediction was given by the Rev. John Lewis, pastor of the First Baptist Church.

Introduction of guests was by Earl Spruill, outgoing president and introduction of officers and directors was by Ken Burgess, who is now serving as the CCA president.

Presentation of the "Outstanding Citizen", "Woman of the Year" and "Conservation Farmer of the Year" was the highlight of the banquet.

Fred Thompson was named "Outstanding Citizen"; Lucille Bryant, "Woman of the Year"; and DeVern Mandrell, "Conservation Farmer of the Year".

Presenting the "Outstanding Citizen" award was Fred Stockdale, 1970 recipient of the honor. In making his presentation, Stockdale began by saying, "Ask not what your country can do for you, but ask what you can do for your country."

"And ask not what Olton can do for you, but what you can do for Olton."

"Our man of the year met both these challenges. Born and reared in Abernathy, he attended Texas Tech until World War II. He was a member of the Army Air Force and served three years in the Pacific as a fighter pilot. At the age of 23 years, he was one of the youngest majors in the Air Force. He received numerous medals, among which were the Silver Star and the Distinguished Flying Cross."

After serving his country, Thompson moved to Oregon in 1945, where he was married. He received a degree in civil engineering from Berkeley University in California before moving to Olton in 1955. He and his wife LaVerna have two children, Pat and Roger.

"In the community, Fred has served equally well. He is a member of the Lions Club, served on the building program of Olton Recreation Center, was

a city commissioner, helped to organize the Olton Feedyards and his newest undertaking is as chairman of the hospital committee," Stockdale concluded.

Accepting the plaque, Thompson said, "At a time like this I feel very humble. I wonder what we do to deserve such recognition and how to live up to it. I do thank you and I'll try to live up to it."

Billie Norfleet, 1970 Outstanding Woman of the Year, presented the award to Lucille Bryant. Mrs. Norfleet said of the honoree, "She was born to a fine Olton pioneer family, attended Olton schools and graduated with honors. She went away to school but came back to Olton to marry and raise a family."

"Always available when needed, Lucille has served her church, has been a member of the PTA and is an ardent fan of all school activities. A band booster, she has worked on the band calendar several years and is a great sports enthusiast."

It was noted that Mrs. Bryant also donated time to the Red Cross, Cancer and Heart Fund drives as well as serving the Girl Scouts and Eastern Star.

She was Mother Advisor of the Rainbow Girls, when they were active in Olton.

In conclusion, Mrs. Norfleet stated that, "Lucille will sing a little song or play the piano. She is a little shy, but never reluctant to help in any way."

Mrs. Bryant said, "Just, Thank you! and I love Olton with all my heart and everyone of you." She and her husband Ross have two daughters, Tanya and Alice Ross and two grandchildren.

The "Conservation Farmer of the Year" award was presented by Royce McFadden, chairman of the agriculture committee of the Chamber. The honoree for this award is selected from a county-wide group nominated by the Soil Conservation Association.

Mandrell was lauded for his work on a 160-acre farm located six miles north of Olton. He completed two diversion terraces and constructed two waterways. The land which sloped to both sides had Running Water Draw going through it.

Mandrell installed a pipeline, sprinkler system and a lake pump, which enabled him

Blizzard-Like Conditions Sunday Cause Drifting Of Area Cattle

Sub-freezing temperatures, four and three-fourths inch snow fall driven by northerly winds combined to create blizzard conditions for the area Sunday.

Traffic was reduced to almost nil, some church services were cancelled and visiting residents were marooned for the weekend from Shamrock to Plainview.

Greatest havoc was wrought among the community's livestock. Several area farmers reported losses of pigs, with A and P Pork Producers on Highway 70 reporting the loss by freezing of two sows not confined to a building.

Drifting among cattle was a common thing as electric fences gave way, or drifts allowed animals to walk out of pastures.

Olton had her own "cow-calf scramble" as herds drifted to the south through the day, some traveling many miles. Monday and Tuesday found cowboys, with horses and pick-ups, covering the countryside in an effort to retrieve missing animals. The search still goes on in some cases.

Worst loss reported was that of Jack Gullet whose 141 head of cattle were pastured on the Lee place when found, about 90 of the animals were frozen to death. According to Mrs. Gullet 33 were found in one drift alone. Many, frozen around mouth and eyes, were blinded and rendered helpless. Sixteen have been returned, some are

still missing.

Many local herds have been recovered and returned safely to their owners.

Heart warming stories have come out of difficulties as neighbors have helped weary searchers, have cared for smaller animals until owners were found. At press time only

scattering animals were still reported missing.

To the north, however, the situation was worse as stockmen from Nazareth and Hart areas roam the countryside in search of herds of 80 and more.

Wayne Carson, who lives northeast of the city, is carrying names and addresses of at

least three men from the Nazareth area who have whole herds missing.

On the personal side, accounts have been given of hospitality extended. Strangers have become friends in the emergency, proving the existence even today of "Texas Hospitality."

Lubbock Christian Chorus Slates Appearance Here

The Acappella Chorus from Lubbock Christian High School in Lubbock, is to sing at the Main Street Church of Christ on Sunday morning, Feb. 28. The program of great church hymns will be presented between Bible Study hour and the worship period.

The chorus has distinguished itself under the direction of Eddie Chance. They sing a wide variety of religious songs plus a large repertoire of secular music. Following the morning service, the congregation will be eating lunch together at the school cafeteria. When the meal is completed, the chorus will present a group of secular numbers.

This Sunday also marks the beginning of a series of Bible messages at the Main Street congregation.

Jon Jones of Miami, Fla. and Ted Kell from Lubbock will be leading the church in this Gospel endeavor.

Jones is a noted minister with outstanding ability. His father, R. C. Jones, has preached for many years in the West Texas area and now resides in Amarillo. Kell is an author, preacher and song leader of unusual talent.

The revival will begin Feb. 28 and extend through March 5. Services will be held daily at 7:30 a. m. and 7:30 p. m.

The morning service will be restricted to 25 minutes so that all those who desire to attend may still get to their jobs on time. In addition, this time gives the school children an opportunity to attend and not be late for school.

The Sunday services are at their usual times of 9:45 a. m. for Bible Study and 10:40 for morning worship and 6 p. m. for evening worship.

Booster Club Slates Meeting Monday Night

Olton Booster Club has scheduled a meeting Monday night at 7:30 p. m., at the high school study hall.

President Elmer Houston said that the purpose of the meeting was for the discussion of the up-coming athletic banquet.

Postmaster Gets Praise

Sunday's snow storm did not stop Officer in Charge D. M. "Bub" Holt from performing a good deed for one of his elderly postal patrons.

Mrs. Cora Wozencraft called the Enterprise Monday to express her opinion that "we have a wonderful postmaster!" Holt braved the snow and cold Sunday morning to deliver a Sunday paper to Mrs. Wozencraft.

'Green Thumb' Program Explained To Lions Club

The "Green Thumb" program was explained at the noon meeting of the Lions Club Tuesday, by Mrs. C. L. Abernathy, supervisor of Hale County's program, and her husband, the former Judge Abernathy.

The program began when the national administration determined that older people should have work to do. A training program for men who were 55 years and older was set up with funds coming from federal sources.

The "Green Thumb" program is the brainchild of the National Farmers Union. They saw a need for farmers and other self-employed men who could not receive social security benefits to seek employment after retiring, rather than become welfare recipients.

The program began in Arkansas and has spread to 17 states with Texas and Montana being the last to apply for these federal funds.

Judge Abernathy told the Lions that in order for Lamb County to receive funds for the "Green Thumb" program, they must get the county commissioner's court to pass a resolution that the program is wanted in the county. The city council and also the school board could select a project for the men who would enroll in the "Green Thumb" program.

"After applying to the county commissioners, you just

wait," Abernathy said. "But while you're waiting, get people to write letters to their congressmen. And also write to the secretary of Labor."

The men are allowed three days work, eight hours per day each week. And one of the requirements is that they take a 10 minute break every hour. This requirement is necessary because these men are so proud to be working again that they don't want to take a break."

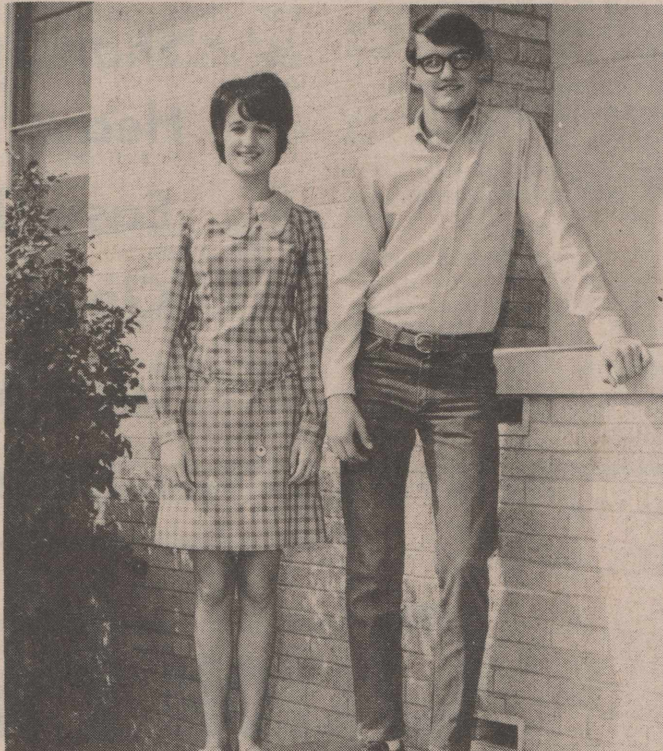

"Some of the projects that have been completed in the Hale County and surrounding areas include the planting of approximately 1200 trees, thinning of a pecan orchard, painting elementary school rooms in Spur, painting curbs in Ralls, landscaping the museum at Crosbyton, painting the mental health wing at the new Plainview hospital, and the children's training center in Plainview, just to mention a few projects," Mrs. Abernathy told the group.

These men are all older men who have retired from their professions, but who are still willing to work and had rather work than to be dependent on public welfare.

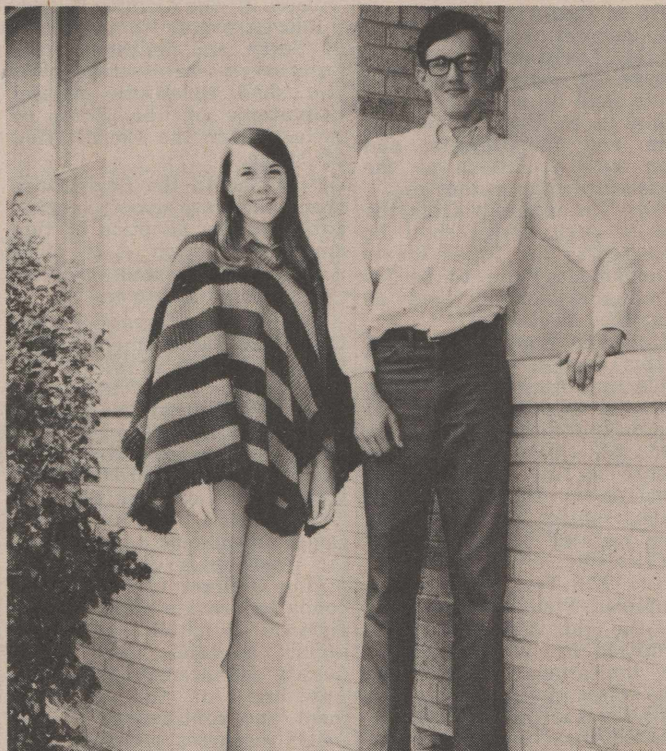

This program can be made available for Lamb County, if there is enough interest shown. Persons who are interested in the program for Lamb County are asked to contact a member of the county commissioner's court or Judge Truitt Sides at Littlefield.

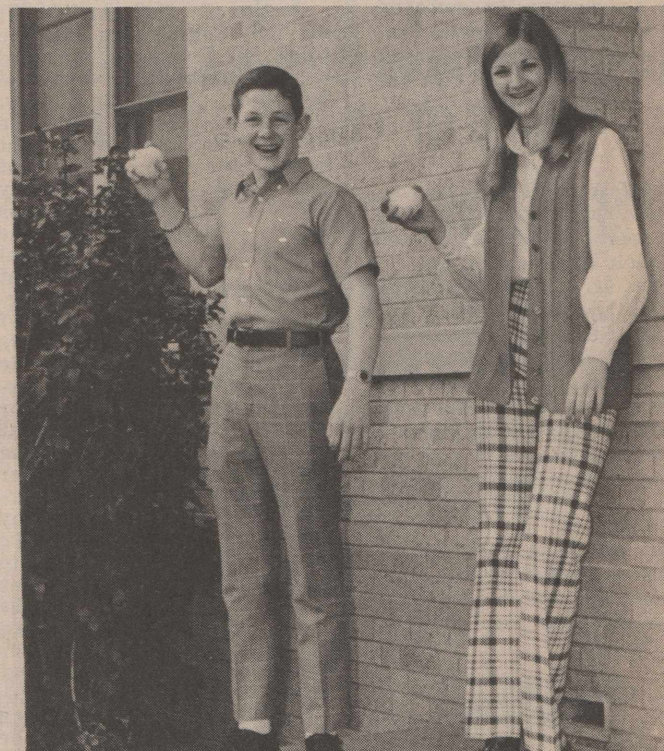

SENIOR BEST CITIZENS for the fourth six weeks period are Marsha Parker, daughter of Mr. and Mrs. Jess Parker; Jim Key, son of Mr. and Mrs. Doc Key and Sharon Hendrick, daughter of Mr. and Mrs. Roy Hendrick.

JUNIOR BEST CITIZENS are Paula Strain, daughter of Mr. and Mrs. Russell Strain and Kurt Gregory, son of Mr. and Mrs. Dan Gregory.

Let's Go To School

How many times have you heard, or how many times have you said, "When I was a kid" - or that other stock phrase of adulthood, "Boy, I wish I were your age again-no worries, no troubles"?

Forget them both. Things are different now, and no amount of effort can turn back the clock. We can only work to make tomorrow better.

That's why your child's education is so important - to you, because you want the best for him; because his future depends on his education.

Part of the encouragement you can give him is to visit him in his classroom during this year's Texas Public Schools Week, March 1 through March 5.

Show your child you care, and let him show what he's done. Let him be proud of his work, and let him know it's important.

Remember: teachers can teach. Only you can show your child that you're proud to be his parents - that you want the best education possible for him.

Visit a public school during Texas Public Schools Week this year!

PUBLIC SCHOOLS WEEK

GREETINGS:

Special observance of increased emphasis on our education system has been marked annually for twenty-one years by a Public Schools Week in Texas.

During this period, parents are encouraged to visit the public schools, and all citizens are urged through special programs to recognize the tremendous importance of our system of education. Our goal is to make Texas public schools the finest in the Nation, and to achieve this our citizens are urged to take an active interest in the school systems and to cooperate with their school boards, superintendents, principals and teachers.

Never before in our history has there been a greater need for educated leadership. As we rush to train young people in science and technology to keep pace with world events, it is also important to remember that our public schools will furnish our tomorrow's leaders with the basic human, moral and spiritual foundations necessary for more advanced training and knowledge.

THEREFORE, I, as Governor of Texas, do hereby designate the period of March 1-5, 1971, as PUBLIC SCHOOLS WEEK in Texas.

In official recognition whereof, I hereby affix my signature this 29th day of Sept., 1970.

Preston Smith,
Governor of Texas

FUTURE FARMERS WEEK

GREETINGS:

The Future Farmers of America organization continues to play an outstanding role in assuring the future progress and prosperity of our State and Nation.

The importance of agriculture in our State increases as Texas progresses. It is vital to our well-being that we train skilled farmers and ranchers to provide a plentiful supply of food products in years to come and to train those who will provide services to the farmer and process and distribute farm products.

The FFA is composed of students who are studying vocational agriculture in the public schools in preparation for careers in the various phases of agriculture and agribusiness. In studying the science of agriculture, these Future Farmers are striving to continuously improve this great industry for the welfare of all citizens.

Texas now has almost 1000 active FFA chapters with over 50,000 active members and more than a quarter of a million former members. During the past 41 years, the Texas Association, FFA, has performed valuable services to our State by developing leadership, encouraging cooperation, promoting good citizenship, teaching sound agricultural techniques and inspiring patriotism among its members. Much has been done also in involving members in civic and community service projects aimed at improving their local communities.

THEREFORE, I, as governor of Texas, do hereby designate the week of February 20-27, 1971, as FUTURE FARMERS OF AMERICA WEEK in Texas.

In official recognition whereof, I hereby affix my signature this 14th day of Dec., 1970.

Preston Smith,
Governor of Texas

to use water from the draw. He planted hay and grass to prevent erosion and invested in livestock along with row crops.

The SCA stated that this was the first farm in the Running Water Draw Watershed Project of the district to attain 100 per cent land adequately treated to meet conservation needs. Mandrell and his family moved to Olton from Mt. View, Okla. when he was a young boy. He attended schools here and was married then began farming. He and his wife Margie have two children, Jim and Jana.

He has served on the Olton Co-Op Gin board and has been on the ASCS committee. He attends the Assembly of God Church.

Guest speaker for the community banquet was Berl Huffman, former coach at Texas Tech. He was introduced by Elmer Moore as "Mr. Texas Tech."

Huffman spoke on the need to co-operate in order to get things done. He said that each person was either a stumbling block or a stepping stone.

"We all pay rent on earth by serving others. The Chamber of Commerce can get things done that you can't do alone. Ideas are born in chambers of commerce."

"Olton isn't dead," he continued. "It could never be, with people like this. America is great because of its people. People make things grow."

"There are a lot of wonderful things happening. A lot of people are doing a lot of good things. We've got to have faith in ourselves, our fellowman and Almighty God...then we'll make it."

"I believe in Olton. You keep believing in Olton. We must keep our free enterprise system. Let's do something for ourselves and our fellowman."

"No matter what we're doing -- our avocation or vocation --- we'd better take a stand on some things. Be counted! Let the world know that we are against corruption in politics, pornography in literature, coarseness in music and meaningless in art."

"I know what my town, state, and nation needs --- A better ME."

Sue's Views

If you missed the Chamber of Commerce and Agriculture banquet Tuesday night, you missed a real treat.

I believe it was one of the nicest affairs that has ever been held in Olton.

The decorations were just lovely. And of course, credit had to go to none other than Mrs. A. D. Melton, Olton's genius when it comes to flower arrangements.

I do believe she could make an arrangement of beautiful flowers out of just about anything! She made the flowers for the banquet from cotton and they were really something else!

And the "Outstanding" people who received honors were very deserving. These unselfish people devote their time to help make Olton a better community and I certainly am proud that the Chamber of Commerce recognizes them each year for their efforts.

As the speaker, Berl Huffman said, "If the chamber does nothing at all but name the outstanding man and woman each year, they've done plenty." Anyway, the banquet was really great. And if you did miss, make plans to attend next year!

There is another event coming up in our community that I'd like to give a personal invitation to everyone reading this column. That's the series of Bible lectures which will

Two Youths Arrested Here

Two Olton youths were arrested Monday by City Marshal Ped Hunt and released to law enforcement officers in Hale County.

Charged with theft, Reyes Rodriguez, 18, and Freddie Martinez, 17, were allegedly attempting to steal gasoline from the farm of Joe Roney, five miles east and three and a half south of Olton, on the night of Feb. 11. Roney fired at the two and Martinez received birdshot in the back and arm.

begin this Sunday at the Main Street Church of Christ.

We've had the song leader to help in a meeting before and we know he's great. And we are really looking forward to hearing Jon Jones, minister of a church in Florida.

If you love to sing, and if you love to hear the word of God taught, then come out and join all of us. By the way, the Lubbock Christian high school chorus will be there Sunday and I know this will be a real experience to hear them.

Now in case you're wondering if we found our "granddad" last week that had a Valentine at the post office...WE DID!

Bailey said someone called about 4:30 Thursday afternoon and let him know who to bring it to. Seems like it belonged to Raymond Lyons. So all is well.

NOW -- IF -- we can get as good results with our cattle missing ads this week, we've got it made and a whole lot of people are going to be a lot happier. So, if you got some stray cattle at your place, you might want to read the want ads and see if they match a description of any missing!

How about that snow? It was something else, wasn't it?

Speaking of the weather.... You know, one good thing about living in west Texas, you never get bored with the same kind of weather.

A real duster one day, then a spring like day, then a fall day and then... blimey... a blizzard!

Oh, well, variety is the spice of life they say.

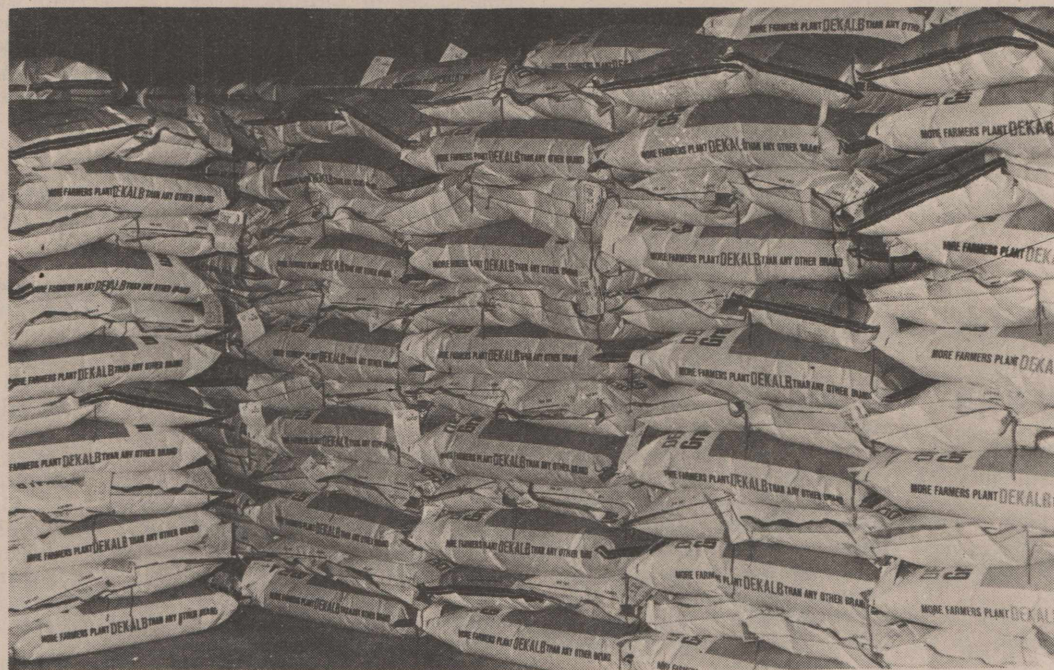

LUNCHEON GUESTS

Mr. and Mrs. Homer Curry had as luncheon guests Sunday Mr. and Mrs. Ed Waud of Sunnyside, Wash. and Steve Boruk.

Day Hospital Service Begun For Nine County Area Feb.

A new service is being offered the people of this nine county area.

Beginning Feb. 15, a Day Hospital designed for those patients who need to learn to use their daytime hours constructively and to participate in group treatment, began functioning.

The Day Hospital will serve as a transition between the physician's office (or hospital) and the patient's home, and will help the patient make his or her way back into the community.

The program offered will be beneficial to emotionally distressed individuals, those who have been hospitalized for an extended period, and long term state hospital patients.

Treatment can also serve

MRS. GARY TURNER

Cook Of The Week

A young housewife and mother who has lived in Olton all her life, with the exception of just one year, is our Cook of the Week. Mrs. Gary Turner, the former Paulette Bley, found that Pampa "was too big" the year she and Gary lived there and is happy to be back "home". Moving back to Olton was also coming home for Gary who moved here with his parents, when he was a sophomore in high school. He works with his father who owns and operates the local Shamrock service station.

Paulette and Gary are the parents of a lively little son, Kevin, who is nine months old. Just last week young Kevin mastered the art of "speed crawling" and now "gets into everything."

Always active in the First Baptist Church, Paulette is now busily involved in working Wednesday afternoons at the Baptist Mission with boys and girls from three to sixteen. She finds working with such a wide age span challenging. Presently the young people are learning the books of the Bible in English while Paulette, in turn, learns in Spanish.

Paulette loves to sing and was a member of the Baptist Student Union Choir at Baptist College the two years she attended. At Wayland she was also a member of the freshman and sophomore councils and a member of the Theta Alpha Psi - nicknamed TAPS - a social service sorority on the campus.

Growing up, Paulette was a member of the Girl Scouts and, in high school, a member of the Future Homemakers. She has been cooking since that time but relies mainly on recipes she gets from cookbooks, family and friends.

She has an older sister, Mrs. Carolyn Davis of Belton, and three younger brothers. Philip, the eldest brother, is married

RETURN HOME

Mr. and Mrs. H. R. Curtis came home Friday from Truth and Consequences, N. M. where they stayed almost two weeks.

and lives in Houston. Carl and Daryl are still at home.

Ever since she was a little girl, Paulette has enjoyed working in the yard and, more than once, undertook a pruning job of the shrubs and vines about the family home, each time to the surprise of her parents. She loves growing flowers.

One of her newest hobbies is learning to embroider but that is not near as thrilling as watching the daily new milestones of little Kevin.

Learning to do . . . Doing to learn . . . Earning to live . . . Living to earn . . .

This week was just great, huh? Being out Monday cuz of snow was really something else. Too bad it had to melt. Wish it could have snowed at least 15 inches!! Oh, how marvelous!! Well, I guess we'll have to wait til next year to get our big snow!

Congratulations are in order for Connie Hall, Rebecca Hodges, Dana Daughtrey, and Mike Parsons for making the All-District Basketball team. Kay Johnson, Luis Rey and Steve Stockdale made Honorable Mention. Good work, kids!!

What happened to the three that went to W.T. last Friday? Did you have ANY fun?

Steve Holt: All Covered up? Jim: Why did you lock the keys up for???

Connie: Glad we honked??? Oh, yeah, you can come to W.T. if you want to!

Mike and Mickey: Do you have any hole punches???

Yea, Seniors. The long awaited day (well, one of them, at least) finally arrived!! If you haven't heard yet, we measured for our caps and gowns this week. Yea! Be sure and bring your money before Friday!!

The Senior girls got the results back from the Betty Crocker Homemaker Test that they took in December. And some of us are real homemakers while the rest of us better stick to Home Ec. classes for awhile. Right? Sorry, that the soufflé turned so good!! Hal!

Diane: Making cookies?

Kay: Hold your breath for what?

Boy that Stage Band is really something else. If you didn't get the chance to hear them Tuesday at dinner, you really missed something great. Jim, you are so great!!

Marsha: You little "toot"!!

I guess everybody was ready to come back to school, right? Boy, I was, I don't like sitting at home!

Wednesday we got our report cards!! Next week we'll have the report on everybody who got grounded!!

Pro football is like nuclear warfare. There are no winners, only survivors.

There is only one thing for a man to do who is married to a woman who enjoys spending money, and that is to enjoy earning it.

To get maximum attention, it's hard to beat a good, big mistake.

Human life is unsafe at any speed--and therein lies much of its fascination.

Opportunity isn't a door--it's a dare.

A woman was about to leave

her house wearing a mini skirt, fishnet stockings, poorboy sweater, plastic earrings and white lipstick. At the door her little daughter looked her up and down, then exclaimed "Mommie, you look like a dead teenager."

If you want people to start noticing your faults, start giving advice.

Father to daughter's boyfriend: "Sorry you have to eat and eat and eat and run..."

Welfare applicant to case worker: "The last time the wolf came to our door we ate him."

As all men know, women don't know anything about cars. One man attempted to find out how much gas mileage a small foreign car got. The lady didn't quite know what he wanted, so she replied: "Oh, about 10 days to the tankful."

People are not like rockets and should accept the fact. There are few times in a man's life when all conditions are GO!

If you are kicking up a storm, don't expect clear sailing.

A nation creates music--the composer only arranges it.

Young girl overheard talking to another: "I like your hair. It's really stunning." "Thanks," said the other, "It's my mother's."

Man, showing family movies, to guests: "Except for a brief bathtub scene starring the baby, this picture has been rated G."

Wife, dressing for party, to husband: "I'll be ready in a minute. Go rotate the tires or something."

Woman driver to companion: "Fasten your seat belt--I'm going to park."

Personnel manager to young job applicant: "I see you've never been in jail. Didn't you take an interest in college activities?"

A girl was trying to tell her patient parents the difference in emotional and mental health. She had seen a film that morning in school, but offered this explanation: "Mental health is how you feel about geometry. Emotional health is how you feel about the boy who sits next to you in geometry."

Sign along the road: "This was a high accident-rate area. Now it's a high arrest-rate area..."

Doctors new stickers on overdue bills read: "Long time, no fees."

On the front window of the grocery store was written: "Boy Wanted". Below was scribbles: "I want one, too, Marsha."

A sign in front of Kelley's

pictured several styles of rubber heels and a beautiful girl who was saying, "I'm in love with America's No. 1 heel." Underneath in small feminine handwriting, someone had added, "Too bad, sister! I married Him!"

A girl from high school received a telegram from her college boy friend that read: "I CAN'T BE THERE IN SPIRIT SO I'M COMING IN PERSON."

A mother had been lecturing her small son, stressing that we are in this world to help others. He considered this, then asked somberly: "What are the others here for?"

The brother inscribed THE EGG AND I to his sister Mary. "Who has always believed I can do anything she puts her mind to."

Man, discussing new TV show: "It's a new series in which all the characters are hippies--sort of a no-soap opera."

Child specialist to mother: "Remember, you'll have to handle this child carefully; you're dealing with a high-strung little stinker."

Angry boss: "you should've been here at 9:00." Secretary: "Oh, what happened?"

Cynthia E. -- Aren't surprises nice? D'Lyle -- It's better than nothing, or is it?

Debbe O. -- Kind of surprised her, huh?

Teresa N. and Kay J. -- What's this about Mama alligators and frogs?

Miss Powers -- Do you really have nine lives?

Ronnie S. -- What will she say?

Steve H. -- Do you have a bad habit of hitting girls?

Debbie M. -- Braids?

Linda C. -- More than one? David -- Not another word.

Marion and Diane -- How do you like the new seating arrangement?

Carol and Billy G. -- You must do what teacher says.

Becky C. -- Through rain, hail, sand or snow?

Favian -- Mustn't yell in class.

Rita -- Consider yourself lucky.

Luis -- Are you a new shorthand student?

J. Carol -- Don't cry!

Sylvia -- Having problems with zippers?

Alfred -- I know who you are and I saw what you did.

Johnny J. -- Kicked the habit?

Beverly -- What time?

Bill B. -- Where did you get that beautiful vehicle?

One man wrote the ENTERPRISE and was wanting to sell his farm. So he ran an ad that stated: If purchased before the next heavy windstorm a barn is included.

We spend the first half of our lives trying to understand the older generation, and the second half trying to understand the younger generation.

Taken from a story a famous playwright told: "I'm tired of people talking about beauty being only skin deep. Isn't that deep enough? What do you want an adorable pancreas???"

A penny saved is a penny earned. A dollar saved is a tremendous temptation!

Well, that's all for this week. See you around if you aren't grounded.

Good Food Buy: Are Announced

Do you take advantage of advertised food specials? If you do, you can definitely save money on your food budget, reports Gwendolyn Clyatt, Extension consumer marketing specialist at Texas A&M University.

A variety of beef and pork cuts at budget saving prices are available at the meat counter this week. Some features to expect are beef roasts, ground beef, and round, T-bone or sirloin steaks. If it's pork you prefer, choose from ham, loin roasts or chops.

Fryers remain the number one bargain in the meat department, and Grade A large eggs continue to be the best egg value.

In the produce section, both grapefruit and oranges--two of our best sources of vitamin C--are in abundant supply. A new crop of avocados is appearing; thus prices are somewhat lower than in recent weeks. Bananas continue a good value, but quality and prices may vary. Apples also remain a good buy; at this time of year, be sure to store them in the refrigerator. And for a special treat, some markets are featuring strawberries.

Recent adverse weather conditions in many growing areas may cause higher prices and lower quality in some of the tender vegetables. However, good buys will be found on root vegetables--carrots, potatoes, sweet potatoes, radishes, rutabagas and turnips. Dry yellow onions and green onions are also in plentiful supply. Other good vegetable choices include broccoli, celery and lettuce.
