OKLAHOMA FAVORERS AAA PLANS

WHEAT RAISERS VOTE UNWELINGLY FOR CONTINUANCE OF WHEAT CONTROL PROGRAM

WATER, June 3, (Special) reports from all counties in Oklahoma which voted in the wheat referendum on continuance of Agricultural Adjustment Administration adjustment program last May 25, show that 20,000 wheat growers favor continuance, while 3,093 oppose.

Figures include 18,662 signers of the present wheat adjustment program who voted yes and 1,697 signers who voted yes, according to D. P. Trent, director, Extension Service, Oklahoma A. and M. College.

The "no" column includes signers of contracts and 860 signers.

There are approximately 30,000 adjustment contracts now in effect, expiring with the present year. Since both land and labor are eligible to vote, where the number of eligible voters is somewhat above the total number, more than voting however, indicates a strong expression of opinion by producers, Trent feels.

He pointed out that Oklahoma farmers operating under the adjustment contracts will receive, probably this month and next, final 1934 parity payment in amount of about \$2,250,000. The 1935 payment, expected to be 23 cents a bushel on each acre's allotment, totaling about \$2,000 for the state, will follow.

Reductions in their harvest in 1935, farmers were pledged parity payments on the 1933, 1934 and 1935 crops.

Whereas Oklahoma wheat farm income totaled \$12,172,000 in 1934 when no adjustment program was in effect, they sold their crop for \$16,562,000 in 1933 and got \$6,000 more in parity payments. In 1934 they sold their crop for \$23,000 and got \$6,950,000 more in payments.

Sam Hergert and Miss Orene Hergert arrived Wednesday at Irving Hergert, who is home on leave from the summer months from Texas Tech.

Announcement was received this morning of the arrival of a son, E. to Mr. and Mrs. E. E. Hall, Enhouse, Texas. Mr. Hall was a member of the Perryton faculty and Rangerette coach for years.

Mr. and Mrs. R. T. Correll and family were Sunday guests in the Whippo home.

HERALD COOPERATING IN UNIFORMING BOY SCOUTS

It is now possible for every Boy Scout in Perryton, Booker, Gray, Spearman, Beaver, Huntoon, Twichell, Farnsworth or Waka, to earn a complete Scout uniform with just a few hours work. Here's the proposition that the Herald is making. To any registered Boy Scout, who obtains 11 new (not renewal) subscriptions to the Ochiltree County Herald, we will give him as his reward, a complete Boy Scout uniform, the price of which is \$8.50.

There are no strings to this offer, except that it will be for a limited time only. Come to the Herald office and get subscription books which have been specially printed for the Boy Scouts uniform campaign. The subscription rate is \$1.59 a year to subscribers living in Ochiltree and adjoining counties, \$2.00 per year elsewhere.

To Boy Scouts who are unable to get the full eleven subscriptions, we will pay 50c commission in cash on each subscription obtained, or if the money earned is to be applied as part of the purchase price of a Scout uniform, we will pay 75c in cash as commission on each subscription turned in.

SCOUTS, here is your opportunity to earn that uniform that everyone of you need and want. The Herald management is truly interested in seeing every Scout in this area wearing an official uniform. Remember, the first Scouts to get to work will earn their uniform the easiest. Subscription blanks will be available at the Herald office after Friday noon, June 7.

MANY AT MEMORIAL EXERCISES

PRESIDENT J. F. MEADE OF AMARILLO JUNIOR COLLEGE SPEAKS; SCOUTS DECORATE GRAVES

The Memorial Day services at the Ochiltree cemetery last Thursday were the most impressive and probably the best attended of any similar services ever held in the county. The days program had been arranged under the sponsorship of the American Legion and Auxiliary, assisted by the Perryton troops of the Boy Scouts.

Music for the occasion was furnished by the Boy Scout band under the leadership of W. I. Byron. The main address of the day was delivered by Fremont Meade, the newly elected president of the Amarillo College. Dr. Meade is a former Perryton and Ochiltree county man who has attained a very high place in the field of education and his talk added much to the success of the service.

Post Commander W. M. Boston presided during the program. Post Commander Jack R. Allen introduced the principal speaker. The graves of the veterans of all wars were decorated by the Boy Scouts.

Revival Closed Sunday

Two Weeks Meeting at Church of Christ Ended With All-Day Services on Sunday

Large and appreciative audiences have been in attendance at the meeting which has been conducted for the last two weeks by the Church of Christ. The all day meeting was attended by many Perryton citizens. Other points represented by our visitors were: Turpin, Goodwell, Canadian, Spearman, Oklahoma City and Two Buttes, Colo. Some rural communities were South, Flat, Mt. Olive, New Hope, Gray and perhaps some others.

J. L. Dykes of P. A. M. C. and Judge Grigsby of Perryton both brought inspiring messages at the afternoon meetings.

The meeting closed with the night service and a message by Bro. Murray. We sincerely believe that the evangelist endeavored himself to the community and all who had the opportunity of hearing his sermons. We also believe that the community has been given a splendid vision of what the Church of Christ is trying to accomplish in Perryton. Let us thank all who attended the series and cordially invite you to be with us again at any time you can.

GREAT PLAINS HIGHWAY CONVENTION POSTPONED

The annual convention of the Great Plains Highway Association, scheduled to have been held at Scott City, Kansas, on Tuesday, June 5, was postponed until Friday, June 14. R. T. Shindler of this city, Texas vice-president of the association, was notified of the change in dates by President Romigh of North Platte, Nebraska. Owing to flood conditions prevailing along streams in Kansas and Nebraska, it was thought best to change the dates as many of the delegates from the northern part of the route would have been unable to get to the convention city.

SIGNING WHEAT COMPLIANCES

SPEED IS ESSENTIAL IN COMPLETION OF 1935 WHEAT COMPLIANCE FORMS FOR COUNTY

Although the wheat growers of Ochiltree county are showing a ready response to the cards that are being mailed out asking them to come in and sign the new compliance contracts, L. R. Conner, president of the Ochiltree County Wheat Control Association, stresses the importance of signing these contracts without delay.

The regulations provide that at least 80 percent of the compliances must be signed before any part of them can be sent to Washington. This means that no action can be taken before the greater part of the contracts are signed. It is to the direct interest of every wheat grower to sign at once and see that his neighbor does the same.

NAME CEMETERY BOARD MEMBERS

ANNUAL MEETING OF OCHILTREE CEMETERY ASSOCIATION AT COURT HOUSE FRIDAY

At the regular annual meeting of the Ochiltree Cemetery Association held at the courthouse in Perryton on last Friday afternoon, the members voted to amend the constitution and by-laws of the association so as to provide for the Post Commander and Unit President of the American Legion and Auxiliary to be members of the governing board. The original rules named the president of the Perryton Chamber of Commerce as one of the board members.

W. E. McMillen, president of the association and reelected as a member of the board, states that he will call the new board together in the next few days for an election of officers.

It was proposed by Geo. M. Perry that a suitable and imposing masonry gateway be erected at the entrance to the cemetery. After discussion, the body voted to authorize the new board to have designs prepared and entrance constructed at once.

MUST ACCOUNT FOR 10c ACRE

TEN-CENTS-PER-ACRE GRANT FOR WIND EROSION MUST BE USED ON LAND OR ACCOUNTING MADE

J. T. Stovall, county agent of Ochiltree county, has received notice from the Home Owners Loan Corporation, that all parties who received the ten-cents-per-acre grant for wind erosion control will be required to file compliance forms, which certify to the fulfillment of contract signed by the farmer when he received the ten-cents-per-acre.

According to the information received by Mr. Stovall, all parties who have not used the money so received for treating lands as they signed up to do, before June, will be required to refund same either in cash or by promissory note made payable to the Texas Relief Commission.

Owing to the fact that weather conditions have been unfavorable to farming operations since the grant was received, it is thought that an extension of a few days time can be secured for farmers of this county.

Where intention non-compliance is evident, and the contract signer fails to refund the amount advanced for acreage not treated, it will be the duty of the compliance committee to report such offender to the state authorities.

Home Grocers Move

Home Town Grocery Moves To Room Just South Formerly Occupied by Bar-B-Que

During the past few days the Home Town Grocers, one of Perryton's most popular food emporiums, has changed quarters, moving one door south to the building formerly occupied by the Bar-B-Que cafe. This store under the management of Mallet Brothers and J. F. Peters is rapidly building up a large patronage through their courteous service.

It is a home institution, owned and operated by home people who are interested in Perryton and the churches and schools of the surrounding community. This firm, like the greater part of the business institutions of Perryton, spend the profits of their business right here in the neighborhood where they are operating.

Tidwell Shows Coming

Are Returning To Perryton Monday For Week's Engagement North of Tracks

The T. J. Tidwell Shows will open a week's engagement in Perryton on Monday, June 10, playing until June 15 at Powers Field north of the Santa Fe tracks.

All types of thrilling carnival attractions will be available.

Featured each night will be Capt. Leo Simon, who will climb to the top of a 105-foot ladder, set fire to his gasoline-soaked clothing and dive into a small tank on the ground below. The water in the tank is covered with gasoline which is ignited just before Simon leaps. He makes one and a half complete back turns as he plunges from the ladder.

The Tidwell Shows are well-known throughout the South. They have included Perryton for many years.

Mr. and Mrs. Ralph Rupprecht and Mr. and Mrs. G. A. Rupprecht and children enjoyed ice cream in the Geo. Rupprecht home Sunday afternoon.

Galen Murphy went to Oklahoma City last Friday to meet his brother, Hamilton, who has been attending Oklahoma U., and their sister, Miss Janice, a student at Christian College, Columbia, Mo., who will be home for the summer.

Mr. and Mrs. Tom O'Dell and children were Sunday dinner guests with his mother, Mrs. Clara O'Dell.

Mrs. J. H. Woodward is in Amarillo this week with her son, Dorance, who underwent a successful operation at the St. Anthony hospital. Dr. J. C. May, local surgeon, assisted with work which was the removal of a bone tumor from his leg.

Miss Lema Jane Butcher, Pollett, spent the week-end visiting in the C. W. Claybaugh home.

JUNE 27 IS DEAD LINE ON HOME LOAN APPLICATIONS

Midnight on June 27, 1935, is the final deadline for the filing of applications for home loans from the Home Owners Loan Corporation. There is no question but what there are a number of homes in Perryton that are eligible for such loans and as the final deadline has been set by the administration for the filing of loan applications, it is very important these first papers be filed at once. If the financing of your home property is in such condition that you are in danger of losing same by foreclosure on account of your inability to meet the payments, it might pay you to investigate the possibility of refinancing through the HOLC. Not all homes are eligible for a home loan, but if you are in doubt we advise you to confer with Jack R. Allen, Ochiltree county attorney for the HOLC. Mr. Allen has been very loyal to the people of this county in this work and has been successful in saving many homes from foreclosure by refinancing them with a federal loan.

BAPTIST MET HERE TUESDAY

RAIN AND BAD ROADS HOLD DOWN ATTENDANCE AT ASSOCIATIONAL MEETING HELD HERE

The spring meeting of the Canadian Baptist Association held in Perryton Tuesday with the local church as hosts, was a very gratifying success even though delegations from several churches in the association were unable to attend on account of the rain and bad roads.

Among those who contributed to the success of the program were Miss Rosamond Jarvis; Rev. Hardcastle, Plainview, Texas; Rev. C. E. Roark, professor of bible, Wayland College, Plainview; John O. Scott, Pampa; and Earl Lantrop, Lone Oak, Oklahoma.

Rev. J. M. Sibley, pastor of the Perryton church, who is Moderator of the association, presided at the meetings. A banquet was served at noon in the basement of the church by the W. M. S.

Observe Railroad Week

June 10 To 16 Designated As Railroad Week Throughout The Nation

The week of June 10 to 16 has been designated as Railroad Week, according to W. F. Maxwell, local Santa Fe agent, for the purpose of focusing public interest upon the improved freight and passenger services offered by the nation's railroads.

To open the weeks activities, every locomotive whistle on the western railroads will be blown at 8 o'clock Monday morning, June 10. This coordination of signals will be in a territory extending from the Great Lakes to the Gulf of Mexico, the Rio Grande and the Pacific Ocean; and bounded on the north by Canada. The sound of the whistle will be the signal that Railroad Week is under way.

In a special observance, the Perryton Lions club will devote their weekly luncheon program to this topic, and the members will have an opportunity to learn of the service improvements that have been made recently.

An important railroad development in the last few months is the air-conditioning of passenger cars, and the work is in its infancy. To date more than \$19,000,000 has been spent on this service since last fall. Dust storms, intense cold, excessive heat, do not trouble the traveler on an air-conditioned train.

Mr. and Mrs. Harry Nail were Sunday dinner guests in the Freeman Garrett home.

Mrs. J. W. Buckhaults was dismissed Monday from the Perryton hospital where she had been several days for treatment.

Forrest Campbell and Mrs. Noel Webber and daughter, Beverly, went to Dodge City, Kans., Sunday for a few days stay with Mrs. Campbell and other relatives and friends.

M. M. Crouse and W. H. Lance spent Wednesday night and Thursday fishing at the Oasis, near Canadian.

ANOTHER INCH OF MOISTURE

PRECIPITATION FOR MONTH OF MAY TOTALED 4.54 INCHES; 34 OF AN INCH TUESDAY

Almost an inch of rain has fallen in Perryton since last Thursday and many parts of the trade area report a greater downpour. To be exact the precipitation, according to Jack R. Allen, amounts to .98 of an inch.

On last Friday night, the official gauge measured .64. This brought the total for the month of May to 4.54. On Tuesday morning early, .34 of an inch fell.

These rains have put the ground in excellent condition for the planting of spring row crops and the wise farmer is making plans to put every possible acre in feed crops, thus bringing in some revenue to recompense in some measure for the total wheat crop loss.

ORDER CUT IN RELIEF ROLLS

JUNE ALLOTMENT REDUCED IN TEXAS BY OVER TWO MILLIONS OF DOLLARS

Radically reduced allotments for the relief population of Texas are in prospect for the month of June, it has been announced by Adam R. Johnson, state relief administrator.

Federal authorities notified Johnson that the state will receive \$2,500,000 for general relief, although application was made for more than \$4,000,000. Budgets, therefore, were made up on the basis of a state caseload of 210,000. Although the caseload has dropped steadily since January 1, Washington officials have repeatedly expressed dissatisfaction with the number of families on relief in Texas.

"Accordingly, our per case grants will be reduced from \$17 in May to about \$10 in June," Johnson said, "and our total relief disbursement from \$5,612,000 in May to \$3,391,000 in June."

"Although at first sight this may appear to be dreadfully severe, we expect thousands of cases to quit the relief rolls in June for employment on farms where they can make more than the \$10 we are able to give them. Farmers everywhere are calling for labor to help them cultivate their crops and we feel that in the case of the employable families there should not be any suffering because of this reduced grant."

June funds will be spent by the counties for purposes described in the following budget:

General relief, \$2,125,342; hospitalization, \$8,963; rural subsistence, \$725,063; capital goods, \$532,154.

To meet these obligations, the Texas Relief Commission will receive \$2,500,000 from the federal government and \$400,000 of state funds for general relief. Other grants for the special program of rural rehabilitation, student aid and emergency education are expected to be received from federal sources during the month.

Roy Orrill is recovering from a tonsil operation at the Perryton hospital Tuesday morning.

Miss Kathleen Kelly returned home Thursday evening from her school duties at Canyon college.

Mrs. J. B. Williams and Modell and Mr. and Mrs. R. H. Williams and children of Miami spent Sunday visiting in the Jas. E. Barbour and W. E. McMillen homes.

Mrs. W. C. Hinds left Wednesday for Fort Worth for a few weeks visit with her daughter.

Mr. and Mrs. Jeff Williams and children of Mobeetie were dinner guests Monday evening in the home of his sister, Mrs. W. C. Bryan and family.

WIND EROSION MONEY

Many Ochiltree county farmers will be much perturbed by the order just issued calling for compliance forms to be executed covering the ten-cents-per-acre grant to be used for wind erosion. According to the information received from College Station, unless money so received has not been used on acreage designated by June 1, then same must be either refunded in cash or by promissory note made payable to the Texas Relief Commission. Many farmers in the country have been unable to work the acreage on which they received the ten-cents-per-acre grant. Those that intend to use the money for the purpose for which it was intended should be given a reasonable extension of time. Possibly there are a few that asked for and received the ten cents per acre that never did have a sincere intention to use the money for wind erosion. It is nothing but right that they should be made to return any funds procured.

IT RAINED! WE GOT PAID

Thanks to the four inches of rain which the Herald reported as falling during the month of May, we received a check for \$2.00 to apply on subscription from J. E. Brownlee, Santa Fe, N. M. J. E. writes that any time the Herald can put 4 inches of moisture on his Ochiltree county lands, we can except another payment on his paper. He says that he had just about lost confidence in Jack Allen and that child of his, "the weather bureau," but he had not lost confidence in the Herald. Brownlee goes on to say, "When you say it rained, it did, and whenever you say a four inch rain, you can just bill me for a year's subscription. But Jack! Well, if he said that, the chances are that I would say, Hellman, they ain't that much water in the whole world."

WHEAT PRODUCTION OFF

Latest government reports indicate that 1935 wheat production in the entire United States will be approximately one-third below the five year average. Total production for 1935 is now estimated at 431,673,000 bushels, while the 5 year average is 618,186,000 bushels. In 1934 the entire country raised 405,134,000 bushels, less than estimated yield for this year.

In Texas the 1935 crop is set at

7,872,000 bushels, against 25,749,000 in 1934; and 41,083,000 for five year average. Oklahoma's 1935 estimate is 29,097,000; 1934 crop was 37,348,000; and their 5 year average is 55,145,000 bushels. Kansas has a predicted 1935 crop of 67,137,000; they raised 79,863,000 bushels in 1934, while their 5 year average is 177,054,000 bushels.

The government estimate shows that the states of Nebraska, Illinois, Missouri and Iowa will produce more wheat this year than they did in 1934.

RAIN AND PROSPERITY

With over four and one-half inches of moisture during the month of May more already in June, the farmers and town people of this territory have taken a new lease on life. This section weathered the general depression and stayed in the "white spot" on the nation's business map long after the rest of the country went down following the 1929 collapse. But we couldn't stay "on top" of a four to five year drought. Now we have plenty of moisture, the dust storms are almost a thing of the past, at least they will be in a few days, when the green vegetation forces its way up through the layers of fine soil and more fields are plowed and listed. This territory should raise one of the largest feed crops in history and with plenty of feed, our people are not going to suffer even though our cash crop, wheat, is gone.

Doctor Told Her How To Lose 17 Pounds Of Fat

Gossipers Peeved

Mrs. Robert Hickey of Roseville, Calif., writes: "My doctor prescribed Kruschen Salts for me—he said they wouldn't hurt me in the least. I've lost 17 lbs. in 6 weeks. Kruschen is worth its weight in gold."

Mrs. Hickey paid no attention to gossipers who said there was no safe way to reduce—envious women who don't like to see other youthfully slim. She wisely followed her doctor's advice. Why don't YOU? Get a jar of Kruschen today (lasts 4 weeks and costs but a trifle) and if you don't lose 12 lbs. and feel years younger and healthier—money back. Simply take half teaspoonful in cup of hot water every morning (tastes fine with juice of half lemon added.) Perryton Drug Co. sells lots of it.

P2-Adv.

for this year. There is no section of the United States that can "beat back" so fast as the plains country and we are predicting that it won't be many months before this section is once more the banner agricultural area of the Southwest. While many families left during the dust storms, many of them being tenant farmers, few of them being home owners and the trek back to the Panhandle has already started and it will only be a few months until the deserted farms are once more inhabited with happy, contented and prosperous families.

WHEN LIVE ARE AT STAKE

You need the same protection that race drivers demand

KELLY PETILLO ON MAY 30, WC: the 500-Mile Indianapolis Race on Firestone Tires, breaking the track record and driving the entire distance at a rate of 106.24 miles per hour.

This record is an outstanding demonstration of tire efficiency. To go 500 miles in less than five hours on this rough and bumpy 26-year-old brick track, without tire trouble of any kind, demonstrates the strength and blowout protection that Firestone builds into their Gum-Dipped Tires.

AB JENKINS ALSO RECENTLY demonstrated the stamina, efficiency, and

blowout protection built into Firestone Gum-Dipped Tires. He drove 100 miles over the hot salt lake Bonneville, Utah, 3000 miles in 10 hours. This was an average speed of 300 miles per hour, and although temperatures were as high as 120°, he had no tire trouble of any kind.

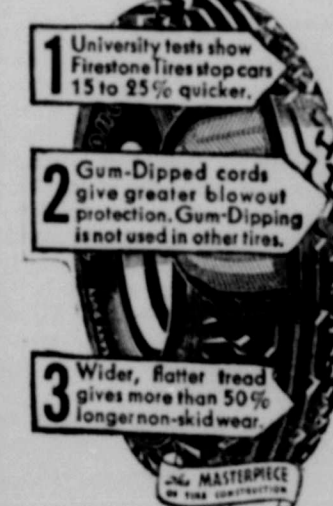

These records are made possible by special construction features in Firestone Tires.

Take no chances—protect your lives of others by letting your car with Firestone Tires and the Safety and Blowout Protection race drivers demand.

Before you buy new tires ask yourself these three questions

- 1—"Will the tread give me the greatest traction and protection against skidding?"
- 2—"Are they built to give me the greatest blowout protection?"
- 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

ANSWER No. 1—Leading university tests show Firestone High Speed Tires stop your car quicker than the best of all popular makes.
ANSWER No. 2—Unequaled performance for sixteen consecutive years prove the Dipping gives you the greatest blowout protection ever known.
ANSWER No. 3—Thousands of car owners' unequalled mileage records—evidence of longer wear and greater economy at High Speed Tires.

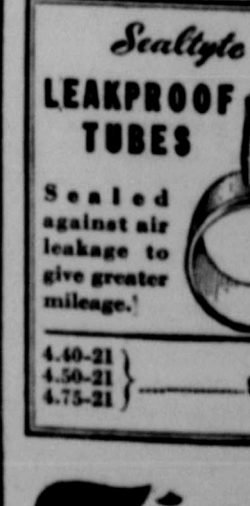

Volume—Direct Purchasing—Straight Line Manufacturing Efficient and Economical System of Distribution to our 500 Stores and to 30,000 dealers enables Firestone to give you values at low prices.

Pinson-Glasgow Nuptials

The marriage of Miss Gladys Glasgow to Mr. Orville Clyde Pinson, Canadian, will take place this evening, 8:15 o'clock, at the ranch home of the bride's parents, Mr. and Mrs. O. T. Glasgow, who reside sixteen miles southeast of Perryton.

Proceeding the ceremony, which will be read by Rev. W. B. Vaughn, local pastor of the Methodist church, who will use the simple ring ceremony, Addison Cutter will sing "I Love You, Truly" and "O Promise Me" accompanied at the piano by Miss Ruby Neufeld. Thirty-five relatives and close friends will be present.

The house, made lovelier by the simplicity of the decorations, will be wreathed in pink and white, the bride's chosen colors, with baskets of roses and ferns forming the background. The bride and groom will descend the stairs together as Miss Neufeld plays Mendelssohn's Wedding March and proceed to the center of the living room under a cluster of wedding bells for the vows.

They will be attended by the bride's sister, Mrs. J. T. Francis, Madison, Kans., as matron of honor, and her brother, Horace Glasgow, as best man. Mrs. Francis will wear a becoming gown of peach silk net and will carry an arm bouquet of cream roses.

The bride will be beautiful in a handsome frock of white mousseline de sole, snugly fitted through the hips with graceful fullness below the knees. A junior veil of white tulle will be fashioned to the head with a wreath of orange blossoms. In her hands she will carry a shower bouquet of pink rose buds and baby breath tied with white ribbon. The groom will be dressed in conventional blue.

After the ceremony an informal reception will be held for the bridal party and the invited guests who will pass to the dining room, for dainty refreshments. The elaborate wedding cake made in three tiers, pyramid style, decorated in white and topped with a lovely pink bow, will be cut by the bride. Out of town guests will be Elmer Pinson, brother of the groom, Mr. and Mrs. W. D. Fisher, M. and Mrs. H. M. Ramp, Rev. and Mrs. A. B. English, Harry Wilbur Jr. and F. M. Peel, all of Canadian; Miss Juanita Campbell, Canyon; Miss Margaret Harvey, Rice; Miss Gladys Buchanan, Amarillo; and Miss Aileen Hamker, Lipscomb.

The bride, who is the youngest daughter of the Glasgows, has lived in this county all her life with the exception of the years away at college and those spent teaching. She graduated from the Perryton high school with honors, attended Canyon Teachers college and received her degree at Kansas Teachers college, Emporia, and did work on her Masters degree at the University of southern California. Since her college work she has been one of the efficient members of the Canadian school faculty. Her many accomplishments and willingness to be of service to others has endeared her to all whom she has met.

Mr. Pinson, who is one of the live

wires of the Rotary club and Chamber of Commerce organizations of Canadian, received his college education at John Tarleton, Stephenville. Since coming to Canadian he has made a wide circle of friends by his pleasing personality and many sterling qualities. He is one of Canadian's most promising young business men and at present owns and operates an electrical shop there.

Mr. and Mrs. Pinson will leave soon after the wedding for a ten day trip in New Mexico and Colorado, after which they will be at home in Canadian. The bride's traveling costume will be a snappy one piece dress of dusty pink crepe, made strictly tailored with navy patton trim and accessories of white.

Now is the time we will surely show our work up in what we have done in the keeping of records, improvements and budgeting for the year in wardrobe work, stated Mrs. Church. We budget for the year according to our financial condition.

Perryton Young Man Shows Talent In Making Models

A sophomore artist, with versatile talents resembling a Michelangelo, has been discovered among the nascent artists in the college art department.

The student is Glen Wilson, Perryton, Tex., who is in his second year at Northwestern.

Working facilities in any medium, young Wilson models lifelike figures. One of the best pieces of work which he has done, this year is a bust of Dord Fitz, another promising young art student.

He also has done a posed figure of Prof. Ruth Boyce.

Young Wilson also has done much creative work this year that shows great promise, Miss Boyce says. The art class as a whole has turned its talents to the making of various ornamental objects and at the present time the department has about 35 of them.

They consist of vases, wall packets, book ends, figure busts, animals, statuettes, candlesticks and the like. Most of the objects are made of clay. This clay comes from beds near Ada and is prepared by the Franks Pottery of Norman.

One of the chief drawbacks of the clay modeling now is that the objects cannot be finished.

The art department hopes to have a kiln next year for baking the molded art pieces.

Others in the modeling class are: Mildred Certain, Pauline Lasswell, Dord Fitz, Grace Walker, Dorothy Isbell, Norma Dunn, Mrs. Marie Hansen, Mrs. Clyta Simmons.—Alva, Oklahoma Review-Courier.
