DAWSON COUNTY COURIER

Volume 15 Member of (AP) Lamesa, Dawson County, Texas, Monday, January 15, 1945 AP News and Pictures Number 3

Women Needed At Henningsen's For Egg Season

With the egg breaking season slated to open in February at Henningsen Lamesa, Inc., officials of that firm are asking girls and women to register now for employment at that plant if they are desirous of taking part in this activity. It is necessary that a large group of ladies be secured to work during the egg breaking season, because of the tremendous output of Henningsen Lamesa, Inc., which has a large government contract to fill during the summer season. Many employees will be used in order to fill the program and to meet shipments of the armed forces in short time, and girls and women are asked to list their names at the plant now.

Henningsen Lamesa, Inc., is now in the process of being renovated and remodeled in order that employees will have every comfort during their working hours. Ceiling heating units are being installed as well as a ventilating system, which will regulate the temperature to add to your comfort during both winter and summer. Rest room facilities have been improved.

The firm performs a vitally essential industry, supplying their materials to the armed forces, and prospective employees are asked to confer with members of the local War Price and Rationing Office about securing tires and gasoline for this essential work.

Register your name at an early date at Henningsen Lamesa, Inc., if you want employment there during the egg breaking season. You may contact the office through letter or in person.

Lt. W. Moore Is Awarded Cluster

AN EIGHTH AIR FORCE BOMBER STATION, England — First Lieutenant William T. Moore, 22, of Lamesa, pilot on a B-17 Flying Fortress, has been awarded an Oak Leaf Cluster to the Air Medal at an Eighth Air Force base in England. The presentation was made by his group commander, Lieutenant Colonel William J. Wigglesworth, of Eau Claire, Wisconsin.

Lt. Moore is the son of Mr. and Mrs. William H. Moore of Lamesa.

Prior to entering the Army Air Forces in September, 1942, Lt. Moore was employed as a petroleum engineer by the Standard Oil and Gasoline Company in Hobbs, New Mexico. He received his pilot wings in January, 1944, at Marfa, Texas.

The official citation read, "For meritorious achievement while participating in heavy bombardment missions in the air offensive against the enemy over Continental Europe. The courage, coolness and skill displayed by Lt. Moore upon these occasions reflect great credit upon himself and the Armed Forces of the United States."

P. C. COGGAN INSPECTS GRAIN SORGHUM LOANS IN COPNTY

P. C. Coggan, head of the Commodity Credit Corporation of Texas, was in this city last Wednesday, January 10.

During his visit here he inspected loans on grain sorghum.

Courier To Carry A Travel Column In Want Ad Section

The Dawson County Courier is inaugurating a new column in the classified ad section of the paper, which will be known as the travel column.

In this section, ads pertaining to rides will be placed, and those persons wanting rides, or offering rides to some section of the country are urged to list them there at a small charge.

If you can provide a ride for someone, or are wanting a ride, list in the travel column of the Dawson County Courier.

E. Oppenheimer To Review Book Tuesday At 7:30

Miss Evelyn Oppenheimer will be in this city Tuesday, January 16, to give a book review of "The Time For Decision," a book written by Sumner Welles which gives his summary of all the complex factors involved in the foreign policy of the State Department and of the peace policy of the United Nations. Miss Oppenheimer will present her review of the book at 7:30 p. m., Tuesday night at the Tower Theatre. Tickets to the affair can be bought at Crawford's Home & Auto Supply, Earnest & Nix Implement Company, Modern Dry Cleaners, and at the local theatres, for the price of seventy-five cents.

The Lamesa Rotary Club is sponsoring this review, and will turn over all profits to local charity.

A reviewer with a wide reputation, Miss Oppenheimer has been in this city previously, and a nice crowd is expected to attend her review of "The Time For Decision" Tuesday night in the Tower Theatre.

Mrs. Ogletree Quits At School To Begin Work At Post Office

Mrs. D. W. Ogletree who has taught in the Lamesa Elementary School for the past 16 1-2 years has asked for release from her teaching contract that she may accept employment with Lamesa Post Office after having successfully passed the Civil Service examination prerequisite to such employment.

Mrs. Ogletree came to Lamesa from North Texas Teachers College and afterwards was graduated from the University of Texas.

Mrs. Sylvia Burger, who has taught as a faculty member in the Lamesa schools the past two years and is a graduate of West Texas Teachers College, will succeed Mrs. Ogletree.

Schools Receive Per Capita Payments

P. K. Humes, county superintendent, reports that a \$3.00 per capita payment for all schools in Dawson County was received last week.

Humes reports further that a per capita payment of \$1.00 is expected to arrive for the schools during the latter part of January.

Place a light on each side of the bathroom mirror for safe shaving.

People Asked To Cooperate In The Paralysis Campaign

Tornadoes Will Match Tahoka Five On Thursday

The Golden Tornadoes of Lamesa High School, coached by H. J. Sanders, won their basketball games against Tahoka and O'Donnell last week.

The home club won the game with the Bulldogs by the score of 24 to 21 and with the O'Donnell Eagles by the score of 36 to 29. These games were fast and furious with the players of each team "going after the ball" and featuring fast breaking style of play. The largest crowd of fans for this season to date witnessed the O'Donnell game on Friday night.

The Tahoka Bulldog squads play the locals on the home court next Thursday night in a double-header series beginning at 7:30 with a "B" team game to be followed by the first teams game about 8:30.

Boxing as a between halves feature has been impossible because of a lack of gloves. The old gloves have become scuffed too much to be safe. Ten pairs of new gloves are expected at any time and with their arrival, Coach Sanders and his pupils will add this feature.

Mileage Records Are Needed In Applying For Gas

All operators of passenger cars with basic "A" rations must have "Mileage Rationing Records" to be eligible to apply for any gasoline rations. R. C. Wooldrige, District Gasoline Rationing Officer for OPA pointed out today.

In the recent re-registration of the nation's 23,000,000 basic "A" ration holders, each registrant was issued one of these mileage record forms. The form replaced the old tire rationing record, on which was kept a list of all gasoline rations to the vehicle.

Without this important record form, no motorist may be issued a "B" or "C" supplemental ration, he emphasized.

Information has been received from local War Price and Rationing Boards that many motorists did not understand the use of the record form and lost or destroyed theirs.

No supplemental rations or special or furlough rations for cars with basic "A" rations may be issued to an applicant who does not present his mileage rationing record with his supplemental gasoline application. Wooldrige emphasized. In cases where a motorist was not issued a mileage rationing record, or it was lost or destroyed, he should immediately apply to his local OPA for a duplicate.

Mr. and Mrs. W. L. Marr had as their guests Sunday her nephew, Russell Mitchell and wife of Leveland.

Miss Mary Foster spent the week end in Littlefield visiting with relatives.

Next week citizens of Dawson County can secure tickets which will admit them to the President's Ball which is slated to be held in the Recreation Hall in Lamesa City Park on Wednesday night, January 31, at 9 p. m., or to the forty-two games. On Monday, January 22, these tickets can be obtained from \$1.00 to \$10.00 from J. R. Earnest, chairman of the Infantile Paralysis Drive which the entertainment will benefit, from Dan Davis, or at the local drug stores and cafes.

All citizens are asked to pledge their aid to the Infantile Paralysis drive, and contributions for the campaign will be accepted by Chairman Earnest, Mrs. Sam Allen, or Dan Davis. The money obtained during the drive will be used to help fight infantile paralysis.

Chairman Earnest states, "Wars between nations continue to scourge mankind. The best that may be said of them is that they occur only at intermittent intervals. But the war between humanity and such dread affliction as infantile paralysis is a continuous struggle in which we give no quarter. The present grave epidemic should spur each of us to further effort in assisting the work of The National Foundation for Infantile Paralysis, known the world over for its unselfish labors in behalf of stricken men, women, and children.

"In the devastation of lives, this fearful disease is no respecter of persons. Sufferers include many who have sons, husbands or brothers in the Armed Forces. But there are soldiers, sailors, and marines on active duty today who are well and strong only because of successful treatment of infantile paralysis afflictions, made possible in many cases through the Foundation's help."

Lt. Steve Etchison Completed Course At Key Field, Miss.

Second Lieutenant Steve A. Etchison of this city was graduated from the Tactical Reconnaissance Pilots' School at Key Field, Mississippi last week.

The new tactical reconnaissance pilot will soon be assigned to a combat unit. His duties will be to fly camera equipped P-51 fighters over enemy lines and return to his base with photographic evidence of enemy activity. Future operations are then planned on the basis of what the photographs reveal to trained intelligence officers.

New School Term Began Here Today

The mid-term examinations have been concluded for the Lamesa Schools and the second term got underway this morning (Monday). Several new pupils have enrolled but details were not available at press time.

Principals Roberts and Fitzgerald report that most new pupils are from other sections of Texas with a few pupils from out-of-state and also a small number who have not been in school during the first semester because of work or illness.

The new semester opened with a full corps of teachers and other employees.

Canada has a fresh-water area of about 228,307 square miles.

Thomas Is Given Death; New Trial Is Being Sought

The jury which heard the Jim Thomas case tried in the local court last week reported their verdict that Thomas was guilty of the October 26, 1943 slaying of Dr. Roy E. Hunt of Littlefield, and recommended the death penalty. They reached their verdict Friday morning, after listening to eight hours of arguments Thursday by the defense and prosecutors on the case, and turned over their verdict at 11:45.

Thomas' defense counsel filed a new trial motion with 106th special District Judge J. E. Garland at 2:30 o'clock Friday and members of the counsel report that Thomas will be in this section several days, inasmuch as he would institute appeal action were Judge Garland to decide adversely on the new trial motion. It is expected that the new trial notice will be controverted by the state.

The bill of exceptions that would be filed to the court of criminal appeals with the transcript and statement of fact in the four-day trial should the case be appealed "would be lengthy, but there would be nothing sensational in any of it," it was said after the trial.

It is said that the bill of exception, if appeal is made, would seek to show that the court's allowing of Joe Ann Hunt, 6-year-old daughter of the late Dr. and Mrs. Hunt, to testify was a reversible error.

Oil Developments In County This Week Announced

According to an article appearing in the Sunday issue of the Lubbock Avalanche-Journal, completion as a commercial oil well of Richmond Drilling Company's No. 1 Nelson, northwest Dawson County discovery from the San Andres-Permian, was highlight of the oil development program of the South Plains during last week.

Richmond No. 1 Nelson, in southwest corner of northwest quarter of section 34, block M, EL survey, in northwest Dawson County discovery an official 24-hour pumping test, for completion of 166.17 barrels of 33-gravity oil, with no water.

This discovery is two and one-half miles north of the one producer in the Welch area. It likely will cause more drilling in the area, as several companies have close-in acreage, and two concerns have offsets to the well.

Pay section is at 4,805-4,923 feet, in the San Andres section of the Permian. This well drilled to a total depth of 5,003 feet, at which point it developed sulphur water. Operator plugged it back several sections, and finally eliminated the water. The saturated zone was shot with 240 quarts of nitro. Completion was delayed several weeks on account of fishing jobs which held up the clean out after the shot.

Mike Hall who has been residing here with his grandparents, Mr. and Mrs. W. W. Griffith, will leave Thursday for Dallas, where he will make his home with his mother, Mrs. Jo Hall.

RATIONING CALENDAR

JANUARY 1ST TO FEBRUARY 1ST

SUGAR:—

Stamps No. 30, 31, 32, 33 and 40 in Book IV and all home-canning coupons and certificates are now invalid. Stamp No. 34 is good for five pounds sugar.

TIRE INSPECTION:—

T book holders every six months or every 5,000 miles, whichever comes first. New Mileage rationing record required to obtain gasoline rations. Application for passenger car tire replacement must show condition of all tires in use.

Lubbock Soldiers Express Thanks For Xmas Food

The following letter was received at the local Chamber of Commerce office, which concerns the cooperation of the Dawson County women who supplied sweets to the Lubbock USO during the Christmas holidays.

The letter which was written by Miss Leona Gelin, director of the Lubbock USO, is printed below:

Thank you so much for the fine response we received from Lamesa for Christmas Day. I was here when the Wright Boyd's came with the first load of cakes and cookies and I sorta choked up a little reading all the familiar names on the cards and the nice messages to the boys that came with them. I don't think I have ever seen a more wonderful array of cake and cookies and you may be sure that the boys thoroughly enjoyed each atom of homecooking flavor there was in them. Through the generosity of the surrounding communities, over 6,000 servings of home-made cakes, candies, and cookies were made during the Saturday, Sunday, and Monday holiday season.

Please express the appreciation of the boys to those who gave so fully from Lamesa.

Very sincerely yours,
Leona Gelin, Director of Lubbock USO.

Mr. and Mrs. S. B. Costin will leave this week for Seattle, Washington, where they will visit their son, Pfc. H. B. Costin and wife.

Miss Ruth Tarter and Mr. and Mrs. Joe Tarter spent the week end in Snyder visiting Mr. and Mrs. J. C. Dyess and other relatives and friends.

Pvt. Roberts Attached To Group That Had Part In Italian Drive

WITH THE FIFTH ARMY, Italy —Pvt. William A. Roberts, carpenter, from Lamesa, is a member of the 313th Combat Engineer Battalion, which has built roads and bridges in the mud and mountains from Cassino and the Garigliano River to the Po Valley since joining the Fifth Army in Italy early in 1944.

It has turned mule paths and trails into "main supply routes" in supporting the 88th's infantrymen in their drive through the Gustav and Hitler Lines, the liberation of Rome and into the formidable Gothic Line.

In February and March, road maintenance, mine removal and building of three Bailey bridges and a foot bridge kept the engineers busy until the Fifth Army offensive jumped off on May 11. Closely supporting the infantrymen as they battled their way through Santa Maria Infante, the 313th cleared mines, repaired demolitions and built bridges, air strips and roads. To aid the doughboys in flanking the Formia corridor, they built a two mile trail over virgin ground and steep hills in nine short hours. Four more times in the drive to Rome, they cleared supply routes out of Stubborn Italian terrain to keep rations and ammunitions moving to the hard-driving 88th.

After Rome, the engineers neutralized minefields, underwent heavy enemy shelling and kept vital supply lanes open in clouds of choking dust.

They helped in the Fifth Army's drive through the Gothic Line, and late in September when the rain-swollen Santerno River washed out the sole road link to the 88th on Mount Battaglia and near Castel del Rio, the group strung a line across the gorge and sent vitally needed food, medical supplies and ammunition to the stranded fighters.

Producers Being Asked To Meet Spring Pig Goals

Texas farmers with adequate feed supplies are being asked by WFA to keep additional sows suitable for farming next spring to help meet the spring pig goal, Dan L. Boyd, WFA's district representative has announced.

Present support prices of \$12.50 per hundred weight, Chicago basis, for good to choice butcher hogs weighing 200 to 270 pounds also has been extended to March 1, 1946, he said. Calling on all hog producers in the nation to cooperate, War Food Administrator Marvin Jones, said, "The continued high level of demand for meat for war needs makes it imperative that hog producers meet the goal of 57,500,000 spring pigs." He expressed concern over a pig crop next spring smaller than last spring adding, "The feed grain supplies available will feed more hogs than would be produced from next spring's pig crop, according to present indication."

The number of sows farrowing must be increased by about 11 per cent over number now planned to reach the goal.

Pfc. Roy Hughes' Group Was Cited

WITH A QUARTERMASTER COMPANY OF THE FIFTEENTH AIR FORCE SERVICE COMMAND Italy — For outstanding service in support of combat operations, the Meritorious Service Plaque has been awarded all members of quartermaster company of a service group to which Private First Class Roy Hughes, Star Route 1, Lamesa is attached.

Supplying rations, clothing and other quartermaster equipment to heavy bomber bases of the Fifteenth Air Force, the men of this Company worked untiringly to maintain a very high standard of operational efficiency.

All members of the company may now wear the Meritorious Service wreath on their right sleeves.

First fruit trees were sent to Quebec in 1608.

Overseas since December, 1943, the men of the 313th have two Legions of Merit, seven Silver Stars, 28 Bronze Stars, three Soldier's Medals and three division commendations.

Orchards Will Be Discussed On Radio Programs In Jan.

Many interesting topics will be discussed on the Orchard School of the Air to be presented on Lubbock's radio station from January 16 to February 1. These broadcasts can be heard at 7:15 a. m.

Dates of the broadcasts and topics are as follows: January 16, Location of Orchard and Varieties For West Texas; January 18, How To Set The Fruit Tree; January 23, Pruning Fruit Trees and Grape Vines; January 25, Practical Aids To Fruit Production; January 30, Disease and Insects In the Orchard; February 1, Using Fruit In the Diet.

It is reported that Dawson County extension agents have sent in helpful questions and the programs will be arranged to include answers to these.

MISS PEGGY SPECK IS EMPLOYED AT LAMESA HIGH SCHOOL

Miss Peggy Speck assumed duties as clerk-stenographer at the Lamesa High School office Monday morning. This position had been filled temporarily by Mrs. Sylvia Burger.

Miss Speck is the daughter of Mr. and Mrs. Roy Speck of this city.

John Thompson returned from Waskom, Louisiana Sunday, January 14, after visiting with his father, J. M. Thompson for a week. His father has been ill, but Thompson reports that his condition has improved some.

cer and the Purple Heart awarded posthumously to a serviceman dying as the result of enemy action are the same.

Q. My son was killed in action last August and I have not received any information regarding his death or burial. Where can I write to receive this information?

A. If you have received no letter from either your son's organization or The Adjutant General regarding the circumstances of your son's death, you may write for such information to The Adjutant General, Washington 25, D. C.

Q. My son wrote he had his insurance and war bonds changed to me. He has been notified that the change in the insurance has been made but no such notice has come to me. In addition, I have received only one of the three war bonds he says he has bought. How can I get these matters straightened out?

A. If your son has been notified that changes have been entered by the Veterans Administration on his insurance record, naming you as beneficiary, no notice to you is necessary. You should wait three months after a bond is bought before inquiring as to its whereabouts. If more than three months has passed since your son bought his bonds, write the Army War Bond Office, 366 West Adams Street, Chicago, Illinois.

Q. Can a bank charge me and others a service charge to cash our family allowance checks from our

men in the service?

A. There is no regulation prohibiting a bank from charging a nominal sum for cashing a government allowance check.

BRAZIL WOOD SHADE WORLD LUMBER MARKET

RIO DE JANEIRO (AP) — Brazil's potential and untapped wood supply indicates the possibility of a postwar lumber industry which

might well overshadow the world market.

Possessing more than 64 per cent of South America's forest, Brazil in the states of Amazonas and Para, alone, has some 260,538,100 hectares, or more than the estimated totals of either Europe (105,859,344 hectares) or North America (70,918,380). A hectare is almost two and one-half acres.

Subscribers Are Asked To Check Expiration Date

Courier readers are asked to watch the expiration dates on their paper in order that they may not miss a single issue of the Dawson County Courier, your home town newspaper.

In other words, if the number following your name on the paper reads 2-45 that means that your subscription will expire on Feb. 1, 1945 and that unless your subscription is renewed your paper will be stopped at that time.

The subscription price of the Courier is \$3.00 a year in Dawson, Martin, Gaines, Borden and Lynn Counties, and \$2.00 for six months. For a limited time only a 2 year subscription will be offered for \$5.00, or you can save one dollar by taking a two year subscription. The subscription price outside this territory is \$4.00 a year, except for men in the armed services which remains at \$3.00 a year.

Farrowing Of Fall Pigs Declines

Production of pigs in Texas during 1944 declined sharply from the record yield of 1943. The Bureau of Agricultural Economics, Austin, reports that the state's pig crop, estimated at 2,460,000 head by the U. S. Department of Agriculture, was about 41 per cent below the all-time high in the preceding year. But in spite of the falling off the total 1944 crop still was about 11 per cent above average production for the 10 years, 1933-1942.

Breaking down the production seasonally, the report says that fall farrowing, June 1, to December 1, were estimated at 181,000 sows, averaging 5.9 pigs per litter saved, or a total of 1,060,000 pigs. This was a reduction of 48 per cent from the fall crop of 1943, and equalled an 10 year average for the fall season. The Texas spring pig crop of 1,392,000 head represented a 35 per cent reduction from the previous year.

The report adds that continuation of the decline in hog production in the state to about prewar levels is

steaks, chops and roasts, and also hearts, sweetbreads and tongue. No points are needed to buy pork fat backs, clear plates, hocks, jowls, knuckles, regular plates and bacon ends, hearts, liver and tongue. A number of sausage types are also on the no point list.

STILL GOODLY NUMBER OF UNRATIONED FOODS

While the over-all food rationing program has been tightened by restriction of point values to five vegetables and application of points to 85 per cent of the total meat supply, there remain a substantial number of foods for which rationing points are not needed, states OPA. All frozen and dried fruits and vegetables, fruit spreads, lard, soups, baked beans and baby foods—along with fresh fruits and ve-

tables, cereals, eggs, poultry and fish—are unrationed. In the meat list no point value is attached to beef hearts, sweet-breads and beef tongue; lamb is unrationed on such cuts as breast and flank, shanks of all grades, patties, steaks, chops and roasts in utility grade, hearts, liver, sweetbreads and tongue; all grades of mutton are point-free; veal is unrationed in such classes of cuts as breast, flank meat, neck, shank and heel meat of all grades in utility grade and lower for

indicated by farmers' reports on breeding intentions for the 1945 spring crop. The number of Texas sows to farrow from December 1 to June 1 is indicated at 187,000, compared with 240,000 spring season farrowings in 1944, and 364,000 in 1943.

DEER, DEER, DEER! AND STEAK'S RATIONED

Ten Men Were Classified I-A By County Board

The local selective service board met Tuesday, January 9, and made the following re-classifications:

Men designated I-A are, D. C. Duncan, Lyles P. Reed, Billy J. Perry, Joe Clayton, Cecil G. Hanson, Robert L. Carlisle, Charles Richardson, Favian Olivian, Virgil Cornett, and Eldon Sanders.

John Weaver, James Renfro, James A. Whited Jr., and Ike McKinney are 1-C inducted.

Those who are 1-C discharged include Bruce Conley and James P. Martin. Earvin Lawson is 2-A, Ben R. Johnson is 2-AL and Wilhelm Richter, Wilmer Minter, William Addison, and William Gruben are 2-AP.

Men designated 4-F are Charles Goolsby, Mercedes Frausto, Eguardo Rodriguez, and Egnacio Gonzalez.

Waste Fats Are Urgently Needed

"Waste cooking fats are needed more now than at any time since the beginning of the war," Opal L. Wood, District OPA Food Rationing Officer declared today.

During the past few months, Miss Wood said, the amount of salvage fats turned over to renderers has fallen far short of the amount needed. She went on to point out that waste fats serve hundreds of war purposes, especially in the manufacture of medical supplies and ammunition.

The call from the government to housewives to renew their efforts to save their waste fats follows the

call for more medical supplies and for more ammunition to meet the needs of stepped-up war activities both in the Pacific and in Europe.

Housewives are reminded that two red points will be given for each pound of fats turned in to butchers.

Dairy Extension Husbandman Named Recently

G. C. (Hoot) Gibson will join the headquarters staff of the A. and M. College Extension Service on February 1 as dairy husbandman. Director Ide P. Trotter has announced. Well known through previous service as assistant Extension dairy husbandman, Gibson succeeds E. R. Eudaly who resigned from the position October 31.

"Our effort to best serve the dairy industry of Texas, which is expanding steadily, calls for an Extension specialist of the widest experience and highest qualification in that field," Dr. Trotter said. "We are fortunate in obtaining Mr. Gibson for this service. His technical ability is not only of the highest, but in the practical field he had eight years experience in Extension dairy work in Texas and three years in Iowa, together with the direction of a large dairying enterprise which involved the operation of a herd of 400 cows, management of a 2,000 acre farm and the production of feed. We believe that his training and experience make him a most valuable man to serve the dairy industry of Texas."

Native of Trinity, Gibson was graduated with the B. S. degree in dairy husbandry at A. and M. College in the class of 1929. He obtained the M. S. degree at the Iowa State College in 1930 and for the three succeeding years served as assistant Extension dairy husbandman in that state. He entered the University of Texas in 1933 to study business and law, and in 1935 was admitted to the Texas bar. His study of law was to equip himself to deal with legal problems which might develop in the dairy industry.

In November of that year he returned to A. and M. College served as assistant Extension dairy husbandman until April, 1943, when he resigned to become manager of a large dairy farm at Waco. In his work with the Extension Service he devoted much time to the organization and development of Dairy Herd

Glimpse Into Post War Living

Nylon suits for men with permanent "creases" in the trousers, curtains which can be laundered but need not be ironed, transparent food containers which can be vacuum packed like tin cans, all lie ahead for consumers in the post war years, members of the Texas A. and M. Extension Service staff were told at a recent conference by Miss Gertrude Dieken, home economics consultant for a chemical research concern at Wilmington, Del.

The speaker, a former Extension worker, said the public should not expect overnight, "a brand new world paved with plastics," but science under the pressure of war is making many new discoveries which will "lighten the routine of housekeeping and leave more time for homemaking."

Chemical research, in addition to developing synthetics and plastics, also is finding ways to give new characteristics to natural fibers, Miss Dieken said. Junior's coveralls can be treated so they will be unaffected by splashes of mud, spilled orange juice, or upset bottles of ink. In addition, cotton materials can be treated so they will be fireproof, mildew resistant, water repellent

Improvement Associations in the state.

and, by a layering process, as warm as wool.

A number of interesting exhibits were shown to the Extension group by the speaker. Among them were a section of nylon tow rope with "stretch recovery" which is used for pulling gliders; plastic for use in out-door furniture which will not fade, warp, or weather; nylon capes which offer protection from poison gas and nylon fabric screens which protect fighting men in the South west Pacific from mosquitoes and other pests.

Clothing made of acetate rayon need not be sewed, she said, for heat will weld or fuse the seams permanently. When production can be turned to peace-time purposes, there are enough facilities for every woman in the country to have a dozen pairs of nylon hose, she predicted.

WAC Director Wants to Return to Newspaper Work After War—Col. Oveta Hobby, Women's Army Corps Director (above), pauses in her work at her desk in the Pentagon Building in Washington to announce that the first thing she wants to do when the war is won is to return to her job as Executive Vice President of the Houston Post, to help her husband, W. P. Hobby, get out the Post.

A Quarter Horse Show To Be Held In Ft. Worth Soon

The story of how the Quarter Horse received its name will be a subject for button-hole conversations on the grounds of the Southwestern Exposition and Fat Stock Show in Fort Worth, March 9-18.

The reason is that six classes of these fleet-footed animals will be prancing before the judges during the second wartime livestock exposition in the Will Rogers Memorial Coliseum, under sponsorship of the American Quarter Horse Association.

tion.

Among the oldest of breeds, the Quarter Horse received its name from the fact that this animal is good for short bursts of speed in races of perhaps a quarter of a mile.

Spanish explorers brought Barb and Arabian horses to America during the Colonial Days. Many of these horses escaped and joined wild herds. Out of that evolution grew the present-day Quarter Horse, which has become a practical and popular mount with Southwestern cattlemen and cowboys.

Length of the frontier village main streets (approximately a quarter of a mile) had some bearing on the name chosen because the early-day cowboys found the village main street an ideal place for short races.

Plans for the Quarter Horse Show were unfolded at a recent conference between R. L. Underwood of Wichita Falls, president of the American Quarter Horse Association; John C. Burns, president; John B. Davis, secretary-manager and A. K. Mackey, general livestock superintendent of the stock show.

Cash prizes of \$720 will be offered with the stock show and the association putting up an equal amount of money. Feb. 1 is the deadline for entries.

Although the Quarter Horse breed is old, registration of these animals was begun only in 1940 after the American Quarter Horse Association was formed that year during the Fat Stock Show. The breed has grown in popularity. Now there are more than 1,700 registered Quarter Horses in 17 states and three foreign countries. Texas leads with 244 owners of registered horses.

In addition to the Quarter Horse show, there will be a complete showing of other classes in the horse show department, including Palominos, American saddle and fine harness horses. There will be complete classes for cattle, swine and sheep.

Use of milk as an article of diet dates to the dawn of civilization.

JUST LIKE CHOW MEIN

SANTA ROSA, Calif. (AP) — Home from Italy where he served as gunner on a B-24 bomber, Sergeant Willie Wong, Chinese-American, says not to go to Italy for "real, Italian spaghetti because it doesn't hold a candle to what you can get in California."

Young Eyes NEED GOOD LIGHT

Now that the New Year holidays are over, students are settling down to the few weeks of hard work before the mid-year exams. They will need good light to protect their eyes from fatigue and to make reading easier.

You can provide good light for studying or reading by following these simple rules:

- Use at least a 100-watt or 150-watt bulb.
- Shield the light with a wide shade.
- Place the lamp so as to avoid glare.

TOWN and FARM IN WARTIME

EXPERT EXPLAINS FARM VALUES

By E. C. Johnson, In Charge,
Interdepartment Land Use Co-
ordination Dept of Agriculture

The farm land boom during and immediately following World War I was the cause of great distress among farmers. Thousands of them lost heavily mortgaged farms which they had purchased at boom prices. Remembering this disastrous experience, persons interested in the welfare of American Agriculture wish to see every effort possible made to prevent a land boom during the present war period.

Farm land prices have risen sharply since 1940. In many regions they are already at levels which cannot be supported by probable long-time earnings from the land. Fortunately, remembering the distress which followed the last boom, many farmers are cautious in buying farms. They are paying debts and buying War Bonds.

By maintaining a cautious attitude on land values and using savings to pay debts and War Bonds, farmers can contribute much toward stability in farm real estate. City buyers of farms should remember that return from capital in farms over a period of years usually is low, and they will not be helping themselves and will only be contributing to distress among farmers by paying inflated prices for farm land.

Speculative buying of farms should by all means be discouraged. Buyers of farms will find it desirable to bear in mind that present prices of farm products are war-time

prices and, therefore they should use normal prices in estimating probable returns from the farm in future years. The only safe method for protecting an equity when buying a farm is to make a down payment of sufficient size to hold the mortgage to an amount which can be carried from earnings in average peace-time years.

BACKGROUND FOR FARM DRAFT

Background of the selective service action requesting draft boards to reclassify and induct, to the full extent permitted by law, men in the age group 18 through 25 years who hold agricultural deferments is contained in a letter written to Maj. Gen. Lewis B. Hershey, Director of Selective Service, by the Director of War Mobilization and Reconversion, James F. Byrnes. Pointing out that the Tydings Amendment to the Selective Service Act does not give the agricultural worker absolute exemption, and was not intended to, Director Byrnes states — "The Secretaries of War and Navy have advised me jointly that the calls from the army and navy to be met in the coming year will exhaust the eligibles in the 18 and 25 year age group at an early date. The army and navy believe it essential to the effective prosecution of the war to induct more men in this age group . . . other than the men becoming 18 years of age the only remaining substantial source in this age group is in the 364,000 men now deferred because of agricultural occupation. You have further advised me that if this group is not available, you must call into service occupationally deferred men in the next age group, 26 years and older, most of whom are fathers. The Chairman of the War Production Board, Mr. Krug, advises me that the loss of these men would make it extremely difficult, of not impossible, to meet critical war demands. Moreover, these older men would not meet the expressed needs of the army and navy."

MAYBE HE STARTED SOMETHING SERIOUS

SPRINGFIELD, Ill. (AP) — Everybody in the cafe laughed derisively when Ike Heimlich proclaimed: "Why! it's easy to get cigarettes."

He walked to a wall where a dozen overcoats hung, delved into a pocket or two and brought out an unopened pack.

They didn't know it was Ike's own coat.

POLICE LISTEN IN ON HOUSING RACKET

OAKLAND, Calif. (AP) — A man who thought he had bought a

home, two others who thought they had rented it, an auctioneer who believed he had purchased the furniture and five persons who

thought they had bought various furnishings held an indignation meeting at the Oakland police station. A warrant was issued for the arrest of a couple who had "sold" and "rented" the house and furniture to all comers.

OKLAHOMA AGGIE GOES UP AND OVER — Joe Thomas, Oklahoma A. & M. back, leaps high in the air over a stack of players to make a first down in the 4th period of the Cotton Bowl game with Texas Christian University at Dallas Jan. 1. He was stopped by Norman Cox and James Cooper of TCU. Aggies won 34-0. (AP Photo).

NEWS FROM COUNTY AGENT

T. A. BARFIELD
County Agricultural Agent
DO YOU WANT TO BE A MEMBER OF THE FOUR-H CLUB?

It is needless to say that members of the 4-H club have some advantages over the other boys of the county. I shall merely mention a few of those advantages.

Last year 4-H club members in Texas alone received more than \$93,000.00 in prizes, scholarships, and trips. The Four-H Club stands for development of its members in a manner that will make them well rounded, successful citizens. It develops leadership and fosters farm organization. It teaches skill in a vocation. There are many other advantages that the Four-H club member has over the boy who is denied membership.

There are always boys in the County who would like to show what they could do in the 4-H club, but they happen to be boys who do not live on the farm or who attend a school where there is no Four-H club organized. If you happen to fall in one of these groups, that is no reason why you should not belong to the organization. Many boys in the cities are doing good work with Victory gardens, poultry, and rabbits, and are helping to feed our fighting men. Many farm boys are doing much but getting no

recognition for it because they do not have access to a 4-H Club.

Boys, this condition should not exist in our County. If you would like to be a member of a county-wide Four-H Club, drop into your county agent's office within the next two weeks and sign a membership card or write to your County Agent and a membership enrollment card will be sent you. Whether you live in the town or on the farm, you can still be a member of one of the

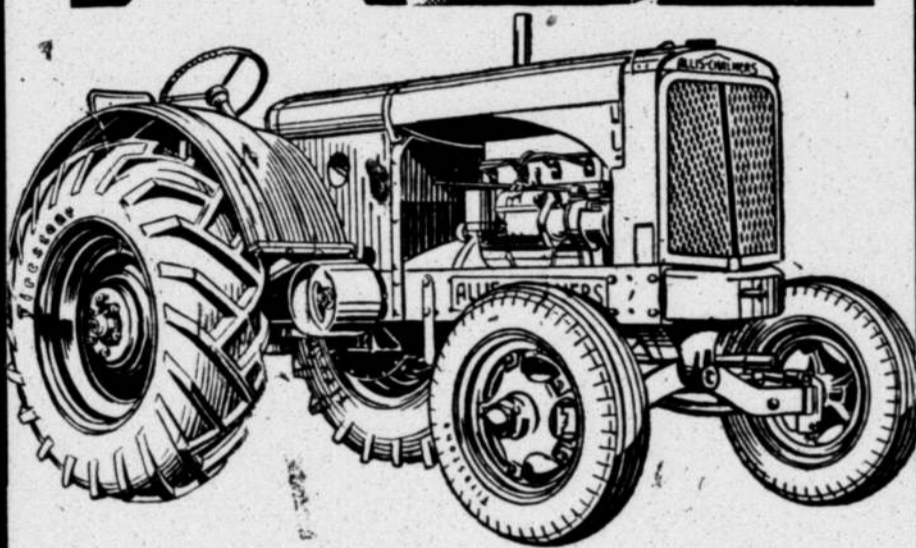

largest boys organizations in the world without any cost to you.

MODERN JOHNNY APPLESEED

ROCKWOOD, Ill. (AP) — Gust J. Boehland is a 20th century Johnny Appleseed. In 30 years he has given 181,000 fruit, shade and fir trees to thousands of school children in this community.

AUCTIONEER: Col. Houston Glasson

CLERK: Hazel Hancock

CASHIER: Mrs. Houston Glasson

Mrs. E. P. Bullock To Receive Silver Star At Review

Officials of the Big Spring Army Air Field are attempting to locate Mrs. Edna P. Bullock, and anyone knowing her whereabouts is asked to contact Mrs. Matt McCall, secretary of the local Chamber of Commerce or the Bombardier School in Big Spring.

In a letter from Major W. E. Turner of Big Spring it was explained that the Silver Star, awarded posthumously to her son, Pvt. Tom B. Preston, is to be presented at a review at Big Spring Army Air Field January 20, at 11:45 a. m.

Major Turner reported that on January 5, he wrote Mrs. Bullock, General Delivery, Lamesa, asking her if she could be present at the review. He states that they have had no word from her yet, and are anxious to contact her.

He further stated that the Colonel of the Big Spring Army Air Base extended an invitation to girl and boy scouts of this area to be his guests at one of the reviews.

Rev. Maurice Evans Addresses Rotary

The Rev. Maurice Evans of San Angelo, who is conducting a revival at the Assembly of God Church in this city, was the principal speaker at the Rotary Club meeting Friday, January 12. Rev. Evans spoke on youth problems and juvenile delinquency, emphasizing the necessity for adults to be conscious of problems, and bringing out the ways the home, the church, and school can aid with these problems.

Rev. Evans was introduced by Rev. W. M. Bozeman, regular pastor of the Assembly of God Church, who was a Rotary Club guest.

One other guest, Roy Smith of Carlsbad, attended the Friday meeting.

G. W. Welch To Have Farm Auction Sale Monday, Jan. 22nd

G. W. Welch will hold a big farm auction sale at his farm, located 1 mile east of the 10 mile station on the Stanton road, Monday, January 22, at 1 p. m.

In another section of this paper you will find listed in an ad the many implements, livestock, and household articles which will be put on sale at the auction Monday. Col. Houston Glasson will serve as auctioneer.

Persons who wish to have some of their own possessions sold at the auction are invited to bring them to the sale.

T. A. Estes Promoted To Corporal's Rank

An announcement from the Army Service Forces Training Center, Camp Berkeley states that Tom A. Estes Co. A. 64th Tng. Bn., has been promoted to the rank of corporal.

Corporal Estes resides on Route 4, in this county.

Two Members Are Added To Lions Club

The Lions Club held a short session last Thursday, January 11, at which time luncheon was served but the program was omitted.

Two new members were introduced, including J. D. McAmos and Tommy Kimes.

Guest for the session was Tracy Campbell S. C. 1-C, who is stationed at the Naval Training School in Richmond, Virginia, and who is visiting in this city with his family. Seaman Campbell is a member of the Lions Club.

Miss Hill To Be In City On January 16

Miss Kate Adele Hill, district agent of the extension service from A. & M. College, will be in Lamesa Tuesday, January 16, to make plans for the emergency war food work in Dawson County for 1945.

She will confer with Mrs. Myrtle Negy, home demonstration agent, and Mrs. Jack Phinizy, who will begin work as emergency war food assistant in this county on February 1.

4-H Club Groups Plan Year Books

Work on a year book with first goals for the 4-H Club girls and boys of Dawson County has begun.

Virginia Bruce, president of the senior girls in Klondike; Glenda Wright, president of the girls club in Grandview; Leon Archer, president of the boys Grandview club; Ben Mac Dopson, president of the boys

Subscribers Are Asked To Check Expiration Date

Courier readers are asked to watch the expiration dates on their paper in order that they may not miss a single issue of The Dawson County Courier, your home town newspaper.

In other words, if the number following your name on the paper reads 2-45 that means that your subscription will expire on February 1, 1945 and that unless your subscription is renewed your paper will be stopped at that time.

The subscription price of the Courier is \$3.00 a year in Dawson, Martin, Gaines, Borden and Lynn Counties, and \$2.00 for six months. For a limited time only a 2 year subscription will be offered for \$5.00, or you can save one dollar by taking a two year subscription. The subscription price outside this territory is \$4.00 a year, except for men in the armed services which remains at \$3.00 a year.

Work On Farm Census To Begin In County Soon

The school for instructing enumerators in taking an agricultural census in this area was concluded Saturday, January 13, and according to Wilburn A. Patrick, who conducted the school, enumerators will begin to take the census today (Monday) or within the next few days.

The enumerators will contact every farmer in the county to get a complete report on production of livestock, poultry, and crops for each farm. They ask the cooperation of every agriculturist, and state that the information they receive will be strictly confidential.

These agricultural census are taken every five years in every county in the United States, and are sent to the Census Bureau.

The enumerator school extended over a period of 3 days, beginning Thursday and was held in the local AAA office. Attending were 3 representatives from Martin County, 2 from Gaines County, 2 from Howard County, and 6 from Dawson County.

club at Hancock, Earl Hatfield, president of the boys club in Union; Glenn Scott, president of the Five Mive Club and Willie Mae Davis, a member of that club met with County Extension Agents, T. A. Barfield, and Mrs. Myrtle Negy Saturday, January 12 and made plans for the year book.

An outline of the books was completed. The girls and boys helped plan for demonstrations that are to be given by the agents during 1945.

The next meeting is set for Saturday, January 27, at which time the final draft of the book will be made and plans for getting it printed will be formulated. The presidents of all the 4-H Clubs in Dawson County will attend that meeting.
