

OIL HEIRESS WEDS OKLAHOMAN

Miss Mildred Yount, oil heiress and daughter of Mrs. Miles F. Yount of Lexington, Ky., and Beaumont, Texas, and Edward Daniel Manion, Tulsa, Okla., attorney, were married at Lexington. They are shown arriving at Spindletop hall, Mrs. Yount's home near Lexington.

Water Pollution Is Charged Against Oil Companies

Negligence In Keeping Up Pit Facilities Is Complaint Of State Man Checking Condition

Charges of pollution of a water course were filed against three oil production companies here Thursday following investigations by state agents.

More charges against other companies were expected to follow. The complaints were the outgrowth of damage reported due to oil and salt water in southern Howard and northeastern Glascock county following the rains of two weeks ago.

Named in the first counts were American Maracibo, Merrick and Lamb, and Greene Production Co., all operating in the Howard-Glascock field.

Complaints were brought by H. E. Paubion, Austin, of the state department in charge of water pollution. T. A. Harris, Lamson, game warden for this district, and R. L. Edwards, San Angelo, game warden for the San Angelo district.

The charges set out that the companies were negligent in keeping up their oil and salt water pit facilities, thus allowing the materials to flow away with run-off water during recent heavy rains.

Paubion indicated that the state's interest in the matter was not so much in seeing that fines were imposed on offenders, but to see that there was no recurrence of the pollution. Officials declared that the oil and salt water not only affected streams, working down to the Concho as far as Sterling City, but that it also did damage to range lands. In some of the flats or draws through which run-off makes its way to the North Concho, ranchers declared the waste oil damage to rich land was acute.

Harris and Edwards were primarily interested from the angle of protecting wild life, especially fish. Although making it plain that the matter was none of its immediate concern, the city, through its spokesmen, indicated a keen interest since an effort is being made to secure a surface water supply for Big Spring on the North Concho above Sterling City.

But it was not as the boys in blue and the striplings in gray that the old soldiers met—on this 75th anniversary of the battle of Gettysburg—but as comrades, without regard for blue or gray, without heed for stars and stripes, or stars and bars.

They huddled together over the battlefield which once had been drenched by the blood of 43,000 fallen comrades, and they pointed out Oak Hill, the bloody angle and Seminary Ridge, where much of the fighting took place.

Once again they hailed one another in "Johnny Reb" and "Dad Yankee," but there was no rancor in their quavering words. Together they sat on the tented verandas of their tented city, swapping yarns about Early and Sheridan and Lee, or joking with the thousands of visitors.

Except for a few late comers, the last bivouac of the Grand Army of the Republic and of the men of Robert E. Lee was completed today. Most of them checked into camp yesterday, where 2000 tents have been pitched in the semblance of a small city—a city of reunion and memories.

Gets Five Years On Slaying Charge

WAXAHACHIE, June 30 (AP)—A jury today found B. B. Black, former Ellis county prison guard, guilty of murder without malice in connection with the fatal beating of a negro prisoner and assessed him five years in prison. He was the second conviction in connection with the death of the prisoner, Cede Lambert, a 15-year sentence previously having been assessed Hobb McCullough, another guard. McCullough has filed an appeal. Black went on trial Monday. After state witnesses testified to alleged beatings administered to the negro on the day of his death, April 30, Black denied kicking or hitting Lambert and testified he only tapped the prisoner on the feet with a light stick to arouse him.

War Fears, Threats Concern Many Nations

Good Neighbor Aim Stressed By President

Speaking In New York, Declares Anew Against War

NEW YORK, June 30 (AP)—President Roosevelt declared today at the World's Fair grounds that American republics believe the good neighbor policy could succeed on the rest of the globe "if the spirit which lies behind it were better understood and more actively striven for."

The president chose the laying of the cornerstone for the fair's federal building to make a new declaration against war and to stress the importance of good neighborliness.

"All of us realize, of course," he said, "that the affairs of many parts of the world are, to put it politely, somewhat distraught. Such a condition necessarily accompanies wars and rumors of wars."

The chief executive noted that "we in this hemisphere are happily removed, in large measure, from fear and from the controversies which breed it."

"In a larger sense, however," he added, "we cannot remain unconcerned, especially because it is our fortune to enjoy friendship and good relations with all nations."

With that in view, Mr. Roosevelt urged extension of the western hemisphere spirit to the rest of the world.

"The policy of the good neighbor," he declared, "is, as we know it, not limited to these problems of international relations which may result in war."

"We are against war and have agreed among ourselves quietly to discuss difficulties in such a way that the possibility of war has become remote. But the policy involves also matters of trade and material affecting the interchange of culture."

The president said the New York World's Fair and the San Francisco Fair were "well-timed" for 1939, adding:

"They will encourage that interchange of thought, of culture, and of trade which are so vital today. x x x It has been well said that you cannot hate a man you know."

"Therefore, this exposition will stand as a symbol of world peace, for, without doubt, it is a useful advance of the patient road to peace."

Officials declared that the oil and salt water not only affected streams, working down to the Concho as far as Sterling City, but that it also did damage to range lands. In some of the flats or draws through which run-off makes its way to the North Concho, ranchers declared the waste oil damage to rich land was acute.

Harris and Edwards were primarily interested from the angle of protecting wild life, especially fish. 21 TEXANS SLATED TO DIE DURING JULY 4TH OUTINGS

AUSTIN, June 30 (AP)—Here's the grisly picture of the coming holiday weekend as seen by state police on the basis of fatalities of recent July 4 outings:

Sixteen Texans will be killed in traffic and five will drown.

This is how the victims will succumb, they say: Six will die when vehicles crash head-on.

Four will meet death—one of them a child—when they step in the path of a speeding vehicle. Two of the four will die instantly, the other two after agonizing pain.

Two are destined to be killed when drivers lose

control of cars and overturn into ditches or strike immovable objects.

One person is slated for death when a driver falls asleep at the wheel.

An improper left turn by a driver will kill one person.

The sixteenth unfortunate is expected to die because a vehicle is parked on the highway.

The five drowning victims will meet death in this manner:

Three will be wading or swimming in unguarded, uncharted swimming holes and two are expected to lose their lives when boats capsize or are swamped.

Floods, Quake Ravage Japan

Typhoon Approaching, Threatens More Destruction

TOKYO, June 30 (AP)—A typhoon howled toward Japan's islands today in the wake of two days of horror in which at least 100 persons were killed and 200 others were missing.

Tokyo was virtually isolated by the heaviest deluge of rain in Japan's recorded history and by an earthquake which leveled homes and disrupted rail and wire communications.

The Central Meteorological Institute warned all cities in Southern Japan to be prepared for the tropical hurricane blowing northward across the China sea.

It said the winds would strike late this afternoon unless they were deflected. Most lives and larger freighters remained tied at their docks in Yokohama.

Meteorologists reported the typhoon was approaching the eastern coast of Japan but said they believed it would pass the islands.

297,000 Houses Ruined

A police survey showed a total of 297,378 houses destroyed or damaged throughout the nation and 104 bridges down.

Related reports from the north indicated there had been a second earthquake and a nation-wide total of at least 177 deaths.

Most of the deaths were in Tokyo and Yokohama. In both cities landslides crumpled homes. A railroad tunnel collapsed near Tokyo and a main line road bed was washed away. Many rivers burst their banks, imperiling other homes beneath undermined cliffs.

More than 12 inches of rain fell, flooding 150,000 homes in Tokyo alone. The rain, greatest in 60 years, had slackened early this afternoon but roaring winds were growing steadily.

Rivers still were high and police forcibly removed families from low land homes and areas endangered by further landslides, the cause of most of the casualties. Earth, already soaked by the torrential rains, slipped in many places after the quakes.

Interest in the bathing beauty revue Monday 5-9 p. m. at the municipal swimming pool was increasing with more entries. Ray Simmons, in charge of the holiday feature, said Thursday.

Among local girls who have entered the contest are Martha Cochran, Kathleen Elizabeth Williams, Maurine Rowe, Jacqueline Faw, and Cleo Lane. Colorado, Stanton, and Coahoma, Midland, Lamson, and Sweetwater will send representatives here for the affair, said Simmons.

Winner of the competition among Big Spring girls will be given a free trip to the "Goddess of West Texas" contest at Sweetwater. Winner of out-of-town entrants will be given an expenses paid trip to Carlsbad Caverns.

Young women interested in taking part in the revue are urged to contact Simmons for entrance details.

SEARCH DISCOURAGING

ALBUQUERQUE, N. M., June 30 (AP)—The search for Medill McCormick, missing heir to a Chicago publishing fortune, developed today into a dogged, all but hopeless, combing of the Sandia foothills to which he vanished eight days ago.

Five men and five women faced each other in a pronunciation test at the National Education association's convention here and not one made a passing grade.

The nation's school children will be glad to know today that ten teachers took a pronunciation test at the National Education association's convention here and not one made a passing grade.

TWO SCORE DEAD AS SPANISH TOWNS BOMBED BY INSURGENTS

BADALONA, Spain, June 30 (AP)—A crushing insurgent air raid hurled death and destruction today into this workers' town five miles north of Barcelona, killing at least 45 persons.

For five minutes a fleet of ten bombers roared over Badalona, thundering their cargoes into the closely packed houses.

It was the heaviest raid in the Barcelona area since the three-day attack on the government capital in March and the severest since Britain launched her plan for a neutral commission to investigate bombings of civilian centers in the Spanish war.

Four blocks of stone and stucco houses were ruined. Their walls were left standing but their roofs were shattered and their interiors wrecked.

Nearly 100 wounded were carried into Barcelona in a caravan of ambulances.

Ship Limit Is 45,000 Tons

Agreement Among Three Powers Is Announced

LONDON, June 30 (AP)—An agreement among the United States, Britain and France setting the limits on battleships at 45,000 tons with 16-inch guns was announced in the house of commons today.

The agreement, announced by Alfred Duff Cooper, first lord of the admiralty, was a sequel to the decision of the three powers to abandon the 35,000-ton limit of the London naval treaty of 1936.

This was made public March 31 in accordance with the escalator clause of the treaty, invoked by the signatories because of reports that Japan was building mammoth men-of-war.

Cooper indicated that the 45,000-ton limit was higher than Britain wanted to build up to, "but that is the lowest figure on which agreement could be reached," he said.

SMALLER BOATS FIRST

WASHINGTON, June 30 (AP)—Administration officials said today four battleships of 35,000 tons each—in addition to two already under construction—will be built before the United States builds itself of the new limit of 45,000 tons.

The 45,000-ton agreement announced in London today was the result of a compromise after nearly three months of discussions between British, French and United States representatives. Sixteen-inch guns also were agreed on as a top limit.

SEEK CANCELLATION OF INSURANCE ON MURDERED BOY

SAN ANTONIO, June 30 (AP)—Suits to cancel a \$5,000 insurance policy that figured in the Black murder trial at Alpine last week were filed here today.

Francis Black, Jr., was convicted by a jury at Alpine last week of throwing Marvin Dale Noblitt off a 400-foot cliff. He was given the death penalty.

The insurance company filed suit to cancel the policy and named as defendants Francis Marion Black, Jr., Mrs. Bobby Smith, Billy Gene Noblitt and Harold D. Noblitt. Mrs. Smith was mother of Marvin Dale Noblitt, the boy upon which the policy was issued, with Black the beneficiary. Billy Gene and Harold Noblitt were his brothers.

WASHINGTON, June 30 (AP)—The treasury closed books today on its eighth consecutive "red ink" fiscal year, but found it owed less to private investors than it did a year ago.

Although the government spent \$1,380,000,000 more than its income, the national debt was only \$700,000,000 higher than a year ago because part of the deficit was paid by using idle gold.

Meanwhile, the social security and other governmental trust funds poured in \$1,948,943,000 for investment in government securities. Thus the treasury had about \$350,000,000 left with which it retired some of its securities owned by private investors.

The treasury now owes about \$4,300,000,000 to its own trust funds, \$2,562,000,000 to the federal reserve banks, and the rest to the public.

TRAFFIC LIGHTS OUT OF ORDER

Traffic moved slowly through the downtown area Thursday without the benefit of automatic signal lights.

City officials said that a short had occurred in the transmission cables at some undermain points and that as soon as it could be located, the condition would be corrected and the signal lights put back into operation.

SANTONE PHYSICIAN CLAIMED BY DEATH

SAN ANTONIO, June 30 (AP)—Dr. Theo Y. Hull, 77, prominent San Antonio physician, died at his home today.

A native of New York, Dr. Hull had resided here for 33 years, being engaged in active practice up until the time of his death.

He is survived by his son, Warren Hull, and a daughter, Mary Davidson Hull, San Antonio.

Spanish Govt. Wants Probe Of Bombings

Pope Calls Upon Japs To Spare Civil Populations

By The Associated Press

An array of international developments which revealed nations as quarrelsome, suspicious neighbors emerged today from the wars and preparations for war around the earth.

The array included:

1. Announcement in London that the United States, Britain and France had agreed to set the limit for new battleships at 45,000 tons—a sequel to their decision to abandon the 35,000-ton limit of the 1936 London naval treaty.

2. Disclosure that Pope Pius had appealed to the Japanese government to "spare the civil population insofar as possible" in conducting aerial warfare in China. Non-Christian Japan was said to have promised the plea would be treated "with consideration and deference."

The approach to Tokyo followed a similar appeal for moderation recently to the Spanish insurgent generalissimo, Francisco Franco. The pope today commended Franco's "noble promises made to limit victims and suffering of war."

In receiving the first insurgent ambassador to the holy see.

3. A Spanish government demand for urgent neutral investigation of insurgent air raids on civilian centers, including an attack yesterday on the coastal town of Blanes where nine persons were killed and 39 injured. At least 45 were killed today in a bombardment of Badalona, near Barcelona.

Turkish Troubles

4. Syrian nationalists, self-characterized as pawns in France's dicker for a military alliance with Turkey, called for a policy of non-cooperation in the sanjak (district) of Alexandretta.

Turkish troops were on the border ready to enter the sanjak and Turkey's premier declared the autonomous area "must be Turkish-ruled."

In London, the house of commons committee on privileges decided that a military court had breached house privilege in summoning a member to tell the source of his information on Britain's secret aerial defense plans.

The army court, constituted to find and plug the leak, already had bowed to the house in a stirring conflict between parliament and army—a quarrel which raised the possibility that the Chamberlain government might stand or fall on the outcome.

The committee did not recommend further action in reporting its unanimous finding through the prime minister.

The council will remain idle until the select committee—not the privy

Fear Expressed For River Party

GREEN RIVER, Utah, June 30 (AP)—Veteran "river rats" expressed anxiety today for four men and two women en route down the plunging Colorado river on a scientific expedition.

The group which left this east-central Utah town 10 days ago should be dashing through foaming water in the Colorado's deep canyons now, moving toward their first contact with civilization, scheduled at Lee's Ferry, Ariz., July 4.

Rainy weather has aroused the river veterans' fears. "Storms of the last week have sent more water rushing into the Colorado which is at flood stage," one "river rat" said. "These sudden, heavy mountain storms are going to make the trip even more dangerous; it's a tough break for them all right."

'WORST LUCK'

"This is the worst luck I've ever had," said Crown Prince Gustaf Adolf of Sweden, shown in his sick bed aboard ship at Wilmington, Del. His illness prevented his participating in the ceremonies commemorating the 30th anniversary of the Swedish-Finnish settlement on the Delaware river.

City Points For Opening Of Rodeo

Record Crowds Anticipated; Parade Shaping Up

With the opening of the fifth annual Big Spring Cowboy Reunion and Rodeo Saturday afternoon less than 48 hours away, Big Spring people were centering their attention on the event Thursday.

Directors of the rodeo association looked hopefully for a new record crowd, gauging their predictions on the unprecedented interest shown in practice sessions for the past two evenings at the rodeo grounds. Fully 1,000 people stayed the better part of two hours Wednesday evening while rodeo stock was put through its paces.

The rehearsal of Thursday evening and that on the eve of the show opening were also expected to draw a large following.

Ira Driver, secretary, said that never before had he received so many inquiries from prospective contestants and others.

Details Completed

Details of the show were all completed and officials polished off

Ranch Style Of Eating
Is Revived At AffairOver Hundred
Guests Gather
For Breakfast

The old-time ranch style of drinking coffee from a tin cup and eating breakfast from a chuck wagon was revived this morning by Mrs. J. M. Fisher, Mrs. B. Fisher and Mrs. J. Eckhaus who entertained more than 145 women at the Fisher ranch, seven miles south of town, with one of the cleverest affairs of the summer.

As the guests arrived and sat on improvised benches in the shade of trees along beside a creek bank, a group of cowboy fiddlers played "Old Dry and Dusty," "Eight of January," "Arkansas Traveler" and "Red Wings."

"Home on the Range" and "America" were sung by the women before the cook yelled "Chuck!" Guests were given tin cups and plates with the Fisher brand on the bottom of each container.

Gifts Presented
Mrs. R. F. Schermerhorn received a plate on which the brand was placed upside down and was given a lovely crocheted centerpiece. Another crocheted piece was presented to Mrs. L. L. Freeman who got a cup without the Fisher mark.

The guests filed by the chuck wagon for a cup of tomato juice and then proceeded to the campfire where eggs and bacon were served from dutch ovens. Black coffee was ladled from a deep kettle.

Clever Menu
The menu, which appeared on unique handmade invitations designed by Mrs. B. Fisher, included hens on the run pigs off the hoof, hick, pride of the Plains, essence of cow and coffee. The cover of the invitation was a sun-

rise chuck wagon scene with various familiar cattle brands appearing on the back.

The fiddlers were Jim and James Winslow, Charles Smith and H. C. Burnett.

Favors were the tin cups and plates used for the breakfast.

Mrs. Carl Merrick
Entertains V-8
Club With Party

Mrs. Carl Merrick was hostess to the V-8 club Wednesday afternoon with a session of pitch. Mrs. Buster Johnson scored high and Mrs. Geo. Demichio made low.

Refreshments were served to Mrs. Demichio, Mrs. Johnson, Mrs. Leon Cole, Mrs. V. A. Merrick, Mrs. Carl Madison, Mrs. A. D. Webb, Mrs. John E. Fort, a guest, and the hostess.

Mrs. V. A. Merrick is to be hostess next week.

Picnic Tonight

McDowell Sunday school class of the First Presbyterian church is scheduled for a picnic this evening at 2 o'clock at the city park. All of the members are urged to be present.

Marry Sunday

Miss Bonnie English and James C. Rush of Midland were married early Sunday morning by the Rev. G. C. Schurman, pastor of the First Christian church, at the Schurman home here in Big Spring.

Mrs. Susie Stewart of Evanville, Wis. is here visiting her son, Lester Trunkhill, who resides at 1110 Runnels street.

Guest From Temple
Entertained With
Skating Party

Lula Beth Duff and Martha Clem Atkins entertained with a skating party Wednesday afternoon honoring Joan Parrott of Temple who is a guest of Peggy Ann and Sue Beth Hargrove.

Supper was served at a barbecue pit in the state park. Guests were Blanche Hanes, Elizabeth and Ruth Berry, Bettie Milton of El Paso, Sarah Frances Wooten, Joanna Winn, Doris Jean Glenn, Ann Talbot, Wanda Lee Broome of Monument, N. M., Thelma Joyce McIntosh, Bill Hull, Dean Miller, W. D. Winn, Raymond Winn, Dickie Graves, Bill McCombs, Buddy Atkins, Sonny Hargrove, Joe Jack Lones, Mike and Ike Duff, the honoree and Peggy Ann and Sue Beth Hargrove.

Parents present were Mrs. Raymond Winn, Mrs. Sam McCombs, Mrs. S. J. Atkins and Mrs. Emory Duff.

PERSONALLY
SPEAKING

Mr. and Mrs. C. B. Faught plan to spend the weekend in Lubbock.

Mrs. Jack Graves of Monahan is visiting her mother and father, Mr. and Mrs. W. M. Wells, this week.

Jake Brooks of Los Angeles is a guest of his father, Clint Brooks, 506 Johnson.

Mrs. Emma Lawson, who is 87 years of age, is a guest of her daughter, Mrs. Elmer Randall, and granddaughter, Mrs. T. N. Flippin. Mrs. Lawson is from Fort Worth.

Mr. and Mrs. R. L. Briley of Abilene, Mr. and Mrs. Charlie Collins of Lamesa and Mr. and Mrs. C. W. Floyd of Big Spring are planning to spend the weekend fishing near Christoval.

Mr. and Mrs. Buddy Davis will spend the weekend in DeLeon. Jack Davis of Odessa, brother of Buddy Davis, is to accompany them.

Mr. and Mrs. J. E. Fort plan to visit Mrs. Fort's mother, Mrs. L. R. Hickman, who lives on a ranch near Brownwood.

Two From B'Spring
At Homemakers'
Conference

DENTON, June 30—Attending the first state conference for members and sponsors of Future Homemakers, held at Texas State College for Women last week, were Misses Florence McAllister and Mrs. Oneita W. Pierce of Big Spring.

The three-day meeting was planned to work out a program and suggestions for the 250 Future Homemakers organization in Texas. All high school girls taking home economics are eligible for membership in the clubs, which are a branch of the State and National Home Economics association.

Miss Clara Tucker of the T.S.C. W. staff in general charge, Mrs. Lela Tomlinson of Louisiana State University led the discussions. The Big Spring delegates took part in a number of the discussions and assisted in outlining the program.

The game of golf is possibly of Dutch origin.

Give A Bang-Up Party On The Fourth Of July
With Fashionable Foods Instead Of Fireworks

Iced Coffee Takes Its Place With The Edible Fireworks At The Fourth Of July Party

By MRS. ALEXANDER GEORGE
AP Feature Service Writer

Salute the Fourth this year with a tea or cocktail party. Trays of colorful canapés and baskets of intriguing sandwiches will give a sparkle to the serving table from which iced coffee, tea, punch, or cocktails are dispensed.

Decorations, of course, will go patriotic. Arrange a centerpiece of red, white and blue flowers in a low basket or bowl, for instance. Or stick silk flags in a flower holder, set in a shallow dish. You might even borrow the children's toy cannons and soldiers to make up a fort.

Canapés, usually the "eat-in-one-bite" morsels, give your imagination a chance to run rampant on shapes and flavors. You should make dozens and dozens because guests will like these tid-bits.

If hot canapés are on the menu, it's advisable to bake them in installments, so the supply will always be warm. For surprises, wrap one-inch pastry strips around small frankfurters, tiny hamburger balls, or squares of ham. Bake for seven minutes. They are appealing partners for hot or cold beverages.

Another suggestion: spread a half-inch sheet of biscuit dough with savory creamed crab, tuna, or

thin sheet of dough. Cut into one-half inch squares. Cover with another

stuff them. Creamed mushrooms and ham may also be used.

PINWHEELS
Take a slice of bread lengthwise of the loaf. Spread it with jelly or cream cheese. Roll lengthwise, wrap, chill, and then slice crosswise.

FIRECRACKERS
Use individual slices of bread. Fill with sandwich spread. Roll and insert pinpoints for fuses.

STARS
Spread individual slices of bread with a mixture of cream cheese and nuts. Cut into star shapes and top with a slice of stuffed olive.

STRIPES
Place strips of pimiento on bread spread with liverwurst paste.

inch squares and quickly press the edges together with a fork, giving several pricks to the top. Pop these into a moderate oven five minutes before they are to be served.

Biscuits an inch in diameter are excellent containers for caviar and anchovies. While the biscuits are piping hot, remove the centers and

stuff them. Creamed mushrooms and ham may also be used.

For a Norwegian angle, spread toast bits with sardines mixed with mayonnaise, minced green peppers and parsley, and a dash of Worcestershire sauce. Garnish with chopped meats and cress. Or mix sardines with lemon juice, minced olives and parsley. Spread the combination over crackers and garnish with chopped olives and pimientos.

A piquant cheesy mixture combined with diced dill pickles and ripe olives makes an unusual filler.

To lend a gay note to the table, cover a large platter with crisp cress and top it with chilled shrimps on wooden picks. At either end of the platter set a bright pottery bowl. Fill one with mayonnaise and the other with chili sauce and catsup, mixed. Outline with small cheese biscuits and toast points covered with Roquefort cheese.

A tray of icy-crisp vegetables, contrasting in colors and shapes, gives a cooling effect. Heap carrot strips, cauliflower flowerets, cucumber fingers, radish roses, and spring onions. Center the tray with a large eggplant or cabbage, hollowed out and filled with a small bowl of cocktail sauce. The guests may then dip their own.

R-Bar Club Hears A
Book Review, Talk
On Pillow Slips

A review of the book, "How To Win Friends and Influence People," by Dale Carnegie, was presented by Mrs. A. D. Martin before members of the R-Bar Home Demonstration club, at the organization's meeting in the home of Mrs. W. C. Rogers.

Special features on the making of pillow slips were presented by Mrs. R. E. Martin, in the absence of Mrs. W. F. Heckler, bedroom demonstrator. She said in part:

"The comfort as well as the appearance of pillows depends much on having slips of the proper size. When measuring material, allow one and one-half to two inches for fullness and nine to 10 inches for length. Very attractive pillow slips are those of good quality tubing with a well-constructed, straight even hem of good proportion. Slips may be stitched by machine or be put in by hand, using the hemming stitches, if preferred, as the only decoration."

The club voted to pay \$5 to the county council to help defray expense of sending delegates to the A. and M. short course.

At the conclusion of the business session, refreshments were served by the hostess to a visitor, Mrs. Elita Davenport of Los Angeles, and the following members: Mrs. Elmo Birkhead, Mrs. J. L. Baugh, Mrs. G. W. Davis, Mrs. R. E. Martin, Mrs. H. C. Caldwell, Mrs. J. H. Reeves, Mrs. A. D. Martin, Mrs. Earl Hull, Mrs. H. C. Reid, Mrs. Bill Eggleston, Mrs. H. W. Musgrove, Miss Lela Birkhead and Miss Helen Earle Hull.

The next meeting of the club will be with Mrs. A. D. Martin on July 12.

Mr. and Mrs. A. B. Simpson and family left Thursday for a vacation trip to California. They expect to be gone about three weeks.

CALENDAR
Of Tomorrow's Meetings

FRIDAY
SUSANAH WESLEY Class of First Methodist meets at the church at 8 o'clock p. m.

LONE STAR LODGE convenes at the W. O. W. hall at 2:30 o'clock p. m.

Friendship Class
Has Luncheon At
1st Baptist Church

Friendship class of the First Baptist met at the church Wednesday morning for a monthly luncheon and business meeting.

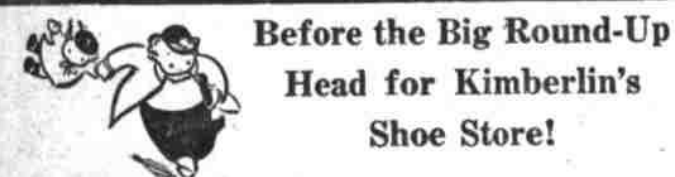

Just before the luncheon, a gift basket was presented to Mrs. W. H. Perry from the class. Gifts were also brought by the members for the Abilene hospital.

Attending were Mrs. Chas. Houser, Mrs. R. C. Hitt, Mrs. H. L. Agee, Mrs. Theo Andrews, Mrs. Vernon Mason, Mrs. J. B. Castleman, Mrs. Hugh Hendrick, Mrs. Alton Underwood, Mrs. C. D. Nalley, Mrs. Hack Wright, Mrs. R. H. Mosley, Mrs. W. D. Carnett, Mrs. Roy Dewese, Mrs. Erwin Daniel, Mrs. Aultman Smith and Mrs. Truman Townsend.

Injured Thrice,
Every Time At
Gettysburg

GETTYSBURG, Pa., June 30 (AP)—Ninety-four-year-old James Hammaker, one-time private in the 50th Virginia Infantry, has been injured three times in his life—and each time at Gettysburg.

Hammaker, a retired Parker county, Texas, rancher, fractured his shoulder in a fall from his horse on a train bringing him to the final reunion of the Blue and Gray.

He fought in the famous battle 75 years ago, as a Confederate, and was wounded in the leg, said his attendant, R. M. Reeves, of Red River, Tex.

As he lay in the road, a detachment of federal infantry came by and the leader said to Hammaker: "Do you surrender, Johnny Reb?"

"No," Hammaker answered. Then, the attendant related, the Union soldier shot the wounded man, the bullet entering the same shoulder which now is broken.

Church Of Christ
At Coahoma Opens
Revival Friday

FORREST R. WALDROP

A 10-day revival meeting campaign will open at Coahoma on Friday at 8:30 p. m., members of the Church of Christ at Coahoma announced Thursday.

Forrest R. Waldrop, formerly minister of the local Church of Christ and now minister at Coleman, will lead in the services.

There will be two meetings each day, one at 10 a. m. and the other at 8:30 p. m. The public is urged to attend the services.

Mr. and Mrs. Carl Strom are spending July 4th holidays in Oklahoma points, visiting relatives and friends. They will spend most of their time at Fairfax, Oklahoma.

Tomorrow's The
Start Of 1939—
For Uncle Sam

By EDDY GILMORE
WASHINGTON, June 30 (AP)—This is New Year's eve in the United States government, and not a single whistle is going to let out a federal toot.

It's a trifle confusing, but: Tomorrow will be the dawn of another fiscal year. It won't be 1938, however, but fiscal year 1939, which sounds as if the government got a six-month-jump on the calendar.

That is not the case, though. The fiscal year is part of a system that Alexander Hamilton figured out and nobody has ever improved upon.

It runs from July 1 to the next June 30, inclusive, and it's pretty important to the bookkeeping system of your Uncle Sam.

On July 1, the treasury adds up its receipts and expenditures, starts a fresh ledger, and the government departments get new funds.

Close questioning in a number of departments disclosed that officials never get the government's new year mixed up with the other people's new year.

If you don't believe it—just try writing in and saying you have paid your income tax for 1938. They'll straighten you out in a hurry.

Leave On Trip

Mrs. W. G. Wilson, Jr., is to leave Friday morning for Texarkana, Ark., for several days visit with relatives and friends.

It is believed that the gypsies originally came from Northern India.

PERSHING STRONGER, PLANNING ANOTHER TRIP TO FRANCE

WASHINGTON, June 30 (AP)—General John J. Pershing is leading the simple life in his gallant nonconformity from the critical illness that struck him at Tucson, Ariz.

After two months of enforced rest at the Walter Reed military hospital here, he has registered such encouraging progress that he hopes to make another inspection tour of American World War monuments in France.

He probably will remain here another two months or so. Then, if his condition warrants, he may go to see the improvements—particularly in landscaping—made since his last visit to the battlefield cemeteries.

Business Decline More Moderate

AUSTIN, June 30 (AP)—Texas industry and trade receded somewhat in May but the rate of decline was more moderate than that of immediately preceding months, Dr. F. A. Busch, assistant director of the University of Texas bureau of business research, reported today.

He added present indications pointed to a leveling up of the business curve during the next two months and an upward tendency early in the fall.

The composite index for May was 92.42 compared with 90.02 in May last year and 93.16 in April of this year.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Meet FD's No. 1 Double; He Admits That Roosevelt Looks Like Him

By the AP Feature Service

NEW YORK—The man who looks like Roosevelt, J. Henry Smythe, Jr., dropped into the office again to show us his clippings, so we asked him if the business of looking like Roosevelt doesn't take a lot of time and get in his hair.

Smythe (you pronounce it SmYthe) ran one hand through greying hair and commented that since his own reputation had been established nationally (as cheer leader for Teddy Roosevelt at the 1904 convention and as America's only exclusive slogan writer) long before FDR's, it really was a case of Roosevelt looking like HIM.

"Of course," he said, "I have more hair than the president but I am about his height, weight and age. (Smythe is 5 feet 11, weighs 185 pounds and is 54 years old.) And if you want to take a picture, here's a tip—the resemblance is

Mr. Smythe....

Shows How....

best when I have my chin up and my hat on. (His chin went up, his hat on.)

"My looks are my own but I don't mind looking like the president because my friends think the fact I'm a republican takes the 'curse' off it. I'm no Roosevelt-hater although I didn't learn at Pennsylvania the kind of economics HE preaches. My relatives don't like the publicity but I'm used to having people look at me as if they should know me, or having them say, 'Did anyone ever tell you—Last year I was marching up Fifth avenue in a parade and a photographer asked me if I was the president.'"

"That's the only time THAT'S happened, but something like it happened to a Roosevelt double in Pennsylvania, who's pretty good until you look him full in the face. However, I've had more publicity than all of the rest of the Roosevelt doubles together. George M. Cohan? All he's got is stage makeup.

"A lot of my friends say I should cash in on the publicity. If I put in the time on slogans (remember 'Buy and Keep Liberty Bonds' and 'Keep the Faith') I would make more money. Maybe I just don't care enough about money. But I think a lot about patriotism. I want you to put something in the story about me promoting the Franklin Memorial movement. Let's do something for patriotism."

To Look Like F.D.R.

Amendment To Ban Child Labor Urged By Educators

NEW YORK, June 30 (AP)—A constitutional amendment "to provide for the prohibition of child labor" was urged in a resolution

adopted today by the National Education association. This was only a slight change in the stand taken by the association a year ago.

Resolutions were adopted also calling for increased federal aid without federal control of education; condemnation of any cam-

paign of propaganda for indiscriminate reduction of taxation without regard to social needs; opposition to a constitutional limit on taxation in the various states; opposition to any practice of calling upon teachers to serve without pay in any "so-called emergency where the public has the ability to provide addition-

al funds for school support and fails to do so," and a resolution for support of permanent tenure for teachers.

The association again affirmed its opposition to any requirement that teachers take "discriminatory oaths," and also approved credit unions, a child guidance program,

an extended campaign of educational publicity and an American education week.

In many cases, premature gray hair is hereditary.

The first gold mined in the U. S. came from the Appalachians.

'LONG-RANGE BUDGET' WILL BE SHOWN AS BALANCED IN THE FUTURE, ROOSEVELT SAYS

NEW YORK, June 30 (AP)—President Roosevelt, gazing into the future today, predicted that history would say his "long-range budget" had been balanced.

This calculation, the president declared, would be based on "survival values for our population and for our democratic way of living, balanced against what we have paid for them," in addition to the usual items of government income and outgo.

Addressing the teachers who comprise the National Education association, Mr. Roosevelt also:

(1)—Spoke of countries where liberties have been burned, learned people exiled, universities dispersed and news, art and literature censored as having turned back "the clock of civilization." He did so without naming any country.

(2)—Admonished this country to keep bright the fires of freedom and civil liberties, to redouble efforts to maintain a free press and

to provide a safe place for eternal truths.

(3)—Declared for state and local control of schools and their curricula, with the federal government supplementing only the resources of the poorer communities.

(4)—Predicted that "the ultimate victory of tomorrow is with democracy, and through democracy with education, for no people can be kept eternally ignorant or eternally enslaved."

Auto Ratio Is Highest On West Coast

Four Families In Five Car Owners, Report Shows

WASHINGTON, June 30 (UP)—Nearly two out of every three village families own an automobile, according to a survey of 140 representative villages by the Department of Agriculture.

One out of every five families bought automobiles in the year studied, 1935-36, the report said. In

three of the five geographical regions of the country more new than used cars were purchased.

The highest percentage of car ownership was in 24 villages on the Pacific coast. In that region of good roads, many parks and "comparative scarcity of public conveyances" four out of five families owned automobiles, the report showed.

Midwest Well Represented

Seventy-five per cent of the families in 22 Mountain and Plains villages, in Kansas, North Dakota, South Dakota, Colorado and Montana were auto owners, the department said.

In 46 villages in Pennsylvania, Ohio, Michigan, Wisconsin, Illinois and Iowa 69 per cent of the families owned automobiles. In 14 villages in Vermont and Massachusetts, 67 per cent owned their own cars.

The lowest percentage of auto-

mobile ownership among non-relief white families included in the survey was among residents of 23 villages in the Carolinas, Georgia and Mississippi. There the percentage of automobile ownership was 62.

A special study of negro families in 34 Southeastern villages showed 17 per cent owning automobiles.

The Pacific coast led in the percentage of cars purchased for the year as well as in car ownership. Twenty-six per cent of the coast families bought automobiles during the year.

In the Mountain and Plains villages the percentage of automobile purchases was 24 per cent; in the North Central and Middle Atlantic, 21 per cent; in New England, 18 per cent. In the Southeast this percentage was 23 for white families and 6 for negroes.

More new than used cars were company.

bought in New England, the Mountain and Plains region and among white families. In the southeast. The average price for new cars ranged from \$735 in New England to \$880 on the West Coast. Used car prices ranged from \$247 in North Central villages to \$334 in the southeast.

VISITING IN CITY FROM VENEZUELA

Howard Smith, who has been stationed in Venezuela for the past three years, is here visiting with his mother, Mrs. Eva Smith. He plans to be here for some time before going on a vacation trip with his mother.

A graduate of the Big Spring schools in 1928, Howard attended the University of Texas before going to South America with an oil

BROOKS WITHDRAWS AS CANDIDATE FOR LIEUT. GOVERNOR

AUSTIN, June 30 (AP)—Pierce Brooks of Dallas today telegraphed his withdrawal as a candidate for lieutenant governor to Vann M. Kennedy, secretary of the state democratic executive committee.

The Dallas real estate man did not give any reason for quitting the contest.

Kennedy advised Brooks he should wire his decision to each of the 254 county democratic chairmen. The withdrawal came so late that his name probably will appear on the ballot in many counties, Kennedy said.

The duration of the glacial period is estimated to be at least 500,000 years.

Taste Schlitz Today. You'll marvel at this miracle of brewing that produces a beer so smooth, so pale, so pleasingly dry. So keyed to the modern taste, with *all* the richness of true old-time beer character.

But no one can tell you which beer tastes best to YOU—

it's such a personal matter...

taste

Schlitz is excitingly different! You'll agree the moment you breathe its delicate bouquet—the moment your lips melt into its creamy, snowy crest—the moment its fine old flavor arrives to delight your palate. It's a moment you'll wish could last a year! No modern refrigerator or old-fashioned ice box should be without a supply of this great beer!

Rodeo

(Continued from Page 1)

The program arrangement which will thrill fans with rapid fire action such as wild mule racing, clowning, calf roping and bullfighting, jumping Brahmas, bull, bronc busting and bulldozing.

Turne Summers, in charge of the parade, said that "everything points to the biggest and most colorful spectacle of its kind ever seen here." Entries continued to be received, he continued, three having been given to him Thursday morning. Business concerns, individuals or clubs may enter for a share of the \$100 in prizes to commercial and non-commercial float winners. Out-of-town band winners will vie for \$50 in three prizes.

Scouts Needed
Bicycle section of the parade was shaping up well. Firestone Service company, sponsors of the division, announced Thursday. Among entries will be six members of the bachelor's club. Any boy or girl who has a bicycle was urged to register at the store on E. 3rd street, and compete for the three prizes for the best decorated "wheel."

Boy Scouts are being enlisted to help patrol the streets during the parade, said Summers after a conference with Ed McCurtain, field scout executive.

The parade, the chairman reminded, is scheduled to form on Main street south from 4th. Those riding horses are to assemble on 4th street west from Main. The parade will proceed up 4th to Gregg, then to Third and east to

Johnson, then down to E. 2nd and double back to Runnels, turn north to 1st and west to Main, then up Main to 4th, then east to Johnson and out to the rodeo grounds. Summers suggested that "we ought to start the rodeo parade today by putting on our boots and 10-gallon hats. That would make us rodeo-minded."

ARKANSAS GRANTS FREIGHT RATE HIKE

LITTLE ROCK, Ark., June 30 (AP)—The Arkansas corporation commission today authorized an intrastate freight rate increase averaging five per cent on most major commodities except petroleum, bricks and sand.

The commodities affected by the increase included livestock, farm products, cottonseed oil, vegetable oil and lumber. In denying the increase on petroleum and petroleum products the commission said that interstate rates now discriminated against Arkansas. The commission said that the railroads should take steps to cure the difference in maximum loading tariffs on forest products in Louisiana, Texas and Arkansas. In Louisiana and Texas, the rate on 90,000 pounds to a car are on a parity with Arkansas rates on 80,000 pounds.

"This means that shippers in Louisiana and Texas have a loading advantage of 10,000 pounds," the order said.

Lyle Currie, Jr., of Ballinger is visiting here with Mr. and Mrs. L. I. Stewart, Pearl McClure and other relatives.

Bombings

(Continued from Page 1)

legies committee—makes its report. **Worried About Leak**
War Secretary Leslie Hore-Bellah, around whom the storm swirled, went before commons to state his position. He said that information which Sandys had obtained showed that he was not only conversant with details of Britain's secret anti-aircraft defense scheme but was kept up to date on changes. "We are extremely concerned that Sandys should have been in possession of such information," Hore-Bellah went on, referring to a document which he said had fallen into the youthful conservative's hands.

In China, new rains swept the Yangtze valley and increased flood dangers in the path of the up-valley Japanese drive on Hankow, Chinese capital. The drive apparently was bogged down already at a cross-Yangtze boom at Matowchen, 175 miles downstream from Hankow. In Spain, insurgents made new forays on the Catalan coast, bombing a railway linking Barcelona with France. Authorities estimated 26 persons were killed and 30 injured. On the Valencia waterfront, an insurgent drive cracked government defenses in two places in the Sierra de Espadan, a mountain ridge some 30 miles north of Valencia.

SEEK OCCUPATIONS FOR YOUNG PEOPLE

DALLAS, June 30 (AP)—A movement to find occupations for 115,000 youths as they reach ages of 16 to 21 was discussed by supervisors and divisional heads of the Junior placement branch, Texas employment service, here today. Paul E. Sprull of Austin, junior replacement supervisor, said 1,100 youths had been placed by the branch during the past month, and declared the service, after two years' operation, was now ready to push ahead with vigor in obtaining jobs for those just out of school. Meeting with him to revise and facilitate methods employed in the work were representatives from the areas of San Antonio, Houston, Fort Worth, Dallas, Waco and Austin.

SPENDING PROGRAM MEANS 80 MILLION TO STEEL INDUSTRY

WASHINGTON (UP)—The new \$3,753,000,000 recovery spending program will mean about \$90,000,000 worth of business to the steel industry, according to estimates by the Iron Age. The 21 ships to be built by the maritime commission will require about 78,000 tons of steel, and the naval expansion program will call for 108,750 tons of plates, 36,900 tons of shapes and 7,580 tons of bars. Another important government purchase of steel is expected from the proposed \$225,000,000 program for 227 school buildings in New York, needing 105,000 tons of structural steel in the next six years.

EDUCATED BRAHMA AT RODEO

Up and over to a perfect four-point landing—that's "New Deal," the educated Brahman bull trained by Johnny Grimes of McCloud, Okla. "New Deal," reputed to be the only such animal trained to show, will be seen in the six performances of the rodeo opening here Saturday afternoon. Among the tricks he turns is pulling a racing sulky, striking a pedestal post, taking a nap in the open corral, imitation of the "End of the Trail" painting, and a leap over an automobile. Johnny, although he has worked the bull in many of the leading rodeo shows, never gives the Brahman a chance to turn on him. He learned the lesson after being knocked down, gored and trampled several times by the bull.

Hospital Notes

Big Spring Hospital
Miss June Frazee, 16, daughter of Mr. and Mrs. J. R. Frazee of Crane, underwent an appendectomy at the hospital Wednesday afternoon.

Mrs. Vernice Johnston of Royalty was admitted to the hospital for treatment Wednesday evening. Master Carroll Murdock, 7, son of Mr. and Mrs. R. C. Murdock, 701 Douglas street, underwent a tonsillectomy Thursday morning.

Mrs. R. B. Creech of Stanton was admitted to the hospital for treatment. Mrs. C. E. Talbot, who was admitted to the hospital for treatment Tuesday, was improved Thursday.

RED RIVER BRIDGE CONTRACT APPROVED

OKLAHOMA CITY, June 30 (AP)—A contract for construction of a Red river bridge in cooperation with Texas was approved today by the Oklahoma highway commission, subject to final approval of the federal bureau of roads. The commission concurred with the Texas highway commission in awarding the Forcum James Construction company, Dyersburg, Tenn., a \$565,671 contract for building a mile-long bridge over the Red river from west of Davidson, Okla., connecting Oklahoma Highway 14 and Texas Highway 28.

TO AUSTIN
A. R. Kavanaugh and family left Wednesday for Austin, where they will reside. Mr. Kavanaugh, a retired Texas & Pacific engineer, is moving to a lower climate for benefit of his health. His son, Carroll, will enter school there.

Funeral Services In Snyder For Local Woman

Funeral services will be held in Snyder at 4 o'clock Friday afternoon for Mrs. Mattie Lou Stephens, 73-year-old resident of Big Spring who succumbed to a heart attack Tuesday night. Stricken while she slept, Mrs. Stephens was found dead Wednesday morning by her husband, J. M. Stephens, at their residence in the Wright addition near the airport. Mr. and Mrs. Stephens had re-

sided here for four years. She was a native of Louisiana. Services will be conducted at the First Methodist church in Snyder, and the pastor there will be in charge. The body is being taken overland by Eberley Funeral home. Besides her husband, Mrs. Stephens is survived by three sons, J. T. Stephens of Snyder and E. L. Stephens of Jol. N. M.; one daughter, Mrs. J. P. Stephens of Oklahoma City; three sisters, Mrs. L. H. Kidd, San Marcos; Miss Della Wilson, Rowell, N. M., and Mrs. W. A. Gentle of California; and 15 grandchildren.

PAINTER HEREFORD HERD BEING SOLD

ROGGEN, Colo., June 30 (AP)—With 172 of the 1,000 head internationally-famous Painter Hereford cattle herd disposed of, sombreroed stock raisers resumed spirited bidding at the dispersion sale which brought a first day average of \$191 a head. Stockmen from 27 states, Canada and South America yesterday paid \$32,000 for prize "Painter type" Herefords, offspring of Prince Domino and Mansell Boy bulls which sired the herd.

For Permanence—For Convenience

In Book Form

THAT INTERESTING, HISTORICALLY VALUABLE, ENTERTAINING SERIES OF ARTICLES—

"Howard County In The Making"

JOHN R. HUTTO

Able West Texas Historian, Writer of "Howard County In The Making."

The same entrancing stories of early day Big Spring and Howard county which have appeared in The Herald for the past several months are now being published in book form. In response to popular demand that these articles be put into permanent form, arrangements have been made for the early issuance of an attractive pamphlet, neatly printed and well-bound, so that all who wish may preserve these vital, important pictures of a past generation.

They are the same word pictures of personalities, institutions and other factors contributing to the upbuilding of our present day mode—word pictures you will value more highly in years to come.

Buy several copies, to keep, to enjoy at your leisure, to send to relatives and friends interested in the building of West Texas.

Rainbow Inn Opens Friday

Sandwich Shop
Is Located At
908 East Third

Making its bow to the public and its bid to satisfy the public appetite is the city's newest drive-in sandwich shop, the Rainbow Inn, which opens for business Friday. G. G. Morehead, resident of Big Spring for the past two and a half years and an experienced sandwich man is the owner and manager.

Rainbow Inn is located on Highway No. 1, at 908 East Third street, in an attractive new building. Ample parking space is available, and the inn itself is air-conditioned.

A new fountain has been installed, and fountain drinks, in addition to all the popular bottled beverages, will be available.

Featured on Rainbow Inn's menu will be a special sandwich called

SERVICES HELD FOR PUBLISHER AT GREENVILLE

GREENVILLE, June 30 (AP)—Fred E. Horton, 63, Greenville's postmaster-publisher who started as a printer's devil, was buried here today. He died at his home here yesterday.

Funeral services were held at the Central Christian church. Although in ill health for several months, until a few days ago Horton had continued writing articles for The Evening Banner, with which he had been connected for more than four decades.

Survivors included the widow; sons, Paul and Charles, business manager and managing editor, respectively, of The Banner; a daughter, Mrs. R. D. Kerr of Greenville, and three brothers, Frank, circulation manager of The Banner; Alfred, and Wade, both of Greenville.

Lillian Gish went on the stage when she was five years old.

"Chicken In The Straw," a delectable plate which includes a jointed half-chicken with toast and fried potatoes.

As an opening day feature, Morehead announces that ice cream will be given Friday free with each purchase, regardless of the size of the order. He extends an invitation to the public to call and inspect the new place.

"We have a modern sandwich shop here," he said, "air-conditioned for the patrons' comfort, and surrounded by plenty of parking space for their convenience. We will endeavor to serve quality food which everyone will find to his liking."

Cotton Picker To Be Tested In So. Texas

Angelo Makers Plan
A Thorough Demonstration

Down in the ripening cotton fields of South Texas next week a cotton picker—one that has been picking cotton for five years—is going to give its first commercial demonstration and offer to the cotton growers of Texas particularly the hope of regaining markets lost to the cheap labor districts of other lands and make cotton king again in the South.

A. R. Nisbet and his son, J. L. Nisbet, and H. G. Wendland of the Wendland Sheet Metal Works, all

pair of wind blowers with their pair of mesh rollers that "pick" the cotton.

There is one blower and one mesh roller on each side of the row, and as the cotton stalks pass between them the blast of wind from the blower holds the cotton stalks against the mesh roller, and the cotton being light and fluffy, is caught in the revolving mesh roller which is about eight inches in diameter. The mesh roller revolves

of San Angelo, have polished off the first 1938 model Wind-Roll Cotton Picker and July 10 will start to Corpus Christi with it, where after a week of adjustments and practice in the lush cotton fields of that section, a public demonstration will be held. The other machines are being built in the Wendland plant here and it is the plan to build a dozen machines this year. The picker will sell for \$1,800 at San Angelo.

The Wind-Roll Cotton Picker has but seven moving parts, and its inventor and builders claim it will pick cotton for \$3.00 a bale, pick cleaner cotton than it is possible to pick by hand and will pick two acres of cotton an hour. It can be operated day and night. The machine is simple in principle, light of weight, is operated by one man, will not pick or disturb anything but ripe cotton. Repeated trips over the cotton plants do no damage to the stalk, foliage or the immature bolls. It operated in the field last season and prior seasons while the cotton was in full leaf.

25 Horsepower Engine
The picker is operated by a 25-horsepower engine which requires

a minimum of gasoline. Its four wheels are rubber tired pneumatic tubes, and the machine has a low center of gravity and is well-balanced on the ground. The wheels set astride the row, with a pair of "V" shaped gatherers just back of the front wheels which guide the cotton stalks back to the staggered

the rear of the first works in the same manner, and as the blower and cylinder are on the opposite sides of the row from the first pair it picks the cotton from the other side of the row of stalks.

Wind Works Twice
As the cylinder makes a half circle and gets opposite the point where the cotton was blown into the mesh, the same wind that blows cotton in on the row side, blows it off the cylinder on the outside. Here it is caught by a revolving screen which carries the cotton to an open suction pipe through which it is sucked up into the bag on the back of the machine.

It is impossible for the machine, Mr. Nisbet says, to pick any half open cotton, as only the fluffy open cotton can be caught and held to the mesh rollers. Machine picked cotton grades better and brings more than hand picked cotton. The wind used in picking also blows all the dirt out of the cotton, which saves ginning costs as the farmer pays on a basis of the total weight of the seed cotton.

This is particularly true of snapped or bolly cotton. Of this type of cotton 2,000 to 2,500 pounds is required to get a bale as compared with 1,500 or 1,800 clean cotton. It costs about 30c a hundred for ginning and this 500 to 900 extra pounds of cotton have some cotton damaged by worms. This becomes stained. Hand pickers usually toss these into the bag. It goes to the gin and gets in the bale. These stains often cost the grower a reduction of a half cent a pound on the whole bale. The Wind-Roll picker leaves these on the stalk.

No Accident
The Wind-Roll picker is no accident. A. R. Nisbet is an experienced farmer and ginster. He started working with cotton pickers in 1907. He has built a half dozen different machines until he developed the wind type of picker which he thinks he has perfected.

He thinks it will pick cotton under most all conditions—that it will do as much for the cotton farmer of today as the cotton gin did in the days before the war. The fact that cotton can be produced in the South with this machine as cheaply as it can be produced anywhere on earth causes Mr. Nisbet and those associated with him in the enterprise to believe that they may have done something to help the farm problem of America that will lead this nation back upon a quantity, rather than a scarcity, production basis.

Since the Wind-Roll picker can be operated by one man and can be operated both day and night, Mr. Nisbet points out that the farmer can send their children to school in the fall of the year, instead of keeping them in the cotton fields many weeks after school has started.

The fact that this machine is a picker and not a stripper places it in line with efforts to produce quality cotton. The cotton can be picked as it opens. From the standpoint of quality production, everyone knows the advantages of ginning picked cotton compared to that which has been snapped. Running the immature and defective bolls through the gin with the best cotton cheapens the whole lot.

When cotton is harvested by machinery a major expense item in cost of production will be dealt a blow. The whole scheme of production will be affected. If history repeats itself the good will far outweigh the cost of readjustment.

LONDON—(Correspondence of the Associated Press)—The snail-like pace of Anglo-American trade treaty negotiations has stirred a mounting unrest in the stretches across British party lines.

One reason is that the impending agreement is the main hope of both conservative and labor-liberal advocates of closer Anglo-American cooperation in the face of war threats created by the power politics of the dictators.

The other principal reason is that British overseas trade continues to decline, and that unemployment at home continues to increase.

The slowness of the Washington talks, which originally were expected to be completed by June, has put a crimp in a frank campaign for closer cooperation between the two great English-speaking democracies.

Almost all newspapers of all shades of opinion have stressed the idea that the war debt is a major obstacle to Anglo-American cooperation, indicating a growing campaign for some offer of settlement. The trade treaty, however, is considered a prerequisite to such an offer.

Dallas Suburbs
Are Seeking Own
Water Supply

DALLAS, June 30 (AP)—Officials of Highland Park and University Park, municipalities adjoining Dallas, confirmed reports today plans were under way for a Denton county reservoir to supply the cities with water.

At present the municipalities purchase their supplies from Dallas, whose officials and civic leaders for years have urged annexation of the exclusive residential areas to Dallas. Rumors of threats to raise the rate as a means of forcing annexation have been heard in the past.

The project would cost about \$2,500,000. Prior water rights on 10 billion gallons annually from a fork of the Trinity river in Denton county near the Dallas county line were filed at Austin by Highland Park, which later was joined by University Park. The lake would cover approximately 10,000 acres. Engineers have been surveying for several weeks around Lewisville and Grapevine.

minimum of gasoline. Its four wheels are rubber tired pneumatic tubes, and the machine has a low center of gravity and is well-balanced on the ground. in the same direction as the machine is moving. A guard prevents the stalk from following the cotton on around the roller and as the cylinder turns it pulls the cotton loose from the boll. The minute the cotton stalk gets out of the range of the blast of air from the fans, the stalks come back to their natural position. The second blower and cylinder 20 inches in

'Well, It Wasn't Such A Bad June,' Cupid Says, Surveying His Victims

CHICAGO, June 30 (AP)—Cupid slung his bow over his shoulder today, scanned the list of June victims and decided his marksmanship wasn't at all bad, considering the times.

John Roosevelt, 22, youngest son of the president, and Anne Lindsay Clark, 24, said "I do" to a democratic-republican coalition. Last year he crossed party lines in uniting Franklin D. Roosevelt, Jr., and Ethel Du Pont.

Politics proved more formidable but love conquered at last when Kurt von Schuschnigg, former chancellor of Austria, was wed by proxy to Countess Vera Fugger von Babenhausen.

Cupid joined Harold L. Ickes when the secretary of the interior "put one over on Washington" by a surprise marriage to Jane Dahlman, 25, in a little church near Dublin.

Marshall Field, Jr. and Alfred Gwynne Vanderbilt took brides. Field, grandson of the Chicago merchant prince, was married to Joanne Bass, daughter of former Gov. and Mrs. Robert P. Bass of New Hampshire. A two-months whirlwind courtship culminated in the marriage of young Vanderbilt, heir to a \$20,000,000 fortune, and Manuela "Molly" Hudson, of California.

Harold Fowler McCormick, 66, wealthy Chicago manufacturer, heard wedding bells for the third time. He married Adah Wilson, 34, a nurse.

The young man with the bow and arrows invaded grand opera to capture Lily Pons for Andre Kostelanetz, orchestra conductor. In royal circles he united Princess Eugenie of Greece and Denmark with Prince Radzwill of Poland.

EHRENBORG HERE
George G. Ehrenborg, who supervised a revaluation survey for the city of Big Spring and the local independent school district in 1935, was in town Thursday.

Mrs. Jessie Fizer of Canton, visiting here, was injured critically and three companions were less seriously hurt when an automobile in which they were riding was struck by a freight train here today. Mrs. Fizer suffered a fractured skull, hospital attendants said.

DENTON, June 30 (AP)—Miss Dorothy Fizer, 19, daughter of ed the Chinese navy.

Ernest Thompson For Governor

Against Tax Increases

He is against any new taxes, including a sales tax, until a sound savings program is put into effect, and until it is determined whether the Social Security program, as outlined above, can be financed out of savings.

Organized Labor

He is in favor of Organized Labor and of collective bargaining. He is in sympathy with all the efforts of labor organizations to improve the wage, hour and living conditions of laborers and their families.

War On Unemployment

The real problem of labor is that of unemployment, and the real problem of the State Government is that of unemployment. Thompson pledges an active and continuous program of encouraging new industries and the development of natural resources in Texas to the end that more jobs can be provided for Texas citizens.

Higher Prices for Farm Products

He is for all sound programs designed to raise the prices of farm and ranch products. The farm must be given an even break with industry. Will lend the influence of the Governor's office in co-operation with all agencies seeking to better farm prices and further the conservation movement.

RE - ELECT

C. V. TERRELL RAILROAD COMMISSIONER

Democratic Primary July 23, 1938

The need for continuing the services of an experienced man on the Railroad Commission of Texas, should insure the re-election of C. V. TERRELL, its present Chairman.

His policy of oil and gas conservation has added millions of dollars to the permanent school funds, and should not be disturbed.

His successful efforts for lower freight rates on livestock, cotton, and other commodities have greatly benefited Texas.

Thousands have profited from his orders lowering gas rates to the consumer.

His honesty and efficiency in office are unquestioned. His devotion to the cause of Texas education has characterized his entire public career.

100% in favor of organized labor.

Officers Named By Engineering Group

COLLEGE STATION, June 30 (AP)—The Society for the Promotion of Engineering Education swung into the last day of its annual convention today with a new slate of officers and new ideas on the control of licensing of graduates of accredited engineering schools.

Dr. Karl T. Compton, president of the Massachusetts Institute of Technology, was elected president of the society last night after he had submitted a report of the findings of a special committee of the powerful engineers council for professional development.

Dr. Compton, who acted as chairman of the committee, recommended that graduates of accredited schools be required to have four years of practical experience before they are granted state licenses and that graduates of non-accredited schools be required to have eight years of practical experience.

His report is expected to have a far-reaching effect on the future of many engineering students. The council's recommendation is expected to be followed by the national council of state board examiners for engineers, which grants licenses to engineers in 39 states.

Dean Emeritus Robert Lemuel Sackett of the Pennsylvania State College engineering department, was given the Benjamin Lamme gold award for achievement in engineering education. Dean Sackett was not present to receive the medal, the eleventh given to an engineer educator since the death of the donor, Benjamin Lamme, late chief engineer for the Westinghouse Electric company.

WASHINGTON, June 30 (AP)—Senator Holt (D-W. Va.), criticizing the sale of campaign books as "a very questionable method of obtaining campaign contributions," published in the Congressional Record a list of corporations and individuals he said purchased the volumes in 1936 and 1937.

Those from Texas listed by Holt as purchasers: Bellinger Realty and Construction company, San Antonio, May 31, 1937, \$1,000; First National bank, Dallas, August 14, 1936, \$1,000; Republic Portland Cement company of San Antonio, (1) August 5, 1936, \$250; (2) November 6, 1936, \$100; (3) February 24, 1937, \$250; Roemer and Pendleton, Incorporated, Fort Worth, June 2, 1937, \$1,000.

San Antonio Brewing company, San Antonio, (1) August 5, 1936, \$100, and (2) November 5, 1936, \$100; Southern Brewing company, Houston, August 10, 1936, \$100; Strong, Moore and Strong, Beaumont, June 2, 1937, \$500; Texas Steel company, Fort Worth, August 1, 1936, \$100; Woodley Petroleum company, Houston, June 9, 1937, \$250.

John R. Brinkley, Del Rio, January 29, 1937, \$100; Chester N. Chubb, San Antonio, December 8, 1936, \$100; M. C. Erwin, Waco, March 12, 1936, \$100; Fred F. Florence, Dallas, August 13, 1936, \$1,000.

William Grant, Fort Worth, September 16, 1936, \$100; Leland A. Hodges, Fort Worth, August 21, 1936, \$100; G. C. Homstrom, Granger, September 25, 1936, \$100; George A. Hill, Jr., Houston, December 2, 1936, \$100; P. H. and William Jackson, San Angelo, June 9, 1937, \$500; Wright Matthews, Houston, June 19, 1936, \$100; Robert E. McKee, El Paso, (1) March 17, 1937, \$250, and (2) April 23, 1937, \$250; James H. Simms, Simms, October 9, 1936, \$100; Clara Driscoll Sevier, Corpus Christi, July 1, 1937, \$10,000; John H. Shary, Mission, June 3, 1937, \$200; Clint G. Wood, Dallas, January 21, 1937, \$100; Robert R. Young, Canadian, June 3, 1937, \$5,000.

The price paid by Clara Driscoll Sevier was one of the highest of any individual in the country.

Youthful Scientist Is Given Award

OTTAWA, June 30 (AP)—One of the world's youngest scientists, 28-year-old Dr. Charles F. Code of the Mayo Foundation, Rochester, Minn., today was awarded the Theobald Smith medal of the American Association for the Advancement of Science.

The award, one of the highest honors in American science, was made to Dr. Code, a Canadian, in recognition of his discovery that the chemical histamine is normally present in human blood and when present in abnormal amounts indicated tubercular infection or an allergic reaction to the presence of foreign proteins in the body.

When histamine is present in abnormal amounts in the blood it produces a physical condition resembling surgical shock or the reaction which follows severe burns, both of which are often death-dealing conditions due to an upsetting of the balance of chemical elements in the body.

WAGE INCREASE FOR WPA MEN BECOMES EFFECTIVE JULY 15

SAN ANTONIO, June 30 (AP)—Wage scale increases for unskilled workers, approximating \$3 per month, will go into effect on Works Progress Administration projects after July 15, State Administrator H. P. Drought told administrative officers here today.

Workers who will benefit by the wage scale increase are those who are classified as unskilled and who have been receiving monthly wages ranging from \$21 to \$35, depending upon prevailing rates in their localities. Unaffected by the change in wage scale are 36 Panhandle counties which are not included in the wage schedule applicable to other Texas counties but which, because of recognized unusual conditions existing in them received a wage increase in November, 1935. The wage increase established for those counties at that time remains in effect.

Counties not affected by the wage scale change are: Dallam, Sherman, Hansford, Ochiltree, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Carson, Gray, Deaf Smith, Armstrong, Farmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale, Floyd, Cochran, Haskell, Lubbock, Crosby, Tarrant, Terry, Lynn, Gaines, Dawson, Andrews, Ector, Winkler, and Loving.

Drought announced also that employment quota for Texas has been increased 5,000 for July, making it possible to employ 85,500 persons on WPA projects during that month. WPA will continue allotting funds on the basis of providing a maximum of \$6 per man-month for other-than-labor costs under the terms of the new appropriation act, Drought said. This basis is the same as that which has been maintained previously.

Women In The News

By The AP Feature Service—This being the month of June, it's natural that the women in the news are brides. There isn't room to picture them all, but here are representatives of four worlds:

PRESIDENTIAL
Anne Lindsay Clark, bride of the President's son, John, obliged cameramen 11 days before her wedding by posing in her bathing suit. But she wouldn't go into the water—too cold.

FINANCIAL
Manuela Hudson, 25, was married to Alfred Gwynne Vanderbilt, 25, heir to \$20,000,000, at the estate of his mother, Mrs. Margaret Emerson, at Sands Point, L. I.

DIPLOMATIC
Talania Conus, daughter of Princess Marie Lieven, a White Russian, was married in New York to Prince Guido Colonna, an Italian diplomat.

MOVIE
Frances Langford, singer and actress, is smiling on the shoulder of Jon Hall, star of the movie "Hurricane," after they revealed their secret marriage at Prescott, Ariz.

POPE HAS SOME KIND WORDS FOR FRANCO

CASTEL GANDOLFO, Italy, June 30 (AP)—Pope Pius, receiving the Spanish insurgent regime's first ambassador to the holy see, today commended Generalissimo Franco's promises "to limit victims and suffering of war."

A Vatican news service quoted the pontiff as expressing "words of affection for Franco" and as remarking he had received Franco's "noble promises made to limit victims and suffering of war."

Snyder Pool Extensioner Completed

Moore Bros. 4-A Indicates Strong Northwest Trend

Completion of the Moore Bros. No. 4-A Snyder, on the northwest edge of production in the Snyder pool, gave that area another short extension and further indicated a strong trend to the northwest.

Located 2,310 feet from the south and west lines of section 23-30-1s, T&P, the test proved one of the strongest wells in the pool, gauging 1,088 barrels a day. Top of pay was 2,660 and bottom of the hole at 2,850. It was shot with 600 quarts from 2,682-2,835 feet.

On further to the west, in the southeast quarter of section 29-30-1s, T&P, the McIlvain No. 1 O'Daniel, outcrop test, drilled to 2,555 feet. A new location in southeastern Howard county was the Lockhart Petroleum Corp. No. 3 Scott, 900 feet from the east and 330 feet from the north lines of section 86-29, W&NW. It is a west offset to the No. 1 Scott well, completed for 1,520 barrels and a direct south offset for the Lockhart No. 2 Heusinger, recently acidized and tested.

Claim Victory Over 'Hoppers

AUSTIN, June 30 (AP)—Hordes of grasshoppers which threatened four Texas Panhandle counties have been conquered and national guard troops and men assigned to an extermination program will be withdrawn Saturday, Adjutant General Carl Nesbitt said today.

"The situation is such that local people can handle it," he explained. Forty-two national guard trucks and drivers will have been on duty 24 hours in parts of Hartley, Dallam, Sherman and Moore counties when the evacuation begins.

Gen. Nesbitt estimated the men and equipment which supplemented private citizens and vehicles spread poison wash over 75 per cent of the four counties.

The guardsmen and vehicles as well as some highway department equipment and personnel were dispatched to the infested area when farmers and ranchmen sought aid of Governor James V. Alfred.

Gen. Nesbitt said Panhandle citizens were well satisfied with results of the campaign.

SCHUSCHNIGG HAS NO PRIVILEGES

VIENNA, June 30 (AP)—Joseph Buerckel, high commissioner for annexed Austria, declared today that, so far as the Nazi regime is concerned, Kurt Schuschnigg, deposed Austrian chancellor, is not a married man.

"But even if he were married," Buerckel added in a conference with newspaper correspondents, "we would not permit him to enjoy privileges which other persons under arrest do not enjoy."

"Schuschnigg will in all likelihood be brought to trial on a charge of permitting or being responsible for 'judicial murders,'" Buerckel said, referring to what the Nazis have said were miscarriages of justice in which the accused were put to death.

"Our Fuehrer in a reichstag speech, however, promised that his life would be spared."

AMERICAN AIRLINES REDUCES FARES FOR CHILDREN

Change in the rates for children over American Airlines routes was announced here Thursday by Glenn Golden, terminal manager for the airline.

Children under two years of age will be carried free of charge, as formerly. Children between two and under 12 years of age will be charged only half fare, instead of the full fare formerly in force. These half-fare passengers will enjoy the full 35-pound adult baggage limit, but must pay full sleeper rates, said Golden.

Offering of special children rates is an innovation for air transport companies since space is almost as important an item as weight in air passenger traffic.

Miss Lois Mims of Fort Worth and Mrs. Lee Davis of McAllen left Thursday for their home after a visit with their brothers, W. G. and W. P. Mims. Little Miss Mary Joyce Mims accompanied Mrs. Davis home for a month's visit.

Attorneys In Convention

Texas Bar Assn. Opens Meeting At Houston

HOUSTON, June 30 (AP)—Members of the Texas legal profession, from the veteran of the courtroom to the neophyte, were here today for opening of the Texas Bar association's fifty-seventh annual convention.

Many of them heard Dean C. S. Potts of Southern Methodist university law school tell a pre-convention meeting of the association of district and county attorneys last night that intelligent determination of penal sentences in Texas is hampered because juries which give the punishment are not permitted to consider a defendant's past record unless he takes the stand.

Judges should decide punishment and juries determine only guilt or innocence, Dean Potts declared. The possibility of movements at the next legislature to slash salaries came in for discussion by the prosecutors.

Bar association directors, also in a pre-convention meeting, approved 168 new memberships which brought the association's total to 3,100, largest in its history.

Until recent times there was a Jewish colony in Kaifeng in Honan province, China, the Jews having apparently come to China during the Han dynasty, soon after 34

The fig tree bears three crops in a season.

FIRST FOOD after 51 days of fasting was a baked apple, being relished by Mrs. Florabelle Culbertson, Los Angeles housewife. She fasted as a remedy for arthritis.

CROSSING CRASH IS FATAL TO THREE

LOS ANGELES, June 30 (AP)—Three persons were killed and a fourth critically injured when their automobile crashed into a Santa Fe switch engine at a southside crossing early today.

The dead were Charlotte Richards, 30, Hollywood film studio employee; Louis G. Briacco, 24, (1539 Filbert St.) San Francisco; and an unidentified woman about 20.

The Folies-Bergere in Paris was founded in 1869.

Much Better

When the Big Spring baseball club left town for Hobbs this morning they were in a far, far better frame of mind than at any time this season.

The financial outlook is much better at this point than any time during the past month and it is hoped that by the time they return July 5 with Wink that everything will be hunky-dory.

Local fans have been urged to attend the meeting of local leaders at the Crawford hotel Friday evening and all the troubles can be thrashed out then and there.

Too, there has been plenty of misunderstanding between the parties concerned and League President Milton E. Price is paying a special visit out here to iron out all the trouble.

IF YOU WANT BASEBALL TO REMAIN HERE THEN IT IS IMPERATIVE THAT YOU ATTEND THAT MEETING. IF THE CONFAB IS A SUCCESS THEN PRESIDENT HUTCHESON HAS PROMISED THAT LIGHTS WILL BE INSTALLED HERE WITHIN TEN DAYS.

A Swell Find

Our new pitcher, Willard Ramsdell, looked almost too good to be true, didn't he? He was picked up from his home in Chanute, Kas., on a recommendation by Virgil Smith, local barber, and when Manager Charles Barnabe first gave him the double-o he said he was a diamond in the rough.

He had everything a pitcher needs in his starter Wednesday, including control after the second frame and may rival Johnny Soden as the best pitcher on the local staff.

He had so much stuff on his pitches that the Hubbers were taking it and liking it. His knuckle ball was something to see and his change of pace was undecipherable. For the first two innings he was shaky, walking four batters, but thereafter he settled down with a side on the part of Catcher Al Berndt and constant coaching by Manager Barnabe and was superb in the clutches.

Well can the fans extend a vote of thanks to Mr. Smith who paid Ramsdell's freight down here.

Morgan Advances

Frank Morgan captured the No. 3 slot on the local Sand Belt golf team after drubbing Dub Prescott.

See PARADE, Page 3, Col. 2

LEADERS MEET FRIDAY TO THRASH OUT BALL PROBLEMS

League Chief Price To Be On Hand

Hutcheson Says He Is Determined To Keep Club Here

Determined to keep professional baseball in Big Spring the remainder of the season, a group of business men will meet with Franchise Holder Jack Hutcheson and WT-NM League President Milton E. Price Friday evening at 8 o'clock on the mezzanine floor of the Crawford hotel for the purpose of promoting funds for the club's indebtedness and bringing about a better understanding on the part of all parties.

Enheartened by the large crowd that was on hand to watch the Barons perform in the last home game Hutcheson said that he was determined to keep baseball here if possible.

He urged that all persons interested in the game to meet with the business leaders Friday night when a final decision will be handed down concerning the club's future.

The outlook from the local standpoint is very favorable at the present time, President Hutcheson said. Interest in the club here has reached a new high during the past week and several fans have offered contributions with the hope that the game would remain here.

A similar financial situation arose in Clovis, N. M., another WT-NM league entry, last month and an understanding was brought about through the co-operation of the townsmen. It is hoped that local leaders will follow that city's procedure in re-establishing the local club on a sound basis.

LAWRIN IN EASY WIN ON COAST

INGLEWOOD, Calif., June 30 (AP)—Herbert M. Woolf, owner of Lawrin, which ran to an easy and almost uncontested victory in the American three-year-old championship stakes at Hollywood Park yesterday, debated today whether to head east for other turf engagements or remain in bountiful California.

Woolf's Kentucky Derby champion had no trouble capturing the winner's purse—halved by pre-race agreement from \$40,000 to \$20,000—after his chief foe, Dauber, was scratched because of a lame leg.

While a disappointed crowd of some 50,000 offered sporadic boos, Lawrin galloped in seven lengths ahead of his only rivals, Wing and Wing, and Rommy, who teamed as one entry and earned \$5,000 and \$2,500 respectively.

Fourth Installment Your Mid-Year Sports Exam

—By The AP Feature Service—

Each question counts 20; each part of a two-part question, 10. A score of 60 is fair; 80, good.

1. What former House of David baseball pitcher gained immortal fame and how?
2. Who won the National A.A.U. handball singles championship for the fourth straight year?
3. Which horse won the Santa Anita handicap?
4. Why do the New York Yankees call pitcher Johnny Murphy "fireman?"
5. Which college team won the Madison Square Garden invitational basketball championship in New York?

PITT PANTHERS HIT HARD BY GRADUATION

By EDDIE BRIETZ

NEW YORK, June 30 (AP)—They are already calling for crying towels at Pitt. Coach Doc Sutherland not only lost 17 by graduation, but no less than nine of his hopefuls were declared ineligible by the new athletic regulations. Sutherland now is wrapped up in a tour of Scotland, trying to forget that one report says he's being back a bride.

Leroy Haynes, negro heavy weight, returned yesterday after a disastrous tour of Europe. Connie Mack says the Yanks and the Indians have it on the Tigers. Robert W. Madry and Horace Renegar, demon press agents for North Carolina U. and Tulane respectively, are giving the town a thorough going over. Stanley Woodward, sports editor of the New York Herald-Tribune, is off on a tour of Europe. North Carolina State is going around looking for a bloody nose by scheduling 11 games next season.

Recently Pinky Higgins of the Red Sox seized the American League record for consecutive hits when he got his 12th. The old record (11) was held by Tris Speaker of Cleveland. To win, Speaker finally got a hit off Walter Johnson. And he used a fungo bat to do it.

Rancher Champion In Senior Meet

AMARILLO, June 30 (AP)—Bill Gallacher, a mountain rancher from Carrizozo, N. M., fired steady golf here yesterday to win the Tri-State Senior Golf association's fourth championship 4 and 3 from P. M. Carey of Guthrie, Okla. Gallacher, 53, was six over par for the 15 holes. He went into the finals by eliminating L. T. Garland of Slaton 6 and 5. Carey defeated Joe Storey of Dalhart 2 up. Entrants in the tournament were limited to men 50 years of age or more.

Devils Beaten By Magnolia Team, 9-3; Lone Star Loses To Patricia

Anderson's Devils suffered their second licking in two nights Wednesday at the Mundy diamond when the Magnolia Medicos of Sweetwater trounced the Danielmen, 10-3. L. D. Cunningham, on the hill for the Devils, surrendered nine licks to the opposition and was not up to par.

A second battle saw the Patricia Gin aggregation of Dawson county wallop the Lone Star Motor company team, 17-6, in convincing fashion.

Box score (first game): Sweetwater—AB R H. R. Billings, ss 3 0 0. Miller, lf 4 1 0. Howe, 2b 4 1 0. Clary, 3b 3 0 0. Kearney, c 4 1 0. Reed, m 2 3 1. Mabry, p 3 0 0. Waggon, rf 2 2 1. P. Billings, ss 2 2 0. Totals 33 10 9.

Two Helens In Wimbledon Finals Jacobs Beats Frisco Alice Marble

Moody Is Winner In Match With German Star, 12-10, 6-4

WIMBLEDON, Eng., June 30 (AP)—Helen Wills Moody and Helen Jacobs both on the comeback trail, qualified for a renewal of their famous tennis duels today when they advanced to the finals of the all-England championships. Mrs. Moody defeated Hilda Krahwinkel Sperling of Germany and Denmark, 12-10, 6-4, after Miss Jacobs had disposed of Alice Marble of San Francisco, 6-4, 6-4.

The last time America's two Helens met was in the 1935 championships here, when Mrs. Moody, staging her first comeback, came from behind to defeat Miss Jacobs for the title after trailing 2-5 in the third set.

Miss Jacobs has beaten Mrs. Moody only once in major competition and that was in the finals of the 1933 U. S. championships when Queen Helen was forced to default because of a back injury.

Miss Jacobs won with astonishing ease over Miss Marble, the girl who defeated her in the 1936 United States championships. But Mrs. Moody had a battle on her hands, especially in the first set.

The lanky Mme Sperling matched Mrs. Moody's baseline game through four greater part of the first set, which lasted an hour and 20 minutes, and then gave up only after a terrific struggle in the second, which took another 35 minutes. Queen Helen, a very tired girl, sighed audibly when Mme. Sperling failed to return the last point and leaned her head on her racket before running around the net to shake her opponent's hand.

TO TRY NEW GAME COMMERCE, June 30 (AP)—More than 200 high school principals and coaches, attending a meeting at East Texas State Teachers college here yesterday, decided that six-man football will be introduced in East Texas Class D high schools this fall.

Admiral Runs 4th At Boston

BOSTON, June 30 (AP)—The great War Admiral, reputed invincible under all conditions, revealed his inability to carry top weight in the mud against crack rivals yesterday when he trailed Hal Price Headley's victorious Menow by about nine lengths and two others by narrow margins in the Massachusetts handicap at Suffolk Downs.

A crowd of 66,000, largest in New England's racing history, was doubly disappointed, first by the last-minute scratching of C. S. Howard's Seabiscuit, last year's winner, and then by the Admiral's unimpressive performance as he met his first defeat in 12 starts and ran out of the money for the first time in his career.

TIGERS ADD TO CIRCUIT LEAD

By The Associated Press
Marshall's Tigers pounded out a 9-6 win over Jacksonville in a series opener last night (Wednesday) increasing their leadership of the East Texas league a half game over Texarkana, and Palestine rose from the doldrums to smite Tyler 10-9.

Rain washed out the scheduled Kilgore-Longview and Texarkana-Henderson encounters.

Marshall counted five runs on two hits, four walks, and a hit batsman, in the second inning, then clubbed steadily in the later stages to outlast the Jax. The Pals scored three times in the final inning to erase a Trojan lead and gain a one-run victory margin.

Where they play today: Palestine at Tyler. Jacksonville at Marshall. Kilgore at Longview. Texarkana at Henderson.

Sports Exam Answers

1. Grover Cleveland Alexander, major-league ace before joining House of David team, was named to baseball's Hall of Fame.
2. Joe Platak of Chicago.
3. Staggie R.
4. Because he serves as a relief pitcher and saves many games for the Yankees.
5. Temple University.

Indians Steal 7 Sacks; Win 9-3 Decision

Tulsa Tramples Ft. Worth; Beaumont Edges Sports

By The Associated Press

Strange things have happened around the Dallas ball park this season, but a gang of Oklahoma City base robbers came to town last evening, and, aided by a stumbling Dallas nine, put on one big inning the natives won't be forgetting.

Most important, the Oklahomans scored two runs in the weird sixth inning without the aid of a hit—getting the job done with five stolen bases, four walks and a balk. The Indians stole everything but first base in setting a modern league record for one inning. Not since 1914, when Houston moved in on a sleepy Austin nine and pilfered seven sacks in one frame, has such a thing happened.

The inning is worth preserving. Here it is:

McLeod walked and went to second on Doherty's balk. McLeod stole third. Monaco struck out. Corbett walked. McLeod and Corbett worked a double steal. McLeod getting the first run. Hack and Shelley walked. Corbett scored on Brower's infield out. Stole third. Shelley's theft of second was a cinch. Prior finally struck out to erase a Trojan lead and gain a one-run victory margin.

Elsewhere league leading Tulsa slaughtered Fort Worth 12-3; the Houston Buffs trampled San Antonio's Missions 14-1; and Beaumont walloped Shreveport 3-1.

San Antonio's loss dropped the Missions into third place, behind Oklahoma City and Beaumont, still deadlocked in second position.

COUNT TO LONDON

PARIS, June 30 (AP)—Count Court Haugwitz-Reventlow left Paris today for London to face a court martial obtained by his wife, the former Barbara Hutton, on allegations he had threatened her.

Deaths are more frequent in London during fogs than in clear weather.

Gotham Teams Blast Way To Wins

Yankees Topple A's With Six Homers; Giants Win Two

By BILL BONT

Associated Press Sports Writer

Volunteer medics who have been keeping their fingers on the pulse of the puzzling New York Yankees are heading for the safety of the sidelines. For the Bronx bombers seem about ready to start blasting their way to the top, and when they're in a blasting mood, the sidelines are the only safe place for anyone.

The world champions have looked oddly unfitted for that title on more than one occasion this season. But they looked like nothing so much as a high-grounded army tank when they returned to the stadium yesterday and flattened the Athletics into 10-0 and 13-1 submissions.

With the three out of four they won at the end of their western trip, that gave the Yanks a record of five victories in their last six starts, four of them in succession. Yesterday's production, which included five four-baggers, two by Flash Gordon, hit a new high of 27 hits for 49 bases.

Coupled with the Yanks' twin triumph came the Cleveland Indians' 5-4 defeat by Detroit—a combination which cut Cleveland's first place margin to three games.

Gotham's other entry also climbed a notch. The league-leading Giants, whipping the Phillies, 9-1 and 6-2, increased their lead over the Cincinnati Reds to three games. After Hal Schumacher had tossed a six-hitter that kept the Phils blanked for eight innings, Cuz Melton followed up by scattering 10 hits so well the Phils could score in only one inning.

The Reds were nosed out 5-4 by the Pirates, the third-and-fourth-place teams changed hands. The Bucc's victory, accomplished largely through Bill Swift's one-hit relief pitching, moved them four points ahead of the Cubs, who were beaten, 10-5, by the Cardinals for their third straight defeat.

In the other National league game the Dodgers, despite two homers by Dolph Camilli and another by Goody Rosen, lost to the Bees, 7-6, and thus kept intact a record that has seen them lose every league game they've played.

Kansan Tight In Pinches To Cop

Victory Enables Local Team To Escape Cellar

A package from Kansas, Willard Ramsdell, a young right-hander who came to Big Spring of his own free will, took up Wednesday afternoon where Johnny Soden left off the day before and pitched the Big Spring Barons out of the WT-NM league cellar at the expense of the loop leading Lubbock Hubbers.

Ramsdell overcame early game shakiness to set the invaders down with six scattered hits and tame them, 10-3, enabling the Barons to gain the upper hand in the three game series. It was the fifth victory of the season for the locals over the Lubbockies.

The Kansan's mates were in brilliant support. When the youngster got behind in the first frame the local crew batted completely around the first trip they went to bat to give him a permanent lead, then put on their flashiest offensive show of the year in the eighth by scoring six runs.

Earnest Terry, Lubbock right-hander, pitched creditable ball up until the Barons went wild in that eighth stanza and left the issue very much in doubt for a time. Not an extra base blow was recorded by either team. The Barons collected 11 bingles, five of which came in the eighth.

Mosel and Taylor tallied for the Hubbers to open the game but the Barons came right back with three hits and two walks to account for their four runs.

Bobby Decker, Frankie Jacot, Al Sweet and Harry Siebert tallied, the first two going across when Terry gave two passes with the sacks crammed.

Escapes Trouble Ramsdell faced another trying situation in the second when he loaded the bases with no one out, only one man tallied, however. Al Berndt caught one runner off.

See KANSAN, Page 3, Col. 1

The Story of OD and AD

and the 2 STORES

OD and AD wanted to go into business for themselves. They decided to open retail stores. But they had *different* ideas as to how they should get customers. This is the story of what happened.

How OD and AD Opened their Stores

OD believed that the way to get customers was to sell at low prices, and that the way to sell at low prices was to keep his expenses down. So he spent as little as possible in fixing up his store. He said he was not going to "waste" money on "trick lighting" and a "fancy front." He bought large quantities of a few lines of merchandise, because that way he got them cheaper.

Then he put an assortment of his goods into the windows, but because he had done so little to make his store attractive, few people noticed that it was a new store, and few came in to buy.

AD decided that the first thing he must do was to make his store *attractive* to customers. So he had it painted throughout in cheerful colors. He completely changed the windows and front, and he put in fixtures that flooded the whole store with light.

He chose merchandise well-known by name to the public, and bought smaller quantities of many lines, thus giving customers a greater selection. He arranged his stock in the store to make shopping *convenient*. He put in window displays of his most interesting merchandise—and changed them frequently.

Because his windows and his store were so attractive, many people stopped to look, and enough people came in to buy so that AD's goods sold quickly and he was soon ordering more of many items.

How OD and AD went after Customers

OD soon found that he could not get the customers he needed from those who *passed by* his store. So he had circulars printed and hired boys to distribute them from house to house. Sometimes they put them under the door or into the mail box, but often they threw them on the porch or into the yard, and many were blown away. Also, OD found it was a slow and costly way to tell his story, as in a whole day a boy could cover only a few hundred homes.

OD was disappointed to find that after all this work and expense, only a few more people came to his store.

AD decided that the *more* people he could tell about his merchandise, the *more* people would come to his store. So he put advertisements into newspapers read by many thousands of people every day. He knew that people were eager to get their newspapers to read the news. Therefore, his advertising was more likely to be *seen* in a paper people *wanted* to read. Also, the newspapers were delivered all over the city as soon as they were printed.

AD found that the *more* he advertised, the *more* people came to his store and the *more* goods he sold and the *less* it cost him to handle each sale. So he passed on the greater part of these savings in lower prices and better values to all his customers.

How OD Failed and AD Succeeded

OD found that so few people came to his store that his goods moved very slowly. He could buy very little new stock because his money was tied up. So he decided to have a sale.

He had big signs painted for the front of his store. He had circulars printed and sent boys out to put them into parked cars and distribute them at homes. But the people who came saw so little they wanted that his sale was a failure. At last, he disposed of all his remaining stock to an out-of-town bargain store at less than half what he had paid for it.

OD had had a very unhappy experience, but because he had never advertised in the newspapers, few people in all the city ever knew that his store had opened or that it had closed.

AD found that with more and more people now coming to his store, his stocks moved very quickly. As a result, he was constantly able to have fresh, new merchandise for his customers. He concluded that since people bought newspapers to read the news, he should tell them the news about his merchandise and his store. As a result, AD's advertisements were read as eagerly as any other part of the newspaper. Soon every one in town knew that AD had the newest things.

AD did not make exaggerated statements in his advertising. He just made the *truth* interesting. Repeatedly AD had to enlarge his store, and employ more people to take care of his increasing business. And, although his expenses were now very much greater, he sold so much merchandise and turned his stocks so rapidly that his store was very successful and was known far and wide for the values it gave its customers.

AD Tells OD How Advertising Serves the Store and Its Customers

ONE DAY OD came to AD and applied for a position. He asked AD how he had built such a fine business and obtained so many customers.

AD said, "First, by making the store an attractive and convenient place to shop, and second, by having the merchandise customers want."

"But these are not sufficient without *Advertising* to tell the people about them. So we continuously publish interesting, informative, truthful news about our service and our merchandise. And we tell it in the way that reaches the largest possible number of people quickly—through newspaper advertising."

(Continued from Page 1)

The sacks and Willard rallied to force Geddis to ground to Decker and whiffed Mosel.

Henry Henderson started the trouble in the eighth when he led off with the first of his two hits in that frame. Mosel's error coupled with Hobson's gift of first when hit by a pitched ball helped the Baron cause alone.

Manager Barnabe and his forces left for Hobbs and a three game series this morning where Clarence Trantham was slated to open on the mound.

S. C. (SI) NABORS

'GETTING HER GOAT' three inmates of London children's zoo ignore frightened 19-month-old Dinah Keen.

Parade

(Continued from Page 1)

over the country club course Wednesday afternoon.
Frank, who was out of competition for the first month due to an injured hand, captured honors on six of the first nine holes to rout the youngsters.

Speaking of the Morgans, Frank's brother, Eddie, now pitching for a softball team and playing a bit of golf in Odessa, is said to have twice drove a 415 yard green in Crane a month ago. That feat is hard to believe but members of the Crane league team will vouch for it.

Incidentally, nature still provides one of the major hazards on the back nine of the Muny golf course. Obie Bristow, playing with Jake Morgan last week, killed two rattlesnakes which apparently had come in to watch the big oil man putt. Obie, following the massacre, coiled the reptiles and hid them in a cup for Dr. M. H. Bennett's benefit. Bennett was trailing him up to that point.

Leading Golfers Try For Title At Longview

LONGVIEW, June 30 (AP)—Some of the Southwest's top golfers prepared to assault the par 72 Pine Crest country club course here today as qualifying rounds continued for the club's sixth annual invitation tournament.

Don Schumacher, who won the title 12 and 10 last year from his fellow townsman, Walker Cupper Reynolds Smith of Dallas, arrived yesterday, and Smith was expected in today.

Also registered were Iverson Martin, Lee Ramdell and Charley Ramdell, Fort Worth linksmen; Buck Luce of Austin, Tom Miller, Dallas money star, and Charley Holway, Corsicana city champion.

Rain washed out qualifying rounds over the course yesterday, but play has been underway all week, with Bill Clark of Glade-water and Bill McMahon of Longview tied as low qualifiers to date. Both shot par 72s.

WON'T BELONG now until Luke Appling, Chicago White Sox hard-hitting shortstop, is ready to sock the old apple again. At Comisky park he's limbering up fractured right leg which put him out of the Sox lineup three months ago.

ABANDONMENT

WASHINGTON, June 30 (AP)—An Interstate Commerce Commission examiner recommended today that the Atchison, Topeka and Santa Fe and the Gulf, Colorado and Santa Fe railroads be allowed to abandon the Atchison's Sulphur branch, between Davis and Sulphur, Okla., a distance of 8.98 miles.

Townsend Claims Next Congress To Adopt His Plan

DALLAS, June 30 (AP)—Dr. Francis E. Townsend, scheduled to fly to Oklahoma today to broadcast for Senator Elmer Thomas in the latter's race for re-election, predicted here the next session of congress would pass his old age revolving pension plan, because "big business is getting interested."

Business men are beginning to see in his proposal of \$200 monthly for every person over 60, possibilities for a "permanent market," the former California dentist said in a talk here yesterday after arriving by air from Los Angeles.

POPE APPEALS TO JAPAN FOR MERCY IN AIR ATTACKS

CASTEL GANDOLFO, Italy, June 30 (AP)—A vatican news service said today that Pope Pius had appealed to the Japanese government to "spare the civil population insofar as possible" in conducting aerial bombardments in China. Representations were made through the apostolic delegate in Tokyo, Monsignor Paolo Marella. The news service said the Tokyo government had acknowledged receipt of the pope's communication, saying it would be treated "with consideration and deference."

GAS ALLOWABLE

AUSTIN, June 30 (AP)—The railroad commission today set the July daily allowable production for sour natural gas in the West Panhandle field at 651,607,000 cubic feet, a reduction of 25,915,000 under the authorized production for June.

Bookies Moving Out Of Dallas After Raids

DALLAS, June 30 (AP)—Bookmakers folded their form sheets and stole out of Dallas today.

Throttled by a quick-acting grand jury which dealt being "witchburners," bookies departed in droves.

Capt. Roy Richburg of the vice squad, after some 300 persons had been hauled before the grand jury in police patrol cars, commented: "Looks like we've broken their backs."

Said Henry Watson, grand jury foreman: "I'm not a witchburner, but the grand jury is aroused over the open defiance of the bookies. They might as well get out of town—and I mean get out pronto!"

Watson said most of the persons gathered in raids Tuesday and yesterday were of the poorer class, financially unable to wager.

Betting paraphernalia, including telephones, forms and equipment, were seized by police and Texas rangers. State prosecutors promised quick indictments for many.

Twenty known bookie spots were closed tight.

In the little town of Bunde, Germany, is a "cigar museum" which contains the world's largest cigar; nearly six feet in length and over two feet in circumference.

YOUTHS CHARGED WITH ROBBERY

DALLAS, June 30 (AP)—Two youths arrested at Fort Worth after a Dallas taxicab company supervisor had been forced to drive there, were charged with robbery with firearms in complaints sworn out here yesterday. The youths were brought from Fort Worth to city jail here.

J. C. Simmons, the supervisor, was robbed of \$215 before he was forced to drive to Fort Worth. The youths, Homer S. Gentry, 18,

pre-law student at the University of Alabama, and Charles S. Jennings, 19, both of Fort Worth, were charged in complaints accepted for filing in justice court by Assistant District Attorney D. A. Templeton.

Use LESS SUGAR

Oil Leaders Are Smiling

Growing Demand
Brings New Hike
In Gas Price

TULSA, Okla., June 30 (AP)—There's no doubt about it, the sunshine of returning business volume is shining through the clouds of the petroleum industry.

Wherever you went in the big oil offices today executives smiled and said things were looking up and if it keeps on the summer's trade yet may stack up very well against the 1937 record.

Some of the on men weren't so chipper when the word spread that subpoenas were out for another oil investigation grand jury at Madison July 12 but no one had anything to say about that—for the record.

Last week's growing demand in the Mid-Continent pyramided into another general rise of an eighth

of a cent a gallon. That made the jump a full half cent in the past three weeks.

On top of that was the upswing in the stock market, a development calculated by some to improve buying in the east.

The tourist trade and agricultural demand had reached a point where there was actually a scarcity of gasoline in the Mid-Continent and refiners whose output does not meet their customer demand were actively in the market for supplies.

The price was high enough for the small refiners to break even or make a little profit and more than one was turning a deaf ear to jobber inquiries and holding out for still better prices.

The American Petroleum Institute report of a record-breaking 5,300,000-barrel drop in gasoline stocks during the past three weeks was tagged as the "finest kind of news" by one prominent refiner here.

He ventured that the 52,412,000-barrel stock at present was getting mighty close to an economically sound working margin.

Last year at this time there were 76,036,000 barrels in storage.

Bakery Here Changes Hands

J. B. McKinney And
Associates Buy
Mead Concern

J. B. McKinney, for four years manager of Mead's Bakery, in association with Clifford and W. H. Knott of McKinney, Texas, has purchased the concern, effective July 1. It was announced late Wednesday. The bakery is at 112 West Second street.

The new concern will be known as Knott's Bakery, and will be operated at the same location. W. L. Mead, of Abilene, recently moved here, has operated the bakery here for the past four years, and only recently improved and remodeled the shop here. Mr. Mead will return to Abilene to reside.

McKinney will be sales manager, while Clifford Knott will be in charge of production. W. H. Knott, er,

will be associated with the new firm, and will remain in Big Spring until January 1. Announcement of new products will be made shortly, Mr. McKinney said.

CONLEY CALLS BAND MEMBERS TO MEET FRIDAY MORNING

Dan Conley, high school band director, was due to return from Albuquerque, N. M., Thursday evening and advised that he wished all band members to meet him at 10:30 a. m. Friday at the high school.

A second meeting is scheduled for 8 p. m. Friday.

The sessions are planned in preparation for the Big Spring band's participation in the parade Saturday.

Conley has been in Albuquerque with Melvin J. Wise, local Church of Christ minister, as song leader in an evangelistic campaign.

John Keats, famous English poet, was the son of a livery-stable keep-

AFTER 3 YEARS of "feeling queer" following operation, Esther Cornett had this X-ray taken in Kansas City.

Candidates' Families Are Joining In The Big Appeal For Ballots

By The Associated Press

The families of candidates for governor and other high state offices in the current campaign are making something of a petticoat primary of it.

Mrs. Clarence R. Miller of Dallas, wife of the candidate for governor who wants to see more smokestacks in Texas, pinch-hit for her husband Wednesday in a platform appearance at Schwertner, Williamson county. It was only after Miller had promised to make elimination of highway billboards a platform plank that she joined enthusiastically in the campaign.

Mr. and Mrs. Lee O'Daniel and their children, Pat, Mike and Mollie of Fort Worth are campaigning strictly on a family basis. Pat and Mike are members of the hill billy band and Mollie is an accomplished greater.

Tom Hunter's family has been much in the news lately. His daughter, scheduled to go on the air for him, was stopped by illness but is now recovering. Other members of his family are active in his campaign for governor.

Mrs. Ernest O. Thompson has gone with her husband on most of his campaign trips and she gets a big thrill out of making tours and meeting the people. Thompson's workers are making direct appeals to women voters, citing his efforts for truck and bus safety on the highways as railroad commissioner.

Mrs. William McCraw campaigned with her husband at Arlington and Waco, but this is what she has to say about it: "Bill's running for governor. I'm not running for first lady." She has made trips to several cities, including Houston, Lubbock, Brownsville, and Fort Worth at the invitation of McCraw headquarters in those cities, and the public has been invited to meet her at receptions.

John Wood, candidate for railroad commissioner, appointed his wife his official campaign manager with headquarters at Austin. "I know they can't beat him," she said of her husband.

Mrs. Ralph Yarborough, whose district judge husband is running for attorney general, is spending considerable time writing to friends in advocating his candidacy. Mrs. L. A. Woods, whose husband is candidate for his fourth term as state superintendent of public instruction, lets Woods do the speaking, but she handles the finances. Mrs. W. E. James, wife of another candidate for the same office, was a teacher for more than 20 years, and is devoting her full time to his campaign.

Mrs. Frank Morris literally climbed on her husband's bandwagon at Greenville. She drove his campaign sound auto into an arena roped off for the rally and when Morris finished his speech, she made one. He is running for railroad commissioner.

Several women are running for the legislature. There wasn't a woman in the last legislature.

Buick Wins Better Place For 1939 Auto Show

Buick's forward strides in sales during the past year have resulted in the award to this manufacturer of choice of time position in the allotment of space at the 1939 National Automobile show in Grand Central Palace, New York, according to word received today by Keisling Motor Co., local Buick dealer, from W. F. Hufstader, general sales manager.

"When the annual automobile show opens this fall, the spotlight will be on Buick because of this distinction," R. R. McEwen said. "According to the information from Mr. Hufstader, 'choice of space is granted by the Automobile Manufacturers' association, which sponsors the New York show, on the basis of the dollar volume of sales by members of the association during the 12 months ended May 1. By virtue of having achieved the third greatest dollar volume during the period, Buick wins the right to one of the choicest display spaces in the great exposition hall."

McEwen said the Buick shift to third position will constitute the major change in arrangement of displays at the National Automobile show this year. Buick climbed to its present place from sixth position last year, he said.

ATTEND SESSION AT SAN ANGELO

Dr. J. R. Cunningham and Dr. C. C. Carter attended the mid-summer meeting of the West Texas district Osteopathic Society of Physicians and Surgeons in San Angelo Wednesday.

Dr. Cunningham, president of the society, presided at the meeting and served as toastmaster at the banquet session. Dr. Carter read a professional paper.

Representatives were present from Big Spring, Marfa, Sweetwater, Abilene, Brownwood, San Angelo and other points. Next meeting goes to Marfa November 22-24, when osteopaths from other districts and states will hold a joint parley.

First-Half Business Was Mostly Bad, But Late Spurt Gives Strength To Belief That The Worst Is Now Over

Govt. Spending Means Many New Orders

NEW YORK, June 30 (AP)—Mid-year finds higher prices for securities and staples chasing gloom from the business arena.

New Year's prophets of a spring recovery from the abrupt slump of last autumn, had red faces when May rolled around, and business was flat—statistical barometers showing industrial production the slowest in nearly four years.

But things began to happen in June. Stirrings—not very brisk, to be sure—appeared in several quarters. The volume of merchandise moving over the railroads increased a little. Steel and cotton mills accelerated a bit.

There were a series of price increases in such raw materials as lead, zinc, export copper, rubber, hides.

In the third week of June, a sudden wave of bullishness swept over the stock market.

Stocks Reduced

What was happening? An extremely dull summer had been anticipated in many business quarters. General Motors announced its summer shutdowns for model changes would be three weeks longer than usual.

Some saw an important clue in an announcement by the department of commerce that wholesalers stocks of merchandise on June 1 were 14 per cent under a year previously.

Heavy building up of inventories—manufacturing more goods than could be sold—in the earlier months of 1937 was recognized last autumn as a basic cause of the slump. What surprised many was now slowly they were worked off.

Most business barometers, aside from residential building, have not come back very far. The seasonally adjusted index of freight movement for the latest week was 57.7 per cent of the 1929-30 average, in surveying the first half of 1938, say the recent improvement can only be taken as a hopeful indicator.

Also, the resumption of pump priming brought no uniform chorus of applause, skeptics complaining that the previous experience with building stimulation, launched last autumn as an effort to stem the tide of depression, resulted in considerable liberalization of Federal Housing Administration lending.

Building did not boom, but during the spring became the outstanding major division of business to show substantial gains. In May, residential building contracts in the 37 states east of the Rockies, according to F. W. Dodge statistics, were the best for any month since June of last year, and came within one per cent of May, 1937.

Two Sides To The Question

New Deal spokesmen attributed the slump to "highly undesirable practices" accompanying the rapid recovery in 1936 and 1937, including speculative and speculative manufacturing for inventory, unwarranted price boosting, "monopolistic practices." The administration planned an exhaustive study of monopoly.

Industrialists continued to complain of New Deal controls, insisting that they inhibited business enterprise, blocked the flow of capital, imposed cost rigidity, kept business in a state of uncertainty.

Progress toward composing differences was made on some fronts. Federal tax laws, on which many business leaders jumped as a major cause of depression last autumn, were sharply modified. President Roosevelt thought the new measure let big fellows off too easily, but permitted it to become law.

Depression—Recovery—Recession is clearly traced in the above chart measuring the tempo of industry. Each is based on The Associated Press Index, with 1929-30 as 100. The narrow revival in rail-

road freight carloadings, compared with the boom in steel mill activity, is held by analysts to be a key to the present precarious financial condition of many roads.

without his signature, and called for fresh revision in 1938.

Reforms In Stock Exchange

The New York Stock Exchange, with S.E.C. Chairman Douglas' warning to "clean up or else" ringing in its ears, and rocked by the Whitney fiasco, accepted sweeping reforms in its administrative machinery, leading the SEC chairman to predict an end of "cracking down" on the big securities mart.

The TVA to some extent appeared power interests in a movement to buy out, rather than run out, privately-owned properties.

Railroads were helped somewhat by an I.C.C. grant of increased freight rates, expected to yield more than \$200,000,000 annually in increased revenues. But the rail managements found this inadequate and proposed a 15 per cent cut in wages, in the face of firm opposition from the Brotherhoods.

Building Does Better

Utilities and railroads are among the largest users of heavy materials and possibilities of stimulating these industries to expand and renovate their equipment were widely surveyed when the slump began last fall. The curtailment of business, as the slump continued, however, tended to offset all that was done to encourage these normally big buyers.

The other big consumer of heavy materials is the building industry, and here the results of recovery efforts were more encouraging. The administration's program of building stimulation, launched last autumn as an effort to stem the tide of depression, resulted in considerable liberalization of Federal Housing Administration lending.

Building did not boom, but during the spring became the outstanding major division of business to show substantial gains. In May, residential building contracts in the 37 states east of the Rockies, according to F. W. Dodge statistics, were the best for any month since June of last year, and came within one per cent of May, 1937.

Further Testimony On Produce Firms' Trade Practices

SAN ANTONIO, June 30 (AP)—Defense attorneys prepared today for cross examination of Alvin Ballard, independent poultry dealer of Cisco, as a hearing was scheduled to resume on a complaint of the department of agriculture that seven packing and produce concerns engaged in unfair practices.

Ballard testified yesterday all available "cooler space" for turkeys and poultry was rented by Western Produce company, one of the defendants, in the fall of 1936, although the space was far beyond the company's needs.

He said additionally that negotiations were entered into by J. P. White, head of the produce company, Wilson and Company subsidiary, with small produce companies and turkey dealers, in an effort to secure a monopoly for his firm in handling the 1936 turkey crop.

To Decide Soon On Loans On Products Held Off Market

WASHINGTON, June 30 (AP)—Agriculture department must make two policy decisions within the next few weeks that may strongly influence exports of cotton and wheat during the coming year.

The decisions will be on rates at which the government will make loans to producers desiring to withhold their crops from market.

Under "ever normal" granary storage provisions of the new farm act, the government is directed to provide such loans when surpluses accumulate or prices drop below 52 per cent of "fair" price goals set up by congress. Surpluses in both cotton and wheat are virtual certainties.

The law allows the department wide leeway in making loan rates. For wheat, it may be between about 59 and 86 cents a bushel, and for cotton between about 8.37 and 12.07 cents a pound.

Langer Concedes Defeat By Nye

FARGO, N. D., June 30 (AP)—Gov. William Langer today conceded the republican nomination for the senate in North Dakota's primary election to U. S. Sen. Gerald P. Nye.

The governor took this action when with only 114 of the state's 2,260 precincts missing the count stood: Nye 87,794, Langer 81,488.

At the same time Nye said he had informed Chairman Sheppard (D-Tex.) of the senate campaign funds committee that it would be necessary to investigate absentee ballots in only a few North Dakota counties.

Mrs. Frank Ricker and Mr. and Mrs. Dalton Ricker of Ranger are guests of Mrs. D. S. Orr this week. Ricker is to be one of the announcers at the radio this week-end. Mrs. Ricker is the mother of Mrs. Orr and Ricker is her brother.

STORMS TAKE LIVES IN MEXICO AREAS

MEXICO CITY, June 30 (AP)—At least six lives were lost, it was reported in belated dispatches today, in two Mexican states struck by disastrous wind and rain storms.

Rain-loosened earth killed six fishermen on an island in Lake Patzcuaro, famed Michoacan state fishing resort. The victims were trapped at the water's edge.

Widespread damage was reported at Acapulco, beach resort in Guerrero state, by a gale from the Pacific ocean.

Legion Chief Denied Chance To Speak

Education Group Won't Let Him Reply To Charges

NEW YORK, June 30 (AP)—Twice rebuffed, National Commander Daniel Doherty reopened today his cross-fire against critics leveled at the American Legion after his impromptu platform appearance resulted in the abrupt ending of last night's session of the National Education association's annual convention.

Ready to answer critics who charged the Legion was "fascist" and attempted to control NEA activities, Doherty was denied permission to speak by Miss Caroline S. Woodruff, retiring president of NEA.

She ordered the meeting ended after it heard Mayor LaGuardia, a legionnaire himself, plead for reduction of illiteracy.

Earlier yesterday, Mrs. J. K. Pettengill, presiding at another NEA session, refused to permit Doherty to speak to her group, declaring it was devoted to "purposes of education" and that his subject was "beyond the scope" of the discussion.

After the night meeting Doherty proceeded with plans to address the delegates today at the Hippodrome. A thesis written by Prof. William Gellermann of Northwestern university and issued by the teachers college of Columbia university on the eve of the convention's opening

charged the Legion attempted to dominate NEA activities, was "fascist" and was manipulated by a small group serving special interests.

Doherty said Legion records indicated Gellermann was a member of the Kent (Wash.) post of the Legion.

GARDEN CITY STUDENT ON HONOR ROLL

STEPHENVILLE, June 30—Fred Rodway of Garden City was named an honor student at John Tarleton college today in a report released from Registrar Charles E. Wilkins' office after reports of second preliminary grades were in.

Fred was included on the semester honor roll. Honor roll students are required to make 80 grade points during the semester. He was a senior in agriculture.

The individual mess kit of a soldier in the U. S. army consists of one tin cup, knife, fork, spoon and meat-can.

"Kellogg's RICE KRISPIES beat any clam deck!"

SO CRISP they crackle in milk or cream

That's the sound that gets them up—hungry! Children eat Kellogg's Rice Krispies without coaxing—and come back for second helpings! Because these tasty bubbles of toasted rice are so crisp they crackle out loud in milk or cream!

Rice Krispies are always ready to serve. Sold by all grocers, served by restaurants. Made by Kellogg in Battle Creek.

RODEO TIME IS HERE AGAIN

Big days of the year, in a celebration sort of way, soon will be with us again. The Independence Day period has been developed into a red-letter occasion for Big Spring, thanks to the steady growth of the rodeo and cowboy reunion. This event, conceived and planned along by only a few of the community's leaders who were interested in furthering a project to keep alive the spirit of the open range, has "caught on" with the general public in recent years, and has expanded into one of the major events of its kind in West Texas.

There is every indication that this year's show, opening Saturday to continue three days, will be "bigger and better" than ever.

That the community as a whole is joining in promotion of this recreational attraction for Big Spring is shown in the extensive plans developed this year to bring crowds to the city and keep them entertained while they are here. There will be, for instance, a parade, the first in many years, on Saturday afternoon, as the opening feature; programs and recreational facilities at the city park, including a bathing beauty revue, golf, tennis and softball matches.

The big attraction is, of course, the rodeo. Still a prime favorite with West Texas people, the arena contests of roping, riding and bulldogging will offer thrills and excitement for thousands.

The men behind the rodeo association have spent additional sums this year in keeping with their aim of making the rodeo one of the major events of its kind in the state. Never have they made money on the enterprise, having plowed back the profits—if and when—into the building of the rodeo. Storms this spring have entailed an unforeseen outlay, and big crowds will be necessary this weekend if the association is to avoid going "in the red."

Nevertheless, there will be a show of top rank, one in which the customers will not be disappointed. Big Spring has arranged an interesting and entertaining program for the holidays, at the rodeo arena, and elsewhere in the city. All West Texans are invited to drop in for awhile and find themselves some enjoyment. All Big Spring citizens are urged to join in the festivities and help play host to the many visitors.

Be seen! You at the rodeo.

FLASHES OF LIFE

By the Associated Press

He Didn't Forget
ST. LOUIS, N. C.—When occupants of a big motor car drove away from a drug store without paying for their drinks, Soda Clerk Tom Wilson commented dejectedly he'd have to "charge it to experience."

But several days later the car came back.
 Out stepped Guy, Clyde R. Hoey, who planked down the cash with the explanation, "I had a lapse of memory."

No Sale
LOS ANGELES—William Zion, 53, waited till Street Car No. 1324 came along.
 He boarded the car, showed a bill of sale to the conductor for No. 1324, and demanded his property.

The conductor referred Zion to the police bureau desk which now seeks the "salesman" who took Zion's \$100.

High-Voltage Sparking
SPOKANE, Wash.—A pair of lovebirds pigeons rubbed beaks—precisely—4,000 Spokane homes went lightless.

B. M. Merrill, superintendent of the Washington Water Power company, said he believed the birds had attempted their bank-robbing while perched on parallel high tension wires. A short-circuit resulted.

Washington Daybook

By Preston Grover

WASHINGTON—There is such downright apportion among some of the "older statesmen" to the administration's foreign policy that the attempt made to get the senate to endorse even its criticism of civilian bombing was all but snowed under.

Few in the senate doubted that Chairman Pittman of the senate foreign relations committee was working in close cooperation with the state department when he introduced a resolution proposing to "approve of the sentiments expressed by the secretary of state" in denouncing bombing of civilian populations.

To Secretary Hull it would have been valuable as lending senatorial weight to his recognized efforts to bring aggressor nations to heel. Two senate elder statesmen, Borah of Idaho and Johnson of California, opposed the first draft of the resolution on two grounds, first, that it endorsed a "foreign meddling" gesture of the state department, and second, that it called for a senate study of the question of bombing problems was eliminated, leaving a mere 15-word condemnation of civilian bombing.

Johnson denounced the proposed study as an effort to have the senate draw conclusions about the war in the Orient. With that, he said, "we would be on the way to the war."

Senator Clark of Missouri, who joined the two "elders" when the bill was debated, called it "smug hypocrisy" to condemn bombing at the same time the country continues to permit bombs, planes and war materials to be shipped to the "certain Oriental nations" responsible for the bombings.

Critics argue that in the same hour the administration deals harshly with dictator nations with one hand it makes palliative gestures toward them with the other. The state department and its defenders refuse to accept any such interpretation of the policy and only recently a careful analysis by skilled observers indicated the department's policy is designed to "keep the aggressor nations guessing."

Airing In Order
 Secretary Hull has not concealed his view that the United States must take a positive position to make its weight felt in international affairs.

The Borah-Johnson camp, with emphatic power in the congress, argues that any policy which commits the country to one side or another of any international question is a policy leading to war. Isolation from foreign complexities is their view of the best way for the United States to encourage peace.

One critic says the country is already so committed to following British policy that the state department "bows each morning to London as devoutly as the Arabs bow to Mecca." Again, Secretary Hull has an answer for that. He asserts that coincidence of British and American policy is merely "parallel" action and not action together by agreement or compact.

One thing increasingly evident is that if the European and Japanese-Chinese issues continue acute the two views will have a big airing in the new congress.

Man About

Manhattan

—by GEORGE TUCKER

NEW YORK—Sometimes one loses sight of the fact that Manhattan is an island and New York a port, and that this metropolis would not be here if it were not for river and ocean.

But there is one man in this community who never forgets it for a single minute. He is your ship news editor. Every time a vessel leaves Quarantine and Sandy Hook, watchers relay the word to him on a ticker next to his desk. Sometimes as many as 20 vessels clear in a couple of hours, and he has to hustle to check on where all are going so that their destinations may be accurately reported to the newspapers.

The big passenger ships are easy: everyone knows where they are going. But most of the clearances are coastwise vessels and empty tankers bound for Texas oil ports and some are cargo ships which, before they return to New York, will visit distant ports which most of us will never see. The ship news editor follows these ships around the world. Every day he receives cables relayed through Lloyds of London giving him the present whereabouts of the ship which cleared the Hook three weeks ago....perhaps at Laurence Marques (that's on the East Coast of Africa), or at Colombo (that's in Ceylon).

It must be an interesting pastime, if you are at all ship-minded, to have the whole mystery of the sea trying in the hollow of your hand. Incidentally, New York is soon to have the 12th annual International Lifeboat race, right here in the harbor, which is something

if you are at all ship-minded, to have the whole mystery of the sea trying in the hollow of your hand.

Incidentally, New York is soon to have the 12th annual International Lifeboat race, right here in the harbor, which is something

if you are at all ship-minded, to have the whole mystery of the sea trying in the hollow of your hand.

Incidentally, New York is soon to have the 12th annual International Lifeboat race, right here in the harbor, which is something

SCOUT CAMP NOW IS SLATED FOR JULY 7 AND 8

District camp for the Boy Scouts of the Big Spring district of the Buffalo Trail council will be held at the Fisher ranch, nine miles south of Big Spring, July 7-8, A. S. Darby, camping and activities chairman, announced Thursday after two previous camping dates had been postponed due to conflicting activities.

The camp will open at 9 a. m. July 7 and will terminate at 5 p. m. the following day. Troops from Big Spring, Coahoma, and Stanton are expected to take part.

In advance of the camp, a board of review will be held here Friday evening and a court of honor at the night session of camp.

Regular monthly board of review will be held as usual on July 12, it was announced. At the district camp plans for the council camp, July 26-August 16, will be talked.

GREGORY HATCHER QUITTING RACE

DALLAS, June 30 (AP)—W. Gregory Hatcher, who was definitely

listed as a candidate for railroad commissioner only a few weeks ago, announced yesterday he was withdrawing from the race.

He gave as his primary reason "financial inability to meet the enormous increased costs of making a state race; and said he would communicate with county democratic executive committee chairman, asking his name not be printed on the official ballot.

Hatcher said he would vote for John Wood for commissioner.

MISSING YACHT IS SOUGHT BY PLANE

NEW ORLEANS, June 30 (AP)—An airplane search was made today along the Gulf coast for a 38-foot auxiliary yawl, the "Artemis," reported stolen Tuesday from the yacht basin at Galveston, Texas.

The yacht was valued at \$10,000 and was owned by Harry Hawley, Jr., retired business man of Galveston. Hawley said in a telephone call from Galveston that his yacht was fully equipped and provisioned for a cruise along the Gulf coast to Florida.

He chartered an airplane from New Orleans to search the coastline between Galveston and New Orleans.

ONE OF BRITAIN'S 'GLAMOR BOYS' IN THE SPOTLIGHT

LONDON, June 30 (AP)—Occupying the spotlight in Britain's "official secrets" drama in common is 30-year-old Duncan Sandys (pronounced Sands).

Tall, red-headed and handsome, he is the leader of the house of commons "glamor boys"—a group of good-looking younger members who are champions of the former foreign minister, Anthony Eden.

Educated at Eton and Oxford, Sandys studied law but entered the diplomatic service in 1930 and served at Berlin and the foreign office in London. He resigned from the service in 1933 to enter politics.
