## Rangers Go to Hereford Friday Night for First District Game

The Rangers go to Hereford Friday night for their first conference game, and are expected to win by a substantial margin. Whitefaces have won three of the last two games this year, and the Rangers have lost five of the last six games.

Coach Lewis Emerick will lead an entirely different backfield made up of four sophomores who have been playing in line for the first five games. They are Don Dietrich, quarterback; J. B. Langwell, fullback; and Lovett and Dick Haar, halfbacks.

Wickey Huston has been put at left end, Alfred Carter at right guard, and Bill Evin will start the game at center.

In practice this week, the team has been running the straight formation, with emphasis on

power plays. Lovett, Haar and Langwell have been plunging into the line, with Dietrich throwing passes.

Emerick said Wednesday that he intends to experiment with his backfield until he finds some combination that can gain some ground, using boys with one or more years of playing experience left.

In practice this week, there have been two seniors, two juniors, five sophomores and two freshmen in the starting lineup.

## Twenty-One to Take Physical Examinations

Another call has been received by selective service board 99, serving Ochiltree, Hemphill, Lipscomb and Hansford counties to send men for physical examination on October 25. There will be 21 men examined on that date from the four counties.

Nine men were inducted into the armed services on October 12 and another eight men will be inducted on November 10.

The 21 men to be sent for physical examination will be taken from the following:

Charles N. Rogers, Canadian; William R. Lee, Spearman; John C. Bernison, Canadian; Edward Dean Hazel, Perryton; Thomas J. Bergin, Gruver; Jimmy R. Schaefer, Glazier; Elmer L. Mandak, Folett.

Billy Joe Adcock, Canadian; Billy Lee Johnson, Perryton; Billy Gene Goodson, Spearman; Boyd Huff, Allison; Jim Newton Lamb, Perryton; Jimmy W. Rogers, Booker.

Albert E. Sparks, Spearman; Sam E. Wyant, Briscoe; William C. Andrey, Folett; Thomas M. Gafford, Perryton; Benny Ginter, Booker; Max A. Clawson, Gruver; Max E. Replogle, Perryton.

## Special Meeting Of Equity Set

A special meeting of the stockholders of the Equity has been called for Wednesday, Oct. 25, at the district court room. The meeting will begin at 1:30 p. m.

Amendment of the present by-laws will be considered, and other business will be disposed of at this special meeting, Aldon Bell, Equity manager said.

**PAINT SHOP FIRE**—The interior of this building was badly damaged Thursday in a fire which started when an automobile backfired. A. W. Belt, owner of the shop, was pouring gasoline into the carburetor of the car and as O. C. Rickard stepped on the starter, flames shot out and set the gasoline on fire. The automobile was badly damaged, and the fire spread rapidly throughout the interior of the building. No one was injured.

## Over 1,100 Sign Freedom Scroll

Approximately 1,100 citizens of the Perryton area have signed the Freedom Scroll, being circulated by the Perryton Jaycees as part of the nation-wide "Crusade for Freedom." Texas has set a goal of 500,000 signatures for the Crusade and Oct. 24 is the deadline for sending in the scrolls to state headquarters. All signatures will be inscribed into the base of the Freedom Bell which is to be placed in Berlin.

## General Election Ballots Delivered To County Clerk

Official ballots for the November 7 general election have been printed and delivered to county clerk Sue Ragan. Absentee voting began Wednesday and will continue until three days before the election.

The ballots this year are smaller this time than two years ago, because there are no constitutional amendments to be voted upon. There are only four columns of candidates this year, compared to eight columns in 1948.

There are candidates from the Democratic, Republican and Independent parties, plus a write-in column.

Ordinarily, voting in the general election is light, but it is expected to be heavier than usual this year because of the high interest in the race for U. S. Congressman from the 18th District, Republican Ben Guill, the incumbent, is opposed by Walter Rogers, Democratic party nominee.

## JUST HERE and THERE

A two legged skunk is on the prowl in Perryton. Two pet dogs have been poisoned recently, dogs that were treasured by their owners, Adrian Thomas and Walter Holmes.

It just happened that both of these dogs were fairly valuable dogs . . . but even if they had been the lowest kind of a mangy alley cat, they would stand much higher in our estimation than a cowardly dog poisoner.

Wayne Bryan, who lives down in the southwest corner of the county, made a pretty good wheat crop this year. We just heard of it the other day and it's really outstanding in this year of almost a total failure. He harvested an average of between 12 and 13 bushels of Wichita and Westar from a 490 acre field. The wheat which was drilled in the stubble about the middle of last Sept. missed the green bug infestation. It suffered some from heavy rains and hail. Wayne attributes his good yield to the fact that he was not pasturing the field at the time the green bug infestation started.

## Approval Granted for 11 PMA Soil Conservation Practices

Approval has been granted for eleven soil conservation practices in Ochiltree county for which government assistance will be given, reports Elliott Lee, county PMA secretary. This committee with 17 approved practices in effect last year.

The county PMA committee requested only the eleven which were approved by the state committee, Lee said.

Application for payment on these soil conservation practices must be made before work is begun in order that funds for payment may be set aside.

Approved practices for the coming year include:

## Parking Meter Poll Scheduled By City Council

A post card poll is being conducted by the city council to determine the public feeling toward the parking meters, which have been in operation for about four months.

When the meters were installed, the council announced that if public reaction were strong against them at the end of six months, the meters would be taken out and if the public liked the meters, they would stay in.

Now the council would like to know the opinions of the people of Perryton and the trade territory about the parking meters.

While the meters were installed primarily to ease the parking situation on downtown streets, they have proved to be an added source of revenue for the city treasury, bringing in about \$40 per day. This money is spent on street maintenance and for other city uses.

Results of the poll will be announced in a few weeks, after the cards are mailed and returned.

## Ticket Sale for Virgil Show Is Going Strong

Advance ticket sales are going strong for the Virgil magic show, scheduled at the school auditorium on October 28, sponsored by the Lions Club.

Appearance of the great illusionist, one of the top figures in the entertainment world, will be the first appearance in Perryton of such a top-flight artist.

Virgil carries with him \$100,000 worth of equipment and presents as many as nine mysteries in the course of three minutes.

Opening with such feats as conjuring ghosts, and appearing in a puff of smoke, snatching birds, flowers, silks, and rabbits from thin air, and catching live goldfish visibly from the atmosphere Virgil goes swiftly into the more spectacular illusions, such as

## Twirlers Win Top Honors at Celebrations

Perryton Ranger Band twirlers won high honors at two celebrations during the past week.

Colene Schell was judged the most outstanding drum majorette from eleven participating bands in the Panhandle A. & M. College homecoming Saturday, October 14, at Goodwell.

Colene was presented a lighted twirling baton at the very impressive half-time ceremonies of the PAMC-Adams State football game. Earlier, the Ranger Band, with 66 members, marched in the street parade and competed in a marching contest. Laverne, Okla., was selected as the outstanding marching band.

On Monday, October 16, Sydney Slack, 10-year-old mascot of the Ranger Band, won first prize and a gold medal as the best twirler in her division in a contest at Borgers "Know Your Own Strength" celebration. Sydney was the youngest twirler in the contest, and competed against all the girls under 14 years of age. Phillips junior high twirlers placed second and third.

In the 14 to 16 year old division, Florence Hummer of Perryton received the silver medal for second place among 15 contestants. Dumas won first and Phillips third in this division.

## Attend Peace Officers Meeting

Sheriff Ray Phagan and deputy Clyde Tarbox attended the annual convention of the Five-State Peace Officers Association held Thursday at Dalhart.

Tucumcari, N. M., was selected as the site for the 1951 meeting.

## Harvest of Grain Sorghums Gets Under Way In County

### Combine Peak Expected After First Frost

Cutting of Ochiltree county's 1950 grain sorghum crop has started, but combines will not get into full swing until the first frost. Harvesting started Friday, and there are loads of grain moving into town every day during the warm, dry weather.

At the Equity Tuesday, it was reported that approximately 100 loads of milo had been received, most of it the Martin variety. Moisture content was low enough to qualify for storage, although some of the earlier grain had been turned down on that account.

The storage situation is not so good in the county, in spite of the 1950 wheat crop failure. Wheat from previous crops still take up the bulk of the storage, and there is a severe boxcar shortage to hamper moving any grain out.

Some high yields have been reported in the grain sorghum harvest, ranging from 50 bushels per acre to 75. J. S. Slaughter, on his farm about six miles south of town, is reported to have had a 75 bushel yield, with several reports 50 to 55 bushels of milo.

November is expected to be the peak month for grain sorghum harvest, after the frost. Continued dry weather could start combines humming sooner, however, if the grain and stalks dry out enough for harvesting without getting too much moisture in the grain.

## Golf Club to Meet Monday

A meeting of the Perryton Golf Club has been called for Monday night at 7:30 by Carroll McClung, president of the club.

The meeting will be held in the directors room of the First National Bank and members are asked to enter by the north door of the building.

Incorporating the club will be the principal item of business. A report of the finance and greens committees will be heard at this meeting and plans discussed for a city golf tournament, McClung said.

## X-Ray Survey To be Held On October 27-30

Arrangements have been completed for the free X-Ray tests to be made by the State Department of Health in Perryton on Friday, Saturday and Monday, October 27-28-30. The X-Ray survey will be made between the hours of 9 a. m. and 5:30 p. m. in the Perryton Furniture Co.

The survey is made without cost or obligation, being financed by tax money. The pictures are made in a standing position and only about two minutes of time is required.

The survey is similar to the one made two years ago in Perryton when 2,004 persons were examined and several cases of tuberculosis were discovered.

Mrs. R. B. Traylor is chairman of the county-wide survey, which is sponsored by the Parent-Teachers Assn.

**NEW CASH PLANT**—Lee Little, secretary-manager of the Chamber of Commerce, is holding some safflower plants that came from the Virgil Devers farm this year. The safflower plant is being boosted locally as a cash crop for the Perryton area and a meeting has been set for November 15 by the Farm Bureau and C. of C., when an expert will tell area farmers more about it.

## November 15 Is Set As Date for Farm Bureau Safflower Meet

Wednesday, November 15, has been set as the date for the annual Farm Bureau meeting and also the five-county meeting to hear Dr. Leo Christensen, Neb. agronomist, discuss the prospects of growing safflower in this area.

Dr. Christensen is vice president of Western Solvents, Inc., a safflower processing company at Longmont, Colo. Albert M. Lane, president of the company, will also be in Perryton for the meeting.

County agents, farmers and business men from Ochiltree, Hansford, Lipscomb, Beaver and Hemphill counties have been invited to the meeting.

It is proposed that farmers in the area plant small acreages of safflower to find out what kind of yield it will make and how profitable the crop actually can be. Safflower is grown extensively in Nebraska and Colorado.

## PTA to Meet Monday Night

The Perryton Parent-Teachers Association will meet Monday night, October 23, at the school auditorium at 8 o'clock.

A motion picture, "Family Circles," will be shown and there will be a door prize for the class having the largest representation present at the meeting. The winning class will also be given an extra school party.

All officers and committee chairmen of the organization are urged to be present for the executive board meeting at 7:30 p. m. in the auditorium, preceding the regular meeting.

## Angus Sale Set For November 20

The Aberdeen Angus Breeders of Perryton and the Panhandle will offer their 1950 commercial calf crop at public auction at the Perryton Sales Pavilion on Nov. 20.

Also included will be bred heifers and 25 registered bulls. Several hundred head of Angus cattle from the better known herds in the area will be sold and buyers are expected from a wide territory.

## Guitar King to Hold Services at People's Chapel

**BALCO JOURNALISM CLASS**—These members of the journalism class at Balco visited the Herald Wednesday and learned how a newspaper was made. Above, the class is watching Raymond Overbey, newspaper foreman, as he sets type on the new Intertype machine.

## West Services to Be Held Today at Boxwell Chapel

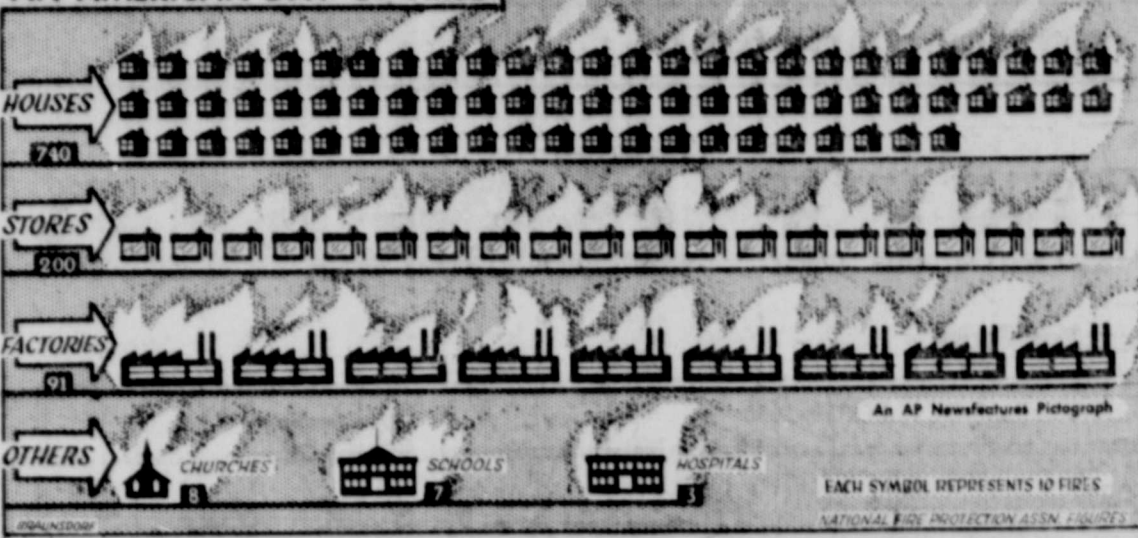

Funeral services will be held Thursday afternoon at the Boxwell Bros. chapel for Willie Calvin West, who died Tuesday morning. Mr. West was working at the Canadian Truck Line building, formerly the VFW hall, and had been on the job for a short while Tuesday morning when stricken by a heart attack. He died almost instantly.

He had lived with his family in Perryton for the past four years. He was 63 years of age.

The services will be held at 4 p.m. and Rev. John J. Kirkpatrick, pastor of the People's Chapel, will officiate.

Survivors include the wife, Cordie; five sons, Hershel of Perryton, Cecil and Erick of Modesto, Calif., J. D. of Pauls Valley, Okla., Marshal of Stigler, Okla.; three daughters, Wanda West of Perryton, Mrs. Elbert

## Ex-Students Of WTSC to Hold First Meeting

A meeting of alumni of West Texas State College will be held Thursday night at 7:30 o'clock in the directors room of the First National Bank. Otis Burk will preside at the meeting.

Purpose of the meeting is to organize an active ex-students association in this area. Plans have been made to secure football motion pictures of West Texas State College games for future meetings. Arrangements are being made for ex-students to secure tickets to the Buffalo basketball games this winter.

There are approximately 50 ex-students in the area who are eligible for membership and all are invited to the meeting.

Herald Classifieds get results.

## Youth Rally Held At Balko Church

**BALKO**—Approximately one hundred fifty persons attended a youth rally at the Balko Apostolic church Monday night.

Rev. Salzman, Baptist minister of Meade, Kansas, and the Rev. Waple Ferguson, Apostolic minister also of Meade were visitors.

Gerald Morehead, president, presided at the meeting. Special program numbers were given by young people from Spearman, Hardesty, Perryton and Midway.

Elmer Russell, who is conducting a revival in the Balko Apostolic church, delivered the message.

The next rally is scheduled for November 8 in Spearman.

## Legion Delegates Are Announced

Delegates to the fall convention of the 18th District, American Legion have been named by Bill Wilson, Pierce Johnson Post Commander.

They are Walter LaMaster, John Schollenbarger, Tom Davis and Robert Barlow.

Alternates are E. W. Thomas, A. R. Hogland, Harold Frank and Virgil Olmstead.

The convention will be held on Saturday and Sunday, November 11-12, in the Legion Hall at Shamrock.

## Explorer Scouts Paint Parking Meter Spaces

Parking meter spaces on Perryton's Main street have been painted by the Explorer Scout Post 55, under the supervision of leader Troy Sullivan and city employees.

The spaces are painted in yellow, extending diagonally into the street.

Boys who worked on the project are Larry Johnson, Richard Bennett, Arch Brashers, Larry Bell, Bobby Jones, Bobby Wilson, Virgil Case, Wiley Clark, Harvey Joe Holdeman, Charles Scott and Billy Bowen.

The Explorer Scout Post is sponsored by the Jaycees.

## Yugoslavs Twist Air Drop Sory

**BELGRADE**—A new story has been circulating in Yugoslavia as an aftermath to Russian reports—in the face of a poor crop—that the United States has been dropping potato bugs over Eastern Europe to destroy the harvest.

"Now," so the satire goes, "the Americans are dropping potatoes to feed the bugs."

Mr. and Mrs. Dean McCutcheon and Bobby, returned Friday from a two weeks visit with friends at Franklin, Tenn. Dean's brother, Major Howard McCutcheon, stationed at Fort Knox, Ky., was also a guest at Franklin.

# INDEX OF TEXAS BUSINESS ACTIVITY ADJUSTED FOR SEASONAL VARIATION 1935-39=100

**TEXAS BUSINESS INDEX**—Texas business activity, as measured by the University of Texas Bureau of Business Research, showed a strong gain in August over both the previous month and the same month last year. After adjustment for seasonal variation, the Bureau's index of business activity rose three per cent from July to reach 250 per cent of the 1935-39 base period in August. One year ago the index stood at 193. With the exception of a three per cent decline for miscellaneous freight carloadings, all of the seven components of the composite index increased over their July levels. (U. T. Photo Chart)

**VISITOR FROM HOME**—Pecos County, Texas, draftees received a visit from this 1200 pounder who was on his way to the American Royal Livestock Show in Kansas City, Mo. ## Marine in Korea Sends 'Ko-Red' Leaflet Here

L. V. Noe of the Blue Mound community recently received a North Korean propaganda leaflet from his son W. O. Louis L. Noe who is serving with the U. S. Marines in Korea.

The leaflets, printed in both English and Korean and bearing crude photo-engravings of troops which have been captured by the North Koreans, urge the UN forces to surrender in "full confidence."

"So long as they (the South Koreans) oppose us in their folly, the Korean's People's Army will pursue them mercilessly until the bitter end of their total annihilation. But if they show sincere repentance of their unlawful and unjustifiable acts and revolt on the side of the People's Army or surrender to them, they will be received with the utmost warmth, humane-ness, and brotherly feelings," the leaflet continues.

The leaflet speaks of the "Thousands of the so-called Korean National Army officers and men and the several hundred of the U. S. forces, who have surrendered in rapid succession to the People's Army, and are be-

ing warmly protected and given good accommodations and are being reoriented in mental culture by means of lectures and recreational facilities."

W. O. Noe has served in the Marine Corps for 22 years enlisting at the age of 18. He served in the Nicaraguan campaign and in World War II. He participated in a large number of the Island campaigns in the Pacific with the Sixth Marine Division in World War II.

He attended school at the Blue Mound school near here and was employed by J. O. Carter before enlisting in the Marines. He is married and has two children, Steve, 6, and Tony, 1½.

## GOA Iron Goes Begging

GOA, Portuguese India (AP)—An estimated 70,000 tons of iron ore have piled up here because of a sudden fall in foreign demand.

The decline in exports is attributed to foreign competition, failure of Goan exporters to furnish guarantees to importers, and unfavorable rail rates in Goa. The press here is campaigning for government assistance to counteract competition and provide all possible facilities to exporters.

Goa's exports of manganese, an important dollar-earner, have not been affected. The iron-exporting industry is relatively new here.

## Brazilians Total Fifty Million

RIO DE JANEIRO (AP)—Brazil has been counting noses and it seems that they will run close to 50,000,000.

The 1950 census count ended early in July but definite results will be known in a few more months. There is enough information on hand to estimate the country's population at near fifty million and to give first rank to Rio de Janeiro as the biggest city. The count for Rio is over 2,250,000.

Sao Paulo grew amazingly but it is still number two with 2,200,000. Recife, in the northwestern state of Pernambuco, is third with a dash over half a million. Porto Alegre, in southern Rio Grande, is fourth with 372,000.

## British Printers Study U. S. Methods

LONDON (AP)—British printers are sending a delegation to the United States next year to study lithographic printing methods. The visit has been arranged by the Anglo-American Council on Productivity, which was set up by the British and American governments. Its aim is to help the British learn some of America's industrial know-how.

The British Federation of Master Printers announced the appointment of Capt. Charles Birchall, chairman of Charles Birchall and Son, Ltd., of Liverpool, as head of the delegation. Other members have not yet been appointed.

## One-Man Strike Distrubs Town

ROME (AP)—A one-man strike causes great inconvenience in San Vito al Torre, a 1,500-inhabitant hamlet in northeastern Italy. The striker is Ferdinando Miani, 70, sexton and church clock winder, who struck for a pay increase.

The town's clock on top of the belfry is stuck on \$345. Laborers sleep late in the morning, husbands arrive home late for dinner. All this for Ferdinando's strike. Explaining why he asks a pay increase, Ferdinando said: "How can the mayor expect a man of my age and skill should climb 250 steps daily for \$1.10 a year?"

## Services Held Friday for Mrs. Anna Hill

Funeral services were held Friday afternoon at the Booker Methodist church for Mrs. Anna May Hill, who died Tuesday evening at the L. T. Adelman home. She was 86 years of age.

W. C. Bryan of Perryton and Rev. H. C. Secord of Booker conducted the final rites.

Interment was at Supply, Okla.

**Obituary:**  
Anna May Wimoth, daughter of Leven G. and Elizabeth Wilmoth, was born Sept. 20, 1864 in Ohio.

Her parents moved to Vernon county, Missouri, when she was eight years old and she lived there until she grew to womanhood.

She was married to James Hill on February 15, 1882 at Ball Town, Mo., where they lived until 1902 when they moved to Woods county, Okla.

In 1905 they moved to Beaver county, where she lived until her death.

To this union three children were born. One daughter, Mrs. L. T. Adelman, preceded her mother in death in 1943. Mr. Hill died in 1933.

She united with the Methodist church at LaKemp in 1915 and remained a faithful Christian throughout her life.

Survivors include one daughter, Mrs. A. M. Summers, Rich Hill, Mo.; a son, Otto J. Hill, Booker; two sisters, Mrs. Bertha Hughes and Mrs. Norah Bridgeford, both of Girard, Kansas; seven grandchildren, seven great grandchildren and two great-grandsons.

Mr. and Mrs. Lester Ward and family spent the week end visiting in Shamrock. Her brother, Jack Whitten, who recently moved from here to Shamrock, is convalescing from an appendectomy.

Mrs. Orville Crain, Mrs. Dean Leighnor, Mrs. H. N. Elledge and Mrs. J. R. Stump attended county choral practice at the home of Mrs. James Hardy Monday.

J. R. Stump was an Amarillo visitor Tuesday.

Mrs. Jr. Dunnihoo, Mrs. C. J. Frantz, Jr., and Mrs. Herman Wiebe, who are members of the program committee of the Waka P. T. A., met Monday with Mrs. Wiebe to formulate the programs for the year. The year books will be ready for distribution Friday night at the P. T. A. meeting.

Sunday night at church, Wilma Fletcher gave a very interesting and educational account of her European trip during last summer. She showed Kodachrome slides taken in Europe assisted by Twilla Stoll.

The first meeting of the Church Board was held Tuesday evening at the church to formulate further plans for the coming year.

## WHAT A RELIEF From Rheumatic Muscle Pain!

Now you can get quick-action, temporary relief from local superficial pains of rheumatism, lumbago, neuritis, bursitis, sciatica, arthritis as well as fatigue and muscular aches and pains of simple colds with the new ointment—SURIN—because SURIN is based on a new application of a principle. It contains an active modern research drug—methacholine chloride, a powerful ingredient to dilate surface blood vessels when applied at the point of pain. SURIN provides double action pain relief: (1) It increases blood supply (2) allows local, relaxing agents, camphor and menthol and local anesthetic to penetrate faster giving quick, temporary relief at the point of pain. In a few minutes you feel the soothing warmth from SURIN. Then follows blessed relief lasting 1 to 3 or more hours. No internal dosing—use SURIN locally. Not an ordinary rub ointment or liniment. SURIN has a new ointment base, creamy-white, smooth. Easy to apply. Will not stain washable fabrics. Quickly washes off in warm water. Money back at your druggist if not satisfied!

\*SURIN is not intended as a cure or treatment of above diseases. It is to be used only for temporary relief of local superficial pains.

# Stains?

Of Course You Can Get Stains On Your Garments!

## What Kind of Stains?

Ice cream, mustard, catsup, gravy, egg, milk, tea, coffee, fruit juices, soft drinks, and liquor are some of the major offenders in foods and drinks. Other stains occurring frequently are: road tar, ink, iodine, shoe polish, lipstick, deodorant, perfume, vomit, blood, glue, grass and paint.

## What to Do---?

**DO NOT PRESS** a fabric with stain. Heat sets stain.

**DO NOT RUB** with water, soap, or a cleaning agent. Rubbing chafes and may damage color.

**DO** have stains removed immediately. Many stains become permanent by the warmth of your clothes closet or bureau drawers.

## WHAT IT MEANS:

### Perjury Conviction of Reds

By CLAKE BEACH

WASHINGTON — Communists are learning that it's sometimes more dangerous to tell lies or to refuse to talk than it is to try to overthrow the government. Very few Communists have ever been convicted under statutes designed to curb subversive activities. A great many have been convicted of perjury, making false written statements or contempt of Congress.

This new wrinkle in the attack on American Reds recalls the similarly oblique approach which the government found effective in fighting the racketeers of the 1930s. The government knew pretty much about the

crimes of the racketeers—murder, extortion, blackmail, etc.; yet it seldom had enough evidence to convict them.

But when the Treasury Department went after them for income tax evasion, Al Capone and some of his peers were lodged behind bars for long terms. It curbed their criminal activities at least for the time they were in jail, and it inspired great respect for the income tax laws. Government agents have found that big-time bookmakers and gamblers today pay their income taxes with praiseworthy correctness.

The Federal government has about 28 statutes intended in one way or another to make subversive activities illegal—from the

Smith Act, which forbids conspiracies to overthrow the government by force, to the law which forbids mailing indecent literature. (Subversive literature is defined as indecent.)

The Communists are careful not to get caught violating these statutes. The only persons who have ever been convicted for Communist activities, as such, were the 11 Red leaders who were convicted recently in New York under the Smith Act.

Some notable characters, however, have recently been convicted of perjury (lying orally while under oath) or of making false written affidavits. Harry Bridges, president of the CIO Longshoremen's Union, was convicted in April in a West Coast federal court and sentenced to five years. He was charged with lying when he swore he never had been a Communist when he applied for citizenship papers in 1945.

Alger Hiss's conviction was for perjury in telling a grand jury that he had never given State Department documents to Whit-taker Chambers and that he had not seen Chambers after Jan. 1, 1937. Giving State Department documents to a Communist might have been grounds for an espionage charge against Hiss, but no such charge could be pressed because the legal three-year limit for prosecution had passed.

Persons convicted of lying under oath regarding Communist activity include Harold R. Christ-offel, a former president of a labor union at the Allis-Chalmers plant in Milwaukee; and Carl Aldo Marzani, a former State Department employee. Dozens of witnesses before Congressional committees who refused to say whether they were Communists have been convicted in the past few years. Since 1946 there have been 34 such convictions in Washington alone.

The act making contempt of Congress a crime was passed in 1857. There have been more convictions under that act in the past two years than all its previous history.

"What effect are these convictions having on Communists?" this reporter asked George Morris Fay, U. S. attorney for the District of Columbia. "These particular defendants will have a greater respect for congressional committees," Fay replied. "And the convictions should deter others from committing perjury or exhibiting disrespect for authority."

### Hitch Hikes 75,000 Miles

SINGAPORE (AP)—A husky, 36-year-old Swedish scoutmaster is working his way home as a cabin boy on the freighter John Bakke, after hitch-hiking 75,000 miles through 43 countries. Borge Jonsson left his home in the little town of Koping three years ago with \$600. It was stolen in Paris.

Nevertheless, he went on hiking, paying his way by doing odd jobs and working his passage whenever he had to take a boat. From Europe he went to Africa, America, South America, Philippines, Australia, Tasmania and New Zealand. He plans to disembark at Genoa and then hitch-hike across Europe. He expects to be home by this Christmas.

### Law-Navy-Church Is Woman's Career

REGINA, Sask. (AP)—Miss Allison Andrews with equal ease can preach a sermon, give a snappy naval salute or draw up a neat legal document. She has come to Regina to serve as assistant to Rev. Ray Hord, United Church minister in the growing Lakeview community.

Miss Andrews, born in Pictou, N. S., started as secretary in a law office in Halifax, she later joined the Navy and was overseas for 18 months.

She was graduated from the United Church training school for women workers in Toronto and for a year served as acting minister at Porcupine Plain, Sask., and also at Smeaton, Sask.

## Uncover Pagoda's Hidden Fortune

BANGKOK (AP)—Workers dismantling a ruined pagoda found an urn containing diamonds, emeralds, rubies, pearls and three gold necklaces worth a fortune. The pearls were described as "round as one's little finger."

The jewels, believed to have been placed there by ancient kings, were removed to the government Fine Arts Department.

Only about 70 old treasure ships have been approximately located.

## "Equity 20% Range Cubes Played Important Part . . ."

HERE'S WHAT OWNERS DICK BARTON AND DICK BARTON JR., LIPSCOMB COUNTY HAVE TO SAY: "Last May we purchased 52 plain stock heifers from the sale ring. They averaged just under 337 pounds. We started supplementing their pasture feeding with one-pound of Equity 20 per cent Range Cubes, gradually increasing the 20 per cent feeding to three-pounds. Our gain on these heifers averaged 363 pounds on October 10. We are convinced that Equity 20 per cent Range Cubes is responsible for the best gain we have ever had on plain stock cattle. We got this gain in spite of an extremely wet season on our pasture land."

## Fire Damages Paint Shop and Destroys Car

Fire did heavy damage to the building and equipment of the Body Shop paint building on S. Amherst Thursday morning before being brought under control by the fire department.

A. W. Belt and O. C. Rickard were attempting to start an automobile owned by Gene Fry, with Belt pouring gasoline into the carburetor while Rickard stepped on the starter. As the motor turned over, it backfired, shooting flame out through the carburetor and igniting the gasoline which sprayed over the car.

The flames roared out of control and both men ran outside to safety. A partially filled barrel of highly inflammable paint thinner caught fire, adding to the intensity of the flames.

The automobile was destroyed, and the interior of the building was nearly gutted by the fierce flames.

## Methodist Revival At Darrouzett To Open Friday

DARROUZZETT — A revival meeting will begin at the Darrouzett Methodist church Friday night, Oct. 20 and will close Sunday night, October 29, Rev. E. N. Scarlett, pastor, has announced.

Rev. H. M. Secord, pastor of the Boker Methodist church will do the preaching, and Wayne Clarke of Wichita, Kansas will direct the choir.

Everyone is invited to attend, Rev. Scarlett has announced.

Mrs. A. J. Kelly, Mrs. H. C. Brillhart and Mrs. Wilford Lance returned last Thursday from Denver, Colo., where they spent several days.

Misses Co'lene and O'Leane Yates, who are attending college in Denver, Colo., visited over the week end with their aunt, Mrs. F. L. Garrett.

## Eiffel Tower Draws Crowds

PARIS (AP)—More people than even are visiting the Eiffel Tower, Paris' famed landmark.

The big steel cloud-scraper attracted 1,143,000 visitors last year. This beat the 1948 total by 185,000 and the previous post-inauguration record of 1,025,000 visitors set in 1930. The 1985-tower was inaugurated in 1889 during the Paris International Exposition when a total of 1,968,000 visitors were counted.

All Paris grammar school children can take a free ride to the tower's observation platform—provided they bring along a certificate showing they passed their yearly examinations.

## Rest Of Lumber For Grandstand Due This Week

The remainder of the lumber for the grandstands at Ranger Field will arrive in Perryton this week and the new stands will be completed before the next home football game on November 3, superintendent Gilbert Mize said Tuesday.

The stands were to have been completed by September 1, but delay of the lumber has prevented the rest of the seating space from being finished. There are approximately 1,100 seats in the stands now and that has been sufficient for all games thus far.

TARRYTOWN, N. Y. (AP)—Syd Pollack, owner of the Indianapolis Clowns, says his star southpaw, Harry Butts, is being scouted by the Boston Braves. Butts recently pitched a one-hitter against the Philly Stars at Harrisburg, Pa. The Clowns are members of the Negro American League.

## YOUR GOLF GAME Relaxation Aids Rhythm

By HERMAN BARRON  
(Pro at Fenway Golf Club  
As Told to Frank Eck)

### Newsfeatures

WHITE PLAINS, N. Y. — The most important tip for the average player is the relaxation of the body and legs in the address as well as throughout the swing.

The idea of relaxing the body is to give the arms a chance to guide the body and to help you pivot.

Just practice relaxing and swinging smoothly. You will get better results.

(Barron has been Fenway's pro for 16 years. In 1946 he won the richest prize in golf, taking down \$10,500 for winning the All-American Open in Chicago).

HERMAN BARRON

American elevators in 1949 carried 20 billion passengers up and down a total of 500 million miles.

## Jewish Refugees Fly to Israel

TEL AVIV, Israel (AP)—The job of transporting Yemenite Jews to Israel is nearing completion. Y. Zerubavel, head of the Middle East department of the Jewish Agency, told a news conference "Magic Carpet" planes had brought 43,000 Yemenites here in the last 11 months.

He said another 3,000 are expected shortly at the Hashid transit camp near Aden where they'll be picked up and flown to Israel. Zerubavel estimated that after the arrival of these Jews yet to come out of Yemen. Near East flights, financed through the American Joint Distribution Committee, are handled by American pilots. Each plane now brings 90 to 110 Yemenites at one time. The record single load thus far was 174 Yemenites. Many of the Yemenites weigh only 70 pounds.

## Israelis Leave Red Labor Group

TEL AVIV, Israel (AP)—A national convention of Histadrut—the Jewish general confederation of labor—has approved its executive committee's action withdrawing the organization from the Communist-controlled World Federation of Trade Unions.

Histadrut has decided that for the moment it would not be a member of world organizations, backed by either eastern or western powers. Histadrut said it had no desire to play any role in the "cold war" between rival World Federations of Trade Unions.

The capital city of Canberra, Australia, was designed by an American architect.

## GEMS OF THOUGHT

### Truth Eternal!

The ideals of primitive Christianity are nigh, even at our door. Truth is not lost in the mists of remoteness or the barbarisms of spiritless codes.

—Mary Baker Eddy

To this end was I (Jesus) born, and for this cause came I into the world, that I should bear witness unto the truth.

—John 18:37

Falsehood is in a hurry; it may be at any moment detected and punished; truth is calm, serene; its judgment is on high; its king cometh out of the chambers of eternity.

—Joseph Parker

It does not require great learning to be a Christian and be convinced of the truth of the Bible. It requires only an honest heart and a willingness to obey God.

—Albert Barnes

Truth is the summit of being; justice is the application of it to affairs.

—Emerson

Religious truth, touch what points of it you will, has always, to do with the being and government of God, and is, of course, illimitable in its reach.

The hottest area of Australia is the northwestern part; the coolest, the southeastern part.

### Falls 150 Feet And Only Gets Wet

SAN PEDRO, Calif. (AP)—Fred Ferrell was strutting along a cliff-top at the edge of Pt. Fermin Park, which faces the Pacific Ocean. He slipped on a round stone and plunged over the 150-foot drop, headed for water-washed, jagged rocks below. He lit in water two feet deep between two boulders. A life guard pulled him out. At the receiving hospital doctors found only two small head cuts. They sent him home—to get out of those wet clothes.

Hereford will field a team of eight regulars from last year's team, with three additional lettermen. They have been handicapped by injuries in early games, but blasted the strong Muleshoe team, 27-6, two weeks ago when their injuries healed. They were idle last week.

The only common opponent the two teams have met, McLean, shows a decided superiority for Hereford. McLean trimmed Perryton, 26-6, while they beat Hereford, 12-0.

The Rangers will outweigh their opponents, averaging 163 pounds to 152 for Hereford. The Ranger backfield, with Lovett, Haar, Dietrich, and Langwell, average 170 pounds, compared with 135 for Hereford.

The only injuries on the Ranger squad are Donald Cooper, with a bruised leg, and Kenneth Slaughter, sprained ankle. Both boys will probably play, however.

Probable starting lineups:

## B Team Meets Hereford Today

The Ranger B team, with a 500 won-lost record for the season, will meet the Hereford B team Thursday afternoon at Ranger Field. Game time is 2:30 o'clock.

The Ranger B's won their first game over Wellington, dropped the next one to Liberal, won over Canadian, then lost last week to Shamrock.

The season record of the Hereford team is not known. Last year they defeated the locals by a large score.

Starting for the Ranger B team will be Patton and Williams, ends; Hurter and Witt, tackles; O'Dell and Hazel, tackles; Snider, center; Drake, Clack, Pletcher and Cummings in the backfield.

WHAT IT MEANS:  
1950 Model War Controls

By CLARKE BEACH

WASHINGTON — The government's war production machine 1950 model, has now been molded into definable shape.

It's structurally different from what it was in 1940, when the United States first assumed its historic role as the arsenal of democracy, although it is designed to do the same jobs. It is making use, primarily, of established government agencies to handle the vastly complex problems of priorities, allocations, controls, quotas etc.

The President, using the control powers in the Defense Production Act of 1950, set the pattern in his executive order of Sept. 9. He delegated his production mobilization powers to various cabinet members and to the Interstate Commerce Commission (ICC).

To the Department of Interior went the responsibility for petroleum, gas, coal, minerals and electric power. To the Agriculture Department went food, fiber, lumber, raw tobacco, farm equipment and commercial fertilizer. To the ICC went the responsibility for domestic transportation, storage and port facilities, excluding air transport and salt water shipping. To commerce went all other materials and facilities.

The various agency heads have dual jobs:

1. They must see that the materials and facilities go to the war material producers.

2. They must aid the industries to expand their production.

Here's how the thing works in practice:

The secretary of agriculture has created two new units in his Production and Marketing Administration. One of them, the Office of Requirements and Allocations, has the job of channeling and parceling out the food, fibers, etc. The other one, the Office of Materials and Facilities aids farmers to get materials and facilities. It must get steel from commerce to build farm equipment and get from the ICC the necessary transport.

Similar units have been set up in other departments. All arguments will be settled by the chairman of the National Security Resources Board, W. Stuart Symington.

Man has eaten truffles for thousands of years.

7. Drilling or digging wells for better distribution of grazing on range land: Casings 6 inches or more in diameter, \$3.00 per ft. No payment will be made for any well drilled within one-fourth mile of farm or ranch headquarters.

8. Construction of earthen dams or reservoirs for livestock water or erosion control: Stock water dam, 10 cents per cu. yard; damless tank, 8 cents per cubic yard.

9. Establishing a satisfactory cover of winter legumes and ryegrass seeded in the fall of 1950: Austrian winter peas and Dixie wonder peas, 5½ cents per lb.; hairy vetch, 12 cents per lb.

10. Revegetation of range or pasture land by deferred grazing 25 cents per acre.

## Guill, Republican Congressman, Doesn't Look Like One; Says He is an Independent

**Editor's Note:** Texas' only Republican congressman in more than a decade is up for re-election Nov. 7. The race has attracted more interest than any Texas fall election contest. Following is the second of two sketches of platforms of the candidates.

By TIM PARKER  
Associated Press Staff

PERRYTON, Tex., (AP)—Ben Guill is Texas' only Republican congressman. But the 41-year-old Perryton resident does not look like a Republican. He has described himself both as an independent in politics, and as a Republican determined to "Panhandle."

Guill's Democratic opponent, E. Rogers of Pampa, (pronounced Gwill) has issued a formal platform. Guill's lengthy announcement stating that he would enter May 6 special election to fill the 10th congressional district is close to a platform. And lawmakers have subsequently asked questions to that announcement.

Guill's platform contains pertinent passages: "I believe every citizen should have the right to choose his own employer. Every employer should be held responsible for the welfare of his employees. I shall defend the right of labor-management laws which protect the interests of both parties in which those laws should be changed so as to make them more effective. We must protect ourselves from a recurrence of any more shameful situations in which a man like John L. Lewis can openly defy the United States government and get away with it." Guill said he would defend labor rights to organize and bargain collectively but that unions are now mature enough to be held accountable for fulfillment of contracts, etc.

### Better Cough Relief

New drugs or old fail to stop a cough or chest cold don't delay. Creomulsion contains only safe, helpful ingredients and no narcotics to disturb nature's process. It soothes the seat of the trouble to soothe and heal raw, tender, inflamed bronchial membranes. It soothes and heals. Creomulsion has stood the test of many millions of users.

**CREOMULSION**  
For Cough, Chest Colds, Acute Bronchitis

**Farmer:** The American farmer "is smart enough to work out his own solution of his problems and should not be dictated to by Washington bureaucrats with a limited knowledge of either economics or of agriculture. I am against undue federal interference with the nation's agricultural production. I also feel we are merely deceiving ourselves if we say we can continue and increase supports indefinitely and still maintain our national economy."

**Government economy:** "We can achieve greater efficiency in government and still reduce our income tax burden by cutting the deadwood out of our bureaucracy." Guill's statement—issued before the Korean invasion and subsequent income tax boosts—criticized "wild-eyed government spending."

**Public Health:** He is "unalterably opposed to any attempt to socialize the medical profession." **Fair employment practices (FEPC):** Promised he would "fight every effort to create a federal FEPC."

As to why he, a former Democrat, was running as a Republican, Guill said: "I am running for Congress as a Republican because I am opposed to overall policies of the present administration. The so-called Fair Deal is dishonestly sailing under the banner of the Democratic Party. The only honest method I know to fight the socialistic theories of the Santa Claus boys is to join the other team. I have no intention of trying to tell the people of the Panhandle that the Republican party is all-virtuous and a sure cure for all our ills. It isn't. But I am convinced that the kind of Americanism in which I believe, and in which most of the citizens of the Panhandle believe, is better represented in Washington today by the leadership of the Republican party."

In other public statements, the congressman has expressed these stands:

**Tidelands:** Said Supreme Court ruling giving control of tidelands to federal government was a legalized billion dollar theft. Added: "as long as Texans continue to support in office their worst enemies, the Socialists who call themselves Democrats, they can expect to be stabbed in the back repeatedly for their misplaced loyalty."

**Universal Military Training:** He favors it. Before the Korean

invasion he called for government economy "so that all our national resources can be directed toward national defense."

Born on a Tennessee farm in 1909, Guill came to Hereford, Texas, with his father and mother when he was 9, was graduated from Canyon High School, worked his way through West Texas State College, taught school at Pampa, Texas, later taught at Hopkins, Pampa and Amarillo.

He survived seven amphibious landings with the Navy during the Pacific campaign of World War II and was awarded the Purple Heart and Bronze Star. Back in civilian life he opened a successful washateria at Pampa, sold out at a profit and entered the real estate business.

## Old Time Ham Kept Longer Than New Kind

AUSTIN—Old style, palate tickling, succulent smoked hams like you used to prepare for special Sunday dinners are giving way to the tenderized and ready-to-eat varieties.

Increased danger of spoilage comes with the change, State Health Officer Geo. W. Cox says. Used to be you could salt down a ham, then home-smoke it slow and easy. When done, you could hang it on the back porch easily accessible for a quick slice.

Those days are fast waning, for city bound folks. Ask your butcher for a smoked ham nowadays, and you get two choices: "tenderized," or "ready-to-eat." They look the same, and have some of the old sweetness. But there the similarity ends, Dr. Cox says.

Since less preservative salt is used in the smoking process, today's ham products have to be placed under immediate refrigeration, the same as any other meat.

"Tenderized" hams are smoked at a temperature of approximately 129 degrees, Dr. Cox says that they have to be cooked before eating in order to kill any trichina larvae that may be present.

"Trichina larvae, which causes trichinosis, are killed at a temperature of 137 degrees F," the health officer cautioned. "That's internal temperature."

He warned that "ready-to-eat" ham products are smoked at approximately 160 degrees, and cured with less salt than regular smoked hams. They'll spoil easily unless kept under refrigeration until eaten.

Here are the health officer's recommendations regarding these meat products:

1. They cannot be stored in temperatures above 50 degrees. Neither can prepared dishes or sandwiches made from the products.
2. Strict sanitation should be observed in handling them.
3. They should be handled in refrigerated equipment from packing plant to consumer.
4. Cook-before-eating must not be confused with ready-to-eat.

**MOVIE HOUSE MANAGER**—Elmer Mutchler is shown above arranging advertising on the Pertex theatre marquee, one of his duties as house manager for the Ellis and Pertex theatres. He started as a youngster in the motion picture exhibition business and for the last twelve years has worked full time as a projectionist and house manager. He has been on the staff of the local theatres for the last 3 1/2 years. After twelve years, Mutchler is convinced that he likes motion picture house work. It is confining, however, and working at night makes it necessary to miss most other entertainment activities, he says.

### Burglars Taken For a Ride

CHICAGO (AP)—Burglars sneaked into the Polk Street elevated railway station and carried off

a 200-pound steel safe. If and when they got it open, they found that it was full of cancelled transfers.

### Yugoslavs Scoff at Russian "Snowwhite"

BELGRADE (AP)—Hardly a week goes by that the Yugoslav humorist publication "Jez" does not take a poke at the policies of Moscow.

In one, Snowwhite encountered seven dwarfs. The dwarfs took her home and fed her "milk and honey, shoes and gasoline, heavy industry and aluminum, spy trials and other dainties." Soon, says "Jez," Snowwhite grew a bit plump, developed a double chin. The dwarfs lost weight. But, according to its story, the dwarfs dwell happily, because they see only the other dwarfs and feel equal because they are of the same, reduced size.

As last reported, Snowwhite was looking less like a lost and lonely princess than a good fat stepmother. To "Jez," Russia has

become its version of Snowwhite; the dwarfs are the Cominform countries which once loved their mistress.

# Who Runs America?

**RUNNING AMERICA** is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

**IN MUCH OF THE WORLD** today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

**FREEDOM COMES UNDER ATTACK.** The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

**THE PEOPLE WEIGH THE FACTS.** In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

**THE "GRASS ROOTS" SIGNALS CONGRESS.** In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs  
American Farm Bureau Federation  
National Grange  
Veterans of Foreign Wars  
National Conference of Catholic Charities  
American Protestant Hospital Association

American Legion  
National Association of Small Business Men  
United States Chamber of Commerce  
National Association of Retail Grocers  
National Retail Dry Goods Association  
American Bar Association

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

## THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

## Rugged NOT RAGGED

A great American statesman has defined "rugged individualism" as a "eulogy of those God-fearing men and women of honesty whose stamina and character and fearless assertion of rights led them to make their own way in life."

What better way to describe the builders of America... the America to which the ragged, regimented oppressed peoples of the world look for release, for inspiration.

Suffocating Socialism at home, like communism overseas, threatens the America we cherish.

To the doctors who are fighting for freedom, our salute. Their crusade for liberty is all America's crusade.

Freedom is worth defending—at home as well as abroad.

As businessmen, we know the value and the blessings of freedom. We know how the exercise of freedom has made America great. We want to keep our right to voluntary action.

### Christian Science

"Probation After Death" is the  
 subject of the Lesson Sermon  
 which will be read in all Church-  
 es of Christ, Scientist, on Sun-  
 day, October 22.  
 The Golden Text is: "Blessed  
 is the man that endureth tempta-  
 tion: for when he is tried, he  
 shall receive the crown of life,  
 which the Lord hath promised to  
 them that love him" (James  
 1:12).

Among the citations which

comprise the Lesson-Sermon is  
 the following from the Bible:  
 "For this corruptible must put  
 on incorruption, and this mortal  
 must put on immortality" (1 Cor-  
 inthians 15:53).

The Lesson-Sermon also in-  
 cludes the following passage  
 from the Christian Science text-  
 book, "Science and Health with  
 Key to the Scriptures" by Mary

Baker Eddy: "Good demands  
 man every hour, in which  
 work out the problem of  
 consecration to god, does  
 lessen man's dependence on  
 but heightens it" (page 26)

GMC's are built by the world's  
 largest exclusive manufacturer of  
 commercial vehicles—with the  
 broadest truck engineering experi-  
 ence.

GMC's are real trucks. Engine,  
 transmission and frame, as well as  
 cab and axles, are all specially truck-  
 built to give you longer service.

GMC truck-built engines have high  
 horsepower with higher sustained  
 torque—greater pulling power. They  
 are built to give extra years of serv-  
 ice with less maintenance.

## News From ANTHONY

By Mrs. Carl Carter

We have almost completed the cutting of the winter forage crop in this community. Bob Wilson and two of his brothers-in-law from Durante, Okla. have been shocking feed for John Davis, Leon Morris, and Carl Carter. Lem and Floyd Vandeburgh have cut feed for Jim Wallace and Joel Fogleman.

Mrs. Glen Myers attended the meeting of representatives from each home demonstration club Wednesday morning at the office of Miss Grace Reynolds in Beaver. The purpose of the meeting was to make a United Nations Flag for each club to use in observance of United Nations Day October 24.

Attending choral practice Wednesday afternoon were Mrs. Myers, Mrs. John Davis, Mrs. Carl Carter and Mrs. Leon Morris. The chorus will present three selections at the county council meeting on October 25.

Mrs. J. L. Bobbitt has been helping Mrs. Walter Hyatt with redecorating of her house this week.

Anthony home demonstration club members are very proud to have Mrs. R. C. Pyle, their new president, attend National Farm and Home Week at Biloxi, Miss. This week Mrs. Pyle met with others from the state at Oklahoma City Friday and left from there Saturday for the remainder of the trip. We know she will have many interesting things to

report upon her return.

Mrs. J. L. Bobbitt attended the Leaders Training meeting for the month of November at the home demonstration agent's office Friday. The lesson material studied for the month was "Color in the Home."

Several from the community attended homecoming at Panhandle A. & M. College Saturday. Among the bands in the parade was the Turpin band of which Kay Myers is a member.

The Leon Morris family drove to Texhoma after visiting Elvena Morris during homecoming at Goodwell Saturday. They visited Mr. and Mrs. Howard Gordon Saturday evening and Sunday. Mr. and Mrs. Gordon returned home with them for an extended visit with his daughter, Mrs. Morris and family.

R. C. Pyle accompanied his daughter and family, Mr. and Mrs. Glen Myers, home from

church Sunday to spend the day.

Mrs. Lloyd Brown has returned home from Wichita, Kansas where she has been with her husband through two operations. She reports his condition improved and asks the ladies Friendly Neighbor Club not to meet at her house Oct. 19 as previously scheduled. She will expect them on Thursday, Oct. 26, for a day of quilting.

Mr. and Mrs. O. E. Carter of Perryton brought Mr. and Mrs. E. O. Bruner, who are visiting them from Tahlequah, to visit in the Carl Carter home Monday.

Howard Carter is glad to be back in school again—even if it is on crutches. He hopes to be off them before many more weeks.

Visitors in the LaVern Davis home this week were Mrs. Davis' grandmother, Mrs. D. S. Boren, and brother and wife, Mr. and Mrs. Bess Boren of Oklahoma City. Mrs. Davis took them to visit Mr. and Mrs. Delbert Bry-

ant, relatives who live in Liberal, Kansas.

Mr. and Mrs. Harold Davis and son visited relatives in the community this week. All brothers and sisters and his parents, Mr. and Mrs. John Davis, gathered at the home of his sister, Mrs. C. E. Dain, near Guymon Sunday to wish Harold well and a speedy return. He leaves for Camp Hood Monday. Those attending were: Mr. and Mrs. Lester Janzen of Goodwell, Mr. and Mrs. Harry Sawyer and family of Liberal, and Mr. and Mrs. John Davis, Mr. and Mrs. LaVern Davis and Sue, and Mr. and Mrs. Johnnie Davis of Boyd and Mr. and Mrs. Dain and daughters.

Mr. and Mrs. John Davis and Mr. and Mrs. Harold Davis and son were dinner guests of Mr.

and Mrs. T. C. Braidwood of Beaver. Mrs. Davis will be at home there with her parents while Mr. Davis is away in the service.

Mr. and Mrs. Fred Turner and Kenneth flew to Valley Falls, Kansas, Sunday for a few days visit in the Grover Crum home.

## What's Wrong with FREEDOM?

Our business is selling merchandise—the best we can buy—at the most economical price to you. It's a good business, and we like it.

But being in business in America is more than skillful buying and selling. It's the exercise of a fundamental right—freedom to venture, freedom to plan, freedom to succeed by serving best.

All freedoms stand or fall together. That's why we take our stand today, with the doctors of America, for the Voluntary System. At home and abroad, it's worth defending!

## It Takes Brains To Work Sunday

By KEN DAVIS

COLUMBUS, O.—The next time you mow your lawn on Sunday, remember George Spaith.

George narrowly escaped a fine years ago because he decided to mow down some chin whiskers on Sunday. The judge acquitted Spaith because the charge didn't get down to mentioning a specific case of shaving. But, said the jurist, not all shaving on Sunday is legal. You must prove common labor on the Lord's Day is necessary.

The case illustrates the lengths to which the common-labor-on-Sunday laws may be taken in any state where the code puts a ban on Sunday activity.

Time and again, the constitutionality of this law has been upheld. A baker tried to tell the court it was necessary for him to work on Sunday because his goods were perishable. The court shook its head.

Another time, a butcher testified that his shop was located in a tenement section. Residents who simply couldn't afford ice boxes, the butcher explained, had to buy meat from him just before using it. The court, ruling against the butcher, said in effect the tenement residents could go meatless on Sundays or buy ice.

There are certain exceptions. The Ohio law, for example, doesn't apply to druggists selling whisky for medicinal purposes, to emigrating families who want

to travel on Sundays, watermen landing passengers and keepers of toll-bridges, toll-gates or ferries.

The law prohibits manual or common labor on Sunday, as distinguished from intellectual labor. A preacher isn't violating the law in giving his sermon.

But, others of his flock may be. A group of ministers in one Ohio city found this out one day. They asked the county prosecutor to close all theaters on Sunday.

"Well, gentlemen," he replied, "if you wish I will close them, but if I enforce the law rigidly, your janitors can't fire their boilers and your organists can't pump their organs on Sunday." The ministers retired in quiet disorder.

## Burma Transport Mixup Brings Hunger

RANGOON (U)—Snarled communications in Central Burma have produced a rice shortage over widely scattered areas, driving villagers to eat bamboo seeds for existence, it was authoritatively stated here. Sources close to the Burmese agricultural department said conditions were verging upon outright famine.

The sources placed the district most seriously affected as pro-Communist Yameithih, deep in Burma's dry zone. Fighting in Central Burma has damaged or clogged many irrigation canals.

## Paired Ships Get Fish

ST. JOHN'S, Nfld. (U)—The "pairs" system of Spanish fishing vessels on the Grand Banks has a Newfoundland fishermen complaining. The Spaniards use a dragnet a quarter-of-a-mile wide hauled by two vessels. Able to stay at sea for more than a month, the foreign ships are taking from 80 to 100 tons of fish in this manner.

## Housing Credit Curbs

The federal government's second twist of the clamps on housing credit becomes effective today. Whether the new controls are drastic or merely moderate will depend upon the point of view. They are drastic, perhaps, in comparison with the easy credit terms which have been available in recent years for the financing of new construction. They are moderate compared with the terms which have been available to purchasers of homes under conventional mortgage arrangements without federal mortgage guarantees.

The conventional buyers of homes have been accustomed to a down payment of approximately one-third the purchase price. It is a greater down payment of cash than will be required under the new restrictions for all except luxury housing. The new terms nevertheless will tend to equalize somewhat the differentials which have existed as among various classes of home purchasers.

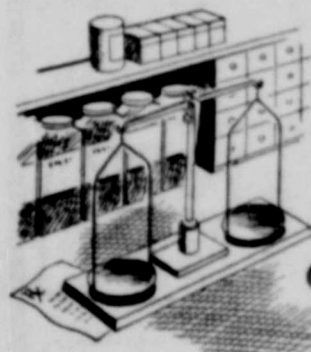

What they will do to the housing industry is another matter. Estimates place the curtailment of housing construction next year at one-third to one-half. This is certain to have its effect upon building costs, which had got out of bounds at the time the government announced the first housing credit controls three months ago.

The building industry, with all its suppliers and allied industries, is probably the principal support of the present high level of the national economy. Any critical interference with it could result disastrously but it is not likely the present controls will prove that drastic. The industry, fed by credit which was far too easy, was rapidly pricing itself out of the market anyway in a situation in which the demand for materials and labor outpaced the available supply. The old economic law of supply and demand could not work freely because government-guaranteed credit introduced an artificial factor on the demand side. The new controls have been applied, therefore, as a curb upon the effective demand.

It is unrealistic to insist that the government continue to pump easy credit into a situation already dangerously inflated. The controls, we believe, will prove beneficial in the whole field of inflation and ultimately will benefit prospective homeowners, who sometimes have been driven into overobligating themselves in order to obtain shelter. Certainly if experience indicates the controls are too restrictive they can be modified as easily as they were imposed.

## Wolf Creek Philosopher Wants Government Trained Germs

(Ed. note: The Wolf Creek Philosopher is demonstrating his knack for finding a lazier way of doing things, his letter this week reveals.)

Dear editor:

I was out here yesterday watchin' autumn unfold, this is the time of the year when a man's energies is supposed to start surgin up and he's supposed to make the chips fly, but I learned long ago to enjoy the seasons without being victimized by em, a thinkin man ought to be able to think in the fall the same as the winter, and I was doin that yesterday when a copy of the Daily Oklahoman floated down out of the air on a gust of wind, thought at first it was only leaves fallin but there's a difference if you know how to detect it and since I fell in arm's length of where I was sittin I picked it up and read where scientists are showin some improvement.

Accordin to this article, in between their main job of workin on something to destroy more and more humans scientists are now workin on the idea of spreadin diseases among crop pests and sittin back and lettin them do the work.

This is what I call progress. For years people have been goin on the assumption man was made to fight insects, and it was all a farmer could do to fight off the pests as fast as scientists discovered new ones. But out in California scientists are sprayin fields with disease germs which go to work on crop pests, and I'm here to tell you they're gettin on the right track. What agriculture needs is a whole series of germs designed to attack all the pests which have been botherin farmers for years.

As the thing progresses, I think some method ought to be worked out where the germs will spread themselves over a crop, might as well be spreadin poison like we do now as germs if I

have to do the work, and all a farmer would have to do would be to write Washington for a package of say green bug or grasshopper germs or anti-smut germs, etc., and open up the package when it arrived and let em go to work. Be the finest thing that ever happened to farmin, outside of government checks.

Yours faithfully,  
J. A.

## Hand-Made Lures Get Top Results

(P Newsfeatures)

WINNIPEG—Jack Platt's hobby is making fishing lures—and the lures he makes have a fish-fooling quality.

His hobby started in 1942 at a lake near Hudson, Ont., when his only plug hit a rock and the head broke off. He took the remaining piece and whittled a new head.

The repaired plug danced through the water with a tantalizing wriggle that hooked a fish on almost every other cast. Platt experimented with hand-carved plugs of the same shape and after several months perfected the plug.

He fastens on special treble hooks imported from Norway and gives them a primary coat of wood sealer to make them water-proof. To obtain the scale effect which makes the plug look like a minnow, Platt holds a piece of curtain in front of the lure and sprays paint through it.

## Little Swing And Sway

SARATOGA SPRINGS, N. Y. (P)—Bandleader Sammy Kaye tried for some time to acquire the horse Swing and Sway from the Greentree Stable but without success. However, he did the next best thing at the recent yearling sales when he paid \$1,300 for a yearling by Swing and Sway out of Purple Dawn.

The yearling has been shipped to Philadelphia. Kaye has submitted three names in order of preference to the Jockey Club. They are Dear Girl, Serenade and Lead a Band. Although Kaye has an interest in the Atlantic City race track, this is the first time he has owned a thoroughbred.

## Panhandle Watershed Meet Set In Amarillo Thursday

The first "comprehensive" public hearing of the Arkansas-White-Red Basins Inter-Agency Committee will be held in Amarillo, Texas, on Thursday, Oct. 19, following a "regional" hearing there the day before.

The primary emphasis at the regional hearing will be placed on the problems of greatest interest to the immediate territory surrounding Amarillo. On the second day the discussions will be directed toward problems of interstate scope and broad plans affecting the high plains area, particularly those involving systems of projects rather than particular projects. Col. Louis W. Prentiss, Committee Chairman, explained. Both hearings will be held in the Municipal Auditorium, and both will begin at 9:30 a. m.

The purpose of both is to get the views of the people with regard to their needs in the future development of the land and water resources of the Arkansas and Red River watersheds. The Arkansas watershed includes the areas drained by the Canadian North Canadian and Cimarron Rivers. Salt Fork, North Fork, Prairie Dog Town Fork and Pease River are included in the Red River watershed.

Virtually every possible phase of present and potential land

and water use is within the scope of the study authorized by Congress and is being carried out by the Committee. "Not only must we plan for better use of our land and water for today's conditions," Colonel Prentiss said, "but we also must develop a feasible plan to meet the needs of the reasonably foreseeable future. We want to obtain from the states, local governments, groups and individuals the kind of a future they are working toward."

"If some locality is thinking in terms of an industrial growth, we intend to look into the possibilities of planning to enhance such a growth. If agricultural expansion has favorable prospects, our planning will explore the possibilities in that direction."

## Halloween Carnival at Booker School Slated for Oct. 27-28

The annual Booker Halloween Carnival, an event which draws hundreds of people to the school each year, is slated Friday and Saturday, Oct. 27-28, it has been announced.

Highlights of the entire fete will be the crowning of the Bookers' Queens at 10 o'clock Friday night. This contest is open to girls of the eighth, ninth, eleventh and twelfth grades with a separate contest for pupils in the other grades.

Meetings were held in the school this week and the following were selected: Josephine Bremmer, senior; Janice Hutchinson, junior; Joy Comer, sophomore; and Naomi Smuck, freshman. Winners will be selected by vote, and votes are a penny each.

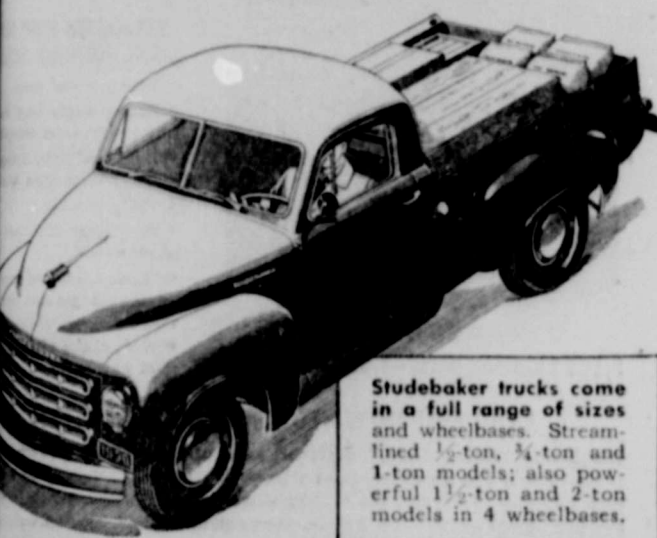

Also to be featured on the gala occasion will be booths and bingos. Refreshment stands will serve home-made pies and cakes, coffee, soft drinks, cone island sandwiches and hamburgers. Proceeds from the carnival will go to the school except those from junior and senior class booths which will go to class treasuries.

### No-Hit Hurler Signed

GALLIPOLIS, O. (AP)—A no-hit, no-run victory over another high school team caught the eye of a Cleveland Indians scout, and Forrest S. (Brock) Borden, Jr. is to get a chance in organized baseball. The 19-year-old Gallipolis High School pitcher, six feet, five inches of all-around athlete, will be given a tryout by the Indians next spring. Borden also starred in football and basketball in high school.

## Attend Dad's Day Fete at Wentworth

A. W. Henry, 709 S. Eton, attended the tenth annual Dad's Day celebration at Wentworth Military academy Saturday. His son, James, is a member of this year's cadet corps at the school.

Mr. Henry participated in the special activity program, which included attending academic and military classes with his son, undergoing personal and room inspections, and standing retreat with the battalion.

In the evening he attended the father-son banquet in the gymnasium. Later, he witnessed the

grid contest between Wentworth and Graceland college of Lamoni, Ia.

# Nothing FOR Something

It's an old trick of the curbstome pitchman to offer you Something for Nothing

"Tell you what I'm going to do, Ladies and Gentlemen, I am going to give you, absolutely free..."

Yes, it's an old trick. But it's still a popular one. Salesmen of Socialism use it the world over. Yet when analyzed, their Something for Nothing always turns out to be—NOTHING FOR SOMETHING!

That isn't the way America became the greatest, healthiest Nation in the world. American business has reached its present stature because it believes in giving the customer his money's worth.

Through healthy competition, and the will to serve, American medicine has created the finest system of medical care in the world.

Through ingenuity and free enterprise, American citizens have higher incomes, better education, better health and more freedom than citizens of any other great Nation on earth.

Freedom is America's heritage, and Americans cherish it deeply—for themselves and for the entire world. In exchange for this good way of life, the political pitchman offers us the quick remedy of Something for Nothing...of "free" medical care, doled out by politicians.

AMERICA JUST CAN'T BUY THAT!

THE VOLUNTARY WAY IS THE AMERICAN WAY

AMERICA IS THE ...

*Land of the Free*

BUT AMERICA IS NOT THE LAND OF THE FREE HANDOUT

Our Nation was founded on the principle that Freedom must be paid for—and is well worth paying for.

The American people have made great sacrifices in payment for liberty.

But they have refused to sacrifice liberty for promised "security"...to trade freedom for the spurious "safety" of State Socialism.

This firm is proud to be part of a community and a country where each American is free to worship

as he chooses—and grants that same privilege to his neighbor...where a business is free to create a better product, and to compete in the open market for patronage.

Unfettered by political controls, American medicine has made this the healthiest, strongest Nation in the world. Socialized medicine would endanger our physical health, our economic welfare and our political freedom.

With American medicine, we say...

Let's keep our right to manage our own lives... to earn our liberty...to keep America the

## THE TEXAS POLL

## Most Texans Convinced That Western Germany Should Be Re-Armed to Help Defend Europe

By JOE BELDEN  
Director, The Texas Poll

AUSTIN, Texas—Texans are coming around to the viewpoint that we had better start re-arming Western Germany to help in the defense of Europe against Russia.

The latest survey by The Texas Poll indicates that fear of Communist aggression now overbalances our distrust of German militarism. Most persons are not convinced that German troops can be relied on to fight with the Western Powers. But a majority nevertheless is ready to risk re-arming Western Germany to help us against Russia.

This finding by The Texas Poll is based on interviews with a representative cross section of 1,000 men and women. Each person was asked:

"Are you for or against re-arming Western Germany to help us defend Europe against Russia?"

For ..... 56%  
Against ..... 23%  
Undecided ..... 21%

## We salute AMERICAN MEDICAL PROGRESS

We are pleased to place our name beside those of other liberty-loving Americans who throughout the Nation today reaffirm their adherence to the principle of traditional American enterprise and initiative. Could be relied on ..... 45%  
Couldn't be relied on ..... 30%

Opinion differs widely among various groups of the public. Men tend to favor the proposal of re-arming Western Germany more than women. Persons with college training are strongest in favor of the proposal. Greatest suspicion is found among the less educated.

The following table shows the percentages of the various groups who are for re-arming Western Germany and the percentages who think the Germans can be relied on to fight with the Western Powers:

Eight months before the Korean war, Congressman W. R. Poage of Waco suggested that the U. S. train mercenary troops in Germany and Japan to discourage Russia from starting a war. A survey by The Texas Poll

found six of every ten persons disapproved of his proposal. The common reaction then was: "Why trust them? They might turn around and fight us."

However, Texans have been overwhelmingly in favor of defending Western Europe against Russia since before the Atlantic Pact. A survey in the fall of 1948 showed 63 per cent favored declaring war against Russia in the event her army invaded Western Europe. Now it appears the use of German forces to help bolster defenses of Western Europe, as suggested by Secretary of State Dean Acheson to Atlantic Pact nations, is seen as a necessary measure by most Texans.

## Husband Is Burned Up

COLUMBUS, O. (AP)—Ladies, are you tired of seeing your husband's old fishing clothes and other junk littering up the house? In Ohio you could burn them and get away with it—legally speaking, that is.

Common Pleas Judge Joseph M. Clifford dismissed a charge of burning personal property against a wife who admitted she set her husband's truck afire. Why? Because, she said, he wouldn't take her on a trip.

The legal principle behind the dismissal, Judge Clifford explained, is that under Ohio law personal property belonging to either husband or wife belongs to the other.

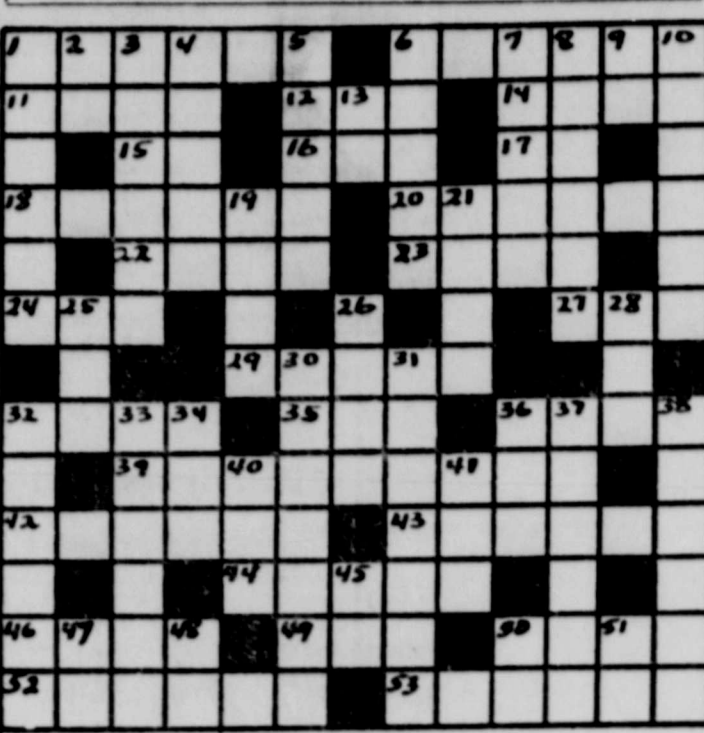

## "Painted Dolls" Disturb Malaysians

JOHORE BAHRU, Malaya (AP)—Malay girls in Johore state are shocking their elders by discarding sarongs for Western frocks and making up like "painted dolls."

Che Azizah binte Ja'afar, principal of the Johore School of Domestic Science, who called on them to "go slow," pointed out Malay girls had also done away with the "kain kelubong"—a sarong worn around the body and over the head—for head scarves. Che Azizah did not deplore the adoption of Western customs, but thought Malay girls were overdoing it.

## Veteran Forum

Q. Will my group hospitalization policy prevent me from receiving treatment in a VA hospital for a service-connected disability?

A. No. The policy has no bearing on your eligibility for hospitalization for service-connected causes.

Q. My house caught fire the other day, and in my rush to get out, I lost my bridgework, which I obtained through VA because of a service-connected disorder. Will VA replace it?

A. Yes, so long as you produce affidavits explaining the conditions of the loss. The affidavits are necessary to show good faith and lack of carelessness on your part.

Q. I expect to join the Army soon, and I wonder if I'll be entitled to GI Bill benefits when I get out. I did not serve in World War II.

A. Under the present law, you will not be entitled to GI Bill benefits. Those benefits are limited to World War II veterans who meet certain eligibility requirements.

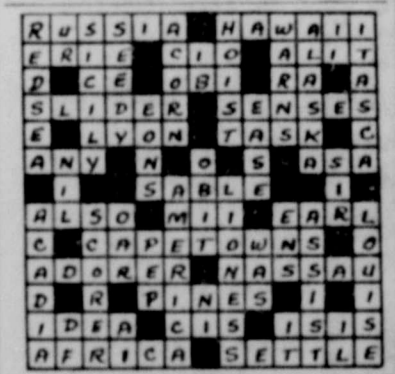

Q. My GI Bill entitlement will run out just two weeks before I finish my final semester in college. Must I pay for those two weeks myself?

A. No. Under the law, if your entitlement expires after you have passed the half-way mark in your quarter or semester, VA will carry you on the rolls until you finish that quarter or semester.

Q. I intend to study in Paris under the GI Bill. Will VA pay my way across?

A. No. You are required to pay for your own transportation.

Mrs. Jack Shields, circle chairman, had charge of the business meeting.

"Rescue the Perishing" was sung by the group, followed by a prayer given by Mrs. A. M. Horan. The Bible lesson was read by Mrs. Irvin Buchanan.

Refreshments were served to Mesdames Oliver Carter, J. L. Copeland, R. L. Grigsby, J. W. Putman, A. M. Horan, Mary Milam, Ray Phagan, Irvin Buchanan, Paul Bowman, Clara Ferguson, A. L. Schnell, J. S. Slaughter, Hollie Palmer, Charlie Mounts, W. T. North, Jack Shields, L. C. Case and two visitors, Mrs. Dean Bennett and Mrs. Ray Grabel.

## Complimented by Shower Wednesday In Ellis Home

Miss Georgia Ann Dragoun, bride-elect of John J. Englert, was complimented with a bridal shower Wednesday afternoon in the home of Mrs. Carl Ellis, 402 S. Colgate, with Mrs. Drew Ellis and Mrs. G. W. Acker as co-hostesses.

Attractive arrangements of seasonal flowers were featured in the receiving rooms.

Members of the house party wore corsages. The honoree's corsage was of bronze chrysanthemums.

Alternate hostesses greeted the guests and Mrs. Frank Chadwick presided at the guest registry. Miss Louise Dragoun, sister of the honoree, and Miss Charmaine Dodson assisted with the gifts.

The tea table was covered with a white satin cloth and appointed with silver. The centerpiece was a miniature bride under an arch of shirred white mullin, encircled with yellow Fiji and pom pom chrysanthemums. Delicate orchid and green tapers in silver holders at either side of the centerpiece carried out the bride-elect's chosen colors of orchid, green and yellow.

A shower of white wedding bells, tied with yellow chrysanthemums and white satin bows extended from the chandelier and completed the decorations in the dining room.

Mrs. J. W. Dragoun, mother of the honoree, and Mrs. James Hardy presided alternately at the tea service.

Fifty guests called during the afternoon.

# Every Farmer Has A Stake in BEN GUILL'S Re-election

Every Businessman In A Town That Depends On  
Agriculture Has A Stake In Ben Guill' Re-election

As A Member of the Powerful  
House Committee on Agriculture  
**BEN GUILL**

HAS FOUGHT THE BATTLE FOR THE  
PANHANDLE FARMER IN CONGRESS

## -For Price Supports:

### Farm Supports Are Under Attack!

During the last Congress the farmer came within an ace of having crop supports cut right out from under his feet.

Ben Guill has promised to fight supports for the farmer — and as a Member of the House Committee on Agriculture he is in the world's best position to help the farmer. (A DEMOCRAT Congressman from the Panhandle would have to wait at least ten years before he could hope for appointment to the Agriculture Committee.)

Here's What Ben Guill said on the floor of the House September 22:

"I want to raise my voice in protest against any attempt to eliminate supports . . . The big city dweller thinks it is wicked for the farmer to make money . . . Their whole argument is based on false assumptions . . . The money spent on the farmer by the Commodity Credit Corporation has been the best investment the Government has made in the last 20 years . . . If farm prices had not been supported, farm income would have dropped, national income would have dropped, business would have dropped and a depression would have resulted . . . If we reduce farm incomes drastically, we must look forward to soup-lines, foreclosures, misery, poverty and a depression which would make us pushovers for world-communism"

## --Ben Guill Introduced HR 514

Ben Guill introduced HR 514 — his bill which would allow the farmer to participate in writing his own farm program. Ben Guill, as a member of the Agriculture Committee, will be able to fight for that law next year.

### —Ben Guill Has Won the Respect of Congressional Leaders:

On the floor of the House the following Congressmen have given high, public praise to the work that Ben Guill is doing on the powerful House Committee on Agriculture for the farmers of the Panhandle: HAROLD COOLEY (Democrat of North Carolina) of Agriculture Committee.

BOB POAGE (Democrat, Texas) high ranking member of Agriculture Committee.

AUGUST ANDERSON (Republican, Minnesota) distinguished member of Agriculture Committee.

EDWARD H. REES (Republican, Kansas) well-known veteran member of Congress.

BEN GUILL has earned the respect and admiration of members from BOTH sides of the House. He is doing a fine job for the farmers of the Panhandle. Keep him where he can do the most good. Remember—no Democrat Congressman from the Panhandle can hope to get on the Agriculture Committee for ten years at least. BEN GUILL WILL STAY ON THE AGRICULTURE COMMITTEE AS LONG AS HE IS OUR CONGRESSMAN.

## Rangers Lose to Spearman Lynx, 7-0, In Poorest Showing of Season; Lackey Stars

The Rangers were decisively trimmed Friday night by the class B Spearman Lynx, 7-0, and displayed their poorest form of the season in the loss. The Rangers were only across midfield twice, once in the opening minutes of the game, and again in the final quarter.

No scoring threat was made by the Rangers, although they had an opportunity in the first quarter when they took a short Lynx kick on the Spearman 22. Four plays later, however, they

were back on the 23.

The Lynx, sparked by the running of 180-lb. fullback Joe Lackey, dominated the game, and only stout defensive goal line stands by the Rangers kept the visitors from scoring three more times.

In the second quarter, Spearman drove down to the Ranger 11, were held for downs, then came back down to the 2, where they were again held for downs. Following Vaughn's short kick to the 20, the Lynx drove down to the 10, and a touchdown was set up when the Rangers were penalized to the 1.

Lackey plunged across for the score, then ran the extra point, making it 7-0.

The Lynx started another drive in the third quarter, from their 35, and got down to the 8 before the Rangers took over. Alfred Carter picked up 22 yards, the longest Ranger gain of the night, then Vaughn lost 11. Huston lost 4, then Vaughn hit Lovett with a pass which carried down to the Lynx 45. The drive bogged down on the Lynx 40, and Spearman took over.

When the game ended, Spearman was on the Ranger 5.

**Follett Roping Club to Contest Booker Sunday**

BOOKER—The Follett Roping Club will be at the Booker roping grounds Sunday afternoon, October 22, for a matched roping contest between the two clubs.

Follett won a match between the two clubs at Follett last Sunday. The Bookers, however, won the ribbon roping event.

Booker ropers at Follett Sunday included G. C. Brillhart, George Henton, June Devers, Forrest Forgy, Bob Beagle, Harry Fare, Lynn Hill, Virgil Devers, Wilbur Anderson and Bob Forbes.

A large turn-out is expected to be present for the match Sunday afternoon according to Forrest Forgy, vice-president of the Booker club.

**RANGER-LYNX ACTION**—Don Floyd, (49) Spearman back sweeps wide around the Ranger end for a fourteen-yard gain in the third quarter of Friday night's game on the Ranger field. Joe Lackey (46), Spearman back who starred in Spearman's 7 to 0 win, is shown running interference, and Alfred Carter, (50) Ranger back, is shown moving in to force the ball carrier out of bounds. A fifteen-yard penalty on the previous play prevented Floyd's outstanding run from making a first down.

## Gruver Scores 32-24 Victory Over Follett

FOLLETT—Coach Lawrence Brotherton's Gruver Greyhounds, defending six-man champions of district 1-B, took a 32 to 24 victory from the Follett Panthers in a hard-fought game here Friday night.

It was the second time this season the Greyhounds have triumphed over the Panthers, but they met stiffer opposition from Coach Edgar Frazier's Panthers in the second meeting of the teams Friday night.

In the opening quarter, Swope kicked-off to the Gruver 5-yard line, and Gruver was forced to kick after being held for three downs. Swope returned the punt to the Gruver thirty-five and opened a goalward drive which was halted when Hart, stellar Gruver back, intercepted a Follett pass and carried to his opponent's 40-yard line. A brilliant tackle by Donnie Wynn, Follett end, set the Greyhounds back fifteen yards, and they were again forced to kick. Follett took over on their own 32-yard line, and on the first down Swope picked up fourteen yards. On the next play, Gruver recovered a Follett fumble, and "Spanky" Shrader, Gruver backfield ace, carried over for the opening touchdown of the game and added two points with his kick from placement. Gruver 8, Follett 0.

Recovered Follett fumbles provided the Greyhounds with scoring opportunities again in the second quarter. A Follett fumble on their own 20-yard line was recovered by Gruver in the early minutes of the second quarter, and Shrader scored from the 2-yard stripe after one play.

Follett fumbled twice more in the second quarter, and each time Gruver recovered and Shrader carried over for touchdowns. Hart took a kick-off all the way to score the final Gruver touchdown in the last of the second quarter.

Neither team scored in the third quarter.

In the final stanza, Follett cut loose with Bruce scoring three touchdowns and Hamilton accounting for one.

Follett's loss to Gruver removed them from the top bracket in District 1 league standings. They were formerly tied with Gruver and Darrouzett for the lead spot, and their loss Friday places them second with two losses for the season.

## Balko Downs Bethany 15-1

BALKO—The Balko Bison downed the Bethany Tigers 15 to 1 in a baseball game which was played on the Balko diamond last Tuesday afternoon.

In the top half of the first inning the Tigers were unable to score, and the Bison came in and brought in five runs.

The Tigers battled through the next round, but were held to a scoreless inning by the Bison. In the bottom half of the second inning, Karber brought in a run to put the Bison out in front by a 6 to 0 lead.

The third inning found the Tigers still lagging and Pugh added another run for the Bison.

When the Tigers came to bat in the top half of the fourth inning, Weins came in with the only run scored by the Tigers on a three-bagger hit by Frantz.

The Bison came back with

three more runs in the fourth inning then piled up five more in the fifth shoving the score to 15 to 1.

Donald Pugh was the winning pitcher and C. Tice was hurler for the loser.

**...and we had to buck a lot of competition**

But it was healthy competition. We had to work hard and plan carefully. But it was work with a promise of reward.

We like to think that the friends we've made and the success we've had are typical examples of the opportunity America offers the man with an idea and a determination to build and manage his own business.

We wouldn't trade places with a small businessman of any other Nation for anything.

We think we can do a better job running our own business than the Government could. We think the doctors and nurses and scientists can do a better job managing the medical care of the Nation than the Government could.

We believe that American freedom is worth working and fighting for at home and abroad.

**Better Buy Buick!**

**Y**ou want a new car to be tops in things like style and room and comfort and power—

—and a thrill-packed fifteen minutes with the nimble number pictured here will show you it has all these things in abundant measure.

So you ask us—how about money? What does it cost to buy a Buick—and to own one? All right—let us ask you some questions.

**Take first cost.** Do you know that Buick prices start down at a level below what you'd pay for some sixes—and that every Buick, on a cents-per-pound basis, is a standout buy?

**Take operating cost.** Do you know that the bang you'll get from Buick's Fireball power comes from a valve-in-head engine—recognized by engineers as a thrifty saver of fuel?

Do you know that owners of 1950 Buicks are writing us rave letters, saying that this year's version is the most economical Buick ever built?

Do you know that such comfort features as coil springs on all four wheels protect the car as well as the passengers—and throw in an extra saving because they need no servicing, and are practically breakproof to boot?

Do you know that Dynaflo®—in addition to keeping you fresh as a daisy on a day-long drive—caps its convenience with savings on tires, cuts down the strain on

transmissions and engines—and eliminates all friction clutch repairs, because it hasn't any?

**Take final cost.** Do you know that when the owner of a Buick gets a yen for a later model, the prices that Buicks command on a used-car lot are the ultimate proof of their long-run value?

So if you want a real run for your money, better buy Buick. And the first step is very simple: Go see your Buick dealer—soon—and get an order signed.

## 'Indian Territory' Action Story of Western Frontier

As a sergeant in the United States Cavalry in "Indian Territory," Gene Autry returns to the Ellis screen Fri.-Sat., Oct. 20-21. The new picture offers the world's greatest cowboy in an action-packed story of the Western frontier, in the post-Civil War period when the Apaches were being incited to raiding and other border disturbances by renegade whites.

Autry, as a Confederate Army captain who has rejoined the United States Army, is assigned the task of subduing the rioters and smashing the group of gun-runners responsible. He succeeds after an arduous program of horsemanship, gunmanship and fist-swinging thrills. The United States Cavalry also figures prominently.

Coupled with the basic story element of "Indian Territory" are such equally interesting themes as the rivalry between Autry and the Army lieutenant under whom he serves, as well as the romantic appeal of lovely Gail Davis as the daughter of a rancher.

Autry sings two tunes in the film, "When the Campfire is Low on the Prairie" and "Chattanooga Shoe Shine Boy."

## E. J. Tarbox Heads Lipscomb County Fire Control Group

LIPSCOMB—E. J. Tarbox, Lipscomb county sheriff, was elected county-wide fire control coordinator at a meeting of more than two hundred farmers, ranchers and business men who met Oct. 10 at Lipscomb to form the Lipscomb County Fire Control Association.

Purpose of the new organization is to prevent and control prairie fires. Two coordinators were selected from each commissioner's precinct as follows: Precinct 1, R. H. Cowan and Oliver Waters; precinct 2, Harvey Perry and Charlie Altmiller; precinct 3, J. H. Laubhan and John Trenfield; and precinct 4, Gomer Lewis and Roland Wheat.

Representatives of the Santa Fe railway were at the meeting and pledged their support to the

new organization by providing equipment, manpower and funds. A called meeting of the county fire coordinators and other interested organizations has been set for Tuesday night, October 24, at 8 p. m. in the county courthouse at Lipscomb. At this meeting further plans for prairie fire prevention and control will be formulated.

Approximately one-tenth of the Lipscomb county range land was damaged by fire during dry weather last winter and spring.

The new organization is the first of its kind in this area. All Lipscomb county residents who have suggestions on prevention and control of prairie fires are urged to contact their local fire coordinators.

Mr. and Mrs. Leonard Grigsby, Diana and Cynthia Ann of Denver, Okla., are visiting in the home of his mother, Mrs. J. M. Grigsby.

## **Shelton, Hetzel Are New Owners Of Higgins Bakery**

Ray Shelton and Duane Hetzel of Perryton purchased the Higgins Bakery from Elzie Dearing Monday and began operating the business that morning. Both are former employees of Leslie's Bakery in Perryton.

Shelton attended Dunwoody Baking Institute at Minneapolis, Minn., and worked at Leslie's seven years. He has been in the baking business a total of eight years. Hetzel has been a baker six years and worked in the Perryton bakery four years.

Both men moved their families to Higgins this week and established their homes here. Their wives will assist in managing the Higgins Bakery. The new bakery owners plan to specialize in cakes of all kinds and in decorating cakes, as soon as they get the materials. They expect to have the materials in a week or two.

### **Expensive Lesson**

DETROIT (AP)—Gil Johnson, quarterback with the Detroit Lions football team, learned the expensive way that blood is thicker than water. Johnson, former SMU star who played with the New York Yankees in 1949, has a brother, Bill Johnson, with the San Francisco 49ers.

"I was riding the bench when Bill intercepted a Yankee pass and ran for a touch down," Gil recounts. "I automatically stood up and cheered my older brother. The Yankee coach acted automatically, too. He fined me a hundred dollars for what he said was 'farternizing' on my part."

## **Out front with the finest**

**yet priced with the lowest**

These days you can't tell from the price tag how much quality a car holds. Ford, for example, is still priced with the lowest... yet in other respects it's in the fine car class. Take its styling, for example; for two years in a row Ford has been the recognized fashion leader.
