Krush Says Soviets Have ICBM Production Rolling

By HAROLD K. MILKS

MOSCOW (EP)—The Soviet Union has started serial production of intercontinental ballistic missiles, Premier Nikita Khrushchev declared today.

"If the Soviet Union can launch a rocket hundreds of thousands of kilometers into outer space, it can launch powerful rockets with pinpoint accuracy to any part of the globe," he said.

He did not elaborate on what he meant by serial production.

Opening the 21st congress of the Soviet Communist party in the Great Hall of the Kremlin, the party chieftain and premier said the Communist countries now "stand at the head of all progress."

In a review of Soviet achievements in science, including jet aviation and rocketry, Khrushchev declared:

"The Soviet Union has started the serial production of intercontinental ballistic missiles."

More than 1,500 delegates from throughout the Soviet Union and Communist parties in 70 other countries applauded vigorously.

(U.S. Defense Secretary Neil H. McElroy said on Jan. 22 that the Defense Department does not believe the Soviet Union has an ICBM capable of operating against the United States. He also discounted reports the Soviet Union would have 300 of the intercontinental missiles by 1960.

(After McElroy's statement, U.S. Sen Stuart Symington (D-Mo) said that the United States had successfully test-fired ICBMs but was not going into full production of them because the Eisenhower administration would not spend the necessary funds.)

On the international front, Khrushchev termed nuclear disarmament the "task of tasks" and said the Soviet Union would continue to work for a summit conference.

"It is essential to learn to solve contentious problems by peaceful talks," he said. "It is time to understand that threats are a hopeless business when they refer to the Soviet Union."

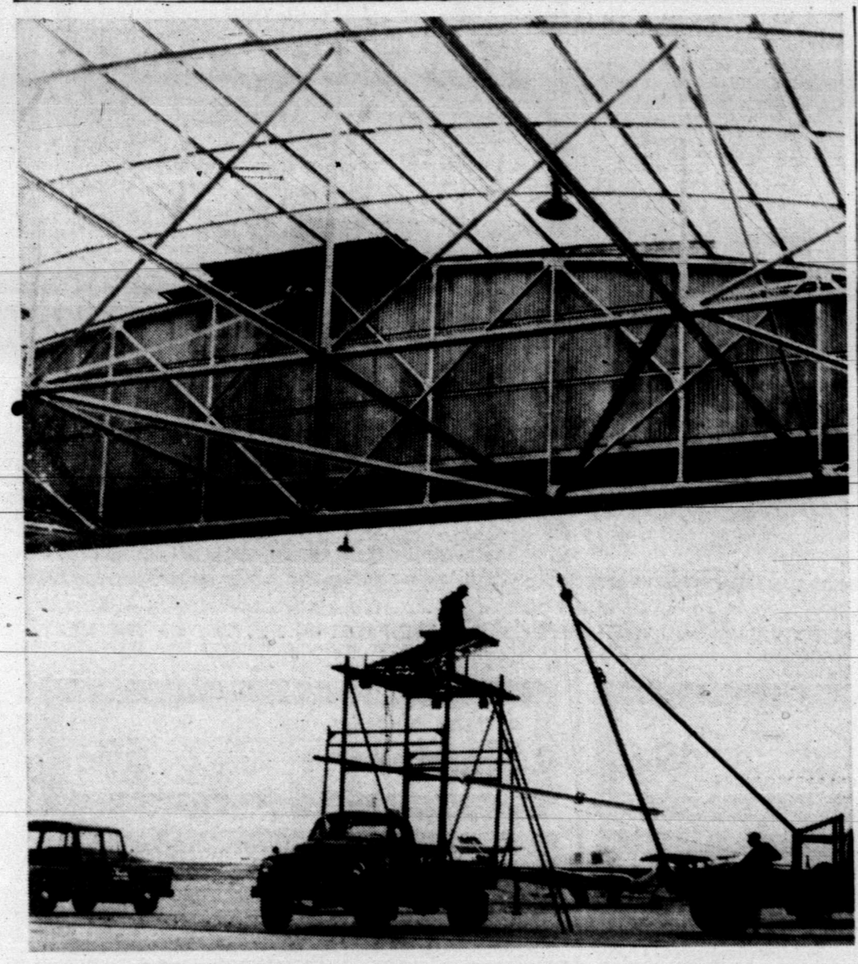

He offered no new solution for the Berlin crisis, a major source of East-West friction. He said neither East nor West Germany can be eliminated "without touching off a world war."

German unification can be achieved, he said, only through negotiations between the two Germanys. A peace treaty would "insure West Berlin's conversion into a free city," he added. The West has rejected the Soviet free city proposal and wants free elections to unify Germany.

Khrushchev blamed the United States for tension in the Far East. He declared a zone of peace—an atom-free zone—must be created in the Far East and the entire Pacific Ocean area.

He had said Monday night at a diplomatic reception that "We want a thaw—to thaw out the cold war." He added that Dep. Premier Anastas I. Mikoyan's trip to the United States may have helped.

In his speech before the congress, Khrushchev said Mikoyan's visit showed sentiment for good neighborly relations is growing in the United States. He reported that Soviet trade with the United States and Europe trebled from 1950 to 1958. He said further extension of world trade could help ease international tension.

HANGAR REPAIR BEGINS—Men and equipment of Burchett Iron Works, contractor on repairs to wind damage to Winston Field hangar are shown above beginning the job this morning. A windstorm last fall blew almost half the roof off, cayed in the doors and damaged a number of planes in the hangar. (Lee Watson photograph)

United Fund Campaign Gains Ground

The extended campaign of the Scurry County United Fund was gaining ground today as reports showed the campaign $8,076 short of its goal.

Several days ago the campaign was almost $10,000 short as directors voted to extend the drive in an attempt to raise the budget goal of $42,050. By today the total in cash and pledges amounted to $33,973.66.

In the extended campaign the United Fund has been soliciting contributions by letter from those who were not contacted in the regular drive or did not give for some other reason.

Letters have also gone out to a number who gave in the first drive in an appeal for them to supplement their contributions if possible.

Response has come from both groups, according to Stanley Noah UF president.

Latest of those giving supplementary gifts above their original contributions were Pollard Motor Co., Bonner's Garage, Fred Buford & Associates, T. E. Shelburne & Son, Inc., Harold Bennett, Wayne Boren, H. W. Cargile, Manhattan Coffee Shop, W. A. Duke, and Lion Oil Co.

C-C Banquet Set Tonight

New officers and directors of the Snyder Chamber of Commerce will officially take office tonight at the chamber's annaul banquet.

The banquet will be held at 7:30 p.m. in the high school cafeteria.

Josh Lee, former senator and former member of the Civil Aeronautics Board, will be main speaker. Lee, also a former college speech instructor, is now in private law practice in Oklahoma City.

Dr. John Blum, new president of the chamber, will take over the organization for the year after being introduced tonight by R. C. Patton, outgoing president.

The Rev. Harry Vanderpool, pastor of the First Methodist Church and president of the Snyder Ministerial Alliance, will be master of ceremonies. Invocation will be by C. Dale Brooks, minister of the Thirty-seventh Street Church of Christ. Dinner music will be by Mrs. Bob Womack.

Special entertainment will be by the high school choral department, directed by Bob Clinton.

Several awards will be made during the program, including one to the outstanding farmer of the year and one to the outstanding businessman of the year. Several membership committee awards will be made.

James Rosser, Snyder attorney and former chamber president, will introduce the speaker.

New officers of the chamber, other than Blum, are Gene Dulaney, first vice-president; Clyde Hall, second vice-president; and Russell Yorgesen, treasurer, who was re-elected. Outgoing officers, other than Patton, are Dr. Carl Dillaha, first vice-president, and Bob McCormick, second vice-president.

New directors are Dulaney, Hall, Rex Miller, Bill Eiland, Ralph Geisenhoner, Herman Doak, Ike Dolen, and Mrs. Verba Logan.

Holdover directors are Yorgesen, Blum, J. W. Phillips, Max Dyer, Bill Brown, Malven Stevenson, and R. T. Roberts.

Outgoing directors are Dillaha, Dr. Robert Hargrove, Gene Thompson, Patton, McCormick, Fred Auforth, and Mrs. J. B. Hewitt.

Dulles Says Soviets Keep Cold War Going

WASHINGTON (AP)—Secretary of State Dulles said today Soviet leaders are trying to delude the world into believing they want to end the cold war while actually seeking advantage to win it.

Nevertheless, he told a news conference, the United States feels this spring is about the right time for a high level East-West conference on Germany and European security since it is sometimes possible to reach peace-promoting agreements with the Soviets through tough bargaining.

Dulles said the United States would be delighted to get an effective reunification of Germany by any means fair to all sides. But he ruled out Russia's proposal for a confederation of West Germany and Communist East Germany because, he said, that is designed to secure the permanent partition of the German nation.

On other points, Dulles:

1. Expressed concern that Soviet Dep. Premier Anastas I. Mikoyan may have formed a false impression on his trip here that the American people are not really behind their government in carrying on strong policies toward Russia.

2. Reacted skeptically to the statement by Soviet Premier Khrushchev Monday that as a result of Mikoyan's visit here Khrushchev sees signs of a "thaw" in the cold war.

3. Confirmed reports of disagreement between the United States and some of the Baghdad Pact powers over the extent of defense commitments the United States would make in proposed new security agreements with Pakistan, Iran and Turkey. Dulles said he thought the differences would be ironed out but that under existing legislative authority, the Eisenhower administration cannot possibly make agreements with Pakistan and Iran that would go beyond concern with Communist aggression.

4. Said the United States plans to withdraw its military advisory mission in Cuba since the new revolutionary government has criticized its presence there.

5. Denied knowledge of any recommendation from the Atomic Energy Commission that underground explosions be excluded from any international agreement banning nuclear weapons tests.

Panel Appointments Clear Way For Work

By GARTH JONES

AUSTIN (AP)—Speaker Waggoner Carr named Rep. W. S. Heatly of Paducah today as chairman of the powerful House Appropriations Committee.

Heatly and Sen. William S. Fly of Victoria, named chairman of the Senate Finance Committee yesterday, probably will wield more power in the Legislature than any other two legislators.

Carr selected Rep. V.L. Ramsey of Beckville as chairman of the House Revenue and Taxation Committee, which will have the first say on any tax bill debated by this money-conscious session.

Rep. R.H. Cory of Victoria was appointed head of the House State Affairs Committee and Rep. Max Smith, San Marcos, chairman of the House Appropriations Committee in several previous sessions, was made vice chairman.

The naming of house committees was expected to clear the way for the impatient legislators to finally get down to the session's prime target of finding new tax monies to erase a mounting state deficit and finance operations for 1960-61.

They also had hopes of drawing pay and expenses for the first two weeks of the 56th Legislature.

Lt. Gov. Ben Ramsey announced Senate committees yesterday and speaker Waggoner Carr was expected to name the House groups today.

It was expected the committees would start work within a few days on the hundreds of proposed law and constitution changes — including a number of tax measures — that already have been introduced.

Both Houses approved a $2,300,000 shuffle of funds yesterday to pay the operating costs for this session, which is already tagged for final adjournment on May 12.

The payroll measure had the net effect of boosting the expected deficit in the general revenue fund from 65 to 66½ million dollars on Aug. 31, 1959. State Treasurer Jesse James estimated the current deficit at more than 47 million dollars.

In a special address yesterday afternoon Carr reminded House members they would have to work long and hard to meet the May 12 deadline. He recommended that House members attend legislative sessions and do away with secretaries pushing voting machine buttons for absentees.

He also suggested that record votes, which cost an estimated $150,390 last session, be kept to a minimum and that all legislation be carefully screened to comb out costly errors. Carr, who won reelection in a hot contest with Rep. Joe Burkett of Kerrville, also asked for a committee to streamline the present election procedures for the speakership.

WEATHER

SNYDER TEMPERATURES: High Monday, 60 degrees; low, 27 degrees; reading at 7:30 a.m. today, 28 degrees.

East Texas: Mostly cloudy through Wednesday. Colder with lowest 26 to 36 in interior and 34 to 42 elsewhere tonight.

South Central Texas: Mostly cloudy through Wednesday. Colder with lowest 30 to 40 in north and 38 to 46 in south tonight.

North Central Texas: Mostly cloudy and cold this afternoon and tonight, becoming partly cloudy Wednesday. Lowest tonight 26 to 34. Not so cold Wednesday.

West Texas: Cloudy to partly cloudy, colder in most sections this afternoon. Not so cold Wednesday. Lowest tonight 24 to 34 in Panhandle, South Plains and upper Pecos Valley eastward.

Gulf: Northerly winds 12 to 22 m.p.h. over northwest portion and variable winds 5 to 15 m.p.h. becoming northerly 12 to 22 m.p.h. over remainder of north portion this afternoon, tonight and Wednesday. A few showers likely in north portion.

New Moonshot Try Set Next Month

WASHINGTON (AP) — Another U.S. moonshot try is in the works for the latter part of February.

The National Aeronautics and Space Administration and the Army are reported hopeful of blasting off an Army Juno rocket from Cape Canaveral, Fla., and send its pay load past the moon into orbit around the sun some time during a six- or seven-day period beginning around Feb. 26. But it was learned that final decision will not be made until about a week ahead.

Neither NASA nor the Army would officially confirm the plan.

Main objective of the venture will be to learn more about the extent and intensity of the belt of dangerous radiation which begins several hundred miles above the earth.

In previous studies with Explorer satellites and Pioneer space probes, the radiation appears to exist in two doughnut-like belts around the earth.

Beginning around Feb. 26, the moon in its monthly swing around the earth will be at its closest point for a period of about six days.

In general, the experiment will be much the same as the last one launched by the Army in December when Pioneer III soared to a height of some 68,000 miles.

The new Army probe will be tiny compared with Russia's highly successful Lunik satellite, but it reportedly will be a giant as far as scientific worth is concerned.

If all goes well, the 13-pound orb will sail past the moon after a 34-hour trip.

The Russians hurled their big space probe into an orbit around the sun Jan. 2 after four U. S. efforts failed.

Snow And Ice Cover Ground In Panhandle

By The Associated Press

Snow and ice crusted the upper Panhandle of Texas Tuesday as a cold front pushed across the state and into the Gulf of Mexico.

Light snow and quick freezing drizzle struck the upper Panhandle Monday night. Snow and ice covered the ground at Gruver and light snows fell in the Panhandle and Pampa sectors. Ice one-quarter of an inch thick crusted telephone and power lines at Texhoma along the Texas-Oklahoma border. Highways were hazardous.

A light snow continued to fall at Amarillo early Tuesday. Except for Brownsville, were skies were partly cloudy, the state was covered by heavy clouds.

The U.S. Weather Bureau said the front early Tuesday lay on a line running from near El Paso southeast north of Corpus Christi and into the Gulf.

Second Showcase Defendant 'Guilty'

HAVANA, Cuba (AP)—The defendant in Havana's second showcase trial was convicted before dawn today and sentenced to death before a firing squad.

Three of Fidel Castro's officers deliberated for 39 minutes and found former Batista army Capt. Pedro Morejon guilty of assassination, homicide, and robbery.

Morejon heard his fate after a trial of more than 10 hours, staged in marked contrast to last week's opening spectacle in Havana's brassy, 17,000-seat Sports Palace.

This time the scene was army headquarters outside Havana. The courtroom held only 200 persons. There were no floodlights, television cameras, or radio microphones. The crowd filling the room occasionally applauded when the prosecution scored a point, but there was none of the Roman circus atmosphere which accompanied he conviction last week of the first Havana defendant, ex-Maj. Jesus Sosa Blanco.

A high spot in the trial was the sudden appearance of Maj. Camilo Cienfuegos, head of the revolutionary forces in the Havana area. Cienfuegos—one of Castro's closest associates — dramatically proclaimed that if Morejon were not executed, "I will shoot myself." He described the defendant as "the most bestial killer in the world."

Morejon raised his hands, joining them together as if in prayer, as his sentence was announced. Otherwise he showed no emotion before his guards led him out. Like Sosa Blanco, he was expected to appeal the sentence to the Superior Military Tribunal.

It was not known when the third show trial, of ex-Lt. Col. Ricardo Luis Grao, would start. The Superior Court was to hear Sosa Blanco's appeal later today.

The most damaging testimony against Morejon came from a farmer and an attractive farmer's widow.

Carmen Vazquez, 24, told the court that last April 26, the captain and two carloads of soldiers had come to her home in Cauto del Paso, shot her husband, machinegunned one of his brothers, then took another brother and a cousin into the street and gunned them down. None of them was a rebel, she testified.

The witness singled out Morejon from three persons on the prisoners bench. The other two were guards also dressed in prison garb.

One Dead In Plane Crash

NORFOLK, Va. (AP)—A Navy seaplane with a crew of 10 crashed today into the waters of this Atlantic port. One crew member was known dead and three were missing.

Navy authorities said the plane was a twin-engined Martin P5M returning to the Norfolk-Naval Air Station after a routine flight.

Its right engine failed and the faltering craft plummeted into Hampton Roads, the Norfolk-Newport News port area.

Seven crew members were pulled from the water within an hour of the crash.

One, identified as Lyle V. Kundson of Norfolk, died after being hospitalized. The other six were not injured critically.

Kidnaped Child Found Alive; Mother Of Three Being Held

NEW YORK (AP) — Month-old John Tavarez, the second baby kidnaped here this month, was recovered alive and well early today in the apartment of a Puerto Rican couple. The infant was ill when abducted on Thursday.

Police said Ascension Ortiz, 25, admitted taking the child from its home because she had a miscarriage 10 days ago. She and her husband, Angel, a plastic dyer, have three children ranging from 6 to 9.

"It was because I lost my own baby," Mrs. Ortiz told police. "I had to make it up to my husband."

At first she denied stealing the Tavarez baby, and claimed the one in the three-room basement apartment was her own. Her husband was so convinced of her truthfulness at first that he supported her story.

Doraliza Tavarez was taken to the Ortiz apartment and, weeping with joy, identified her baby from a mark on his neck.

The 31-year-old Mrs. Tavarez also identified Mrs. Ortiz as the "Gladys Garcia" with whom the child had been left while Mrs. Tavarez went apartment hunting. The baby was gone when Mrs. Tavarez returned home.

The two women had struck up an acquaintance at a hospital the day before Mrs. Tavarez took her baby there for treatment of a persistent cold. Mrs. Tavarez' new "friend" suggested a location where the mother might find larger quarters.

Police said Mrs. Ortiz, a chubby woman with auburn-streaked hair, would be charged with kidnaping.

Hundreds of police and FBI agents ran down scores of worthless tips in an effort to locate the kidnaped child.

Police credited solution of the case to a tip received on a special telephone line for public calls about the case and the aid of the Spanish language newspaper El Diario.

The same type of tip on another special phone line had led to the finding earlier in the month of Lisa Rose Chionchio. The baby was located nine days after being stolen from a Brooklyn hospital nursery 2½ hours after birth.

Chief of detectives James B. Leggett said a check of footprints positively identified the Tavarez infant.

Leggett gave this account of the solution to the case:

"Last Saturday we received a lead in the evening which we developed over Sunday and Monday.

"At 10:45 last night, facts were developed which justified us taking into custody Angelo Ortiz and Ascension Ortiz, his wife," in their apartment.

Two detectives and an FBI agent went to the apartment and found Mrs. Ortiz.

Mrs. Ortiz hysterically denied that she had stolen the baby.

Mr. and Mrs. Ortiz and the infant were taken to a police station where Mrs. Tavarez made the identification both of her baby and the woman who duped her.

Officers said Ortiz seemed shocked when confronted with this evidence but then cooperated with police in drawing the admission from his wife that she had kidnaped the Tavarez child.

Ortiz said he was misled into thinking the baby was his because he knew his wife had been pregnant and he had never seen a newborn baby before.

The Ortiz' three children are Edwin, 6; Sandra, 7, and Henry, 9.

Police said that after Mrs. Ortiz took the Tavarez baby she went home and told her three children: "This is your new brother."

The Tavarez family came here eight months ago from the Dominican Republic. Tavarez is an employe of a brassiere manufacturer. He and his wife also have three children, including the kidnaped baby.

In the earlier kidnaping, the Chionchio baby was located at the apartment of Jean Tavarone, 43, a twice married widow. She was charged with kidnaping and is now undergoing mental tests.

Who Knows TV Sponsors?

By JAMES BACON
AP Movie-TV Writer

HOLLYWOOD (AP) — Quick, now! Who sponsors Dinah Shore on television? "Have Gun, Will Travel?" "Gunsmoke?" "Lawrence Welk?" "Jack Benny?"

Trendex, a rating service which makes weekly audience surveys, came up today with a new one-sponsor identification.

The results are surprising — the top rated shows by audience surveys often are the lowest in sponsor identification. This applies mostly to the TV Westerns.

Champion in the sponsor sweep stakes is Miss Shore with a whopping 87.3, meaning that nearly nine out of every ten people who see her show know what she sells. She has had the same sponsor all her eight years on TV.

The carmakers, who seem to stick with one star, came out best. Runners-up to Miss Shore are Lawrence Welk and Pat Boone at 80.8. Ernie Ford racked up a 74.4. "Gunsmoke," generally champion on all audience surveys, had a 45.6 rating in the Trendex sponsor survey.

Plan For Conclave Spurs Unity Hope

GENEVA (AP) — The World Council of Churches said today all Christians hoped that the Roman Catholic Ecumenical Council called by Pope John XXIII "may be used for the advancement of the cause of Christian unity for which our Lord prayed."

But, it emphasized, the essential question for non-Catholic Christians was: "How ecumenical (universal) will the council be in composition and spirit?"

General Secretary W. A. Visser't Hooft of Holland issued a statement on behalf of the World Council which includes 171 protestant and orthodox churches representing 180 million Christians.

He stressed "much depends on the manner in which the (Roman Catholic) council is called and the spirit in which the question of Christian unity will be approached."

Dr. Viiser't Hooft said, "The first reports spoke of seeking together the basis of a return to unity. Later reports speak only of an invitation addressed to the separate communities to seek unity. The difference between these two statements is considerable. Until further explanations are given on this point, we cannot speak with any certainty."

The World Council of Churches has made several efforts in recent years to establish official contacts with the Roman Catholic Church but without success.

In Cairo, the Coptic Orthodox Church, which claims to be the oldest and first Christian church, expressed doubts about the success of Pope John's move aimed toward eastern and western Christian church unity.

The Rev. Nikhail Abdel Messih, secretary of the Coptic Orthodox patriarchate, said, "The idea is wonderful, but I doubt it would work out because of major differences between Christian faiths."

TODAY'S MARKETS

FORT WORTH (AP) — Sheep 6,200; steady; good and choice lambs 16.00-17.00; stock lambs 16.00-17.50; yearling wethers 14.00 down.

Cattle 1,700; calves 500; steady; good and choice steers 25.00-28.50; commoner 18.00-25.00; fat cows 18.50-20.50; good and choice steer calves 28.00-33.00; heifers 30.00 down; stock steer yearlings 30.00 down.

Hogs 1,000; bids lower; no early sales.

NEW YORK (AP)—Cotton was 35 cents a bale lower to 10 higher at noon today. March 35.10. May 35.29. July 34.71.

SPOT AVERAGES

Compiled by The Associated Press

	Ind	Rails	Util	60 Stks
Previous day	316.6	139.0	97.9	218.1
Week ago	317.4	143.4	98.1	219.6
Month ago	310.5	135.6	95.4	213.3
Year ago	240.8	87.1	75.5	161.8

NEW YORK (AP)—The stock market opened mostly lower in active trading today. Most key stocks declined fractionally. There were some gainers.

General Motors was off ⅛, U.S. Steel off ⅜, American Telephone off ⅛ and Standard Oil (New Jersey) was off 1.

Daily Crude Flow Rises

TULSA, Okla. (AP) — Big increases in Kansas and Oklahoma raised the daily average production of crude oil and condensate by 91,850 barrels to 7,187,700 barrels during the week ended Jan. 24, the Oil and Gas Journal's survey showed today.

Oklahoma rose 51,000 barrels to 887,100 and Kansas was up 44,125 barrels to 342,875.

The Journal estimated 1959 production climbed to 170,815,100 barrels compared to 165,020,408 a year ago.

Other increases included Louisiana, 200 to 938,000.

Declines included Arkansas, 150 to 81, 375.

Production was unchanged in Texas, 2,846,400 barrels, and New Mexico, 281,400.

Funeral Conducted In Three Languages

SAN ANTONIO, Tex. (AP) — Avelino Villareal, 22, a deaf mute, was buried here Monday with the funeral services conducted in English, Spanish and sign language.

The Rev. Ervin Oermann, Lutheran pastor, conducted the service in English. Because many attending were deaf mutes, he also used sign language.

For the benefit of Villareal's Spanish - speaking relatives and friends, the Rev. Edwin T. Brown, pastor of the Messiah Lutheran Church, spoke in Spanish.

Texas-New Mexico Pipe Line Co. from Lamb Chevrolet Co., 1959 Chevrolet four-door.

Cold Weather Spreads Over East Today

By The Associated Press

Cold and wet weather spread across areas in the eastern half of the nation today but skies were clear in many sections.

A mixture of rain, freezing rain and snow slicked highways and streets in a wide belt from Kansas and Oklahoma across northern Arkansas and Missouri into the Ohio Valley and Middle Atlantic states.

Cold air followed the wet weather. The biggest temperature drops were south of the wet belt extending from north central Texas along the Ohio River to Virginia and southeast Pennsylvania. Temperatures were 10 to more than 20 degrees lower, with biggest drops in Texas.

It also was colder in northern Colorado, southern Wyoming and western Nebraska and it still was chilly in most of the Midwest and New England.

The second major precipitation area was in the Pacific Northwest, with rain reported in many areas.

Little change was reported in the flood conditions in five eastern and central states hit by last week's damaging overflows. Crest stages all along the Ohio River, the U.S. Weather Bureau reported, are lower than was indicated last week and further flooding will be minor.

Skies were clear over most of Georgia and Florida and along the Gulf Coast. But rain, along with cooler weather, was forecast during the day in most of the Gulf states.

Boys Toss Nitro Tube

HOUSTON (AP) — "We just walked along, throwing the tube back and forth, catching it as we walked," said Ken Hall, 16.

It was nitroglycerin, police said and asked where they found it.

The boys led officers to an abandoned bullet-pocked automobile in a secluded pine forest. Vines and leaves covered the 1937 model, an expensive car in its day.

Hall, Z. W. Rogers Jr., 16, and Steve Matthias, 17, told police they spied six cylinders packed in heavy cardboard inside the car. They tore apart one of the cylinders to get the tube inside.

"We didn't know what the heck it was," Hall said. They took it along, playing catch with it on the way home. Their parents advised them to show it to police.

Sgt. J. E. Armstrong said the tubes contained vibrogel, a gelatin form of dynamite with a nitroglycerin base.

It was enough, Armstrong said, "to blow apart a good sized house without any trouble. A heavy jar could have set it off."

Ike Pays Tribute To Gen. MacArthur

NEW YORK (AP)—A message from President Eisenhower was a highlight of Gen. Douglas MacArthur's 79th birthday celebration.

The President sent best wishes for continued success, health and happiness and signed the message, "old friend and assistant, Dwight D. Eisenhower."

Eisenhower served as an aide to MacArthur in the United States and in the Philippines before World War II.

The President's message was read at a stag party in the Waldorf Astoria hotel Monday night. Ninety-six persons attended.

MacArthur now is chairman of the board of the Sperry-Rand Corp.

Net Income Declines

BARTLESVILLE, Okla. (AP)—President Paul Endacott said yesterday Phillips Petroleum Co.'s estimated net income for 1958 was $84,200,000, or $2.45 a share. The 1957 income was $96,200,000.

Taken To Dallas

Mrs. Claude Berryman, Avenue E, was taken by Bell ambulance to Baylor Hospital in Dallas this morning.

Navy Backs Budget With Reservation

By JOE F. KANE

WASHINGTON (AP)—The Navy and the Marines say they don't oppose President Eisenhower's defense budget. However, both attach an important "but . . ."

Adm. Arleigh A. Burke, chief of naval operations, told Congress Monday he is supporting the defense budget. But he also made it clear he is not satisfied with the speed at which ships, planes and weapons are being replaced.

Gen. Randolph M. Pate, Marine commandant, also made no protest about the budget. But he said that Pentagon orders to cut the corps to 175,000 men will mean the loss of six combat landing teams and six air squadrons. The new budget provides for only 175,000 Marines.

Burke and Pate, along with Secretary of the Navy Thomas S. Gates Jr., testified before the Senate Armed Services Committee Monday about their military branches.

Secretary of the Air Force James H. Douglas and Gen. Thomas D. White, chief of staff, were called to tell the committee today about the status and plans of the Air Force.

The Navy officials said they are satisfied the Soviet Union's submarines can't match the performance of ours "boat for boat," but they expressed concern about the great and growing number of subs the Soviet could put into action.

Gates, who also supported the budget, said the Navy will be able to hit harder than ever with missile-firing nuclear Polaris submarines and carrier-based jet attack planes.

Burke said the Navy will have 113 active subs by next July 1 but the Soviet Union will have about four times as many.

Burke emphasized the Navy needs for more missiles, jet aircraft, carriers and fighting ships in general.

While Pate made no protest about the manpower cut, he noted the Marines started the year with 187,500 officers and men, now have about 185,000 and "will continue to decline as we implement the directive to reduce to a strength of 175,000 by June 30 of this year."

Reward Offer Is Withdrawn

NEW YORK (AP)—The $25,000 reward offered for information leading to the conviction of the slayer or slayers of Serge Rubinstein was withdrawn today — the fourth anniversary of his death.

Attorneys for the estate of the playboy and international financier announced in newspaper advertisements the estate had withdrawn the reward offered Sept. 20, 1955.

Rubinstein, 46, was choked to death in his bedroom in his Fifth Ave. mansion. The police department still lists the case as "open."

Stanley N. Zwaik, lawyer representing the estate, estimated the estate at 1½ million dollars.

Zwaik said the reward offer drew nothing but crackpot tips.

Life Pattern Changes Fast

SAN ANTONIO (AP)—The pattern of life changed abruptly within 15 minutes for Fred Pena family last night.

Police said the quarter of an hour went like this:

Pena, 33, came home about 10 p.m. and asked his wife, Lily, to warm his supper. As she worked, he showed her a pistol and said he was going to shoot himself.

He put his arms around his daughter, Rose, 13, drew her into a bedroom, and told her of his intention. She broke away and ran from the room.

At 10:15 a shot rang out. Pena was found on the floor of the bedroom, a bullet wound in his right temple. His father-in-law, Patricio Quintanilla, 59, was the first to reach him.

Boy Stab Suspect Cleared Of Charge

NEW YORK (AP)—A boy accused of stabbing singer Dick Haymes' teen-aged son has been cleared of a juvenile delinquency charge at the request of young Haymes.

Children's Court Justice George A. Timone dismissed the charge against Alan Clarke, 15, Monday.

Clarke had surrendered earlier in the day. He was accompanied by an aunt, Mrs. Joseph Stein of Maplewood, N.J.

Police said Clarke admitted stabbing Dick Haymes Jr., 16, Sunday in a fight over a girl.

Haymes said the stabbing was an accident. He suffered an arm wound that took five stitches. He is the son of actress Joanne Dru, second of his father's five wives.

Chicago Fire Claims Three

CHICAGO (AP)—Three persons perished and two others were injured in an extra alarm fire which billowed through a west side apartment building Monday night.

Firemen rescued several of the 30-odd residents of the three-story brick and stone apartment building from third-floor window ledges. At least three leaped into firemen's nets. Many fled in night clothes.

The dead were Edward Bauman 67, a former truck driver; his wife, Pearl, about 60, and an unidentified woman. Their bodies were found draped over window sills on the top floor. All had been asphyxiated.

The injured are Miss Loretta Hanzel, about 30, whose condition was reported critical from third degree burns, and fireman Harry Faust, 41, who suffered severe facial cuts from broken glass. Miss Hanzel leaped from the third floor.

BIRTHS

A seven - pound, eight - ounce son was born at 9:41 a.m. yesterday in Cogdell Memorial Hospital to Mr. and Mrs. Phillip Gill, 2211 Twenty-fifth Street.

Born at 9 a.m. yesterday was a son weighing seven pounds, eight ounces to Mr. and Mrs. Juan Hernandez, Route 2.

HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS—Thomas E. Barton, Graham; Vanessa Cronk, 3009 Avenue I; Harvey Williams, 3822 Avenue E; Ira Maupin, Ira; Mary Hernandez, Route 2; Lois Loving, 211 Thirty - third Street; Helen Boucher, Gen. Del.; Reuben Jones, Ira; Sammy Rains, 2805 Thirty - fifth Street; Tony Smith, 310 Thirty - third Street; T. J. Beidleman, Route 3; Sarah Dinwiddie, 206 Thirty - fourth Street; Chester Bretz, 2903 Avenue N.

DISMISSALS — Darrell Sturdivant, Route 2; Veda Canady, 2902 Avenue F; Maybell Woods, Snyder; Ascencion Perales, Box 342.

Two Offices Add Hours

Two offices of the courthouse have announced new schedules which includes their being open at noon on weekdays.

Dan Cotton, county clerk, and Geral Greene, county tax assessor-collector, said their offices will remain open during the noon hours from now on. Previously the offices had been closed from noon to 1 p.m. each day.

Hours of each of the offices are 8 a.m. to 5 p.m. Monday through Friday and 8 a.m. to noon on Saturdays.

WOMEN

New Teen Magazine Gives Girls Personalized Guiding

A new magazine promising to be unlike any other in that it "will deal with the whole of the teen-ager's world, be as intimate as a best friend and unafraid of such aspects of young-girliama as rock 'n' roll and geetar-strumming boys" will make its first appearance on April 2nd of this year.

The name of the magazine is Ingenue. Directed to girls between the ages of thirteen and nineteen, it will be published bi-monthly by the Dell Publishing Co., Inc., under the editorship of Alice Thompson, former editor and publisher of Seventeen Magazine.

Discussing Ingenue's new personalized approach to the teen-age girl, Mrs. Thompson, herself a mother of two, declared, "Growing up in today's confusing world is a serious matter, and Ingenue will treat it as such. It will be as intimate as a best friend, as concerned as a mother, but more objective and authoritative than either."

The new magazine will give particular attention to human relations and the emotional problems of adolescence. In addition, it will offer young readers guidance in such areas as appearance, health, creative activities and consumer education; how-to information on homemaking, sports, grooming and career-planning; and general news of entertainment, the arts and world events.

To emphasize the dignity of the teen-ager and her meaningfulness in today's society, Ingenue will work directly with its readers in many areas: advisory panels, local reporters and contributors to the magazine's "Your Very Own" section, a regular feature devoted to the best creative writing and graphic art of young people all over America.

Enlarging on the term, 'personalized," as the keynote of Ingenue's policy, Mrs. Thompson said, "When Ingenue shows the reader fashions, the emphasis will be on clothes that make her look prettier and fit in with her varied life, rather than on mere smartness and chic. In beauty, the emphasis will be on how and why — how to use cosmetics, how to be well-groomed, the how and why of eating, sleeping — all the basics of health so neglected at this age because of revolt from parental supervision.

Girl Scout Council To Hold Workshop

Girl Scout leaders from the 13-county West Texas Girl Scout Council area, including Snyder, will be at Camp Boothe Oaks in Sweetwater this weekend for a special crafts workshop.

Special instruction in leathercraft, copper enameling, mosaics and aluminum tooling will be given. Directing the workshop, which opens at 6 p.m. Friday, is Emma Jane Brown of Lamesa. Miss Brown is director of summer established camps for the Council.

Margaret McAdams of Abilene, executive director of the council, will assist. Also on the staff will be Mrs. Frank Mitchell of Roby, Mrs. D. M. Costlow of Colorado City, and Harriet Redwine of Abilene.

Instruction in the workshop will be passed on to individual Girl Scouts by troop leaders attending the Sweetwater session, Miss McAdams said.

The workshop closes at 10 a.m. Sunday.

Ladies Lions Club Elects New Officers

The Ladies Lion Club held their monthly social meeting and election of officers at the home of Mrs. Doyle Buchanan, Lion Oil Gasoline Plant Friday evening.

Those elected to office were: Mrs. Bill Poe, president; Mrs. Albert Aycock, vice-president; Mrs. Beryl Williams, secretary-treasurer; and Mrs. E. W. McCommas, reporter.

Plans were made to repair used clothing for under priviledged children.

Games were played and prizes awarded to high and low scores of the evening. Secret pals also exchanged gifts.

Refreshments were served to Mmes. M. M. Rambin, D. W. McCommas, Beryl Williams, Al Floyd, Albert Aycock, Doyle Buchanan, Rex Nall, W. F. Hart, Pat Bills and Bill Poe.

Winner Named In Homemaker Of Tomorrow Contest Here

Peggy Dean Spence daughter of Mr. and Mrs. Leonard W. Spence, Lamesa Highway, has been named 1959 Betty Crocker Homemaker of Tomorrow at Snyder High School.

She received the highest score in a 50-minute written examination on homemaking knowledge and attitudes taken by graduating senior girls. She will receive a homemaking pin manufactured by Josten's, which represents the slogan, "Home is Where the Heart Is." Her examination paper will be entered in competition with those of other school winners in the state to name the state Betty Crocker Homemaker of Tomorrow.

The test is designed and judged by Science Research Associates.

Each state Homemaker of Tomorrow will receive a 1,500 scholarship from General Mills, an educational trip April 4-10 with her school advisor to Washington, D. C., colonial Williamsburg, Va., New York City and Minneapolis, and she will be a candidate for the title of All-American Homemaker of Tomorrow. The school of each state winner will receive a set of the Encyclopaedia Britannica. General Mills will award a $500 scholarship to each state runner-up.

There are 12,260 participating schools throughout the nation, which have enrolled 349,150 senior girls, the largest number of participants in the five-year history of this $106,000 scholarship program. Growth has been steady since 1955 when 187,463 girls in 3,040 schools participated.

The 1959 All-American Homemaker of Tomorrow will be announced in Minneapolis April 10 at the American Table Dinner in the Leamington Hotel's "Hall of States."

The scholarship of the All-American Homemaker of Tomorrow will be increased to $5,000. The national runner-up will receive a $4,000 grant, third place winner a $3,000 award and fourth place winner a $2,000 scholarship.

Snyder Palette Club will have an art exhibit at the Martha Ann Woman's Club showing of paintings by Rod Parkinson.

Busy Mother Has Time For Career

By DOROTHY ROE
Associated Press Women's Editor

Electrically charged Margo Albert has more jobs than she can count on her fingers. She's a singer, dancer, actress, songwriter, homemaker, family bookkeeper, radio and TV star, the wife of actor Eddie Albert and mother of two children, Edward, 7, and Maria 4.

"I had to develop a system we call 'Poosh-da-button'," says Margo. "It's a notebook, with index tabs, labeled 'Children, Eddie, Household, Shopping, TV, Records, Theater, Trips' and so on. Then I have one division that is just called 'Today' and under that are subdivisions for appointments, telephone calls, things to do right now and all that. If I lost that little book I might as well cut my throat."

Margo was born in Mexico City of a Spanish mother and a Spanish-Irish father, but the one-quarter Irish blood seems to have triumphed. Her blue eyes and dusting of freckles suggests only a heritage from the Ould Sod, and her quick humor backs up the impression. Her full name is Maria Margarita Guadalupe Bolado y Castilla de Albert, so it's easy to see why everybody simply calls her Margo.

From the age of 3, after her father's death, Margo lived with her grandmother in Los Angeles. She made her dancing debut at the age of 10. By 15 she was a full-fledged movie actress, playing the role of Carmen Brown in the Ben Hecht-Charles MacArthur film production, "Crime Without Passion."

"By the time I met Eddie I was already a veteran actress, even though I was still very young," says Margo, "so I didn't have any qualms about getting married and settling down. All I wanted then was to marry Eddie and have a home and family. I quit movies and everything but taking care of Eddie and the children until just recently, when I got back into a lot of things with both feet.

"There never has been any professional jealousy between us, because I had enough of the prima donna treatment before we were married. When people praise Eddie, I love it. But now that the children are no longer babies, I do enjoy being busy again. I've done some TV shows, and I've written some songs, made some recordings and worked on some travel articles and TV scripts. Now Eddie and I are thinking of working together on a TV series —that will really be fun."

WHAT'S GOING ON

MRS. E. W. McCOMMAS, and children DAVID and SUZANNE of Lion Oil Camp made a business trip to Sweetwater Wednesday. While there they visited MRS. DOROTHY GROGHAN and MR. AND MRS. HALL.

Ira 4-H Girls Hold Meeting Monday

The Ira 4-H Club girls met Monday afternoon at the Ira School.

Following the business the girls were led in singing "Tom Dulay" and "When a 4-H Girl Walks Down the Street" by Jackie Bishop and Joyce Sterling.

Twenty-two members including two new members, Roloel Olivearz and Mary Rodriquez were present, according to Darla Moore reporter.

DR. JACK NESBIT WORTH SAYNER

Sayner, Nesbit On SA Committee

Worth Sayner and Dr. Jack Nesbit have been named members of the Salvation Army Service Unit committee here.

The two were added to the committee at a meeting yesterday, according to Dan Warren, chairman.

Both men are civic leaders here. Sayner is a former city councilman. Nesbit has been active in many local projects through the Jaycees. Sayner operates the Western Auto Store here. Nesbit is a partner in the optometric firm, Blum & Nesbit.

Other members of the committee are Warren, Herbert Feather, Mrs. Vertna Sherrod, Mrs. Raymond Williams, Herman Trigg, the Rev. Jimmie Nelson, the Rev. Robert Owens, and Travis Steele.

At yesterday's meeting the committee set its next meeting for 3 p.m. March 2 at the Chamber of Commerce office.

'Liberation' Is Planned

PITTSBURGH (AP) — Seven hundred combat-ready paratroopers will drop from the skies near here May 8 in a mock liberation of Pittsburgh.

Some 25,000 spectators are expected to watch "Operation Pittsburgh," staged as a special feature of the city's bicentennial celebration.

Retired Gen. Matthew B. Ridgway, in charge of arranging the program for the Pittsburgh Bicentennial Assn., said the drop will be a regular training maneuver for the Army's 101st Airborne Division.

"This is the first time in history that the Defense Department gave permission for such an air-drop in such a densely settled area," he added.

Houston Man Elected

TULSA, Okla. (AP)—The Mid-Continent Oil and Gas Assn. has announced the election of J. Goldston, president of the Goldston Oil Corp., Houston, as president of the organization serving the industry in eight states.

Proposed Merger Blocked By State

FORT WORTH, Tex. (AP)—A proposed merger of Sinclair Oil Corp. and Texas Pacific Coal & Oil Co. was blocked by the state yesterday.

State Atty. Gen. Will Wilson got a temporary restraining order from Judge Jack Langdon in 17th District Court yesterday. Langdon set a hearing Feb. 2.

Wilson said the acquisition of Texas Pacific properties by Sinclair would constitute a monopoly, restrict trade and block the free pursuit of oil and gas business.

Sinclair submitted an offer Nov. 24 to directors of Texas Pacific Coal and Oil under which Sinclair would acquire all assets and assume the liabilities of the latter firm. P. C. Spencer, Sinclair board chairman, had asked a decision not later than tomorrow.

Directors of Texas Pacific Coal and Oil referred the offer to their firm's executive committee for study and were scheduled to meet tomorrow and vote on the proposal.

Wilson asked that if a permanent injunction is granted Sinclair and the brokerage firm of Lehman Bros. each be penalized $50 to $1,500 a day retroactive to Aug. 16, 1956, when the acquisition began.

Wilson said Sinclair bought 1,085,792 shares of common stock of Texas Pacific on that date. He said that represented about 30 per cent of the outstanding stock. Later, Sinclair acquired an additional 35,000 shares and Lehman Bros., headquartered in New York, bought more than 165,000 shares, Wilson said.

His petition contends the stock purchase was made to acquire control over Texas Pacific by having Sinclair get all assets of Texas Pacific. One share of Sinclair stock would be exchanged for each 1.55 shares of Texas Pacific stock. At present market value, that would make Texas Pacific stock worth about $40 a share.

In New York, Spencer denied Sinclair had violated any law. He said the company had not tried to dominate or control the Texas Pacific management or board of directors, noting that it has had not more than two members on the 15-man board even though it owns about 30 per cent of the outstanding stock.

Moonshining Now A Felony

OKLAHOMA CITY (AP)—Oklahoma has had prohibition for more than 50 years. Yesterday the State House of Representatives decided to put teeth into it.

By overwhelming votes the House approved bills making it a felony to manufacture, sell or give away tax-paid liquor and manufacture moonshine whisky.

These previously were misdemeanors, punishable at most by a $50 fine and 6 months in jail. Now the maximums would be $500 and a year in jail. But more important, officers would not have to obtain warrants to search for and seize whisky under the felony act.

Despite some criticism, the liquor bill passed 92-19 and the moonshine bill went through 105-10. They now go to the Senate. A third bill making it a felony to possess more than a quart of liquor was tabled for further study.

Cliff Wells, 62, is in his 14th season as Tulane basketball coach.

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

A SNYDER COUPLE TODAY is bubbling over with pride and with good reason.

Mr. and Mrs. Rufus Williams, 205 Thirty-third Street, have received word that their grandson, Glenn Britt, has been named the No. 1 swimmer in the nation by the AAU (Amateur Athletic Union).

Young Britt is a senior at Byrd High School in Shrevport, La. and is 17 years of age.

Britt was chosen over many outstanding college swimmers as well as boys his own age.

Britt has been a frequent Snyder visitor in the past and he's due to visit here again this summer. If so, we'll do our best to get him lined up for an exhibition at the local pool for the benefit of the swimming fans here.

Britt's grandfather, Rufus Williams, is employed by Lion Oil Co.

Tech Title Hopes Dimmed

Texas Tech's title hopes in the current Southwest Conference basketball race received a tremendous blow this week when it was learned that the Raiders' two tallest players, Pat Noakes and Harold Hudgens, have been lost to the squad because of poor grades.

Both Noakes and Hudgens stand 6-9.

Losing two boys with such tremendous height at one blow certainly dims the Raider championship hopes. Although Noakes had started most of the Raider games this season, he had lost his starting berth the past two games to James Wylie.

Neverthless, Noakes had been used aplenty by Coach Robison even when he didn't start and his rebound ability will be missed.

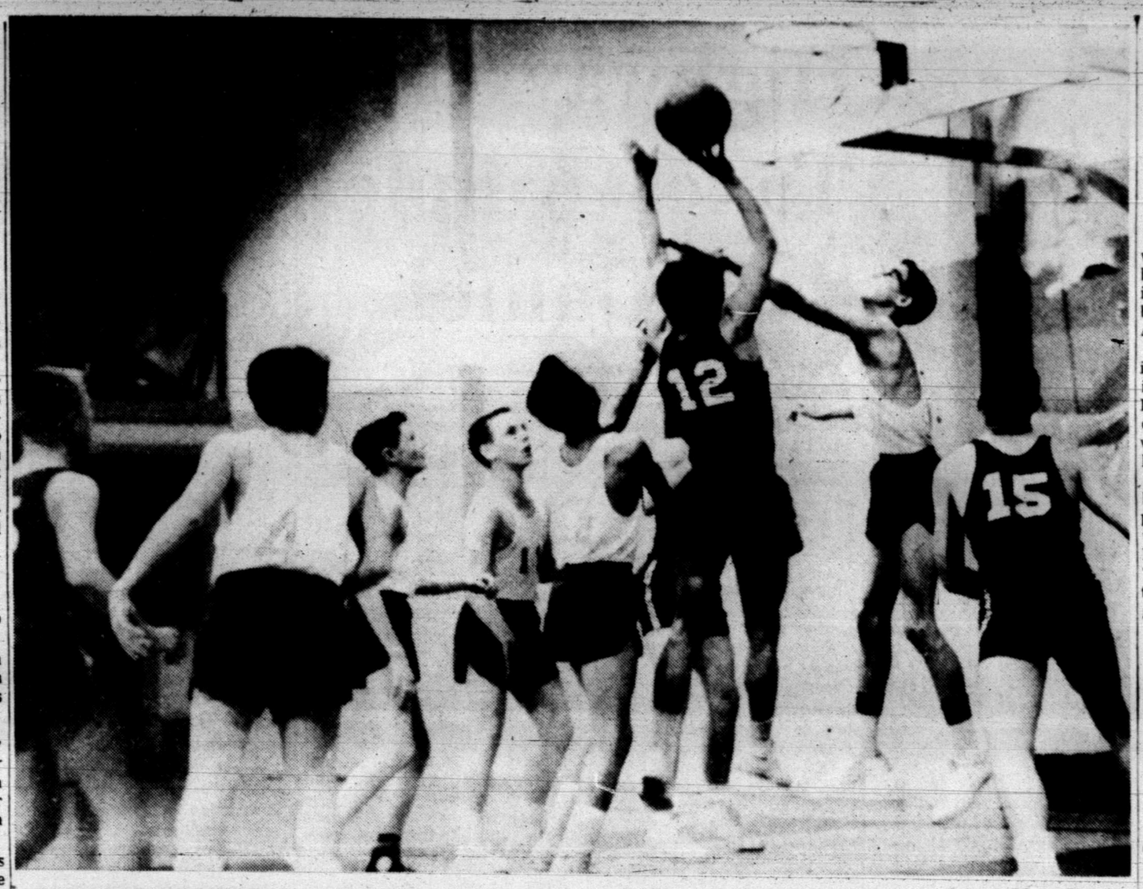

Hudgens, only a sophomore, hasn't been seeing very much action this season but he was a bright prospect for future Raider teams. Noakes, incidentally, is a junior.

The two tree - toppers, of cours could return to the Raider cage ranks next season by making up their grades this spring.

Sports Oddity

Sports briefs:

One member of the Tiger coaching staff is contemplating leaving the coaching ranks but we're withholding any further details until something definite has been determined—one of the sports oddities of 1959 thus far was Bruce Land's decision to transfer from ACC to cross - town rival McMurry at midterm—Land is one of the country's top sprinters and he was ticketed to take up where Bobby Morrow left off at ACC—Land had transferred to ACC from Cisco Junior College where he was the National JC sprint champion last year — Land's decision to transfer to McMurry was good news to ex-Snyder Tiger Grant Teaff who is the McMurry track coach — Bill Dubose, currently leading the Tigers and District 3-AAA in scoring, and Miss Pat Bills, have revealed their marriage of last September of which they had been keeping a secret—Dubose will finish out his athletic career at SHS as a basketeer and with the Tiger track team this spring.

TWO FOR BLUE DEVILS—Pat LaFountain, No. 12, goes high in the air to drop in two points for the Snyder Junior High Blue Devil 8th graders in last night's game with Stamford here. LaFountain led the Blue Devils to a 26-20 victory with nine points. Other Blue Devils shown are Glenn Ramsey, No. 15, and Darrell Aldridge, No. 5, extreme left. (Lee Watson photograph)

College Elites In Hero Roles Monday

By JOE REICHLER
Associated Press Sports Writer

Kentucky for the second straight week, fought off a strong challenge by North Carola to gain top ranking among the nation's college basketball teams in the weekly Associated Press poll.

The once-beaten wildcats, needing only one more victory to make it an even 600 for Coach Adolph Rupp, drew even more support today despite the fact that they, as well as the Tar Heels, were idle last week.

Of the 114 sports writers and broadcasters participating in the poll, Kentucky drew 41 first place votes to 27 for North Carolina. Last week the Wildcats topped the Tar Heels in first place votes 38 to 33. The balloting was based on games through last Saturday.

It was closer in the point total. Kentucky (14-1) had 1,155 points to 1,097 for North Carolina (10-1). Kansas State was a distant third despite 16 first place nominations. The Wildcats (13-1) attracted 786 points and didn't budge out of last week's position.

Because of the comparatively little action due to the mid-year examinations, there was very little change among the top ten.

Kentucky and Bradley will be the busiest of the top ten clubs this week. Each has three games scheduled. St. John's faces the toughest assignment, having to play strong St. Louis and Loyla on foreign courts.

The top ten teams, with first place votes in parentheses (points on 10-9-8 basis)

1. Kentucky (41) 1.155
2. North Carolina (27) 1.097
3. Kansas State (16) 786
4. Auburn (6) 625
5. Cincinnati (5) 622
6. North Carolina State (12-6) 613
7. St. John's (1) 356
8. Michigan State (1) 355
9. Bradley (11-2) 255
10. West Virginia (2) 172

The second ten: Mississippi State (7) 153; Marquette (4) 96; Seattle (1) 74; Oklahoma City 60; St. Louis (2) 53; St. Bonaventure (1) 26; Louisville 24; Illinois 17; California 16.

Tech Loses Noakes, Hudgens On Grades

LUBBOCK, Tex. (AP)—Basketball Coach Polk Robison said last night his two 6-9 centers, Pat Noakes and Harold Hudgens, are lost to the Texas Tech team because of poor grades.

Robison said he probably will move James Wiley, who started Tech's last two games at center, to forward and shift Pdo Hill, a 6-6 senior averaging 17.3 points a game, to center.

Noakes started most of Tech's games and averaged 6 points. He alternated during the game with Hudgens, who had a 3.1 average.

Kentucky 5 Holds Slim Lead In Poll

By JACK CLARY
Associated Press Sports Writer

Oscar Robertson, Bob Boozer, Johnny Cox, Jerry West, Kelly Coleman, Ron Johnson, Clarence Wordlaw and Ralph Crosthwaite are members of college basketball's elite.

Each of these potential All-Americas was principally involved in the final outcome of his team's game Monday night. Some produced winning efforts while others were not as fortunate. Robertson led the fifth-ranked Bearcats to a 73-52 victory over Drake in a Missouri Valley Conference game.

Boozer hit for 21 points in Kansas State's 78-55 romp over Iowa State in a Big Eight contest. Cox supplied the impetus with an 18-point performance in Kentucky's 94-70 lacing of Georgia Tech.

West Virginia took the lead for the first time with 4:10 to go on West's fielder as the Mountaineers won their 43rd straight Southern Conference game, 77-67 over George Washington.

Johnson tallied 28 points and led a rebounding parade as Minnesota downed Illinois 81-70 in a Big Ten game. Crosthwaite teamed with Charley Osborne for 51 points as Wests Kentucky avenged a December defeat by LaSalle with a 96-74 victory.

Conversely, Coleman was held to 16 points — 14 under his season average — as Miami, Fla. beat Kentucky Wesleyan, 69-64. Former Big Ten scoring leader Clarence Wordlaw could manage only 11 points for Iowa as the Hawks lost to Ohio State 86-72 in the only other Big Ten action.

In other major action, Don Smith scored 26 points for ninth-ranked Bradley in the Braves 77-63 victory over the University of Detroit and Ted Luckenbill and Gary Phillips combined to score 54 points in Houston's 88-58 win over North Texas State. Both were Missouri Valley Conference games.

Robertson helped Cincy to a 17-point first half lead with 16 points and scored 27 overall. He hauled down 17 rebounds and held Drake ace Bob Teeler to seven points in the first half. Teeler led Drake scorers with 17 points.

K-State, ranked third in this week's Associated Press poll, turned on a torrid second half to up their record to 14-1. The Wildcats had a slim 30-29 halftime lead but Boozer got help from Dave Douglas who scored 18 points for the runaway.

2 Rookies On Tiger Roster Can't 'Miss'

NEW YORK (AP) — You've heard about those "can't miss" kids, the kind who are supposed to be sure shots to make the big jump from the minors to the majors. . . well, it appears the Detroit Tigers will have two such specimen in spring training camp next month.

American Assn. people who watched pitcher Jerry Davie erect a league-leading 2.45 earned run average while winning 17 and losing five for Charleston, are convinced he will land a starting berth with the Tigers this year.

Southern Assn. folks are equally high on Steve Demeter, a third baseman who hammered 18 home runs and drove in 88 runs while building up a .310 average with Birmingham.

Davie is said to have a good curve and an excellent fast ball.

Demeter impressed the Tiger brass during the Dixie series against Corpus Christi when he hit safely in every game, batted .348, and pated both teams with three home runs and 10 runs batted in.

The Tiger roster contains six rookie pitchers, one catcher, six infielders and four outfielders. Don Lee, big right-handed son of Thornton Lee, former American League star southpaw, is back again after posting a 14-7 mark at Charleston. He had the same number of complete games as Davie, 18; fanned 111 in 276 innings, and his ERA was an impressive 2.95.

Bob Bruce, a young righthander from Birmingham, and Pete Burnside, Joe Grzenda and Wyman Carey, all left-handers, are the other pitchers.

Larry Osborne, a big first baseman with a good record in the minors, will receive a thorough test. Manager Bill Norman likes his power. He batted .287 at Charleston but he walloped 31 doubles, 19 home runs and drove in 97 runs.

Manny Mota, Pittsburg shortstop purchased from Spokane, a Los Angeles Dodger farm club, is regarded as one of the fastest men in baseball. In six years in organized baseball, he stole 251 bases. He batted .253 last season. Steve Boros and Bob Jingling are a couple of bonus infielders. Jingling is back after a three-year hitch in the Air Force. Bob Johnson, a third baseman, was purchased from Toronto where he hit .242.

Earl Hersh, former Milwaukee chattel, may be the best of the four new outfielders. The others are Ken Walters, George Alusik and George Thomas.

Gulf Coast Umpires Chartered By NBC

WICHITA, Kan. (AP)—The Gulf Coast Baseball Umpires Assn. in Texas has been issued a charter by the National Baseball Congress in its 1959 National Assn. of Umpires.

Under terms of the charter, the group will have jurisdiction of approving all individual umpire memberships in the national association from Galveston County.

Snyder Wins Three From Stamford 5s

Snyder schoolboy teams swept all three games of a tripleheader from Stamford here last night to run the combined season records of the three teams to 31-6.

The Tiger Freshmen won their 11th game in 16 starts this season with a resounding 55-34 victory over the Stamford Fish; the Snyder Junior High Blue Devil 8th graders won their 11th straight game without a loss with a 26-20 decision over the Stamford 8th grade quint and the Blue Devil 7th graders made it nine out of 10 with a 27-11 victory over Stamford 7th.

All three local teams got off to slow starts against the Stamford teams but all finished strong to win going away.

In the Freshman game, it was 6-6 after one quarter of play but the locals pulled into a 24-14 halftime lead and coasted home. The Tiger Freshmen extended their lead to 36-20 after three quarters.

Snyder 8th was down 9-6 at the end of the first quarter but then put on a full court press to hold the Stamford team scoreless the second and third quarters while building up a 20-9 lead. It was 13-9 at the half.

The Blue Devil 7th graders held scant one-point leads after the first two quarters, 4-3 and 8-7 but then pulled away in the third to a 21-9 lead and breezed home.

David Gan topped the Tiger Freshmen in scoring with 15 points with two others scoring in double figures, Mike Morris with 12 and Ed Phy with 10. Tipton was high for Stamford Freshmen with 11.

Pat LaFountain led the Blue Devil 8th graders with nine points. Stamford's McKeever had 10 points for top scoring honors of the game.

Benny Minor dunked in 12 points to lead Snyder 7th to victory. Ten of Minor's points came in the second half when the young Blue Devils rallied to ice the game.

The three local teams will resume action Thursday against Lamesa. The Freshman game will be played here while the two Junior High games will be played in Lamesa. The Freshman game will start at 6:30 with the opening game of the junior high twinbill to start at 4 p.m.

Leaders Vie Tonight In City League

The Boys Club will meet Poe & Wasson tonight to determine the leadership of the young City League basketball race at Junior High Gym.

Both the Boys Club and P&W sport 1-0 records. P&W handed D&H an 88-37 defeat in the season opener last Thursday while the Boys Club won via a default from Brooks Oil.

Tonight's Boys Club-P&W game will start at 8:30. Meeting in the first game will be D&H and Brooks Oil at 7 p.m.

Another doubleheader will be played Thursday with Poe&Wasson and Brooks Oil clashing in the opening game at 7 p.m. and the Boys Club and D&H meeting in the 8:30 nightcap.

Following are the standings:

CITY LEAGUE STANDINGS

MEMBERS OF a planning committee which will help form proposed plans for a county-built community center at Dunn, shown here with J. C. Massingill, left, commissioner of precinct 4, are, left to right, Mrs. W. J. Fuller, Richard Hardee, and Mrs. Lynn Fox. The committee was elected in a community meeting last night. (Don Laing photograph)

Community Building In Dunn Will Be Erected By County

DUNN (Spl.) — Plans will move ahead for the erection in the near future of a community building to be erected in Dunn by the county.

The community building is the preference of Dunn community residents in connection with a county recreation facility authorized by voters of the county in a bond election in 1956.

In a special meeting last night, more than 70 Dunn community residents discussed the project and heard discussion by J. C. Massingill, commissioner of precinct 4.

Massingill told the group that presently there is $13,000 available in the permanent improvement fund for the project, set up by the commissioners court last year. He asked for indication from the group as to whether they desired the county's going ahead at the present time with what money is available and building as large a community house as the funds will allow. The building would be maintained by the county.

Dunn area residents accepted a plan to go ahead with the project with the presently - available money.

Trustees of the property where Dunn's present community house stands were given authority to deed that property to the county for use for the new community building.

At the suggestion of Massingill, residents of the community elected a committee to help draw suggested plans for the building which will be submitted to an architect for detailed planning. Those on the committee are Richard Hardee, Mrs. Lynn Fox, and Mrs. W. J. Fuller.

The present community house will be sold by the community, and the money will be kept in the treasury there for any use the community decides upon.

Sealed bids wil be accepted until Feb. 10 for the old community building by the community house secretary, Mrs. W. J. Fuller. The buyer can move the building immediately but must not wait more than 30 days to move it.

Graham Smith presided at the meeting. Pie and coffee were served following the business session.

Bottle Romance Goes On Rocks

CARACAS, Venezuela (AP) — Italian Margherita Bettelli, 28, whose note on a syrup bottle inspired a transatlantic marriage offer, got her first look at her divorced suitor Monday. Apparently that was enough.

"I am not going to marry that man, but I am going to stay in Venezuela and look for a job," the woman reportedly told a stewardess on the liner that brought her from her native Italy.

Francisco Mule, 36, a balding immigrant tailor, found Margherita shy and a bit skeptical when he boarded ship and embraced her.

The woman sniffed when Mule shrugged off the matter of another wife and two children in Italy. He said he had obtained a Mexican divorce before he answered Margherita's note.

"I am here because I am free, and my conscience is clear," he told newsmen.

Asked about a Venezuelan girl friend, Rosa Acosta in Maracaibo, Mule said she was "no problem."

At this point Margherita said she wanted a little time to think things over. A short time later she left with two men. One said he was her cousin, the other said he represented a cousin.

Margherita was employed at a bottling works near Vignola, Italy. Working on an order for a Venezuelan firm, she attached a note to a bottle saying she would like to visit the South American company. Francisco found the note, started a correspondence and proposed.

Pictures of her and Francisco landed on Italian TV screens and Pabla Ruscica Mule, living in Sicily, claimed him as her husband.

New Business Agent Here For Phone Co.

A new business representative will assume duties here within a few days at Southwestern Bell Telephone Co., according to Truman Black, manager.

He is Stanley Edwards, who is now taking special company training in a school at Big Spring.

As business representative, Edwards will succeed Clark LeBlanc, who will leave next week to become communications representative for the company for the Abilene exchange. LeBlanc has been here about one and one-half years.

A business representative handles accounts, contacts business customers, and is in charge of coin stations.

Edwards moved here from Odessa, where he was employed by Beck Construction Co.

A native of Rotan, he completed high school there. He attended Sam Houston State College, Huntsville, for two years as an engineering student. He is a member of the Baptist Church.

Edwards and his wife live at 3709 Highland Drive. He is a brother of W. T. Edwards, Snyder barber.

Smokers Are Penalized

OLYMPIA, Wash. (AP)—The issue was a burning one but throats stayed cool in the clear chambers of the Washington State Senate.

When the arguments were over, the air was still clear.

Smoking senators had won on a voice vote to retain a regulation against smoking.

An opponent said of the rule: "Its only purpose is to provide a modicum of horseplay."

"We are entitled to a little relaxation," said a backer of the regulation. "And besides, it provides cigars when someone is forgetful."

That cleared away the smoke around the seemingly strange position taken by smoking senators.

Smokers wait patiently until a fellow senator or a member of the pre lights up. Then one of them points out the rule-breaker.

The guilty party has to buy a box of cigars to be passed around the chamber.

Slezak Will Appear At Metropolitan

NEW YORK (AP)—Walter Slezak, actor and musical comedy star, will sing on the Metropolitan Opera stage where his father won fame a half century ago.

Slezak 57, has been signed to appear as a guest artist in the comic role of Zsupan in the Johann Strauss operetta, "The Gypsy Baron."

The operetta, in a new English version by Maurice Valency, will be staged at the Met next fall for the first time since the 1905-06 season.

That was a few years before Slezak's late father, Leo, became a leading tenor at the opera house. From 1909 to 1913, Leo Slezak earned a substantial reputation for his performances of Otello and roles in the Wagnerian repertoire.

His mustachioed son, who has sung in musicals by Sigmund Romberg, Jerome Kern, and Rodgers and Hart, describes his voice as "loud but unpleasant." He is starring on Broadway in "The Gazebo," a mystery comedy.

Slezak can claim the music of Strauss as a kind of birthright. He was born in Vienna in 1902. Before coming to this country in 1930, he was trained as a pianist and accompanied his father on concert tours.

Slezak doesn't plan lessons for his operatic debut.

"It's too late now," he said.

Negro Draws Praise Of Solon Critic

AUSTIN, Tex. (AP) — A state representative who protested when the University of Texas cast Barbara Louise Smith in a student opera today offered the Negro singer his congratulations.

Several East Texas representatives objected last year to Miss Smith playing the lead role opposite a white male in the opera "Dido and Aeneas." She was dropped from the cast. She left Monday for New York to further her studies in music and drama.

"I want to congratulate her on graduation," Rep. Joe Chapman of Sulphur Springs said. "I'm glad to hear she's got a scholarship. I wish her all the success in the world. She is a great artist."

The incident which cost her the student opera role attracted the attention of Negro singer Harry Belafonte. His foundation will partially finance her work in New York.

Miss Smith, 21, of Pittsburgh, Tex., sang a prayer solo Sunday at the University Baptist Church, where she has been a member of the choir since 1956.

The song was "Let Us Break Bread Together On Our Knees."

Highway User Taxes Ample, Says Daniel

AUSTIN (AP)—Gov. Price Daniel said today if the federal government will apply all present highway user taxes to the highway program there will be no need for additional funds through an increase in the federal gasoline tax.

The governor spoke to directors of the Texas Good Roads Assn. and urged their support in fighting the tax.

He called President Eisenhower's proposed increase "one of the greatest blows ever inflicted upon state governments. It must be defeated.

"It is thoroughly inconsistent for the President to advocate the return of responsibilities and resources to the states and then turn around and try to further preempt this the most important of all sources of state revenue," Daniel said.

He said if Eisenhower's 1½ cent tax is added on Texas will send 330 million dollars in highways user taxes to Washington and will get back only 167 million dollars. The federal government pays 90 per cent of the cost of the interstate highway system.

Daniel said over a billion dollars in highway user taxes is now being diverted to other purposes each year.

"Twenty-eight governors have agreed to join in a last ditch fight against this federal proposal. All of them say that either now or in the near future their states will need additional gasoline taxes to spend at home," he said.

Daniel said $1,395,497,000 in road use taxes in 1958 did not go to the highway trust fund including the 10 per cent excise tax on cars, 6 cents a gallon excise tax on lubricating oil, 8 cents excise tax on auto parts and half of 10 per cent excise tax on trucks and buses.

Daniel said that "some day soon" Texas will need to add another cent state tax on gasoline.

"Thirty-six states, including our four neighboring states, have higher gasoline taxes than Texas, and only one state now has a lower rate," he said. "With more miles of highways than any other state, it is obvious that some day soon we will need another cent as a state rather than a federal tax.

"I ask you boosters of good roads in Texas to fight against this federal tax and help keep this source of revenue to be spent in our own state for better roads and to add further to the improvement of our public schools."

Odessa Man Slain By Kidnap Suspect

ODESSA (AP)— Vernon Pittman, 28, was shot to death early today by a gunman accused by three others of kidnaping them.

The three said the gunman abducted them and Pittman, forcing the captives to drive around this West Texas oil city for more than an hour before and after the shooting.

Officers arrested a man after a house to house search of a four block area. The three witnesses said he was the gunman.

FACE TRIAL FOR SEDITION—John W. Powell, magazine publisher in postwar Shanghai, and his wife Sylvia, are two of three defendants who are on trial in San Francisco, charged with sedition. The government says they conspired to obstruct the war effort when they published what they knew to be false reports of U. S. germ warfare in Korea. (AP Wirephoto)

Post Man's Car Wrecks

A Post man apparently was not injured late yesterday when he overturned his car just south of Dunn.

He is Henry Munger Kemp, 59, who was brought to Cogdell Memorial Hospital by Bell ambulance and admitted for observation.

Kemp lost control of his 1954 Chevrolet coach on the curve of a mile south of Dunn on State Highway 208. The car, in a broad skid, left the road and overturned landed on its top and skidded about 100 feet. The accident occurred at about 6:10 p.m.

The car was almost totally damaged. The accident was investigated by Gordon Johnson and Arthur Dyson, highway patrolmen.

Harvard will have a tough time retaining the Ivy League hockey title. The four top scorers from last season have been graduated.

OUR VIEW

The United Fund's Crisis

The Scurry County United Fund is in a virtual battle for survival. If it fails to reach its goal this year the organization may continue to function, but there is something depressing about a temporary failure which is difficult to overcome.

If the United Fund does fail to subscribe enough funds to meet the operating budgets of the nine participating agencies this year, the fault will be general community apathy. The United Fund here has been unique in a sense, because it has been a purely local operation. Except for a couple of days when the organization launched its first campaign for funds, no professional help has been imported to direct strategy for the annual campaigns.

Most organizations of this type use the talents of professional agencies to spearhead such campaigns each year and it is rare indeed for a town the size of Snyder to carry it off solely on the efforts of a group of homegrown amateurs.

There is much to be said in favor of professional fund raising directors. Yet, a community that has ample talent of its own and is willing to use it deserves some credit and most certainly is entitled to sheer pride over its accomplishments.

Nevertheless, it will not be a blot on the community if the United Fund decides to go the professional route in future campaigns. The organization has a responsibility to the agencies which it cannot escape. Otherwise, the agencies will be forced to go at it individually in their search for operating funds each year, which means a step backward.

Soviet Leaders Gain Confidence

By JAMES MARLOW

WASHINGTON (AP)—The Soviet leaders who walked into their 21st party congress today were a lot more confident group than met three years ago to hear Nikita S. Khrushchev downgrade Stalin.

Khrushchev showed a lot of confidence at that time, to be sure in his own ability to destroy the memory of Stalin and still survive in the Kremlin power struggle and in the future of the Soviet Union.

It was at that time he suggested Communist parties elsewhere could feel free to do their own thinking. It was an idea that came to a quick and bloody end when Hungarians, seizing a little freedom, tried for more and were crushed.

History will probably say Khrushchev in 1956 did what he had to do in condeming the long tryanny of Stalin. He wanted to destroy the image of Stalin which represented terror and oppression to all peoples everywhere.

If communism—Soviet brand—was to extend its influence in Asia, Africa and even Europe it had to put on a much friendlier and a more reasonable and helpful face than Stalin ever displayed.

Khrushchev's new policy has worked pretty well. Russian influence has been extended. But Khrushchev in 1956 was in a position know, what the rest of the world didn't, that Russia would soon be able to dazzle the world.

It did that late in 1957 when it shot its Sputniks aloft and made clear it was far advanced—more so, it seems, than the United States — in the development of long-range missiles.

Those missiles as they develop —or so the Soviets hope and say—will be a tremendous counter force to the bases which this country has built around the Soviet Union with the cooperation of American allies.

But nothing shows better how much more confident Khrushchev is now than this; in 1956 he preached sweet reasonableness. Now he's demanding the United States withdraw its forces from West Berlin.

Ever since he made the demand in November the Western world has been able to talk about little else, and Khrushchev, judging from the gay way in which he dwells on the subject, enjoys the West's concern.

He was in gay mood Monday night at a diplomatic reception, promising to make such a long speech at the party congress today that he said he had advised Communist leaders to bring their lunch.

He can afford to be gay: He's undisputed master in the Soviet Union. In the years since 1956 he has sent into oblivion such old Communist stalwarts as Molotov, Malenkov and Bulganin.

Since Khrushchev has a good sense of the dramatic it's quite possible he will come up with some startling pronouncements at the congress meeting.

Foundation Spurs New Study Plan

By LEIF ERICKSON

SAN FRANCISCO (AP)—A gift of an ice machine to chill country club martinis inspired a community foundation that finances advanced study for public school teachers.

More than 500 school board members gave two hours of concentrated attention to a National School Boards Assn. section meeting Monday night to a how-to-do-it explanation of the Columbus, Ind., foundation idea.

The idea was born with Dr. W. L. Wissman, Columbus physician and school board member.

"I heard that a man in our town gave a $1,500 ice-making machine to the country club," Dr. Wissman explains.

"I figured if there were people around with that kind of money to give away why couldn't we get some of it together to support summer study opportunities for our teachers."

The Columbus foundation collected and donated its first private money in 1956. In three years it has awarded grants to 56 Columbus teachers for summer projects including a Spanish teacher's tour to Valencia, Spain.

Private gift support for faculty research work and advanced study is widespread in colleges and universities. The Columbus foundation apparently is a pioneer in doing this job for elementary and high school teachers.

"The effect on teacher morale has been notable," declared Clarence E. Robbins, school superintendent. "And we now find we have an important advantage in recruiting good new teachers."

Robbins said 50 per cent of the Columbus school system teachers hold master's degrees. No more than 10 per cent of the teachers in an average school system will have master's degrees.

The foundation, has budgeted $12,000 for summer study projects this year.

About $10,000 was spent last summer on such "faculty enrichment" as mathematics study at New York University; gifted children workshop study at Stanford University, counselling study at Denver University, Shakespeare institute study at Yale University, advanced science and mathematics study at the University of Virginia and study at the Bread Loaf Writing Workshop in Vermont.

Said Superintendent Robbins; "we've been able to do something for the people who have felt they must work at jobs on the outside —to maintain a standard of living they wanted for their families.

"People like this are usually the best people in teaching."

Up to now the Columbus foundation has been amply financed with a low pressure solicitation among industries, business firms and professional people. A city of 22,000, Columbus has three major local industries supporting the foundation.

The foundation board passes on study project ideas proposed by teachers. Strictly junket propositions don't get by, said Dr. Wissman.

New Rubber Plant Slated

ORANGE, Tex. (AP)—Firestone Tire and Rubber Co. plans to build the world's first plant for manufacture of two new types of synthetic rubber here.

Harvey S. Firestone Jr. announced plans yesterday for construction of the dual purpose unit at the Firestone Petrochemical Center here.

Firestone said the plant will produce both Diene, a partial replacement for natural rubber, and Coral, "which may be used in any application where natural rubber now is used."

No cost figure was given. Firestone said the plant will be able to produce 30,000 tons of either product annually.

Mail Reveals More Items Of Interest

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Doctors, like their patients, often put off being doctored too. A survey showed one out of four physicians with hypertension waited two years before seeking treatment, and 14 per cent with peptic ulcer postponed treatment for five years or more.

Did you know a mink coat made of female skins is supposed to be preferable to one made of male skins? It is reportedly finer-haired and lighter in weight.

Beau Brummell, famous 19th century British dandy, is sometimes credited with being the first man in modern history to take a daily bath. But, alas for cleanliness—later in life he became dirty and slovenly, and died a senile pauper.

Taking a bath, incidentally, is still something of a problem in some parts of the United States. Three million American homes still lack running water.

As men get scarcer, the girls are giving them less and less chance to get away. The average engagement period 30 years ago was a year or more. Now it's from five to seven months.

Do you share the popular misconception that most actors are sissies? They aren't. Many are exathletes and most keep in top physical condition.

Do you like to lie on the rug while watching television? Well, cut it out: you may get sick. Some statistician has figured out a 9-by-12-foot rug collects three pounds of dirt in a year and nests 11,914,000,000 germs.

For people who don't like air condition, a trip to the moon offers a fine escape. The temperature there ranges from 215 degrees above zero by day to 240 degres blow zero at night.

If you've ever wondered why there are so few vine-covered cottages around Wall Street, Manhattan's famous financial district, here's your answer: Land there is conservatively valued at $15,000,000 an acre. And seats on the New York Stock Exchange have ranged in price from a high of $625,000 in 1929 to $17,000 in 1942.

To get money quickly from a banker, tell him you want it to put on a second bathroom in your home. This is one of the projects for which it is now easiest to get a bank loan.

It was George Bernard Shaw who observed, "The more things a man is ashamed of, the more respectable he is."

Hayden Off On Cruise With Children

LOS ANGELES (AP) — Actor Sterling Hayden, 42, is off to Tahiti with his four children in a 65-year-old boat, and his lawyer thinks there's a chance he may get away with defying a judge's ban on the trip.

Attorney Grant Cooper says he doubts any South Seas government would honor extradition papers even if they are issued.

"Contempt of court is only a misdemeanor," he said, "not a felony. It could be done, of course, but it never has been."

Superior Judge Emil Gumpert, who declined to issue a contempt citation against the actor Monday, scheduled a hearing today of further arguments.

Oil Imports Top Quota In December

WASHINGTON (AP)—The Interior Department said yesterday nationwide crude oil imports for December ran 126,300 barrels a day more than the national allocation.

The average was 1,060,400 barrels a day.

The five Western states in Dist. T averaged 233,900 barrels a day, the first month in which the Western imports exceeded the allocation of 221,100 barrels a day. The states are California, Washington, Oregon, Nevada and Arizona.

In the area east of the Rocky Mountains, December crude imports averaged 826,500 barrels a day with a quota of 713,000.

Nationwide imports of unfinished gasoline and other unfinished oil products were 180,600 barrels a day, or 1,200 above the recommended level.

Nationwide crude imports for 1958 averaged 941,700 barrels daily, 9,600 below the approved allocation.

Imports into the Eastern area for 1958 averaged 757,500 barrels daily with an allocation of 730,500. In Dist. V, the average was 184,200 against an allocation of 220,800.

The voluntary limitation program, started Jan. 1, 1958, is being revised.

Railroad In Red

ST. LOUIS A(P)—Missouri - Kansas - Texas Lines said yesterday it lost $2,749,571 in 1958.

The KATY said contingent interest on 5½ per cent income debentures amounted to $3,668,527 in 1958 and income totaled $918,956.

The KATY lost $855,538 in 1957.

Adolph Rupp, Kentucky basketball coach, is serving his sixth term as president of the Kentucky Hereford Assn.

Junior Editors Quiz on SCIENCE

QUESTION: What makes a divining rod find water?

* * *

ANSWER: Using a divining rod to find something hidden is older than history. Romans used to foretell the future by tossing bits of wood and figuring out what patterns they formed. But the particular use of the forked hazel or willow twig to find metal or ore beneath the ground started in Germany in the 15th century. The Germans brought it to England and the "dowsing" or divining rods were used to locate tin in Cornwall during Queen Elizabeth's reign. As tin mining declined, the rods were used to find water.

Scientists have no real explanation for the divining rods. There is no logical reason why a twig should dip over water, but it must be admitted that dowsers—as people who operate divining rods are called—are often amazingly successful at finding places to dig wells. Scientists believe that the dowsers twist the rods without realizing they are doing so. They compare the dowser's involuntary reaction to spots that contain hidden water to the homing instinct found in some birds. It is apparently something below the conscious level of the mind.

* * *

FOR YOU TO DO: Here is a picture of a Roman using a divining rod to guide him in digging a garden pool. Color it with your crayons.

* * *

(The 4th grade of the Scotts Valley School in Santa Cruz, Cal., got together to send in this question and they receive our $10 award. If you have a question, send it on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: When were road maps first used?) 1-27

Air Passengers Lured To Houston

DALLAS (AP)—A Civil Aeronautics Board hearing was told yesterday that Galveston "is waging war" on a limousine service which was accused of urging air passengers to use the Houston airport.

James H. Phipps, a Galveston civic leader, made the charge as the CAB opened its second week of hearings on Trans-Texas Airways' application to discontinue service to Texas and Arkansas.

In another action, Trans-Texas asked for authority to start two flights daily to serve the Midland-Odessa area.

Jack Howe, a Trans-Texas spokesman, said the service would fill a void caused when Continental Airlines abandoned a San Antonio-Midland-Odessa route.

Phipps gave many reasons why he believed non-stop service between Dallas and Galveston should be continued, then broke off, saying:

"I have a little something to tell you. Galveston is losing credit for at least 50 per cent of its airplane boardings due to a local condition. We have now declared war on it.

"We have a travel bureau with a limousine service which had been advising flight passengers that they would not recommend flying out of Galveston. Instead, they recommended the Houston airport as the best place to take-off.

"Yet, those taking off from Galveston reached Dallas some 30 minutes earlier."

Phipps, chairman of Galveston's airport commission, admitted that Galveston was "marginally in default" in failure to board the minimum of five passengers a day which CAB says a city should if it is to have air service to a certain point.

"We believe that now the limousine service has been straightened out that a potential seven to 10 passengers will be boarding," Phipps said.

Assets Of Firm Sold

NEW YORK (AP)—Assets of Oil and Gas Property Management, Inc., of Dallas are to be sold to NAFCO Oil and Gas Co. for 19 million dollars, NAFCO said yesterday.

Included are producing properties in Texas, Louisiana, Oklahoma, New Mexico, Nebraska, Kansas, Wyoming, Illinois, Indiana, Kentucky, Mississippi and Montana. NAFCO, a subsidiary of National Automotive Fibres, Inc., of Detroit, said these properties produce 4,200 barrels of oil and 25 million cubic feet of gas daily.

Other assets include about 50 per cent of the stock of Dorchester Corp. that firm owns and operates three gasoline plants and 241 gas wells in Texas, Oklahoma and Kansas.

Nafco oil and gas said offices of oil and gas property management in Dallas, Houston and Amarillo will be continued and that no change in management personnel is planned.

The Rochester, N. Y., High School Bowling League is in its 28th season. It has 12 teams.

LEGAL NOTICE

NOTICE TO BIDDERS OF SCURRY COUNTY'S INTENTION TO RECEIVE PROPOSALS FOR ITS PURCHASE OF FRONT-END LOADER OF A CAPACITY OF AT LEAST 1½ CUBIC YARDS

The COMMISSIONERS' COURT OF SCURRY COUNTY, TEXAS, hereby gives notice under Sec. 2 of Article 2368a of Vernon's Revised Civil Statutes of the State of Texas of 1925, as amended, that it will consider sealed bid proposals received by the undersigned J. Ray Martin, County Judge of said County, in his office in the Court House in the City of Snyder not later than 10:00 O'clock in the forenoon of Wednesday, February 4, 1959, for the said Scurry County to purchase, on the terms hereinafter contained, ONE new front-end loader complying with either one or the other of the following specifications, to wit:

(1) A CRAWLER-TYPE loader having or being equipped with a shovel of a capacity per load of not less than 1½ and not more than 2 ¾ cubic yards, a diesel engine of not less than 70 and not more than 112 horsepower, a 12- or 24-volt electric starter, crawler tracks having an area of ground-contact of not less than 2150 square inches, cab, heater, ripper on rear, detachable digging teeth on bucket, and either a bulldozer blade or a combination of blade and bucket, and weighing not less than 19,000 and not more than 32,000 pounds; or

(2) A RUBBER-TIRED loader having or being equipped with a bucket having a capacity per load of not less than 1½ and not more than 2 cubic yards, a scarifier at the rear or under the loading bucket, a diesel engine of not less than 100 and not more than 140 horsepower, 12- or 24-volt electric starter, 4-wheel drive, 16.00x24 12-ply tires at front and rear, cab, heater, and hydraulic power booster steering, and weighing not less than 19,000 and not more than 27,000 pounds.

The County will give in trade — and the successful bidder shall accept — as a part of the County's consideration for such new loader one (1) used TL-24 Loraine Shovel which may be inspected by bidders by contacting J. C. Massingill, Commissioner of Precinct No. 4, Scurry County, Texas, in the Commissioners' Court Room in the Court House in Snyder; and those who tender the County proposals under either Item (1) or Item (2) shall do so for each bid by stating whether the loader for which the proposal is offered is "Crawler-Type" or "Rubber-Tired" and thereafter in dollars and cents the acceptable difference in cash value between the new loader proposed for purchase by the County and the said TL-24 Loraine Shovel to be received in trade by the successful bidder and by guaranteeing delivery within thirty (30) days after the acceptance of the successful bid by the County.

Wallace Left In Hero's Role

MONTGOMERY, Ala. (AP) — The acquittal of former Judge George Wallace on a contempt charge leaves Wallace in the role of a potential candidate for governor boasting he defied civil rights investigators and got by with it.

Wallace insisted he disobeyed a federal court order, despite the court's finding that he had complied with it and actually helped the U.S. Civil Rights Commission get access to voter registration records.

The former state judge dclared he had successfully defied the authority of the federal government and the civil rights agency. "They were defied and backed down," he said.

"This only shows," said Wallace, "that if you resist them (federal agents) and back them to the wall, they will hunt any way to back away."

Wallace's term expired last last week. He was under court order from U. S. Dist. Judge Frank M. Johnson Jr. to make the records available to commission agents. Instead he turned them over to grand juries hastily summoned in Barbour and Bullock Counties.

Johnson ruled Monday that because the grand juries made the records available for examination Wallace carried out the effect of his order and only pretended to defy the court.

The federal jurist said Wallace from all appearances retained control of the registration records after giving them to the grand jurors. And it was Wallace himself who actually notified agents the records would be made available, he noted.

Accordingly, Johnson dismissed the contempt charge against the Clayton, Ala., lawyer, who was runnerup in the Democratic primaries for governor last year. He is regarded as a likely candidate for that office in 1962 or for the U.S. Senate next year.

Wallace, 39, said he interpreted his acquittal as a vindication of what he called his militant stand against the Civil Rights Commission and its inquiry into Negro voting complaints. "It has been apparent they were hunting a way out," he asserted.

Johnson, without accusing his former college classmate of political motives, said, however, that "this court refuses to allow its authority and dignity to be bent or swayed by such politically generated whirlwinds."

Wallace declined to say whether he has any political plans, but took sharp issue with Johnson on that point. He insisted there was nothing in the court record to justify any such observation by the federal judge.

Although Wallace pleaded guilty to disobeying the decree, Johnson said Wallace merely used devious methods and means of subterfuge to comply with his order to show the records to agents.

Wallace said he acted within his right as a state judge when he withheld voter records from commission agents and gave them to the grand juries.

MAJOR'S LEAVES are pinned on recently-promoted Albert L. Morton of Snyder, center, by Col. A. A. Denton, right, commander of Dayton Air Force Depot, and Col. Robert A. Salzarulo, director of procurement and production directorate at the depot.

Morton Promoted To Major's Rank

Promotion of Albert L. Morton, Air Force officer from Snyder, from captain to major has been announced by Col. A. A. Denton, commander of Dayton Air Force Depot, Dayton, Ohio.

Morton, whose promotion became effective Jan. 16, is assigned to the depot's procurement and production directorate.

A veteran combat pilot, Morton transferred to the depot from Wright-Patterson Air Force Base, where he completed training in the Air Force Institute of Technology and received his master of science degree in business in the field of industrial administration.

Born in Snyder April 8, 1924, Morton graduated from Snyder High School in 1941.

He enlisted in the Air Force as a private Dec. 15, 1942, and was commissioned June 27, 1944.

Serving in the European Theater, Morton piloted a B17 bomber on 25 missions. He was awarded the Air Medal with three oak leaf clusters.

After a tour of duty in Japan from December, 1946, to June, 1949, he resumed his education, which had been interrupted by World War II, at the University of Arizona. He was later transferred to the Strategic Air Command headquarters at Omaha, Neb., and he received both his bachelor of Arts and bachelor of science degrees in business at the University of Omaha.

Morton was promoted to captain in 1951 and has the senior pilot aircraft rating. In addition to pilot training and B17 experience, he is qualified to pilot B29 and B50 multi-engine aircraft.

Morton married the former Louise Hall of Raleigh, N. C. They have two children, Linda, 7, and Joan, 5, and have lived in Dayton since early 1956.

His parents, Mr. and Mrs. A. R. Morton, live at 807 Twenty-eighth Street here.

Prisoner Commutes In His Own Plane

MINNEAPOLIS (AP)—With his auto driver's license suspended, William G. Hopp is commuting by plane to the Minneapolis workhouse to serve a 30-day sentence which permits him daytime freedom.

Hopp works near his home in suburban Robbinsdale. He takes a cab to a nearby airport each evening. There he climbs into his 65-horsepower plane and, in four minutes, lands on the ice of Parkers Lake, where the workhouse is located. Mornings, he reverses the procedure.

Worry of
FALSE TEETH
Slipping or Irritating?
Don't be embarrassed by loose false teeth slipping; dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter

Governor Must Lead Cold Life

JEFFERSON CITY, Mo. (AP)—You'd think the governor would have a pretty comfortable residence.

But not the governor of Missouri.

In the governor's mansion there are many rooms—and all are hard to heat. On a recent 30-degree day, only two of the 20 rooms could be heated enough to be comfortable. These were a second-floor bathroom, which has a supplementary electric heater, and the kitchen, which has two electric stoves.

The trouble is, the place is a firetrap. All the fireplaces have been plugged up and the furnace has been removed as a safety measure. Steam for heating is piped from a state office building about a block away. This heat rapidly seeps out through rotted door and window frames. During a recent cold wave, Gov. James T. Blair stuffed folded newspapers in the windows and doors.

The three-story mansion, of stately French-Italian design, is 86 years old. The plaster sags on some of its 22-foot ceilings. Paper peels off the walls almost as fast as it is put on.

Why does the governor put up with it? He didn't until four months ago. When he was inaugurated in 1957 he balked at moving in, describing the place as "cold, drafty and rat-infested." He and Mrs. Blair finally made the move because custom said they should.

Monday the governor told the Appropriations Committee of the State House of Representatives:

"You gentlemen have to make up your minds sometime whether you want to make only an historic shrine out of the mansion or whether you want to make it a livable place for your governors."

He said architects estimate it would cost $750,000 to put the mansion into livable shape. A new mansion, on a more modest but more practical scale, could be built for about $200,000.

Nail Biting A Big Help Says Expert

DALLAS (AP) — A dental specialist defends such traits as biting fingernails, chain smoking, chewing pencils and the like. They don't hurt your teeth, he says, but they do relieve tensions and are better than going home and helling at the wife and kids.

Dr. Maury Massler of the University of Illinois said in an interview Monday chewing habits are valuable mechanisms for releasing tensions.

He said thumb-sucking in a baby is a sign of contentment—a young child sucks his thumb as a substitute for a nipple. Most children stop this at the age of 3 or 4, he added.

On reaching the age of frustration, Dr. Massler said, many children switch from thumb-sucking to nail-biting.

The children's dentist said thumb-sucking may cause protruding teeth if continued beyond age 6, but nail-biting does not hurt the teeth.

"Almost every adult has a chewing habit of some sort," Dr. Massler said. "It was found in World War II that the best pilots were not the calm ones but those who bit their nails or chewed their lips."

Chain-smoking or nibbling on pencils all day is much preferable, he said, to going home bursting with frustration and bellowing at your wife and children.

Dr. Massler did say chewing gum isn't such a hot idea. It contains sugar and that's bad for your teeth, he said.

Son's Heart Attack Delays Celebration

WHITESBURG, Ky. (AP)—John Elliot was tired Monday, but that wasn't why the big celebration planned for his 101st birthday was called off.

His son, James, 67, suffered a heart attack. James, one of six children, is hospitalized at Lexington.

His father hopes for a big party when James comes home.

Hearing Set On Plea To Suspend Trains

WASHINGTON (AP)—A public hearing will be held at Marshall, Tex., Feb. 24 on a Texas & Pacific Railroad proposal to discontinue two daily local trains between Longview and Texarkana.

Interstate Commerce Commission Examiner Paul Albus will preside at the session, announced by the ICC yesterday.

The company says local passengers can be handled on through trains operating between those cities.

Big Day For Child With Patched Heart

LA PORTE, Ind. (AP)—A golden-haired little girl with a patched up heart will celebrate the "bestest" day of her life next Tuesday at the White House.

That's the day Mrs. Dwight D. Eisenhower will crown six-year-old Debbie Quinn as America's Valentine Girl for 1959.

The American Heart Assn. chose Debbie, daughter of Mr. and Mrs. James Quinn of La Porte, as a symbol of hope for the 1959 heart fund campaign.

Debbie was born with four heart defects. She had a quarter-size hole between the ventricles of her heart; her pulmonary artery was too narrow; her great artery was displaced, and the right side of her heart was enlarged.

But Dr. C. Walton Lillehei of the University of Minnesota Heart Hospital repaired Debbie's heart in a 7½ hour operation that would have been impossible 10 years ago. The heart lung pump, which did the work of her heart and lungs during surgery, is a post World War II development.

Just before the operation, Debbie's brother Bobby, a year older than his sister, told Mrs. Quinn:

"Mommie, I bet when God made Debbie he didn't happen to have a good heart around, so he said to her, 'take this one, Debbie, and when you are five years old I'll tell some doctor how to fix it for you so it will be as good as new.'"

Today Debbie romps and plays baseball with her brother, attends school regularly and is starting to show an interest in art—all the things that any little girl with a heart "as good as new" could do.

50 Aliens Register

About 50 aliens so far have registered at the post office here in compliance with a federal registration requirement.

J. P. Nelson, assistant postmaster here, said the post office provides the registration cards and mails them to the Immigration and Naturalization Service weekly.

While no record is kept here on the aliens, there have been about 50 Mexican Nationals registering.

The Immigration and Naturalization Service requires all aliens in this country to register in the city of their residence during January.

Usually by the end of January there are 75 to 100 aliens who register here, Nelson said.

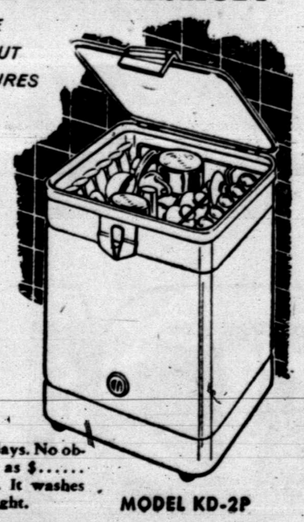

Failure to register and report an address makes an alien subject of a maximum penalty to deportation.

Nelson said any alien can secure a card at the post office and fill it out there. The post office will send it to the federal government.

Free Home Trial with NEW KitchenAid Portable Dishwasher!

"DISHWASHING CAN BE A DELIGHT"... TRY OUT THESE DRAMATIC FEATURES FOR YOURSELF:

- Exclusive spot control
- Porcelain—inside and out
- Service for ten and more
- No hand-rinsing
- Dual fill-drain hose
- Revolving power wash and double rinses
- Self-cleaning dual strainers
- Sanitized hot-air dry
- Cool, quiet operation
- Guide bar for easy movability
- Rolls easily—over carpets, too
- Too space all around
- Sectional top racks
- Costs less to operate
- No installation or plumbing expense

Use it in your home for .... days. No obligation. Keep it for as little as $..... per week after trial period. It washes dishes clean...dries them bright.

Buying or building a new home?

This **MEDALLION** assures you a home equipped for Better Living . . . Electrically!

A MEDALLION HOME PROVIDES:

FULL HOUSEPOWER . . . with properly designed wiring, and plenty of circuits and outlets for the appliances you now own and will add in the future.

BASIC WORK-SAVING ELECTRIC APPLIANCES . . . for comfort, convenience and year-around better living.

LIGHT FOR LIVING . . . with properly placed fixtures, outlets and switches for beautiful, efficient, sight-saving light.

The comfort, convenience and liveability of your new home depend to a large extent upon its electrical equipment. To make sure your home provides the maximum in better electrical living, see that it qualifies for the "Live Better Electrically" Medallion. The Medallion on a new home certifies that the home meets modern high standards of electrical wiring, lighting and convenient use of work-saving electric appliances. It's a home in which you can Live Better Electrically, now and in the years to come . . . a home with built-in extra values that make it a better investment.

Ask your builder about qualifying your new home for a "Live Better Electrically" Medallion
