TWO ITEMS IN DOUBT

CAA Delays City Airport Request

Colorado City's municipal airport project has received a "slow down" signal.

Civil Aeronautics Administration's District Office in Ft. Worth informed City Manager Rollin K. Snethen that two

items must be "resolved" before the job is approved for federal funds.

Previously, city officials had been optimistic for possible early appropriation of funds for the airport development.

In January the city submitted to the CAA a request for approval of a \$205,000 airport development — half of the money to come from federal funds and half from local financing.

And Democratic Senators in Washington listed the Colorado City airport as part of an "emergency public works program they were pushing for immediate action."

Now, however, A. E. Dyatt, district airport engineer for the CAA District Office in Fort Worth, wrote Snethen that the CAA was holding up the Colorado City project.

"Since release of our 1955 Federal Aid Airport Program," Dyatt wrote, "you have no doubt wondered what happened to your Request-for-Aid filed Jan. 15, 1958."

Your request was considered in our programming conferences. Two factors operated against favorable consideration at this time.

"In the first place," the letter continued, "the city's investment in the field north of town (Webb Air Force

Max Caddell Heads Plans For Banquet

Max Caddell, former Jaycee president, has been named to chairman planning for the Junior Chamber of Commerce's annual installation banquet April 26.

With Caddell on the banquet committee will be Lewis Williams, Don Benson and Johnny Grubbs, according to Johnny Grubbs, president.

Installation of the officer slate for 1958-59 will be in Civic House. A dance for Jaycees and their guests will follow the dinner and ceremony.

Heading the officers who will be installed are B. J. (Bob) Williams, president; George Womack, first vice president; Bob Reilly, second vice president; Lewis Williams, secretary; and Henry Lewis, treasurer.

FOR POLICE AND THIEF

Early Trackdown

Police had their man here Wednesday night even before the theft was reported.

Policemen Dave Shackelford, O. M. Woodard and Jimmy Latham at 8:30 p.m. arrested a drunk near the T&P Railroad Station.

Two hours later Miss Vicki Adams, daughter of Mr. and Mrs. J. W. (Jay) Adams Jr., reported a purse and a pair of red shorts stolen from her car parked in 100 block of Walnut.

Police knew the man arrested earlier had been in the vicinity. So they checked the area, finding the purse and clothing discarded near the T&P Station.

Thursday morning Ernest Calvin Lewis, 50, an ex-convict, pleaded guilty in Corporation Court to being drunk and stealing the purse. Then he went to jail when he couldn't pay the fines — \$25 and \$15.

Plans Mapped for Career Conference

Plans already are being mapped for the annual career conference at Colorado High School.

And students at High School will be surveyed Wednesday to determine exact career fields in which they are interested.

Date for the career conference, sponsored each year by Chamber of Commerce education committee, will be May 8.

Supt. Frank W. Wilson is chairman of the chamber committee, which also is composed of Luke Thomas, Mrs. William Landau, Mrs. Joe Salter, H. C. Peppergass, Mrs. H. Jene Steakley and Jimmy Harrison.

Initial planning has been carried out in conferences between the committee and two representatives of the High School faculty, Principal Charles Graham and Brooks Teague.

Questionnaires will be handed to students Wednesday during assembly. Each student will list two career preferences on the questionnaire.

All questionnaires will be analyzed so that forums can be conducted in the fields for which there is the most interest.

Students will be allowed to attend two such forums conference a day.

Directors Meeting

A special meeting for the Chamber of Commerce directors is planned early this week. Remodeling for the chamber office in Civic House will be discussed.

The conference this year will be trimmed to a half-day program with business and professional men as counselors. There also will be a principal speaker who will be announced later.

Stripped from the conference program this year will be military. Representatives from armed forces will explain military obligations to the students at a separate date.

Tickets to the Quarterback Club's All-Sports Banquet are now on sale at three locations in Colorado City.

A. M. Holman, chairman of the ticket sales, said Saturday that tickets are available at Landau's Mens Store, the Chamber of Commerce office in Civic House and the Record office.

The banquet, scheduled Tuesday, April 22 at Primary School Cafeteria, will honor all the participants in sports at Colorado High School.

Approximately 400 persons are expected to be present to honor the 85 athletes and coaches.

Chuck Moser, famed football coach at Abilene High School, will be the guest speaker.

Fred McKay, Quarterback President, said arrangements are complete for the banquet — first of its kind here. Tickets are priced at \$1.50 each.

Burglary, Thefts Alleged

Eight persons face felony criminal charges as result of indictments returned by Mitchell County grand jury.

Named in the criminal indictments are two men and a woman, charged with theft from a motel; one youth, charged with burglary of a Loraine farm home; one man, charged with second offense driving while intoxicated; and a sixth man, charged with forgery.

Indictments were returned also against two other persons for theft; but District Attorney Eldon Mahon said names were being withheld until the pair was apprehended.

Charged with burglary of the Virge Wimberly farm home, one mile east of Loraine on Highway 80, is Robert Oster, 19, of Los Angeles, Cal.

He was arrested April 4 at the Wimberly residence by officers Bill Bowles and Jack Brewer.

Bowles and Brewer were summoned to the residence after highway construction workers told Mrs. Wimberly, who was returning home at 1 p.m., they had seen a man in the house.

When the officers approached the house unarmed, the intruder faced them with a pistol taken at the residence. Later, however, Bowles and Brewer returned with weapons and the intruder surrendered without incident.

The house had been ransacked by the intruder, who also helped himself to cookies and milk.

Highway workers said a man had gone to the house after first asking for a job on

Burglary Suspects Taken to Las Vegas

Two burglary suspects, arrested by Colorado City police before dawn Tuesday, have been returned to Las Vegas, N. M., to face charges in connection with a \$1,400 garage break-in.

Here Friday to transport the pair to New Mexico were Sheriff Bob Martinez and Deputy Sheriff Arthur Gallegos of Las Vegas.

The suspects — Thomas Malone Douglas, 24, and James Joseph Jones, 22 — had three loaded automatic pistols and more than \$700 in cash when apprehended here.

CONVENIENT FOR RESIDENTS TOO

New Valve To Cut Time and Loss for Water Main Repair

Approximately one million 500 thousand gallons of water went down the drain here last year during repair of one downtown water main break.

But the city has just completed installation of a series of cutoff valves to prevent similar water losses in the future.

At the same time, the valves will allow for more rapid repair of water main breaks downtown with only minimum curtailment of water losses in the future.

At the same time, the valves will allow for more rapid repair of water main breaks downtown with only minimum curtailment of water service.

The valves have been installed at three locations — Walnut and Second, Hickory and E. Second, E. Second and Elm. One was for a four-inch line and two were for eight-inch mains.

Installation was accomplished by Bowles & Eden, a Dallas firm, under pressure without shutting off water for any area of the town.

Bowles & Eden is the only firm in this area which can make the valve installation in that manner.

"Conventional method of installation, City Manager Rollin K. Snethen explained, "would have required up to two days for each valve."

"And we would have had to shut the water off, too."

Total cost for installing the valves — including purchase price from Mueller Valve Company — amounts to \$1,464.

The city manager figures money well spent — especially when you consider you might otherwise have to drain a million and a half gallons of water out of a main before making a major repair.

The 1,500,000 gallons was lost last year at a break at Hickory and E. Second. Because there was no cutoff valves in the water distribu-

tion system, the break could not be isolated for repair.

Therefore, water had to be drained from the town's entire distribution system to make that one downtown repair. Water service was curtailed for the entire residential area, repair work was hampered and slowed because of the slow drainage.

With the new valve cutoffs, breaks in the business area can be repaired more quickly with drainage of a particular area of lines.

And in that manner, only the isolated repair area will have curtailed water service during the repair work.

Colorado City obtained the service of Bowles & Eden in a cooperative deal with Sweetwater, which also has installed three new valves. By scheduling the two projects together, Colorado City and Sweetwater trimmed transportation and installation costs.

Sharp Trader

buys at better than wholesale

...because he buys

where his bread is buttered

A real sharp trader doesn't need "connections" or "special discounts" or catalogs, or any other gimmick to get what he buys at BETTER than wholesale. Maybe you think we're kidding?

Not at all. It's a fact. When you BUY in Colorado City where you LIVE, you know that every cent you pay for goods and services above wholesale cost stays here at home with you. By staying here, it can get around to buying MORE good things for you and your family.

- It's trading material . . . and TRADE ALONE builds communities with better opportunities, better stores, better schools, better churches, better neighbors.
- Any ONE of these advantages could bring you returns beyond measure in a BETTER LIFE, as well as real CASH returns in the form of increased

business, improved property values, a better job, more people to help you carry the load of normal community expense.

- All of this — which you don't get for your money when you buy somewhere else — makes the cost of the actual GOODS very low . . . when you buy them at home.

That's how SHARP TRADERS get "better-than wholesale" values!

*It Pays to Buy
where you Live*

Make your dollars build your community . . . not somebody else's

AIRPORT

Base's auxiliary jet landing strip, and the uncertain future of this auxiliary. Time did not permit a determination of the probable future at this auxiliary.

"Secondly, the number of based aircraft which might be anticipated for a new site was marginal, even on estimated basis.

"Some of the factors must be crystallized before a firm justification for the new site may be established. We will keep this situation in mind and will cooperate with you in firming up justification of eligibility for federal aid," the letter concluded.

Snethen talked to CAA district officials by phone after receiving the letter and was told definitely that the letter does not rule out the local municipal airport project.

"When these two items (future of the jet strip and minimum based planes to be at the municipal field) are resolved, then Colorado City will be placed in line for grants," Snethen was told.

At the same time, the CAA officials emphasized that federal funds will be available for the job when those two items are worked out.

At present Colorado City has five planes based here—three CAA previously said met minimum requirements.

In addition the city furnished the CAA with letters from 30 firms—all doing business now in Colorado City—that declared they would use the municipal field when it is constructed.

SERIES ON JAPAN

Mrs. Pace Leads Circle's Study

Lillie Harness Group of First Christian Church continued their six-months study of "Christian Patterns in Japan" at their regular meeting Monday in the church parlor with Mrs. J. W. Wiggins as hostess.

Mrs. P. H. Pace directed the resume study of "Shadows Under the Cherry Trees" which was a study of the living conditions of ragpickers, canal boat dwellers and disabled war veterans.

Mrs. Pace pointed out the needs of some of the people in Japan where rag picking can be recognized as a legitimate business; where whole villages of people can live unregistered, unwanted, unexpected; where handicapped people are forced to lives of misery and utter loneliness; where people have no homes; where people are sick and waiting, only for death.

"Into situations such as these, Christian love must come bringing its ministry of healing for body and soul," Mrs. Pace emphasized.

The worship reading from Matthew, Luke and John was presented by Mrs. J. D. White.

The group took an Easter Lily from the church and also a basket of fresh fruit to the rest home in Colorado City.

Following the business and program the meeting closed with a mission benediction.

Members attending the afternoon meeting were Mrs. C. E. Cogswell, Mrs. J. Ralph Lee, Mrs. Truman Henderson, Mrs. White, Mrs. Pace and the hostess, Mrs. Wiggins.

Mrs. Lee will host the next meeting of the group in the church parlor May 5.
