WEATHER CUTS UP ON EAST COAST

NEW YORK, April 23 (AP)—Freezing temperatures and snow falls in various quantities visited the north Atlantic states this morning, breaking records of fifty years or more. An area of high pressure in the Canadian northwest, which extends to the gulf coast and reaches the Atlantic ocean in lessening intensity, was said by weather bureau officials to be responsible.

Rochester, with the mercury at 24, experienced the coldest April 23 in the history of the weather bureau, the nearest approach being 26 degrees in 1872. A few flakes of snow fell in Washington today. Weather bureau observers said that snow had fallen on or after April 23 four times since 1858, the record being a half inch on April 23, 1898.

Citizens Urged To Co-Operate In Enumeration

Lubbock, now boasting a population of approximately 21,000 will suffer a shock which will be pungently hurtful to the prestige this city has exercised through wide publicity over the nation unless every citizen rallies to the aid of enumerators for the 19th decennial census of the government, it became apparent today.

CHAIRMEN OF BOTH HOUSES PLAN PROBE

QUESTION WHY NAVAL PLAN OF U. S. WAS ABANDONED UP

(By Associated Press) WASHINGTON, April 23.—A two-edged attack on the London naval treaty was forecast today in congress.

With the new international agreement scarcely twenty-four hours old, the chairmen of both senate and house naval committees made plans to investigate.

Falling in with the proposal of Chairman Hale of the senate committee, that the naval experts who were in London with the delegation be questioned. Chairman Britten of the house committee announced his committee also would ask navy officers why some features of American naval policy were "abandoned" in London.

The naval committee chairman has strongly indicated the treaty does not meet his approval. He regards it as embodying a departure from the American policy of building up his fleet of large cruisers.

Congress has authorized a maximum big-cruiser fleet of twenty-three vessels. Under the treaty the United States is limited to eighteen. Hale has announced he will call the technical experts of the navy before his committee for an expression of their opinion on this point.

#### TEXAS REGENTS VOTE TO ALLOW LAW TO BE AMENDED

(By Associated Press)  
AUSTIN, April 23.—Texas Agricultural and Mechanical college today has the right to a share of the available university fund derived from sale of oil and gas royalties in University lands in West Texas.

At a joint meeting of the board of directors of A. and M. and regents of the University of Texas, an agreement was perfected to request the legislature to amend the law so as to give A. and M. a share in the fund.

Now \$14,000,000  
The permanent fund, income on which goes to the available fund, aggregated about \$14,000,000 having accumulated from sale of oil and gas rights in university lands.

Under the proposed change in the law, the two institutions would expend the available fund for construction of buildings. It would be stipulated that for the years, 1931, 1932, 1933, and 1934, the sum of \$100,000 per year shall accrue to the Agricultural and Mechanical college and be expended by the board of directors and beginning Sept. 1, 1934, the directors of A. and M. college shall expend one-third of all the available fund arising from the permanent fund, except income from surface leases of university land, and the university of Texas will expend the balance.

### NEW WELLS COME IN IN VAN AREA

TYLER, April 23 (AP)—The Cannon No. 1, twenty-sixth well in the Van field, was brought in late Monday with an estimated potential flow of 7,000 barrels a day, measured through an 11-16 inch choke, at a depth of 2,076 feet.

The E. B. Tunnell No. 2 was brought in earlier with an estimated flow of 7,500 barrels a day through the same sized choke.

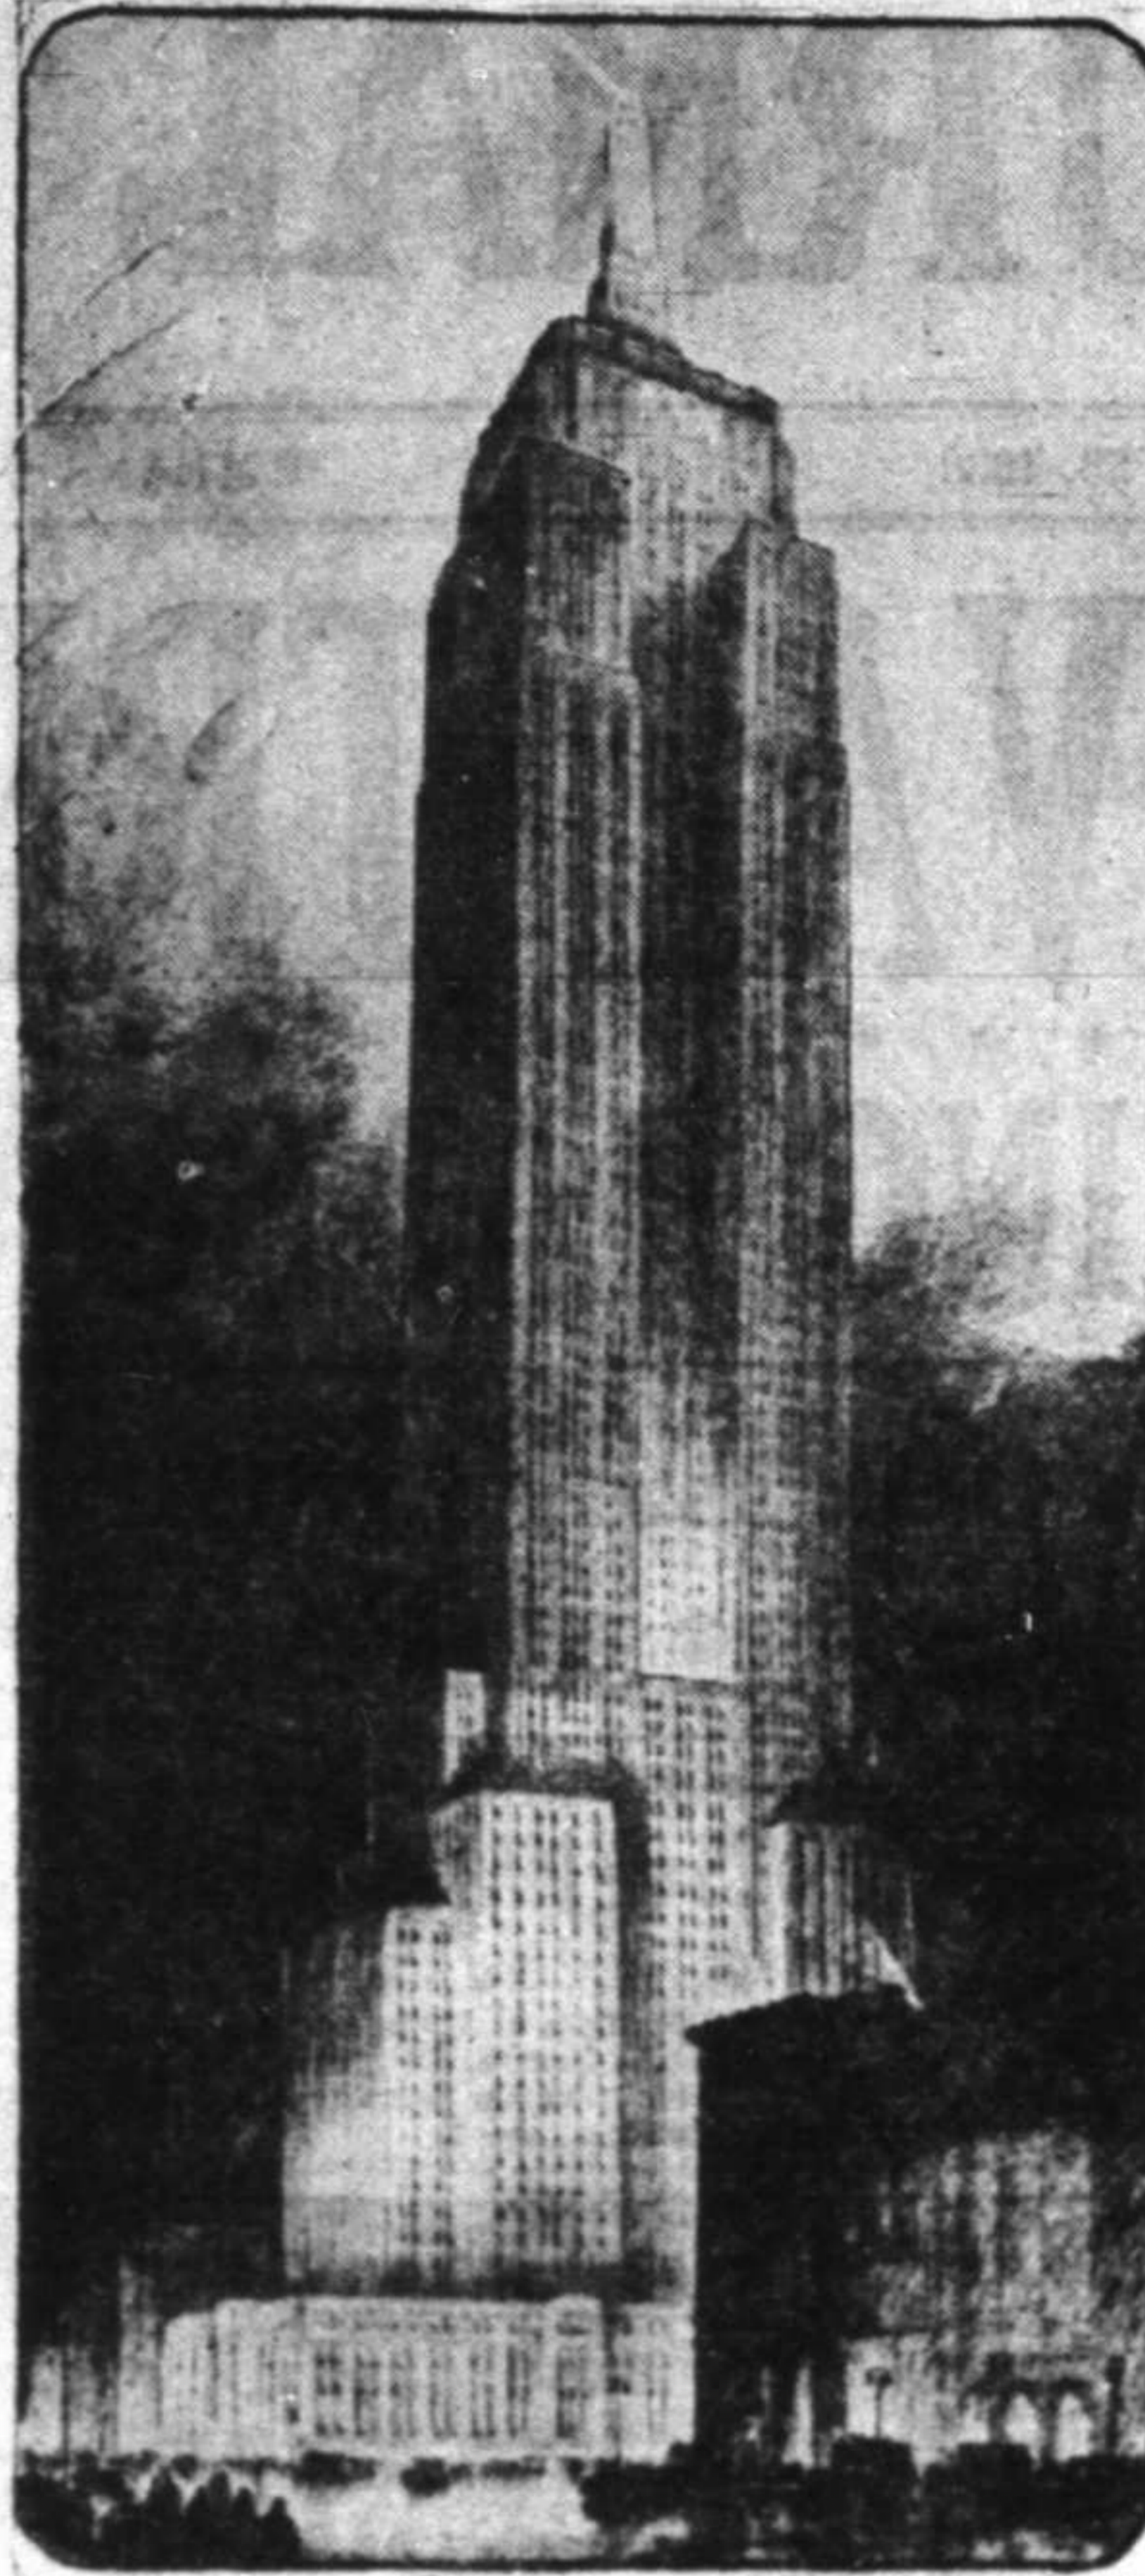

VAN, April 23 (AP)—Successful in the second "plugging" operation, drillers in the Van oil field have brought in the Freeman No. 1 well in the so-called "Soldiers' Field" as a producer, estimated making 2,500 barrels of oil.

Threatened with water when the drill was sent too deep, the well was saved by setting a lead plug, which closed off the water. A similar operation was successful in the Peters well, brought in last Friday.

The Tunnell No. 1, on the Five-acre townsite tract, was brought in Sunday as a 10,000-barrel producer.

The E. L. Fowler No. 3, a quarter of a mile east of the Jarman discovery well, was completed Saturday for a flow of from 2,000 to 10,000 barrels.

### METAL-FACED SKYSCRAPER IS GHOST OF FAMOUS OLD WALDORF-ASTORIA

Symbolical of the new age of alloys, the Empire State Building being erected on the site of the famous old Waldorf-Astoria Hotel in New York City, will have a pilaster facing of Allegheny metal, the new stainless and non-corroding alloy discovered during the war as a gun-lining and recently developed for industrial use. It will be the first building faced with metal, and will present a color blend of window-black, gray and silver. Rising to 85 stories and topped by a dirigible mooring mast, the new metal-faced building will be the tallest in the world as well as the largest, and it will afford office space for 30,000 people.

### MOODY TELLS WISCONSIN GOVERNOR OF WEALTH OF RIO GRANDE VALLEY'S LAND; IS TRULY THE "MAGIC VALLEY"

(By Associated Press)  
AUSTIN, April 23.—The Rio Grande valley is "the greatest vegetable and citrus fruit country on the north American continent," and it has more than earned the appellation "Magic Valley," Governor Moody has wired Governor Walter Kohler of Wisconsin in renewing his invitation to the Badger state executive to visit Texas.

Governor Moody said he would gladly appoint a committee of Texans to meet Wisconsin delegation named by Governor Kohler to inspect the Rio Grande valley and other Texas lands affected by action of the Wisconsin state board in refusing permits to certain Texas agencies to sell land in that state.

Governor Moody said he had no advice of Governor Kohler's action in agreeing to send a committee to Texas other than through newspaper reports.

Two London doctors recently dashed 1,100 miles by plane and automobile to Malaga, in South Spain, in an attempt to save the life of Mrs. Violet Marcus, an English woman who had been taken ill while visiting there.

### Davidson's Plan Not So Popular

DALLAS, April 23 (AP)—The suggestion of T. W. Davidson, former lieutenant governor, that prospective candidates for governor submit to a convention's choice has met with small favor from the candidates.

Three of them have expressed their views. Lieut. Gov. Barry Miller declared he would run regardless. Both W. Gregory Hatcher of Dallas and E. G. Senter of Arlington deplored the suggestion that Texas return to what Hatcher called "the old crooked convention system of naming candidates for office."

### COLORADO RIVER SURVEY IS ASKED

WASHINGTON, April 23 (AP)—A survey of the Colorado river in Texas to determine the most effective method of flood control was urged before the house flood control committee Tuesday by Representatives Briggs and Mansfield.

Briggs outlined three separate projects contained in reports of United States army engineers. One involving a levee system to cost approximately \$8,500,000, would reclaim 160,000 acres, another, a combination of levees and storage reservoirs, to cost \$13,300,000 would reclaim 200,000 acres, and the third, a reservoir system to cost \$16,000,000 would reclaim 270,000 acres.

Over a 13 year period, Briggs said, there have been 17 floods on the river, taking a toll of 61 lives and causing property damage of \$61,000,000.

To demonstrate in Paris, recently, his new bumper, M. Conli, a French

engineer, ran an automobile, carrying his wife and child, into a tree while going 25 miles an hour, the device stopping the machine without injury to the occupants.

Efforts to stamp out the leaf miner pest, which has been causing damage to coconut trees in the Philippines, have been thwarted by winds, which carried the insects to districts heretofore uninhabited.

### BURIAL MADE FOR PINCKNEY

#### BODY OF TEXAS' FIRST GOVERNOR IS BURIED IN AUSTIN

(By Associated Press)  
 AUSTIN, April 23 (AP)—The body of James Pinckney Henderson, first Governor of Texas, was reburied Monday in the State Cemetery, where rest scores of other heroes of the Lone Star state. Before it was placed in the state grave, services were held in the senate chamber of the Texas capitol, with Judge O. S. Lattimore of the Court of Civil Appeals giving the oration.

Henderson, native of Lincoln, N. C., came to Texas during the trying days which culminated in victory at San Jacinto 94 years ago Monday when General Sam Houston and his little army took General Santa Anna and his army captive, thus effecting Texas independence.

Henderson died June 4, 1858, in Washington, three months after taking his seat as United States Senator from Texas. He was buried in the congressional cemetery. The movement to bring his body to the Texas state cemetery had its inception during the regular session of the 41st legislature, when an appropriation was voted to remove to Austin the bodies of Texas heroes buried elsewhere.

### NO BILLS GIVEN IN CONSPIRACY

PORT WORTH, April 23 (AP)—No bills voted Monday by the Tarrant county grand jury in the murder conspiracy case against S. F. Houtchens, disbarred attorney, and his law partner, Miss Zula B. Stevenson, nullify charges previously filed in justice court. The charges were filed after an investigation had been made on information furnished officers by Sam H. Prather, Vinita, Okla., who, as one of the alleged conspirators, had been charged in justice court.

The charges set out that Houtchens and Miss Stevenson were in a conspiracy to have murdered Judge James E. Mercer, who presided at the disbarment trial, and Dexter Scurlock, member of the grievance committee of the Port Worth and

### FOREIGNERS ARE FACING DIFFICULTY

SHANGHAI, April 23 (AP)—A letter received here from one of sixteen American Catholic missionaries, who for weeks have been held prisoners in the Kiangsi province city of Kanchow, said that communist and bandit besiegers had threatened "when Kanchow falls, to kill every foreigner within the walls for robbing us of our prize."

Although the walls continued to halt them, the Reds, according to the letter, dated April 4, had notified Kanchow authorities to capture the city. Defense of Kanchow, the missionary said, continued unchanged with no immediate danger of its capture.

Meanwhile the Reds have withdrawn part of their forces from the siege and "while awaiting Kanchow's fall are plundering the surrounding country."

Chekiang province advices said 20,000 bandits had overrun Chekiang-Anhui provincial borders, killing hundreds and exacting thousands of dollars tribute from the inhabitants.

### LIQUOR LAUNCH IS SEIZED IN GULF

GALVESTON, April 23 (AP)—After a chase at sea during which fourteen shots were fired, the launch Mercedes Williams was brought into port here Saturday by coast guard. Coast guard officers said they had information the launch had been in communication with the liquor laden British schooner Lawrence, which is lying in the gulf off Galveston. The Mercedes Williams has figured in several run running cases in the past and about a year ago was found stranded on a reef in Galveston Bay with liquor valued at \$75,000 aboard.

After having been confiscated, the launch was sold by the government and later changed hands again. Three men aboard yesterday were released after questioning. The coast guards intimated they would ask confiscation of the boat on charges of engaging in illicit trade and failing to heave-to when challenged.

## Local Contractor Out With Facts

N. Thompson Tells Of Benefits He Has Derived From Orgatone (Argotane)

"I can testify to the value of Orgatone (Argotane) because it has done more to rid me of my troubles and build me up than anything I have ever taken," said J. W. Thompson, of 1014 Fifth St., in relating his experience with Orgatone (Argotane) while talking to an Orgatone representative recently. Mr. Thompson is a well known contractor in Lubbock.

"For about a year," continued Mr. Thompson, "I suffered from stomach and liver trouble. I was in a general run-down condition, was nervous and restless all the time. It just seemed as if I were hungry all the time but what I would eat would sour on my stomach and gas would build me up so badly I could hardly breathe. I had a chronic case of constipation and was forced to take strong laxatives most all the time. Many nights I just couldn't go to sleep for I was so nervous and restless and when I would get up in the mornings I'd feel all tired and worn out."

"I was in this condition when I began reading about Orgatone and how it was helping others who were suffering as I was so I made up my mind to give it a trial and I have only taken one bottle and I certainly notice a big change. I have a splendid appetite, and I eat anything and everything that I want. Gas doesn't bother me any more and I am not nearly as nervous as I was. I feel better than I have in several months and I feel better that it has helped to ease me from a nervous breakdown which might have proven serious. I am glad to recommend Orgatone (Argotane) to my friends."

Genuine Argotane may be bought in Lubbock at Jackson Drug Store, Adv.

## TINY GOLDEN-HAIRED GIRL USURPS BRITISH THRONE; IS HER BIRTHDAY

WINDSOR, England, April 23. (AP)—A tiny golden-haired girl usurped the British throne Monday and for a brief spell ruled her native land.

The day belonged to Princess Elizabeth, daughter of the Duke and Duchess of York and beloved granddaughter of King George and Queen Mary, for it was the fourth anniversary of her birth.

Little "Lilibet," as she calls herself, with delighted laughter seized the scepter beneath which the grey-haired king, his queen and all the royal family bowed in pleased submission.

There was a wonderful birthday party in old Windsor castle—such a party as the fairy books record for children to read all over the world. There were presents galore, including a mysterious package from Uncle David—the Prince of Wales—sent from the hunting field where his royal highness has been on a holiday.

# TRIBUTE PAID AN "UNKNOWN SOLDIER" OF FRONTIER DAYS IN UNVEILING OF STATUE OF 'PIONEER WOMAN' TUESDAY

(By Associated Press)  
PONCA CITY, Okla., April 23.—Tribute was paid Tuesday to an "unknown soldier" of frontier days in the unveiling of the "Pioneer Woman" statue on the lawn of the spacious Marland estate.

President Hoover participated briefly in the impressive ceremonies by introducing as the principal speaker, Patrick J. Hurley, secretary of war, who delivered his address by radio from Washington, D. C. Mr. Hoover also spoke from Washington, a nationwide hookup being utilized to broadcast the entire program.

Rogers Closes  
The unveiling ceremonies were brought to a humorous close with an address by Oklahoma's cowboy sage, Will Rogers, formerly of Claremore.

The statue, done in bronze and rising forty feet above the ground, is the gift of E. W. Marland, Ponca City oil man, to his adopted state. The statue was executed by Bryant Baker, New York sculptor.

In his short talk, President Hoover said in part: "There are few men of the west of my generation who did not know the pioneer woman in his own mother, and who does not rejoice to know that her part in building that great civilization is to have such beautiful recognition. It was those women who carried the refinement, the moral character and spiritual force into the west. Not only they bore great burdens of daily toil and the rearing of families, but they were intent that their children should have a hand, that the doors of opportunity should be opened to them."

Secretary Hurley, himself an Oklahoman, was unable to attend the ceremonies because of a recent illness. He, likewise, was proud of the fact his own mother was a pioneer woman.

"Woman has never been given her just place in history as a pioneer, an educator, a builder, or as a leader," Mr. Hurley declared. "This probably is due to the fact that most of the pages of history are written by men about men. Historians have been so busy with the lives of great men that they have not stopped to immortalize the mothers who produce them. The characters of men are moulded by women."

Rogers was introduced as "Oklahoma's best friend; one who has often defended his state but never apologized for it." The humorist said he was glad to come to his native state to "act the fool" for the home folks.

"The real reason I come to this celebration," Rogers said, "was to pinch Holt for Governor Holloway in case you impeach him before he got through with his speech."

The humorist pointed out that Mr. Hoover who spent some of his boyhood days in Oklahoma and said that was what "gave the president his character."

# SANTA FE OFFICIALS EXPLAIN REASON FOR NOT EXERCISING PERMIT OF RAIL EXTENSION TO LOVINGTON, NEW MEXICO

Due to the fact that the terminus granted did not extend as far as an application sought, the Santa Fe railway company decided not to exercise a permit to construct a line from Seagraves to Lovington, officials of the rail organization explained here yesterday afternoon in conference with the railroad committee of the Lubbock Board of City Development.

J. R. Hitchcock, vice-president and general manager of the Panhandle & Santa Fe; Tom Gallaher, general freight and passenger agent; W. W. Kelly, chief engineer; Alton of Amarillo, and John A. Gillies, Slaton, division superintendent, represented the Santa Fe at the meeting.

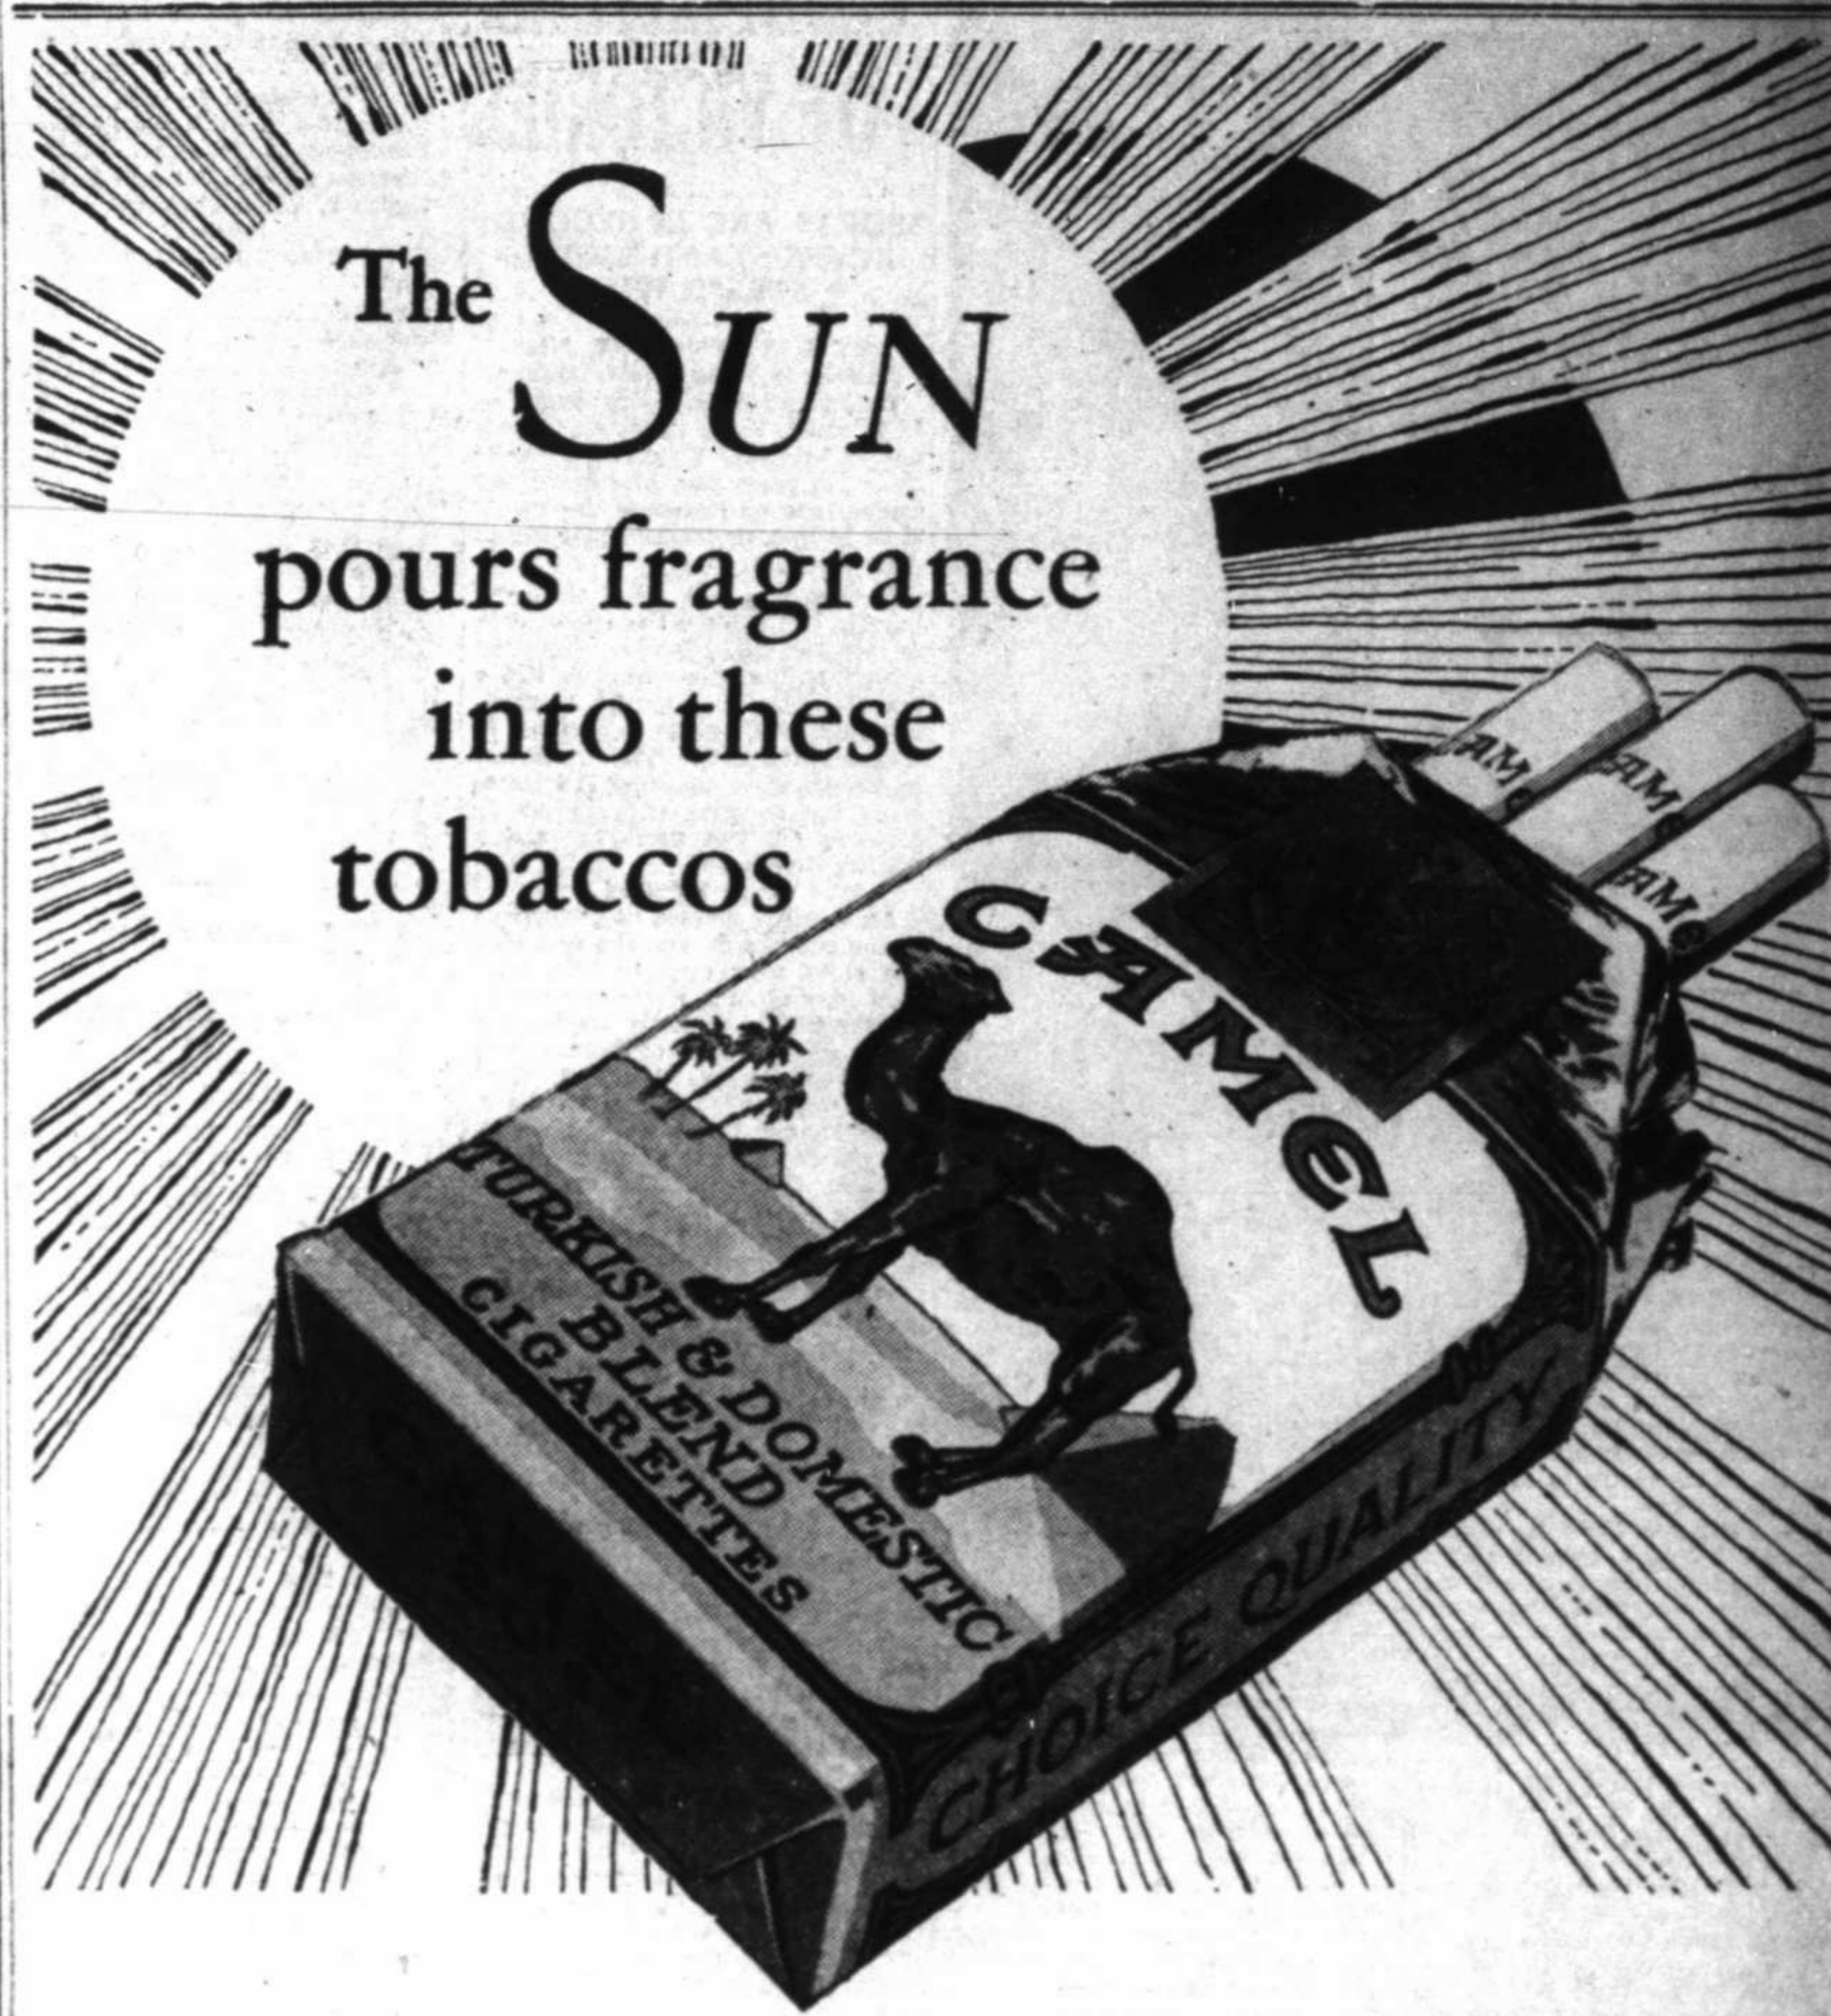

Request Not Granted  
"We asked the Interstate Commerce commission for a permit to build from Seagraves, through Lovington to Henry, N. M., which is into the oil fields," said Mr. Hitchcock. "Our request was not granted and we cannot build from Seagraves and stop at Lovington, because we do not believe the line would prove profitable."

"We plan no immediate expansion in this territory although of course we are always thinking of the future of rail construction in West Texas."

Mr. Hitchcock said that the Santa Fe lines appreciate the support of the Lubbock BCD in the hearing held here in the spring of 1929 when the Santa Fe and the Texas & Pacific lines hooked up in a battle for extension rights into the newly discovered oil and potato fields in Eastern New Mexico.

Members of the railroad committee of the BCD are B. Sherrod, W. O. Stevens, E. E. Cunn, Charles Read, and W. K. Dickinson.

Dr. Ivy Williams, the first woman attorney in England, having been called to the Bar in 1922, has just been appointed technical adviser to the conference on the codification of international law at The Hague.

## BATTING CHAMPS FACE TOUGH FOES; CAN THEY REPEAT, IS BIG QUESTION

Fonseca, left; O'Doul, right

BY WILLIAM RITT  
Central Press Sports Editor

CLEVELAND, O., April 23.—The batting champions of the major leagues—Mr. Lew Fonseca, of Cleveland, and the American league, and Mr. Lefty O'Doul, of Philadelphia, and the National circuit—are going to have their troubles, and many of them, in their efforts to repeat their 1929 successes.

In fact, Fonseca has little chance to repeat. Illness has hampered Lew all winter and into spring and though he now appears to have recovered the strain has been a tough one. The difference between a batting champion and a fairly good hitter is the ability to beat out the close ones at first and in the early weeks of the season when most players do their heaviest hitting a conventional can hardly expect to be a flash on the base paths.

Unless Heinie Manush, of the Browns, or Goose Goslin, of the Senators, come through, a batting champion new to the top of the American league heap can be expected. Heinie and the Goose are the only men to lead the American league who suffer no handicap through injury or have become too old to have much of a chance to win out this year again. And the Goose will have to enjoy a tremendous reversal over his poor 1929 exhibition to get anywhere at all.

The new champion most probably

## CLOUTING OF CLUB FEATURE OF VICTORIES

### SPORTS ARE IN SECOND; BUFFS STAND THIRD; STEERS WIN

BY GAYLE TALBOT, JR.  
Associated Press Sports Writer

Continuing their savage attack on indifferent Waco pitching, Beaumont's battering exporters clung to their full game lead over the Texas league race by trimming the Prattmen, 16 to 6, in the second game of their series.

It begins to look as if they will have to call out the fire department to stop the clouting array from the coast. Either the Shippers are a potent outfit, or they are encountering some Class D opposition in McLennan county. The truth will be known when Manager Del Baker leads his surprise package on an invasion of the northern sector starting tomorrow.

**Blows Bunched**

An unusual feature of yesterday's Beaumont victory was the fact that the clubs were even in hits, each with 14, and each made two errors, yet the Shippers nearly tripled the Cubs score. The difference was that the exports bunched their blows with seven bases on balls, while Denny Burns gave up only two passes and was effective in the pinches. Holly smacked two homers for the winners and Spear, rookie outfielder, hit four out of four for the Cubs.

The Houston Buffs pulled the prize feat of the day to date by their second from San Antonio and go into third place in the league standing. Held to one run until the seventh they scored six times in that frame and then came right back with seven more in the next. The final count was 14 to 3.

**Cats' Streak Halts**

Port Worth's winning streak was halted at three straight as the Sports squared their series, 7 to 4, and became sole occupants of second place. Boss Snyder sent four hurriers to the mound in an effort to pull the game out of the fire, but all but four were treated pretty much alike.

Wichita Falls, four days ago leading the procession, skidded another notch down the ladder into fourth place as the Dallas Steers won again, 8 to 2. It was the fourth straight loss for the Spuds and the first defeat for the club's southpaw, Hal Whitze, who previously had won three.

Hillin, former Texas Aggie star, looked good in relieving Whitze. He held the Steers to one run in four innings.

## WILD MAN OF LEAGUE WINS SECOND TIME

### ATHLETICS BEAT YANKS BEFORE 66,000 IN NEW YORK

BY HUGH S. FULLERTON, JR.  
Associated Press Sports Writer

The Chicago Cubs may be champions of the National league and a dangerous team, but they are just another ball club where Bill Hallahan, left handed pitcher who failed to live up to expectations last season, has beaten the Cubs twice this season and is in a fair way to become a permanent jinx.

In two games, the Cubs have scored just four runs off Hallahan, three coming from a homer by Hack Wilson yesterday as the Cardinals scored an 8 to 3 triumph. They have made only seven hits.

**Bill Still Wild**

In 1929, Hallahan pitched 94 innings in 20 games and allowed 94 hits while striking out 52 opposing batters. But he gained the well-earned name of "Wild Bill" by handing out 60 bases on balls. Against the Cubs this year, Bill still is wild, but somewhat more successful. Yesterday he gave seven walks and fanned nine. In his previous two-hit triumph he added two to each total.

The Cards and the Cubs supplied just half of yesterday's National league schedule as New York and Boston were rained out while Pittsburgh and Cincinnati were not scheduled.

**Phillies Best Robins**

In the other game, the Phillies beat out Brooklyn, 6 to 5, as Chuck Klein and Barney Friberg did the most effective part of Philadelphia's heavy hitting.

The Philadelphia Athletics continued to set the pace for the American league by demonstrating to a New York crowd of 66,000 how to beat the Yankees. A home run in the ninth inning by Bing Miller gave the Athletics a 7 to 6 victory.

The Chicago White Sox moved into second place in the standing by defeating Cleveland, 4 to 3, for their third victory in four games.

Washington continued its smart playing to nose out the surprising Boston Red Sox, 4 to 3, in a twelve inning duel between Charley Ruffing of Boston and three Senator moundmen.

The St. Louis Browns had to go 12 innings to gain a 6 to 4 victory over Detroit after the Tigers had scored twice in the ninth to tie the score.

In accordance with instructions he gave 12 years ago, G. A. J. Franey, aged 86, a retired farmer, was buried in his best suit at Tuxley, England.

Lubbock's City league schedule is due to open next Monday evening in case the date has slipped your mind. Thus far no arrangements have been made concerning a playing site for the twilight leaguers and if all reports can be taken as an indication, there will likely be no city league this year.

The situation in a nutshell finds the twilight amateurs waiting for some individual or some organization to lead Merrill Park for the year. City league games net no income and naturally the organization must depend upon the semi-pro club, if any, to make park arrangements. The Lions club of the city has offered the city league the use of its new diamond north of the city on the condition that the original expense be paid. This expense included a wire screen for a backstop and a few bases. Whether it be Merrill Park or the Lions' park something must be done this week if the first scheduled game is played next Monday.

O. B. Keeler, the golf expert, is one of those who believes that 40 is old for any sport, including the grand old Scotch pastime. It is generally accepted as the danger line for all strenuous sport participants, but many will assert that a golfer should just begin to get good when he approaches forty. Keeler, however, points to the veteran Walter Hagen as an example of a star who is losing his leadership on the fairways. Sir Walter recently told an interviewer that he was losing his keenness; that he couldn't get keyed up for competition now, as formerly.

From only the standpoint of keen tournament competition, can we see that Keeler's stand is logical. The veterans of youth is perhaps the strongest of all inspirations, and a consistent tournament winner is certain to lose much of this enthusiasm. The real to win will naturally die out as the golfer becomes accustomed to the smoke of battle and luck have to be better. At the same time, the veteran becomes more steady and his experience pulls him out of many tough situations. Temperament undoubtedly plays an important role in this game called golf. A youngster often breaks under the strain of close competition while the seasoned veteran lacks the necessary will to force him to go at top speed all the way.

An instance of age in golf can be seen regularly on the Lubbock Country club links, where they range from mere kids to gray-haired war veterans. Perhaps the oldest regular golfer addict that frequents the club course is E. T. Daniels, known to

many as the "Old Lion of Idalou." A deliberate player who has followed the little white globe ore many a rocky canyon, Daniels is one of the most consistent golfers in West Texas. What Daniels lacks in driving distance, he more than makes up for in his deadly approach shots and performance on the green. He is perhaps the most accurate shot with the nubbick in several surrounding counties.

The old law of compensation will be working for Lubbock when the annual West Texas Golf association tournament is held at Brownwood next month. The locals will go to Brownwood with a two-fold purpose but one will be working against the other. First Clinton Bussey will be going for his second West Texas championship, won last year at Stamford. Bussey will be opposed by a brilliant array of golfers, including Dennis Lavender, of Abilene, holder of the state amateur crown; Charley Qualls, of Post; Dixon White, of Dublin and Budie Raines of Stamford, will likewise be on hand to make things tough for the contenders. If the Lubbock shark happens to be right and brings back the championship again, the association officials will hesitate to award Lubbock the 1931 tournament. This, they will likely argue, would give the defending champion a cinch to repeat when he gets the competition on his home course. The same would apply to San Angelo or any other city that happens to be after the meet.

If constant practice will make a champion Clinton Bussey is already "in." The bronzed club artist plays an average of 36 holes per day and stays in the best of condition. In his practice rounds, Bussey shoots consistently in the 70's and occasionally breaks 70 to land in the 60's. Before the Brownwood tournament opens May 26, he plans to spend several days at the site of the meet in order to become accustomed to the Brownwood course.

## Change In Policy On Course Is Made

A change in policy has been announced by county officials in charge of the Municipal Golf course, located on the Idalou highway east of the city.

The recent changes have cut the annual membership cards from \$10 to \$7.50 and have instituted a fifty-cent green fee to permit a golfer to play throughout the day without further charge.

Keepers have moved the fairways on the county course and the layout is in splendid condition for the heavy golfing season just around the corner.

## JACK DEMPSEY TO HUNT BIG GAME IN AFRICA; MAY BRING BACK CHAMPION HEAVYWEIGHT; RING CAREER CLOSED

(By Associated Press)

CHICAGO, April 23.—Jack Dempsey is going to Africa to hunt big game.

Apparently postponing whatever plans he had of a ring comeback, the "Manassa Mauler" has accepted the invitation of George F. Getz, Chicago millionaire sportsman and big game hunter, to try his aim at lions and tigers in African wilds next winter.

Dempsey plans to take boxing gloves and other ring accoutrements along, however, for conditional workouts and to teach the savages the many art of defense.

"Maybe I'll find a new heavyweight champion in one of our safaris," Dempsey bantered. "Who can sell? Anyway, I hope I don't miss my aim at any lion."

Many of the former champion's friends believe his trip to Africa will definitely close his ring career, if it hasn't already been closed.

**Eight Ranking Men In Net Tournament**

WHITE SULPHUR SPRINGS, W. Va., April 23.—Quarter-final round matches of the Mason and Dixon tennis tournament today brought into action eight of the first ten ranking players of the country.

In the upper half of the draw Frank Hunter, New Rochelle, N. Y., No. 2 in the ranking, was pitted against Berkeley Bell of Austin, No. 9 and John Van Ryn, Orange, N. J., No. 5, met Gregory Mangin, Newark, N. J., No. 10. In the lower half, John Doug of Santa Monica, Calif., No. 3, was matched with Wilmer Allison, Austin, Tex., No. 7 and George Lott, No. 4, battled Fritz Mercier, Harrisburg, Pa., No. 8.

The other two members of the first ten, Bill Tilden, No. 1, and Wilbur Coen, of Kansas City, No. 6, are in Europe.

## CANYON READY FOR BIG MEET

### FORTY OR MORE TRACK TEAMS TO BE IN CONTESTS

(Special to The Journal)

CANYON, April 23.—More than forty colleges from Texas, Oklahoma and New Mexico and a long list of high school teams are expected to send their athletes here Friday and Saturday for the annual Great Plains track and field meet at the West Texas State Teachers college.

Entries began pouring in several days ago and the largest list of contestants in the history of the event has been predicted for the two-day affair.

The first two colleges to enter the meet officially were the New Mexico Cadets from Roswell and the Southwestern Teachers from Weatherford, Okla. Other schools who are expected to be on hand Friday for the preliminaries are: Texas Tech, Panhandle A. & M., Central Teachers, of Edmond, Okla.; Monticome college, of Las Vegas; Sul Ross Teachers; Wayland college and Clarendon college.

**Advertisers Are To Play Tahoka Sunday**

After losing a 7-6 decision to the Brownies in the first round of the Lubbock Advertisers are preparing for another joust southward this week-end when they meet the Tahoka baseball nine at the Lynn county capital.

Sunday's engagement will find Wallace on the mound for the Advertisers. Other likely starters for the locals are: Killis, first base; Rich, second base; Young, short stop; Watkins, third base; Brothers, Marshall and Allen in the outfield. Hodges will probably be behind the bat.

**Jimmy Johnston Is Ready To Go Abroad**

CHICAGO, April 23.—Jimmy Johnston, big smile and all, today was bound for his golfing wars in England.

Hardened because of long drills over his home links in St. Paul and Minneapolis, the National Amateur champion passed through Chicago, en route to Philadelphia where he will play a 36-hole practice match before embarking for England, and said he was strictly "on his game."

# SON ADMITS MURDER OF HIS FATHER

## TWO ARE INVOLVED IN DOUBLE SLAYING IN NEVADA

(By Associated Press)  
CLEVELAND, April 22.—Joseph A. Morlock, Jr., 28, South Euclid, has confessed slaying his father and a companion in a Nevada mining camp, Marshal Jack H. Bilkey of South Euclid, Cleveland suburb, announced last night.

Morlock's confession followed an admission Tuesday by Kenneth Carter, 24, of Courtland, O., that he was involved in a double murder.

**Father Is Shot**  
The marshal said both admitted the double killing when they were surprised searching a cabin at Morlock's father's mine in the Nevada hills, hoping to find money. The elder Morlock was shot and his companion, Herbert Hulsey, was clubbed to death.

Morlock, Jr., said he and his father were in Nevada last July and staked out eight good gold claims. They returned to Cleveland last November to obtain capital and started back to Nevada, taking Carter with them. The three argued continually because the elder Morlock would not provide money for food for the two youths, they said. At Fabens, Texas, the elder Morlock deserted the youths and they hitchhiked to his cabin in Nevada, Bulsey said.

**Hunting for Money**  
Carter said they were in the Morlock cabin hunting for money when Hulsey appeared. They bound and clubbed him to death and when Morlock, sr., appeared, his son shot him to death, according to the marshal.

The two youths went to Caliente, Cal., where they cashed an \$800 check on the account of Morlock, sr., drove to Salt Lake City and then returned to Cleveland. The younger Morlock was arrested last Thursday and confessed. Bilkey said, but the confession was kept secret until Carter was arrested near Warren, O.

The burning Ohio State Prison at Columbus, where 318 prisoners lost their lives, according to first reports, is pictured here as the flames were at their height. Firemen are shown playing streams of water on the burning cell block, which at that time was a seething inferno with helpless men trapped inside. The picture was sent by plane to the Journal.

## STEPS ARE TAKEN TO PADLOCK PALM ISLAND HOME OF SCARFACE AL CAPONE

(By Associated Press)  
MIAMI, Fla., April 22.—Steps to padlock the palatial home of Al Capone on Palm Island were taken Tuesday. N. Vernon Hawthorne, state's attorney filed a bill for injunction and to abate a nuisance in circuit court against Capone and others.

porary injunction to be followed by a hearing Saturday, before Paul D. Burns of circuit court on the padlocking proceeding.

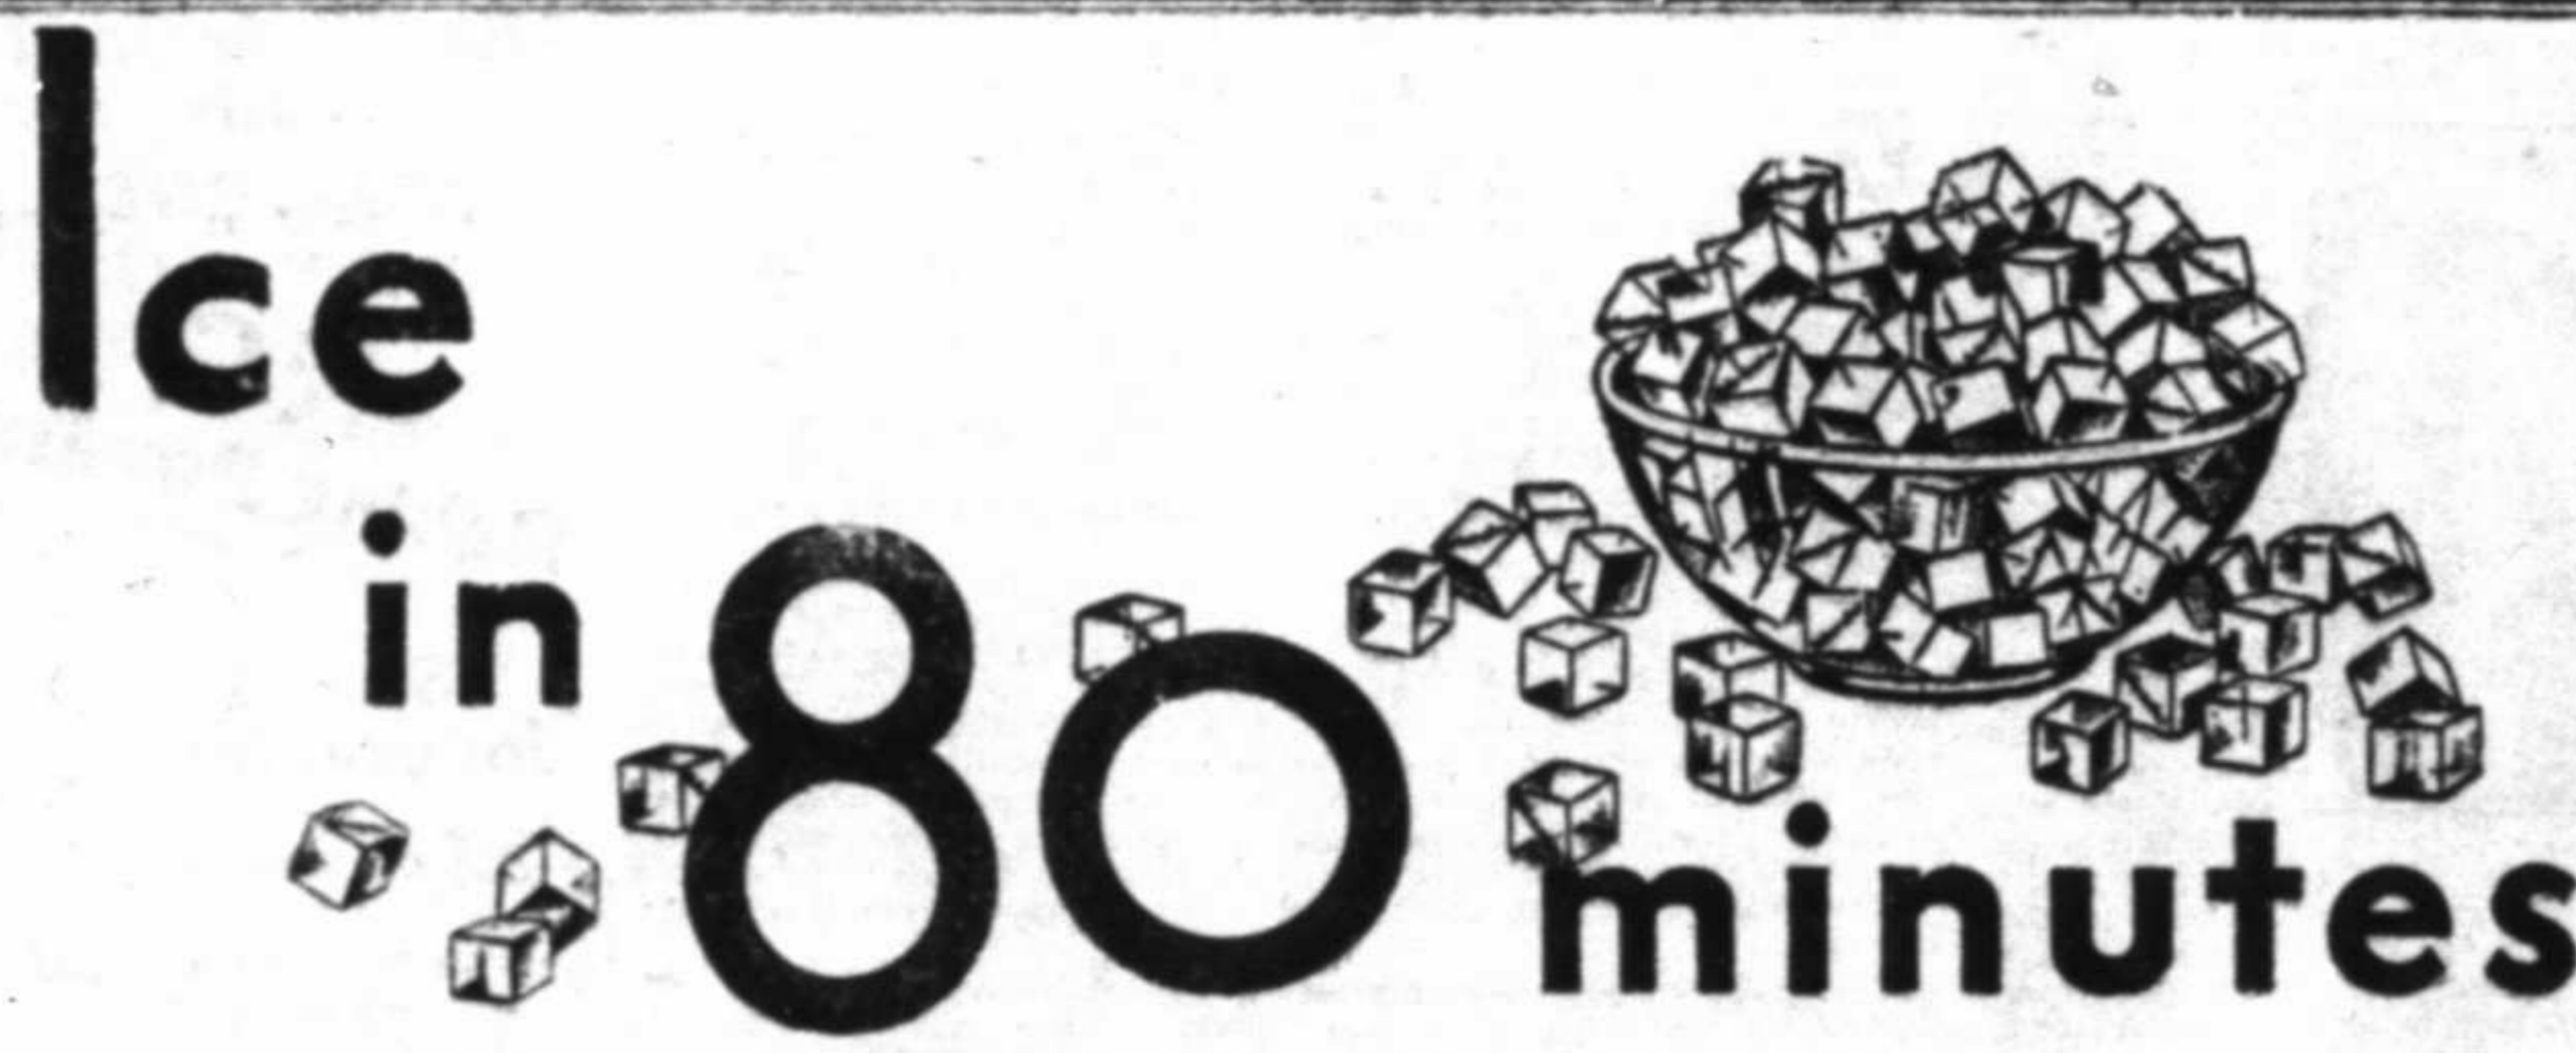

Those named as defendants include Alphonse Capone, Mae Capone, (his wife), Ralph Capone and John Capone, brothers of Al Capone; Frankie Newton, caretaker of the estate and Frank Gallat, said to be Capone's agent at Miami.

The petition is first for a temporary injunction to be followed by a hearing Saturday, before Paul D. Burns of circuit court on the padlocking proceeding.

Capone's Palm Island home is the scene of repeated liquor law violations, that large quantities of liquor are stored there, that it is frequented by law violators, gamblers, habitual loafers and illegal dealers in liquor, violating both state and federal laws.

The bill was served on Capone at his home late Tuesday.

Kelvinator Demonstrates World's Fastest Freezing In Country-Wide Test

In a recent nation-wide test conducted by Kelvinator dealers, Kelvinator refrigerators in 48 states and the District of Columbia demonstrated the amazing average freezing time of 80 minutes—from water to solidly-frozen ice cubes.

All tests were attended and certified by responsible witnesses, including city officials, representatives of newspapers, universities, etc.

Super-fast freezing of this type is made possible only by Iso-Thermic Tubes—an exclusive Kelvinator device which concentrates intense cold in the freezing compartment—cutting the time of freezing from one-half to one-third the usual period.

Today Kelvinator brings to your home Four-Way

Cold—an all-automatic type of refrigeration service never before obtainable.

It provides, in its de luxe models, four separate degrees of cold: (1) for extremely fast automatic freezing of ice and desserts; (2) a special Cold Storage Compartment, with below-freezing cold for keeping meats, fish, game, ice cream, etc., indefinitely; (3) steady cold for freezing ice at Kelvinator's fast speed; (4) controlled cold in food compartments always between 40 and 50 degrees.

Everyone can now own a Kelvinator —on Easy Terms

## RALLS TEAM WINS JUDGING

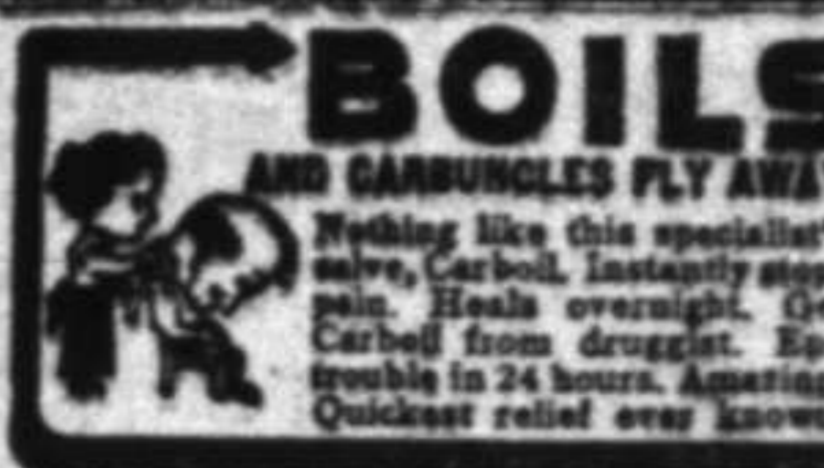

### DAIRY JUDGING BOYS TO GO TO CHICAGO SHOW IN FALL

BY STAFF CORRESPONDENT

RALLS, April 22.—The dairy judging team of the Ralls High school won first place in the state vocational contest at Texas A. and M. college, at College Station according to word received by Prof. J. M. Rankin, principal of the high school, from E. E. Young, vocational agriculture instructor, who accompanied the team to the state meet.

Winning of first place includes a trip to the National Dairy show in Chicago next November for team members and the coach, with all expenses paid to and from the meet as well as at the Chicago show. There the boys will enter competition with teams from other states for the national title.

Members of the team include:

Nothing like this specialist's salve, Leobol, instantly stops pain. Heals overnight. One Carboll from drugist. Epsil Carboll in 24 hours. Aqueous Carboll relieves sore throats.

## WHEAT ACREAGE TO BE REDUCED

RALLS, April 22.—(Special)—With reports from wheat farmers that the wheat in Crosby county would not make better than ten bushels to the acre and that much of it was more or less "dead" many farmers are reported plowing under their crop and preparing to plant cotton or a row crop.

R. L. Whaley, manager of the Harvest Queen company's elevator here said he had heard of numerous farmers already plowing under their acreage.

"I don't think if we get a rain right now that the wheat would average better than ten bushels to the acre" he said.

L. L. Drumheller, Santa Fe agent, said last year Ralls shipped 30 cars of wheat and about the same the year before. "It is my opinion" he added "that we will not ship over half that amount this year." I have heard of some farmers plowing under their wheat.

Clarence Young, Ellis Henry and J. Wiley Holmes.

"All we know about the victory is that the boys won first," Professor Rankin declared. "They have specialized in dairy work and I presume that is the contest they won."

Mr. Young has specialized in dairy judging for his team and they have given over most of their study to that subject. The team members have all won their places with stiff competition from other students in the vocational classes.

## Hoover Warns Solons On Appropriations

WASHINGTON, April 22.—President Hoover has sent letters to the chairman of the Finance and the House Appropriations committees which were understood to warn against formulation of excessive appropriation measures during the remainder of this session of congress.

This the second appeal President Hoover has made to congress in recent weeks. In a statement, he called attention to the condition of the national treasury and admonished congress to keep the appropriations as close as possible to the budget estimates to avoid a deficit.

**An Impulse**

We don't know much about T. J.  
 Jeffries, who is a retired Philadel-  
 phia broker; but we have a fellow-  
 feeling for him, for he seems to  
 have yielded to a very widespread  
 human impulse.

Mr. Jeffries set out last fall to go  
 to Scotland. But when his ship got  
 there he decided that just riding  
 around on a boat was more fun  
 than anything else he could think  
 of, instead of getting off to visit  
 Scotland, he stayed on the boat,  
 and he's been on it ever since. He  
 has crossed and recrossed the At-  
 lantic and has gone on a trip to the  
 West Indies, and he says that he's  
 having such a good time that he'll  
 just stay aboard a while longer.

Probably all of us have felt that  
 way at times. To be traveling just  
 for the sake of traveling is a lot of  
 fun. There's something luxurious  
 and satisfying about a steamer  
 trip; who hasn't felt the impulse  
 to say on and indulge in it for  
 weeks at a time?

**Ford, A Dietitian**

Henry Ford is a great man, and  
 we're for him; but we cannot, hard  
 as we try, see eye to eye with him  
 on his business of diet.

Ford wants simple meals—fruit  
 for breakfast, proteins for lunch  
 and starch for dinner. He seems to  
 come close to the position of those  
 scientists who urge human beings to  
 live solely on concentrated food pel-  
 lets.

Maybe, as he says, this would  
 bring longer life. But what of that?  
 Why seek to live to be 90 if you  
 can never sit down to a breakfast  
 of hot muffins, marmalade, griddle  
 cakes, maple syrup and coffee?  
 What price longevity if things like  
 chicken à la Maryland, hot biscuits,  
 baked Virginia ham, New England  
 clam chowder and hot mince pie  
 must be left out?

Forget it, Mr. Ford! Stick to your  
 stivers and leave our diet alone.

**Not Too Fast**

The New York Chamber of Com-  
 merce proposes that all alien Com-  
 munist be deported from the United  
 States; and while the proposal  
 has its good points, it would be a  
 mighty good thing to take up slowly.

There is no question that certain  
 foreign-born agitators are doing  
 their best to ferment mischief here,  
 and we could do better, if we could  
 very well if some of them were  
 given one-way tickets to Moscow.  
 But nothing on earth is so open to  
 abuse as a general "red hunt."

You might dig out the documents  
 on some of the things that happened  
 in the round-ups of 1919 and  
 1920 if you doubt it. Some terrible  
 injustices marked those years. Let's  
 think things over before we get all  
 excited and take a chance on repeat-  
 ing them.

A film was roughly handled by  
 censors in England and Austria  
 because there was a scene in  
 which a white man kissed a Chi-  
 nese girl. One can only speculate  
 what impression the picture will  
 have on Russian censors.

Captain Robert Dollar, steam-  
 ship magnate, advises people not to  
 be afraid of hard work. And it  
 would seem some people need to  
 have more of Dollar's sense.

Richard Halliburton, the au-  
 thor, is endorsing a certain brand  
 of coffee. It is assumed he won't  
 be in his testimonial that he  
 likes it because it keeps him  
 awake to write.

A Chicago woman gave such a  
 lecture to a man she found rob-  
 bing her house recently that he  
 broke down and cried. It was, in-  
 deed, an occasion for holdup  
 racket tears.

An author tells of the exciting  
 experiences he had in hunting the  
 tsetse, the leech and the  
 sitatunga. He's probably the sort  
 of fellow who would go into a  
 race hunting a lost collar button.

That Girl on Broadway says it  
 takes a clever Miss to make a hit!

West Texas Judges and Commis-  
 sioners' association will hold its next  
 gathering in El Paso. Wonder what  
 they're going 'way out there for?

The Plainsman wouldn't be sur-  
 prised to hear that the WCTU, the  
 YMCA and the Ministerial Alliance  
 had chosen El Paso as a joint con-  
 vention site. Not a-tall.

All of which brings to mind:  
 "Prohibition, Prohibition! How many  
 excess miles have been traveled in  
 thy name!"

YOU ladies, boys and girls who  
 sent in Lubbock population  
 estimates in The Plainsman's con-  
 test, don't get uneasy. The \$2.50,  
 \$1.50 and \$1 awards will be dis-  
 tributed just as soon as the census  
 figure is announced by District Supervisor  
 I. E. Barr. This column already has  
 that money set aside and will an-  
 nounce the winners as soon as possible.

Three letters from readers  
 come to the attention of The  
 Plainsman today—and it's time  
 to answer 'em. Here's one from  
 Charlie Lovett, manager of  
 Western Union, that's worth the  
 money. You know, The Plains-  
 man has an antipathy toward  
 Western Union advertising, which  
 is crammed in the en-  
 velopes with the messages he  
 receives, such as "Don't Forget  
 To Wire Birthday Greeting or  
 some such monkey business and  
 has mentioned same in this  
 column and to the local tele-  
 graph folks. In fact, he always  
 calls for a boy and sends the  
 advertising matter back to the  
 W. U. Office.

Well, yesterday Charlie Lovett  
 got his 'phone bill and tucked in  
 with it was some Southwestern-Bell  
 propaganda to the effect that the  
 telephones are hard enough to talk  
 over without hanging memo pads,  
 etc., on 'em, so he writes The Plains-  
 man:

"Something ought to be done  
 about this. Slipping a fellow a bill  
 camouflaged with a funny paper is  
 taking unfair advantage. The West-  
 ern Union wouldn't think of doing  
 such a thing!"

ALL we can say in rebuttal is  
 this: "Charlie, you are right.  
 And if I were you I'd take the mat-  
 ter up with President Newcomb  
 Carlson of the WU to adjust.  
 Everybody knows the WU and the  
 Southwestern-Bell are pretty close  
 kin, even though it hasn't been  
 proven that the American Telephone  
 and Telegraph company owns both  
 of 'em. The Plainsman will bet you  
 a straw that Mr. Carlson can get  
 it arranged for you but don't  
 expect him to use the money thus  
 saved in advertising. He doesn't be-  
 lieve in buying it but he'll take all  
 he can get if any for nothing!"

A gent who signs himself as  
 Atlas Peck per the following  
 lines:

"Dear Plainsman: That's a  
 good joke you have in The  
 Journal under the caption of  
 Doctor Lulu Hunt Peters. Six  
 months ago my wife sent in a  
 query addressed to this doctor in  
 care of The Journal and as yet  
 she has not answered the ques-  
 tion. I thought it would be a hell  
 of a joke if a person sent in  
 a question when they were sick  
 and needed advice."

Much obliged, Atlas, for the kick.  
 Tell you what The Plainsman will  
 do. If you'll send in the query he'll  
 see personally that your wife gets  
 an answer, p.d., and it won't cost  
 the customer a cent.

For the information of Atlas,  
 and others interested in Doctor  
 Peters' world famous medical  
 advice column, people who are  
 sick aren't supposed to write  
 Dr. Peters; they're supposed to  
 go to their family doctor. Doctor  
 Peters does not diagnose indi-  
 vidual cases, she merely advises  
 concerning conditions. Read the  
 note "which goes with her  
 column."

THE Journal has received hun-  
 dreds of queries and has for-  
 warded them to Doctor Peters and  
 this is the first time we have  
 heard of one not being answered.  
 She receives thousands of letters a  
 day from all over the country and  
 has an office force keeping track of  
 them. If there are any more kicks  
 on Lulu, send 'em to The Plain-  
 sman. We'll fix it up, gladly.

The Plainsman isn't going to have  
 room for that third letter today but  
 watch for it tomorrow. It's from  
 a Lubbock woman whose husband  
 has taken out big insurance and  
 demands that their next offspring  
 be in the form of twins. She wants  
 The Plainsman to do something  
 about it but what can he do, what  
 can he do? Watch tomorrow's out-  
 burst.

That Man on Avenue Q says a  
 man who habitually loses his  
 temper shouldn't be trusted with  
 other things.

A Lubbock school marm has a  
 chuckler to tell. She puts it this  
 way:

On the last report card she sent  
 the parents of one of her youthful  
 charges she penned, as follows:  
 "Willie is a good worker but he  
 talks too much."  
 The boy took the card home to be  
 signed by his father and when it

**South Carolina's Smith Is Only Democrat Who Cast His Every Ballot Against Tariff Increase, Dutcher States**

BY RODNEY DUTCHER  
 NEA Service Writer  
 WASHINGTON, April 23.—The  
 answer to the consumer's prayer  
 seems to be Senator Ellison  
 DuRant Smith of South Caro-  
 lina.

Smith stands in a class by himself as the hero of the tariff fight. He was the one Democratic senator who refused to vote for an increased duty on anything.

When the tariff lobbyists and the corporations in his own state brought pressure to bear on Smith he had just one answer for them: "I am opposed to the principle of a tariff for protection and shall vote accordingly."

When the new publicity machine of the Republican National Committee issued its recent broad-  
 side showing that Democratic  
 senators cast 1010 votes for duty  
 increases or against a decrease in  
 their figures showed that although  
 Smith hadn't voted for a single in-  
 crease he had voted against one  
 proposed decrease. He hadn't in-  
 tended to spoil his record that  
 way, but it appears that when the  
 question of cutting the rate on  
 kaolin—a clay—came up, Smith  
 just figured that the pottery in-  
 dustry had received so many tariff  
 favors that he was opposed to  
 granting them any more—such  
 as cheaper kaolin.

In South Carolina there are im-  
 portant cotton, lumber, textile  
 and rayon interests and these  
 folks all went to work on their  
 senator. But Smith, while his  
 colleagues were temporarily or  
 persistently deserting the Demo-  
 cratic-insurgent coalition on be-  
 half of interests in their own  
 states, stood firm all the way.

"The fact is that Smith is of the  
 old tariff for revenue only  
 school and he seems to be about  
 the only one left."

He braved the wrath of busi-  
 ness interests in his state to stick  
 to his principles—an almost un-  
 heard of thing in the Senate, as  
 everyone knows and he hasn't  
 any soft words for other Demo-  
 crats who deserted or traded  
 when they had excuses or oppor-  
 tunities.

"Action by certain Democratic  
 senators on the tariff has made  
 us the laughing stock of the real  
 masses of the American people,"  
 he says. "The principle that di-  
 vides the two parties is funda-  
 mental. If we do not stand for  
 the protection of the masses of  
 the people where have they to go?"

"A man's loyalty to a principle  
 is measured by the sacrifice he is  
 willing to make for that principle,  
 and if we as Democrats can  
 not stand for justice to the man-  
 ufacturer and at the same time  
 justice to the consumer we ought  
 to change our name. We have no  
 right to impose upon the great  
 masses of the American people a  
 burden they are not able to bear  
 simply because we want to foster  
 an industry, not in infancy, but  
 grown and disreputable, and full  
 of wealth."

"The most miserable protection-  
 ist in the world is the man  
 who simply wants to protect the  
 local thing as it applies to him  
 in the hope of getting votes to re-  
 turn him to impose further bur-  
 dens on the American people."

Smith is a rather strong look-  
 ing gent, the son of a minister  
 and younger in appearance than his  
 years.

He was returned to the teacher she  
 found that the old gentleman had  
 written this note:  
 "You ain't heard nothin' yet.  
 Wait 'til you meet his mother!"

**TWO POUNDS WEEKLY LOSS IS MAXIMUM**

**Rapid Reduction**  
 Mrs. K.: Where there is much ex-  
 cess weight, it is not unusual at all  
 to lose 20 pounds during the first  
 month, especially if you have gone  
 on the three-day

liquid diet (shrinking stomach  
 period). It is not difficult to  
 lose this amount because a large  
 part of it is ex-  
 cess water that has been retain-  
 ed by the tissues, and a watery  
 fat which goes off easily.

As a rule, it is better, after the  
 first month, to not lose more  
 than two pounds  
 more than two pounds  
 more than two pounds

our Peterizing pamphlet on Red-  
 ucing and Gaining outlines a good  
 foundation diet for everybody. See  
 column rules for obtaining this.

Dear Followers:  
 Oftentimes I get letters from you  
 saying that your questions have not  
 been answered and that you con-  
 sider them of general interest; oc-  
 casionally you add that perhaps you  
 missed the paper or occasionally the  
 column was omitted, or something  
 like that.

If I consider your question is of  
 general interest, it will be answered  
 in turn, in time. But remember it  
 may be a long time, for I get so  
 many letters. And if I have recently  
 written on the subject that you ask  
 about, you have to consider that  
 your answer. So that means you  
 have to be a faithful follower of the  
 column! Of course, if you do miss  
 that is to write him and protest.  
 (This has been effective in many  
 cases.)

If the column is occasionally omit-  
 ted from your paper because the  
 editor was pressed for space and he  
 thought something else might be  
 more interesting, a good way to stop  
 that is to write him and protest.  
 (This has been effective in many  
 cases.)

Not infrequently, the things you  
 think are of general interest I do  
 not consider so, and, of course, I  
 have to be the judge. Then there  
 are many questions you ask that  
 cannot be answered in a newspaper,  
 many times, I must add, because  
 the editor (or some reader) has a false  
 sense of modesty, and I have to  
 cater to the editors, of course. (Oc-  
 casionally I haul them over the coals  
 for this and point out what harm  
 they are doing. This also has proved  
 to be effective in some cases!)

Mrs. F.: I don't believe in any of  
 the advertised apparatuses for bust  
 developing. And they may be dan-  
 gerous.

I see from your letter that you are  
 underweight and have sent for our  
 instructions on gaining. When you  
 do gain in weight your bust will de-  
 velop along with your increased  
 weight.

**IS PURCHASED**

**IN NEW YORK**  
 With Swam  
 Gilbert Swan

NEW YORK, April 23.—Millions  
 have been made by real estate  
 men who learned how to convert a two-  
 by-four open space on Broadway  
 into a rentable property the size of  
 an average doorway.

Most of these have been converted  
 into coops for ticket scalpers and  
 speculators, who are forever look-  
 ing for handy camping grounds in  
 the vicinity of some hit theatrical  
 attraction.

A piece hardly broader than a  
 football player's shoulders adjacent  
 to a very popular vaudeville house  
 brings more than \$4000 a year. By  
 thus having any sort of shelving  
 room off the sidewalk, the "apees"  
 dodge the law against ballyhooing  
 their tickets in the streets. Thus  
 barricaded against the traffic regula-  
 tion, the "apees" can hawk to his  
 heart's content and charge what he  
 pleases.

For years, one or two shrewd  
 realty dealers specialized in such  
 locations and amassed great fortunes.

For one reason or another, it has  
 occurred to few people to con-  
 sider the possibility that there  
 might be more Valleys in the family  
 than the fabulous Rudy.

Thus, when Ma and Pa Vallee  
 arrived in town the other day to  
 visit their widely famed offspring, I  
 was surprised to meet a very tal-  
 ented young sister, Ruth. She  
 plays the piano, it seems, and with  
 sufficient quality to make a name  
 for herself one of these days—quite  
 independent of her relationship.

Now that Texas Guinan is back  
 in the "glowing gulch," the  
 wisecracks once more flow like  
 water, and it seems just like  
 good old days before the Wall  
 Street crash.

Arriving from Chicago where she  
 spent the winter, Tex immediately  
 burst into a stream of gags from  
 guinland.

Asked about her audiences there,  
 she came back with "Of course, I  
 dealt with nobody but big shots."  
 "Out west they used to say that  
 the bad men shot first and asked  
 questions afterward. Now they  
 must prepare her more-or-less meals  
 at the district attorney's office  
 before they ask the questions. The  
 hat girl came to me one night and  
 asked if I didn't think we could  
 make a fortune in the gun check-  
 ing concession. What they need out  
 there is a padlock law for hip  
 pockets."

A musical service club for  
 young women in secretarial and  
 kindred jobs reports that of the  
 1500 girls who joined during the  
 last year, most of them suffered  
 from ailments brought about by try-  
 ing to live in one of the one-room-  
 and-gas-jet spots with which New  
 York is cluttered.

Trying to "keep going" on the  
 salary of an office worker, the girl  
 must prepare her more-or-less meals  
 on a one-burner plate. The result  
 is dietetically disastrous. The girl  
 is badly fed and develops anemia.

Mental ailments arising from  
 loneliness brings hundreds of the  
 girl members to this clinic annual-  
 ly. They groan depressed and dis-  
 pondent.

Physicians connected with the  
 place say that there is a definite  
 Manhattan malady which, for want  
 of a technical term, they have  
 called "one roomitis."

The prisoners in an English jail  
 who are to be taught folk dancing  
 won't have any trouble keeping  
 time. And those boys won't exactly  
 drag along a daisy chain when  
 the throat is ball.

Editor's Note: Dr. Peters cannot  
 diagnose nor give personal advice.  
 Your questions, if of general interest,  
 will be answered in the column in  
 their turn. Requests for articles or  
 pamphlets on hand must be accom-  
 panied by a fully self-addressed,

 small charge to help cover cost of

 ing, Hygiene of Women, Kidney and  
 Bladder Disorders. Address: Dr.

 legibly, and not over 200 words.

 All of our members are re-insured in Bankers-Lloyds of Texas, guaranteeing the payment of our policy. Every official connected with our organization is under heavy bond, protecting you against fraud.

We have two companies, the one operating in Lubbock, one in Oklahoma City. The Lubbock organization has approximately 1,000 members and the one in Oklahoma City 800 members.

We pay policy holders who marry approximately \$250 at the end of three months; \$500 at end of 6 months; \$750 at end of 9 months, \$1,000.00 at the end of one year. You do not have to know at the time that you take your policy just when you are to marry. We have over 300 policy holders living in the city of Lubbock. That too, is a record for any city in the state.

## LAMESA PLANT IS READY FOR EQUIPMENT

### MILK PLANT WILL BE IN OPERATION SOON, ENGINEER SAYS

LAMESA, April 22.—(Special)—Construction work on the \$200,000 powdered milk plant at Lamesa has been completed, it was announced this week by the contractor, Harvey C. Allen. All brick work has been finished and only a few feet remain to be added to the 110 foot smoke stack, which is being erected now. Installation of machinery will begin soon, according to V. H. Ross, advance engineer for the Douthitt Engineering company, which firm is equipping the new industrial plant at Lamesa.

The building is as large as any of Lamesa's big landmarks, being in height equal to a three story structure. It is made of red brick and has five large rooms. The boilers, 600 horsepower, are said to be the largest on the South Plains. All modern machinery will be used in the plant, which is to manufacture sweet cream butter, buttermilk powders and skim milk powders.

The opening date for the plant has not been set, but it will probably begin operation during the first part of June, according to Ross.

D. Farr Davies, of Cross Hands Wales, who started as a pit-boy in a coal mine, has just been elected president of the Monmouthshire and South Wales Coal Owners Association.

## RALLS TO GET MORE SERVICE

### ADDITIONAL RURAL SERVICE WILL BE ADDED IN AREA

(By Staff Correspondent) RALLS, April 19.—Additional rural mail service for residents of Ralls territory in Crosby county is expected to be made available within the next 30 days according to Miss Lillie Brown, postmistress. When residents of the county near Ralls, petitioned the postoffice department to add another route it was decided to increase the star route out of Ralls so as to include some of this territory.

"The route was re-advised April 15 and we are expecting to hear from the department in about 30 days and she said, "If the new star route goes through I expect we will be able to get the rural route enlarged also."

Present mileage of the star route is 71 miles west and south of Ralls. Sixteen miles more will be added making the new route 87 miles long. The rural route south and east of the city is 49 miles long. Additional mileage will bring it up to 76 miles.

## WELL IN OIL AREA BURNING

### SIMONS GUSHER BEING FOUGHT TODAY BY STEAM LINES

(By Associated Press) THRALL, April 22.—A flaming torch of oil today marked the site of the No. 1 Simons gusher, which caught fire last night in the Chapman oil field as it blew in unexpectedly.

The well owned by R. L. Marta, suddenly began shooting petroleum from a depth of 1,271 feet, the oil spraying 15 feet above the crown block. The liquid caught fire from a nearby boiler, used in the drilling operations.

Making 2,000 to 3,000 barrels a day, the well is being consumed by the flames. Twelve boilers, all available in the field, were connected to a steam line, and workmen began shooting live steam into the hole.

The burning well is located a quarter mile northwest of the Chapman number 1 Abbott, the discovery well brought in a few weeks ago. Six wells are now producing oil in the field, two of them on pumps.

Initial production was estimated between 3,000 and 5,000 barrels a day by those who have seen the other wells of the field come in. It probably is the largest producer yet brought in.

The well was drilled by Marta, an owner, on land owned by Mrs. C. P. Simons.

The Chapman well, an offset only 300 feet away, blew in almost at the same time the Marta well caught fire but was under control. The Simons-Link, a producer, also was only a few hundred feet away.

## Financier Is Given Fifteen-Year Term

NEW ORLEANS, April 22 (AP)—Jules Nahoum, author and international financier, was found guilty last night of embezzling \$60,000 from the West Coast Trading company, of Sonoma, Mexico, and sentenced to fifteen years in the penitentiary. The jury returned a verdict in fifteen minutes after hearing testimony for a week. Nahoum's counsel served notices that the verdict would be appealed.

Nahoum was convicted of diverting funds of the trading company into stock of the Overland Commercial Corporation of Phoenix, Arizona, in New Orleans last January 5th. Part of the money belonged to Indian farmers in Sonoma and represented the sale of their rice by the company.

Nahoum had a book published on international trade. He was a native of Constantinople.

## PASSION PLAY, COMING TO CITY FOR TWO DAY RUN, GOES TO MEXICO CITY

DALLAS, April 22.—At the invitation of high Mexican officials and many prominent Mexican citizens, and with the consent and assistance of the Mexican government, the Freiburg Passion Play, which is coming to Lubbock, Tech Athletic Stadium on May 2 and 3 will appear in Mexico City for three weeks during the month of July this year. Passports have been arranged by the German company, headed by Adolf Passnacht, inheritor of the part of the "Christus" and manager and director of the company. Since last playing in

Freiburg, Baden, Germany, the home city of the play, in 1922, it has been the desire of Mr. Passnacht to take the Passion Play before the world. The American tour is a part of that program. Mr. Passnacht's company opened the American tour in St. Joseph, Mo., in 1928.

In Mexico City the play will be presented on a specially constructed open air stage in the great arena where the official Mexican festivals are held. The play will be presented in German as it has been presented in this country on the tour which included the New York Hippodrome, Portland, Seattle, Denver, San Francisco, Houston, New Orleans, Dallas, Oklahoma City and many other important cities. Attempts made to produce the play in English have not proven very successful, according to Mr. Passnacht. Broken accents bring to it a quality that detracts from its impressiveness. To anyone with even a slight knowledge of the Biblical story, the dialogue is not important. The story is told in pagantry and superb acting.

Following revelations that Omagh, Ireland, had built 40 municipal houses far from any water supply, the council has decided to employ a water diver to ascertain if any is available.
