THE FARMERS RELATION TO THIS BANK

We consider the Farmer the very backbone of this great Empire. It is through his untiring efforts this community is permitted to enjoy its present prosperity.

A large per cent of our business comes from the farmer. Several of our directors are farmers. Service to the farmer is our first consideration.

MARRIED

C. D. Frazell and Miss Gladys Goswell of Follett were united in marriage by J. M. Bull last Tuesday night. The happy couple arrived in town about 1:30 a. m. and immediately got in touch with the ever obliging night watchman, R. H. Gamble, who got David D. Shanks out of bed to issue the license and then Mr. Bull said "sad" words which made them husband and wife under the rays of a flashlight. Mr. and Mrs. Frazell left immediately for their home in Follett. Mr. Gamble says he has been called on to do nearly every thing, since being Perryton's night watchman, but this is the first wedding that he has assisted in.

Mrs. Fred W. Hood's parents who have been visiting her for the past several weeks returned to their home at Chaplin, Kansas the first part of the week.

BIG REMOVAL SALE

Farmers Mercantile Company To Stage 14 Days of Price Cutting

Elsewhere in this issue will be found a page ad of the Farmers Mercantile Company announcing that they will put on a Removal Sale starting October 28 and ending November 12th.

Prices in every department of the Dry Goods Department have been reduced from 20 to as low as 50 per cent, and when W. W. (Bill) McLarty, manager of this firm says that the price is cut you can bank on it that they are cut.

The store will be close one day on October 27th to cut down the prices and mark everything in plain figures.

There will also be a special on Sugar in the Grocery Department during the entire sale.

MEETING OF PARENT-TEACHERS ASSOCIATION

The Parent-Teachers Association held its regular meeting Tuesday evening at the Methodist Church. Parents and friends of the schools are realizing more and more the possibilities of this organization in the way of general progress. Mrs. Carl Ellis led the audience in singing "America" with Mrs. Wilson at the piano. The girls trio then sang two numbers, after which Miss Thomas gave one of her splendid Health talks, the subject of which is given in another column.

When the meeting was thrown open for business and for discussion of timely topics it was decided to undertake the serving of one hot dish daily for the pupils in the schools who bring their dinners. The Red Cross is to bear the expense of starting this movement, the schools to carry it on.

It was also voted to take the first steps toward a cleaner Perryton by districting the town, with committees for each district. It is hoped that the Boy Scouts will help in this work, the City Council and our Public Health Nurse promises her support. Let's clean up our own premises now.

The picture was won by Mr. Allen's room.

"HARD TIMES" ADVERTISING

One of the first things a business man wants to cut out these times is his advertising, on the plea of "hard times."

These are not "hard times," but conditions call for a return to the safe and sane business methods, with all unnecessary expenses eliminated.

We are "preaching" economy in advertising, which does not mean the elimination of advertising, but does mean the proper direction to make it effective. It means, go direct to the people you want to sell in a medium they get and read.

Several merchants have looked at the amount spent for advertising and told us they had spent their apportionment and couldn't advertise any more now.

The amount spent for advertising means no more than the number of shots fired in hunting. Shots may be fired at sparrows or at targets. The thing that counts is the number of shots fired at the real game in a careful way from a gun suited to that kind of hunting. The time to advertise is NOW, when it is necessary to go after business. When business pushed the merchant advertising was not worth so much, yet more of it was done than is being done now.

As a final proof that advertising is necessary in dull times, just watch the man who must reduce stock or raise money by forced action. He always puts on an advertising campaign. The greater the desire for results, the larger his advertising program. To get results a business man must tell the public of his wares. Economy in doing so would consist of using a medium that reaches the buyers and is read by them.

Purchasing power of farmers and stockmen is greater than any other one class, or of all other classes combined, in this territory. An ad to them through a trade journal that reaches them as a class and is read for information, will have greater pulling power than any other medium, hence would be real economy in securing business.

The amount spent for advertising means nothing. The thing that counts is the amount aimed directly at prospective buyers through a medium suitable for reaching real live buyers.

ADVERTISE IN THE HERALD

WOMEN UNBLUSHINGLY RELATE INCIDENTS

Laura Mashburn, alias Mrs. Jack Duff and Eva Huett were found guilty of robbery in the court at Cheyenne, and will serve terms in the penitentiary. They were the women who came thru Canadian with the Lawton murderers, Cleo Gobin and Wm. Tait, and were arrested at Perryton. The Cheyenne Star states that is the first trail ever held in that county of women on a criminal charge, and that the women under cross-examination unblushingly related incidents of their lives of crime and infamy.—Canadian Record.

County Health Notes

The Children and Teachers in Perryton are showing their interests in the Health Work of the School in various ways.

Thru the sixth grade the rooms have evailed themselves of a wash basin, which we hope will be put to good use, as our ten fingers are our worst carriers.

The Children in Mrs. Winningham's room have themselves organized into the "Klean Kiddies Health Club" and are interested in doing their part.

Miss Wood's room call themselves the "Thomas Health Club" and will be expected to demonstrate a model of propriety.

Miss Dodson's room is the "Busy Bee Health Club."

Miss Holland's room have as their motto "We Star in Health."

Miss Allen's room had their question box well filled when the nurse visited them which showed considerable thought on the children's part. Their Health Club is called the "Witch Chasers."

Last Wednesday Mrs. Perry and Miss Perry accompanied the County Nurse to the Flower's School. All the mothers in the district joined them at the school in the afternoon and were present at the school demonstration given by the Nurse on "The Care of the Sick in the Home." Josephine Wilson was the patient. The Nurse was more than pleased to find that none of the children had any decayed teeth.

On Thursday Mr. and Mrs. Neufeld accompanied the Nurse to the Cedar Bluff School and spent the day. Two visitors came for the demonstration in the afternoon.

Mrs. Bull went with the Nurse on Friday, Mr. Coffee having loaned his car, and spent the day at the Ridge School. Five of the ladies in the district came in the afternoon for the demonstration and talk.

On Monday the class in Home Nursing met at the usual time 3 p. m. at the Methodist Church. The Class was devoted to the Demonstration "The Care of the Sick in the Home" and besides the large number of adults in the class of Mr. Showalter and the Teachers came with the Perryton School children from the sixth grade up.

CARD OF THANKS

I wish to thank the many friends for the kindness and help during my recent illness. I could not expect nor ask friends to be more thoughtful.

Sincerely,
David D. Shanks,
Mrs. David D. Shanks.

PERRYTON CLEAN-UP WEEK

Starting Saturday October 22nd and ending October 29th has been designated as clean up week in Perryton and vicinity. And everybody should put their back yards and alley in good shape. Destroy all disease germs, use lime. Have cans and trash in boxes or barrels, ashes in piles, ready to be hauled away.

By order of the Mayor and Parent Teachers Association.

PULL THE CORK

When the editor approaches the average citizen in quest of news he is invariably told by the citizen "don't know a thing." And the answer is about as near the truth as the nations of Europe are to effecting a prompt settlement of their differences. Everybody knows something and most people know a lot of something that is worth telling and would make a breezy story, but they bottle up the walls of their dome and forget that it is there.

Sometimes the editor is able to pry loose word by word until he gets the story when it would be the easiest and simplest thing in the world to let it out with a rush. Pull the cork, brother, and let out the contents of your intellectual bottle and we will pass it on to others who are thirsty for news. You know a plenty if you only know you know it.—Melrose Messenger.

LETTER FROM STATE BOARD OF HEALTH

To the County Judge, Mayor, County and City Health Officers:

Dear Sir:
The State Board of Health, thru its Bureau of Child Hygiene, (the Child Welfare Division of Home Economics Extension, University of Texas, co-operating) is working out plans to furnish definite assistance in county child health problems with the object of making a united effort to raise the health standard of the children of Texas.

Do You Know That, in Texas Last Year:

8,638 babies died under one year of age? and 6,082 children died under five years of age? And more than 50 per cent of these deaths could have been prevented. 625 mothers died in childbirth and left orphaned babies? About 90 per cent of these deaths could have been prevented.

Large numbers of our children are below standard weight and strength because of improper feeding?

One-third of our young men were rejected from military service as physically unfit and that about one-half of these could have qualified if they had been properly cared for during childhood.

AND THAT proper care before birth means fewer deaths from childhood and healthier, happier mothers who are better able to care for their children?

Also, better, healthier babies? Proper and adequate diet to insure normal weight in relation to height, with supervised school lunches, will maintain normal health of children?

Through a Children's Health Center, every community should give skillful medical care and expert advice to insure to every baby its best chance for health?

Also, trained health officers and public health nurses, who would advise with mothers in the care of their children and, otherwise, raise the standard of health of the community.

The community as well as the parent has an obligation to the child and individual men and women have not discharged their duty to childhood in bringing healthy children into their own homes, but must be held responsible for the clean birthright of the other children of their city and state.

We, therefore, urge that you ask the organizations of your county that are interested in civic and state betterment to meet with you for the purpose of discussing the feasibility of organizing the county for co-ordinated effort to raise the standard of health of the children of Texas. We urge, also, that you give this letter publicity by handing a copy of same to each of your local papers with the request that it be published.

THE BOYS AND GIRLS' CLUB

The annual county exhibit of the boys' and girls' clubs of Tarrant county, which was held at the First Baptist church last week was a credit to everybody connected with it and a credit to the county itself. One unfamiliar with the work who saw these exhibits for the first time could not help but be astonished, for the work done in all branches of rural activities, from the growing of crops to the arranging of the household, was shown to be of the very highest order.

However, we fancy that even these fine exhibits would not be the most striking thing that such a visitor would have found. For it would be a very unobservant or a very crabbed person who would fail to notice the boys and girls themselves. It would be difficult to imagine a finer gathering of young people than the boys and girls of Tarrant County farms who had exhibits at this annual exposition. Manly intelligent boys and comely self-reliant girls, their faces glowing with the excitement of the big occasion and their enthusiasm for the work apparent in the interest they manifested—such was the sight the visitor would behold. And it would be a very curious person, indeed, who would not readily agree that these "exhibits" of the products of our farms were the best part of the show.

Our readers know our very high opinion of the work which is being done in the boys' and girls' clubs, not only in Tarrant County, but in many other counties of the State, and they know how we have stressed in season and out of season the importance it bears in relation to the future of agriculture. But we sometimes think that even if it had no importance at all in this respect, the money and the effort it costs would be more than justified by the effect it has upon the lives of the boys and girls themselves. It is preparing them to be real men and women, competent to meet life in all of its phase, for above everything else it is building character.

No county ought to be without such work. We can imagine no circumstances in which it could be justly said: "We can't afford it." The truth is there is a very real question whether a county can afford not to have such a work among its rural boys and girls. It is fashionable these days to remark upon the decadence of young people as compared with those of former generations. There probably is some basis for this fashion. But whether there is or not, it is certain that instead of decadence there has been progress in the case of young people of the rural districts wherever the boys' and girls' club movement has been firmly planted. —Editorial in the Star-Telegram.

OF ALL the sheets from East to West the local paper is the best. Deep is our love and deep our debt to Record, Journal or Gazette. When first I landed on this ball, a bit of flesh wrapped 'round a squall, it welcomed me with joy and pride my life has never justified. It follows me my whole life through, with words all kind and mostly true; and even after I am heard 'twill tell my best and hide my worst. When in Oshkosh or Winkop I wander homesick as a pup, or if in foreign lands I roam, it brings me pleasant news of home. Across the sands, across the sea, the old home paper comes to me. It is a friend both true and tried, and to it, gent, I point with pride; yes, I will hock my Sunday pants to pay up six years in advance.

Most of them run uphill, but there are so many of them a fellow don't know whether to run in low or step on the gas. And after winding around in 200 different directions they all fetch up at the same destination.

Capital, labor, employer and employee are all at deep sea and all in the same boat, so there is only one thing to do, and that is for each to bend to the oar and all pull together. Otherwise they will go round in a circle and get nowhere, but maybe get swamped.

The Southern States are feeling better now, since the prices of both cotton and tobacco are sliding upward, and it is well, for the South was hit hard, especially on cotton. And those of us who chew plug will continue to find a place to spit, price or no price.

Unless something is done to curb the rent hogs, we can see where the trifty example of Mr. Diogenes, who lived at Corinth, Greece, in a tub, will have to be emulated in this country. We went out with an auto searlight to see if we could find an honest landlord, and there was no such thing findable.

Immigration and the birth rate among foreign citizens is now so great that in about one more generation a fellow will have to speak Italian, Polish, Hungarian, Mexican, Japanese, and having a working knowledge of Finnish and Czechoslovakian and Bolshevik to get along in business or make his wants known.

The combined average costs of publishing a newspaper has raised over three hundred per cent since 1914, and the net result of it has been that four thousand papers have ceased publication and discontinued business since then. This is because the products have not been raised in price anything like commensurate with the raise in expense.

Our taxes are something awful, but Germany's are much worse. An income tax has to be paid there on 2,000 marks, about \$20 of our money. If the income is \$5,000 the government takes 60 per cent of it. In addition to all this it also takes 30 per cent of any capital one may have on hand—and there are no tax-exempt securities there to hide behind. Nothing is so bad but what it might be worse.

"HOME SEEKERS
TAKE NOTICE"

The Great North Plains in the Panhandle of Texas is a Farming Country. If you want information, write or ask The Ochiltree County Land Company, of Perryton, Texas. They know, and would be glad to tell you all about it, and the big crops that are raised there. We have a fine list of land in the way of bargains in this great country of the South West. Let us hear from you.

HOW ABOUT THIS SEX APPEAL

Nowadays we hear and read a great deal about sex appeal, the pulpit, and press being full of it. We are told that the magazines are made up of sex appeal; that the modern dances are sex appeals; that most of the plays in the movies are based upon sex appeal; that the current fashions in women's clothes are an expression of sex appeal, etc., ad lib. Well, what of it? Put on the soft pedal on this sex stuff—it is not a crime. It is not even a misdemeanor, or even much of a fault. On the contrary, it is one of the most beneficent forces in all nature. When sex appeal has no more power, up will go the shutters on the house of life, and there will be darkness in all its chambers. When a woman is no more to a man than a man is, when a man is no more to a woman than a woman is, then dear friends the jig will be up, and there will be nothing left for any of us to do but walk out to the cemetery and select a lot. Taken in moderate doses, sex appeal is all right and just as God intended it to be.

An optimist is a fellow who can travel over a rough and rocky road and yet enjoy the scenery on both sides of it.

Most of the magazine stories about triumphant cave men are written by a small, bald, henpecked gentleman with pale and discouraged whiskers.

Drowning son's sorrow is now a lost art. The bootleg brand is so vile it only increases the size of the sorrow. And if the sorrow is a wife, one can't very well drown her, either, if she happens to weigh 200 and have a rolling pin and a temper.

A Scotch professor says this earth is eight billion years old. Well, then, maybe the worst is over, for likely the first eight billion years would be the hardest. Just as like as not in another billion or two we may all know something.

It takes up about half of President Harding's time smoothing down the rough places caused by the scramble for office. When the pie is cut the politicians, no matter what party they belong to, are as ferocious as a den of wild animals at feeding time.

A dispatch tells of a most wonderful cat that comes to the bedroom and wakes its master regularly every morning at 7 o'clock. Huh! We don't see anything wonderful about that. We have a cat that wakes us and all the neighbors up half dozen times nearly every night.

Out of loyalty to his town and its local merchants an editor always advises against patronizing mail order houses, but if the local merchants would advertise as much as the mail order houses do they would be so busy the latter would not bother them much.

American may continue to be the melting pot of the world, but is going to see to it hereafter that nothing but meltable material goes into the crucible. Some of our old time beautiful theories about being the haven for the oppressed of all nations turned out to be both nonsense and dangerous.

THE STOMACH AND THE BRAIN

Apparently boys and men are maturing earlier than formerly, but it depends a great deal upon the man, his stomach and his brain. Now, Mr. Methuselah, for instance, did not do his best work until he was around 850 or 900. William Pitt, who lived in comparatively recent times, was prime minister of England at 23, but didn't do anything afterward. A man with a superior stomach and an average brain will be going strong at 80, while a man with a superior brain and a bum stomach may have to do his best work before 40. Cato learned Greek at 80. Henry James and Bernard Shaw had not learned good English at 70. Brayan was a wonderful politician and orator at 25, and look at him now. Some men develop into pale blue asses in early youth and never get over it. Taft was born interesting, but he wouldn't make a good politician if he attained the age of Methuselah. When science gets so it can graft brains on such a stomach as Fatty Arbuckle has the problem may be solved, and in the meantime we acknowledge that he don't know anything about it.

Just as soon as we get out of other things to make a roar about, we can commence roaring about the price of eggs.

When a man's feet are cold he is cold all over, and when he has a little yellow streak he is yellow all over.

Many are becoming so tired of the fool antics of Russia that although they feed the starving they don't care much what happens to the Bolsheviks, just so it is something hard.

Sages tell us that the best way to get the most out of life is to fall in love with a great problem or a beautiful woman. We should guess that the best way should be to choose the latter, and thus get both.

The wife of one of the Kansas coal mine strikers has just inherited a million dollars from a rich relative in the old country, and our guess is that capital now gains a new member and the proletariat loses a recruit.

War, past, present and future, gets about 97 per cent of our taxable income, while peaceful government gets the other three per cent. Why not build another dreadnaught with that three per cent, and make it unanimous?

Mr. Vandervlip wants to breeds up a super Senate. Huh! Better let bad enough alone. With super men, super dreadnaughts, super Senate and super other things, we will soon be jumping from the frying pan into the super.

The disarmament proposition is as clear as mud. The nations all believe in it, and just as soon as they can decide how it may be done without any serious reduction in their sea and land forces they will adopt the policy.

It is just as well to be superstitious enough not to have thirteen at the table, especially if you are the one who is to provide the eats for the thirteen. A fellow needs a bank roll to feed that many.

DODGING AUTOS A FINE ART

There are now about ten million autos in this country, counting the Fords, and it does seem to us that we have dodged successfully at least half of them. We are now a great expert, and yet never took a lesson in our life—it just came natural like, from dodging circus parades and laundry wagons in early youth. There are certain elementary facts that the automobile escaper should bear in mind, and these, with a keen eye for distance and the agility of a young, untamed sears roebuck, enables him to cheat death and the undertakers most any day. Never pay any attention to the horn, for that is put there as a decoy for victims, and the speed of the average car is such that when the horn is sounded half a block away by the time the sound reaches the pedestrian he is just going under the effects of the ether in the operating room. Some cars have tinkling bells instead of a horn. This makes the amateur dodger think of Santa Claus and hanging up his stockings—in a hospital. Others have a viren's song that sounds like the noon quitting whistle, and to listen to it means coming in contact with the concrete. And don't depend upon traffic cops, unless you like to wear plaster casts.

It is called the middle class largely because it is continually between the devil and the deep sea.

Among the first things a man learns after he gets married is that he is in the habit of snoring.

What has become of the old-fashioned girl who tried so hard to hide her ankles from view?

If old Man Diogenes was out with his flashlight he would, according to all news dispatches, be up against it worst than before.

And now scientist claims to have discovered an ultra-violet ray so powerful that it will show a wife just where her husband is at any hour. Confound these old highbrow scientists, anyhow.

Too many of us get it into our heads that the Lord will provide, and so we slack on the work. The Lord will provide, all right, but what he provides is the muscle with which to work for what we need.

Those who have been through it assert that an operation for appendicitis is no joke. Well, if it was it would be a side-splitting one.

A woman always has a companion when she is going wrong, but when she pays the price she is as alone in the world as though she was the only inhabitant of the only island in the ocean.

Now that fall is here, snuggle up to the corn bread and corn pancakes along with the spareribs and country sausage. There is not one case of appendicitis in ten carloads of corn meal.

D. 1921, the same being the 7th day of November, A. D. 1921, then and there to answer a petition filed in said Court on the 4th of October A. D. 1921 in a suit, numbered on the docket of said Court No. 391, wherein NETTIE EDITH JETT Plaintiff, and W. E. JETT is Defendant, and said petition alleging that on or about the 27th day of February, 1915, plaintiff was legally married to Defendant in Lipscomb, Texas; that during all of the time after said marriage plaintiff treated her husband with kindness and forbearance, but that the defendant, disregarding the solemnity of his marriage vow, and his obligation to treat plaintiff with kindness and attention, about one year after their marriage commenced a course of unkind, harsh and cruel treatment toward her, of such a nature as to render their living together insupportable, which course of conduct toward plaintiff continued until the time of their separation on or about the 15th day of December, 1917; that such course of conduct toward plaintiff was premeditated and was by him deliberately intended to vex and harass plaintiff; that after said marriage and on or about the 15th day of December, 1917 and without any provocation on the part of the plaintiff the said defendant left the plaintiff with the intention then and there of abandoning her, since which time of abandonment the said defendant has not returned to her nor have plaintiff and defendant since said abandonment lived together as husband and wife. Said petition praying for a dissolution of the bonds of matrimony existing between plaintiff and defendant.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under my Hand and the Seal of said Court, at office in Perryton, Texas, this, the 4th day of October, A. D. 1921.

Pianos and Player-Pianos

HERE ARE A FEW FACTS ABOUT THE BALDWIN PIANO COMPANY Security in the Purchase of a Piano Depends upon the Responsibility of the Maker—the Greater Responsibility, the Greater the Security.

Our business was established in 1862.

Our factories (five in number) are the largest and most thoroughly equipped piano factories in the world.

Our capacity is 30,000 instruments annually.

All goods we sell are made by us.

All goods go direct from our factory to your home.

We make all good grades of pianos—six separate and distinct kinds—forty different styles.

The Baldwin product has been awarded the highest honors in the world: The Grand Prix, Paris, 1900, and the Grand Prize, St. Louis, 1904. The Baldwin Piano is the only American Piano ever thus honored. Also the Grand Prize, London, 1914.

Our goods are sold in every part of the civilized world.

We give an absolute guarantee with each piano.

Our prices are quoted on the very lowest factory basis.

At the beginning of the World War, the Y. M. C. A. bought 300 Pianos from the Baldwin Company. They were shipped to the different Cantonments all over the United States.

You can buy a Piano from the BALDWIN LINE and know you won't get skinned, because THE BALDWIN PIANO COMPANY is capitalized for about \$3,000,000.00 and every piano is guaranteed.

We sell them on easy terms, so any one can own one.

Come in and see our stock.

W. H. JENKINS AND SON'S

Annual Sale of

BIG BONE POLANDS

On Farm 8 Miles East of Gray, Oklahoma; 5 miles South of Balco, Oklahoma; and 14 miles North west of Booker, Texas.

Thursday, October 27, 1921

THIS OFFERING CONSISTS OF

30 HEAD OF BRED SOWS, GILTS AND BOARS

In this sale I am offering sows and bred gilts sired by HERCULES JONES, BLACK BUSTER and TIMM JONES, and they are bred to BUSTER WONDER and KING KOLE, JR., two very promising young boars with lots of type and good breeding back of them, King Kole, Jr. being a son of the grad champion of Missouri, and Buster Wonder was sired by Black Buster, who was grand champion of Kansas, Oklahoma and Texas.

I invite every farmer and breeder to my sale. Look my hogs over and if you don't like them tell me why. They are the big, tall and growthy kind and very prolific. One of these sows or gilts will put you in the Poland China business and start you right. At the price of grain and feed you can afford to be without hogs. Why not start with good ones?

I STAND BACK OF EVERY HOG I SELL AND GUARANTEE IT TO BE A BREEDER.

TERMS—Time will be given if desired till September 1, 1922, at 10 per cent interest. 10 per cent cash. Liberty Bonds will be accepted at par without discount either way.

AUCTIONEERS—Cols. J. W. Steffen, Johnnie Jones and Ed. Littleton.
