SEVERE WIND STORM LAST FRIDAY NIGHT

The severe wind storm of last Friday night did considerable damage in Perryton and surrounding country. Plate glass show windows were blown in at the Peoples Supply Store and at the Forbes Garage. A portion of the wall for the new Bradbury Produce Co. building went down during the night. Also much damage was done to the telephone and electric light lines, service being interrupted for part of the day Saturday. Many windmills were blown off and damaged so the toll of the storm will easily run several thousand dollars. The high wind was accompanied by a driving rain which penetrated even the best and tightest of buildings.

The principal crops in that section are cotton, feed, fruit and potatoes.

LARGE LAND OWNERS SHOULD DIVIDE UP

It appears to us that one of the greatest draw-backs that we have in this country is the fact that there are too many large land owners. If these large tracts were cut up and all or part of them sold in quarter and half sections, with a small initial payment and good terms on balance with a low rate of interest, we would see many new farmers coming into this section. And with the influx of more people land is bound to advance. We fail to see the wisdom of holding these large tracts of land. Much of this land is held by non-residents and is not under cultivation. The taxes and the interest on the money invested costs the owners several dollars each year on every acre. If you own a section, why not dispose of a quarter or half of it to some farmer who will improve it and make a home. Will this not make the remainder of your land increase in value. What we want is more farmers but we will not get them until many of these large tracts are sub-divided.

McNARY—HAUGEN BILL FOR FARMER'S RELIEF

Washington, D. C., April 3 (Special) Criticism of the McNary-Haugen Export Corporation Bill by the country elevator operators and cooperative associations has resulted in several amendments which will become evident when debate is opened in the House and Senate, according to Representative John W. Summers, Chairman of the Export League. Every legitimate criticism from these sources has been met, he declares, to the end that the bill should hereafter receive undivided support from every section of the country.

"Under the McNary-Haugen bill as amended the result will be to put prices for farm products on a basis equaling prices for other commodities," said Mr. Summers, "without interfering with the present system of marketing. The elevator operator will continue his services just as at present, except that his business will be somewhat more secure, and legitimate profits more certain, through the price stabilizing influence of the agency. The dealer and the miller also will benefit through the elimination of wide fluctuations, which under present conditions may occur at any time to disrupt the industry.

"Cooperative organizations, under amendments which are being added, are even more thoroughly protected than in the original draft of the bill. They should receive great organization impetus from the passage of the measure, which will bring many millions of dollars to their farmer members.

'As the bill now stands, every element of the farm marketing structure in its legitimate operation which, of course, is the only phase worthy of attention. The machinery for segregating surplus products from those domestically consumed remains untouched, with the arrangement for establishing domestic prices on a fair basis irrespective of world's prices. In other words the amended McNary-Haugen Bill means revival of farm prosperity while at the same time protecting the interests of other legitimate business and industries throughout the country. It is the one measure now before Congress which completely and justly meets the agricultural situation."

"Farmers are being starved off the land at the rate of 100,000 a month, eliminated as income tax payers and their purchasing power cut in two.'

"The farmers' purchasing power is reduced from twenty-five to fifty per cent. Instead of meeting the family needs in the usual way", said Mr. Summers, "millions of farmers are limiting their purchases to bare necessities. This is being reflected to the factories and commercial concerns of the east and south.

"As a matter of fact constantly selling for less than the cost of production is starving farmers off the land at the rate of a hundred thousand a month and the end is not yet reached.

"The necessity or the immediate passage of a stablizing, equalizing farm measure such as the McNary-Haugen Export Bill is reflected in these significant figures:—during fifty years, from 1870 to 1920, there were 3050 bank failures recorded in the United States; in three and a half years 1484 banks, largely in agricultural states, have closed their doors and the last few months have been the worst. In other words about half as many banks have failed in three and a half years as in the preceding half century.

"Statistics show that the farmer has been almost wholly eliminated as an income tax payer. These conditions point to an economic condition so grave as to arouse the entire nation to the necessity of action.

"We believe the Agricultural Export Bill, when enacted into law, will go far in helping the farmer to solve his problems. It should have nation-wide support."

Dave Ewing of Shattuck was looking after business interests here the latter part of last week. Mr. Ewing who is in the grain business at Shattuck owns a section of land east of town.

There is many an ex-service man scattered throughout this big land who is now at death's door as a result of the damnable gas of the dirty Huns. Every case like the above that we hear of, makes us stronger in our convictions that the Germans should be made to pay regardless of what the paying will cost them.

THE MOTION PICTURE

Entertainment is a fundamental essential to human happiness—Nature demands diversion from the daily routine. The Motion Picture meets this universal need in a universal way—as no form of entertainment has ever approached before.

It takes the foremost entertainers into the remotest hamlet—garthers the interesting and uncommon from the ends of the earth.

It reaches the needs of every mind—of every condition—everywhere. It has no bounds except the bounds of human interest.

The Motion Picture is as permanent as the human craving for enjoyment—and we have seen but the raising of the curtain on its great destiny in extending knowledge, entertainment and happiness in the world.

Misses Ruth Pickens and S. A. Douglas and Messrs. Abe Green and Roscoe Snyder were in Glazier last Sunday attending the funeral of Noah Westerfield who died at the Sante Fe Hospital at Mulvane, Kansas on Thursday of last week. Noah, who was with the Santa Fe at Glazier as telegraph operator, was well know in Perryton and Ochiltree County, he having lived with his parents at the Half-way house in the southeast part of the county. His father died several years ago but the mother, Mrs. U. T. Westerfield and several brothers and sisters survive.

We are in receipt of a letter from Mr. and Mrs. B. H. Peckenpaugh who are now located at Corpus Christie, Texas, going there from Paducah a few days ago. CITATION BY PUBLICATION

THE STATE OF TEXAS,
TO THE SHERIFF OR ANY CONSTABLE OF OCHILTREE COUNTY —GREETING:

YOU ARE HEREBY COMMANDED TO SUMMON C. N. Smith by making publication of this Citation once in each week for four successive weeks previous to the return day hereby, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 31st Judical District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 31st Judicial District, to appear at the next regular term of the District Court of Ochiltree County, to be holden at the Court House thereof, in Perryton, on the Second Monday in April A. D. 1924, the same being the 14th day of April A. D. 1924, then and there to answer a petition filed in said Court on the 5th day of March A. D. 1924, in a suit, numbered on the docket of said Court No. 479, wherein Bertha M. Smith is Plaintiff, and C. N. Smith is Defendant, and said petition alleging that the plaintiff Bertha M. Smith is a resident of Ochiltree County and that the residence of C. N. Smith is unknown to the plaintiff. Plaintiff alleges that she has been an actual bona fide resident of the State of Texas for the past twelve months and a resident of Ochiltree County for the past six months, next preceding the filling of this suit.

That plaintiff was legally married to defendant on the 4th day of July, A. D. 1909 in Dallas, Texas and continued to live with defendant as his wife, except times when he has deserted her and left her on her own resources until on or about the 13th day of November, A.D.1923, and that at the time of said marriage both parties to this suit were inhabitants of the State of Texas and have remained here ever since.

The plaintiff during the time she lived and cohabiated with defendant as aforesaid, had four children by him to-wit: Mary Smith a girl 13 years old, Allen Smith, a boy, 11 years old, Homer Smith, a boy 7 years old, and Clifton Smith, a boy 4 years old. That during all of said tmie she conducted herself with propriety and managed the household affairs of her husband with prudence and economy and at all times treated her said husband with kindness and forbearance. The defendant disregarding the solemnity of his marriage vows, and his obligations to plaintiff, within about a year prior to his separation of plaintiff he began to neglect plaintiff and his said children often leaving them without food or means of procuring food or other necessaries of life for days and weeks and his whereabouts being unknown to this plaintiff. Plaintiff alleges and charges the facts to be that defendant spent much of his time and money with other women of questionable and bad character and away from and neglecting his family and leaving them in want and without means to obtain food and raiment and causing this plaintiff as well as their chidren great shame and worry of mind. That on the 13th day of November 1923, defendant deserted and left this plaintiff and his family and plaintiff has used all means within her power to learn his whereabouts but has failed. That the defendant has not contributed one cent to support of the plaintiff and family and that by reason of the treatment and neglect of plaintiff by defendant has rendered their living together insupportable:

Plaintiff would further show that plaintiff and defendant are the owners in fee simple as community property the following real estate to-wit: all of Lot No. 1 Block No. 158 in the town of Electra, in Wichita County, Texas; that said lot is all the property owned by defendant known to plaintiff and that she has no property in her own right, that she is in great need and has no present means of support for herself and children.

Plaintiff prays that defendant be cited in terms of law to answer herein and upon final hearing she have judgment dissolving the bonds of matrimony now existing between these parties to suit and that plaintiff have the care and custody of her said children. That the property above described be partitioned and that some suitable provisions be made for the support of said children. That a lien be created by decree of this court on said property, for the maintenance of plaintiff and said children and for court cost and for such other and further relief special and general, in law and in equity, that she may show herself entitled to and will ever pray.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Perryton, this, the 11th day of March A. D. 1924.

UNION SCHOOL NEWS

(Too late for last week)

"It snows!" "It rains!" "It's slipped a cog!" "Been here twenty years and never saw anything like this!' Are a few of the exclamations current of late. We should worry! It's a time to test the higher traits of character.

Have the measles. It is fashionable around here. The empty seats at school makes one think every body has "broke out." Necessity is the mother of invention. No one would doubt the saying had they seen the sleds in use in these parts the past week. Some people have been getting ten ducks at one shot, others ten shots and one duck.

Elmer Padget was the last high school student to take measles.

Union is planning a great time for May-day, afternoon and evening.

Roy Miller is in school again after a "measley time'" at home.

Mrs. Maud Waters returned from Enid Friday evening, when she had attended her father's funeral.

A number of students are looking forward to the State meet at Norman with great interest. The following students hope to enter the contests: Thomas Collins, Milton Neufeld and Hazel Buckridge, debate; Frankie Waters, art and expression; Vineta Collins, art and geometry; Dwight Sims, American History. For a parent to say "Oh, no use for my child to enter a state contest", is to acknowledge his own weakness mentally, for any student or child without aid from any one could fit himself for such contests. And such contests mean improvement in the farmer's child as the fairs have made improvements in stock.

This is an anxious time for teachers. Tenure of office for teachers should not depend upon the petty whines of the ne'er-do-wells or the community bigot.

LOCAL MAN WRITES ABOUT CALIFORNIA

Having spent the winter in lower California and traveled over most of that part, I was a close observer of the country in general, and its industries. The country from Los Angeles, south and east to the Border has a very small per cent of tillable land. The most of that has to be irrigated —water very scarce.

Fruit growing is the principal agricultural industry, but lately the returns don't figure as high as the cost of production. So the fruit grower is hit pretty hard. In some cases, he has to dig down into his pocket to help pay the freight. However, suckers and lemons are the principal crops.

One of the industries is dredging sand from the ocean, building bungalows on it and selling to the greenhorn from some good state for a neat little sum, and consoling him with the thought that he can live on climate. They also have numerous other grafting activities.

From the growing descriptions sent out by the State, Los Angeles is supposed to be a beautiful City. I look on it as New York's greatest dumping ground. All the foreign countries have been furnishing New York with murderers of the English language, she has been unloading these birds in the coast towns of California for several years, all of which make a sloppy mixture of the Pope's children.

Life itself is much safer than it was in Medieval Rome, but a true blooded Protestant Citizen can not feel that he is in The Class of His Own, when Romanism confronts him on all sides.

California's Native Son seems to esteem the aforesaid Foreigner highly, as the Higher-Ups of the foreigner class are used extensively on the police force, also in other offices connected with Law Enforcement, because he can be depended upon to shield all things unhuman. Such as protection of rum-runners, dope fiends, also goes fifty-fifty with the day light street robber. The kidnapping of the white girl is increasing yearly. In a February daily from Los Angeles was an account of seventeen girls missing in one day, ranging in age from 9 to 22. That being the largest number for any one day.

The laboring division of the Foreign class can be secured at a very low wage, making it difficult for those who go to California, because of misrepresentation, to secure employment whereby they can exist.

It is true there is much to see on the coast of California, expecially on Sunday. The Jap and Mexican work all day in their gardens and truck farms. You see surveying gangs, large grading outfits and numerous other works being carried on. Sunday is the Big Day for real estate men. They sit under large umbrellas, along the Boulevard, and sell lots to the poor sucker, lots on the slope of a sand hill, which they have covered with little yellow and green flags and call it a New Town Site. Could we only have such salesmen in Texas, we would have a man located on every quarter section before Saturday night.

Also the dance pavillion, pool and billiard halls are all run wide open on Sunday with large attendance. Many seem to have plenty to drink, and it takes a good driver to dodge them on the Boulevard.

As I see it the Agricultural District of California is on the decline. It shows no sign of prosperity. In traveling a distance of 1700 miles from Los Angeles to Perryton, we saw but few newly improved places, until we had passed through Midland, Texas, a small town on the plains about five hundred miles southwest of here. The country around LaMesa, Lubbock, Tulia and Plainview looks very prosperous. For a distance of 300 miles along the highway we saw newly improved farms on both sides the road. These people had taken up the growing of cotton last year and seem to be making good. Why can't the people of Ochiltree County do the same?

California is the place to go if you have some money which you wish to dispose of. They have experts along that line. They can relieve you of your coin. If the people from the many other states of the Union, who have a little money, would stay away from California six months, the state would go bankrupt. I am glad to be back in the self supporting state of Texas, filled with 100 per cent Americans. —Wm. D. Myers.

UNION SCHOOL NEWS

The roads have been so bad in these parts that we have been unable to write you as often as we desired. Then sometimes Uncle Sam's help could not do his part and what we did write got stale and we threw it away. Then Roy Miller went to Goodwell so that no other boy could talk to his girl while she played basket ball, and got exposed to the measles, when he didn't know it, and he exposed all Balko before it knowed it and we got a bad name. There has never been such a crop of measles in these parts since the white man lived here. One day last week some body counted thirty-five "measley" children all at one time.. We think we are a head of Perryton for our size.

Now, Mr. Editor, may be we should not say anything about it, but we know when we make a bargain that we feel under obligation to do our part even though we might run against a root once in awhile. Every body can guess the rest for the debate that should have come first "wont" come at all and we are not to blame.

We, in the high school, are all happy now because the measley students are all back again and taking up their work with a vim.

Some of our students act like they wanted to be the teacher's pets so they might laugh and play in time of school and bother every body else. Most teachers like other kinds of animals for pets.

We forgot to tell you that Mr. and Mrs. Jack Kellam and little son of Perryton visited Miss Teeter Sunday.

Hazel Brown saved a bottle of measles with which to expose Earl as soon as his school is out. Earl will have to hurry if he does a good job of it, if he is ready to enter summer school at Alva, the 26th of May.

Master Springmyer is rapidly recovering from his wound.

Some parents can find all kinds of excuses for allowing their children to grow up in ignorance. The greater per cent of criminals, insane and paupers are recruited from this class.

We are wondering why people are so anxious to tell about sick people for it is not a new thing in many localities. We do not like to have to say that Mrs. T. H. Blair will have to be listed this week among the sick.

James Blair is rapidly improving and will soon be home again.

Owing to a fall Mrs. Burris has been using crutches the past week.

The latest reports say James Blair has measles and his face is in serious condition.

THE STUDENTS

B. C. Trosper, the big duroc hog man, was a caller at the Herald office on Friday of last week. Mr. Trosper, who lives northeast of Booker, had the misfortune to lose his fine fourteen room farm dwelling a few weeks ago by fire. Mr. Trosper tells us that he is figuring on having another one of his big hog sales this fall. The quality and breeding of the Trosper herd is known all over this section of the country as being high grade stock.

Constant hacking makes the cough worse

STOP it now with Dr. Bell's Pine-Tar Honey—or it may become chronic. Nothing so quickly loosens phlegm, soothes dry throats and stops coughing. Made of the very same medicines the best doctors prescribe combined with the good old-time stand-by—pine-tar honey! Its taste is pleasing, too! Keep Dr. Bell's on hand for the whole family.
