What Are You Doing to Help Win the War?

HOBBY SIGNS BOLLWORM BILL

Provides for Border Zone and $10,000 Appropriations to Fight the Pink Pest.

Austin—Governor Hobby has signed senate bill No. 7, by Messrs. Page and Caldwell, providing for the border zone against the introduction of pink bollworm and appropriating $10,000 to carry the act into effect. The bill fixes a border area where cotton cannot be grown and also provides for the extermination of the pink bollworm if it appears in Texas.

The house did not give the bill the two-thirds record vote ... it will not become a law until ... days after adjournment. This ... not prevent the state and federal ...orities from keeping a close watch and to act promptly where the pink bollworm does not appear, as it did at Hearne.

Hobby to Approve Investigation Cost

Austin.—Governor Hobby has a number of bills on his desk awaiting disposition. They came to him during the last 10 days of the session and he has 20 days after the session to dispose of them. Among the bills on the executive table is that appropriating $25,000 to pay the contingent expenses of the session. The single purpose of this bill is to cover the cost of the departmental and institution investigation by the legislature. It is to supplement about $14,000 left in the contingent fund appropriated during the first days of the session and makes nearly $50,000 available for the work. Governor Hobby said he expected to approve the bill and thus make the investigation possible.

File New Interurban Bond Securities

Dallas—That approximately $4,500,000 will be spent in the near future in the construction of interurban lines radiating from Dallas was indicated by the filing of two trust deeds in the county clerk's office. Each of them secures a bond issue of $2,250,000 on franchises and property of companies whose representatives have secured franchises for interurban lines here. Work on one of these lines, a road from Dallas to Irving, has commenced, and the construction of the other will begin within the next few weeks, according to men in close touch with the projects.

30 Cents for Cotton Agreed Upon.

New Orleans.—Texas and South Carolina won a sweeping victory in the cotton conference held here, when after a determined fight by delegates from these two states for the fixing of a minimum price on cotton, L. B. Jackson, director of the marketing bureau of Georgia, Atlanta, offered an amendment to the resolution declaring it the sense of this committee that the present selling price of manufactured cotton products justifies the farmer in receiving 30 cents per pound for cotton.

War Tax Measure Now in Effect.

Washington.—The war tax bill became a law late Wednesday with President Wilson's signature. All new taxes in the bill become effective when the president signs it, except certain specified rates. The 1c letter and postcard tax becomes operative in 30 days and the second-class mail increases July 1. New income and war excess profits taxes are based on income of the 1917 calendar year and payable before March 31, 1918. All stamp taxes, including those on parcel post packages, become effective Dec. 1.

American Patrol Ship Sunk.

Washington.—An American patrol ship on duty off an Atlantic port was rammed and sunk by an unknown craft. The incident reported to the Navy department was officially announced as follows: "A coast guard vessel on patrol duty off an Atlantic port was rammed and sunk by an unknown ship. The work of raising the sunken vessel will be begun at once."

43 Fires in Dallas During September.

Dallas—The insured loss from fires in Dallas during September was $100,229 and the uninsured loss was $37,240, according to the monthly report of Fire Marshal Naylor. During the month there were 43 alarms. Twenty-seven fires were confined to the place of origin, and four extended to adjoining property.

T. J. Christopher, who has been afflicted with a bad case of rheumatism for the last few weeks, left on Thursday for Marlin, where he is to try the efficacy of the Marlin water as a curative agent for his trouble. We hope his recovery will be speedy.

HAWAIIAN SINGERS AND PLAYERS

At School Auditorium Thursday Night, October 18

For those who cannot ... spare ... ands we have brought this quintette of Hawaiian singers and players and they can be ... you ... own Hawaiian music by the gifted native singers and players has been a great success in America because it is different. Love songs are particularly effective. The melodious strains of the songs and the accompaniment on native instruments with its peculiar fadings of the fingers on the strings, is plaintive and fascinating.

Vieira's Royal Hawaiian Quintette was selected to fill lyceum engagements after the affiliated American Managers had listened to concerts by every standard Hawaiian company in America.

Their repertoire includes all the songs of Hawaii sung in native ... many of the popular airs of this country and classical and operatic numbers. The entire company appears in native Hawaiian dress. They present a musical program of real merit.

Remember date, Thursday, night, October 18.

STOCKMEN NOTICE!

Taking effect Sept. 24 stock shipments will be received only on Mondays, Wednesdays, and Fridays for Fort Worth, on account of no connection at DeLeon on the days mentioned.

PEANUTS BEING PULLED

Since the cold snap the first of the week farmers have begun in earnest the work of harvesting their peanuts. A few had thrashed even before that, among them being N. V. Jennis and W. H. Davidson. The latter is said to be making about twenty-one bushels, a good yield for the year. We have not heard as to the average yield as yet. However considering the dry we ther, the peanuts are going to be a good proposition, and the best thing we could have for a money crop.

YOUR BOY'S WISH

for future wealth and greatness may be gratified, if you, Mr. Parent, will give him the proper training in his early years. Open a Bank Account in his own name; even though it is a small beginning, remember that some of the World's Financiers date their success from that FIRST DEPOSIT IN THE BANK.
Let YOUR BOY begin with a saving account at OUR BANK.

It is better to have rain and a norther than not to have rain at all.

The railroads are asking the farmers to ship out what extra grain they mean to ship. Soon a shortage of cars will be felt and it will be a task to get some commodities transported.

Clyde is shipping sweet potatoes through its potato association, and also preparing for storing the yam that the town claims is making it famous. Even Cross Plains yams are hard to beat.

Last week one could hardly believe that by Monday overcoats and winter underclothes would become necessary for one's comfort, nor could one on Monday conceive of how three days prior ice and cold drinks were so timely.

Peanuts are being harvested and cotton is almost gone. If we had have had all coons up one tree this year, and that tree had have been a cotton stalk, the proposition would hot have held up. Diversification will save the day.

Certainly we have no people who have fallen to what is said to be a more or less general report that the government has been asking folk to can fruits and vegetables in order to get them in convenient form to seize and ship to the allies. There is absolutely not a thing to base such a report on.

Governor Hobby made his first speech, since becoming Governor, at the Tyler fair a few days ago. In this address he said he was going to do his best to conduct the affairs of the State economically and efficiently to the end that the National Government may be helped to win the war. He refuses to make any trades with politicians, so he says. He will make the opening address at the State fair to-morrow. He will not make many speeches.

The Second Liberty Loan bond sale is now on in full blast. The man that has the money must buy them. Certainly if our young men can go uncomplainingly and fight our fight, can we not invest our wealth in these bonds to help them? The money that has been made during the war because of the war, and nearly every business that has prospered in an unusual degree has done so because of the war,— will be ill-gotten if not used to help our boys, for whom it is impossible to do too much. Buy bonds and learn frugality, and help defeat the kaiser.

Germany's Lost Hope of Victory

Germany's first hope was for military victory on land. This hope has been lost. The English, French and Italian have been on a successful offensive for many months. The Germans and Austrians have fought on the defensive for more than a year except in Russia. Here their gains have been by reason of the internal conditions of Rustia and is not a therefore a military victory. Germany confessed her lost hope of victory on land when she declared unrestricted submarine warfare. She would not have drawn United States into the war by the unrestricted submarine warefare if she had not lost hope of victory by her army. The U-boat was the hope last April and since that time has been Germany's one hope.

But what of her hope now? The evident desire for peace on the part of Germany before she has attained her aims in the war is proof of her lost hope of success. Germany would not have acceded to the Pope's peace terms if she had had hopes of victory.

The submarine menace, while not overcome, has been reduced from its high mark of fifty-five vessels one week last April to thirteen vessels last week.

Mr. George Geothien, progressive member of the Reichtag, is quoted in a Berlin dispatch as having said, "There was no hope of crushing Germany's enemies on land". He said, "As for the submarine campaign, seven million tons of shipping have been sunk but no disposition toward peace on the part of England was discernible". He said America cannot be forced to make peace. When a high official of Germany makes such statements as these we have good evidence that Germany has lost hope of victory.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. —— had us get Cardui. . . . I began improving, and it cured me. I know, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

Modern Conveniences

Your family deserves all the advantages your neighbors provide for theirs, especially when it comes to providing cisterns or zinc cisterns that will give you pure drinking water. Regardless of the kind of water you now have, you owe it to yourself and your family to provide good cistern water.

"TROUBLE?" Phone us; we'll send a man at once, and our prices are reasonable. If anything goes wrong with your piping, windmill, gas engine, etc., phone us. We also grind your corn, wheat mail, etc., any day. Have your wheat ground into graham or whole-wheat flour. Uncle Sam recommends this flour as a war time economy, and for your health.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. —— had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

MORRIS OIL WELL

Santa Anna, Texas, October 6.—The Magnolia Petroleum Company's well No. 2 on the Morris ranch, north of this place, is gradually drilling itself in and is now flowing 100 barrels per day. This well was drilled below 3,400 feet with 500 feet of open hole below the last casing set. The drill was pulled out as soon as the oil sand was struck and oil began to flow over the derrick, the sand being only drilled about eight inches. The well was capped and oil turned into tanks. During the first fifteen hours the well flowed twenty-eight barrels into the tanks. The next twenty-four hours it flowed eighty-three barrels, the next twenty-four hours eighty-seven barrels and the production has now reached 100 barrels per day. The well is expected to reach several hundred barrels by the time it gets itself drilled in to full capacity.

Oil men are coming to this section to investigate the field. The Empire Oil and Gas Company has started a 22-inch well on the Fuller tract and expects to drill a test to 4,500 feet. Cameron-Robey Oil Company is drilling on the Schirmacher lease. Other wells are expected to start in the near future and several would already be started but for the trouble in getting supplies.

GIN DAYS NEXT WEEK

We will gin only on Wednesday and Saturday next week.

DINNER ON GROUND SUNDAY

All who may have dinner to spread at the Baptist church on Sunday and who can't deliver same, will please notify me and I will see that it is taken care of.

D. M. Strickland, Pastor.

INTRACITY RATE CASE CONTINUED

Application of Railroads Before Commission to Be Taken Up Nov. 12.

Austin.—By agreement of interested parties the railroad commission continued until the next term, Nov. 12, the application of the railroads for a material advance or cancellation of the present intracity freight charges. This was brought about after a conference of shippers and railroad men. A joint committee has been selected to take up the matter and see if it can be adjusted in time for approval at the next hearing.

The railroads have complained that the intracity movements have been wasting cars and that something should be done to stop the waste in the interest of conservation of transportation facilities, as demanded by those who would win the war. The intracity rates are much higher than switching charges and the railroads were not complaining about inadequacy of rates as much as they were of the careless and wasteful methods used in handling such shipments.

SOUTH-CENTRAL CROPS POOR.

Drouth Damage More Severe in South and West Texas, Except in Few Sections.

Dallas—According to reports reaching here from Williamson and Travis counties there are worse crop conditions than in Bell and other counties lying east and north. For the drouth increased in its intensity as it took its course south and west. A third of a cotton crop, no corn crop and perhaps a half small grain crop in Bell is what is claimed by the people of that county. In the adjoining county of Williamson the conditions are not so good. In Travis, Hays, Comal and other counties following down the Missouri, Kansas & Texas railroad the intensity of the drouth increased and the damage done has been greater.

In Tom Green county some of the valleys along the Concho river are irrigated, hence the crops raised are about the normal crops raised in the locality. Along the Rio Grande river, where irrigation is employed in crop raising, the farmers are more prosperous, perhaps, than they have ever been.

COTTON LOSES 452,000 BALES.

According to Census Report Entire Yield is Estimated at 12,047,000 Bales—Insect Damage Big.

Washington.—Deterioration during September over almost the entire cotton belt caused a loss of 452,000 bales in the prospective production of cotton, and leaves the 1917 crop at 12,047,000 equivalent 500-pound bales. The department of agriculture in its final condition report of the season announced a decline of 7.9 points in cotton's condition during the month, caused principally by boll worms and weevils. Cool weather, drouth, shedding, wilt, blight, lack of potash in fertilizer, and in the extreme eastern belt storm damage also caused loss.

"In northern and eastern Texas, Oklahoma and Arkansas bollworms caused serious damage," the report says. "In the entire weevil-infested area, now embracing all or portions of the states of Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Florida and Georgia, great damage resulted from the weevil activity. Rains fell over much of the drouth-stricken section of Texas and plant growth was stimulated, but a matured top crop in that section is extremely doubtful."

98 County Election Returns Missing.

Austin.—Churchill J. Bartlett, secretary of state, has sent letters to the county judges of 98 counties which failed to submit returns from the August election at which the conservation amendment to the constitution was adopted. These counties filed no returns and offered no explanation. The secretary of state asks the judges to advise him why the returns were not sent in. However, there is no law to make the judges send in the returns, or to even answer the letter of the secretary.

Hobby Signs Bills and Resolutions.

Austin.—Governor Hobby has signed a number of bills and minor resolutions. Most bills were local in effect, providing road laws for Trinity, Coleman, Newton, Llano, Titus, Red River and Madison counties and school districts at Ben Wheeler and Oakland. Likewise the bill providing that the new state office building shall house the general land office, department of agriculture and such other departments as the governor may designate.

Fraternal Workers to Meet in Dallas

Dallas.—The annual meeting of the Texas Fraternal congress will be held in Dallas Nov. 20 and 21. The time and place of the meeting was decided at a meeting of the executive meeting here. The Texas Fraternal congress has been organized 16 years and is composed of about 20 different beneficiary orders operating in Texas. The last two annual meetings of the congress were held at San Antonio. Special railroad rates will be obtained.

SPECIAL

For Trades Day

Ladies' TRIMMED HATS

For Saturday and Trades Day we are going to put our entire stock of ladies' hats on sale, at one-third off of regular price. Our stock consists of velvet, trimmed in the latest shapes and styles, sport and felt hats of all kinds---this offer good for Saturday and Trades Day only.

BUSTER BROWN SHOES

With every pair of Buster Brown Shoes we will give one book satchel and one ruler. Besides the gifts that go with each pair, it is a wonderful value in the way of a school shoe. The manufacturer of Buster Brown Shoes appreciates the fact that in the purchase of school shoes you are investing your money where service counts. You will find them built for durability as well as comfort and ease with which the kiddies wear them.

A Buster Brown watch with every boy's suit.

Our stock of groceries is complete. Just received a car of flour and feed.

B. L. BOYDSTUN

"Where It Pays to Buy"

YOU ARE CORDIALLY INVITED

To visit our interesting and instructive exhibit at the Texas State fair, Dallas, Louisiana State fair, Shreveport, Cotton Palace, Waco, East Texas fair, Tyler and Pittsburg fair, Pittsburg. We invite all our former students, their friends and those interested in America's largest business training school to visit our booth in the EXposition Building, and see our splendid exhibit which has won first honors at the state fairs. Our exhibit will be interesting and educational to old and young. We will have demonstrations on some of the most modern office appliances which are taught in our school. Speed demonstration in Byrne Combination Shorthand, a system written either with a pencil or typewriter, exhibit of student's work in Bookkeeping, Business Training Shorthand, Typewriting, Business Administration and Finance, Penmanship, Cotton Classing and Telegraphy. A visit to our exhibit will show you why we have the largest school of the kind in America, you will see clearly why it is that we can make you a more practical and thorough stenographer in three and one-half months with the famous Byrne Shorthand than other schools teaching other systems can in seven months, and why it is with our original copywrited system of Bookkeeping and Business Training we can give you both a course of Bookkeeping and Business Training in less time than other schools teaching other systems can give you a mere theoretical course of Bookkeeping, and by it is that our practical department of Telegraphy, the largest in the United States, with a part of the Cotton Belt train wire, giving every message in our students every station blank and record book that is used by the Western Union or Cotton Belt Railroad, turns out practical operators and station men; and that we place our graduates into good positions, also investigate the practical manner in which we teach cotton classing.

From present indications we will enroll three thousand students this year.

Write to day for catalogue and read what we guarantee to give you, what our former students say we have given them, and what their employers say of their efficiency. Get facts, address Tyler Commercial College, Tyler, Texas.

NOT A YELLOW JOURNAL

We are very much dissapointed in that on account of a two weeks' delay in the shipment of [illegible] to call and pay up. This notice is in news stock we are forced, if we intend [illegible] as we have no favorites, get out the paper on time, to go to press using poster stock. However, this is not a yellow journal.

SICKNESS AT CROSS CUT

Cross Cut is suffering from another siege of fever and other diseases. Mr. and Mrs. Edgar Prater's baby has been very low for some time and its life is all but despaired of. One of Ben Gun's children has been quite ill. One of John Mann's little girls has recovered from a spell of typhoid fever. Also one of the Triplett boys is sick.

PAY UP

All parties who know themselves to be indebted to us either by note or open account are hereby notified that we want the money. Beginning Oct. 1st, our books are closed, don't ask us to charge it.

C. S. Boyles.

Bevo

—the home drink

Besides its popularity at soda stands, fountains and restaurants, *Bevo* has found a welcome place in the home. A family beverage—a guest offering—a table drink that goes perfectly with all food.

As a suggestion for a tasty supper—Sweet red or green peppers stuffed with cream cheese and chopped nuts or olives, served on lettuce leaves. French dressing. Cold meat. Toasted crackers. Bevo for everyone. A beverage that tastes like no other soft drink. Pure, delicious and nutritious.

Bevo—the all-year-'round soft drink.

ENLISTMENT PROGRAM

A large crowd attended the Enlistment Day program at the Baptist church on Sunday. The dinner was what one usually finds in West Texas, and that means there was plenty and to spare, and too good for a prince of the house of Hohenzollern. One of the best features of the day was two addresses by Paul Watanabe, a Japanese student at Simmons, who is studying for the ministry and preparing for missionary work in Japan. Callahan County Association has taken on itself the education of Mr. Watanabe at Simmons. At Baird at the Fiftn Snnday meeting more than forty-five dollars was given towards his education here on Sunday something more than eighteen dollars was given.

Mrs. G. A Mitchell of east of town last week subscribed for the Review and Dallas News, she being a new subscriber to both.

Contented Hens

a first defense against high living costs.
