ENDS EXISTENCE

Prominent Erath County Ranchman Ends His Own Life in Fit of Despondency.

Shortly before the noon hour last Saturday at Stephenville, Wm. S. Young, a well known citizen of the county, took his own life by shooting himself twice through the heart with a double action 41 calibre colts revolver.

The act was committed at the home of Mr. and Mrs. Curly Jones, near Tarleton college in Stephenville, who were close friends of Mr. Young, with whom he had boarded a number of years while on the Lee Young ranch near Alexander, and with whom a favorite niece of his was boarding at the time of his death.

Several days previous Mr. Young had leased the ranch and disposed of his cattle interests to J. H. Cage and gone to Stephenville and was spending a few days at the home of Mr. Jones. It appears that his rash act was deliberately decided upon as he left a note in which he said:

"The act is my own. No one is responsible for it. I have all of life I care for or want. Wm. S. Young. March 10th, 1906."

He called to Mrs. Jones and told her he was going to kill himself and immediately placed the revolver to his breast. Mrs. Jones frantically plead with him not to do so and when he insisted that he was going to do so, even went so far as to ask him to leave the premises. But he appeared determined and placed the gun more firmly over his heart and as Mrs. Jones ran screaming out of the door with her hands over her ears, she heard the muffled report that meant death to Will Young, followed in quick succession by another.

It was found that both bullets had pierced his heart and each passed entirely through the body and lodged in the walls of the room. The body fell forward on its face and it is apparent that the second shot was caused by the death grip of the finger muscles on the trigger as the bullet struck high up on the wall near the ceiling.

The deceased was forty-eight years of age, unmarried and was a brother to Judge Lee Young and Attorney A. P. Young of Stephenville. He was a man of somewhat melancholy disposition, yet friendly to everyone, much liked by those who knew him and possessed of a high sense of honor. Mr. Young was a member of the Independent Order of Odd Fellows, and was laid to rest in the cemetery at Stephenville Sunday according to the burial rights of that body. A number of Odd Fellows from Dublin attended the funeral.

SOME WORDS FROM JUDGE YOUNG.

I believe it will be best to say a few words about my brother, William S. Young, and the causes which led to his death. This will gratify the interest of those who knew him, and avoid the necessity for many questions which will all be painful to me and too others.

William S. Young was born in Brazoria county, Texas, near Sandy Point on my father's plantation, on Oct. 23rd, 1857.

Those who knew him well will know that there was never a more honorable man living. He was also a man of infinite tenderness, and all children instinctively loved him. Many not related to him called him "Uncle Will."

His business affairs were in good condition. He was not a rich man, but had a good property and was not at any time within the past thirteen years, in need of money. In fact he had some money in bank at the time of his death.

I attribute his death to mental derangement which was caused by ill health. For many years—in fact since he was about fifteen years old—he has been addicted to the habit of smoking cigarettes. In course of time this had so grown upon him that he was compelled to smoke incessantly. He waked up at night to smoke cigarettes, and was not able to quit the habit. This produced trouble with his heart and lungs. Finally he had what is known as "tobacco heart" and his lungs failed him. He coughed incessantly. In this condition he used strychnine to support the heart's action, and morphine, I am told, to enable him to sleep. He suffered terribly from insomnia. Mr. Barney Cage, who was with him for some time immediately prior to his death, says he did not sleep on an average of two hours of the twenty-four. In this condition he lost his mental balance and committed suicide.

In many cases there are many causes assigned for human action, some true and some untrue, but I am quite sure these are the facts. It is evident also that for some time he has been using alcoholic liquors, but this also grew out of his condition, which was brought about by cigarette smoking. Many things done by him showed mental derangement, and had I known of them medical treatment might have afforded relief. He was devoted to me, but for some time had avoided me, because he did not wish me to know of his use of liquor. Thus it happened that I did not know, and no one told me the things which I feel that they should have told me.—Lee Young.

Woman Burned to Death.

Mrs. E. C. Higginbotham, residing about one and a half miles south of Duffau, was so fearfully burned last Tuesday afternoon, that she died in great agony Wednesday morning.

Mrs. Higginbotham was making soap in the yard Tuesday afternoon and while so engaged her dress was blown into the fire and at once enveloped her in a flame. Mr. Higginbotham and a neighbor were at work within a hundred yards or more and were at once attracted by the screams of the unfortunate woman, but before they could reach her and extinguish the flames she was so terribly burned that death followed about 3 o'clock the succeeding morning. The remains were interred in the cemetery at Duffau Wednesday afternoon.

The deceased was about forty years of age and leaves a husband and four children, whose ages range from five to sixteen years.

Orient Construction is Swift.

The construction crew of the Kansas City, Mexico & Orient railway, finished laying steel north of Sweetwater to the town of Carney last Friday and side tracks are now being put in. When this is completed the construction crew will return to Sweetwater to begin work on the San Angelo division. Another crew is laying track near the Texas line in Oklahoma and will reach Carney this fall. The town is nine months old and has a population of four hundred.

Indian Chief Marries Dutch Widow.

"American Horse" an Iroquois Indian chief, with all his feathers, moccasins, tomahawks (made in Pittsburg) and deer skin pants, went across the water last year as part of a show. There was an Indian village with scalp dances, war dances and other scenes popularly believed in England and the continent to be common in Buffalo and other "frontier American states."

The show was at The Hague in Holland a week. Among the first day visitors was Mrs. Johanna Elizabeth von Dommelen, a pretty dutch widow, whose husband had left her single and with much good coin of the realm of Wilhelmina.

The second day Johanna Elizabeth was introduced to American Horse. The third day American Horse showed her around the camp. The fourth day Johanna Elizabeth took American Horse around The Hague in a carriage. The fifth day American Horse took possession of Johanna Elizabeth's heart and they were engaged.

American Horse is a big buck, good looking for an Indian, and pretty smooth, even if he can't read or write. The widow's relatives were given a look into the arrangements and there was no objection. American Horse suggested minister right away, but they have a slow Dutch way in Holland of standing up for a two weeks' notice of coming marriage. So the redskin and Johanna and Johanna's sister sailed across to England and the wedding took place in London with St. Joseph, Mich., speed.

American Horse's home is in Caughanwaga, an Indian village on the Canadian side of Lake Erie. The chief has a farm and a log house, and the Dutch widow is now there.

Taft for Supreme Court.

President Roosevelt has decided to appoint William Taft of Ohio, now secretary of war, to the next vacancy in the United States supreme court. That vacancy is to be created by the voluntary retirement of Associate Justice Henry B. Brown of Michigan, who was appointed in 1890 by President Harrison. When Chief Justice Fuller retires, provided it is during the administration of President Roosevelt, Mr. Taft will be promoted to his exalted position.

Prohibition Election.

election in Fannin county prohibition victory, the 5,288 for and 1,538 against.

The vote of two years ago was 5,551 for, with a prohibition majority of 1,787.

The Kaufman county election last Saturday resulted in a pro majority of 735, vote being 2,237 pro and 1,502 anti, this being a decrease in the prohibition majority of two years ago.

The local option election in Bell county last Saturday resulted in a victory for the antis by a majority now figured at 488. Four years ago the antis carried the county by 900 and two years later the pros won by 481. The election Saturday was one of the hardest fought contests in Texas.

The local option election last Saturday in the Hico precinct resulted in a victory for prohibition by a majority of 2 2, the vote being as follows: Hico for prohibition 202, against 242; Fairy for 82 against 20, total for 284, against 262. We understand the election will be contested by the antis on the ground that the polls at Fairy were closed before the legal hour and that several voters were thus not permitted to register their will. Under the Terrell election law polls are to remain open from 8 a. m. until 7 p. m., instead of from 7 until 6 as formerly and the Fairy box was closed at 6 o'clock.

A Safe Cough Remedy for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by Overton Drug Co.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" *cures* all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address *free*, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of.

The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONESTY on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Novel Announcement of Candidate.

Here's the way a man in South Carolina announced himself for office. "To the good people of Edgewood. The wind bloweth where it listeth, and no man can tell whence it comes or whither it goeth, but I am not that kind of a cat. I am a Ben Tillman cat, and if elected county commissioner, propose to reform, beautify, adorn resusictate, rejuvenate and rehabilitate Edgewood county from the edge of the water to the tops of the rocks. I am a laboring man and haul wood. If not elected I can haul more wood. Could say more, but I am a man of few words and full of trouble."

Navy Preparing for Trouble in China.

Like the war department, the navy department these days is making active preparations for trouble in China, though just what is being done is not told by the officers of the latter department. Instructions were sent last week from Washington to Rear Admiral Train, commanding the American fleet on the Asiatic station, directing the course which he will follow in the event of trouble, and in the work of preparation or a row. These instructions are held as confidential by the navy department and the details have not been made public.

If there is trouble the navy's work will probably be confined to patroling the large rivers of China. It is likely, however, that marines will be landed from some of the big vessels. The big ships cannot go up the rivers and the work on this line will be done by small gunboats.

The cause of the change given by Mr. Fickinger is lack of harmony in the management of the lines in this state.

Saturday afternoon a yellow negro from Kansas was standing on the streets of Clarendon when two young ladies attempted to pass. The negro refused to give them the side walk and forced one of the young ladies to walk in the street to avoid him. At the same time he made some remark about that being the way the colored population treated the white people of his state. That night a committee of whites waited on the negro and requested him to make himself scarce, punctuating their remarks with a blacksnake. The negro was given about sixty or seventy-five lashes and was glad to get off with only a badly lacerated back.

Count Boni Is Bogus.

GRUESOME FIND

Fourteen Corpses Found in House of a Butcher who Sold Human Flesh.

A New York dispatch of the 8th says:

"A dispatch received here this morning from Boenos Ayres, Brazil, gives the shocking information that the shop of Jose Madera, a butcher there, was raided last night and the corpses of fourteen human beings found therein. Great indignation prevailed as a result of this gruesome find and a mob attempted to lynch the brute incarnate, but were prevented by the police.

"Madera is charged with many murders, together with having disposed of the flesh of his victims by selling it for pork to the inhabitants of Boenos Ayres, and a discovery of this fact led to the raid last night and the finding of the fourteen corpses."

Post Buys Big West Texas Ranch.

C. W. Post, owner of the Postum Cereal Co. of Battle Creek, Mich., manufacturers of Postum and Grape-Nuts, has recently purchased what is known as the Currycomb ranch of 112,000 acres located in Garza, Llano and Crosby counties. The price paid for the property is said to have been approximately $400,000. The stock of about eight thousand head of cattle on the ranch will remain the property of the former syndicate, to whom Mr. Post has temporarily leased the property. Mr. Post formerly resided in Ft. Worth and fifteen years ago was a poor man and was working for small wages in that city. He conceived the Postum and Grape-Nuts idea, went to Battle Creek and began on a small scale to manufacture these foods and is now many times a millionaire.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peora St., Chicago. "Two years ago during a political campaign I caught cold after being heated, which irritated my throat and I was finally compelled to stop as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found next morning the inflamation had entirely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by Overton Drug Co.

How dear to our heart is the face of a dollar, when some kind subscriber presents it to view; it may come today or it may come tomorrow, it may come from others or it may come from you. The big silvery dollar, the round silvery dollar, dear delinquent subscriber presents it to view. A round silver dollar we hail as a treasure, for often expenses o'erwhelm us with woe, we count it a source of exquisite pleasure and yearn for it fondly wherever we go. How ardent we'd seize it—that lovely silver dollar, "the root of all evil," 'tis commonly named; loving money, the penniless printer can hardly be blamed. The penniless printer, the hard working printer, keeps sending out papers that interest you; so hand in your dollar, the slick shining dollar. Dear readers .will you now present it to view.—Exchange.

It is now given out on the highest authority that the Texas Central shops will not be removed from Walnut Springs but that the plant there will be enlarged to meet the demands brought about by the increased amount of work now necessary to be done at the shops. It is also stated that the contemplated improvements at Walnut have been greatly over estimated in recent reports. We believe Dublin made a big mistake in not landing the shops when an opportunity was offered but this is past now and we may as well begin to look out for the other good things that opportunity may present.

The latest enterprise for progressive Brownwood is the proposition to build, equip and operate an electrical or gasoline motor street car service in that city. J. M. Robertson, a capitalist of Dallas, is one of the prime movers in the enterprise and a petition is now before the Brownwood city council, askng for a franchise. The granting by the franchise is asked under consideration of the company beginning work within six months and completing the system within eighteen months.

The 1906 tax levy for Hamilton county is as follows: County advalorem 25 cents on the one hundred dollars valuation, road and bridge 15 cents, special road 10 cents, jail 5 cents, total 55 cents, making the state and county total tax 93 cents on the one hundred dollar valuation. This is ten cents less on the hundred than the Erath county levy. It is three cents less than the Hamilton county tax of last year by reason of the bridge tax of last year being omitted this year.

A Russian shopkeeper has hit upon this form of advertisement: "The reason why I have hitherto been able to sell my goods so much cheaper than anybody else is that I am a bachelor and do not need to make a profit for the maintenane of a wife and children. It is now my duty to inform the public that this advantage will shortly be withdrawn from them, as I am about to be married. They will therefore do well to make their purchases at once at the old rates."

In the notice last week calling attention to the announcement of C. P. Burnett, familiarly known throughout this section as "Lum" Burnett, there appeared two typographical errors. The printers made us say C. C. where the initials should have been C. P. and the date of his settlement in the locality was given as 1885 instead of 1857. All old timers would naturally know the latter was a mistake but we are glad to make the corrections.

R. B. Moore returned Sunday from a trip to Kent county, where he purchased another quantity of 2,060 acres of land in four seperate tracts. Mr. Moore's holdings now in the west comprise but about three thousand acres as he has quite lately sold or exchanged a considerable quantity of property there for land hereabouts. Mr. Moore reports considerable rain in that section during the past few weeks.

The followng shipments of cattle were received in the Ft. Worth market last week: Thirty head from Ross D. Goodson and thirty head from E. B. Morrison at Dublin, thirty-one head from W. H. Green Jr., at Eastland, thirty-two head from T. M. Perry at Brownwood, forty-two head from G. N. Karnes at Hico and thirty-nine head from Charles Long at Hico.

The Santa Fe is casting about for a suitable location with plenty of room for a new passenger station in Brownwood. It is said that the new structure is to be a handsome one built after the old mission type and will be fitted with all modern conveniences and sufficient in capacity to serve the growing city of Brownwood for many years to come.

Mr. McDonald of Fleming, who with his family and been quarantined for several weeks with several cases of small pox, was in town Monday and said that he felt like a bird out of a cage as he didn't like the idea of being quarantined. He reports all getting along nicely.—Comanche Visitor.

Glen Rose Interurban Proposition.

A late special from Cleburne says, Prof. J. E. Wallace was heard from at Durant today, and stated that he was in touch with the promoters of the interurban line which is to run from Lawton to Dallas, and that he thought with a little effort the promoters would extend the line on to Cleburne and Glen Rose. There is some talk of other people building a line to Glen Rose from Cleburne though nothing definite has been given out about the matter.

POWER FROM THE BRAZOS.

In regard to the interurban from Cleburne to Glen Rose mentioned in this issue the Herald suggests to the promoters that they look into the possibility of getting power by damming the Brazos at the rock crossing. There is a natural fall of several feet just below the ford, the bed of the river is of solid rock and the banks are high, thus affording ideal conditions for such an enterprise. Power generated by dams is conveyed over one hundred miles in many instances, and here we have Ft. Worth about forty-five miles, Dallas seventy-five miles and Waco seventy-five miles, not to mention Cleburne, Hillsboro and Waxahachie, all of which have manufacturing enterprises that want cheap power. It looks as though it will pay capital to investigate this.—Glen Rose Herald.

New Bank at Hamilton.

A new bank has been organized at Hamilton under the new state banking law to be known as the Hamilton Bank & Trust Co. The capital stock is placed at $50,000 and John L. Spurlin has been elected president, C. W. Cotton and C. E. Horton vice-presidents, John Mark Williams cashier, J. Edgar Moore assistant cashier and A. R. Eidson attorney. The gentlemen also compose the directory in company with W. M. Moore, Mark Logan, B. F. Scroggin, F. C. Williams, B. F. Watson, J. E. Williams, G. H. Boynton, Fritz Schrank, J. A. McDurmitt, Dr. J. B. Winn, J. M. Livingston and J. A. Fidson. The bank will open for business the latter part of this week.

Texas Central Excursions.

Account cattlemen's convention at Dallas March 18th to 24th, tickets on sale March 17th to 22nd inclusive, limited to March 25th for return at $4.40 for the round trip.

Fire Arms for Fire Alarms.

While Mrs. Arthur Backus was coming along West Twohig avenue in front of the Nimriz House early Thursday morning to see where the fire was, a 38-caliber bullet struck her on the right side and penetrated through her clothes to the flesh. Fortunately the bullet had about spent its self and she received no serious injury. The reckless shooting announcing fires is yet going to cause serious damage to some one.—San Angelo Standard.

Look Out for the Boy.

S. D. Naylor, who lives five miles north of Strawn on the Palo Pinto road, wants information as to the whereabouts of his son, Holt Naylor, who left home on Feb. 2nd. The boy is sixteen years old, has black eyes, weighs about 125 pounds. Any information will be thankfully received by Mr. Naylor.

Killing at San Saba.

Last Saturday night about 10:20 o'clock R. A. (Pat) Carroll was shot twice through the body from which he died in about seven minutes. J. C. Woodward, constable of precinct one, was locked up, charged with the shooting on Saturday night, and Monday evening E. W. Yardley, a barber, was arrested in connection with the killing. The statement of the killing as given at the inquest was that J. C. Woodward and E. W. Yardley were passing up the side walk going home from the show, when they heard boisterous and threatening language at the Club house. Upon reaching the place it appears that Carroll and another party were having some words. The constable asked them to stop it. Carroll replied that he was not raising any trouble but that he could raise some mighty quick. Other words passed when Pat raised his Winchester and fired, Woodward reached for his pistol and while getting it Pat fired again, the ball passing through the constable's hat. Then followed a fusilade of shots, two of which passed through his arm prevented him from further shooting and he turned and ran down the sidewalk about fifty yards, falling dead The examining trial is set for Friday morning, when the details of the sad affair will be more fully brought out. E. W. Yardley formerly lived in Brownwood where he conducted a barber shop.—San Saba Star, March 7.

The star route postal service from Patillo, Erath county, to Santo in Palo Pinto county, has been discontinued and the mail for Patillo will now go to Lipan in Hood county.

The contract for carrying the mail between Hamilton and Hico, for the four years, beginning July 1st next, has been awarded to W. T. Cropper at $487.50 per year. His was the lowest bid.

The Walnut Springs Hustler notes the presence in Walnut last week of Jim Durham of Bridgeport, who has considerable lumber interests at Walnut. Mr. Durham is well known in Dublin, having been an old time citizen here.

Mr. and Mrs. E. C. Edmonds left Friday for Ft. Worth, where they will spend several days with their parents, Mr. and Mrs. G. H. Connell, of that city and other relatives and friends at Dublin before returning to Eastland.—Eastland Chronicle, March 9th.

Rural postal route number three has been authorized out of De Leon with James Whisenant carrier and Marvin Carr substitute and Andrew H. Drummond has been appointed postmaster at Fleming in Comanche county, to take the place of J. K. Connor, resigned.

An Old Folks Singing has been announced to occur at Shady Grove, four miles south of Dublin, on the fifth Sunday in April. "All are requested to bring their Christian Harmonies and Sacerd Harps" and a special invitation is extended to old brother Miller of Bosque county.

J. H. Neel and wife came in Thursday evening of last week from Carlsbad and left on the following morning's train for Hamilton, where they will make their home. Mr. Neel has been engaged with a Carlsbad newspaper for two years past and goes to Hamilton to take a place with the Herald.

Congressman Jack Beall of the Bosque and Hill county district has succeeded in getting an increase in the pensions of four Mexican war veterans in his district. Capt. J. B. Barry and James Hughes of Walnut Springs will each receive $50 a month, and J. M. Love of Milford and W. C. Short of Whitney $30 a month each.

Local nimrods continue now and then to bag a few ducks at the water works tank. The birds are now making their annual pilgrimage north and an occasional bunch stop for a rest and invariably make trouble for themselves and baked meat for the nimrods. Lee Pipes succeeded in getting two last Tuesday morning.

We also have for sale a large quantity of heavy paper suitable for placing under carpets or matting or on walls before canvassing. Also several hundred pounds of babitt metal, ranging in price from eight cents to fifteen cents a pound, according to quality and quantity desired.

F. A. Nott, who has for some months been proprietor of the Ideal Steam Laundry and who has built up the business of that institution wonderfully, will shortly leave for west Texas to establish a business in some of the new towns of that section. As stated last week he has disposed of the laundry here to a Weatherford concern.

The Erath county tax levy, as made by the recent session of the commissioners court is as follows: Road and bridge fund 15 cents on the one hundred dollars valuation, general county fund 25 cents, court house 20 cents, jail fund 5 cents; total 65 cents on the one hundred dollars, this makes the total county and state tax $1.03 on the one hundred dollars.

SLEEP DESTROYER

The Old Fashioned Coffee.

She suffered from nervousness by day and sleeplessness by night.

"Up to three years ago," writes a young woman, "I was in the habit of drinking coffee freely and did not realize that it was injuring my health till I was suddenly made the victim of nervous headaches so violent that I was compelled to give up household activities and stay in bed much of the time. Then insomnia came upon me and the wretchedness of sleepless nights was added to the agony of painful days. "This lasted till a year ago, when I was persuaded by a friend to give up coffee entirely and use Postum Food Coffee. The result was, in less than a week I began to feel the change for the better, my nerves grew stronger and I began to sleep a little. Day by day the improvement continued and in a short time, I was restored to health. My headaches left me, the nervousness passed away entirely, and I enjoy good, sound sleep every night.

"This is what I owe to Postum and I feel it but right to tell you of it." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in packages.

Hamilton's Railroad Prospects.

The Hamilton railroad proposition is now at a stand still. This condition of affairs is due to the slow progress being made in the work of securing stock subscriptions for the organization of the new company. Where an undertaking of this kind is forced upon a few men and the general public standing back when their assistance is needed, it is an extremely uphill business to bring about success. This, however, is unfortunately the condition of affairs here now as regards the new railroad, although the project has not been by any means abandoned.

A prominent railway official spent several days here last week going over the matter with our business men, and while no particular importance is attached to his visit the belief is general that one of the big trunk lines of the state is interested in the project and is considering the matter of the practicability of taking up the project and assisting in pushing it to completion.

Still another official of one of the connecting lines of the Strawn-Hamilton-Temple project communicated with President Spurlin of the Commercial club last night over the long distance telephone asking for a conference with him in St. Louis next Saturday. Mr. Spurlin will meet him as requested but the object of the conference was not given out. As the syndicate he represents has heretofore manifested an interest in this matter it is presumed that he desires to further discuss the Hamilton north and south line of railroad—Hamilton Rustler, March 6.

Estate of Governor Hogg.

The estate left by the late ex-governor James S. Hogg is estimated to be worth about $100,000. The executors named in the will are Will C. Hogg of Houston, Henry B. Marsh of Smith county and James H. Robertson of Austin. The suit filed in behalf of ex-governor Hogg, in which his children joined against the International and Great Northern railway, for $100,000, is set for this week in the district court at Houston. The suit is the outgrowth of injuries sustained by the deceased while traveling from Anchor to Houston. The passenger was bumped into by a freight and he received hurts to his back which it is alleged produced his dropsical condition.

Mrs. Sones has been spending several days with the family of Carr Lancaster, who are sick.

Rev. U. J. Morton and Mrs. Morton were in Dublin on Thursday of last week. Mrs. Morton has about recovered the use of her eye, which has been bothering her for several months.

The following delegates were selected to represent Harbin at the Sunday School convention to meet in Austin: Messrs. Courtney, Spratt, Abernathy and Mrs. Goodner, and Miss Erie Courtney.

R. L. Hickey received word Saturday that his father was much worse, so he left with his family on Sunday morning for Comanche to be at his bedside. He returned Tuesday and reports his father as improved.

The speech at the school house last Friday night by Prof. Sandefer of Stephenville was very, very fine. His arguments for a county superintendent could not possibly be met by any one. In fact, he convinced about every man present, who was not already convinced, that the children of Erath county need a good man to superintend their schools. Judge Carlton's speech on education was also ably given and much appreciated. Several candidates, who were present at the time, announced. The meeting was dismissed by our Dr. Goodner in a few well chosen words.

Death Sentence Commuted.

The sentence of death passed upon Mrs. Antoinette Tolla, the young Italian woman convicted of killing Joseph Sonta in defense of her honor, was last Friday commuted to seven and one-half years imprisonment by the New Jersey court of pardons. Mrs. Tolla was to have been hanged at Hackensak, N. J., March 12th, after having been given two reprieves. This is the first time the New Jersey court of pardons ever commuted a death sentence to other than life imprisonment.

I will trade English Berkshire or Poland China breed sows for good milk cows. Apple and peach trees at five cents and plums, apricots and grapes at half price for thirty days. Order quickly.—W. H. McKnight.

The local lodge of Odd Fellows at Brownwood will probably erect a lodge building in that city sometime this year to cost between $8,000 and $10,000. The lodge has for a number of years owned one of the most valuable vacant business lots in the city and on this it is intended to build. The lodge has a membership of 155.

Human Leg Found in Shipment.

While D. R. McCann and Frank Lex, packers at a factory at Hartford City, were opening a bale of straw they encountered an old pair of pants, in which there was a portion of a man's leg. A search of the pockets revealed an envelope in which there were five ten dollar bills. The shipment of straw came from the east and the pants, human leg and roll of bills cannot be accounted for.

Old Gun Exploded.

Ardell Flannigan, a boy about twelve years of age who lived at Rosalie, in Red River county, was accidentally killed Friday morning. He was out hunting with an old shot-gun that had not been used in some time and when he attempted to shoot the gun exploded, a part of the breech lock striking him in the center of the forehead, causing death almost instantly. The body was interred in the Rosalie cemetery.

Quick Work of a Western Court.

The record for rapid court work was broken last Tuesday. The grand jury returned four bills of indictment for burglary on that day. Warrants were served, a jury empaneled and the defendants brought into court and put on trial. Convictions were obtained and a verdict of two years given in each case. This beats any court record ever known here before. —Young County News, Graham.

North Carolinian Wanted.

Quite a number of years ago Mr. William Yancey left Yancey county, North Carolina for central Texas, where it is understood he went into the ranching business. For some time his relatives there have heard nothing from him and they are desirous of learning his present whereabouts, if living, or of some of his descendants. Peasants' Superstitions.

Now and then, not often, ghostly appearances or sounds are explained to the peasant's satisfaction. Thus in the county of Durham "Gabriel's hounds" were for long, long years believed to shriek and howl through the air on dark nights and to forebode death to him who heard and saw them. But prosaic modern research proved them to be nothing but flocks of wild geese migrating southward on the approach of winter and choosing dark nights for their journeys. Similarly the ghost of Irbydale, in the Lincolnshire wolds, a goblin who terrified travelers at night with its heartrending cries and who was said to be a witch who had been worried to death by dogs in a long past age, has been shown to be nothing but an owl. On the other hand, no true Cornishman will ever be induced to relinquish the belief that the spirit of King Arthur still haunts the ruins of Tintagel in the shape of a white chough, and assuredly the many English families who possess a white bird of omen, such as that which John Oxenham saw in "Westward Ho," cling firmly to the tradition if not to the belief in it.—London Graphic.

The Will to Die.

Two or three years ago, in a Lancashire town, while a fair was in progress, to the proprietor of a steam roundabout there came a shopkeeper whose wife was lying supposedly at the point of death. "Thou mun stop thy organ," he said. "Why?" asked the other. "Thou mun stop it, I tell tha'. My missus cawn't dee," was the reply, a dialogue for which the writer can vouch.

A clergyman had placed on record a similar instance. Visiting a sick parishioner, he was told by the doctor that the sickroom was full of mourners, assuring the woman that she was about to die. And the woman was dying—from suggestion, though organically there was not the least reason why she should. The clergyman entered the room and cleared out the doleful ones. "You're not going to die," he said. "What! Am I not dying, parson? Then, thank God, I won't!" That woman was well in next to no time and round at the vicarage thanking its master for having saved her life.—St. James' Gazette.

Stropping a Razor.

"The idea that a razor needs frequent grinding or honing is not in keeping with my experience," said a man who shaves himself. "I have a razor that I got ten years ago which has never been out of my possession, never had any other treatment than stropping, and is today the sharpest and best of six. A razor can only be kept in this condition without honing, however, by using a hard strop—that is, one which is rigid instead of flexible and not the kind that makes an arc of a circle when you use it. This latter sort will sharpen a razor for awhile, but it also makes the edge round until at last it ceases to cut. Why do I have six razors? Well, that is to use them in regular turn and give each one of them a rest. I shave every day, which I find the least troublesome method, and if I use the same blade every day it would soon play out. The edge of a razor needs rest, just like every other machine."

Monkeys' Rouge.

"Kamala" is the vernacular name of the red dye produced from the glands of the mature fruit of a tree named "Mallotus philipinensis," which is also called the "monkey face tree" because monkeys paint their faces red by rubbing them with the fruit. Here is a striking instance of the influence of heredity.—Madras Mail.

Observation.

To behold is not necessarily to observe, and the power of comparing and combining is only to be obtained by education. It is much to be regretted that habits of exact observation are not cultivated in our schools. To this deficiency may be traced much of the fallacious reasoning and the false philosophy which prevail.—W. Humboldt.

What He Meant.

Dr. Price—I can't make anything out of that case. His Wife—What? Dr. Price—Oh, don't be foolish! I mean I don't understand it. Of course I'm making money out of it.—London Punch.

The Ways of Men.

Few doctors are willing to take their own medicine. When a lawyer gets into trouble he hastens to hire an attorney, and it is hard for people to admire an artist who paints his own portrait.—Chicago Record-Herald.

His Mission.

Skrawler—I've seen Snippem, the tailor, going up to your studio every day for a week. Is he sitting for you? Dauber—No. He's laying for me.—Cleveland Leader.

He Needed the Money.

"But is an operation absolutely necessary, doctor?"

"Certainly! I've got to have a vacation next month."—Smart Set.

Peacocks' Feathers.

Peacock feathers are said to bring ill luck. The origin of this tradition is interesting. It is found in Palgrave's work on central and east Arabia, where the traveler says that, according to Mohammedan tradition, the peacock opened the wicket of paradise to admit the devil and received a very ample share of the devil's own punishment.

The Law and the Sword.

In all governments there must of necessity be both the law and the sword. Laws without arms would give us not liberty, but licentiousness, and arms without laws would produce not subjection, but slavery.—Colton.

LONDON IDLERS IN VIRGINIA

Dearth of Negro Farm Labor Opens Way For Thousands.

The 30,000 of London's destitute people which are to be brought to Virginia for the purpose of working the farms of the state will not be colonized, according to Commissioner of Agriculture Koiner, who is at the head of the scheme, but will be distributed throughout the state wherever their services are neded by the farmers, says a special dispatch from Richmond, Va., to the St. Louis Post-Dispatch.

The farmers of Virginia heretofore have depended almost exclusively upon the negro labor, but this class of help has in recent years become both undesirable and hard to obtain. Many of the negroes will not work at all during the summer months, and many others are leaving the state for the coal mines of West Virginia and Pennsylvania.

It is only within the last few weeks that Commissioner Koiner's scheme has taken tangible shape. He says that immigration in Virginia must be encouraged or that agricultural pursuits must go to the wall for want of labor to work the farms.

A bill asking for an appropriation of $10,000 will be offered at the approaching session of the legislature to employ agents to be sent not only into Great Britain, but also to Norway, Sweden and Germany, for the purpose of encouraging immigration to Virginia. That bill is also the result of the efforts of Commissioner Koiner.

The commissioner believes that with the appropriation the plan he has formulated will bring at least 30,000 or 40,000 ablebodied men from the slums of London to the farms of Virginia. The agents to be sent abroad will select only the best laborers available. Where it is necessary the men will be given steamship and railway tickets, the cost of which will be collected from them after they have settled in Virginia.

The commissioner proposes to establish a bureau in his department which will act as an employment agency between the farmers in need of hands and the immigrants.

Mr. Koiner has submitted his plans to the lord mayor of London and that official has written to P. A. S. Brine, British vice consul at Richmond, on the subject. Commissioner Koiner hopes to secure the co-operation of foreign officials in the work.

MEMORIAL TO DR. HARPER.

Body of Chicago University President to Lie In a Chapel.

Plans to erect a memorial chapel in which will lie the body of Dr. William R. Harper, late president of Chicago university, took definite form recently at an informal gathering attended by the faculty and alumni of the University of Chicago.

The chapel is to be on the campus at Ellis avenue, opposite Fifty-eighth street, and will accommodate 3,000 persons, says the Chicago Journal. One room is to be dedicated especially to Dr. Harper. In this room his body will be placed as soon as the structure is completed.

The memorial chapel is considered the most fitting monument that could be erected in memory of the university's late president. It was Dr. Harper's wish, expressed to Major H. A. Rust, that he be buried in or near the college campus.

The funds necessary to erect the proposed memorial chapel are to be raised by voluntary contribution. The faculty, which consists of 328 members, will furnish the nucleus, and the alumni, students and general public, it is expected, will furnish the balance. No money will be solicited. It is believed that if it is definitely decided a chapel is a fitting memorial funds will pour in from all parts of the country.

A FREAK HEN.

Queer Fowl's Voice a Cross Between Cackle and Quack.

Willimantic (Conn.) people do not know whether Joseph Lussier has a duck or a hen, says a special dispatch from Derby, Conn., to the New York World. The fowl has the head of a lusty pullet and a few other characteristics of the hen family, but it has the walk, posture and many of the bodily features of a duck. It is eight months old, but hasn't laid any eggs yet.

Its tail is short and stubby, and its legs and feet resemble those of a duck, except that the feet lack the web. It utters a sound that seems to be a cross between the cackle of a hen and the quack of a duck.

The freak fowl eats from the ground like a duck and is an inordinate water drinker, but never has attempted to swim.

Bible Yell Instead of Hymn.

At a special service for children held in the First Methodist Episcopal church in Columbus, Ind., after the regular Sunday school service the Rev. Alfred H. Pitkin dispensed with the usual hymn and led the 200 youngsters in a "Bible yell," says a Columbus (Ind.) dispatch. It was as follows:

Say, my chum, have you seen
Second Timothy, two, fifteen; three, fifteen;
First John one, seven, nine;
Romans eight and sixteen?
First Thessalonians five, twenty-two,
Tells you exactly what to do.

"I do not object to noise if it is made to the glory of God," said the pastor. "There was probably not one person present who did not look up the chapters referred to."

Coin Slot Lamps In Cabs.

Paris taxameter cabs are to be fitted with small electric lamps, which will be at the service of the fare upon his slipping a small coin in the slot. The light will glow about half an hour for each coin.

BOYS

Do you want a horse?

If you want a horse, or a bicycle, gun, a camera, or anything else you set your heart on, do what other boys are doing to get these things—sell

THE SATURDAY EVENING POST

in your town on Friday afternoons and Saturdays. Maybe you think it's a long while to earn enough money to buy what you want. But that all depends on yourself. Some boys make as much as $15 a week; others $2, $3, $5 a week. In our handsome booklet, "Boys Who Make Money," some of our boys tell, in their own way, how they got money for things they had long wanted by selling THE POST. This booklet is free for the asking. We will send along with it, the complete outfit for starting in business, including ten free copies of THE POST. You sell these at 5c a copy, and that furnishes all the money you need for buying further supplies. Besides the money you make each week, we give among other prizes, watches, sweaters, etc. And in addition

$250 in Extra Cash Prizes

each month to boys who make the biggest increase in their sales. Better send us a letter to-day.

The Christian meeting which began at the new church house in the west part of town some ten days ago still continues and it was last night announced would remain open for an indefinite time to come. Evangelist Price Billingsly, who is conducting the meeting, was called away Sunday night to attend a meeting of ministers at Denton and did not return until Thursday morning, consequently there was no service Monday, Tuesday and Wednesday nights. A baptizing was last night announced to occur at one o'clock today at the water works tank, but it is presumed that the occasion will be deferred on account of the severely cold weather today. The meeting of ministers at Denton was called for the purpose of discussing the establishment of a state paper anda conclusion was reached to estabish a weekly religicus newspaper at Dallas to be knowr as the Christian Monitor, the first issue of which would appear about May 1st. The paper is to be launched by a stock company composed of various members of the church throughout Texas.

Tuesday and Wednesday of next week, March 20th and 21st, the national lecturer of the Woman's Christian Temperance Union, Mrs. L. E. Bailey, will be in Dublin, the guest of Mrs. J. H. Wilder. Mrs. Bailey will hold a woman's meeting at the Methodist church Tuesday afternoon at four o'clock, to which every lady in the community is cordially and earnestly invited. Wednesday night she will address the public at the Methodist church and Tuesday night she will lecture at some one of the other churches. We hope our people will avail themselves of the opportunity to hear this well known lecturer.

D. J. Neill of Gorman, state lecturer of the Farmers Union of Texas, was a pleasant caller on the Progress today. Mr. Neil has been lecturing in Bosque county this week and was in Dublin today en route to attend the Hood county meeting at Tolar tomorrow. He reports the the union everywhere in good condition and growing and says that the recent settlement of the friction between the state and national officers will bear good results and not in anyway detract from the excellent standing of either Messrs. Calvin or Pyle, both of whom are and will continue to be great and useful men in the councils of the union.

A gang of Filipino bandits, who had established themselves in the crater of an extinct volcano on the island of Jolo, Philippine Islands, was surrounded and practically annihilated by a detachment of American troops last week. The American loss was fifteen killed and about nine hundred of the outlaws. Many of these were women and children, however, who intermingled with the outlaws in such a manner that they were mown down by the fire from the American guns.

Jesse G. Conner announces this week as a candidate for nomination to succeed himself as justice of the peace in the Dublin precinct, a position which he has honorably, conscientiously and admirably filled during the two years past. Judge Conner is an adept as a dispenser of justice, entirely free from prejudice and in all things cool and calculating. He has no opposition thus far and it is hardly probable under all the circumstances that he will have.

The attention of the religious world has been attracted by the wonderful meeting just closed in Anderson, Ind., by Evangelist Chas. Reign Scoville of the Christian church. The meeting continued about seven weeks and resulted in 1,214 actual additions to the church there. Of this number nearly a thousand were baptized and 318 were adult men. This is said to be the greatest meeting ever held in this country by a single congregation.

Geo. House left last Saturday for Pendletonville, in response to information from his sister, Mrs. John Neal, that it was thought her husband would live but a few hours. Mr. Neal rallied however, and reports from there yesterday are to the effect that he is much improved and will undergo another operation at Temple tomorrow. Mr. House returned home Tuesday.

The annual reunion of the United Confederate Veterans will meet at New Orleans April 25th to the 27th, inclusive. For this occasion the Texas & Pacific road offers a rate of one cent a mile in each direction from all points in Texas to New Orleans and return. Tickets will be sold on April 22nd and 23rd, and from all points east of Big Springs also on the 24th. 44-6t

A petition was circulated in Dublin yesterday by Mrs. Ed Goodman, asking the governor to pardon her husband, who was sentenced to the penitentiary from this county last year on a charge of murder. The condemned man is suffering with tuberculosis and it is thought that he will live but a short time in his present confinement.

Series of Bible Doctrine.

Rev. C. L. Ballard of Sherman, Texas, will preach a series of sermons at the Methodist church in Dublin, beginning Thursday night, March 22nd, continuing one week to, and including, March 29th. Rev. Ballard will preach at 10 a. m.and 8 p. m. each day. The following is a partial outline of the subjects which will be discussed:

Thursday night, March 22nd, 8 p. m.—The Right of a Sinner to Pray.

Friday, March 23rd, 10 a. m and 8p. m.—Setting up the Kingdom and It's Perpetuity.

Saturday, March 24th, 10 a. m and 8 p. m.—Apostacy.

Sunday March 24th, 11 a. m. and 8 p. m.—The Mode of Baptism.

Monday, March 26th, 10 a. m. and 8 p. m.—Design of Baptism.

Tuesday March 27th and 10 a. m. and 8 p. m.—Infant Baptism.

Wednesday, March 28th, 10 a. m.—Communion and 8 p. m.—Why I am a Methodist.

Thursday March 29th, 10 a. m. and 8 p. m.—Personality, Divinity and Offices of the Holy Ghost.

The public is cordially invited to attend these services. Bring your Bibles and note books if you desire. Rev. Ballard is a very scholarly man and a profound student of the Bible. Hear him.—O. P. Kiker, P. C. Methodist church.

Parties desiring unimproved tillable land, will apply at the Wasson Ranch near Wilson, or write Saye & Neill, Comanche. 44-2t

Lecture by President Work.

President Cree T. Work, of the College of Industrial Arts, at Denton, will lecture in the school auditorium on Saturday evening, March 24th at 7:30 o'clock. The subject of his lecture will be "Manual and Industrial Education." It is illustrated by about one hundred pictures thrown on a large screen by means of an electric stereopticon. Different kinds of manual, industrial and art work, as performed in many schools are shown. Among the pictures are many views of the College of Industrial Arts and the work it is doing. This is a rare opportunity for the citizens of our city and community to learn more about our state college for young women, and the subject of manual training for the public schools. President Work will be accompanied by Prof. C. N. Adkisson, instructor in physics, chemistry and photography in the college, who manipulates the picture apparatus.

This lecture will be of interest and value to all friends of education, and particularly to parents, teachers, high school students and other young men and women, and to school trustees. No admission fee is charged and all are invited. Tell your friends about it.

This is to certify that on Feb. 13th I took out a policy in the National Live Stock Insurance Co. of Dallas, Texas, on my mare "Maud" for $100. On the 19th day of February the animal was killed in an accident and in less than one week after the accident I received the company's check through their local agent, W. W. Eddleman, for the full amount of the policy.—W. P. Hammers.

To the Voters of Dublin.

Some six months ago I decided to retire from the oil mill business and notified my present employers of my intention to resign my position as manager of the oil mill as soon as the current season was over.

As I have previously told some of my friends, I expect tc open up an office of my own for the practice of law and to try to build up a real estate and insurance business in connection therewith. In order that I might pay my expenses while trying to build up such a business I have announced myself as a candidate for the office of assessor and collector. I am not being put forward by any set of men or by either bank in the city, but am making the race on my own hook and asking for the support of the voters as individuals.

I believe that the city funds should be deposited with the bank offering the best inducements in the way of interest on city deposits.

As to my ability to fill the office as it should be and to make a proper assessment upon corporate as well as private property, I refer to my continued service with Mr. Scott and Mr. Bencini.

I want the office and I need votes to get it. Remember my platform is "An equitable assessment on every person's property, whether holdings be much or little." Respectfully yours,

L. F. Sensabaugh.

I have 170 acres of fine unimproved sandy land located five miles southwest of Carbon that I will sell at a bargain on easy terms. Also eighty acres northeast of Carbon.—J. E. Spencer, Carbon, Texas. 42-tf.

Dave Carnes was arrested one day last week at Comanche on a charge of bootlegging whiskey and Tom Grimes on a charge of stealing a pistol from Wm. Ellis. Grimes plead guilty and was fined twenty-five dollars and five days in jail.

Stamford Steele, who has for some time been employed with the Hico News, has accepted a place with the Stephenville Empire.

Wince Northcutt has accepted a position in the dry goods deparmept of G. M. Carlton & Co. at Hico and left for that place Saturday.

Elder J. W. Chism of Gorman was here Sunday and yesterday en route to and from Denton, where he attended a minister's meeting.

Mrs. F. M. Browne, who has been very sick for some weeks, is reported considerably improved this week, having had no fever since Monday.

Our good friend and correspondent, J. E. Taylor at Hasse, was in Dublin last Saturday. He reports some corn being planted in his section.

Col. Hamilton, vice-president and general manager of the Texas Central, came in on his special car and spent the day in Dublin last Wednesday.

Mrs. G. B. Miller of Galveston who has been visiting with the family of Mr. and Mrs. E. R. Read near Dublin, returned to her home last Wednesday.

Miss Ethel Hobbs, a valued attache of the Progress as assistant typesetting machine, operator has been sick with la grippe since last Wednesday morning.

The Texas Central District singing convention will be held at Stephenville April 14th and 15th. J. W. Neill is president and J. P. Lane, secretary.

San Antonio's annual carnival and week of merrymaking, celebrating the battle of San Jacinto, is to take place this year beginning April 16th and concluding the 21st

Chas. F. Cathey, late of Jacksboro was here from Saturday to Tuesday on a visit to relatives, leaving on the latter date for Cisco, where he has purchased and will take charge of an eating house.

M. Cagney came in last Friday from San Antonio and will probably remain here until workmen have thoroughly overhauled his building which was badly damaged in the Maloney fire of last week.

The Frisco-Central Teachers association will be in session in Dublin today and tomorrow. During this meeting it is expected arrangements will be made for holding the Frisco-Central school of Methods in Dublin this summer.

Christian Church.—A. J. Bush of Dallas who is one of our best known preachers in the state will preach for the congregation next Sunday morning. The minister will occupy the pulpit in the evening as usual. All are welcome.—A. L. Clinkinbeard, Minister.

John Sullivan of Comanche was here Wednesday accompanied by his fifteen year old son, whom he is taking to Marlin in the hopes that the hot wells at that place may improve his health. He is suffering with rheumatism. They will remain at Marlin for some weeks.

Several cold mornings this week ice was plentifully seen and it is feared that the fruit crop will be seriously impaired if not destroyed altogether. The cloudy, damp and chilly weather of today betokens anything but the approach of spring, yet a bright sun may shine tomorrow.

Rev. O. P. Kiker announces the following subjects for the morning and evening hours for preaching next Sunday: At 11 a. m., Mexico as a Field for Protestant Missionaries; 8 p. m., The sin of Roman Catholicism in Mexico. Other subjects for discussion to follow later.

A cotton compress is at once to be built at Hico by the following parties: Col. Chas. Hamilton of Waco, J. F. Wieser & Co., G. M. Carlton & Bros., Wm. Connolly & Co., Petty Bros., J. W. Stovall, M. O. Gleason and H. F. Sellers. Building operations will begin at an early date.

For alderman from the first ward we are this week authorized to announce Dr. W. H. Henthorne. The doctor is an enterprising and public spirited citizen, always interested in whatever pertains to the welfare of the town and the upbuilding of Dublin in general. He is good material for a city father.

R. F. Gurney is having a lot of improvements made on his place in north Dublin, purchased last year from W. R. Young. He is having a two room addition made to the house and will shortly have the house, barn fence and out buildings painted. He has also put out a quantity of fruit and shade trees and shrubbery.

We are informed that there were some inacuracies in the report last week of the trouble at the Texas Central passenger depot between Harry and Claude Adams and Ticket Clerk C. L. Williams. As we now understand it the Adams boys were not the agressors and that neither of the boys were locked up by the officers.

Good Health depends upon the food you eat.

Adds to the healthfulness of all risen flour-foods, while it makes the food lighter, sweeter, finer-flavored, more delicious.

Exercise care in purchasing baking powder to see that you get Dr. Price's, which makes the food more wholesome and at the same time more palatable.

NOTE—There are many mixtures, made in imitation of good baking powders, which the prudent will avoid. They may be known by their price, being sold for ten to twenty-five cents a pound, or a cent an ounce. They are made with alum, interfere with the healthfulness of the food.

Fire Losses Adjusted.

Two fire insurance adjusters were in Dublin this week to arrange for settling the insurance losses in the two recent big fires. The losses were very readily adjusted to the satisfaction of the companies involved and the parties insured and were mutually agreed upon as follows:

Dublin Cotton Oil Co., oil mill fire of Tuesday, February 27th, insurance on seed and storage room, product, machinery and office building and fixtures $26,000, loss agreed upon to be paid $25,800.

Maloney Mercantile Co. fire of Wednesday, March 7th insurance on stock of general merchandise, $12,000, loss agreed to be paid $7,205 63.

M. Cagney, insurance on two story stone building, $4,500, loss agreed upon to be paid $3,025.

J. G. Conner, insurance on law office fixtures and library $300, loss agreed to be paid $250.

Dr. W. H. Henthorn, insurance on dental office fixtures and supplies $500, insurance agreed to be paid $350.

The total insurance loss to be paid on the two fires figures $36,630.63.

The Texas Wonder

A large number of friends were entertained at the hospitable home of Dr. and Mrs. Garnett L. Jackson on last Tuesday evening, March 13th, in honor of the fifth or wooden celebration of their wedding. The occasion was one of a brilliant assemblage and a most enjoyable evening.

Mr. and Mrs. I. Richardson of Dallas are here this week visiting with Mr. and Mrs. G. L. Jackson and Mr. and Mrs. Tom Miller. They came in from Dallas Monday to be present at the wooden wedding celebration of the marriage of Mr. and Mrs. Jackson and will probably remain over next week. Mrs. Richardson is a sister to Mesdames Jackson and Miller.

Court of Criminal Appeals.

The opinions handed down Wednesday by the court of criminal appeals in session at Dallas affirmed the verdict of the lower court in the cases of E. M. Peeples from Comanche county and Edgar Hood and Jim Oxford from Erath county. A rehearing was denied in the case of S. C. Counts, on appeal from Comanche.

Hamilton District Court.

Nov Wright, assault with intent to murder, guilty and punishment assesed at two years in the penitentiary.

F. E. Simpson, assault to murder, was on trial at last reports this week.

Commissioners were appointed as follows to select jurors for the August term of court: J. E. Sechrist, L. V. Manning and J. M. Simpson.

The grand jury report handed in shows that body to have found nine felony and twenty-nine misdemeanor cases up to date.

Additional proceedings of this court may be found on page seven of this paper.

STEPHENVILLE.

From the Tribune.

March 9th.—Mrs. J. L. Burroughs went to Fort Worth Thursday on a short visit.

The Granbury monument will be built on the public square at Granbury. The foundation work has already been started.

J. M. Ross returned March 1st from New Mexico with a car load of unbroken horses and is now holding them at the old Ross farm near Stephenville.

The friends of Dr. Oxford—and they are numberless— will be pleased to learn that he has returned to Stephenville and now offices at Smith's drug store.

Mrs. Will Campbell, who was raised at Duffau, was buried at Ranger Saturday. Her brothers, John and Sam Long, of this city, and J. S. Long of Lingleville, attended the funeral.

Shaft No. 7 at Thurber has been worked for eleven years and will perhaps last two years longer. The mine has yielded as high as four hundred tons per day, the output now being two hundred tons per day.

John Fletcher, convicted at Granbury on a charge of perjury, has been pardoned. The petition asking for his pardon was the strongest and most numerously signed of any that ever went up from Hood county.

It is likely that Sam Jackson will be forced to submit to a serious medical operation as soon as the weather becomes milder. One of his kidneys is greatly enlarged, and in such a condition that he thinks it is likely that he will be compelled to have it removed.

Judge Collin George has returned from New Albany, Miss., where he attended the annual meeting of the Southern Beagle Club. The meeting was largely attended and was interesting in many ways. A large number of very fine dogs were on exhibition.

United States Marshall Green of Dallas sold the ice plant this week to Fred Wolf & Co. of Chicago. There was a debt of $5,000 on the plant, and for this foreclosure was made. The house and lot belongs to the Fagans and it is quite likely some arrangements will be made to operate the plant this season.

W. R. McGuire of Ex Ray met with quite a serious accident the past week while out horseback riding, by running a spag into his eye. A portion of it was pulled out leaving a small piece in the eye and he came to Stephenville and had the remaining portion removed. The accident, while not serious, was very painful.

W. E. Davis of Immermere came to Stephenville Monday and had about $5 worth of his finger cut out. About nine years ago he stuck a grass burr into his finger and the broken off spear caused a fungous growth to form—a rubberlike sack about the size of a bird's egg. When the flesh was opened this little sack popped out and fell into the slop bucket.

Prof. Sears and Rollie Cantrell had some fun that was not down on the program while returning from Stephenville to Morgan Mill. The horse they were driving being of a humorous turn and liking a little fun at the expense of the professor dumped him out. It proved rather severe on the professor for he had two ribs broken and was kept out of his school for several days.

J. D. Gerald of Lowell went to Fort Worth last week to meet his mother, who came in from Louisiana, but missed her. He remained there several days and searched every incoming train for his mother. Finally growing tired he returned to Stephenville finding her domiciled at the home of Terrel Bryan. Mrs. Gerald is over eighty years old and will remain in Erath county on a year's visit.

Pat Wilson owns a rye patch on which a large number of jack rabbits grazed and he built a net wire fence around it some time ago. At places where the rabbits trail leads to the patch he raises the netting early in the evening. Along about sundown the rabbits pass under and then Pat goes out and drops the wire and he has his visitor entrapped. A dog is then turned into the enclosure and then there is the finest sport imaginable. The only one not enjoying it is the poor rabbit.

Saturday morning Mrs. Chas. Powers was very badly burned and came very near losing her life. She was standing with her back to the stove when the flames caught her dress. Before she knew it the flames were leaping above her head. Her husband tore the garment from her and threw it into the yard but in doing so had one hand badly burned. His wife received the worst burns on one of her hands. The family live near Stephenville.

James Woodman purchased some very fine turkeys at a fancy price, but the birds would stay anywhere else except home. He conceived the idea of getting in their rear and setting the prairie on fire and driving them homeward, but the fire also got cranky and went where he did not want it to go, burning up nine cords of wood, acres and acres of grass, and spread all over his pasture and became so fierce it looked as if it would also destroy several miles of rock fence. In soliloquizing over his misfortune it was hard to determine which one had hit him the hardest—the turkeys or the fire—but he loves his birds yet.

G. W. Vandyke, the great apple man, was in the city Saturday. He has been down with rheumatism for the past three months and is now barely able to walk. On his fruit farm he has six hundred trees, ranging in age from fourteen years down to yearlings and of these four hundred are of bearing age. He is not much in love with the Ben Davis, as it grows in a manner to permit the fruit being whipped off by high winds and he thinks the day is not far distant when Ben Davis growers will wish they had planted Winesap, Mammoth Black Twig and Johnathan. The latter is a stout, vigorous tree and the fruit is very fine. The Mammoth Black Twig is a stout, vigorous grower, and winds have little effect on the fruit. Arkansas Black is good but does not produce enough to be a money maker. The Johnathan is an apple that any man would be proud to have in his orchard. It's an apple that will bring a reputation to any county that grows it and should be extensively planted.

IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Troubles. A Dublin Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Dublin people testify to permanent cures.

Mrs. N. F. Carr, living three miles west of Dublin, Texas, says "I have no hesitation in recommending Doan's Kidney Pills to anyone suffering from weak back or kidney complaint. For more than two years I suffered off and on from backache and kidney trouble. The secretions from the kidneys were irregular and caused me a great deal of annoyance. I also had headaches and dizziness, and the least exertion tired me. I read about Doan's Kidney Pills and procured them at the Overton Drug Co. I began their use and in a short time I was much improved. I continued taking them and they completely relieved me of the trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

GORMAN

From the Progress.

March 9th.—Mrs. Stroble's mother, Mrs. Tatom, of Dublin, was a visitor in Gorman last week.

Judge Scott was down from Cisco yesterday assisting in getting up the water works and light franchise.

J. M. Bishop had a stroke of paralysis Tuesday about noon, falling from his chair unconscious, but was able to be up next morning.

The Hirst brothers, who are charged with the killing of Tom Lawson, made the $4,000 bail allowed them in the habeas corpus proceedings and returned home last week.

The Progress is glad to commend the city council for the action taken in regard to street sellers of medicine and other fake schemes for raking in the shekels. An ordinance has been passed compelling them to keep off the streets with their sales and carry them on some vacant lot, and as only a very limited crowd can be secured, especially in the day time, the "picking" will no doubt be light.

One of our county school teachers received the following note from the mother of one of her pupils one morning: "Dear Miss—You write me about whipping Sammy. I hereby give you permission to beet him up eny time it is necessary to learn him lessons. He is just like his father—you have to learn him with a club. Pound nolege into him, I wante him to git it and don't pay attenshion to what his father says. I'll handle him.—Exchange.

STAMFORD.

From the Tribune.

March 9th.—Dr. John Grace of Hico passed through the city Saturday en route home from Rule, where he had been prospecting. The doctor informed us that he will probably locate at Rule.

W. J. Rosamond of Hico returned home Wednesday after spending several days in this city and community prospecting. He expects to return soon. We believe that he is making eyes at this country and will not be surprised to see him moving here in the very near future.

As Joe Glenn was hauling lumber from the car to the Patillo new building, now under construction, one day last week, in stooping to unloose a cross piece of lumber under a lumber pile, while unloading the wagon, the pile about four feet high caved in on him, catching his head between the lumber and very painful, though not serious wounds were inflicted. We are glad to state that Mr. Glenn is able to be up at this time.

There will be a strong competition for the Methodist college. Rev. R. B. Evans is in receipt of a letter from Rev. S. J. Vaughn, pastor of the Methodist church at Colorado City, in which he says that town has appointed an energetic committee and they were out in earnest for the college to be located in that city. Mr. Vaughn stated that he believed that Colorado City would easily give $25,000 and the campus. Stamford must have this college and there is only one way to get it and that is to go after it good and strong.

Col. Morgan Jones and Judge Bomar of Seymour were in the city yesterday and last night were in conference with the railroad committee regarding depot grounds for the Wichita Valley road and suitable crossing of the Texas Central. Nothing definite was determined, but it is hoped that matters will soon be adjusted. The Central people are willing for the Valley road to cross their tracks, but not at the point that formerly had been selected as it will necessarily throw their trains on an upgrade in making the crossing, thus entailing upon them a great inconvenience and perhaps cost to get the track in proper condition. The Wichita people and the committee have not decided what they shall do but we feel assured that every consideration will be given the Central people. Judge Bomar informed a Tribune representative this morning that work on the grading of this road was being pushed as fast as possible. The grading outfit had nearly reached Munday and it was their hope and intention to have the road completed to Stamford by August 1st and be ready for the fall business.

Champion Liniment for Rheumatism.

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled with rheumatism in my shoulder. After trying several cures the storkeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from painful ailments when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by Overton Drug Co.

STEPHENVILLE.

From the Empire.

March 9th.—G. E. Toliver has been dangerously sick for more than a week but is reported slightly improved at this writing.

John Starr, an old time citizen of this place, is visiting his brothers, Ed and George, this week. He is now in the drug business at Sweetwater.

Miss Lizzie Davis returned Sunday from her home at Eldorado, Kansas, where she had been spending her vacation, and is again in the millinery department at Neblett's.

A movement has been set on foot at Thorp Springs to have a reunion of the students of the old Add-Ran university in May. Some of the leading citizens of Stephenville and Erath county were students of that institution.

R. T. Williams returned Tuesday evening from St. Louis, where he had been with the buyers of the other Higginbotham stores, purchasing a large stock of goods. There were about fifteen in the party from the various Higginbotham stores in this section of the country.

Sheriff Creswell and City Marshal Crane caught a young man by the name of Montie Blunt last Friday, who was wanted in Hood county on a charge of burglary committed at Tolar. Deputy Sheriff John Swafford of Hood county came over and took him in custody.

A fire broke out at the residence of Bud Deason in the northwestern part of town about six o'clock Wednesday evening. Before Mr. Deason and others, who started in response to the fire alarm, could reach the place neighbors had gathered and checked the fire. No damage was done.

H. S. Wilson has severed his connection with the Wilson Drug Company and left this week for Hasse, Comanche county, where he will engage in the lumber business with his father-in-law, W. M. Dunn. Mr. Wilson and Mr. Dunn sold the greater part of their interests in the drug store to Mr. Cherry of Granbury.

The boys of the elocution class of the Lingleville Christian college will give a number of entertainments in this and other counties. The first entertainment will be given tonight at Carbon, followed by one Saturday night at Gorman. It will be remembered that the girls of the same class gave not long since a series of entertainments, the reception of which was flattering indeed.

The revival at the First Baptist church continues with increasing interest. Rev. G. W. McCall left for his home in Brownwood Tuesday and the pastor carried on the work till Thursday when the Rev. B. A. Copass of Waxahachie arrived. He will assist in the meeting until its close. To the present there has been about twenty professions including adults and children. The meeting will continue during this week and all of next.

Miss Fannie Strickland died in this city Monday morning at the home of her neice, Mrs. Ben Palmer, at the advanced age of eighty-two years. She had been in poor health for some time and two weeks ago took pneumonia of which she died. The remains were taken to Dublin to be interred in the cemetery there, that being the resting place of some of her relatives. It was her request, which will be complied with, that later her body should be taken back to Georgia and laid to rest in the church yard near her old home, with others of her family. A called meeting of the bar was held Monday morning and after suitable resolutions were passed court adjourned till 1:30 out of respect for Mr. Ben Palmer, he being a member of the bar.

The little six year old son of Mr. and Mrs. Sam Gossett was kicked and seriously injured by a mule first of the week. The mule kicked the little child in the face nearly cutting off its nose....The fire alarm was turned in Tuesday morning from Chas. Guinn's residence. It seems as though the fire originated in a defective flue. The bucket brigade responded and the fire was quickly extinguished.—Rising Star Record.

A Scientific Wonder.

The cures that stand to its credit makes Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a case of piles. It heals the worst burns, sores, boils, ulcers, cuts, wounds, chilblains and salt rheum. Only 25c at Overton Drug Co.

M. Trojan of Berlin, Germany, was here last week visiting the family of Geo. Buckingham. Mr. Trojan is an officer on a German man-of-war and came from San Francisco to make his visit.—Hico News.

J. E. Luse was in town Saturday with a July pig of the Duroc Jersey breed, which weighed over two hundred pounds. He is making a very successful demonstration of what a man can do in the Cisco country with alfalfa and hogs. It is a combination which could be more generally adopted with profit by our farmers.—Cisco Round-Up.

Auto Line Quit Business.

A late press dispatch from San Angelo says: "The Southwestern Transit company, an automobile line operating between Angelo and Sonora, seventy-two miles south, was forced to discontinue business Monday by the Old Motor company, from whom the machines were bought. This line, under the management of E. R. Ames of Chicago, has been operating three big touring cars for the past six months in hauling passengers and baggage to Sonora and the little intermediate towns. A representative of the Old Motor company shipped the three cars back to the factory Monday.

Mr. Ames asserts that he will continue the line with other automobiles.

THE EDITOR

Explains How to Keep Up Mental and Physical Vigor.

A New Jersey editor writes: "A long indulgence in improper food brought on a condition of nervous dyspepsia, nearly three years ago, so severe that I had to quit work entirely. I put myself on a strict regimen of Grape-Nuts food, with plenty of out-door exercise and in a few months found my stomach so far restored that the process of digestion gave me pleasure instead of distress.

"It also built up my strength so that I was able to resume my business, which is onerous, as I not only edit my own paper, but also do a great deal of 'outside' writing.

"I find that the Grape-Nuts diet enables me to write with greater vigor than ever before, and without the feeling of brain fag with which I used to be troubled. As to bodily vigor—I can and do walk miles every day without fatigue—a few squares used to weary me before I began to live on Grape-Nuts! Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in packages.

Work of Locating Railroad Route.

Col. Peters and the surveying corps of the Gulf, Brownwood and Cisco railway reached Cisco Saturday and have spent the intervening time running lines from different points in the city in an effort to find the most feasible route into the Leon valley which offers the lowest per cent of grade.

The first line run from the Star comes in through the Bacon and Strain farms, thence across the land of J. E. Luse to the Central track which it crosses east of town, and thence the route parallels their track to a connecton on the T. & P. at the union depot.

A second line was run west from the union depot which paralleled the T. & P. track to the cemetery, making a curve west of that point and passing south through the Collie, Mancill and Weddington farms in the direction of Reich school house.

The third and last line to be started begins at the east station of the T. & P. yards and crosses the Central track east of the two gins, thence through the McMurry farm and will debouche into Leon valley at or near the Bacon farm.—Cisco Round-Up.

Dr. Lewis will sell a few Norman horses and a few Durham cows.

Brought to Trial AfterQuarterCentury

A dispatch from Hillsboro one day last week says: "T. S. Causey left here last night, accompanied by A. P. McKinnon, for Opelousas, La., to attend the trial of Will Suddith, charged with the murder of a Mr. Causey, who was killed in St. Landry parish, some twenty-five years ago.

"The incidents relating to this case form a remarkable story of the persistency with which a slayer of his fellow man has sought to evade responsibility for a quarter of a century and finally brought to face the issue of his guilt in a court of justice.

"After killing young Causey Suddith fled from Louisiana and located in the country west or northwest of Brownwood. T. S. Causey, while traveling in that section a year or two ago, discovered his whereabouts, Suddith having married and acquired a family after leaving Louisiana. He had also become owner of a home and was residing in it. At first Suddith did not recognize Causey, but after a while learned that the latter was on his trail and after dodging for a time went back to St. Landry parish and surrendered to the officers."

Hunting Kidnapped Child.

L. S. Byers of Seelyville, Indiana, was in Ft. Worth last week en route to Jack county, where he was going to identify if possible, a boy who answers very favorably the description of his child, who disappeared almost two years ago with an unknown man. Mr. Byers has traveled over forty thousand miles seeking his son and has expended over thirty thousand dollars in his efforts to locate the child who was lured away from home when not quite five years of age.

About two years ago Mr. Byers was the peaceful owner of 380 acres of land in Indiana, not including his homestead, and had fourteen thousand dollars to his credit in the bank. Today he has his homestead, where his wife and seven children are anxiously awaiting news of the lost child day by day, but the money has been drawn from the bank and the 380 acres of land have been sold at a sacrifice. Friends have contributed fourteen thousand dollars to a fund raised to assist Mr. Byers in locating his son, and this too, has fluttered away and still the whereabouts of the child are as uncertain as they were on the day he was kidnapped. During the twenty-one months that Mr. Byers has been in search of his child he has found at least fifty children that have been taken from their homes when of very tender age by horse traders and junk dealers and after being carried around for two or three years, left with other people. The idea in stealing the children when they are young is to train them to beg—while they are of tender age. They soon forget their home and within two years after stolen are unable to tell anything of their past life.

"I believe there are five thousand waifs in the United States who have been kidnapped when they were small children," said Mr. Byers. "They are taken away from home when about four years of age and are left to hustle for themselves when at the age of seven years. When they are young the horse traders use them to an advantage in begging, but when they grow out of their childishness and cannot play on the feelings of the public in begging the rovers have no more use for them. Richmond, my son, has a turn-down nose, hazel eyes, light hair and complexion, a large head and small forehead. His eyes are closer together than ordinary and he is rather homely. His left eye is crossed and he has a nick in the edge of the left ear. A reward of $500 is offered for his return."

Mr. Byers will spend several months in Texas as he believes that his son is in this state.

Rev. C. L. Ballard of Sherman, Texas, will begin a series of doctrinal sermons on Methodism at Lingleville, Texas, on Thursday night, the 15th inst. at 7:30, to continue for a week. The public generally are invited.—C. S. Cameron, pastor M. E. Church South. 43-2t

United After Thirty-Three Years.

After having been separated from his son for thirty-three years—ever since the son was a babe of three months—and not knowing whether that child to which he was a father had ever lived and grown to manhood or gone to a grave, D. H. Carver of Pierce, Neb., was surprised when that son, now a middle aged American citizen, stepped off the train at Pierce for a visit with his unknown parent.

The baby boy was born to Mr. and Mrs. Carver in Wisconsin thirty-three years ago. Three month's after the child's birth Carver left Wisconsin and settled in northeast Nebraska. A few weeks ago he received a letter from a Kansas town signed "John Carver."

The writer proved to be the son of this Nebraskan. John Carver one day accidentally saw a paper from Pierce county in which was a little personal concerning D. H. Carver. He knew that this was his father's name. He wrote and asked if the Pierce man had ever had a son, thirty-three years ago in Wisconsin. A letter that took the next train back from Pierce said that this was the case, and theKansan immediately started for Nebraska. He was met at the train by his father, and the two men clasped each other in affectionate embrace.

EASTLAND DISTRICT COURT.

During the term of the Eastland district court just adjourned there were 151 cases disposed of. On the criminal docket there were twenty-eight felony cases, six of which were found by the last grand jury. Only three felony cases were tried and defendants convicted, three cases acquitted, five cases dismissed on motion of district attorney and seventeen continued to next term. There were twelve civil jury cases on the docket, four of which were tried, one transferred by agreement, one compromised and six continued. There were forty-four cases on the non jury civil docket. Eight judgments were rendered by default, one trial before court, one agreed judgment, six cases dismissed and thirty-three cases continued. There were thirty-one cases on the divorce docket, twelve divorces granted, fourteen cases continued and five dismissed. The expense of seven weeks petit jury service was $1,304, grand jury for term $402, grand jury bailiffs $137 and for stenographer $240, making a total expense for eight weeks of court $2,083.—Eastland Chronicle.

PALO PINTO DISTRICT COURT.

District court for Palo Pinto county convened at Palo Pinto, Monday, March 5th. Cases disposed of during the week as follows:

W. E. McConnell, county judge, vs. W. H. Gaines et al, dismissed.

John O. Bain vs. Jennie Bain, divorce, granted.

Clara Alexander vs. Homer Alexander, divorce, dismissed.

State of Texas vs. Texas & Pacific Railway Co., removed to federal court. This is a suit brought against the Texas & Pacific railroad for failing to provide closets at the several depots in the county, as required by law. The penalty named for the time accumulated amounts to $14,000, and the federal court having jurisdiction in cases over $2,000 the defendant company removed the case to that court, hoping to fare better in the verdict finally.

The following gentlemen compose the grand jury for the term: J. D. Brower, foreman; M. M. Littlefield, M. P. McCracken, G. W. McDonald, Simon Morris, C. C. Manning, W. A. Dow, Tom Herring, T. L. Dalton, A. L. Howard, J. A. Latimer, K. D. Robbins.

Doctors are Puzzled.

The remarkable recovery of Kenneth McIver of Vanceboro, Maine, is the subject of much interest to the medical fraternity and to a wide circle of friends: He says of his case: "Owto a severe inflamation of the throat and congestion of the lungs three doctors gave me up to die, when, as a last resort, I was induced to try Dr. King's New Discovery and I am happy to say it saved my life." Cures the worst coughs and colds, bronchitis, tonsilitis, weak lungs, hoarseness and lagrippe. Guaranteed at Overton Drug Co. 50c and $1.00. Trial bottle free.

Doctor Gets Twenty Years.

The jury in the Matthews case at Greensboro, returned a verdict of murder in the second degree. Matthews' attorneys appealed the case.

Dr. J. B. Matthews was a Greensboro physician charged with the murder of his wife, Dec. 1st, 1905. A sister, a medical friend and an expert for the defense all declared Dr. J. B. Matthews insane. The testimony of the prosecution was that Matthews was caught injecting poison in his wife with his hand concealed under the bed clothes, while pretending to pray at the side of the bed. His counsel tried to prove that when he did this he was mentally irresponsible.

Judge Ferguson sentenced the prisoner to a penitentiary term of twenty years. Matthew relied upon the plea of insanity as his defense.

Alligators in Cleburne.

Saturday a negro boy named O'Finley Biggins caught a young alligator about two feet in length in Buffalo creek of Cleburne. The boy was sailing a toy boat in the stream right in the heart of the city when the alligator boldly attacked the boat, with the result that he now occupies a glass jar and is the object of the gaze of the curious.

Meddlesome Presumption.

The real trouble with China is that for a great many years she has been forced to entertain unwelcome guests, and from time to time the masses have rebelled against what they choose to consider meddlesome interference with their form of worship and have slaughtered some of the guests. The missionaries are at the bottom of the trouble. The United States has no more right to proselyite the Chinese to Christianity over a practically national protest than have the Chinese to foist the teaching of Budha or Confusius upon the people of the American Union against the national will. This writer will venture that should a Chinese mission be established in this country for the avowed purpose of going about among the multitude winning converts to Joss worship the Chinks would be slaughtered instanter and their missions razed to the ground. That something like this would surely occur, we have but to remember the fate of a few Mormon Elders whose religious teachings did not meet the approval of Protestants. If it be true that what is sauce for the goose should be sauce for the gander, then we ought not to pull off a spasm of raucous jingoism and howl for troops if the Chinaman should occasionally feel disposed to lead the unbidden and unwelcome guest to the front door and boot him over the fence. There are enough heathens in our own land to keep the preachers busy night and day for a thousand years, without causing international complications and inviting war and bloodshed by meddling with the heathen Chinese.—Cisco Round-Up.

Beating a Lawyer.

There is a lawyer of Baltimore who tells a story of how he secured a verdict in favor of an Irishman charged with assault with intent to kill. The lawyer secured his client's acquittal on the ground of temporary insanity. Counsel and client did not meet for several months after the release of the accused. When they did meet the following conversation ensued:

"Well, Mike, isn't it about time you handed me that $500?"

"What $500?"

"Why the fee of $500 that you promised me I should have if I saved you from the penitentiary."

"Shure an' did I promise ye that? I don't raymimber."

"Don't remember! Why you were so grateful that you promised me over and over again that I should have it within a week!"

Mike gave a sickly smile. "Shure I think the claim is not a good wan," said he. "Ye know, I was crazy thin!"—Harper's Weekly.

The Taking Cold Habit

The old cold goes; a new one quickly comes. It's the story of a weak throat, weak lungs, a tendency to consumption. Ayer's Cherry Pectoral breaks up the taking-cold habit. It strengthens, soothes, heals. Ask your doctor about it.

"I had a terrible cold, and nothing relieved me. I tried Ayer's Cherry Pectoral and it promptly broke up my cold, stopped my cough, and eased every part of my body. It did wonderful work for me."—Mr. J. F. Lutz, Toledo, Ohio.

CHALK MOUNTAIN.

Regular Correspondence.

March 12th.—The nice Spring weather was brought to a close yesterday when the wind suddenly came hard and strong from the north, and as a result we have had some very cool weather and some ice. Corn planting will be checked for a few days at least. Some twenty-four years ago the writer remembers that on the 12th of March it began turning cold and the night of the 14th the snow fell to a depth of eight inches, nearly all vegetation being killed, as well as many cattle dying from the effects of the cold.

The ten year old girl of Ed Hammitt's died yesterday, after several weeks suffering with St. Vitus dance. She will be buried today at Odens Chapel.

Elder Downing, a Primitive Baptist minister from Coleman county, preached here Friday night, Saturday and Sunday. Quite a large crowd was in attendance.

Walter Larned of Paluxy has been here for the past week, working in the interest of the Fraternal Union. He succeeded in organizing a lodge with ten members and several more will come in at their next meeting.

The question of county school superintendent seems to be absorbing the minds of the people at present. Our schools have been moving along nicely under the present management with very little expense and we can hardly see any use in making a change in the administration now that would add more expense to the school fund.

Jeff Bell was here last week, writing up policies in the Farmers Mutual Protective Association. He did some good work here. The order is growing. With something like $800,000 now in force it is gaining popularity all the time as people are learning that it is not a fake, but a permanent fixture and the cheapest mode of fire insurance that has been gotten up.

Mrs. Gaines' new residence is nearing completion and when completed will cost four thousand dollars. She informed us yesterday that she had two well drills in operation on her farm and she intends having four wells put down on her farm at once.

POINT LOOKOUT.

Regular Correspondence

March 12th.—Quite a norther blew up Sunday morning.

Mrs Sam is Davis is sick this week.

We are afraid the present cold weather is going to damage the fruit crop.

Mrs. S. A. Greaves and Mrs. May Stephen visited Mrs. A. M. Maloney at Dublin Saturday.

Will O'Neal bought a nice span of mules from Mr. McClain last week. Mr. O'Neal is prepared now to break his Jonhson grass stubble.

Sam Davis is fencing some land that has been used by the public for many years, and this closes all of the commons in this section, only lanes being left.

Misses Bessie, Loraine and Virgina and Masters Sid and Alex Maloney of Dublin spent Saturday and Sunday with their grandparents, Mr. and Mrs. J. M. R. Stephen.

Commissioner John Kiker was in this section looking after the road conditions last week. Mr. Kiker says he will not make the race for commissioner of precinct two this year.

A letter from Mrs. John Neal, who was called to the bedside of her husband at Pendleton in Sabine county, last week, states that Mr. Neal is very low with little hopes of his recovery.

Much corn has been planted and there is much yet to plant, oats are looking well since the late rains. The fruit trees are in full bloom and bid fair for a good fruit crop. Garden prospects are good and we hope to enjoy vegetables soon. From the present outlook the cotton crop will be much larger than that of 1905, owing to the increase of the acreage of new lands being put in cultivation.

We notice two more announcements for commissioners in precinct number two. All that have announced so far are good men. We read in the good book that the first shall be last and the last shall be first. However it is rumored that two more are to announce for that office soon. This is one of the most important offices in the county and we should make a good selection from this number.
