Gulf Announcement Of Deep Test Oil Wells Throws Spotlight On Ochiltree

To Drill On Harbaugh, Stump Land; Other Deep Test Wells Reported Planned by Gulf

The Panhandle oil spotlight swung to Ochiltree county this week with the announcement by the Gulf Oil Corp. of the staking of two locations for deep tests in Ochiltree county. This brings the oil fever closer home, adding fuel to the fire created last fall by the Sinclair Lips well, just across the line in Roberts county.

It is rumored that Gulf will announce five other locations in the very near future, all supposed to be in Ochiltree county.

One of the two deep test wells that have been announced is the No. 1 Harbaugh in the northwest corner of Sec. 142, Block 13, T&N survey. It is 21 miles south of Perryton, just three miles north of the Lips well.

The other announced Gulf deep test is the No. 1 Stump, in the southwest corner of Sec. 12, Block 4-T, T&N survey. This one is located one and one-half miles south of Waka, and 16 miles northwest of the No. 1 Harbaugh.

Rumor has it that Gulf will drill another deep test well on the Wamble land, 15 miles south of Farnsworth.

New Firms Coming

Perryton has been visited by representatives of oil well supply houses and allied businesses since November, when the Sinclair-Prairie Co. discovered two pay formations in the Lips wildcat 23 miles south of Perryton. Now three 1,000-barrel storage tanks and a separator have been set up at this well, and a production test is being made, according to late reports.

Since the Gulf announcement, however, Perryton has been crowded with company representatives, lease agents, and business prospectors.

The Perryton Planning Board, set up several months ago to lay plans for an industrial area, has secured options on two locations, both near the east city limits, and expect to announce a definite location within 10 days or two weeks.

Options have been secured on approximately 45 acres north of the railroad from G. M. Dietrich and on 45 acres south of the railroad from Ray Wright. It is planned to construct a spur track into one of these areas and

Dates for Baptist Revival Announced

Rev. O. C. Curtis, pastor of the First Baptist church, has announced that a one-week revival meeting will begin at the church on Sunday, April 17, continuing through April 24.

The revival will be conducted by Joseph Underwood, a missionary to Brazil, who is a brother of Mrs. I. R. Buchanan of Perryton.

JUST HERE and THERE

C. E. Delano has been down at Hot Springs, N. M., for the past few weeks. He writes that he hasn't seen anybody from Perryton down there... and that although he thinks Perryton is a pretty clean town, he is sure there are other Perryton folks besides himself that need a bath.

Had a letter from Fred W. Hood the other day. Old timers around Perryton will remember when Fred was in the lumber business and a wheel horse in community affairs. In fact a lot of people around these parts are cashing in today as a result of the money and time Fred Hood and a few others put out building the solid foundation on which the Perryton area is growing.

Fred, after a life time in the See No. 6, Page 2

More Recruits, Or Guard Unit May Be Moved

Unless more young men from the Perryton area enlist in the National Guard and make the local unit a success, there is a strong chance that Co. F, 142nd Infantry Regt., will be moved from Perryton, according to information gained by Lt. Fountain E. Wade through talks with National Guard officials.

Wade stated that he was told another Panhandle city is seeking this Guard unit, and unless this one grows some more, it may be moved away from Perryton.

There are 16 members of the Guard in Perryton, and a minimum of 30 is necessary to establish the company on a firm basis. It is hoped eventually to have a strength of 50 or 60.

The drill hall and meeting place may be changed from the VFW Hall to the Legion Hall, depending upon the inspecting officer's decision, stated Wade. The VFW Hall has no strong room for guns and ammunition, and the VFW Post is unwilling to spend additional money to remodel the building for that purpose.

The Legion Hall, while not having nearly so good drill facilities, has a satisfactory strong room—the concrete vault that housed the county records when the building was the courthouse.

A National Guard inspecting officer is expected this week to make the decision about moving the meeting place.

Rotary Elects New Officers

C. H. Williams was elected as the new president of the Perryton Rotary Club at their luncheon last Thursday. He will succeed Jack F. Todd when the new officers take over in mid-summer. R. H. Holland was named as vice president.

The following will be the new directors: Gilbert Mize, C. D. Ragsdale, Roger Walton and Bob Drake. All officers will serve one year.

The Rotary Club with other Perryton service clubs has been meeting at the Masonic dining room since the Hotel Perryton Coffee Shop burned. They are looking forward to returning to the hotel in the early part of April when Jimmy and Nancy Lee will reopen a larger much better coffee shop than before the fire.

Intramural Boxing Champions to be Crowned Friday Night; Finalists Determined Tonight

The 1949 Intramural Boxing Tournament of the Perryton schools will close Friday night with champions in all weight divisions being determined at that time. There will be another full 20-bout evening Thursday to determine the finalists.

Packed houses have been present for the first two nights of the tournament, on Monday and Tuesday.

Two technical knock-outs were registered Tuesday night, with Jerry Johnson scoring a TKO over Frankie Sword in the junior high division, and Sonny Schnell punched out a TKO over Curtis

Leicht in the 145-lb. class.

Other bouts that drew wild applause from the audience was the one between Mitch Murry and Billy McClanahan in the grade school division, and the wild-swinging contest between Dean Morgan and B. R. Pletcher in the high school. Decisions were given to Mitch and Dean.

Monday Night Results

Sammie Carter dec. Stewart Johnson; Jimmie George dec. James Snider; Zack Miller dec. Bobby Jones; Lawrence Langwell dec. Dempsey Gyger; Ronnie Blackmore dec. Glen Bond; Jimmie Todd dec. Jimmie Baker.

Larry Knowles dec. Kenneth Holdeman; Don Trew dec. Orvil McClendon; Gene Good dec. Larry McLeod; Jerral Allred dec. Melvin McGarraugh; Bill Thrasher dec. Jim Phagan; Earl Hurter dec. Tommy O'Dell.

Wayne Gum dec. Richard Ben-

nett; Johnnie Witt dec. Cecil Hillon; Don Johnson dec. James Mercer; Henry Taylor dec. Larry Johnson; Rollin Thurman dec. Irvin Anderson; Jimmy Witt dec. Alfred Carter.

Don Hedgepeth dec. Ronald Hillon; Lowell Buxton dec. Mickey Huston; J. B. Langwell dec. Frank Dutcher.

Tuesday Night Results

Donnie Canady dec. Eddie Belt; Mitch Murry dec. Billy McClanahan; Don Hulsey dec. Jerome Woods; Wilburn Anderson dec. Larry Lackey; Del Mounts dec. Mike Wright; Jerry Knowles dec. Glenn Simpson; Don Trew dec. Robert Canady.

Legion Basketball Team Plays Famous Red Heads Tuesday

The final basketball game of the season for Perryton will be played Tuesday night, March 29, at the school gym between the American Legion independents and the famous Red Heads, nationally known girls team of Cassville, Mo.

The Red Heads play under men's rules, and have defeated teams all over the Midwest and Pacific Coast.

"Your fans have never seen any show like the show these girls will put on," says C. M. Olson, manager-owner of the club. "These girls are really clever comedians. They pull everything in the books. It's the baseball play, under legs dribbling acts, piggy back stunts, finger ball spinning, and many other cute stunts."

One girl, MaGee, who is 6 feet 2 inches tall and weighs 190 pounds, handles a basketball in

School Census Closes Thursday, March 31

Thursday, March 31, is the last day for school children to be enumerated on the annual scholastic census. It is very important that every school child in Perryton be listed on this census, since the school receives a \$55 apportionment from the state for each child listed. Those children that will be six years of age by September 1, 1949, or who will not be past 18 years of age on that date should be enumerated. J. W. Erickson is the census enumerator and parents with school age children who will enter school next year are urged to contact him and secure a census blank, if they have not already done so.

Tennis Teams Win From Phillips

Perryton high school tennis teams swept all matches with the Phillips netters Tuesday afternoon at the school courts. This was the second match of the year for Perryton, having won last week from Canadian in practice matches.

Winning Perryton players were Jerry Ward, boys singles; Don Rogers and Donald Graves, boys doubles; Christeen Records, girls singles; Norma Flowers and Janet Ranson, girls doubles.

Check Forger Is Shot Saturday by Clovis Grocer

When Mote Watson, 70-year-old grocer of Clovis, N. M., shot Steve Allen Uxer, a would-be robber, in his grocery store Saturday night, he may have ended a trail of forged checks extending through three states.

Uxer, who is in the Tucumcari hospital in a serious condition from the gunshot wound, is wanted in Perryton, among other places, for passing "hot" checks.

Uxer and his wife visited Perryton last December 31, touching four local firms for \$125 in worthless checks. When he worked Perryton, he was dressed in full Army uniform.

He gave checks for \$30 each to Powell Grocery, Ideal Food

Mrs. Bill Cone Passes Away

Word was received just as the Herald was going to press that Mrs. C. E. "Bill" Cone, wife of the Herald advertising manager died in the Perryton Hospital shortly after 2 p. m. She had given birth to a baby boy at 10 o'clock this morning, and death came from complications arising from childbirth. No funeral arrangements have been made.

Ouida Saunders Is Crowned Balco FFA Sweetheart

Miss Ouida Saunders, Balco high school junior, was crowned Balco FFA Sweetheart Friday night at the box supper and program held in the school gymnasium. She was crowned by Van Bartel, Chapter president.

Other candidates were Miss Patricia Cornell, escorted by J. A. Kinsey; Dorothy Cornell, escorted by Don Neufeld; and Erlene Pugh, escorted by Paul Zimmerman.

The chapter cleared approximately \$700 at the box supper and program, enough to purchase a John Bean high pressure sprayer which will be used for custom spraying in the community and also as a part of the vocational agriculture training in the school.

The program at the box supper was furnished by the Okeene FFA chapter, with Lowell Goforth as master of ceremonies. Other Okeene FFA boys on the program were Melvin Meisner, Johnny Weinmeister, Donny Geis,

A MEDAL FOR THE WINNER—Miss Coleen Schell, left, receives a Legion medal from Van W. Stewart, right, for winning second place in the district American Legion Oratorical Contest, held in Amarillo recently. Presentation was made at the anniversary program and potluck supper held Saturday night in the Legion Hall to observe the 30th Birthday of the American Legion.

Junior Baseball Players Will Meet Friday at Legion Hall

Wayne Gyger, manager of the Legion junior baseball team, has called a meeting for Friday night, March 25, in the Legion Hall for all boys under 18 years of age who are interested in playing baseball this spring and summer.

The meeting will begin at 7:30 p. m.

This will be the second year for junior baseball in Perryton. The Legion team last year enjoyed a successful season, after getting a late start, and with the experience gained last year should have an even better season this year.

Uniforms, which were furnished by the A & B Motor Co., are ready to be issued, and enough money is on hand to buy other team equipment. Each player must furnish his own glove and shoes.

It is planned to have a junior

baseball league this year under the sponsorship of the North Plains Athletic Association, with the junior teams abiding by Legion eligibility rules. If all eight teams of the NPA league enter junior teams, this will give the juniors a full schedule, with a chance at a league championship trophy.

Hobbs Into Mayor's Race

While his name was filed before the deadline as a candidate for mayor of the City of Perryton, Chas. V. Hobbs, local motor car dealer waited until this week to place his name formally before the voters of this city as seeking the No. 1 post.

In placing his name before the electors, Mr. Hobbs stated that his only reason for aspiring to head the city government was the desire to serve in any way that in these days that might call for much additional expansion of city owned utilities and services, there was a greater need than ever for a business administration of the city's affairs.

Charlie Hobbs has spent the greater part of his life in Perryton and nearby Oklahoma. He lived in Colorado for a few years but returned to Perryton 21 years ago to enter the automobile business. He has been continuously in this business for 21 years. He is owner and operator of Plymouth-Chrysler agency located across the street from the City Hall. It is housed in a building which Mr. Hobbs purchased re-

Wayland Students To Hold 'Alaska' Program Sunday

Students from Wayland College of Plainview will give a special program on Alaska Sunday night at the Baptist church, featuring colored slides of Alaskan scenery.

The program begins at 7:30 p. m.

These Wayland students did special work in Alaska last summer and have made many appearances in this section of the country since their return, showing the pictures and lecturing on this last frontier of the western world. They also present a program of special music.

'Merci' Shown at City Office

Expressing thanks from the French people has been sent to the owners and others of this county who have contributed to the relief of the French people. The past two weeks, which came from the French people, were watercolor painting depicting scenes of Cherbourg.

Thought from Enid by the general manager of the county, which handled the relief of the wheat to the painting is hanging in the city office and may be viewed by anyone interested.

'Merci' Train, representing thousands of small gifts of grateful French citizens, consisted of 49 cars of his equipment, personal possessions and other items to be sent to those who gave

There was a car for the 48 states and the District of Columbia.

lumber business, recently moved from Tucson, Ariz., to California to accept a job of loafing... but he just couldn't be idle so he heeded the call of the directors of the South Plains Cooperative Hospital Association to return to Amherst Tex. and take over the business management of their very successful hospital. We know that Fred will do them a good job.

We were out of town about a week ago and missed a visit with a very old friend, Fre-

mont Mead, who was in Perryton to see his sister, Mrs. C. E. Whippo, and old friends. Mrs. Mead and their daughter, Betty Jean Mead, live in Dallas. Their other daughter, Mrs. Arthur Glover, resides in Amarillo. Fremont and his brother-in-law, C. E. Whippo, division manager of the Community Public Service Co., installed the first light, power and water system in Perryton, later selling same to the city.

He is a veteran of both world wars. After disposing of his utility interests, Dr. Mead entered the education field and

HESTER STARTS FOR TEXAS—Sheriff Houston Walling (left) of Johnson County, Texas, clamps handcuffs on the wrists of Arthur C. Hester waived extradition to face the murder charges. (P) Wirphoto

was president of Amarillo College when he resigned to enter government service. The following very interesting article concerning Mead and his work in Germany is from the Amarillo Globe. He sailed March 20 from New York on his return trip to his post in Germany.

The 1949 German is either cynical or indifferent toward all political concepts, including democracy. That is the description of the average German in the American occupied zone provided by Dr. John Fremont Mead, former president of Amarillo College, now home on leave.

Dr. Mead for the past three years has been director of education and cultural relations for the American Mil-

itary Government with headquarters in Stuttgart, Germany. Under his jurisdiction are all educational activities in Wuertemberg Baden, one of the three provinces in the American zone.

His visit here is the first in three years. In September, 1946, Dr. Mead, then Lieutenant Colonel Mead returned here from Germany to resign the presidency of Amarillo College. He then returned to Germany in a civilian capacity to fill the position he now occupies.

In general the rehabilitation of the German is a tough problem, Dr. Mead said.

"The average German is now at the point where he wants no part of any government. To him all governments are fronts for certain interests that wish to use people for their own interests," the educator said. "He is afflicted with a persecution complex. He can always find somebody to point the finger at, but never himself.

Regarding the attitude toward the American soldier and civilian in Germany, Dr. Mead summed it up in this manner: "The German is tolerant of us. He doesn't like us more but he likes the Russian less. He fears the Russian. Germans by the thousands have fled the Russian zone and they have brought out some pretty harrowing tales."

The younger Germans, Dr. Mead said, are anxious to leave their country and emigrate to the United States or Canada. They are fatalistic about a war with the Western powers and are absolutely convinced that they will be caught in the big middle of the conflict.

Primary, secondary and university education are under the jurisdiction of Dr. Mead. Heidelberg University is located in his area.

According to the ex-head of Amarillo College, the high scholarship standards of the great German universities have been maintained. "We have outlawed the dueling fraternities, but they probably still flourish underground," Dr. Mead commented. Revamping the educational system is an uphill battle against passive resistance. For hundreds of years the Germans have operated under the theory that only the "intellectually gifted" are entitled to an education. As a result only about 10 per cent of the German youth complete a high school education. This corresponds to about 50 per cent in this country. The remaining 90 per cent are relegated to trade apprenticeship.

"What we face is the resistance of German educators who are threatened with a loss of prestige and the traditional prerogatives," Dr. Mead explained.

"When the war ended, our first step in attacking the educational problem was one of denazification. We destroyed Nazi textbooks and generally followed a negative approach. Now it is generally recognized that we should have first taken steps leading to a positive school reform and democratization of the German system. That amounted to the elimination of tuition, providing free textbooks, and making education opportunities available to all regardless of social or economic status," Dr. Mead continued.

He explained this problem is being followed now, but would have been much simpler if it had been inaugurated before the reactionary academic people, indoctrinated in the caste system, had stepped back

into positions of power. About the economic situation in Western Germany, Dr. Mead had this to say: "Since the currency reform, the prosperity of the country has increased immensely. In the Russian zone it has remained about the same or deteriorated. Now, if you have the money, you can buy about anything, either manufactured goods or farm products. In fact, the German mark has increased in value on the international exchange by 100 per cent. It now has more value than the French franc."

Dr. Mead said there are Germans with wealth in the American and British zones. They include three classes: The industrialists who are lined up for production with the ERP export program, those who made money on the black market during scarcity days, and the farmers who have a ready market for their crops, which were good last year and promise to be good this year.

None of the Germans would want Hitler back if he were alive, Dr. Mead believes. "Germans are pragmatists and Hitler was a failure. They can blame him with their defeat," the educator explained.

Day-to-day life in Germany goes on much as it has for centuries. The men are interested in sports. The unmarried women dance and play cards until they are married. Then their place is in the kitchen and with the children.

It looks to us that the future of the location of Co. F, 142nd Inf. Regt., in Perryton is not very bright. What is the reason for this gloom? The ground-work has been laid. The state guard officials are very anxious. Competent officers have been procured. Temporary quarters have been secured. But enlistments are not coming in. Less than 20 men have signed up to date and the minimum is 30.

Service in the National Guard provides many advantages for young men. They are exempt from draft training. If war should come, they are prepared. History has proven that from the ranks of the Guard come great numbers of army officers in time of war.

Every citizen of Perryton should lend their effort toward the enlistment of men for the guard. The establishment of a good guard company in Perryton means that soon there will be an armory built... a structure much larger and bet-

ter than local funds could ever provide. This armory would be available for every nature of community activity. American youth need military training

... the nation needs civilian soldiers... Perryton can help the youth, the nation, and secure a community building by putting over Co. F in Perryton.

Some of the valuable products produced in the gas are coke, ammonia, sulphur, and carbon black.

Venice Has Pigeon Dispute

VENICE (AP)—Venice is stirred up about the municipal action against pigeons of St. Mark's Square, beloved alike by tourists and Venetians. Their daily ration of 35 pounds of city corn, the town has decided, will be cut down to 22 pounds.

The city's fine arts division also stated that the pigeons were spoiling the roofs of St. Marks basilica and has put sharp steel edges on one of the favorite resting places.

It is calculated here that the pigeons—a Venetian landmark—number about 2,000. Since the war many have become accustomed to seek their food elsewhere and do not rely entirely on municipal corn. Kind Venetians who love the pigeons put food for them in their gardens or on window sills.

Protests are coming from pigeon lovers against the "sanctions" imposed by the city fathers. "Gazzettino Sera" published an angry letter from a Venetian, "against the inhuman treatment to the symbols of peace." But the town council has not budged. The pigeons will get short rations from now on.

For fast results, use want ads.

JOHN DEERE DAY—This picture, taken at John Deere Day at the Perryton Implement Co. last day, shows the crowd that lined up for baked ham and all the trimmings at the free noon meal. 1,000 persons attended John Deere Day, attending open house at the Perryton Implement Co. and the free movie at the Ellis Theatre Wednesday afternoon. Seven Confederate Veterans Hold Ranks of the Gray in Texas

By Martha Cole
AP Staff

—The ranks of the men who fought under the Confederate flag have dwindled to a few men in Texas.

These Confederate veterans are over 100 years old. One who is married receives a monthly pension from the state. The rest receive \$100 a month. The rest of their number have died in the past two years.

One man with long white hair and flowing white hair is Jesse James. Frank Dalton, he was put on the Confederate pension rolls of Texas in October, 1947. But last year he moved away from the state.

T. B. Iden, 1511 Egypt, Houston, 98, who served two months before the war ended in the infantry company of D. A. Nunn, Walker's Division.

Jeremiah P. O'Brien, Kirbyville 104, who served almost four years in Company K, 1st Virginia Cavalry.

Thomas Evans Riddle, Wichita Falls, 100, who served with the 12th Tennessee Infantry.

Walter W. Williams, route 5, Franklin, 104, who served in Cavalry Co. O, 5th Regiment, Hood's Brigade.

The last death in the ranks was that of W. N. Whitton of Timpson, who died at the age of 101 the first week of this month. He served in the home guard infantry of Captain Eubank's company, organized in Nacogdoches and San Augustine counties.

CARD OF THANKS

We wish to take this means of expressing our sincere appreciation for the kind expressions of sympathy, food, and floral offerings in memory of our beloved Donna Marie Perkins. Mr. and Mrs. Vernon L. Gross. Mr. and Mrs. L. E. Anderson 12-11c

Three old-time Ochiltree county men were business visitors in Perryton last week. They were Walter Hancock, Vinita, Okla.; J. W. Hancock, Canadian, Tex.; and J. D. Hancock, Nocona, Tex. For many years they lived in the south part of the county and are still interested in land in that area which has developed oil possibilities.

Ex-Sailor Finds There's Gold in Them Thar Bears

By ARCHIE CAMPBELL

SEATTLE—Sixty-five-year-old Charles Madsen, one-time Danish sailor boy, has parlayed a Kodiak bear into three luxurious yachts, and a prosperous business.

Madsen came around the horn 50 years ago in a Danish windjammer, Honolulu bound. Foe's life was rough then, so Madsen took a sailor's leave in the islands.

In the lounge of his latest yacht—soon to be named the Kodiak Bear III, he told of how the tidal wave of the gold rush of '98 washed him up on the Nome beach.

But he soon learned there was more gold hunting furs in the hills than digging for it in the ground, so hunting he went. He spent almost 20 years working out of Nome during the short sharp summers, up to Point Barrow and across the Bering straits, trading with the Eskimos for their furs and ivory.

"But the Bolsheviks came along during the first World War,"

says Madsen, "and put an end to my Siberian trips. I sailed my schooner 'south' to the Aleutians and into Kodiak Island. That's where the bears came in."

Madsen's prosperity is based on the attraction of Kodiak's famous giant brown bears to sportsmen who can afford to travel thousands of miles to look at them along the sights of a high-powered rifle.

His business—and the business of his company, Kodiak Guides, largest in the north—is to put a sportsman, as comfortably and safely as possible within 200 yards of a Kodiak bear.

"I don't shoot them anymore myself," he explains, "but I go along with my own rifle—just in case."

Madsen's yachts are strictly a business proposition. His newest vessel, formerly the \$250,000 Principia, he bought for \$65,000. It is 98 feet long, and will accommodate 22 hunters and their equipment.

His mode of hunting is to cruise offshore slowly, sweeping the island's terrain with high-

Charles Madsen looks at a picture of a giant Kodiak Bear. He has made a prosperous business of guiding hunters in search of the huge beasts.

powered glasses. When a bear of suitable size is seen—and "suitable" means to Madsen between 1,300 and 1,800 pounds—a party puts off in a canoe or other small craft to land and stalk the huge creature.

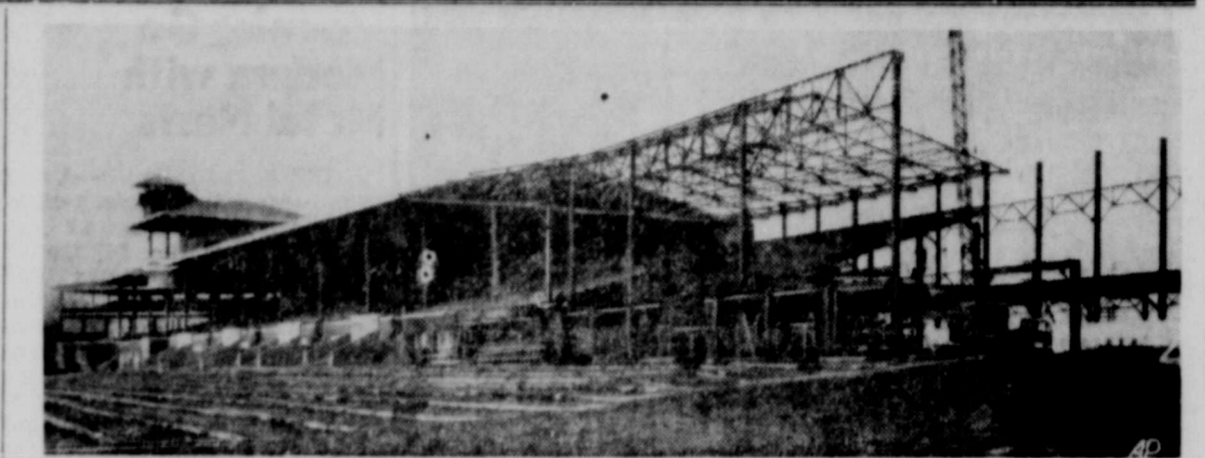

Record bear is one of 2,000 pounds, standing 12 feet high, killed by a Chicago man, J. B. Allen, with Madsen as guide.

He charges \$1,500 a head for 14 days, and is booked up through the spring hunt, most of the fall hunt, and has a substantial backlog already for the 1950 season.

He and his new vessel leave Seattle March 19 for Kodiak and the spring hunt. But no hired captain for Madsen, who says "I'll skipper her myself."

Madsen's sons, Alf and Roy, look upon their father's business as a way of life as well as a money proposition, and plan on taking over when their father retires.

Gayle Ferguson left Sunday to resume his studies at Kemper Military College, Booneville, Mo., after a week end visit with his parents, Mr. and Mrs. Frank Ferguson.

DELAWARE PARK STILL GROWING—While many racetracks have been cutting purses, Delaware Park, the beautiful country-type race track at Stanton, Del., continues to move forward. The above picture shows the construction work now going on to enlarge the grandstand. And the track has no daily double, a form of betting generally accepted as a crowd lure.

Mrs. F. C. Spencer and Grace spent the week end with Mr. and Mrs. L. M. Davis of Berger and Mr. and Mrs. Glen Tindle and children of Stinnett. On Monday they were in Amarillo on business and also visited in the home of Mr. and Mrs. J. L. Darnell and Joyce. They returned home Monday evening.

Jet Turbine Trains Predicted

LONDON—(AP)—Jet turbine locomotives are foreseen by E. S. Waddington, president of the British Society of Engineers. In his presidential address, Waddington also said radar may be developed in the next several

years as a railway safety device.

The many Perryton friends of L. O. Byerly, Clovis, N. M. sympathize with him in the death of his father, A. J. Byerly at San Antonio, Tex. L. O. was minister of the Perryton Christian Church for a number of years.

GOOD FURNITURE CO.

ON THE CORNER OF SOUTH AMHERST AND FOURTH AVENUE

MAY CURE PHIL'S ILLS—Eddie Waitkus, first baseman obtained from the Chicago Cubs by the Philadelphia Phillie, may be the answer to the Phils' infield troubles. He will draw around \$15,000 this year. He's one of the better first basemen in the business.

Cage-Y Dodgers

BROOKLYN, N. Y. (AP)—Several of the Brooklyn Dodgers are top-flight basketball players. Among the best basketballers are Ralph Brance, Eddie Miksis, Gil Hodges, Paul Minner, Rex Barney, Pres-

ton Ward, Jackie Robinson (who led the Pacific Coast Conference in cage scoring two straight years), and Pee-wee Reese, who is a nifty playmaker, shifty floor man and dead shot.

For fast results, use want ads.

Magpies Go Modern with Metal Nests

SYDNEY, Australia (AP)—A nest of an Australian magpie, a crow-shrike, was recently found by a naturalist to contain 342 feet of wire of various lengths and gauges. Ninety-five per cent of the material in the nest was metal, ranging through one piece of fencing wire 5 feet long, three pieces 4-5 feet long, 16 pieces 3-4 feet long down to brass and metal rings. In all, according to W. Martin, of East Kew, Victoria, who made the count, there were 227 pieces of metal. With their strong beaks the magpies had interwoven many of the pieces of tough wire into a circular nest and then lined their metal home with fibrous material. The nest was 20 feet up in a Norfolk pine.

The magpie's liking for metal materials in nest-building is responsible for many electrical breakdowns in Australia. The bird, with a length of wire in its beak, flies into overhead supply lines or builds its nest on the cross-trees of transmission poles. In some Australian states repair gangs are required to gather up all scraps after a job and spikes are placed on cross-trees to discourage the birds from nesting there.

FRITZ AND GRETCHEN WANT ARMY TO ACT

By RICHARD KASISCHKE

Newsfeatures
BERLIN—“Dear American military government: My Fritz is crazy about drinking wischgi (whiskey). He never drank wischgi before. It's all the fault of your occupation if our marriage goes on the rocks.” Letters like this one, signed by a young Hessian farm wife, are part of a flood of mail written by the occupied to the occupier in Germany.

The newspaper Abendpost at Frankfurt-on-Main recently rifled through some of this mail addressed to the American and British military governments and came up with an amusing column.

The lady who complained about her Fritz's new penchant for whiskey addressed herself to the impersonal military govern-

ment. trucks roaring noisily down their street during the daytime when papa slept. She sat right down and wrote to American authorities:

“My husband didn't lose the war, so I don't see why your noisy vehicles should disturb his sleep. Your missions aren't so urgent but you could use other routes.”

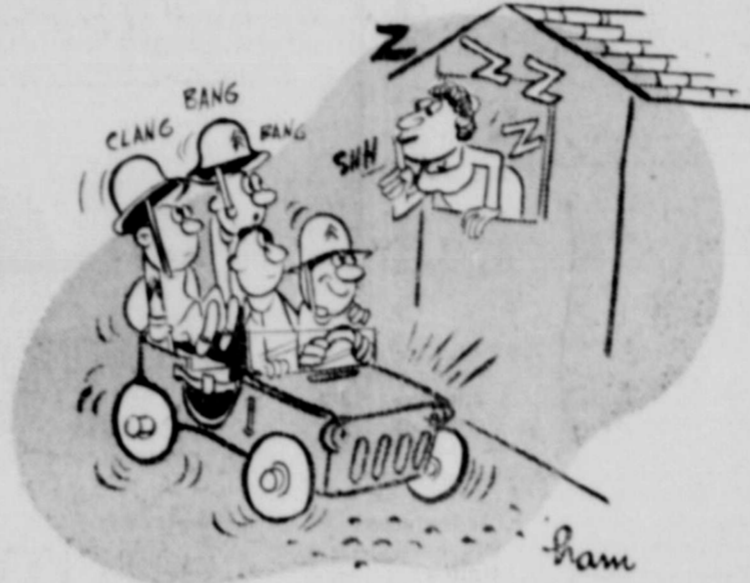

Phenomenal Servant

A servant girl who wants to emigrate to England wrote British authorities asking for a trial as a housekeeper.

“I'd be willing to take a trial job in the military governor's house and prove that I also sweep under the carpets and dust in the corners,” she wrote.

A juggler who wanted to go to the U. S., wrote the American Military Government:

“I can juggle seven balls for four minutes—a world record. I

Goes Right to Chief

But a doting father in Frankfurt went right to the top. He wrote to U. S. Commander-in-Chief Gen. Lucius D. Clay to complain that:

“My daughter loves only Americans and American things since you people came here. This breaks my head (das zerbricht mir den Kopf).”

Then there was the housewife in Nuernberg whose husband worked nights. She didn't like the idea of U. S. Army jeeps and

don't claim I'm perfect, but I seldom drop a ball. Only the Pope is without fault. But, on the other hand, he can't juggle.”

A farmer in Schleswig (British Zone), wrote the local British commander about what he thought an “astounding” experience.

“I was walking through my corn field the other day,” he said “when I discovered one of your soldiers, lying there and sunning himself. The most amazing thing to my mind, was that he had no girl with him.”

Singapore Gets U. S. Cigarettes

SINGAPORE (AP)—American cigarettes have been barred from Singapore for three years, but they're as plentiful as the rains in this Southeast Asia port.

Every so often a stern slap on the wrist is aimed at those who evade regulations and use up valuable United States dollar exchange for purchase of non-vital American cigarettes.

Such a campaign is being pushed these days with all the drive and enthusiasm of a walk in the tropical sun.

Along with other lands in the British sterling world, Singapore seeks to use its U. S. dollars to buy such essential commodities as chemicals, metals, and the like.

Why then can a smoker stop at any store and buy all the American cigarettes he wants for the same price (about 30 U. S. cents) as are asked for comparable British brands?

Too strenuous customs endeavors might irritate legitimate importers. “We must strike a sensible balance,” explains a British official with a good-natured shrug of his shoulders.

When is it anticipated that the present supplies will become exhausted and—as happens when stocks become scarce—prices will climb? Officially, perhaps in a few months. Unofficially never.

Incidentally, American cigarettes aren't too sought after in this faroff land. The American colony is small and the British prefer British ones.

Booker Girl to Give Recital at TSCW

DENTON, Tex., March 21.—Miss Marjorie Hummer of Booker will be presented in her Junior Piano Recital Tuesday (March 22) by the Texas State College for Women Department of Music. Miss Hummer will play “Impromptu Op. 36” (Chopin); “Intermezzo Op. 117 No. 1” and “Capriccio Op. 116 No. 1” (Brahms); and “Sonatine” (Ravel).

She is the daughter of Mr. and Mrs. D. D. Hummer of Booker.

Mr. and Mrs. Rod Symons and Rodney were in Dodge City last weekend visiting Mr. and Mrs. B. C. Cooley. Mr. Cooley underwent an operation at St. Ann's hospital there. After he few days in Perryton before returning to their home in Oregon.

A home for \$100 down and \$29 a month. You'll find it in “YOUR HOME” section of the Herald, March 31.

Historic Fake Cited in Limerick

LIMERICK, Eire.—(AP)—The “Stone of the Broken Treaty”, which many American tourists have photographed, is a historical phony, according to the Limerick city librarian, Richard Herbert.

For many years the stone, on a bridge in Limerick, has represented “the perfidy of England”. In 1691, legend has it, the stone marked the spot where King James and his Williamite followers signed a treaty which was broken by the English “before the ink on the document

was dry.”

“This hulk of stone is the greatest historical fake ever perpetrated,” says Herbert.

He asserts there is documentary evidence to prove that the treaty was signed in the camp of King William's army outside of Limerick, probably on a table.

Orrill Daniels came in Sunday from Boulder, Colo., where he has completed his pre-law work at the University of Colorado. Orrill will work at the Bryan Food store until September when he will return to Boulder to enter law school.

Indian Railway Crowding Assailed

NEW DELHI.—(AP)—Passenger traffic in the lowest class in Indian railways has “shameful” extent, said the minister of state for railways, in the legislature today. He gave these figures to explain the cause of overcrowding.

“Passenger traffic had increased from 32 millions a month in 1939 to about 88 million in 1948. The number of carriages, however, increased from 11,640 in 1939 to 10,630 in 1948.”

Carbon 14 May Date Mummies

BALTIMORE—(AP)—Archaeologists hope that a new method will soon enable them to put a date-tag on every ancient bone and basket. It all started when scientists found considerable carbon-isotope 14 in Baltimore sewage.
Carbon-isotope 14, like ordinary carbon, is apparently found in all living matter. But it has some peculiarities which may make it an accurate recorder of time. If the theory works, it may be possible to tell the age of an Egyptian mummy—within limits of a very few years—by measuring the amount of isotope 14 in its bones.

Some archaeologists say the technique could be used as a check on the authenticity of religious relics—such as the fragments of the True Cross in the Church of the Holy Sepulchre at Jerusalem. A measurement of isotope 14 might show whether a relic is old enough to be genuine.
Dr. William Libby of the Institute of Nuclear Research, University of Chicago, is trying to determine just how far isotope 14 can be trusted as a time-clock. If his experiments are successful, Prof. William F. Albright of Johns Hopkins University (Baltimore) hopes to try out the new technique in Egypt and the Bible lands. The key to the theory is radioactivity.

Carbon-isotope 14 is heavy radioactive form of carbon that gradually turns into nitrogen as it gives off beta rays. It has an atomic weight of 14, while ordinary carbon has an atomic weight of 12.

The carbon-14 in living matter keeps on giving off beta rays and turning into nitrogen, just as it does in the air. However, living organisms keep getting more of it along with ordinary carbon, so that they have about the same percentage of it that the air has. (It is formed originally from the nitrogen in the air, by the energy of cosmic rays.)

When a plant or animal dies, it stops getting new carbon. But the carbon-14 keeps giving off beta rays, and eventually disappears by turning into nitrogen.

Thus, professor Albright hopes it may be possible to tell, from the amount of carbon-14 still remaining in a mummy's bones, just when the mummy was buried. The age of a wooden basket in an Egyptian pharaoh's tomb may be calculated in the same way. Just how accurate the method will be depends on the outcome of Dr. Libby's experiments at Chicago.

Fresh methane gas from sewers provide enough for the scientists to work with. Dr. Libby has no particular reason for using Baltimore sewage rather than

Ochiltree Land Case Opens In Federal Court

Hearing of the case of Murphy versus Schneider, a family affair involving title to a 54 per cent interest in 4,480 acres of Ochiltree county land, opened last week in Federal District Court in Amarillo.

The case is an inter-state affair, plaintiffs living in Kansas City and defendants in San Francisco.

The land in question is 14 sections, located in the northwest part of the county. Sections 71, 73, 75, 77, 79, 81, 83, 85, 87, 89, 91, 93, 95 and 97 in block 11 are involved.

Records at the county clerk's office show that original patents on this land were issued in 1873 to John Kelley, an Englishman. His son, Arthur B. Kelley, inherited the land and it has been administered for many years by L. L. Lance of Perryton.

Mr. Kelley died in Kansas City on May 10, 1943.

The suit is between Mrs. May Kelley Schneider and the Murphy and Boughan Trustees.

Ancient Business Machine Does the Job

SYDNEY, Australia—(AP)—By using an abacus a Sydney clerk can answer in less than 20 seconds a question like what is 13 1/2 per cent of \$262.46.

An abacus is a counting frame with colored beads strung on wires. It was used by the Babylonians, Egyptians, Greeks and Romans and still is used in China. The Sydney clerk, Mr. C. T. Browne, uses the abacus at his job and claims it reduces his work considerably.

In a test he multiplied two four-figure numbers by each other and checked the answer twice before another clerk, skilled in arithmetic, could get the answer once.

John Bull Better Be Good

CHATHAM, Eng.—(AP)—John Bull was fined \$8 for not paying his train fare. He's a chief petty officer in the navy.

All we know is what you tell us. Phone 67!

the sewage of other cities, except that officials of the large disposal plant happened to be co-operative and had supplied industrial scientists before.

As far as can be told at this stage, carbon-14 probably takes 6,000 years to disappear so completely that it cannot be measured. Accurate dating methods for ancient Egypt go back only 4,000 years—and only a few particular reason for using Baltimore sewage rather than

BAD HEEL CAN'T STOP JOE—Joe DiMaggio's heel trouble, dating back three seasons, still can't stop the famed New York Yankee slugger. Last year, he played 153 games, in spite of trouble with both legs, and is expected to be on hand when the opening game rolls around this year. He is now recovering from the third operation to remove a bone spur from his left heel. Shown above is the famous DiMaggio batting form.

Poland Pushes Port Plans

SWINOUJSCIE, Poland—(AP)—Poles are building Nazi Germany's famed submarine base of Swinemunde into a great hub for east-west traffic. The gov-

ernment intends to spend over \$675,000 this year in rebuilding this war-damaged port and expanding facilities for handling trade.

The gas utility companies in this country employ about 160,000 workers.

Slick Pavement Blamed for Two Wrecks Sunday

Rainy weather and slick pavement were blamed for two accidents in the Perryton area Sunday afternoon.

A Ford pickup driven by John Morris, age 18, turned over on highway 83 about nine miles south of Perryton at approximately 5:40 p. m. Sunday. Morris suffered cuts about the head and was taken to the Sanford Hospital for treatment. His passenger, L. H. Albright, was not injured.

The vehicle skidded off the pavement, hit the shoulder, turned over and landed on its wheels, stated highway patrolmen who investigated the accident.

Another accident took place late Sunday afternoon on highway 117, about 12 miles west of Perryton when a 1947 Chevrolet pickup owned by J. H. Callham turned over and was heavily damaged.

Neither the driver, Bill Burch, or his passengers, Ray Burch, Roy Burch and Barney Baker, were injured.

Highway patrolmen Jack

Services Held Saturday for Donna Perkins

Funeral services were held in the Boxwell Brothers Chapel on Saturday afternoon for Donna Marie Perkins, daughter of Mrs. Vernon L. Gross of Weatherford, Texas and William E. Perkins of Perryton. Rev. O. C. Curtis, pastor of the First Baptist church, officiated at the final rites.

Donna Marie was born October 4, 1939 in Perryton and died on March 17 at the age of nine years, five months and 13 days. She had been an invalid for the past seven years and had been confined to the hospital for the last six years at Enid.

She is survived by her parents, her grandparents, Mr. and Mrs. L. E. Anderson of Perryton and Mr. and Mrs. E. B. Lowell of San Diego, Calif.; a host of relatives and friends.

Shields and Bob Loving stated that the pickup skidded on the wet pavement, turned over, left the pavement and flipped over the fence at the right hand side of the road, breaking only the top strand of wire.

Fashionette Shop Is Leased by O'Betra Lewis

Announcement has been made by O'Betra Lewis that she has leased the Fashionette Beauty Salon from Augusta Mae Collingsworth. The firm name will remain unchanged.

Mrs. Lewis formerly worked at Ruth's Beauty Salon, and has had wide experience as a beauty operator. She extends an invitation to old and new customers to visit her in the Fashionette Salon.

Bond Sales Hit \$125,000 in Feb.

Ochiltree county residents purchased \$125,332.50 in U. S. Savings Bonds during February, a report of the Treasury Department reveals.

Of this amount, \$123,862.50 was in E bonds and \$1,470.00 was F and G bonds.

Dorrance Woodward was in Amarillo last Friday on business.

Ceramics Classes Begin March 28

Classes in Ceramics will start Monday morning, March 28. Mrs. Geo. Lewis, Borger, will hold three classes daily next week in the home of her mother, Mrs. L. H. Sharpe, 809 S. Amherst. Classes will be each day at 9:30 a. m., 2:00 p. m., and 8:00 p. m. The instruction will be the same each day in the three classes.

During the week's instruction, Mrs. Lewis will cover the basic course in ceramics. Each class is two hours. Everyone bring a notebook and pencil to class on Monday.

Mrs. Lewis, who is well known for her art work in this community, has recently opened the Lewis Ceramics Shop in Borger. Every person interested in this course in Ceramics, should attend one of the opening classes next Monday.

If more details are desired, see Mrs. Sharpe, 809 S. Amherst, or phone 180-J.

Hankins Attends Oil, Gas Institute

A. B. Hankins, a member of the law firm of Boyer, McConnell and Hankins, is in Dallas this week attending the First Annual Institute on oil and gas.

This institute is sponsored by the Southwestern Legal Foundation for the benefit of lawyers desiring to keep abreast of the many new problems connected with oil and gas development.

Leading lawyers of the country, who specialize in oil and gas law, will present the many lectures during the institute.

Hankins, who is a graduate of Texas Tech and also a graduate of the University of Texas, joined the Perryton law firm in 1946.

Mr. and Mrs. Herbert Gray, Liberal, Kansas, announce the birth of a daughter at the Epworth Hospital on March 16. Mrs. Gray was formerly Miss Izetta Swiger of Balco, Okla.

Laymen's League Members Assist in Pre-Easter Work

In connection with the Pre-Easter program at the Christian church, "Gateways to New Life", the Laymen's League is taking the responsibility of contacting church members this week.

Members of the League will meet at the church on Tuesday night at 7:30 o'clock to begin this work.

This Membership Reconciliation Week will be climaxed by a special service on the morning of March 27. Slogan for this week is "Every Member Present or Accounted For, March 27."

The pastor, Charles E. Boatman, will do the preaching for the Easter Revival beginning April 3 and continuing through April 17.

Many drugs, chemicals, perfumes, dyes, saccharin and valuable oils are made from coal tar.

The first natural gas well drilled in this country was at Fredonia, N. Y., in 1821.

Will television scrap your fireplace? See "YOUR HOME" in the Herald, March 31.

Hamburg to Cut Window Lighting

HAMBURG, Germany—(AP)—Because of the criticism of the British community here, German shopkeepers have been ordered to cut down their window lighting and neon signs.

Britons pointed to the difference between austere Britain, where electricity is severely rationed, and Hamburg where shop window lights were left on all night for display and the whole city has become out in a rash of neon signs.

A British official statement said the shops and signs used only one-half of one per cent of the total Hamburg load. The city was already exporting one-third of its electricity production and planning to export more, the statement added.

The number of officers in the U. S. reserve army was reduced from about 68,000 in 1920 to about 5,000 at the outbreak of World War II.

The male killer whale has a scimitar-shaped dorsal fin six feet high and as the beast swims just at the surface, the waving fin looks like the neck of a serpent. This is responsible for most of the sensational sea-serpent stories.

Blue Nile Dam Frets Diplomats

ADDIS ABABA—(AP)—If at long last a dam is built across the headwaters of the Blue Nile at Lake Tsana in Ethiopia, as has been reported recently, an old and complex diplomatic question will have been settled in this part of Africa.

The Blue Nile dam problem has long occupied a prominent and permanent place in Anglo-Egyptian relations, and sometimes in Anglo-Italian relations. Ever since the turn of the present century England's diplomatic activity in this particular part of Africa has been postulated on a Lake Tsana dam concession, or at least a guarantee that no other interest should be permitted to tamper with the Lake Tsana water supply.

Between World War I and

World War II, Italian was storing in these the present time, with no longer responsible for Italian affairs. Egypt has been desired to dam the Nile in the Blue Nile in the Nile and insure water great Gezira irrigation and the entire Nile system.

The total capital of the U. S. gas industry is nearly six billion dollars. The gas industry has gathered, transmitted and gas to consumers.

There are 17,000 miles of natural gas pipelines. There are 17,000 miles of natural gas pipelines. There are 17,000 miles of natural gas pipelines.

VISITORS ARE INVITED

A house of a type of construction new to Perryton is being built by A. R. Macias, a local builder of S. W. 14th Baylor St. The frame work is precision cut and manufactured by Panhandle American Houses, Inc. of Amarillo. This company manufactures all types of wood frame structures including farm buildings, garages, and one and two story residences of a wide variety of design. Panhandle American Houses structures are nationally approved by Federal Housing Authority and the Veterans Administration.

These structures are manufactured in Amarillo and trucked to the site with windows hung and weatherstripped and exterior doors hung ready for application of lock trim. The floor of 2 x 4 and 2 x 10 West Coast fir is assembled with 1/2" fir plywood sub-floor and the structure is raised and enclosed by a crew of four or five men in a little over a day. From this point on, the application of exterior and interior finish is conventional. Any sort of exterior finish can be applied including brick veneer.

All of the panels used in the manufacture of a Panhandle American House structure have been tested by the National Bureau of Standards and their report issued June 7, 1940 bulletin BMS47 states that a typical wall of this construction is several times stronger than a diagonal lumber sheathed wall. This should be of interest to home buyers of the Plains section of Texas.

BUSINESS OPPORTUNITIES

MEN READ CAREFULLY

I want to talk to seven men who are really ambitious in securing a position that will give them steady employment the year around. In other words, there are no lay-off periods and consistent income is the income that counts.

It doesn't matter what your past employment has been, we teach you our work. It will be necessary that you be willing to get along on \$75 or \$80 a week for the first 4-6 weeks while learning our work.

If you are mechanically inclined or can handle men in a supervisory position, you can present income is not satisfactory, answer this now.

You must be able to give the names of three people who will vouch for your honesty and integrity.

We prefer men who are married or men who have some sense of responsibility and have a car. We will present our plan only if your wife accompanies you. Her happiness is contingent on your success and we feel she should know completely the first time what you will be offered.

Therefore, if you are honest, of good character, willing to work hard in appearance, apply at the Hotel Perryton, Thursday at 7:30 p. m., and Friday at 7:30 p. m. Ask for Mr. Davidson, Room 208. 12-1t-c

Old Violin Secrets Believed Found

ROME (AP)—A 35-year-old ex-soldier who started making violins as a pastime while he was a prisoner of war in Africa thinks he may have rediscovered some of the lost secrets of Italy's great craftsmen of the past.

At any rate, the instruments that Franco Ponzio has been turning out in his tiny shop on Rome's Aventine Hill are increasingly in demand among professional musicians.

With age, the knowing say, they may even compare favorably with the violins the Amati, Stravaria and Guarneri put together centuries ago.

Ponzio—short, stocky, swarthy, mustache and modest—himself makes no such claims, merely expressing belief that his experiments with new formulas for varnish have developed something better than modern Italian violin-makers are using.

Although he has unfilled orders, Ponzio expects to sail soon for Buenos Aires. An application he made long ago to emigrate to Argentina, where he has relatives, has just been approved. He expects to continue his trade in his new homeland.

In the Spring a Young Man's Fancy Is Baseball

(P) Newsfeatures

The 16 major league teams are busily engaged in pre-season preparations for the baseball campaign. Here are five typical spring training scenes from Florida camps.

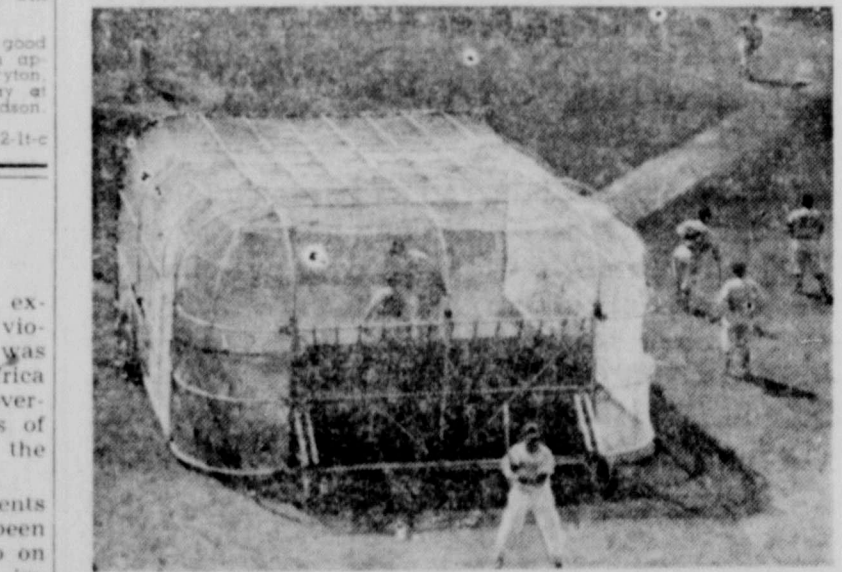

LIMBERING UP—The Philadelphia Athletics go through exercises at their West Palm Beach camp.

JOGGING—Running around the field at Lakeland to loosen tightened muscles is in order for the Detroit Tigers.

THROWING—The Boston Braves, surprise winners of the National League flag, give their arms a workout at Bradenton.

BATTING—The eyes of the power-packed Boston Red Sox hitters are sharpened at their Sarasota base.

LECTURING—Manager Eddie Sawyer of the Phillies tells his players at Clearwater what he expects of them.

Soviet Music Still Assailed

MOSCOW (AP)—Soviet youth is not responding as correctly as it should to the call for more and better music writing, says B. Yarustovsky, writing in Izvestia. He says progress undoubtedly has been made and cites

Arutyunyan's "Cantata of the Motherland," and "Symphonietta" by Vainberg.

At a recent students concert devoted to the Eleventh Congress of the Komsomols, he says, there were too few works linked with the characters and feeling of Soviet youth.

One-Act Play to Be Presented at School Monday

The speech department of Perryton high school will present a one-act play at the high school study hall on Monday night, March 28, at 7:30 p. m. This is the one-act play that PHS will enter in Interscholastic League competition this year.

It is the second act of "Our Town", famous play by Thornton Wilder, a play which the speech students presented earlier in the year.

Admission is 30 cents, the admission charge being necessary because it is a royalty play.

Those appearing in the play are Camilla Kelley, Jerry Key, Harold Malene, Don Rogers, Zona Donley, Larry Slaughter, Marian Day, Raymond Powell, Jerry Ward, Bunny Fletcher, and Eugene Waide, with Grace Sharp as student director.

Appearing between acts will be the girls' trio composed of Betty Lawrence, Beverly Hale and Janette Waugh; the girls' chorus, under the direction of Miss Len Lowe; and an instrumental duet, with Delbert Trew and Curtis Leicht.

In 1948 gas utilities sold about 3,400,000 thousand cubic feet of natural, manufactured and mixed gas to ultimate consumers.

Store, a \$35 check to the Super Market, and his wife, Margaret, cashed a hot check at Anderson Shoe Shop for \$30.

All of the checks were signed by a Mrs. Ruth Uxer, and endorsed by Allen Uxer, except the one given at Anderson's, which was indorsed by Mrs. Margaret Uxer. All were drawn on the First National Bank of Perryton.

Since apprehending Uxer, officers have discovered that he has a record of passing forged checks in Artesia, N. M., Paris, Texas, and Perryton. He broke jail in Floydada on November 24 while imprisoned on a hot check charge, and officers believe he is responsible for similar offenses in Meade, Liberal, Wellington and Shamrock.

No. 9 Continued from Front Page

comfort of the customers, two new lounge divans and an electric water cooler have been placed in the main showroom.

The large radio repair room and offices of the Northern Finance Co. are located at the rear of the building, just off the main showroom.

The public is invited to visit the newly remodeled store.

develop trackage lots.

Thus far, there have been six oil well supply houses to contact the Planning Board, seeking an industrial site. They came from Borger, Pampa, Oklahoma City and Tulsa. All were satisfied that they could secure the necessary sites.

Halliburton Here

The Halliburton Oil Well Cementing Co. has signed a lease contract with the Chamber of Commerce on 300 feet of trackage, located just east of the Ferguson Ready-Mix Co. This property was leased by the Equity to the C. C., who in turn leased it to Halliburton. A year's rent has been paid.

Just east of that, the Andarke Supply Co. is constructing a new 40 by 80 ft. building on a 200 ft. site. This building is being constructed by the McGregor Construction Co. and is expected to be ready within a short time.

Meanwhile, the Chamber of Commerce office has been asked for help in locating other types of business locations. These requests include a cafe from Electric; a public accountant from Mission; a steam laundry from Amarillo; a plumbing company from Amarillo; a welding company from Oklahoma City and a dry goods store from Pampa.

Royalty Trading Brisk

Royalty trading is brisk, as reflected in the records filed in the county clerk's office. There have been 35 royalty deeds recorded in the past few weeks. Sue Ragan, county clerk, stated that 123 instruments had been filed since March 1.

Sinclair-Prairie, Gulf and Texaco are the three majors with extensive lease holdings in Ochiltree county, with sizeable acreage being leased by individuals. There is still some land not leased, however.

The news has spread far and wide about Ochiltree county's oil play. Mrs. Ragan stated that her office has received many requests lately for certified copies of deeds to land sold by the owners during the dust bowl days. Coming from such places as California, Pennsylvania and other far off states, they all want to know the same thing.

They want to see if they reserved any of the mineral rights when their land was sold.

No. 4 Continued from Front Page

Election judges for the Perryton district election will be J. N. Comley, presiding judge, Lee E. Rawlings, Rev. O. G. Curtis, Mrs. Cecil Dodd and Mrs. Vance Apple. At Farnsworth, judges for the Perryton district election will be Dean Conner and N. P. Dear.

Election judges for the other school elections have not been announced.

It's Your Choice

VFW To Install New Officers Tuesday Night

Installation ceremonies for the new officers of the Veterans of Foreign Wars post will be held Tuesday night in the VFW hall. Coffee and doughnuts will be served.

New VFW officers are Alvin Koehn, commander; Carrol McClung, senior vice commander; Miles Sumpter, junior vice commander; and Bernard Phelps, chaplain.

Outgoing officers are Frank Shaffer, commander; Irvin Molesworth, senior vice commander; Jimmy Hinesley, junior vice commander; and Clyde Ragsdale, chaplain.

No. 2 Continued from Front Page

either hand, like a baseball. Another, Red Mason, is known as the "Red Skelton of the courts," for her comedy.

The Red Heads are on their way back to Missouri after having played in Oregon, Washington and California for the past two months. This is a different team than the one which appeared in Perryton last year.

Playing with the Legion in this final game will be Lindsay McWilliams, Irvin Williams, Bob Schell, Tommy Fletcher, E. R. Bell, Edward Dear, Joe McClung, Johnnie Revis and Raymond Powell.

Light Rain Brings .31 Inch of Moisture

More rain for wheat fields already moist and green came for the Perryton area on Sunday and Monday. The light rain, which started at around 2 p. m. Sunday and lasted until Monday afternoon, brought .31 inch of moisture. The rain was general over the Panhandle and South Plains.

Local Men to Open Fountain Room

The Fountain Room, located in the Blue Bonnet creamery building, has been leased by Irvin Williams and Lindsay McWilliams, and will open on April 1. Free coffee will be served on opening day, the owners have announced.

Sandwiches, coffee, ice cream, fountain drinks, candy and tobacco will be sold at the Fountain Room. The interior is being remodeled.

Irvin Williams will manage the business.

The public is invited to attend the opening on April 1.

Want Ads are economical, too.

Crime Goes To Court

MEMPHIS, Tenn. (AP)—Judge William J. Bacon thought he had disposed of all his criminal cases for the day. But when he returned to his office from the courtroom he found he was wrong.

Somebody had stolen his overcoat.

Futility Dept.

NEW YORK (AP)—In addition to some very fancy passing marks set during the 1948 National Football League season, the bottom of the statistics table shows 17 gridgers failed to complete a single heave. These 17 tossers threw a total of 27 passes and none of them clicked.

The umbrella bird of America is so named because a large crest, resembling an umbrella, falls forward and it almost conceals the bird's face.

The most common among savage peoples is some particular kind of is the guardian or protector of each clan or group.

SO EASY, IT'S **CHILD'S PLAY**

MOTHER'S LITTLE HELPERS!

... to wash the **AUTOMATIC ELECTRIC WAY!**

Yes, even little sister can do the washing with an automatic electric washer. She simply puts in the soiled clothes and soap, sets the controls and the washer does the rest. All by itself, it cleans the clothes thoroughly, triple rinses them in clean water and spins them damp dry. It even drains itself and shuts itself off when the clothes are ready for the line.

You'll be amazed at how easy it is to wash with an automatic electric washer. And it costs so little to operate that a few cents worth of electricity will do an entire week's washing. Ask for a demonstration today!

points. The Baiko Future Farmers of America Boys box supper went over in a big way Friday night. There were people from several places, including Beaver and Perryton. Ouida Saunders was crowned F. F. A. Sweetheart. The runners-up were Erlene Pugh close behind and then came Dorothy Lee Cornell and last but not least came Patricia Cornell. The Sweetheart was rewarded with an F. F. A. jacket like the boys, with her name on it. There was some entertainment put on by the Okene F. F. A. boys. They put on a very nice program of entertainment. It consisted of a few songs and a few tricks in magic.

Cecil Roberts from Beaver won the 900-lb Angus fat steer that was given away by the F. F. A. boys. The Baiko Grade School girls and boys entered in the Grade School tournament at the Bethany Gym. They won both games. They played both Thursday and Friday and will play in the finals Saturday.

Mary Ann Penner has been out of school for the past week with tonsillitis. We miss her and hope that she will be able to be in school this next week. Franklen, Marie, Marolyn and Carolyn McGlamery went to Amarillo, Texas Saturday. Mr. and Mrs. H. E. Cornell also went to Amarillo Saturday. Dorothy and Patricia went with them.

The Baiko girls glee club have entered in the Fine Arts Contest at Beaver and also a contest at Goodwell. We are going to have an Annual book this year, for the first time at Baiko. They are taking pictures for it now. Some of the pictures have already been taken, it may not be the best, but we will be proud of it anyway. Leon Pugh is home again. He has been at Baxter Springs, Kansas at the Bible School. We are glad to have him back. Dloren Claybrook was home for the week end. He is going to Goodwell College. The outside women of Baiko played Adams Monday night, they lost but it was fun anyway. Well, the six weeks' report cards were given out this last week, even though they were a

Blue Mound
Mrs. H. E. Pattison
Grange met Monday night in the home of Mr. and Mrs. Levi Blosser with fifteen members and one visitor present. A quiz program was enjoyed, after which a delicious plate of refreshments was served.

The next meeting will be held in the home of Mr. and Mrs. Lewis Rorabaugh. Mr. and Mrs. A. W. Pattison entertained Mr. and Mrs. Clifford Pullis of Booker last Sunday with a six o'clock dinner. Mr. Joseph Smoot Jr. of Laverne visited Sunday in the home of his sister, Mrs. Wendell Ferguson and family.

Mr. and Mrs. Corwin Padgett and son spent Tuesday in the home of his parents, Mr. and Mrs. E. M. Padgett. Mr. and Mrs. A. C. Partridge, Mr. and Mrs. Levi Blosser, Mr. and Mrs. Wendell Ferguson and Anesia were in Liberal last Thursday.

Mrs. May Pattison spent last week end in the home of her son, La Yaun Pattison and family. Charles Pattison spent Saturday night in the home of Robert Potts of the McMillen Community.

Mr. and Mrs. Gilbert Mize were in Lubbock Saturday and Sunday visiting relatives and friends.

ax system, of which Poles continually complain.

Chinese Christian Has Trouble
SINGAPORE—(AP)—Hsu Chiant Si has started a one-man religious crusade in the face of ridicule and insults. The Chinese merchant tagged a large board on the rear of his motor car. On it is written in both English and Chinese the words, "Christ Jesus came into the world to save sinners."

His tribulations are many. Attempts have been made to smash the board. Other persons have scribbled obscene words all over it. Hsu simply erases the offensive language and repairs the board.

His reaction is to say, "There are at least some people in Singapore who are taking notice of my crusade."

don't DO that!
Polish Comedy Laughs At Government

WARSAW, Poland—(AP)—Poles are laughing openly at their Communist-led government. They sit in a theater to do it because a young man named Jerzy Jurandot has turned out the nation's best post-war semi-musical comedy called "Nowe Proradki." It means "The New Order." It's now playing the newly-built "Syrena" theater in Warsaw.

Acting as his own master of ceremonies, Jurandot, with marionettes, portrays vividly the characteristics and statements of leading government personalities. These include Premier Jozef Cyrankiewicz; Hilary Mine, minister of industry and trade; Konstanty Dabrowski, minister of finance, and Zygmunt Modzelewski, minister of foreign affairs.

Jurandot keeps his audience laughing out loud by "intervening" the marionettes on all the things Poles talk about—wages, meat shortages, and international politics. He also cleverly lambasts the government's

little lower than before, every one was well pleased and they all hope to do better next six weeks.

Two of our teachers left this week Mrs. Lallement and Miss Gene Lallement went to Fritz, Texas. Now we have Mrs. Mada Hagen and Mrs. Wendell Pittman teaching in their places.

Mr. and Mrs. Erven Mitchels baby has been very ill in the hospital.

Roscoe Elliott of Alva, Okla. spent several days last week in Perryton looking after his land interests.

New Moscow Play Raps U. S. Justice

MOSCOW—(AP)—A new play about the United States—"The Crime of Director Riggs"—has opened in Moscow.

The time is the last year of the war when Roosevelt was alive.

Riggs, the hero of the play, lives in a small city where he teaches school. The town's "boss" is a Senator. He is pictured as "the servant of Wall Street".

The play deals with the conflict between Riggs and the Senator and ends up, according to a local critic, showing "how horrible is the machine of justice in the USA."

Some 35 states are served with natural gas.

'LILLI MARLENE' GIRL TO TRY MOVIE ROLE

By GEORGE BOULTWOOD

(AP) Newsfeatures

HAMBURG, Germany—Back in 1938 an unknown cabaret singer recorded a song by two equally unknown German tunesmiths.

That record is now a collector's piece. One cracked disk is carefully preserved in a British song publisher's office in Charing Cross Road—London's Tin Pan Alley.

The song was "Lilli Marlene" a slushy, sentimental soldier's song about the girl at the barack gate. It became the theme song of Rommel's Afrika Korps.

It was "captured" by the British Eighth Army in the western desert and soon became a favorite of the Anglo-American armies.

The singer was Lale Andersen—German-born, but brought up in Norway.

She still sings it to British troops in Germany. She's no beauty, but her throaty voice is well suited to the syrupy melody. The song brought her fame—the latest evidence of which is a film part in Italy.

Miss Andersen says she is to go to Italy to star in a new film directed by famed Dulio Coletti, who made the prize-winning "Open City."

Her co-star will be Austrian Emil Jannings. It will be his first postwar film. The picture, "LaBida" (The Dike) will be made partly in Rome and partly in Austria. Miss Andersen claims to be the first German actress to leave the country under contract in the normal way. She says the others had to marry to get out.

She likes her role very much. It is simple. She is to play a 30 year old woman irrigation engineer.

Lale has probably done better so far out of the song than its German authors. When published in Britain its sheet music and records had tremendous sales. It became the "Tipperary" of World War II. Royalties were paid to the custodian of enemy property. Whether the Germans will get any of the money depends on the terms of the German peace treaty when it is signed.

TO TRY FILM—Lale Andersen, who rose to fame singing the war song, "Lilli Marlene," is going to Italy to make a movie with Emil Jannings.

Mrs. Jake Dunkle and Steve spent from Wednesday to Sunday visiting in Texline, Texas, with Mr. and Mrs. Ulmer Batey.

R. C. Johnson of Lubbock was in Perryton last week on business. He is a former resident, having owned the Ford agency in Perryton for a number of years.

Garland Cartwright of Borger a former Perryton resident, visited friends and relatives here Monday.

EXPLAINS SCHOOL BILL—Senator James E. Taylor of Kerens, Texas, chairman of the Gilmer-Aikens committee, (back to camera) explains the committee's three public school reorganization bills at a public hearing held by the House Education Committee in Austin, March 16. Members of the House committee are at a long table in the center. Part of the large crowd that attended the hearing is seated in the background. (AP Photo)

Veteran Forum

Q. As the widow of a World War I veteran, I desire to file my application for a widow's pension. Must I file it in the city where my late husband died?

A. No. The application may be filed at your nearest regional office of Veterans Administration, or may be mailed to the Dependents Claims Service in VA's Central Office in Washington.

Q. I am a World War I veteran and was married in 1947. Will my wife be entitled to a pension at my death?

A. No. The law provides that the widow of a World War I veteran may be paid a pension only if married to the veteran before December 15, 1944.

Q. I hope to take on the job training under the GI bill and would like to know the amount of subsistence paid by VA and the maximum I will be permitted to earn in order to get full subsistence.

A. If you are single with no dependents, you will receive a subsistence of \$65 a month, or \$90 a month if you have one or

more dependents, provided your income from productive labor is not over \$145 a month if you have no dependents; \$180 a month if you have one dependent; or \$200 a month if you have more than one dependent.

Q. I am attending school under the GI Bill. Am I entitled to unemployment allowance during summer vacation?

A. In order to qualify for readjustment allowance during your summer vacation, you must notify VA that you want your subsistence allowance discon-

tinued, and register with a public employment office to show that you are actively seeking work.

Lack of Complaints Fret Americans in Germany

BERLIN—(AP)—Trying to get the Germans to police their own government is one of the hardest jobs attempted by U. S. military government.

If an American doesn't like

the way his congressman or alderman votes, or the way a civil servant treats him, he raises a loud public beef. But not a German. Decades of autocratic rule have taught him either to be afraid or resign.

Even now, when he elects his own officials, he takes abuses of power in silence—or at most he grumbles in private.

Military government is trying to teach the Germans to "assert their rights". Murray D. Van Wagoner, military governor of Bavaria, recently gave the Germans a lecture on the subject.

A new and exciting Tarzan story with a new slant that will please all Tarzan fans.

SUNDAY - MONDAY - TUESDAY - MARCH 27-28-29
JOAN FONTAINE — JAMES STEWART — EDDIE ALBERT
ROLAND YOUNG and WILLARD PARKS in—
"You Gotta Stay Happy"
Take one runaway bride (abnormally romantic) one cargo plane pilot (normally calm) one co-pilot (never normal) then add one patient corpse . . . a cigar-smoking chim and a ton of unfresh fish . . . mix them well together in a storm-tossed plane . . . and them in an Oklahoma cornfield and we guarantee the screen has never been so happy.

Wednesday-Thursday
March 30-31
Paulette Goddard—Burgess Meredith—James Stewart
Dorothy Lamour and Victor Moore in—
"On Our Merry Way"
Told in episodic fashion, the story does not present the stars together except through an unusual tie—in angle brought about by Burgess Meredith who plays the role of a roving reporter on a leading newspaper. Meredith interviews people on the question: "What influence has a little child upon your life?"

Friday-Saturday
April 1-2
Cornel Wilde—Patricia Knight—John Baragrey
Esther Minciotti and Howard St. John in—
"Shockproof"
Cornel is starred as a parole officer and Pat is featured as a beautiful blonde parolee whom he secretly marries. As he becomes more and more involved in the affairs of the bitter, blonde murderess who refuses to abide by the rules of her parole, he slowly changes until he too becomes a grimly determined accessory.

Expect 6,000 Abilene at Artist Meet

Thousands of Baptists from all over Texas are expected to attend the fifty-ninth annual state convention of the Baptist Union of Texas at the Rose field house on the campus of Baylor University in Abilene, Texas, from March 31 to April 4. The convention will be held in the Rose field house on the campus of Baylor University in Abilene, Texas, from March 31 to April 4. The convention will be held in the Rose field house on the campus of Baylor University in Abilene, Texas, from March 31 to April 4.

STRETCH, AL, STRETCH! Steer wrestler Al Bynum of Waxahachie, Texas, reaches for the steer's horns in a bulldogging event at the San Angelo, Texas, rodeo recently. He made the catch with the stretch but later lost his steer. Todd Whatley of Hugo, Okla., his hazer, watches intently. (UPI Photo)

The convention will be the largest in the history of the state-wide church conference. It will feature the better music and the best speakers in the state. The convention will be held in the Rose field house on the campus of Baylor University in Abilene, Texas, from March 31 to April 4.

Special groups who will participate in the meeting include children from the state school for the deaf in Austin; students from foreign countries now enrolled in Wayland Baptist college, Plainview; and the world famous Hardin-Simmons Cowboy and Cowgirl bands.

An antique exhibit of old training union quarterlies, record books, study course diplomas, photographs, posters and newspaper clippings will present the history of Baptist Training Union in Texas since its beginning in 1888.

Smallpox Cases Show Increase Past Few Weeks

AUSTIN, Texas, With the appearance of an unusual number of smallpox cases during the past week, Dr. Geo. W. Cox, State Health Officer, has issued a warning that this dangerous, disfiguring and often fatal disease can once become a widespread health problem unless vaccination is used to protect the public against it.

Four cases of smallpox were reported from one county, and while that number may not seem great, it is nevertheless the same total as was reported for the whole State during the entire year of 1948.

"Smallpox vaccination, which affords complete immunity from this disease, is a painless, inexpensive procedure, which should be used to protect every individual in the State," Dr. Cox said. "When we grow lax about our vaccination and allow susceptible persons to be exposed to smallpox, it follows that the disease will spread throughout the unvaccinated population, bringing serious illness and possible deaths."

Dr. Cox urges all parents to see that their children have been properly vaccinated, and if there is doubt about the immunity still being in effect, they should be given another vaccination. If they are immune, the vaccination will not "take", but if it does take, then the immunity was low and the vaccination was needed for their protection.

"This same thing applies to adults," Dr. Cox said. "Check and be sure that your own immunity is established, as well as that of your children", he advised parents.

India Plans Penicillin Plant

NEW DELHI—(AP)—The Government of India has decided to establish a factory in Bombay for the manufacture of penicillin, sulpham and anti-malarial drugs.

An agreement has been signed with a Swedish firm for technical advice for the design and construction of the factory.

The factory is estimated to cost \$6,000,000. It will start work in three years.

Its annual productive capacity will be 1,200 billion units of penicillin, 100,000 lbs. of an anti-malarial drug, 60,000 lbs of sulphamerazine, 20,000 lbs. of sulphathiazole and 20,000 lbs. of sulphamylamide.

India Eyes Payments to France

NEW DELHI (AP)—The government of India is paying the French-Indian government \$340,000 annually, in fulfillment of certain agreements and conventions entered into with the French government in India.

Pandit Jawaharlal Nehru, prime minister, told questioners in parliament the government was considering "whether under present conditions it will be advantageous to continue all or any of them."

During the war, the Government of India took over the management of the customs for the French in India and paid them a lump sum of 620,000 rupees annually.

The French government agreed not to produce salt in its possessions in India in lieu of an annual compensation of 400,000 rupees. The Government of India managed their posts and telegraphs, paying them 50,000 rupees for their loss of postal revenue. Another 18,000 rupees are paid to them for letting the supply of opium remain in the hands of India.

Nehru said no payment was made to the Portuguese Government in India.

The French hold five settlements in India, with an aggregate area of 203 square miles and a population of 400,000. Smaller still are the Portuguese possessions, with headquarters at Goa on the Arabian Sea Coast.

Nehru said "There is only one future for these possessions—merger with the rest of India. Geographically, politically, strategically, economically and cul-

Roving Factory Settles Down

PHILADELPHIA, Pa.—(AP)—A shipment of eight two-ton roller bearings from here to IJmuiden, Holland, brought to light the story of an uncompleted Dutch steel mill that has been wandering over Europe for 10 years.

The Royal Netherlands Blast Furnaces and Steel works, for whom the bearings were made to order here by SKF Industries, Inc., twice has been moved — lock stock and bearings; once 340 miles from Holland to Germany and now, back to Holland.

Construction of the steel mill said SKF officials, was halted at IJmuiden when war broke out in 1939. The Nazis invaded the Netherlands and decided to complete the mill. But, three years later, with production about to start, the Germans dismantled the plant and moved it to Braunschweig to become part of the Hermann Goering Works.

Just when the plant was once more ready to operate, in 1945, it was seized by Allied troops. The Dutch entered a claim for the plant. Again the mill was dismantled and moved back to IJmuiden. Now, it appears, production may finally start.

Light your house with paint. Read how in "YOUR HOME," in the Herald, March 31.

Shells in Oven Fatal to Boy

HAMBURG, Germany (AP)—A housewife in Helmsstedt found her cake form was too light so weighted it down with two shells. She then pushed it into the hot oven. In the ensuing explosion her ten year old son was killed and she lost a leg.

Away Goes Our Gas

TEXAS OFFICIALDOM IS MIGHTILY worked up over the federal threat to the state's tideland oil. Federal interference is denounced, if the tideland oil seizure goes through, Texas undoubtedly will be deprived of a great deal of revenue.

Yet Texas officialdom, and especially the Texas legislature, is strangely quiet and inactive regarding another threat to Texas resources—the siphoning off of the state's tremendous natural gas reserves to heat the boilers and warm the homes of people in other states.

The Federal Power Commission has the say-so in this, for it has the power of life and death over new interstate pipelines under the public convenience and necessity clause. The commission has been extremely generous in granting these new lines, and allowing increases in the amount of Texas gas the lines may carry.

This week and attorney for the Pacific Gas and Electric Company appeared before the power commission in Washington and made a plea for a pipeline to carry Texas gas to the San Francisco area. The growth of California's population, he pointed out, has increased sharply the need of natural gas that must be brought in from Texas and New Mexico.

This is a graphic illustration of the part Texas gas is playing in the growth and development—of other states. Many states on the Eastern seaboard now use Texas gas, in some cases buying it cheaper than Texas domestic and industrial consumers can buy it. Now the Pacific coast wants to increase its take of Texas gas.

Gas is irreplaceable. Once gone it is gone for good. The faster it is siphoned off to enrich pipeline companies and the industries of other states, the quicker Texans will be deprived of this magnificent natural resource.

How much longer will the Texas legislature ignore this situation? Until all the gas is gone, and Texans have to start using lignite and mesquite knots to heat their homes and power their industries?—San Angelo Times

The acid test of Sunday religion is what happens between Monday a. m. and Saturday p. m.—Fort Wayne, Ind., News Sentinel

Perfumes win men, say columnist. Especially the kind that comes from the kitchen at mealtime.—Southwest Courier

The secret of man's success is that he knows how to listen when he isn't the least bit interested.—Marquette, Kansas, Tribune

The firm's president was a stickler for signs around the office so he bought an arload of these "Do It Now" signs and posted them everywhere. Within 24 hours the cashier ran away with \$10,000, the bookkeeper eloped with the secretary, six clerks asked for a raise and the office boy was slapped for pinching the stenographer. Augusta, Kansas, Gazette

Another advantage in owning your home these days is that you can always sell it to buy a used car.—Ulen, Minn., Union

Deplores Traffic Mess—Given Cleanup Job

DENVER—(AP) — When L. W. Bond complained at City Hall about traffic conditions in his part of town he was referred to Traffic Engineer Henry W. Barnes.

The retired businessman told Use the Want Ads. They pay!

Barnes how he would correct the situation, and was given a job by Barnes as field investigator for the department.

Mr. and Mrs. Stanly Key left Monday morning for Temple Texas. They plan to return at the end of the week.

Babson Discusses Hiring and Firing

ROGER W. BABSON, Editor-in-Chief

BABSON PARK, Fla. March 18.—A recent survey by Robert N. McMurray & Company of some 1167 college trainees employed by 247 companies is said to reveal that 42 per cent "proved unsatisfactory or left their jobs" before the end of their first year of employment. Probably statistics including high school graduates not attending college would mount up to 60 per cent as unsatisfactory.

Transient Workers Cost Money

This turnover in personnel cost the 247 companies better than \$1,300,000.00! One company reported it lost 16 of its 31 college trainees at an actual loss to the company of \$41,250.00. This figure did not include the cost of hiring and training replacements either. Here again if we include both college and high school turnover, the wasted cost is far greater.

Who is to blame for this high turnover of high school and college graduates? Businessmen are quick to blame the schools and colleges because the graduates are unsatisfactory—lardy to work, lazy with lack of interest, too careless as to their habits and appearance, unable to get along with their fellow workers and not willing to assume responsibility. If this were true we should completely reorganize our whole educational program. But I don't think the schools and colleges are to blame. The fault lies with the parents and their example and training.

Faulty Hiring Increases Turnover

One young college lad I know was recently interviewed by a regional sales manager. The big boss leaned back and chewed on his cigar. He asked no questions; he showed no reactions. The boy was confused. He must have made good, though, because he was referred to the general sales manager whose only direct question during the interview was: "Do you play golf?" Another college senior, who had carefully planned answers for the job interview, was fired for drinking when liquor was not mentioned during the interview.

Going to the other extreme, I know of several large companies which have succumbed to psychological quackery in their over zealous efforts to put their selections on a "scientific" basis. Mail-order services are offered to help executives screen, hire, fire, and upgrade. For a fee, by remote control, these mail-order seers measure a man's sales ability and his executive ability; they decide what his vocational interests are; and whether he is likely to act impetuously or cautiously. More and more companies try this diet of tripe each year.

Training Programs Good On Paper

Many young people are baffled by large corporations with "executive training programs". Some college seniors, afraid to face life's realities, look upon these programs as an excuse to continue their education at someone else's expense. Others, looking for something substantial, find their enthusiasm killed by tasks any half-wit could perform. Some of these programs last well beyond any reasonable indoctrination period. And, at the end of the training program, how many companies have definite plans for their trainees?

Properly designed training programs of short duration are an intelligent approach to the transition between school and work. A little less make-work and a little more real work on the job while training will help cut down turnover. Young men want to get on with the job so is to earn enough to get married and have a home of their own which is a worthy ambition.

Conclusion

Inadequate hiring techniques and training programs are responsible for high mortality rates of high school and college trainees. Companies need to make more accurate job analyses and definitions so that they know what they are looking for in the interview. Aptitude tests are good checks of subjective opinions, but not when administered

Wolf Creek Philosopher

J. A. Gives Authentic Yearly Crop Forecast

(Ed note: The Wolf Creek Philosopher is about the last one w'd ask if we wanted to know what the farming situation is, but he claims people have been asking him and here's his answer.)

Dear editor: Every time I go into town about this time of year, which is every chance I get, the same as any other time of the year, so long as any work is threatening, somebody asks me well how's the wheat look? Gonna have a good year this year down your way? Merchants rub their hands, expectin a good crop year, which means a good business year and so forth. Seems like they want me to tell em how much money farmers will have to spend with em next fall. Of course most of em that ask me about the wheat crop knows a blamed sight more about it than I do, since they're in the farmin business more than I am.

However, I been answerin this question so much lately I decided to give my answer in your paper, on the off chance a few people at least would see it and stop asking.

The farming situation is this: Ain't no man alive who can tell you what it is. Just as soon try to tell you what Russia will do or what two women will say about a third one when she ain't there.

Anybody can put wheat in the ground with a heart full of hope and confidence, but instead of thirty bushels he may be startin a program of goin up one row and down another all fall and summer for a wash tub of smutty wheat, about enough to pay for the gas to get to town one Saturday afternoon.

The farmin situation right now at this time of the year, as best I can tell after years of ex-

perience watchin my neighbors farm is exactly like it is every year I been farmin; so uncertain and unstable and so likely to end up in a bust, no normal man would allow himself to be taken in by such a way of life. The way it looks now, which is the way it's looked every spring since some enemy of mankind invented the plow, is that there ain't but one chance to come out ahead this summer, but there is hundreds of chances to come out in the hole. Everything has to be just right to make a crop, but any one of a hundred things can go wrong to bring you up at the end of the year as busted as Europe. With such odds as that, I can't figure out why anybody would try it.

On the other hand, also, there

British Zone Police Report Is Good

HAMBURG, Germany—(AP) — Germans of the British Zone are behaving themselves better, reported the public safety branch of the British Control Commission.

The police attributed the improvement to the currency reform last year which gave the Germans more things to buy in the shops and substantially reduced the black market.

The total crime figures for Jan. 1948 was 101,570. By the end of the year this had dropped to 71,268.

Mrs. Dexter Fincher, of came in last Thursday visit in the home of Mrs. Jack Dodson.

Some Tax Forms Really Go through the Mill at Dallas

Tex.—Pity the income tax form. After you have cussed it, it really goes through the mill. It is a rough, stormy journey you drop it in the mail.

If your withholding tax has not covered the amount of your income tax, the amount you owe the government is computed and circled with red. After checking and cross checking for accuracy, your 1040—A form goes to the numbering section where it receives a number and is grouped in bundles of 100. The number is given so that the form may be located easily by referring to an alphabetical file.

After the amount of refund has been determined and cross-checked, the form 1040—A goes on to the bookkeeping department where it is listed on a refund schedule.

The refund schedule is then checked and certified by the Collector of Internal Revenue and sent to the regional distribution officer, where the checks are made out and mailed.

But even after you have received your tax refund, Uncle Sam is not through with your form. It is kept for six or seven years in a warehouse until Congress passes a bill permitting the destruction and disposal of old forms.

Bids are taken and a contract awarded for the sale of the old tax forms as waste paper. First, however, the forms are fed into a machine which slices them into tiny pieces impossible to read.

Get rid of it with a Herald ad.

ALL TUCKERED OUT—A stock show is tough going on the hogs and the boy who nurses them. That's what Max Hagler, Hamlin, Texas, found out at the recent Jones County Livestock Show at Anson, Tex. The weather was warm, the hogs went to sleep and Max was just plain tired after currying his pen of hogs all morning before the judging, so he just took a nap too. His left hand still holds the currying brush.

Right Now Is the Time to Kill Ants; Destroy the Queens

College Station, March—The time to kill a colony of cut ants is when the colonies are weakest when there aren't any young queens, and when there is ordinarily very few young ants being produced.

The time is now. What ants are present are gathered in the central town, and the queens are found grouped together in a central cavity in this town. Since the queen's job is to lay eggs to keep the colony going, you can get rid of the colony by killing all the queens.

The main town may be 15, 20, or even 100 feet in diameter, with many entrances leading from the surface to the underground cavities. It won't do much good to treat the smaller ant hills surrounding the central town, says Allen C. Gunter, associate extension entomologist of Texas A. & M. College. You've got to get the central colony where the queens are.

The smaller ant hills are connected to the main colony by underground passages, which may sometimes be a quarter of a mile long. It's through these subways the workers carry the cut leaves to the central town.

A two or three per cent chlordane solution, made up of a chlordane wettable powder or an emulsion form, may be used in the control of cut ants, says Gunter. Pour about a half gallon of this solution down each opening of the colony.

Another good method is to

dig up a shovelful of dirt at the surface opening to the passageway into the interior, then pour a barrelful of water down this passageway. As the last gallon or two runs down into the ant hill, add one quart of carbon disulphide (highlife). Then cover all the colony entrances in the vicinity. Gunter warns the ant killers not to set fire to the highlife. Just let it soak into the ground.

In either case, whichever way you decide to kill the queens, the treatment may have to be repeated in three or four weeks, says Gunter. But it isn't always necessary.

American Whiskey —1484

TOKYO—P—Japanese bootleggers are enterprising fellows, but they either don't know much about history or don't think their customers do.

U. S. army criminal investigation agents report finding a bottle of alleged bourbon whiskey in a Tokyo nightclub with this label:

"Kingheather special blended whiskey. Manufactured in Philadelphia. Famous since 1484."

Another bootlegger, an economy-minded type, cut liquor

advertisements from an old American magazine and pasted them on his bottle as labels.

Still others do a fair job of counterfeiting labels but spoil the effect by using them indiscriminately on any sort of bottle, regardless of shape or size.

In all cases, it doesn't matter too much, as the bottles contain practically any liquid except whiskey.

Drew Ellis and Jock Gerard were in Pampa on business Monday.

Ideas to make your house a real delight. Read "YOUR HOME" in the Herald, March 31.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

HEALTH FOR ALL Keeping Young

We have all heard a person described as "70 years young," or "a man of 80 summers." The implication is obvious. Despite the accumulating years, certain individuals cannot be called "old" because they still have energy and strength associated with the vigor and vitality, physical with youth.

In 1900, a man was lucky if he lived to be 50. Today, thanks largely to advances in medical science, most of us have a reasonable hope of living longer than our grandparents did. We want those added years to be useful and enjoyable.

Today a person between 40 and 50 years is still considered young and can normally expect to live two or more decades longer if he does not abuse his health.

The health rules that held good before the age of 40 are not radically different in later life, but the emphasis changes, just as the body's reserves and needs change. There are certain general rules of health that people should be sure to follow as they grow older. These include:

1. Check Up. Periodic physical examinations are important at all ages and should never be neglected after the prime of life is reached. Through these regular check ups, the doctor may be able to detect early signs of approaching illness and advise accordingly.

2. Keeping Fit. Most people who have been physically active while young can continue to be active in middle age if they make a few common-sense adjustments. A certain amount of exercise is still advisable to keep physically fit, and there is no reason why the middle-aged person should not participate in sports if he has always done so. It may be necessary, however, for him to modify his activities and not engage in sports which are too strenuous.

3. Diet. We may not need as great a quantity of food with advancing years as when we were young, but the quality of the diet must be maintained. The body will always need the proteins, minerals and vitamins supplied by milk, eggs, lean meats, poultry, fish, cheese, fruits and vegetables. Overweight may be dangerous in middle and old age, and the on too much weight with the person who finds he is putting years should consult his doctor.

The person who keeps in good physical condition all his life is not only apt to live longer but to get pleasure out of life regardless of how many years "young" he is.

CARD OF THANKS

This is to say "thanks" to my many friends and neighbors for their kindness shown to me while in the hospital at Oklahoma City. Many thanks for the beautiful flowers and cheerful notes received while there.

Oscar Blank
12-11-p

Dean Blank, L. T. Tucker, Bill Thomas, Johnnie Jines and Gene Brillhart returned Sunday from a fishing trip to Possum Kingdom. On the preceding Sunday Jines, Blank and Thomas attended the Gun Club Trap Shoot at Fort Worth. Johnnie Jines won the handicap trophy there.

Do flooring problems floor you? They needn't, if you heed "YOUR HOME," the housing supplement of the year, in the Herald, March 31.

New Delhi To Have Diplomatic Area

NEW DELHI, India—The government will soon start work on a diplomatic colony for this overcrowded capital.

A spokesman for the works, mines and power ministry says 700 acres of a 1,600-acre tract in southwest New Delhi will be developed. The government will spend 16,500,000 rupees (\$5,000,000) leveling land and constructing roads, water and sewer systems and shopping centers. Foreign governments will have to put up their own buildings.

Many embassies now occupy former New Delhi palaces of maharajas. Some late-comers have had to make hotel rooms their headquarters.

There are 1,013 gas utility companies in the United States.

TEXANS IN WASHINGTON

BY TEX EASLEY
(P) Special Washington Service

WASHINGTON, March—Among the unsung Texans in Washington are several clean-cut young men who are getting their start by working more or less menial jobs at the capitol.

Jobs such as operating elevators, wrapping packages and doorkeeping are given as political patronage. They usually go to ambitious young men who are working their way through college.

Visitors to the Capitol will find for instance, that the typical elevator operator is a well appearing fellow in his twenties. Nearly all are war veterans; many of them are married and have children.

They have their books with them on the job. It's not unusual to find one of them manipulating elevator controls with one hand and holding his place in a big law book with the other. When he gets a free moment he plunges into such abstract matters as contract law or a history of U. S. Swedish relations. (Some of them attend night school. Others have hours permitting them to attend day classes.)

Average pay for these positions runs between \$2,000 and \$3,000 a year. Better paying jobs are those of the fellows who sit on swivel chairs at the Senate or House chamber gallery doors and check credentials of those wishing to enter.

Every Democratic congressman gets to fill one such patronage position (the majority party has this privilege). Miss Reda Orr, formerly of Greenville, is a clerk to the House Patronage committee. She says that many of the Republican appointees of the 80th congress are still holding on, but they are being replaced by Democratic selections as the process of organizing the 81st Congress nears completion. Miss Orr herself was off the government payroll during the two years of the 80th congress; she worked then on promotion jobs for radio stations in Washington.

A good example of the patronage job holder is Stephen Preslar of Ranger.

He's married, a senior law student at George Washington University, and operates an ele-

vator just off the House chamber. He was in the Navy during the war. His wife, the former Avis McKelvain of Ranger, was a Wave in the Navy. She, too was studying law until recently when she left school because of an expected addition to the family.

"But I still hope to get my law degree some day," she says with a smile. "It would look pretty nice to see both our names on a shingle hanging somewhere out there in West Texas."

Houston Clinton of Waco, another war veteran, is a House door-keeper appointed by Rep. Bob Poage of Waco. Clinton expects to go to Texas soon and take his bar examination. He looks forward to law practice in his home state.

The House Folding Room employs a large number of young men and women who attend one of the local colleges. They wrap parcels of all description for mailing.

Calvin Kimbrough of Sherman, a cousin of the famous Texas A. and M. football star, John Kimbrough now with the Los Angeles (Don professional team) works in the folding room when he isn't in accounting classes at Southeastern University. His wife, the former Lorraine Mumford of Fort Worth, works in the office of Speaker Sam Rayburn of Bonham.

The majority of these young

Goethe Congress Planned

FAANKFURT, Germany—More than 200 scientists from the United States, South America and West Europe have been invited to come here next August to honor the memory of Johann Wolfgang Goethe, German poet.

Celebrating the 200th anniversary of the birth of Goethe, the city has arranged an international scientists' congress to debate "Goethe's influence upon the thinking of the present-day world."

The congress will meet here Aug. 24 to 26. It will be the climax of the "Goethe Festival

men are studying law or preparing for the diplomatic service. Incidentally, Rep. Poage recently heard from the young man who held the first patronage position he filled after entering Congress in 1937. He is now Dr. Clyde Hailey of Temple. He has completed an internship in a West Virginia Hospital and now plans to begin practice in Texas.

NEW NTSC STUDENT UNION—Dedication ceremonies will be held on North Texas Day, March 31, for this modern new memorial student union building at North Texas State College, Denton, Gen. Roger M. Ramey, ex-student and commander of the Eighth Air Force, will be dedication speaker.

One small plea on behalf of thousands is made by two-year-old Gordon Strickland of Orange, Texas, who like 20,000 other handicapped youngsters in Texas, is receiving assistance made possible by the annual Easter Seal Sale of the Texas Society for Crippled Children. This year 1,000,000 Texans will receive sheets of the Easter Seals with the request that they buy and use them. The sale dates are March 21 through April 17.

Texas Retail Sales Climb In February

AUSTIN, Tex., Texas retail sales of durable goods stores recovered from the usual post-Christmas slump in February 1949 to climb 10 per cent above January, the University of Texas Bureau of Business Research reported.

Automotive stores, with a 17-per-cent gain, showed the widest among durable goods stores in increase over January 1949—a Texas, motor vehicle dealers handling 20 per cent more business in this category. Jewelry sales rose 16 per cent above the January level, while the building material, lumber, and hardware line advanced three per cent, with such components as lumber and material dealers up three per cent, and farm implements a fraction of 1 per cent. Hardware stores slipped less than half of one per cent in February from January.

Furniture and household sales lagged six per cent in February with furniture stores down nine per cent from the previous month.

Although February retail sales of both durable and nondurable goods fell a fraction one per cent total nondurable goods stores dropped six per cent from January, the only increases being recorded in shoe stores, up five per cent, and women's specialty shops, up eight per cent.

County general stores, with less than a one-half per-cent

drop, presented the smallest decrease among Texas, nondurable goods sales from January to February. Other slight changes below the January level were eating and drinking places and restaurants and drug stores down one per cent; and department stores, off two per cent. The heaviest slumps appeared in apparel lines, men's and boys' clothing stores 34 per cent below January, and family clothing stores, 26 per cent.

Durable goods stores sales, up seven per cent, accounted for February 1949 retail bettering February 1948 by one per cent. A 24-per-cent gain over last February placed automotive sales out in front among durable goods items, which in the other main lines provided de-

clines of 11 per cent in building material, lumber, and hardware, seven per cent in furniture and household, and 10 per cent for jewelry.

Nondurable goods stores over the February-to-February period dipped one per cent, though eating and drinking places and restaurants moved upward three per cent, combination stores (groceries and meat), two per cent; country general stores, two per cent; and both department and drug stores, one per cent.

Apparel store sales of non durables recorded the greatest losses, though no item slid 10 per cent below February 1948. Men's and boys' stores, down eight per cent; family clothing

stores, five per cent; and shoe stores, five per cent. Filling stations dipped five per cent in February from a year earlier, and general and merchandise and grocery stores without meat, both down three per cent.

Germans to Run Own Radio

BERLIN—AP—The American Military Government has just returned Radio Munich and Radio Frankfurt to the states of Bavaria and Hesse. Radio Bremen and Radio Stuttgart will be released soon.

Under German control these stations will operate under the same rules of objectivity that apply to the radio in the United States. But as in Britain they will be owned by the state.

For almost the whole of its 25-year history German broadcasting has been an agency of the central government. For more than half its life it was the tool of one party—the Nazis.

Now the states of Bavaria and Hesse have committed themselves to the principle that radio should serve the listeners who buy the sets and not the state or a single group within the state.

They have established by law public radio corporations. These are controlled by radio councils called *Rudfunkraete*. The councils are elected by economic,

stores, five per cent; and shoe stores, five per cent. Filling stations dipped five per cent in February from a year earlier, and general and merchandise and grocery stores without meat, both down three per cent.

Lepers Building Observatory

TOKYO (AP)—After eight years, lepers on Nagashima, tiny island in the Inland Sea, are going to get the observatory they want.

The lepers of the colony bought a British-made telescope in the spring of 1941 and planned an astronomical observatory to help spend interminable hours. The war intervened but they saved the telescope.

When the Japanese astronomer Minoru Honda began his recent series of comet discoveries, the lepers remembered the project and asked his aid. Most Japanese fear and avoid lepers, but Honda went to the island, cleaned the telescope, selected the best hilltop.

The lepers now have their building, and Honda says "they may reap substantial rewards" from their stargazing.

Mr. and Mrs. A. K. Odgen and Virgie Lou Odgen from Friday, Sunday visiting in the home of Mr. and Mrs. Troy Hillman. E. L. Whippo returned from Dallas with his sons.

21st Century Is Just a Frontier Memory for Navajos

There are 25 white people—officials, traders, missionaries—in the tiny settlement. The Weavers found the Navajos a kindly, intelligent people, plagued by poverty and lack of school.

Weaver, who formerly did social service work in several East Texas communities, is teaching oral English and modern hygiene to teen-age Indians before they go to graded schools. He also is doing research on the relation of the Navajo Religion to Psychotherapy.

"The most revolutionary book, next to the Bible, is the modern mail order catalogue," he says. "The Navajos, like many depressed peoples, are most impressed by material objects. They want to have things like white people have."

Economic life centers around

BREAKS OWN MEET RECORD—Darrow Hooper (above), North Side High School, Fort Worth, Texas, broke his own record in the shotput during preliminaries of the high school division, March 18, at Southwestern Recreation Track and Field Meet in Fort Worth, Tex. He heaved the shot 56 feet, 3 1/4 inches. His old record for the meet was 54 feet and two inches. (L.P. Wirephoto)

Families and Homes Get Smaller

NEW YORK (AP)—American homes, like the families they house, are getting smaller, according to a Title Council of America report on postwar home building trends.

The size of the American family dropped from 3.7 persons in 1940 to 3.5 persons in 1948. Size of the average home decreased accordingly, the report says. Most popular new postwar dwelling is the two-bedroom unit suitable for a family of two to four persons. This coincides with Department of Commerce statistics that show 31.3 per cent of American families consisting of two persons and 25.6 consisting of three.

One reason for the decrease in dwelling sizes is housewives' insistence on compact homes

area, wiping out dams, bridges and roadways. Maybe the Indian rain ceremonies worked. It hasn't ben desert-dry since.

"Our youngsters were a curiosity among the Navajo children," says Mrs. Weaver. "They peeked in the windows, then giggled and ran. The Navajo boys would run in a circle, then swoop in to pinch white skin, or pull lightly some blond hair. It was over a year before the children were accepted as just other children."

There is occasional excitement up here near the four corners where Arizona, New Mexico, Utah and Colorado meet. Sometimes a movie company comes out here on location. The Navajo Reservation has many other visitors.

The A-bomb touches even here. A uranium mine is about to open and 250 square miles north of the settlement are barred to the public.

"The older Weaver children can identify ore they pick up in their own back yard," their mother says.

The big snows this winter brought disaster. Pneumonia, Measles and frostbite struck in the Teec Nos Pos school. Relief came by Helicopter. Planes taking blankets, food and medicine to isolated Navajos roared overhead.

One thing bothers Mrs. Weaver. "The children are starting to speak english with a Navajo accent."

the "bull pen," the horseshoe-shaped space enclosed by high counters at the trading post. Canned goods, notions, saddles, salt pork, lanterns and other general store goods and the principal stock in trade.

Fresh milk and green vegetables almost never show on the shelves. Fresh meat is seldom on sale. Prices are 50 to 100 per cent higher than "outside." It is 100 miles to the railroad; 20 miles to St. John's, the County Seat.

The Navajos do their "banking" at the post. That is, they pawn their turquoise and silver jewelry for credit until lambing or wool shearing time. Fine rugs woven on the looms of the patient Navajo women are on display.

There had been no rain for

AUTHOR Of the Week

By W. G. ROGERS

ELIZABETH TAYLOR, author of "A Wreath of Roses," an admirable sample of our valuable literature importations from England began to write "as far back as she can remember." As a child she scribbled plays and kept a diary, in school she wrote novels under her desk, and in a commercial library where she was employed, she let the dusting go in order to continue writing. She sold some short stories and then, in 1946, her first novel, "At Mrs. Lippincote's." Born in 1912 in Reading, Berkshire, she was married in 1936 to a manufacturer; they and their two children live in Buckinghamshire.

months, but thunder rolled across the gray plains when the Weavers spent five hours driving the last 50 miles to the post in August, 1947.

"Mr. Weaver rebuilt roads, dug through washes and filled in holes with rocks," Mrs. Weaver says. "The roads are among the worst in the United States. No one travels the roads unless for business or emergency."

As they drove up to the trading post a cloudburst hit the

CHEVROLET

See the difference...
Hear the difference!

The Styleline De Luxe 4-Door Sedan
White sidewall tires optional at extra cost.

That solid and satisfying sound when you close the door of a Chevrolet Body by Fisher typifies the finer and more durable quality which runs all through the car. There's nothing flimsy or "tinny" about this car; it promises quality that is "true-blue"—through and through!

It's the most Beautiful BUY of all

The most Beautiful BUY for Driving and Riding Ease—with New Center-Point Design

The most Beautiful BUY for Styling.

Not only is Chevrolet's Unisteel Body by Fisher more solid, more sturdy and more satisfying to ride in, but it is also more beautifully designed, upholstered, and appointed than other bodies in the Chevrolet field. It has smarter colors, too!

The most Beautiful BUY for Comfort.

Here, you can relax as you ride in a Super-Size Interior... featuring "Five-Foot Seats," extra-generous head, leg and elbowroom, and the advanced heating* and ventilating system of a car that breathes. (*Heater and defroster optional at extra cost.)

Just as you can see the difference and hear the difference born of quality when you close the door of a Chevrolet Body by Fisher, so you will experience the difference when you drive or ride in this car that America calls the most beautiful buy of all.

And what a decisive difference you will find in its driving and riding qualities! New Center-Point Design—including Center-Point Steering, Center-Point Seating, Lower Center of Gravity without loss of road clearance and Center-Point Rear Suspension—brings you an entirely new kind of driving and riding ease found elsewhere only in costlier cars.

Here, indeed, is the most beautiful buy of all—for total car value—because it brings you all these qualities of costlier cars at the lowest prices and with outstanding all-round economy!

New "Dubi-Life" Rivetless Brake Linings—Last up to TWICE as Long!

Linings are secured to brake shoes by a special "Perma-Bond" process thoroughly tested and proved by millions of units under all kinds of driving conditions. Because there are

no rivets to limit lining wear or score brake drums, lining life is practically doubled. Chevrolet is the first full-sized car to bring you this important braking advancement!

The most Beautiful BUY for Thrills and Thrift. Nowhere else will you find such a perfect balance of power, acceleration, economy and dependability as you'll find in Chevrolet's Valve-in-Head Engine! That's why more and more makers are adopting Valve-in-Head design.

The most Beautiful BUY for All-Round Safety. You'll enjoy maximum safety with: (1) New Certi-Safe Hydraulic Brakes; (2) Extra-Strong Fisher Unisteel Body; (3) New Panoramic Visibility; (4) Safety Plate Glass in windshield and all windows; and (5) the super-safe Unisteel Knee-Action Ride.

Mrs. Aileen Rogers
Rain and a cool north wind after a very blustery south wind on Sunday.
Mr. and Mrs. Aileen Rogers and Mr. and Mrs. Harry Kirton returned Sunday evening from Kremlin, Oklahoma where they spent a short time with relatives.
Mrs. Florence Williams went to Chicago to visit Mr. and Mrs. Wyatt Williams and children and Mr. and Mrs. Barton Lewis and children.

The 7th and 8th grade basketball tournament was held at Bethany last week.
Mr. and Mrs. John Winter and Marilyn and Royce Rodgers were in Perryton Saturday.

Several from Boyd attended the John Deere show in Perryton Wednesday.

The Douglas Sherrill sale attracted a large crowd Monday.
Mr. and Mrs. Harry Kirton and Mr. and Mrs. George Kirton attended the livestock sale in Guymon Wednesday.

Adrian Nolder was in Perryton Friday having some work done on his car.

Mrs. James Hardy spent the day Sunday visiting in the home of Elder and Mrs. N. W. Smith.

Weekly Swing of SOUTHWEST FARM MARKETS

(USDA)—Some weak spots appeared in mostly steady to strong southwest farm markets during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Sorghums lost 8 cents a hundred pounds for the week, and yellow corn gained 1½ cents a bushel. Changes on other grains were confined to a cent or less. No. 2 yellow milo closed Monday at \$2.50 to \$2.65 at Texas common points. No. 2 yellow corn brought \$1.57½ to \$1.59½, white corn \$1.70½ to \$1.73½, and No. 1 wheat \$2.39½ to \$2.45½.

Poultry sold firm to stronger in the southwest, while eggs held about steady. Fryers ranged from 30 to 33 cents a pound in Texas, Louisiana and Arkansas, and 30 to 36 at Denver. Heavy hens sold from 32 to 35 cents in North Texas, 24 to 36 at Denver, and 39 to 43 at New Orleans. Eggs brought mainly 35 to 40 cents a dozen.

Most southwest cattle sold unchanged to 50 cents higher for the week, though calves at Fort Worth and stocker calves at Denver lost up to \$1. Good stocker steer calves changed hands at \$28.50 at Denver Monday. Choice stocker yearlings and calves sold

up to \$26 at Oklahoma medium and good steers went out at \$22 to \$23.50. Worth, \$24 to \$25.25 at Fort Worth, and \$22 to \$25 at San Marcos.

Capt. and Mrs. F. C. of San Marcos, Texas, in charge of the music at Baptist church on Sunday. The Gambills are pastors at the Baptist church in San Marcos.

Mr. and Mrs. W. E. were in Amarillo last day visiting in the home and Mrs. J. B. Oxford they helped their grand Mac, celebrate his birthday.

Three Johnson Brothers Form Indoor Polo Team

By FRANK ECK
Newfeatures Sports Editor

NEW YORK—Without a doubt the most unusual indoor polo team in the country is the Elliston Farm team. It consists of Johnson, Johnson and Johnson. They are brothers, all former college polo captains. Collister, often called Caddy, plays No. 1. He is 31 and a former Yale captain. Bob, 29, plays No. 2 and also captained Yale. Ben, 34, plays No. 3 and formerly captained the Princeton team.

They have another brother, Frank, 36. He played for Harvard. They used to play four-man polo outdoors.

"The team was named after our father's place in Far Hills, N. J.," says Collister.

It took Ben to reveal how their "father's place" was named Elliston.

"There once was a horse known as Elliston Boy," says Ben. "He ran in the Grand National but dropped dead in the Jersey Hunt Cup. Our father named his place after the horse. The horse is buried right near the house."

The Johnsons, because they have no polo ponies of their own find it difficult to get indoor matches. They play only when someone with ponies asks them. They have played four times this season at Squadron A Army where the only indoor polo in New York City is played. In one game they beat Squadron A by 12-10 after trailing by 6-1 in the first five minutes.

Another time they beat Al Parsell's Ramapo team in overtime and Parsell is one of indoor's top mallet swingers.

"We beat Al's team with his

own ponies," says Ben Johnson. They learned their polo from the veteran Harry East who came over from England some years ago and taught polo to many of America's present day stars.

This is the second indoor season for the three Johnson Brothers who are in the engineering business.

"We've got to be careful," says Ben. "If we got too good it will be even tougher to get games."

Civilians Make Airlift Go

BERLIN (AP)—The same guys who won the war for the United States have licked the biggest "problem threatening the airlift"—a life-line of two million Soviet blockaded Berliners.

Once again the United States has turned to its civilians for help and found it.

The airforces denied it officially. But three months ago the airlift was threatened by crumbling morale. Airmen had to fly day and night, week after week, month after month, in all kinds of weather. The job was monotonous, tough, dangerous.

Today a great percentage of the hundreds of airlift crews are one-time civilians. They were rushed through training at the "little vittles" Great Falls, Mont., station.

The weary veterans of the early lift are being rotated back to the United States for needed rests. They have put in more flying time in a few months than many pre-war fliers did in a life-time.

The newcomers like their job and are ready to stay at it indefinitely. Most of them want to stay in the Air Forces even if the present emergency should end.

Video Vault

NEW YORK (AP)—Rev. Bob Richards, pole vaulting preacher from the Illinois A. C., won the pole vault event in a recent Madison Square Garden track meet with a leap of 14 feet, four inches. He failed three times at 14 feet, eight inches. Then a cameraman taking movies for a television newsreel asked Richards to try once more. He cleared the bar easily, but it was unofficial.

A Woman's Place

NEW YORK (AP)—Perhaps the only woman starting gate chafeur in harness racing is Mrs. Helen Ronen of Decorah, Ia., who ravelis with husband Fred to all meetings where he performs starting chores. Mrs. Ronen has worked behind the wheel of the starting gate auto on tracks in Iowa, Minnesota, Wisconsin and Illinois.

F. C. Morton who has spent the past two weeks at home has returned to the Veterans hospital at McKenney, Texas for further treatment.

mental trial for attending fire-
house "party."

"General Motors means 380-
000 people working together —
433,000 shareholders pooling
their savings — and manage-
ment." — Radio Commentator
Henry J. Taylor.

"I have plenty of time for
everything these days." — Mrs.
Glen Tracy, snowed in on farm
20 miles from Ainsworth, Neb.

"Fine!" — President Truman,
describing steak sent him from
St. Joseph, Mo.

"Women have got to murder
their husbands to get in the
papers."—Virginia-born Lady As-
tor of Britian, telling Women's
Freedom League of men's in-
justice.

"I love to shovel." — NY's
Mayor O'Dwyer, breaking
ground for new bus terminal.

"We must earn adequate pro-
fits to finance the future as well
as the present."—Chairman E.
G. Grace of Bethlehem Steel.

"I dunno if I need a lawyer;
I never got caught before." —
Green Bay, Wis., theft suspect
when asked if he wanted an at-
torney.

"We who have good health
are supposed to share it with
those who do not."—NY postal
employee Simon Schneider, do-
nating 48th pint of blood to
Red Cross.

Mrs. Dexter Fincher returned
to Tulsa this week after spend-
ing the weekend with her daugh-
ter, Mrs. Jack Dodson.
