## TEN TEXAS LEGISLATORS NAMED IN SUIT

## SOVIET DELEGATES ARE ORDERED FROM LONDON

### RUSSIANS SAY ENGLAND WILL BOYCOTT THEM

#### BREAK DOES NOT MEAN WAR WITH ANYONE, BALDWIN SAYS

(By The Associated Press) LONDON, May 27.—A note regarding relations between the soviet and British governments was despatched at Chesham house, the soviet legation, today. The note repeats the official soviet representation to leave and specifies who the others will be allowed to remain to wind up the affairs of Arco, Ltd., the Russian trading organization.

The British diplomatic mission in Moscow will be recalled immediately. It is not yet decided who will follow after the British interests in Moscow. The note which makes about 700 words, will be given out by publication late tonight. It was stated.

It was understood to allow from a point to ten days for the soviet representatives to leave England.

The note was sent to Chesham house by special messenger and delivered personally to M. Rosenfeld, the soviet charge d'affaires.

Simultaneously with delivery, however, trucks belonging to employees of Chesham house were loaded with taxicabs and started for the railway station.

Moscow Papers Claim England Is Plotting

Moscow, May 27.—The completion of the soviet union is expected to be the next step in the program, the papers say, an effort toward a political and economic blockade calculated to weaken the soviet union to such an extent that it can be attacked with impunity.

The next step is expected to be the opening of a court of inquiry into the soviet union.

Washington, May 27.—All right that President Coolidge would spend the summer in the Black Hills of South Dakota apparently was removed today when Senator Borah, of that state, who has been urging the state game lodge as a vacation site, left the White House with the definite prediction that the president would go to his state when he left Washington on June 12.

Nevertheless, the White House in obedience to any formal announcement that a definite site had been chosen.

### Sweetwater Baby Goes To Dentist

The troubles of Joseph William Woods, Jr., with a dentist have begun early. The 14-day old resident of Sweetwater, Texas, already has had a tooth pulled. It was discovered to be irritating the baby's lower gums.

### CONDITIONS IN FLOODED AREA ARE IMPROVED

#### EAST BANK LEVEES TO BE SAVED; WATER STILL RISES

(By The Associated Press) NEW ORLEANS, May 27.—Danger to the levees on the east bank of the Mississippi river probably has passed, Major General Edgar Jadwin, chief of army engineers, said today. The vast amount of water being diverted from the Mississippi through the Atchafalaya as well as the crevasses farther up the river was believed to have assured the safety of the levees along the east bank.

#### Two Negroes Drown

At Lafayette, relief authorities announced the drowning of two negroes the first authentic report of deaths due to the flood in that section. Water was reported as spreading rapidly in St. Martinville and across the bridge although a few residents remained in each town.

A regular boat service has been established between Lafayette and Divanx Bridge. The Arnaudville and Divanx Bridge postoffices have been moved to Lafayette and are operating in the basement of the postoffice there. The Breaux Bridge and Saint Martinville banks have also opened offices in Lafayette.

Residents Alarmed

Residents of the Bayou Vermilion section were further alarmed today when the waters reached higher levels. Coulee Mine, which connects with the Bayou, was rising rapidly and residents of Archaule living close to the Coulee said that the water already was in their barns and garages.

Colonel James E. Edmunds, in charge of national guard units at Lafayette announced that national guardmen would be sent out into the flooded areas of this section with orders to shoot to kill any persons found looting homes or other evacuated buildings. Some unrest has been reported in the refugee centers on account of booting reports reaching the refugees.

House-Numbers Are Ready For Citizens

It's sometimes a sadly puzzled stranger within the gates of Lubbock, when it comes to looking up house numbers, and action is now being planned by the city to remedy the situation, says H. F. McCarty, of the city water department.

A large box of house numbers is now possessed by the city, and any person in doubt as to their house number, can call at the city office and secure the tin numbers and the proper numerals, if they will bring along their title block and street registration so that city employees can determine the proper one.

### FLAMING SANFORD GAS WELL TURNS AREA INTO SEETHING INFERNO; SIXTH VICTIM DIES

#### (By The Associated Press)

BORGER, May 27.—While residents and workmen at Sanford, 15 miles west of here were still busily clearing the business district of houses around the death well which has already claimed six lives with two maimed and is now spouting gas flames 200 feet into the air, Tex Thornton, famous explosive expert who yesterday entered the well alone in an effort to locate the bodies of the two missing men, was today making preparations to shoot the well tight with T. N. T. in an effort to extinguish the flames. The blast will be made at night so that sparks and stray flames can be more safely seen.

The death toll was brought to six this morning by the death of Lester Nelson and C. C. Petty last night.

Four lines of fire hose are being laid to the well and will be put under high pressure tonight as soon as the blaze is shot.

Thornton's crew of dare devils, garbed in asbestos, have entered the well eight times since the tragedy, moving the debris and machinery, latching cables to it so it can be

pulled free by trucks stationed a block away. This was the manner in which many buildings in these areas were moved away early this morning after having been soaked down with water all night.

Thirteen men are accounted for by name in Borger of the crew at the rough about and one tool dresser were near, but this is not confirmed and names cannot be found here.

Thornton A Veteran

Thornton, after coming out of the burning well earlier yesterday, calmly doffed his fire proof clothes, walked to a nearby cafe, ordered a ham sandwich and a bottle of soda-water, and he calmly munched and sipped said, "well, I guess I'll shoot about tomorrow night."

Thornton has fought many gas well fires. Yesterday witnesses say "he never blinked an eye" as he slowly made his way into the furnace and was just as calm when he came out.

### LINDBERGH AT STICK THRILLS GAPING CROWD

#### BIRDMAN'S STUNTS IN PARIS SUBJECT OF WILD APPLAUSE

(By The Associated Press) PARIS, May 27.—Captain Lindbergh flew over Paris in a French plane for more than an hour this morning. During the flight he paid homage to France's Unknown Soldier flying over the tomb, Arc de Triomphe in graceful curves and descending at one time to within about 150 feet of the hallowed spot.

When he returned to the air port at Le Bourget, Lindbergh went through a series of aerial acrobatics that delighted military aviators gathered to watch him. One of the stunts was a sham aerial battle with a plane piloted by Sergeant De Troyer who had followed him on his flight.

Public Not Farmed

The flight was carried out without the knowledge of the general public and few who saw the plane over Paris guessed that the hero was one more in his favorite element.

After landing he went to his own "house" to make a careful inspection and give some suggestions to the mechanics getting it in shape for tomorrow's air trip to Brussels.

Refreshment To Stage Tech Stock Judging

The first annual freshman live stock judging contest will open at the Tech Livestock pavilion tomorrow at 7 o'clock, under the sponsorship of the Junior Class, and with Jack Idol, of Crosbyton, and R. M. Millhollin, county agent of Hale county, both former members of the International Livestock Judging team of A. & M. college, in charge.

Judging events will include nine classes, two each dairy cattle, hogs, sheep and one in beef cattle. Prizes for placement of animals will be required in five of these classes.

To the best winning high score in all contests a medal will be awarded. Next year it is planned to give a number of medals, according to Professor W. L. Stinchfield.

Lubbock Entertains Ex-Santa Fe Chief

J. Fred Anton, former division superintendent of the Santa Fe, now division superintendent at Las Vegas, New Mexico, and his wife, were honor guests of Lubbock Thursday night when Mr. Anton was tendered a banquet by business and professional men of Lubbock in appreciation of his efforts on behalf of Lubbock while with the Santa Fe on this division.

### PRISON ROW IS BASIS FOR BIG DAMAGE CLAIM

#### FRANK O'ROURKE ASKS \$100,000 AS RESULT OF DIFFICULTIES

(By The Associated Press) HOUSTON, May 27.—The district court docket here today shows that Frank O'Rourke of Houston, former secretary of the Texas State prison commission, has filed suit for \$100,000 against members of the legislative committee which took testimony in connection with an alleged incident at the state penitentiary in Huntsville last October when Frank and Alonzo Noel, Dallas negroes were electrocuted for murder.

The suit is one of several Mr. O'Rourke has filed in connection with the suit. It names Lee Satterwhite of Amarillo, former speaker of the house; H. W. Sayle of Breckenridge, former chairman of the state prison commission, and the following members of the legislative committee: W. M. Fry, San Antonio; R. A. Powell, Montgomery; Claude Teer, Williamson; W. H. Williams, Bexar; John M. Heath, Johnson; John P. Wallace, Freestone; and Alfred C. Petich, Gillespie counties.

Continue With Work Continue With Work

ALBUQUERQUE, May 27.—(AP)—Dredging through a morning of defeated attempts at slush, the house today again engaged the educational appropriation bill carrying about \$76,000 more than the recommended \$16,181,000.

A non-quorum developing at lunch time prevented introduction of rules and financial measures expected to be obtained later in the day.

Elimination of a \$12,000 item for purchase of the T-Anchor ranch for the West Texas State Teachers college at Canyon was the only reduction of consequence. On the other hand, \$50,000 was written into the bill to provide a new museum for the Texas school for the deaf. Another \$80,000 was added for two years summer school at the Stephen Austin Teachers college.

Coal Mine Visited By Second Mishap

WILKESBARRE, Pa., May 27.—A second accident in the number 2 shaft of the Woodward colliery at Kingston, where a number of mine workers were killed yesterday, occurred today. So far as is known only two men were injured when an outside fanlight was wrecked.

Two men were known to have been killed, four or five are still missing and nearly a score were injured as a result of yesterday's accident which was a large cave-in in the lower workings. Whether today's accident was due to an explosion of another severe quake forcing air out of the mine has not yet been determined.

Three Drown When Tow Boat Capsizes

KANSAS CITY, May 27.—(AP)—Captain Edgar L. Freeman and his wife and child were drowned early today when a government tow boat capsized in the Missouri river near Glasgow, Mo., according to a report to the government engineers' office here.

#### Nicaraguan Liberal Cabulla Shot In Street By Capt. William P. Richards

(By The Associated Press) MANAGUA, Nicaragua, May 27.—Captain William P. Richards of the United States marine corps shot and killed the liberal general, Cabulla here early this morning, allegedly in self defense.

General Cabulla is declared to have been intoxicated and firing with revolver at people in the street, killing him.

Dead Man A Bandit

Managua dispatches on May 11 said that a band of former troops under General Cabulla, who called himself a liberal but who was bandit, had killed the liberal general, Cabulla here early this morning, allegedly in self defense.

General Cabulla is declared to have been intoxicated and firing with revolver at people in the street, killing him.

DePinedo Is Due To Reach Azores Today

ROME, May 27.—(AP)—Commander De Pinedo is due to arrive today at Horta in the Azores Islands, according to wireless advices received here from the steamer Dullio. The message gave no details except to say the Italian four continent flier and his two companions are safe and sound and were taken on board the steamer Superga yesterday by the Italian navy.

High winds caused Commander De Pinedo to fall to complete the hop Monday from Tromsøe, Norway, bound for the Azores, says a message from Horta received by the semi-official Stefani News agency. The aviator decided it would be impossible to reach the Azores on account of the wind.

### FORD DRIVES FIRST FLIVVER TO CELEBRATE 15 MILLIONTH

#### (By The Associated Press)

DETROIT, May 27.—Henry Ford got out his most prized possession yesterday, his number 1 car, and paraded it before an applauding assembly.

The car was the first produced by Ford, a diminutive two-cylindered affair known in the early days as the Model T and resembles a bucket seat attached to bicycle wheels.

It was driven by Ford at a celebration arranged on the occasion of the assembling of the 15th millionth Ford automobile at the Ford plant here yesterday.

He Makes Her Run

Ford, who only recently recovered

from injuries received in an automobile accident, at first was disinclined to drive, but when mechanics had difficulty starting the aged motor he climbed into the seat.

A moment's tinkering and the little machine responded perfectly to the touch of the man who designed it. Ford drove several miles around the Dearborn estate and brought up in front of the crowd of several hundred persons present. At the start of the machine hung a huge oil lamp, the pioneer tail light, and the steering apparatus was equipped with a bell device, the forerunner of the present day horn.

Mrs. W. B. Downing and Mrs. Tom May of Brownfield were visiting and shopping here yesterday.

## News And Views Of WOMEN

Votes for women are all right but they don't mean anything. This remark is not especially sensational until one learns that it falls from the fair lips of Christabel Pankhurst who, with her famous mother and sister, probably broke more windows, went more to prison than any other living or dead feminist, all in the grand and glorious name of militant suffragism. Miss Pankhurst is older now. And it seems to me I have rarely heard anything sadder than her words—"If this (woman suffrage) had come to pass years ago, I'd have been in the seventh heaven of delight. But I've changed since then."

LIFE'S TRAGEDY  
This is the tragedy of human nature—of life itself perhaps—the too-late coming of the thing which was once heart's desire. There is the story of the man and woman who saved every nickel for their own home. She went without the bags of peanuts which she adored and he no longer filled his tobacco can. The "house of their own" was their only goal. When they had that, then they could have peanuts and tobacco. When it came, she could not enjoy peanuts. He could not enjoy his tobacco, and they wondered if even that "home of their own" meant so much.

BATHING GONDOLAS  
And the woman who all her life had yearned to go to Europe. Romance, Venice, especially, was her lodestone. Gondolas, a tropic moon, balcony shadows on the little canal. Finally in the seedtime days of life Europe came to her, and Venice. She was on the Grand Canal in a gondola waiting for romance. Somehow it seemed commonplace. "Why I might just as well be sitting in my bathtub, back in Peoria," she told the gondolier. Who made reply, "Madame comes too late."

"NICE" GIRLS  
Some champion o the modern girl with all her vices and virtues.

## Bigger And Better Summer Hats

Under the summer hat:

BY HENRI BENDEL For NEA Service

NEW YORK, May 27.—The other day I heard a colleague say, "Well, I guess we all are expecting big things of the large hat this summer."

It exactly expressed my sentiments on the subject of hot weather headgear.

There is no question by now that "the" dress for summer 1927 will be more than sizable.

No Merry Widows!  
But do not for a minute think that this season's creations are just the old Merry Widow picture hat of a generation ago bubbling up again.

Shore locks the boyish, slenderizing tendency of today's feminine apparel, and the short skirts of this young age demand an entirely original type of large hat, never before designed.

Added to these prerequisites is the entire spirit of the times; the nonchalance of the world's attitude today towards life has its effect on hat designs. The old heavy, sober looking solid black, blue or red hat of stiff straw is entirely out of the picture. Today's hat must have a subtle, airy lightness about it—its look like gently and jaunty.

Crowns First  
Though it may seem a contradiction the crown of a big hat should

receive first consideration, both from the designer and the woman who buys it. For the manner in which the crown hugs the bobbed head, and sets the face contour have more to do with chic than any other one thing.

Of course a woman must consider the width, depth and shape of the brim. A woman's height and general build is guide to good taste in this. No large hat this season should have a regular "butterfly" brim. Sides wider than the front and back, cut-away back, gently sloping irregular and cutout brims accentuate the beauty and add grace to the wearer. The picture hat that has too wide a brim for its wearer to carry gracefully is ill advised.

There is of the prettiest hats I have designed this season are shown today. They give diversity of shape, material and trimming.

For afternoon wear at the golf club or formal tea is the woolly brown silk horsehair braid hat, just the tone of the flower in Milady's dress and matching her eyes also. It has a wide right side that fits snugly, a short front and a flange in rolling back brim. Its crown fits snugly.

Around its brim lies an exquisite wreath of autumn leaves, of hand-dyed velvet, with just enough of

a touch of orange in it to please. Mushroom Shape  
The white punta straw stimulates the popular felt in its pinched crown and cut-away back. It has a smart flange of white felt around the crown forming a top facing which crosses in the back to fashion a perky bow. This hat is ideal for sun wear with white or pastel shaded frocks.

Most feminine of all and therefore perhaps most charming is the dainty ecru Swiss braid hat, mushroom in shape with a wistful droop to its brim. The very latest of trimmings decorate it—a dawn pink satin ribbon around its crown, ending in a sailor's knot with its uneven end falling softly over the edge of the side brim. A crystal garland, perfect imitation of the real thing and even lovelier, nestles by the knot.

Flowers Match Frocks  
For the more informal type of big hat, flowered materials matching frocks are used either for crown, brim or inserts in straw. Laces are good, also, used in combination with soft chiffons and georgettes.

But the smartest picture hats employ one of the silken sheer straws that are now available and ever a joy to the designer as well as the woman who owns one.

## Earl Combs Is Best Lead-Off Man In Majors

Yankees' First Man Is Radical Departure From Old School of Baseball

Earl Combs

BY BILLY EVANS

Has the value of a good lead-off man lost much of its kick in these days of slam-bang baseball?

When I broke into the American League 22 years ago a good lead-off man was of prime importance. In those days, playing for one run was a common practice, since the pitchers held a decided edge, therefore the value of a good lead-off man was far more apparent than at present.

In the old days lead-off men, as a rule, were not hard hitters. Their position of honor came more as the result of being kind to pitch to, fleetness of foot and the ability to lay down bunts and then beat 'em out.

Despite the fact that slam-bang baseball has lessened the worth of the lead-off man, I am still of the opinion that such a player is of vital importance.

To my way of thinking, there is no better lead-off man in the majors than Earl Combs, brilliant center fielder of the New York Yankees.

It is an interesting and peculiar fact that Combs, whom I rate the best lead-off man in the American League, is not the hardest hitter in baseball. In this respect, Earl Combs is a radical departure from the thought of the old school managers. Combs is six feet tall. However, he has a peculiar crouch style at the bat that probably lowers his sights about six inches, making him a hard man to pitch to.

Aside from being hard to pitch to, Combs has a keen eye, seldom offers at a bad ball, hence gets many passes to first base. Fleet of foot, the rival infield must hurry every ball to get him at first. He is adept at bunting and skilled in dropping the ball past the pitcher.

In other words, Combs has all the stuff needed for a lead-off man. In addition, he is a .300 hitter, which adds much to the troubles of the opposing pitcher when Earl steps to the plate.

The fact that Combs gets on so often is a very important factor in the success of the New York club, since such sluggers as Ruth, Gehrig, Meusel and Lazzeri follow in the lineup. With him on, the Yanks profit well when some slugger comes through with an extra base wallop.

The games will begin at 3:30 o'clock.

Dwain Garner, fleet infielder for the Hubbers, is not only a fast infielder but a hard hitter. Red as he is better known with the other members of the nine, likes the game and plays it mostly for the sport.

Here is a line-up of the Pampa nine—cast an eye on them. Weeks, ss; Reynolds, lf; Sealing, third base; Duran, right field; Goher, first base; Shaw, centerfield; Cahill, second base; Clayton, catcher; Eckardt, pitcher; Newton, pitcher; and Hunter, Huest and Vincent extras.

The game will be played at the Merrill Park.

Sealing, third base for the Pampa crew, is a former member of the Philadelphia and Cincinnati clubs of the last season. Sealing first

## HUBBERS HARD AT WORK; WILL GET IN SHAPE

### LOCALS READY TO GET UNDER WAY AGAINST PAMPA ENTRY

The Lubbock Hubbers will be ready to crack down Sunday and Monday with the Pampa Oilers. Although but little work has been done together the entire lineup of the Hubbers had good workouts throughout the week playing with the various city league nines. Today and tomorrow afternoon the Hubbers will get together and take long and hot workouts.

"Emmer" Goher, manager of the Pampa club, has wired the Avanti-Journal the lineup he will use against the Hubbers here on Sunday and Monday. The following, and their positions, will be here for the big opening with the Hubbers: Weeks, shortstop; Reynolds, left field; Sealing, third base; Duran, right field; Goher, first base; Shaw, center field; Cahill, second base; Clayton, catcher; Eckardt, Newton and Hunter, pitchers. Extras, Vincent and Huest.

**Is Winning Team**

This club has won from several of the Panhandle teams and have a winning combination with Eckardt and Newton, old time flingers. The Pampa crew are fast and like plenty of fast company—which they will get with the Hubbers.

These games are the opening card for the Hubbers and will be a test as to the stand the fans of Lubbock and the South Plains will take to baseball in Lubbock this summer. A well grouped and plenty of good talent appears in the Hubber lineup and if the fans are willing to merely attend the games and give them some support at the gate the bunch will stick and Lubbock will have a good or better baseball as she has ever had.

## RIX TEAM IS GIVEN DEFEAT

### Sanders' Crew Weakens And Auto-Barbers Win By Count Of 9-5

Bub Sanders' crew of Undertakers play rather good baseball for about three innings but begin after that to weaken both in hitting and fielding. The Rix nine had a comfortable lead on the Auto-Barbers and but for the mechanics and shavers had reached first base and along came the due time for the Undertakers to take out—and they did. The Auto-Barbers counted 8 runs in the fourth inning to take over the lead and won from the embalmers with a score of 9 to 5.

## TAILORS TAKE ANOTHER GAME

### Three Laundry Errors Give PO-Pressers Victory By 12 To 11 Tally

The Po-Tailors barely nosed out on the cellar bound Laundry nine yesterday afternoon at the Merrill park to win by a score of 12-11. It was when the washmen counted three blunders in a row that cost them the game. Until the last inning the Laundry had a two run lead on the city pressers but with the three errors in a row the Tailors scored three runs to win. Perdue, center fielder for the Lubbock Laundry, delivered every time he walked to the plate with three for three and two of which were triples.

**Modern smokers demand quality and put Camel first**

THIS experienced age knows the good tobaccos it demands in a cigarette. And it has made Camel the greatest leader any age has ever known.

Camel's choice tobaccos and its blending for smoothness and mellowness have made it supreme with modern smokers. Camel today is world favorite, because of quality.

Camel was made to succeed in an age that knows merit. Just try Camels and you'll know why no other cigarette can compare with them. Let the choice of the modern world show you what smoking enjoyment can really be. "Have a Camel!"

### BOYS APPLAUD C. M. T. C. HERE

#### Paid Vacation Idea Seems To Strike Popular Note For Youngsters

Prospects for a large enrollment at Lubbock's summer camps are indicated by the Legion officers and Reserve officers, in charge of C. M. T. C. headquarters being maintained today and tomorrow at Hotel Lubbock.

Fifteen Tech students have signed up, another Lubbock boy signed this morning and a large number more indicated that they are interested in attending.

It is stressed by Col. Clark M. Mulliken of the Officers' Reserve that attending camp does not mean signing up for a term of military service with the government.

The C. M. T. C. camps are strictly for teaching citizenship and physical training, and military training is only one factor taught there.

Sports are encouraged at the camp and competent instructors are furnished in each division.

Several high school football squads from various cities of Texas today are at the camp almost to a body, as a summer training for their football work next season and to put themselves in the best physical shape.

The camp represents a month's vacation and training among the better class boys of Texas with all expenses paid by the government.

### Essie Hamrick Is Winner In Court

Speed was the order of the day in Judge Clark M. Mulliken's court today when the suit of Essie Hamrick vs. the Pidelity Union Casualty company seeking to set aside the award of the industrial accident board, was filed, heard and verdict rendered within 30 minutes time. The case was agreed upon in court by attorneys.

By the verdict, Mrs. Essie Hamrick, acting for herself and children, was awarded the same compensation as provided in the accident board award, but will be granted the money in a lump sum with 6 per cent discount amounting to \$2818.84 for herself and children, growing out of the death of J. M. Hamrick, employee of the Lubbock cotton oil company.

Counsel for plaintiff was represented by Douglas Scott, and for the defendant by the firm of Collins and Houston of Dallas.

### Masaryk Re-Elected In Czecho-Slovakia

PRAGUE, Czechoslovakia, May 27 (AP)—Professor Thomas G. Masaryk was re-elected president of the Czecho Slovak republic today on the first ballot.

President Masaryk, head of the Czecho-Slovak government since the declaration of the republic on November 18, 1918, celebrated his 77th birthday on March 5.

The constitution provides that no president may be elected for more than two successive terms, but an exception was made in the case of Masaryk.

### Witnesses Called In Behringer Case

Hearing of testimony continued today in the trial of the Behringer damage suit against the South Plains Cattle Co., asking for \$10,000 damages for injuries received in an accident near Post several months ago, in Judge Clark M. Mulliken's court.

Dr. V. V. Clark, Mr. and Mrs. W. F. Fancher of Wolfarth, Dr. M. C. Overton and the plaintiff, A. A. Behringer were on the stand testifying as to extent of injuries received. It was testified that Behringer's scalp was laid open, presumably when he was thrown against the windmill and that serious injuries were received.

Hearing of arguments will begin late this afternoon or early Saturday, it was predicted by court officials.

### Billy Evans Says:

Major League Surprises  
Two surprises featured the first month of play by the major leagues and both of them were in the National.

The unexpected reversals of form had the Phillies and the Cincinnati Reds playing the leading roles. Philadelphia furnished the pleasing surprise, Cincinnati the distinct disappointment.

At the close of the first month of action in the majors, just about one-sixth the championship distance, Cincinnati was a bad loss, with the Phillies perched in a comfortable first division berth.

This was directly contrary to the predictions of the baseball experts who were unanimous in the opinion that Cincinnati would be a permanent contender from the start and

that Philadelphia would be the team to get going most any time and again number itself among the select.

While cheer will eventually tell Cincinnati is going to have a tough time making good all the nice things said about the Reds, because of a slow start.

Plays Havoc With Reds  
One thing that has played havoc with the chances of the Cincinnati club from opening day to the present time has been an unsettled infield.

The trouble started when Critt, star second sacker, failed to report for spring training because of a salary difference. That necessitated a shift of the infield candidates and Manager Hendricks has been shuffling things around ever since.

Hardly a day passes without some change being made in the Cincinnati lineup. When a club is in a slump, a manager will resort to most anything to throw off the jinx that seems to be pursuing his team. Little success has greeted the strategic efforts of Manager Jack.

In the spring, it seemed the Reds had just about the best pitching staff in the majors, but it hasn't worked out quite that way. The pitching has been very fair, but some of the veterans have greatly disappointed the Reds' pilot.

However, Cincinnati has too much

for the team to get going most any time and again number itself among the select.

While pleased at the exhibition being made by the Phillies star, I cannot figure the Phillies are strong club stay in front of several club are now trailing them.

NEW YORK COTTON

NEW YORK, May 27 (AP)—Further realizing sales were absorbed on declines of 5 or 10 points in today's earlier trading in the cotton market but prices later advanced on covering prompted by apprehensions of unsettled weather in the south over the week end.

NEW ORLEANS COTTON

NEW ORLEANS, May 27 (AP)—The cotton market was active today and although prices eased off during the morning to levels 12 to 13 points under the previous close on preholiday and week end liquidation, in the later trading they rose to 16.67 for December 22 to 24 points above the lows. Short covering and fears of continued dry weather in the drought section of the belt caused the advance. Near the end the market was active and still tending upward.

WHEAT AND CORN UP

CHICAGO, May 27 (AP)—Big bulges in grain prices today added more than five cents a bushel to the value both of wheat and corn. Breaking of diplomatic relations between England and Russia attracted much attention, although war danger was denied and an unexpected sharp advance in Liverpool wheat quotations was ascribed mainly to unfavorable crop conditions in Canada and to pessimistic crop reports from the domestic winter wheat belt southwest.

TEXAS LABOR ENDING MEET

San Antonio Is Winner Of Next Convention; George Wilson Is President

(By The Associated Press) WICHITA FALLS, May 27.—Installation of officers, action on a stock of resolutions, which failed to reach the convention floor Thursday, reports of numerous committees, and final adjournment constituted the business confronting the thirteenth annual convention of the Texas State Federation of Labor here today.

The results of Thursday's election at which George A. Wilson, Houston, vice president of the federation during the past year was elected president, and San Antonio chosen for the 1928 convention city, in a close race over Tyler, were checked and reported to the convention by the election judges this morning.

Herman Kachel, Denison, retiring president, said the present convention was one of the quietest seasons. An unexpected sharp advance in Liverpool wheat quotations was the chief bullish factor, with further rains in Canada and the corn belt. Opening 7-8 cent to 3 cents higher, Chicago wheat scored further gains. Corn started 1 1/2 to 3/4 cents advance, and later showed some additional upturns. Oats were firmer, provision also displayed strength.

Meeting is Ended
WICHITA FALLS, May 27 (AP)—The singing of "The Mee Meet Again" by more than 20 representatives of Texas organized labor movement, the entire dropped on the 1927 convention of the Texas State Federation of Labor here shortly after noon today.

"The most harmonious convention in the history of Texas labor," was the description applied to the thirteenth annual meeting by the newly elected president, Geo. Wilson, Houston, in an address after he had received the gavel from the hands of the retiring executive Herman Kachel, Denison.

## MARVIN JONES HERE ON VISIT

### Congressman Making Series Of Commencement Talks; Talks Agriculture

Swinging in a big loop over the Plains, Congressman Marvin Jones, who was in Lubbock today, is appearing as the principal speaker in a series of graduation and commencement exercises.

At Slaton At Noon The congressman also appeared before the Slaton Rotary Club at noon today.

It is doubtful, he said, whether he will return to Washington before Fall, although he will participate in committee meetings at St. Louis during the early summer.

Referring to the farm situation, Congressman Jones reported that an effort is now being made between the McNary and Cofledge interests to reach a compromise bill, designed to help agricultural interests, which will be acceptable to all.

No permanent solution to the problem or help to the farmer can be given without revision of the tariff rates, he expressed himself as believing.

### Soviet Troops Are Reported Gathering

TOKYO, May 27 (AP)—Dispatches from Harbin to the Vernacular newspapers say the soviet military commander has ordered the mobilization of troops along the far eastern frontier, which is interpreted in some soviet quarters as a preliminary to Anglo-Soviet hostilities.

The British consul at Harbin is quoted as saying the operation can mean little more than a threat and is not serious.

### France Is Fearing Communist Plans

PARIS, May 27 (AP)—Minister of the Interior Albert Sarraut told the Chamber of Deputies today that the activity of the Communists both in France and abroad, constituted a grave danger to the national interests.

### Baldwin Addresses Unionist Meeting

LONDON, May 27 (AP)—Premier Baldwin made the emphatic declaration today that the breaking of diplomatic relations with Moscow "does not mean or imply war against Russia."

Addressing a mass meeting of women unionists in Albert Hall, the premier said: "Our rupture of diplomatic relations does not mean or imply war against Russia. It means what it appears to mean—that we do not intend to have any further political dealings with Moscow, but we are vitally in favor of the pursuit of legitimate trade between the two countries."

The premier said he welcomed the opportunity of repeating that the step taken by the government was "solely because we found that their (the soviet's) interference in our domestic affairs was intolerable and because we found that in every part of the world the agents were actively engaged in hostile or unfriendly activities against us."

"Our decision was not the result of a deep laid plot to get up a world combination against Russia."

At a time when the English papers are being surfed with little papers and all sorts of criminal detective tales, it adds, "England stands revealed as the most dangerous enemy of European peace."

## FACTS HEARD ON LYNCHING

### Misconduct Toward A White Woman Fatal For Negro In Mississippi

(By The Associated Press) LAUREL, Miss., May 27.—Additional information concerning the lynching of Eddie Lively, 23 year old negro, at Bothwell, Wednesday night, was learned here today.

The negro was removed from the jail at Bothwell, taken to Bothwell, hanged to a tree and his body riddled with bullets.

The lynching was said to have resulted from alleged misconduct of the negro with a white woman. He was arrested and taken to Platte for trial, but feeling ran so high he was sent to Leakeville for safe keeping.

The crowd surprised the officer on duty at the jail, it was reported, and Lively was taken immediately to Bothwell.

Shots were heard here late Wednesday night and the lynching is supposed to have been done at that time.

More than 100 persons were said to have participated.

### Harry Roberts, 85; Dies Early Today

Harry N. Roberts, sr., 85, a direct descendant of John Alden and Priscilla Mullen of Plymouth Rock fame, died at the home of his son Harry Roberts, Jr., at 3 o'clock this morning following a long period of illness. Funeral services were set for 2 o'clock today at the First Catholic church of Slaton, with the Rev. Mike French officiating.

Full honors were given out today as follows: Jed A. Rix, Neil H. Wright, H. D. Moxley, Charles Truitt, Homer Grant and John Dalrymple. Rix morticians have all arrangements in charge.

The deceased was born in Belfast, Maine, in 1852. During the civil war he served in the 121st Illinois Infantry. Surviving are his son, a widow, who is in Dallas who could not attend the funeral, two grandsons and a daughter-in-law, all residing here.

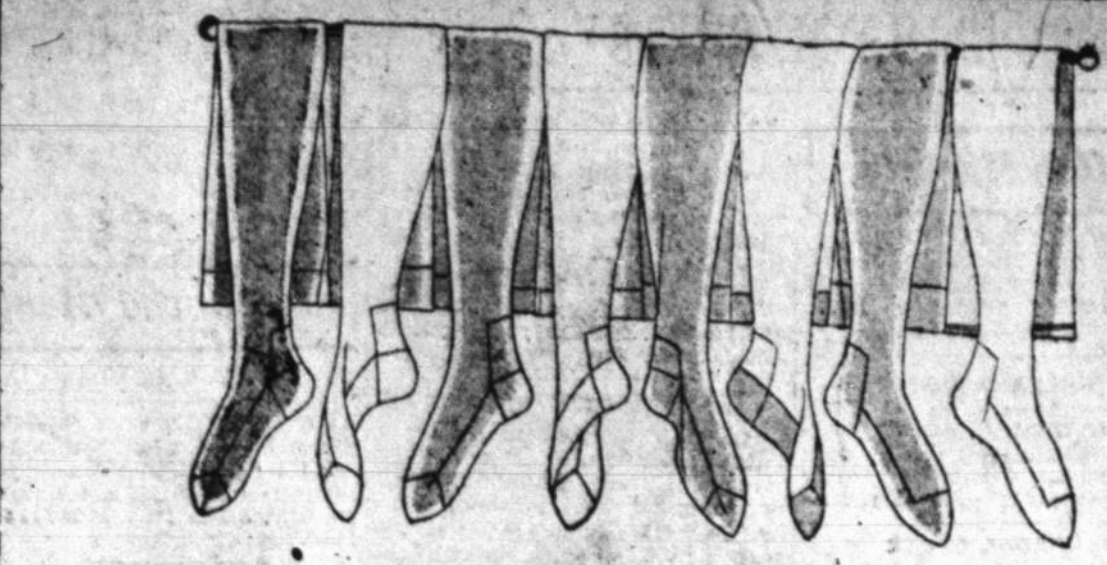

### King Ben's Beliefs Are Aired In Court

ST. JOSEPH, Mo., May 27 (AP)—Tenets of a faith which the state claims was used merely as a cloak to conceal immorality, were read into the record of the dissolution case against the House of David colony here today.

Mrs. Esther Hessel, a former member of the colony, who claims to have been a confidante of Benjamin Funnell, head of the colony, testified that members of the cult were taught to believe Funnell was the embodiment of the supreme being and that he could do no wrong.

According to business matters, Mr. Cummings was formerly a resident of this city and for several years was engaged in the battery and electric business.

### Q. How does the Flat Band Method build longer wear into United States Tires?

A. The Flat Band Method, invented and patented by the United States Rubber Company, puts longer wear into a tire because it is the most precise method of tire building ever developed.

It is comparable to the exact engineering practice of bridge design and construction. Just as the position, length and load of each cable in a bridge are calculated and fixed in advance, so with the cords in a United States Tire.

By the Flat Band Method the plies are laid without tension. The length of each cord is precisely right. The relation of the cords, one to another, is exact.

The result is a tire in which uniform tension and strength of every cord are assured. The load is equalized all around. Longer wear follows.

SAINT AND SINNER

BY ANNE AUSTIN

CHRIS tried to abduct me on the night of September 14—Tuesday night. Cherry answered clearly. "It late—one o'clock at night. I been out driving with Mr. Hathaway that night—it was the night he brought to our home by my father. When I came in Faith told me someone had called. I knew it was Chris and I called him up to the house. I talked with him on the front porch and suddenly he picked me up in his arms and down the path with me toward the house. I screamed, and my father came running to my aid. Chris got away, and I begged Faith not to tell my father who was. I lied to him, said I didn't recognize the man. On Friday, October 1, Mr. Cluny came to my home for the first time, and I went on my marriage. My father used his consent, but I had talked mother—she raised her hand to her lips to hide her smiling—and she had consented, because I made her believe that it was for my happiness. She—the Mr. Cluny. It was with her consent that I began to get ready my meadow, charging purchases at the shops where Mr. Cluny had had charge accounts for me. I just a minute, Cherry." Churchill interrupted. "Was it at Mr. Cluny's suggestion or your own that you charge accounts were open to Mr. Cluny's, of course?" He checked her voice indignantly. "He was that we were poor people, that father had a large family to support, as well as a sick wife. Mr. Cluny himself had insisted that I work after we were engaged. I went shopping with me, made buy far more expensive clothes than I normally would have chosen. I did your fondness for Mr. Cluny cause during your engagement?" Churchill asked. "I did, with every day that I saw him. But—but I did not fall in love with him, the kind of love I wish that makes a girl want to marry a man. Several times—exactly time I was with him, in fact, our engagement was announced in the papers, I tried to break engagement, but he would not let me. He was very happy, he and he looked younger every day on with your story in chronological order, Cherry." Churchill asked her. "Well, on Saturday, October 2, I realized that the engagement would be announced in the papers. I felt desperate, trapped. I wanted to get out of it any way I could. I asked Mr. Hathaway to take me to a dance at the Marlborough Country Club and he did. I was introduced to Mrs. Seymour Wright and her husband and sister, Marjorie. Mr. Cluny's daughter, Cherry explained, at a sudden wild impulse that she try to rap her hair—she was compromising situation. I did my arms around his neck and him and say, "My answer is

"yes" Bob, darling, because I knew Mrs. Albright was in the library, was overhearing me. I didn't intend to make Bob go through with it; I just wanted Mrs. Albright to tell her father what she had seen, so that he would break our engagement. Later I was sorry and ashamed, and I lied when Ralph—Mr. Cluny—asked me about it. I still wanted to be free of the engagement, but I couldn't bear to hurt him so terribly. And Bob had already told Mrs. Albright that I was just showing him how I had accepted his uncle. "Did you try again to break the engagement with Mr. Cluny before November 25?" Churchill asked. "No, the engagement was announced in the papers the next day, and on Monday I received an anonymous letter which made me so angry that I decided to marry Mr. Cluny in spite of everything—my own inclinations or my family's disapproval or anything else," Cherry stated, quietly, as if she did not realize what a sensation she was creating.

TOMORROW: Court adjourns 'til the next day and Faith and Bob again sight Phil, the beggar, on his corner.

Vaccination

It has been said that it takes six years to get an idea through congress, but it is a sad truth that it sometimes takes generations to get an idea through public consciousness. This is exemplified in statistics which show the prevalence of smallpox. There were some 34,000 cases reported last year, all them occurring in the estimated one-tenth of the population which is not and refuses to be vaccinated.

When vaccination was first brought forward as a preventive against the ravages of smallpox it was perhaps natural for superstitious persons to cry down the new discovery. Carelessness in administering the vaccine, the use of infected needles, resulted in a few deaths which set up a terrible prejudice against this then new cure.

Pious New England clergymen who controlled the destinies of their flocks in secular as well as spiritual matters preached from their colonial pulpits long sermons to prove that vaccination was the work of the devil, its practice and practitioners linked in an unclean way with witchcraft and wizardry.

Another Victory

From that salubrious world capital of the world, Geneva, Switzerland, the reading public can expect almost anything in these peaceful days of universal storn and strife. Conferences, economic conferences, white slave conferences, drug conferences, labor conferences, Sunday school conferences, and conferences of all kinds, shapes, sizes and descriptions are running rampant all over the place, fixing things up so that life for the next generation will be truly jolly.

It is from the International Economic conference that the most hopeful of all reforms has just come. Three women have appeared before this august body, informing its graybeards and bald heads that the pots and pans of the world should be standardized. The sizes are now all mixed up better skelter, say the lady delegates, and civilization stands on the brink of some terrible precipice of fate because the womanhood of the sphere is wearing itself out at the nerves and elbows trying to make number two and a half size kettles fit number three and three-eighths size stove holes.

In Business

Secretary of Commerce Hoover has coined a new phrase for the business of "more business in government and less government in business." Hoover calls it "Government by co-operation."

THE PLAINSMAN

This spring is a decidedly important period for education in Lubbock. The largest high school senior class in the city's history has just been graduated. The largest grammar school class in the city's history has just been promoted and on Monday, the first Senior class in the history of Texas Tech will receive its diplomas and go out into the world prepared to meet whatever problems arise.

When Al Jolson, popular stage star, first did a bit in the movies he was disgusted. "I'm rotten," he said. "Just rotten." Yesterday word was received in Lubbock that the star of Robinson Crusoe, and the famous singer of "Mammy" had signed a fat screen contract and would appear in a film soon depicting his life. All of which brings us around to the question "What a whole of a difference a few cents make."

Since President Coolidge is a dry Liberty magazine should like to see the Democratic party nominate a wet to "settle a question in Liberty's mind is yet unsettled." That's a good idea, perhaps, to pit a wet against a dry but why take it out on the Democrats? Let the Republicans nominate a wet instead of Mr. Coolidge and we'll try it out that way. Personally the Plainman does not believe that Mr. Coolidge can be beaten if he is nominated. It's a hard thing to say but never-the-less true. He has weathered many storms in his tenure of office and the Plainman doesn't believe that even the third term bugaboo can stop him.

Juries shall not award more than one cent damages for love balm, according to a Nebraska senator's bill. A penny for your love.

Old Master's

Old Sorrow I shall meet again, And Joy, perchance — but never, never, Happy Childhood, shall we twain See each other's face forever! And yet I would not call thee back, Dear Childhood, lest the sight of me, Thine old companion, on the rack Of Age, should ever sadden thee. —John Banister Tabb: Childhood.

WASHINGTON LETTER

WHY CONGRESSMEN LEAVE HOME MORE COOLIDGE FEARLESSNESS By RODNEY DUTCHER NEA Service Writer

WASHINGTON, May 27.—Even a senator has to learn certain tricks of his job. No member of congress need suppose that he can blithely check out of his office here on March 4 and return to his state for a long, restful and uninterrupted vacation until the following December.

NO PEACE FOR CENTENARIANS

A peaceful, quiet old age may be possible to persons who don't carry their years to extremes. But Mrs. Annie Sanders of New York City, who celebrated her 102nd anniversary last week, complains that photographers and reporters make her birthdays a bother every year.

A FINE IDEA The filling station and garage people at Lubbock are perfecting plans to make the tourist welcome in that city. Every courtesy will be shown the passer through, and information on Lubbock will be dispensed by every filling station employee.

When you figure that hundreds of tourists a day pass through some West Texas towns, particularly along that great artery of traffic called the Bankhead, you can see how much value cooperation like the Lubbock people are putting on will be to the city.

IN NEW YORK SEE-SAWING and down BROADWAY

NEW YORK, May 27.—People are always telling me about the old women who seawage at night among the garbage cans that line the curbs.

In all Manhattan there is no more dread sight I have wanted to blind my eyes to than: to make myself believe that such things could not be in a city that makes such proud boasts.

Kittens Are Helpers

THEY HAVE WORK TO DO Never Fail To Please

A sure diversion for her patients should they become bored or weary while enroute to recovery, is possessed by Miss Francis Yeager, pretty blonde nurse at the Lubbock Sanitarium, in Peggy and Thomas.

One dose of Peggy, she avers, is the best gloom chaser in the world, and leaves everyone amused and interested.

Peggy and Thomas are twin bundles of fluff and activity, ever eager to play with anything that can be bounced about, and claiming the best blue-blooded Persian cat family ties. Each is about half grown, of a mottled orange, brown and general hedge-podge color, and possess that intriguing kittenish look which invites petting.

Turned loose within the vision of some patient who is too bored to progress properly, they immediately start making the fur fly (sometimes literally) and usually have as parties laughing witness a short time.

But the doctors are very sparing and careful in their allowance of the use of Peggy, and only in special cases, where the patient ought to be well but is too listless to get that way, they introduced.

Flashes Of Life

More Honors NEW YORK—There seems to be quite a desire to have the boy hero of the air keep to terra firma when travelling. Railroad executives meeting at Atlantic City have offered him the use of a special train and a company at Syracuse, N. Y., has presented him an automobile.

Business Better

CURTIS FIELD, N. Y.—Applications for instruction in flying number as much daily as they did weekly before a clever young fellow hopped along west from these parts. Among the applicants have been ten women.

Probably Right

OAKLAND, Calif.—Too much time in college is spent ruining good voices in developing cheer leaders, in the opinion of Glenn P. Woods of the board of education. He gave his views in telling the national congress of Parents and Teachers the benefit of community music.

Might Help

NEW YORK—A real spotless town, says New Yorker has found in Sheboygan, Wis. Impressed by the clean streets there, J. L. Reiss inquired and was informed that the children at school were taught to be clutter their streets and not to litter them up. Coming home he wrote the papers that New York might do likewise instead of tolerating the "regular disgrace" of littered parks.

Good Reasons

PRINCETON, N. J.—Among the reasons why Bud Stillman loves Lena Wilson of the Canadian woods, as told to the New York American, she doesn't smoke, she doesn't drink, she doesn't ride and she doesn't Charleston. She's unsophisticated, but she's romantic.

Well, Well—

NEW YORK—An article in The Nation, says that a school teacher, paid \$65 a month in an unidentified North Carolina town, had to promise not to smoke, dance, drink, immediately fall in love and to sleep at least eight hours a night and eat carefully.

Flag Replaces Bell

TRENTON, N. J.—The old-time practice of calling the legislature into session by ringing a bell is perpetuated in the custom today of flying the American flag on the statehouse only while the legislature is sitting, and on holidays and special occasions.

Houston Chosen For Trades Convention

DETROIT, May 27 (AP)—Houston, Texas, was chosen as the 1928 convention city of the Foreign Trade Council in session late last night.

The Houston delegation made an active campaign for the honor of entertaining the foreign traders, sending a large delegation which devoted much time to urging the merits of that city.

The Texas city met little opposition, Norfolk, Va., and Los Angeles, Calif., which also want the foreign trade council to meet in their city informed the convention through their delegations that they will be in the field for the 1929 and 1930 sessions respectively.

Houston's delegates at the Charleston convention last year bid for the 1927 meeting, but stepped aside in favor of Detroit.

### Former Minister Of War Is Dead In Prussian Home

BERLIN, May 27. (AP)—General Hermann Von Stein, 73, Prussian minister of war from 1916 until October 1918, died on his estate at

Lehmitz, near Berlin. General Von Stein's name became familiar during the World War when he was quartermaster general and signed the Daily Bulletin from the front issued by the general staff. One of the foremost exponents of the old German Prussian military tradition, General Von Stein created a sensation after the war when he published his memoirs in which he charged former Emperor Charles of Austria-Hungary with hav-

ing betrayed the central powers and asserted that Charles was prepared to accept funds from the entente powers. Seven former officers of the Austro-Hungarian armies challenged General Von Stein to duels upon the appearance of the memoirs. A mild retraction followed. Vaccination is required at Harvard. The Princeton student's report that it was for rabies is being investigated.

### Spaniard Forcibly Ousted By Mexico

LAREDO, Texas, May 27. (AP)—Cecilio Velasco, a Spaniard engaged in the real estate business in Tampico for the past 15 years, is in Laredo following the application of article 33, pertaining to pernicious foreigners. He reached the border

today in charge of four Mexican secret service men, who took charge of him just as he left his office in Tampico Wednesday evening about 6 o'clock to enter his automobile with his brother-in-law and chauffeur, and was driven 20 miles in his own car by the officers and placed aboard a national line train early Thursday morning. Velasco states that he was enroute from his office to his home at the time he was placed under arrest and no reason given, and he

is at a loss to know what caused his expulsion from Mexico. He was not given an opportunity to say goodbye to his wife and three small children, or to get any of his personal belongings, but was taken direct to his own car by the Mexican secret service men a distance of 20 miles from Tampico, where he was held until a train came along Thursday morning. **Bridegroom Killed** GLASGOW, Scotland—At a re-

cent fashionable wedding at Dun-gavel Castle here, even the bridegroom, C. E. W. Mackintosh, wore kilts. The plaids of several Scottish families were in evidence; Mackintosh wearing in addition to the tartan of his clan a magnificent Cairngorm brooch and dirk. **Talking Films?** SAN FRANCISCO—"Long Duck"

a Chinese eight feet six inches tall who came to the United States to go into the movies, has signed up with a circus because he had difficulty in learning English. **Plenty Of Licenses** LINCOLN, Neb.—A small boy sauntering down the street with two dogs was stopped by an officer. "Have both those dogs got licenses?" he asked. "The big one's all right," answered the youngster, "but the little one is full of 'em."
