OLD MAN 100

OLD MAN 100 SAYS IN HIS OWN MIND—NEITHER IS THE OLD MAN GETTING MAD, COUNT AT THOUSANDS BEFORE YOU BEAT HIM UP—(THE BOSS)

AGAIN—

When the 7th and Old lived in the country we had a dumb hired hand who worked here. Here's what he said one time when it was getting cold:

No! No! I told you to the PUSSY cat in the

MAN DISTRIBUTOR—

Old Hunnert's famous distributor seems to be a good satisfaction up to everybody's pleased with the weather since he got his outfit fixed right. Here's what happened: First, week before last, some of them gas men came silver and he punched C and I over E buttons. He was so cold the gas didn't get out quick, and he again to get Old Hunnert punch the H and F&W which caused that hot last week. Old Hunnert some to the ice man—couldn't cross a tail—so as people began to gripe because we didn't have enough gas, and one or two Old Hunnert plugged in button but the thing stuck half way and it wasn't Tuesday night when Old got it pushed clear in. If you ain't pleased, and of gripe about the gas, just cross Old Hunnert palm with some silver—wait for results. (P. S.—these and nickles ain't silver.)

Best way to read a menu is to look at the price and see what you can get for it.

ER SAYINGS—
I rushed in at the door, he'd often rushed before; he sleeps forever more—he waxed the kitchen

IS OF WISDOM—

ed, just after the 6th, Old Hunnert decided he was through soon was yearning to get married again and take a new one on life.

and the Old Man's 4th was deaf he had to yell so loud he proposed to her, that woman next door sued him breach of promise.

and when our neighbor boasted that his son got his intelligence from his father, the wife he must have because she had hers. Also their daughter has convinced them, they that it's much harder to babies to go to sleep after sixteen years old. They her their Jean-age daughter

man should be master of own home or know the reason why. (Old Hunnert knows reason why.)

Old Hunnert would like to be own as a man of steel—but of people just think it's brass.

and when he was sparking the 5th, Old Hunnert told her, you should see the altar in church. And the 5th said, and me to it.

and when Old Hunnert asked a salesgirl: "Do you take off anything for cash?" she replied, this is a department store—a burlesque show.

Also, when the doctor told him, "The best thing you can give up drinking and smoking, go to bed early and get early." Old Hunnert said: "Somehow, Doc, I don't feel I serve the best—what's second?"

Love at first sight, and divorce at first fight, are both kinda foolish.

RANGE FIELD DAY AT OWENS' RANCH

Owens and Witty ranches near Star, Texas was the scene of a range field day conducted by Ben R. Day of the Soil Conservation Service last Wednesday afternoon for the Veteran's Training School at Star and Mullin. Oran Carothers and H. P. Ford are teachers of these classes and this field day was part of their instruction. Fifty students and other ranchers over the county attended the meeting. The program was centered around the production of the native climax grasses of this area. Mr. J. T. Witty told the group that when he came to this county in 1876 that the grasses touched his stirrup over all that country. "The creeks ran clear and we did not have to feed our cattle," Mr. Witty said. The desirable native grasses were identified during the meeting and the forage production of each grass was given.

The difference in the condition of an overgrazed pasture and properly grazed pasture were studied at length. Mr. Owens told how he managed his livestock and pastures so that he did not have to feed during the winter or summer months. A rancher should figure his profits rather than his volume of business, Mr. Owens stated. "I sell steers that are fattened out entirely on grass," he told the group.

The Soil Conservation Service technicians in cooperation with Mr. Owens and Mr. Witty are making a study to determine the amount of forage that is produced on an overgrazed pasture compared with the properly grazed pasture and also a comparison of the runoff from each pasture.

Paul Koshi, Range Conservationist of the Goldthwaite Work Unit, gave the group some experimental data on range work showed that proper range management paid off. The fact that it takes good grass to produce beef, wool, mohair and other livestock products was stressed throughout the meeting.

Trustee Election To Be Held Over Mills County On April 3

On Saturday, April 3, 1948, trustee elections will be held in each school district in Mills County. This applies to both Independent and Common School Districts. Both local district trustees and county trustees will come up for election at that time.

Present terms of these county trustees will expire on May 1, 1948.

O. O. Smith, County Trustee for Prec. No. 1.

Jim Soules, County Trustee for Prec. No. 2.

Homer B. Weaver, County Trustee for Prec. No. 4.

Present terms of Geo. M. Fletcher, County Trustee at Large, and A. A. Downey, County Trustee for Prec. No. 3 are due to expire May 1, 1949.

Since a number of common school districts have consolidated with the Goldthwaite District since the last election, it will be necessary that all seven places on the Goldthwaite School Board be filled by vote of the people of this district on the first Saturday in April.

To be replaced are all seven of the trustees for the Goldthwaite Independent School District, who are: C. C. Collier,

The revival at the First Baptist Church continues each evening throughout the remainder of the week with services at 7:45 and also at 10:00 a. m. Dr. Charles R. Shirar of Alexandria, Louisiana, is preaching at the two services daily. Saturday night is to be Youth Night. The service will be especially designed for young people. Following Dr. Shirar's message on Saturday evening, he will show his colored pictures of Europe which he took this summer while he was there. These pictures will be of interest to all.

The meeting will close Sunday, 3:00 p. m. at the goal for Sunday school and 100 for Training Union. All our friends are given a most cordial invitation to come and be with us.

THE METHODIST CHURCH

M. D. LOWRY, Pastor

This is the meditative season of the Christian year, and we ought to be searching our hearts to see if there is anything that is keeping us from measuring to our best in the sight of God. Attending our church is very definite help when we sincerely try to abide by its principles of love and righteousness. Let us all attend church this Sunday.

FAT STOCK SHOW RIBBONS DISPLAYED

Banners, ribbons, newspaper clippings and pictures of Mills County boys who placed in the fat stock show in 1948, are now on display in the show case of Bob Steen's hardware store in Goldthwaite. Topping the list is Robert Henry Johnson's Grand Champion Banner taken at the Houston Fat Stock Show. Other ribbons and banners have name plates to indicate the Mills County boys who won.

Last year a display of Jim Bob Steen's banners and ribbons were displayed in the show window of Little's Dry Goods Store.

SAN ANGELO

CANDIDATE FOR CONGRESS FROM 21ST DIS. VISITS

Judge Howell E. Cobb of Brady, candidate for Congress from the big 27-county Texas 21st District, visited with voters in Goldthwaite Wednesday in the interest of his candidacy.

Howell is considered a Mills County boy, as he attended the local high school and graduated from it in 1922. His father, H. E. Cobb, moved to Goldthwaite from Hanna Valley in 1917, when Howell started to school here. He also worked at Clemen's Drug Store. Mr. Cobb attended Texas University after graduating here, and moved to Brady in 1931. In June of 1942 he resigned the district attorneyship of the 35th Judicial District composed of McCulloch, Brown and Coleman Counties, and volunteered for the army, where he served until discharged in March, 1946. Since that time, he has been practicing law in Brady.

Howell says that ever since finishing high school here he has had an ambition to represent his district in the national congress, and he is now trying to realize that ambition.

RED CROSS SETS \$75,000,000 GOAL TO FINANCE ITS WORK THROUGH NEXT FISCAL YEAR

FARMERS HOME ADMINISTRATION HAS MEETING HERE

A basket lunch was served to 23 borrowers of Mills County who have borrowed money from the Farmers Home Administration Thursday of last week. The get-together was held at the Mills County Vocational School from 10 to 3:30.

George M. Dorman, County Supervisor, gave out some figures on 21 borrowers of this county as follows:

Loans averaged \$7,889.09 each, with an average annual installment of \$343.52. The average borrower is now \$676.76 ahead of schedule, and the average acreage in the 21 farms is 244 acres.

Loans are made on a 40-year payment plan, with 3 and one-half per cent interest. The average total income per family in Mills County in 1947 was \$3,087.08, and the average net gain per family that year was \$1,142.86. Actual figures are kept by each family, and there is no guesswork.

The Farmers Home Administration loans were started in Mills County in 1941, and three borrowers have already paid off their loans in full. Two other borrowers were not figured in the average for the 21 because they came in late in 1947.

An annual meeting is held by Farm Owner Borrowers to discuss activities of the past year and to plan for the coming year.

SUB-DIS. MEETING OF METHODIST YOUTH

This Sunday morning at ten o'clock in the Methodist Church at Lampasas the young people of this sub-district of the Kerrville District will begin their quarterly meeting. The program of worship is furnished by the host church and will prove helpful to all who are in attendance. A fine group of young people from the Methodist Church are planning to attend.

On the afternoon of this Sunday at Lampasas the young adults of this sub-district of the Kerrville District assemble for a worship program on the Christian family. In the business session which follows new officers will be elected.

Mrs. R. L. Steen and Mr. Edward Leonhard from the Methodist Church here are on the worship program.

During March the American Red Cross will ask the American people to subscribe \$75,000,000 to carry on its far-reaching program for the fiscal year 1948-49.

Mills County's portion of the National Goal is \$3,207.00. As an illustration of increasing service requirements, it is pointed out that prior to World War II Red Cross service for veterans and their families were extended to less than 150,000 persons. Today there are approximately 18,000,000 veterans—a substantial number of whom require the services and assistance of the Red Cross.

Disaster Relief provides another example—Red Cross must be prepared for all catastrophes. During 1947 approximately \$11,000,000 was allocated for disaster aid to over 300,000 persons.

An entirely new activity to be financed through the 1948 Fund is the A. R. C. National Blood Program. This may take five years to become fully operative throughout the Nation. It is an outgrowth of the Red Cross war-time blood donors activity. The program is designed to meet the urgent peacetime need for blood in treating the ill and the injured.

The Red Cross will assume the entire cost of collecting, processing and distributing the blood. The only cost to the recipient being the charge normally made by hospitals and physicians for its administration.

Red Cross services to veterans in hospitals is an item that must be carried on. As of September 30, 1947, 105,000 patients were under Veterans Administration care in hospitals. The Mills County Chapter gives service to the Veterans Administration Hospital at Waco.

Many times a year the people turn to the Red Cross. Once a year the Red Cross turns to the people.

This year make YOUR'S a LIBERAL donation to the Red Cross.

Chapter Chairman E. T. Fairman will appoint a 1948 Fund Chairman next week and the Red Cross 1948 Fund Drive will open in Mills County Monday, March 8th.

Our WASHINGTON Letter

By Congressman O. C. FISHER

LEFTIST GOES TO CONGRESS

When old Henry Wallace spoke in Newark, New Jersey, last June 9, he said "The United States has become the center of world reaction," and "the common man more and more looks to Russia for ideas, help and inspiration."

Wallace now claims credit for the election of one Leo Isacson who was voted into congress from the Bronx district in New York last week. Wallace had made a speech for the American Labor Party candidate. In 1946, the American Labor Party candidate got 24,000 votes in the same district, and now Isacson

goes in with 22,697.

Political observers reason that the leftist voters turned out this time in almost exactly the same number as in 1946, but that the non-leftists—who controlled the 1946 contest—simply failed to go to the polls and vote against Isacson.

It is well known that the Communists are strong in that district and vote as a unit, just as they are in the adjoining district where Representative Vito Marcantonio was the favorite in 1946 with the help of Wallace. It is only natural that Communists would be attracted to a candidate supported by Henry Wallace—the man who less than a year ago said the common man "more and more looks to Russia for ideas, help and inspiration."

Fortunately for America, there are not many districts in this country where that kind of thinking is not repudiated.

J. EDGAR HOOVER SPEAKS

Last week I had a radio interview with America's Number 1 G-Man—J. Edgar Hoover, Director of the F. B. I. Mr. Hoover, whom I have had the privilege of knowing quite well, is often referred to as the most univers-

ally respected man in America today. In an exchange of our views on the subject of Communism and subversive activities, the F. B. I. chief made a number of observations that are significant.

Referring to the strength of the American Reds, Mr. Hoover said: "The fact that there are less than 100,000 known members of the Communist Party of the United States of America itself is not too serious. But they are only the duly constituted members of the Party. The Communists themselves make the boast that for every Party member there are 10 others ready, willing and able to do the Party's work. This includes Communist sympathizers, fellow travelers and stooges who conceal their real identity with a cloak of pseudo respectability. Whether the menace of Communism can be determined by the number of Communists on the Party rolls is immaterial. There are some misguided and innocent persons who claim that we have nothing to fear. Unfortunately the good people of Germany and Italy learned that lesson but only after it was too late. The Nazi Party only had 30 members when Hitler

joined it in 1920, while the Italian Fascist movement in 1919 consisted of Mussolini and 150 of his friends and when they marched on Rome they were outnumbered 10 to 1. But they were organized just as the 80,000 members of the Communist Party were when they overthrew the old Russian government and seized power."

On the question of what the Communists in America would do in case of war with Russia, Mr. Hoover commented:

"I believe few Communist statements, but I take some of them at full face value. Here is one I freely accept. A top functionary of the Communist Party when asked the very question you have just asked me said: 'A war by the United States against the Union of Soviet Socialist Republics would be an unjust war, which is why it must be fought against; but if it should come, the Communist Party of the United States would be with Russia, and make no mistake about that.' This is not the feeling of just one Communist leader. It is part of the accepted catechism of all true Communists. In another section of the country a Communist leader made this statement: 'I believe that everyone should know that we are for Russia and if need be we will die for the cause. I don't mean that war with Russia is coming soon; I hope not, so that Russia will be better prepared.'"

In commenting on the best way to deal with our American Reds, the F. B. I. chief concluded: "If we do these things: expose Communism wherever it exists, protect the civil rights and liberties of everyone and devote our energies enthusiastically to making our kind of democracy work—then the Communist infiltration will fail and the constitution of the United States will triumph over the Communist Manifesto."

A good way to use the last bits of a ham is to add it to a cream sauce made by heating a can of mushroom soup as it comes from the can. Add only a tablespoon or so of cream or milk for thickening.

'MAGIC TOWN'

COMING—

'MERTON OF THE MOVIES'**'DRIFTWOOD'****'MAGIC TOWN'**
TO SHOW HERE

Robert Riskin wrote the notable screen hits "It Happened One Night" and "Mr. Deeds Goes to Town," among many others. For his first independent picture, distributed by RKO, he wrote a story which tops any of those earlier box-office smashes. "Magic Town" is the title, and the stars are two Academy Award nominees, James Stewart of "It's a Wonderful Life" and Jane Wyman of "The Yearling," to mention only their latest successes.

"Magic Town" is a picture so unusual that it defies quick and easy classification. One person might call it a moving, tender romance. Another would refer to it as an uproarious comedy. A third will see in it a sincere, stirring drama, a story of great importance in our troubled times. It really is all three, skillfully blended into superlative entertainment.

Stewart's performance as the undercover public opinion expert, an ambitious, slick young fellow looking for a short cut to riches, is on a par with the best he has done in films, perhaps the best.

Miss Wyman, just now coming into full stature as one of Hollywood's finest actresses, never before has had such a good role, displaying fully her romantic, comic and dramatic abilities.

ANN SHERIDAN TRIUMPHS**IN WARNER BROS. DRAMA**

An up-to-the-minute story, packed with suspense, of a woman who is unfaithful to her absent husband, is the exciting theme of "The Unfaithful," new Warner Bros. film drama which opens Saturday night prevue at The Melba Theatre.

Ann Sheridan, Lew Ayres and Zachary Scott have co-starring roles in the romantic production, with Eve Arden, Jerome Cowan, Steve Geray and John Hoyt in other important characterizations.

"The Unfaithful" begins with a cry in the night and a dead body on the floor of Chris Hunter's home. Chris (Ann Sheridan) tells police that the intruder had demanded her jewelry and in the struggle she had stabbed him with a knife which her husband, Bob (Zachary Scott), had brought home from Tokyo.

In addition to the top-notch performances by the stars, the production boasts sensitive performances by Eve Arden as Ann Sheridan's sister-in-law, Paula; Jerome Cowan as the unrelenting prosecuting attorney and Steve Geray as the art dealer who plays a significant role in the untangling of the true story of Chris Hunter's unfaithfulness.

Big Valley H. D. Club

The Big Valley H. D. Club met in the home of Mrs. Hugh Smith Thursday evening at 2 p. m.

Meeting was called to order by the chairman. There being no old business, new business was called for, delegate for the District meeting was selected from our club. Recreation was led by volunteers, then the meeting was turned over to our Agent, who gave us many helpful hints on "Wardrobe Planning."

Refreshments were served to nine old members, three new members and five visitors and the County H. D. Agent. The next meeting will meet with Mrs. Whitley Thursday, March 4th.

Frank Overstreet of Kerrville brought Miss Georgia Frizzell home from Temple Wednesday of last week, where she spent eight days in the Scott and White Hospital for treatment.

Art And Civic Club

February 5th, the Art and Civic Club met in the home of Mrs. Jack Reid. After the business meeting the leader, Mrs. Oran Carothers, introduced the speaker for the program, Mrs. Jacob Saylor read a letter she had received from a lawyer living in Alaska. This was very interesting to the club. Mrs. Charles Conrad then gave us the history, both past and present, of the Aleutian Islands. Mrs. Carothers told us many interesting things about Alaska and explained the map of Alaska to us. The entire program was enjoyed by the club members and guests.

Mrs. Reid served a delicious refreshment plate.

Mrs. Charles Ford was hostess to the Art and Civic Club February 19th. During the business meeting the Club presented a surprise gift shower to Mrs. Philip Nickols. After the arrival of the guests, Mrs. Jesse Moreland, leader for the program, introduced Mrs. Parker Shaw. Mrs. Shaw reviewed the book, "Four Fares to Juneau," by Marie Small. It was the story of a modern American family living through the hardships of Alaska. The review was educational as well as entertaining. Mrs. Ford served a delicious refreshment plate.

GARDEN CLUB

The Goldthwaite Garden Club met in the home of Mrs. S. P. Sullivan Feb 18, with Mmes J. M. Campbell, L. R. Cooner, Walter Weatherby, and M. Y. Stokes as co-hostess.

The business meeting was presided over by the president, Mrs. Jim Weatherby.

THREE GOLDTHWAITE STUDENTS ON TARLETON HONOR ROLL

Stephenville, Feb. 25—There were 185 students on the Tarleton honor roll for the fall semester, according to Dean E. J. Howell.

Thirty grade points were needed for the semester honor roll. Grade points were given on the basis of semester hours taken and grades made.

On the Honor Roll from Goldthwaite were Winston Faith, Jim T. House, and Janie Ruth Simpson.

Herschel Hutchings spent a week with his parents and brother, James. He returned to Hemphill, Texas, last Tuesday, where he is working.

Ira Hutchings visited in Fort Worth lately with his daughter and family and found little Eugene Stuck in the hospital but he is at home now doing nicely. Mr. and Mrs. Till Jenkins, Mr. and Mrs. Ira Hutchings visited in the Elzie Smith home Sunday night.

Fifty six men signed the declaration of Independence.

SCALLORN—

—By MRS. ORA BLACK

Worship was observed here Sunday as usual, with the leadership of Mrs. Gene Turbiville, superintendent of the Sunday school and Rev. Chas. Cloud as pastor. It is definitely known that the church work of our community is rapidly progressing.

There were forty-five present for the morning worship. Mr. and Mrs. Wayne Henry and two children presented themselves as candidates for membership of the church with a promise of a letter from a New Mexico church. We were happy to add to our Sunday School enrollment the names of Mrs. Webb Laughlin and little grandson, along with Henrys.

Plans for the Scallorn summer vacation Bible School were discussed and it was agreed to hold the school in connection with the summer revival, with the time being set to begin Friday night before the 4th Sunday in July.

On Friday night of this week, Rev. Cloud and family will return here for a series of meetings to continue through the 5th Sunday. You are cordially invited to attend these services.

There will be an all-day service Sunday with lunch prepared by the ladies.

Plans for an Easter program are underway and with the help of the entire membership we look forward to observing the day in commemoration to our Saviour.

Mr. and Mrs. Arlie O'Bannon from the Chadwick Community attended church here Sunday. Accompanying them were Mr. and Mrs. Wayne Henry and two children, who have made their home in Hobbs, New Mexico, for the past four years, but are moving back here to their home. Mrs. Henry was elected principal of the Vacation Bible School. Other helpers will be Mrs. Chas. Cloud, Mrs. Gene Turbiville, Mrs. C. H. Black and daughter Jane, with the cooperation of the entire membership of the church.

Guests Sunday afternoon in the home of Mrs. R. D. Evans were Rev. Cloud and Mrs. Cloud, Mr. and Mrs. Dutch Smith and Mr. and Mrs. John Harris. Mrs. Luther Brown called in the home Wednesday afternoon.

Mr. and Mrs. Leon Johnson had as their guests Sunday his parents from San Saba.

Mr. and Mrs. Frank Hines called Wednesday in the Webb Laughlin home.

Guests last Sunday of Mr. and Mrs. John Kuykendall were their daughters, Mrs. Frances Kyle and son Eddie, and Mrs. Bob Sims, Mr. Sims and little daughter of Brownwood.

The writer and son Billie visited last week in Brownwood with her sister, Mrs. S. M. Black and family.

Mr. and Mrs. Wallace Durst called in the Webb Laughlin home Friday.

Mrs. David Jones and son Charles were guests in Lampasas Sunday of her mother, Mrs. Steve Smith.

Mr. and Mrs. Mike Johnson of Goldthwaite called Sunday evening with the C. H. Blacks.

Dee Jones accompanied Mr. and Mrs. Otis Brooke of Lometa Sunday to a dinner in the H. H. Brooks home.

Mrs. Earl Blake of Goldthwaite visited Sunday afternoon here with the Black families. Mr. and Mrs. Blake have leased land in Valera and are leaving this week for their new home.

Ora Black and Billie went to Mullin Thursday for a visit in the Chas. C. Wright home.

Mr. and Mrs. John Kuykendall called Sunday in the Noble Doggett home.

W. S. C. S.

Mrs. T. C. Graves opened her home Monday evening to W. S. C. S. Circle No. 2.

Mrs. Charlie Bayley led us in our opening prayer. Then we sang "Sweet Hour of Prayer." Mrs. Hester gave the "Great Prayers of Jesus."

Eighteen women were present. Mrs. Graves, assisted by Mrs. Carl Featherston and Mrs. John Keese as cohostesses, served a refreshment plate consisting of whipped cream pie and grape drinks to eighteen ladies and four children. Reporter.

Be Quick To Treat "Bronchitis"

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and add nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood essence by special process with other fine tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it soothes and heals the throat.

Mix Lemon Juice AT HOME TO RELIEVE BACKACHE

Money back—if this recipe fails. Many of the thousands of folks who have been taking lemon juice for rheumatic pain have found that by adding two tablespoons of Allenby's to one tablespoonful of lemon juice in a glass of water, they get faster relief for the aches and pains caused by the gouty phases of rheumatism, neuritis and lumbago. Allenby's is a 20 year old prescription made just to relieve such symptoms. Costs little at druggists.

REN-O-SAL FOR FASTER GROWTH

Chicks raised on Dr. Salisbury's REN-O-SAL grow faster, mature sooner, and lay eggs earlier. Yes, REN-O-SAL's growth-stimulating benefits increase the poultry earnings of flockowners. You, too, can boost your poultry profits by using this popular drinking-water medicine. Just mix two REN-O-SAL tablets in each gallon of drinking water. REN-O-SAL in larger doses also controls cecal coccidiosis.

Mills County Veterans' Vocational School

We have information from the coordinator's office that a new instructor for agriculture will join our teaching force, beginning next Monday, March 1. He is Mr. Moses, now living in Austin but formerly from Lampasas. When more information is available we shall tell more about him. An additional instructor for agriculture has been needed by the school for some time and he will be very welcome by all of us.

The office has received a letter explaining the new law pertaining to a raise in subsistence for veterans doing college work. But we are sorry it does not affect students doing work outside of colleges and universities. Following are the types of training not included in the law:

1. Part time student training.
2. Institutional on-the-farm training.
3. Apprenticeship or other on-the-job training for which veterans receive compensation for productive labor.
4. Combination or cooperative training in which students attend school part time and are employed part time, usually in a related field.
5. Internship and residency training.
6. Graduate training under a fellowship requiring reduced credit.

Distributive education classes under Mr. Williams and Mr. Swindle have been making special studies in advertising and salesmanship, with some math and English sandwiched into the discussions. If any of you boys have anything new or outstanding bring it to class. How about some of you employers coming to class some night and making a talk which will give us your viewpoint on the training courses? It will be time well spent for you and for the classes. We need your encouragement and help.

Tuesday of last week the T. & L. Class, under supervision of Mr. Locklear, visited the ranch home of Robert B. Slaughter. This home, when finished, promises to be one of the "show" places of Mills County. H. L. Coffman and G. Kinchele of the Mills County Vocational School have worked on the building throughout the entire construction.

The Agriculture classes are still having success in trapping buzzards. Mr. Duren says the trap in Priddy community has made a catch of 118 of these pests at one setting. The Priddy boys are still doing some fine work in pruning and spraying fruit trees.

A joint demonstration of the conservation group and agriculture departments of the Mills County Vocational School under supervision of Mr. Carothers of the Star division and Mr. Ford of the Mullin class was held near Star this week. The demonstration was attended by a large number of interested citizens, many of whom were not veteran students. Laboratory work in soil conservation was the main subject for study. These tests were made on the farms of Mr. Owens and Mr. Witty near Star. Studies were made in range management and pasture conditions, identification of native grasses, water penetration into soil and water-holding capacities of different soils. Forage production to show the proper number of animals to be supported were given in figures which are significant. A cow needs 100 pounds of forage per day for proper support. Observation was made of pastures and of stock that had not been fed on Mr. Owens' farm. The effect of rainfall on properly stocked pasture and that on overstocked condition was studied. On one farm where rotation was practiced the land would retain moisture much better than on an adjoining farm where rotation had not been practiced and where the ground was barren. Temperature tests were taken of the soils and in the barren soil it was found to be 9 to 13 degrees colder than land with forage crop or grass on it.

The stock on Mr. Owens' farm where good pasture had been

FRESHMAN NEWS
This week is six weeks test and every one is busy studying. We took our algebra test this morning, and we are all hoping we passed. We will have our Science test Tuesday, History and Literature Wednesday. We will turn our grammar books in tomorrow.

Last week there were a few of the freshmen sick with a flu but are all feeling fine now. This is all of the news for this time but will be around next week the same time.

JUNIOR NEWS
This is the week for six-weeks' test. We have bookkeeping, algebra, and American history tests Tuesday. We have Literature Wednesday. Everyone is hoping to make good grades. We wish to express our sympathy to Roddy Walton, whose grandmother passed away last week.

SOPHOMORE NEWS
By MATTIE JO GREEN
The sophomore class is taking six-weeks' test this week.

Our biology grades were better this six-weeks than usual.

We have been studying letter writing in English, both social and business. We have been studying fractional equations in algebra.

We all hope to pass this six-weeks.

DOWN ANNA MAE'S ALLEY
Aldean, did you go to the ball game or to Hurst Ranch? I bet Vernell would know.

Ruth, you wasn't expecting Cecil Saturday night were you? Does it seem like old times?

Star was sure represented in Brownwood Saturday night. Laueta, Bruce, Dorothy and Billy might know how they came out.

Geraldine, you certainly did get a lot of geometry worked Sunday afternoon.

Sue, why didn't you go along with your little brother? It might have been worth it, you know.

Ozema, were you surprised to see Edgar Saturday night?

Velda you and Marjorie sure are stepping out with the Goldthwaite boys.

Ernest Kohler of Priddy No. 4 Conservation Group recently built approximately 8 miles of large channel type terrace. Mr. Kohler built these terraces himself with a triple disc plow and an "H" Farmall tractor.

E. D. Robertson of the Lower Bayou Conservation Group recently planted 3 acres of Canada Wild Rye grass. The seeds were broadcast, tandem was used to cover them and then packed with a cultipacker. Mr. Robertson was assisted by Paul T. Koshi, a technician of the Soil Conservation Service.

Cooperators in the Pleasant Grove No. 2 Conservation Group have planted approximately 24 acres of Madrid clover. One tractor was used to plant all the clover in the group. David Watters, the Conservation Group Leader, planted 7 acres, C. N. Berry planted 13 acres, R. C. Berry planted 2 acres and A. Z. Berry planted 2 acres. The rate of seeding was less than one pound of Madrid clover per acre and was planted in 36 inch rows.

W. H. Wasserman of the Duran Conservation Group last week planted 13 acres of Madrid Clover. Mr. Wasserman used a combination fertilizer and grain drill owned by the Brown-Mills Soil Conservation District Supervisors. 100 pounds of 20% super phosphate was used and seeded at the rate of approximately 3 and 1-3 pounds per acre.

The Owen Brothers of the Center City Conservation Group last week planted 85 acres of Madrid Clover. A combination fertilizer and grain drill owned by the Supervisors was used.

100 pounds of 20% Superphosphate was used and was seeded at the rate of 3 pounds per acre. The Owens are planning to have quite a bit of summer grazing this year and harvest seed about

T. J. Clendenin on the North Mullin Conservation Group has 7 and 1-2 acres of fall planted Madrid Clover. A good stand was reported.

Most of the Madrid clover planted in the early fall came up to a good stand, but the clover that was up during the freeze was damaged by being heaved out of the ground. New seedlings were noted on some farms where the clover was killed. A fair stand is expected on these farms.

A registered professional engineer, he came with the Highway Department in 1927. He had previously built dams in Arizona and worked for railroads in Texas.

Copies of the new Spring Edition are available to the traveling public at the Highway Department's main office in Austin, its twenty-five district offices throughout the State, and at its nine information bureaus operated at ports of entry into Texas.

SANTA FE AWARDS TO FUTURE FARMERS

Reaffirming the Santa Fe Railway's supporting activity in the development of Future Farmers of America, President Fred G. Gurley today announced that educational awards would be offered outstanding young FFA leaders again this year.

The national convention of FFA is to be held in Kansas City, Mo., Nov. 14 to 18, inclusive, according to Dr. W. T. Spanton, national advisor.

The Santa Fe Railway assistance in this program will enable fifteen FFA representatives from Texas to take part in the convention. The educational award covers the entire expense incident to participation. Winners are selected on the basis of outstanding achievement in FFA work by the State Department of Agricultural Education under the direction of R. Lano Barron, State Advisor of the Texas Association of FFA. The selected winners will be certified on the basis of individual accomplishment.

Similar awards are also to be offered in other state served by the Santa Fe.

Swing Of Southwest Farm Markets

(U. S. D. A.)

Cotton, grains and livestock partly recovered recent losses last week, U. S. Department of Agriculture's Production and Marketing Administration reports.

Cotton trading increased sharply at southwest markets, and prices advanced around \$3.50 a bale. Dallas closed Friday at 32 cents a pound.

Grains made a strong comeback from sharp declines of recent weeks. More active demand brought out materially increased marketings as the situation became more stable. Sorghums gained around 16 cents a hundred for the week, as corn advanced 19 to 23 cents a bushel, barley 16 cents, oats 5 1/2 cents and wheat 8 1/2 cents.

Hogs recovered 50 cents to \$1 or more of recent losses during the week's trade.

Texas sheep markets held steady to strong for the week,

though goats sold weak to \$1 lower at San Antonio. Medium to choice fat lambs ranged from \$18.50 to \$22. Top ewes brought \$11 to \$13, and most goats \$8.50 down.

Most cattle classes sold strong to \$1 higher for the week, though bulls tended lower at some markets and cows lost at Houston. Common to medium cows brought \$15 to \$18 at Houston and Wichita, while medium and good grades moved at \$17.50 to \$19 at San Antonio and \$17 to \$20 at Oklahoma City. Fort Worth bought beef cows from \$15.50 to \$18. A spread of \$11 to \$15 took most canners and cutters, though Denver paid up to \$15.50.

Eggs sold lower at Fort Worth and poultry weakened slightly at Fort Worth and Denver, as most other southwest markets remained steady to firm. Dallas bought eggs around 40 cents a dozen, Fort Worth 40 to 42.

Escorts For Returning War II Dead Win High Praise From Relatives

Heartfelt thanks and appreciation of the manner in which escorts assigned by the Department of the Army to accompany remains of World War II dead for carrying out their special missions are being received from grateful next of kin, Colonel Butler, Commanding Officer of the Fort Worth Quartermaster Depot, announced today.

"In spite of their bereavement and the emotional stress caused by reburial of their loved ones, many fathers, mothers, widows and others are writing to tell us that escorts are proving to be a source of comfort and help to them," Colonel Butler stated.

The unsolicited letters received here are being duplicated throughout the country, Colonel Butler revealed, as the Army pays its respects to armed forces dead being returned to the United States, at the request of next of kin, for final burial. An escort is provided by the Army from the Distribution Division area to accompany the remains to the place next of kin desire the remains to be returned. The escort is of equal or higher rank, grade or rating than the deceased and is a member of the same branch of service.

Typical of the letters received is one from Oklahoma. The father of a second lieutenant whose remains were brought back recently, writing of the

escort, saying, "If we had chosen the escort ourselves we could not have been more pleased. He was a great help to us and carried out everything to our satisfaction. We all admire him very much."

Another letter from a Texas mother of an enlisted man whose remains were brought back stated, "The escort who accompanied the body of my beloved son to his home town is to be highly commended. He was well informed and well trained and with the ability and personality to execute his duties in a commendable manner. His services were more than satisfactory and far exceeded my expectations. He helped me to bear my burden more gratefully and will forever have a place in my heart."

A Louisiana funeral director wrote: "The military escort kept consistent watch Friday and Saturday, giving sympathetic comfort to the family of the deceased and able assistance to us as funeral directors. He cooperated courteously with the veterans organization who had charge of rendering military honors at the graveside as requested by the mother of the deceased. While on duty here the escort won the hearts of all who met him by his friendly manner, military bearing and courtesy, and his sincere devotion to duty."

YOUR SPINE AND HEALTH

VIGOROUS health results from normal function of the forces within your own body. The Chiropractor has been trained to locate the place of nerve interference in the spine, and to adjust the vertebral subluxation creating such interference, thus allowing the normal transmission of vital nerve energy throughout the body. Keep your spine in normal condition and you will enjoy good health.

CASE NO. 156—Young mother, age 19. Case suffered acute pain in the abdomen just below the breast bone. Attacks had started about 15 months prior to coming to our office, with about two weeks intervals between attacks.

Physica examination and exploratory operations had failed to reveal the CAUSE of the pain. At the time case was brought to our office, the attacks were coming every few hours and pain was so severe that sedatives were being resorted to for relief. Case history also showed headaches, irregular periods and underweight.

The Neurocalometer examination revealed an interference to the nerves supplying the abdominal area and X-rays were taken of the spine in the location interference was found.

This case was free from pain in less than one week and dismissed well in one month. One year later, she was still doing her own house work, caring for her baby and had no recurrence of the old conditions.

The Adjutant of a veteran's organization, commenting on an escort who took part in a ceremony during which military honors were accorded the deceased, wrote: "The escort who accompanied the remains conducted himself in such a manner as to win the esteem of all those with whom he came in contact. The steady attention to his duty and the family of the deceased as well as the many friends, did more to create good will toward the Armed Forces than has hitherto been performed."

The training program for escorts was instituted by the Office of The Quartermaster General.

IS but little more dependable than your Lower Colorado River Authority electric service! That miraculous continuity of service on the Authority's 39-county system is no accident, but is due to endless watchfulness and careful operation by its more than 700 employees.

Anything mechanical can break down, but interruptions of service from breakdowns can be kept to an absolute minimum by far-sighted planning, intelligent management and careful maintenance of equipment such as the Authority and its employees provide.

Service interruptions happen to every utility. A sudden gust of wind carries a branch across some wires... a short circuit disrupts service, and a line crew races to remedy the trouble.

Nasty weather means nothing to these hardy fellows that man the line crews. They're used to it. It is just part of the vitally important job they're doing to help give you the kind of unfailing service you've grown to expect.

Few electrical systems can claim a record equal to that attained by the Lower Colorado River Authority.

452 BUILDINGS AT CAMP BOWIE TO GO TO HIGHEST BIDDER

As advertised in The Eagle last week, 452 War Surplus buildings will go on sale at Camp Bowie, Brownwood, to the highest bidder on Tuesday, Wednesday and Thursday of next week. The auction is open to the general public, and no priorities are needed.

Inspection period is any day prior to the sale, except Saturday and Sunday, from 8 a. m. to 4 p. m.

With 452 structures—the tail end of all buildings to be removed from the site—up for clearance, War Assets will hold a final location sale at Camp Bowie, Brownwood on March 2, 3 and 4. Many of the buildings are huts, others include the usual mess hall, barracks, storehouse and standard GI types. The public is invited to attend and to participate in the bidding, which WAA will conduct so that those desiring one or two buildings for their own use will get preference without delay, and without priority.

'KILROY' BRINGS CRIPPLED CHILDREN'S CLINIC \$20,000

(Houston Chronicle)
Because "Kilroy" and Simon
Sakowitz were there, the Arabia
Temple Shrine's crippled child-
ren clinic will benefit to the
hearty sum of \$20,000.
That's what Mr. Sakowitz,

vice-president of Sakowitz Bro-
thers, paid for the Houston Fat
Stock Show's grand champion
steer, "Kilroy," when it was
auctioned off before a jammed
house of about 10,000 persons
at the Shrine's thirtieth annual
ball in the Coliseum Saturday
night.

The show, which preceded
the auction, was colorful with
many musical and dance num-
bers.

Mr. Sakowitz, who bought the
champion in the name of his com-
pany, also donated the steer to
the Shrine for the crippled
children.

"Kilroy" was fed here by Ro-
bert Johnson and won Grand
Championship at the Houston
Show this year. The steer was
auctioned at the show and
brought young Johnson \$12,500.

REPUBLICANS HAVE CHANCE

The entrants in the Presidential Sweepstakes are pawing the ground hard these days, like so many nervous race-horses lined up at the barrier. The interest, of course, is entirely on the Republican side, in that Mr. Truman undoubtedly will be the standard bearer of his party. However, everything that goes on within both parties necessarily carries at least a faint aura of good old-fashioned party politics. This is perfectly natural—the White House is the greatest of political goals, and for the first time in nearly twenty years the Republicans have a real chance.

Curiously, the Republican who unquestionably has the largest number of pledged delegates at present has not even announced his candidacy. That is Governor Dewey, who holds a substantial margin of leadership when it comes to the statistics. However, this margin is a long way from the necessary majority, and it doesn't appear to have fattened to any great extent recently. Furthermore, some of the polls indicate that party leaders would prefer Senator Taft, even though he admittedly trails Dewey in sure convention votes.

This does not mean that Senator Taft is enthusiastically regarded by all his colleagues and party-members. Some influential GOP newspapers have recently complained that the Senator from Ohio seems to be working on the idea that whatever he says should automatically be accepted as Republican policy. Senator Tobey, the President of the Senate, has openly split with Taft on a number of top issues. Senator Vandenberg has occasionally shown mild irritation at some of Taft's views on foreign policy. The Republican mavericks, like Morse of Oregon, have little use for the Ohioan and make no bones about it. Taft is paying a certain penalty for having taken forthright and clear stands on almost everything that now troubles this country and the world. It may be to Dewey's advantage that he hasn't been too forthright on the big issues—though he has endorsed the Marshall Plan and compulsory military training, the last of which Taft solidly opposes.

In any event, the line-up of favorites now reads, Dewey, Taft, Eisenhower, with the first two far ahead and the third the most promising of the dark horses—a dark horse who could, if the circumstances were right, sweep the field as Wilkey did in 1940. General MacArthur's possible candidacy is not taken too seriously in professional quarters, and late reports indicate that he may have decided to stay in Japan until a peace treaty is concluded. Messrs. Stassen and Warren are openly in the field, but they are long shots. Either of them, however, stands an excellent chance of being offered second place on the ticket should he desire it. Finally, there is the usual lengthy list of favorite sons who have no perceptible chance for anything.

SOMETHING FOR NOTHING

In the words of J. C. Penney, "Socialized medicine is another Utopian scheme to convince the American people they can get something for nothing."

Socialized medicine would be one of the most costly endeavors we could undertake. For instance, the proposed Wagner-Murray-Dingell bill, which would be only the first step toward socialization of the healing arts, would cost a minimum of \$4,000,000,000 a year to administer, and might cost in excess of \$6,000,000,000—every dime of which would come, directly or indirectly, from the pockets of labor, industry and the general taxpayer.

Even dismissing the financial phase of the matter, socialized medicine would have to be paid for in the coin of political domination of medical care. In time, every doctor, dentist, nurse, hospital, clinic, research center and medical school would feel the power of a gigantic bureaucracy. Political favor, rather than ability, would be the road to advancement. Under these circumstances, a sharp decline in the standards of medical care would be as inevitable as tomorrow morning.

The opposition to socialized or regimented medicine is not based on a negative approach. Positive action is being taken through inclusive, low-cost, voluntary pre-payment plans, of which the largest has 30,000,000 Americans enrolled. These plans are now available to the majority of our people, and in time will be within the reach of all. The voluntary system, coupled with some form of financial aid for the small minority of our people who are really indigent, points the way to better living.

DEVOTIONAL READING: Romans 10:8-15

World Mission of Church

Lesson for February 29, 1948

JOHN WESLEY said, "The world is my parish." Many another Christian has entertained this great concept, and that is precisely what Jesus wants us to understand concerning the sweep and scope of his Kingdom.

Sunday's lesson brings us to consider three great passages — Acts 16:9, 10; Romans 10:8-15; Ephesians 3:8-12. Read these carefully, and you will feel the winds of God lifting up the flaps of the tent of your small habitation until you will catch glimpses of the far horizon.

CHURCH AROUND THE WORLD "GO YE into all the world and preach the gospel to the whole creation," said Jesus, Mark 16:15. There is no backyard definition of the mission of the church in these great words of Jesus. Just as Paul was summoned to cross over into Europe with the Gospel, so are we commanded to make Christ known to all lands. He loves everybody.

"Jesus loves the little children, All the children of the world; Yellow, brown, or black, or white, They are precious in his sight, Jesus loves the little children of the world."

REACHING THE WORLD JUST as Paul went from one land to another, so may every Christian boy and girl do. Each church can reach out hands of blessing to all the world.

How? Through our gifts. Our gifts for missions, joined with the gifts of all the other members of our local church, joined with the gifts of many other churches, go out in multiplied blessing through the missionaries to make Christ known around the world.

How? Through our prayers. As we pray for the redemption of the world, we fortify the missionaries — teachers, doctors, preachers — in all the parts of the world.

How? Through our sympathetic understanding of the conditions under which people live in other lands. Just now we are giving clothes and food to help the stricken peoples of the war-ravaged lands. These gifts of material things bear their message of our Christian concern for all who suffer. Thus we are extending the reach of our individual lives and the reach of our churches to the ends of the earth.

PUBLISHING SALVATION "HOW beautiful upon the mountains are the feet of him that bringeth glad tidings, that publisheth peace . . . that publisheth salvation." Isaiah 52:7.

The world mission of the church is here pictured in the exquisite language of the ancient prophet, with which words we may link the declaration of the great apostle, "For whosoever shall call upon the name of the Lord shall be saved." Romans 8:13.

Publishing salvation is the chief task of the church of the Lord Jesus Christ, and the objects of this universal message are the souls of all men. There is universal need, and here is the adequate and available answer.

See how this conception of the world mission of the church brings into focus the one hope for civilization. The only voice that carries across the barriers of this troubled world is the voice of salvation through Jesus Christ. Let that word be sounded in any spot on this earth, and some waiting heart will be lifted up.

THE UNSEARCHABLE RICHES AND what are we to say about the message we have to publish? Paul puts it well in Ephesians 3:8-12, when he declares:

"Unto me, who am less than the least of all the saints, is this grace given, that I should preach among the Gentiles the unsearchable riches of Christ . . ."

In another place we read about the "unspeakable gift of God," II Corinthians 9:15. The message, then, is one of unsearchable riches, and unspeakable gift.

In this message is healing for the peoples of the earth. If the true mission of the church is understood and voiced in all of the ways by which the Gospel may today be given to the world, we shall see the fulfillment of the dreams of the prophets, and the angels about the throne of God will shout for joy.

As Paul changed his course in the long ago, heeding the Macedonian call, so may we today find ourselves turning about in our response to the Holy Spirit's leading; but let us not be afraid so long as we are sincerely seeking to publish glad tidings to all men.

DR. T. A. WILLIAMS DISCUSSES HEALTH HINTS OF DR. COX

Editor Eagle:

In last week's issue of your paper was an article by Dr. Geo. W. Cox, M. D. State Health Officer discussing hardening of the arteries, and gives very timely advice about the care of aged patients.

In his discussion Dr. Cox says, quote, "Many of the problems connected with the hygiene of old age are due to lower mental power", unquote. I doubt if Dr. Cox meant that just as it sounds. He was probably not thinking of one's intelligence as the layman might be prone to interpret it. He probably had reference to the mental power within the body of which we are not conscious, sometimes referred to as the sub-conscious mind and sometimes as Innate Intelligence.

This has been the basic Chiropractic premise for over fifty years. A lowering of the mental forces which drive the organs and glands of the body to action will lower the function of those organs in just the same way that lowering the electric current to a motor will reduce the RPM and horsepower of the motor. It is a well known fact that an electric motor required to do its work on a current below its normal rated requirements will soon burn up and an artery or other tissue of the body will become diseased unless it receives the full mental force it requires.

The Chiropractor uses a highly sensitive nerve meter to locate nerves which have become blocked or shortened so that they do not deliver the full normal quality of mental force to the organs or glands they serve. Without the use of drugs or surgery, he uses his hands to remove the interference and allow a normal quantity and quality flow of mental power which Dr. Cox suggests is essential to make "Old age a pleasure rather than a burden."

NEW SCOTTISH RITE HOSPITAL CHAIRMAN

E. B. GERMANY

E. B. Germany, above, well known Masonic leader, was recently elected president of the Texas Scottish Rite Hospital for Crippled Children. The Dallas hospital gave 5,000 free treatments in 1947 to crippled children for whom proper medical attention was otherwise unobtainable.

E. B. Germany, prominent Texas businessman and Masonic leader, was elected president of the Texas Scottish Rite Hospital for Crippled Children at a recent meeting of the Board of Trustees in Dallas.

Nearly 5,000 crippled children from all over Texas received treatment at the hospital in 1947, according to the report made to the board by Asher Mintz, secretary.

In complimenting the hospital staff, Dr. Brandon Carrell, chief surgeon, pointed out that this number was more than twice the average of cases handled at six other similar crippled children's hospitals in the United States. More than 58,000 patients have benefited from the services of the hospital since its inception in 1924.

Nearly \$200,000 will be needed to operate and maintain the hospital in 1948, according to the secretary's report. It was emphasized that the institution is entirely dependent for funds upon donations and bequests, and offers the finest available treatment free of charge to crippled children who otherwise would find adequate medi-

cal attention unobtainable.

Other officers, all well known Texas Masons, elected at the board meeting are: John L. DeGrazier, vice-president; Towne Young, second vice-president; and William H. Duls, third vice-president. Re-elected were: Nathan Adams, chairman of the board; Hiram F. Lively, vice-chairman; George R. Jordan, treasurer; and Mr. Mintz, secretary. Dr. Carrell was renamed chief surgeon and Miss Annie Laurie Little was re-elected as hospital superintendent.

CHRISTIAN SCIENCE SERVICES

"Christ Jesus" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 29.

The Golden Text is: "Thou art fairer than the children of men: grace is poured into thy lips: therefore God hath blessed thee for ever" (Psalms 45:2).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Behold, my servant, whom I uphold; mine elect, in whom my soul delighteth; I have put my spirit upon him: he shall bring forth judgment to the Gentiles" (Isaiah 42:1).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus is the name of the man who, more than all other men, has presented Christ, the true idea of God, healing the sick and the sinning and destroying the power of death" (page 473).

Garden plants for 1948 call for 14 million town and suburban gardens and 6 million farm gardens in the U. S.

Dairymen may obtain copies of the 1947 proved-sire list from the Bureau of Dairy Industry, USDA, Washington 25, D. C.

HUMBLE PROVIDING ADDITIONAL OIL FOR CONSUMERS

The proteum industry is making tremendous strides toward meeting today's record high demand for proteum products, a demand which has increased over the past 20 years at an average of about 4 and 1-2 percent per year, but which in 1947 increased almost 11 percent. The extraordinary efforts being made to meet consumer demands for petroleum are shown by Humble's present rate of operations. Humble's current production of crude oil is at an annual rate of 131 million barrels, 15 percent higher than a year ago. At the same time, the national crude oil production rate is about 12 and 1-2 percent above last year.

In an effort to keep pace with increasing demands, Humble has begun the most expensive program of drilling in its history. In 1948, the company plans to spend about \$65,000,000 for drilling 938 wells, or 163 more wells than were drilled last year. About one-third of the expenditures are planned for drilling wildcat wells in the search for new oil fields. The balance will be spent to expand production in areas already known to contain oil.

As part of its program of exploration, the company will drill three or four wells in the Gulf of Mexico. Drilling on these submerged lands is difficult and costly, but the high level of demand makes it mandatory that this area on the continental shelf be developed promptly.

Recent surveys indicate that the whole industry, like Humble, is going "all out" in its search for new oil—and that a record of more than 36,000 wells are scheduled to be drilled in 1948.

MIDWAY
By MRS. COLEY SEVIER
Well, what do you know? Our next club will be with Mrs. Elton Horton March 5th, first Friday and it's sure to rain. Get out your rain coat, umbrella, or mud chains, because it always rains just across the creek.

Mrs. Claude Wicker will be co-hostess with Mrs. Horton, and they plan to get a quilt out that afternoon, so ladies, come and bring that thimble. Mrs. Horton also has a surprise for us. Wonder if it's a new recipe or a garden planting program? Now it will soon be time for gardening. Our last meeting was with Mrs. Pulmer and the ladies worked on a dress.

The weather was so disagreeable but nice and cozy once you were inside her lovely home.

CITY OF GOLDTHWAITE

ELECTION ORDER
I, LOY LONG, Mayor of the City of Goldthwaite, Texas, by virtue of the power invested in me by law, do hereby order that an election be held in the City of Goldthwaite, on April 6th, 1948, being the first Tuesday thereof, for the purpose of electing the following officers of said city:

Mayor;
Secretary;
Three Aldermen.

And that said election shall be held at the District Court Room in said city, and the following named persons are hereby appointed Managers thereof, to-wit:

Brian Smith, Judge.
Mrs. Eula Nickols, Clerk.
Mrs. A. L. Whitaker, Clerk.

ELECTION NOTICE
The City Marshal is hereby directed and instructed to post a properly executed copy of this order and notice of election at the place where this election will be held. Said notice shall be posted thirty days before the date of said election.

Signed and executed this 17th day of February, 1948.
