FORT WORTH, TEXAS, WEDNESDAY, JUNE 15, 1904

VOL. XX. NO. 343

VAGUE NEWS OF NAVAL BATTLE FROM SEVERAL SOURCES

Engagement is Reported to Have Occurred Near Oki Island, in the Korean Straits, and Vladivostok Squadron is Said to Have Been the Russian Force Participating.

REINFORCEMENTS ARE GOING FORWARD

Organization of a New and Independent Corps Is in Progress and the Troops Will Be Sent to General Kuropatkin—Harbor at Port Arthur Is Clear and Reported a Russian Vessel Made a Sortie—Believed the Squadron Will Come Out and Form Juncture With Skrydloff's Squadron, in Which Event There Will Be Sharp Fighting Soon

LONDON, June 15.—A dispatch to the Central News from Tokio filed this (Wednesday) afternoon says a naval engagement is now inprogress off Tsuschima island, in the Korean straits, between three Russian cruisers, which escaped from Vladivostok and a number of Japanese ships. No details have yet been received.

NAGASAKI, 5 p. m., June 15.—A telegram received from Oki island says that Japanese warships engaged Russian squadron near there and the result of the encounter is not yet known.

TOKIO, June 15.—Private advices have been received from Katsumoto, a town in the north end of Oki island, in Krusenstern strait, to the effect that an engagement is in progress between the Japanese and Russian ships.

NAGASAKI, June 15, 4 p. m.—A Russian naval squadron lately sighted off Tokushima Ken and Yanaguchi Ken and sounds of firing, it is now stated, were heard yesterday off Oki island.

LONDON, June 15.—The Central News says the Vladivostok squadron was first reported June 14 from Oki island off Kioto, Japan, in Sea of Japan.. Later in the day cannonading was heard west of Nagato island on the Japanese coast in the straits of Korea.. The captain of a Japanese merchant ship reports this morning that his ship was fired upon by a Russian warship. Heavy cannonading was heard early this morning in the neighborhood of Oki island and subsequently came the news of the engagement already referred to in the Tokio dispatch.

RUSSIANS STRICT WITH THE NATIVES

CHEFOO, June 15.—A Russian merchant who was at Kin Chou at the time of the recent battle there, and who accompanied the Russian army on its retreat to Port Arthur, has arrived here in a junk.

He says that the Russians had no permanent fortifications at Kin Chou but simply trenches; the country around had been mined, forcing the Japanese to take to the water. When they did so the Russian gunboat Bobr was taken to the head of Talienwan bay, from whence she threw shells across the narrow neck of land, killing hundreds of Japanese. The Russians likewise suffered more from the fire of the Japanese gunboats than from the artillery and infantry fire. The people of Port Arthur, the Russian merchant says, are confident and ready for the final test of strength by the opposing armies. The town is quiet. All the soldiers have gone to the front. Thus far there have only been skirmishes between Dalny and Port Arthur. The Russian merchant states that as far as he could see and learn all the crippled Russian warships at Port Arthur with the exception of the battleship Pobieda had been repaired. Whether the repairs were permanent he was unable to say.

ST. PETERSBURG IS INCLINED TO BELIEVE

ST. PETERSBURG, June 15.—No information is obtainable here regarding the reported engagement between the Russian Vladivostok squadron and the Japanese squadron in Korea straits, but it is quite likely a naval fight occurred or is about to occur. Vice Admiral Skrydloff left Vladivostok with the armored cruisers Gromoboi, Rossia and Rurik and some torpedo craft. If the report that the Russian protected cruiser Novik made a sortie from Port Arthur yesterday is true, its demonstrates that the entrance is free and doubtless this is preliminary to the egress of the whole squadron for the purpose of effecting a juncture with Skrydloff's squadron. The news of a decisive sea battle may, therefore, arrive at any hour. Before Admiral Skrydloff left Vladivostok the Russian protected cruiser Bogatyr, which went on the rocks, was hauled off and towed into the harbor of Vladivostok. She is now in dock there.

RUSSIAN MERCHANT COMES FROM KIN CHOU

NEW CHWANG, June 15.—There are persistent rumors here of severe fighting south of Kai Chou, which it is impossible to confirm. Of three trustworthy messengers sent out on the night of June 12 two returned, having been unable to pass the Russian lines at Kai Chou and learned nothing except the Russians are becoming more strict about allowing natives to pass through the lines.

Twenty hospital carts passed here this morning traveling southward. Trains are only running six miles south of Kai Chou.

A report direct from Mukden says there are over twenty thousand Russian troops there, with forty thousand additional men encamped at Liao Yang. It is believed here the Russians are moving a force of sixty-five thousand men south, only to make it appear as though they are attempting to relieve Port Arthur and upon the first encounter with the the enemy it will be withdrawn north again.

A private telegram received here by a German resident late this afternoon from Chefoo said the Japanese suffered a severe defeat at Port Arthur. The Russian troops are now constructing a deep moat surrounding Liao Yang upon all sides, three miles from town and mounting artillery upon adjacent hills.

Ships arriving from Shanghai and Chefoo report passing a Japanese cruiser five miles out from Kai Chou.

PORT ARTHUR HARBOR HAS BEEN CLEARED

TOKIO, June 15.—The entrance to the harbor of Port Arthur having been cleared of obstructions, is now open for the passage of ships in and out. Yesterday the Russian protected cruiser Novik steamed out to sea and engaged with the vessels of the Japanese blockading fleet.

REINFORCEMENTS TO GO TO KUROPATKIN

ST. PETERSBURG, June 15.—The appointment of Lieutenant General Leonidas Dembowski, commander of the fifth eastern Siberian army corps, is evidence larger reinforcements are to be placed at General Kuropatkin's disposal. The four corps originally formed of Siberian troops mobilized in Manchuria and other drafts have been sent out to the far east. The organization of the new corps, independent of the Russian corps now ordered out from European Russia, shows Kuropatkin now has almost two hundred thousand troops irrespective of frontier and railroad guards and probably he will have an effective army of 160,000 men at Liao Yang.

OFFICERS AND THE RESERVE LIST SURGEONS

MOSCOW, June 15.—The mobilization announced for this city extends only to officers and surgeons on the reserve list. Two hundred and sixty officers have been called out.

REAL ESTATE IS ON A BOOM IN ELLIS

WAXAHACHIE, Texas, June 15.—The very encouraging prospects for big crops have lately been stimulating to the real estate market in Ellis county and several important deals have been made within the past few days. One deal of considerable importance was effected at Ennis last week by which H. T. Moore sold to J. W. Taylor 285½ acres for $9,992.50. This land located near Ennis and is well improved. J. B. Forston sold to John Thompson 8 2-3 acres of land near Alma for $2,000.

E. J. Gannon, trustee for the Midlothian Cotton Oil Company, sold the mill property, feed pens and gin property to J. B. Wilson of Dallas and M. Sansom of Fort Worth for $29,000 cash. This sale was made to satisfy a note of $25,000, payment of which had been defaulted.

AN IMPOSTOR GETS HELP IN MONEY

NEW YORK, June 15.—Ada Morgan, who claims Keokuk, Iowa, as her home, has been arrested here on the charge of imposing upon charitable persons with a tale of desertion and starvation. She is said to have produced at least $12,000 in the past two years visiting the homes of wealthy persons and telling stories of privations to which they nearly always responded.

Officers of the charity organization assert that the woman and her husband have operated on a large scale also in Chicago, St. Louis, Cincinnati and Philadelphia.

LYNCH IRWIN LOSES MOTHER BY DEATH

WAXAHACHIE, Texas, June 15.—Colonel John C. Gibson received a telegram yesterday from Mr. W. D. Irwin at Moulton, Ala., stating that his wife, Mrs. Fannie Irwin, died that morning at 6:30. Mrs. Irwin was a neice of Colonel Gibson and the mother of Lynch Irwin, a lumber merchant of Fort Worth.

STEPHEN D. LEE IS NEW COMMANDER OF VETERANS

NASHVILLE, Tenn., June 15.—The United Confederate veterans today elected the following officers:

Commander in chief—Lieutenant Stephen D. Lee, Columbus, Miss.

Commander department Northern Virginia—General C. Irvine Walker, Greenville, S. C.

Commander department of Tennessee—General Clement A. Evans, Atlanta, Ga.

Commander trans-Mississippi department, General W. L. Cabell, Dallas, Tex.

When the convention met Bishop O. P. Fitzgerald of Nashville invoked divine blessings upon the assemblage. The report of the committee on credentials showing representations from each state was read and adopted.

Chaplain General Jones read a report of the board of trustees of Battle Abbey. The report dealt with the financial condition of the abbey and the Underwood suit, substantially as given out by the committee Monday night.

General Clement A. Evans read the report of the historical committee. The report said the south is now assured of fair treatment in history that the youth of the country would not grow up under false impressions.

The committee on resolutions presented a report. It disposed of the permanent reunion city question by recommending the union meet from place to place yearly as has been the custom. The announcement was received with cheers.

A delegate moved as a substitute for this part of the resolution a resolution proposed by General Walker of South Carolina to make New Orleans a permanent meeting place of the veterans. This was met by a storm of protest and the substitute was lost. A part of the report favoring making medals for the women of the south occasioned much oratory and cheers and was unanimously adopted.

Dr. Boling of Jackson, Miss., was given three cheers by the veterans for the splendid tribute to southern women.

Resolutions favoring the erection at Richmond, Va., of a home for needy Confederate women was adopted with cheers.

Louisville was elected as the next meeting place.

BULL CHARGES ON A LOCOMOTIVE

Train and Bovine Contested Passage on a Trestle and Engine Men Were Killed

SHREVEPORT, La., June 15.—In a wreck on the Kansas City Southern Tuesday morning two men were killed and several slightly injured. The dead:

FRANK PATTERSON, engineer.

HARRY GAMBLE, fireman.

The wreck occurred at Rosepine and was caused by a bull charging the locomotive on a trestle. The engine and two coaches fell into a ditch. The fireman was crushed to death and the engineer met death by being so badly scalded that he was scarcely recognizable. Both of the dead men resided in this city.

THE FIRST CUT ON STEAMSHIP RATES

NEW YORK, June 15.—The first cut on eastbound steamship rates has been announced. It represents a reduction of $10 from the $30 rate that has been in force between New York and Hamburg by the Hamburg-American line and becomes effective at once for the steamship Pennsylvania, sailing on Saturday next. The Cunard line have been booking third-class passengers to Hamburg, trans-shipping them at Liverpool, and it is expected they will meet the Hamburg cut.

THIS HEN LAYS A FREAK EGG DAILY

WACO, Texas, June 15.—Captain T. A. Blair of Blair avenue has a genuine freak hen and one which is giving exhibitions which are decidedly unusual not to say almost unheard of. The hen, a young white leghorn, has laid two dozen eggs and each and every egg has two whites and no yellow or yolk. If the hen had simply laid one egg of this kind it would not have been so freakish, but to produce twenty-four of that variety makes the matter interesting. The hen lays nearly every day, bringing up the regultion egg without any yellow.

WOMEN FLY COPS IN THE TENDERLOIN

NEW YORK, June 15.—Women employed by the police department are now doing detective work in the tenderloin. Exactly what sort of police duty they have been set about is unknown, except to the captain of the precinct and his superiors. Thus far their movements have been kept carefully screened and they do not report at the station. Employment of women in regular detective work about the precincts has not before been tried in this city.

HUNDREDS PERISH IN RIVER AS EXCURSION BOAT BURNS

Women and Children Leap Over the Rail to Avoid the Flames of the Furnace and are Carried Down in the Whirlpools Formed by the Current at Hell Gate,

FIVE HUNDRED IS THE LIST OF LOST

Upper Deck Falls With a Crash Soon After the Fire Starts and Those Who Were Not Crushed, Went Into a Panic and Jumped From the Fire to the Water, and the Small Boats Did Not Reach Them Before They Were Drowned. Patients in a Hospital Near by Became Almost Insane From Fright at the Sights They Saw

NEW YORK, June 15.—Information has reached police headquarters that a large excursion steamer is on fire in East river and it is reported the people are jumping in the river. The burning steamer is the General Slocum. A call for physicians and ambulances has been sent. The vessel left today with an excursion from St. Mark's church and while at Hell Gate the boat caught fire. It is reported hundreds of persons perished. The Slocum is said to have had a thousand women and children aboard. Many were drowned by jumping from the boat. The women and children jumped into the water by the hundreds. The latest report estimates five hundred lives lost. Persons on tug boats say several hundred bodies were washed ashore.

NEW YORK, June 15, 1 p. m.—The steamship General Slocum carrying a Sunday school excursion of St. Mark's German Lutheran church caught fire in East river off Hell Gate this morning and burned to the water's edge, hundreds of persons perishing. The disaster was witnessed by thousands of people from both shores of the river and as rapidly as possible hundreds of small boats were launched and set off to render assistance.

With the boat burning under his feet the captain stuck to his post in the pilot house and the engineer remained at his post below deck until the boat was beached at the lower end of North Brothers' Island, off Port Morris. Even then the passengers were not in a safe position for they were some distance from shore and the boat was a furnace.

Hundreds of small boats scattered about and picked up those who jumped as rapidly as possible. It is estimated between 400 and 500 persons sprang into the water.

An eye witness said the greatest loss of life was due to the collapsing of the heavy upper deck. It fell with a crash soon after the fire started, crushing hundreds of persons, who were gathered on the lower deck. It is then that the greatest panic ensued, a living stream of persons going over the rail into the water.

As far as eye witnesses could determine the flames originated in the forward part of the boat. Persons who saw the accident from shore say almost instantly persons who occupied places on the forward deck began to jump overboard.

Policemen at Bronx and Harlem saw the blazing boat steaming up the river and immediately began to turn in alarms for ambulances and fire boats. All boats on North Brothers Island sent assistance to the people in the water and as fast as they were brought ashore they were cared for in pavilions there. The patients in the hospitals on the island became almost insane from fright because of the terrible scenes they witnessed.

A large part of the crowd on the doomed steamer were children and there is little hope for them, for they have gone overboard. The current in East river at this point is very strong. Scores of little ones were sucked in by whirl pools at Hell Gate. One man who went out in a row boat said he saw at least fifty children perish in these whirl pools before he could reach them.

NEW YORK, June 15.—There are firty bodies on North Brothers Island, eighteen on the fire boat Zephyr Mills and eleven on Rikers Island. The board of health has sent 100 doctors and 500 policemen to the scene. It is estimated the steamer carried more than 2,000 persons. She was the largest excursion steamer in these waters and could carry 4,000 people. The Slocum sailed from the foot of Third street and East river shortly after 9 o'clock this morning. The flames were discovered in the forward part of the boat off "Sunken Meadow" at the extreme east end of Randall's Island. So quick was the spread of flames the captain of the Slocum could not turn and was forced to make head on for North Brothers Island with full steam. By the time Slocum reached one Hundred and Thirty-fifth street, the excursionists were driven to the rail, many of them with clothing on fire. They began to jump overboard by twos and threes. When One Hundred and Thirty-eighth street had been reached the heat of the fire became so intense men, women and children plunged overboard by the score.

There was a terrific crash when the boat was beached on the north end of North Brothers Island, where it rapidly burned to the water's edge.

It is said the fire started in the luncheon counter, in the forward part of the boat. When the alarm spread among the passengers the hurricane deck was crowded. When off One Hundred and Thirty-eighth street this deck collapsed and many persons were thrown into the water, but hundreds were precipitated to the lower deck, which itself was a mass of women and children.

A tug of the New York Central railroad saved nearly a score through the heroism of some unknown man. This man stood at the paddle wheel box of the Slocum and passed women and children to the tug until he was driven back by the flames. He then jumped into the tug himself.

Neither the police nor firemen, when they arrived, waited to remove coats or clothes but jumped overboard and saved a great many who would otherwise have drowned. Many bodies were recovered horribly burned. The wreckers say it will be hours before the fire in the hold of the boat is out and the bodies may be recovered. Both firemen and wreckers say the greatest loss of life, extending into hundreds, will be found in the hold.

NEW TUNNEL GETS MUCH ATTENTION

Rapid Transit Method of Passing Under Harlem River Is an Engineering Feat

NEW YORK, June 15.—The third and last section of the rapid transit tunnel under the Harlem river will be completed inside of six weeks. The work is an engineering feat which has attracted much attention.

The total length of the tunnel is about 1,500 feet. It consists of two cast iron partial cylinders, with a cast iron diaphram between them, each cylinder carrying a single track of railway. They are laid under a new system, the first procedure being to dredge a channel across the river to a depth of nine or ten feet below the elevtion of the roof of the finbelow the elevation of the roof of the fining a little greater than that of the finished tunnel structure. After this dredging was completed four lines of piles were driven throughout the length of the channel. The upper halves of the two cast iron cylinders were then put together upon a pontoon and sunk in place on the tops of the timber sidewalls. Engineers have examined the tunnel with a view to the possibility of using the new system under the river at Detroit and across the bay between San Francisco and Oakland.

HENRY GEORGE, JR. IS MILITARY GUEST

Remarkable Document Issued by General Bell, Commanding Colorado Troops

NEW YORKER WELCOME

Every Officer in the Guard Is Instructed to Show Visitor Distinguished Notice

VICTOR, Colo., June 15.—Reports have reached the district that Henry George Jr. would come here for the purpose of looking into the labor difficulties and that the intention was to immediately arrest him. This report gained such headway that General Bell decided to issue the following order, which he personally sent to Mr. George, who is now in Denver:

"It having come to the knowledge of the military commander that Henry George Jr. of New York is contemplating a visit to the greatest gold mining district in all the world, Cripple Creek, for the purpose of thoroughly investigating conditions, and the report being in circulation throughout the country that he would be arrested, it is hereby ordered that said Henry George Jr., who is a law-abiding American citizen, who has the good of this country at heart at all times, shall be treated as an honored guest by every officer and enlisted man in the National Guard of Colorado, and the 40,000 loyal law-abiding citizens of Teller county, Colorado.

"Assuring him every courtesy and attention under military jurisdiction with every possible convenience and protection as long as he may care to remain in our district as a citizen of the United States with the advance guarantee and assurance that 'Colorado is in America today.'

"SHERMAN M. BELL,
"Brigadier General, Adjutant General State of Colorado."

OBEY THE LAW AND BE WELCOME THERE

SANTA FE, N. M., June 15.—Governor Otero in answer to an eastern newspapor for his views on the proposed deportation of citizens of Colorado to New Mexico, and what measures the territorial government would take to prevent it, sent the following message:

"My view is that no difference should be shown between capital and labor in their respective positions so far as the law is concerned. New Mexico has no objections to any citizens who respect our laws and we are well able to uphold them under any and all conditions. If the deported citizens from Colorado conduct themselves in a law-abiding manner they will be welcome; if not, they are coming to a poor place, as the laws of this territory will be upheld without regard to consequences so long as I am governor. We will not, however, tolerate dictation from any source and those wishing to work will receive full protection under our laws."

REIGN OF TERROR AT CRIPPLE CREEK

(By W. B. Kenny. Staff Special to the Newspaper Enterprise Association.)

CRIPPLE CREEK, Colo., June 15.—Despite the iron rule of martial law and the assurances of the officers that peace has been restored, a reign of terror still exists in the Cripple Creek district.

It is doubtful if people outside the state, outside of Teller county, even, can understand the situation. Neither would a casual observer on the scene.

There are some surface indications, of course. There are blue-clad soldiers patrolling the streets, there are citizen rough riders, there are deputies with Winchesters on their arms. Yet business houses are open, men walk the streets unmolested, crime is not rampant.

But the atmosphere is surcharged with impending trouble. It may not come in the form of riots. I do not think it will. Every man is suspicious of everyone else. There are no cheery greetings exchanged, no laughter is heard, no jokes are passed. Business is transacted with few words, strangers are objects of suspicion. All this is unlike the hearty, cheerful, hospitable western people. The only man willing to talk is the big citizen on the corner, with a riot gun on the hollow of his arm.

He is a member of the Citizens' alliance, and he has been deputized by the new sheriff, Edward Bell. When you ask him for his views he flies into a passion. With many oaths he tells you that unionism must go. He tells you, too, that the time for talking is past; that only one command is given now, and that if it is disobeyed the riot gun speaks, and as you listen and look you feel that the threat is not an idle boast.

Men are disappearing from the district every day. Some are leaving voluntarily. Others are invited to seek another clime. Not all are deported by force. A committee will call on a man and a conversation something like this ensues:

"Morning, boys."

"Morning, John."

From the spokesman: "The committee has decided that it can get along without you here."

"How long have have I got, Bill?"

"Well, say Saturday night, John."

"So long."

"So long, Bill."

John may leave Friday. It is a cinch he is not in town at sunrise Sunday.

The Citizens' alliance is examining the record of every man in the district. Its secretary, Clarence C. Hamlin, said to me:

"We are going to make a clean sweep this time, so that the job will never have to be done over again. No man known to be in sympathy with the miners' federation will be permitted to remain here alive."

The scope of this order can be imagined when one considers how strong the union once was here. When organized labor dominated the region it was fashionable to sympathize with the unions. Now all is changed, and the men who are hungry, cold and sick, without fuel or the means to purchase either, the wives and children of the deported union men are the real sufferers in this awful civil war.

It is estimated that about 700 union men

THE PRICE IS THE THING.

have been deported to date. About 10 per cent of these men are married and the miner's family is always a large one.

In times of peace the miner will average $4 a day in wages, but the men have been out one year. Few of them saved a cent, for this is a wide-open town, with a saloon every 100 feet and a gambling room in every saloon.

For a time the union paid benefits—meager ones, but they meant bread; but with the riots last week these stopped.

The union headquarters were wrecked, the books seized and the officials thrown into the bull pen.

Then the real suffering began. The men themselves are well fed, but their families are in want. It is not for lack of money.

THRESHERS ARE BUSY

DENTON, Texas, June 15.—The continued wet spell, which was beginning to alarm the farmers, having ended several days ago, lots of wheat thrashers are now seen going from Denton and other parts to the western part of Denton county, where the bulk of the county's wheat crop is always produced, to thresh wheat. It is a pretty sight to see a thresher traveling along a road.

GROVE'S TASTELESS CHILL TONIC Has stood the test twenty-five years. The first and original tasteless chill tonic. 50 cents.

Nearly one-third of the world's sugar cane is grown in Cuba.

LOST—A gold fraternity badge, diamond shaped, bearing Greek letters, "S. A. E." Set with opals and rubies. Was lost somewhere on Arlington Heights road or in city park. Reward will be paid if left at Telegram office.

Phone 65 if you want to borrow money on your furniture.

The ladies of the Christian Tabernacle church will give a social this evening after the regular prayer meeting is over. All members and friends of the church are cordially invited.

Fort Worth Lodge will confer the masters' degree at a special meeting tonight, this will make the ninety-eighth degree conferred by this lodge since the 24th of June, 1903, being ten more than any previous year in the history of the lodge.

Worth Commandry will confer the orders of knighthood upon four candidates tomorrow, beginning at 10 o'clock a. m., 2 o'clock p. m. and 7:30 o'clock p. m. Refreshments will be served in the asylum from 6 to 7 p. m.

Superintendent Gaines of the railway mail service has gone to Newton, Kan.

George R. French, organizer of the Cigarmakers' International Union, was in this city last night, returning this morning to Dallas, from which place he will go direct to New York.

The Sunday school of the First Methodist church will hold its annual picnic at Handley, Friday, June 17. Cars will be placed on the track at the north steps of the court house at 8:30 and the start will be made at 9 o'clock promptly. Mr. Tudor and his committee will look after the lunch baskets. Parents and friends are cordially invited.

The greatest stock food of the century is Texas Star Dairy Food.

Thomas Helm, soliciting freight agent for the Cotton Belt, was touched by a sneak thief during last night and relieved of $20. This morning his wallet was found on the floor in his room, empty.

A committee from Dallas Elks' lodge will meet tonight in this city with a committee from the local lodge to discuss the plans for the Eagle Lake hunting and fishing club, to be located between this city and Dallas.

A picnic for the poor women and children of the city will be held tomorrow at the city pary, the use of which has been granted by the city council for the occasion.

The regular meeting of the Grocers' and Butchers Association was not held last night, having been postponed because of the state convention of the organization.

Horses get fat and slick when fed on Texas Star Dairy Food.

A unique calico carnival was held by Naomah Council No. 11 at Red Men's hall last night. The women were all arrayed in calico gowns and unhemmed aprons, while the men folks wore calico ties and brought a thimble with them. The programs were printed on pink calico. About seventy-five guests were present. After dancing, refreshments and a general jolly time, the crowd dispersed, voting the affair a grand success.

The Fort Worth delegation of colored Knights of Pythias to the state convention which assembled in Paris yesterday, left here over the Cotton Belt about twenty-five strong. The party is headed by O. C. Crook, representing Key West lodge No. 5, and T. T. Blain, captain of Jewel company No. 5. Uniform Rank. T. T. Blain is a candidate for the position of grand outer guard.

H. C. McCart has gone to Beaumont on business and will be absent several days.

The Watkins Hay and Grain Company, manufacturers of Texas Star Dairy Food.

The members of the North Fort Worth Christian church will give an ice cream social tonight.

Joseph Diehl left last night for St. Louis, where he will reside in the future. He will engage in business.

Get rich by feeding your cows on Texas Star Dairy Food.

Mrs. F. L. Jordan will leave here in a few days for Omaha, Neb., on a protracted visit to friends. Later she will take up her residence at Shreveport, La.

Mr. and Mrs. W. R. Bell and son of Weatherford are visiting the family of Mr. and Mrs. George B. Johnson, 320 Galveston avenue.

Ask your dealer for Texas Star Dairy Food—cheaper and better than bran.

Mrs. George Robinson will leave tonight over the Rock Island for Toronto, Canada, to spend the summer.

Miss Daisy Smith of Weatherford, a sister of Mrs. E. L. Otto of Fort Worth, has just been selected as one of the assistant teachers in the public schools of Dallas. Miss Smith is a graduate from the Sam Houston Normal and is well known in Fort Worth.

Dr. Frank D. Boyd returned this morning from Atlantic City, where he has been attending the meeting of the American Medical Association.

Miss Ruby Chambers is in Waco where she is a guest of her aunt, Mrs. Walter Lazenby. She will be absent about two weeks.

Dr. and Mrs. Chambers will leave this city for the east. Dr. Chambers, under a leave of absence as city physician, will visit the cities of the east and investigate sanitary matters, going to New York for quite a stay. Mrs. Chambers will stop in New Orleans where she will be the guest of friends and relatives. She will also visit other points in Louisiana.

N. M. Callahan and family will leave this evening for Cambridge Springs, Pa.

Mrs. Edwin E. Overall, publisher of the Texas Railway News and Illustrator, is attending the World's Fair in St. Louis with the Texas Press Association. She writes on a postal card which is highly ornamented in colors, and shows a beautiful fountain and cascades, saying "The World's Fair is the most beautiful and attractive exposition I have ever saw—far ahead of Chicago. The Texas Press Association has had a splendid time."

NEW GOODS AT REDUCED PRICES

Our buyer has returned from the market, where he closed out several lots of new, seasonable merchandise at a big sacrifice. These goods are now on sale at our store. Every one is a bargain. It will pay you to read the cut prices quoted here, then visit our store and see the goods. Everything will be just as advertised. Count on getting satisfaction at our counters. These goods will be on sale at these prices until the lot is closed out.

READ THE GREAT BARGAINS QUOTED HERE

FORMER PREACHER IN FLYING LEAP FROM TRAIN

EL PASO, Texas, June 15.—Byron C. Roach, an ex-Methodist minister, having once had a charge at San Angelo, was arrested last night trying to leave the city on the Texas and Pacific train, on a charge of embezzling from a typewriter company for whom he was agent and he later escaped from the rangers as the train was running sixty miles an hour.

FAITHFUL DOG IS SILENT WATCHER

An Old Man Lives Alone With Parrot and Canine, and They Were With Him at Last

NEW YORK, June 15.—When the door of the rear apartment at No. 535 West Forty-third street was battered down this morning the body of William Wencke was discovered on the bed. The aged man had been dead three days and all that time his spaniel, Ulysses, had silently watched beside the body. So weak from hunger that he could hardly stand, he arose and feebly growled when strangers approached the body. He would not cease until Mr. Wencke's son carried him away to be fed.

Wencke, "Father William," the children in the neighborhood called him, died suddenly, just as he often prophesied he would, and just as he wanted to die. Coroner Scholer said afterward that death was due to a gradual wearing out of the body, and came without warning at night.

"It'll be all right," Wencke would say. "Lys will be there—he'll look after things till somebody finds me. He's all I want."

Up to two years ago Wencke lived with his wife and a son there, but she died, leaving him to care for her parrot, and six months ago the son followed. Another son, Henry, wanted his father to come and live with him, but the aged man refused. He was satisfied to live there alone with "Lys," and the two of them could take care of the parrot.

Ulysses was so weak he could hardly lap the warm milk given to him. He cannot survive, it is thought. The parrot, too, was dead in his cage.

TAYLOR McREA HAS FIGURED VOTE ON PRESIDENT

He Shows That Hearst Has the Lead of the Instructions Up to the Present Time

To The Telegram:

The vote for presidential candidates, as instructed by the various states totaled on Saturday evening last is as follows:

Uninstructed—431.
Hearst—101.
Parker—148.
Olney—26.
Wall—26.
Gray—6.

A total of 738 out of 994 delegates who will compose the democratic convention. This morning's papers announce that Illinois has instructed her fifty-four votes for Hearst as long as he is before the convention. This leaves the situation as follows:

Hearst—155.
Parker—148.
Olney—26.
Wall—26.
Gray—6.
Uninstructed—431, or a total of 892 votes, leaving only 202 votes to be heard from. It seems from this that Mr. Hearst is in the lead up to date. I trust that you will give this space in the interest of fair play and justice. I had no interest in the matter, as I have long determined ever to vote for a New York man for president. Yours truly,

TAYLOR McRAE.

ARKANSAS DEMOCRATS

HOT SPRINGS, Ark., June 15.—The democratic convention met this morning. The credentials committee report seated the Clark-Davis delegation of Independence county after a contest. The majority of delegates named are in favor of Parker, but the Hearst followers are working hard and may prevent instructions. The contest of Senator Berry for a place on the delegation at large to St. Louis is spirited. Governor Davis opposes his selection.

G. M. DODGE COMING TO FORT WORTH

General G. M. Dodge, chairman of the board of the Colorado and Southern railroad company, accompanied by President Frank Trumbull and one or two other high officials of the road, is to arrive in Fort Worth from Denver Sunday or Sunday night. "The coming of these gentlemen has no particular significance," said a Denver official today. "They are making a trip of inspection over both the Southern and the Denver lines."

The party is traveling in a special car and will remain here only a brief time. General Dodge is well known in Fort Worth where he has many friends. He is a director in the Fort Worth and Denver City and was one of the promoters of that line. He was chief engineer in laying out the route of the Union Pacific, and his efficiency as engineer is shown by the fact that in the construction of the Union Pacific the company, in taking out the kinks in the line, has only shortened the route thirteen miles out of a total of 1,000.

COMMISSION WILL NOT REOPEN QUESTION OF LUMBER RATES

Railroads Protest Against the Rate Which Has Been Fixed on Lumber and Dealers in That Commodity Insist That the Market Is Not Prepared for the Reduction

AUSTIN, Texas, June 15.—During the past few days the railroad commission has received numerous letters from the lumber men of the state, asking that lumber be taken out of class E rates.

Yesterday the matter came up in a different form, and protests were formally filed by the general freight agents of several roads, and also by a number of the lumber men of the state.

The railroad people say in view of the severe reduction in the revenue that will result from the application of the rates promulgated by the commission the railroads of Texas can ill afford to stand it at this time.

The lumbermen say the present condition of the lumber market is very unsatisfactory, many of the larger mills having already shut down, and others having large bodies of timber curtailing their operations, for the reason that the manufactured article is not now bringing a price commensurate with the cost of timber. This general disorganization of the business will be further augmented by any disturbance of rates.

The communication of the lumbermen is merely a protest and is signed by J. M. Rockwell, J. E. Whiteselle, C. H. Moore, A. W. Miller, T. A. Low, G. M. Duncan, S. T. Swinford, B. F. Williams and C. F. Drake.

The communication of the railroad traffic men is not only a protest, but an application for a rehearing on the matter, and is signed by G. F. Martin of the Aransas Pass, W. H. Taylor of the Central, C. E. Perkins of the Texas and Pacific, C. K. Dunlap of the Texas and New Orleans, J. W. Allen of the Katy, J. S. Herskey of the Santa Fe, J. C. McCabe of the Rock Island and C. W. Hole of the Orange and Northwestern.

After giving these applications careful consideration the commission refused to reopen the matter and will probably give its reasons for so doing.

BOY WITH SHOTGUN KILLS HIS SISTER

HOUSTON, Texas, June 15.—Sophia L. Vetter, 11 years old, was shot and instantly killed by her brother, Sidney, 13 years old, at their home in Houston this morning. He was playing with a shot gun and the girl's head was blown off.

The state medical board is examining a class of sixty-four applicants here and the session will last the balance of the week. There are two young women in the class. One Italian, who can not write English, is taking an oral examination through an interpretor.

The strike is virtually broken. The arbitration committee of the labor council was in session with Mayor Jackson this morning seeking terms for the men.

TARRANT COUNTY CASES PASSED ON

AUSTIN, Texas, June 15.—The case against the Houston, East and West Texas railway for an alleged illegal issue of stocks and bonds, was continued this morning by the railroad commission to the regular September hearing.

The court of criminal appeals denied the motion for a rehearing in the case of A. N. Townley of Tarrant county and the case of Bob Kennon of the same county on briefs for state and defendant. The court affirmed the life sentence case of Gregoria Cortez for the murder of Sheriff R. M. Glover of Gonzales county.

SLAYDEN OPPOSES THE PARCELS POST

SAN ANTONIO, Texas, June 15.—Congressman James L. Slayden addressed the retail grocers' state meeting this morning, declaring his oppposition to the parcels post bill, claiming it would destroy local trade and concentrate in the hands of a few monopolists.

Mineral Wells will likely be the next meeting place.

NEW YORK COTTON

NEW YORK, June 15.—The cotton market opened weak with a decline of 20 to 21 points and a decline of from 9 to 13 points on new crop months.

The graduating class at West Point this year numbers 125, the largest in the history of the academy. The honor men are all from the south except one.

The Daylight Store!

A SALE OF HIGH ART Coaching Parasols!

Every one a specimen of high class designing and workmanship—not mussed—wide range, 98c to.....**$7.50**
Plain white, black—any of the good shades, and the Dresden effects—they are a treat to look at, even if you do not contemplate purchasing.

G. Y. SMITH,
Eighth and Houston

Market Quotations

NORTH FORT WORTH, June 5.—The only characteristic feature of the cattle market today was the heavy receipts and the scarcity of good steers and cows. All available space in the cattle division was put to use and all day long commission men were busy cutting and sorting their bunches preparatory to offering them The approximate supply of cattle was 4,250 head, with three-fourths of that number for the local market.

A few small sales of steers was made at $4, but the bulk of medium grade stuff sold around $3@3.50; a few sales being made at $3.50@3.80, and a range on the common kinds between $2.50@3.

Cows were plentiful, but the choice fat kinds were lacking and the bulk of medium butcher stock sold on a weak declining market at prices ranging between $2.15@2.50.

Calves were lower, while the light supply of bulls sold at unchanged prices.

With values steadily increasing and receipts as steadily decreasing, the local hog market since Monday's opening shows an advance of 10c to 15c. Salesmen were inclined to think that the reports sent out of higher markets Monday and Tuesday would influence the movement of good marketable hogs to move at once, but with the opening today the same light supply as was represented yesterday was in.

Sellers found no difficulty whatever in obtaining $5 for best medium to heavy hogs and prices ranging between $4.85@4.95 for the average mixed kinds. One straight load of well finished smooth hogs, averaging 239 pounds, sold at $5, with several small sales of good wagoners at the same price and the ordinary killing grades at $4.75@4.90.

—●—

A commission man who recently returned from Omaha, in speaking of the conditions in the west said: "The supply of young hogs in the west is good, but it will not be matured unless we get a good corn crop. I look for a light average weight all summer and an advance in prices looks logical. Range conditions have seldom been better, the only exception being the southwest. I see no reason why fat cattle and mutton off of the range should not sell well on early markets at least."

—●—

Reynolds Bros. of Albany had in the yards today a long string of the X ranch steers, recently sold to Arnett & Jefferies for their North Dakota range. These steers are now undergoing the official dip for the extradition of ticks and as fast as declared free from the scourge they will be loaded out for their destination.

—●—

"There will be a strong demand for stock ewes from Kentucky and Tennessee from now on," says Charles Bowles of Louisville. "Those states are bound to increase mutton production, and it can be accomplished only by buying northern breeding stock."

REPRESENTATIVE SALES

HOGS—In the face of declines at all other markets, the local market, with a light run of 350 head yarded, opened strong to 5c higher, top hogs selling at $5, and a general range in sales between $4.50@5. The sales:

No.	Ave.	Price.	No.	Ave.	Price.
69	239	$5.00	3	250	$5.00
1	340	5.00	5	296	5.00
4	155	5.00	63	199	4.95
8	188	4.95	4	235	4.95
2	235	4.87½	1	180	4.75
1	160	4.60	1	90	4.25
11	97	4.20			

SHEEP—One small bunch of choice 75-pound spring lambs sold at $5.50, with a light bunch of common stocker sheep of seventy-three pounds average at $2.25.

STEERS—Steers in no way made a decent showing when compared with the heavy general run and the common to medium grade of stuff sold slow and weak at a slight decline from Tuesday, the bulk of sales ranging between $3@3.80. The sales:

No.	Ave.	Price.	No.	Ave.	Price.
1	1,140	$4.00	1	950	$4.60
9	1,002	3.80	6	1,040	3.75
27	913	3.65	4	850	3.25
4	850	3.25	4	865	3.00

RAISULI RAISES THE ORIGINAL RANSOM

WASHINGTON, June 15.—A serious hitch has occured in the negotiations for the release of Perdicaris and Varley. The details, as communicated to the state department by Consul Gummers, indicate that Raisuli has vastly enlarged his original demands.

PARIS, June 15.—The French minister at Tangier telegraphs under today's date that one of the Sheerfian chiefs, who is a kinsman of Raisul, has been designated in the place of the son of Hohammed El Torres as representative of the sultan to carry on the negotiations for the release of Perdicaris and Varley.

The only Rhodes scholars at Oxford so far are the Colonials and Germans. The Americans will go there next year. The Colonials are said to be a bit rough, without the Eton polish, but a year has done wonders with them. But the great successes among the Rhodes scholars are Germans.

STATE RECOVERS A HEAVY DAMAGE IN DENVER CASE

That Road and the Pullman Company Must Pay Nearly Twenty Thousand Each

AUSTIN, Texas, June 15.—Judge Calhoun of the Fifty-third district court today handed down his decision in the case of the State of Texas vs. Fort Worth and Denver City Railway Company and the Pullman Palace Car Company, for penalties in violation of the anti-trust law.

The court decided in favor of the state, and rendered judgment against each of the defendants for $18,500, penalties for violating the anti-trust act of 1903. Demurrers were sustained as to penalties sought to be recovered under the act of 1899, the court holding that the contract formed between the railroad and the Pullman companies for the exclusive handling of passengers was not prohibited under the act of 1899, but came under the act of 1903. This case was tried on April 7, and was taken under advisement by the court. About forty other cases are affected by this decision.

The Twenty-sixth district court today decided in favor of defendants in the Spanish land grant case of the state against Russell et al, involving a league of land in Hidalgo county.

Four Exceptionally Important Sales Announced for Tomorrow

Great Sale of Muslin Underwear and Embroideries

Extraordinary Sale of Chinese Matting || **Special Basement Sale of Wash Fabrics**

The unequaled possibilities of this great store in the making of low prices will be brought into unusual prominence in each of these sales

The widespread appreciation of our successful efforts to make Thursday a day of exceptional interest throughout the entire store has been most encouraging. With those who have long since learned of the advantages of our special sales, great numbers of entirely new customers are noted making purchases. This indicates a constantly widening interest and the same continuous growth as has characterized these sales since their beginning. The bargains announced for tomorrow are of such unusual importance as to attract the attention of every woman in this vicinity, whether she contemplates purchasing or not. We desire to make special mention of the fact that besides the bargains mentioned here, most all of our inventory sale prices are still in force, which with the new additions that have been made in nearly every line, makes this store the center of greater interest than ever.

Wonderful Price Concessions are Being Made Through Our Extraordinary Efforts to Immediately and Thoroughly Reduce Our Summer Stocks

In Muslin Underwear for women, misses' and children, the price range is extremely wide in each line and at each of the prices there is presented the greatest variety and the most desirable styles, both in the regular and extra sizes to be found in the city. Customers will immediately recognize the prices to be the lowest ever quoted.

The unprecedented popularity of our great Embroidery sales is being demonstrated to an unusual degree by the enormous crowds that are in daily attendance at this sale. The values at 10c, 15c, 25c and 50c including Edges, Insertions, Bands, Galloons and Match Sets are acknowledged by every visitor to be even better than any we have ever before offered.

Our special Basement sale of imported wash fabrics will be an attraction of extraordinary interest, coming as it does right at this time when these particular goods are in such wonderful demand. Included are beautiful imported Flaked Tissues, Mercerized and Lace Stripe Batistes, also imported Tissue Ginghams; regular 25c and 35c qualities at 12 1-2c per yard.

Our Third Floor Section Offers an Unsurpassed Bargain in Chinese Matting Specially Priced for Thursday, Per Roll 40 Yards, $3.00

COMMISSIONERS TO FIX WIRE BRIDGE VERY SOON

Chairman Waggoman of the Street Committee Had a Conference This Morning

The controversy regarding the wire bridge across the Trinity, which has been long pending, was settled today when the county commissioners agreed with Chairman B. L. Waggoman of the street and alley committee of the city council that the county will undertake the work of rebuilding that bridge at once.

The wire bridge has been one of the best bridges in the county and it has been used a great deal. It is directly on the road to the cemetery, and used a great deal by the people from the north side of the county who do not care to cross the long bridge because of the street car tracks thereon. Chairman Waggoman went over the whole question with the commissioners, called attention to the heavy taxes paid by the city of Fort Worth and the people of North Fort Worth, and showed that as this improvement was necessary that the county ought to undertake it. He laid stress on the use of the bridge by the county people because of the car tracks on the other structure.

The commissioners finally agreed to undertake the work, with the understanding that the city is not to grant a street car franchise across the bridge under any circumstances.

COMMISSIONERS' COURT

The county commissioners' court was in session again today.

This morning routine business was considered.

The court had up the matter of purchasing school land and after due consideration accepted the proposition with the exception of attorneys' fees.

The report of County Clerk Rogers on the feed used at the county convict camps was acted upon by the court. The statement was approved, and the sum of $1,000 was appropriated for the ensuing year.

This afternoon the court will give consideration to the reports made by different railroads as to the valuation of rolling stock.

VITAL STATISTICS

The county clerk today received reports of the following births:

To Mr. and Mrs. Joseph Emskamp of Fort Worth, a girl; to Mr. and Mrs. Charles Salerno of Fort Worth, a girl.

DISTRICT COURTS

In the Forty-eighth district this morning the damage case of John Cain against the Texas and Pacific railway company was continued by the defendant and transferred to the Seventeenth district court.

Defendant was given leave to amend in the damage case of E. F. Pennybaker against the Armour Packing Company.

Continued by the defendant is the order entered in the Forty-eighth district court in the damage case of Gen. A. Ratterrell against the Houston and Texas Central railway company. The case was transferred to the Seventeenth district court.

The B. F. Fox damage case against the Gulf, Colorado and Santa Fe railway company was continued today.

Judge Dunklin of the Forty-eighth district court this morning sustained a motion to dismiss in the case of the state against Monroe White.

A motion for a new trial in the case of Alice Hart against D. G. Hart was sustained by Judge Dunklin and the cause transferred to the Seventeenth district court.

The damage case of W. C. Carr against the Chicago, Rock Island and Gulf railway company is still being heard by Judge M. E. Smith of the Seventeenth district court.

County Judge Milam today accepted a plea of guilty from E. Brice. The accused was charged with boarding a train unlawfully. He was fined $5.

HENRY AND GERALD IN BLANKET PRIMARY

WACO, Texas, June 15.—The executive committee of the Eleventh congressional district met here yesterday and ordered a blanket primary for this district. Judge G. B. Gerald and Congressman R. L. Henry are thus far the only candidates and there are not likely to be any others. The convention will be held in Waco on July 23, and under the arrangement will, of course, simply declare the result in a sense. The resolution calling for the blanket primary was offered by W. A. Smith of Coryell county, seconded by W. W. Hair of Bell county and carried unanimously. Members of the committee present besides the two mentioned were: O. L. Stribling of Waco, chairman; T. G. Fountain of Reagan, Falls county; Richard Jurney of Waco. The other member, John L. Spurlin of Hamilton, was ill and could not attend.

The Eleventh senatorial district executive committee also met and ordered a blanket primary and the convention meets in Marlin July 23. The meeting was in the office of Chairman John J. Foster. Hon. T. P. Stone is the only candidate thus far. He lives here.

Soap, tobacco and stationery can not be sold after 6:30 in the evening or before 7 o'clock in the morning hereafter in Belleville, Ill., by decree of the Clerks' Union. The prohibition on tobacco after sundown was extended to soap, stationery and other articles sold by druggists' and other stores.

The Foundation of Success

The First Essential in Economy. The Arduous Desire of Every Man is to Own a Home and Quit Paying Rent. It can be Easily Accomplished. Secure a Beautiful Lot on

Rosen Heights for $100 to $150 Only

To pay $1.00 down and $1.00 per week. No taxes, no interest, no payments when sick; in case of death the lot is deeded free to his or her beneficiaries. We furnish lumber materials to build your home—all you have to do to pay for it is to pay like rent.

$12.50 Per Month For a Three-Room House
$15.00 Per Month For a Four-Room House
$20.00 Per Month For a Five-Room House

Not one cent goes for rent. Every cent of your monthly payments goes to pay up for your home. Do you prefer to pay rent and have only rent receipts left, or do you desire to own a home for the rent money? Our salesmen are on the ground all the time. Act now, while opportunity offers.

SEVEN DAYS TO FIND A VICTIM

One week from today the republicans will go through the formality of re-nominating Roosevelt for the presidency. Who his companion on the ticket will be is at present very uncertain so far as outsiders are permitted to know. It is conceded, however, that he will come from Indiana or Illinois. Both are very doubtful states and it is almost certain that to win this fall the republicans must carry both. Neither Beveridge nor Fairbanks of Indiana seems to want the honor, nor does Cannon of Illinois. Hitt of Illinois wants it but can't get it. It seems likely that one or the other of the Indiana men will be forced to fall in line and take it, as Roosevelt was compelled to do in 1900.

Beveridge is perhaps the ablest man in the republican party and he knows it. A ticket with him on the tail end would be a wierd and wonderful thing. Even Roosevelt would have trouble in keeping Beveridge down if the latter wanted to assert himself. The entire United States senate tried it a few years ago when the Indiana man first became a member of that august body and failed. He defied the unwritten law of the senate that newcomers should be seen and not heard, winning a hearing on sheer ability and nerve. The senate trust, composed of Aldrich, Platt of Connecticut, Lodge, Allison, and Spooner, are jealous of his growing power and will likely try to put him on the ticket where he will have a good chance of going down to defeat, and at best has only the chance to play second fiddle to a man like Roosevelt. The indications are that they will fail in this and that Fairbanks will be found in line instead of Beveridge.

TOM SMITH

Thomas J. Smith,
Marshal of Abilene, 1870,
Died, a Martyr to Duty, November 2, 1870. A Fearless Hero of Frontier Days Who, in Cowboy Chaos, Established the Supremacy of Law.

That is the inscription on a monument dedicated at Abilene, Kansas, the other day, and it tells the story of plain Tom Smith.

Out of chaos, in less than a year, Tom Smith created law and order in Abilene. It was a big undertaking back in 1870—the days of the big herds of cattle. In that time the chief diversion of the cowboy was "shooting up the town."

The community was cowed. When Tom Smith came on from New York to be town marshal, he understood that he could hope for little help from the citizens, nor did he ask it. He was one man against all the rest, and he did not put his hope in posses. At the first he was compelled to shoot a few cowboys as a guaranty of good faith, but he did not aim to kill them. He was simply making an impression on their minds. It was his way of convincing them that he was the conservator of the public peace in that locality—that he was no joke.

After a few weeks there was a proper understanding. Tough characters disappeared. When the cow punchers came to town they left their guns with Tom Smith, who gave them back when they had recovered from a spree. Tom always treated them "square." Finally, after he had made a quiet town of Abilene, he was killed while trying to arrest a murderer. He died with his boots on—and his marshal's star.

Said the orator at the unveiling of Tom Smith's monument: "Somewhere, somehow, had been planted deep in his soul a strong sense of plain justice, a grave regard for the law, and of the rights of others, and a sturdy discharge of official duty."

The cost of the many different strikes in Colorado during the past sixteen months is estimated at $23,036,000. Of this amount the state has had to pay $636,000 for maintaining troops in the field, and the loss to strikers and others directly affected in wages, etc., and to the employers in loss of business, is placed at $22,400,000. With the exception of a few brief periods the national guard has been on duty at one point or another in the state since early in 1903. President Campbell of the Colorado Mine Operators' Assocation, estimates that the loss to metalliferous miners alone may be placed at nearly $5,000,000, and it is estimated that the total cost to the state, with the troops now in service, must ultimately reach $1,000,000.

American breeders will profit by the edict of the czar forbidding the deportation of horses from Russia. Germany has heretofore bought most of its horses from the czar's domains, but will now be compelled to turn more to this country for its supply. America may recover the former good market that she had for horses in the Fatherland, where as much as three times the price here may be obtained for a first-class animal.

Pistol toting doesn't seem to be entirely a lost art in Texas. The South may properly boast of its resources, but this foolish and unnecessary practice of carrying a gun on one's person is a constant reminder that the South is yet some distance behind the standards of civilization in the North and East. Pistol toting will die out, but it is dying hard.

It seems that Secretary Wilson has had his official eye on the Gautemala ant for some time. He assures us that though a suspicious character, the movements of the ant are known to the department and that so far he has shown no appetite for general vegetation, preferring only the toothsome boll weevil. In bugology the secretary is a veritable Sherlock Holmes.

Lord Curzon will not have to go back to India and work at his viceroy job unless he wants to, now that his father-in-law, Levi Z. Leiter, is dead. His share of the estate will not be as big as it would have been if young Joe Leiter hadn't tried to corner wheat, but there is thought to be enough of the family fortune left to support a few sons-in-law in idleness if they so desire.

Riding in cabs is always expensive, and when your companion is a tow-headed actress there seems to be a certain element of danger in it as well. Caesar Young found it so, for on his last ride under certain circumstances he died with a bullet through his head and his wife was left to mourn the frailties of man. The cab habit is expensive all around. Don't contract it.

Schwab is back in Europe again and is talking to interviewers on the cause of the industrial depression in the United States. Because the bottom dropped out of Schwab's shipbuilding bunko game he seems to think the legitimate business enterprises of the country are on the verge of ruin. He evidently needs a mental rest.

The wife of one of the highest officials of the World's Fair has announced that she will not wear decollette gowns at the official functions, on the ground that it would be in bad taste. This may be the reason, but there are a lot of women who will say it is for some other cause.

If Uncle Sam is wise he will get out and help drum up business for the St. Louis Fair. The directors are "into" him for several millions that he stands a mighty poor chance of getting back unless the attendance picks up.

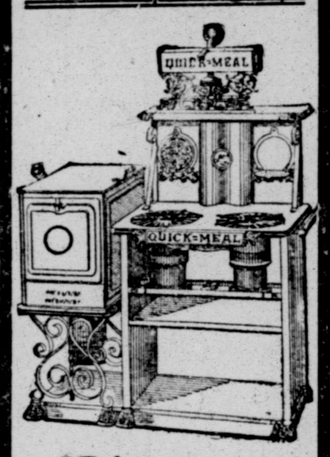

The women are still angrily denying Melville Stone's charge that they are responsible for yellow journalism. As for Stone, nobody knows what has become of him. He disappeared soon after he made his little speech.

Texas is the sensation of the season at the World's Fair, or else there is a lot of jollying going on up there. Every Texan comes back from St. Louis so full of his state that he can't talk of anything else.

The republican party in Wisconsin is not split. It is "busted" wide open and some of the pieces are gone.

Dr. Woodend has been fired out of the Stock Exchange. The fellow was a bungler.

NEW YORK LETTER

NEW YORK, June 12.—Wall street was nearly thrown into a panic over the report that Uncle Russell Sage had bought a new marked-down suit of clothes. Mr. Sage was seen to walk up Broadway in the vicinity of the postoffice today, and when he reached a certain corner where clothes are sold at reduced rates he paused. First he gazed into the windows that face Broadway. There, in bewildering array of textures and degrees of sound, he saw suit after suit, each of which bore an alluring placard marked "$9.87"—13 cents off on $10—the price of two car fares and three apples. With such a tempting Broadway view what would the side street windows show? Would it be 14 cents off on $10? The financier prolonged his daily vacation long enough to make a brief examination. As he turned the corner he was recognized by a broker's clerk, who spread the tidings that Uncle Russell was going to buy his summer suit. The magnetic shock passed up and down Broadway, and soon a crowd of millionaires, present, prospective and bankrupt, were rushing to witness the spectacle. Unconscious of the attention he was attracting Mr. Sage gazed smilingly through the side window at more suits marked $9.87 and dollar neckties that had shrunk to 13 cents. In a few hours they might be 18 cents and the suits $9.85, perhaps, but the man of wealth realized that time was money and that he could not wait. Starting for the store entrance he entered and had one foot over the threshold when he noticed that he was followed by a throng. He looked about him scornfully and turned up the street. And the crowd cheered, albeit their lack of tact may have postponed a new sartorial era in Wall street.

SECOND-PLACE ORACLES

While all the presidential candidates are putting the soft pedal on their utterances the men mentioned for the place of vice president feel no such restraint. When Speaker Cannon was here the other day he made the hearts of friends glad by the freedom of his talk. He says he is not a candidate for the office of vice president himself, but he cannot control his friends. Speaker Cannon may be engaged in a talk on any subject of a political nature. He doesn't care whether he puts his foot in it or not. Probably he would be glad if some statement of his was quoted as an evidence of his unavailability. Fairbanks of Indiana is in the same position. So is Senator Lodge and so is Senator Turner of Oregon.

Bright's Disease and Diabetes News

Pacific Coast Biscuit Co.,
R. C. Pell, Manager.
San Francisco, Cal., Feb. 21, 1904.

To Parents of Children Having Bright's Disease:

I feel impelled to write you my personal experience with this disease, the gravity of which I feel strongly through the death of my father some twenty years ago from that trouble and the serious illness of my son nearly two years ago, when he was pronounced by two physicians to have Bright's Disease in its worst form with recovery impossible. His whole body was swollen with the dropsy, great difficulty in breathing and death at any moment would not have surprised us. Medical science having been exhausted we put him on the Fulton treatment for Bright's Disease. In six months his recovery was complete. Physicians have five times since found him normal and without physical defect. Hearing that the son of a friend (an attorney) was dying of Bright's Disease I told him and at last reports the boy had recovered. Last year a Mr. Baruch, representing a New York firm doing business with us, shocked us by his appearance. He said it was Bright's Disease and feared it was his last trip to California. I told him, too, of my boy's case. Eight months later he called again. I hardly knew him. He said he was nearly well. There are lives to be saved and it is my duty as well as my pleasure to lay these facts before you.

Yours, etc.,
R. C. PELL.

The above refers to the newly discovered Fulton Compounds, the first cures the world has ever seen for Bright's Disease and Diabetes. We are the sole agents. Ask for pamphlet.

THE UPSIDE-DOWN WORLD

In the big wholesale section below Fourteenth street in New York the world lives upside down. This week all the big buyers from the west were swarming around Fourth street buying their stocks of Christmas toys. Next week the winter milliners will begin to appear and the styles of the cold weather will be sold to them in the very heat of the summer. For this section the Fourth of July is already over. The trade has been supplied a month ago. Thanksgiving novelties are selling smartly just now, but in a few weeks' time this season will have "passed" for the big wholesalers.

NEW ADAMLESS EDEN

There is to be an Adamless Eden established in West Ninety-second street. Three six-story double apartment houses, Nos. 4-6, 8-10 and 12-14, are to be turned over to the exclusive use of lovely woman. The project is believed to be a distinct innovation. It is true the Hotel Martha Washington in East Twenty-ninth street approaches it somewhat in character, but the West Ninety-second street enterprise has distinctive features that practically put it in a class by itself. Already the work of ridding the three apartment houses of the profaning presence of mere man has begun and by next October it will be complete.

DOESN'T HELP THE POOR MUCH

Some idea of the enormous amount of cool, clean space that will go to waste during the hot summer months here while the Eastside is crowded to suffocation may be gained by contemplating these figures: There will be 42 theaters closed, over 400 school houses, at least 200 churches, a countless number of lodge halls and at least 10,000 private dwellings and apartments. In the meantime there will be at least 1,000,000 people sweltering in the heat of airless and sunless rooms in the miserable tenements of the Eastside alone.

MOTOR BOATS GROW IN FAVOR

In the hundred odd seashore suburbs around New York there are probably 5,000 motor boats in use. This year the manufacturers have made a special effort to increase their sales and the number is constantly increasing. The cheapest motor boat on the market costs $175. These boats are 12 feet in length and have a tank in the bow, and the motor, which is one and a half horse-power, is in the middle of the boat in the after part. Seats are arranged around the sides. The boats are little more than good-sized rowboats, but can be used safely on smooth water and lots of fun can be had out of them. Of course, they are not very speedy, about five miles an hour being the limit, but they are cheap and do not cost much to run. One of these boats will use about a quart of gasoline an hour and, as they carry 12 gallons, they can run for 48 hours without taking a fresh supply. Gasoline is sold for 16 cents a gallon, so that to run one of these small boats costs only a few cents an hour.

JEFFRIES LEADS JUDGE PARKER

A New Yorker with a fondness for statistics has doped out a comparative table of greatness as shown by newspaper space. Jeffries had 97 columns in four morning and four afternoon papers in seven days; Judge Alton B. Parker comes next with 88 columns; Roosevelt had 56 columns in the same period; Raisuli, the Moor brigand, had 54; Grover Cleveland, 16; Mrs. Elias, 72 (the week following will place her in the lead of Jeffries); Nan Randolph Patterson, accused of the killing of Caesar Young, had 126 columns, including 42 pictures; District Attorney Jerome had 36 and Mayor McClellan 18.

BROADWAY ROBINSON CRUSOE

There is a man here who has lived in one of the biggest hotels along Broadway for over eight years and the clerks say that he has not a friend or acquaintance in the world. He does not even know the bell hops by name and he leaves a sealed envelope for the maids and the boy on the mantelpiece every Monday. One is marked "Boy" and the other "Maid." This is the way he does his tipping. He has patronized the restaurant in the hotel all the time, but he was never seen to entertain a guest or to be entertained. He has been approached a thousand times by other guests, but he presents such a frozen front that not one of them has been able to break through it. He never says "Good morning!" even to the clerks, unless they bid him the luck of the day first, and then he does it so grudgingly that the oldtimers have long ceased to practice the amenity. At 7 o'clock every evening he takes a place which has been kept sacred for him in the dining room and eats a steak and drinks a pint of wine. He has coffee and a cigar and he usually stays about two hours. His tip to the dining room man is made weekly and in a blank envelope laid on the table. He has never called up anyone on the telephone and he has never answered a telephone.

ROSE COGHLAN GETS DIVORCE

Rose Coghlan, the actress, has obtained a final decree of absolute divorce from her husband, John Taylor Sullivan, actor and theatrical manager. The decree authorized Mrs. Sullivan to resume her maiden name of Rosamond Maria Coghlan and granted to her permission to marry again.

Low rates to World's Fair. Phone Keith, 229, Cotton Belt office. Investigate immediately. No matter when you contemplate going.

In 1642 a party of English adventurers direct from New England attempted to settle at Oyster Bay, and actually purchased the land from the Indians, but the Dutch drove them out. Eventually a compromise was made and the Dutch and English divided Long Island between them. The first permanent settlement on the site of the present village of Oyster Bay was then made in 1653.

A COSTLY MISTAKE

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle yet thorough. 25c, at Matt S. Blanton & Co.'s and W. J. Fisher's drug stores.

CONDITIONS IN THE SOUTH.

How Easily Improved.

OUR Southern people can be congratulated upon the natural conditions surrounding them—for in many respects they are superior to the conditions prevailing in the Northern States. For instance, sunshine is a health preserver whose wonderful efficiency is being demonstrated more every day. It was the great scientist Finsen who discovered that concentrated sunlight cured skin cancer. In fact, sunlight kills most germs—while darkness is necessary to the growth of most germs, mould, etc. People in the South can live out of doors a greater portion of the year which is good for health, while during the winter in some localities of the North the people hardly see the sun for weeks at a time.

The Southern States are blessed with the most luxurious climate in the world. It is all summer, winter being looked upon as an accident, borne as the other trials of life, which temporarily give discomfort. Lingering autumns and early springs make the Southern winter so short that not sufficient consideration is given by the people to the preparation of the body or home for the advent of Jack Frost, who will sooner or later make his unwelcome appearance. For this reason a cold spell causes more suffering than in the North, where people plan for winter, in habits of life as well as in the construction of their houses. The statistics show that the mortality from pulmonary troubles is much greater in the South than in climates where bracing tonic weather prevails the greater part of the year. Beginning as a slight cold or catarrh the disease invades the bronchial tubes, then if not checked, the lungs are affected, germs of grip or consumption gain a ready foothold in the diseased tissues and the entire system rapidly succumbs. No one living in the so-called temperate climate can avoid a certain amount of exposure to cold and wet, but Nature will take care of any reasonable drain on vitality in a healthy body. If, however, the bodily health is low and the system weakened by constant demands made upon it, any over-draft of vitality leaves its impression, and the greatest disadvantage experienced in the South is the effect of malaria and the enervating effect of warm weather on the system. The blood becoming charged with malaria, the whole system feels the effect and life rapidly becomes a burden. The best way to secure an ample margin of safety is to fill the veins with pure, rich blood. Poor blood means insufficient nourishment to the organs of the body; weak organs mean poor elimination of poisonous waste products from the blood, thus a vicious circle is established, and the candle is burned at both ends. Dr. Pierce was one of the pioneers in placing medicine on a rational, scientific basis. He recognized these facts, and set about preparing a medicine which would meet both these indications. His "Golden Medical Discovery" makes pure blood, rapidly driving out the poisonous products that pollute and corrupt it. It also exercises a gentle tonic and stimulating effect on the great organs of the body, as the liver, kidneys and stomach. It gives strength to the body to throw off the cold, balances the circulation and prevents catarrh, and nine grip and consumption in the bud. Many remedies highly recommended to cure colds are made up of alcohol and narcotics. The alcohol spurs on the weakened heart and the danger is passed for a time, but the disease gets a more secure foothold when it promptly returns as is the invariable result. The opiates, by deadening the sensibility of the mucous membranes relieve the cough, but do not reach the root of the disease, leaving the lungs filled up with waste matter which Nature intends to be raised and thrown out. The "Golden Medical Discovery" attacks the very root of the trouble, stamping out effectually all the symptoms. There is not a particle of alcohol or opiate of any kind in Dr. Pierce's medicines, as he stands ready to prove in the most substantial manner.

Thousands have testified to the power and force given them by taking this "Discovery" of Dr. Pierce. For instance—

Sheriff Fatch, whose picture is given herewith relates an experience he underwent:

"I suffered for nearly eight years," writes Philip A. Fatch, Esq., of Mobile, Ala., Deputy Sheriff, "with malaria, which poisoned my entire system and deprived me of my vitality. I was cured in three months by using Dr. Pierce's Golden Medical Discovery. I know it was largely due to neglect and I paid little attention to my trouble until I became so run down and weak that I knew I had to do something at once to regain my health. I began to feel better within four days after I had used the 'Golden Medical Discovery,' and after using nine bottles I was restored to my usual health, feeling better than for years."

In order that the benefits of his medicines may be as widespread as possible, Dr. Pierce invites all sufferers to write him at Buffalo, N. Y., stating their symptoms, which will be given careful, confidential attention and the best advice. An experience of over a third of a century stands behind Dr. Pierce's suggestions, and in addition he has collaborated the fruits of his experience and practice into book form. In the "Common Sense Medical Adviser" will be found invaluable information. Write to-day for this superb treatise which will be sent free on receipt of thirty-one cents, in one-cent stamps, to pay cost of mailing only.

We guarantee that Dr. Pierce's Golden Medical Discovery does not contain alcohol, opium, or any harmful drug. It is a pure compound of medicinal plants scientifically combined. Persons making false statements concerning its ingredients will be prosecuted.

World's Dispensary Medical Association,
R. V. Pierce
PRESIDENT.

SURPRISE TO MANY

It may be a surprise to many that of all foods, meat is among those least nutritious. A carton of

DR. PRICE'S
WHEAT FLAKE CELERY
FOOD

contains more nutriment, more strength, more vitality than a pound of meat and will sustain life as long as two pounds of meat. The energy is not wasted in eating Dr. Price's Wheat Flake Celery Food, the system is not loaded with unnecessary waste matter to poison the blood. Served hot or cold.

Palatable—Nutritious—Easy of Digestion and Ready to Eat

A THIRD STORY FOR COLUMBIA BUILDING

Owners of the Property Will Make More Room for Dry Goods Company

It is understood today that the heirs who control the property known as the Columbia building are making preparations to improve the building by adding another story. Mr. James was seen this morning and said that while this improvement was under consideration, the details of the work to be done have not yet been determined. However, he says that it is more than likely the building will be made a three-story in the near future. In addition to this it is learned that the Burton-Peel Dry Goods Company will occupy the additional story.

POLICE NEWS

Five new cases were docketed in the police court this morning, pleas of guilty being entered in three of them, one trial and conviction resulting and one case being filed.

Of the old cases called the following disposition was made:

Passed	4
Pleas of guilty	2
No return	5
Motion for new trial filed	1

KANSAS CITY KIDNAPING

Notice of a Kansas City kidnaping charged to the account of a Texas tramp has been received by the local police department, which has been asked to locate the tramp and the two boys, aged 15 and 16 years, respectively.

The boys were last seen in Kansas City Decoration day, and are supposed to have been decoyed away by the tramp, who goes among that fraternity by the name of Dock Fierson of Texas.

The youngsters, James and Oscar Worten, are described as being of large size for their ages, although both are rather slim. The youngest has a dark skin and was dressed in a gray suit at the time of his disappearance. The other is lighter in complexion with straight black hair. Both wore large felt hats.

RECOVERS A RING

Through a clever piece of work yesterday Detective Maddox succeeded in locating some property stolen recently in this city, and also established evidence upon which the supposed thief has been held for a transfer to the county officials.

The property, a valuable diamond ring, was stolen from a rooming house on Rusk street several days ago, the prisoner being the only person known to have access to the room. Learning of his associates among women the officer yesterday found the ring in the possession of one of them. At first the woman told conflicting stories as to her possession of the ring, asserting at first that it had been given to her by her husband, later that she had found it and finally admitting that the suspect had given her the ring.

That the woman herself had no part in the theft of the ring was shown by the fact that after receiving it she wore it on a visit to the house from which it had been stolen.

NEW SUMMER UNIFORMS

The new summer police uniforms for which the officers are patiently, although hotly, waiting, will be ready for them June 20, or at the latest June 21, information to this effect having having been furnished them by A. & L. August, who have the contract for the suits.

MUCH BUILDING IN FORT WORTH

Hundreds of Fine Residences Are Going Up in This City. Newcomers in Prospect

At the present time there are hundreds of fine residences going up all over the city. The great building boom cannot be fully appreciated unless a trip over the city is made. A conservative estimate shows that several hundred homes are being built, many of which are almost completed, while others are in course of early construction. One real estate man said today that he knew of at least three hundred new residences being built at a cost on an average of $2,000 to $3,500 each. However, several houses in course of erection will reach far beyond these figures in the matter of cost.

There are in prospect several large buildings for Fort Worth, mention of which has been made recently in The Telegram. Yesterday Secretary Paddock received a letter from a party in the north who desires to come to Fort Worth and build a paper manufacturing mill. The matter will at once receive attention from the Board of Trade in an effort to induce the projectors to make a visit to this city. From what is learned through the letter received it is evident that if the company comes to Fort Worth it will erect an enterprise of considerable magnitude.

The Board of Trade is carrying on a correspondence with several firms who have their eye on Fort Worth, and Secretary Paddock believes that within the coming year a number of these enterprises can be induced to locate in this city. The Board of Trade is doing an effective work and as a result it is hoped that several manufacturing concerns will come here.

The Czar and Czarina of Russia speak English and German in their private conversations. The Czarina did not learn Russian til her betrothal, but, though she speaks very slowly, it is with a good accent and great distinctness.

FARMERS BUSY IN HARVEST FIELDS

Every Available Hand Is at Work and Sunday Was Used to Help Save the Grain

SHERMAN, Texas, June 14.—After several days of idleness, harvesters are humming in this section today, and where dry enough to permit, machines were operated Sunday, farmers deeming it imperative to avail themselves of the first opportunity to get into the fields in order to save as much as possible of the grain that has grown so over-ripe during the wet spell as to shatter badly, and the loss already sustained will amount to considerable.

Every available hand is working early and late, and will so continue until the grain crop of this section is housed unless stopped by further rain, which could but prove damaging.

Parties from Whitesboro report that rain fell there every day for the past ten days, and that on Saturday the hardest of the season fell and was accompanied by considerable hail. As a result harvesting is being retarded and both wheat and oats are being very much damaged. It is the opinion of many farmers that both have been damaged to the extent of 25 per cent, and a few more days of rain means a total loss of both crops. Some farmers are now talking of buying hogs and turning them in on their wheat and oats.

HAMILTON-BURR DUEL

NEW YORK, June 15.—A movement has been started in Weehawken for a patriotic demonstration July 9 in commemoration of the one hundredth anniversary of the death of Alexander Hamilton, who was killed in a duel by Aaron Burr. A small marble slab now marks the spot where Hamilton fell. The promoters of the demonstration intend to inaugurate a movement to replace the slab with a suitable monument.

A FRIGHTENED HORSE

Running like mad down the street, dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none as good as Bucklen's Arnica Salve. CONSUMPTION CURED.

"Doctors Said I Could Not Live, but Duffy's Pure Malt Whiskey Cured Me In Three Months."

"I Had Hemorrhages and Was Reduced to a Skeleton, But Your Wonderful Remedy Built Me Up and I Gained 60 Pounds," Says Cora Riley, Coatesville, Pa.

"Four years ago I was a mere skeleton. I had been in poor health since childhood. The doctors told me it was consumption and that I could not get well. As winter appoached my cough became more severe and my condition so serious that I had a number of hemorrhages, and my weight was reduced to less than ninety pounds.

"I first learned that Duffy's Pure Malt Whiskey was good for consumption through reading one of your advertisements in a Philadelphia paper. Then my family took the matter up with our local druggist and he recommended your whiskey as such a grand cure for consumption that I began taking it in October and continued its use throughout the winter. I began to improve at once and within three months I was cured of awful consumption.

"I am glad to tell you now, after a lapse of nearly four years, that I am in perfect health and weigh over 150 pounds. I attribute my being alive and strong and well to your wonderful Malt Whiskey." This testimonial is published in good faith and guaranteed.

Duffy's Pure Malt Whiskey

The Great Consumption and Throat Cure,

is used by over 9,000 doctors and hospitals exclusively as the one complete and perfect cure for consumption, coughs, colds, grip, bronchitis, asthma, pleurisy, pneumonia, catarrh and all diseases of throat and lungs; indigestion, dyspepsia and every form of stomach trouble; nervousness, malaria and all low fevers, and for all weakened, run-down diseased or wasting conditions of body, brain, nerve and muscle.

Duffy's Pure Malt Whiskey not only drives out disease germs, but builds up new tissues and renovates the entire system. It aids digestion, enriches the blood, stimulates circulation, tones up the heart, quiets the nerves, and nourishes and builds up the body so that it will throw off and prevent disease.

At the medical convention in Albany A LEADING DOCTOR SAID: **"I would rather have Duffy's Pure Malt Whiskey to cure consumption and diseases of the throat and lungs than all other medicines in the world."** And the doctors present agreed with him unanimously.

Duffy's Pure Malt Whiskey is invaluable for tired-out, overworked, worried men, delicate, nervous women, and sickly children. It promotes health and long life, keeps the old young, and makes the young strong.

It is absolutely pure, contains no fusel oil, and is the only whiskey recognized by the Government as a medicine. This is a guarantee.

CAUTION.—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and malt whiskey substitutes, which are put on the market for profit only and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure Malt Whiskey which contains medicinal, health-giving qualities. Duffy's Pure Malt Whiskey is sold in sealed bottles only; never in flask or bulk. Look for the trade-mark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken. Beware of refilled bottles.

Sold by all druggists and grocers, or direct, $1.00 a bottle. Medical booklet free Duffy Malt Whiskey Co., Rochester, N. Y.

FOR SALE BY H. BRANN & CO., 108-110 MAIN STREET.

TEXAS LEGISLATOR IS WELL KNOWN

W. J. Bryan of Abilene Spends the Day in Fort Worth and Talks of His Section

W. J. Bryan is in the city today.

Such a statement naturally leads the reader to believe than the prominent Nebraskan who has been twice the leader of the national democracy is here, but there are two of them. William Jennings Bryan of Nebraska is one of them and W. John Bryan of Abeline, Texas, is the other. The one has been to congress and a candidate for the presidency, the other has been twice a member of the Texas legislature and is a candidate now for his third term. He is a tall, ordinary looking fellow, with hair the color of new mown hay and a mustache which straggles on each side his lip. He is droll of speech, of much natural humor, slow of expression, but determined whenever he makes up his mind. He came in on the Texas and Pacific this morning and the manner in which he approached a city belt car showed that he knew more about a yearling and a cow pony than he does about electric transportation.

But joking aside, Mr. Bryan is one of the prominent members of the Texas legislature, and stands a good chance for re-election.

He is the author of the famous Bryan quarantine bill which was before the last session and which the cow man protested against very strongly. The bill was defeated through the influence of the cattlemen and the people of Fort Worth. Speaking of that today Mr. Bryan said, "They raised a great hullaboloo about that bill, but I notice they are coming to it. One half of what I had in it is now in operation. I urged the establishment of dipping vats for cattle from below the line, and the agitation which was brought out by the measure has resulted in the federal government and the state board getting together and there are dipping vats in Fort Worth now in which thousands of cattle will be dipped and sent to the northwest. When I urged this in my bill, the cow man answered that such a dipping process had been discovered, and I asked why they had not followed it. They are doing it now, so I believe I am responsible for the work being put in operation, because my bill brought it out strongly. Fort Worth benefits by it because in Fort Worth these cattle are dipped."

Mr. Bryan is also an advocate of those measures which have been urged by The Telegram. He is opposed to the issuance of free passes to officials of the government, and believes that it should be stopped. He supported the Hogg amendments because of the anti-free pass feature. "I do not think the Texas legislature can be bought by free passes but I would like to see it assemble once without passes. I believe the people are entitled to a quorum every day."

Mr. Bryan opposes nepotism. He has supported every measure offered which would prevent officials appointing kinsmen to office and he says he believes it will sooner or later be a law in this state.

Mr. Bryan, during the last legislature, secured the largest appropriation which was allowed by the session, that being for the construction of the epileptic colony in his home town of Abilene.

Speaking this morning he said "West Texas is in fine condition this year. We are all happy and prosperous, the country is in fine shape, and we are not allowing the presidential conflict to take our minds from business."

Mr. Bryan will go to the San Antonio convention, and it is likely he will be the delegate to the national canvention from his congressional district.

INTERESTING NEWS FROM GRAPEVINE

GRAPEVINE, Texas, June 14.—Will Turnage of the firm of Turnage & Waymire, left Sunday for Mineral Wells to be gone until his health improves.

John B. Wood has made some valuable improvements on the property recently purchased from J. H. Webb.

Colonel Bob Stewart was in town this morning looking for thresher hands. He says there will be something doing for awhile.

A heavy rain and hail storm visited this section Saturday afternoon. It did some damage to corn and oats.

George Lemons, an old time Grapevine boy, who has been away about two years, came in Sunday to spend a few days at home.

Professor Bludworth, president of Grapevine College, has left for Fort Worth to be gone about six weeks. He has been chosen as conductor of the summer normal at Polytechnic college. Professor Bludworth is a talented educator and Tarrant county justly feels proud of him.

William Pressley of Fort Worth is here on business today.

Robert Chivers, with the real estate firm of F. L. West & Co., Fort Worth, is here today.

Grapevine is to have a new lumber yard in the near future.

Austin Brothers will start their new thresher Thursday.

There is some sickness in Grapevine at present. Mrs. H. H. Wall is quite sick, also little child of J. M. Tucker; D. D. Wall's child and child of Mr. Billy Cleveland.

INSPECTING THE RIO GRANDE

Chief Engineer C. D. Purdon of the Frisco system, headquarters at St. Louis, is in the state. He is on a inspection trip and today in company with Vice President and General Superintendent Fickinger of the company is making a run over the Rio Grande division. Mr. Purdon has already inspected the Red river division of the system and finds it in rst-class condition. He reports the crop conditions along the line to be excellent.

HALL COUNTY IS IN FINE CONDITION

MEMPHIS, Texas, June 14.—The 18-year-old daughter of Hamp Roberts was buried today. Mrs. Roberts and a son are lying at the point of death.

Arrangements are being made for a big barbecue for the Fourth of July. Music will be furnished by the Memphis brass band and mutton, pork and beef by the cattlemen of the community. Those who want to see the finest country and the biggest hearted people should some. A generous welcome will be given all who attend.

Plenty of rain has fallen and crops are fine. Farmers are busy.

The family of J. M. Gist is spending the summer with relatives in Gainesville.

Robert Cray is in St. Louis taking in the sights. His sister of Bellevue is with him.

At the last meeting of the Woman's Culture Club the following officers were elected for the ensuing year: Miss Pearl Noel, president; Mrs. E. L. Houghton, vice president; Mrs. D. A. Grundy, secretary; Mrs. J. C. Wilson, treasurer.

The Masons elected the following officers for the year:

Blue lodge—Charles Drake, master; F. M. Trapp, senior warden; Posten Carver, junior warden; A. G. Powell, secretary; S. S. Montgomery, treasurer; A. C. Willborn, chaplain; B. F. Thompson tiler; P. O. Young, senior deacon; R. N. Gillis, junior deacon.

The chapter—A. G. Powell, high priest; D. A. Grundy, king; Charles Drake, scribe; J. D. Bird, captain of the host; E. Houghton, principal sojourner; S. E. Sweatmon, royal arch chaplain; P. F. Carver, master of the third veil; R. W. Williams, master of the second veil; B. F. Thompson, master of the first veil; D. H. Arnold, secretary; B. F. Denny, treasurer; F. M. Trapp, guard.

A. C. Willborn is very sick at the home of his son, A. H. Willborn.

J. M. Willborn, editor of the Hall County News, has been having a seige of measles.

Oscar Wright of Vernon spent Sunday here visiting relatives.

Miss Mattie Fore has returned to Hereford.

Mickle-Burgher's new ware house is about completed. It is immense.

ODD FELLOWS HAVE MEMORIAL SERVICE

Memorial services were held at Union lodge 318 of the Odd Fellows last night. The services were to honor the memory of those members who died during the past year. Members from the different lodges throughout the city were present.

The meeting was called to order by Al Holden, who made some appropriate remarks on "Noble, Grand Union Lodge 318."

An opening ode, in which all present joined, and for which Miss Tillie Smith played, was then sung.

Captain Cumby next delivered the invocation and then came the addresses from the members of the different lodges in the city, varied now and then with a musical number.

The affair was concluded after the closing ode and the benediction by Captain Cumby.

Good Stories of The Day

Congressman W. Bourke Cockran amused some of his political friends at the Waldorf-Astoria a few nights ago by a story of the 12-year-old son of a friend of his, an Englishman living in this city. The boy, like his father, was born in England, but had been going to school here for six years, and in that time had studied his American history with a due amount of American patriotism.

A few evenings ago the boy was talking over the battles of the revolution with his father and discussing the campaigns of the British. Finally, after a little thought, he astonished his father by blurting out:

"Well, pop, we licked you twice, anyway, didn't we?"

—●—

Senator Gorman's friends (and foes) know that his qualities as leader are at least masterly, but how far they trust to his judgment may not be so well known to the reading public. One of the statesman's friends had a dream not so long ago, which he is telling, and it makes clear the whole Maryland political situation.

He was standing before Heaven's gate and St. Peter was just opening it. As it swung back the venerable warden asked the name of the new arrival, and proceeded to look up his record in a great book. Then he said, "Enter."

The Marylander hesitated. He looked all around him and scratched his head, but he did not advance toward the open gate.

"Why do you hesitate?" asked the saint. "Enter."

"Well, I hope it's all right," said the other slowly, "but I do wish I could have a word with Gorman before taking so important a step."

—●—

It is now theatrical history that the dramatic critics unanimously voted Clyde Fitch's play of "Major Andre" a failure. Included in the history should be a conversation on the subject between Mr. Fitch and McKee Rankin, his manager.

"One of them said it was half baked," observed the manager.

"It is well roasted, at all events," replied the author.

—●—

William Thaw, the Pittsburg millionaire, delights in automobiling, and has acquired a particular fondness for a certain make of machine. A friend endeavored to dispel this prejudice and invited Mr. Thaw to a twenty-mile spin in a machine constructed along diffent lines. When the ride was completed Mr. Thaw thanked his friend, saying:

"Splendid machine! I'm sure your baby will appreciate it."

"Baby appreciate this machine? What in thunder do you mean?" asked the other in astonishment.

"And is your baby, then, so unlike other children," said the Pittsburger searchingly, "that she cannot appreciate a rattlebox?"

ROSEN HEIGHTS TO BE ANNEXED

Suburb of North Fort Worth Wants to Be Included in the City Limits

BOND ISSUE DISCUSSED

Finance Committee Makes a Statement of the Condition of the Public Debt

The city council of North Fort Worth met last night in regular session, with all members present and Mayor Pritchard presiding. With the exception of the bond issue question, very little business of importance was transacted.

ROSEN HEIGHTS WANTS ANNEXATION

Probably the most important thing brought up was the question of annexing Rosen Heights to the city of North Fort Worth. Alderman W. A. Arthur stated to the council that he had been approached by residents of the heights who had discussed the matter with him and asked him regarding the law of annexation. City Attorney Valentine informed the council that the annexation would require an election and that with a majority Rosen Heights could be made a part of North Fort Worth.

The placing of Rosen Heights under the municipal government of North Fort Worth would be an important step to the city and at the same time be of great benefit to the citizens of Rosen Heights, as it would give them all advantages derived in North Fort Worth at a very small additional tax. Mr. Arthur was requested to communicate the law of annexation to those interested in the move and report the result at the next meeting of the council.

CITY TO ISSUE BONDS

The bond question was one of the first things to be brought up at the meeting. Before discussing the question the secretary was requested to read the report of the finance committee, which carries a recommendation from that committee upon the bond issuing question. The report was as follows:

We your finance committee beg to submit the following report of the finance condition of the city of North Fort Worth:

Overdraft, Stock Yards National Bank	$3,333 88
Notes due September 8, 1904	1,750 00
Interest on notes	52 50
Amount still due on chemical engine	360 00
Amount due on fire hose	1,000 00
Outstanding bills and salaries due city officials July 1, 1904	1,000 00
Total indebtedness of city	$7,496

We find that we have a monthly pay rol of approximately $500, and as our prospect of realizing any money from taxation before the first of the year is very poor, we respectfully submit the following solution to cover present indebtedness and make the necessary improvements:

We suggest to your honorable body that you attempt a bond issue of $100,000; this amount to be used to put in a complete water system, sewerage, city hall and school buildings.

We believe that the time has come in the city of North Fort Worth when it should take charge of and maintain its own schools.

The need of a city hall is plain to every one. We are confident that a proper plan and estimate will be furnished by certain parties, showing that a very satisfactory water system could be put in and controlled by the city for a sum that would not exceed $65,000 or $70,000.

We do not wish to be understood in making the suggestion for the $100,000 bonds that this amount will be sufficient to cover the four different necessities named, but we do believe that the amount will give us a first-class water system, city hall and the necessary school building and also take up the present indebtedness of the city.

We wish it distinctly understood that our motive in making these suggestions is merely to bring the proposition before your honorable body for your consideration.

The question of law governing the issuance of bonds by a city was then brought up, and the city attorney stated that there must be some understanding in regard to what use the money was to be put to before the necessary steps of ordering an election should be held. The matter was then deferred until the next meeting of the council.

BAD CONDITION OF CITY JAIL

Alderman Shannon, chairman of the police committee, reported that the condition of the city jail was bad—in fact the place was almost uninhabitable and recommended that the building be removed to a better location. He stated that Manager Hopkins of the townsite company had agreed to donate the use of any vacant lot of the company that might suit the city. This brought out a general discussion of a future city hall and jail and the council voted the proposition down as recommended by Mr. Shannon, but agreed to have some needed repairs made and the lot surrounding the building graded and filled in so that the place would at least serve its purpose.

CITY ENGINEER'S REPORT

The report of the city engineer was received. Mr. Hall, the engineer, stated that the old plat of ground known as the city park had been drained and a blind culbert put in on Fourteenth street at a cost of $149. Tax Assessor Mulholland stated that the city did not own the park, or at least it was rendered in this year by the North Fort Worth Townsite Company, and until the question of ownership could finally be settled the council was in favor of passing the report over for future action.

CITY PHYSICIAN'S RECOMMENDATION

City physician, Dr. Marquis E. Gilmore, and William Capps each asked that some action be taken by the council in draining two ponds in the south part of the city. The pond Mr. Capps had reference to is situated on the Frisco right of way near Main street, and the council, upon the suggestion of the city attorney, instructed the secretary to give the Frisco railroad people five days' notice in which to take steps in remedying the matter, otherwise the city would have the water drained off at the cost of the railroad company.

THE ROSEN SEWER FRANCHISE

The franchise recently granted to Sam Rosen to put in a sewerage system was revoked and another granted him with a different route. Owing to the action of the stock yards company in opposing the route mapped out in the first franchise it was necessary for the city engineer to make a change and upon his suggestion an entirely new route was adopted.

BILLS TO BE PAID MONTHLY

A resolution was passed to the effect that all bills presented against the city should be paid the first of each month, the council to pass on them at the regular meeting of each month.

NEW ORDINANCES

Two new ordinances were passed, one regulating the placing of telephone poles and the other requiring all street railway companies to keep their road beds filled in up to a level with their rails. The ordinance governing the placing of poles requires that all poles must be placed on sidewalks, and not over eight inches from the curb.

This Testimony
Will surely interest many readers of this paper.

James G. Gray, Gibson, Mo., writes about Drake's Palmetto Wine as follows: I live in the Missouri Swamps in Dunklin County and have been sick with Malarial fever and for fifteen months a walking skeleton. One bottle of Drake's Palmetto Wine has done me more good than all the medicine I have taken in that fifteen months. I am buying two more bottles to stay cured. Drake's Palmetto Wine is the best medicine and tonic for Malaria, Kidney and Liver ailments I ever used or heard of. I feel well now after using one bottle.

A. A. Felding, Knoxville, Tenn., writes: I had a bad case of sour Stomach and Indigestion. I could eat so little that I was "falling to bones" and could not sleep nor attend to my business. I used the trial bottle and two large seventy-five cent bottles and can truthfully say I am entirely cured. I have advised many to write for a free trial bottle.

J. W. Moore, Monticello, Minn., makes the following statement about himself and a neighbor. He says: Four bottles of Drake's Palmetto Wine has cured me of catarrh of Bladder and Kidney trouble. I suffered ten years and spent hundreds of dollars with best doctors and specialists without benefit. Drake's Palmetto Wine has made me a well man. A young woman here was given up to die by a Minneapolis specialist and he and our local doctor said they could do no more for her. She has been taking Drake's Palmetto Wine one week and is rapidly recovering.

The Drake Formula Company, Drake Bldg., Chicago, Ill., will send a trial bottle of Drake's Palmetto Wine free and prepaid to any reader of this paper. A letter or postal card is your only expense to get this free bottle.

RAILROAD NEWS

NO PLACE FOR STRIKERS

General Manager Wells of the Santa Fe coast lines, in discussing the strikers in connection with that road, said recently: "Not one of the old machinists will be taken back under any circumstances. I am sorry for some of them, and will say for their benefit that they were misled, but this does not make good the action they took against us."

When asked if they would continue to import men to take the places of incompetent men discharged, Mr. Wells stated they certainly would, and, furthermore, would continue to do so until they had a full quota of competent men all along the line.

WORK ON THE ORIENT

The Kansas City, Mexico and Orient Railroad Company began work last week on the line south from Fairview, Okla., to the Texas state line. The grading was practically completed last year, but no rails were laid southward from Fairview until the past few days.

Renewed active construction is now promised all along the line, and great progress is expected by the Orient company this year.

Work also began last week laying rails northward from Sweetwater, this state, to the Oklahoma boundary line. Steel is being laid between Milton and Wichita, Kan., a distance of thirty miles, and the company is also beginning construction between Wichita and Kansas City.

When completed this line will be 550 miles shorter than any other line between Kansas City and the Pacific coast, and its coast terminus, Fort Stilwell, is 800 miles nearer the Philippines, China and Japan than is San Francisco.

Great progress has been made in the construction of this road under the able management of President E. A. Stilwell. At present there are 325 miles completed and in operation, and 600 miles more are graded and ready for the rails. The company has now on hand sufficient material to proceed with active construction.

SANTA FE LAYING NEW RAILS

The Santa Fe railroad company is now relaying its switch tracks with new heavier steel, and work trains are now distributing the rails at various points on the road. The new steel has been down some time on the main line and the work of replacing the switches and branches is now under way at various points on the system in Texas, New Mexico, Colorado and Kansas. The branch between El Paso and Albuquerque is also to be relaid. The light rails that are being taken up are to be used in branches that are not being used so continuously.

OIL NOT BEING USED

The experiments made with oiled roadbeds by different companies has not been a success and the system is not likely to be generally adopted by the southern and western lines, although oil has been used to considerable extent by the Southern Pacific and the Texas Midland.

The roads in California, however, have experienced better satisfaction than the lines in this state from the fact that the soil is better adapted to the reception of oil which retains it much better than does the soil in this part of the country.

RAILWAY SURGEONS TO ORGANIZE

The American Association of Railway Surgeons is likely to soon be formed, as both the International Association of Railway Surgeons and the American Academy of Railway Surgeons have authorized their executive committees to take action looking to that end. The last joint meeting of these two associations was brought to end in Chicago last week, and it is now reported that they are to be merged into the new association.

TERRITORY OIL DEVELOPMENT

It is learned here that the Santa Fe railroad company has secured an option on several tracks of oil land west from Ardmore, and will commence the development of the oil region there at once.

It is understood that the Santa Fe company has invested about $40,000 in these lands near Healdton. The company's oil expert, B. H. Goodrich, is already on the grounds and will superintend the work of development.

It is believed that the Frisco railroad company which owns a right of way through these oil fields, will extend westward to Waurika and will tap this oil region. It is reported that the Santa Fe and Rock Island will build the road jointly.

CHICAGO LINES RETRENCH

Returns from sixteen roads in the General Managers' Association of Chicago, with a trackage of 36,920 miles, and employing quarter of a million men, report a net reduction of 6,742 in their forces, compared with the figures of June 30, 1903, or somewhat less than 3 per cent. Of the roads five reported no reductions, three decreases, five no material change and three slight increases. If a like percentage of reduction prevails among other roads of the association, the total reduction would amount to about 11,000. Between 1899 and 1903 the number of employes of the Chicago roads increased 53 per cent, while their compensation increased 60.6 per cent.

ROCK ISLAND TO GALVESTON

The Telegram a few days ago stated that there was a probability that the Rock Island, since that company publicly declared that its pending deal with the Southern Pacific for the purchase of a half interest in the Houston and Texas Central and other properties of that company in Texas, was off. It would undoubtedly build its own line to the gulf. Touching this matter, a Houston dispatch says:

Following the announcement that the Rock Island-Central deal has been declared off, comes the still more important declaration from authentic sources, that the Rock Island will now build its own line from Dallas to Galveston via Houston. The Rock Island had this line surveyed, and has the right of way for every mile of the proposed line. Even the terminal facilities have been secured in Galveston. The building of the Rock Island line from Dallas to Galveston will parallel the Houston and Texas Central the entire distance, and the effect will be disastrous to the latter road. The Rock Island and the Frisco are the only two roads giving their northern business to the Houston and Texas Central.

SPECIAL HOSPITAL CARS

Dr. Williams Sanford of New York says, concerning the work of the railway surgeon: "The phenomenal increase in passenger and freight transportation upon our railroads in recent years and the constant desire for greater speed, must increase the liability to danger, not only to passengers, but also to the employes of roads. There probably never existed a more united opinion among the profession than at the present time, in favor of better equipment of medical and surgical departments of our great systems of transportation. The governing powers of those corporations are beginning to demonstrate by their actions that they have a desire to improve the present conditions. This was clearly shown recently by President Underwood of the Erie railroad, when he directed that a special hospital car be supplied with the necessary equipment for all emergencies in case of accidents. Some of the principal western roads have followed this example. It is such cases that the railway surgeons may demonstrate their usefulness to the community, for it is by their efforts, principally, that this important work is to be carried to ultimate success. There is no scarcity of railway surgeons, nor is there a less demand for their services, but on the contrary, the steady advance of civilization requires more than ever before their assistance."

The island of Malta has 1,360 people to the square mile.

REVOLUTION IMMINENT

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the Kidneys and Bowels, stimulate the Liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by Matt S. Blanton & Co., and W. J. Fisher, druggist.

Schlitz

Compare Our Methods

You will realize then why Schlitz beer is pure.

You wash a cooking utensil once. We wash a bottle *four* times, by machinery, before we fill it.

You use city water. We bore down 1400 feet to rock for ours.

You prepare food in the air of the room. We cool Schlitz beer in plate-glass rooms and filter all the air that touches it.

Then we filter the beer by machinery—filter it through white wood pulp.

Yet your methods are cleanly. Ours are cleanliness carried to extremes.

Then—for fear of a touch of impurity—we sterilize every bottle after it is sealed. We double the necessary cost of our brewing to give you a healthful beverage pure.

Do you wonder that we sell over a million barrels annually? Ask for the brewery bottling.

THE TOLTEC MINING & SMELTING COMPANY

WACO, TEXAS

Incorporated for $1,000,000. Seven Gold Mines in One of the Richest Gold Fields of Mexico.

A MARVELOUS
Opportunity to buy stock at low prices.

Aid in Our Development
Share in the Profits

Over $100,000 are in sight in Ardilla group alone as result of ten months' work. Work being pushed day and night.

Become an owner in one of the best and strongest companies in Mexico while you can get in on the ground floor.

WE AIM to make the Toltec the quickest Dividend Payer on record.

The company owns seven gold mines on which development work is being pushed; is out of debt; owns its water power. Has a six stamp mill in operation on its mines. Expects to make its stock worth par in one year. Stock par value $1, will be sold at 10 cents. Fully paid, non-assessable. This stock will go to par the first thing you know. Buy now.

GREAT FORTUNES
Are not made by men in mining who are waiting for a sure thing. They are made by investments in enterprises while the mines were prospects. The time to make an investment is while the enterprise is shaping itself.

The formation period of an enterprise is the "Ground Floor," when all the big money is made. The mistake men make in mining investments is in waiting until all the ore is in sight. He who does will have to pay dollor for dollar for everything he gets. You can buy gold dollars for one hundred cents, but there is no profit in the investment. The men who make the big money in every great enterprise are those who came in at the beginning. The history of every great enterprise proves this, and gold mining is no exception.

The Best Is None Too Good

for our customers, and when the question of quality in Refrigerators is brought up we have one, the BOHN SYPHON SYSTEM that is an ice saver and a food preserver that is not equaled by any other on the market. Any one who will examine them will say they are so substantially built and well made that the only question that can possibly arrive in your mind is the principal, which, however, upon a little study by you becomes obvious that they have not applied the wrong principal to a well built Refrigerator. They cost some more than the common ones, but they are worth the price they are marked.

GET RICH QUICK IS PLAN ON WHICH PAIR WORKED

Two Cincinnati Men Opened Offices in Chicago and the Money Poured in on Them From All Parts of Country

CINCINNATI, Ohio, June 15.—One of the biggest frauds that has been perpetrated in recent years has just come to light as the operation of two prominent Cincinnati men in Chicago.

A half million dollars have been carted out of the city by these smooth workers. Men and women in all parts of the country subscribed their bits to swell this amount. A prominent Chicago priest was one of the victims to the tune of $50,000, and it was upon his complaint that the warrants for the arrest of the swindlers was issued.

For several months the firm of Irving J. Isbell, James C. Gavigan and Arthur Wilbut has been occupying finely appointed suits of rooms on Sherman street, Chicago, and a corps of twenty-five clerks were kept busy attending to the voluminous business which came into the office.

"GET-RICH-QUICK" SCHEME

The scheme was the familiar get-rich-quick dodge, which has wheedled the hard-earned dollars from many a pocket during the past few years. As usual, the bond company promised immense returns to the investors, mentioned prominent banks as the guarantee and sent alluring letters to all parts of the country. The game was worked quickly and money began to pour in. Then the suspicions of the authorities were aroused and the banks whose names were mentioned were called upon, only to state that they knew nothing of the company. The police department of Chicago made a careful investigation and, concluding that the business was illegitimate, issued warrants for the three members of the firm. They became aware of the issuance of these warrants, however, and disappeared, leaving a host of sorrowing creditors wondering as to their whereabouts.

DID LAND OFFICE BUSINESS

In a private letter to this city concerning the magnitude of the operations, a former Cincinnatian writes that Gavigan had been doing a land office business, and that from all accounts he carted away a big sum of money when the authorities became suspicious and issued warrants for the members of the concern on the charge of swindling. It is estimated that the amount will reach $500,000. The offices of the firm are deserted, and have been attached by Ezra Cook on a judgment for $300.

STARTED A BOND COMPANY

About two years ago Gavigan and Isbell started a bond company, with offices in the Union Trust building, at Fourth and Walnut, promising the usual big returns to investors. After having secured thousands of dollars and fleeced hundreds of people, the authorities became suspicious of their operations, and they were compelled to leave town. They then operated in Covington for a time, with fine offices on Scott street, near Fifth street, and succeeded in obtaining considerable more money. Among their victims were a number of ministers from Lexington, in fact, ministers form a good percentage of their dupes wherever they have worked.

After a few months across the river warrants were issued for them, and they were compelled to leave again.

In Covington Gavigan operated the Germania Investment Company and absorbed the Germania Guaranty Company of Cincinnati and got its affairs over into Covington. He was indicted at Lexington for misappropriation of funds, and gave himself up to the authorities in Covington. The indictment still stands against Isbell.

The two—Isbell and Gavigan—then traveled about considerably, operating part of the time in Boston, then going to Chicago, where they seemed to have been more successful than ever before.

HOW THEY WERE APPREHENDED

In Chicago complaints against the company came to Chief of Police O'Neill from the Board of Trade a week ago. The names of prominent firms and banks were being used as references, giving the dupes an idea that the promises of the firm would be fulfilled. After investigation Detective Woolridge of Chicago became convinced that the scheme was illegitimate, and secured the consent of a prominent clergyman who had been fleeced to use his name as complainant.

Inquiries poured into the First National and Corn Exchange National banks, where the company had agreed to deposit the profits of many of their clients.

In every instance the inquirers were informed that no fund had been received from the concern.

BIG BARBECUE ON FOURTH OF JULY

San Angelo People Will Entertain All Comers on the National Holiday This Year

SAN ANGELO, Texas, June 14.—A rousing meeting of citizens and business men of San Angelo was held last night at the court house and it was unanimously agreed to hold a grand Fourth of July barbecue and picnic at this place lasting two days, July 4 and 5. Funds are being raised by popular subscription and donations of merchandise and beeves, sheep, etc., for the barbecue are readily offered. Various amusements will be provided with music and speaking by prominent men. It is hoped to procure Hon J. W. Bailey to speak on that occasion. Another meeting of the business men will be held on Wednesday night and it is planned that this celebration will be the grandest that has even took place in San Angelo or surrounding towns. The main object of the celebration is to entertain the people of the surrounding country.

AGED VETERAN IS DEAD

WAXAHACHIE, Texas, June 15.—Mr. J. M. Kirk, the aged veteran who was stricken with paralysis Saturday night, mention of which was made in these dispatches, died yesterday afternoon at 3 o'clock. The interment took place at the city cemetery today.

WEATHER FORECAST

Fine crop weather is reported from all over the state, no rain falling at any of the government stations, and clear sunshiny weather prevailing generally. Generally clear weather prevailed this morning and is predicted to continue tonight and Thursday over East Texas.

FORECAST

The forecast for Texas east of the one hundredth meridian, issued at New Orleans, is as follows:

East Texas, tonight and Thursday, generally fair.

WEATHER CONDITIONS

Mr. D. S. Landis issued the following statement of weather conditions this morning:

The two areas of high pressure this morning are well marked, one being over and west of the great lakes and the other over the south Atlantic states. One low is over Southern Arizona, and one is over and west of the Rockies.

Clear conditions prevail in the middle Mississippi valley. No rains of any magnitude are reported. Thunder storms occurred in Ohio, Illinois, Nebraska and Missouri.

Higher temperatures are general throughout the country. Both the wheat and the cotton belts are generally clear.

WEATHER RECORD

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 8 a. m. and rain in inches:

BLOOD POISON

Bone Pains, Itching, Scabby Skin Diseases, Swellings, Carbuncles. Scrofula

Permanently cured by taking Botanic Blood Balm. It destroys the active Poison in the blood. If you have aches and pains in bones, back and joints, Itching Scabby Skin, Blood feels hot or thin; Swollen Glands Risings and Bumps on the Skin, Mucus Patches in Mouth, Sore Throat, or offensive eruptions; Copper-Colored Spots or Rash on Skin, all run-down, or nervous; Ulcers on any part of the body, Hair or Eyebrows falling out, Carbuncles or Boils, take **Botanic Blood Balm, Guaranteed** to cure even the worst and most deep-seated cases where doctors, patent medicines, and hot springs fail. Heals all sores, stops all aches and pains, reduces all swellings, makes blood pure and rich, completely changing the entire body into a clean, healthy condition. B. B. B. has cured to stay cured thousands of cases of Blood Poison even after reaching the last stages.

Old Rheumatism, Catarrh, Eczema are caused by an awful poisoned condition of the Blood. B. B. B. cures Catarrh, stops Hawking and Spitting; cures Rheumatism, with Aches and Pains; heals all Scabs, Scales, Eruptions, Watery Blisters, with Itching and Scratching of Eczema, by giving a pure, healthy blood supply to affected parts.

Cancer Cured

Botanic Blood Balm Cures Cancers of all Kinds, Suppurating Swellings, Eating Sores, Tumors, ugly Ulcers. It kills the Cancer Poison and heals the Sores or worst Cancer perfectly. If you have a presistent Pimple, Wart, Swellings, Shooting, Stinging Pains, take Blood Balm and they will disappear before they develop into Cancer. Many apparently hopeless cases of Cancer cured by taking Botanic Blood Balm.

OUR GUARANTEE.—Take a large bottle of Botanic Blood Balm (B.B.B.) as directed on label, and when the right quantity is taken a cure is certain, sure and lasting. If not cured your money will promptly be refunded without argument.

Botanic Blood Balm (B.B.B.) is Pleasant and safe to take. Thoroughly tested for 30 years. Composed of Pure Botanic Ingredients. Strengthens Weak Kidneys and Stomachs, cures Strengthens Weak Kidneys and Stomachs, cures Dyspepsia. Sold by all Druggists, $1. Per Large Bottle, with complete direction for home cure. Sample Sent Free by writing Blood Balm Co., Atlanta, Ga. Describe your trouble, and special free medical advice, to suit your case, will be sent in sealed letter.

Letters to The Telegram

Editor Telegram:

I was much interested some time back in an article or two by members of the opposite sex, a comment on the frailties and shortcomings of each other. Of course each defended her sex against the aspersions of the other representative. Apropos of said article I want to add a little mite in favor of my down-trodden brother.

At a picnic near the city several ladies engaged in conversation were detailing their grievances against their lords and masters (a misnomer).

Now, as I am an infinitesimal portion of married humanity and as I am the only victim to whose ears said conversation was audible, and as I had to suffer in silence on account of overpowering numbers, therefore I feel that by your charity I might be able to take a long distance shot at the common enemy through The Telegram.

A nice little German fraulein, Mrs. S., opened the ball by asserting that Mr. S. was a very selfish animal and proceeded to prove to her own and her sister sufferer's mind that all the difference between mankind and a porcine rooter is in the number of pedal extremities. Every time the little kaiser woman would clinch a point the balance would applaud and cry out, "just like mine—just like mine!" "Man that is born of woman is of but few days and full of trouble." If that was true, then how do we find it in these Rooseveltian days of strenuosity?

Selfishness is of two kinds—one says all for me alone, the other is a selfishness which says I want all I can get that I may make my loved ones as comfortable as possible and add to their happiness—and to that end many men bend their every effort regardless of mental or physical strain that may sooner or later result in utter collapse. A man who owns a fine race horse that he expects to win money for him would be utterly foolish if he failed to see that his horse had the best of care and attention, in food, in exercise, in comfortable quarters and in everything that might add to his chances of success. Would the horse be a selfish animal for accepting this care when he knew it would help him bring reward to his owner?

One woman says my husband wants the best bed on the place. Another one says my husband always wants hot cakes for his breakfast. Another says my husband says he can't sleep if the children make a noise. Oh, yes, my dear sisters, we are awful selfish. Let us all get in our automobiles, carriages, stanhopes, runabouts, street cars, or even use our nether limbs and take in Fort Worth and see evidence of man's selfishness. View the magnificent homes of our bankers, merchants, lawyers and others who are the backbone of our city. Look again at the small, comfortable homes of our laborers in the every day walks of life. Who built these homes? Why did they build them? Why, my dear sisters, the son of old Father Adam built each domicile and then invited you to come in and share the comfort thereof, and promised you that if you would accept, he would devote 98 per cent of all earnings toward the perpetual maintenance of that home, furnishing it as far as in his power with everything to make life happy for you and your sons and daughters. The other 2 per cent he keeps to get his whiskers trimmed on Saturday night and buy 2-for-5-centers to smoke on Sunday on his back porch. His wife and daughter say his anatomy on the front porch detracts from the otherwise esthetic surroundings. In fact, the old man is a little bit useful, but as an ornament he is not a howling success. Yes, our rich men are the backbone of our city, but the laboring man is the meat on the bone and the two together form a combination that is quite necessary to keep things moving and old selfishness with two hundred million dollars and old selfishness worth five hundred dollars and old selfishness worth only what he can earn by his daily labor are all in the same boat pulling for the same point—happiness for those dependent upon them.

Let the wife of a locomotive fireman go out with him for a trip and see him fight the battleships furnace with coal; let her feel the heat from that miniature hell for her cheeks; let her see the great drops of perspiration upon his brow; let her witness what he goes through with to keep her in comfort and I don't think she would ever again say he was selfish even if he did ask for the last piece of pie and a soft bed when he got home.

And so it is all the way through. We are not perfect. We are full of faults, but we no deny that our selfishness is so great that it overshadows the little good there is in us. In all walks of life we find men laboring hard, denying themselves many comforts and pleasure that those dependent upon them may have more to contribute to their happiness. Now, we do not propose to detract from the worth of our better halves, but only ask that we be not condemned upon a charge that can never be proven. The evidence procurable to offset the charge is at hand. We don't think life worth living without them. They are absolutely necessary to our happiness and well being and we are glad to acknowledge it. We love to tell them how sweet and pretty they are in our sight even though there may be strands of silver in their hair and their eyes have lost the brightness of youth and we always want to be where we can hear their voices, but we don't want to be called old selfishness any more.

P. BROSIUS.

REDUCING WORKING FORCES

NEW YORK, June 14.—Statements made at railroad offices here indicate that the task of cutting down operating expenses has been virtually completed and that the railroads have adjusted themselves to the new conditions brought about by falling off in general business. In the last two months, the Erie company alone reduced its force by 4,500 men but now has called a halt.

GETS A LARGE FORTUNE

NEW YORK, June 15.—At one time a lieutenant in the French army and now a guard on the Brooklyn Rapid Transit train, Desire Bretignere, has been notified by members of his family in France that his father is dead, leaving an estate of which the guard is heir to the extent of $300,000. Bretignere came to New York ten years ago and obtained his first employment as a news agent.

NEW SLEEPER SERVICE

The Cotton Belt last night began the operation of a through sleeper service between Texarkana and Memphis, the train leaving the former point at 9:40 last night, and is scheduled to arrive at Memphis at 7:30 each morning, making the run in little more than seventeen hours.

SPECIAL PARTY TO ST. LOUIS

The Frisco yesterday carried a special party of forty people to St. Louis from Dublin. They went in a special Pullman car, making the first special party out of Fort Worth to the World's Fair.

The Frisco also sent out a party of thirteen from this city, some of whom are going to St. Louis, while others are en route to the northern lake resorts and to Chicago.

H. B. NELL DIES IN AN ACCIDENT

Former Fort Worth Traveling Man Meets Death in a Railroad Wreck

SHERMAN, Texas, June 14.—Mrs. H. B. Nell, who arrived here some days ago for a visit with her mother, Mrs. F. A. Fairchild and family, has received the sad intelligence of the death of her husband in a railroad accident at St. Charles, Mo., on the morning of the 6th, notification having not reached her until after burial. Mrs. Nell, who has been in feeble health for some time, was so prostrated by the news, that it was deemed best for her to remain here, but other relatives residing in Kansas City are investigating the circumstances of the death of her husband who was a prominent commercial traveler, and quite well known throughout this state, having prior to removing to Kansas City, resided in Fort Worth, Dallas and Gainesville, at each of which places he was connected with large firms.

FIFTY per cent better and cheaper than bran—Texas Star Dairy Food.

Mr. Boaz says that the mill will be ready to crush seed by the 15th of October, possibly a little sooner, as the work of installing machinery will be commenced at the earliest possible moment and will be pushed ahead as rapidly as possible.

Speaking of the raw material, Mr. Boaz said today that there would be plenty to keep several other mills constantly running, and that the success of the new Fort Worth mill is practically assured in advance of its completion. He says that the cotton prospects substantiate his opinion. His information from over the cotton districts leads him to the conclusion that the cotton crop this year will be the largest in years.

The location of this mill will bring several large cattle feeders to the vicinity of Fort Worth and steers will be placed on feed here that would otherwise go elsewhere. Mr. Boaz thinks that Fort Worth, with her two mills, will be the means of making this point one of the leading cattle feeding places in the state. At Sweetwater since the operation of the new mill there began, the growth of cattle feeding has been phenomenal. The same thing will result here, according to his opinion.

The Fort Worth deal has progressed to that stage where a man for the position of general manager has already been suggested.

Parties from Atlanta will be here tomorrow or next day to conclude arrangements for the machinery which is to go into the mill.

The Dyspeptics' Dream

The enjoyment of good living is only possible to the man with a healthy stomach. Floyd's Dyspepsia Tablets are a boon to the man who is obliged to live upon "slops" and "infants' food." Variety is the spice of life and a good meal should be a source of enjoyment to everybody. Dyspepsia cannot be cured by pepsin and preparations which simply assist in digesting food.

Floyd's Dyspepsia Tablets contain no pepsin or soda. They DO CURE the disease and make possible the healthy enjoyment of good food.

Take Floyd's Dyspepsia Tablets regularly for a reasonable time and we will return every penny you have spent if you are not cured. Every druggist who sells Floyd's Tablets is authorized to do this.

50 large tablets, very pleasant to the taste, for 50c. Write us a postal for a two days' treatment. We mail it free.

ELKS TO PLAY A GAME OF BALL HERE

Dallas and Fort Worth Members of the Order to Contest Third Game of a Series

Tomorrow afternoon at Haines park the Dallas and Fort Worth Elks will line up in the deciding game of their baseball series, which promises to be the most warmly contested of the set.

In the first game of the series the Dallas Elks went down before the local aggregation to the tune of 10 to 8. In the next game they treated Fort Worth to a similar drubbing, just to let them know how it felt, winning by an identical score.

Although the teams thus seem evenly matched, Fort Worth is confident of carrying off the rubber, and even predictions of a shutout are being made among the enthusiasts.

This morning Captain Samuels of the Dallas team notified the local team of the Dallas line up for the game, which will be as follows: Gray, left field; Perry, third base; Stanage, pitcher; Pittman, second base; Samuels, first base; Cameron, short stop; Van Eaton, center field; Simon, catcher; Brooks, right field. Barton is down as an additional pitcher.

The line up of the Fort Worth team will be: Littlejohn, second base; Frazeur, third base; Hudson, first base; Elkins, left field; May, center field; Phillips, catcher; McKinney, right field; Cheatham, short stop; Smissen, pitcher.

SPORTING NOTES

DALLAS, June 15.—In the eleventh inning yesterday the Fort Worth Panthers as a result of the poor throw of Hunter won the game against the locals today by a score of 2 to 1. Hunter, who is a pitcher, was forced to catch for Dallas simply because they did not have any other man.

Jackson in the box for Fort Worth held down the slab well, allowing only eight scattering hits.

The feature of the game was the star fielding work of Sullivan. One catch he made after chasing the ball back to the fence was truly remarkable. Score:

FORT WORTH.

HOW HE WENT GUNNING

[Original.]

A belle usually becomes such rather on account of her talent for "social politics," to use a coined expression, than her beauty. Irene Whittemore of New York was not only an adept in those artificial ways which go to make a woman a social success, but she was a very beautiful woman. Her smile was irresistible, especially as it showed a superb set of teeth. Many a woman, obliged to repress her own smile rather than reveal discolored or repaired teeth, envied Miss Whittemore her thorough abandonment to mirth, which revealed an additional beauty.

Miss Whittemore, being comparatively poor, had no choice between abandoning society and marrying a rich man. Anderson Asche, possessed of $50,000 a year, fell in love with her, was accepted, and they were married.

All went well till one autumn day shortly before Mr. Asche was about to go gunning for woodcock a note which his wife had neglected to send lay unsealed on her dressing case. It was addressed to a Dr. Bachrach, whose name the husband had never heard his wife mention, the family physician being Dr. Fairchild. Asche became suspicious and, slipping the letter from the envelope, read:

My husband goes to his shooting club on Thursday. Come Friday afternoon at 3 o'clock. I will watch for you and let you in. Remember that any slip would ruin me.

As there was no street and number on the envelope, Asche concluded that his wife intended sending it by confidential messenger. Putting the note back into its envelope, he replaced it on the dressing case and left the room. Thinking that his wife might desire the services of a physician without his knowledge, he looked through a directory and discovered that there was no Dr. Bachrach in the city. Then he gave up all hope as to the innocence of the assignation.

"I have decided," he said to his wife that evening at dinner, "not to go shooting till Friday afternoon."

"Indeed?" said his wife carelessly.

"And if I don't find the game in abundance I shall return Saturday morning. I can find out all about it as soon as I get to the club. If there is anything you wish to do without me, you had better attend to it on Friday night."

"There is no social matter that I think of. I shall take advantage of your absence to get a good rest."

Asche expected that his wife would change her assignation to Friday night, and he was not disappointed. When Dr. Bachrach stepped from a carriage before the Asche residence, Mr. Asche was on the opposite side of the street watching for him. A friend whom the injured husband had taken into his confidence stepped up to Dr. Bachrach and informed him that Mrs. Asche desired the doctor to submit himself to his guidance and he would take him to a place where she awaited him and where she could receive him with less risk. Without waiting for Dr. Bachrach's consent, the friend pushed him into another carriage, got in himself, and the coachman, who had been previously instructed, drove away. Asche preceded them in another carriage.

In a few miuutes Asche's carriage stopped at a house, which he entered, and directly afterward the friend and Dr. Bachrach entered after him. When the two latter stepped into a room on the second floor, Asche was standing before a fireplace ready to receive them. There was a look on his face that meant death, and Dr. Bachrach saw at once that he had been trapped.

"Sir," said Asche, "my wife's correspondence with you has fallen into my hands. You have wrecked my life. Either you or I shall not go out of this room alive."

"What"—

"Silence! You shall have the same chance for your life as I. You shall be represented by a friend."

"But"—

"Silence, I say! There are writing materials in that secretary. Go there and write to a friend simply that you desire him to come to you at once, and I will see that your note is delivered."

"Will you"—

"Do as I bid you," thundered Asche, "and do not tempt me to kill you in a way that will be considered murder."

"If you will only listen. If"—

"I will not listen. Write for your friend. Then we will settle which, if either, of us is to live."

Asche stood pointing to the desk, and Bachrach, despairing of a hearing, went there and wrote something on a piece of paper.

"Examine it, Higbee," said Asche. "Remember, he shall write nothing but a simple request for a friend to come to him."

Higbee took the paper and read it. A singular expression stole over his face.

"Well," queried Asche, "what is it?"

"A fool blunder."

"What do you mean?"

Higbee handed him the paper

I am a Philadelphia dentist and made an appointment with Mrs. Asche to replace her teeth, which I made her some years ago, with a new set. I have always heard New York is a wicked city, but I didn't expect to be murdered here.

Asche looked up from the paper to see the dentist standing in a humble, appealing position before him, terror written on every line of his face, holding forth a dainty box, in which rested a set of false teeth.

"Get out!" yelled Asche, and the dentist beat a retreat, missing his footing in his haste and tumbling downstairs.

The story got out. Mrs. Asche retired from social leadership, and Dr. Bachrach received so many orders from Gotham society magnates that he left Philadelphia and settled in New York.

AUSTEN ALLEN KINGSLEY.

FREE TRIP TO THE WORLD'S FAIR

The I. Mayer Liquor House, 1210 Main Street

will present a round-trip ticket to the World's Fair, at St. Louis, to some one of its patrons on July 15. With every package bought, the purchaser is given one ticket free for each 25 cents expended. 25 cent package, one ticket; 50-cent package, two tickets, and so on. All tickets are numbered. The holder of the lucky number will get the free round-trip to St. Louis.

To insure absolute fairness, a duplicate of each ticket given away will be deposited in a sealed box at the time of purchase. On July 15 a disinterested committee will publicly open the box and draw out a ticket. The holder of this number will get the trip to the World's Fair.

THE I. MAYER LIQUOR HOUSE

The Great Mail Order House.....Texas' Greatest Liquor House. 1210 MAIN STREET, FORT WORTH.

THE WORLD WITH A FENCE AROUND IT

Land and Sea Have Contributed to the St. Louis World's Fair

Many Telegram readers have toured Europe, perhaps, have even made the trip around the world; but the purse of a millionaire, and the days of a Methusala will not suffice for a visit to all the interesting places in the world; no one man can see it all.

However, the seemingly impossible comes very near accomplishment through the medium of the Louisiana Purchase Exposition, which is indeed "the world in miniature."

Here one can see at a moderate expense of time and money what would cost thousands of dollars and years of time to seek out by the usual methods of travel and exploration.

You will find at the great St. Louis World's Fair the best work of the artists and sculptors of every nation; you will gaze upon pictures and statuary more beautiful even than the imagination can picture; you will note the latest inventions and discoveries of mankind in every branch of industry, you will see exemplified all the up-to-date processes of manufacture, you will stand face to face with natives of almost every country in the world, many of them living in villages which are exact reproductions of the ones they have left behind them; you will see growing fruit and flowers and forests; you will gaze upon birds and beasts and insects of every species; you will become acquainted with the best handwork, the best achievments, of all peoples.

But what we particularly wish to impress upon our readers is the fact that all this miniature world is pictured and told about in "The Forest City" World's Fair Art Portfolios. All things most worthy of preservation, the best in every department; the sculpture, the peoples, the striking events, are all reproduced in the highest style of photographic art.

Visit the fair if you can, but if you can not, the next best thing is this superb art series, which in its entirety forms a complete pictorial and descriptive history of the great event, and is worthy of a place in any library.

If you do not visit the fair you will find the "Forest City" series indispensable; if you do you will find it invaluable as a souvenir and record of the most marvelous spectacle of modern times.

The coupon printed in our colmums from day to day and 10 cents, to cover the cost of handling, wrapping, mailing and addressing, brings you any part issued. Get the back numbers at once and hereafter keep up with the procession. No progressive, intelligent American can afford to be without "The Forest City" series.

The views are all taken especially for this work by the official photographer of the exposition, and the descriptive matter, which is characteristic, comprehensive and concise, is all written by Walter B. Stevens, the eminent journalist, who was made secretary of the exposition. The publication is thus doubly official.

Prescription No. 2851 by Elmer & Amend, will not cure all complaints, but it will cure rheumatism.

Quit Claim Deed—Thomas Bratton to H. G. Bedford, southeast quarter block 22, town of Mansfield.

NO OPPOSITION TO LEUT. GOV. NEAL

AUSTIN, Texas, June 14.—Lieutenant Governor Neal of Navasota is here today on private business. So far, he says, no opposition to his re-election has developed.

Sid Brown, who was stabbed fifteen times near Dell Valle yesterday, is in the city hospital here and in a critical condition. The assailant is in the county jail.

Superintendent McDowell of Dallas is authority for the statement that track laying of the Katy into Austin will be finished tonight.

NAN PATTERSON PLEADS NOT GUILTY

NEW YORK, June 14.—Mrs. Nan Patterson, the former actress who was indicted for the murder of Bookmaker Young, today entered a plea of not guilty with leave to withdraw by next Friday. The prisoner entered the court dressed in black, with a jaunty air.

Fifty per cent better and cheaper than bran—Texas Star Dairy Food.

HUFF BOY'S LONG TRIP

WACO, Texas, June 14.—A little boy just 3 years old, the son of Mr. and Mrs. Tasso D. Huff, is the hero of a trip which was certainly a long one for so young a chid. He had been promised a visit to the coutry, the objective point being the place of Mr. Sligh, some three miles out. Childish impatience could not bide the time, however, and he concluded to go alone, which he did, arriving safely. Naturally, his mother was almost distracted with fear until she found where he was. The little fellow did not seem to think he had made much of a trip. Mr. Huff is in Fort Worth on business.

THE ARKANSAS DEMOCRATS

HOT SPRINGS, Ark., June 14.—The democratic convention meets this afternoon. The headquarters of Governor Davis and Senator Clark were thronged with delegates all morning. The state ticket will be named by Governor Davis. The governor's followers announce the intention to defeat Senator Berry's delegates at large to St. Louis. The result of this will depend largely on the attitude of Senator Clark.

ADVANCE GUARD IN CHICAGO

CHICAGO, June 14.—The incoming train brought large numbers of republicans, the national advance guard to Chicago today. The leaders settled down to the discussion of two disputed topics which will occupy the convention chairman of the national committee and the vice presidency.

VERDICT FOR MILLION

NEW YORK, June 14.—A verdict for a million dollars was given Morris Meigs against General Louis Fitzgerald for services rendered in bringing about the sale of the Western Maryland railroad to a syndicate.

STOCK TRAINS MOVING

DENISON, Texas, June 14.—For the first time the Katy stock yards are unable to accommodate the shipments which arrived here last Saturday and Sunday. Stock trains are now going through without much delay.

HOME, SWEET HOME!

NO LANDLORDS! NO RENTAL AGENTS!

WE have exclusive control of about thirty nice new four and five-room cottages that we can sell at bargain prices and on such easy terms that any one earning moderate wages or having income enough to pay rent CAN OWN A HOME.

WHY not pay rent to yourself? Our monthly payments are about the same as rent.

DO you not owe it to your family to take the money that you are being separated from forever and put it where it will come back to you and your loved ones?

IF you wait till you can pay all cash for a home, are not the chances good that old age will find you renting, while your neighbors with small payments will have a home paid for?

IF you have not yourself done so, you doubtless know friends and acquaintances that have paid enough in the last five or ten years in rents to have paid for a nice comfortable little home.

LET us explain our terms and show you this property.

GET A HOME NOW.

GILLILAND & HARWOOD

Basement Ft. Worth National Bank Building Phones 1786

CLOTHES FOR ACTIVE MEN

Copyright 1904 by Hart Schaffner & Marx

The harder you are on clothes the more reason for being sure they're Hart Schaffner & Marx Clothes.

Notice in our illustration the double-breasted Varsity, the three button single-breasted Varsity and the three button regular sack suits; all Hart Schaffner & Marx make.

These clothes are not only made to look well; but they're made for wear. And as long as they wear they look well. You will find them the most economical clothes you ever had both for the service they'll give you and for the satisfaction in appearances you will get.

We can satisfy any man with our clothes; we're here to do it for you.

NEW COTTON OIL MILL TO BE LOCATED IN THIS TOWN

Old Stove Foundry Property West of This City Has Been Purchased and Machinery Being Ordered for the Plant. Will Be Ready to Handle the Next Crop of Seed—Good Men in the Concern

Another cotton seed mill for Fort Worth.

This is the result of a deal which was closed in Fort Worth yesterday, after a pendency of several months. Particulars of the move have been known to only a few persons who are to be connected with the enterprise. The work of arranging the preliminaries has been under way some time, and it was only yesterday that the scheme had progressed far enough to permit being made public. The enterprise has been projected by David Boaz with the assistance of several of the leading financiers and bankers of Fort Worth, which fact is a sufficient guarantee that the mill will be established and that in the very near future.

The contract for a location was closed yesterday by Mr. Boaz and part of the consideration paid. The company has secured from Dallas parties the old stove foundry property which consists of brick buildings and four acres of land located just west of Fort Worth a couple of miles.

The buildings were inspected about a month ago by a party of Atlanta oil mill men, who are to be connected with the new Fort Worth company with the object in view to determine whether the buildings, etc., were desirable and suitable for a mill. The report made by these gentlemen settled the question and the deal was instantly closed by Mr. Boaz for the property.

The buildings are located on the Texas and Pacific railroad company's lines and switches around and through the buildings are already in, so that this fact makes the property more desirable for a cotton seed mill. The switches that run into the buildings and around them will facilitate the business of the mill and do away with the additional expense of making such improvements.

Discussing the project, Mr. Boaz said this morning that active work of putting the property in shape for mill purposes will commence within the next thirty days, and will be pushed as fast as possible in an effort to have the mill in operation by the middle of next October.

Already negotiations are under way for the machinery. In fact, a well-known mill machinery firm has sent a representative to Fort Worth to look over the field and ascertain just what is required by the company.

The capacity of the mill will be eighty tons to begin with, but Mr. Boaz says that the property is constructed in such a manner as to admit of additional machinery to convert it into a 120-ton mill. To begin with the mill will have four presses, but should the necessity demand two other presses will be added.

The stock of the company to begin with will be $60,000, about one-half of which has already been subscribed. Among the stockholders are some of the best citizens and monied men of Fort Worth, Kansas City, Atlanta and other points in this state. One of the gentlemen to be connected with the enterprise is T. J. Walsch, chief engineer of the Kansas City, Mexico and Orient railroad company, who will be here in a few days to look over the situation and make a large investment in the enterprise.

One party at Atlanta, Ga., has already taken stock to the amount of $5,000, and several Fort Worth people have subscribed for from $2,000 to $5,000 of the stock. Mr. Boaz is sanguine over the outlook and says that there is no possible way for the enterprise to fail of accomplishment.

Burnett's Vanilla Extract has outlived criticism. It is the finest and purest vanilla extract that can be bought. Once tried, always used.

WASHINGTON FORECAST

LIST OF THOSE AT SUMMER NORMAL

Over Forty Teachers Are Enrolled in School Being Held at Polytechnic College

The Tarrant county summer normal which began at the Polytechnic college yesterday morning is receiving enthusiastic patronage.

This morning over forty pupils were enrolled and there were several late arrivals who had not given their names. J. F. Sigler, treasurer of the normal, said that they expect to double the number of pupils before the term is over, making about eighty students in all.

Though the summer course extends over only a period of six weeks, a thorough teacher's training can be acquired at this summer institution and examinations for teachers' certificates are held on July 26, 27 and 28.

It is the purpose of the Tarrant county summer normal to broaden the scholarship of all who attend, to arouse professional enthusiasm in the teachers of the county and state, and to furnish opportunity for review to all persons desiring to take the summer normal examination.

The following pupils are enrolled at present:

Hattie Keller, Mamie Richardson, Allene McCarver, Edna Lovejoy, Belinda Clifford, Sophia Baer, Anne Hoeflein, Florence Roberts, May Hammon, Sibyl Akers, Jennie Snyder, Olive Goodfellow, Mamie Yates, Lottie Bradford, Siddie Stark, Lilian Meleah, Grace Burkett, Minnie Blackmore, W. J. Leslie, J. O. Fair, Miss H. Tucker, Essie Lipscomb, Mamie Loggins, D. D. Grisso, J. H. Martin, Alice Angel, Ora Angel, T. M. Bransford, J. H. Gibson, C. C. Bransford, C. Grimes, Marie Frost, Alma Black, Mamie Shine, Mamie Ozel, Minnie Ozel, Vera Roll and Josephine McMahan.

MAIL CLERKS PROUD OF THE BALL TEAM

They Played a Good Game of Ball Yesterday and Won It Handily

There was a game of ball yesterday afternoon between the railway mail clerks and the employes of the Texas and Pacific railway, which resulted in a victory for the clerks by a score of 5 to 0.

The mail clerks are very proud of their organization. The playing in this game was practically without errors on their part, and the features were many. E. Davis at second base made a great record in fielding, taking six chances without an error. Sullivan pitched a fine game, striking out eleven men, allowing no bases on balls and allowed the opposing team but two hits. The game was very fast. The batteries were D. Sullivan and Wray for the mail clerks, and McMurray, Gaskell and Niess for the Texas and Pacific.

The history of Iceland for 1,000 years records but two thefts.

REV. ABE MULKEY SAYS STINGY CROWD

He Believes Ice Cream Social Could Raise More Than 4,000 People Gave

TALKS OF THE MODELS

Tells Mothers to Keep Their Daughters Away From the Social Dance

Rev. Abe Mulkey evidently did not get milk, eggs or chicken from the good sisters of the church, of which he spoke yesterday, as he made no reference this morning to the receipt of such delightful presents, but on the other hand he made special reference to the "stinginess" of the crowd which attended the service the night before.

The "Model Neighbor," the "Model Father," and the "Model Mother" were the three subjects which Abe Mulkey took as the foundation of his sermon this morning.

"Being a good neighbor," said the evangelist, "is one of the best things a man can do. God wants us to be neighborly, to help those who live around us, to administer to their wants both physically and religiously.

"To borrow and lend," said the evangelist, "is to me one of the grandest things on earth. How I remember my mother sending me as a boy to the neighbor's house for coffee or sugar when our supply ran out. Ah! friends, that is obeying God's word, keep in touch with those around you and let no one suffer. You can not be a Christian unless you love those next door. I remember we used to have a cistern in our yard, and in a time of drouth people came from all over to get water. One morning Louisa, my wife, came to me and said: 'Abe, we'd better look out or we won't have any water in our cistern; there's a man out there now watering his cow.'

"'Bless God,' said I, 'I hope the old cow drinks a barrel for God knows the more we give the more we shall inherit.'"

The "Model Father" was next taken up by Rev. Mulkey and parents in the audience as well as in general received a good raking over. The evangelist dwelt on a man's duty to his children, the importance of bringing them up in the right path and setting the proper example.

"Some fathers," said the evangelist, "provide money for their sons, look after their physical wants, but let their souls go to hell. Just look at the young men we see at Sunday baseball games, in gambling hells and in dives of the lowest sort. The fathers are responsible for this. It is their sin for they should exert the proper home influence over their sons."

In conclusion, Rev. Mulkey spoke of a mother's duty to her daughter. "Ah! my sisters," said he, "look after your daughters; keep them away from the dance and other frivolous amusements. A society woman in Dallas came up to me and in her airy, haughty way, said: 'Mr. Mulkey, do you think it is wrong for my daughter to dance?' She used the broad A (she'd learned it up north) as if she had a mouth full of mush. Ah! these society women who wear these silk mother hubbards and call supper 'dinner.' A lady asked me if I would stay to 'dinner' with her at 6 o'clock. 'God bless my soul,' says I, 'if you have dinner at 6, what time do you eat supper.'

"Stick to your old southern raisin', friends. Don't copy from the Yankees. They may be all right, but retain your identity and don't go back on your southern blood."

In ending the evangelist beseeched the parents to bring their children up in the way of God and to make them go to church.

The usual prayer and song were had at the end of the meeting, during which scores of penitents shook the preacher's hand and asked for salvation.

A STINGY CROWD

During his talk Rev. Mulkey said: "God bless my soul, this is the stingiest crowd, except Waco, that I ever preached to. Why, last night they say there were 4,000 people, but bless my soul we hardly raised $5. I'll bet a stinkin' little ice cream festival would raise more money and I know the men spend more at one baseball game than they do here in a week."

"FEWER GALLONS; WEARS LONGER"

The secret is out and Fort Worth can go on living just as if the riddle had never been asked.

No, it can't either. Fort Worth is not going to be what it was before. Its houses are going to be brighter, its people a little more prosperous—they are going to have some of their money left to buy other things with.

The answer to the riddle is this: You can paint a building with fewer gallons of Devoe Lead and Zinc paint than with mixed paints, and it will wear several times as long as a building painted with lead and oil mixed by hand.

There's proof abundant of it all over the United States. There will soon be proof abundant of it in Fort Worth.

What will people do with the rest of their money? Brown & Vera are agents for this paint.

WANTS PARDON FOR THOUGHTLESS BOY

A Dublin Lawyer Intercedes With the Board for a Young Man of Eastland County

AUSTIN, Texas, June 15.—Will S. Payne, a prominent young attorney of Dublin, came to Austin today to intercede with the governor and pardon board for the pardon of a youth who was convicted in Eastland county, December 23, 1903, and sentenced to two years' confinement in the state reformatory at Gatesville.

The boy, he said, belongs to a most excellent family and violated the law in a moment of thoughtlessness with no wanton intention to commit a crime. His punishment has been ample and the people of that section as a rule would like to see him liberated.

Dublin, Mr. Payne said, is enjoying a period of growth unexcelled at any time in its history. A number of elegant business houses are being erected and handsome private residences are going up in every part of the town.

Candidates for county offices are numerous, he said, notwithstanding which fact the people are pushing their business interest and are listless and in different on the subject of national, state or county politics.

STATE CAPITOL ZOO

The alligator presented to the state by Colonel I. P. Lockridge, Austin agent of the Pacific Express Company, and placed in the artificial lake on the capitol campus by Superintendent Gilbert, expired today after lingering for several days in a comatose state.

These reptiles flourish in muddy, warm water, in a warm climate, and its death is thought to be due to the coldness of the water in the lake.

The squirrels on the campus seem to be contented and happy and very much at home in the big oak trees.

STERLING STRONG GETS GOCD NEWS

Information has been received at the campaign headquarters of Hon. Sterling P. Strong in this city that in Clay, Hale and Montague counties, strong resolutions were adopted in the county conventions endorsing his candidacy for state treasurer, the vote being unanimous in each instance. This would seem to indicate that Northwest Texas will be practically solid for Mr. Strong.

MOORE TO BUILD TWO NEW HOUSES

Building permits have been issued to Strain & Mitchell to erect a single story house on Calhoun street between Twelfth and Thirteenth streets at a cost of $1,400, and to J. F. Moore to build a store room and rooming house between Eleventh and Twelfth on Rusk at a cost of $2,500.

ROOMS ENGAGED FOR JUDGE PARKER

NEW YORK, June 15.—It is reported in political circles here, says the Times, that a sute of rooms has been engaged at a leading St. Louis hotel for Chief Judge Alton B. Parker during the democratic national convention. The report that he will go to St. Louis is not confirmed, however, and his friends discredit the story.

DENISON LABOR TROUBLE

DENISON, Texas, June 14.—The Baitey Dry Goods Company, recognized as the leading trading market by the labor organizations, will put in another large store. The new store will carry a full line of clothing, gents' furnishing goods, etc. It is intended to put in a grocery establishment this fall, at least that is what a labor leader disclosed.

The leading merchants state that the boycott has in no way affected their business, that it is better than last year at this time.

Corn and oats, good-bye. Texas Star Dairy Food takes your place.

FORT WORTH TRAIN IS DITCHED NEAR WAXAHACHIE

Packing House Special Going to Dallas Is Wrecked, and Cattle, Horses and Mules Are Killed

WAXAHACHIE, Texas, June 15.—The Houston and Texas central packing house special from Fort Worth to Galveston was wrecked this morning four miles east of Waxahachie. Seven cars were ditched, some almost totally demolished. Three cars of cattle and one car of mules were in the train. Five mules and eight or ten head of cattle were killed. The cattle which escaped the wreck are scattered over the country, and are now being bunched. All passenger trains between Waxahachie and Ennis are annulled for today.

BOLL WEEVILS ARE NUMEROUS THERE

WACO, Texas, June 15.—Sidney Bolding, living north of Waco and a short distance from the Country Club, relates a startling result to an examination for boll weevils, made on a good-sized stalk of cotton n that section. He says that he examined the stalk carefully, all over and picked off by actual count a hundred and seventeen of the dread weevils. Many think that the weevil is here in greater numbers than ever before, but argue that by improved cultural methods, quick maturing cotton and whatever modes of destruction may be adopted, the pest can be mitigated somewhat. It is further thought that even with a modest cotton crop this country will be in good condition if the small grain can be saved and a heavy corn crop made, as the corn crop especially means cheap horse feed and fat stock, fat hogs and plenty of meat, fat turkeys, chickens, cheap food for the poorer classes, etc.

STOCK SHIPMENTS BREAK THE RECORD

DENISON, Texas, June 14.—The cattle shipments at this point for the past two days has broken the record. Katy Stock Agent Frame states that over 600 carloads has passed through, nearly all consigned to the National Stock Yards, East St. Louis.

DENISON, Texas, June 14.—The Telegram correspondent was wrong in stating that Mr. Nimon averaged 75 cents per bushel on his Irish potatoes. He has sold hundreds of bushels at $1.00 per bushel, and never a cent less. They are the early Michigan, as large as the Greely (Colo.) potatoes. They are a beautiful white, very firm and mealy.
