The two cars pictured above were totally smashed after the drivers attempted to navigate a sharp corner on a farm to market road here Sunday. A passenger who was in the Buick is in serious condition in a Galveston hospital.

"EQUAL TO NEW INDUSTRY"

Rural Loan Program Said
To Stimulate Economy

A home on the A. Baumann farm, just south of Lorraine, has recently been completed. It was financed through the Farmers Home Administration's Rural Housing Loan Program, according to John M. Russell, of the local office.

He said the home was financed under a current loan with them. The loans have a 4 percent interest, and are available to eligible farm and urban families, he said.

The loans are available to urban families in towns having a population of 2,500 or less, or to rural families, who cannot finance homes, or other buildings through conventional sources, Russell said.

The loan program was started in Texas twelve years ago. He said "The records show the success of the program. Up to December 31, 1961, 2,700 loans have been made and not one penny has been lost or written off as uncollectible."

Russell added that "More than \$20,400,000 has been advanced in Texas in rural housing loans, and the principal and interest payments made total over \$8,000,000. Over 25 percent of these loans have been paid in full. He added that payments of principal and interest total 101 percent of the amount that has become due."

Local Store
Managers Are
Promoted

The managers of two Colorado City department stores have been promoted as managers of larger stores elsewhere.

Don Ridley, a manager of Penney's who was the new manager at their Gainesville store.

Ronnie Norrell, present manager of Anthony's will be transferred to their store at Vernon.

Ridley, who has been with Penney's for 20 years, came here 4 years ago from San Antonio.

Colorado City Had First
Inter-City Bus SystemBY PAT BARRY
Record Staff Writer

Not many people remember it, but the first inter-city bus line in Texas was between Colorado City and Snyder.

According to Leonard G. Simon, general traffic manager of Continental Bus System, the line was also probably the first in the United States.

In an article which he wrote for Bus Transportation magazine, Simon, a former resident of Colorado City, said the first schedule was opened on October 29, 1907.

The bus line was established by W. B. Chenoweth, who designed the six-cylinder engine for the bus. The engine was built only one year after Charles and Frank Duryea invented the first practical six-cylinder engine.

According to Simon, Chenoweth's engine plans were on the "drawing board" prior to Duryea's. Chenoweth apparently never knew that the Duryea brothers were working on a similar engine.

Chenoweth received the first auto license ever issued in Texas. It was No. 1, issued him July 12, 1907.

He stepped up activity in turn stimulates the entire rural economy."

He said the approximate \$4,800,000 the FHA in Texas will make available this year will be the equivalent of several new industries in terms of new jobs and greater purchasing power.

FOUR MEN FINED

One Man Injured
In Racing Mishap

Two cars failed to make a curve Sunday, north of the J. C. Costin residence on Farm to Market Road 1229. One man is still in serious condition at a Galveston hospital.

Both vehicles were going north and were about four and 6/10 miles northwest of Colorado City when the Buick automobile tried to pass the Chevrolet on a curve.

Officers said the drivers were racing. As the Buick attempted to pass the Chevrolet, it missed the curve, hit a dirt road, and turned over. The Chevrolet also failed to make the curve, ran off the highway on the right hand

side and also turned over. The 1959 Chevrolet Impala was driven by Cornelio Espinoza of Route 1, city. The other car, a 1956 Buick, was driven by Ennis Gutierrez of Star Route, City.

Highway patrolman Buddy Hertenberger said the Chevrolet turned over once, the Buick 2 1/2 times. Both cars were totally demolished.

Alberto Rodriguez, a passenger in the Buick, was critically injured. He was transferred Tuesday from Root Memorial Hospital to a Galveston hospital for treatment.

Passengers in the Chevrolet were Ben Garcia of Colo-

rado City and Louis Duque of Tarzan, Tex. All victims, except Rodriguez, were treated for bruises at Root Memorial Hospital, and released.

Ennis Gutierrez, charged with driving while intoxicated, entered a plea of guilty in County Court Tuesday. County Judge Elmer Martin assessed him a fine of \$100 plus court cost and 30 days in jail.

Cornelio Espinoza, driver of the Chevrolet, was fined \$40.50 in Justice Court by Justice of the Peace T. E. Arnold when he pleaded guilty to the charge of speeding.

Also fined in Justice Court were Louis Duque and Ben Garcia. Duque, charged with drunkenness was assessed a fine of \$40.50 and Ben Garcia, charged with being intoxicated in a public place, paid a fine of \$125. This was Garcia's third offense, according to Justice of the Peace Arnold.

12-MONTH JOB

School Work—
Is Never DoneBY JANE DORRIS
Record Staff Writer

You may believe that operation of school is a nine month process. Perhaps you are under the impression that all work and study has ceased and all personnel, as well as students, are pausing for a long and leisurely vacation.

But, curriculum must be planned, buildings and grounds have to be maintained, equipment needs repairing, supplies must be ordered and teachers must be hired.

The Colorado Record, beginning with this introduction, will feature a series of articles on schools, attempting to explain what they do during the summer.

Although the regular session of school "is" completed

in nine months, much of the school's operation is a 12 month process. The school system is a continuous one, overlapping one year's completion with the beginning of the next.

Perhaps the series of articles to appear within the next few weeks will give a more comprehensive overall insight of the schools and how they operate during the summer months.

This is the article of introduction. The second will concern the duties and responsibilities of the board of education as a policy determining body.

The third article will review system-wide administration, which is responsible for supervision of all activities in the school system under the direction of the superintendent and his staff.

Fourth, will be the administration of the Tax Office, in which its basic responsibilities may be examined and given some elaboration.

It will delve into its duties of collecting and assessing school taxes, receiving all local school money, and dispersing it, as directed by the board of education.

The fifth article will deal with the local chamber of com-

Farm Tour Planned
By Chamber, SCS

The board of supervisors of the Mitchell County Soil Conservation District met Tuesday at the local office. It was their regular meeting.

They discussed water shed programs and some temporary and permanent treatment of the Lone Wolf Water Shed. They also planned to purchase equipment for seeding high residue crops such as sorghum and peas in the blanks between planted rows.

There was also a discussion of the annual meeting of the Texas Association of Soil Conservation Districts in Lubbock, which is presently scheduled for January 1963.

A. W. Dalrymple, of the State Conservation Board in Lubbock, was at the meeting. He works with Soil Conservation Districts over the western third of the state.

He discussed the rewriting of the program and the plan of work of local district and outlined procedures in the water shed program.

Residential Surveys
Planned for Fall

The Colorado City Volunteer Fire Department is conducting a survey of Colorado City businesses this month, according to Don Benson, fire chief. The decision was made at the fire department's bi-monthly meeting, he said.

The purpose of the survey, he indicated, will be to orient the members of the fire department to the various business buildings in town.

Fire department members will cover approximately 120 businesses during this month from the river on the west side of town to the old Round top cafe.

Benson said that the members will gather such information as the type of building—brick, stucco, frame, wall thicknesses, distance to nearest fire plug, number of floors, and materials stored in the building.

They will also draw sketches of the interiors of each building, showing exits, gas and electric cut-offs and extinguisher locations.

Benson said that the survey

is not intended to make corrections of any deficiencies in buildings, but to keep the fire department fully informed of conditions in local business buildings. This will enable firemen to provide more rapid and efficient service in cases of emergency.

Since members of the fire department are not employed on a fulltime basis, they will not be able to conduct a survey en masse but will attempt to conduct the survey at their convenience, Benson said.

The fire chief said that the information will be made up into a notebook which will be kept at the department, available for the fire truck drivers in case of fire at a business.

Virgil Eaton, city marshal, will survey county and city municipal buildings this month. He will gather the same information as the fire department members.

"We're thinking in terms of a door-to-door residential survey, which will probably be conducted in the fall," Benson stated. He said no attempt would be made to keep a file comparable to the business records, because it would be too cumbersome.

However, home owners will be requested to keep an information sheet for their own benefit, he said.

"The present survey will not cover some 40 or 50 businesses on the east side of town, but we hope to have completed the survey there by the end of August."

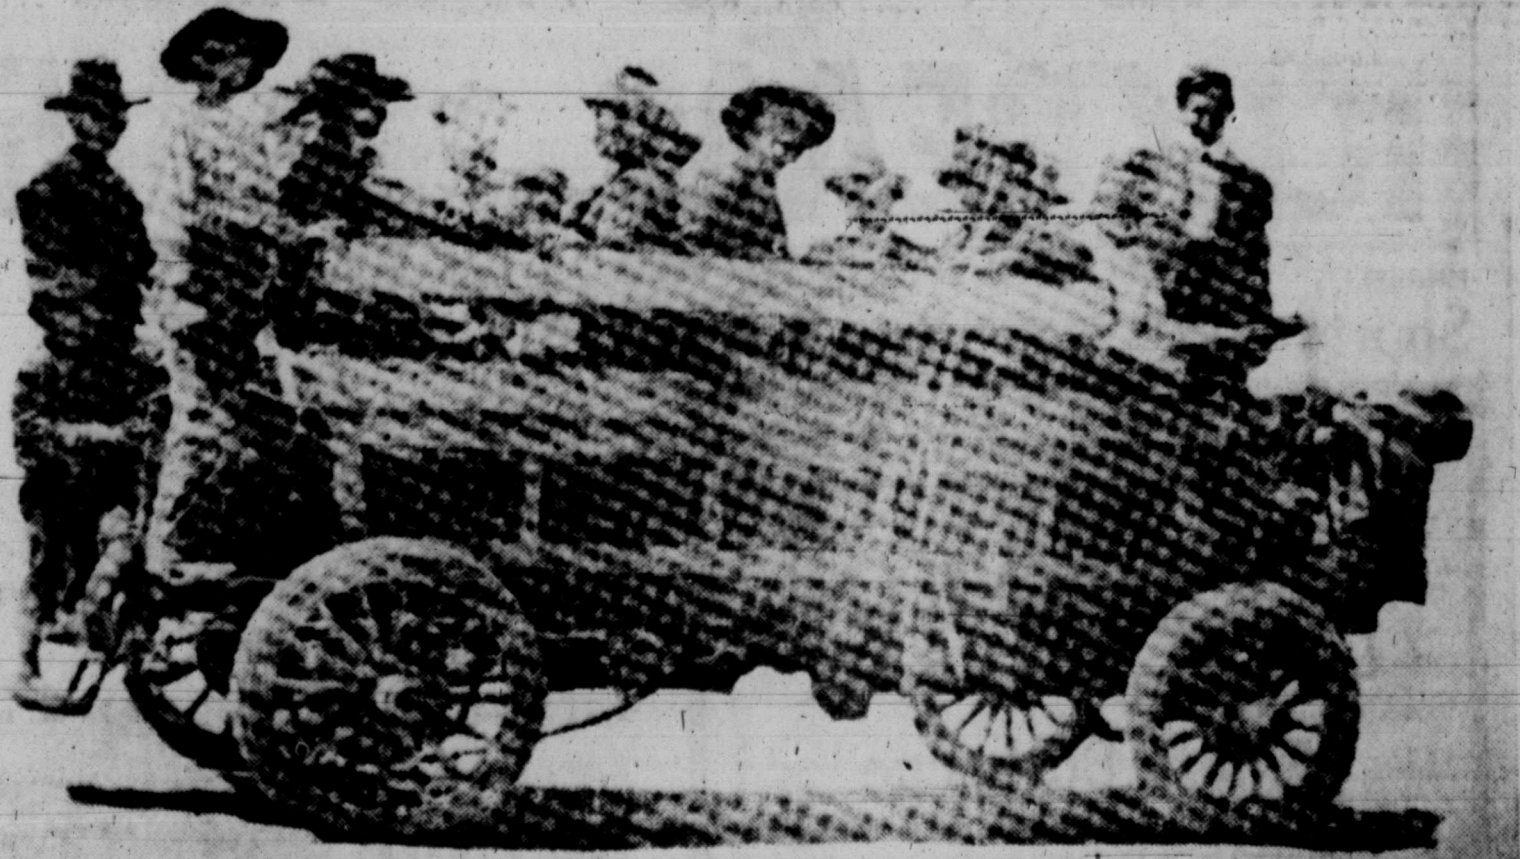

See SURVEY Pg. 7

Three Fires
Here on '4th'

Independence Day brought three fires to Colorado City. Fortunately, all were of a minor nature. At 11:30 Wednesday morning, the fire department put out a fire in some cardboard boxes at a residence in the 2100 block of Locust St.

The second fire was a grass fire on the railroad tracks west of highway 208. The fire, according to firemen, was probably caused by a passing train which threw off sparks.

The other fire was at the Lone Wolf Drive-In Theatre. The fire was out when the department engine arrived. Some of the aerial bombs which were to be used in the theatre's display went off prematurely. No damage was caused, and no one was injured.

First Bus

The first bus in Texas, of the inter-city type, is pictured above. The bus ran from Colorado City to Snyder. The service began in 1907, but was stopped for fear that the contraption would blow itself up.

HOME TOWN

Talk

By PEGGY BELVIN

THE MINDS OF LITTLE BOYS are filled with wild west adventures, cowboy and Indian escapades and he-man activities. Our favorite young man, **HOBIE BRITT LEE**, can come up with some pretty windy tales out of his imagination.

Hobie is the 4-year-old son of Mr. and Mrs. H. P. LEE, 898 E. 7th St.

One day Hobie told a passer-by that he had just killed a dinosaur with his BB gun. When the passer-by asked him what it looked like, he candidly replied, "A tiger."

"Well," said the passer-by, hoping to catch the boy unguarded, "what did you do with it after you killed it?"

"I cut it up and put it in the deep-freeze," replied the unabashed youngster.

"I'll have to drop by then and pick up a couple of the dinosaur steaks," baited the passer-by.

"Oh, you can't," said Hobie. "It melted..."

A HEARTY THANK YOU is due the members of the Police Force and the Highway Patrol after the results of their conscientious and careful work over this observance of the 4th of July have been tabulated.

Not one traffic accident was reported in Mitchell County and all our friends and neighbors returned to work happy, safe and well-fed this 5th of July... thanks to our friends in uniform...

Now that bang-up celebrations are over for this year's Independence Day, the next holiday we Texans have to look forward to is **TEXAS PIONEER'S DAY**, August 12.

And, shortly thereafter, will be the celebration of this writer's reaching the 20-year mark on this good earth. After one more year, my birthdays won't be counted anymore. After a woman is 21, wrinkles may appear, extra pounds may appear and gray hair may appear, but never another numeral is added to the 21. This may be a silly custom, but who can argue with 80 million American women???

Sergeant Fite Scores High In Army Test

First Sergeant James L. Fite, son of Mrs. Anna Mill-sap, Colorado City, recently scored 402 points out of a possible 500 to pass the Army's new physical combat proficiency test in Germany.

The test, based on skills that require agility, co-ordination, strength and endurance, is designed to evaluate a soldier's physical capabilities and to determine whether he has the stamina that would be needed on a battlefield.

Fite, first sergeant in Battery C of the 4th Armored Division's 14th Artillery in Furth, Germany, entered the Army in 1947 and arrived overseas on this tour of duty in January, 1958.

He is a graduate of Rush Springs High School in Okla. His wife, Maria, is with him in Germany.

Returns From Dallas Trip

Mrs. Sophie Oliver has just returned from a motor trip to Fort Worth and Dallas.

She was accompanied by her sister-in-law, Mrs. Frances White and her niece, Effie Curtis of Midland.

The group visited Mrs. White's brother and family, Mr. and Mrs. James Phillips in Fort Worth.

In Dallas, they visited Mrs. Oliver's son, Mr. and Mrs. Clinton Oliver and children, Carson and Laquita. They also attended the Stamps all-night songfest in the Municipal Auditorium and visited friends.

Candy Stripers At Work

Judy Wood, left, and Gloria Merket, right, bring cheer and pep into the hospital stay of Norman Simons, California, who was injured in a truck wreck recently. The girls are members of the new ranks of Candy Stripers who have become general hospital aids for the summer months. Miss Wood is the daughter of Mr. and Mrs. Jim Wood, 1325 Walnut St. and Miss Merket is the daughter of Mr. and Mrs. Stanley Merket, 1439 Watson St.

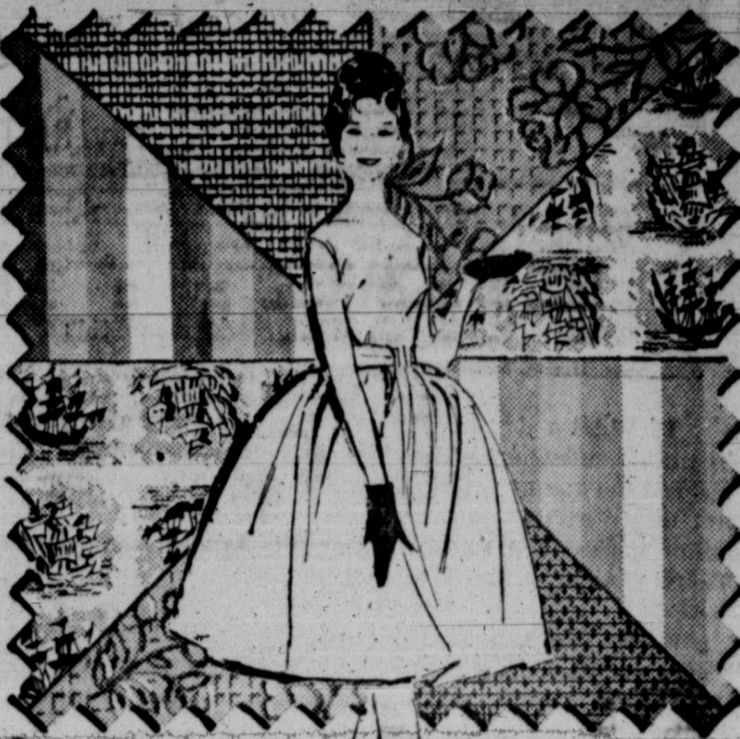

Sgt. Campos NCO School Graduate

Army Sergeant Juan Campos, son of Mr. and Mrs. Lucas Campos, 545 W. 14th St., Colorado City, recently graduated from the Seventh U. S. Army Non-Commissioned Officer (NCO) Academy in Bad Tolz, Germany.

Sergeant Campos received emphasis on leadership, instructor techniques, map reading and combat tactics. The purpose of the academy is to broaden the professional knowledge of the NCO. More than 43,000 enlisted men from units throughout Europe have graduated from the academy since it was established eleven years ago. Campos, assigned to the 85th Ordnance Battalion's Headquarters Detachment, entered the Army in 1945 and arrived overseas on his present tour of duty in January 1961. His wife, Inge, is with him in Germany.

IS YOUR WATER HEATER ON "BORROWED TIME"?

Replace it now with a flameless ELECTRIC WATER HEATER

CLEAN • FAST • SAFE • INSTALLS ANYWHERE

Why put up any longer with an old water heater that may break down at any time? Install a modern flameless quick recovery electric water heater and enjoy clean, fast, worry-free hot water service for your home. A quick recovery electric water heater gives you hotter water faster... plus the peace of mind that comes with its efficient, flameless operation. There are no valves to stick, no flames to blow out accidentally, no noise, no soot, no fumes. And because an electric water heater needs no flue, it can be installed anywhere in the house, close to the point of greatest use, eliminating long pipe runs which waste heat from the water. See the new quick recovery electric water heaters at your dealer's or our office soon.

SURVEY

Continued from page 1

"If we miss some businesses in the survey, they may get in touch with Mr. Eaton or myself at City Hall," Benson stated.

A check of survey results will be held at the next fire department meeting, which will be July 16.

Benson said that he hoped to have completed the initial survey by August 1.

Survey information will be studied by fire department personnel for the next few months or until the information has been made familiar to each member, Benson said.

Angelo. He and his wife, Penny, have 3 children, Jane, 14, Jim, 11, and Robyn, 4.

He said he will leave here July 26, the day after the new manager takes over. The new manager will be Luke Nichols, who is presently the assistant manager of Penney's Midland store.

Norrell, who has been manager of Anthony's here for 2 years, has been with the concern for over 5 years.

Norrell and his wife, Charlotte, have one child, Deborah, who is 5 years old.

He said he would be leaving July 15. The new manager, Tommy LeMaster, will arrive July 9, he said.

LeMaster is presently manager of the Anthony shoe department at their store in Big Spring.

BUS

Continued from page 1

moved to Big Spring.

There, the line, now two buses strong, operated between Lamesa and Big Spring.

The buses made the trip in about 9 hours, versus 15 hours for the horse-drawn variety, and Chenoweth soon was doing very well, thank you. Of course, this drew competition.

A cattle king moved in with four 2-cylinder Buicks, and Put-Putt Chenoweth out of business.

Chenoweth went back to Snyder where progress had evidently become fashionable and did well for a while, running between there and Roscoe.

Competition from a hardware store owner and his two Reo touring cars did Chenoweth in again.

He wound up in Fort Worth, and sold his two buses to a dairyman.

Chenoweth died near Dallas, not long ago. He was penniless, and unknown. His name is not found in automotive history books.

But he started something "take the bus and leave the driving to us"...

PLANS HISTORICAL MARKER

Chamber Directors Hear Proposals

The board of directors of the local chamber of commerce met in a breakfast meeting Thursday, morning, according to Bob Carver, president.

There were several reports given.

There was a report on a plan for a "farm tour" to be conducted in September by the chamber's agricultural committee and the local soil conservation office. Carver said that final plans have yet to be compounded.

The Aviation committee indicated that it had received a surplus from the recently held "fly-in" at municipal airport. Plans are to put the surplus aside, Carver said, for future use.

In a final report on the latest Tumbleweed Festival, it was indicated that the project was financially in the black. The note on the 1961 festival has been repaid, Carver said.

Arline Morris

head of the chamber committee, reported that he had contacted a speaker for the 1963 banquet, and was awaiting confirmation.

In other business, the board approved expenses for chamber manager R. L. (Dick) Kendall to go to the U. S. Chamber of Commerce-sponsored Institute for Organization Management. The school is held on the University of Houston campus. Kendall said he would attend the school from July 22 through 28.

Porter Richardson proposed that there be signs built indicating various historical buildings and places in Colorado City. The signs would be sponsored by individuals and merchants here.

Carver was given permission to appoint a committee on the Interstate "20" signs program. The committee would make a final report on the project. It has not yet been appointed, he said.

There will also be a clean-up campaign conducted on the highway sign program, Carver stated.

Mrs. Byrd Home

Mrs. Willie Byrd has returned to her home in Westbrook. She suffered a heart attack some months ago and had been staying with her children in Lubbock after being dismissed from the hospital.

Mr. and Mrs. Charles Candler and children of Monahan are vacationing at Lake Colorado City and visiting with their parents, The Alvin Byrds of Westbrook and the George Candler's of Colorado City.

IN COMMUNITY CENTER

Girls Urged to Join Activity

Mrs. Dick Wistrand, city recreation coordinator, said Tuesday that attendance at the community center has increased about 50 per cent.

She said that most of the increase is due to increased numbers of high school and junior high school boys going to the center.

She said that before the unexpected increase, an average of 41 persons attended. There is now an average of 60, she said.

Mrs. Wistrand said that, for some reason, no high school girls are going to the center. Some time ago, she said, an attempt was made, three times, to hold a dance at the center.

The dance was publicized in the Record, KVMC radio, and on signs, but only 1 person came for the first dance, and 8 for the second. No one came to the third, she said, and the attempts were stopped.

Now, she indicated, a group of high schoolers are interested in re-instituting the "open house" one night a week, starting in July. The group has stated that it would provide live music — after about three weeks of practice — for the affairs.

She said that one night this month an open house will be held.

Mrs. Myra Skaggs of Corpus Christi is guest of her sister and brother-in-law, Mr. and Mrs. P. E. Clawson.
