Price for Crude Oil Hiked First Time in 6 Years

Southwestern crude oil prices surged upward Monday for the first time in nearly six years.

Humble Oil & Refining Company, largest buyer of crude in Texas, met, and in some areas bettered, a 25c increase posted earlier by Phillips Petroleum Company.

Humble boosted its prices by from 10c to 35c a barrel, varying with the grades of crude. Talco, Hawkins and Pearsall crude, which is 48% asphalt, was increased 10 cents a barrel.

Effect of the crude price increases on product prices—what the motorist pays for gasoline—was not interpreted immediately. Usually a crude hike of as much as 25c brings a gasoline raise, and it looks now like a cent a gallon.

A better price for crude and larger production in July will help conditions generally in the Talco area.

Mrs. Walls Attends Lunch Workshop

Mrs. Lucy Walls of Talco, was among the 130 who gathered at the Texas State College for Women in Denton June 8-18 for School Lunch Workshop sponsored by the college and the Texas Education Agency.

Purpose was to give assistance in the planning and preparation of nutritious, well-balanced school lunches; in the proper use and care of lunchroom equipment, and in solving of day to day problems associated with record keeping and sanitation. Meetings were in the TSCW College of Household Arts and Sciences, of which Dr. Pauline Beery Mack, internationally known for nutrition studies, is dean.

Post Hole Digger Injures Operator

Frank Blackburn of Blossom, suffered a severe gash in the right leg when his clothing was caught in a post-hole digger, powered by a tractor. His clothes were torn off, but he escaped serious injury by being able to hold his body away from the machine, though he was severely bruised all over. He was taken to a Paris hospital.

Farm Awards for Titus, Red River Lamar Counties

West New Hope community in Titus County, winner of the first Dallas News sweepstakes award for pasture improvement, was presented a check for \$500 at ceremonies at the community center Wednesday night.

J. M. Moroney Jr., assistant treasurer of The News, presented the check to L. T. Summerlin, West New Hope community chairman.

West New Hope was one of five 1952 district winners in a pasture improvement contest sponsored jointly by The News-WFAA and the extension service. Five district winners were eligible to compete in the 1953 sweepstakes award.

Also at the ceremonies, the neighboring community of Marshall Springs received a \$100 check for winning third place in the 1953 district pasture improvement contest.

Other district awards will be made as follows: June 23, Mabry, Red River County; June 24, Maxey, Lamar County.

Stinson Resigns As Deport Coach

Ernest Stinson, football and basketball coach at Deport High School the past year, has resigned. He has been elected coach at Midlothian and expects to assume his new duties in September.

Mrs. Stinson, the former Miss Georganne Storey of Deport, has been elected English and history teacher of the 6th and 7th grades in the elementary school there.

Mr. Stinson is now attending the summer term of ETSTC in Commerce. Son of Mr. and Mrs. E. L. Stinson of Paris, he played football with the PJC and ET teams, before coming to Deport last September.

Talco Oilers Beat Sulphur Springs Tuesday 8 to 3

By JACK WINN

Talco Oilers defeated Sulphur Springs Eagles 8-3 Tuesday night in Talco in one of the hottest contested games of the season. Dub Reeder, Eagle ace, was the victim of a six-hit, four-run seventh inning. Each side executed two double plays. Ken Williams, Eagle third baseman, hit for the circuit with one on for the only homer of the game.

People of Clarksville will vote upon the proposition as to whether or not parking meters will be installed in the business district. Some are for 'em and some ag'in.

First Baptist to Hold Evangelistic Series of Services

Sunday morning, June 21, will mark the beginning of a series of evangelistic services at the First Baptist Church in Talco, which will continue until the Lord leads to close, according to E. W. Henry, pastor.

"Elder H. M. Hefner will arrive for the Monday evening service and will be the speaker for the remainder of the services. Bro. Hefner is a man of God and believes in declaring the whole truth of God's word without compromise. He is formerly of Ellis and Hill counties where he served as a missionary for some time, then pastoring churches in the same locality until coming to Sulphur Springs two years ago, where he is now pastor of Davis Street Church of that city.

"The song service will be under the direction of Bro. Paul Robinson of DeBerry. Bro. Robinson is a talented singer and preacher of the Word. He is a student in Jacksonville Baptist College of Jacksonville. "Beginning Tuesday morning there will be two services daily, 9:30 a. m. and 7:30 p. m. We of the First Baptist Church extend a warm welcome to all to attend these services and enjoy some Gospel singing and preaching."

Colored Folks To Observe June 19th

Emancipation Day, Friday, June 19, will be observed by the colored population of this section. This year is no exception as throngs of the race will take off to celebrate the anniversary of their freedom from slavery.

Decked out in finery and Sunday best, picnics, barbecues, baseball games and a general good time usually round out the day's entertainment.

Highway and Rail Road Improve Appearances

U. S. Highway 271 between Mt. Pleasant and Paris is getting its side whiskers trimmed. Right-of-way is being mowed and where the hay is good it is being saved.

When one starts cleaning up it usually influences an adjoining property owner, so the Paris and Mt. Pleasant Railroad is burning off its right-of-way with flame throwers, followed by a hose water car to see that nothing burns that should not. Nice, cool work for this kind of weather.

Gladewater Cubs, Talco Oilers Split Series 11-3; 6-12

By JACK WINN

Talco Oilers and the Gladewater Cubs split their two game series, the Oilers taking the first 11-3 and the Cubs taking the second 12-6.

In the opening game, fireballer Jack Seabaugh held the Cubs to eight scattered hits, while his mates garnered 12 hits off Stuckey and Holliday. The Oilers played errorless ball while the Cubs made eight miscues.

Pre-Summer Heat Sends Mercury to Record High

Officially speaking summer does not begin until Sunday, June 21. Weatherman's pre-summer visit, beginning three weeks ago, has lingered for what seems an indefinite stay. The mercury has soared upward to 100 degrees or above for nearly a week. Unofficial readings showed thermometers registering from 100 to 103 degrees from Thursday until Monday, to set record highs.

Tuesday was slightly cooler when the high was 99 degrees. The high temperatures have set new records for June.

The heat has been intensified by a sultry stillness most of the time, with little breeze hardly moving a leaf.

It has been a month since rain has fallen, with the exception of a light shower on June 6. The last general rain was May 18.

All farm crops, except possibly early cotton, are needing a good soaking rain. Corn, much of it not waist high, is beginning to show signs of needing moisture, as well as truck crops, gardens and tomatoes. Pasture and grasslands are beginning to dry up.

Insects of all kinds are reported working on the cotton crop and farmers are fighting them with the most potent poisons at their command. Some cotton is putting on forms and will have blooms within the next few days.

Total rainfall here this year is 27.20 inches compared with 19.49 inches to this date last year. Average rainfall for June is 3.88 inches.

Electric fans and air conditioners have been running day and night as everyone tries to keep cool.

\$3,000 Bonds Set In Bank Burglary

United States Commissioner W. Madden Hill set bonds of \$3,000 each on two Dallas men charged with the \$251 burglary June 8 of the First National Bank at Trenton, Fannin County.

Neither Adolph Lee Wurzbarger, 40, nor Ray Leon O'Neal, 29, had made bond late Monday.

An agent from the Federal Bureau of Investigation testified at the final hearing that the two men admitted to him shortly after their arrest that they had participated in the burglary.

Both men gave Dallas addresses. Wurzbarger said that he had

Texas Farm Cash Income Down

AUSTIN. — Farm cash income in Texas for the first four months of 1953 totaled \$431,994,000, about \$123,000,000 less than the same 1952 period, the University of Texas Bureau of Business Research reports.

Six commodities brought income increases this year. Wheat income was up 144 per cent, and oats, 75 per cent. Income from sheep and lambs, eggs, poultry and mohair gained from 25 to 30 per cent.

Producers of cottonseed, wood, grain sorghum, cotton, corn and cattle took the heaviest relative losses. Cotton and cattle producers suffered most in actual dollar losses. Cotton income was down \$57,600,000, and cattle, \$42,500,000.

Auction Sale of Angus Herd

J. A. McGill and Charles Rheudasil announce complete dispersion of the Red River Valley Angus Farm herd with an auction to start at 1 p. m. next Monday. The farm is located on Highway 271 east of Paris.

The herd comprises 71 head of registered Angus, including four bulls, 18 open heifers, 25 bred heifers, 12 cows and 12 cows with calves at side.

This is one of the finest small herds of Black Angus cattle in Texas. The public is invited to attend the sale.

served time in the state penitentiary for murder while O'Neal maintained he had no previous criminal record.

Haymaking and harvesting of small grain has been under way extensively in recent days. Thousands of tons of forage has been put away for future use during this period of dry weather. Meadows are said to be yielding satisfactory returns at the first cutting.

Cotton has made fair to good progress during the past two weeks and most fields are clean. Considerable late-planted acreage lowers the average outlook for the crop.

Corn on the whole is not very promising. Much of the crop was planted twice, some three times. It is late and showing the need of moisture.

The small grain crops are making the finest yields in many years and prices are good.

Tomato crops are suffering from the month's hot weather with no rainfall, following a previous period in which rainfall was excessive. Prices are very high for what will be harvested and some truck farmers are talking irrigation systems.

New Building for Detroit School

Construction of a new elementary school building for the Detroit independent school district is underway.

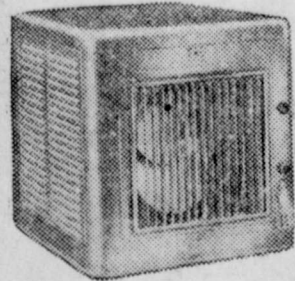

The contract price was \$53,261-48, a turn-key job, that included everything except the dirt work. Plans call for eight class rooms, two halls, principal's office, fire-proof vault, storage room, lunch room, kitchen, two rest rooms and a breeze-way to the high school building.

Solon Loving left Tuesday for Los Vegas, Nev., where he will enter the U. S. Air Force.

Weatherman got mixed up on
his calendar about a week ago
and turned June into August.
Summer doesn't officially begin
until next Sunday, which is also
Father's Day. But Weatherman
has dished up some kind of re-
cord for heat in June.

Some of our friends who plant-
ed cotton once and some twice,
and still do not have a stand, due
to a month of dry weather, have
our sympathy. But it is going to
rain again—always has. As the
governor of South Carolina said
to the governor of North Caro-
lina, "It's a helluva long time be-
tween drinks." So it is with rains
when there isn't moisture to
sprout and bring up cotton.

Postoffice box rents go up
about 50% on July 1st. The P.
O. Department will ask for high-
er rates all down the line, includ-
ing four cents for letters. News-
paper postage increased 10 per
cent on April 1, 1952, the same
amount on April 1, 1953 and is
scheduled for two more similar
hikes on April 1, 1954 and 1955.
The P. O. Department is running
a deficit of near \$600,000 a year.
What is needed is a thorough house
cleaning.

Library is Open This Summer

Talco PTA will keep the school
library open this summer. Our
school has a very good library of
books, both entertaining and in-
structive. The school, along with
the PTA, wants all to have an op-
portunity to enjoy this storehouse
of good reading. Most all chil-
dren like to do some exciting
reading in the months when there
is free time. And most adults
either like to read for pleasure,
or have some particular thing we
want to study and learn more
about.

You are all invited to come and
check out books every Thursday
afternoon from 2:00 to 4:00. You
may take them for one week or
longer, providing you re-check
them each Thursday.
The librarian, Miss Smith, set
up the schedule for the library
girls to work each Thursday.
They are to remember their dates
and report on that day. Miss
Beulah Smith is in charge of the
library this summer. Those wo-
men who can donate a Thursday
to help her, will you please call
her. We will thank you all for
your co-operation.

EASIER METHOD

An old mountaineer and his
son were sitting in front of the
fire smoking their pipes, crossing
and uncrossing their legs. After a
long silence, the father said, "Son,

"I didn't use any towel, mama,"
said May. "I just wrung him."

It Costs Less to Drive a Safe Car

Little troubles have a way of growing into big troubles. An inexpensive repair job may save an expensive job later—and more important, it may save someone's life, even your own!

We're offering six specialized safety services at all these vital points:

BRAKES (Can you stop before it's too late?)

LIGHTS (Can you see clearly? . . . Can the driver facing you see clearly?)

STEERING (One bad turn may be your last.)

WINDSHIELD WIPERS (In driving rain, your vision is no better than your wipers.)

HORNS (Your horn must not fail!)

TIRES (Are they as good as they look.)

You can be lulled into a false sense of security by car failures which develop gradually so you aren't aware of them—until it may be too late.

Alcorn Wants Price Supports For Cattle With Storage Left to Congress

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, is trying to be helpful on the cattle price situation, but we can't see that he succeeds.

Dear Editor: I have been reflecting on the cattle market situation out here, and as you know the market has been pretty rough, not only on the cattlemen but also the bankers, as any banker who had a hundred dollars loaned on a two hundred dollar cow is now about in the cattle business with a seventy-five dollar cow and the grazing around most banks I've been in is pretty short.

Naturally, somebody ought to come to the rescue of our cattlemen and bankers, especially us cattlemen, and I don't know of anybody who's better equipped or had more experience than the government in Washington.

Now I've been thinkin over how the government can do it, and it's not easy. A price support deal on grass might help, and I suppose there are experts in Washington who could work out a system where Bermuda grass could be supported at so much, Johnson grass at so much, needle grass at so much, etc., but the thing will be complicated as there's not much way to determine how much grass a pasture has been producing over the years, except to take my word for it, and some experts might not consider that reliable evidence. I always judge my pasture by the shape of my cows, when the bones begin showin I know the pasture is plain out and if a neighbor's fence doesn't give before long the situation will get serious.

But the best system I've figured out is just a price support program for the cattle themselves. You buy a good Jersey steer for 18 cents a pound and keep it a year and sell it for 8 cents and there ain't no way on earth to come out ahead without goin through Washington and pickin up something on the way, and when it comes to a choice, Washington goin in the hole or me, I always figured Washington was designed to bear the brunt.

Naturally, the program is gonna have to be a little different from the price support program for grain or cotton. The government can buy grain and hold it for a better price, but you try storin a cow and you run into all kinds of complications.

But I believe Washington can do it, and if it can't that's Washington's worry, not mine.

I hope Congress will turn up the air-conditioning and really give some heavy thought to this problem. Me and my cows can't hold out much longer.

Yours faithfully, A. A.

Tomato Crop is Short, Prices High

Continued dry hot weather points the way to one of the shortest tomato crops which East Texas has experienced in years, says J. F. Rosborough, Extension Horticultural Marketing Specialist. It was hoped several weeks ago that cool weather with adequate moisture would develop the blossom crop near the top of the plants. The few fruits which are developing from blossoms are small in size and some are beginning to show dry weather rot.

Prices have soared above any previous record—some tomatoes having sold as high as 20 cents per lb. Pink tomatoes in one-half bushels are selling at 23 to 25 cents per lb. It all adds up to the fact that there are so few tomatoes that there is a super demand and an under supply, he said.

STEP ON IT

Boring visitors (to his host who was driving him to the station): "Don't let me miss my train."
Host: "Don't worry. My wife'll kill me if I do."

RIGHT MIXTURE

Lady Customer: "I see this medicine is advertised as good for man and beast."
Druggist: "Yes."
Customer: "Gimme a bottle. I believe it's the right combination to help my husband."

AIM AND FIRE

Roscoe, the rookies, scored a bullseye with his first shot in rifle practice, but the next nine didn't even leave a mark on the target.

"How do you account for those misses?" barked the sergeant. "That first one must have been beginner's luck."

"Sorry, sergeant," he apologized. "I thought I had to get all the bullets through the same hole!"

Texas Publishers Gather at Mineral Wells for 74th Annual Convention

Texas Press Association held its 74th yearly meeting at Mineral Wells last Friday and Saturday. The Times editor, accompanied by Mrs. Holloway, attended to rub elbows with many publisher friends and to take what doctors and lawyers call refresher courses or post-graduate work in journalism.

This editor joined TPA in 1913, just forty years ago this month, has missed only two yearly meetings, due to illness. He should have learned much from men much better informed than he is at these post-graduate courses, but he doesn't absorb information any too well.

But it was a most enjoyable three days away from his typewriter and telephone, and if the home town newspaper this week shows no visible results of new inspiration, time was probably the obstructing factor—one can't do in three days what he is supposed to do in six.

It was good to see many outstanding newspaper friends receive awards in contests of varied classifications for the work they are doing as publishers. This editor won several prizes in years past, and has not recently entered these contests.

There were addresses by outstanding newspaper men from Texas and other states, followed by round table discussions with questions and answers.

Mineral Wells has grown considerably since this editor worked as a printer on the Mineral Wells Index during a school vacation in 1907. The index is a small daily paper, and at that time, type for it was set by hand and it was printed on a press that was not as modern as the one upon which this newspaper is printed.

There are several big industrial plants there now, the magnificent Baker Hotel built in 1930, and the re-activated and rebuilt Camp Wolters, where Press delegates were served dinner on Friday evening.

The week end saw hundreds of parents gathered at Mineral Wells to visit their sons in the service, and the big swimming pool at the Baker was a panorama of color, filled with humanity from ages 2 to 82.

The convention adjourned late Saturday night and Sunday morning press delegates were guests of the magnificent two million dollar Western Hills Motel, just west of Ft. Worth, for breakfast.

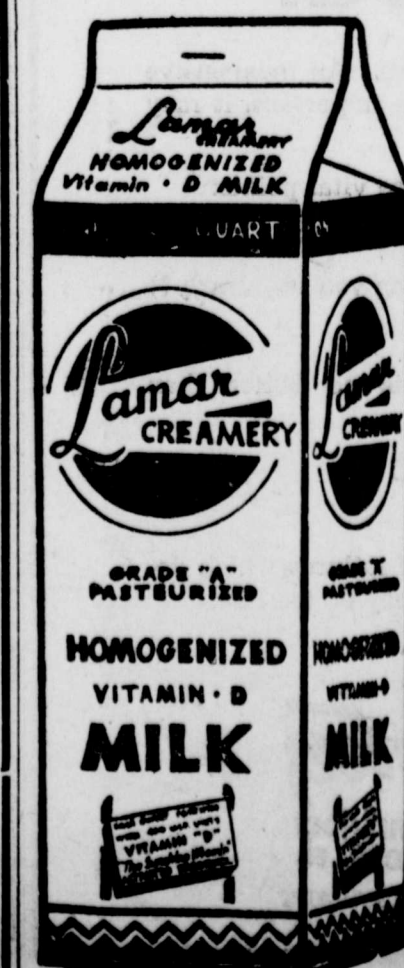

Guides led small parties for an inspection of the property. Its architecture is ranch style and one can rent at reasonable rates, so far as city hotel prices are concerned, everything from a single room to a suite or pent house.

The buildings cover many acres, all air conditioned, and you park your car in front of your own door when you register there.

Western Hills also has a swimming pool and it was filled Sunday. In the cafe if you order a steak you make your own selection of the raw beef, and then brand it the way you want it broiled over charcoal—rare, medium rare, medium or well.

cher; Drue Pirtle, pitcher; Morris Parker, 1st base; Leon Shoffner, 2nd base; Charles Pirtle, 3rd base; Eunice Pirtle, short-stop; D. C. Thomas, left field; Bill Pirtle, center field; Ned Rhodes, right field and assistant pitcher. Chick Dryden, catcher, is ill now. Other players to use in the lineup include Earl Hawkins, Jr., catcher; Bobby Watts, any place. These boys boast an undefeated record so far this season.

Bobby Setzer of the U. S. Navy, recently of Corpus Christi, is visiting his brother, Calvin Setzer and uncle, Ralph Setzer. He is being sent to a new location.

Funeral Rites for Clint Ferguson At Green Hill Church

Funeral services were held at the Green Hill Presbyterian Church Saturday afternoon for Joseph Clint Ferguson, resident of the Green Hill community, who passed away at Taylor Hospital Thursday afternoon from the effects of a heart attack. The rites were under direction of Rev. Max Barton and Rev. John Whitt.

Mr. Ferguson was 74 years of age and had resided in Titus County since the age of 16. He is survived by his wife; five sons, Frank Ferguson, Lindsay, Okla.; Ben Ferguson, Reno, Okla.; Walter Ferguson, Oklahoma City; Theron Ferguson, Mt. Carmel, Ill., and Eddie Ferguson, Lawndale, Calif., and five daughters, Mrs. Norvell Hamby, Phoenix, Ariz.; Mrs. Thelma Spain, New York City; Mrs. Thelma Strother, Houston; Mrs. Margaret Conner, Magnolia, Ark., and Mrs. Mary Thompson, Mt. Pleasant.

Other survivors include a brother, Austin Ferguson, and two sisters, Mrs. Pearl Burns and Mrs. Ross Wiggins of Winnsboro, La., along with twelve grandchildren and two great-grandchildren.

Pallbearers selected for the final rites were Van Hall, Frank

Deep Smackover Wildcat Test Sets Surface Casing

Surface casing 10 3/4 inches and 900 feet deep has been set on the Seaboard Oil Company, Dallas, test in southeast Red River County.

Scheduled for 8,000, the test is No. 1 Coline Development Company (Santa Fe R. R.), and it falls twelve miles northeast of Talco on what Seaboard calls its Southeast Clarksburg prospect which it has covered with 11,000 acres of leases. Site also is six miles north of the Pewitt Ranch Paluxy sand field in Titus County and four miles south of a Smackover lime failure drilled several years ago by Texas Company.

The wildcat is spotted on a lease of 1,188.6 acres with drillsite marked 1,700 from the northerly north line and 467 from the northerly west line of the Ingenio Tejada survey. Goff-Leeper Drilling Company, Ardmore, is cutting the hole.

Some leases are being bought in the area west of Talco at \$5.00 an acre, but this newspaper failed to learn particulars.

A READY REPLY

Two brash young lads drove their hot-rod up to the village store and yelled at an old villager leaning against the store door: "Hey, Pop! How long's this town been dead?"

"Don't rightly know," said the oldtimer. "Can't be long, though, You're the fust buzzards I've seen."

Father's Day Sunday, June 21

Father can claim his day, June 21, provided that the day is observed on Sunday in June.

Father's Day, which was widely observed even before it was designated by Mrs. J. Dodd of Spokane, Wash., as her own father, William Smart, veteran of the Civil War, died in 1898. He had reared his own group of six, alone.

In 1898, she proposed a day for honoring fathers. Ministers Alliance and did not take up the idea until 1910, when the first Father's Day was observed in Spokane.

Besides being celebrated on our nation, the day is an appropriate time to pay him a visit, write a letter, or in some small way express your appreciation. Dear Ole Dad.

Heard About the Electric Weather Predictor

Squint Smith built up quite a reputation last month by predicting the weather. What he said usually came true.

It got so that folks would sit around his little Antique Shop just to get his opinion.

Last Monday, though, he said he didn't know what the weather was going to be like next day. That surprised us and when we asked what happened, Squint said, "Slipped up on my electric bill and was turned off. I'll get to my radio again tomorrow though." Squint had been getting

the weather over the radio like anyone else!

From where I sit, that it goes with some "expert" often don't have any more information than you can yourself. Like those who claim to be the only third after a day's work. Fearful, I'll take a glass of beer. But—I won't "predict" your choice for

A Welcome is Extended to All

Jack Morris Weds Garland Girl

Miss Melvia Jean Stanford became the bride of Jack Lewis Morris at 8 p. m. Tuesday evening, June 2, in a candlelight service at the First Baptist Church in Farmersville. The Rev. Travis Berry, pastor, officiated at the double ring ceremony as the couple stood before an altar banked with white gladioli and fern and flanked by graduated candelabra holding white tapers.

Parents of the bride are Mr. and Mrs. Melvin Stanford of Garland. The bridegroom is a son of Mr. and Mrs. L. L. Morris of Farmersville, formerly of Talco and Deport.

The bride entered on the arm of her father. She wore an off-the-shoulder gown of lace over satin. The molded bodice, encrusted with seed pearls, featured long lace sleeves that tapered to points on her hands. A fitted lace apron, sprinkled with seed pearls, reached to just above the bride's knees and formed a tiered bustle in the back. The very bouffant skirt swirled into a chapel-length train. The bride wore a single strand of pearls, a gift of the bridegroom, and carried a bouquet of white orchids surrounded by white satin leaves and stephanotis. Her fingertip veil of illusion fell from a lace and satin cap embellished by seed pearls.

The bride was attended by Mrs. C. M. Falldin of Minneapolis, Minn., matron of honor and by Miss May Dell Moellenberndt of Galveston, Miss Mary Beth Long of Beaumont, Mrs. Aubrey Henson of Farmersville, bridesmaids. The attendants wore dresses

alike in ice-pink embroidered organdy and small caps in pink organdy that were replicas of the bridal cap. They carried pink gladioli. Miss Sharon Brock of Mt. Pleasant, cousin of the bridegroom, was flower girl.

Best man was the bridegroom's father, L. L. Morris. Groomsman were Jack Leonard of Garland, Jim Bill Little of Big Spring, Sherman Tucker of Port Arthur and James Stanford, Farmersville.

Jerry and Perry Morris, brothers of the groom, seated the guests and served as candelighters. Wedding music was presented by Mrs. Jerry Wayne Hart of Farmersville, organist, and Miss Joyce Howard of Big Spring, who sang "Because," "O Promise Me," and "The Lord's Prayer."

A reception at Park Lake Country Club followed the ceremony. Following a short wedding trip the couple will be at home in Denton.

The bride graduated from Farmersville High School and will receive a B. S. degree from North Texas State College in August. She is a member of Chi Omega sorority and Pi Omega Pi, honorary fraternity for business majors.

The bridegroom is a graduate of Talco High School and received his degree in architectural construction last month from Texas A. & M., where he was a member of Ross Volunteers and AGC. He was commissioned a second lieutenant in the Air Force Reserve last year and will report June 30 to an Air Force base in Clovis, N. M., for active duty.

George Washington's second inaugural address is the shortest on record.

There's only one answer...

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks.

If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost?

That's why it will pay you to stop in and see us before you buy your next truck.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!
