CHRISTMAS WAS IN THE AIR literally this week, as a joint effort between city street and sanitation department workers, Lone Wolf Electric crews and Frontier Cable TV employees took place to decorate the downtown area.

Hull Named Manager Of Frontier Cable TV

Frontier Cable TV Company, a division of Landmark Cable Company, is under new management.

Past Manager Dale Mathis has been promoted to a new position within the company here and Bud Hull will now hold the position of manager, it was announced Friday.

Hull will supervise Frontier Cable TV in Colorado City, the Lake Colorado City area, Loraine, Stanton and Brownfield.

"I began with the company eight years ago as an installer," Hull said. "For the past few months, I have worked as assistant to Mathis."

"Landmark Cable Company has companies in several states across the nation," he said.

"Cable TV is growing and changing so fast, with new systems and programs, that it is possible we will see some gradual changes within the next year.

"We have discussed several possibilities to improve programing and gain a wider spectrum of programing," Hull said.

Hull and his wife, Delores, have been residents of Colorado City for nine years. They live at 709 East 6th Street with their two children, Debbie, 15 and Bill, 8.

MITCHELL COUNTY ANNUAL Pecan Show Judges (left to right) Bob Benson, Mrs. Lajuana Solomon and Bill Jany carefully study each of the 14 entries shown in the two day affair.

Reservations Needed For Christmas Dinner

Reservations for the traditional Christmas dinner at the Wallace Center need to be made before Dec. 19, announced Barbara Gray, coordinator of the center.

The dinner is set for Christmas Day and Rev. Glenn Roenfeldt, pastor of the First Baptist Church, said, "We are inviting those who would like a well-balanced meal and would like someone with whom to eat. Also, we will deliver meals to anyone who cannot get out of his home to attend this dinner."

To make a reservation, phone the Wallace Center at 728-2392. This is necessary to be sure there will be enough food prepared.

The program will include Christmas music, fellowship and games.

Edith Fuqua, Eleanor Jefferies and Louise Sweat will be in charge of serving the meal.

Funds for the dinner are being provided by the local churches through the Mitchell County Ministerial Alliance, stated Rev. Roenfeldt.

My Expectations

By Lulu Turner

Wouldn't it be great if Mitchell County had a recreation director? There could be year-around sports tournaments and leagues for young and old alike.

I believe we need someone, on a fulltime basis, who could make arrangements for sports tournaments throughout the year.

From the time students start to school in kindergarten until the time they graduate, they are constantly given opportunities to participate in sports in school and then, it's all over because there is no one who can afford to take the time from regular jobs to plan these activities.

There is a lot of work to planning a tournament and it is a job. But, there would be so many benefits to everyone in the community. When there is a tournament here in Colorado City, people participating and watching from other towns need to eat, a place to stay and buy gas to go home, besides a little shopping.

Year-around sports that I can think of for men, women, youth and mixed (men and women) are basketball, volleyball, softball, tennis, soccer, water sports, football, golf, fishing, twirling competition and so many more.

This could be set up so that all the money raised would be put back into the department to build a fund to widen the sports field in Mitchell County. It would also be nice to have a handball court or a municipal golf course in Mitchell County.

There are two positive aspects of having year-around sports for everyone. One is the profit it would bring and the other is the community involvement and participation.

I am not writing this column to fill the space, but because I believe there is a real need and it would be an asset to our community. However, it will take a lot of support and interest from everyone.

If you feel Mitchell County does need a recreation director, phone your councilman or woman, chamber of commerce, Wallace Center, school board members, advisory council, club president, city manager or any county official. We need to let them know it is needed and wanted by the citizens of Mitchell County.

Middle East Is Program Topic

The Baptist Women's Night Circle met Monday evening in the home of Joy Piland with Barbara Uselton bringing the program with current political situations in the Middle East entitled "Let The Bells Ring Out Peace In The Middle East."

She cited several instances touching on the 50 American hostages in Iran, Russia in Afghanistan, W.S. in Persian Gulf, etc. She said that even as Christmas bells ring out, we bow our heads in despair because hate and bitterness seems so strong and conflict towards peace.

In conclusion, Mrs. Uselton then noted the religious conflicts in Israel and in Arabian countries and said that inspite of the conflicts, God is still using missionaries in the Middle East.

Katy Morris, chairman, called the meeting to order by asking Mrs. Uselton to do the calendar of prayer. She asked each one present to decorate a Christmas tree by adding bells which had a missionary's name who had a birthday on Dec. 1.

Billie Harrison reported on the last month's mission action project and plans were made for December.

A project also planned by the group was a Christmas basket for a needy family.

Hot spiced tea, coffee and finger sandwiches were served to Mmes. Billie Roenfeldt, Anna Staats, Betsy Aycock, Harrison, Earline Selliers, Frances Cooper, liers and Uselton by the hostess.

INDIVIDUAL RETIREMENT ACCOUNT
If You're Not Covered Under Any Other Retirement Plans, Start Your Own.

It is an account called an Individual Retirement Account (IRA) approved by the Internal Revenue Service. It is now possible for wage earners to add to their financial security by establishing their own personal retirement plans. Federal Legislation now permits employees and self-employed persons receiving compensation and not covered under any other retirement plan to establish their own INDIVIDUAL RETIREMENT ACCOUNT. And you can save immediately on taxes while planning a secure future for you and your family.

What is an Individual Retirement Account?
An Individual Retirement Account (IRA) is a personal tax sheltered retirement plan. It was developed to bring every American worker the opportunity to build a more secure future for themselves and for their family.

Who can establish an IRA?
IRA's are available to any wage-earner. The only requirement is that you not currently be a participant in an employer-sponsored plan.

Can my spouse establish one?
Your working spouse may establish a separate IRA, too, provided he or she is not currently a participant in an employer-sponsored plan.

How much can I contribute to my IRA?
Federal law allows a maximum annual contribution of $1,500 or 15% of wages, whichever is less. Of course, smaller amounts can be contributed each year.

Are my contributions tax deductible?
For Federal income tax purpose, contributions to an IRA are fully deductible for gross income up to the maximum allowed by law. You can deduct your contribution even though you don't itemize deductions.

Do I pay taxes on the income earned by my account?
The earnings of your account are not currently taxable. Each dollar of earnings produced additional dollars which are also not currently taxable. This tax-free compounding continues until retirement.

When do I pay taxes on my account?
Your account, including principal and earnings, is not taxed until you receive payment from it.

When can I begin to receive payments?
No payments can be made to you before you reach age 59½ unless you become permanently disabled. If your death should occur sooner, funds in your account will be paid to your named beneficiary. You must begin to receive payments from your account by the time you reach age 70½.

How do I start an account?
Opening an Individual Retirement Account is as easy as opening a savings account. Stop in and one of our officers will gladly assist you.

ty of Colorado City in October exceeded the Texas Department of Health's "Drinking Water Standards" for turbidity.

"Turbidity" is defined as opaque or muddy with particles of extraneous matter.

Excessive turbidity or muddiness in drinking water may interfere in the effectiveness of disinfecting the water.

City Manager Brenda Tarter stated the turbidity occurred in October when Lake Colorado City was filled during heavy rains.

The city was aware of the problem and took steps at that time to correct it, stated Mrs. Tarter, by increasing the flow of chemicals, specifically alum.

The reason for the lapse of time between the October rains and the receipt of the notice is due to the regular schedule by which reports are made.

The "Drinking Water Standards" are part of a law passed in 1973 which insures consumer protection regarding drinking water.

City Manager Tarter stated, "We appreciate the Texas Health Department for enforcing their laws to provide safe drinking water for customers."

"The problem was dealt with at the time it occurred and there was absolutely no danger at any time," she said.

Mrs. Tarter pointed out the turbidity was caused from mud and sand in the rising water.

There was never any harmful bacteria detected in the water, she noted.

an entry fee of $20. In the past, we have had participation from both local and out-of-town teams and I would say, they have all been a success.

People helping with the tournament are those playing on Thursday nights at the Wallace Center and I think they deserve some thanks. This is the only group that uses the Wallace Center where no one makes a personal financial profit, with the exception of the skating on Saturday nights, sponsored by the Opti-Ms Club. All money raised goes straight back into the center to pay for building use, ball, net, etc., which is available to anyone using the gym.

Instructors of classes and activities offered through the center receive 80 per cent of money brought in and there are some that donate it back to the center.

I know many may think the center is for only the senior citizens because of all the senior citizens' activities going on there, but the center also serves the youth as well as the young adults.

The Wallace Center is an excellent facility for the community and I would like to see it used even more. In the past, I have participated in lots of tournaments in different towns and I can honestly say that the Wallace gym is one of the best for playing volleyball, and in comparison, the only gym that really comes close to being as good is the gym in Abilene. Another thought I have had is an adult basketball tournament open to out-of-town teams.

The staff is very limited due to all the activities available at the center, but I would like to see the gym used as much as possible, because it is too nice of a facility to be used only two or three nights a week.

I recently read an article written by Tom Hopkins, a leading sales trainer, lecturer and author who directs nationwide network sales training programs for Champions Unlimited, that proved to be very interesting.

His article was entitled, "Learning To Love The Word No," which dealt with a common problem for a lot of people, myself included; fear of rejection.

It's hard for me personally, not to feel rejected when someone says "No" to me, because my first instinctive impulse is, "I've been rejected." This sometimes keeps a positive person submerged behind a nothing ventured, nothing lost person, which really is nothing ventured, nothing gained.

When you look around at the dynamic personalities that seem to be successful, you will probably see someone that took a chance at one time or another.

This is what Hopkins' article tried to bring out. He listed five ways to confront rejection: a learning experience; an indication that one's course of direction in life could need some change; an opportunity to develop a sense of humor; a way to practice a personal technique and performance and a game to play and to win.

One of the primary obstacles in life is the fear of rejection and it begins when we are toddlers. Our parents, out of love and trying to protect us, were constantly telling us "No." However, after hearing "No" so many times, it begins to hit us on a personal level.

These five attitudes dealing with failure seem to be pretty logical and I must say they are something to think about.

With Christmas 18 days away, here is a little hint of what everyone wants for Christmas that is never out-of-date and lasts forever....LOVE!

County Commissioners To Hold Public Hearing On County Lake Regulations

A public hearing will be held during Mitchell County Commissioners Court's regular session Monday at 1 p.m. in the commissioners' courtroom.

At the close of the public hearing, a decision will be made regarding amending the regulations concerning the ban of containers containing pesticides and like materials near Mitchell County lakes.

The commissioners will open bids for three front-end loaders.

Architect Don Hampton will be present to discuss jail needs.

Also placed on the agenda is a recommendation from Tax Assessor-Collector C.C. Burt regarding the renewal of the Western Data Services Contract.

Burt will also request a new calculator for his office.

Tax Assessor-Collector Burt's State and County Bonds are slated for approval.

Extension of the Reserve Deputy Program, scheduled to expire Dec. 31, is listed for action by the commissioners.

Appointment of a representative to the Ambulance Board and appointment of the County Health Officer are scheduled.

Agenda items also include a decision increasing insurance coverage on the new Loraine Ag building.

Thank You

It must be true that every cloud has a silver lining... the cloud in this case being an auto accident that put me in a 34 day, 40 pound traction, lying in one position. Did I ever feel sorry for myself? Not for a minute! Around this cloud kept peeking those little rays of silver lining with the realization that lots of people liked me! I suppose that I had never really thought about it before. While in the hospital, I received gifts, cards, letters and visits from some 150 persons and organizations. It is quite humbling to realize one is cared for when one has done so little to deserve it.

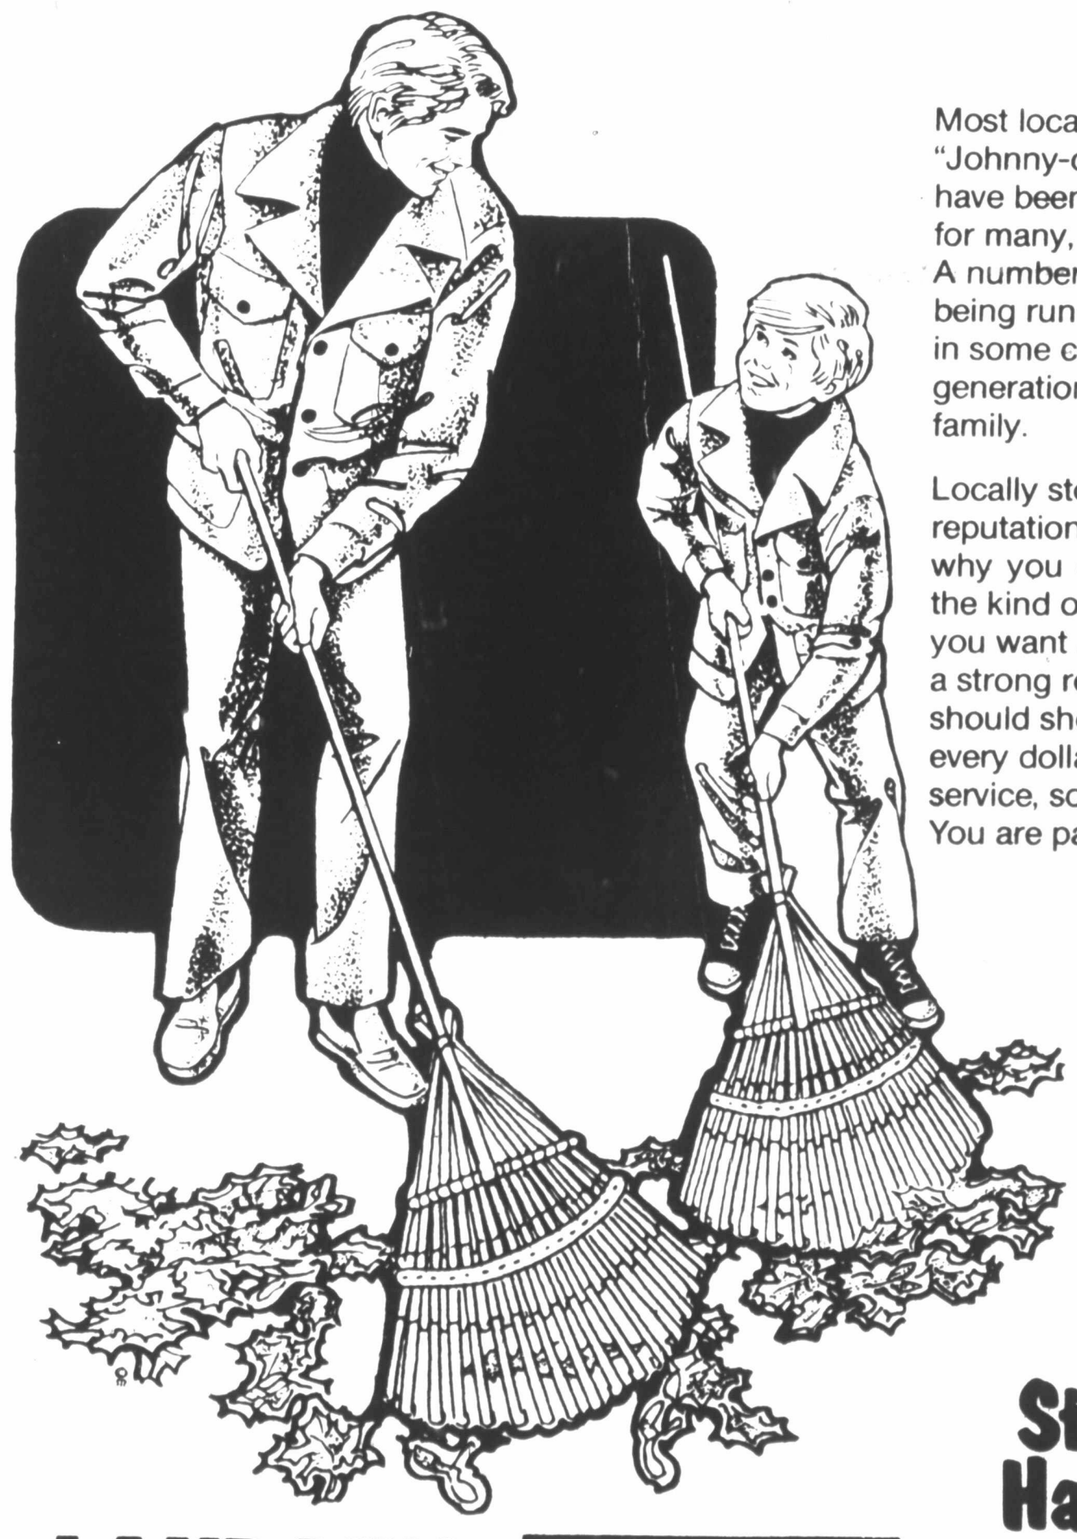

Bless you all,
Porter Richardson

It's a tradition... like father & son.

Most local storekeepers aren't "Johnny-come-latelys". Some have been serving this area for many, many years. A number of stores are now being run by a second, and in some cases even third, generation of the same family.

Locally stores have a fine reputation to uphold. That's why you can be sure of getting the kind of friendly service you want and deserve. That's a strong reason why you should shop locally. Part of every dollar you spend is for service, so why not get it. You are paying for it.

No need to roam... the best shopping's here at home!

Rhode closed the meeting with a prayer.

...in order to form a more perfect Union, still have a lot of work to do.

We at Boon-Chapman want to do our part to preserve America's greatness. We're sure you, too, feel strongly about your country, so we offer the following article for you to think about. It is reprinted by special permission of Alton S. Newell, Chairman of Newell Manufacturing Company in San Antonio, Texas. The article appeared as a public service ad in the July 3, 1980 issue of the Wall Street Journal

Once Upon A Time

By Alton S. Newell

Once upon a time, far away and long ago, in the old country, a group of people became dissatisfied with their government's unncessary interference into their personal and private lives. They felt so strongly about this they decided to leave their native land and seek a new country. This entailed a far greater decision than we realize today. We think of crossing the Atlantic in a few hours with a comfortable reception awaiting us on the other side. They knew they would face months of hardships, sacrifice and unknown dangers on their voyage and after they reached their destination. They weighed all the potential problems against their desire and determination and the answer was go. I am glad we had people back then with faith in God, faith in themselves, and their fellow man. We should be pleased to speculate that we may just have some of their blood in our veins.

They came to these shores, and expended blood, sweat, and tears and under divine guidance set up a system of government with the concept of the value, the rights, the freedom and the responsibility of the individual. Men and women working under this concept led us into our free enterprise system that has served this nation so well.

When a man knows that his future depends on his own desires, his ambition, and his own energy he will work hard to provide a better life for himself and his loved ones. Our free enterprise system has brought to this country the highest standard of living known to man. Not only have we provided ourselves a high standard of living, but we have helped many other nations of the world better their lot also. We have provided the technology and inspiration for much of the progress made in the world. We spent billions of dollars going to the moon and probing outer space and then shared this technology with the rest of the world, even with those people who seem to want to do us in. We have sent peacemakers to most all the troubled spots of the world. Several times when these peace missions failed, American blood was spilled in our effort to keep free men free. We can be rightfully proud of the part we have played in making life easier for many people of the world.

Now I wish I could stop there and say all is well with America, but you know I can't. In recent years, we seem to have stirred up a hornet's nest of problems for ourselves. We are beset on every hand with turbulence and frustrations as groups and individuals assert their rights without any thought about their responsibilities. If we were to try to define our problems with one word, that word would have to be responsibility.

Our forefathers gave us a good prescription when they based the structure of our society on the value, the rights, the freedom and responsibility of the individual. We all know what our rights are, but we seem to have forgotten our responsibility.

When Johnnie doesn't learn how to read it's not his fault, it's the fault of the teacher. If he gets into trouble it's because of the failure of the school. If he gets on drugs, it's the fault of the community. In trouble with the police, it's police brutality. When anyone gets into trouble today the shrinks all get together to try and find out what went wrong in the society where he was raised. They look everywhere except in the individual himself. If we don't put responsibility back into the fabric of our nation, we are in trouble!

Every right and every freedom comes with responsibility attached. We don't have the right to a clean environment without the responsibility to help provide it. We don't have a right to food, clothing and shelter without the responsibility to work hard and make every effort to obtain them. We don't have the right to enter the promised land without the responsibility of going through the wilderness. We don't have the right to live in a free country without the responsibility to defend it.

This irresponsible generation, all those of us living today, have some things mixed up. We spend millions of dollars shielding our highways from the junk yards and hang our pornography at eye level for our children in the newsstands. We worry about air and water pollution and then shovel filth into our living room through our television sets. We turn loose the criminals and lock up the juries. Married people are living apart and singles are living together. We want to ban saccharin and legalize marijuana. We have basically banned prayer from our schools and allowed obscenities. Our students have so many rights the teachers are becoming disgusted and afraid and are leaving their classrooms for safer jobs. Lack of responsibility and undisciplined living are sapping the vitality of America.

Now, I don't want to convey the idea that I think America is doomed. I still think it is the best country in the world. There is still a lot more right about it than there is wrong. I just don't want us to drift into careless mediocrity. I don't want to criticize my country without trying to offer a solution to problems brought up. What then shall we do? Shall we look to Washington?

Do you realize that we have had at least 5 different presidents and hundreds of other leaders in Washington since our decline started 15 or 20 years ago! That decline has not deviated, but has been consistent during this time. I believe the trouble lies at the so-called grass roots. That's at your feet and mine. A few years ago, a congressman was run out of Washington by his colleagues when it was discovered that a young lady on his payroll had very few duties, but to provide fringe benefits for him. He went back home to a standing ovation from the people who had sent him to Wasington. Several other congressmen have been re-elected after discovery of irregularities in their conduct. I believe we will recieve, and only deserve, the kind of government we insist on.

We complain of inflation, but keep on buying. We complain of high gasoline prices, but keep on driving. We complain of government hand-outs, but jump into the first line where we can get ours. We complain of wasteful government projects, but dance with glee, when our representative wins one for our community.

We complain of filth on television and by our viewing habits make the most popular programs those that appeal to our basic animal instincts. We regret the decline in American's spiritual life as we sit in front of the television set on Sunday morning nursing a hangover from the night before.

We, the people, can have the kind of country we want America needs to be born again. It will not come about from Washington, but must begin in you and me. It's getting late.

Happy meditation this Holiday Season

Wolves' J.V. Basketball Conquered By Coahoma

Wolves' junior varsity girls' basketball team was defeated 14-35 Tuesday by Coahoma.

High point or the game was Sandy [illegible] tillo with six points. Others scoring were Kerry Spivey, four and Pam Wilson and Hollie Taplin, each with two.

Scores by quarters were: first, 0-13; second, 6-19; third, 8-29 and fourth, 14-35 with Coahoma leading throughout the game.

Freshmen Basketball Girls Lose By Narrow Margin

"Our freshmen girls were held to four points by an aggressive press by Coahoma's girls in the first half," said Wolves' Freshman Girls' Basketball Coach Laura Wiley.

"In the second half, there was a complete reversal as the Colorado City girls pressed Coahoma and held them to just two points for the entire half, however, the tremendous teamwork fell three points short as the Colorado City girls were defeated 17-14," she said.

Freshman Wolves were defeated by Coahoma 17-14 in Tuesday's game played in Coahoma.

Scoring Colorado City's 14 points was Laura Baum.

Sonja Mercer was the leading rebounder for the game.

"Other girls on the team doing a fine job [illegible] Scott, Rody Turner, Becky Albin, Naomi Mize, Delia Rivera, Carla Calloway, Pat Martinez, Pam Ebret and Teresa Anderson," said Wiley.

"All of these girls made tremendous efforts on stealing the ball and getting it out on the fast break so that their teammates would have the opportunity to score," commented Wiley. "These girls are winners in all they do."

"The quality was down from last year also. This was due, in large part, to the extreme weather conditions throughout the Spring and Summer months this growing season," Benson said.

Merkel's Violation Of UIL Rules Under Discussion

University Interscholastic League District 7-AAA, of which Colorado City is a member, may have a new member as of Wednesday.

A meeting to discuss this proposal will be held in Abilene Wednesday. The proposal consists of adding Merkel to District 7-AAA in all Spring sports only.

Due to an error, Merkel was assigned to AA for the 1980-81 and 1981-82 school years in all activities.

It was reported to the UIL office by the Superintendent of Merkel Schools, Bill Everett in late October that incorrect figures may have been turned in to the UIL.

Until that time, no one had questioned Merkel's assignment to Conference AA.

The first written notice from the district was received in the UIL office on Nov. 24.

The UIL rules state: Participating high schools shall be divided into conferences for the 1980-81 school year as follows:

Conference AAAAA–1,310 and up.
Conference AAAA–615 to 1,309.
Conference AAA–265 to 614.
Conference AA–135 to 264.
Conference A–134 and under.

A high school with less than 85 may enter a team in six-man football.

High schools must participate in the conference for which their "average membership" qualifies them. No exceptions may be made to this rule.

Member schools shall be classified for competition on the basis of the number of students enrolled in the top four grades in high school as determined by the figures given in "average membership" of the Superintendents' Annual Report. No exception may be made to this rule either.

The average membership of 1977-78 and 1978-79 will be used to assign schools for the next two year period of 1980-81 and 1981-82 school years.

Schools are assigned for a period of two years in the same district and conference and will commence on even numbered years.

New schools coming into the league will be assigned according to size at the time of enrollment.

When an error is detected, **the school shall be changed to the correct conference as quickly as possible in activities that do not cause extreme contract and scheduling problems.**

A ruling for the solution is Merkel is to be assigned in AA in football for the 1981-82 season. They are to be assigned to AAA in basketball for the 1980-81 and 1981-82 seasons. In all Spring activities and music, Merkel will be assigned AAA for the remainder of the year and for 1981-32.

The above assignment will be effective immediately unless the majority of either district involved decides to protest this decision and appears before the State Executive Committee for a hearing.

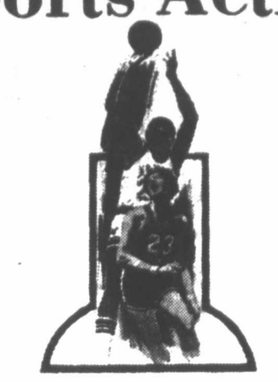

Other options available are to leave Merkel in AA as assigned for the two year period.

Another proposal is to move Merkel to AAA effective immediately for all activities for the two year period.

The final alternative would be an agreeable compromise between the districts. This would be the most likely choice as reported by Superintendent of Schools Charlie Uselton. The two districts will be more aware of the schedules and contracts with officials and other schools.

The final decision will be made on the topic Wednesday.

Essay And Poster Contest Is Slated

The Mitchell Soil and Water Conservation District is sponsoring a poster contest for children 12-years-of-age and an essay contest on conservation of our natural resources for persons 18-years-of-age and under.

Subject for the poster contest is "Resource Conservation," with any phase relating to the local SCS.

SCS Districts are concerned with soil and use and treatment; erosion control practices; crop range and pastureland management; irrigation water management; drainage problems; watershed protection; flood prevention; fish and wildlife management and promoting the involvement of all citizens in conserving soil, water and relate renewable resources, SCS Director Van Mills stated.

The top three entries will receive trophy awards.

"Conservation – Our Best Insurance" will be the theme of the essay contest.

The title includes the general concept that soil and water resources of this nation are vital for providing us with the necessities of food and shelter, but it is not limited to this only.

SCD Districts are engaged in the effort to carry out a local conservation program that meets the needs of the nation's oil and water resources for continued productivity.

Mills said that the winners of the Essay Contest will receive $20 for first, $15 for second and $10 for third place.

Because this is an open contest, it will not jeopardize Texas Interscholastic League eligibility, stated D.M. Smith, vice chairman of the board of directors.

All entries must be mailed to Mitchell Soil and Water District, P.O. Box 910, Colorado City, Tex., 79512 or delivered to the SCS Office in the G-Kell Building on the Snyder Highway by Jan. 25, 1981.

Posters and essays will be judged in the district and each district championship poster will be sent to Temple for selecting the Regional Champions.

For further information, contact the office at 728-3473.
