Q. What is going to be done about the dangerous eyesore—the D&S Cafe building across from CNB drive-in? And When?

A. The City is working on the problem now with efforts to determine who owns the building. City Manager Brenda Hammond said the Small Business Administration was contacted last week, who said the building belonged to Frank Conard. When contacted, Frank Conard said it had been turned over to SBA. Attorney Frank Conard, Jr. is checking on the legal ownership now. As soon as determined, the owner will be required to raze the building or the City will clear the debris and charge the costs to the owner. Hopefully the eyesore can be removed within a week or two.

Enrollments increase in local schools

Increases were reported in all three of the Mitchell County School Districts Tuesday, the first day after the Labor Day holiday weekend.

Colorado City Schools picked up 32 new students, to bring the current enrollment to 1,320, up from 1,288 on the first day of school last Thursday, Sept. 1. An increase was registered in each of the Colorado City campuses: Kelly 345, up 13; Hutchinson 311, up 5; Middle School 313, up 4; and high school 351, up 10.

Loraine Independent School District picked up 6 new students, bring the current total to 230. Westbrook Independent School District gained 1 to 191.

This brings the total enrollment in the three Mitchell County schools to 1,741.

Local horse earns prize at Ruidoso

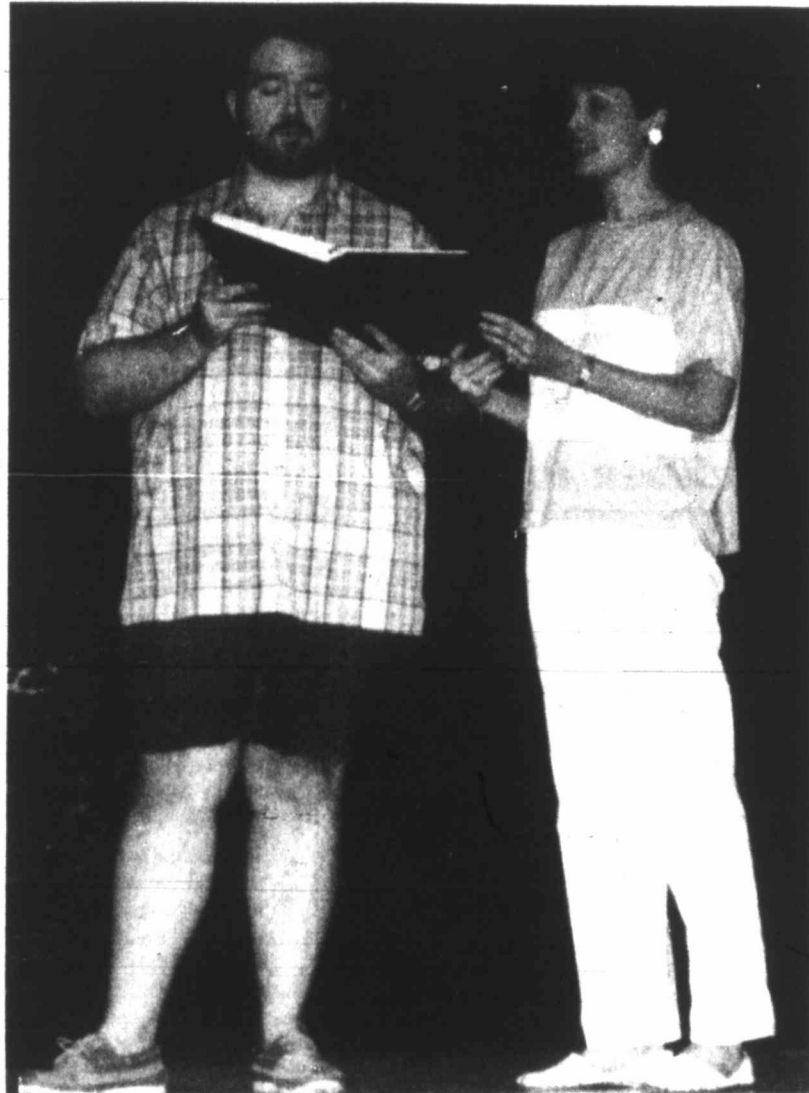

Zevistator, a 2-year-old speedster, wearing the colors of Via L. and Marvin Mayfield, Jr. of Colorado City, placed fourth in Second Consolation race of Ruidoso Downs' All American Futurity run last Sunday.

Ridden by jockey Steve Fuller, the fourth place finish in the second consolation earned \$16,250. The 440-yard dash, worth \$290,000 in purse money featured ten of the fastest 2-year-old quarter horses in the country. The consolation race preceded the running of the richest quarter horse race in the world, Ruidoso Downs' \$2 million Labor Day classic, the All American Futurity.

Firemen calls

Colorado City firemen were called at 11:53 a.m. Tuesday, Sept. 6, to Truck Town on IH 20 service road where a car was reported on fire.

The local firemen were also called to participate in a search for a patient who had disappeared from Valley Fair Lodge last Sunday. The search was called off about about and hour and a half, after the lady was found hiding at the rest home.

Pork vote ends today

Today, Thursday, September 8, is the last day for pork producers to vote in the pork checkoff referendum. Voting is taking place at the County Agent's office in the County Courthouse Annex.

The present pork checkoff provides funding for the many promotion and research programs that benefit pork producers.

Any person who has raised two or more hogs for sale since November 1, 1986 is entitled to vote.

The National Pork Board, made up of 14 pork producers and one importer, is responsible for the collection and disbursement of funds collected under the pork checkoff program. Acting on recommendations from producer policy development groups, the National Pork Board determines how checkoff dollars are utilized in the areas of pork promotion, research and consumer education.

Approximately 70% of checkoff funds are invested in major promotion programs that reach

millions of consumers each year. High voter turnout in the referendum will help ensure the continued funding of highly successful programs like The Other White Meat campaign and development of the America's Cut premium boneless pork chop.

Recent independent surveys indicate that the checkoff is favored by over 70% of pork producers.

12 fire calls during August

The Colorado City Volunteer Fire Department responded to twelve calls during August.

Included were 2 vehicle fires, 1 tank fire, 3 grass fires, 4 false alarms, 1 trash fire, and fire in a hot water heater.

Ten of the fires were to rural locations and two were inside the city limits.

Through August the fire department has received a total of 177 calls.

Kennett Simmons honored by HMO industry

Kennett L. Simmons, vice-president and Chief Executive Officer of United Healthcare Corporation, has been recognized as a gold award winner in the health maintenance organizations industry.

Simmons was a 1959 graduate of Colorado High School and is the son of the late Edna Simmons.

Simmons was cited by the Wall Street Transcript for his unique insight into the healthcare business. He has been in the business for twenty years and he's one of the few CEOs who have experience both on the insurance and the HMO side. His good job of communication and abilities as a professional manager is proving to be a big advantage to United Healthcare.

LONG TERM CARE INSURANCE: BUYER BEWARE

by Jim Firman

Do you sometimes worry about how you will pay for nursing home care or for help at home if you should need it? Do you wonder whether or not you should buy a long term care insurance policy? You are not alone. Millions of older Americans and their families are wrestling with these very same concerns.

Here's why:

- Medicare does not pay for long term care. Less than 2% of all nursing home bills are covered by Medicare. The so-called "Catastrophic Bill," that expands Medicare coverage for extraordinary hospital and drug bills, does not do much of anything to improve coverage for long term care.

- Medicaid does pay for nursing home care, but you have to go broke first to receive it. To qualify for Medicaid, you will have to spend down almost all of your assets and your spouse will have to live on a very restricted income. Home care coverage under Medicaid is extremely limited and sometimes it is hard to get admitted into a good nursing home when you're on Medicaid. However, until something better comes along Medicaid is the only real public option available to most older persons.

- Medigap policies don't cover long term care either. We have carefully analyzed more than 125 Medigap policies now being sold and none of them provide any substantial coverage for long term care. Many policies claim to have "skilled nursing care benefits," but by and large these benefits are tied to Medicaid payment and are virtually worthless.

What about private long term care insurance policies? Almost all of the major insurance companies (and many fly-by-nights as well) are now marketing them. Although today's policies are slightly better than those offered a year ago, they are still not good buys. Most of these policies have several major flaws:

- Even if you buy a policy, there is a substantial risk that you won't be covered for a long term nursing home stay. The limitations and exclusions in various plans are so severe that many people won't ever be able to collect. We are now analyzing more than 60 private long term care insurance options being sold to older persons. Here's what we're finding: depending on the policy, you run a risk of between 25% to 80% that various restrictions and limitations will exclude you from ever collecting any benefits if you go to a nursing home.

- The actual coverage provided by most plans is inadequate. Most plans provide a daily cash benefit that does not increase with inflation. In other words, you buy coverage that will pay you \$20, \$40, \$60 or more per day. However, the nursing home that now costs \$70 per day may cost twice as much by the time you need it. Your policy may cover only a small part of your actual nursing home bill and may even mean that you will not be eligible for Medicaid!

- Current long term care insurance plans are very expensive. Today the cost of the plans that provide at least \$70 a day in coverage range from \$500 to \$5,000 depending on your age. But you have no guarantees about what will happen to your premiums in future years. Most companies reserve the right to raise premiums as much as they want.

- Home care benefits in current plans are misleading and will not be of much real help. Our analysis of long term care policies indicates that the home care coverage in most plans is mostly a lot of hype. Most plans provide only a little more than Medicare covers anyway.

Until and unless companies offer long term care insurance that provides a lot better coverage, has fewer restrictions and limitations, provides benefits that are indexed to inflation, and has reasonable premiums that cannot be raised through the roof, we advise most people: "Put your money in the bank, instead of buying a Long Term Care policy."

There must be, however, ways that we as a society can protect ourselves from the crushing financial burdens of Long Term Care.

North of the border, in Canada, they've solved the problem. Canadians get good Long Term Care protection as part of Canada's Medicare system. Just about every Canadian—not just the very rich—can afford Long Term Care protection. ■

Voter registration rally scheduled

LULAC (League of United American Citizens) will be working with Southwest Voter Registration Education Project to conduct a non-partisan voter registration education drive in Colorado City.

"Voter registration and turnout in the United States has been dropping since 1960," said Julian Mendoza. "If this trend continues,

it is conceivable that in the near future, less than 50 percent of the electorate will vote in a presidential election. This, indeed, would be a sad day in American history."

As the world's strongest democracy, the United States should have a higher registration and voter turn-out rate, the group

believes.

In order to do something about the problems, the group has organized a volunteer registration drive under the auspices of the Southwest Voter Registration Education Project (SVREP). The objective is to increase voter registration rates by using volunteers on a door-to-door basis.

The SVREP is a 501(c)(3) private, non-partisan, non-profit organization, with headquarters in San Antonio. Its work in 13 western states receives no federal, state or local funds. The full budget of the organization comes from the public at large, churches and foundations.

A rally will be held Saturday, Sept. 10, at 9:30 a.m. at SVREP's office located in the 100 block of Concho and Second Street, across from the Gazebo (park).

For more information, call 728-8967 or 728-8302.

HEALTH AND SAFETY

COLORADO CITY CODE, Sec. 10-15 states collections mandatory for the removal and disposal of all garbage, weeds, rubbish, brush, refuse, and other waste materials to be levied by the City of Colorado City against all owners, occupants, tenants, or lessees using or occupying any building, house, or structure. Since the proper and prompt removal of all garbage, weeds, rubbish, brush, refuse, and unsanitary matter of whatever nature is essential to the preservation of public health and safety.

Section 10-17 states that it is unlawful for any owner, occupant, tenant, or lessee using or occupying a building, house, or structure as a separate unit to utilize the garbage containers or receptacles of another owner, occupant, tenant, or lessee of the disposal of his own refuse or garbage.

Garbage containers are required. The container shall be a watertight receptacle of solid and durable grade of metal, not to exceed thirty (30) gallons in capacity; the combined weight of the garbage and container shall not exceed one hundred (100) pounds. It shall be provided with suitable lifting handle or handles on the outside and close-fitting metal cover equipped with a handle. The container must not have any inside structures, such as inside bands, the reinforcing angles, or anything within the container to prevent the free discharge of the contents. Containers that have deteriorated, or that have been damaged to the extent of having jagged or sharp edges capable of causing injury to garbage collectors or other persons whose duty it is to handle the containers, or to such an extent that the covers will not fit securely, will be condemned by the City of Colorado City, acting through its Department of Sanitation; and if such containers are not replaced after notice to the owner or user of their defective condition, they will be confiscated.

Your City works for your health and safety; let's work together.

Letters to the editor

Muddy water

TO THE EDITOR: I would just like to express some of my thoughts on how our taxes are being spent in Mitchell County.

Thursday, Aug. 25, the Colorado City Record printed an article on how the City and County are going to spend \$9,000 on the airport north of Colorado City.

I just got to thinking, while I was taking a bath in muddy water that was coming out of the faucet, that maybe our elected representatives aren't representing The Silent Majority that elected them. I am talking about the majority that didn't vote in the past elections. The population of Mitchell County, by the last count, was 8,914, so we can say 2,414 voted in the election. That leaves 6,500 of The Silent Majority that elected the ones running for office by not voting!

We, The Silent Majority, don't think that we are getting equal treatment on the use of our tax money.

For two weeks we have drunk, bathed, and washed our clothes in muddy water while our Commissioners and City Council voted to spend \$9,000 on two buildings at the airport for pilots to sit in and shoot the bull, which will only be used once a year. Half of us, The Silent Majority, don't even know where the Airport is located, let alone have any use of it. However, it is our tax money that is being used.

We would like to see printed in the paper how much revenue the Airport brings in each year. In the article in the Record, it said Council asked for present and potential use of the airport. Will the four representatives ask each of us, The Silent Majority, how it will help us or will they only ask the very few that has an interest in flying?

Each person in Mitchell County knows that each precinct starts in Colorado City and that some of our tax money goes to each precinct we live in. The question is have you, The Silent Majority, ever asked your commissioners to cut the weeds on empty lots or grade a dirt or gravel street next to you, that the City doesn't seem to be able to do? We, The Silent Majority, who live in this small corner of each precinct and pay taxes don't seem to get anything in return.

Have any of you driven or walked down First Street this summer? We have the prettiest tall green weeds and Johnson grass that you won't see on our

precinct roads because our commissioners keep them mowed down.

It was just a passing thought, as I was taking a bath in muddy water, why couldn't the County and the City go together and fix our water mains where the water would be just as clear when we open a valve as the water in Lake Champion? We, The Silent Majority, who pay the most tax in the City and in the precincts, don't believe we are getting equal value for our tax dollar.

I have often wondered how come there are so many beautiful people in Colorado City. Then, I remember reading an advertisement in a woman's magazine how mud packs and mud baths will keep you young and beautiful, so I tried to enjoy myself while I was taking my muddy bath.

If all of you, The Silent Ones (6,500), would call your City Council members and your County Commissioners and let them know how they should use our tax money, or maybe 1,500 or 2,000 of us attend the next Council meeting and the Commissioners Court, I believe we would get their attention.

Utility Service

TO THE EDITOR:

This letter is written to inform the public regarding the rules and regulations of the Southwestern Bell Telephone, the Lone Star Gas Co. and the Texas Electric Co. concerning restoration of service after an absence.

I live in three states, but I am a legal resident of Texas. I have one phone in Louisiana, two in Mississippi and three in Mitchell County: one at 827 Elm St., one at my ranch headquarters and one at my guest house "Windy Hill". It has been my custom to make two and sometimes four trips a year between Colorado City and Natchez, Mississippi, a distance of 6,750 miles. If I am to be away from Elm St., I sometimes have the services put on vacation rates, and sometimes disconnected and depending on the length of my absence, left on. When I left here the last time it was my intention to return in about three months. Unfortunately, I was away from January, 1987 to August 1988, due to bouts with pneumonia twice, and two heart attacks. I planned to return this year in time

for the Old Timer's Reunion at the very latest. The latter part of July, I received word that my aunt, Dera Winn, was to have major surgery. She is 92 years old and I decided to come back at once. Therefore, I called a friend and asked her to call the utilities and have the phone electricity and gas turned on. I had left the water on so the yard could be watered.

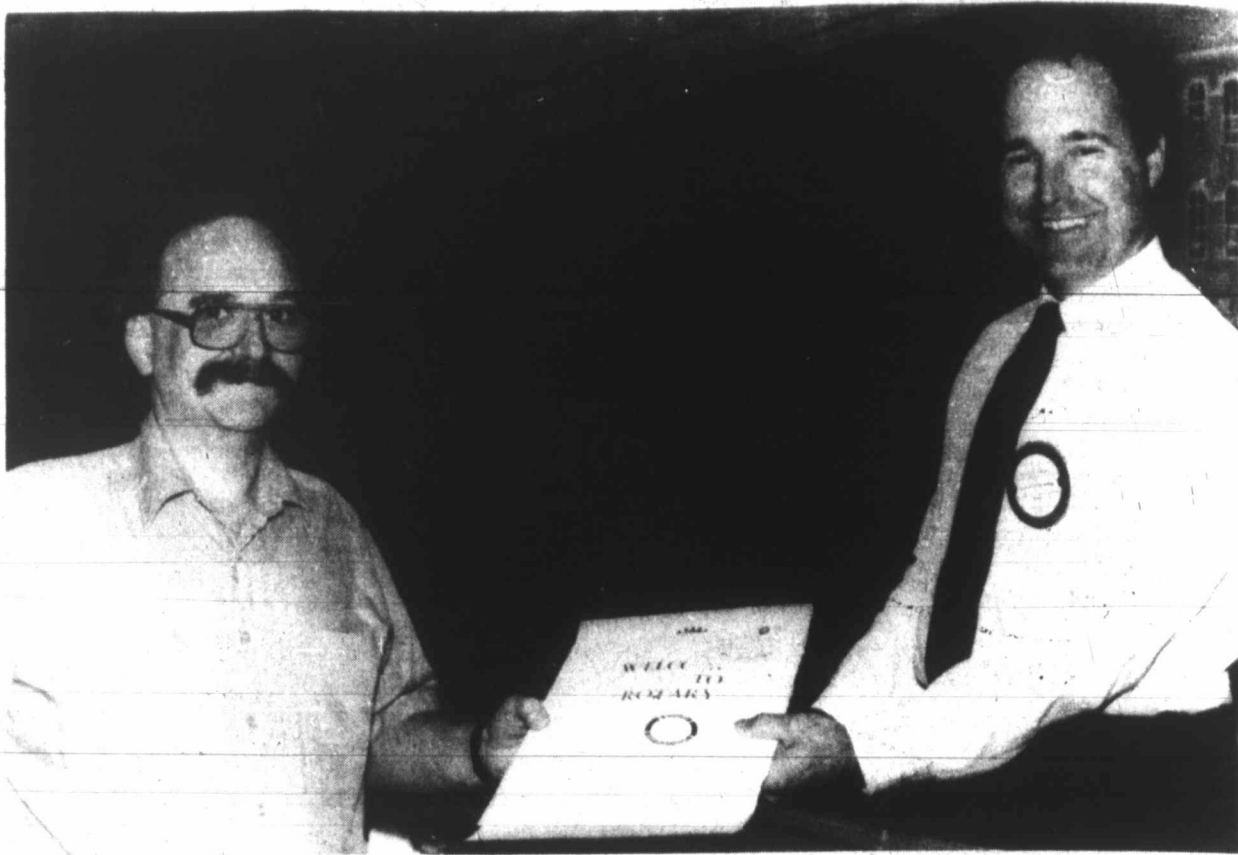

A call came back with the news that all the meter boxes had been removed from Elm St. and the gas meter dug out of the ground. I could not believe this. Upon further inquiries, I learned that to restore these services I would have to do the following:

(1) Have a certified, qualified electrician get a "box", install it and make a "loop" on the electric line at the telephone post.
(2) Pay \$60 each for phone service at Elm St., and "Windy Hill" at the ranch.
(3) Have the gas meter replaced at Elm St.—a charge for this replacement.
(4) The water meter had been bypassed and the water turned off. I had not known this until later.

After multiple prime day rate phone calls, I authorized the electrician to get the box, make the loop and get the service restored. This costs \$588. Finding the right electrician was not easy for me. After more phone calls, I found this area phone company person. She verified the installation charge of \$60 per phone. I told her I could not pay it, that I had not received any noticed of cancellation of service by any method of communication. I also told her that my family had had phone service in this county for one hundred years, since my grandfather had sent to East Texas to get the poles to make a private and only line to his 96 Ranch, south of town. After checking details of my life, she said that service would be restored after five days. It was not. She also told me that my phone number, I had had for many years here, had been given to someone else, and my listing for two phones had been removed from the phone directory. Now my check books, my Christmas cards and other business memos have the numbers wrong, and I have a new number, which no one knows.

The gas company restored the gas, but charged a connection fee also. A call to the Mayor got the water turned on immediately. This bill had been bank drafted all the time, after the winter months to keep the yard watered.

Cynthia Mae McAdams, 90, of Loraine died Saturday, Sept. 3, at her home.

Funeral services were at 10:30 a.m. Monday at the Loraine First Baptist Church with Rev. Rick Alkire, pastor, officiating. Burial was in Loraine Cemetery under the direction of Kiker-Seale Funeral Home.

Born May 15, 1898, in Nimrod, she was a housewife. She married K.C. McAdams Sr. Oct. 26, 1913 in Loraine. He preceded her in death on Sept. 6, 1967. She was a member of the Loraine First Baptist Church.

Survivors include four daughters, June Cooper, Dorris Jones and Catherine Barr, all of Hobbs, N.M., and Joan Merket of Loraine; four sons, Sid McAdams of Spearman, Clifford McAdams of Loraine, Weldon McAdams of Sand Springs and Durwood McAdams of Perryton; three sisters, Beulah Cox of Colorado City, Helen Boyce of Midland and Treva Scown of Monahans; a brother, Sidney Compton of Colorado City; 35 grandchildren; 56 great-grandchildren; and 6 great-great-grandchildren. She was preceded in death by four children. Grandsons were pallbearers.

Navy recruit completes training

Navy Seaman Charles W. Alsobrook, son of Jerly L. and Sue G. Dossey of Colorado City, has completed recruit training at Recruit Training Center, San Diego, Calif.

During Alsobrook's eight-week training cycle, he studied general military subjects designed to prepare him for further academic and on-the-job training in one of the Navy's 85 basic fields.

Alsobrook's studies included seamanship, close order drill, Naval history and first aid. Personnel who complete this course of instruction are eligible for three hours of college credit in the Physical Education and Hygiene.

He joined the Navy in January, 1988.

Sign language course offered

SNYDER - Sign language for communication with the deaf will be taught in a 36-hour course starting Sept. 12 at Western Texas College.

Classes will meet from 6:30-9:30 p.m. on Mondays through Nov. 28 with Ellen Rumpff as instructor. Fees will be \$53.87 including the cost of the textbook.

Handicapped students have special needs

Henderson completes Navy recruit training

Navy Seaman Recruit Terry W. Henderson, son of Tommie D. Henderson of Colorado City, has completed recruit training at Recruit Training Command, San Diego.

During Henderson's eight-week training cycle, he studied general military subjects designed to prepare him for further academic and on-the-job training in one of the Navy's 85 basic fields.

Henderson's study included seamanship, close order drill, Naval history and first aid. Personnel who complete this course of instruction are eligible for three hours of college credit in Physical Education and Hygiene.

A 1987 graduate of Colorado High School, he joined the Navy in June, 1988.

Texas has the second largest handicapped student population in the nation, serving approximately 370,000 students in special education programs.

Every handicapped child is entitled to what the federal law calls a "free, appropriate public education."

According to Eugene Lenz in the special education programs division at the Texas Education Agency, a child is eligible for special education classes if he or she has a physical, mental or emotional handicap that requires special services in place of or in addition to instruction in the regular classroom.

Before a child is placed in a special education class, the child must be referred for diagnosis by a parent, teacher or other person. State law requires a school district to diagnose a child within 60 days of the referral.

The child is diagnosed with a battery of tests which may include an IQ and achievement tests.

When the testing is completed, a committee made up of the parent, a school principal or other administrator, a teacher, a representative of the assessment team and a representative of special education meets to decide if the child needs special education and design an appropriate education program to meet the student's individual needs. This committee is called the admissions, review and dismissal (ARD) Committee.

In Texas, there are more than 350 special education programs which consist of single district programs and cooperatives. Cooperatives (co-ops) are formed by smaller rural districts so they are able to offer a comprehensive service system to their eligible students.

Each eligible child has his or her own individual program designed by the ARD committee and is called an Individual Education Plan (IEP).

The IEP identifies that child's specific needs, states the amount of time a child will spend in special education classes, sets goals and objectives and establishes

criteria and a timeline for accomplishing those goals.

"The IEP is that child's educational road map," says Joan Shirley, an education specialist in the division of special education programs at the Texas Education Agency. "By law, the child's IEP must be reviewed twice annually to see if progress is being made."

Shirley says special education classes are more intensive than regular education classes, often involving reduced teacher/student ratios for individualized instruction, and must be taught by a certified special education instructor.

Instructional arrangements vary, but Lenz says 70 percent of the children in special education in Texas attend classes in what are called "resource rooms." The student spends less than half a day in the room and receives individualized instruction from a special education teacher.

Children with all kinds of handicaps may qualify for special education in Texas. These handicaps include deafness, blindness, mental retardation, speech handicaps, learning disabilities, orthopedic handicaps, autism, and emotional handicaps. Student handicaps range in severity from mild to profound.

Officials with the TEA say there is a critical need for certified special education teachers throughout the state. It is estimated that Texas universities produce approximately 400 fewer teachers than are needed to serve special education students.

A recent major change in the education of the handicapped is in the way residents of the State Schools for the Mentally Retarded are educated. In 1985, a federal court ruled that separating residents of the state schools from their non-handicapped peers in the public schools deprives these children of an equal education. Since then, more than 500 residents of the state schools, many of them multi-handicapped and wheelchair-bound, have been transported to and from their local public schools.

All in all, this has been a trying time and I am very angry about it. The cost of these ridiculous regulations was over \$800 and all the bills are not in yet.

If Colorado City is striving to be a great place for retirees, I must warn them of what they will be up against.

The franchise rights of these utilities should be reviewed and rewritten, in my opinion.

This is my real home. I have property here. I pay taxes, and do not complain. I lend my support to community projects. I spend large sums of money here. As a citizen, I believe we need better treatment from the utilities. They are big and maintain lobbyists in Austin to protect and enlarge their interests. We are little and don't protect our interests. It may not be possible. This town has lost many dollars by the "do nothing" interests. I have no power here, except to complain. But I think things could be changed by more effort by the community.

Wolves devour Alpine Bucks, 27-0

ODESSA-The Colorado City Wolves were looking for a good start to their 1988 football season here Saturday night; they got one to the tune of 27-0 over the Alpine Bucks in a class AAA non-district contest played at sparkling Ratliff Stadium.

Colorado City had played tough defense in scrimmages against Stanton and Snyder and looked for more of the same against the Bucks of district 4-AAA. They Wolves did just that-taking control of the Alpine offense early in the game and only

choking the Bucks even further as the game progressed.

It took the Wolves' offense just a little longer to get untracked but then it was off to the races.

Colorado City received the opening kickoff but both teams punted away their first two possessions. Hits by linebackers Jerry Hulme and Jesse Franco stopped the first two Alpine drives.

The Bucks started their second drive at the Colorado City 48 after a high snap and short punt by the Wolves.

Fullback Abel Losoya got the Bucks to a first and ten at the Wolves 23. The Bucks got only two more yards on four attempts as a fired-up Wolves defense made it's stand. Colorado City stopped the Bucks on fourth and eight at the Wolves' 21 with :52 left in the opening period. The Wolves then went 79 yards in 16 plays to take a 6-0 lead.

A 16 yard run by quarterback Chris Perkin made it first and ten at the Colorado City 39. Facing third and six at the 43 Perkin ran left then pitched to running back Pat Tillis for 14 yards and a first

down at the Alpine 29.

Tillis and fullback Beau Rees took turns carrying from there. Rees had his number called on third and one at the 20 but fumbled after getting the first down. A teammate recovered, however, to make it first and ten at the 16.

An 8 yard run by Perkin, a 1 yard run by Tillis and a 5 yard gain by Rees made it first and goal at the Alpine 4. 3 and 1 yard runs by Rees put the Wolves in the endzone with 6:12 left in the first half. Dane Hoover missed the extra point kick.

Alpine managed just eight yards on their next possession before punting away. The Wolves then began a drive of their own at the Colorado City 32.

Tillis broke loose wide left on first down for 14 yards to the 46. Rees fumbled again on third and two at the Bucks 46 after gaining 16 yards but again was saved by a teammate's recovery.

Tillis got the next third down with four yards needed at the Alpine 24. Tillis was hit short of the first down but made it on a strong second effort.

The offensive line opened a big hole for Rees on the next play for a 15 yard gain and a first and goal at the 5. 4 and 1 yards runs by Rees spelled paydirt for the Wolves with :22 left in the half.

With Hoover in the huddle after the score it looked like the Wolves would try another PAT kick. Alpine must have had the same thoughts because Perkin found Hoove wide open the endzone for two points and a 14-0 lead.

Darvin Jackson put a big hit on Losoya on the third play of the second half; Losoya fumbled and Sammy Contreras recovered for the Wolves at the Alpine 19.

Colorado City went for it on fourth and three at the 11. Perkin rolled left, planted, then found

Ray Rivera in the endzone for a touchdown with 9:24 left in the third period. Hoover's PAT kick was blocked-leaving the score at 20-0.

From then on the Bucks were at the mercy of the Wolves defense. The Wolves got the ball back just three plays after the Perkin-to-Rivera score.

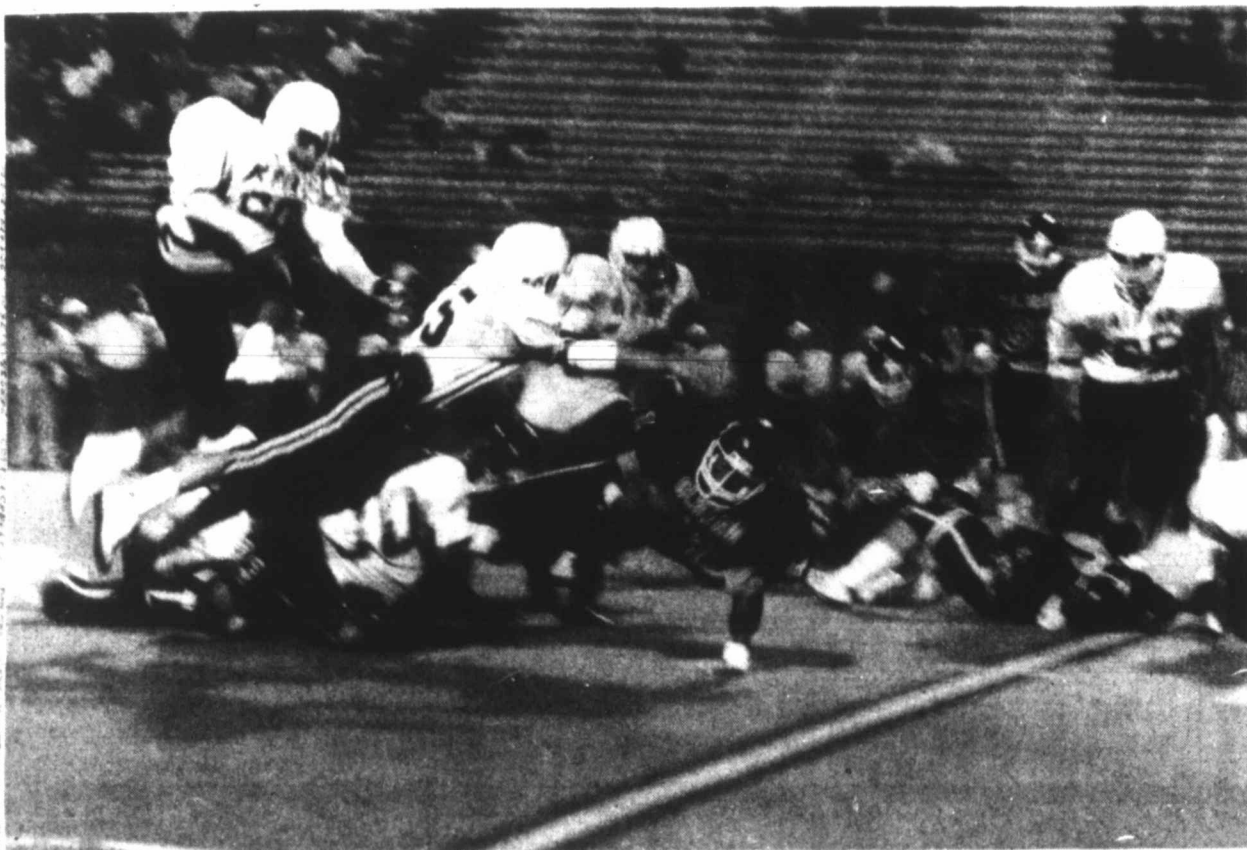

Colorado City set up at the Alpine 48. Perkin ran left on first down and pitched to Tillis who sprinted around the defense for an apparent touchdown, but officials ruled Tillis stepped out at the five.

Tillis got another shot on the very next play and muscled his way in for the score with 7:12 left in the third period. Hoover kicked the PAT for the final 27-0 count.

Alpine threatened early in the final period-reaching the Colorado City 9 yard line. It was not a night for scoring on the Wolves, though, as the threat ended on a Losoya fumble recovered by Rees at the Colorado City 5.

The Wolves showed they had plenty left as they marched 73 yards in 10 plays to reach the Alpine 22. The drive ended there on a center-to-quarterback fumble.

Wolves free safety Mark Russell made the last big play of the game with an interception of Bucks quarterback Albino Bara. Russell returned the steal 17 yards to the Alpine 43 where the Wolves ran out the clock and turned their attention from Bucks to Indians.

PAT TILLIS(center) lunges for extra yardage during the Colorado City Wolves 27-0 season-opening win over Alpine at Odessa Saturday.

Indians next for Pack

Seminole of district 3-AAA finished the 1987 football season at 2-8 but is looking for much better things in 1988 with almost every starter back for the Indians.

Such experience will almost certainly present the Colorado City Wolves with a bigger challenge than did the Alpine Bucks.

While Colorado City was smothering the Bucks 27-0 at Odessa's Ratliff Stadium Saturday the Indians were at home trashing the Coahoma Bulldogs 28-6.

The teams meet at 8 p.m. at Wolf Stadium Friday in week two.

"It turned out pretty well," said Wolves head coach Tom Ramsey. "The kids came through that had to for us to have a good game."

"We had trouble moving the ball in the first quarter," said Ramsey. "We had to make adjustments in the offensive line schemes. Actually they just shifted into a higher gear the second quarter."

"We gained control in the second quarter and when we made it 27-0 in the third quarter we felt we were in total control."

The Wolves got an expected strong showing from their defense and a slow starting but also strong showing from their offense. The Wolves allowed 122 yards on the ground and zero yards through the air while rushing for 293 yards and passing for 18 more.

Alpine made only 6 first downs to Colorado City's 18. Wolves fullback Beau Rees ran for 128 yards while running back Pat Tillis neared 100 himself.

The Wolves suffered only one turnover and gathered two Alpine turnovers (Sammy Contreras fumble recovery and Mark Russell interception). Colorado City was not penalized in the game. Such play usually isn't displayed until midseason form.

"We started playing pretty well defensively," said Ramsey, "then pretty well snuffed them."

Ramsey said the coaching staff hadn't made a thorough evaluation of the game because they had yet to view the game film. "I

can't tell you who played a good ballgame until we see the film," said Ramsey. "We try not to comment until then."

"The first ballgame your kicking game is not as far along. Your kicking and passing gets better throughout the season. It was the first game he's (quarterback Chris Perkin) started and the first game for the linemen. Our concern was with the new kids."

"I feel line we're going to have a good defense this year," said Ramsey. "We've got pretty good quickness."

The Seminole Indians officially list 8 starters back on offense and defense but return 10 and 11 players, respectively, who started at one time or another. Six players started both ways.

Quarterback Steve Vargas returns as do his main targets and running back Jerold Hill, who is listed as a possible All-Stater.

Ramsey said Tuesday that he doesn't expect the Wolves to be caught by surprise. "You just plan each day and have to accomplish

so much each day," said Ramsey. "You just plan and execute it. We're preparing for Seminole and will go on. The kids are the same way. We move on, each week's different."

"Seminole's going to be a pretty good team," said Ramsey. "They're bigger than us but we might have an edge in speed. They use the I formation and have a good tailback and quarterback."

The Wolves matched up well against Alpine in size but that will probably be the exception in 1988. "They had one or two big kids," said Ramsey. "It will be interesting how we match up big on big in the trenches (against Seminole)."

DEFENSE! Wolves high-five after putting another stop on the Alpine Bucks Saturday.

Lady Wolves beat Buena Vista

The Colorado High School Wolves got their first volleyball victory at a Seminole tournament over the weekend.

After a first round loss to Lubbock Coronado the Lady Wolves beat Buena Vista before being eliminated by Brownfield.

"Against Brownfield they played as good as I've seen them play," said coach Kathy Marshall. "I think they did pretty good."

Colorado City lost to Coronado 15-3, 15-1; beat Buena Vista 15-

12, 15-5; and lost to Brownfield 15-2, 15-7.

Service points were Kendra Ritchey 11, Denise Lowrance 9, Laura Alvarez 8, JoAnn Ornelas 7, Amy Chitsey 5 and Monica Hamilton 3.

"I think we looked good," said senior Laura Alvarez. "We can do it, we just need to talk a little more. Our passes were a little bad. Coronado was just too tall. We played better like we do in practice but we just freeze up

sometimes in the games. Brownfield had only one good player but she spike from the front and back row, too."

"We're all capable of spiking," said Alvarez. "We just need to come together."

"We get down to easy," said Kendra Ritchey.

"When we get ahead we get too confident and they come back on us," said senior Monica Hamilton.

Bulldogs beat Lueders-Avoca

The Loraine Bulldogs made mince out of Lueders-Avoca in their 1988 Sixman football season opener Friday night and hit the road again this Friday against Dawson.

Loraine killed Lueders-Avoca 50-0 and almost won the game in one half of play. After taking a 44-0 halftime lead the bulldogs scored with 4:11 left in the third quarter to stop the game because of the 45 point rule.

Any sooner and there would not have been an audience for the halftime show.

Casey Cooper began the slaughter with a 12 yard scoring pass to Joey Lujan with 6:30 left in the first quarter. Shawn Finley kicked the point-after-attempt for an 8-0 lead.

Rudy Sanchez scored on a 2 yard run with 3:47 left in the first

period and Finley again kicked for a 16-0 lead.

Finley then scored three consecutive second quarter touchdowns to make it 38-0. They were a 15 yarder at 9:32, a 63 yarder at 5:10 and a 3 yarder at 2:49.

Sanchez scored on a 13 yard run with :13 left in the half to make it 44-0.

Sanchez scored the third quarter score on a 20 yard run.

"The kids looked like mid-season form," said coach Tommy Meredith. "It took us less than five plays to score."

Finley finished with 150 yards on 8 carries while Sanchez ran for 115 on 11 carries. Josell Williams ran once for 30 yards.

Cooper completed 1 of 4 passes for 12 yards and the score. Sanchez completed 1 of 4 for 40 yards. The Bulldogs had 295

yards rushing and 52 passing.

"We held Lueders to a minus 23 yards on the ground and to 51 yards passing for a total of 28 yards," said Meredith. Loraine made 15 first downs to 3 for Lueders-Avoca.

Leading tacklers for the Bulldogs were Sanchez with 12 stop, 4 unassisted; Finley 10 stops, 5 unassisted; and Williams 7 stops, 4 unassisted.

"We didn't have to punt once," said Finley. "I thought they had a pretty good little club but the kids take pride in their defense. We need to work on our pass defense. They were open some but didn't get it to their receivers."

As for Dawson, Meredith said "They lost 16-6 to a team on a 12 game losing streak. They're about our size and pretty scrappy on defense. That's all I know."

Loraine News

Loraine Personals

...by Lois Phillips

Leslie and Diane Bruce and their son Ryan of Lubbock visited with parents and grandparents Ronald and Nelda Bruce.

Greg Bruce of Stanton visited with his entire family on Sunday.

Visiting with Ann Browning this weekend were her kids from Ballinger. They are Billie, Ruth and Rita Kelly.

Reports are that Mabel Graham is doing nicely after undergoing surgery a couple of weeks ago in San Angelo.

Homecoming has been set for October 21. Royce and Neysa Beights are president and secretary-treasurer. I have offered my assistance such as it is. If you know of someone who has not been invited in the past, then please call me at 737-2265. Give me the name and address and I will see that it gets to where it should go.

Let's talk up our homecoming and get a big crowd out this year. Our football team probably put on one of their better shows, so let's all be there.

Visiting Ted and Lula over the weekend were Bill and Lela Bowles of Rulc. This was their first trip to Loraine since they got home from Harlingen where Bill goes during cotton ginning season.

Donnie Mack Bowles and his family also visited in the Lefevre home.

Lela Bowles attended Jennifer Hackfeld's bridal shower while she was here.

Royce and Neysa took their grandkids to San Antonio to Sea World recently. They stayed several days and enjoyed it very much.

Saw my favorite little lady at church Sunday morning. I always enjoy her. She is none other than Vada Preston and she is very special to me.

Also saw Mrs. Joe (Gladys) McGee Sunday morning. It has been a while since our paths crossed.

Roy Yarbrough of Nolan visited Vera Carpenter at the

Loraine Nursing Center last week.

Mr. and Mrs. Jim Griffin of Corpus visited her mother Madaline Cline last weekend.

Mrs. Roxie Sotes of Hermleigh visited Nannie Hallmark recently.

Nancy Davenport of El Paso visited Miss Nannie last Sunday.

Crystal Lane visited Mr. and Mrs. Tom Lane of Harrodsburg, KY recently. Chrystal Lane lives in Colorado City.

Mr. and Mrs. Louis Elliott of Colorado City visited Mrs. Elliott's sister Clara Butler last Sunday.

I hear tell Jackie and Patsy Walker are to be grandparents again. They will join the Pratts, this time as Robbin has been assured that she and Greg will have twins. Good luck to Greg and Robbin and their two babies arriving soon.

I forgot to tell you last week that our pastor and his family are home from Washington where they visited Debbie's parents a couple of weeks.

Among other things I forgot was that our Methodist pastor has his kids home after almost three months absence. They went to New Mexico with their grandmother when school was out and visited here and there the

rest of the summer. Welcome home kids.

Ross Pratt was here last Thursday and Friday with his wife, son and twin daughters. They got to Woodrow and Hazel's house about the time all the fear, prayers and Thanksgiving over another grandson, Phil Zetsman.

We are very thankful for the outcome of this ordeal for the Pratts and Zetsmans. I am sure everyone knows by now that Phil was on the plane that crashed at DFW airport last week. What could have been a disaster for Phillip was a happy ending for him.

We have lots of sick people in our town and connected with our town. I don't know the latest on any of them so I can't report to you.

Mrs. Clara Butler has closed her house and gone to live at the Loraine Nursing Center. I sure hope she likes her new home, but I am sure she will.

Saw her daughter-in-law taking her home after church Sunday. Juanice has always taken good care of her. She had helped her dress and I am sure she looked beautiful.

Our football team is moving about rather swiftly and we are real proud of them, so get it all together on Friday nights and watch the "dogs" race the fields.

We also have a new coach and seems the kids like him real well.

Shower honors bride elect

Jennifer Hackfeld, bride-elect of Arthur Zuniga was honored with a bridal shower September 3 at the home of Mrs. Royce Beights in Loraine.

Gifts were displayed and shown by Cindy Hackfeld, sister of the honoree.

Sherry Chaney, sister of the honoree, served refreshments from a decorated table accented with the bride-elect's chosen colors of blue and ivory.

Hostesses for the shower were Mmes. Royce Beights, Lloyd Brame, Gene Britton, Howard Tartt, Donald Graham, Charles

Finley, Atwood Sheffield, Grady Mitchell, Hubert Meadows, Calvin Forbus, Dean Oliver, Rex McDaniel, Johnny Boyd, A. J. Barron, Ronald Bruce, Billy Cornutt, Earl Phillips, Juan Espinoza, Danny Butler, Herman Mitchell, Vance Dickenson, J. D. Clifton, George Martin, Pierce Givens, Delmar McDaniel, Robert Dale Finley, C. H. Hamilton, Theron Henderson, Shep Compton, Elmer Rainey, Mrs. Joan Merket and Donnie Phillips.

Guests were registered from Loraine, Colorado City, Rule and Lubbock.

Class of '79

The CHS class of 1979 will have a reunion meeting Thursday, 7:30 p.m., at Mac-Michaels.

All members are urged to be there.

Duffer, Allen united in marriage Aug. 20

Terrie DeeAnn Duffer of Big Spring and Kirk McEwell Allen of Big Spring were united in marriage Aug. 20 at a 7 p.m. ceremony at Midway Baptist Church, with Robert Turner, pastor of Oasis Church of Christ, officiating.

The bride is the daughter of Lester and Jeanette Duffer of Big Spring and granddaughter of Irene Edwards of Colorado City.

The groom is the son of Rocky and Gina Allen of Big Spring and grandson of Thelma Howell of Colorado City.

The couple stood before an altar decorated with royal blue and baby blue carnations, accented with bows.

Pianist was Joanie Wilson. Vocalist was DeAnne Carlilo.

The bride was given in marriage by her father. She wore a formal-length gown of organza and Chantilly lace, featuring a Queen Anne neckline and multi-tiered ruffle skirt that cascaded into a chapel-length train. A fingertip-length veil of illusion, edged with Chantilly lace, completed the ensemble.

She carried a Bible and a bouquet of white and blue orchids, accented with lace.

Maid of honor was Amy Lawhon of Coahoma.

Bridesmaids were Geri Hodnett and Joyce Duffer, both of Big Spring.

Flower girl was Ashley Dean of Big Spring.

Best man was Terry Whetsol of Forsan.

Groomsmen were David Gross and Rocky Grissam, both of Big Spring.

Ushers were Kerry Allen, bridegroom's brother of Big Spring, and Pat McMahon.

Ringbearer was Lester Duffer, bride's brother.

After the wedding, a reception was hosted at the church. A three-tiered white wedding cake, decorated with blue flowers, was served at the bride's table. The table was decorated with a bouquet of flowers. The bridegroom's table featured a German chocolate, horseshoe-shaped cake.

Special guests were Leona Allen, Irene Edwards, Thelma Howell and Les and Sybil Duffer.

The bride will graduate from Coahoma High School in 1989.

The bridegroom is a graduate of Forsan High School. He is employed by Greenbelt Properties.

After a wedding trip to the Dallas/Fort Worth, the couple is at home in Big Spring.

Student success depends upon parental involvement

Research has proven that children's chances for success in school are much better when their parents get involved in their education.

So important is parental involvement to education, that the State Board of Education made improved parental and community involvement a major goal of its Long-Range Plan for Texas Public School Education.

To what extent a parent chooses to get involved makes little difference to a child's school success as long as the parent shows an interest, according to Joe Lopez, program director at the Texas Education Agency.

"There is some evidence that shows that it doesn't matter what level of involvement a parent takes as long as he or she supports what the school is doing," Lopez says.

Much of the assistance parents can give their children at home is developmental, says Lopez, and includes such tasks as teaching a child to count by using pots and pans or helping a child learn to read by selecting books at the library and reading them aloud together.

Lopez says that even parents

who may be undereducated themselves can still find many things they can do to help their children.

"These parents make a difference when they encourage their children to finish their homework, make sure they have a good breakfast and that they get to school on time and attend regularly," Lopez says.

In addition, the staff of the Texas Education Agency has prepared a list of some simple, everyday things parents can do to help their children succeed in school. These include:

*Speak to your child about the importance of a good education. Children should learn to respect school.

*Get to know your child's teacher and the school principal. It's important to meet your child's teachers at the beginning of the school year and let them know you care.

*Help your child's teacher by reinforcing the importance of following school rules to your child. Talk about discipline, especially self-discipline.

*See that homework is done every day. Check to see that homework is done correctly and provide a quiet place for your child to study. Be sure your child remembers to take homework to school each morning.

*Provide your child with breakfast each day and make sure your child is at school on time.

*Parents can also help their children become better readers. Become an example for your child by reading newspapers, magazines or books from time to time.

*Take your children to the library. Schedule trips regularly to get books for your child to read.

*Talk to your child often. Make your child a partner in all your conversations and encourage and praise your child often.

*Ask teachers to help choose books that are on your child's reading level. Read to your child and encourage your child to read aloud.

*Encourage your child to write. Writing is important to reading. Have pens, pencils, crayons and paper available.
