NEW FELLOWSHIP HALL

Haun Kite, Church of Christ minister, left, and Paul Williams, assistant minister, prepare for a meeting at the new multi-purpose Church of Christ Fellowship Hall. The building includes a kitchen, restrooms, and storage areas in addition to the meeting room. The Fellowship Hall is connected to the main building by a new covered walkway.

Church of Christ Plans Open House Sunday

The Church of Christ will have its open house for the new fellowship hall Sunday, September 30 between 2 and 4 p.m. Haun Kite, minister has announced.

The new fellowship hall is located on lots immediately west of the church, facing on Childress and 13th Streets.

Steve Davis was the contractor.

The overall size of the fellowship hall is 40 x 70 feet, with the auditorium being approximately 40 x 55 feet. The remainder contains the kitchen and rest rooms.

The pale brick walls match those of the church, and the two buildings are joined by a covered walk-way made possible when the church secured permission from the City for the alley dividing them to be closed between the lots owned by the church. In exchange, the church gave an easement along the north side of its lots connecting with the alley.

Construction began in May, and the fellowship hall has been in use several weeks, although the open house is the first public function to be held.

A construction cost was not released, although the congregation raised about half of the money before work started, Min. Kite indicated.

A building fund is presently established, to which memorials may be made or other donations given, he said.

The members have had this building in mind for several years, but definite plans did not take shape until after the beginning of 1984.

Members of the building committee are Dick Judd, Chester White, Jack Neeley and D.C. Thomason. Earl Feemster did the cabinetwork, paneling and trim, while Dickie Johnson stained and lacquered the trim.

Crippled Skyrockets Travel to Panhandle

An injury-ridden Skyrocket team, also with two scholastic ineligibilities, will go on its first road trip to Panhandle Friday night, Sept. 28.

They will meet the team that both Panthers and their boosters say is the best that Panhandle has ever had.

"We're eager to see if we can perform better than we did Friday night," said Head Coach James Williams of last week's loss.

Williams announced that Johnny Nash, running back and linebacker, and Jimmy Barber, wide receiver and defensive back, are the first to fall victims to the stringent new scholastic requirements for extra-curricular participation.

In addition the Rockets also lost Kenny Peeks, who is out with a concussion. Fullback Michael Mackey has a turned ankle and Kendall Harris has not fully recovered from a leg injury.

"So we'll be seeing a lot of freshmen and sophomores but we'll try to give them our best.

Panhandle was in district 2-AA with Wellington for the last two years, but due to realignment, they have been placed in class 1AA.

In the last two years, Panhandle won the District 2-AA title once and Wellington won the title once.

"So there has been a big rivalry between the Rockets and the Panthers," said Williams.

"This year's Panther squad has 17 seniors, all of them well known to the Rockets. Some of these are kids that have played the last three years, so they have developed everything experience can give."

Panhandle has among these outstanding boys Kevin Powers, all-state receiver; running back Wes Wood and quarterback Derek Holmes, 6-2 and 185.

Probably the Panthers outstanding lineman is Ron Fryear, but Bruce Skidmore is almost equally as talented.

As far as Panhandle's record, they started off with a win over Boys Ranch 14-3 and the next week played Borger, a 4A school and tied them 7-7. This past week Panhandle was defeated by Canadian 21-16.

Their strongest point is that they have a good defensive football team, Coach Williams points out. Offensively they have been trying to change some people around at quarterback and other positions, for the Panthers are a team that likes to throw the football right.

"As far as our situation is concerned, we are going in a game again in which we are awfully young compared to our opponents."

WTU, Cities Reach Rate Agreement

A settlement agreement providing an increase in base rates and a decrease in fuel cost charges has been reached in the West Texas Utility Co. rate case now pending before the Public Utility Commission of Texas.

A formal hearing scheduled for this week in Austin was cancelled after WTU, the PUC staff and intervenors on behalf of cities, including Wellington entered into a negotiated settlement on all issues involved in the rate case. A hearing is set for 3 p.m. Wednesday, Sept. 26 for submission of the written agreement, which must be approved and signed by the cities. The hearing examiner then will make a recommendation to the three-member Commission.

Under the agreement, WTU would receive an increase in basic rates of approximately $12.5 million. It will receive about $7.1 million less for fuel costs because fuel prices apparently have softened. WTU also will refund to consumers about $6.1 million in fuel costs over-collections during the past year, bringing the total fuel revenue reduction to roughly $13.3 million. The refunds will be reflected in customer bills throughout the coming year.

The effects on various classes of customers depends on details of the new rate design which were being worked out by Company

Child Care Center Gets $3,500 Grant

Collingsworth County Community Action Day Care Center received a $3,500 grant from the Corporate Child Development Fund. The grant will be used to employ a teacher to serve disadvantaged children of parents who are not working.

The center which is part of the Texas Panhandle Community Action Corporation of Amarillo, was established for the purpose of providing child care services for parents of low income and minority children.

Tessie Burba, director of the center commented, "Now we will be able to hire a needed teacher to help disadvantaged children with child development training, so they can begin school on the same level as their more affluent peers."

The Corporate Child Development Fund, based in Austin, channels corporate charitable funds to community-based organizations providing child care services. Christine Nichols, director of the fund noted, "We

Crop Tour Slated Oct. 4

The annual Collingsworth County Crops Tour will be held Thursday, Oct. 4, with visits to crop demonstrations in the Quail and Wellington areas.

The tour will begin at 9 a.m. from the courthouse. The Wellington School District is furnishing buses for the tour. Everyone who is interested is invited.

This is sponsored annually by the County Extension office and the Salt Fork Soil and Water Conservation District. Personnel of the two agencies are in charge of the tour.

Don Reeves, extension agent for agriculture and Tommy Powell of the Soil Conservation Service are in charge of the tour.

Specialists here to discuss the various tests will be Paul Goss, District I extension agent, who will explain the variety tests.

Dr. Frank Peter, Extension Service agronomist, will be here from the Research and Extension Center in Amarillo.

The tour will end at noon when a barbecue, furnished by the Collingsworth County Farm Bureau and Soil Conservation District is served in Ellison Park. Tour stops will be made at a goldaster control trial on the John Birkey farm 5 miles west of Quail, sage and shinnery oak control using Graslan and 24D at the Euris Phipps farm 7 miles north of Quail; a minimum tillage grain sorghum field at the Benny Carson farm 6 miles north of Quail; a grain sorghum variety test on Wood & Wood farms one mile north of Wellington and a Cotton variety test on the Troy Thomason farm at the north edge of Wellington.

The goldaster control program includes four chemicals tested side by side according to Reeves. It is being observed this time for control and will be observed again next spring.

Goldaster is a perennial noxious weed spread by rizomes and seed which is invading pasturelands of the area. At present, it is primarily in the western part of the county although some is found throughout the area.

"It will take over a pasture and seems to be spreading. That's what we're concerned about," said Reeves.

The sage and shinnery demonstration has had 24D spraying of the sagebrush and Tebutheuron in pellet form was used on the shinnery oak. Both demonstration plots were treated last spring, according to Powell.

"There is a sizeable acreage of each and we ought to be able to tell something about it," he said. Ron Gooch, Donley County extension agent will discuss the demonstration.

The minimum till or no till test at the Carson farm was planted in this year's wheat stubble and is, in effect double cropping demonstration.

It has had no tillage at all and weed control is with chemicals.

The response has been pretty good, say the tour sponsors. "There has been no till fields from time to time in the county, but this is the first time one has been shown on the farm tour," Reeves stated.

Interest has grown in recent years for two reasons: the need for energy conservation by eliminating gas or diesel costs, and the other reason has been moisture conservation by having stubble on the ground all the time.

"We are primarily interested in seeing people try new things. This is really catching on in other parts of the country," commented Powell.

The cotton and grain sorghum variety tests seek to establish those that are best adapted for this part of Texas. Several established varieties are included in each test-varieties that are known to work here. Three or four varieties that have not been used here before are included and a comparison can be made of each.

Local Option Proposal Dies

There will be no local option liquor election in Collingsworth County.

County clerk Helen Gollihugh said that she was notified Monday, Sept. 24 by those circulating the petitions asking for an election that they had been unable to get the required number of signatures on the petition.

Signatures of 477 qualified voters were needed on the petition, and Mrs. Gollihugh said she was told that only about half enough signatures could be secured.

The petitions were received on August 23, and those circulating them had 30 days in which to return the signed petition to the clerk's office. Monday was the last day they could be filed.

I Saw... by Virginia Robey

You never know what's going to happen when you come to Collingsworth County.

Tom Draper of Hereford, as much a Collingsworth countian as you can be without living here, was in town with his friend, Goose Ramey of Dimmitt recently. He told this:

Several years ago Tom and another friend was at the Draper place west of town and saw a good crop of wild grapes getting ripe. It gave the friend a Collingsworth County idea: set out more vines at the farm.

Why? Tom wanted to know with no one benefitting from them except the coyotes and birds. Why not plant them at Tom and Argen's place near Hereford. It was agreed. Tom had in mind 15 or 16 vines.

At present, the friend has set out 700 grapes. He isn't through yet, but there is a fine crop of grapes which is probably being harvested now.

It's becoming a commercial venture.

And that brings up something else.

John Brim was at the Drapers at Hereford to witch a water well recently. His method worked again.

If you saw Tommy Powell running, 6 miles a day, along the streets in the park earlier in the summer and wondered why, he was training for the 5th Annual High Plains Baptist Hospital road race in Amarillo recently, known among the runners as one tough 10-K.

Tommy says he knew all along he isn't in the winner class but he likes to enter anyway. He may surprise himself one of these times.

representatives and other interested parties. A new feature for WTU rates will be a summer-winter differential for residential and commercial customers. This will establish lower rates during the winter period, November through April, and higher rates during the rest of the year, which is the peak usage season.

The new rates will not go into effect until a final order is issued by the three-member Commisison. In WTU's last case, the hearing was held in September and rates became effective in January.

Kiwanis Hears of WTU Construction Progress on Oklaunion Power Plant

Walter Meller of Abilene, manager of system producation for West Texas Utilities Co., discussed with Wellington business men the general operation of his company's system, and specifically the development of WTU's first coal fired plant, at Oklahunion will be operational in December 1986.

He was the guest speaker at Wellington Kiwanis Club Friday, Sept. 14 and was introduced by local manager Tommy Hudson.

West Texas Utilities Co. serves an area which includes 52 counties and 153,000 square miles, ranging from north of Shamrock to the Rio Grande at Del Rio.

WT parent company is Central and Southwest Corp. headquartered in Dallas, a holding company for four operating electric utilities. Besides WTU, these are Central Power and Light, Public Service Company of Oklahoma and Southwestern Electric Power Company. Three of the four are participating in the construction of the Oklaunion plant, owned jointly by WTU, Public Service of Oklahom and Central Power and Light.

WTU will own 55 percent of the plant and will be the operation project manager.

Meller spoke of the plant's cost.

"Some of the larger components as the turbine generator, carries a price tag of 32 million," he said. "The steam boiler, is $41 million and of the environmental control equipment, which includes the precipitator to remove fly ash from the stack gas, and the scrubber which removes sulphur dioxide from the stack gas, all cost $85 million.

"The electrical requirements just to operate the environmental control equipment is equal to the requirements of a town of 25,000 people," Meller said.

At the present time, the cost estimate is $500 million.

"Although coal powered plants cost more to construct, there is not question but that the fuel expense component of the operation cost will be considerably lower.

"We believe it is plants such as the Oklaunion plant that will make substantain contribution for hold ing the line on the upward spiraling cost of electricity," he pointed out.

Coal will come from the Gilette, Wyoming area, transported over the Burlington Northern Railroad. 4 unit trainloads per week (100 cars per unit, with each car carrying 100 tons of coal.)

Approximately 850 people are working on the plant at this time.

Continuing his discussion of the plant, Meller said it was begun in May 1982 and is located on 1937 acres of land three and one half miles south of Oklaunion.

"The generator is very similar to the generator on your car--except ours weights 450 tons," the speaker added.

Straight talk...about funeral homes.

When it comes to selecting a funeral home, what determines a good firm from a poor one?

In reality, facilities and equipment at funeral homes are generally similar. All are quite good and can appear to be professional.

But what determines the "actual" quality of a funeral home is the service, merchandise, and prices they offer.

That's why we have always encouraged the families we serve to compare what we have to what others offer. We feel this is to our advantage because, only then, will families feel certain our funeral home provides the highest quality services, at the most reasonable prices.

Scoopin'

I asked John Coleman why he had on his summer weight cap, emblazoned with a huge Texas A&M logo, on Tuesday morning when a cold front was blowing through. "The Aggies won their football game Saturday," was, of course, the logical answer.

Texas A&M's archrival, The University of Texas at Austin, has had to endure many embarrassing moments at the hands of the Aggies: being called "Teasips" when everyone knows that is definitely not the preferred beverage in Austin; some humiliating football defeats; and an esprit de corps that Austin's laid back atmosphere never quite generated in its alumni.

But now, worst of all, comes Forbes magazine with its annual report on "The 400 Richest People in America." UT's most dreaded nightmare has materialized: the Aggies are richer than the Teasips.

Forbes notes the colleges and universities which have graduated the largest number of persons among "The Forbes Four Hundred." The score? Texas A&M, 7; UT, 6. Just as bad is the news that SMU, with an enrollment only a fraction of UT's, also placed 6 on the list.

Other schools and their multi-millionaires are Yale, 29, Princeton, 11, MIT, 10, Harvard, 9, Stanford, 9, NYU, 7 and The University of Pennsylvania, 6.

Howard Christian, one of our Ft. Worth subscribers, notes this on the item in this column on sugar:

"I have been hit with diabetes since 1980 and I am now on insulin twice a day, together with an 1800 calorie/day diet and an exercise program. So, I'm very much aware of "reading the label" on foods, which has been the story of my life for the past four years.

"Everyone should read the label. And a diabetic's diet or a heart patient's diet is a good idea for everyone, whether they have these problems or not.

"The list of ingredients on the label you presented is important to know, and your candy bar was loaded with monosaccharides and disaccharides. And no matter how you slice it, it comes out sugar, which I avoid like the plague.

"I hope many of your readers will become diet conscious for their health's sake."

Skyrocket JV Loses Game to Cyclone 48-34

Wellington Skyrocket JV was unable to cope with the strong Memphis Cyclone JV that invaded Powell Field Thursday, Sept. 20, and the visitors took home a 48-34 victory.

Curtis Nash and James McIntosh shared scoring honors for Wellington. The offensive line moved the ball well, but the Wellington defense seemed unable to stop the Cyclone after its long drives got under way.

Wellington's first score came early in the second quarter after the Rocket JV drove downfield for approximately 10 consecutive plays. Nash's touchdown was on a 5-yard run.

Memphis scored on two long runs, then later in the second quarter scored twice again on long runs, to lead 28-6 at halftime.

Wellington had no long runs in this game.

The next Rocket score came on first possession after halftime, on a short run by Nash. James McIntosh ran the ball over for the extra points and Memphis led 28-14.

Later in the third, Memphis scored on another long sprint to raise their lead to 34-14.

The Cyclone scored on another long run in the third quarter, and Wellington took a Memphis kickoff then drove downfield until McIntosh could score on a 10 yard run around end. The score was narrowed to 34-21.

Memphis made another TD on next possession of the ball (40-21) and Wellington also scored next time the ball came into possession. This time Nash ran up the middle for 8 yards (40-27). Nash then scored the extra point to make the score 40-28.

The Rocket JV held Memphis until they could regain possession and Nash scored on a run around right end good for 10 yards and a touchdown.

Memphis made the final score on a 20-yard run. Most of the Cyclone's other runs had been for 50 yards or more. The try for extra points was good.

"We didn't play very good defense, but the offense played well," said Coach Tom Johnson. "In the last half we got two drives stopped on penalties that could have tied the game if we could have scored on them."

Johnson cited Brad Long for his good quarterbacking both on offense and defense.

Nash turned in a fine offensive game, and James Reynolds offensive line performance was called "real good."

The Rocket JV has one injury, Chuck Brown who hurt his neck, but he is expected to play this week.

On Thursday, Sept. 27, the Rocket JV travels to Clarendon to meet the Broncho JV.

Sheriff Notes Rules on Alcohol

Sheriff Kenneth Maxwell said this week he had received several questions about the possession and consumption of alcoholic beverages in the city park, and that the following rules apply:

*No minor (under 19) may possess or consume alcoholic beverages.

*No one may possess or consume alcoholic beverages after 12:30 a.m. weeknights and after 1:30 a.m. on Sunday morning.

*Otherwise, there are no state laws or city ordinances prohibiting the possession or consumption of alcoholic beverages in Wellington, even though Collingsworth County is a "dry" county and alcoholic beverages may not be sold in the county.

*Laws against public intoxication and disorderly conduct apply in any public place. The Sheriff said that public intoxication in laymen's terms means a person who is not in control of his faculties.

7th Grade Defeats Memphis 34-0 Here Thursday

Seventh graders caught on to what the game was all about and defeated Memphis 7th grade 28-0 Thursday, Sept. 20 at Powell Field.

This was pretty much Jeff Thomas' game, for he scored three of the four touchdowns, while Regie Jones scored the other.

The first score came in the first quarter, when Thomas scored around end on a 10-yard run. He also ran the dive play over for the extra point.

His second touchdown, was on a run around left end from the 30 yard line, and the try for extra point failed. This was in the second period. In the third period, Jeff again scored from the 18 yard line around left end then ran the ball over for the two extra points.

Also in the third, Regie Jones made the fourth touchdown on a quarterback sneak from the two, but the attempt for extra point failed.

Boys playing, and their home team numbers are: Paul Bell 61, Jessie Castillo 81; Lonnie Colson, 88; Scott Covey 75; Greg Cozad 62; Dennis Cudd 63; Chad Feemster 84; Kendall Ford, 33; Richard Hobbs, 70; Russell Hutson 50; Reggie Jones 12; Peter Parker 52; Brandon Porter 65; Mike Maxwell 43; Thomas Molina 72; Mike Turner 73; Jeff Thomas 21; Kenneth Tunstall 55; Terry Lynn Sterling 32; Robert Watts 85; Simon Garza 64.

8th Grade Drops Game to Large Memphis Team

Meeting a larger team with more depth, Wellington 8th grade lost its Thursday, Sept. 20 game to Memphis 8th Grade 35-6.

Wellington scored its only touchdown on a fumble recovery with two minutes left in the first quarter. Quarterback Thomas Crytser scored on a counter option play around right end from the 23 yard line.

The try for extra point failed, and the Firecrackers led 6-0 at the end of the first period.

Memphis scored twice in the second quarter and ran one extra point over to take a 14-6 lead at half time.

The third quarter saw Memphis score two more touchdowns, to advance their cause to 26-6.

The final score was in the fourth quarter, and the Memphis team also added points after the TD, to finish 24-6.

"During the game, we recovered 5 Memphis fumbles and could move the ball against them with our offense, but we just couldn't score," said Coach Gano Wilson.

Memphis scored once on a pass and the remaining Tds were on running plays.

"They have extremely good backfield, big and fast," commented Wilson. our plusses are that we can move the ball, and we can play pretty good defense. The size in our line is pretty good, but we are not quick enough," Wilson added.

Wilson has 23 players out: Oran Starkey, Greg Martin, Clay Holland, James Sherwood, Marvin Lynch, Mark Myrick, Thomas Crytser, Rex Henard, Memo Torrez, Carter Nash, Mark Watts, James Shepard, Kevin Kerlee, Allen Duncan, Jesse Barber, Ronny Mote, Roger De La Cruz, Bobby Wilkerson, Dave Mithlo, Terrence Bookman, James Shepard, Jack Shepard, Shane Black. The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

America in its early days depended on the "GOOD BOOK" for its guide in ethics, worship, and pursuit of feedom. These early gains are now in danger of falling and we need to turn all America once again to God and His word. America can be strong only when each individual looks to God for strength.

Childress Bobcats Overwhelm Skyrockets

BY Dickie Johnson

The Childress Bobcats took a 41-0 win over the Wellington Skyrockets at Powell Field on Friday, Sept. 21.

The Skyrockets took the opening kickoff but a strong Bobcat defense held the Skyrockets on their first series of downs. The Skyrockets were forced to punt and the Bobcats set up the return around the left side for a 30 yard gain down to the Wellington 35 yard line. An illegal procedure call against Childress on their first offensive play moved the ball back to the Wellington 40 yard line. On the following play Bobcat quarterback Chris Castleberry hit receiver Ralph Freeman on a touchdown toss with 10:31 remaining in the opening period. Keith Loter's extra point attempt was good and the Bobcats led 7-0.

The Skyrockets were stopped again on their next possession and Childress took over with good field position on the Skyrocket 42 yard line. Again Chris Castleberry went to the air and hit Terry Smith for another touchdown with 7:55 left in the first quarter. Keith Loter's extra point attempt split the uprights and Childress led 14-0.

Bobcat Terry Smith got into the action again by intercepting a Skyrocket pass and returning it down to the Wellington 7 yard line. With 6:57 showing on the clock, running back Kenneth Sims went over the right side on a 7 yard touchdown run. After the extra point conversion the Bobcats led 21-0.

On their next possession, the Skyrockets fumbled the ball on their own 19 yard line to give Childress excellent field position again. The Skyrocket defense tightened up and took over on their own 34 yard line on a 4th down quarterback sack. The Skyrockets showed some offensive push but could not sustain a drive and were forced to punt the ball back to Childress. The Bobcats were again held but got the ball back on the Wellington 14 yard line after a Bobcat punt touched a Skyrocket player and was recovered by Childress. With time running out in the first period, the Bobcats attempted a 40 yard field goal with the wind. The kick fell short and the score stood at 21-0.

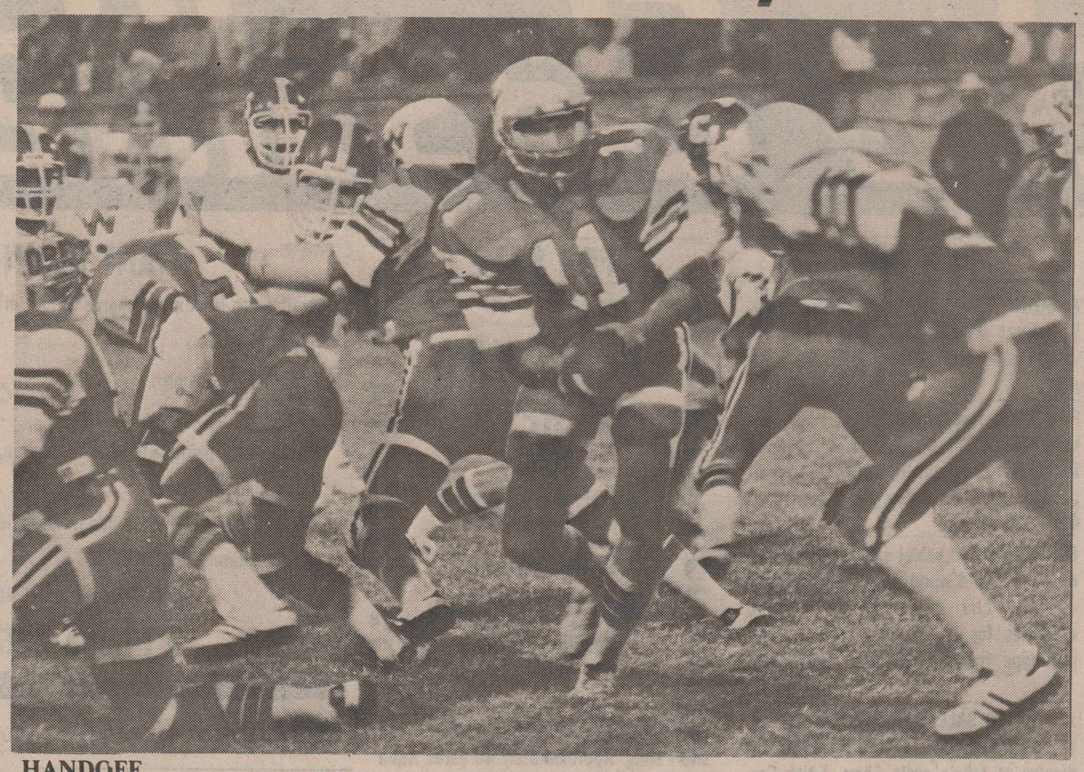

The second period of play was a defensive standoff with neither team exhibiting much offensive punch. Jamie McKay hit Kelly Goforth on a 17 yard strike but the Bobcat defense prevailed. Maugro Villanueva intercepted a Bobcat pass late in the second quarter to halt a Childress drive and the halftime score remained 21-0.

The Bobcats took the second half kickoff and returned the ball to their own 41 yard line. Walter Baldwin broke around the left side on a 20 yard scamper but was knocked loose from the ball which was recovered by Skyrocket Alex Johnson. Again the Skyrockets could not get anything going and had to punt the ball away.

After another Childress fumble on the Wellington 4 yard line, the Skyrockets went to the air again. Bobcat John Lott intercepted a Skyrocket pass on Wellington's 29 yard line to set up another scoring opportunity. Kenneth Sims, after a series of carries, plunged in from the 1 yard line for his second touchdown of the evening with 2:16 remaining in the third period. The score at the end of the third quarter stood at 27-0 Childress.

In the opening minutes of the fourth quarter, the Bobcats recovered a fumbled punt return on the Wellington 16 yard line. Chris Castleberry lofted his third touchdown pass of the night to Travis Anglin with 9:47 remaining in the period. Keith Loter's extra point made the score 34-0.

Bobcat Terry Smith intercepted another Skyrocket pass on their next possession to set up a final Childress score. Quarterback John Lott connected on a pass to James Bartley down to the 2 yard line. With 5:57 remaining in the game, Walter Baldwin went the remaining 2 yards for the touchdown. Kenneth Sims kicked the extra point for the final score of 41-0.

Mixed Adult Soccer League to Organize

Any adults interested in playing soccer in a mixed (men and women on each team) league should contact Tommy Hudson, 447-5197 or Donna Goss, 447-5712, this week.

Teams will be open to anyone who is out of high school and games will be played on Sunday afternoon.

"We'll be doing this just for fun," Hudson said, " and the primary purpose will be recreation, not competition."
