LAST PICTURE OF HITLER—The Berlin magazine Illustrated Telegraf says it by chance found this picture of Adolf Hitler (right) amid discarded material taken by a representative of Hitler's personal photographer. The magazine says the picture shows Hitler, about April 20, 1945, with his adjutant, SS Obergruffenfuehrer Julius Schaub, surveying war damage to the Reich Chancellory in Berlin—ten days before Hitler was reported dead in his air raid bunker. Satisfaction In Lie's Interview with Stalin

By EDDY GILMORE
AP STAFF

MOSCOW, May 17. — Trygve Lie said today he is "not dissatisfied" with his talks with Prime Minister Stalin and other Soviet leaders.

"Time will tell," he said, what the results will be.

"A final judgment cannot be made before two or three months from now," Lie told a news conference. "Maybe it will take a still longer period, too." The United Nations secretary-general is on a Washington-Paris-London - Moscow mission designed to help bridge differences between East and West and to support the UN. He saw Prime Minister Stalin Monday night. Previously he talked with Deputy Prime Minister V. M. Molotov and Foreign Minister A. Y. Vishinsky.

"I have been received in a most friendly way," Lie said. "And the exchanges of views and ideas have been of a positive kind.

"I have been asked what we have been talking about. Well, our conversations have concentrated on the general international situation, the Chinese representation in the United Nations and the so-called cold war. Among other matters discussed, I can also mention periodic meetings of the Security Council (with leaders of the big powers present) and the control of atomic energy."

Some correspondents submitted questions in writing in advance of the news conference. Lie expressed regret he could not disclose more details in his replies, adding:

"The talks and exchanges of views between leaders of states and the secretary-general must be confidential if results as regards actual situations and difficult problems are to be obtained."

Third Hunt Well Produces From Canyon in Kent

Nelson Bunker Hunt Trust Estate No. 1 T. C. U., one location west of the discovery for flowing production from the Canyon Reef lime in West-Central Kent County, Caroline Hunt Trust Estate No. 1 Young, was flowing oil at the estimated rate of 40 barrels an hour from perforated sections at 6,464-6,485 and at 6,495-6,515 feet.

The oil was cut 28 per cent acid water and drilling mud. There was no formation water.

The perforated sections had been treated with 4,000 gallons of acid.

The flow was through a one-inch opening on tubing. Flowing to clean out test and complete was continuing. This is the third well in the Hunt-Young area to get a definite test.

Location is 1,110 feet from north, and 467 feet from east lines of section 3, D. R. Sloat survey. The well is 8 miles northwest of Clairemont.

Caroline Hunt Trust Estate No. 2 Young, the second project in the West-Central Kent area to show for production is shut in for storage.

It had flowed an average of 35 barrels of oil an hour from perforations in the Canyon at 6,480 to 6,520, after the interval had been treated with 2,000 gallons of acid.

That producer is a southwest stepout to the discovery and is 2,560 feet from north and 1,720

Court's Denial Of Injunction Is Reversed

AUSTIN, May 17. (AP)—The Third Court of Civil Appeals today reversed and remanded for further proceedings a trial court judgment that had denied a temporary injunction against use of state highway commission wage rates in El Paso County.

The suit was brought in 53rd District Court and appealed by the El Paso Building and Construction Trades Countil (AFL) which contended that the commission's wage rates are below the actual prevailing wage rates in El Paso County.

On appeal the state challeneged the council's right to bring the suit.

"The right of the plaintiff (the council) to bring and maintain this suit is the prime question to be determined by this court," the Third Court of Civil Appeals said in its written opinion.

It noted that the commission is required by law to determine prevailing wages in a community and that contracts be based on the prevailing rates.

"The purpose of the enactment of the law was for the benefit of labor and to prevent the beating down of wages to a level far below that required to maintain a laborer, workman or mechanic in reasonable circumstances," the court said.

Agents Break Up Huge Ring Of Texas Smugglers

HOUSTON, May 17. (AP)—Customs agent Al Scharff said a big narcotics smuggling ring was smashed today with the arrest of 26 people at Galveston.

Scharff said the Galveston raids began after three men were arrested early today at Bay City.

Terming the ring one of the largest ever to operate in this section of the country, Scharff said the ring has connections in Detroit, New York City and Chicago.

Scharff and James C. Ryan, district Bureau of Narcotics chief, said the ring is a $1 million outfit.

They said that raids on six bars and rooming houses in Galveston today resulted in the arrest of 20 men and six women.

Those arrested were taken to the Galveston customs house.

Deputy U. S. Marshal Neal Matthews said that a 25-year-old Negro man was arrested while stuffing arm loads of marijuana into a garbage can in an alley at the rear of a rooming house.

The customs and narcotics officials said the raids climaxed an intensive four-week investigation by scores of South Texas police officers.

The narcotics being smuggled, he said, came from Mexico.

MAYOR TO BUILD

A building permit was filed this week by Forrest G. Sears, mayor, for the construction of a 62 by 65-foot composition stone residence to be erected at 3011 Avenue X. Construction cost is estimated at $25,000.

Sweetwater Woman Killed in Wreck

MONAHANS, May 17. (AP)—Mrs. Eva Mae Poole, 22, wife of Bailey Poole of Sweetwater was killed last night when her car turned over several times on Highway 80, 14 miles west of here.

The accident occured when a tire blew out. Lee Greer of Pecos, who was riding in another car behind Mrs. Poole witnessed the accident.

Wreck Injures Snyder Woman

Mrs. Lloyd Clark, wife of a Snyder policeman, and her sister, Mrs. E. T. Hansen, of Fort Worth, were injured Monday morning in a highway accident near Cross Plains.

Most seriously injured was Mrs. Hansen, now in a Fort Worth hospital, who suffered three fractures of the pelvis, dislocation of the left hip, bruises and numerous lacerations. Mrs. Clark suffered bruises, lacerations, and shock. She was released from the Harris Memorial Hospital in Fort Worth yesterday.

The accident occurred as the women were en route to Waco to bring some furniture to Snyder. Mrs. Clark, driver of the 1949 model pickup truck, said the vehicle struck a concrete bridge abutment when she attempted to dodge a horsedrawn wagon on the highway.

Clark, who left Snyder shortly after the accident to be with his wife, said the vehicle overturned twice, throwing Mrs. Hansen out and pinning her beneath it. Mrs. Hansen's condition was reported fair this morning, Clark said.

The women were taken to a hospital in Cisco soon after the accident and were transferred to Fort Worth Monday afternoon. Clark returned from Fort Worth this morning.

Damage to the truck, owned by Marsh Springer, of Snyder, brother-in-law of Clark, was estimated at $110.

Prizes Offered For Best Essay On Clean City

An essay contest for Snyder school children on "Why I Should Help Keep Snyder Clean" will be sponsored by the Junior Chamber of Commerce in co-operation with the city-wide clean-up drive now in progress.

Bob Davie, chairman of the Junior Chamber project committee, said that prizes of $20, $10 and $5 will be offered for the best three themes of 200 words or less.

The contest will end Monday, May 22, Davie said. Snyder Jaycees will appoint three judges, probably members of the school faculty, and their decision will be final.

Basis of judging will be largely on the originality of ideas, Davie concluded.

Rules for the contest are as follows:

1. Only Snyder school children are eligible to compete.
2. A child will be allowed only one entry.
3. All essays will become the property of the Snyder Junior Jaycees.
4. Judging will be sponsored by Junior Chamber directors.
5. Judges' decisions will be final.
6. Contest closes at 7 o'clock, Monday night, May 22.
8. Essays are not to be longer than 200 words.

Other members on the project committee are Myron Fenton, Renal Rosson and Ray Perkins.

Official Says Army Overpay To Be Recouped

WASHINGTON, May 17. (AP)—Asst. Sec. of the Army Karl Bendetsen said today overpayments of $157 in servicemen's dependency allotments were "inevitable" under the wartime "get 'em paid" philosophy.

Most of the overpayments have been or will be recovered, Bendetsen assured a House armed services subcommittee investigating administration, laxity and Communist infiltration in the Army's finance center at St. Louis.

He said of the "total erroneous payments and over-payments," $83 million has been paid back, $16 million legally waived for hardship cases and $25 million referred to the government accounting office for recovery. This leaves only $35 million and he said he expects that to be recouped.

Bendetsen asserted there has been "no evidence of fraud uncovered so far."

"Naturally, in such a gigantic undertaking some mistakes will be made," he said.

But for the most part, Bendetsen continued, "the overpayments were a direct result of the get-'em-paid philosophy of wartime and the demobilization." He recalled that Congress itself wanted the payments speeded up.

Otherwise, he continued, the discrepancies were in part the result of confusion resulting from changes in address, belated notices of separation from the service and administrative errors.

Snyder Pastor Is Ill

The Rev. Earl Creswell, pastor of North Side Baptist Church, was in serious condition yesterday following a gland operation in Rotan Friday.

Mr. Creswell went to the hospital there last Thursday for the operation. He is also suffering from a weak heart.

Baghdad Flooded

BAGHDAD, Iraq, May 17. (AP) — The Tigris River flooded suburban Baghdad today, driving 20,000 people from their homes.

Ridding Government of Reds Is Made a Campaign Issue By Taft in Attack on "Fair Deal"

Shown on arrival at Honk Kong aboard the British freighter Hunan are the two American servicemen freed after being held prisoners of the Communists in China for 19 months. Left to right, William C. Smith, Navy chief electrician's mate from Long Beach, Calif., Cmdr. Daniel H. Mathews, Seventh Fleet flight surgeon, and Marine Master Sergeant Elmer C. Bender of Cincinnati. The men will be flown to Pearl Harbor in a U. S. navy patrol plane. (AP Wirephoto via radio from Manila.)

WASHINGTON, May 17. (AP)—A pledge to oppose communism abroad and eliminate it from government agencies is the No. 1 promise in an official Republican bid for control of Congress.

Sen. Taft of Ohio made the GOP promises last night over a nationwide radio hookup. It was the Republican reply to President Truman's cross-country speaking tour.

Taking the offensive, Taft said Democratic policies have raised the threat of a third world war and at home have pointed the nation toward regimentation and socialism, leading to bankruptcy.

"The general program of the Truman crusade is clear. Promise everyone everything, and hope to back it up with government money. Every American knows in his heart that such a policy will wreck the United States and reduce us to bankruptcy. It will bring first inflation, and then depression."

Taft said midway of his speech that "the political morality of the Truman administration has shaken the confidence of the people in their government."

HISS CASE

Then he referred to the Alger Hiss and other cases involving the State Department, new attention by the investigation of, charges of communism hurled by Sen. McCarthy (R-Wis). They are being probed by a Senate subcommittee, but Taft made no direct reference to that.

Instead he recalled President Truman's "shouts of 'red herrings,'" and added:

"Every file and every fact which reflects on the past policy of the administration is ruthlessly suppressed and refused to Congress."

Taft noted that on his recent trip President Truman "accused opponents indiscriminately of greed and privilege . . ."

But Taft said Mr. Truman "said not a word about greed and privilege — and crime — in his home bailiwick of Kansas City or in the White House itself."

Sen. Taft said today the Taft-Hartley Labor Law has assisted the CIO to replace "Communist unions" with "Communist - free unions."

"The so-called Communist oath provision of the Taft-Hartley Law has proved itself an effective means of reducing the power of communism in labor unions," he declared.

Girl Scout Day Camp Is Topic At Sponsors' Meet

The formation of a Girl Scout day camp was discussed at the Scurry County Girl Scouts Association luncheon held yesterday in the Manhattan Hotel.

Following the meeting, Bob Dupree, vice-president of the association, who resided in the absense of President Nolan von Roeder, announced that a day camp or some similar program would be held in Snyder this summer.

At the same time Mrs. Carla Clark, leader, urged that women donate their services to the Girl Scout program. "The Girl Scout program in Snyder is failing due to the lack of leadership," Mrs. Clark said, "if there is anyone desiring to become a leader in the program, we would like to know about it."

Attending the luncheon were Mrs. W. D. Ruffin, day camp director of Taylor County, and Mrs. Robert Hobbs, Brownie troop leader, both of Abilene; Miss Allyce Nelson from the Dallas regional office of the Girl Scouts of America, Miss Mary Nell Cates, West Texas area field director Miss Virginia Burgess, Mrs. Clark and Mr. and Mrs. Dupree.

Queen And Princess Charge Their Plight To Intrigue

SAN FRANCISCO, May 17. (AP) — Queen Mother Nazli today declared court intrigue forced King Farauk to disown and impoverish his kid sister, Princess Fathia.

And Fathia, 19, announced firmly that she would defy her brother by remarrying, in a Moslem ceremony, Riad Ghali. She married the 31-year-old Coptic Christian commoner civilly here April 25.

Riad, labeled a fortune-seeking adventurer in Cairo court circles, is secretary of the Queen Mother.

CHARGES

Nazli charged today:

Prince Muhammed Ali, Fathia's uncle and heir-apparent, "is scheming to get on the throne" of Egypt. The prince is chairman of the royal council which yesterday stripped Fathia of her title and property.

The prince "is always plotting ways to make Fathia look bad, and to break up our family," the queen charged. "He is an evil influence on the king and surrounds him with bad advisers.

"The accusations against Riad are shameful," the queen continue "If Riad wanted money, he could be rich, a millionaire. For months court circles in Cairo have tried to bribe him to leave the princess.

INVOKE KORAN

Invoking the ancient teachings of Allah and the Koran, the king yesterday stripped the princess of her title and impounded her property.

The Egyptian royal council decreed, also, the impounding of the wealth of the queen mother, who has been in San Francisco several months for medical treatment.

Bond Drive Opens

FORT WORTH, May 17. (AP) — Gov. Allan Shivers unveiled a Replica of the Liberty Bell in Burkburnett park yesterday, formally opening the 1950 independence savings bonds drive in Texas.

Two Directors Of Livestock Group Are Named

"The American people are the most fortunate people in the world today," Bob Davie, Snyder lawyer, told approximately 125 members and guests of the Snyder Future Farmers of America last night at the annual Future Farmer Father and Son barbecue, held at the High School gymnasium.

"In this country we have every freedom nameable," the youthful lawyer said, "but to maintain these freedoms, we must know how we got where we are and where we go from here."

Following the Program Tom Pherigo and Nolan von Roeder were elected to the board of directors of the Junior Livestock Association to replace the two outgoing executives, Bill Boren and Carl Gray. The board now consists of Weldon Johnson, Raymond Smith, Wayne Williams, Pherigo and von Roeder.

Boren, outgoing chairman of the board, in giving a final 1949-50 financial report, said the association had over $1,200 in the bank for expenses plus another $200 in the building fund.

J. L. (Broadway) Browning, F. F. A. instructor, announced, in the absense of R. B. Sears, that the Sears Oldsmobiel Agency had presented the Future Farmer group with a new G. M. C. pickup truck for use in their program.

Tommy Pherigo, president of the Snyder F. F. A. chapter, presided over the meeting. T. D. Wiman gave the invocation and Max von Roeder and Bill Boren gave the welcome and response. The speaker was introduced by Donald Bransom.

O'Daniel Seeking Radio Broadcasts

DALLAS, May 17. (AP)—W. Lee O'Daniel, who refuses to say whether he will run for the Texas governorship, negotiated yesterday for radio broadcasting time.

O'Daniel conferred with Jimmie Jefferies, sales manager for the statewide Libery Broacasting System. The former Texas governor said he did not close arrangements for the broadcast.

"We're just talking about it so far," he said.

O'Daniel also would not say when he wants the time. He has until June 5 to file as a candidate for governor if he intends to run.

Elected Or Defeated, Caso March Will Be Comfortable

The visit last night and today by Caso March, candidate for governor, was a pale affair, without music, without speeches—but the colorful campaigner promises that this is only a preliminary visit, and that a full-dress campaign trip is coming up soon.

The 38-year-old candidate arrived last night in his 2-room, truck-towed rolling house with his three traveling companions, Paul Jean, driver of the truck, T. A. (Curley) Lowery, ventriloquist; and Oscar, 16-year-old ventriloquist's dummy whom the candidate brought with him "to immitate the governor."

RETURNS SOON

March, a native Texan whose home is in Waco, promised to be back in Snyder "very soon with a string band, a good show, free coffee for everybody, and a complete outline of the platform." On the regular campaign trip, March plans to be accompanied also by Mr. and Mrs. S. T. Stockton, of Breckenridge. Stockton was a candidate for governor in 1948 against March and the late Beauford Jester. This is March's third race for the office.

Speaking humorously of his portable house, with its lounge, breakfast room, and speech platform, March said, "This is the first time I've used a thing like this, but if I'm not elected, I want to be defeated comfortably."

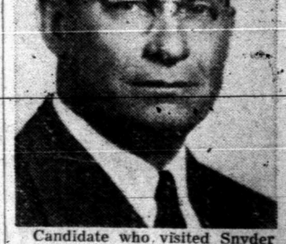

Several businessmen, lawyers, and county officials visited March, inspecting his house parked in the courthouse square. "I want to show you I'm dry," March said, opening his refrigerator. "I thought I'd better prove it since your recent election."

"March then called for Oscar, who demonstrated what March considers is a typical governor.

"I'd make a good one," the dummy said, "because you have to put words in my mouth too." With a reflection on the recent cigarette tax bill, he quickly added, "I like cigarettes, too." And, given a cigarette, he smoked it in much the same manner as any other smoker.

PLATFORM PLANKS

Mentioning some of platform policies, March said he would seek to establish a minimum wage guarantee for local law enforcement officers. "Many of our counties cannot pay decent wages to the number of officers actually needed to enforce our laws adequately. Consequently, much of the local enforcement falls in the hands of state and federal officers, and the local departments are rapidly deminishing."

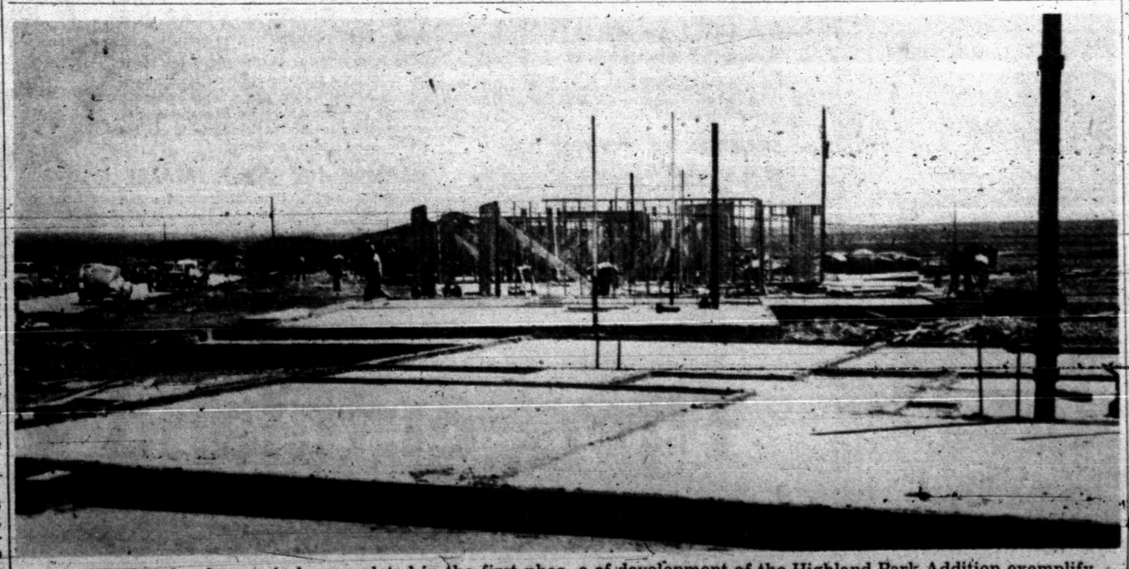

Candidate who visited Snyder today—Caso March.

The theme of his platform is "For every man a tax-free home."

"The home produces no income," March stated, "and should not be taxed. The tax burden should be redistributed and placed on the backs of those now profiting from our natural recourses without bearing their proportionate share of the burden."

Just before leaving for Abilene, March promised to be back with a big rally, at which time he plans to make complete campaign speeches. From Abilene, he will go to San Angelo, then to Coleman. He will spend part of the day Friday in Brownwood and be in East Texas Saturday, he said.

During the past year, March has traveled more than 250,000 miles in Texas. "I did my own driving," he said, "and have been fortunate in that I haven't had a single accident." During this time he was preparing for the campaign, he said.

The last few houses to be completed in the first phase of development of the Highland Park Addition exemplify well the production-line construction procedure which has made possible the rapid development of the district.

Have You Been Counted?

The Census is nearing completion. If you have not been counted here or anywhere else, please fill out the form below and mail it immediately to the U. S. Census District Office at the address shown.

My address on April 1, 1950 was:

House Number and Street _____ Apt. No. _____
(Or description of location)

City, town, village _____ State _____

Name of each person whose usual place of residence was in this household on April 1, 1950 (last name) (first name) (initial)	Relationship of this person to the head of the household such as head, wife, son, roomer, etc.	Sex M or F	Color or race	Age at last birthday

Soviet Sponsored Chinese Air Force Factor In Defeat

By SPENCER MOOSA
(Associated Press Staff)

TAIPEI, May 17. — Jammed transports headed for Formosa today with the last Nationalist troops from abandoned Chushan Island.

News reports said Gen. Shih Chuen, Nationalist defense commander of Chushan, was due tonight.

The Nationalists began pulling out of the island blockade base, 100 miles southeast of Shanghai, Saturday. The last plane load of officers from Chushan reached Formosa last night.

NO SURPRISE

The abandonment by 150,000 troops of the Chushan Islands did not shock Nationalist Chinese here as much as had the fall of Hainan Island recently. There is a common tendency among the Chinese to ascribe the withdrawal to an upset in the balance of power caused by the creation of a Soviet sponsored Communist air force.

At one time Nationalist possession of the Chushan Islands gave Chiang Kai-Shek's air force virtual control over much of China's air. His naval forces effectively blockaded Shanghai from there.

The islands also were a supply point for Nationalist guerrillas on the mainland.

DIFFERENT SETUP

For formation of the Red China air force reduced Nationalist raids to hit and run affairs.

Nationalist sources said the Reds had massed 400,000 troops for an assault on Chushan. The withdrawal of 150,000 troops from Chushan strengthened Formosa's defenses and will force the Reds to mount a much larger force once they decide to storm this big island.

The bloodless withdrawal from Chushan was called a great defense victory by Nationalist leaders.

West German Is Receptive To Coal Pool Idea

BONN, Germany, May 17. (AP) — Chancellor Konrad Adenauer last night announced his "full determination" to carry out a French proposal for pooling coal and steel production of France and Germany.

Such technical difficulties as continuing allied limitations on West German steel production would not be allowed to interfere with achievement of the greatest possible degree of unity between the two ancient enemies, Adenauer said.

He made his statement after discussing the pool plan with former French Premier Paul Reynaud. Reynaud came here with his advisers for a semi-official survey of the German situation.

Adenauer said he was convinced other European nations including Great Britain, reportedly cool toward the plan, would come into the industrial pool eventually.

In London, meanwhile, the United Europe movement, of which Winston Churchill is a chief leader, urged Britain's labor government to announce support of French Foreign Minister Robert Schuman's proposal for a pool of European coal and steel resources.

Precinct Chairmen Called to Meeting Saturday Afternoon

A meeting of all precinct chairmen of the Democratic party in Scurry County has been called for 3 o'clock Saturday in the commissioners room of the courthouse, according to R. D. Williams, county Democratic chairman.

The organization of the county committee will be completed and plans will be made for the coming election, Williams said.

Committee members are: J. Monroe, Northeast Snyder; Jessie Hardin, Cottonwood Flat; Frank A. Wilson, Ennis Creek; M. K. Mapples, Dermott; Charlie Bley, Fluvanna; Charlis Eastman, Turner; T. J. Stirling, Bison; Frank White, Bethel; Jeff Brown, Dunn; A. J. Kuss, Lone Wolf; O. C. Hess, Pyron; J. O. Leech, Hermleigh; M. W. Bavousett, Camp Springs; T. M. Pherigo, Canyon; Moxell Roggenstein, Lloyd Mountain; R. D. Parks Arah; Georgia Martin, Nowthwest Snyder; M. C. Dunn, County Line; Henry Callis Southeast Snyder; M. W. Clark, Southwest Snyder; and J. T. Briggs, Crowder.

To Get Huge Welcome

LONG BEACH, Calif., May 17. (AP) —When William C. Smith, Navy chief petty officer released by Chinese Communists, gets home, there'll be a big welcome ready for him.

City authorities plan a big reception, and Saturday night he and his long-waiting wife, Ruby, are scheduled to ride at the head of the armed forces day parade here.

Unemployed Ride for Half Fare

BERLIN, (AP) — West Berliners who can show they are unemployed are now allowed to ride public transportation—trains and buses—at half fare. The decision was made by the city government.

Donor of Washington Cherry Trees Here

LOS ANGELES, May 17. (AP)—Yukio Ozaki, 92, Japanese elder statesman, arrived here last night by Pan American clipper on his first visit to the United States since 1931.

Ozaki is en route to Washington, D. C., where he said he hopes to see President Truman and the cherry trees which he, as mayor of Tokyo, presented to the city of Washington.

It was his first plane trip. He said "it was easier to fly from Toyko to Los Angeles than it is to go from Tokyo to Hiroshima." He explained that surface transportation has not been restored since the atomic bomb was dropped.

Toothbrush with Meals

WELLINGTON, New Zealand, (AP) — Diners at a Wellington restaurant saw a pretty girl put a toothbrush beside her plate. The girl ate her meal. Then she vigorously brushed her teeth and emptied the water into her teacup.

Her girl friend looked embarrassed, smiled, but didn't say anything. The girls were two of 170 dental trainees who are carrying through an experiment. Half will brush their teeth after all food and every drink, except water, for a whole year.

The other 85 will brush their teeth only twice a week—Thursdays and Saturdays. At the end of the year research men hope to be able to say which is better—intensive oral hygiene or casual hygiene.

Wichita Falls Man Named Head of Bankers

FORT WORTH, May 17. (AP) — C. E. McCutcheon of Wichita Falls is the new president of the Texas Bankers Assn.

Other officers named at the final session of the association's 66th annual convention yesterday are A. E. Dabney, Jr., Corpus Christi, vice-president, and W. B. Russell of DeKalb, treasurer.

Dallas was named as the 1951 convention city.

Gov. Allan Shivers, in a surprise visit, referred to himself and his audience as "holding other peoples' money in trust."

"Politics is larger than business," Shivers said, "and if it is a dirty business it is still your business. I ask your interest in it."

Romance Growing Out Of Cohen Shooting Ends in Marriage

LOS ANGELES, May 17. (AP) — Romance growing out of the Mickey Cohen shooting last summer has ended in marriage for Showgirl Dee David and Special Investigator Harry M. Cooper.

Miss David, 27, and Cooper, 38, were married here last Saturday, a day after he was released from the hospital.

Cooper was seriously wounded in the Sunset Strip ambush blast which killed Cohen and fatally wounded gangster Neddie Herbert. Cooper had been assigned by the state attorney general's office to guard Cohen. Miss David was in Cohen's party when the shooting occurred in front of a night club last July 19.

TEXAS ICE DAY—MAY 17!

for perfect Refrigeration you need the COLD-PLUS-MOISTURE of manufactured ICE

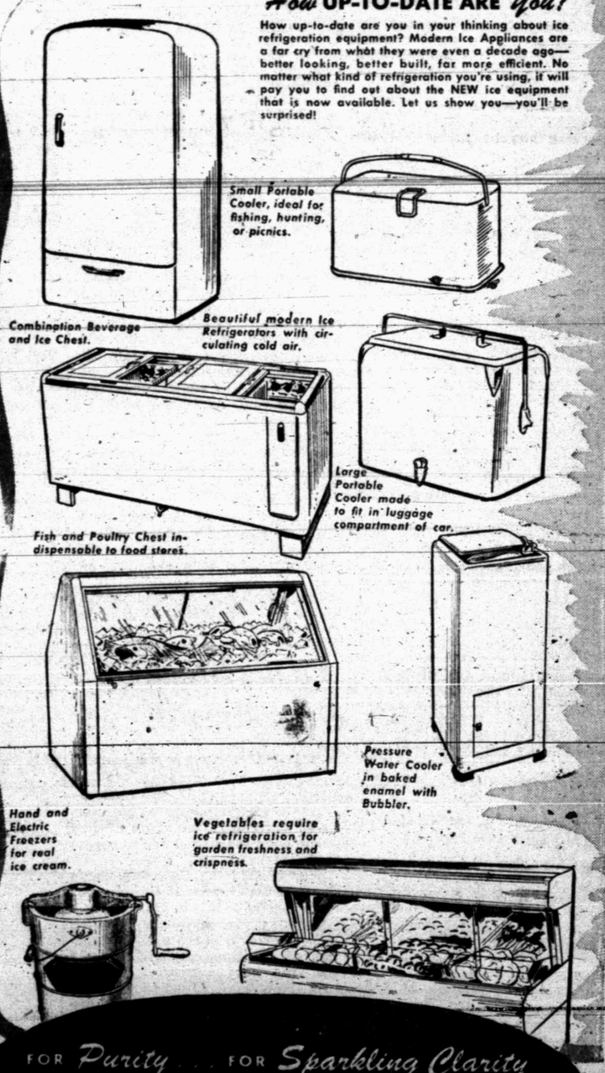

COLD ALONE IS NOT ENOUGH

Cold alone will keep most foods from spoiling—but cold alone won't preserve the vitamin content and garden-fresh crispness of the vitally important vegetables your family eats!

Modern Ice Refrigerators are beautifully and scientifically designed to get the greatest refrigeration value out of pure, crystal-clear, slow-melting manufactured ice. Only the Ice Refrigerator gives the three essentials of food refrigeration: constant cold—balanced humidity—elimination of odors and impurities.

How UP-TO-DATE ARE You?

How up-to-date are you in your thinking about ice refrigeration equipment? Modern Ice Appliances are a far cry from what they were even a decade ago—better looking, better built, far more efficient. No matter what kind of refrigeration you're using, it will pay you to find out about the NEW ice equipment that is now available. Let us show you—you'll be surprised!

100 YEARS OF PROGRESS

Behind the amazing development of Ice Appliances is 100 years of progress by the gigantic, vitally important ice manufacturing industry. This industry had its beginning at Apalachicola, Florida, in 1850 when Dr. John Gorrie invented America's first ice-making machine.

The second machine was installed in New Orleans a few years later and then moved to Brownsville, Texas. And the third machine was built at old Jefferson, Texas, in the middle Seventies.

Dr. Gorrie made just enough ice for the treatment and comfort of his patients . . . today, some 7,000 ice manufacturing plants produce over 50,000,000 tons of ice each year. Virtually all industries use manufactured ice in one way or another—but the greatest users are those concerned with the shipping, storage and distribution of meats, poultry, seafoods and produce. In transportation of perishables alone, some 5,000 insulated trucks and freight cars, refrigerated with ice, shuttle back and forth across the nation daily, filling the shelves and ice refrigerators of America's 150,000,000 well-fed-people!

IN TEXAS ALONE, 600 ICE MANUFACTURING PLANTS produce for Texas homes and industry five million tons of ice per year. This means the opening of distant markets for Texas fruit, vegetables, meats, and seafood—the preservation of foods for Texas families—the easing of Texas summers with cooling refreshments.

THE MOST IMPORTANT THING ICE DOES IS MELT!

Melting ice in your refrigerator carries away heat . . . carries away food odors . . . provides the combination of cold-plus-moisture that means perfect preservation of the foods your family will eat.

TRAINED ICE SERVICE MEN!

Ice service men today are trained thoroughly, as all good businessmen should be. They service your Refrigerator without making a mess . . . they make sure that pets or children don't slip out the door with them . . . they look, and are, neat and efficient and thoroughly familiar with their business.

PLENTY OF PURE CLEAR ICE ALL THE TIME!

Why fight a losing battle with home-made ice during the summer months? Real manufactured ice not only makes foods better for you—it provides a constant liberal source of sparkling ice for chilled drinks, table use, ice cream—and it costs so little!

GLAMOR-ICE YOUR MEALS!

Diamond-sparkling manufactured ice can give a party touch to the most commonplace chilled dish. Salads, cocktails, relishes, and desserts take on new zest . . new appetite appeal . new, fresh-taste!

FOR Purity . . . FOR Sparkling Clarity nothing can take the place of Scientifically MANUFACTURED ICE!

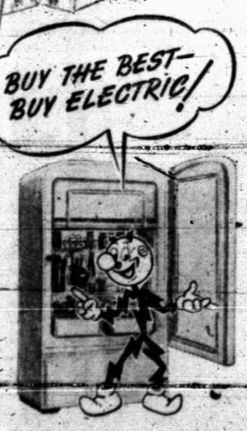

The Southland Corporation

Want LOTS of ICE CUBES FAST?

...then YOU need an ELECTRIC REFRIGERATOR

When real Texas summer weather sets in and the need for proper refrigeration is greatest, your electric refrigerator will quickly freeze large, clear ice cubes in tremendous quantities. Surplus power—far more than enough to cope with Texas blistering heat—takes care of all of your refrigeration needs.

TEXAS ELECTRIC SERVICE COMPANY
J. E. BLAKEY, Manager

Visit your favorite store which sells electrical appliances and see the many new models of ELECTRIC REFRIGERATORS—there's one to fit your family's need and your family budget.

Williams Shoots At Fence To Try For Home Run Mark

By JOE REICHLER
AP Sports Writer

"Shifts or no shifts, I'll always be shooting for those fences."

The speaker? Who else but Ted Williams, the storm center of the American League, in more ways than one.

RECORD WANTED

Williams never has said so publicly but what baseball's top slugger wants most — next to seeing his Boston Red Sox win a pennant —is to break Babe Ruth's record of 60 home runs in one season.

Williams already has reached the magic .400 batting figure. He's already won the batting title, not once but four times. He's already gained the most valuable player award.

This year he's setting his sights on 61 home runs. With 11 four baggers in Boston's first 28 games, who is there to say Williams won't break the Bambino's most coveted record? Remember also that Ted missed seven games because of illness. Breaking it down, Williams has averaged better than one homer every two games.

"I'm being paid to hit homers," Williams once said when he was chided for not trying to break up the shift by hitting more to left. "Four little singles in a game is great, but home runs and winning ball games are greater."

Ted and his slugging mate, Vern Stephens, each slammed two homers yesterday to account for all Boston's runs as the Red Sox defeated Detroit, 6-1. The loss dropped the Tigers out of first place, with the New York Yankees taking over the top rung for the first time this season.

REYNOLDS TWIRLS

The Yankees buried the St. Louis Browns, 11-0, behind Allie Reynolds' five-hit pitching. Billy Johnson led the attack on four St. Louis hurlers with a home run and two singles. His homer came with the bases loaded to highlight an eight-run eighth inning.

Washington retained its half-game fourth place margin over Cleveland's Indians by hosing out the White Sox in Chicago, 6-5, while the Indians were smothering the Philadelphia Athletics, 15-4.

Robin Roberts portected Philadelphia's first place hold in the National League by besting Ewell Blackwell of Cincinnati in a brilliant hurling duel. Roberts allowed only two hits as the Phils eked out a 1-0 triumph over the Reds. The Phils got only three hits off Cincy's tall righthander. Two of them, however, came in the first inning and led to the lone run of the game.

Scratch hits by Richie Ashburn and Gran Hamner and a walk to Eddie Waitkus loaded the bases. Ashburn scored when Del Ennis hit into a double play. Both Cincinnati hits were made by Ron Northey, a former Phil.

Preacher Roe pitched the Brooklyn Dodgers into second place with a 3-1 triumph over the St. Louis Cardinals. The slender lefthander allowed only four hits in registering his third triumph. It marked the fifth complete game hurled by a Dodger pitcher and Roe has pitched three of them.

SAIN BLANKS

Johnny Sain turned in his second consecutive shutout for Boston's Braves blanking the Pittsburg hPirates, 3-0, with six hits. He shut out Chicago by the same score in his last outing. Walker Cooper drove in the first run off Murry Dickson and Bob Elliott clinched it in the eighth with a two-run homer.

Homers by Wayne Terwilliger and Andy Pafko, each with a man on in the third inning, gave the Cubs a 4-3 triumph over the New York Giants.

Larry Doby drove in six runs with a grand slam homer, a triple and single to lead the Indians to their one-sided victory over the A's. The Tribe collected 20 hits against four Philadelphia hurlers.

Lloyd Hittle drove in the winning run for Washington over Chicago with a single in the seventh inning.

Players Cut-off Major Teams As Deadline Nears

NEW YORK, May 17. (AP) — With only a few hours remaining, nine major league clubs pondered today where to apply the knife to come within the required 25-players. The deadline goes into effect at midnight.

Teams with no worries are the two Boston and Philadelphia clubs, the New York Yankees, Chicago White Sox and Pittsburgh Pirates. The rest must chop.

Here is a list of the clubs over the limit ad players likely to be whittled:

NATIONAL LEAGUE

Brooklyn (26) — Third Baseman Johnny Jorgensen, likely to the New York Giants.

St. Louis (26) — Pitcher Erv Dusak.

Chicago (26) — Undecided.

New York (26)—Outfielder Mike McCormick.

Cincinnati (26) — Infielder Sammy Meeks.

AMERICAN LEAGUE

Detroit (26) — Catcher Myron Ginsberg.

Washington (26) — Infielder George Genovese.

Cleveland (27) — Infielder Herb Conyers and Pitcher Dick Rozek.

St. Louis (26) — Pitchers Tom Fine or Sid Schacht.

Eight players changed hands yesterday. The New York Giants, who already were down to the 25 player limit, recalled Monte Irvin from Jersey City of the International League to go one over again. Brooklyn sent three players to the minors: Outfielder Bill Antonello to Hollywood, Calif.; Pitcher Clem Labine to St. Paul and Pitcher Carl Erskine to Montreal.

Pittsburgh sent Pitcher Hal Gregg to Indianapolis on option and placed Outfielder Ted Beard on the disabled list.

Detroit cuts its squad by sending Pitchers Marvin Grissom and Marlin Stuart to Toledo on Option.

The Phillies placed veteran Outfielder Bill Nicholson on the disabled list and sent Pitcher Jocko Thompson to their Toronto farm club on 24-hour recall.

Leaders Win To Hold Places In Longhorn League

(Associated Press Staff)

Nothing happened in the Longhorn League last night — that is, nothing that might change the complexion of the race.

The three leaders won their games and the fourth-place team was rained out.

Top-running Odessa whammed Sweetwater 18-4 with a 17-hit attack. A three-run homer by Dale Perry was about all the Swatters could brag about.

Big Spring laid it on Ballinger's sore back 5-2 to shove the latter deeper into the cellar. Bert Garcia flung a five-hitter at Ballinger.

A couple of fellows felt the wrath of the umpires. Vernon Manager Joe Berry was thumbed out of the game for protesting too strongly a decision at second. Manager Dutch Funderburk of Ballinger was waved out for telling off the arbiters.

Rain prevented a double-header between Midland and San Angelo.

Ballinger	000	100	010	2	5	1
Big Spring	000	201	02x	5	6	2

Rodriguez and Funderburk, Martinez; Garcia and Junco.

Sweetwater	000	000	013	4	5	5
Roswell	002	078	01x	18	17	1

Christianson, Bressana, Antella and Bottarini; Drake and Jordan.

Vernon	100	000	000	1	7	1
Odessa	000	300	10x	4	6	1

Orgrzywacz and Herring; Sokolowski and Escobedo.

The Detroit manager, Red Rolfe, set a A. L. mark when he scored at least once in each of 18 consecutive games for '39 Yanks.

Wrightman Cup Defending Quartet

Off to hand the British what seems to be their inevitab le annual tennis trouncing are these four American women. Not since 1930 has America lost the Whightman Cup competition. Since that year, American women have won the cup 13 straight times, with time out for the war. However, it is not always so. Begiming in 1923, the two nations split the first eight meetings. Then came the American string and the odds were overwhelming that at Wimbeldon, June 16 and 17, Americans will make it 14 in a row.

Top Three Clubs Win Last Night In WT-NM Battle

By The Associated Press

The West Texas-New Mexico League may be noted for its huge scoring but everybody does it, so there's a good race.

As of today just three games separate the first five clubs and Abilene, in the cellar, is only eight games away.

Last night the three top clubs won their games.

Leading Lamesa whipped Amarillo 11-7, cashing in on the wildness of Pitcher Ray Faust and a leaky Gold Sox infield. Eulis Rosson did some fine relief hurling for Lamesa.

Second-place Borger edged Abilene 8-7 led by Earl Perry, who hit for extra bases three times and scored the winning tally in the ninth.

Third-place Clovis tripped fourth-place Lubbock 5-2 on the one-hit pitching of Bill Rosin.

Albuquerque swatted Pampa 10-8 but had to worry about some Pampa rallies in the last two frames that tallied seven runs.

Rotan Plays Dublin In Bi-District Tilt At Abilene Saturday

The Rotan Yellowhammers will meet the Dublin Lions in the bi-district game of Class A next Saturday afternoon at the Blue Sox Stadium in Abilene.

Three teams are entered in the regional meet with Ballinger Drawing a bye and playing the Winner of the Rotan-Dublin game for the regional championship. Rotan is the champion of District 6-A. Ken Clark, ace hurler ofr the Yellowhammers, is expected to start on the mound in the Saturday tilt.

Lou Gehrig hit 23 grand slam runs during his major league career.

PROBABLE PITCHERS

State Champion Edges Odessa In Class AA Series

By The Associated Press

Amarillo, Bowie (El Paso), Highland Park (Dallas), Beaumont and Waxahachie have taken the lead in play-off series to determine contesting teams in the state high school Class AA baseball tournament at Austin.

Amarillo beat Wichita Falls 6-3 yesterday in the first of the bi-district series. Bowie, defending state champion, edged Odessa 9-8. Highland Park has whammed Sherman 11-1 and plays the second game today at Sherman. Beaumont beat Pasadena 6-2. Waxahachie licked Austin 1-0.

In other bi-district series Abilene is playing Stephenville starting Friday and Laredo is arranging a play-off with Edinburg.

The Texas Interscholastic League will rule today on how many games Marshall and Conroe will play. They are arguing over whether it will be one or three.

The state tournament will be held at Austin June 5, 6, and 7.

Grover Alexander pulled the iron-man act for the Phillies by pitching and winning two doubleheaders.

Former Philadelphia Athletic star Max Bishop is in his 13th season as baseball coach at the Naval Academy.

(Won and lost records in parentheses):

AMERICAN LEAGUE

Washington at Chicago—Hittle (1-1) vs Cain (1-1).

New York at St. Louis—Sanford (1-0) vs Widmar (0-1).

Boston at Detroit—Kinder (2-3) vs Gray (2-1).

Philadelphia at Cleveland (night)—Brissie (0-5) vs Feller (2-2).

NATIONAL LEAGUE

Pittsburgh at Boston (night) —Werle (3-0) or Chambers (2-2) vs Bickford (1-3).

St. Louis at Brooklyn (night) —Lanier (2-1) vs Newcombe (1-1).

Chicago at New York —Lade (1-1) or Hiller (2-0) vs Koslo (1-3).

Cincinnati at Philadelphia (night) —Fox (1-2) vs Johnson (2-0).

Balk Plays Big Part In First Place Race

By The Associated Press

The Rio Grande Valley League had a new leader today — George Schepps' Corpus Christi Aces.

They surged into first place last night by whipping Del Rio 11-10. It tumbled Del Rio into a tie for second with Harlingen which beat McAllen twice, 10-4 and 14-1.

Marte Allejandro balked in the winning run in the eleventh inning for Corpus Christi's important victory. Tony DiPrimo of Corpus and Bob Hamric of Del Rio hit homers.

Bobby Gregg pitched a three-hitter and Jess Priest a four-hitter as Harlingen swiped McAllen in the twin-bill.

Brownsville whammed Laredo 9-6. Joe King and Ed Rzendian socked homers for Brownsville in an 11-hit attack.

TEXAS LEAGUE CLUBS BACKED BY MAJORS HOLD ADVANTAGE

By HAROLD V. RATLIFF
AP Sports Editor

The Independents, as usual, are having trouble in the Texas League. One of them, Shreveport, is fighting like mad to stay out of the cellar. The other, Dallas, can't climb into the first division no matter what others may do.

Fort Worth, Oklahoma City and Tulsa, big league chattels, are running one-two-three with little worry. Beaumont and San Antonio, which also are in the chains, are virtually tied for fourth place.

The only consolation the independents can get out of the situation is the fact that Houston, a St. Louis Cardinals farm, is holding down the cellar as if it owned it.

Last night Dallas, with a chance to gain the first division, skidded before San Antonio 5-4. Shreveport took it on the chin from Tulsa 4-2.

Fort Worth licked Houston 2-1. Oklahoma City slugged Beaumont 10-6.

It was a real pitchers' battle at Fort Worth where Hisel Patrick gave the Cats only four hits but lost anyway. Chris van Cuyk allowed Houston just six blows. Patrick's wildness cost him the ball game. He walked three in the seventh and a long fly in the winning tally.

Eddie Knoblauch homered with one aboard in the fifth inning to furnish the punch as Tulsa beat Shreveport. The Sports got only four hits off Rudy Minarcin.

Dallas made three errors to help the Missions along to their victory while San Antonio played errorless ball and used nine hits to the proper advantage.

Oklahoma City beat Beaumont in a see-saw game. The Indians got four runs in the sixth to put on the clincher. Two home runs were hit in that frame — one by Rip Russell and the other by Bob Lemon.

Tonight San Antonio again is at Dallas, Houston at Fort Worth, Shreveport at Tulsa and Beaumont at Oklahoma City.

Beaumont	202	001	010	6	9	3
Oklahoma City	300	104	20x	10	12	2

Ioti, Owens, Mackingen, Dodson and Tappe; Anderman, Henson and Burgher.

San Antonio	002	101	100	5	9	0
Dallas	020	002	000	4	7	3

Herrera, Hudson and Mancuso; Hofman, Watkins and Wagner.

Houston	000	001	000	1	6	2
Fort Worth	001	000	10x	2	4	2

Patrick and Rapp; Van Cuyk and Bragan, Staples.

Double Main Event On Tap At Arena Friday

A double-main event is slated for the Friday wrestling matches, with two hours of grappling on the card.

Gene Blackley and George Overhuls will tangle in the first event, a one hour or two out of three falls event.

Bob DeMarce and Olya Boynton will wrestle in the second event, also a one hour or two out of three falls event.

'Outstanding Farm' Award Of $15,000 Offered by Hoblitzelle

By ROBERT E. FORD
AP STAFF

RENNER, May 17. — An outstanding Texas theatre and businessman, an exponent of scientifi farming, today offered $15,000 for outstanding achievements in farm science and rural life.

The Texan offering the awards is Karl Hoblitzelle, president of the Texas Research Foundation. The foundation is a private agricultural research organization dedicated to bringing back the productivity of the Texas blacklands, a vast area through the center of the state stretching from the Oklahoma border to San Antonio.

COLLIN COUNTY

Announcement that the awards would be made came last night at an open house at the foundation near here in Collin County.

Present were several hundred Dallas and North Texas businessmen. They toured the foundation, where experiments of many types are going on. They saw lush grasses, products of scientific farming, growing side by side with stunted grasses which have marked North Texas grasses for several years. They saw similar spectacular demonstrations of how wheat, oats, corn and legumes could be grown better through crop rotation, fertilization and selection of types.

PRIVATE ENTERPRISE

Private enterprise was stressed throughout the afternoon and evening meeting. It was particularly stressed by Louis Bromfield, noted novelist and an exponent of scientific farming and soil conservation. He was the principal speaker. Bromfield said that with scientific farming, food costs to the city dweller could be decreased 30 to 40 per cent while farmers at the same time could increase profits 20 per cent.

He said that the Hoblitzelle awards would "dignify the profession of agriculture." And he claimed that scientific agriculture had allowed the farmer to rise to a position of importance in his community.

End to Excise Taxes Seems To Be Far Away

By FRANCIS M. LE MAY
(Associated Press Staff)

WASHINGTON, May 17 — New doubts arose on Capitol Hill today that there will be excise tax reductions this year—unless President Truman changes his mind about vetoing any tax bill that reduces the overall revenues of the Treasury.

The House Ways and Means Committee, by voice vote late yesterday, rejected the President's proposal for a $400 million increase in federal levies on inheritances and big gifts.

ONE OF HIKES

This was one of the big increases—along with higher corporation taxes and the plugging of tax law loopholes—by which Mr. Truman proposed that Congress offset the loss from proposed excise reductions.

Tax law managers, after yesterday's action, predicted to newsmen that Congress never will be able to offset, with higher taxes elsewere, the $1,080,000,000 in excise cuts the ways and means committee estimates it has approved already.

The figure is almost twice as big as the $655 million limit Mr. Truman recommended. It includes reductions on furs, jewelry, ladies' handbags, toilet preparations, movie admissions, travel tickets and scores of other items.

ACT PENDS

The committee has yet to act on the President's proposal for a $650 million increase in corporation taxes. It also has some votes to take on his suggestions for plugging tax law loopholes, that would yield more millions.

There is substantisl doubt that the bill finally sent to the White House will follow the President closely either on the corporation hike or the loophole plugging.

Kidnapping Charge Against Houston Woman Dismissed

DENVER, May 17. (AP) — Charges of kidnapping against Mrs. Jean Tivor Williams, 26, of Houston, have been dismissed in first judicial district court here.

Dist. Atty. Carlton McCarthy said yesterday that Mrs. Williams was "a victim of circumstances" in the kidnapping of Don Kitterman, 20, of Jefferson County, last January.

She was the companion of Andrew McCauley, Jr., who hanged himself in the Golden, Colo., jail.

Gets Death In Fatal Shooting of Wife

HOUSTON, May 17 (AP) — Jimmie B. Patterson, 43, was found guilty yesterday of murdering his divorced wife and given the death penalty.

Patterson was charged with murder after Mrs. Nettie Marie Patterson was shot to death as she was working at a Houston supermarket grocery Feb. 25.

Ancient Egyptians painted the figure of an enemy on the leather soles of their sandals, so they could insult him daily by treading him under foot.

Johnson's Visit To Pacific May Bring Treaty

WASHINGTON, May 17. (AP) — A new effort to break the American deadlock over a Japanese peace treaty will be made when Defense Secretary Johnson visits the Pacific cold war front next month.

Responsible officials said today the treaty problem unquestionably is one that will be discussed at length by Johnson, Gen. Douglas MacArthur, commander in Japan, and Gen. Omar Bradley, chairman of the joint chiefs of staff.

Johnson and Bradley will leave here June 11 for a 13-day aerial tour of the Far Eastern command. En route to Tokyo they will inspect the Pacific defense and communications bastions in Hawaii, Kwajalein, Guam and Okinawa. Returning, they are expected to travel by way of the Aleutians.

Girl Dies After Jump From Truck

HOUSTON, May 17. (AP) — Charlene Davis, 11, died yesterday of injuries received when she jumped from a moving truck.

She was one of four children hospitalized Monday after leaping from the truck when the driver refused to let them out.

Police are searching for the truck driver.

Crash Injures Four

BURLEY, Idaho, May 17. (AP) — A C-47 Air Force transport plane crashed early today at nearby Heyburn, injuring four persons. The plane was virtually demolished and knocked out a 2,300 volt power line.

BIGGER OLIVES

DAVIS, Calif., (AP) — The average olive in California probably will be bigger if the tariff on imported olive oil is cut 50 per cent, as expected. Imported oil would thus be better able to compete with domestic oil, which is usually pressed from olives considered too small for canning.

Size can be increased by thinning part of the growing crop on the trees, reports H. T. Hartman, University of California pomologist. He says trees with light crops generally produce fairly large fruit, while those with heavy crops yield a high percentage of olives too small for canning.

Wooden matches struck in the U. S. every day, says the National Geogrphic Society, contain enough wood for 25 six-room houses.

Republicans in Hometown Honor Democrats' Chief

By AL DOPKING
AP STAFF

LEAVENWORTH, Kan., May 17. Bill Boyle, the local boy who made good politically, Democrat that is, is coming back for a pat on the back by the old home town, Republican, that is.

This county seat town, long a Republican stronghold, tomorrow is going to honor William M. Boyle, Jr., chairman of the Democratic National Committee, strictly as a "successful son."

Boyle was born here and went to school at the old cathedral grade school until he was 12 years old. Then his family gave up its confectionary store and moved to nearby Kansas City, across and down a piece on the Missouri River.

Mayor Ted L. Sexton, a prominent Leavenworth Republican, is ramrodding the Bill Boyle program along with Bill Hull, who runs a laundry.

NON-POLITICAL

Sexton and everyone connected with arranging the program is anxious to make it clear the "Bill Boyle Day" is absolutely non-political. Several chairmen of the arranging committees shoot a neat stick in GOP local circles. And Sexton emphasizes:

"We're honoring Bill as a local man who has made good."

Boyle, himself, is slated to talk little. He's down for a brief speech on the program. It'll be mostly shaking hands with old boyhood friends and probably trying to remember names and faces that look mighty familiar.

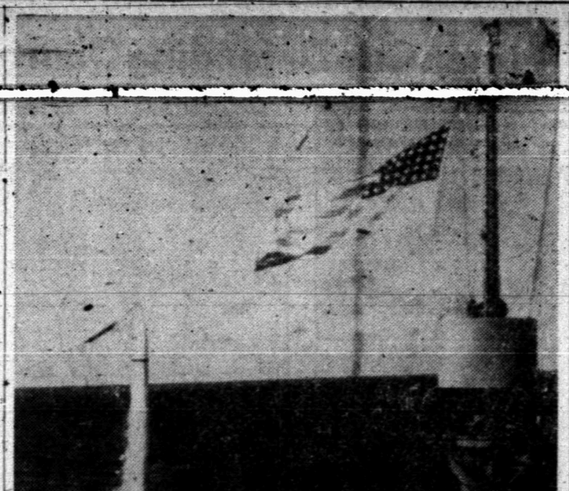

FETED

He'll be feted at two banquets. And there'll be a parade, a public reception and tours of the city and nearby points, including trips to the Army Command and General Staff College at Fort Leavenworth and the federal prison here.

Boyle and his wife will arrive here this afternoon. His mother, Mrs. Clara Russell Boyle of Evansville, Ind., came here last week and is staying with a sister, Mrs. Fred Boeppler. She will share the spotlight with her son.

TAKE UP RESIDENCE

Mrs. Edward Bolger has joined her husband, Edward Bolger of the Bolger-Barnes Funeral Home, at their new residence, 1906 Twenty-ninth Street. She brought with her from Waco their younger son, John Malcolm, 5. Edward Perry Bolger, 12, is in Waco and will rejoin his family here when school lets out.

STRAIGHT UP 106.4 MILES—Condensed moisture in the form of frost and ice particles is shaken loose from the body of a Navy Viking rocket as it is launched amidst a cloud of smoke and steam from the USS Norton Sound in mid-Pacific, to travel to a height of 106.4 miles. The rocket headed straight up to what the Navy claimed was a record height for an American-designed single stage rocket. Frost and ice resulted from the liquid oxygen fuel and high equatorial humidity. (AP Wirephoto from U. S. Navy).

Federal Charge Of Theft Still Facing Johnson

AMARILLO, May 17. (AP) — Evald Johnson, found innocent in the bludgeon slaying of W. A. (Tex) Thornton, still faces federal charges of transporting a stolen auto across state lines.

The redheaded, 30-year-old Munising, Mich., man was found innocent yesterday by a jury which deliberated three hours and 13 minutes.

"All I can say right now is that I'm very happy. I'm going back to Michigan as soon as I can," Johnson said after the verdict.

TESTIMONY

Johnson testified that he attacked Thornton, famed oil field fire fighter, after he found him and Johnson's wife, Diana, 19, nude together in bed in an Amarillo tourist court cabin June 22, 1949. The Johnsons had hitchhiked a ride with Thornton from Tucumcari, N. M.

The auto theft charge grew out of the Johnsons taking Thornton's auto and fleeing from Amarillo. The car was found abandoned a few days later at Dodge City, Kan.

Diana, who is being held in jail here, was not in the courtroom when the verdict was given. She also faces the stolen auto charge.

Sobs and cheers from the spectators in the jammed courtroom greeted the verdict. Judge Henry Bishop, who had warned against a demonstration, admonished the spectators for their conduct.

THREE DEFENSES

Judge Bishop, in his charge to the jury, outlined three possible defences to be considered; justifiable omicide — under the Texas law that protects a husband who kills a man found in adultery with his wife; self defense — Johnson testified that Thornton yelled "I'll kill you" and grabbed for a pistol when caught in bed with Diana; insanity — defense witnesses testified they believed Johnson, a war veteran, of unsound mind.

U. S. Pushes For Army Support By Pact Nations

LONDON, May 17. (AP) — The United States is pressing its 11 North Atlantic allies to rush formation of an international army against the threat of Russian aggression.

The decision whether to do so probably will be made today by the foreign ministers of the Atlantic Pact countries, meeting in secret deliberations here for the third and perhaps final day.

Diplomatic informants emphasized, however, that military might is not the only aspect of the defense question.

MORE PRODUCTION

Bigger and more efficient industrial production particularly is needed to underpin the costly deense effort, in the view of American diplomats. The United States is reported to be urging Europe to show more speed, determination and confidence in its economic efforts.

The international army idea has developed from a view, held on an increasingly wide scale, that a group of national armies added to each other do not make a unified or efficient defense force.

TOO THIN

When a comparatively weak nation attempts to provide itself with all the components of modern war—fighters, bombers, armor, infantry and sea power — its defenses are spread so thin that no branch is effective.

By contrast the American idea is to set up a super-command under the Atlantic Pact to weld together the armed forces of the 12 members while at the same time looking out for their economic strength and possibly for closer political ties.

Nurse-To-Doctor Plan Assailed

BANGKOK, (AP) — The medical profession as well as the more enlightened press of Bangkok was aroused by a bill that almost became law in Parliament without anyone seeming to notice a "sleeper" clause. The "sleeper" would have permitted male nurses of long hospital experience to become doctors without any further training.

As a result of the clamour raised when the measure's provisions came to light, it is now anticipated that the bill will be amended to eliminate the nurse-doctor provision.

Radio Made For Mines

NEW YORK, (AP) — Miners would carry radio transmitters to tell rescuers where they were trapped, in a system devised by James A. McNiven of New Orleans. He is an electrical engineer with the U. S. Coast Guard.

The miner would stick metallic probes into the ceiling of the mine. He would speak into a traio transmitter, and the signals would be carried to a receiver at the surface. Batteries of the type supplying power for a miner's head lamp would be strong enough to allow him to broadcast, McNiven said.

The miner's transmitter-receiver could be a portable affair, perhaps carried on a man's back, he said. There might be one for each man, or one for each small group of men. Rescue work could be speeded up if trapped men could tell just where they were, and what the situation was. McNiven said the method had been tested successfully in coal mines.

In 350 B. C., the famed Greek physician Hippocrates, "Father of Medicine," used a leather-soled boot to treat club-foot.

Fort Worth Death Declared a Suicide

FORT WORTH, May 17. (AP) — Dist. Atty. Stewart Hellman says he is convinced that the death of Mrs. Tom G. Rumph, Jr., 27, was suicide.

Hellman completed investigation into the Monday pistol death of Mrs. Rumph yesterday.

"I am convinced it was suicide," he announced.

Two Texas Rangers ordered into the case returned to their Dallas office after assuring Hellman they were satisfied with his findings.

Mrs. Rumpn was found shot to death in her home here. Justice of the Peace Whit Boyd ruled death was due to suicide.

The investigation began yesterday upon the insistence of the victim's father, John J. Gannon, Sr., of Houston, that she had been murdered.

WARNING TO HOUSEWIVES!

If Aluminum Is Dangerous To Health The Amarillo Better Business Bureau Would Not Have Published The Following Ad

DON'T BE TAKEN IN
By Malicious Slander Against Aluminum Cooking Utensils

Recently, the housewives of West Texas have witnessed the revival of an old and viciously false bugbear . . . that cooking utensils made of aluminum cause disease and are dangerous to health. This rank untruth, circulated principally by house-to-house salesmen for certain competitive cookware, has flared up in various parts of the country, in years past. In each instance it has been branded as a falsehood by national health authorities of unquestioned repute.

"The reappearance of such misrepresentation here warrants this warning to the women of Amarillo: DO NOT BE TAKEN IN! If you encounter sales methods of this type, report the names of the salesman and his company to the Buerau for proper action."

The American Medical Association Says: "There is not the slightest reason for believing that food cooked in aluminum sils is harmful. We believe that food cooked in aluminum aluminum cooking utensils comes from propaganda against ignoramuses, or in some instances, is doubtless inspired by the makers of other kinds of cooking utensils."

The Federal Trade Commission Says: "Extensive scientific investigations have failed to disclose evidence that food prepared or stored in aluminum utensils is unsafe, disease producing, poisonous, or otherwise dangerous to health."

THE SNYDER DAILY NEWS

Talk of the Town

By Frances Blow

Mark my words, coolest spot in Snyder this summer will be the third-floor vantage point held by certain county functionaries in the Court House. Completely out of breath, I landed up there in the skylights and among the scaffolding to collect petite LYNDAL ALLEN, office girl for the City-County health unit, and the perfect companion for a 4 o'clock coke.

While she applied a lipstick brush, I enjoyed the breeze and the clear-cut view out over our romping little city. Straight down in the Manhattan Hotel lobby, four men smoked sporadically and jabbed pins in a huge oil-territory map, while three teen-age girls buzzed around the pay phone booth, all intent on the same call. You get a handsome view of the City Jail, the shopping area, cars bumper to bumper, and all the business of our fevered town.

Miss Allen introduced the tall, dark-haired young man who strode in as DR. FRED DINKLER, health unit director.

"We're married to the Soil Conservation Program" she explained as we walked through the offices, "I have exactly three feet around by typewriter which is my own, and those gentlemen over there look as if they work with me, but they haven't a thing to do with our department." To further display the confused but fascinating state of affairs on the third floor while the Courthouse gets renovated, she threw open another door . . . Twleve beds were stacked up, with a telephone on top of them. "It actually rings and we actually get our calls on it," she said. "Someday the room will be all straightened up for a hung jury from the district court next door."

* * *

We looked in on MARY NELL COPELAND, FHA secretary, whose well-ordered life with the Farm Home Administration picked up zest when the Sheriff moved in with them. MISS COPELAND avers that, after several weeks of sharing space with the law, she can now placidly type up a statistical report on hog raising or ranch land loans while some lady strides the floor wildly, pouring out a heart-jerking tale of desertion. More often than not, the gentleman arrives, sooner or later, and a reconciliation is achieved. "It's love-iorn department mixed with intrigue," she laughed, "and I can't say that it's dull!"

* * *

It's too bad to see Census collecting come to an end. MRS. GEORGIA MARTIN, director, was always good for a story full of the trials and humorous escapades of "her girls," who raked around and turned up around 12,000 permanent, and presumably satisfied inhabitants in the city limits. "They visited trailer camps as far out as the Apoltolic Church on the west side of town, and if we could have counted that conjested area between there and Union, we would have hit 15,000. They got out south past CLAUDE McCORMICK'S Phillips 66 service station, a heavy district with 1,272 folks. The largest count probably came from the girl who covered Canyon Courts and the FHA homes, parked trailers, little businesses, and thickly populated residential streets of the southeast part of town."

"Quite often my girl would be met at the door by the lady of the trailer, finger to lips. She would ceremoniously be led through the one living room and parked comfortably on bathroom equipment while they conversed in hushed tones about income and children. You see, the husband was sleeping days!"

And the last story Mrs. Martin will likely have to tell me about Snyder census for another ten years, is this one:

"My Hermleigh enumerator visited a farm owned by a German farmer, and is still puzzling conscientiously over his answer to 'How many animals did you butcher last year?' He said, 'Two and a half.'"

The first potatoes in North America were planted in Rockingham County, N. H.

Hospital Notes

Admitted to Snyder Hospital Clinic yesterday were:

Marvin M. Morris, Snyder.

Perry F. Graham, Lufkin.

John D. Dunlap, 1005 Twenty-fourth Street.

Miss Patsy Ann Harless, 11 years, Route No. 2.

Mrs. Bobby L. Williams 708 Twenty-sixth Street.

Mrs. J. B. Jones, Route No. 3.

Discharged were:

Herbert Simmons, Lamesa.

Miss Linda E. Godsby, 4 years, general delivery.

William L. Smedley, general delivery.

Miss Grace Raymond, general delivery.

Murphy News

Mrs. Ben Weathers, Correspondent

Mr. and Mrs. Walter Weathers visited Friday afternoon in the Ben Weathers' home.

Mr. and Mrs. Marshal Davis and family were Big Spring visitors the latter part of the week.

Mr. and Mrs. Ed Murphy spent most of the week at House, N. M.

Mrs. Howard J. Franklin and children of Snyder visited Wednesday in the Edd Franklin home. Delaverne, Jaunda and Marvin visited the school.

Zed Irwin, returned Thursday to his home in Lubbock after spending the week in the Ben Weathers' home.

Brother Fields of Penwell visited here early in the week.

Mr. and Mrs. Harley Smith are staying at Snyder, assisting in the care of E. B. Alexander during his illness. Last Sunday Mr. Alexander suffered a paralytic stroke on his left side.

A beneficial three inch rain fell last Wednesday afternoon and night, in the community. The Colorado River flooded the low lands of this vicinity.

Mr. and Mrs. Roy Osborn and children were in Big Spring Wednesday. After the big rains they spent the night on the road en route home.

Mr. and Mrs. Walker Huddleston were Wednesday guests of Sweetwater relatives.

Mrs. J. E. Sorrells spent the week with her daughter Mrs. Winfred Tucker and family near Meadows.

Mrs. Cora Weathers spent Saturday night with Mr. and Mrs. Harry Smith.

Several community members enjoyed the plays presented by the children of Union (Murphy) school last Friday night.

Mrs. Mae Ellis had most of her children visiting with her Mother's Day, in the Wright Huddleston' home.

Union News

Mrs. J. B. Adams, Correspondent

Mr. and Mrs. Johnie Langford visited Sunday in Aspermont.

Mr. and Mrs. Dee Myers and boys and Mr. and Mrs. Clarence Myers spent Sunday with their mother, Mrs. M. D. L. Myers of Snyder.

Miss Lillie Hundley a returned missionary from China and Tom Parish were the speakers at the night services of the Baptist Church.

Mr. and Mrs. James Mebane and son of Dumas, Texas spent the week end with the P. A. Mebanes.

Mr. and Mrs. E. E. Woolever and Patsy spent the week end at San Angelo.

Mr. and Mrs. J. B. Adams visited in Lamesa Sunday.

Mahon Is Opposed, But No Contest In 8 Texas Races

By The Associated Press

Eight Texas congressmen, headed by Speaker of the House Sam Rayburn, will have no opposition in the July 22 primaries.

The other 13 legislators, all of whom seek re-election, have from one to four opponents each. The deadline for filing by candidates was midnight Monday.

Other unopposed for renomination:

Olin E. Teague of College Station, 6th District.

Albert Thomas of Houston, 8th District.

John E. Lyle, Jr., of Corpus Christi, 14th District.

Lloyd M. Bentsen, Jr., of McAllen, 15th District.

Omar Burleson of Anson, 17th District.

Paul J. Kilday of San Antonio, 20th District.

O. C. Fisher of San Angelo, 21st District.

Here's the lineup by districts where there is opposition:

1. Rep. Wright Patman, Texarkana, opposed by Mayor Abe M. Mays of Atlanta and former state legislator.

2. Rep. J. M. Combs of Beaumont opposed by Price Rogers, 45, Beaumont insurance man seeking public office for the first time, and Hugh Wilson, Port Arthur refinery worker who was unsuccessful in the 1948 primaries.

3. Rep. Lindley Beckworth of Gilmer opposed by E. A. Martin, longview attorney.

5. Rep. J. Frank Wilson, Dallas, opposed by Jimmy Jeffries, 45, Dallas radio program master of ceremonies.

7. Rep. Tom Pickett of Palestine opposed by Roger Knight of Madisonville and J. S. Holleman of Livingston.

9. Rep. Clark Thompson of Galveston opposed by Dan M. Kimbrough, 48, a Clute pharmacist.

10. Rep. Homer Thornberry of Austin opposed by Magnesse L. Foster, 40, manager of Austin Driver Training Institute.

11. W. R. Poage, Waco, a ranking member of the House Agriculture Committee, has drawn three opponents. One is Mrs. Tom Travis, 42, a Waco real estate agent and builder with no previous political experience. The other two are former Waco Mayor Richard C. Bush, 48, an advertising and newspaperman, and Atty. John L. Bates, Jr., 29, of Waco. Bates, too, is inexperienced in office holding.

12. Rep. Wingate Lucas, 41, Grapevine, opposed by F. M. Lanham, Sr., Ron Reddon, real estate dealer, and John B. Roscoe Pierce, 37, Fort Worth tire salesman and T-V hillbilly guitar player.

13. Rep. Ed Gossett of Wichita Falls opposed by Mrs Edith Wilman, 67, lawyer and Jack County rancher, formerly of Dallas.

16. Rep. Ken Regan of Midland opposed by District Judge Paul Moss of Odessa and Fred Hervey, El Paso restaurant chain owner.

18. Four seek the Democratic nomination to succeed Eugene Worley of Shamrock, who quit to accept a federal judgeship. They are Walter E. Rogers, 41, Pampa, former state district attorney; LeRoy Pete Lamaster, 34, Perryton; J. Blake Timmons, 33, Amarillo, now a state legislator, and Mrs. Altavepe Clark, Amarillo, now a federal job holder.

19. Rep. George Mahon of Colorado City opposed by A. M. Ripps, Big Spring, 65, retired railroader.

Joe Tinker of the Cubs and Larry Doyle of the Giants each stole home twice in a game to set a major league record.

Formosans In Japan Seek Independence For Their Homeland

TOKYO, May 17. (AP) — Formosans in Japan have joined to support independence for their island homeland. They said Formosans are forced to "a life of misery under fuedalistic" Chiang Kai-Shek, president of Nationalist China.

Frank S. Lim today announced formation of the Formosan Democratic Independence Party. Lim is chief of the political department of the new group. He said the Formosan groups — the Formosan League for Independence, the League for Formosan Re-emancipation and the Formosan Students League.

3,000 MEMBERS

Lim said the party has 3,000 members from the estimated 11,000 Formosans in Japan.

A statement from the new party said:

"We have been forced to live a life of far less freedom and more misery under the fetters of the feudalistic and imperialistic regime of Chiang Kai-Shek than during hte Japanese colonial days.

"We are involved in the Chinese civil war which means nothing to us from either a legal or moral standpoint.

"Formosa's misfortune and peril are the result of bargaining at the airo conference and the assistance which Gen. MacArthur gave to the Chinese in taking over the island.

"No one without a plebiscite of the people of Formosa has the authority or right to decide the fate of Formosa.

SEE INVASION

"Unless Formosa is given independence soon it will not be long before Formosa is trampled down under the iron hoofs of the Chinese Communists of Red imperialism.

"Formosans appreciate the traditional American policy of the right of self determination of peoples. We regret that they (the United States) have not yet shown any signs of sympahy toward us in applying this principle to the case of Formosa."

Errol Flynn, Fiancee, Arrive From Jamaica

LOS ANGELES, May 17. (AP)—Errol Flynn and his fiancee, Romanian Princess Irinia Ghica, 19, arrived last night from Jamaica, where she joined Flynn two weeks ago after flying from Paris.

This is her first visit to the United States. She will spend two or three weeks here, then return to Jamaica. Flynn will make two movies here, then meet the princess in Paris, where they said they "probably" will be married in September.

TRUMAN RETURNS FROM WESTERN TRIP—A smiling President Truman gets ready to leave his special train at Union Station in Washington at the end of his swing through the northwest. Standing on the rear platform with him are daughter Margaret and Secretary of Defense Louis Johnson. Johnson went to the station to greet the chief executive. (AP Wirephoto)

First Texas Wheat Brings $2.15 Bushel

WACO, May 17. (AP) — Young County Farmer Elmer Hennig received $2.15 per bushel yesterday for Texas' first load of wheat of the season.

Hennig's 50-bushel load weighed 60 pounds to the bushel and tested about 15 per cent moisture content. The Olney Feed & Elevator Co. purchased the load.

Hennig, whose farm is in the Ingleside community about five miles southwest of here, said his land would make about 14 bushels to the acre. This is a considerably higher yield than had been predicted.

The initial load for Texas was the earliest since 1946 when the load arrived May 8.

More than one type of pine is used for Christmas trees. Included are Norway spruce, white spruce, balsam fir, Douglas fir and Scotch pine.

Bataan Death March Survivor Succumbs

WACO, May 17. (AP) — Funeral services for Lt. Col. William C. Truett were to be held at the National Cemetery in San Antonio today.

Colonel Truett, survivor of the Bataan death march, died yesterday at Brooks General Hospital, San Antonio.

Russia Charges French Keeping Soviet Citizens

LONDON, May 17. (AP) — Russia has accused France of keeping Soviet citizens from going home and has asked for reopening of the Russian repatriation mission in Paris, the Soviet News Agency Tass reported today.

A Russian note to the French government, handed Monday to the French ambassador in Moscow, said 20,000 Soviet citizens still are in France and more are awaiting repatriation in the French zones of Austria and Germany.

The French closed the repatriation mission in 1947, charging it was a front for subversive activities.

The Russians said all French citizens in the Soviet Union have been repatriated.

Tornado Spotters Alert Amarillo Against Storms

By WILLIAM C. BARNARD
(Associated Press Staff)

This is a prime tornado season and Amarillo has set up a tornado warning system that other sections of the state might duplicate.

It is remindful of the hurricane warning network along the Gulf Coast, although not nearly so elaborate.

The system at Amarillo covers an area with a radius of 60 miles, with the Panhandle City as the hub. Twenty-three men over the area act as spotters, phoning pertinent information to the weather bureau. The system is the weather bureau's own plan.

Strong winds or tornadic conditions are quickly reported.

TORNADO CONSCIOUS

Amarillo became tornado-conscious last May when a big twister roared through one section of the city, fatally injuring seven persons and doing a great deal of property damage.

Besides supervising the spotting system, the Amarillo Weather Bureau handed the Panhandle public some advice about tornadoes which was printed in the Amarillo Globe News:

"A tornado usually travels from southwest to northeast with a forward motion of 25 to 35 miles an hour. Circular winds inside the storms are too violent to be measured.

"Tornado weather may be discerned by a sticky, sultry, oppressive day with southerly winds. An hour or two before a tornado, a topsy-turvy sky of clouds appears to be bulging downward crazily instead of upward.

GREAT CLOUDS

"In the West and Northwest, great thunderstorms appear. The towering clouds have an ominous appearance—the color is often described as a sickly greenish black—and the lower clouds are perhaps visible in rapid and confused motion.

"Then out of the dark thunderclouds, a rope-like funnel cloud reaches toward the earth, spinning counter-clockwise. The funnel varies greatly in appearance. Often it is thin. In other cases it has the appearance of a gigantic elephant trunk and occasionally it is the shape of a solid funnel.

"People in open country can view the approach of the storm and should move at a right angle to its patch. Persons caught in the open country without time to escape should lie flat in the nearest depression.

"In town, the southwest corner of a basement of a frame house offers maximum protection if a cave or cellar is not at hand. People living in brick or stone houses should seek other shelter. In a larger office building, the best policy is to stand against an inside wall on a lower floor."

Trick Movies Used To Promote Plan For Car Production

LOS ANGELES, May 17. (AP) — Trick movies of a production line which didn't exist were used by Gary Davis, promoter of a three-wheel car, to push investments in his project, two witnesses testified at his preliminary hearing.

"We never had an assembly line, never went into production. Each of our 15 pilot cars was handmade," Robert L. Bricker, former production engineer for the Davis Motor Car Co. said yesterday. Ex-Production Mgr. Joseph Charipar quoted Davis as telling a dealer: "I'll have autos rolling out in 90 days."

Davis faces a $60,000 grand theft charge.

Smith-Doxey Plan Calls for Same Procedure as 1949

Complete details of the 1950 Smith-Doxy cotton classing program were announced yesterday by J. J. Matejowsky, head of the Abilene cotton branch of the Production and Marketing Administration.

"Farmers will follow the same procedures as they did last year in signing up for this program," Matejowsky said.

Under the program a farmer will receive, without cost or obligation, cotton classing and market news from the U. S. Department of Agriculture. Any group of framers organized to promote the improvement of cotton is eligible for these services.

Matejowsky urged all cotton farmers that are interested in Smith-Doxey benefits to organize community groups immediately and submit applications to the cotton office located at 1407 South First Street, Abilene.

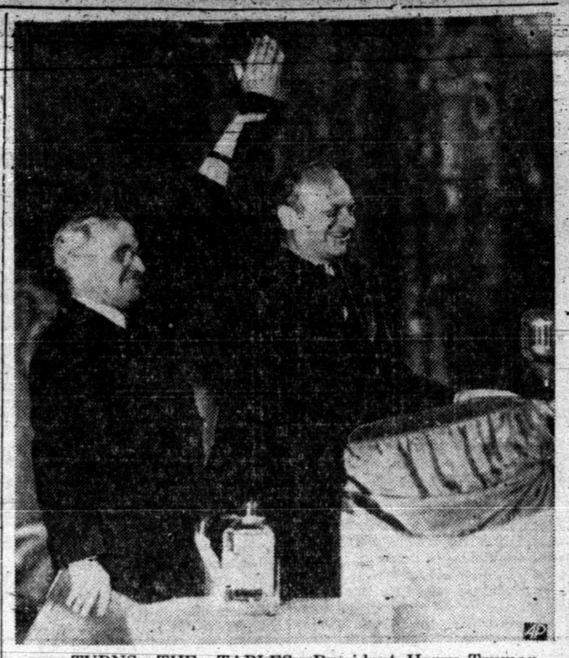

Zion Residents Want Blue Laws

ZION, Ill., May 17. (AP) — Some of the residents of Zion, founded as a church community—want the city to reinstate the blue laws, repealed last year after 48 years.

A petition with 940 signatures asked the city council to forbid Sunday movies, other recreational and business activities, and gainful labor.

The last of the blue laws in the community of 6,500 some 40 miles north of Chicago were discarded after a referndum last year.

Babe Ruth holds the A L. mark for lowest ERA by a southpaw pitcher with 1.75 in 1916.

TURNS THE TABLES—President Harry Truman turns tables on Senator Scott Lucas (right) by raising his arm on the stage of the Chicago Stadium. Lucas came out to congratulate the President following his Jefferson Jubilee speech. But Truman grabbed Scott's arm and presented him to the audience. Lucas, senior senator from Illinois, faces a stiff fight for re-election in November against former Republican Representative, Everett M. Dirksen. (AP Wirephoto.)

Cafe Being Built By Brothers On Lamesa Rode Site.

Three brothers began construction last month of a rustic style California redwood dining room and drive-in, one mile west of city limits on the Lamesa highway.

The owners, W. S. Rivers, A. G. Rivers, and J. R. Rivers are doing the work themselves. They expect to complete the building in time for a June 1 opening. A name for the restaurant has not yet been decided upon.

Specialty of the house will be moderately priced electrically broiled steaks. All meat will be western, aged and cured, according to the owners. The dining room is designed to seat 125 persons, and parking space will accommodate 150 cars. The building is of permanent construction with natural redwood walls.

Rough-cut cedar posts support the roof of a concrete porch in front. A central front entrance is balanced on either side by picture windows.

Approximately 20 persons will be employed as kitchen and dining room help, according to the owners. Hours have not been set yet, but th restaurant will be open from at least 6 o'clock in the morning until midnight.

W. S. Rivers and A. G. Rivers are from South Carolina and J. R. Rivers is from Beaumont.

Saxton To Meet Linam In Main Fight at NY

NEW YORK, May 17. (AP) — Johnny Saxton, undefeated and fast rising Brooklyn welterweight, faces one of his toughest foes to date when he tangles with Bert Linam of Austin in the main ten at St. Nicholas arena tonight.

The 20-year-old Negro prospect has won all of his 11 bouts so far. Linam, 24, holds victories over both of Italy's fighting Minelli brothers, Aldo and Livio.

Walter Johnson pitched a total of 113 shutout games during his 21 year career with the Senators.

CIO Office Help Stages Strike; Union Resists

TOLEDO, O., May 17. (AP) — Local 12 of the CIO United Automobile Workers had a strike of its own employees on its hands today.

Twelve girls, who are members of the local and employees in its dues collection office, have walked out.

They went out yesterday against what they termed "the domination of Richard Gosser," of Toledo, international vice president of the union.

In a statement last night, the union asserted they quit their jobs. The local refused to recognize the action as a strike, and said the girls' job would be filled by others.

The girls who walked out appointed as their spokesmen a four-member committee—Johanne Kocica, Alma Pinninger, Peg Reihle and Virginia White. The committee declared:

1. Dues collection office workers were not permitted to vote on strike assessments they were asked to contribute. They said they asked Howard Seren, Local 12 president, if they could vote on a donation for strikers at the Mather Spring Co. in Toledo, but he refused.

2. Gosser and his staff interfered with the routine operation of the dues-collection office and put in "scabs" after the strike was called.

Said the striking girls, "we are not against donating for men on strike, but we are against having to pay without the right to vote."

Charity With the Hat Check

CHICAGO, (AP) — Contributions for charities are collected the year 'round by one Chicago restaurant owner. His patrons drop coins into containers for specific public service programs rather than tip hat check girls.

The National Foundation for Infantile Paralysis was presented with a check totaling $1,595.66 donated by his customers.

Truman Marks Publication Of First Jefferson Volume

By ALEXANDER R. GEORGE
(Associated Press Staff)

WASHINGTON, May 17. — President Truman and Gen. George C. Marshall headed the list of dignitaries today for a ceremony marking the publication of the first of 52 volumes of the papers of Thomas Jefferson.

The ceremony, in the Library of Congress, called for the first presidential address ever given there in its 150 years' history.

Joint sponsors were the library and Princeton University, which is compiling and editing the Jefferson papers. They are being published by the Princeton University press.

COMPREHENSIVE

The 52 volumes will be by far the most comprehensive collection of the ideas of the man who, scholars say, had the greatest mind of his time in America. They will include some 18,400 letters written by Jefferson, about 25,000 letters in full or in summary written to him, and Jefferson's special writings on subjects ranging from architecture, law and political science to religion, meteorology, agriculture, wine and cookery.

The project, which was started in 1943 and will not be completed until 1963, is rated as one of the largest book publishing undertakings in the nation's history. The total cost is estimated at $1 million.

HELP IN COST

To help defray the expenses, the New York Times company made a gift of $200,000 to Princeton University as a memorial to Adolph S. Ochs, longtime publisher of the Times. Mr. Ochs was an ardent admirer of Jefferson's championship of freedom of speech and religion.

No previous edition of Jefferson's papers has included more than 15 per cent of the total number of documents which will be contained in the Princeton edition. The letters written to Jefferson are from correspondents, who range from backwoodsmen to other presidents and statesmen.

When completed, the set is expected to portray as does no other collection of private papers, the course of American history from the 1760's to the 1820's. The reproductions of documents now assembled at Princeton number nearly 50,000.

Some Unfaithful Reds Misappropriate State's Farm Lands

LONDON, May 17. (AP) — Russia's Communist Party newspaper Pravda today reported unlawful use of collective farm land by individuals and organizations in the Soviet Union.

In an editorial broadcast by Moscow radio, Pravda said more than 17,300 acres had been misappropriated last year in the Kirgiz Republic of Central Asia.

Simjlar land diversions, the newspaper said, had been taking place in the Kazakh and Uzbek Republics of central and western Asia, in some places "with the connivance of local party and Soviet organizations."

Man Convicted of Rape Dies in Chair

HUNTSVILLE, May 17. (AP) — Nathaniel Edwards died today in the state's electric chair. Edwards, Negro convicted of raping a 16-year-old white girl at Houston last May, was strapped in the chair at 12:05 this morning and was pronounced dead at 12:08.

Edwards was one of three men accused of raping the girl. Another negro, Eugene McFarlane, 25, is under a death sentence for the same crime. A third man charged in the case has never been arrested.

Big Pay Fails To Lure Top Men Into Government

WASHINGTON, May 17. (AP) — President Truman is still finding it difficult to fill top-level government posts despite the attraction of higher salaries.

As he got back to a full day's work behind his White House desk today after his nine-day jaunt to the West Coast, he found 18 important vacancies, some of them dating back to last year.

The salaries of these jobs range from $12,000 to $17,500 a year.

OTHERS

In addition to the 18, two $15,000 a year positions of assistant secretary of agriculture will be available shortly if the agriculture reorganization plan becomes effective, and all Atomic Energy commission members' terms expire June 30.

Only one of these five AEC commissionerships is now open. A $17,500 a year chairman is expected to be named whenever the president finds the man he wants.

Mr. Truman is looking for three men to fill the $17,500 jobs as undersecretary of agriculture, commerce and interior.

There is also a $16,000 opening for a director of mutual defense assistance and the following $15,000 positions waiting to be filled:

Assistant attorney general, assistant postmaster general, administrative assistant to the president (he has five, but has never had the sixth permitted by law), undersecretary of the Air Force, director of the newly-created National Science Foundation, and seven district judges, including three in California, two in New York, and one each in Ohio and New Jersey.

The $12,000 vacancy is on the 14-member U. S. tax court.

MORE TOLL ROADS

CHICAGO, (AP) —Pay-as-you-drive highway systems are growing. The American Public Works Association reports that nearly 300 miles of toll roads now are in use in Connecticut, Maine, New York and Pennsylvania. An additional 132 miles of toll roads are under construction in New Jersey and New Hampshire.

Power Restored As Strike Ends In Mexico City

MEXICO CITY, May 17. (AP) — Workers and employers signed an agreement at 1 o'clock this morning ending Central Mexico's 14 hour power strike.

They said the electricity would be back on before daylight.

One Canadian owned Mexican power and light company offered to pay its 6,000 employes a 15 per cent wage increase if the company earns enough in the next 12 months to pay for them. The union, which at noon yesterday pulled power switched cutting off electricity in Mexico City and eight surrounding states, agreed.

Both said that the power would be back on as soon as the agreement was put in writing and signed, probably by midnight last night.

An unforseen snag developed with the writing. The company had agreed to pay the raises now, and deduct them next year if it fails to earn the necessary money. But the union pointed out the contract is for two years, and wanted the same arrangement for the second year as for the first.

The company argued that if it pays the extra 15 per cent in the second year and then fails to earn, its agreement with the workers then will have expired and it would have no guarantee of getting its money back through deductions.

Big Jim Duff Will Continue Fight On GOP Old Guard

PHILADELPHIA, May 17. (AP) — The husky, low-pitched rumble of Jim Duff's voice is going to be heard a lot, and receive a lot of attention in national Republican affairs.

And Duff if he runs true to the form he's shown through most of his 67 years, will have no hesitancy about speaking his mind.

He's a husky, six-foot-plus redhead who believes in doing what he thinks should be done — like the primary election fight which he won yesterday, along with the GOP nomination for U. S. Senate.

The governor — a lot of his friends call him "big Red" — had plenty of chances to avoid a contest that couldn't help causing hard feelings within the party while supplying the Democrats with ammunition for the November general election.

OPPOSING FORCES

Duff was opposing the forces allied with former Sen. Joseph P. Grundy. The leaders included U. S. Sen. Ed Martin, former Gov. Arthur James, and national committeeman, G. Mason Owlett. They headed an organization that for three decades operated in every county in the state.

Back of his ticket, Duff lined up most of the 40,000 men and women on the state payroll, and as many leaders as he could swing away from the old organization.

If Duff had been willing to go along with any candidate for governor acceptable to the Grundy forces, there would have been no primary slate row.

NO COMPROMISE

"There will be no compromise," Duff said. "We started out to define as issue in this campaign. That issue was the domination of the party by a small group of men. There will be no swerving from that aim."

It wasn't the first time Duff took the bit in his teeth. Away back in 1912 Duff, then a not-too-prominent Pittsburgh lawyer, bolted the party organization to back Teddy Roosevelt and the Bull Moose ticket.

Duff worked with Gifford Pinchot, too, in two successful and several unsuccessful campaigns. He gradually came to be recognized as a power in Pittsburgh, and jumped into the state picture in 1942 when Martin, then governor, appointed him attorney general.

Four years later the party leadership was tangled on a choice for governor. Weeks of closed meetings produced no agreement until Duff was suggested to and, somewhat later, accepted by the Grundy leadership. He won the nomination in a relatively quiet primary, and was elected that fall.

INTO NATIONAL

In 1948 Duff stepped into the national scene at the Republican convention. He did all he could to prevent the nomination of Thomas E. Dewey, but was beaten even in his own delegation which Grundy and Martin swung to the Dewey bandwagon.

That was the start of the finish fight, so far as Duff was concerned.

Duff, son of a Presbyterian minister, was born in Pennsylvania in 1883. His wife is the former Jean Taylor, of Beaver, Pa. They have no children.

Father Dies So Son May Live

OAKLAND, Calif., May 17. (AP) — Sidney E. Lawrence, 40, a grocery clerk who gave his life's blood to save his son, died Monday.

Physicians said today the son, 11-year-old Robert, probably would recover from nephrosis, a kidney disease which necessitated the lood transfer.

The physicians said there was no danger of the disease being transmitted, but they had explained to the father there was danger to the donor from foreign material being taken into the system.

"Go ahead," the father said. For nearly three hours, he and his ailing son were linked together by tubes exchanging their blood.

Because they were not mentioned in the Bible, potatoes were at first avoided by some devout Scots.

GOVERNOR DUFF AND WIFE VOTE—Pennsylvania Gov. James H. Duff, who won the Republican nomination for the U. S. Senate, casts his primary election ballot at a school in Carnegie, Pa., a suburb of Pittsburgh. The Governor lead a Republican faction in opposition to the old Pennsylvania GOP organization headed by former Senator Joseph R. Grundy of Philedelphia. With the governor is Mrs. Duff. feet from east line of section 145, Block G, W&NW survey.

STRIKE IN HOWARD

Seaboard Oil Co. of Delaware No. 1 Stimson, Northwest Howard County wildcat about 2 miles south and slightly east of the Vealmoor field was flowing oil at the estimated rate of 20 barrels an hour from the Pennsylvanian Lime reef at 8,015 to 8,035 feet.

The flow came on a drillstem test. Gas showed at the surface in five minutes after the tool was open. Drilling mud came to the surface in 14 minutes and oil started in 15 minutes.

The tool was still open at last report. Size of the choke has not been reported.

Top of the Pennsylvanian Lime reef which is making the oil is at 8,015 feet, 5,272 feet below sea level. This is about 50 feet above the water level of the Vealmoor field.

Location of No. 1 Stimson is 660 feet from north and east line of section 45, block 32, TP survey. T-3-N. That makes it 3½ miles southeast of town of Vealmoor.

Pick up 1st and 2nd adds of in-

TWELVE LOCATIONS

R. E. Smith of Houston has scheduled 12 Canyon explorations west of production in the Diamond M Canyon lime pool in Scurry County.

R. E. Smith No.'s 1 through 12 Marvin Key will be in the section immediately west of Honolulu Oil Corporation No. 1 Frank Strom, which has indicated for a three-quarter mile west extension to the Diamond M pool.

The 12 explorations will cover the south three-quarters of section 148, block 25, H&TC survey. No. 1 will be 3,300 feet from south and 330 feet from east lines of the section; No. 2 will be 330 feet from east and 1,980 feet from south lines of the section; No. 3 will be 330 feet from east and 660 feet from south lines of the section; No. 4 will be 660 feet from south and 1,815 feet from east lines of the section; No. 5 will be 1,815 feet from east and 1,980 feet from south lines of the section; No. 6 will be 1,815 feet from east and 3,300 feet from south lines of the section; No. 7 will be 1,980 feet from west and 3,300 feet from south lines of the section; No. 8 will be 1,980 feet from south and west lines of the section; No. 9 will be 660 feet from south and 1,980 feet from west lines of the section; No. 10 will be 660 feet from south and west lines of the section; No. 11 will be 660 feet from west and 1,980 feet from south lines of the section; and No. 12 will be 660 feet from west and 3,300 feet from south lines of the section.

STANOLIND STAKES

Stanolind Oil & Gas Company has scheduled two projects in the west portion of the Cogdell-multipay field, on the Scurry County side of the pool.

To be a south offset to Warren Oil Corporation No. 1 Cunningham, a recently completed extension, Stanolind No. 1 Dora E. Cunningham will be 467 feet from north and east lines of section 613, block 97, H&TC survey. Slated depth is 7,200 feet. Drillsite is eight miles north of Snyder.

Stanolind No. 2-A Daniel Gibson will be west offset to the same company's No. 1 Gibson, recently completed south offset to the Progress Petroleum Company No. 1 Buffaloe.

The No. 1 Gibson will be 567 feet from west and 667 feet from north lines of the northeast quarter of section 550, block 97, H&TC survey.

Drilling is to begin immediately on the Honolulu Oil Corporation No. 2 Strom, east offset to the same company's No. 1 Strom which has indicated for a three-quarter mile west extension to the Diamond M field.

Cities Service Oil Company has scheduled its No. 6-H Johnson on the northwest edge of the Diamond M field. Drillsite will be 2,931 feet from east and 1,014 feet from north lines of section 200, block 97, H&TC survey, and 15 miles southwest of Snyder.

HUNT OUTPOSTS

The Hunt interests have staked two outposts to its recent Canyon discovery in West-Central Kent County, eight miles northwest of Clairemont.

Caroline Hunt Trust Estate No. 3 J. W. Young will be a southeast offset to the same operator's No. 2 Young, a drilling exploration one-location south of the discovery. The No. 3 Young will be 660 feet from east and 1,400 feet from south lines of section 145, block G, Waco & Northwestern survey.

Slated depth to tap the Canyon is approximately 7,500 feet.

One mile west of the discovery well, Nelson Bunker Hunt Trust estate has staked the No 2 Mary Couts Burnett Trust estate.

The No. 2 Burnett will be 1,980 feet from east and north lines of section 3, D. R. Stout survey.

The No. 1 Burnett is a drilling exploration one-quarter mile east of the proposed venture.

Sun No. 1 Beatrice K. Stone, West-Central Nolan County wildcat 11½ miles southwest of Sweetwater and 1,980 feet from north and west lines of section 77, block X, TP survey, has been abandoned and plugged as a failure on total depth of 6,819 feet in lower Strawn lime.

Several slight shows of oil were logged in this prospector, but none of them were of commercial quantities.

Most American coal is produced in eight states. Pennsylvania, West Virginia, Kentucky, Illinois, Ohio, Indiana, Virginia and Alabama are leading coal producing states.

U. S. Official Not Alarmed At Nazis' Return To Posts

AP STAFF

STUTTGART, Germany, May 7. (AP)—Thousands of former Nazis are returning to public office in western Germany.

Does this mean that nazism is reviving?

A high German official insisted today that it does not. A high American authority agreed with him.

Neither was alarmed by the disclosure Monday that 76 per cent of the 11,000 officials in the government of Wuerttemberg-Baden State once belonged to the Nazi Party.

The German and American officials differed, however, in their explanation of these figures.

NOT ENOUGH

"We cannot find enough able officials to run the government without using these former Nazi Party members," said Reinhold Maier, German minister-president of Wuerttemberg-Baden.

"I don't agree with that," said Maj. Gen. Charles P. Gross, U. S. commissioner in this state.

Gross said the rehiring of ex-Nazis is a product of the German bureaucratic system by which the same group of officials continues to administer the laws, no matter who controls the government.

"These officials form a close fraternity," the American commissioner said.

IN FRATERNITY

"They favor each other. They protect each other. They hire each other. These ex-Nazis who are returning to their old jobs are being rehired not because they were Nazis but because they belong to the fraternity.

Gross criticized the German bureaucracy as "too autocratic in its relations to the people, yet too willing to follow any leader—the Kaiser, Hitler or the allies."

But Gross said American authorities cannot intervene to stop the re-employment of ex-Nazis as long as the Germans "follow the rules—and apparently they are following them."

Jim Duff Gains Stature In Ranks Of Republicans

PHILADELPHIA, May 17 (AP)—Big Jim Duff, Pennsylvania's redhaired governor, skyrocketed into a position of vital importance in national Republican affairs today as the winner in the state's most bitter primary election in decades.

Duff was nominated for U. S. Senate by a nearly three-to-one majority. He carried to victory his personally-endorsed ticket for governor and four statewide offices.

AGGRESSIVE

In appraising the result, Duff said: "The Republican electorate has indicated definitely that the policy of the party should be aggressive and progressive and not ultra-conservative.

"We can guarantee a Republican president in 1952 if the policy now adopted in Pennsylvania is carried out nationwide."

Duff defeated the statewide political organization headed by former U. S. Sen. Joseph R. Grundy. For 30 years, Grundy, now 87, had been the spokesman and top strategist of the GOP in Pennsylvania.

TABS

For the two major offices, returns from 7,988 of the state's 8,347 districts gave:

For senator: Duff, 924,201; Rep. John C. Kunkel, the Grundy candidate, 405,700.

For governor: John S. Fine, backed by Duff, 753,747; Jay Cooke, endorsed by Grundy, 539,453.

Democrats also held a primary. U. S. Sen. Francis Myers was renominated without opposition. His organization-slated running mate, Richardson Dilworth, Philadelphia city treasurer, won easily over independent opposition.

No Price Changes

NEW YORK, May 17. (AP)—The Dun & Bradstreet wholesale food price index held unchanged this week at $5.89, highest since last August when it was at the same level. The high before that was $5.91 on Jan. 25, 1949.

Man Electrocuted

DALHART, May 17. (AP) — Jack Hendrex, Vernon construction man, was electrocuted yesterday when he stepped into a water puddle while using an electric saw.

More Moisture Threatens Dikes In Flooded Area

WINNIPEG, Man., May 17. (AP)—Light rains over the flood-soggy Winnipeg area today increased fears that weakening dikes might let the surging Red River inundate new sections of the city.

The Red River and its tributaries were steady this morning at 30.2 feet after rising one-tenth of a foot early last night.

But after several hours of showers last night, Deputy Flood Controller O. M. M. Kay termed weather conditions "definitely harmful."

The drizzles, he said, "will keep the dikes in a soggy condition which weakens the entire structure." More rain was forecast today.

Mud carried by the turbulent river pounded at sandbag barricades, causing them to slip and slide. The river also was eating at levee foundations, which threatened to give way at any time to flood additional sections of the 80-mile-square greater Winnipeg area.

Already six square miles of business and residential territory have gone under water since the rivers passed the 18-foot flood stage 27 days ago, on April 20.

Officials called for intensified patrol work along the dikes. They renewed their appeals for additional voluntary departures of women and children to ease the load on the city's public utilities.

An estimated 85,000 to 90,000 persons already have fled to other areas, but the voluntary exodus slowed considerably yesterday.

Silence Reigns In Library, Even While Bandit Plies Trade

BALTIMORE, May 17. (AP)—The big "silence" sign hung conspicuously above him as Gilbert Scherr soft-shoed down the stone steps last night toward the first floor of the big library.

A bareheaded young man coming up stepped in front of him, pointed a pistol and gritted:

"Give me your money, or I'll blow your brains out."

Scherr handed over his wallet.

"Could I have my wallet back, please?" he asked softly. "I have some valuable papers and cards in it."

The gunman handed the wallet back.

"Take out the money," the bandit said, more softly.

Scherr took out $12 and handed it over to the robber, who slipped quietly down the stairs and out the building.

Haven't those signs bothered you.

Everglades Blazing

MIAMI, Fla., May 17. (AP)—Weary firefighters hoped for more showers today to aid in their 10-day battle with grass and brush fires in many parts of the Everglades.

But She Liked Her Present

KERMIT, May 17. (AP)—Little Jack Evans, 7, set out for school with a bunch of roses in his hand. Jack's mother thought her boy's first grade teacher, Mrs. Martha Stovall, would like the flowers.

But along the way Jack found a turtle. It was a terrific problem. Which would teacher like better, flowers or turtle?

Jack decided on the turtle and threw away the flowers.

The boy's mother heard about it and hurried to school, thoughts of screaming teacher and snapping turtles racing through her mind.

Jack's mother peeked in. Mrs. Stovall was proudly displaying the turtle and reading the story of the hare and torfoise to the class.

Cotton Consumption Figures for April

WASHINGTON, May 17. (AP)—The Census Bureau reported today cotton consumption for the period of April 2 to 29 averaged 36,172 bales for each working day.

This compared with an average 2,955 bales for the corresponding period a year ago, and with 35,929 for the Feb. 25-April 1 period this year.

The daily average consumption of linters was 5,239 bales compared with 4,675 a year ago and 6,233 for the March period this year.

Cotton on hand April 29 included: In consuming establishments, 1,759,305 bales of lint compared with 1,449,180 a year ago.

In public storage and at com-

U. S. Chamber Award To Snyder Branch

The Chamber of Commerce received this morning a participation award certificate from the U. S. Chamber of Commerce.

The certificate, signed by Herman W. Steinkraus, president, stated that the award is in recognition of "community service in fire prevention and conservation activities during the year of 1949."

Israel Expects Record Tourist Crop

TEL AIV, Israel (AP) — A record tourist business is forecast for Israle this spring and summer. Dr. Werner Bloch, director of the government tourist bureau, predicted 30,000 travelers would arrive in this litfle Jewish state. The total visitors in 1949 was 21,981.
