Officials Present Sewer Proposal

City officials will again travel to Austin to discuss the sewer treatment plant with the Texas State Department of Water Resources staff.

Ms. Susan White of the Enforcement Division of the department confirmed the meeting that is set for Monday between city and state officials, saying the purpose of the meeting was to review the engineering report prepared by the city's engineer, Freres and Nichols Engineers of Fort Worth and to receive the city's application for a 30-90 discharge permit.

This meeting follows the City Council's decision to seek the 30-90 discharge permit in conjunction with the most cost effective of three alternatives presented in a workshop the previous week.

The three alternatives submitted were the construction of a new oxidation ditch (rare track) plant (\$1,005,000), renovation and expansion of the existing facilities (\$918,000) and renovating the existing facilities and acquisition of additional holding ponds to secure the treatment required to meet the requirements of a 30-90 permit, costing the city \$834,000.

"Acceptance of the 30-90 permit and the general plan, associated with the \$834,000 alternative by the department of Water Resources, would be required if the city is to pursue that alterna-

tive as a solution to the sewer treatment problem brought to light when the city's contract for use of the effluent water as an irrigation application was broken last year," stated City Manager Rick Crowley.

Crowley said the alternative favored by the city would require the city purchase enough land to sufficiently expand storage capacity for pond treatment.

It is anticipated that the city would make the effluent water available for irrigation; however, Crowley noted, the city would not be dependant on irrigation for disposal.

He said the plan also calls for extensive renovation of the existing plant which would include replacement of the mechanical equipment within the existing concrete structures. Crowley added, "If unable to obtain state approval for this alternative, the city would be forced to pursue one of the more expensive plans for rehabilitating the plant.

The city's effort to date implementing interim improvement measures have met with state approval, Crowley said. The city currently monitors flow through the plant daily, monitors the quality of the effluent on a weekly basis, had advertised and awarded bids for the purchase of chlorination equipment and contact tanks for disinfection of the effluent

prior to discharge into the Colorado River, and retained engineering assistance for studying long range solutions to the problem, added Crowley.

City officials will pre-

sent their proposal to the Water Resources staff representing the permits division, the enforcement division, and the office of general council.

The staff will then

forward a recommendation to the Texas Water Resource Board for final resolution and the review process there is anticipated to take about two months, Crowley concluded.

Fly-In

Continued From Page 1

homecoming game ball. He will be in a team that will be jumping twice the morning of July 4th.

Pilots who are scheduled to participate in the aerobatic airshow are Buzz Hurt, Bill Wicks, and Sam Hollo-

man of Odessa; Doug Warren of Big Spring

and Van White of Lubbock. They will be flying DeHavilland Chipmunks and clipped wing Cubs and Taylorcrafts.

Airplane rides will be offered again this year. The ride goes over town and over Lake Colorado City and costs \$6. This

has been such a popular item in years past that sometimes the lines have been rather long. This year several airplanes have been lined up for rides so the waiting lines won't be so long.

Another tradition will be the awards for the pilot who traveled the farthest distance, the oldest pilot, the youngest pilot, the oldest airplane, and the most unusual airplane. This year the awards will be very handsome wall plaques of polished walnut with engraved brass plates.

The fly-in accents having fun at the airport. There is no admission charge and people are invited to come get acquainted with aviation and Colorado City's Jet Strip Airport.

For questions, phone J. O. Dockrey, Jr., 728-2542 office or 728-2610 home.

Rodeo

Continued From Page 1

Scott Guill of Westbrook, John Longley, Chris Anderson, Ann Margaret Kimmel and Cami Camp, all of Colorado City. There are a total of 25 youngsters through 19 years of age competing from the county against 329 other youth from Texas, New Mexico and Oklahoma.

The buckaroos are competing in bareback riding, steer riding, junior and senior bull riding, barrel racing, pole

bending, breakaway roping, ribbon roping and team roping.

Tickets will be sold at the gate for \$3.50 for adults and \$2.50 for children on all rodeo nights and performances will begin at eight each night through Saturday.

Queen contestants are Holly Hicklin, Tina Tammen, Lynda Walker, Diane Gregory, Naomi Mize, Andra Carpenter and Jana Northcutt.

riers and subsidies to farmers.

He also pointed to different farm organizations and producers split over what they want, citing as evidence lack of a strong farm voice and passage of unfavorable legislation.

He urged farmers to unite at the grassroots level toward some form of supply management

such as peanut, tobacco or dairy producers use.

Boots Put

To Good Use

By the time Cadet Pat Perryman completes his education at Texas A&M University next year, he and his four brothers will have been true "sole mates."

Each of the Perryman brothers, except Gerald Jr., who had the privilege of wearing them first, will have walked more than a mile in his brother's shoes—make that senior boots—when Perryman and the 14-year old boots hit the campus sidewalks in the fall.

The knee-high brown riding boots are a badge of distinction worn only by seniors in the Texas A&M Corps of Cadets.

Perryman, 21, a mechanized agriculture major, says he and his brothers take pride in their own Aggie tradition. "My buddies really give me a lot of trouble, but that's OK," Perryman said. "I just laugh because I didn't have to go out and spend \$425 on a pair of boots. My brother bought ours for \$125 in 1968."

Disaster

Continued From Page 1

18, the county has received much more rainfall on at least three days. Last rainfall was Saturday, dropping as much as three inches in some areas. Six inches was reported at Ira and the river was full.

Congressman Charles Stenholm, here for the West Texas Association of Soil and Water Conservation Districts, said that disaster payments might be made, but the money for the payments would have to be re-allocated from a budget already heavily cut.

Don Stewart, executive director of the Mitchell County ASCS, said that he has received no official notification about disaster payments.

"Last year, one-third of the target price of 71 cents times 75 percent of the planted yield was

used to figure payments," Stewart said.

He also got the fact-finding mission's agenda through the office of ASCS District Director Tolbert James.

Three bad years in a row might be more than Mitchell County farmers can stand. Last year the price of cotton was so low that producers did not make anything and the year before that was a poor year.

Disaster payments under the provisions of the Food Act of 1981 could be made to aid in economic recovery.

Senator Lloyd Bentsen is also in favor of declaring an economic disaster and emergency situation.

"At this time, it is too late to replant cotton in many areas," Bentsen said. "Other areas can

replant successfully only if they have perfect weather for the rest of the year."

"This disaster could not have come at a worse time and it threatens to wipe out large numbers of farmers," Bentsen continued.

Damage Reported At Loraine

According to Loraine School Superintendent Glenn Sanders, all the buildings of the Loraine Independent School District suffered extensive damage from the recent storms.

The newly remodeled main building will have to have a new roof at a cost of \$57,000 and new air conditioning, which will be an additional \$11,000. The new roof of the vocational building

will also have to be replaced at a cost of \$13,700. Damages to the roof of the gymnasium were estimated at \$8,000 and repair of the water-soaked gym floor will be \$4,000 to \$5,000. All fifty windows in the gym were broken out, but they have already been replaced. Jerry Woods of Loraine has been awarded the contract to repair the gym roof.

Dr. Bob Metzger, Cotton Specialist from Texas A&M visited with cotton producers in the Mitchell County area last week following the devastating hail storm. The following are a few comments he made.

(1) Every effort should be made to drain areas where cotton is standing in water. The plant must have oxygen to take the water up and as long as it is standing in water it will not be able to do this. So, it will

essentially die from lack of water.

(2) He stressed that the struggling cotton must be protected from the blowing sand since this could, in a day, knock out the cotton that survived the hail storm. (However, with weeks like last week it is almost impossible to keep up with the sand fighting when it rains again as soon as you finish with a field and starts blowing again before it is really dry enough to get back in the field).

(3) Dr. Metzger was not very hopeful concerning alternate crops. Soybeans-doubtful has enough time to make a crop; sorghum-if planted at this time would have problem with the

Sorghum Midge; sunflowers-price down and requires special harvesting equipment and guar-no contracts available.

(4) He indicated he would not try to plant cotton after July the 4th.

Even with that time table in mind it depends on the weather we have for the remainder of the season and whether we have a late frost. Only quick fruiting cottons are recommended.

Leon Light

Light Retires From Bell

Leon Light, employee of Southwestern Bell for 29 years, was honored at a retirement party at the C. C. Thompson Room June 18.

Light began his career in 1953 as a lineman under William M. Starnes of Snyder. A year later he moved to Snyder as an installer repairman. In 1958, he relocated in Colorado City where he remained until his retirement. It is unusual for a Bell employee to spend his entire career in the same area.

Light was presented gifts from the company, by Starnes and co-workers.

Refreshments were served to fellow employees and family and friends.

Storyhour Is Today

Storyhour at the Mitchell County Library will be this morning from 10 to 11 a.m.

Linda Stewart, summer volunteer for the story sessions, says that the selections will include fairy tales, modern stories about people and animals, and fables.

Letter to the Editor, All Civic Clubs, organizations or individuals: You are invited to participate in the Colorado City July 4th Fly-In.

TOPS Club Met Monday

The TOPS TX 692 met June 28 at the Housing Authority at 439 Oak with Lillian Vest presiding as Queen as she had the best weight loss and attendance. Other members also had good weight loss.

Fifteen members were present and the program was brought by Mrs. Mattie Hines; she is the KOP (keep off pounds).

The program was about things one kids one's self about on how to lose weight. The members then sang some interesting songs with accompanying hand claps.

The club will meet again July 5 and will only weigh in.

All persons too heavy are cordially invited to become a new member and should contact Juanita Schafer or Mrs. W. M. Vest.

Letter To The Editor

This year we are beginning a policy of free admission to encourage maximum attendance. The purpose of the Fly-In is to promote Colorado City and Colorado City's airport.

To encourage maximum attendance by out-of-town pilots, we are retaining a long-standing and popular custom of offering free breakfast to fly-ins, as well as to the people who help with the breakfast and members of the fire department that bring out emergency equipment. To help defray expenses, we are charging all others \$3 for breakfast.

We are offering airplane rides at \$6 per person. This income will pay for the expense of the planes, hopefully leaving an amount to decrease our loss on the breakfasts, and most hopefully leaving an amount to apply towards upgrading Fly-In facilities.

We need an announcer and headquarters stand; a ground-to-air radio; a public address system; better sanitary facilities; cooking equipment; and better parking for both aircraft and automobiles.

Any contribution you care to make, no matter

how small, would be greatly appreciated and would be used to improve and promote Colorado City's Airport. Please make your check

payable to Colorado City Fly-In Committee, Box 236, Colorado City, TX 79512.

CHS Cheerleaders Place Well At Camp

Six cheerleaders from Colorado High School were among approximately 258 participants in the 1982 Big Country Cheerleader Camp held

on the campus of Hardin-Simmons University in Abilene June 21-25. The five-day camp was conducted by Southwest Camps of Cisco,

with Eris Ritchie as camp director. Instructional staff and program were supplied by the National Cheerleaders Association.

The cheerleaders were taught new cheers, stunts, chants, and spirit ideas from a seven member NCA staff headed up by Liz Kiper,

former head cheerleader of the University of Oklahoma.

The June 21-25 session is the second of two, with the first being held June 14-18.

The CHS Cheerleaders brought home numerous honors from the camp, including four superior performance ribbons and the NCA Superstar Squad ribbon. In addition, winning the Spirit Stick, CHS placed as runner-up in the Award of Excellence competition.

"To place second in a field of more than forty schools, and to be beaten only by a 5-A squad from out-of-state exemplifies the hard work and unity of spirit put forth by these girls since their election in April. I cannot express how proud I am of their accomplishments for their school and their city," said the girls sponsor Mrs. Kitten Arthur.

1982-83 CHS CHEERLEADERS returned from a summer cheerleader camp held at Hardin-Simmons University. Pictured (top to bottom) are Robin Turner, Pam Wilson, head, Mickie Palmer, Traci Blackwell, Pam Ehret and Loretta Morris.

Drivers Beware Of Others

"There's no such thing as a motor vehicle accident," an officer of the Texas Safety Association stated recently.

James R. Halverson, TSA Vice President for Traffic, said drivers don't experience auto accidents; instead they are in crashes or collisions.

"Driver attitude is of great importance in preventing crashes, especially over a heavy traffic weekend like July 4," Halverson, a 3-M Company Account Executive in Austin said. "Texas drivers can reduce the number of collisions they are involved in by driving defensively," he added.

The Texas Safety Association actively promotes traffic safety and driver improvement through the National Safety Council's Defensive Driving Course, the DDC. Last year in Texas more than 230,000 persons took the eight hour course.

"When driving, anticipate what the other

driver will do and always have an escape route," Halverson said. He also noted one of the basic lessons of the DDC which is to complete one crash-free auto trip at a time.

"This means to make each trip in your car a safe trip, one with no crashes," he said. "We believe most crashes and collisions can be eliminated by defensive driving."

Be sure your Fourth of July weekend is crash-free. Drive defensively, buckle-up, and drive the posted speed limit.

Jones Is Appointed Festival Ambassador

The Vicar Jack Monte Jones of Colorado City, has been appointed as one of 99 official Texas Folklife Festival ambassadors for 1982 by Jack Maguire, Executive Director of The University of Texas Institute of Texan Cultures in San Antonio.

Vicar Jones and his family, along with many of the women of the Episcopal Churches of Colorado City and Snyder, have had a chicken-fried steak booth at the festival for the last four years. The booth is called the Cactus Cafe, which is the name of a song

written by Jay Boy Adams.

The eleventh annual Texas Folklife Festival, sponsored by The Institute, will be held on its 15-acre grounds August 5 through 8. The Festival is a truly unique celebration of Texas history with emphasis on the state's ethnic diversity and cultural traditions. More than 6,000 participants share their

ethnic and folk entertainment, crafts, food, music and games with over 100,000 visitors.

Festival ambassadors play an important role in publicizing the four-day event. They act as statewide agents to inform all people in their community about the opportunities for educational entertainment at the Texas Folklife Festival.

Police Report

The Colorado City Police Department has answered three reports of burglary, an accident and one hit and run incident.

Steven Wayne Rich, 1004 E. 15th, Colorado City reported that three guns, valued at \$750, were taken from his residence. Officer Charlie Goins investigated the burglary that occurred June 24.

June 24 at the intersection of Chestnut and Second Streets, at 11:35 p.m., a 1978 Chevrolet pickup driven by Regina Castillo, Box 852, City, and a 1966 Harley Davidson motorcycle driven by Jesse Martinez, 811 E. 7th, City, were in collision.

Katherine Crisp, 18, 1132 Walnut, a passenger on the motorcycle sustained minor injuries and was treated and released at Root Memorial Hospital. Officer Juan Rodriguez investigated.

Clarence Newby, 1121 Locust, reported that a 1981 Honda motorcycle was parked in his driveway at 12:37 p.m., on Sunday. When officer Goins arrived, Ray Dillard, owner of the Honda was there and the bike was released to him.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective July 27, 1982, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 13.4 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

Notice to El Paso Area Customers

Effective January 1, 1982, Southwestern Bell adopted the Mountain States tariffs in effect for El Paso County. Southwestern Bell proposes to merge the separate El Paso tariffs with its tariffs applicable to the rest of Texas. The resulting new rate schedule is on file with the PUC and the El Paso area municipalities served by Southwestern Bell, and is available for inspection at our El Paso business office.

Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs. While Southwestern Bell has proposed no increase in long distance rates, any change in those rates would also affect customers of other telephone companies.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 27 de julio, 1982, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 13.4 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios que resulten de la manera en la cual Southwestern Bell aplique sus tarifas.

Aviso a Clientes en la Región de El Paso

Con vigencia a partir del 1o de enero de 1982, Southwestern Bell ha adoptado las tarifas de Mountain States efectivas en el condado de El Paso. Southwestern Bell propone unir las tarifas de El Paso con sus otras tarifas que se aplican al resto de Texas. El nuevo arancel que resulta de esta unión se ha archivado en la Comisión de Servicios Públicos (Public Utility Commission), al igual que en las municipalidades de la región de El Paso servidas por Southwestern Bell, y está disponible para inspección pública en nuestras oficinas de El Paso.

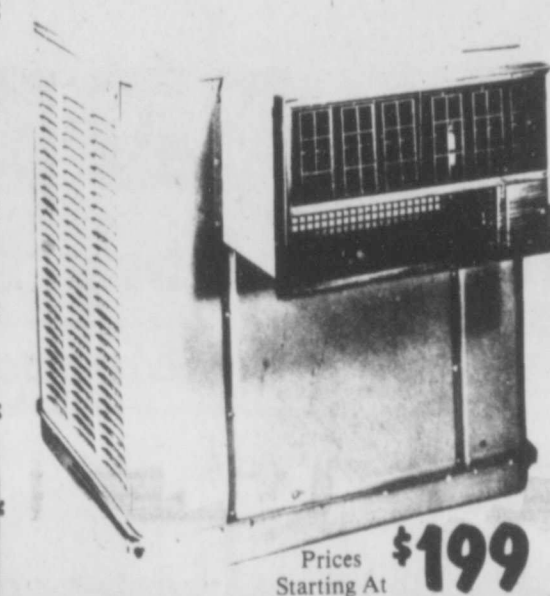

Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio también afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell. Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para larga distancia, cualquier cambio en las mismas también afectaría a los clientes de otras compañías de teléfono.

Area Youth Enter AJRA Rodeo

Several Mitchell County youth are entered in the AJRA Rodeo which officially began last night and will continue through Saturday. According to Joyce Northcutt, rodeo contestant

coordinator, out of 354 youth entered in the rodeo, 25 of those are from Mitchell County. Those youth are Lynn Bradbury, Kerry Bradbury, Chip Northcutt, Larry Dawson and Scott

Guill of Westbrook. John Longley, Chris Anderson, Gregg Nichols and Ray Carpenter are also entered in the money-winning competition. Others entered are Randy McPhaul, Gary

Rowe, Stefan Jamison, Todd Whitesides, all of Colorado City, Allan Moody of Westbrook and Duane Linam of Loraine.

The rodeo grounds will also be the sight of some local cowgirl competition as Ann Margaret Kimmel, Camie Kemp, Tiffany Rose, Amber Stephens and Marci Cawthron compete for prize money.

Other girls competing will be Sheila Cawthron, Jody Mann, Jennifer Beasley, Andra Carpenter and Jana Northcutt.

Dowell Specializes In Oil Field Services

Dowell provides energy-related services including well stimulation, cementing, drilling fluids, enhanced oil re-

covery, mining and industrial cleaning services. One of its 130 districts spread throughout the United States is the

district in Colorado City, which specializes in oil field services. Dowell's facilities are located at Hwy 208 and TP Railway.

The Colorado City district, managed by Patrick Gill, was started in 1955 and now employs 83 people. With its cement trucks, blenders, bulk trucks, and much more, not to mention an experienced crew, the Colorado City district services a 60-mile radius, including the counties of Sterling, Coke, Howard, Mitchell, Nolan, Borden, Scurry, Garza, Kent, Crosby and Dickens.

Dowell is a division of Dow Chemical U.S.A. and headquartered in Houston. Locations like the Colorado City district provide safe and effective service to customers, thus helping the world's energy situation. The Colorado City district is part of a big team, doing its part in making the Dowell Difference.

Coupons Become More Popular

Today you see more and more people shopping in the supermarkets with a wad of redeemable coupons.

Shopping with coupons has gone beyond saving a few cents. Rising supermarket prices have made it a necessity, but have you ever wondered how profitable it can be?

You may be a casual coupon clipper but, for many people, refunding has become a profitable home business which they run from the kitchen table.

Top refunders can save up to 90 percent of their grocery bill each month. If their grocery bill is \$500 each month and they receive \$450 in refunds, they are receiving \$450 clear.

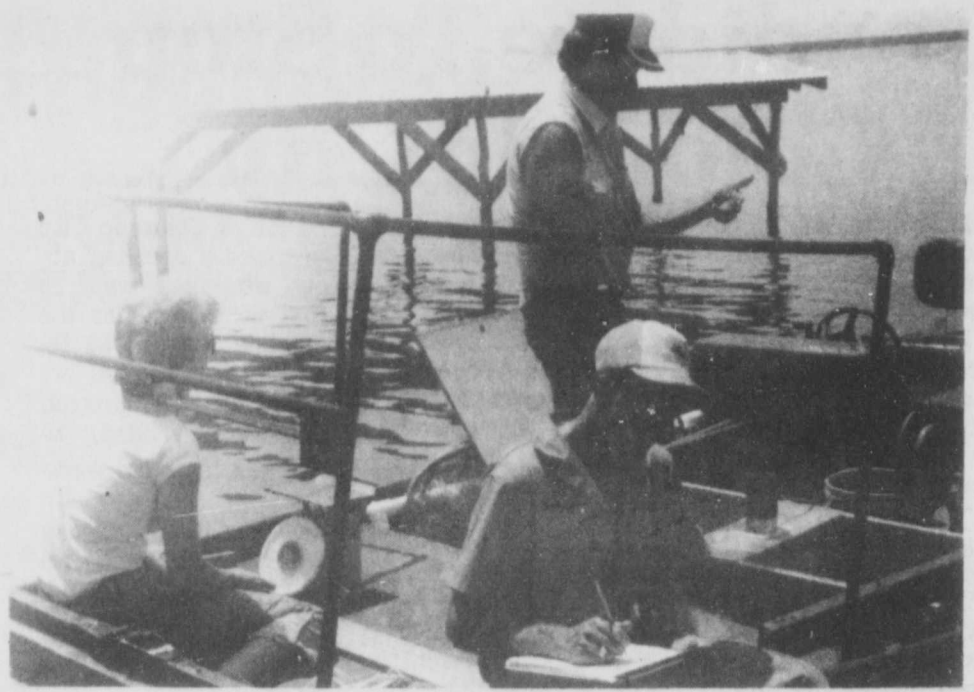

Being a supershopper means knowing how to get the coupons we're all so familiar with mailed to your door. It also means knowing

how to get information on loads of manufacturers' refund offers which we're not so familiar with.

Foodmaster Publications has published a report which reveals, in step-by-step form, all the methods used by these supershoppers. Foodmaster also provides free telephone and mail consultation service to help anyone who wants to get started.

You can get a copy of this report by writing Consumer Service Associates, Dept. PC, Box 9, Orangeburg, NY 10962. Enclose a stamped, self-addressed (long) envelope and \$3.00 to cover the cost.

America's investor-owned electric utilities deliver almost 80 percent of the nation's electricity. These electric utilities help make the American "good life" possible by keeping factories, businesses and homes running.

OFFICIALS FROM THE Texas Parks and Wildlife Department were on Lake Champion last Monday to check the growth of fish they had stocked last fall. According to Bill Hollis, district management supervisor, fishing will be better than ever in area lakes. Pictured from left to right are Katherine Kulzer, Bill Hollis and Richard O'Keefe.

"Wildcatting" Tied To Economy

The chances of successfully drilling for oil or gas in previously unexplored and unproven areas may be improving, but such risky "wildcat" ventures will always be tied to the economy, says the head of the nation's largest and top-ranked petroleum engineering de-

partment. When times are good and investors have money to risk on wildcat wells—which are usually drilled by independent oilmen—wildcatting is likely to increase, said Dr. Douglas Von gonten of Texas A&M University.

Wildcatting declines in times when money is tight and a sluggish economy slackens the demand (and price) for oil, he explained.

The American Petroleum Institute reports that in 1980, nearly one of every five wildcat wells drilled hit paydirt, twice the success rate of a decade earlier.

Obituaries

Dearen

Toby Dearen, 60, died at 5:25 a.m., Saturday in Root Memorial Hospital.

Funeral services were at 10 a.m., Monday in the First Baptist Church with Rev. Glenn Roenfeldt officiating, assisted by Rev. Charles Casey. Burial was in Hillside Memorial Gardens in Snyder under the direction of Kiker-Seale Funeral Home.

A life-long resident of Colorado City, he was born January 21, 1922 in the Looney Community and married Virginia M. Firme February 23, 1945 in Hastings, NB. He was a retired employee of the Cosden Refinery and a member of the First Baptist Church of Colorado City. As a veteran of World War II, he was a member of the Air Force Association of

World War II.

Survivors are his wife, Virginia; one daughter, Constance Ann Weedel of Eulless; two sons, Dee Dearen of Greenville and Larry Dearen of Kress; three grandchildren, Tammy Lyn Williams, Steven Dearen and Andrea De-

aren; two aunts, Mrs. Orlean Cook of Snyder and Mrs. J. C. Elrod of Comanche.

Pallbearers were Bob Firme, LaVern Firme, Julius Smith, Wayne Claxton, David Woods, Eddie Piland, Glenn Dunn, Paul Wright and Hughs Crews.

Candidate To Stop In Colorado City

Mike Richards, candidate for State Comptroller, will be in Colorado City on July 7.

Richards, who will be accompanied by his wife, Cynthia, will visit Colorado City as a part of his state-wide summer tour.

"In order to earn the right to serve as the Chief Financial Officer of Texas, a man must be willing to go to places like Colorado City and meet the people," Rich-

ards said.

"The state comptroller's office is a highly sensitive position," according to Richards, "one that requires a man who is familiar with finances, accounting and management. The Chief Financial Officer of Texas must be the sort of individual who exemplifies integrity, stability, prudence, wisdom and character in all aspects of his life. The only way for the

people of Colorado City to make a decision about who they want in that position is for the candidates to make themselves available."

One of the events planned for Richards' visit is an informal walking tour of the main business district, during which he will visit with local businessmen and women about their feelings on state government.

BECKY HARDEGREE (center), bride-elect of Lynn Carlson of Shawnee, Okla., was honored with a bridal shower Saturday afternoon. Pictured with the honoree are Mrs. Clarence Carlson, mother of the future groom and Mrs. Weldon Hardegree, mother of the bride-to-be.

Bridal Shower Honors Hardegree

Becky Hardegree, bride-elect of Lynn Carlson of Shawnee, Okla., was honored with a bridal shower Saturday afternoon in the home of Mr. and Mrs. Ed Bodine in the Buford Community.

Special guests attending the fete were mother of the bride, Mrs. Weldon Hardegree of Colorado City and Mrs. Clarence Carlson, mother of the groom.

The bride's chosen co-

lors of blue, pink, green and yellow were used in table decor.

The couple will exchange wedding vows August 14 in Roscoe.

Hosting the occasion were Jeanine Bodine, Ruby Carter, Laverne Britton, Cindy Thomas, Dorothy Martin, Diana Finley, Montie Foster, Jerry Love, Jane Finley, Helen McLeod, Jean Haggerton and Sandra Pawkett.

C-City Will Enforce Law

According to Chief of Police Ed Wheat, Colorado City will comply with state ordinances concerning the sale and use of fireworks within city limits.

The ordinance forbidding the activation of fireworks within city limits was passed to protect property owners from the extreme fire hazard caused by fireworks. Non-compliance with the ordinance carries a \$200 fine.

L. O. Schafer, fire marshal, warns that fireworks "can also cause serious burns and injuries if not handled properly, using extreme safety precautions."

Schafer added that children should be under close adult supervision when handling fireworks and should only shoot them off outside city limits in open areas, away from grass and brush.

Hospital Receives Check As Settlement Of Suit

A check totaling \$1,149 has been sent to Root Memorial Hospital in Colorado City following a settlement of an anti-trust suit brought by Texas against Bristol-Myers Company, Beecham Group Limited and Beecham, Inc.

Texas was one of five plaintiffs in the case which alleged that the defendants tried to decrease competition in the production and sales of ampicillin and other semi-synthetic penicillins.

According to a recently released statement from the Attorney General's office, the defen-

dants "fraudulently procured and enforced the ampicillin patent; restrained and prevented the sale of semi-synthetic penicillins in bulk form; and restrained and prevented the sale of semi-synthetic penicillins under other than specified trade names."

Each institution will receive an allocation based on its share of hospital beds compared with the total beds in all participating institutions.

Lake Levels Still Up

People planning to spend the July 4th weekend on area lakes can look forward to a really enjoyable outing, as both Lake Champion and Lake Colorado City are still rising.

As of last Tuesday, the water level at Lake Champion was 2086.5' which is 3 foot above the full mark.

At Lake Colorado City, the water level on Tuesday was 2069.85, having gained 2.05 feet since Friday.

Quartz refers to a range of lovely gems. It may be clear and colorless or tinted in delicate shades. Colorless quartz is also known as rock crystal or Lake George diamonds.

Hercules To Highlight Fly-In

AS PREPARATIONS continued for this weekend's July 4th Fly-In, one could find the Fly-In committee in their work clothes as they went over everything with a fine tooth comb. Above, Frank Deregibus and W. A. Findley are cleaning out a plane while J. O. Dockrey, Jr., and Woody Crabtree (right) finish up the newly installed restroom facilities.

The workhorse of the Air Force, the giant four-engine jet prop Lockheed C130 Hercules used for intercontinental transport of troops and materials, will be the highlight of this year's annual Mitchell County Fourth of July Fly-In. The show will be held at the Northwest airstrip from 7 a.m. until 4 p.m.

The Hercules, just one of the many attractions, will be open to the public for inspection of one of the most sophisticated and sought-after transport aircraft in the world. The plane is scheduled to arrive at 7 a.m.,

and will depart around noon. The Hercules will give a short flying demonstration and will conclude with a low level fly-by upon departure.

Breakfast will be served beginning at 7 a.m. until people quit ordering it. It will be served free of charge to fly-ins but will cost all others \$3 a plate. After eating breakfast you can hitch an airplane ride beginning at 8 a.m. Then you can come back down to earth to watch the sky-diving skills of Ricky Hallmark from Midland.

From 10 a.m., until 11

a.m., five men will be entertaining the crowd with their daring aerobatics display. They will be Vann White, Doug Warner, Sam Holloman, Bill Wicks, and Buzz Hurt. Then sky diving stunts will again thrill the crowd.

J. O. Dockrey, Jr., Fly-In chairman said that he would like to

encourage everyone to come to the free of charge fly-in some time during the day, either before or after Sunday morning church services.

"Conditions are much

improved at the airport and restroom facilities are now available. Also, beginning at 10 a.m., we will be serving hot dogs, Cokes and other refreshments for lunch," concluded Dockrey.

Red Cross Office Aids Victims

The Red Cross aid office set up in Colorado City to aid storm victims in Mitchell County shut down last Friday.

Richard Wichinski, coordinator, reported that the Red Cross had received 57 cases in Mitchell County eligible for aid. The total cost paid out by the Red Cross for materials and labor was \$8,276.48.

"I would like to thank all the volunteers who helped out during the restoring of order," said Wichinski.

He added that anyone interested in volunteering their time and help during a real disaster could contact the local Red Cross unit.

Also, Wichinski concluded, "We will take any size contribution anyone can make to the Red Cross Foundation."

Donations can be mailed: c/o Red Cross, 209 Walnut Street, Colorado City, Texas 79512, or may be taken by the same address.

Gas Company Requests Rate Hike

Stating that the economic vitality of the utility's service area depends on an assured gas supply, Lone Star Gas Co. Senior Vice President Douglas W. Williams announced the utility applied to the Texas Railroad Commission for an increase in its city gate rate. The company's application requests \$90 million in increased revenues for its Transmission Division, including 100 percent recovery of the increased cost of gas purchases. Using a monthly average consumption of six thousand cubic feet (Mcf) per month, a Texas residential customer's bill would increase about \$4 per month.

The city gate rate is the amount that the company's Transmission Division is permitted to charge the Distribution divisions for gas delivered for sale to residential and commercial customers and for Distribution company-used and unaccounted for gas. The Transmission Division buys gas from producers and transports it to 536 cities and towns, including the Mitchell County area, served in Texas by Lone Star Gas Co. The point at which city distribution systems purchase the gas from the Transmission Division for customer consumption is the city gate.

Since February 1980, the Texas Railroad Commission has allowed the company to recover only 95 percent of its increased cost of gas. This partial recovery has resulted in Lone Star being unable to recover \$13.5 million in gas costs through April 1982 and unable to earn the return granted by the Commission in 1980. For the same period, the average cost of purchased gas increased from \$1.85 per Mcf to \$3.38 in April of this year, an 83 percent increase.

"To compete successfully for new gas supplies, we must recover the increased costs of buying and providing to our customers this premium fuel," said Williams. "Only with full cost recovery can we pay these increasing prices and hope to meet successfully the intense competitive pressures that now exist to secure additional supplies which our customers rightfully expect. I am certain," Williams added, "that the Railroad Commission fully recognizes the complexities in today's natural gas market."

The requested increase seeks to recover the higher cost of gas, inflation-related increases in operating expenses and a reasonable return on increased amounts of property used to serve the gas utility's 1.2 million customers.

M. R. Naylor of the district office in Sweetwater, said that Lone Star hopes the increase will be approved soon, adding that the last request took five months to process.

Fire Report

June 27, at 8 a.m. - oil tank battery fire on FM 1229 and 1808, the old Cuthbert highway. fire tip

Try to keep an oil filter on your car's carburetor; this is good protection to prevent a fire in case your car should backfire.

Correction

In the story about the VFD officers, Joel White was identified as Joel Pharriss. White is one of the captains. Sorry for the mistake.

THE CIVIC CENTER was packed as interested persons attended to listen to Stenholm's address on the agricultural situation in America as well as in Mitchell County, part of Stenholm's congressional district.

10,000 People Expected Over Holiday Weekend

More than 10,000 people are expected to crowd in the Lake Colorado City State Park over the July 4th weekend and take advantage of all the water and facilities available, according to Bill Griffin, state park superintendent.

Griffin said he was basing his estimation on the fact that all the campsites were reserved before Monday. Griffin added that there could be more than he anticipates because of the cool weather and abundance of water in the lake.

Superintendent Griffin warns that all parks regulations will be strictly enforced during the holiday weekend.

Any persons drinking alcoholic beverages or caught disobeying park regulations will be issued a citation rather than a warning, he added.

Griffin said the reason for the strict enforcement is to ensure a safe and enjoyable weekend for everyone attending the park.

Boaters too are reminded to adhere to strict safety measures and regulations. "We anticipate many

boats on the water all through the weekend and if all boaters do not obey the rules and regulations of boating, it can be very hazardous and even fatal," he stated.

Griffin said that the use of fireworks at the state park was another area he would like to touch on. He stated, "although the state park is not in the city limits of Colorado City, where it is illegal to shoot fireworks, they are not allowed in the state park area either."

"The weather conditions are wet, but a fire could still be easily started if fireworks are not used without proper safety precautions," Griffin concluded.

Board To Hear Request

July 13 at 7 p.m. a public hearing is scheduled by the Planning and Zoning Commission to review a zone change.

The commission will meet to consider a request for a zone change from Grissom Brown Oil Company.

The request is to change the single family residential zone to a mobile home park zone for 6.28 acres.

The land in question is located on the south side of Interstate 20, next to Highway 208.

Loraine Personals

By Ida Baird

LORAIN CHEERLEADERS, pictured left to right, are Sherri Webb, Ester Espinoza, Beverly Griffin, LeeAnn Hill and Robin Woods. These girls just returned from a cheerleading camp held at Hardin-Simmons University.

Cheerleaders Return From Camp

Loraine cheerleaders for the 1982-83 school term received the highest award given at the end of the cheerleaders association camp they attended at Hardin-Simmons University last

week, June 21-25.

They report the instructors were great, and the week was filled with important practice to make their year as cheerleaders for the school more entertaining to the public.

They won a ribbon at

evaluation tests each night and won "The Spirit Stick" on Friday night and for the week long camp at the close of the session.

Those going were Leann Hill, Robin Woods, Sherri Webb, Beverly Griffin and Ester Espinoza.

Mr. and Mrs. Richard Jobe of Midland spent the weekend with her parents, Mr. and Mrs. Ace Lee.

xxx

Mr. and Mrs. Roy Wells returned home Monday after attending the reunion of descendants of the late W. F. Caudle family, held at the Community Center on Granbury Lake.

xxx

J'Lyn Robinson of Aspermont is spending this week with her grandparents, Mr. and Mrs. Roy Wells.

xxx

Mrs. Syble Walker had as her guests, her

daughter, Mrs. Troy Kegans from Akron, Ohio, Mr. and Mrs. Rusty Kegans and baby Lindsey, Fort Worth, Mrs. H. J. Kegans from Trent, Mrs. Kenneth Duncan from Amarillo and Mrs. Jack Allbright from Odessa.

On Monday Mrs. Troy Kegans and Mrs. Walker returned to Odessa with Mrs. Allbright and visited until Mrs. Kegans flew from there to Fort Worth on Wednesday for a visit with her two sons, Rusty and Chad and their families, before returning to Ohio. Mrs. Walker returned home Thursday.

xxx

Mrs. Jewell Wimberly and Sue from Colorado City and Mrs. Ettel Black from Fort Smith, Ark., visited Mrs. Lester Webb Monday.

xxx

Mr. and Mrs. Harold Martin returned home last week from Lubbock. They went to Lubbock on June 7, and Martin entered the Methodist Memorial Hospital there for tests. He underwent major surgery the next week. After being dismissed, they spent several days with their daughter and husband, Mr. and Mrs. Don Opheim before returning home.

xxx

Guests in the Raymond Wheeler home Sunday were Mr. and Mrs. John Deeds and three of their grandchildren. Mrs. Deeds is a niece of Mr. Wheeler's. They reside in Brownwood.

xxx

Mr. and Mrs. Raymond Wheeler spent Thursday night in Waco with her daughter, Jimmie Jacks, and attended the funeral of an aunt in Tyler the following day.

xxx

Mr. and Mrs. John Hayslip of Midland spent Sunday with her mother, Mrs. Cullen Payne.

xxx
Mrs. Elba Evans returned home Sunday after spending two weeks in Greenville with a daughter and family, Mr. and Mrs. Ray Harmon. She attended the wedding of her granddaughter, Penny Harmon to Scott Crabtree on June 26.

Also attending the wedding from here were Mrs. Jackie Walker, Mr. and Mrs. Greg Walker of Big Spring and Mr. and Mrs. Mike Walker and Zach from Abilene.

Also paternal grandparents of the bride, Mr. and Mrs. G. A. Harmon of Colorado City and Maylon Beaty, Curt and Stacy from Abilene.

xxx

Mrs. Edwin Hallmark had as her guests Monday morning a nephew and wife, Mr. and Mrs. Edwin Harris of El Paso. The Harris' were returning to their home after visiting her parents in Leggett, Texas.

xxx

Mr. and Mrs. Roy Little, Jr., and children, Douglas and Bonnie of Houston, are spending this week with his mother, Mrs. Mildred Little in Loraine and her parents, Mr. and Mrs. Fred Cripes in Colorado City.

Thompsons Hold Reunion

Descendants of the late Mr. and Mrs. J. M. Thompson held their reunion last week, climaxing with a gathering at the C. C. Thompson Room in Colorado City Saturday.

Activities began when they met at the home of Mr. and Mrs. Jay Thompson for a fish fry on Monday night, June 21st.

Wednesday night they were entertained with a supper at Mrs. Ollie Gale's in Colorado City and Thursday night the group went to Sweetwater and had a meal at Spanish Inn.

On Friday night Donald Menshew and daughter Tracy and Mrs. Luline Menshew of Odessa, hosted a barbecue at their lake cabin. Margie Lou Powell from San Francisco was given a gift shower at the Friday night gathering honoring her on her completing her college work and getting her degree as a registered nurse.

Lillie Hamrick of Colorado City was declared the oldest member of the family present and Cathy Bassham the youngest. Mrs. Ruth Thompson Bowers from San Francisco, California, traveled the farthest distance.

Those present were from San Francisco, Calif., Ventura, Calif., Oakland, Calif., Houston, Conroe, New Home, Ark., Colorado Springs, Colo., Canyon, Colo., Midland, Odessa, Colorado City and Loraine.

Loraine News

Coon Becomes Society Member

Mrs. Glen Coon recently became a member of the National Huguenot Society of the Founders of Manakin in the Colony of Virginia which was established in the year of 1699.

Her Huguenot ancestor and that of Mrs. Doyle Hester, was Mathieu Agee who was born in Nantes, France in 1670. He immigrated to the Colony of Virginia by way of Holland and England.

Mrs. Coon and Mrs. Hester are members of

the Martin Preuitt, Jr., chapter of American Revolution.

The first commercial pretzels baked in the United States came from the Pennsylvania Dutch village of Lititz. The year was 1861.

20 ways to help hold down your electric bill.

A checklist to help you save energy and money at home.

Energy Conservation Practices

Electricity is costing more this summer mainly because the fuel to make it is costing more. The following low- or no-cost home conservation practices can help you save energy and money.

- ☐ Do not use air conditioner unless absolutely necessary.
- ☐ Keep your thermostat set no lower than 80° in the summer. Use ceiling or oscillating fans to circulate the air.
- ☐ Check your air conditioner filters each month to see if they need cleaning or changing. And make sure that the outside unit is free of grass, leaves and trash.
- ☐ When leaving home, turn off air conditioning. If away for two days or more, turn off water heater.
- ☐ If you have a dishwasher, set water heater to 140°; otherwise, set temperature to 120° or lower.
- ☐ Use scrap insulation to plug air leaks in attic, around fireplace dampers and window air conditioners.
- ☐ Repair water leaks in pipes and faucets, and seal air duct leaks.
- ☐ Use drapes, blinds, shades, awnings or plants to block sunlight.
- ☐ Try to minimize traffic through outside doors.
- ☐ Economize in the kitchen. Plan meals so several dishes can be cooked in the oven at the same time.
- ☐ Save when you do laundry. Wash and dry only full loads of clothes.

Energy Conservation Measures

These home installations and modifications require an investment, but may return their cost to you in the form of savings on utility bills.

- ☐ Caulk and weatherstrip around doors and windows to reduce air leaks.
- ☐ Add insulation to ceilings, walls and floors.
- ☐ Insulate ducts, especially in the attic.
- ☐ Insulate hot water pipes in attic.
- ☐ Install insulation blankets on water heaters, especially in garage or basement.
- ☐ Investigate cost-effectiveness of storm doors and windows.
- ☐ Add solar-reflecting materials to doors and windows on east/west exposures.
- ☐ Install a clock thermostat to automatically set air conditioner and heating unit to desired temperature. Even when you're away from home, the clock thermostat can control your air conditioner for more economical operation.
- ☐ Investigate replacing your central air conditioner, especially if unit is more than five years old, with a new unit that has a Seasonal Energy Efficiency Rating (SEER) of at least 8.5.

Television Viewers May Be In Store For Big Changes

Television viewers in Colorado City may be wondering why there have been changes in the programs they can get through the cable service, and they may be in for a shock to discover that some of their favorites may soon be dropped.

Recent changes in Frontier TV Cable program offerings in Colorado City are due to deregulation of the microwave system by the Federal Communications Commission.

When the microwave service, West Texas Microwave, changed the basis for their charges to cable systems from the number of subscribers to a mileage per channel basis, many of the smaller and closer cable systems dropped the microwave service because rates skyrocketed.

Dale Mathis, Frontier TV Cable manager, said that the only thing keeping us (Colorado City) on the microwave service now is the buffer of Abilene and Sweetwater.

Rates are established in a peculiar fashion and the change to a geographical basis went into effect May 1, after being approved by the FCC April 15.

In Colorado City, Channel 11 from Fort Worth has already been a casualty of the change, but most dreaded change is the one coming, according to Mathis, when Channels 8 and 13 from Dallas will be dropped.

According to figures and examples he used, Mathis pointed out that carrying the television channels is a money-losing proposition for the microwave service since one channel space

can carry 1,200 telephone conversations over microwave.

Twelve cable systems throughout the West Texas area have banded together to appeal the FCC decision but Mathis said the main result has been compilation of a four-inch thick file and busy work for lawyers in filing legal documents.

"When we protested this, we had 31 reasons

that it was unfair, unjust and just not acceptable. They (FCC tariff section) only answered four of these. They completely ignored the rest," Mathis said.

When questioned about programming the cable company will use when the rates do go so high as to prohibit reception of the favorites on Channels 8 and 13, Mathis said they would probably get another

service off the satellite system.

Presently, number four on the dial, which normally carries the PBS Station 13 in Dallas, is carrying KDFW from Dallas, a CBS affiliate. This is just temporary until the lines can be cleared up, a problem caused by moving equipment at Mineral Wells. The Mineral Wells cable company was forced to drop microwave service because of the recent rate hike.

Consequently, that company told the microwave service that use of the cable company tower would not be permitted, or it would cost as much as the microwave service had raised its rates. The microwave service is removing its equipment from the Mineral Wells cable tower.

This moving of equipment is also affecting reception of Channel 8, WFAA, the ABC channel from Dallas so popular here. Much of the time there is interference on the line or the programming will be interrupted.

Mathis explained some other changes in local reception. "Channel 2, KMID of Midland, is NBC now but it's fixing to be ABC and the ABC station in Big Spring, KWAB, will

have to pick up NBC affiliation because that's all that's left," Mathis explained. "So, we don't want to have Channel 2, 8 and 12, all carrying ABC and that's why we picked up KJAA out of Lubbock, Channel 34. It's a new independent station that's only been on the air about six months."

The Chicago station that replace Channel 11 of Fort Worth, number

five on the dial, is also an independent station and carries Cubs baseball action.

Mathis said that both these changes have been fairly popular with the subscribers, although there have been some complaints. But when the company loses the two popular Dallas stations, there will be many complaints from the over 2,500 customers locally.

Members Attend Meeting

The 62nd annual convention of the Veterans of Foreign Wars, Department of Texas, was held in Dallas at the Amfac Hotel and Resort June 25 through 27.

The convention convened on Friday, June 25, with a joint meeting of the VFW and Ladies' Auxiliaries and continued through Sunday, June 27, with the election and installation of new state officers.

John F. Simmons, Post 6796 Dallas, was elevated to State Commander and Betty Rose, Post 9168 Ladies' Auxiliary Lewisville, was elected State Auxiliary President.

Members of the Wilson Wyatt VFW Post 9178 and its Ladies' Auxiliary attending the convention were Frank and Ann Ingram, and Andrew and Estella Rivera. The Ingrams also attended the reception held for the new State Commander and President and the council of administration meeting.

Jams, Jellies Made From Fruit Please Family Members

A fruity spread made with the family's favorites from summer's finest offerings is a delicious companion to homemade biscuits and rolls, warm from the oven. Surplus, top-quality fruit, taken for granted in the height of its season, may be preserved to delight the palate through the winter months ahead.

Preserved fruit varies in consistency depending on the part of the fruit this is cooked (pulp, juice or both) and the proportions of other agents, such as sugar, pectin and water, which are present. Following is a brief overview of the most common spreads:

Jelly, made from fruit juice, is clear and firm, similar to gelatin, except it's soft enough to spread easily;

Jam, made with juice and pulp of whole fruit, has an even, somewhat jellied, consistency;

Butter, made primarily from fruit pulp, has a thick consistency and contains less sugar than jam does;

Marmalade, usually prepared with citrus fruit, is clear, jelly-like and transparent, with fruit suspended in small pieces throughout;

Conserves contain a mixture of several fruits, frequently with nuts and raisins, and have a jam-like consistency;

Preserves contain whole fruits or large chunks, in a heavy, transparent, sugar syrup.

What makes jelly gel? The principle behind all preserve preparation is that gelling occurs due to the combination of acid, pectin and sugar.

Oectin, a carbohydrate present in different amounts in certain fruits and vegetables, is highest when the fruit is about to reach maturity. It is best to use fruit at its peak before the fruit turns ripe or over-ripe, and the acid and pectin deteriorate.

Fruits rich in pectin, such as apples, quinces, plums, currants, cranberries and gooseberries, get naturally.

Strawberries, blueberries, cherries, peaches, apricots, pears and pineapples have low-pectin content, and require combination with a high-pectin fruit or addition of a commercial pectin, lemon or apple juice.

Jelly-making begins by cooking fruit slowly, until the juice starts to flow, then cooking rapidly till soft. Cooked fruit, poured into a jelly bag which was wrung out with cold water, allows the juice to drip as the fruit drains. (After extracting juice, fruit pulp may be saved to prepare fruit butter.)

The juice is then boiled rapidly (four to six cups in a large-diameter

kettle works best) and sugar added gradually while constantly stirring.

To test for jelly, scoop a little cooked juice in a spoon, cool slightly and pour slowly back into the kettle from the edge of the spoon.

The jelly is ready when the drops fall in a sheet from the edge of the spoon—if two parallel drops fall from the spoon, continue cooking.

At this point, remove from heat, skim and pour immediately into sterilized jars and seal.

Jam-making begins by cooking crushed berries without water, or mashed cooked fruit in a small amount of water, stirring constantly, until thick.

Add sugar, generally ½ to ¾ pound of sugar for each pound of fruit, or ½ to 1 cup sugar for 1 cup fruit, depending on

the ripeness of the fruit and desired sweetness.

Corn syrup may be substituted for sugar in the ratio of ¾ cup per cup of fruit. Jam is ready when it passes the jelly test. Store and seal as for jelly.

Jars, glasses and lids for storing preserves must be clean and sterile. Wash in soapy water, rinse in hot water, then cover with fresh water and boil for 15

minutes. When ready to use, remove jars, drain quickly and fill while hot.

To seal manufacturer's canning jars, prepare lids according to enclosed directions, wipe tops and threads of jars with clean cloth and screw lids on tightly.

When using your own jars, melt enough paraffin in a double boiler to cover each jar with a one-eighth inch thick la-

yer (approximately 1 tablespoon paraffin per 6-ounce jelly glass). Be

sure to prevent holes in

Jams, Jellies

From Page 4B

the seal by pricking air bubbles which may appear as the paraffin hardens.

Once the hot paraffin has been poured into the jars, a knife is inserted into it between the jelly

and the glass to a 1/4-inch depth and drawn around the circumference so the paraffin may flow.

When the paraffin sets, cover jars, label with contents and date, and store in a cool, dry place. Preserves stay fresh for a few months.

The recipes that follow offer a variety of ways to savor the season's selection of sumptuous fruits in the autumn and early winter.

Blackberry Jelly and Carrot, Apple and Peach Marmalade are reprinted from "The Culinary Arts Institute Encyclopedic Cookbook" edited by Ruth Berolzheimer (Simon and Schuster).

Cantaloupe - Plum Jam and Grape Conserve are culled from Ida Bailey Allen's "Best Loved Recipes of the American People" (Dolphin Books, Doubleday & Company).

BLACKBERRY JELLY
Blackberries

Water Sugar

Select blackberries, about half of which are underripe and half fully ripe. Wash, place in kettle and add 1 cup of water for each three quarts of berries. Heat slowly to boiling and boil about five minutes. String through jelly bag. Add 3/4 cup sugar for each cup juice, cooking only three to four cups of juice at a time. Boil juice three minutes, add sugar and boil rapidly

until juice gives test for jelly. Pour into sterile glasses. Cover with paraffin and store in cool place.

NOTE: May substitute dewberries, loganberries, or raspberries, instead of blackberries. When using raspberries, omit water.

CARROT, APPLE AND PEACH MARMALADE

1 pint diced carrots
1 pint diced tart apples
1 cup diced peaches
Juice 1 lemon

3 cups sugar
Combine ingredients and boil rapidly until mixture is clear. Pour into sterile jars and seal. Makes about 2 1/2 pints.

CANTALOUPE-PLUM JAM

2 medium cantaloupes (2 cups puree)
2 pounds red plums (2 cups puree)
4 cups sugar
1 tablespoon lemon juice

Remove rind from melons, halve melons,

remove seeds, and cut flesh into chunks. Puree in a blender or food mill. Remove pits from plums and puree the flesh. Put both fruits in a 4-to 6 quart kettle and bring to a boil. Add sugar and lemon juice. Gently boil the mixture until the desired consistency, from 30 to 45 minutes. Skim off any froth from the top. Pour into sterilized pint jars and seal. Makes two pints.

GRAPE CONSERVE

3 quarts firm wild grapes
1 cup water
1 pound seeded raisins
5 pounds sugar
Grated rind and juice of two oranges and 1 lemon
1 1/2 cups chopped nut meats

Remove seeds from the grapes and simmer for 1/2 hour with the water. Add the raisins and sugar, cook until thick—about 45 minutes. Put in the orange and lemon rind and juice, simmer 5 minutes, stir in the nut meats at the last moment. Turn into small glasses and seal. Makes about three pints.

Guerreros Attend Camp

Irma Guerrero and her father, Lupe Guerrero, of 2130 Locust, went on an overnight camping trip at Camp Boothe Oaks in Sweetwater last weekend. Among other activities, they enjoyed swimming and singing. Irma, a member of Brownie Troop 250, was awarded the trip for selling more than eight cases of Girl Scout cookies.

BRAVES MEMBER GARY MARSH makes a good catch, but not in time, because the referee calls Lion Perry Conner safe with a steal to second base. A play like this helped give the Lions their enormous win over the Braves, 30-5.

Colts Tame Lions 17 - 15

Yankees Win To Keep Lead Alive

The Yankees improved an already perfect season's record with a win over both the Dodgers and the Indians. Minor League games were called off because of rain but resumed Monday as the Colts narrowly escaped the Lions paws 17-15.

Rangers 12, Indians 11

The Rangers rallied in the fourth and fifth innings to go out in front of the hapless Indians. A seven point fifth inning

put the Rangers out in front for good despite a three run last inning by the Indians.

Helping with the winning cause were Arispe, Gonzales, Russell, Molina, Edwards, and Martin with one run apiece. Scoring twice were Selvera, Luera and Ramage.

For the losing team, Rodriguez scored three times for his part. Davila, Walker, and Watlington each scored tw-

ice and Daniel and Norman each added a point. The winning pitcher was Molina while Norman was tagged with a loss.

Yankees 25, Dodgers 4
Behind the pitching of Proctor, the Yankees allowed the Dodgers runs in the third inning only. Nothing could stop the Yankees as they tallied four runs in the third inning, five runs in the fourth, six runs in the fifth, and seven runs in the sixth.

Proctor was credited with the win. Arellano's name went down as the losing pitcher.

Yankees 10, Indians 3

The Indians gave an impressive showing as they held the Yankees in the halter allowing them no runs in the first or third innings. But the Yankees, known for their scoring ability, racked up all they would need to defeat the Indians; six runs in the fourth inning.

Proctor, Rees, Timms and Parras added a point to the winning tally while Benitez, Morren, and Miles each contributed two runs.

For the Indians, Howe, Bradbury and Chapman scored once.

Proctor gets another win and Norman and Daniels suffer a loss.

Colts 17, Lions 15

The Colts improved their record and kept the Lions struggling to get out of last place.

The game "see-saw-

ed" back and forth with each team a threat to the other; but a third inning eight pointer put the Colts ahead by two and they kept the Lions from attempting a rally.

Aiding the team were Timms, Martin and Lynch with three points. Jones and Moore added two points to the scoreboard while Lamb, C. Shaw, K. Shaw, and Magill contributed a point apiece.

Lions 30, Braves 5
The Lions scalped the not-so-brave Braves Monday night in a show-

Kougars Edge The Red Devils 22 - 21

Kougars 22

Red Devils 21

This game had every-one yelling from their favorite team as from the very start it proved to be anyone's game. Going into their last bat, the Kougars were behind one point, 20-21. Cynthia scored tying up the game. The next batter, Kellie, scored winning the hard-fought battle for the Kougars.

Tigers 18, Angels 11

The Tigers made a comeback after Friday night's defeat. Sunney pretended to be a one girl team as she contributed four points. Christina added three, Melanie, Nat, Shanna and Heather each contributed two points and Jackie and Jennifer both scor-

ed one point.

For the Angels, Jo Ann scored three times and Cami scored twice. Sandy, Candy, Aubrey, Cynthia, Rhonda and Dusty contributed one point a piece.

Warriors 27, Devils 5

The Warriors gave the Devils no where to run as they came at them with run after run. Everyone scored at least once for the Warriors and for the Devils, Ashley scored three times, Christobel scored twice and Holly scored once.

Royals 13, Tigers 10

The Royals had to win this game to keep a one game lead over the Tigers. They remain two games behind the leaders, the Angels.

8 p.m. - Colts vs. Cubs

Tourney Delayed For Two Weeks

The Softball Tournament slated for last weekend is postponed until Saturday July 10. The games had to be called off because of field conditions due to the storm.

Tex Blankenship, scorekeeper for the league, said that play would resume where it was cut off last weekend. Seventeen games were played with approximately fifteen more to

be played.

Saturday, at the end of the tournament, trophies will be awarded to the first four placing teams. Members on the first two place teams will also receive individual trophies. An all-star team will be picked from the best players and those will receive individual trophies. Recognized will be best defensive and offensive player of the tournament.

Domestic Rabbit meat is the most nutritious meat known. (% nutrient value: Rabbit, 83; beef, 75; pork, 65; chicken, 50) Domestic Rabbit meat is highest in protein of all meats. Rabbit is lowest in fat. Rabbit is lowest in Calories. Rabbit is lowest in uric acid, and very low in Cholesterol. Rabbit is more easily digested than most other meats. Domestic Rabbit is seasonable all year, as it does not contain the heating properties of most all other meats. Rabbit is lower in sodium and cholesterol, and is recommended by The American Heart Association for coronary heart patients.

Softball Tourney Is Set

Things are shaping up for the Second Annual UGSA (United Girls' Softball Association) Women's Softball Tournament at Hertenberger Field this weekend, according to coordinator Sheryl Lamb.

She said the tourney is limited to the first 12 teams and as of Monday there were seven teams entered. She said there were a few more that were supposed to enter.

Currently she said, there are two local teams from Colorado City, the Warriors, coached by Vince Gaona and the Masters Blasters, coached by Rosa Ausbie, entered in the competition.

There are teams from Big Spring, Snyder, Matador, Ira and Crane entered in the annual fund raising project by UGSA.

All proceeds from the slowpitch tourney will be used for new restrooms at the softball field at Ruddick Park.

Action will begin Friday night and final play-off games are set for Sunday afternoon.

Pool Opening Delayed

The Colorado City swimming pool opening day has once again had some problems causing another delay.

According to Rick Crowley, city manager, they are doing everything possible to get the pool open, but there have been some unforeseen problems.

He said they intended to open Monday, but there was a death in the life guard, Larry Dear- en's family and Tuesday some pipes broke.

Crowley says he apologizes for the delay, but they are working hard to have it open today at noon.
