Father Dies That Infant May Live

MILWAUKEE, Wis., Oct. 1 (AP)—His love for his new born infant, cost Anthony Canas, 34, a day laborer, his life.

When Tony's wife confided to him the secret his heart was filled with joy. Preparations were made and finally the great day arrived. Mrs. Canas went bravely to the children's hospital and Tony went along and paced the halls as all expectant fathers do. Soon they told him the baby was born, but that the mother had died.

Farmer Confesses Slaying Prince

SLOCUM, Ala., Oct. 1.—A fifty-year-old farmer, has confessed to the slaying of Claude F. Atwater, school principal and sheriff of the county. The sheriff was said today to have been the Alabamian's son-in-law. The slaying was said to have taken place five days ago.

With perfect weather prevailing and the strongest agricultural and livestock exhibits in its history, the Fifteenth Annual Panhandle-South Plains fair swung open its gates at 9 o'clock this morning, off on a six day and night run which officials believe will set a new attendance record.

The vanguard of visitors from thirty West Texas and Eastern New Mexico counties swarmed into the city throughout the day and found Lubbock, flagdraped, in holiday attire. Throughout the morning and into the afternoon there was a hurry and scurry at the exposition grounds, located just off East Broadway and bordering the County Recreational park on the West, as frenzied exhibitors and departmental officials set the stage for what is expected to be the greatest fair in West Texas history.

HOOVER SEEKS TO QUIET FUSS OVER RELIGION

By JAMES L. WEST
(WASHINGTON, Oct. 1)—Herbert Hoover is earnestly hopeful that his clear cut announcement on the religious question will serve to prevent overzealous workers in his party from advertising to this subject during the remainder of the campaign.

There probably is no subject upon which the republican presidential candidate feels more deeply as his reputation of the Caldwell letter indicated, and he often expressed to those around him the keen regret that this matter has been brought into the campaign.

Hoover on more than one occasion has made known his view that a political fight along religious lines not only wastes the very fundamental principle upon which the republic was founded, but also is fraught with grave danger to the country since it aligns one body of citizens against another in a warfare which might have far-reaching effect.

Hoped to Drop Issue
Hoover's hope had been that his original declaration to the party workers through Chairman Work of the national committee, and his voluntary pronouncement for religious tolerance in his acceptance address would clarify the atmosphere in this respect and permit the presidential contest to be fought out on the real issues.

Having again made his position clear in two statements concerning the manuscript letter sent out over the form signature of Mrs. Willie W. Caldwell, republican national committee woman from Virginia, which urged the women to save the United States from being "Romanized," the republican candidate turned today to preparations for the final five weeks drive of the campaign.

While his plans for the time ensuing until election day, November 6, are far from complete, he will make at least five more major addresses before the voters go to the polls. One of these will be delivered at some large western city while he enroute to his California home and another will be from Palo Alto on election eve.

CAB WAR BREAKS OUT IN CHICAGO

BOMBING OF TWO YELLOW CAB GARAGES IS THOUGHT STARTING OF TRADE WARFARE

(By Associated Press)
CHICAGO, Oct. 1—Two Yellow Cab company garages on the North Side were bombed with dynamite last night, signaling what police fear may be the reopening of warfare between employes of rival taxi-cab concerns.

Police guarded all Yellow Cab garages today to forestall further outbreaks. Company officials and employes maintained a tight-lipped silence, statements being confined to denial that either inter-company ill-feeling or labor difficulties were responsible.

No close approximation of the damage could be obtained from the cab company. The explosion of the bomb at the garage in the 5400 block on Broadway was heard as far north as Evanston, and shattered windows in nearby buildings.

It was 15 minutes later that a bomb exploded at the rear of the Yellow Cab company's garage and repair shop at 3300 North Halstead street. Police believe the same hands that placed the Broadway garage bomb hurled the dynamite that damaged the building on Halstead street.

Two men, one tall, the other short, were seen to run from both places and drive away in a roadster. Officers of the company insisted there was no reason to believe the bombings were attributable to any ill-feeling between drivers of rival concerns, but police linked the attacks with the slaying a week ago of a Checker Cab driver, Eugene Thiervege. The shooting of Thiervege followed a quarrel between Checker and Yellow Cab chauffeurs whose cabs should have preference at a cab stand near the Grand Cafe on the South Side.

LONDON, Oct. 1 (AP)—Official announcement was made today that the home secretary will not prohibit Mrs. Aimee Semple McPherson, Los Angeles evangelist from landing in England "on the ground merely that she may advocate religious beliefs and doctrines of a controversial nature."

Like most every other alien, however, Mrs. McPherson must satisfy the immigration officer at the port of arrival that she may properly be allowed to land within the terms of the aliens order of 1920.

FEDERAL COURT FILE CASES ARE INSTALLED HERE

File cases to hold the records of the Lubbock division of the federal court of the northern district of Texas have been installed in the offices of the district clerk here.

Mrs. Olive Fluke, deputy federal district clerk, will keep the court records in the district clerk's office until the proposed federal building is constructed here.

Twenty-four files are included in the case received here. Word from the treasury department in Washington concerning the final selection of a site for the federal building is expected here within the near future.

H. G. Richey, district engineer of the government who was here three weeks ago in connection with selection of a building site, predicted that local authorities would be advised of the selection within two weeks. No word has been received by Postmaster John L. Vaughan, or the owners of the sites offered.

Stocks And Money

WALL STREET STOCKS
NEW YORK, Oct. 1 (AP)—A heavy accumulation of week end buying orders imparted a strong undercurrent to the opening of today's stock market.

A. M. Byers opened 5 points higher at 140 1-2, a new high record. Initial gains of 1 to 2 points were registered by Radio, Anaconda Copper, Drug, Inc., Westinghouse Electric, American Radiator and International Harvester.

The spirited recovery in Saturday's market brought a flood of new buying orders into the market. Pools also resumed operations on a large scale, particularly in some of the high priced specialties which are believed to harbor a large short interest.

Owen D. Young's statement that prosperity will continue under either Hoover or Smith as president had a bullish effect on speculative sentiment.

Montgomery Ward, which resumed trading on Monday last, week quickly ran up 5 1-2 points. Murray corporation was bid up 4 1-4 to a new high record at 80 1-2 and Union Carbide, Lambert, and Purdy also advanced.

Motors again changed hands in large volume on reports of expanding earnings and persistent rumors of new consolidations in the industry. General Motors, Nash and Studebaker were all bid up a point or more. Coppers also attracted a large following as a result of the recent stiffening in commodity prices, and reports that current sales and production were breaking all records.

Rails moved slowly forward under the leadership of Rock Island, which crossed 129 to a new high record, and Canadian Pacific.

There were a few soft spots notably Allied Chemical which fell 3 points.

Tunney Delighted At Naples' Beauty

NAPLES, Italy, Oct. 1 (AP)—Assured that all his papers would be ready so he might marry Miss Mary Josephine Lauder anytime after she lands, Gene Tunney rested amid the beauties of Naples today.

Decision as to whether the wedding will take place in Naples or Rome rests with Miss Lauder, who is due here from New York tomorrow aboard the motorship Saturnia.

The retired heavyweight champion after his arrival here from Rome received a radio message from Miss Lauder, sent from within territorial waters of Sardinia, saying she had had a happy voyage but was delighted that the moment of landing was approaching.

"Now I know why the Italians say 'see Naples and then die,'" Tunney said as he looked at the Emerald Island of Capri and Smoky Vesuvius towering over the gulf.

# YANKEES ENTER SERIES WITH 'PAPER' ADVANTAGE IN BATTING. HALLAHAN'S MASTERFUL MOUND WORK TIES DIXIE SERIES

## INJURIES MAY KEEP OUT NEW YORK HITTERS

### SIX GOTHAMITES WILL HAVE ADVANTAGE ON ST. LOUIS RIVALS

By WILLIAM J. CHIPMAN (Associated Press Sports Writer)

NEW YORK, Oct. 1 (AP)—The Yankees enter the series with a paper offensive thirteen batting points greater than that of the Cardinals, but with much of this theoretical advantage offset by injuries to star players who helped compile it.

Announcement today that Earl Combs had suffered only a sprain and not a fracture of his right wrist in Detroit last Thursday bolstered Yankee hopes as his 310 bat did much to help the American League champions to their team average of .285.

Babe Ruth, Mark Koenig and Tony Lazzeri, who outbit their respective Cardinals rivals by generous margins, are handicapped by injuries of the degree and another, and the loss of any one of them would mean more than eat up any batting margin which may be left by the Yankees.

Cards Traditional Hitters

The tradition of hitting has remained about the Cardinals ever since 1892 when Hornsby first scaled the heights. The fans at large have looked upon the St. Louisans as uncommonly dangerous with the willow—regardless of the actual average. The new champions are by no means poor batsmen, but they fall far short of being the hardest swat-smiths in even their own league and in dual league statistics rank fifth to the Pirates, the Giants, the Yankees and Athletics.

The St. Louisans will be substantially outbatted by the Yankees in the respective league positions on Thursday with Combs in center field. Unless Dugan resumes his post at third base, six Yankees will enter the game with a margin over their various Cardinals rivals.

The series will bring together the respective league champions in runs batted in, and will pit the American League home run champion against the man who tied for four-base honors in the National. Babe Ruth's margin of 54 home runs to 31 over Jim Bottomley gives the Yankees a big edge in long distance slouts but Sunny Jim's 133 runs batted in compare more favorably with Gehrig's 145.

## MISSOURI VALLEY TEAMS FACE HOT GRID TITLE CHASE

WINN HENRY

BY GWYN HENRY  
Coach, University of Missouri

Football in the territory of the old Missouri Valley Conference is to share in the forward step for all college sports in this area with the reorganization of the Valley Conference. It will have 10 instead of six members, all state schools with enrollment and other resources of approximate equality.

The reorganization makes possible the playing of a round-robin schedule among conference members for the first time, and assures a clean-cut conference championship, a factor which should add materially to interest in football in this district.

The new conference members are Missouri, Kansas, Oklahoma and Nebraska universities and the agricultural college of Iowa and Kansas. Grinnell, Washington, Oklahoma Aggies and Drake were dropped.

The reorganization should bring to the conference the hottest football race in its history, with inter-sectional games, particularly those of Missouri-Nebraska and Oklahoma-Kansas, adding to the difficulties of the teams and coaches and to the interest of the fans. Veteran material is plentiful, and the relatively late closing of the season—there is only one conference game prior to Oct. 30—should enable coaches to bring their teams to the finest condition for the season's play.

At Missouri we return a group of 18 letter men. There are veterans for every position.

Our weight in the backfield is gone with the graduation of Flammank and Tuttle, but we can count again on the speed of Mohrle, Diekmund, and Rosenheim, while several big sophomores look promising. We lost heavily in the line, but are still able to put forth a forward wall of veterans that will average well over 180 pounds.

Nebraska Faces Tough Schedule

Nebraska enters to Missouri in the conference race last year, has material which appears on a par with that of Missouri, as 14 letter men are scheduled to return. The great Pressell is gone, but Coach Beary has Blue Howell, a brilliant back, and plenty of lesser lights.

The Cornhuskers have a brilliant line, and a backfield, meeting the inter-sectional Syracuse, Pittsburgh and Montana State. Missouri meets New York University, and have inter-sectional contests of lesser importance with Drake and Centre, while Oklahoma plays the only Big Ten opponent of the season in Indiana.

Oklahoma probably suffered heavily in losses by graduation, but there is promise for Al Lindsey's men, particularly in the backfield, where Bus Haskins, who starred in Oklahoma's victory over Chicago last season, and Drake and Will return. Two other star ball carriers are regarded as particularly strong at quarterback.

It is Lindsey's second year at Oklahoma, and his men will not face the task of learning a new style of football as they did last season.

Twelve letter men form the nucleus of the squad at Iowa State, where the most numerous men to fill the gaps left by graduation of seven varsity men. Among the returning veterans are two star ball carriers, Johnnie Miller and Harry Lipd-bloom. Workman faces the necessity of preparing his squad early, since the Cyclones meet Nebraska October 6 in the only early conference game on the schedule.

McMillin Coaches Kan. State

Both Kansas members of the state Bill Hargis, former Emporia Teachers' mentor, directing football at the University of Kansas, and Bo McMillan, famous Centre College Army, guiding Kansas State. At Kansas backfield material is plentiful, with gaps in the line to be filled by sophomores, while at Kansas State 16 letter men should provide for all positions.

Of the four schools opposed by the withdrawal of the six big state institutions from the old Missouri Valley, Drake probably has fared better.

The matter of schedules, and with a dozen lettermen around which to build, Ocie Solem faces good prospects despite a tough schedule. Missouri, Notre Dame, Iowa State and Marquette are the high spots of the Bulldog card.

Washington has suffered heavily through losses of veterans, both by graduation and by failure of several stars to return to school. Football there is under a new regime this fall with Al Sharpe, of Yale and Cornell fame, at the head.

Creighton at Omaha, with a card which includes Minnesota, Oklahoma, the Oklahoma Aggies, Utah, Marquette, Drake and other formidable foes, has undertaken probably the most ambitious schedule of the smaller schools in this region. The Bluejays, however, for several years past, have been playing a brand of football which ranks them in the big time.

## BUFFS HOPE TO SWEEP GAMES ON HOME FIELD

### JUDD AND PENNER WILL BE PITCHED ON THE MOUND TODAY

(By Associated Press)

HOUSTON, Oct. 1.—With the Dixie Series deadlocked, Birmingham and Houston were confident of taking the fifth game here today and gaining an advantage in the struggle for baseball supremacy of the South.

The Buffs, Texas League champions, who have captured the last two games, were determined to make a clean sweep of it in their own ballpark, while the Barons, Southern Association titleholders, were not the super-confident athletes of two days ago but were in a fighting mood.

The Alabama's hope of returning with one victory on foreign soil rested on Ralph Judd, right hander, who hurled masterfully in the second game of the series. Manager Frank Snyder was expected to open the contest with Judd, one of the most consistent right handers in the Texas League, although Frank Barnes, left hander, was considered a possibility.

Neither the fans nor the players, particularly the Birmingham warriors, could forget the dazzling slab exhibition yesterday of Hallahan, Houston southpaw ace. Hallahan was nearly the whole show to 17,353 cash customers as the Buffs won, 6 to 0.

The Texas League strikework monarch pitched to only 26 batters, allowed just two singles, whiffed 11 Alabama's and did not issue a pass.

## among GRID LEADERS

### BY NEA SERVICE

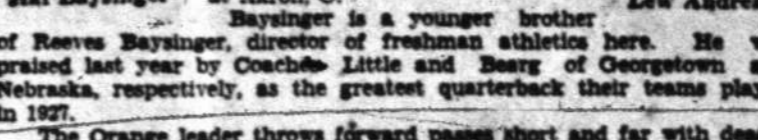

SYRACUSE, Oct. 1.—Lew Andreas is in charge of Syracuse football again this year and to quote a Syracuse official, "of the players of last year are back and we expect an excellent season."

Andreas is a graduate of Syracuse, having finished in 1919 after a successful athletic career, and served his first year as head coach last fall. He previously had been director of freshman athletics for the Orange. While he had only Ray Barbuti, his captain, available as experienced material to work with, Andreas' team of last fall was stronger than the record of games won and lost indicates.

Hal Baysinger, who may prove to be the outstanding quarterback of the year, will captain the Orange this fall. He is 22 years old, weighs 170 pounds, and lives at Akron, O.

Baysinger is a younger brother of Reeves Baysinger, director of freshman athletics here. He was praised last year by Coach Little and Beary of Georgetown and Nebraska, respectively, as the greatest quarterback their teams played in 1927.

The Orange leader throws forward passes short and far with deadly accuracy and completed several for around 30 yards last year. He is a brainy field general, an excellent punter, and a good ball carrier.

## PORKER LOSS ONLY UPSET OF GRID PROGRAM

### BAYLOR SHOWS THREAT BY HEAVY MARGIN OVER TEACHERS

DALLAS, Oct. 1.—Preliminary games on schedules of Southwestern Conference football elevens are history, and grid mentors of the seven institutions of higher learning prepared today to point their squads for major contests.

A survey of week-end contests revealed that all except one ran the gamut to form. Through the way countered stubborn opposition. M. U. Texas, A. and M. Rice, Baylor and Texas Christian University kept their season's slate clean in clashes with lesser known rivals. The giant Rowanback team from Fayetteville alone fell victim to a non-conference opponent. Their ancient rivals, Mississippi University, flashed a surprising offense that Coach Frances Schmidt's charges could not match, and the Porkers were beaten, 26 to 6.

The S. M. U. Mustangs, engaging in their second 11th of the season, met a worthy foe in the Howard Payne Yellow Jackets, but the Ponies uncovered little of what they expect to use against Army this week in their 31 to 6 victory.

Texas Longhorns gave increasing indications of becoming serious contenders to confer the Blower trophy by beating St. Edwards University 23 to 0, and A. and M.'s young team revealed continued power in downing the Southwestern University Pirates, last year's Texas Conference champions, by a score of 21 to 0. Baylor followers were optimistic over the Green and Gold's 45 to 0 victory over North Texas Teachers' college for the victors presented a line that resisted all offensive thrusts and a backfield that passed off plays expertly through Teacher forwards in mid-season fashion. Though handicapped by injuries, Rice pushed over four touchdowns against Sam Houston Teachers' while permitting six points to be scored against the Bears.

Coach Masty Ball's T. C. U. Horned Frogs to the conference cellar gazed reflectively on accounts of the team's 21 to 0 victory over Daniel Baker. Substitutes, who have been sadly missed in past years by the Christians, accounted in a large measure for the victory.

Pony Game Features

The eyes of Texas fans will be turned Saturday toward West Point where S. M. U. meets Coach Bill Jones' Army eleven in an inter-sectional gridiron battle commanding the largest sophomore crop in the state. Other than for bruises, the Mustangs came out of the Howard Payne game in excellent condition, and Coach Ray Morrison will be able to put his full strength on the field to uphold the prestige of the Southwest.

Twenty-four players will leave for New York tomorrow. The team will work out enroute at St. Louis and Cumberland, Md.

Second in importance to the A. and M.-Seawane tilt at Dallas, an annual affair, strengthened by the greatest sophomore crop in the state, the Tennessee school will undoubtedly prove a difficult hurdle in the Farmers' path and will give the team's followers an opportunity to learn if Coach D. K. Bible has successfully replaced the great Joel Hurt and other stars lost by graduation.

In other games, Texas meets Texas Tech at Austin, Rice meets St. Edwards at Houston, Baylor plays Trinity at Waco, Arkansas encounters comparatively easy opposition at Ft. Smith, and the Grays at Fayetteville and T. C. U. grades West Texas for a game with Simmons University on neutral ground at Breckenridge.

## CURTAIN DROPS ON SEASON FOR MAJOR TEAMS

### SCANT INTEREST FOR LAST CONTESTS; HOYT WINS 22ND GAME

By HERBERT W. BAKER (Associated Press Sports Writer)

The major league drama is done for another season but the Yankee and the Cardinals still have an epilogue to offer. They meet in the world's series starting at New York on Thursday and ending when one team has won four games.

With both pennant champions already decided, there was not much to interest the baseball fan in yesterday's closing engagements. Most of the game's faithful stayed away in large numbers.

With a \$2,000 bonus as incentive, Waite Hoyt, right handed ace of the Miller Huggins' Yanks, pitched the American league champions to a 7 to 6 victory over Detroit. Hoyt had won 22 games this year. He was cheered about rather freely by the fans; but won his reward with the aid of Babe Ruth's 44th and Lou Gehrig's 27th home runs.

Athletics Finish Second

The Philadelphia Athletics finished the season two and a half games back of the Yanks when they were thrown for a loss by the Chicago White Sox.

The Sox scored the only run of the game in the seventh when Kamun singled home Reynolds from second base.

Goose Goslin's homer with two on in the fifth was the high spot of Washington's 9 to 1 victory over St. Louis.

The Red Sox romped to an easy 7 to 2 win over Cleveland. Todt getting a home run and three singles.

The St. Louis Cardinals, their second National league champion-ship tucked away, did little but go through the motions at the Polo grounds and lost to the runner-up, New York Giants, 4 to 2.

The Chicago Cubs, in third place, Cincinnati into camp. 6 to 1.

Good pitching by Percy Foreman, although no lusher with in place, ended the season with more victory than defeat.

Phillies were met and lost.

## Hooks and Slides

### Chance for Sloughing

The Athletics and the Yankees will have to finish their fight for the American League pennant on the road against the western clubs. The Yankees had plenty of trouble against the westerners on their previous invasions and the Athletics did little trouble with them.

In fact the Athletics had very little difficulty defeating any of the clubs with the exception of the New Yorks.

Because of the popularity of Connie Mack and the sympathy of the large part of the public for the underdog, it has been heard that the western clubs might offer less resistance to the Athletics than to the Yankee Athletics than to the Cleveland Indians.

There were some complaints that a break in one of the opening western campaigns of the opening season in the box today leaving Shamus unannounced.

### But They Won't Do It

But they isn't a good reason to believe that any grid reason club will slough off for western clubs on the Yank A's and the ball players would like to make any over moves, afraid.

And also, the Athletic players are not as popular with the players of the other clubs in the league as Yankee players are.

In a confidential conversation with enough ball players to be representative of the four western clubs it was learned that the majority of the players on the western clubs like the Yankees better than the Athletics.

### Athletics Not Popular

With the exception of Durocher all of the Yankee players are liked by the other ball players. And the players on the other clubs are more amused than riled by the upstart cockiness of Durocher.

The Athletics collectively are not under the players on the other clubs, although some of the individuals are very well liked and respected.

The sharp tongues of Cobb, Dykes, Bush and a few others, and the superior ways of some of the other Philadelphia players soured other players on the other clubs against the team.

They are all for Connie Mack. They are all of them want to see Mack little Miller Huggins on the Dose.

And the Yankees make business and help get the dough for the other clubs.

### The Records Do Count

By his victory in the American National championship, Henri Cochet, the stocky little French star, clinched the honor of the first ranking tennis player of 1928.

## RUGGED FOES FACE LOCALS

Football teams of Lubbock encounter the first stiff competition this week-end when the Matadors journey to the state capital to meet the Texas Longhorns and the high school Westerners clash with the Quanaah Indians here in their first conference tilt. Both squads face a hard period of training in preparation for these contests.

The Matador game with the Schreiner Mountaineers revealed a number of weak spots in the Tech offense which several days of hard work should polish off to a maximum degree of efficiency. Lacking coordination and proper timing of plays in their first encounter, the Matadors now have a basis to work on and should present a powerful attack when they line up against the Littlefield aggregation Saturday in Austin.

Although the Quanaah team has not met a conference aggregation since the Indians are expected to have their usual scrappy team. Coaches Frnka and Morgan plan an intensive week of training for the Gold and Black warriors and hope to have the squad at its best in the tilt Saturday.

The Westerners will be in action on the Tech gridiron at the same time the Matadors are battling the Longhorns in Austin.

## Both Tech and High School Go Against Tough Opponents

A season's pass to the Up-town Dance Palace goes to Doc Barfoot for catching the first pass. Barfoot also gets \$2.50 in laundry work and \$2.50 in cleaning and pressing from the Lubbock Laundry for making the first clean tackle in Saturday's game. For catching the second kickoff of the game Buddy Brothers will receive \$2.50 in laundry work from the Bumpass Steam Laundry. As the most consistent lineman, Chubby Dewitt will be given a Tech belt and buckle by Hogg and Patton and \$5 in cleaning and pressing from the College Tailors.

For recovering the first fumble, Levi Walker gets \$3 in merchandise from the Corner Drug Store. Paul Marr is given a pair of shoes by Hodges Brothers for making the first gain for more than 10 yards.

Bruce (Ox) Beck gets a Conklin pencil from the Hotel Drug and \$2.50 worth of cleaning and pressing from the Lubbock Tailoring company for getting the first tackle in the second half. Here's another for Barfoot: choice of any \$2 tie from McWhorter-Roberts for making the first tackle. Yankin Corley gets his "limousine," if any, washed and the oil changed at the Lubricating Service station operating in Austin.

## Pony Clash Is Grid Feature

SEASON WILL OPEN IN EARNEST THIS WEEK THROUGHOUT WEST

KANSAS CITY, Oct. 1 (AP)—After wetting the football appetite of the fans with preliminary skirmishes last week end, the 1928 season will officially get under way in section Saturday. Missouri, alone of the major teams, will not play, delaying its start another week when Centre comes to Columbia to tackle the Tigers.

Only one game with a bearing on conference ratings will be played by the Big Six, Nebraska visiting Ames to meet Iowa State. Oklahoma takes a long trek to Bloomington to engage Indiana. Kansas plays host to Grinnell in Lawrence and the Kansas Aggies visit Stillwater, Oklahoma, to battle Oklahoma A. and M.

The most important game, as far as the Southwest is concerned, will be the meeting at West Point of the University of Dallas. The Mustangs achieved wide recognition by the high caliber of their play in the last few seasons and this season are beginning to receive their reward with games of national importance.

As the most consistent lineman, Chubby Dewitt will be given a Tech belt and buckle by Hogg and Patton and \$5 in cleaning and pressing from the College Tailors.

For recovering the first fumble, Levi Walker gets \$3 in merchandise from the Corner Drug Store. Paul Marr is given a pair of shoes by Hodges Brothers for making the first gain for more than 10 yards.

Bruce (Ox) Beck gets a Conklin pencil from the Hotel Drug and \$2.50 worth of cleaning and pressing from the Lubbock Tailoring company for getting the first tackle in the second half. Here's another for Barfoot: choice of any \$2 tie from McWhorter-Roberts for making the first tackle. Yankin Corley gets his "limousine," if any, washed and the oil changed at the Lubricating Service station operating in Austin.

## Harlingen Star Starts As Daily

HARLINGEN, Oct. 1 (AP)—Publication of the Harlingen Star as an afternoon and Sunday morning newspaper was effected yesterday with the issuing of a 22 page edition.

The paper previously had been published as a semi-weekly publication. The semi-weekly edition will be maintained.

Howard Barrett, formerly connected with the Abilene Daily Reporter and Abilene Morning News, is publisher of the Star. He took over control of the paper six weeks ago.

Otto Vink, formerly of the Beaumont Enterprise and San Antonio Express, is managing editor.

Associates in the new daily are Bernard Hanks of Abilene, Houston Harle of San Angelo and W. C. Kinsolving of Corpus Christi.

The Star carries the leased wire service of the Associated Press. kh xiebgh#buildingVR dk-

THE PLAINSMAN

That Girl on Broadway says fair weather means fair crowds will fare better than fairly well. And that's a fair wise-crack in more ways than one, ain't it? Efforts to bring Texas Tech into the political muddle on the South Plains don't set very well with a lot of folks, if the expressions The Plainsman hears are indicative of public opinion.

The Plainsman believes in the liberal right of the voter to make his own choice. This column has never been and will never be a department of political propaganda for any candidate for in this writer's opinion, such is not the function of a newspaper.

Careful Canvass Taken On Present Presidential Race Indicates Total Vote Will Be 35 Million—R. Dutcher

WASHINGTON, Oct. 1.—A minimum of 35,000,000 votes will be cast in this year's presidential election, according to R. Rodney Dutcher, NEA Service Writer. The 29,000,000 votes cast for Coolidge in the last election, he says, were the result of a canvass that was not as thorough as that of the present year.

Mr. Coolidge, it may be observed, was returned to the White House by 29 per cent of the electorate, less than one-third. Michelet explains that he has been in communication with state, county, city and other officials in every state.

From every source," he says, "comes the word that we are going to have the heaviest vote, in proportion to the number who can vote if they want to, since 1924."

Women take an interest in presidential elections which they don't take in local elections. And heretofore nearly all our national campaign issues have been economic issues.

Women aren't so much interested in economic issues and are still in the process of becoming informed about them. "But they understand what the issues are in this campaign and they're not going to depend on their men folks to explain them and tell them how to vote."

Every day in the year should be fire prevention day, but at this time of the year when the cool mornings come, and the old stove is brought out and set up and the first fire is kindled in it, is the time that double precautions should be made to prevent fires.

So then let us use the greatest precaution about fire. Be careful when the first fire is built in the heater to see that the stovepipe is clear, and that the elbows are all in place and that there are no bad joints of pipe. Let's avoid all the fire losses we can, and most of them can be avoided.

Thought For Today I am Alpha and Omega, the beginning and the end, the first and the last.—Rev. 22:13. Darkness, that here surrounds our purblind understanding, will vanish at the dawning of eternal day.—Boyle.

Inferiors

ONCE again a serious surveyor of the social scene has made the discovery that poor people have more babies than rich people. Dr. Henry D. Chapin, writing in the Review of Reviews, points out that "everywhere the poorest and least efficient have the largest families."

For a good many years complaints such as this have been voiced recurrently. And, on the surface, they seem justified. It seems rather obvious that a child brought up by educated parents who have ample means to give him good medical care and a complete education will make a much better citizen than a child born in the slums or on a run-down farm, with parents who are forever pressed by poverty.

Yes, it seems obvious. But it doesn't work out that way. It certainly is natural and human to wish that all children might have as many advantages as the child who is born with the most. But the fact is that the child who is born in the slums or on a run-down farm, with parents who are forever pressed by poverty, is just as likely to become a citizen of the first rank as the child who is born in the home of a millionaire.

Let's stop worrying about birth rates among the rich and the poor. They have always been just about as they are now. If the world were to be wrecked thereby it would have been wrecked long ago.

The Victory

JUST because Bert Hassell and Parker Cramer are not completing their flight to Denmark from Greenland, it would be a great mistake to assume that their venture has been a failure. The coming years may well prove that Hassell and Cramer have blazed the way for men who would like to see the world. Instead of taking the perilous "great circle" course followed by Lindbergh and Chamberlain, they went further north and were able to avoid the long water jump the other flyers encountered. To be sure, they had weather and were forced down at a corresponding stage on the "great circle" course; they would have perished. As it was, they came through unhurt.

Members of the Tech faculty have wisely refrained from entering into the political squabble, on one side or the other, and efforts to make of the school a political football are not only unwise but are unfair. Let's fight the political battle on the platforms and the nominees and leave the Tech out. It's an educational, not a political institution.

With Our Contemporaries

THE matter of fire prevention is a question that can not be brought too frequently or too forcefully before the average citizen. It is important that every citizen study this question earnestly and seriously, and that he put into execution the accepted method of fire prevention. A timely bulletin on "Safe-guarding America Against Fire," a rather long name for a magazine, but still one that gives a good idea of the purpose of the publication.

That Man on Avenue Q says some of the men who feel all tired-out and run down should give up golf and go back to the office for a nice long rest. The Pi-Eyed Typewriter of the San Angelo Morning Times, recently broke forth with a home made poem that the folks in these particular open spaces should appreciate. The Plainsman is passing it on, under the caption The Pi-Eyed Typewriter. "Songs That Have Never Been Sung."

I met her one night at a party Where all of my cow camp had gone. We danced until just after midnight. And then we danced on until dawn. Her hair rippled down in small ringlets. That kept getting into my eye. But I didn't care. Since she had pretty hair Just the color of fresh lemon pie.

She was only a cow-waddler's daughter. And her legs were as bowed as a could be. Though she meant a great deal to her mother. She meant quite a bit more to me. But now I must tell I have lost her. The prairies are all empty now. I think of her every bright morning. Whenever I see a young cow. She met a young man from the farm. And fell as you know most girls will. But sad to relate. I am now here to state. She is with him and loving him still.

Not considering the business buildings of all forms and designs, Lubbock has within its limits somewhere near 4,000 homes. Sixteen firemen can easily handle a residence fire but just suppose that a couple of three fires would break out, all at the same time. Maintaining plenty of firemen is the best kind of fire insurance any town can have. Lubbock not only can be carefully dropped a cigarette in the cellar before he and his wife went out for the evening. When he returned "he had to go to his mother's home a mile away to live until he could get fired up

In New York

NEW YORK, Oct. 1.—The most elaborate apartment in Manhattan is a 43-room duplex affair facing Fifth avenue. It is situated in the use of a telephone switchboard and a special operator, since 26 phones are installed in the various rooms. There are accommodations for about 30 servants.

Yet its occupant, an ex-Philadelphia millionaire, lives there alone. Which reminds me—the nation's most unusual charitable institution is a harbor for rich and aristocratic old folk who have come upon reverses. Fitted out in the most sumptuous style, the old couples—who are carefully selected by a special board—live in the splendor to which they had once become accustomed. The appointments are those of an ultra-fashionable and exclusive club. There is a huge library, a salon, ball room, dining room, billiard room and all the rest.

A vast veranda surrounds this place, which faces upon the Grand Concourse, and there are flower-hedged walks, awninged nooks and easy chairs. Through the grounds can be seen walking the gray and white-haired heirs to a former magnificence, who pass their days in this strange dream world—a world in which they have everything, although they possess nothing. The idea was conceived by a wealthy Jewish merchant who, in his late years, came to live in the New York City locations and was to be cast upon the world. Wherefore, in his will, he outlined his plan and left enough money to keep such an institution operating indefinitely.

The most profitable source of income for Manhattan's blind is I find, piano tuning. Does not seem trained at "The Lighthouse," a New York organization which seeks to make the afflicted self-supporting. There are more than a hundred who go forth each morning as piano tuners, and they are said to be unusually expert since their blindness lends additional acuteness to their sense of hearing.

"The Lighthouse," by the way, handles the affairs of the hundreds of blind news vendors to be found in the New York City locations and that there is no intrusion; referees disputes and represents the blind before the city authorities when matters of license or business are involved.

Sophie Treadwell, author of "Machinal," was the most discussed actress of the season, is the wife of Bill McGehean, the well-known sports writer. Harry Reichenbach, the publicist and wit defines a bootlegger as "a bar that walks like a man." "The piece you're corresponding to is a white back about the flower girl of Greenwich Village" was seen posted all over her window. "P. McTroy who wrote 'Show Girl' and any number of stage comedies, got his start writing cards so-good verses for greeting cards. And to this day he spends one-month a year turning out Valentine and birthday rhymes. This despite the fact that he no longer needs the money."

Youth Drowns In Lake Near Ennis

ENNIS, Oct. 1 (AP)—George Moran, 16, was drowned here yesterday while helping his father build a duck blind in New City lake. The younger Moran plunged into the water with his clothing on to bring a floating barrel to the scene of operations. His father attempted to rescue him, when he saw the son go under, and barely avoided drowning himself.

W. C. T. U. Conducts Meet In Galveston

GALVESTON, Oct. 1 (AP)—Mrs. Claude D. Van Winkle of Austin, president of the Texas Women's Christian Temperance Union, and other officials of the organization were here today to greet arriving delegates to the annual convention of the union.

Indications that political issues would be raised in the convention, especially the wet and dry controversy, were seen in the fact that Alvin Moody of Houston, head of the anti-Smith Democrats in Texas was to be principal speaker at the annual banquet tonight.

Business affairs were on programs of sessions of the union today at the First Methodist church. Speeches will be delivered at the banquet. Mrs. Florence T. Griswold of San Antonio whose personal attacks on Gov. Alfred E. Smith have attracted attention, is on the list.

Mrs. Allen Newton, head of the local W. C. T. U., deplored the bringing of political and denominational questions into the convention. She said she considered the W. C. T. U. a Christian temperance organization and not a political or denominational body.

Matrimonial Death 'Ring' Is Alleged

SPOKANE, Wash., Oct. 1 (AP)—John Alken, attorney for Archibald Much, accused of luring Mrs. Katherine Clark here from Boston by love letters and then killing her, today declared that his client was the "bribing of a wholesale matrimonial murder ring."

Alken said that in court he would admit that Much wrote the murder letters but that his client was the "victim of a master mind." The attorney declared that the Clark murder was committed in Idaho and "if Much faces trial for her death it will be in an Idaho court."

Idaho does not have capital punishment, whereas Washington does.

ELECTION PROCLAMATION

TO ALL TO WHOM THESE PRESENTS SHALL COME: KNOW YE, that I, Chas. Nordyke, County Judge of Lubbock County, Texas, do by virtue of the authority vested in me by the Constitution and laws of this state, hereby order and direct that an election be held in the several voting precincts of Lubbock County, Texas, on Tuesday the 6th day of November, A. D. 1928, for the election of one District Clerk, one County Judge, one County Attorney, one County Clerk, one Sheriff, one Tax Assessor, one Tax Collector, one County Treasurer, one County Superintendent of Public Instruction, one County Surveyor, four County Commissioners, one each for Commissioners' Precincts No. 1, No. 2, No. 3 and No. 4, Nine Justices of Peace, Precincts No. 1, Place No. 2, Precincts No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, Eight Constables for Justice of Peace Precincts No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, Eight Public Weighers for Justice of Peace Precincts No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8. Said election will be held at the polling places at the several election precincts of Lubbock county and will be conducted by the officers holding same in strict accordance with this Proclamation, and also for the adoption or rejection of the proposed Amendment to the State Constitution to be submitted at said election to the qualified voters of the State for their adoption or rejection in accordance with the joint resolution of the 40th Legislature as follows to-wit:

For or against the Constitutional Amendment authorizing aid to Confederate soldiers or sailors and their widows in indigent circumstances and authorizing aid therefor.

For or against the Amendment to the Constitution authorizing State of Texas exempting from taxation property owned by churches or strictly religious societies for the exclusive use as dwellings for the ministry.

For or against the Amendment to Article 7, adding Section 16, providing that school officers, including Board of Instruction of Higher Education, shall serve for a term not exceeding six years; and the Amendment to Section 5, of Article seven of the Constitution providing for the appointment of a State Board of Education.

NOW, THEREFORE, Chas. Nordyke, County Judge of Lubbock County, Texas, do hereby issue this my Proclamation, ordering that said election be held at the polling places of the several Election Precincts of Lubbock County, and hereby further order and direct that said election be conducted by the officers holding the same in accordance with the law and that the returns of said election be made in strict conformity with the laws of this State and of the United States and in accordance with this Proclamation.

IN TESTIMONY WHEREOF, I hereunto sign my name and attach the seal of the County of Lubbock, Texas, this 27th day of September, A. D. 1928.

Traffic Session Called By Wells

A meeting of the traffic committee of the West Texas Chamber of Commerce has been called by Sepencer Wells of Lubbock, chairman of the committee. The meeting is to be held at the Wright hotel in three weeks at 12 a. m., October 8.

Mr. Wells urges every member of the committee to be present at this meeting which is in a place centrally located in the Texas common port territory effected. The purpose of the meeting is to plan an agreement on the principle of the differential now applicable to this territory. He contends that about fifty million dollars per year is involved.

Mr. Wells asks the members of the committee to invite jobbers and shippers in their communities to attend the meeting with them.

SMITH LEAVES WEST BEHIND, WELL PLEASED

NOMINEE WILL ATTEND NEW YORK PARTY CONVENTION

By D. HAROLD OLIVER (Associated Press Staff Writer)

GOVERNOR CUMMIS' TRAIN EN ROUTE TO ROCHESTER, N. Y., Oct. 1 (AP)—Feeling fit, but anxious for a rest after his first two weeks of campaigning, Gov. Smith approached home soil today confident his efforts in the west have had a beneficial effect.

Six formal addresses in as many states, six thousand miles of traveling, the rallies, approximately fifty personal appearances on the rear platform of his special train to greet thousands of well-wishers, and a round of receptions and political conferences was a master of history for the Democratic presidential nominee as he neared Rochester for the New York State Democratic convention.

Plans to also Rest.

This was the only engagement standing between the governor and four or five days of light activity around the executive mansion and capitol offices in Albany, which he plans to reach tomorrow night. No announcements regarding the itinerary for his second stump tour is expected to be made until after he reaches the state capitol.

A series of conferences with state party leaders has been planned for the nominee soon after his arrival in Rochester. He will address the convention there tonight on the political situation in the state.

Summarizing what he believed had been accomplished by his first two weeks' campaigning tour, Gov. Smith had this to say to newspapermen: "I think I have brought home to the people all the issues I spoke about. I think I gave them some pretty good plain talks on the things there were brought up in the course of the two weeks' travel, and I am satisfied that it was very effective."

Says Speeches Justified.

Asked if he thought the type of campaigning he followed had justified itself, he said: "I think the people of this country are fed up on set speeches with meaningless phrases in them. There is no doubt about that. I think it is an innovation to talk right out in plain language and give them, as I put it in St. Paul, the 'low down' on the things they never get in set speeches."

Speeding eastward from Milwaukee, Gov. Smith was the object of noisy greetings from crowds along the same route the traveled two weeks ago while going westward. At Chicago hundreds of well-wishers appeared in the train yards just before sundown to shake his hand and shout the name of "Al." Another crowd turned up at Elkhart, Ind., and a Toledo, O., group gave him a bedtime cheer around midnight.

Conspirators in Albania Executed

BELOGRADE, Jugoslavia, Oct. 1 (AP)—The newspaper Politika said today that it had been learned from Durazzo, Albania, that eleven conspirators against King Zogu summarily hanged in the market place at Durazzo yesterday. This was done on the new king's order within 24 hours of the discovery of a plot.

Two hundred citizens suspected of being implicated were imprisoned. Martial law was proclaimed.

Pro Party Leader In Tour Of Texas

DALLAS, Oct. 1 (AP)—H. F. Faria, of Clinton, Mo., treasurer of the prohibition party was scheduled to make seven addresses for Herbert Hoover in Texas today, after declaring in Dallas last night "election of Smith means going back on prohibition; his party was joining Hoover's supporters in the states where the race was considered close, rather than devoting its attention to its own ticket."

He is to make addresses today at Garland, Rowlett, Rockwall, Fate, Rousey City, Caddo Mills and Greenville.

Borden Test Well Of Much Interest

BIG SPRING, Oct. 1.—The test well of the Condor Oil company will prove an interesting test to the major oil companies owning big tracts of land in Borden, Dawson and Howard counties. The Condor Oil company have 10,000 acres in southwestern Borden county. The location for their first test is 1650 feet from the north and east lines of section 5, block 32, 3 north, Borden county, a part of the old C. C. Slaughter ranch. This location is six miles southeast of where the Magnolia is drilling in southeast Dawson county, on section 1, block 34, 4 north, below the 475 foot level.

JAPAN VOTES TRIAL BY JURY

SEE ADDED CONFIDENCE IN COURTS THROUGH PARTICIPATION

(By Associated Press)

TOKYO, Oct. 1 (AP)—Today witnessed the incorporation of that essentially Anglo-American institution, trial by jury, in the legal system of the Japanese empire. Heretofore Japan has drawn almost entirely on China and continental Europe for its juristic patterns.

The purpose of the innovation was explained to be the democratization of the criminal procedure and the increase of popular confidence in the courts by opening the way for greater public participation in criminal trials.

The new jury is limited in scope, and the inauguration of the new system followed a long period of study. The jury system law was passed by the Diet nearly six years ago and promulgated in April, 1922.

The principal criminal courts of the country have undergone considerable physical remodeling to make room for the seating of jurors and provide dormitories for jurors held from public contact during a long trial. These accommodations embody the latest improvements and comforts.

Only in Criminal Cases Trial by jury will be used only in criminal cases, and is limited to cases punishable by death or by imprisonment exceeding three years.

It will be granted only on application of the accused. These crimes cannot be tried before a jury.

Crimes against the emperor or Imperial House; crimes committed by members of the Imperial family; crimes connected with civil war or against a foreign country which are prejudicial to international relations; infractions of the military or naval criminal law; infractions of the law for protection of military secrets; crimes against the election law.

For the present, at least, there will be no women jurors in Japan. Jurors must be males at least 30 years old who are direct-taxpayers, have lived at least two years in the town or city in which the court sits and can read and write. Bankrupts and once-convicted felons cannot serve, while officials of various categories, priests, teachers, physicians and students may be excused from service. Persons over 60 years old also may be excused.

Have You Constant Backache?

A Persistent Backache Often Warns of Sluggish Kidneys.

EVERY day find you tired and achy? Suffering nagging, backache, lousy headaches and dizzy spells? Are kidney operations too frequent, scary or burning?

This often indicates sluggish kidneys and shouldn't be neglected. Use Doan's Pills. Doan's, a stimulant diuretic, increases the activity of the kidneys and thus aids them in carrying off waste impurities. Endorsed by tens everywhere.

50,000 Users Endorse Doan's! Mrs. L. De Anda, 2824 Darwin Ave., Los Angeles, Cal., says: "My kidneys didn't act right and my back was really lame and weak. I took Doan's and after a few days I felt better and my back was all right. One box of Doan's Pills did me and I haven't been bothered since."

500 Bales Pass In Fumigation Plant

BIG SPRING, Oct. 1.—More than 500 bales of cotton have been received at the El Paso Compress and Fumigation plant in Big Spring, which indicates an early market.

The fumigation plant which has just been installed and completed is not yet running to capacity although one of the two large gas tubes is now in use following a preliminary test made less than a week ago by inspectors of the United States Department of Agriculture under the supervision of G. C. Bond.

It is expected that the fumigation plant will be running to capacity early next week.

### AMERICAN KING OF SWAT DOUBTFUL

GOSLIN AND MANUSH STAGE NECK AND NECK RACE FOR BATTING HONORS IN LOOP

NEW YORK, Oct. 1.—Although Rogers Hornsby clinched the National League batting title early last week beyond any possibility of doubt, the American League battle between Goose Goslin of Washington and Henie Manush of St. Louis

remained unsettled until the last ball was pitched yesterday. Final settlement, in fact, will be definitely made only when the official statistics are published next winter. Semi-official statistics of the American League statistician show Goslin in the lead over Manush to-

day by the thin margin of one point. Paul Waner of Pittsburgh, second to Hornsby in the 1928 National League scramble with 370, won the 1927 championship with an average of .378. Larry Benton of New York retained pitching honors in the National title this time with 25 victories and only 9 defeats for 73.8. Last year he won 17 and lost 7 for .708. Waite Hoyt made it an all-New York proposition last year by taking the American League title with 22 and 7 for .719, but Alvin Crowder, the St. Louis star, gathered the honors for 1928 by winning 21 and losing only 5 for .808. Hoyt's won and lost figures were identical with those he established last year.

### AIR LINES

(Continued From Page 1) local office and will be forwarded on the first plane to Laredo. Despite the order setting October 1 as the date for the opening of the new air line, a plane flown by Jerry Marshall and carrying mail pouches with approximately 3500 pieces of mail from Dallas, Fort Worth, Waco and Austin, took off from Winburn Field for Laredo Sunday morning.

### Service Starts From New Jersey

SOUTH PLAINFIELD, N. J., Oct. 1.—Air mail service to Canada and Mexico was started from Hadley airport today. At 7 a. m. two planes left for St. Hubert's airport, Montreal. Planes to Mexico are scheduled to leave here at 12:15 for Chicago. From there, the planes will fly to Laredo, Texas, and transfer the mail to Mexican planes which will continue to Mexico City.

### Mexico Plane Delayed By Fog

MEXICO CITY, Oct. 1.—After a delay of more than four hours because of fog the first airplane to take off from Mexico City on the new Mexico-United States air mail service hopped off shortly after 10 o'clock this morning. Capt. Luis Boyer, Mexican pilot,

## ROBINSON TO ASSAIL FOES

### BORAH, JARDINE AND CURTIS TO RECEIVE VERBAL ATTACKS

(By Associated Press) WICHITA, Kan., Oct. 1.—Senator Robinson, democratic vice presidential nominee, has indicated that during the coming week he will turn attention to a number of republican speakers who have been taking dust at the democratic ticket for the time. It is expected his rival for the vice presidency, Senator Charles Curtis, Senator William E. Borah and Secretary Jardine will be among those coming within range of his verbal fire. In Oklahoma, where Robinson next goes, it is believed he also will open on former Senator Robert L. Owen, one time member of the democratic national committee, but now opposed to the Smith-Robinson ticket. While Mr. Robinson tonight is speaking in the home state of Senator Curtis, he has not disclosed whether he will refer to his rival specifically or confine his address to an attack on the republican farm record.

## NINETEEN DIE

(Continued From Page 1) crossing at Wayne-Castle, Pa. Clark and his five-year-old son were injured. Mrs. Wade C. Sprowls, 23, and John Folan, 23, were killed when a car driven by the woman's husband was struck by the Pittsburgh Express of the Baltimore and Ohio railroad at a grade crossing near Washington, Pa. The Sprowls' one-year-old son was critically injured. George Ramsey, his bride of a few days and Mrs. E. W. Harrison, his mother-in-law, all of Winnipeg, Man., were killed when the coupe in which they were riding was struck by the Toronto Express of the Canadian Pacific line at Grenfell, Sask.

## NEW OFFICERS

(Continued from page 1) is replacing Charlie Kyle who has withdrawn from the force to enter Texas Tech. The new men are Everett F. George, Scott, Alfred Parrack, and Glen Smith. Ten men are now stationed at the central station and three at the 19th Street station. With the addition of these new men the local department will meet the requirements of the state requirement of one fireman for each one thousand population. The city asked for fifteen, two more than the present number. Considerable fire hose has been ordered by the department and the city commission last week authorized the purchase of \$2,500 in fire hose and other equipment, which will make the local station one of the best equipped in this section.

## Another Rest Day Is Afforded Curtis

TOPEKA, Kan., Oct. 1.—Another day of rest was afforded Senator Charles Curtis, republican vice-presidential nominee, at his home here today preparatory to departure tonight for Chicago, where he will confer this week on future campaign plans. Aside from having to shake hands with old friends here with his left hand because of the injury to the right, the senator seemed little the worse today for his strenuous campaign in the west, which was completed Saturday night at Enid, Okla.

## Police Clamp Down On Mafia Terrorism

CHICAGO, Oct. 1.—Mafia fingers that have reached into the homes of many Chicago Sicilians, seeking tribute by kidnaping and terrorism, were caught today in a police vise steadily tightening to crush them. Police held the man they say operated the "Kidnap Farm" at Bourbonnais, Ill., on which little Billy Barker was held 43 days while his captors sought ransom, and they also seized a man who was used to extort \$85,000 ransom from the boy's father. They said they had statements from this man—Andrew Cappellano—and from others which not only detailed Cappellano's part in the affair but named others, including the actual kidnapers of the boy.

## Jury Selected In Trial Of Dairyman

BRECKENRIDGE, Oct. 1.—A jury was being selected here today for the trial of H. C. Bagwell, dairyman, charged with having slain Otha Lane, service car driver, on July 28, last. Bagwell, the indictment against him charges, killed the taxi driver when Lane and a companion, whose name has not been divulged, refused to leave Bagwell's home. Bagwell would not attempt to reach St. Antonio tonight, but would stop at Laredo. Captain Boyer was accompanied by Edwards Hay, under secretary of communications, and Clyde W. Spracher of the Stinson aircraft corporation, as an emergency pilot.

## FAIR OPENS

(Continued From Page 1) plenty of rabbits here for the racing the balance of the week. Fine Herds Here The finest beef and dairy herds in all West Texas were in their places in the new \$10,000, all-steel livestock building early today. The famous herds of C. M. Largent, Merkle; D. E. Hughes, Mertson; O. F. Collett, San Angelo, John Gist, Midland, Latham ranches, Dalhart; Taft ranches, Taft, and Texas Tech Lubbock, were vying with other fine stock for the wealth of prizes offered in that department and made up the strongest cattle division in the history of West Texas expositions. Fine hog, horse, mule and poultry were also on display to the delight of the hundreds of early visitors who openly marveled at what the saw.

In the Agricultural building, where thirty-two counties and communities flanked their farm products, exhibits were not entirely placed this afternoon. Counties exhibiting include Lamb, Cochran, Crosby, Hookley, Lynn, Swisher, Terry, Bailey, Gaines, Dawson, Hale Potter, Scurry, Garza and Roosevelt, New Mexico, in addition to Lubbock. Communities represented in what is expected to be unusually close competition, were Carls, New Hope, Union, Grovesville, Caldwell, Idalou, Foster, Shallowater, Canyon, Hardy, Woodrow, McClung, Liberty, Ackerly, Elston and Pooey. Boy Scouts, Texas Tech and Boys' Farm clubs also had attractive booths. Judging in the agricultural department was begun shortly after one o'clock today.

Free Attractions Plunge Free grandstand attractions took a part of the play from the exhibits, as high class vaudeville and circus acts delighted onlookers. At 4:30 the Boy Scouts, under the direction of Warren P. Knox, South Plains Area executive, had a contest in all lines of ten pole while between 4:30 and 6:00 were to be the special displays of exhibits. Fire-works and free attractions were to augment the exhibits tonight, the former to begin in front of the grandstand at 8 o'clock.

In the Industrial building the music of the hammer and the saw blended with the never-ceasing scrape of the feet of fair fans as they passed through the building during the day. Lubbock merchants and business men in all lines are presenting varied arrays for the entertainment and education of the throngs. Scouts Are Active The Boy Scouts of which there were forty on duty every day and night, have pitched their quarters in a tent on the grounds and, as South Plains Area Commissioner Luther Williams, puts it, "are ready to dispense Scout service in whole sale quantities." All lost and found articles, including babies and parents, are to be taken to Scout headquarters until their troubles have been ended.

A. B. Davis, general manager of the exposition, and his corps of workers, expressed delight with the opening of the fair. Optimism concerning the outcome was prevalent and there seemed to be little doubt in anybody's mind that new attendance and exhibit records were certain to be set. One of the chief attractions, of course, is the carnival company, 800 strong. Bill H. Hames, veteran Fort Worth showman, and his manager, R. Frank Murdock, are playing their third straight fair contract here and had their organization functioning at noon today.

### FORMER PRIEST BEATEN BY MEN FOLLOWING POLITICAL TALK

(By Associated Press) JASPER, Okla., Oct. 1.—Four Walker county men were in liberty on bonds today and Dr. M. F. Brooks, professed former Catholic priest, was recovering from minor injuries said to have been received in an attack Saturday night following a lecture at Navro, a mining camp near here. Two of those arrested are Ed and Tom Childers, said to be relatives of Sam Childers of Jasper, only member of the Alabama delegation at the Houston convention to vote for Gov. Alfred E. Smith for the democratic presidential nomination. Dr. Brooks in addresses in Alabama recently attacked the candidacy of Gov. Smith and criticized Childers for his action at Houston. Following an investigation Sheriff Kilgore said he was told Dr. Brooks had been beaten by sticks but was not seriously hurt. John Mann and Clinton Manasco also were arrested in connection with the attack.

## Smith Talk Heads Politics On Radio

NEW YORK, Oct. 1.—Tonight's political speakers on the radio include: Democratic Governor Alfred E. Smith at the New York democratic state convention at Rochester, at 10 p. m., Eastern Standard time, over WJZ and six eastern stations of the National Broadcasting Company. Governor Ritchie of Maryland at 8:30 p. m., Eastern Standard time, over WOR and 21 stations of the Columbia Broadcasting Chain.

## Rich Farmer Slain At Ex-Wife's Home

OKLAHOMA CITY, Oct. 1.—The death of George W. Kramer, a wealthy farmer and elevator operator, shot Saturday night at the home of his estranged wife at Spencer, near here, was caused by a bullet fired into the back of his neck. Dr. Charles E. Barker, county physician, said today.

Mrs. Lela Kramer, 46, widow, was held in the county jail here today in order of George H. Giddings, Jr., justice of the peace, who acted as coroner.

## Grid Star May Die From Broken Neck

PHILADELPHIA, Oct. 1.—Leo Goodrum, 19-year-old sophomore quarterback of the Villanova football eleven, today hovered between life and death in a hospital where he has been confined since Friday afternoon with a broken neck. Physicians say he cannot recover. Goodrum, whose home is in Haverhill, Mass., had been developed into a star quarterback under the tutelage of Coach Harry Stuhldreher, one of Notre Dame's famed horsemen.

## Believe Suicide Prisoner Wealthy

OKLAHOMA CITY, Oct. 1.—Police today were investigating a report that William Lavine, about 30, who hanged himself last night in the city jail, where he was being held as a burglary suspect, was the son of a wealthy cattle buyer, who recently moved from Fort Worth, to Kansas City. The man, who was arrested for an alleged attempt to break into a doctor's office, was found strangled by his own belt in his cell.

## Bankers Gather For Annual Meet

PHILADELPHIA, Oct. 1.—Several thousand bankers from all over the United States were here today for the opening of the 64th annual convention of the American Bankers association. Nearly 100 women bankers, representing practically every state in the union, were also here for the sixth annual session of the association of Bank Women. Visiting bankers were almost unanimous in expressing the view that the general business outlook in the country was good. "I think the nation is economically sound," said Thomas R. Preston, president of the Hamilton National bank of Chattanooga, Tenn., and president of the American Bankers association. "Agricultural prospects are good; industry and employment except in one or two lines, are active and commerce is vigorous."

## Illegal Operation Brings Prison Term

BROWNSVILLE, Oct. 1.—Dr. George S. Stiel, physician, today was found guilty of negligent homicide and sentenced to two years in prison for an illegal operation on Mrs. Stella Jones, who died Dec. 19, 1927. A second similar charge of murder and negligent homicide against the doctor is scheduled for trial Oct. 7.

## KILLED IN ACCIDENT

HOUSTON, Oct. 1.—J. H. Hull, 55, of Houston, was fatally injured yesterday when his automobile overturned in a ditch on the Houston-Galveston road beyond South Houston. The accident was caused by Hull placing his foot on the gas lever instead of the brake.

BILL HAMES SHOWS, BETTER THAN EVER, BACK AT FAIR HERE FOR THIRD YEAR

"Come ova! Come ova! See Hattie, Hattie, Hattie—she's the strangest gal alive!" It's carnival time in Lubbock and the Bill H. Hames show, a feature of the Fifteenth Annual Panhandle-South Plains Fair, are here, 300 persons strong, and "bigger and better than ever." to use the descriptive phrase of E. Frank Murdock, veteran showman and manager of the organization. Filling its third consecutive fair contract in Lubbock, the Hames carnival is following the plan set by its owner, Bill H. Hames, of Fort Worth, which is to make it a "West Texas institution." The show arrived here Sunday from Sweetwater, where it played last week at the Midwest Fair and Exposition, and today was going at full swing, an integral unit of the annual fair here.

Nine Shows, Seven Rides. There are nine shows and seven riding devices on the Hames midway this year, an addition of two new shows and two rides over last year's offerings. Chief among the rides are the miniature steam railroad and the Merry Thriller, while featuring the shows are "Princess Nina, smallest woman in the world," "The Original Huckleberry Finn," and the Dog and Monkey show which Mr. Hames says presents the finest assortment of educated dogs and monkeys on the stage today. There is a merry-go-round, a ferris wheel, a junior ferris wheel, a "Carnival of the Airs," a whip around the ride, in addition to the Merry Thriller, which the showmen guarantee will give even the most blasé pleasure seeker a "big kick." The miniature train, for grown-ups as well as kiddies, has an engine, which is an exact replica of the oil burners of the Texas and Pacific railroad, and a number of passenger cars. It runs on a circular track according to Manager Murdock is the most popular ride he has ever seen on a carnival midway.

Among the shows are "Famous Jim," a mummified corpse of a once notorious outlaw; a "tan-in-one," composed of freaks and vaudeville acts gathered from all over the globe; a fun house, an athletic stadium, whose star wrestler meets all comers; a wax show, featuring genuine Egyptian mummies; Jastand Minstrel, and a "one-eyed circus." In addition are the many concessions which are attached to every carnival. "Is Clean Show Throughout," Says Manager. According to Mr. Murdock, Mr. Hames has personally seen to it that all of the shows on the midway are of a high moral character. "We have no 'hooray' shows," he pointed out, "and there can be nothing offensive on our lot." Mr. Hames intends to continue his campaign to make his carnival a West Texas institution and being a West Texan himself, knows that the cleaner
