"Heart of the Gulf Southwest"

THE RURAL DEVELOPMENT ACT — SOME PROGRESS HAS BEEN MADE. As reported in my 1823rd newsletter. the Department of Agriculture has already implemented many of the minor provisions of the Rural Development Act, but the really substantial programs provided for in this landmark legislation have not yet been put into effect. Latest word is that the important business and industrial loan programs should be in operation by April 1, and it is hoped that planning and community development grant programs can be underway before next summer. These strong new programs are needed in Rural America, and I will continue to urge prompt action by the Administration to make them available for our small towns and rural areas.

MORE DOCTORS. The shortage of physicians and health professionals in this country is a real problem, particularly in rural areas. This situation is strange and illogical when we consider the great number of qualified students who are unable to study medicine because there are no openings in existing medical schools. The 92nd Congress was responsive to this problem, and in addition to authorizing a new military medical school(discussed in my 1822nd newsletter). also authorized eight new medical schools to be associated with Veterans Administration Hospitals. These tremendous hospital facilities will give medical students top-notch training, and the work done by the students around the hospital will benefit the veterans. Money for this new program will probably be made available early next year, so that one or more new medical schools can be open to students by the Fall of 1975.

THE BEST PLACE TO LIVE IS IN THE SOUTHERN U. S. Our Southland has the lowest cost of living and the lowest crime rate, both good supporting reasons for this belief. In addition, only parts of the western U. S. are rated ahead of the South in economic and population growth and in mildness of climate. Believe it or not, except for some north central states, the South generally has the lowest state income taxes — of course. Texas has none at all. Some parts of the South may need improved school and health facilities. but here again Texas is in advance of her sister states and is certainly superior by any standards.

KINGS OF THE FOREST. The most up-to-date Registry of Champion Big Trees in Texas, compiled by the Texas Forest Service. now lists the champions in 125 different species, 42 of which are the largest of their kind on record in the U. S. Twenty-three of these majectic gians are located in our First Congressional District, and two of them, an Allegheny Chinkapin in Morris County and a Silktree in Upshur County, are also the National Champions.

THE COMPLETE REGISTRY of all 125 State champions. describing their measurements and location, will be sent free to constituents upon request to my office. Champions are always subject to being replaced. and this list serves as a guide to the selection of trees to be nominated. If a tree species you wish to nominate is not listed or if its measurements exceed those of the present champ, it is very possible that your nominee could become the new champion.

SUMMER JOBS IN FEDERAL AGENCIES FOR 1973 offer excellent experience as well as funds that will help out at home. Hard fact is that there may be as many as 200,000 young people looking for these jobs next June — and less than one in ten will be employed. To get such a job. candidates must take a Civil Service test, for which the next filing date for applicants is December 29, 1972. All the details and necessary blank forms will be sent free to any young person or his parents upon request to my office.

Mr. and Mrs. Thomas Jones of Greneville spent Thanksgiving with his parents, Mr. and Mrs. Floyd Jones.

Thanksgiving holiday guests in the home of Mr. and Mrs. O. O. Hanks and Sammy were their daughter and husband, Mr. and Mrs. Donald Newman and girls of Ft. Worth. their son and wife, Mr. and Mrs. Orren Hanks of Mt. Pleasant and Mrs. Hanks' mother, Mrs. J. L. Perry of Talco.

STATE Capital NEWS

By BILL BOYKIN

Asutin. — December 31 is the deadline orf owners of advertising signs along amjor interstate. U. S. and state-numbered highways to apply for permits under the new Texas Highway Beautification Act.

The act is designed to control all outdoor advertising from big billboards to fence signs along the right-of-way line.

It requires that no sign can be erected within 660 ft. of an interstate or federal-aid primary highway without a special $25 outdoor advertising license. An additional $5 permit is also required for each sign.

On-premise signs — those advertising activities on the land or offering the property for sale — are exempt.

The law, passed and made effective last June 29 to avoid loss federal road-building aid, will be implemented in stages.

License applications, first stage in the process. must be accompanied by a $2,500 bond for each county in which signs are located up to a $10.000 maximum for owners with signs in more than three counties.

Permits will be issued for signs in place prior to June 29 whether they conform to the law or not, and thee will be allowed to stay in place until programmed for acquisition or removal. New signs must conform to the law before permits are issued.

The Highway Department also has begun removal of abandoned and illegal signs on controlled highways.

Those planning to erect new signs on controlled highways are advised to check with Highway Department district offices to determine if the location conforms to the law. | Property owners have also been advised to contact the department's district offices concerning signs located on their land without permission.

LEGISLATORS BRIEFED — State legislators received briefings last week on three major issues to confront them in January.

A pre-session legislative conference at the Lyndon B. Johnson School of Public Affairs of the University System here provided details on:

— Need for judicial reorganization. The court system was termed a hodgepodge of independent operations with "nobody minding the whole store."

— Federal revenue sharing and its impact on state and local finance. Legislators were advised Congress and taxpayers will be looking over their shoulders to see that new federal windfalls are wisely spent.

— Property taxation and school finance. Major overhauls in the system of financing public education and in property tar administration are needed, tax authorities said.

AG OPINIONS — A recent opinion by Atty. Gen. Crawford Martin warned that closed meetings of governmental agencies with attorneys and staffs can be held only for limited purposes.

Martin's opinion, requested by Beaumont Criminal District Attorney Tom Hanna, said agencies can meet privately with attorneys only to discuss pending or contemplated litigation. It concluded the agencies can meet with staff members only to discuss matters of internal administration. Martin delivered a detailed interpretation of the state open meetings law in response to Hanna, who inquired whether county commissioners can meet in private to discuss legal matters with their attorney.

COURTS SPEAK — Court of Criminal Appeals affirmed a 1,000-year sentence assessed a Dallas black for raping a white girl. overuling a defense complaint that no blacks were on the trial jury.

The State Supreme Court affirmed a Plainview jury and Amarillo Court of Civil Appeals finding that an insurance company owed damages for accepting health insurance premium from an old couple without intending to pay claims.

A Tyler man lost an appeal to the Supreme Court in a suit for $25.000 in insurance on his wife who died of gunshot wounds nine days after she applied for coverage.

The Supreme Court agreed Baytown Savings Association was entitled to a charter to do business.

CANDIDATES SPEND MILLIONS — U. S. Sen. John Tower and Governor-elect Dolph Briscoe spent a record $5 million in their campaigns.

Tower, best financed congressional candidate in the country, reported expenditures of $2.6 million.

Briscoe reported he spent $2.4 million.

Tower's Democratic opponent Barefoot Sanders, said he spent $625.674. Briscoe's Republican opponent, State Sen. Henry Grover. reported outlays of $1.2 million.

Tower listed contributions of $2,597,466 and debts of $19,371. Briscoe itemized contributions of $1,939.896, indicating he picked up a $500,000 deficit.

NEW WELFARE PROGRAMS ORDERED — The State Board of Public Welfare ordered staff members to begin developing programs to comply with requirements of Social Security amendments.

Amendments require the federal government to assume financial responsibility for aid to all adult cotegories of welfare recipients on Jan. 1, 1974. The three adult categories now eligible for state welfare assistance are needy blind, needy aged and permanently and totally disabled. The state must establish a program for continuouh review of welfare recipients hospitalized or in nursing home or mental institutions. The Board also directed that persons moving into the state must live in Texas 90 days before they are eligible for assistance.

A Board legislative proposal would allow garnishment of wages in child support cases.

Postmaster Urges Shop, Mail Early

We would like to emphasize the importance of using the zip code on all your holiday mailings —in the address and in your own return address. By using the zip code, you will help those who process your mail.

If you have packages to mail for the military we suggest you get those in the mail now for delivery by Christmas. For Mexico and Canada the deadline is Dec. 2 Your Christmas gifts to distant states should be mailed not later than Dec. 10; to local and nearby areas by Dec. 15. For parcels by Air Mail, the suggested deadline is Dec. 20, and that includes Alaska and Hawaii as well as mainland U. S.

Please mail your holiday cards by Dec. 15. Do not forget the place your return address on your cards, as this provides for return of undeliverable cards to you.

The use of inadequate packaging materials can cost you more trouble and money than if you use strong materials, and package carefully. We suggest packaging tightly, and wrapping well. Packages that are not well filled and cushioned are more likely to be crushed or damaged.

We will appreciate your mailing early in the day so that we can handle more of your Christmas mailings, and insure quicker delivery to meet deadlines for delivery before Christmas.

Want Ads Will Find A Buyer

This Newspaper's large number of readers make a Want Ad the most economical means of finding a buyer for your unneeded possessions: Livestock, field seed, farm implements, household goods, pet animals, poultry, real estate, musical instruments, jewelry, automobiles and bicycles, or to find a renter if you have a house, apartment or farm to rent. You'll find a Want Ad also effective in locating strayed livestock, and in finding something you want to buy.
