IN THE HEART OF MITCHELL COUNTY'S IRRIGATED FARM LAND

The Mirror Through Which The Public Views The Community As It Is Week By Week

## On The BEAM

By J. W. King, Sr.

This week is National Newspaper Week and it gives us an opportunity to again emphasize the importance of the newspaper—the home town newspaper—to all the citizens of this community.

The home town newspaper is the only paper that cares whether Loraine prospers and grows or just wastes away. It is the only paper that boosts the activities of the community because of the pride it has of being a part of the community.

The home town newspaper is a vital part of the community it serves. And it does serve the community in many ways—the church, the school, and business. Its columns are always open to the public for publicity that is vital to them.

Such service is not available in other newspapers because they do not reach as many of the home people as does the home paper and they lack the "home touch."

Evidence of the service rendered by the community is found in the columns of the home paper every week of the year, year in and year out. The home paper many times goes beyond the mere publishing of a news item regarding a community, church or school activity. It helps to boost through its editorial and advertising columns—a service that is free but worth much.

If you would like to know how a newspaper is made we invite you to come to our plant and let us show you. Your home newspaper is a business that has hundreds of dollars worth of equipment, it pays taxes to the city, the school, the county, the state and the federal government. It gives full time employment to two or more people besides the owner. It is, we hope, an asset to the community that the community will want to keep for a long time.

Don't forget that Friday and Saturday of this week the Community Fair and the School Homecoming will be held. Visit both and have a good and profitable time.

## Field Day of Special Interest To Farmers

The annual Field Day of the Texas Agricultural Experiment Station at Lubbock on Tuesday, October 8, should be of special interest to farmers of the Loraine area where irrigation is practiced.

Elmer Martin of the Soil Conservation Service and chairman of the agriculture committee of the Colorado City Chamber of Commerce, said Tuesday.

Martin extended a cordial invitation to farmers and ranchers of the Loraine area to make the trip by chartered bus, the cost of which will be \$5 for round trip and will include the noon meal of barbecue at the station.

Loraine farmers and ranchers interested in making the trip should notify Elmer Martin by telephone RA8-4226 or in person, the chamber of commerce office RA8-2211 or the county agent's office RA8-3111 in Colorado City by Saturday of this week.

The bus will pick up passengers in Loraine between 7 and 7:30 a. m. and will return there here about 5:30 p. m.

The program will begin at 9 a. m. when tours will be made in tractor drawn trailers under the guidance of county agents to view the experimental plots and exhibits of latest developments in agricultural research.

In the afternoon, the high lights and new developments at the Lubbock Station and from outlying tests conducted at 13 locations in the Southern High Plains will be discussed by personnel of the station.

The visitors will have ample opportunity to view and discuss the influence of water management, different levels of irrigation, and fertilization on the yield and quality of cotton and sorghum hybrids, and special crops such as soybeans, sesame, and castorbeans.

Some of the latest developments that will also likely interest farmers include the "W" planter with press wheel attachment, production of native grass, control of nematodes, insects and plant diseases.

In addition, information will be available on the influence of fertilizers, cotton burrs, crop rusts, and cropping systems including legumes on the yield of cotton and grain sorghums under irrigation and also under dry land conditions. Studies of planted fall damage, dates of planting and performance of leading cottons and sorghum varieties also may be observed.

**HONORED ON BIRTHDAY**  
J. T. Hock was honored at a dinner at his home Sunday, Sept. 29, complimenting him on his 87th birthday anniversary.

Present were Mr. and Mrs. Jack Ferg of Cisco, Mrs. E. D. Hagar of Sweetwater, J. T. Hock, Jr. of Tye, Mr. and Mrs. Jack Richey of Loraine, Mr. and Mrs. Roy Lee Hock, Annette and Chuck of Snyder, Mr. and Mrs. Sidney Turner and Sidney Lynn of Lubbock and Mrs. Inez Hock of Colorado City.

## Game Schedule Set For Junior Hi Team

The seasons football schedule for the junior high team was announced this week: At Sweetwater Oct. 3; at Silver Oct. 10 at which time both the junior high and the 5th and 6th grade teams will play; Sweetwater here Oct. 17; Stanton here Oct. 22; Coahoma here Oct. 24; Roscoe there Oct. 31; Silver here Nov. 14.

Three games have already been played, the first at Coahoma which Coahoma won 21-14; the second was lost to Roscoe 14-28; and the third to Hermaligh 13-7.

Supt. Marcum stated this week that it is the aim of the school to see that the athletic department pay its own way this year. Hereafter the department has not been able to do this and has been kept up only through contributions of individuals, businesses and some tax money has been used for athletic equipment.

Mr. Marcum stated that he is anxious for the public to know that the athletic department can solve its financial problem and bear its own expenses if the public will cooperate. For instance, some seem to think the junior games should be free to all. When Loraine goes to another town to play the fans do not see the game without a ticket. In buying a ticket they help to keep up that city's athletic department. The same is true here. The gate receipts at home games help to keep up the local department and fans of the opponent help in financing our department as well as the local boosters who attend. The boys have to have suits and everyone who attends a game on the home field helps to buy suits and other needed equipment, stated Marcum.

**LAND CATCHES BIG FISH**  
J. J. Land, local fisherman, brought the big fish home instead of letting it get away last Saturday.

Mr. Land caught the 21-pound yellow cat on a trot line at the Colorado Lake and neighbors, and other townspeople stopped by the Land home all day Saturday to see the big catch which was curled inside a big wash tub.

Saturday night the Lands hosted a fish fry for neighbors and their two sons-in-law and daughters and their families.

Those present stated Mr. Land knows how to cook as well as catch fish. Two dish pans were piled high with the golden brown steaks and served with appropriate trimmings from tables on the back lawn.

Enjoying the occasion were Mr. and Mrs. Carl Stanley and sons Larry and Don of Big Spring, Mr. and Mrs. Ernest Hall and sons Lanny and Kim of Snyder, Rev. and Mrs. Allen Adams, Gay and Holly, Mr. and Mrs. Ottis Muns, Mr. and Mrs. Frank Crownover, Mrs. Lucille Mahon and Miss Annie Jarratt.

## Claxton Saves \$300 Catches Worms In Sack

C. A. (Audvee) Claxton, who farms about eight miles North of Loraine, says he saved about \$300 this year that he would have spent for poison to fight worms and other insects in his cotton.

Instead of using poison, Claxton rigged up a sack on his tractor and used a fan to agitate the cotton stalks and shake the insects off into the sack. Getting rid of the worms cost him practically nothing except the gas he used to operate his tractor.

As proof that he did a good job of getting rid of the insects, Claxton invited inspection of his cotton to compare it with cotton that has been poisoned.

He is working on a patent for his worm catching machine.

**Mrs. Briens and Bo Injured In Wreck**

He had not been released Monday when the D. F. Briens were in Loraine. They reported that Mrs. Briens would be brought to an Abilene hospital by ambulance plane as soon as her condition will permit.

They were hospitalized in a Melrose hospital.

Fred Took His Cotton To Just Any Gin

He thought just any gin was good enough. It didn't matter to him whether he owned stock in the gin or not... ginning cost the same.

Frank Was Wiser

He took his cotton to the Producers Gin Co. where he owned stock. A part of the gin was his. He felt that his own business ought to mean more to him even if ginning cost the same... he stood a chance of getting some of it back in dividends... he thought he might as well line his pockets as to help line those of far-away guys.

YOUR

NEWSPAPER

SERVES

IN THE HOME

Your hometown newspaper serves in the homes of hundreds of citizens of this community with reading material that is clean and informative... of events that have been and are to come.

The home newspaper is the center of attraction in the homes of the community and no home should be without a copy each week.

THE CHURCH

The home town newspaper serves the churches of the community, too, by giving publicity to activities in which their members and the general public is interested. The hometown newspaper is happy to serve the churches in any way it can.

All churches in this area are invited to report their activities to the home newspaper—the only paper that really can be of service in this community.

ENTERTAINMENT

The home town newspaper is entertaining as well as informative. This newspaper cannot carry as many entertaining features as it would like to because of the cost, but it does carry as many as possible under the circumstances. Every member of the family enjoys reading The News.

THE SCHOOL

The hometown newspaper serves the school in many ways... by giving publicity to all school activities... by keeping the public informed of what is going on at school... by creating interest of the public in athletics, the band, F. H. A. and P. E. A... by giving publicity to class activities, even publicizing bake sales, magazine sales and the like so they can make money for their activities.

THE COMMUNITY

The home newspaper publishes every bit of news it can get its hands on about the various things that take place or will take place in the community... Publicity that is invaluable.

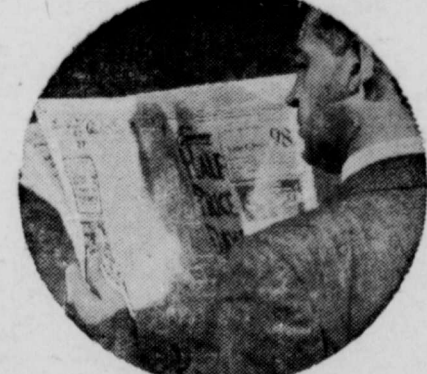

Publicity of any event that is good for the town and community always receives wholehearted support of the home newspaper. Without a newspaper the community would soon lose any incentive for progress.

SHOPPING

The home town newspaper is a shopping guide for people of the community. Advertising carried in its pages from home town merchants serves as a guide for shoppers who are looking for the best place to buy their needs and wants.

The home newspaper could serve shoppers better if ALL hometown merchants used its columns to tell about their merchandise and the prices at which it can be had. Shoppers in this community are no different from those of other communities—they want to know before starting on a shopping tour what the merchant has to offer and the price asked for it.

BUSINESS

With the home town newspaper people of the surrounding area can tell by looking over the advertising in the paper what lines of business and services are represented in the town.

Business in any town would be in a sorry plight without a home town newspaper. Business is created through advertising. The old saying that "business goes where it is invited and stays where it is well treated" was never more true than it is today.

### How Do You "Buy A Piece Of The Future?"

Ever hear that expression "Buy a piece of the future and be rich?" How is it done? The future—YOUR future—is many things and mostly they spell Opportunity. The opportunity to buy a home of your own when the price is right. The opportunity to be able to quit your job to look for a better one or to buy a business of your own. The opportunity to take a trip around the world or buy a farm.

[Opportunities . . . each of them is a "piece of the future" if you are in the position to buy it. If you are not in a position to buy, then the opportunity might just as well never have come along.]

What it adds up to is simply this: you have to have ready money in a place where you can lay your hands on it quickly and without risking your income or your family's security.

There's only one safe and sensible answer to that, if you are a man of average means . . . and that is to start a saving program right away—to start saving money regularly and systematically out of income so that you'll have it when the right opportunity does come along.
