Heaviest Toll Is In Arkansas Where 30 Die

Storms And Floods Leave Big Damage In Midwest Area

(By The Associated Press)

A series of tornadoes killed 30 persons in Arkansas last night. Other tornadoes in Oklahoma and Texas killed one person each. Violent spring storms and floods left a trail of property damage in other parts of the Southwest.

The Arkansas tornadoes killed five persons at Woodson, Pulaski county; five near Stutgart; two at Pine Bluff; one at Harrison; two near Marianna; two near Brinkley; one at Monroe; one at Duncan, and ten negroes at Duncan and Parkin.

TWO DEAD IN INDIANA

FORT WAYNE, Ind., April 11 (AP)—Rescuers pulled the bodies of two men today from the wreckage of a high wall blown onto the Fort Wayne National bank building by a high wind, and continued digging for three women bank employes reported still in the debris.

Five other women were dug from the wreckage and hurried to hospitals. Several other persons were hurt.

At least 140 persons were injured in Arkansas. Floods fed by heavy rains routed hundreds of families from their homes in the Arkansas river watershed of Oklahoma and Kansas and in Kingfisher county in western Oklahoma.

Heavy Snow In Rockies

Heavy snowfall in the Rocky mountains caused slides which marooned 32 motorists at Berthoud pass west of Denver.

The heaviest loss of life occurred in Arkansas. Tornadoes at Cordell, Okla., and Hamilton, Tex., killed one person each.

The Midwest office of the Red Cross at St. Louis reported at least 32 persons were dead, and 141 injured in the Arkansas, Oklahoma and Texas tornadoes. The storms affected 515 families, totaling 2,100 individuals; destroyed 110 houses and damaged 215 others. The Red Cross listed seven dead in Monroe county, Ark., two in Pulaski county, two at Pine Bluff and one in Boone county.

Objectors' Camp Hit

Fifteen persons were seriously injured and between 40 and 50 slightly injured at a conscientious objectors' camp near Magnolia, Ark., where 15 buildings were blown down. A tornado which injured at least twelve persons struck four miles north of Pine Bluff, tearing down telephone

PYLE VISITS INJURED PAL: Ernie Pyle, whose reports from the European fighting front are a daily feature on the editorial page of Lubbock Evening Journal, is shown, left above, visiting the bedded Bill Strand, Chicago Tribune correspondent, injured in a recent air raid in Italy. Center is Wick Fowler, of the Dallas News. Pyle narrowly escaped death in the same air raid, during which a German bomb struck headquarters of war correspondents on the Anzio beachhead. He was slightly injured, as was Fowler.

New Threat Facing Allied Indian Base

Danger To Supply Line Continues

NEW DELHI, April 11 (AP) — A second determined attempt by the Japanese to take Kohima, northeast India strong point, appeared in the making today as the Southeast Asia command announced the enemy continued to press in on that area and sharp patrol actions inflicted casualties on the Japanese on the near approaches to Imphal, main Allied base.

JAP REINFORCEMENTS

NEW DELHI, April 11 (U.P.) — Fresh Japanese troops and equipment were reported streaming into Burma from Thailand and other Southeast Asia reservoirs today in an effort to halt the Allied offensive in northern Burma and reinforce enemy invasion armies in eastern India.

Patrols along the Imphal-Tiddim road south of Imphal were in contact to a point well down the road from the edge of the plain while in the northeast it was estimated that fighting was going on eight to ten miles from Imphal itself.

The enemy proddings around Kohima, which guards the approach to the Bengal-Assam railroad at Dimapur, 35 miles away, seemed to indicate he would try to by-pass the town in case the second attack fails. Sniping was reported along the road to Dimapur.

Heavier Fighting In Burma

Heavier fighting was reported in Central Burma where Indian troops landed by glider and plane in the area of Katha and Mawlu were spreading deep behind enemy lines. This operation already has cut rail and river communications serving the Japanese who are facing the advance of American-Chinese forces of Lt. Gen. Joseph W. Stilwell from the north. Now these air-borne Chindits aim at destruction of communications behind the Japanese Indian offensive which would have a serious effect when the enemy reserves lodged along the Chindwin river are depleted.

A Japanese thrust near Palel, 25 miles southeast of Imphal, was

Assailant Said Shot In Mexico

Camacho's Attacker Is Reported Dead

(By The United Press)

MEXICO CITY, April 11 — Mexican newspapers said today it was "rumored strongly" that Lt. Antonio de la Lama Rojas, 32-year-old army officer, had died of a wound suffered as he tried to escape from custody last night after an unsuccessful attempt to assassinate President Manuel Avila Camacho.

The rumor was not confirmed by other sources, although it was printed in El Nacional, government official organ which is close to responsible quarters and in a position to know the facts. An official statement was not expected until later in the day.

MESSAGES EXPRESS SATISFACTION

MEXICO CITY, April 11 (U.P.)—Messages expressing satisfaction that President Manuel Avila Camacho had escaped injury in an assassination attempt yesterday still were being received at the national palace today from ambassadors and representatives of foreign governments.

The U. S. government at Washington sent a message of felicitation yesterday shortly after the incident.

Lama Rojas, who apparently had connections with pro-Nazi sympathizers, was shot in the back last night as he attempted to flee from Etchegaray military barracks following his incarceration on charges of high treason for his effort to assassinate the president.

Fired At Close Range

The artillery officer, a long time friend of the chief executive and a member of the palace staff, fired a 45-calibre automatic point blank at Avila Camacho in the presidential palace yesterday morning, but the bullet passed harmlessly through the president's coat just above the heart.

After being subdued, Lama Rojas was taken to Etchegaray barracks in the state of Mexico and held on charges of high treason and assault on his commander-in-chief. Facing a possible death penalty if convicted of either charge, the officer attempted to escape last night. Commander Antonio Lozano Ruiz of the 6th regiment of cavalry at Etchegaray said Lama Rojas was "gravely wounded" in the attempt.

Believed Mentally Unbalanced

The government information bureau issued a bulletin last night saying that after a preliminary investigation "it is presumed that he (Lama Rojas) is, it seems, a

(Turn to Page 2, Column 2, Please)

Lt. Peter Lehman Is Killed In England

AMERICAN MUSTANG BASE, England, April 11. (U.P.)—First Lt. Peter Lehman 27-year-old Mustang pilot and son of Herbert H. Lehman, director of the United Nations Relief and Rehabilitation administration and former governor of New York, was accidentally killed while on a practice flight here recently, it was disclosed today.

Lehman's plane crashed into a field after going into a spin and he did not have a chance to bail out.

Lehman had completed 57 missions, but ironically he had not achieved his ambition to shoot down a German plane. He had, however, been in several scrapes with enemy fighters.

COMMANDOS SAID SMASHED

LONDON, April 11 (AP) — The German high command, in its broadcast communique today, said that a British commando force which landed on the west coast of Rhodes, off Turkey, had been wiped out. There was no Allied confirmation of this claim.

All Men 26 Or Over Deferred

* * *

Deferment List For Youths Set

War Essential Jobs Announced

(By The Associated Press)

WASHINGTON, April 11. (AP)—Selective service headquarters today put out the official list of critical activities which will rate draft-deferments for registrants under 26 years of age.

The list, issued by Selective Service Director Lewis B. Hershey to state draft directors, covers a considerable catalog of work which the government agencies consider vital to winning the war.

And the listing boils down to this:

If you are a physically-fit non-farming selective service registrant under 26, and your work is not included in the official list, you can expect a quick call to the induction station. If your work is on the list and your employer considers you a key man, he can apply for your deferment from the draft, and get it.

The list did not include coal mining but it was announced that state directors in certain coal-producing areas are being given special authorization to defer individual registrants whose induction would result in "serious curtailment in (coal) production."

Pre-professional students will be deferred only if they can enter a recognized school of medicine, dentistry, veterinary medicine, osteopathy or theology before July 1.

Professional Deferments

Students in those professional schools, internes (provided the total period of interneship shall not exceed nine months) and undergraduates in certain listed engineering and scientific courses who will graduate before July 1 also will get deferments.

State directors were authorized by telegram to recommend men

Jim Thomas Indicted In Slaying Of Dr. Hunt

Convict Is Placed Under $25,000 Bail; Arraignment Expected Within Few Days

(Special To The Journal)

OLTON, April 11. — A 106th district grand jury of which C. E. Bley of Olton was foreman voted a bill of indictment Monday afternoon naming Jim Thomas, 49-year-old convict, after it had reassembled to investigate the Oct. 26 slayings of Dr. and Mrs. Roy E. Hunt of Littlefield.

Thomas, held in Lubbock county jail since a few days after the crimes, was placed under $25,000 bail and probably will be arranged in three or four days, District Attorney H. M. LaFont of Plainview announced.

The grand jury was adjourned subject to recall. It had been indicated Monday that perhaps a witness from the Houston section might give evidence when the group is reassembled.

THOMAS IS INDIFFERENT

Reaction of Jim Thomas to news of his indictment was "just what you would have expected," it was said by officials of county jail this morning.

"When he was handed his morning paper he sorta grinned and indicated his picture, holding up the paper so that two or three other fellows in his cell could see what he was reading.

"He had no statement."

Others Believed Involved

Law enforcement officials throughout this area outspokenly have said there is more than one person responsible for the Hunt slayings, and have hinted they believe at least four are involved, and they said this morning their investigation would not be slowed, "even temporarily, by news of one indictment."

Grand Jury Recesses

LaFont said the next regular term of district court was set for August but that Thomas could be tried before that time.

Grand jurors today heard four witnesses, a trucker and two women from Amarillo and an Olton resident.

The present grand jury, which was assembled Feb. 7, then adjourned for several days, met again about a week later and began to investigate the Hunt case. They were dismissed after several days and were called back into session this morning.

Savage Slaying

Jim Thomas—alias James Clyde Thomas, alias Jim C. Thomas—thus is accused in connection with one of the most savage slayings Texas officers ever worked on. Dr. Hunt, nearing 37, and his wife, 26, were bound side-by-side to their bed. Heavy cord, ropes and metal coat hangers were twisted and knotted about their necks, arms and legs. The slayer evi-

New Draft Plan Goes In Effect

New Orders Go To Local Boards

Induction of men 28 years and older into the armed services was ordered ceased this morning by the two selective service boards in Lubbock county, in terms of a state selective service office telegram sent to all boards of the state.

Board No. 1, of which Mrs. Viola L. Younger is chief clerk, said notices were going out in the mails advising persons of that category to return orders assigning them to report for induction or for physical examinations, and Miss Annie L. Jackson, chief clerk of board No. 2, said that board had ordered cessation of induction of men 26 or older. No orders for pre-induction physicals had been issued lately by that board.

(By The Associated Press)

AUSTIN, April 11—State Selective Service Director Gen. J. Watt Page in a statement today said that all local boards in Texas have been informed by telegraphic directive that induction of all registrants who were 26 years old or older as of April 10, regardless of occupation, has been postponed "at least for the present."

In a statement issued Sunday, Gen. Page had said that the general effect of Saturday's national selective service directive would be postponement for older men until all available men under 26 were inducted. He expected that this would take six to seven weeks.

The telegram to draft and appeal boards made no basic change in the latest induction orders, but was designed to clarify the situation in regard to certain special cases, such as delinquents, or students.

Special Form For Students

Students can be considered for deferment only on the special form, 42-A, on which the state director himself makes recommendation, local boards were told. Also effective as of Monday, "shortages in previous calls will not be made up."

The text of the telegram:

'Effective this date (April 10) you are directed to postpone the induction of every registrant twenty-six years of age and older. If you know a registrant to be an evader, a delinquent, or a morale case, cover sheet with a statement from your board should be sent to the state director for determination.

To Induct Young Men

"Every effort will be made to induct men under 26 years of age who are physically fit unless their cases are covered by forms 42-A special or 42 special, or unless the

Reds Storming Into Crimea

Odessa Survivors Head For Romania

BY HENRY C. CASSIDY
Associated Press Staff Writer

MOSCOW, April 11 — Russia's Fourth Ukrainian army stormed down into the Crimea from two directions today in a drive aimed at completely clearing South Russia of the Axis invaders as Gen. Rodion Y. Malinovsky's Third army smashed to within six miles of Ovidiopol, escape bottleneck through which the remnants of the Nazis' Odessa garrison were fleeing toward Rumania.

REDS TAKE CRIMEAN CITY

LONDON, April 11 (AP) — Marshal Stalin announced tonight the capture of Bakhchisi, railway junction 15 miles into the Crimea from its northeastern entry.

The Fourth army, under the command of Gen. Feodor I. Tolbukhin, was attacking in the Crimea along a 75-mile front from the Perekop isthmus at the northwestern corner of the peninsula to Sivash bay on the northeast, field dispatches said.

5,500 Nazis Slain

In two days, a Russian communique declared, Tolbukhin's forces advanced more than 12 miles through strong German defenses to kill 5,500 enemy troops and capture another 1,000. About 11 German divisions (perhaps 100,000 men) were believed isolated in the Crimea.

To the northwest another Red army simultaneously crossed the Siretul and Suceava rivers in Rumania, the war bulletin announced, and reached a point less than five miles from the rail junction of Iasi. This drive by Marshal Ivan S. Konev's Second Ukrainian army was said to have captured 180 towns and villages along a 65-mile long front and smashed to within 15 miles of the Campulung oil fields and within 160 miles of the Ploesti wells.

Deepest penetration reported on this sector was at Solca, 19 miles northeast of Suceava and 35 miles from Transylvania.

There was no mention in the Russian communique of the progress of Marshal Gregory K. Zhukov's First Ukrainian army, which reached the Czecho-Slovakian frontier Saturday.

Front dispatches said a quick reconquest of the Crimea, sealed off last Nov. 1 when Tolbukhin's army hurled the Germans back from Melitopol on the mainland, appeared likely, with the Russian sea fleet and the Red air force cooperating in the offensive.

Big U. S. Raid Follows RAF's Record Assault

Nearly 2,000 U. S. Planes Strike Two Aircraft Centers

(By The Associated Press)

LONDON, April 11 — Nearly 2,000 American bombers and fighters, following up a record 4,000-ton attack by the RAF, carried the onslaught against German air defenses through its fourth day today with assaults against plane factories at Oschersleben and Bernburg and other targets deep in Germany.

The American task force of nearly 1,000 bombers and an equal number of fighters returned to England as the RAF was disclosing details of the heaviest attack in the bomber command's history. The bulk of the offensive was borne by 900 heavy bombers attacking five French and Belgian railroad centers. Other Lancasters meanwhile dropped many 8,000-pound bombs on a "very important" depot declared to contain large stores of signal and radar equipment for use of the German air force. This depot was at St. Cyr, near Paris.

The RAF had poured down more than 3,360 tons of bombs on several previous night operations, and on March 22 smothered Frankfurt with well over that figure—but never, the Air ministry said, had the load been so heavy as last night's.

Terrific Air Battles

The German radio told of terrific air battles over the reich today. At Oschersleben the Eighth Air force lost 60 bombers Jan. 11. Both it and Bernburg had been hit Feb. 20 in the Americans' first big series of assaults on the German air force in the air and on the ground.

In the latest 60 hours of this attack more than 7,000 tons of bombs are estimated to have been dropped on at least 23 German railroad centers, aircraft factories and airfields. Headquarters announced a final tally of yesterday's U. S. air victories showed the bombers and fighters downed 15 planes while many additional enemy planes were destroyed or damaged on the ground. Three bombers and four fighters were lost in the attack upon four airfields, three repair works and an assembly plant.

Yanks Land In Sweden

Five American heavy bombers made forced landings in Sweden and six crewmen parachuted from another United States plane after it apparently had been hit by anti-aircraft fire, the Stockholm Aftonbladet reported. A German plane believed to be a fighter was shot down in flames and its crew killed near Skovde when Swedish gunners opened fire as it flew at low altitude. Since Easter a total of 15 American bombers have landed in Sweden).

The Berlin radio said battles had broken out over the Brunswick and Hannover areas as Nazi fighters intercepted large U. S.

(Turn to Page 14, Column 6, Please)

Approval Of Water Line Extension Asked

WPB approval of an extension of major importance to the city water distribution system has been asked, according to information given at the city hall this morning.

The improvement contemplates the laying of a 16-inch line from the 5,000,000-gallon reservoir in the northwestern edge of the city across the Texas Technological college campus to the southwestern residential area.

While the most immediate effect of the extension would be to increase water pressure in the southwestern part of the city, officials said the improvement also would benefit other areas. The proposed main would release for service to other areas lines now required to get water to southern and southwestern portions of the city.

Eventual plans for the proposed improvement, which will be made sooner or later, are to extend the line southward to Thirty-fourth street and then east on Thirty-fourth to complete a belt encircling a large portion of the city.

If action on the present application should be favorable and prompt, officials foresee the possibility that the improvement might be completed in time to afford relief from low pressure in many parts of the city during the peak period of the approaching summer. But this possibility, at best, is remote, officials warned.

Fire Station Site Bought

The purchase, subject to approval of the abstract, of the first of three sites for new fire department sub-stations was announced at the city hall this morning.

The site consists of five lots at the northeast corner of Third street and College avenue and was bought from Fannie Burk Sweet of Curry county, N. M., for $2,250, city officials reported. The report of City attorney Durwood H. Bradley as to the abstract is being awaited.

The property measures 127½ feet on College avenue and approximately 238 feet on Third. Officials said that not more than three lots at the corner will be required for the sub-station. In such case, the two remaining lots, situated on Third street at the alley, may be placed on the market. It was necessary to buy all five lots to get the three desired, city officials explained.

To Serve Northwest Areas

The sub-station, when erected, will serve northwest areas within the city limits, including the Texas Technological college campus. The site also was selected with the thought that the city limits will be etxended northwestward eventually.

A site within this general area was one of the three authorized for purchase by the city commission on the recommendation of a special committee of the city planning commission. Others were recommended in the area south of the central business district and in the southwestern residence district.

The new sub-stations are planned for erection "as soon as conditions will permit." City officials have no idea when that may be.

Livestock Industry Faces Tough Year

WASHINGTON, April 11 (AP) — The Agriculture department today confirmed fears of western state farm leaders that the livestock industry in their areas faces tough sledding this year.

"In Idaho, Washington, Oregon and the northern two-thirds of California," said the department in its April crop report, "the winter drouth has not been relieved and, as the season for dependable rainfall has now passed, prospects for ranges are quite uneven and locally discouraging."

Furthermore, the report observes, owing to "the record numbers of livestock and poultry on farms" at the beginning of the year, feed requirements have been unusually high and stocks of feed grains have been materially reduced.

In contrast to conditions in the Northwest, ranges of the Southwest "show sharp improvement."

From the Rocky mountains eastward, reports indicate greatly improved prospects for pastures and hay crops after widespread March rains. For the nation, despite the drouth in the Northwest, pasture condition was estimated at 81, compared with 80 last year and a 10-year average of 74.

HUGHES IS 82

WASHINGTON, April 11 (AP) — Charles Evans Hughes, retired chief justice of the United States Supreme court, is 82 today. "I am as well as can be reasonably expected at my time of life," said the venerable jurist. "I still cherish the privileges of old age. I am living quietly and trying to be as cheerful as possible in this war-torn world."

New Oil Test For County

Another oil test for Lubbock county was revealed today in the announcement that location had been staked for the Seaboard-T. P. Nairn Estate No. 1, a 5,300-foot project six miles northeast of Lubbock. The new test is one and one-half miles north of the original Nairn No. 1 well, completed for a small pumper late in 1941.

Location for the new test is 660 feet from the south and east lines of the northeast quarter, Section 46, Block A.

Seaboard Oil company and Texas Pacific Oil and Gas company are co-operating in development of the project. Rowan Drilling company of Fort Worth is drilling contractor.

Equipment is being moved in for the test.

Slav Counterattacks Break Nazi Thrusts

LONDON, April 11 (AP)—Savage counterattacks by Marshal Josip (Tito) Broz' Yugoslav partisan troops have dispersed reckless German attempts to recapture the town of Mrkonjicgrad, in the Jajce area on the main road from Sarajevo to the Italian frontier, a communique broadcast by the free Yugoslav radio announced today.

On the lower Dalmatian coast partisan troops stormed the village of Trsteno, northwest of the important port of Dubrovnik, after a battle in which the Germans left the field littered with their dead, according to the communique.

Army Guards Wound 4 In Quelling Riot

FT. JACKSON, S. C., April 11 (AP)—Four men were wounded, one seriously, when Army guards used shotguns to break up a riot among prisoners in the rehabilitation center here last week end, the post public relations office disclosed today.

The brief announcement said the rioters hurled coal, damaged property and massed against a guard tower before the guards opened fire.

Arrangements were made to return participants in the disturbance to fedgral prisons. The center was set up to rehabilitate military prisoners for return to Army units.

Mexico Awards Oil Companies Money

NEW YORK, April 11. (AP) — Mexican Petroleum Co. (California) and Huasteca Petroleum Co., subsidiaries of the Standard Oil Co. (N. J.) have been awarded a total of $16,201,688, plus interest, as compensation for properties seized by the Mexican government, it was announced today.

C. H. Lieb, president of both companies in letters to stockholders, said the award to Huasteca was $10,485,240, plus interest of $2,246,711, on which payments of $5,591,485 have been received. The Mexican Petroleum award was $5,718,428 with interest of $1,224,880 on which payment of $3,048,411 has been received.

These awards are part of the $18,391,641 plus which experts appointed by the United States and Mexican governments in 1941 determined was to be paid to the Standard Oil Co. (N. J.) group as compensation for the seizure of oil properties.

MacArthur Favorite On Illinois Ballot

CHICAGO, April 11. (U.P.)—Gen. Douglas MacArthur was the only major presidential possibility whose name appeared on the ballot today in the Illinois presidential preference primary election.

MacArthur, whose name was entered without his consent, was opposed on the Republican ticket only by Riley A. Bender, Chicago, a political unknown and former boxer. There were no contestants on the Democratic ticket.

Stassen Gets Fifteen Nebraska Delegates

OMAHA, Neb., April 11. (U.P.) — With Wendell L. Willkie out of the race for the Republican presidential nomination, Lt. Cmdr. Harold E. Stassen had an opportunity today to pick up 15 delegates to the GOP national convention in the Nebraska preferential primary.

Two full slates of delegates were entered on the Republican ticket, one pledged to vote for the former governor of Minnesota on the first ballot only, and the other pledged to favorite son Gov. Dwight Griswold.

Interest in the primary decreased with the withdrawal of Willkie last Wednesday but Stassen's supporters weren't overlooking any bets and kept campaigning for the former governor, now on duty with the Pacific fleet, right up until the last minute.

Kentucky Youth, On 13th Mission, Survives Fall Of 19,000 Feet In Dismembered Tail Of 'Fort'

BY JOSEPH MORTON
Associated Press Staff Writer

U. S. 15TH AIR FORCE HEADQUARTERS, Italy, April 11—A 27-year-old Kentucky farm youth told an amazing story today of falling 19,000 feet in the dismembered tail of a Flying Fortress which landed in a tree top—and thinking he was dead.

Air force surgeons said Sgt. James A. Raley, of Henderson, Ky., is little the worse for his experience, except for a cut on the chin. This is the story of the modest, almost shy airman, as told from a hospital bed.

"It happened on my 13th mission. I thought about that going down—about the time I was telling myself 'in another few minutes I'll be dead.'

"Long Way From Home"

"A lot of the details I can't talk about, but I can say it was a long way from home. I was still in the tail gun, looking out. The navigator had just called out the altitude—19,500 feet. He was going into a fog bank. Then it came.

"There was a hell of a jolt. The plane seemed to stop. It shook all over with a terrific tearing sound and I found myself on my face. The ammunition case and a lot of broken parts were pinning me down. I thought it was all over because there was no chance to get out.

"Looking back I saw a B-17 going down with the wings in flame. It occurred to me that we had collided with it. I couldn't see too much because I was in a closed compartment but I knew we were spinning around because patches of blue, green and brown kept flashing past.

Knew He Faced Death

"All I was able to do was blink my eyes, but I realized we were going down at a terrific rate of

KILLED BY FALL

FORT WORTH, April 11 (U.P.)—Funeral arrangements were made today for Earl E. Lackey, 31, a construction worker who was injured fatally yesterday when he lost his balance during a high wind and fell 90 feet to the ground from atop a building under construction at Consolidated Vultee Aircraft plant.

KFYO Tune In 1340 Kilocycles Avalanche-Journal Station

Tornadoes Kill 32 Persons

(Continued From Page One)

wires and virtually isolating that city. Tornadoes caused property damage near Walnut and Hutchinson, Kas., but no casualties were reported.

About 200 persons were evacuated from homes along the Caney river at Bartlesville, Okla., ahead of rising flood waters, and as many more were homeless at Kingfisher, Okla., as converging Indian and John creeks flooded portions of the city.

In Kansas the rising Cottonwood and Neosho rivers forced many families from lowlands homes and appeared likely to isolate the city of Emporia today.

Missouri River Up

The Missouri river north of Kansas City was near bankful in many places but offered no serious threat yet.

Rainfall for the day ranged as high as four and one-half inches at Parsons, Kas., and 3.70 inches at Sedalia, Mo. Wichita, Kas., has had 10.45 inches of rain this year, more than twice the normal amount.

Many communities were without power and lights in the wake of the windstorms.

Snow ranging from six to fourteen inches fell in northeastern New Mexico, marooning a bus load of passengers and several cars between Greenville and Des Moines on U. S. highway 87. Temperatures were mild, however, and no fear was felt for the stranded travellers.

LIST OF STORM VICTIMS IN ARKANSAS ANNOUNCED

LITTLE ROCK, Ark., April 11.—The death toll in the series of tornadoes that struck Arkansas last night had mounted to 30 today, while the injured were more than 100.

The known dead were:

Mr. and Mrs. Amos Martin, Buddy and Bobby Gene Martin and Joyce Rogers, all of Woodson, Pulaski county.

Mrs. Rex Caney, 28, and her two-year-old son, Pine Bluff.

Mrs. Marion Ward, 40, Harrison.

Clarence P. Trice, 72, Mrs. Fred Richenbach, 33; Lula Mae, 4, and Betty Rose Richenbach 5 months; Mrs. Ralph Schumard, 40, all of near Stuttgart.

Ed Brooks and a Mrs. Jordan, of Gill, near Marianna.

Elzie McCurley and Johnnie Wilson, and the McCurley baby of Shiloh, near Brinkley.

Henry Johnson, of Monroe.

The 6-year-old daughter of Will Kennedy, of Duncan,

Seven negroes living near Duncan, and three of Paykin, Cross country, whose names were not available.

25 Or 30 Injured

At least 25 or 30 persons were believed to have been injured in the storm in the Monroe county area.

The tornadoes, followed by heavy rains in most sections, struck in the north, and swept south.

At least twelve were injured when a tornado dipped down four miles north of Pine Bluff.

The tiny Woodson community, 15 miles south of Little Rock apparently was one of the hardest hit spots At least five inhabitants of the Farm Security administration project there were killed and many injured.

Property damage at Harrison was estimated at $50,000.

New Draft Plan

(Continued From Page One)

men are deferred for other than occupational reasnos.

"Effective this date no registrants classified as 1-A-L (limited service) will be forwarded for induction. Induction calls and pre-induction physical examination calls will not be exceeded. Shortages in previous calls will not be made up.

"Activity and occupation bulletin 33-6 in the case of students no longer applies. Students can only be considered for deferment on a 42-A special on which the state director recommends consideration for deferment."

Dallas draft boards disclosed today they had received from Gen. J. Watt Page, state selective service director, a clarifying wire directing local boards to halt the induction of all men 26 years old and over regardless of the type of work they had been doing.

Other boards in the state apparently had been sent the same wire. Those at Lufkin, Denison, and Abilene reported they had received similar communications.

Lufkin board members reported they were halting such inductions.

The Denison board reversed its stand of yesterday, when men 26 and over were deferred only if they were in essential or war-supporting jobs, and today halted induction of all in this age group. A group of selectees scheduled to leave Denison this morning was halted at the railroad station and sent back home.

Earlier Tuesday Gen. Page said in Austin, he believed his statement Sunday that no man over 2 "within the scope of the (national) directive" was to be inducted after yesterday covered the situation generally.

The national directive ordered postponement of induction of the older men who are in essential work until those under 26 have been processed, but left wide discretion to local boards.

Daily Markets

Stock Market

RAILS SHOWN PREFERENCE

NEW YORK, April 11 (AP) — Buyers continued to show a decided preference for rails in today's stock market while giving the cold shoulder to many industrial leaders.

Transfers for the full proceedings were around 700,000 shares. Favorites were up fractions to more than a point near the close.

At peaks for 1 to 7 years were Union Pacific, Southern Railway preferred, Great Northern and Sinclair Oil. Front-liners included Santa Fe, Southern Pacific, Southern Railway common, Delaware & Hudson, Atlantic Coast Line, Dupont, Boeing and Western Union "A."

Laggards were U. S. Steel, Bethlehem, American Can, Air Reduction, Allied Chemical, Eastman Kodak and Goodrich.

Cotton Market

NEW YORK REPORT

NEW YORK, April 11 (AP) — Cotton rallied into new seasonal high ground today on aggressive trade and commission house buying which met only scale-up hedge selling and liquidation.

The market was favorably influenced by the War Manpower commission order making 48 hour week mandatory in the textile industry which traders believe would stimulate consumption of cotton. Further reports of unfavorable early crop conditions also brought in new buying in distant futures. Near months moved up on heavy mill price fixing against government textile awards.

Futures closed unchanged to 88 cents a bale higher.

	High	Low	Last
May	21.13	21.03	21.11-12
July	20.77	20.65	20.73-74
Oct.	20.23	20.13	20.15-16
Dec.	20.05	19.94	19.95
March	19.87	19.76	19.80

Middling spot 21.98N.
N—Nominal.

NEW ORLEANS REPORT

NEW ORLEANS, April 11 (AP) — Cotton futures made new highs for the season here today but in the late dealings turned irregular to close steady, 50 cents a bale higher to 10 cents lower.

	High	Low	Close
May	21.25	21.17	21.25
July	20.93	20.82	20.88-89
Oct.	20.26	20.18	20.19
Dec.	20.08	19.99	20.00
March	19.90	19.78	19.79

Livestock Market

FORT WORTH REPORT

FORT WORTH, April 11 (AP) — Cattle 1,900; calves 600; generally steady with Monday's weak to lower prices; good and choice fed steers and yearlings 12.75-15.50; beef cows 8.50-11.00; good and choice fat calves 12.75-14.00; stocker calves and yearlings mostly 9.00-13.50 with a few choice light weights up to 14.00.

Hogs 4,000; unchanged; good and choice 200-330 lb. butcher hogs 13.45-65; good and choice 150-195 lb. averages 10.00-13.40; packing sows 11.00-12.00; stocker pigs 8.00 down.

Sheep 3,200; unchanged; medium to good milk fed lambs 13.00-14.00; good and choice shorn lambs with No. 2 pelts 13.00-50; stocker and feeder lambs 7.00-11.00; shorn feeders 9.50 down.

KANSAS CITY REPORT

KANSAS CITY, April 11 (AP)—(WFA)—Hogs: 3,100; mostly 10 lower; good and choice 200-330 lbs. 13.50-60; 170-190 lbs. 13.40-13.50; sows 12.75-13.00.

Cattle 3,100; calves 250; strong to 25 higher; mostly 10-15 up on grain fed; vealers and stockers steady; several loads choice beef steers 15.75-16.15; most good grade 14.50-15.50; good and choice heifers and mixed yearlings 14.00-15.25; odd head good cows 11.75-13.50; good and choice vealers 13.00-14.00.

Sheep 7,000; opening sales lambs steady, no ewes sold, best fed lambs held above 16.25; medium and good shipments 15.00-25; clipped lambs with No. 2 skins 13.50.

Grain Market

CHICAGO REPORT

CHICAGO, April 11 (AP) — Late nervousness developed in rye today after the grain pits had reacted only nominally to a government crop report. Rye led the way downward.

At the close wheat was unchanged to ¼ lower, July $1.71¼. Oats were unchanged to ⅛ off, July 78⅝. Rye was down 1¼ to 1⅝, May $1.30⅛-⅜. Barley was unchanged to 1¼ lower, July $1.25⅛.

FORT WORTH REPORT

FORT WORTH, April 11 (AP) — Wheat No. 1 1.71½-77.

Sorghums No. 2 yellow milo or No. 2 white kafir per 100 lbs. 2.40-47.

Oats, corn and barley at northern shipping point ceiling prices plus freight.

Produce Market

KANSAS CITY REPORT

KANSAS CITY, April 11 (AP) — Produce unchanged.

Markets At A Glance

NEW YORK, April 11 (AP) —
STOCKS — Mixed; rails continue to advance.
BONDS — Steady; rails higher.
COTTON — Higher; trade and commission house buying.
CHICAGO:
WHEAT — Dipped on crop forecast.
HOGS—Slow, 5 to 10 cents lower. Top $13.90.
CATTLE—Steers and yearlings steady, early top $16.50. Some held higher.

Attack On Camacho

(Continued From Page One)

mentally unbalanced person connected with elements with pro-Nazi sympathies.

Newspapers and labor leaders charged that the attempt on the president's life was inspired by Nazi-Fascists, and there were reports, although not confirmed, that Nazi documents were found on Lama Rojas.

Jose M. Altamiramo, chief of the information bureau, said he also had heard similar reports but explained "they are only reports and the government has nothing official to say beyond what we have already said in our bulletin."

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Kidneys may need help the same as bowels; so ask your druggist for Doan's Pills, used generally by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills

adv.

Mexican Dies From Wounds

Police said this morning that Manuel L. Pena, jr., 45, a Mexican, died at 4:20 o'clock this morning, slightly more than four hours after he had been shot twice when resisting arrest of two police radio car patrolmen.

The Mexican, who had a misdemeanor record at Lubbock and Corpus Christi, was shot twice, in the right arm and in the right side. It was disclosed this morning that he had not been hit in the back, as formerly reported.

Investigation Conducted

Chief of Police Don Reeder and Assistant Chief Aubrey Fawver said an investigation had been conducted, assisted by City Attorney Durwood H. Bradley, and that the following was what had happened:

The patrolmen, Bill Brooks and Charlie Street, arrested the Mexican when they found him, allegedly drunk, in the street in front of his residence in 200-block Avenue K. They placed him in their patrol car and Brooks was attempting to hold Pena's feet. Brooks, standing outside the car, saw the Mexican grab into his waistband and jerk a pistol. Brooks caught the pistol and forced it upward as a shot from it plowed into the car's top, narrowly missing the officer. He wrested the gun from the prisoner and stepped back.

Then Pena jerked a pair of shiny knucks from a pocket and Brooks and Street — saying the moonlight flashing on the weapon caused them to believe it was another gun—fired. Brooks did not have time to pull his own gun, firing that he had taken from the Mexican. Street fired twice, Brooks once.

J. A. Harrington To Be Buried In Houston

HOUSTON, April 11. (U.P.)—Funeral services were held at 5 p. m. today for John Anderson Herrington, 61, research engineer of the Hughes Tool company.

He died at his home Sunday. Before joining the tool concern, Herrington was a college instructor. From 1908-1918 he was a member of the faculty of Texas A. and M. college. Subsequently, he taught at Oklahoma A. and M. college, New Mexico A. and M. college, Vanderbilt university, Beloit college (Wisconsin), and the University of Arizona.

TWO WOMEN KILLED

WICHITA FALLS, April 11 (AP) —Mrs. L. E. Ruth, 42, and Mrs. G. R. Hand, also 42, were killed last night when an automobile turned over five miles north of Megargel. Both victims resided in Wichita Falls. Two injured men were treated at an Olney hospital.

"Buy A War Bond TODAY"

Deferment List

(Continued From Page One)

under 26 for deferment when special forms are filed (forms 42 A-special) and when they are engaged in the following industrial activities:

1. Under jurisdiction of the Office of the Rubber director Research, piloting and production of synthetic rubbers, butadiene and styrene; production of essential raw materials in three government-owned plants operated by the Rubber Reserves company (at Memphis, Tenn., Naugatuck, Conn., and Philadelphia); manufacture of reclaimed rubber; manufacture of essential rubber goods permitted under rubber order R-1; manufacture of rubber processing machinery.

2. Army service forces: Ducks (amphibious "ducks"), rockets; radar; critical components for trucks, heavy and light-heavy (2½ ton and heavier), including truck trailers and class one and two tractors; research and development work specifically assigned by the technical services (Army to supply list).

3. Army Air forces: Group 1-4 aircraft — only specified items (covering certain craft not otherwise publicly described).

4. Navy department: Landing craft, rockets, submarines, aircraft carriers, high capacity ammunition, radar, aircraft in group 1-4, ships and aircraft maintenance including modification centers.

5. War Production board: Component parts of approved critical programs when such production is not under the direct supervision of the armed services or other claimant agencies.

6. Maritime commission: Combat-loaded transport, combat-loaded cargo vessels and tankers.

7. Petroleum Administration for War: Aviation gasoline program and synthetic rubber components, technical services vital to aviation gasoline program and synthetic rubber components, special technical services essential to production of crude petroleum.

8. Office of Defense Transportation:

Great Lakes and inland waterways (A) — Only captains and chief engineers; (B) other licensed officers for 1944 navigation season;

Airlines — Flight personnel, ground personnel only outside the continental United States;

Railroads and for hire trucking —Personnel engaged in railway and motor transport service directly related to the movement of war freight necessary to support the immediate war objectives the withdrawal of which would decrease the safety, speed, and volume of movement so as to adversely affect such war objectives, also (A) railway personnel engaged in assembly line, haul, and break-up of railway freight trains, and (B) key personnel of those trucking companies whose equipment is more than 16,000 tons gross weight of vehicles.

9. War Shipping administration: Pharmacist mates, off-shore shipping (active sea-going personnel and men in training for service in the merchant marine—no more men under 26 are being recruited for training).

Communications List

10. Board of War communications: International radio-telegraph, radio telephone and cable carriers outside the continental United States.

11. War Food administration: Special technical services essential to wet corn milling.

12. Coordinator of fisheries: Operation of commercial fishing vessels of 20 gross tons or over—captains only.

Hershey said the government agencies listed had designated representatives to furnish information and advice to state directors and some of the agencies have prescribed procedures for endorsement of the applications of affected employers.

His telegram, however, stated: "State directors are authorized to recommend exceptions for registrants engaged in the activities listed herein even though submitted forms 42 A—(Special) do not bear the endorsement of a government agency or its representative, but the presence of such authorized endorsement . . . should be given weight as strong evidence of occupational necessity."

Hershey's list was substantially the list approved by the committee of manpower claimants, and inter-agency group headed by Paul V. McNutt which met again today to start the task of designating specific plants within the activities and determining the numbers of key men in each plant and activity who will need to be deferred to maintain operations.

Federal Authorities Arrest Tulsa Widow

TULSA, Okla., April 11 (AP) — Mrs. Fay Smith, 51, Tulsa widow whom the state charges operated a richly-paying confidence racket in which mental powers were wielded over the victims, ran into trouble with federal authorities today.

Immediately after she had posted $6,000 bond to gain her freedom on three state charges, she was taken into custody on a federal charge of using the mails to defraud.

She was arraigned immediately, pleaded innocent, and put up another bond of $3,500.

Two young women office workers, Virginia Evans and Willetta Horner, accused Mrs. Smith of holding them for five years under a strange, almost hyponotic influence while she appropriated all of their earnings.

Australia Justified In Manpower Shift

BY DEWITT MACKENZIE
Associated Press War Analyst

There seems to be anxiety in some American quarters (though it's difficult to understand why) over Australia's making a re-allocation of manpower, involving the withdrawal of some 90,000 from the army, many of them veterans who have passed their jungle-fighting prime.

Australia is pulling her weight. New Guinea — El Alamein — Tobruk — the Malay peninsula jungles — Greece! I've been with the Aussies in two wars, and they're fightin'-fools. Their only fault is that they try to do more than their share. It was the Australians, by the way, who on July 4, 1918, took our 33rd division over the top at Hamel on the Somme in the first Anglo-American attack of history. A grand team they made, the Aussies and the Yanks, as I know from personal observation. They're still a grand team.

Odessa Is Great Victory

The Russian recapture of the Black sea port of Odessa is the key to a treasure-house of vast riches — one of the most important victories of the entire Russo-German conflict.

The fall of this port renders the Crimea untenable for the dozen or so Nazi and Romanian divisions which have been holding it. And the Crimean peninsula which hangs down from the Russian mainland into the Black sea like the pendulum of a grandfather clock, has been the keystone of Hitler's defense of both the Ukraine and the Balkans — a vast naval-aerial-military shield for his entire right flank.

Many Nazis Sacrificed

That's why Nazi Field Marshal General von Mannstein, on orders direct from the fuehrer, sacrificed scores of thousands of men in a suicidal effort to hold the vast salient of the Dnieper bend as protection for the Crimea.

Already the Red army has opened a fierce offensive against the Crimea. There have been close to 100,000 Axis troops on the peninsula, but the number there now is problematical, for some may have been evacuated by sea to Romania, and others are said to be trying to escape by water now. In any event, the Nazi gangsters hold on the Crimea is doomed. Once it has been cleared of the enemy, the Red fleet will move back to its big naval base at Sevastopol and, with possession of Odessa as well, the Muscovites will again rule the Black sea.

Twin Beds Called "Unholy System"

CHICAGO, April 11 (AP)—Twin beds, says Judge Frank Donohue of women's court, are an "unholy system" and they should be thrown out of American homes.

"The invention, innovation or introduction of twin beds into the marital boudoir has caused more dissension, distrust and disunity resulting in divorce than any other single factor," Judge Donohue said after assessing a $200 fine against a childless couple on charges of disorderly conduct.

Denison Dam Work Near Final Chapter

DENISON, April 11 (AP) — Late this week, the final chapter will be written in the construction of the $54,000,000 Denison dam when Denison district Army engineers test the 35,000-kilowatt generating unit.

Today water stood 70 feet deep at the dam and minimum power pool height is 80 feet. The engineers pointed out that the water rise will be slower now that the lake has spread over a larger area.

Dedication of the project hinges on the date actual power production can begin. The engineers have estimated the required water level will be reached late in June or early July.

All railroad and highways have been relocated with other phases of the project completed except the land clearing program which has been delayed because of labor conditions. Land clearing crews, only a few feet ahead of the rising lake, expect to complete their work by July 1. Monday the lake covered approximately 30,000 acres of land.

Almost 6,000 acres of land remain to be cleared.

Braniff Starts New Airline In Mexico

LAREDO, April 11. (AP) — A Braniff airways plane crossed the international boundary into Nuevo Laredo, opening a new plane service by the airplane.

Present for the occasion yesterday was Gen. Alberto Salinas Carranza, head of Mexico's civil aeronautics department. The line will make connections with Campania Mexicana de Aviacion to provide service to Monterrey and Mexico City.

The first Greek letter sorority in the United States was Kappa Alpha Theta, founded at De Pauw University in 1870.

NAVY BOARD IN CITY—These members of a Navy traveling procurement board will be at the Hilton hotel in Lubbock today and tomorrow to interview and conduct physical examinations for commissions in the Naval Reserve. Left to right are: Lt. Ralph E. Binnion, former coach at Highland Park High school, Dallas, who is officer-in-charge; Commander C. D. Hunter, senior medical officer of the Dallas office of Naval Officer Procurement, and Lt. J. W. McMurry, former coach at Lubbock High school. Also with the group, but not in the picture, is Lt. Harold Banks of the public relations staff who is a former city editor of the Fort Worth Star Telegram. The board interviewed and gave physical examinations yesterday to 40 V-12 applicants who had qualified in tests given here March 15.

Mississippi Fugitive Caught In California

JACKSON, Miss., April 11 (AP)—James D. Good, assistant special agent of the Jackson FBI office, said today that Mississippi penitentiary authorities have been notified of the arrest in California of Homer J. Chestnut, 34, who Good said had escaped 13 years ago from the state penitentiary at Parchman while serving a life sentence on a murder conviction in a Jasper county courtt.

James C. Ellsworth, assistant special agent in charge of the Los Angeles FBI office, said Chestnut was living in Santa Monica under the name of James Carter and had married four years ago. Ellsworth said he was arrested on a charge of failing to notify draft board authorities of change of address. He quoted Chestnut as saying he killed a man in a knife fight in a Mississippi lumber camp "in self defense."

Good said FBI records showed that Chestnut was sentenced in 1927 and escaped the next year. He was arrested in Corpus Christi, Tex., and returned to prison only to escape again in 1931.

Tokyo Warns War Near "Real Stage"

NEW YORK, April 11 (AP)—Declaring that the speed of the American advance in the Pacific has "become rapid by contrast with the days of the Solomons operations," the Tokyo domestic radio warned the Japanese people ... that the war "is about to enter a real stage."

The broadcast said that the United States has full confidence in her military strength and that the American offensive has changed in character from island hopping to "leap frogging."

April Is Proclaimed Use-Eggs-Now-Month

AUSTIN April 11. (AP) — Eggs above and beyond the demand of the market, brought from Governor Coke Stevenscn the proclamation that April be known as the "use-eggs-now-month."

Springtime brings the best fresh eggs, said the governor, and increased consumption now will save good food, encourage producers to maintain full production and benefit the health of the people.

Stevenson complimented the farmers for producing this essential item, but remarked that their enthusiasm had caused them to produce eggs beyond the quantity needed.

Igor Gorin Concert Scheduled Tonight

An Ukrainian folk song, "Viut Vitre," which translates into, "Stormy Breezes," will have a place on the program when Igor Gorin, baritone, appears in a Texas Technological artist course concert in Senior High school auditorium tonight at 8 o'clock. The song is associated with many episodes of good fortune in the singer's life.

It was "Viut Vitre" that Igor Gorin sang when he first made application for admittance to the Vienna Conservatory of Music and his rendition of the song earned him a scholarship at that noted school. Not long after his arrival in America, he sang "Viut Vitre" for the sponsors of radio's popular "Hollywood Hotel" program, who immediately signed him as featured soloist.

Tonight, Gorin will also sing many popular American ballads. Tickets will remain on sale today at B. E. Adair Music Co. for $1.50 a seat, $1.25 for students. Season tickets holders may use their season tickets.

Definite Plan For Peace Is Necessary

ORANGE, April 11. (AP) — The United States "should take the initiative in a definite plan that would prohibit the recurrence of another war in 20 years," says Rep. Martin Dies (D-Tex), here for an Easter visit.

He advocated international machinery that would obligate the United Nations to keep aggressive nations in line once the war is won "even if we have to do it with force."

STRIKERS BACK ON JOB

LONDON, April 11 (AP)—Thousands of South Yorkshire miners returned to work today, virtually ending a week-long strike by nearly 100,000 men that cost an estimated 1,000,000 tons of coal.

KATE SMITH writes about saving used fats!

EVERY WOMAN wants to save as much used cooking fat for battlefield medicines and munitions as possible. But there are ways we may be overlooking. Are you missing out on any of these?

THERE'S THE DARK, smelly fat you've used to fry fish or onions ...maybe you've thought it wasn't fit to save, but it is! Every drop will yield crystal-clear material essential to making medicines and munitions. And there's the fat you trim from meats...the scraps folks leave on their plates...have you thought to save those? Yes, it's only a little...but only a tablespoonful is needed to compound enough vaccine to protect 73 men!

SO COME ON, everybody! Scrape those pans! Save those trimmings and scraps. Keep the fat can (any tin can will do) right on the back of the stove where it's handy. When the can is full, rush it to your butcher and get 2 free red points and 4¢ for every pound.

GOOD NEWS FROM THE PRODUCTION FRONT

A REPORT TO THE NATION

on General Motors 1943 War Activities

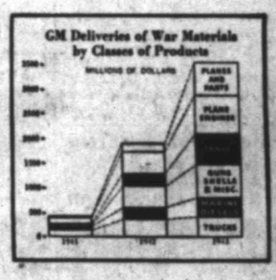

★ Physical volume of war materials produced was more than double that of 1942.
★ Total value of 1943 war production more than 3 billion, 500 million dollars.
★ Average total employment 448,848, an all-time high.
★ Total payrolls more than 1 billion, 300 million dollars—up 54%.
★ Materials and services purchased from others approximately 1 billion, 900 million dollars—up 88%.
★ Net income after taxes from manufacturing operations—3⅗ cents per dollar of sales.

PRODUCTION

GENERAL MOTORS 1943 deliveries of war material rose to a total value of more than 3½ billion dollars, or about 87% more than in 1942. The increase in physical volume was even greater, since unit prices were reduced during the year. Deliveries of service parts and other authorized civilian material amounted to $250,000,000, a decrease of about 30% from 1942.

At the time of Pearl Harbor, G.M. deliveries of war products were at a rate of two million dollars' worth a day. By the end of 1943 the daily rate was above twelve million dollars. The 2,300 separate items placed in production ranged from small and delicate parts to airplane engines, complete airplanes, tanks, and powerful Diesel engines for submarines and landing craft.

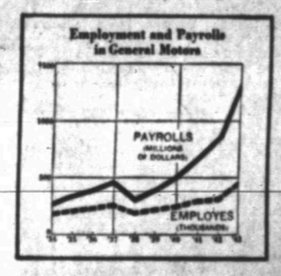

EMPLOYMENT

AVERAGE EMPLOYMENT in General Motors in 1943 was 448,848, an all-time high. The figure stood at 503,749 in December. In 1942, the yearly average was 314,144, and the December figure was 391,975. Thus the increase in yearly average was 43%. At the same time, payrolls rose 54%, and reached a total of about 1⅓ billion dollars.

More than 200,000 new G.M. employes were trained for war work in 1943. Enrollment in courses for supervisors and executives totaled 21,500.

The percentage of working time lost because of accidents was less in 1943 than ever before.

PRICES AND PROFITS

TOTAL NET INCOME after taxes in 1943 from war output and other sources was $149,780,088, compared to $163,651,588 in 1942 and $201,652,508 in 1941. Net income after taxes from manufacturing in 1943 was only 3⅗ cents per dollar of total net sales.

93% of all war material delivered to the end of 1943 was manufactured under fixed-price contracts. General Motors early adopted the policy of reducing prices to the government as lower costs were achieved through greater experience. The government benefited many millions of dollars by these reductions in 1943. Taxes in 1943 totaled $308,068,000, of which federal taxes were $254,783,000; social security and unemployment insurance taxes, $39,263,000, and state and local taxes, $14,022,000. Common stock dividends were $2 per share in 1943. They were also $2 in 1942, $3.75 in 1941 and 1940, $3.50 in 1939.

The year 1943 was one of great effort and sound achievement in General Motors. The job is not yet done. All are determined to contribute to the utmost toward final victory. When this is accomplished, there will be the task of preparing for the requirements of peace. But until that time *"Victory is Our Business!"*

IN 1943 GENERAL MOTORS FACTORY EMPLOYES *submitted 123,000 written suggestions for improving production or working conditions. 25,400 ideas were accepted. Cash value of war bond and stamp awards for same, $955,000.*

NEARLY 86,000 G.M. MEN AND WOMEN HAVE ENTERED THE ARMED FORCES

By the end of 1943 more than 10,000 veterans had been given employment by G. M. Nearly half of them were employes who had been on military leave of absence; the remainder had never before worked for G. M.

LET'S ALL BACK THE ATTACK

Stand by the men on the beachheads! The better their equipment the stronger their power and the greater their protection.

LUBBOCK EVENING JOURNAL
WOMEN'S NEWS
PAGE FOUR—LUBBOCK, TEX. TUESDAY, APRIL 11, 1944

Miss Plumlee Weds Officer

In a ceremony read in Cliff Temple Baptist church April 4, Miss Lynn Plumlee, daughter of Mr. and Mrs. H. S. Plumlee, Dallas, became the bride of Lt. (jg) W. E. Connell, jr., son of Mr. and Mrs. W. E. Connell of Shallowater.

The bride was dressed in a white palm beach suit with ruffled lace trim and green accessories. Her small wreath shaped hat of white forget-me-nots had a shoulder length veil spread with tiny flowers. She wore a gardenia corsage.

Mrs. Dorothy Herbert and E. F. Coleman, Lt. (jg), were attendants.

Following the ceremony, a reception was held in the Plumlee home.

The bride attended W. H. Adamson High school in Dallas and Texas university. Lt. Connell attended high school in Abernathy and went to Texas Technological college. He is stationed in Alemeda, Calif., where the couple will live.

Marriage Vows Are Read At Sunray April 5

Word has been received of the marriage of Miss Joy Powell, daughter of Mr. and Mrs. E. A. Powell of Sunray, and Johnny Cartrite, son of Mr. and Mrs. Arthur Cartrite, pioneers of the Spurlock community, which took place April 5 at Sunray Baptist church with Rev. G. M. Rickles officiating.

The bridegroom, a former student at Texas Technological college, is associated with his father in ranching and farming business.

Sunday Tea Planned For 4 S Club In Pace Home

The Farmerette club is entertaining with a tea Sunday afternoon from 3 until 6 o'clock in the home of Mrs. Bob Pace as a courtesy to the 4 S club which has been disbanded for the duration.

Bunco Party Planned By LAWS Wednesday At USO

Lubbock Army Wives society is inviting all enlisted men's wives to attend a bunco party Wednesday afternoon at 3 o'clock at the USO, 1211 Thirteenth street. A nursery will be provided for children.

FOR CAMP COUNSELORS

HOUSTON, April 11 (U.P.) — A training conference for Gulf Coast Girl Scout camp counselors will be held at Camp Tejas, near Clear Lake, from April 28 to 30, the Houston Girl Scout office announced today. Prospective counselors for the summer camps were urged to register for the training conference immediately.

AT RED CROSS

Surgical dressings were folded by 1941 Needle club members at the Red Cross rooms Monday afternoon.

Those attending were Mesdames J. O. Pope C. F. Henry, O. B. Sandidge, W. A. Pettey and A. E. Dietering.

The club will meet April 20 in the Forum Tea room, 1622 Broadway at 4 pm.

FOR NEEDLE CLUB

1940 Needle club members will be the guests of Mrs. C. B. Lively, 2213 Twenty-seventh street, Wednesday afternoon at 3 o'clock.

You Women Who Suffer From
HOT FLASHES then **CHILLY FEELINGS**

If you—like so many women between the ages of 38 and 52—suffer from hot flashes, weak, nervous irritable feelings, are a bit blue at times—due to the functional middle age period peculiar to women—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms.

Taken regularly—Pinkham's Compound helps build up resistance against such distress. It also has what Doctors call a stomachic tonic effect!

Thousands upon thousands of women—rich and poor alike—have reported benefits. Here's a product that HELPS NATURE and *that's* the kind to buy. Follow label directions. *Well worth trying!*

Earlene Jones, Bride-Elect Of Mark Olson Is Honored

Miss Earlene Jones, daughter of Mrs. W. T. Howze of Brownfield, bride-elect of Mark Olson, son of Mr. and Mrs. Andrew Olson of Worthington, Minn., is being honored with a series of pre-bridal parties. Thier marriage will take place Friday morning at 10:30 o'clock at Mrs. Howze's home. Miss Jones is a student at Texas Technological college.

The courtesies have included a coffee and personal shower given by Mrs. Elwood Tiernan and Miss Alma Faye Ballard; a party given by Mesdames Lal Copeland and J. M. Bailey and a bridge party Mesdames Copeland, Clarence Lewis, A. A. Sawyer, Clyde Lewis and E. A. Graham gave last Friday night in the home of Mrs. M. B. Sawyer in Brownfield.

DINNER DATE: Sheer black marquisette dickey with fine tucks, bow tie, worn with a bonnet of pale pink felt trimmed with a big bow of crisp black lace.

Mrs. Ashford Is Circle Hostess At Her Home

Mrs. J. T. Ashford, 2111 Thirty-fourth street, was hostess to First Baptist Business Women's circle Monday night and eight women heard Mrs. E. B. Speck teach a Bible lesson.

Mesdames Holland Cox and M. L. Hogan were visitors and Mesdames Mary Ware, C. E. Roberts, Sid Clark, G. A. Gunn, Dan Harrell, Speck and O. A. Tyner were members.

The circle will meet April 24 with Mrs. Harrell, 2020 Tenth street.

Auxiliary Circle Meets With Mrs. Cole Monday

Miss Hadena Hester, incoming chairman of Circle 7 of the First Presbyterian Woman's auxiliary, presided at a meeting of that group Monday night at the home of Mrs. Christene Cole, 1522 Twenty-fifth street. Plans for the new church year were outlined.

Mrs. Alton Hall was program leader. Twelve women were present.

Altar Society Meeting Is Held Monday Night

Thirty members of St. Elizabeth's Altar society were entertained Monday evening in the F. R. Friend home, 2005 Broadway, with Mesdames A. L. Gooden and G. B. Arledge as hostesses. A regular business session was held and Rev. Peter Hoey spoke.

SPAAF-ies Party To Be Given At Post Club

A recent husbands' party given by SPAAF-ies at the home of Mrs. Marion Leftwich was attended by 18 guests. Mrs. D. V. Matheny will be hostess to the club Friday, April 21, at 2:30 o'clock at the service club at SPAAF.

Governor Proclaims Family Week In Texas

AUSTIN, April 11 (AP)—With an aim to the "preservation of the worthwhile values of family life," Governor Coke Stevenson has proclaimed May 7 to 14 as National Family week in Texas.

Protestant, Catholic and Jewish faiths will join in focusing attention "upon spiritual strengthening of family life to meet wartime and postwar conditions which tend to disrupt families," said the governor.

The Andes mountains reach their highest altitude in Peru.

Pledges Stage Clever Skit

Pledges to Kappa Gamma sorority staged a clever hillbilly child bride wedding at a mock initiation service conducted Monday night at the Debby Lail studio, 2227 Nineteenth street. Mountaineer music was sung and folk dances were danced, ending with the Virginia Reel, by the twelve young women who were in costumes.

Mrs. Roberta McCabe was a guest.

Pledges were Misses Claribel Lee, Emma Louise Smith, Ruth Gillespie, Susie Shipp, Pearl Jackson, Floy Massey, Julia Parker, Erma Baugh, Frances Price, Mary Sue Smith, Mesdames A. B. Penney and Frances Neutzler.

Hostesses who were Misses Dorothy Levey, Martha Willett and Dorothy M. Forl, served refreshments to the pledges and to Mesdames E. L. McCrory, Evelyn Webb, John D. Watson, Winnie Wheat, J. Floyd Dunn, Virgie Mae Beard, Horace B. Hawkins, Lottie B. Hilton, Misses Mildred Boone, Louise Chance, Lucille Collier, Frances Conley, Ruth E. Ford, Beulah Harmonson, Helen Hart, Evelyn Jones, Ann Kelly and Patty Wfllett.

Dr. Wallace Speaker At Lions Luncheon

Through cooperation of the U. S. Government and commercial firms, rubber development is being pushed in Latin-American countries but it will "probably be 1950" before sufficient quantities are produced to supply a portion of America's needs, Dr. Ernest Wallace, member of the history faculty of Texas Technological college, told Lubbock Lions in their luncheon today noon at the Hilton hotel.

Dr. Wallace's talk was in connection with the club's observance of Pan-American day. He was introduced by Dr. S. S. McKay.

Sketching briefly the economic and political situations of Argentina and Brazil, Dr. Wallace pointed to the vast possibilities of development of these two major republics of South America and cited rubber as one of the many phases of their possibilities.

Fall In Fortress

(Continued From Page One)

speed and that in a few minutes I would be dead.

"I thought the whole ship was intact by the way it was twisting around and the time it was taking us to get down. I was praying too.

"The impact when we struck the ground was cushioned, and there was a slushing sound. I knew we had hit a tree. I got the idea I was a dead man. I didn't lose consciousness, but my eyes were closed for a few seconds. When I opened them I could see green vegetation. Then I heard a snapping sound, like flames, and realized I had to get out quick."

Caught By Ammunition

Raley said it took considerable effort to free himself from several hundred rounds of ammunition which was resting on his neck. Then he poked around for three candy bars and also found his shoes, for he figured he might have to do a lot of walking.

"It was not until I had done all this that I opened the bulkhead to climb out. I got the shock of my life. The tail section was the only part of the plane there. A part of the vertical fin was left and the right stabilizer was broken in half. The only part of the plane left besides that was behind the tail wheel—all told, about 12 feet.

"I checked my watch. The whole business from the time of the crash in the air to when I got out took 30 minutes. I figured it was possible the plane came down in one piece and the tail broke off when it hit the big trees and when skidding along through the smaller ones.

"The impact with the branches had sent the guns like they were made of tin and had caved in the bottom in several places. I don't imagine I'll ever be able to figure out just how I managed to come out alive, but believe it was because I was pinned down flat against the floor where I couldn't be tossed around when it hit.

"The plane hit on the bottom. If it had hit on the top I would probably have been killed. That's the only way I can figure it out."

Odessa's Fall Bitter Surprise To Germans

STOCKHOLM, April 11. (AP) — The fall of Odessa was described as a "bitter surprise" to the German people in Swedish press dispatches from Berlin today.

Aftonbladet's correspondent reported that the German press was extremely pessimistic over military reversals on the Russian front.

Brief Bits Of Local News

The War department announced Monday the names of 500 United States soldiers wounded in action, including Sgt. Melvin K. Roach, son of Mrs. Bertie E. Roach, 905-B Avenue M, Lubbock; and Sgt. Marion T. Burrus, son of Mrs. Ethel May Burrus, Levelland.

Listed as missing in action in an announcement made today by the War department was 1st Lt. Frank W. Hess, whose wife, Mrs. Nora J. Hess, resides at 1802 Avenue S, Lubbock.

Included among 213 officers and enlisted men awarded the Distinguished Flying Cross as members of the U. S. Eighth Air Force was S/Sgt. Leroy Nelson of Matador.

Rites were read in the Baptist church in Abernathy Monday afternoon for Elder Jackson M. Rankin, 81, by Rev. J. F. Nix, pastor. Burial was in Abernathy cemetery by Bryan McDonald & Son Funeral home. Elder Rankin died at his residence in Abernathy Sunday.

A young girl who poked a stick into a stove and, frightened when it caught fire, tossed it in a wastebasket caused a fire of considerable damage Monday afternoon to the C. F. Young residence at 2519 Ruby street. Half the roof was burned, and two rooms and their furnishings were damaged badly, firemen said.

Slight injuries were suffered about 7 o'clock Monday night by Mrs. J. B. Fox of Lubbock route 2 when the car in which she was riding was in collision with an ice truck at Washington avenue and Elm street. Billy Joe Hood, 17, of 2127 First street was driver of the truck, officials said.

Clarence Madison Cardwell, jr., 17, son of Mrs. Agnes A. Cardwell, 2424 Fourteenth street, who enlisted in the Marine corps March 25, left today for San Diego, Calif., to begin boot training, according to Sgt. Charles G. Blake, recruiting officer.

Police this morning held a 27-year-old Lubbock man in connection with investigation into a report of Pete Curb that $150 of Curb's money was taken from his hotel room early this morning. Police said the man was supposed to have spent the night with Curb "and left before Curb awakened." No formal charge had been filed at noon, police said.

Firemen said a small residence at 200 Sherman avenue was damaged this morning when fire broke out in the northwest corner near an oil stove. None was home when the alarm was given to firemen at 10:45 o'clock. Firemen said a man named Johnson lives at the place, but city directory lists no such number.

Police reports indicated that the case of an alleged deserter from the armed services was more involved than was indicated when a woman Monday was absolved of giving him assistance. Turned over Monday to Army officials at one of the air fields here, it was disclosed that the suspect was driving an automobile belonging to a woman in another South Plains town under a promise to "return it in one hour," and that a girl with whom he was riding at the time of his arrest by police patrolman Sunday night attracted their attention by claims she had been raped. The rape charge, if not filed with Army officials, probably will be lodged with the district court at Littlefield, officials said they understood.

War stamps totaling $48.55 were sold to students and teachers in George R. Bean school this morning by members of the Bean Parent-Teacher association. Sales since last September now total $1,853.85 in stamps and $9,625 in war bonds. Today's sale was conducted by Mrs E. E. Sullivent, Mrs. Roy Wheeler and Mrs. R. L. Ingram.

Police and newspaper reporters this morning checked hospitals and physicians, but failed to uncover trace of a person wounded by a small-caliber rifle. Maitland Jones of 2322 Eighteenth street shot several times just after midnight at a prowler in his back yard, "and I think I hit him once." A soldier's cap was found in the front yard, where Jones said he first heard the prowler. Police said Jones believed the intruder was dressed in a soldier's uniform, and Army men from one of the bases here were conducting an investigation.

Police said this morning two 18-year-old youths, one from Muleshoe and the other from Amarillo, had been arrested by A. Z. Gammage early Monday night near Abernathy less than an hour after the car, owned by Mrs. C. A. Thompson of Levelland, had been reported stolen from Broadway and Avenue G The youths, police said, were here to take pre-induction physical examinations for the armed services. No charges had been filed at noon. Officials said another car, a 1939 Buick sedan with license 957-284, had been stolen from O. C. Bumpass of 2210 Twenty-first street; a 1940 black Ford four-door sedan, license 971-067, from Curtis Barnett of 1519 Fifteenth street.

Police said this afternoon they were engaged in two theft investigations. V. E. Skains of 806 Main street described a suspect after discovering a 21-jewel watch and an indeterminate amount of money missing. No report had been filed by patrolmen asked to check a complaint from 1627 Main street.

Jean Freeman, a student at Texas State College for Women, who came to Lubbock recently for a visit with her parents, Mr. and Mrs. John R. Freeman of 2112 Thirteenth street, is resting well in Lubbock General hospital following an appendectomy Monday.

CZECH LIBERATION SEEN

NEW YORK, April 11 (AP) — Premier Marshal Stalin predicted the early liberation of Czecho-Slovakia in a message to President Eduard Benes of the Czechoslovak government-in-exile, the Moscow radio said today.

Former Temple Grid Player, Six Others Escape From Europe

NORTH TONAWANDA, N. Y., April 11 (AP) — First Lt. Charles W. Walters, former Temple university football end, who with six other American airmen, trudged through occupied Europe to reach England two months after their bomber crashed in southwest Germany, said tonight the escape was "just a case of a lot of work and a lot of luck."

The 28-year-old flier credits "my long athletic background for giving me stamina to get back home. The trip out of enemy-occupied country was sure rugged and most of it was made on foot."

Resting At Home

Walters, now resting at home, said the Liberator he was piloting burst into flames after a bombing mission Jan. 7 on Ludwigshaven, poison gas manufacturing center.

"Three of my crew, Second Lt. J. M. Bickley, co-pilot, Fort Worth, Tex.; Tech Sgt. Louis Del Guidice, radioman, New Haven, Conn., and Staff Sgt. Carl Hite, engineer, Gary, Ind., landed near me. We haven't heard from the other five boys," he explained.

Met Three Other Yanks

The group met three other American airmen shot down in a previous bombing mission "right under the noses of the Germans," Walters declared.

The three were Capt. Peter Hoyt, pilot, Cleveland, O.; Second Lt. William Cook, navigator, Phoenix, Ariz., and Bombardier Dan Hanslik, Saginaw, Mich., he said.

"Several times we came very close to being captured, had little to eat and were bothered by the cold," Walters said. "We were able to plot our way back to England through the use of the escape kit which is part of the equipment on American planes."

The lieutenant is now getting acquainted with his 14-month-old daughter, Judith Lynne.

NEW MEXICO GAINS

SAN FRANCISCO, April 11 (AP) —New Mexico led far western states' trade with a 15 per cent gain in February over the 1942 month, and was second to Florida, which had 25 per cent increase, a census bureau survey of 34 states showed today.

Side saddles for women were first used in England by Queen Anne in 1388.

Pull the Trigger on Lazy "Innards"

WHEN CONSTIPATION makes you feel punk as the dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine to quickly pull the trigger on lazy "innards", and help you feel bright and chipper again.

DR. CALDWELL'S is the wonderful senna laxative contained in good old Syrup Pepsin to make it so easy to take.

MANY DOCTORS use pepsin preparations in prescriptions to make the medicine more palatable and agreeable to take. So be sure your laxative is contained in Syrup Pepsin.

INSIST ON Dr. CALDWELL'S—the favorite of millions for 50 years, and feel that wholesome relief from constipation. Even finicky children love it.

CAUTION: Use only as directed.

The Diamond

APRIL BIRTHSTONE

Ever since the form of cutting known as the "brilliant" the diamond has held first place among precious stones. The history of the diamond is full of romantic interest. In an engagement ring it is thought to soften anger, strengthen love and maintain harmony.

The diamond is the hardest known substance on earth. When devoid of any tinge of color it is considered most valuable. Those with a slight tinge of yellow are "off colored" and have much less value. Cutting is important, too. Improper cutting robs the diamond of much brilliance and beauty.

Illustrated—Brilliant blue-white diamond mounted with four cut diamonds, $375.

About 15,000,000 Must File Income Reports By April 15

BY MARLOW AND ZIELKE
Associated Press Staff Writers

WASHINGTON, April 11—Here it comes again: the federal income tax:

By April 15, about 15,000,000 of the 50,000,000 taxpayers must file declarations of estimated 1944 tax and pay the first installment on any amount of tax that isn't being taken out of wages and salaries.

This includes you if:

1. You expect to have 1944 income of more than $2700 if single, or $3500 for a married couple. Or—

2. You expect to have outside income (in addition to wages or salaries subject to withholding of taxes under pay-as-you-go of more than $100 this year.—Or

Farmers May Wait

3. Your income isn't subject to withholding of taxes. (Exception: Farmers, who may wait until Dec. 15 to file—but if they wait, will have to pay the whole amount of tax at that time.)

You estimate your 1944 income and how much (if anything) will be taken out of your pay for the tax during the year, then start paying the difference in quarterly installments. (If you had a refund coming in 1943, and elected to have it applied against 1944, you subtract it from the first payment.)

If you use the short-form work sheet, you need to do only one problem in decimals—the 3 per cent victory tax. The regular tax can be found in a table of figures on the work sheet.

Alternate Provided

There's an alternate, long-form work sheet for use in estimate taxes on incomes over $10,000. This also may be used for detailed computation of taxes on smaller incomes.

In the short-form, the tax tables automatically provide for deductions of 8 per cent of your income.

Last fall, use of the short-form left some taxpayers facing unexpectedly high payments in March. However, the short-form produces tax figures approximating those which will result if the present "streamline" bill in Congress becomes a law, as expected—with its automatic deductions of 10 per cent of income up to a maximum of $500.

For this reason, the short-form is particularly suitable now.

Note, though, that if the "streamliner" becomes law, childless couples will face a tax boost, and in that event may find it advisable to file and amended declaration.

Protection Against Penalties

That's one of the three means of protecting taxpayers against penalties for underestimating. The law requires "reasonable" estimates, which can be amended once each quarter, if desired, on or before June 15, Sept. 15 or Dec. 15.

The other two protections are:

1. No penalty is to be assessed if the estimate is based on last year's actual income (but at present rates and exemptions) and installments are paid on time.

2. No penalty is to be assessed if you estimate the tax within 20 percent (33 1-3 per cent for farmers) of the final 1944 tax as figured next March.

If you expect to go into the armed services, you'll have to decide for yourself when you "reasonably" can expect to be called.

For years before the thermometer was invented, physicians measured body heat with their hands.

Congress To Renew Probe Of Measures

(By The Associated Press)

WASHINGTON, April 11 — Legislating may give way largely to investigating when Congress reconvenes tomorrow for a session leading up to the national political conventions.

With committees of both houses charting explorations into nearly every phase of the war and post-war picture on the home front and abroad, final disposition appeared likely for little more than a half dozen major measures.

Legislative interest was concentrated on three principal bills to be sandwiched in between appropriation measures for governmental departments.

Price Control Heads List

Top on the calendar is legislation prolonging the wartime price control and economic stabilization program to prevent its expiration June 30.

Virtually every one on Capitol Hill concedes a need for extending the program, but fireworks were sputtering over proposals to ban subsidies and to reduce the list of controlled articles.

Sharing the spotlight with the OPA bill are proposals to extend the lend-lease program for another year and a $3,500,000,000 Senate-approved "G. I. bill-of-rights" measure to provide educational, unemployment and other benefits for veterans of World war Two.

Behind-the-scenes, a fight was shaping up over the question of bringing up the anti-poll tax issue again.

Poll Tax Requirement

Administration forces in the Senate, tentatively committed to bring up a House-approved bill prohibiting the collection of a poll tax as a requirement for voting in federal elections, are being besieged with southern demands to let the matter drop. At the same time, acting Minority Leader White of Maine and other Republicans say they will vote to break a threatened filibuster to permit action on the bill.

Meanwhile, a Senate judiciary subcommittee will open its investigation into the liquor shortage, and other committees will continue their inquiries into the post-war problems of oil, aviation and communications. A report by the Truman committee on its investigating into the cracking of some liberty ships also is in the offing.

DADS GO AHEAD

TEMPLE, April 11 (AP) — The Temple draft board today decided there was nothing wrong with American dads over 26. Eight of 16 men leaving for the Navy today were advised they could remain at home, all of them being fathers over 26. All eight chose to go ahead.

Brown Given 99-Year Term

LAMESA, April 11 (Special)— A 99-year penitentiary sentence was assessed Monday afternoon against W. C. Brown for the hammer slayings Feb. 2 of two women at Brownfield.

The 29-year-old former convict who 10 years ago served a term in an insane asylrm from Archer county pleaded guilty, and the jury, of which Jack Barrow was foreman, required only 15 minutes of deliberation to reach a verdict.

Venue Change Ordered

The women were Mrs. Cora Smith, 67, of Brownfield, and her stepdaughter, Mrs. Quinley Dunlap, about 40, of California.

Special Judge J. E. Garland opened the case for hearing Monday morning, after he had shifted venue from Brownfield to Lamesa on his own motion.

Brown waived the statutory two-day period in which he may ask for a new trial.

The state used three witnesses, the defense one.

The 12th juror was selected after 29 persons had been examined for qualifications.

The prosecution was in charge of District Attorney Rollin McCord and his assistant, Karl Cayton, Dawson county attorney. Counsel for Brown were W. W Campbell of Lubbock and Carl Rountree of Lamesa.

Slain In Back Yard

The women were killed in Mrs. Smith's back yard. Brown and his parents had been helping Mrs Smith and the younger woman pen some chickens, in connection with Mrs. Smith's plans to move to California. The ex-convict battered them to death when his parents were out of sight briefly.

Other than Barrow the jury comprised Jim Hinson, Raymond Cope, Russell Martin, E. C. Mahoney, I. L. Honeycutt, James T Dunn, W. T. Ellis, Loo Radle, W E. Cameron, J. R. Luenberger, and Jesse Carrel.

Two Mexicans Killed In Truck Accident

MARTINSVILLE, Ind., April 11 (AP)—A truck from Laredo, Texas, carrying 35 persons — many of them Mexican laborers and their families — to work in sugar beet fields near Lansing, Mich., overturned near here, killing a young man and a four-month-old baby.

State police said the dead youth was Joseph Cervantes, 16, of Eagle Pass, Texas, and the baby was the daughter of Lucius and Matilda Garcia, whose address was not immediately learned.

POISON GAS CHARGED

NEW YORK, April 11 (AP) — The Germans and Romanians "used poison gas against the partisans" during their occupation of Odessa, the Moscow radio said today in a broadcast.

Texans In Washington On Poultry Problem

AUSTIN, April 11 (AP) — A committee of Texans was in Washington today for discussions of the Texas poultry situation.

A conference with War Foods Administrator Marvin Jones on surplus eggs was to be held today. The price ceiling on broilers was to be discussed tomorrow with Economic Stabilization Director Fred Vinson.

Meantime Gov. Coke R. Stevenson issued an appeal to Texans to use all the eggs possible.

More Penicillin To Be Produced, But Civilians Must Wait

BY HOWARD BLAKESLEE
Associated Press Science Editor

CLEVELAND, April 11 — Soon 21 new penicillin manufacturing plants in the U. S. and Canada, costing $20,000,000, will be making nine pounds of pure penicillin a month.

Enough perhaps for the military forces, but not enough for a date to be set when this life-saving drug can be given to the public without restriction.

The penicillin developments were reported to the American Chemical society today by Dr. Robert D. Coghill, of the U. S. Department of Agriculture at Peoria, Ill., where much of the penicillin work has been done.

Will Treat 250,000 Cases

The nine pounds will treat only 250,000 cases of severe illness, but will do for 2,500,000 cases of gonorrhea or other comparatively mild infections—mild, that is, when penicillin is the remedy.

The cost of making penicillin has dropped 84 per cent in the past year, so that the dosage for a severe illness costs about $35; and for gonorrhea $5.00.

"However," said Dr. Coghill, "the price will undoubtedly go much lower, and pencillin will be within reach of everybody."

Diseases Are Named

He named the diseases for which pencillin is good and all but one are the same as those where sulfa drugs are good. The exception is syphilis which Dr. Coghill put in the "possible" class.

There are now three methods of growing penicillin where there was only one a year ago. By one of these it can be grown in vats instead of bottles. Nevertheless, Dr. Coghill said, only nine pounds a month from $20,000,000 worth of plants is "utterly fantastic." Methods of producing it faster are not now in sight, but are expected.

Penicillin production today is enough for 40,000 severe cases a month. One year ago it was only enough for 400.

Cleaning Naptha Is Used As Auto Fuel

WASHINGTON, April 11 (AP)— The Petroleum Administration for war took steps today to curb what it termed the spreading use of cleaning naphtha as an automobile fuel in violation of rationing restrictions.

The agency issued a new order providing that consumers and service station dealers cannot include in their naphtha quota any product which, prior to 1942, was sold as motor fuel.

Australia is the only country other than the U. S. which has any wild species of Nicotiana, or native tobacco plant.

Australian Minister Answers Criticism

MELBOURNE, Australia, April 11 (AP) — Australian War Minister Francis Forde, replying to criticims of his announcement that 90,000 Australian soldiers would be released from military duty to meet war industry manpower shortages, today explained that all but 20,000 of the men involved normally would be discharged for unfitness.

Forde said it was decided last October to allocate 20,000 army men to industry and that an additional 70,000, who normally would be discharged for unfitness, would be transferred directly into war industries.

The war minister said that since then there has been no new decision to reduce the size of the Australian army. (Unofficial estimates place the army's size at approximately 800,000 men).

The October decision, Forde said, was made after the British government requested an increase in the Australian exports of meat and butter and after U. S. forces in the Southwest Pacific asked for increased supplies of the same commodities.

Australia has no intention of reducing her scale in the war effort, Forde said, and she remains one of the most completely mobilized of all the United Nations.

WEDDING IN ENGLAND

SOMEWHERE IN ENGLAND, April 11 (AP)—Capt. Quentin Roosevelt, 24, son of Brig. Gen. Theodore Roosevelt, and Miss Frances Webb, 26, of Kansas City, an American Red Cross worker, will be married Wednesday morning in an English church, it was learned today

NAZIS FLEEING CRIMEA

ISTANBUL, April 11 (AP) — The Germans have rushed a score of pocket submarines to Varna and Constanta, apparently to protect convoys of small boats evacuating stranded Axis troops from the Crimea, a traveler from Romania said today.

Farm Machinery Quota Is Boosted

WASHINGTON, April 11 (AP) — With farm machinery manufacture trailing 22.7 per cent behind schedule, the War Production board is boosting the quotas of those plants that can stand more pressure.

While asserting it is impossible to catch up with the 1944 crop season goals, WPB officials said they hoped to make up a good part of the production deficit before the harvest starts.

It was learned simultaneously that the foreign rehabilitation program of farm equipment production has been cut deeply and resubmitted to WPB as a six-month program sponsored by the Army.

WPB officials canvassed the entire farm machinery industry after obtaining from the War Food administration a list of the equipment items most urgently needed. Each manufacurer was asked how much additional equipment of the urgent types he could build and WPB now is authorizing increased quotas for those who have indicated their ability to handle extra production.

VON PAPEN IN ISTANBUL

NEW YORK, April 11 (AP)—The Berlin radio said today that Franz von Papen, German ambassador to Turkey, has arrived in Istanbul from Ankara and "will give a very great reception in the next few days." The broadcast gave no further indication of the reason for von Papen's presence in Istanbul.

Cleanup Committee To Meet Thursday

First meeting of the cleanup-paintup committee of the chamber of commerce since last summer has been called for Thursday morning at 10:30 o'clock in the directors' room of the chamber, Chairman J. E. Maisen announced today.

Purposes of the meeting, he added, will be to elect a new chairman and to decide whether a cleanup-paintup campaign is to be conducted this year. If the campaign is decided upon, dates will be set.

The committee then must decide whether to conduct strictly a community campaign or to participate in a contest sponsored by the National Cleanup, Paintup, Fixup committee.

Lubbock was the winner of the trophy emblematic of the cleanest city in Texas during the 11 consecutive years through 1940 that it took part in the national competition.

Finland To Decide On Armistice Terms

STOCKHOLM, April 11. (AP) — Finland probably will decide Wednesday or Thursday whether to accept the Russian armistice terms obtained by Dr. Juho K. Paasikivi, it was indicated today as Finnish political leaders returned to Helsinki after an Easter holiday spent sounding out public opinion.

Tomorrow parliament meets for its first post holiday session and it is likely to reach some decision by Thursday.

Florida Labor Law Ruled Out

WASHINGTON, April 11 (AP)—The Supreme court Monday ruled unconstitutional a Florida law making it criminal for a person to obtain money by fraudelent promise to perform labor.

In a 7-2 opinion delivered by Justice Jackson, the court declared the law violates the 13th amendment (prohibiting involuntary servitude) and the federal anti-peonage statute.

The case involved Emanual Pollock, of Brevard, county, Fla., whom the court described as an illiterate negro. Pollock pleaded guilty to a charge of obtaining $5 from J. V. D'Albora with a promise to work which he failed to carry out.

Jailed In Default of Fine

He was fined $20 for each dollar of the five, and in default of payment was sentenced to serve in jail at the rate of less than nine cents a day until the debt was discharged.

The court's opinion said the unquestionable aim of the 13th amendment and the anti-peonage act "was not merely to end slavery but to maintain a system of completely free and voluntary labor."

The court said it had several times overruled laws similar to the Florida statute but had always established the state's right to punish fraud. Then the opinion added:

Statutory Command

"Deceit is not put beyond the power of the state because the cheat is a laborer nor because the device for swindling is an agreement to labor. But when the state undertakes to deal with this specialized form of fraud, it must respect the constitutional and statutory command that it may not make failure to labor in discharge of a debt any part of a crime. It may not directly or indirectly command involuntary servitude, even if it was voluntarily contracted for."

In another case, the court ruled 8 to 0 (Chief Justice Stone not participating) that the National Labor Relations board could order a company to bargain with a union which had lost its majority among the firm's employes after the company "wrongfully" refused to bargain.

Yugoslavia Wants Place In UNRRA

HEADQUARTERS OF THE YUGOSLAV PARTISAN MISSION in Italy, April 11 (AP)—Dr. Josip I. Smodlaka, foreign minister of the Yugoslav partisan government, appealed in an interview today for assistance in gaining for Yugoslavia "proper representation" in the United Nations Relief and Rehabilitation administration.

At the same time, talking with three American correspondents, he asserted the Allies were "tending to forget" the war crimes of Italian soldiers and officers in Dalmatia.

He was deeply moved and spoke slowly and with difficulty. At times, tears rolled down his face.

He asserted King Peter's Yugoslav government-in-exile had shown itself not interested in obtaining such vital necessities as food and clothing for his ravaged country and it "also has fallen completely out of touch with its suffering."

Oklahoma gets its name from an Indian name meaning "land of red men."

Southwest Pacific Outlook Said Bright

LOS ANGELES, April 11 (AP)—The general picture in the Southwest Pacific is indeed bright, and are running well ahead of schedule," says Vern Haugland, home for a vacation with relatives after 27 months' duty as war correspondent for the Associated Press on Pacific war fronts.

Describing the United States Navy's newest triumph in the western Carolines as added evidence that the Japanese have lost their offensive punch, Haugland observed:

"The Jap is a tough man on the ground, though, and the war in the Pacific is still a long way from won, but things are moving along with almost unbelievable speed."

The correspondent survived several close brushes with death. Forced to parachute from an Army bomber that encountered bad weather over New Guinea in August, 1942, he wandered for 43 days in the wilds of the Owen Stanley mountains before reaching a native village. His diary of the perilous hike provided one of the most moving narratives to emanate from the Pacific war area.

Ford Assigns Project For Use By Veterans

DETROIT, April 11 (AP)—Henry Ford announced today that a 300-acre camp in suburban Dearborn which has been used as a trade school and farm project for high school-age boys has been converted into a rehabilitation center for disabled World war II veterans who have medical discharges.

The announcement said the program, planned especially for veterans who wish to return to industry or farming, will combine work on the camp farmlands and in the camp machine shop with classes in supplementary subjects.

Fighter Group Sets European Record

LONDON, April 11 (AP) — The Mustang fighter group of Col. Don M. Blakeslee established a new European theater record Saturday by destroying 31 German planes in the air.

Though others have shot up more enemy planes in a single day, counting both planes on the ground and in the air, the previous aerial combat record was 30 set by the group led by Col. Hubert Semke of Missoula, Mont., March 8.

The total score for the group command by Blakeslee, Fairport Harbor, O., ace, now stands at 373 on the ground and in the air.

Ace In Europe Lost In Action

LONDON, April 11 (AP) — Maj. Walker Mahurin of Fort Wayne, Ind., failed to return from a mission over enemy territory on March 27, it was announced today. At that time he was the third leading American ace in the European theater of operations with 21 victories over enemy aircraft.

His mother, Mrs. Guy Mahurin of Fort Wayne, was notified today by the War department her son was missing in action.

The Eighth Air Force Fighter command declined to make a statement regarding the circumstances of Mahurin's disappearance.

However, on March 27 Fortresses and Liberators raided nine French air fields and the Tours railroad yards. It was assumed Mahurin was lost while escorting the bombers on one of these raids since the records show no other Thunderbolt plane operation that day. The missing pilot was one of the most successful Thunderbolt fliers in this theater.

Trailed Two Others

He was ranked then behind only two other pilots—Capt. Don S. Gentile of Piqua, O., and Capt. Robert S. Johnson of Lawton, Okla., each credited with 22 kills. Capt Gentile now claims 30 planes and has received confirmation for 27.

Mahurin's promotion from captain to major was announced March 23 when he had 20 planes to his credit. He bagged the 21st four days later.

Mahurin's promotion from cap German Air force could be eliminated as an effective weapon of war in 15 days of combat. Mahurin, who concluded he was scared to death on every flight, claimed:

"We definitely have superiority. It shows the trend more than anything else when we can go all the way in there (Berlin) and shoot them up."

SURE! YOU CAN KEEP YOUR CAR ROLLING FOR THE DURATION

If your tires are worn smooth and you're worrying about whether they'll carry you through until you can buy new tires again . . . here's the answer to your problem.

Bring us your worn casings just as soon as the treads wear smooth. Expert workmen using the best recapping materials money can buy will put new treads on your tires that will give them a new lease on life—keep them rolling for thousands and thousands of extra miles.

The important thing is don't wait until the fabric shows through. Then it may be too late to save the tire's life. If you have just one smooth tire or four, come in today. No certificate needed.

THIS IS THE SIGN of a local, independent business built on experience, knowledge, skilled service, products of quality.

THIS SIMPLE 3-STEP PLAN SAVES TIRE MILES

1. KEEP SPEED DOWN under 35 miles an hour. Drive slowly—especially on curves. Avoid holes, ruts and curbs. Start and stop carefully.

2. KEEP AIR PRESSURE UP to 32 pounds all around. Even standing in the garage, your tires may lose as much as 10 to 20% of their air pressure in just one week.

3. RECAP IN TIME. As soon as your tire wears smooth, bring it to us for thorough inspection.

Chandler, Bonham Spared For Yanks

Ace Hurlers Get Draft Respite

NEW YORK, April 11 (AP) — Spud Chandler and Ernie Bonham, who between them pitched 35 winning games for the world champion New York Yankees last year, will be back with the Bronx Bombers when the baseball season opens a week from today.

The news that Chandler, who won 20 and lost four, and Bonham, who won 15 and lost eight, will rejoin the team before the end of week, was a tonic to Manager Joe McCarthy. The 34-year-old Chandler and the 30-year-old Bonham both had been certified as acceptable for military service. However, neither has been called up and under the latest ruling of selective service, restricting the drafting of those older than 26, may be able to play for a short time.

Nats Best Navy Nine

Other major league news:

Washington Senators: Outfielder Stan Spence and First Baseman Joe Kuhel were heavy hitters as Senators banged out 15 hits in beating Bainbridge Naval station.

Chicago Cubs: Five rookies to start against White Sox Thursday: Don Johnson 2B; Bill Schuster SS; Tony York 3B; Andy Pafko CF and Billy Holm, C. Bill Nicholson, slugging outfielder, expected to bat third instead of cleanup.

Wilks Reports To Cards

St. Louis Cardinals: Only bright spot in St. Louis was arrival of Ted Wilks, Cardinal pitcher. Inclement weather curtailed workouts for both Cards and Browns.

Pittsburgh Pirates: Infielder Pete Coscarart expected to start third season with team against Cleveland at Indianapolis. Coscarart, who previously said he'd stick to war job at Escondido, Calif., reported yesterday.

Brooklyn Dodgers: Bobby Gragan, who used to play shortstop for Phillies before turning to catching, may play third for Dodgers this season. He reported yesterday and was promptly put on the hot corner.

Griffith Discounts Draft Rule Effect

WASHINGTON, April 11 (U.P.)—President Clark Griffith of the Washington Senators said today that he believed a selective service ruling involving 13 of his Latin-American imported players would have little effect on the team's chances in the American league pennant race.

"We had planned to retain only about four or five of the Latin-Americans for the regular season anyway," Griffith said. "Several of them already have been farmed out to minor league farm clubs."

Griffith said the draft age players imported had been informed at the time that they would be subject to the military draft and that most of them would stay with the club and take their chances on being called for service.

The selective service order issued yesterday, requires that the 13 players must register by June 12 or return to their native countries.

Annual Tarpon Rodeo Slated April 22-23

BROWNSVILLE, April 11 (AP)—The eighth international tarpon rodeo will be held in the Rio Grande below here April 22-23, J. H. Batsell, secretary of the International Tarpon club, announces.

Top award in the fishing event will be the Herald cup which last year was won by Joe Wells, who landed five tarpon in a single day of fishing. He will return to defend his championship.

Ride The Bus... BE ON TIME

We take pride in the fact that Texas-New Mexico and Oklahoma Coaches are always on time with more than 52 schedules daily into and out of Lubbock. These schedules are kept on time by the close cooperation and study of every man and woman in this organization.

Next time, RIDE THE BUS . . . the nation's safest, fastest, most economical form of transportation.

and remember . . .

Our busses can serve you better if you plan your trip on week days instead of over week ends!

You can help us do a better war job by carrying only one piece of luggage . . . extra pieces may take up seating space needed by men and women in uniform and other essential travelers. May we have your cooperation!

UNION BUS TERMINAL

Betting Heavy At Race Tracks

National Lottery Favored By Cuddy

BY JACK CUDDY
United Press Sports Writer

NEW YORK, April 11 — We hope that some of the senators and congressmen at Washington noted the huge attendance and heavy betting during the first two days of the Jamaica race meeting — 78,136 fans and $4,344,304.

These figures indicate that more than one billion dollars will be wagered at U. S. race tracks during 1944, bettering last year's total mutuel handle of $710,779,432.

More important, these figures are up-to-the-minute manifestations that the public is missing no chance to place a bet; even though the Washington legislators are missing out on the opportunity of a life-time by failing to harness the betting urge — by making no move toward establishing a national lottery.

Lottery Favored

In these war days, when every available source of revenue apparently is being tapped by the federal government, and when the people — particularly the 20,000,000 "white-collar" workers —are burdened by the combination of heavy taxes and increased living costs, it seems downright stupid to us that the lottery is scorned. It has been estimated that a national lottery, operated on a monthly basis, would net the government about $2,500,000,000 a year.

This would be taxation with some fun attached. But apparently our holier-than-thou legislators regard the lottery as immoral, forgetting that our forbears often used this method of raising funds —forgetting that George Washington, for example, signed one of the first tickets issued in the Continental Congress in 1776 to raise money by lottery to fight the British.

Our conservative forefathers did not fret about what our current legislators might term "a compromise with morality." They turned cheerfully to the lottery not only for military purposes, but for building churches, colleges, public roads, canal systems, etc. The little tickets were used at times in raising funds for Yale, Harvard, Columbia, Princeton, William and Mary, Union and University of Maryland.

Federal Restriction Needed

If the lottery had been restricted to federal use, all would have been well; but as used by the states — in combination with private enterprise — it deteriorated into such rackets as the Louisiana lottery, which was abolished in 1892.

The lottery and its blood-brother, the sweepstake, are illegal in the United States. Postal regulations prohibit use of the mails for distribution of tickets. State laws generally forbid the sale of tickets.

But the American public has continued to participate in this brand of entertainment for years —buying tickets in the Irish sweepstakes, Calcutta sweepstakes, Canadian army and navy stakes; and in the French, Italian, Cuban, Panama, etc., lotteries. The public also has played the great American "policy" racket, with fervor. Before Pearl Harbor, it was estimated that Americans were spending about six billion dollars annually on foreign tickets and domestic "numbers" without Uncle Sam cutting in. Just another 18th amendment.

Schoolboy Pitcher Hurls Two Consecutive No Hit Games

NEW ORLEANS, April 11 (AP)—There's a curly-hafred schoolboy pitcher down here who heaves the ball in such a curly fashion that nobody's been able to officially hit it this season.

In two starts for Holy Cross High school the slim six-foot Dick Callahan, 20, has come through with hitless, runless jobs. Only one batsman has been able to bump the ball out of the infield. Twenty six batsmen failed to touch it, which is to say, they whiffed.

Won 10, Lost None

Last year he won 10 and lost none boosting his Holy Cross buddies into the city championship, fanning 18 batters in one contest.

The youngster has a fast ball that squirts over the plate like a jet-driven aspirin tablet and he mixes this with a sharp sliding curve. Because Callahan is singularly hard to hit, it has gotten to the point where fans of opposing teams sheepishly applaud batsmen who get foul strikes off him.

Following last season he went into the navy, but was invalidated home recently when an old knee injury "began acting up." His coach, George Digby, says however that certain big league scouts are not alarmed at the condition of the knee and that they are eager to sign Callahan.

Joe Louis Planning To Fight Bill Conn

LONDON, April 11 (AP) — Sgt. Joe Louis, who is in Great Britain to give a series of morale-building exhibitions for American GI's, declared today he plans to fight again after the war, with Billy Conn as his opponent.

"I have set no age limit for when to retire," said the heavyweight champion. "I am planning to fight Conn after the war, because since titles are frozen for the duration, positions such as the number one challenger also should be frozen, and Billy is it."

Louis, who wound up his first press conference with an exhibition "Go" before 300 cheering soldiers, declared there was no chance of his taking on British Champion Freddie Mills, which British sports fans were anxious to see.

Lt. Jesse Dow Is At St. Mary's Pre-Flight

MORAGA, Calif., April 11 (AP)—St. Mary's pre-flight school has three new sports directors.

Lt. Comdr. George Clark, naval athletic director, announced the following appointments to replace men transferred to other stations or sea duty:

Lt. Floyd B. Foreman, Laramie (Wyo.) High school coach, sports program director; Lt. (j.g.) Frank C. Hopkins, University of Southern California basketball player, basketball coach Lt. (j.g.) Jesse L. Dow, West Texas State Teachers college, head coach tumbling and gymnastics department.

Sports Roundup

BY HUGH FULLERTON, JR.
Associated Press Sports Writer

NEW YORK, April 11 (AP) — In the midst of that opening-day mob scene at the Jamaica race track, a couple of fans got into a fist fight in front of the press box . . . The cops hauled them apart with as little delay as possible. . . . Whereupon another seeker after outdoor recreation, a wad of greenbacks in his hand, jumped up on his seat and offered: "Two to one they don't throw 'em out of the park. They've still got their dough."

A ROOKIE A DAY

Tony Ordenana, Pirates—Pittsburgh's version of "good field, no hit." . . . At Portsmouth, Va., last year Prexy Frank Lawrence called the Cuban shortstop the best infielder his club had had since Pie Traynor in 1920 . . . Confident Tony agrees, though he hit only .249 in the Piedmont league. . . . But you should have heard what old Honus Wagner had to say when Tony missed a grounder in an exhibition and then staged a gaudy display of peevishness . . . The printable part was: "Who do you think was going to pick up that ball for you? The groundkeeper?"

SHORTS AND SHELLS

Lou Nova, who probably isn't any worse than most of the active heavyweights, has been booked for bouts in Des Moines, Minneapolis, Tulsa and Kansas City following his Omaha "opener" next week . . . End O'Neal Adams and Back Hubert Barker of the football Giants, are building bombers in a Tulsa, Okla., plant. Probably they'll name one "Luckman" . . . Prexy Bill Streit of the southern A. A. U. wants all service men to know that the national senior weight lifting championships and the "Mr. America" contest will be held at Chattanooga, Tenn., May 27 . . . Heck, any guy in a G. I. uniform could qualify for that title.

Return Bout Planned For Zurita, Jack

MEXICO CITY, April 11. (U.P.)—Negotiations were being completed today for a return bout between the National Boxing association's lightweight champion Juan Zurita and Beau Jack of Augusta, Ga., who defeated him recently in a 10-round non-title bout at New York.

George Parnassus, Zurita's manager already had agreed to the bout and that he would meet with officials to work out "minor details."

Parnassus indicated the bout would be a 15-round affair with the N.B.A. title at stake. The date for the fight will be set later.

Siebert Aims At Hit Title

Bat Is 'Treated' By Teammate

By CHIP ROYAL
Associated Press Sports Editor

FREDERICK, Md., April 11.—Any hitters in the American league who have designs on the batting crown this year had better keep a good eye on Dick Siebert and Earle Brucker.

The Siebert-Brucker combination is sort of ganging up on the rest of the boys to make certain that Siebert wins the swat title he has coveted for many years.

Sieb, of course, is none other than the classy Philadelphia Athletics' first baseman. Bruck is one of Connie Mack's coaching aides.

It seems that the two friends got together when Spring training opened here and tried to figure out what had happened to Siebert's hitting the last two years.

Hit .334 In 1941

They traced it back to 1941 when Dick really smacked that old apple around and wound up with an average of .334. Then he fell to .20 in 1942, and .251 in 1943.

"I couldn't understand it," explains Siebert. "I changed my stance a little in 1941 so that I was facing the pitcher more. Al Simmons also suggested that I bend my knees, which I did, and the hits seemed to roll off my bat.

"Well, to make a long story short, Bruck pointed out that I didn't use the same bat the last two years. In 1941, I used his bat, and he always bones it and heats it once in a while to keep it in shape.

"So Bruck offered to treat my bats for me," continues Siebert, "and I will pay him a dollar for every point I hit over my average last season. I think that will do the trick.

"I figure this is my year," smiles Dick. "I never felt more like playing, and I never had so much confidence in a team. We're going to be tough to beat."

All of which is enough for Mr. Mack to add: "Amen."

Bob Falkenburg Sent To Mitner Field

WICHITA FALLS, April 11 (AP)—Pvt. Bob Falkenburg, 18-year-old national tennis star, has arrived at Mitner field, near Los Angeles, Calif., his home, for "on the line training," Sheppard field officials revealed today.

The youngest of the famed five-member Falkenburg family which includes screen actress Jinx came here last February for basic training.

Private Falkenburg was the third national tennis personality to take basic training at Sheppard field. Don Budge, now a lieutenant, serving as public relations officer at Lubbock, and Bitsy Grant, a corporal with the AAF in New Guinea, had basic training here.

This Is Good Trick If It Works Right

LONDON, April 11 (AP)—Gilbert Tomes, former BBC engineer, has devised an apparatus which makes it possible to pick the queen bee out of a swarm of 50,000 bees with great ease. The device, it was explained, picks up a ray sent out by a speck of radio-active material daubed on the queen bee's back.

The engineer didn't say whether he had invented a device to hold the queen bee while the speck is being daubed on.

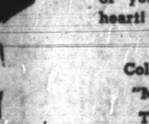

The first diadems, worn by the ancients instead of crowns, were made of silk or wool and set with precious stones.

What Readers Of The Evening Journal Say—
The Plainsman Gets Some Mail

(EDITOR'S NOTE: Letters from readers are welcomed at all times and on all subjects However, no letter of more than 300 words will be considered for publication, and all letters belittling, or impugning the motive of any individual, firm or corporation must include for publication, the true name of the author. The Editor shall be the sole judge of whether or not letters may be published and cannot engage in correspondence concerning them).

TRASH TROUBLES

Dear Plainsman: Is there any way by which people can be required to own and use a trash barrel? A family living near us has a bushel basket that doesn't begin to hold all of their trash, even if they saved their tins and waste-paper. So when their basket is full the rest is tossed on the ground and the wind then has a fine time scattering it around the alley.

Due to the housing problem we are lucky to have a house, even if it's on the alley, but it doesn't help to have to watch people toss trash and garbage over the fence or through the gate to fall where it will. I don't think that's fair when the other people try to keep their parts of the alley clean.

Even the garbage collectors are disgusted and have asked them to buy a trash barrel. The lady we rent from reported the condition, but to no avail.

When we moved to Lubbock two years ago, my first impression was "what a clean little city." A few careless citizens can keep others from sharing that impression. I'm writing to you because from reading your column daily, I realize that you have enough civic pride and influence to act on such matters with results.

Sincerely,
Mrs. R. B. Hamlett,
Lubbock.

(Dear Reader: Dr. J. W. Rollo, who heads the city's department of health and sanitation, informs me there is an ordinance covering the subject of which you write. He can give you full information. Very truly yours, The Plainsman.)

ANSWERS CRITICS

Dear Plainsman: Yes, maybe too much is being said about Texas. But, for the love of mike, if those out-of-staters will shut up about Texas, Texans surely will hush for before outsiders started swarming in and making fun all this "bragging" didn't take place.

I, personally, don't believe in bragging, but being only human, and being of the nature to stick up for what I think is right, and being so much like other people who argue—inclined to stretch the truth to a mighty something if it takes that to keep up—I suppose I will just keep on arguing about Texas, when the out-of-staters insist upon just that.

Now when a soldier gripes about Texas and Texans, I try to overlook that for he probably gets some comfort out of fussing. He is homesick, blue and has been sent here not of his own choice. That's being pretty broadminded to spare the soldier for some of them certainly can be overbearing in their mighty slams about this state and its citizens. After all, the Texas men have been taken from their homeland, too, and sent to "foreign soil"—New York, Chicago, and etc.

But the wives of these fighting men just use bad judgment when they strike up a roar. You'd think, since they don't have to stay in Texas as they are not in the Army and compelled to do so, that they would get themselves back in their "wonderful" states if they hate Texas and Texans so badly. What do they do while they are here? A great number of them have gotten jobs and are helping out, occupying their minds with useful things. But just as great a number of them just sit and gripe.

A lot of this so-called bragging is not actually done by Texans. Instead, it is those I-know-so-much non-Texans who make up a slogan and scream it far and near as if some Texan had said it. Do you hear Texans very often quote "Help Texas win the war?" No! You hear some outsider say that, then act as if Texans had suggested it!

If those griping outsiders were considerate at all, they would realize that while they are here in Texas we Texans are having to put up with them. And for Heavens sake, we are as anxious as they for them to get their "passports" and get on back home. We would probably be just as dissatisfied in their state.

But one thing sure, when I go to some other state, I hope that I can show enough intelligence to keep my mouth shut about the land and its occupants. I hope I can remember that it is theirs, God bless it and them, and I wouldn't want to do anything to harm it—or them.

With respect for those who respect.

Just one of many Texans,
Lubbock.

SCHOOL REPORTS

Dear Plainsman: During these times of gasoline and tire rationing it is going to be impossible for us to take trips when our vacation times get here and naturally we try to think of ways to pass this time off.

I would suggest that the School Board, of which you are a member, establish a two weeks course, at the taxpayers' expense, to instruct the parents of school children in the art of reading their report cards. I am not sure that this could be done in two weeks, but surely enough of them could absorb the proper amount of intelligence to instruct the balance of us at odd times.

Our cards came home this past week and the Mrs. (you would call her the Little Woman) was very disturbed about one of them. She made a trip to school to discuss the situation with the teacher. The teacher was of course glad to see her, and told her that she had intended to write her a note, saying that the child was making such nice progress. When the Mrs. asked her why the report card was worse than last time she could offer no reason for this.

I just wonder if the teachers understand this grading system. She really thought progress had been made and intended to write and brag on the pupil.

Now surely if the teachers and parents do not understand it, I cannot understand why this system is continued.

Sincerely,
A Taxpayer, Home-owner and Parent.

(Dear Reader: Thanks for your letter. I agree with you. I think the newfangled report cards might just as well be written in Sanscrit—and as for this "level" business, it has never made sense to me. I shall be glad to bring the matter up at the next board meeting to see if it can be changed at the end of this year. Cordially yours, The Plainsman.)

The earliest lighthouses on record were towers built by the Libyans and Cushites in lower Egypt.

"Niz, lady. I want a bowl of Wheaties!"

Apparently there's no substitute for that famous "Breakfast of Champions." Once you've tasted Wheaties "second helping" flavor, you'll understand why. Build your breakfast around fruit, milk and a bowlful of Wheaties—America's favorite whole wheat flakes.

ALLEY OOP — HE PEDDLED 'EM — BY HAMLIN

THE LONE RANGER — THE RANGER HAS HIS SAY — BY FRAN STRIKER

DONALD DUCK — By WALT DISNEY

The PLAINSMAN Says:

That Girl on Broadway says a man isn't really famous until the colleges start honoring themselves by showering him with degrees.

* * *

"Before a man is allowed to run for office, he should have to pass a mental test," declares a contemporary editor.

In such a test, how much should the fact that he wants to run for office count against him?

* * *

AL GLASSMAN, Morris Levine's right-hand man, poses the first suggestion yet presented for the new mayor and the balance of the Lubbock City commission. Mr. Glassman thinks some downtown alleys—if not all of them—should be made "one-way" affairs, to facilitate the delivery of goods to local merchants.

Mr. Glassman says he is sure that every merchant in town would be glad to see the traffic system for alleys be given a going over, so that less blocking and confusion will result.

He says the move will also be applauded by deliverymen, the drivers of the city's trashwagons, and all others whose business takes them into downtown alleys with vehicles of one kind or another.

* * *

Mr. Glassman says it is not unusual for the alley behind Levine's store — the one running east and west between Texas avenue and Avenue J—to be jammed up for an hour or more.

Add to that a similar mixup of the intersecting alley — that one running north and south between Broadway and Thirteenth — and you have quite a mess.

He says, for instance, that if the east-west alley were made a "one-way" affair—say east-to-west only; and if the north-south alley were "one-way" from north to south, that much trouble and confusion would be eliminated.

He thinks that if most, if not all, of the downtown alleys between Main and Fourteenth and Avenue H and Avenue L were so revamped, everybody would be happier.

* * *

AMONG the one or two troubles The Plainsman happily does not have are those connected with alleys.

But when in a hurry to get somewhere, we sometimes use them, especially the east-west alley between Texas and Avenue K. Over years of thus dodging our creditors we have noticed that there are several factors which contribute to alley mix-ups.

The first is, there's a good deal of surreptitious alley parking, resorted to for no other reason than the driver of the vehicle thinks he's in too much of a hurry to park a block away from wherever he's going.

In the second place, drivers of delivery cars and trucks frequently leave their vehicles behind stores for which they have deliveries while they visit with pals, or go get a cup of coffee.

Probably by following Mr. Glassman's idea, and by keeping a more wary eye out for alley parkers, the proper authorities can solve the alley trouble.

Anyway, it's probably worth looking into.

* * *

The theory that politics and religion won't mix never has been properly tested.

In all experiments made to date, politics rose to the top because an inferior grade of religion was used.

* * *

A new day soon may be dawning for Lubbock and Northwest Texas youngsters who, at birth, were victims of the strange malady known as spastic paralysis. For a group of parents whose children are so handicapped expect a visit to Lubbock before long by the celebrated Earl R. Carlson, M.D., of New York and Florida.

Doctor Carlson, himself born a spastic, has given his entire professional life to combatting the ailment. When he comes to Lubbock, probably in May, he expects to appear before interested parents, members of the Lubbock-Crosby Medical society and members of the Lubbock Crippled children's council and, via moving pictures, show his methods of treatment.

When here Doctor Carlson personally, and without making professional charge, will examine youngsters who are spastics. At least 15 such children have been located thus far in this general area. Most of them live here, or near here, although one is in Midland and another in Vernon.

* * *

The Plainsman has been asked to get the word out to parents of victims of spastic paralysis that a visit by Doctor Carlson is impending. This we are glad to do, because Doctor Carlson has had more than 8,000 patients among spastics and apparently is able to do more for them than anyone else.

Parents of children thus handicapped are asked to get in touch by mail or telephone with Mrs. A. E. Jones, 2112 Sixteenth street, Lubbock. Her telephone number is 7627.

It is believed that there are about 30 or 40 children in this general territory handicapped by spastic paralysis. Therefore, if any reader knows of such a child, will he please pass this information along to its parents?

This is very important. It might result in the reclaiming of a life otherwise doomed to wither endlessly.

* * *

AN anonymous note, signed merely "A Friend," from Tahoka invites The Plainsman to go down to the Lynn county capital and have a look at what is described as a beautiful honor roll plaque, which bears the name of every man and woman gone into the uniformed services thus far from the homes of Lynn county.

Certainly, The Plainsman will go down to see the plaque at his earliest opportunity. That's a fine thing for a community to do in the way of commemorating the patriotism of its sons and daughters.

Every city, large and small, should do the same thing.

* * *

A Nazi official says the U. S. is "running low on the prime essentials of war."

That's how much he knows about it. Why, we could strip the costume jewelry off our women and have enough assorted materials to run the war for six months!

* * *

That Man on Avenue Q says perhaps the main secret of Mrs. Roosevelt's popularity lies in the fact that she never stays in one place long enough to bore anybody!

* * *

It has been many months since anyone in this country has been kidnaped and held for ransom.

We don't know whether to credit this to the activity of the FBI—or the Bureau of Internal Revenue.

* * *

B. E. ADAIR, the music man, says not all of Lubbock's temporary citizens, brought here by Army installations, are unappreciative of this city.

He fixed an accordion recently for the wife of an Army officer stationed here and before he was through with the job, the officer was transferred to a Kansas station. The wife, upon receipt of the accordion, wrote from Kansas:

"Lubbock really was a picnic compared to this — that is, the field, itself. As for the town, it can't compare with Lubbock in size, cleanliness and activity. We miss the place!"

* * *

One of the boys here on the paper, and his wife, had as a luncheon guest the other day their five-year old nephew. The uncle and aunt were drinking iced tea.

"What's that you're drinkin'?" asked the little fellow.

"It's tea," the aunt explained.

"Sure is funny tea," observed the youngster. "It don't foam like the tea at our house!"

* * *

If you're mad about the size of your tax bill, here's a way to get even: Resolve to invest at least as much money in War bonds as your income tax amounts to, then you can be sure Uncle Sam doesn't make more profit out of your work than you do!

Night For The Morrow

By ROBERT D. LUSK
(Copyright, 1944, NEA Service, Inc.)

ON THE MOVE AGAIN
XIV

"OLD JAN," I asked, "will you answer a very private question?"

"Fire away," he said.

"Do you believe in God?"

"Well, now that is a question," he replied slowly, "and, as you say, a private one. Do I believe in God?"

He was silent for a minute. He tilted back in his chair. Finally he said:

"Look up there in the sky and tell me what you see."

It was one of those summer nights in the high plains when the skies are gloriously crowded with brilliant points of light.

"Stars," I replied.

"How many do you think there are?"

"Millions, I suppose."

"Well," said Old Jan, "I didn't put them there. John D. Rockefeller didn't put them there. Edison didn't have anything to do with it. Why, even the Denver Post couldn't claim credit for it. They must have been put there by someone bigger than any of us human beings, so they must have been put there by God. Yes, Little Jan, it would be a pretty foolish, conceited man who didn't believe in God. But don't ask me to describe Him to you. I just know that Some Power exists, a Power greater than man, that we call God."

"Did He create you, too, Old Jan?"

"Well, I don't know whether I'm important enough for God to spend His time creating, but I know that He created the human race, or at any rate He created the situation from which the human race emerged. And the system He established made possible my creation."

* * *

I STARTED to ask another question, but he stopped me. "Wait a minute there, young fellow," he said. "You're dishing out some pretty fancy questions for a boy your age. Let's make it simple.

"I believe in God, and I believe in man. I believe in the brotherhood of man as it was preached two thousand years ago. I believe in man and the brotherhood of man, because I have to if I want to believe in myself. I may get pretty disgusted with some people some of the time, and with myself, too, but I have to believe in people because I am a part of them."

By this time he had forgotten all about his audience, its age, its immaturity.

"No sane man can do other than believe in God, in the brotherhood of man, in people. That is why our country, America, is so wonderful and the principles on which it is founded so important, so very important, because this country believes in the people, all of the people. Here in America the wise men who laid down the principles of our government made possible the greatest forward sweep ever in man's progress. For they made possible the self-development of the individual, and, through the individual, the group.

"It may not always work out perfectly, but as long as the principles of free government are preserved it has a chance, and it has the best chance of any plan devised by man."

"Is that," I asked, "why you told Judge McNamara that you were for the jury system even though it didn't do so good by you?"

"America," the immigrant farmer said in reply, although the words did not seem to be directed at me, "is part of my deep beliefs and convictions. Yet it, today, is making a mistake. America is founded on the principles of men's brotherhood, yet it is seeking to limit that brotherhood selfishly. It is operating on the theory that that brotherhood can flourish in one part of a modern world and be denied the rest. It is a serious mistake. It will have to be corrected.

"And what am I doing about it? I am like Tolstoy's peasant who was asked what he would do were he to learn that he would die that night.

"'I would plow,' the peasant replied.

"That is what I am doing—plowing. It's not much, but it's something. And you can't go wrong plowing."

He sat quietly for several minutes. Then he started laughing, grabbed at me and shouted:

"Say, what is this, anyway? You just started me talking so you could stay up later. Well, school's out. Class is over. Get to bed."

* * *

OUR visit with my grandfather in the summer of 1925 was our last for more than three years. Dad and mother and I kept moving farther away from Colorado. In three years time we went from Kansas City to Racine to Terre Haute to Cleveland. Each job looked a little better to my father than the one he left; each city offered greater opportunities. But the greener pastures invariably had their drawbacks, which Dad was quick to discover. In a few months he could see nothing but the weeds, the stones, the bare spots.

It was never my Dad's fault. It was always the boss who was shortsighted or stingy; or the car, which was really just a pile of junk and no one could sell such a crate; or the other salesmen, who horned in on a guy's deals; or the town, which stank and he'd be damned if he'd live here the rest of his life if they gave him the city hall and the courthouse and the whole damn works.

So we moved, and my grandfather's letters followed us as we pushed eastward.

This Curious World

BY WILLIAM FERGUSON

ANSWER: Caracas, Venezuela.

Today's Journal Editorial

THE PEOPLE WILL DECIDE

No honest person will deny that one of the most difficult, most trying, jobs in the entire governmental organization is that of Draft Director Lewis B. Hershey.

It was not a job of his seeking and doubtless is one from which he will retire eagerly when he feels that conditions will allow. Even his critics acknowledge that he puts everything he has into his efforts, and most of them concede that, on the whole, he has done a fine job.

But even General Hershey's friends have to admit that, on occasions, he has a tendency to talk, not wisely, but too much. He has the tendency, it appears, to confuse his ideas of what should be done in certain matters with what actually may be done.

Thus, he "hinted," as the press dispatches phrased it the other day, that the military draft may be continued after victory.

And there is no escaping the possibility that it may be continued. But most people, including some in very high authority, don't think it will be. Few people can see any good reason at this time why it should be. Attempts to continue it almost certainly would be attended by violent repercussions.

Still, it might be. But present re-assurance is to be derived from the fact that it won't be on the strength of a command by General Hershey or any other individual. The American people will be heard—and will dictate the decision—before anything like that is attempted.

Today's Thought

For all the gods of the nations are idols: but the Lord made the heavens.—Psalm 96:5.

* * *

Struggle against it as thou wilt, yet heaven's ways are heaven's ways.—Lessing.

LUBBOCK JOURNAL

An independent Democratic newspaper published every afternoon except Saturdays and Sundays, and consolidated on Sunday mornings, only, with Lubbock Morning Avalanche to Lubbock Avalanche-Journal by Avalanche-Journal Publishing Co., Inc., 1211-13 Texas avenue; entered as Second Class Mail Matter in the Postoffice at Lubbock, Texas, under Congressional provision.

CHAS. A. GUY PARKER P. PROUTT
Editor and Publisher General Manager

Full leased wire Member of Associated Press and United Press. National advertising representatives: Texas Daily Press League, Dallas, Tex.

Walter Winchell

ON BROADWAY
(Copyright, 1944, For The Journal)

THE Broadway Carrousel: Dorothy Lamour, center of attraction in the very same night club where she was once "fired" (at $50 per week) because the owner got tired of looking at her . . . Arline Judge. Nice girl, but her shoes squeak.

This really happened in a Greenwich Village joynt:

A drunk asked the head waiter if the orchestra played by request. "Yes, sir," said the head waiter. "What would you like them to play?" "Ashk 'em," said the stew, "to play cards!"

* * *

Midtown Vignette: He's a well-known newspaperman . . . A few years ago he discovered a young writer and launched him in the newspaper business, where he soon became a popular sports by-liner . . . The protege persuaded the news-service boss to assign him overseas as a war correspondent . . . The newspaperman who discovered the newcomer kept in touch with his progress via his war dispatches . . . And then he died during an air raid at sea. . . . Later a long-delayed letter to his discoverer arrived. It said in part: "I owe everything to you. If it weren't for you, I wouldn't be where I am today."

WINCHELL

* * *

MEMOS of a Midnighter: Gloria Grafton, one of Broadway's darlings in the big-time shows, married her schooldays sweetheart, an Army lieutenant. He waited 16 years . . . Jimmy Cromwell and Lili Damita, who cared a lot (after the Doris Duke matter crashed), just nod when they meet now . . . The Billboard's newest reporter is Martha Roundtree, Western Electric heiress.

* * *

Broadway Ballad: The rain will keep you in some April night . . . And you will fix the roses in a vase . . . And eat and drink with her by candle-light—to build a spell that time cannot erase . . . Your velvet voice will touch a wistful vein . . . And hint of love affairs that now are through . . . And she will thank the careless April rain—that blessed her with this secret rendezvous . . . So thus the stage is set . . . how well I know . . . And for a brief, ecstatic interlude—she'll know the joys that I knew long ago . . . And strive to please each shifting, colored mood . . . While I, enthroned upon some bar's high stool . . . Will thank my stars I'm not your April Fool!—Donna Wahnna.

* * *

MANHATTAN Murals: The Little hotel (on W. 51st) narrow as a poll-taxer's mind—but 12 stories tall and a block long . . . Two chorines asking a parked cab's driver at 50th and 7th to turn on the radio so they can hear the race results . . . The one-armed soldier, victim of war, helping a blind man, casualty of peace, down the subway steps near the Music Hall . . . The doorman at Kelly's Stable—once one of vaudeville's top tap-dancers . . . Kids along the 8th Ave. pavements chalking: "Betty loves Johnny!"—sidewalk columnists . . . The Miami theatre (on 6th Ave.) marquee lights: "Guilty Parents Also Charlie Chaplin" . . . The U. S. Marine guards on the Hudson waterfront looking tougher than Marine recruiting posters . . . The almost block-long (reclining in a swim-suit) Varga Girl covering the Winter Garden. It will become B'way's most famous sight.

* * *

Crosstown Characters: Ben Grauer hears that Hitler has just promoted Mussolini to air-raid warden . . . That much-wed-and-divorced fellow was heard saying he might get married again. "Anybody you know?" asked a reporter. . . . Alan Gale swears he saw a feller dash up to a bar yesterday and tell the bartender: "Quick, lemme see the check first, then gimme a double brandy!" . . . A scribe was trying to get Warner dancer Harriet Olsen to let him run a piece about her betrothal soon. After much prodding, Harriet said: "All right if you put it in a nice quiet place in the paper."

* * *

SOUNDS in the Night: At the Copa: "I think you're wonderful. You're intelligent, and so good-looking, too. Do you know Darryl Zanuck?" . . . At Cafe du Bois: "She just sits on her laurels—her big, fat laurels!" . . . Club 18: "He's pulling the bull over her eyes" . . . At the Latin Quarter: "He walks like a soprano" . . . At the 51: "He has less of a future than a kiss on the cheek" . . . At the Trouville: "Are your shirts like that when you buy 'em or do you stuff 'em y'self?" . . . At Armando's: "They were talking about him when he came in. Was his back red?" . . . At the Trade Wind: "He's one of those gigolos. Y'know, a Besame Moocher."

Hold Everything

"I just got to have a furlough, sir—my wife writes that the dishes are piling up all over the sink!"

"Say! What's He Got That We Haven't Got?"

Bostonian, With Harvard Accent, Leads Tough Mountain Boys

Capt. Jed Dailey Thinks Of His Boys First

By ERNIE PYLE
Journal War Correspondent

WITH Fifth Army Beachhead Forces In Italy, April 11—(By Wireless)—In our old gang of Tunisian tankmen of a year and more ago there was Capt. Jed Dailey, who comes from Sharon, Mass., near Boston.

Jed was through that battle at Sidi bou Zid, and it was he who was so furious about losing his camera and his bedroll and all his films to the Germans.

ERNIE PYLE

I wrote about him at the time, saying he bet the Germans would develop those films eagerly, thinking they'd reveal some military secrets, but all they'd find would be a picture of a man in a silly pose with Tunisian flowers stuck behind his ears.

Jed says that after that column he got dozens of letters kidding him about putting flowers behind his ears, but he didn't care.

He has avenged the loss of his camera, too. Since then he has personally captured from the Germans an even better one to replace it, and has added a Luger and a fine pair of binoculars for good measure.

* * *

His Boys Respect Him

Jed Dailey is an unusual person. I think I like him about as much as anybody I know. He is a pure Bostonian. He talks with a Harvard broad "A." He is a far cry from the farm boy of the Kentucky hills, yet he commands a company of such boys and they love him.

Following the battle at Kasserine, Jed Dailey was switched from a desk job to the command of a company of tanks. The job of company commander, whether it's infantry or tanks or what, is the greatest job in the Army—the greatest and the toughest.

The boys themselves have told me what they think of Jed Dailey. When he first arived, they were contemptuous of that cultured accent and had little faith in him. They laugh now and tell how he tries to speak in a flat accent whenever he gives them a talk, but without realizing it lapses back into his broad A.

* * *

BUT he has lived that down, and all their other jokes about him. They'd go anywhere with him now, or for him. He has proved himself in many ways.

Whenever there is a battle he is in his own tank, directing his company. I just had the pleasure of seeing him get the Silver Star for gallantry in action. He has been wounded twice since I saw him in Tunisia.

Whenever his company pulls back from battle, Jed Dailey throws the small details of Army discipline out the back door and the men really get a rest. As they say, "He fights hard and he rests hard."

That's the way the boys get the most out of it, and they appreciate it.

* * *

Wounded In Action

Captain Dailey is tall and his black hair stands up and roaches back and you'd have to call him good-looking. He nearly always goes bare-headed even in the danger noze. It is not an affectation; he simply likes to go bare-headed. He usually wears an Air Corps fleecelined jacket that he once haggled out of some flier friend.

At the left shoulder of the jacket are two holes—one in front of the shoulder, one in back. The first hole is where a piece of shell fragment went in. The back hole is where it came out after going through his arm. They took a piece out of his leg to patch up his wounded shoulder.

The other officers laugh and say, "Jed wouldn't sew those holes up for $10,000." And another one says, "Not only that, but you can see where he has taken his knife and made them bigger." You don't talk like that in front of a man when you mean it. Jed just grins and says, "Sure."

* * *

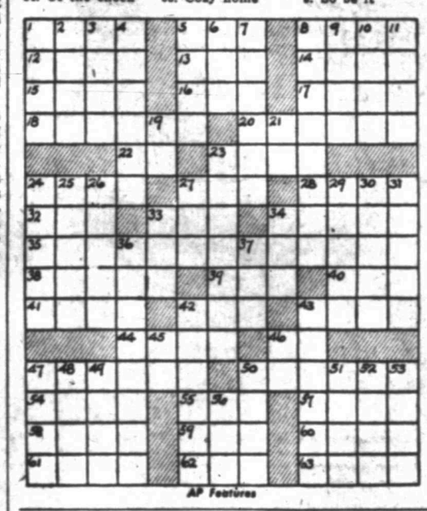

BEFORE that he was wounded in the face from an air burst. When he got out of the hospital from his second wound he had a week's leave at Sorrento, the beautiful resort city below Naples. He stayed one night and then returned to his company. Everybody at the rest camp thought he was crazy.

"It isn't that I am anxious to fight," Jed said, "but when you are commanding a combat outfit your place is with your outfit. You feel like a heel if you are able to be there and aren't. I feel lots better since I got back."

Mrs. Vance's Hatchery And Leghorn Farm
Shallowater, Texas

AGAIN HICK CHICKS LEAD THE WAY TO GREATER POULTRY PROFITS FOR YOU
OUR PRICES ARE IN LINE
Don't delay your chick buying any longer. When you purchase HICK'S DEPENDABLE CHICKS you get chicks that are hatched right, packed right—DEPENDABLE CHICKS. Even though you should have to pay a little more in additional cost to get my dependable chicks they will return to you many times over in extra eggs, extra profits. The small additional first cost and long run show you a greater profit, where the inferior low grade chicks lose money for you.
Plenty of oil and butane gas brooder. Also waterers and feeders.

• STRENGTH
• STAMINA
• POWER

The sea is our richest source of animal proteins, vitamins and minerals which livestock must have to be healthy, productive and fast-growing.

STANTONS' PULLET BUILDER

Brings these vital elements straight from the sea and puts them to work in your poultry yard. Stanton's Pullet Builder makes full use of all local grains and by-products, but in addition, it contains ManAmar and B-G Plus, those famous protein, mineral and vitamin rich "products from the sea" which are making extra profits for poultrymen from coast to coast.

B-G PLUS

Is a patented vacuum concentrated extract from fish. This new and potent product, resulting from ten years of ceaseless research and experiment, supplies extra trace minerals and vitamins in Stanton's Pullet Builder.

MANAMAR

In Stanton's Pullet Builder supplies the hard-to-get feeding essentials—fish proteins, food minerals and vitamins, including the important Vitamin B "Complex."

ManAmar and B-G Plus have been developed and are produced in the laboratories of Philip R. Park, famed livestock nutrition authority. These laboratories have approved the formula for Stanton's Pullet Builder. Let the records of users tell the rest of the story. Get all the facts today.

PLAINSMAN MILO—PLANTING SEED
Recleaned, tested, sacked and tagged. Germination 98%. Grown in 1943 on my farm in Lubbock county, and roughed for foreign plants. Original seed obtained from Tech College raised there in 1942. In storage at Lubbock Transfer and Storage Company, 701-10th Street. See sample there. Price $4.50 per sack. See owner for truck or car load prices.
M. L. SHEPHERD
411 Myrick Building

COTTON SEED
D. & P. L. No. 14
TEXAS STATE CERTIFIED
This is the new, early, high yielding strain now grown exclusively by Deltapine originators of D. and P. L. Made inch-staple and high gin turnouts on the Plains. Kemgas delinted, Ceresaned seed, germination 96% $12 per 100 lbs.

CHAMPION SNAPPER 140
Grown by R. E. Karper from breeding block seed furnished by Chillicothe Experiment Station where the 140 strain originated. This is an early maturing, lightweight bur cotton bred by Texas Experiment Stations for the South Plains where cotton is snapped. Its light burs enable gins to make better grades from snaps and give higher turnouts. Made ⅞ to 31-32 staple. KEMGAS DELINTED, CERESANED SEED, $10.50 per 100 lbs.

OLD TIME HALF & HALF
Grown in Wilbanger county by Arnold Seed Farms. This is the old-time high linting, early, short staple cotton. In Lubbock county in 1943 1500 lbs. of snap made 500-pound bale. Planted in May it made lots of cotton of 13-16 and ⅞ inch staple. Planted the middle of June it was gathered before other cotton planted at same time. We sold several cars on the Plains and have found only satisfied customers. KEMGAS DELINTED, CERESANED SEED, $11 per 100 lbs.

Send your order with deposit of $2 per 100 lbs. and we will hold seed for May delivery. Other varieties of Kemgas delinted, Ceresaned seed can be supplied by Kemgas delinting plants in Texas, Oklahoma and New Mexico. For further information address—

Gunner Is Trapped, Blown To Bits

Takeoff On Routine Mission Becomes Tragedy For Texan

BY OLEN CLEMENTS
Associated Press Staff Writer

ADVANCED AIR BASE, New Guinea, April 2 (Delayed) — The motors of the bomb laden Liberator roared as she started down the runway for the takeoff on a routine Fifth Air force raid.

Half way down the runway a tire blew out and the fast moving bomber lurched sideways, tipped on a wing, and buckled in the middle. Flames shot up from her and uninjured crew members piled out of escape hatches and doors in a mad scramble.

Maj. Frank J. Krones of Eatonville, Wash., was watching the takeoff and anxiously counted the crewmen. Only seven emerged and he knew that two more were pinned inside the ship which was certain to blow up as soon as the flames reached the heavy bomb inside.

Two Left Inside

"There's two more in there, let's get them out," yelled the major as he raced to the burning plane.

The pilot, Lt. Hugh P. Papworth, Syracuse, N. Y., and two crew members, Staff Sgt. Wayne M. Smith of Fort Wayne, Ind., and Clifford H. Stacy, Knobel, Ark., followed him. The crash truck roared up behind them.

Finally they pulled one out only to hear the groans of a second man from the catwalk.

Gunners Tightly Wedged

Major Krones made his way to the catwalk where the second man, a gunner from Texas, was tightly wedged.

"We'll save you and have you out in a jiffy," said Krones, trying to reassure the boy. There was no answer from the injured gunner. Krones pulled with all his strength at the metal fuselage that held the gunner fast, but could not budge it. Crash truck crewmen hacked away at the burning ship.

Finally Krones caught hold of the gunner's legs and tried to drag him out, but the gunner was stuck tight. The gunner kicked his legs and groaned, but didn't speak.

Had To Give Up

Flames crackled in the bomb bay, which was filled with gasoline fumes. Krones saw that the big bombs would go in a few seconds. He gave one more hard tug at the gunner, but failed to dislodge him.

"I'm sorry," the major called to the enlisted man," I've done all I can. The bombs are going to go any second now and I've got to get out. So long, fellow, I'm sorry."

The major raced to the edge of the field and hit the dirt as the bomber blew up with a thunderous crash that rocked the mountain walled valley for miles. The force of the explosion hurled the heavy motors a hundred yards.

They found no trace of the injured gunner.

Sec. Knox Discounts Threat To Imphal

WASHINGTON, April 11 (U.P.) — Secretary of the Navy Frank Knox said today that he did not regard Japanese operations around Imphal in India as "terribly serious."

"It involves a small amount of men," he told a press conference. "The British ought to be able to beat it and no doubt will."

Asked if he had had any information to confirm reports that the Japanese fleet was concentrated at the former British naval base at Singapore, Knox said.

Jap Navy At Singapore

"There was information some time ago that the Japanese naval force was at Singapore. It apparently has dispersed since then. There are some units there but not in any great strength."

British Prime Minister Winston Churchill recently said that a large scale Japanese naval thrust might be made there.

During the last few days, Knox said that nothing startling has developed in the Pacific except the steady hammering of Japanese islands in areas now under U. S. control.

He declined to say whether the use of the phrase "softening up" in the recent announcement by Admiral Chester W. Nimitz concerning the aerial attacks on Truk implied that the U. S. would attempt to seize that vital Japanese base.

Thomas Indicted

(Continued From Page One)

dently tried to hush their outcries with gags.

A bullet from a small pistol hit Dr. Hunt between the eyes; his jaw was bashed in bloodily. Mrs. Hunt was slugged over the head, dying of a major brain concussion. Apparently the doomed man and woman struggled in their bonds, for there was evidence of rope burns on their limbs.

The slayings occurred between 2 a. m. and 7:50 a. m. Tuesday, Oct. 26.

Not Believed Possible

When he first saw the bodies lying grotesquely still on the bloody rumpled bed a West Texas sheriff who has seen many hard things exclaimed: "Good God—it isn't possible!"

But there was the evidence and Sheriff Sam Hutson of Lamb county, Ranger Capt. Maney Gault and many other officers started in pursuit of the killer.

They had little to go on. Thomas was well known to West Texas, as a stocky, strong, violent-tempered jailbird with a criminal record reaching back to 1917 and which included a long term in the Nebraska state prison. The officers also knew that someone had tried to put Dr. Hunt out of the way on May 21, 1942. The prominent physician and member of a pioneer family was shot twice on a lonely road on a May night, but he survived his wounds.

Newton Convicted

That shooting resulted in the trial of Dr. William R. Newton, equally prominent Cameron, Tex., physician, for assault with intent to murder. Dr. Newton was convicted and sentenced to seven years in prison, but his conviction was reversed and the case remanded for new trial on grounds of "improper evidence." Mrs. Newton was charged similarly but illness prevented her trial with her husband last summer.

Dr. Hunt testified at the trial that he and Dr. Newton were classmates at medical school in Galveston, and that both of them interned in Houston, where they met a nurse who later became Mrs. Newton.

On the morning of the Hunt slayings, as he first read newspaper accounts of it, Dr. Newton appeared stunned, exclaiming "My God!" when he read the gruesome details.

"I am terribly sorry it happened," he said. "I have never had any ill-feeling toward the man."

Thomas Arrested At Galveston

Jim Thomas was arrested in Galveston a day after the slayings. He had been in the island city on parole from the state penitentiary. He was returned to Lubbock. Sheriff Hutson and Capt. Gault met a stonewall when they questioned the suspect. He turned their questions with innocent answers and amused indifference. They asked if he wanted to make a statement and he said "yes."

For two hours he dictated a story of his recent activities, carefully establishing an alibi for the three days which ended in the slayings. The statement finished, Hutson suggested that Thomas sign it, as is customary. Thomas laughingly declined to do so, a trick which nullified the legal value of the document.

The officers dropped their quizzing of the convict, who had nonchalantly let them know he was ready for more questioning whenever they were. Hutson and Gault, working with other Rangers, sheriffs and with state police, moved south in pursuit of clues and evidence. They went to Waco, Temple, Houston, Galveston. Evidence was studied by other officers at Austin, Dallas and Amarillo.

Pacific Fighting

(Continued From Page One)

thrown back.

Allied patrols which struck out from the Imphal plain against enemy units laying siege to that strategic area ambushed the Japanese near the Tiddim road and inflicted casualties in a number of clashes in the foothills northeast of the plain.

JAPS HAVE LOST OVER HALF OF NEW BRITAIN

By RICHARD C. BERGHOLZ
Associated Press War Editor

The Japanese threat against the Allied supply line into China and northern Burma was unabated today but the enemy has given up more than half of New Britain in the Southwest Pacific and is preparing for a last-ditch fight around the bomb-battered citadel of Rabaul.

Allied headquarters communiqued the Japanese have withdrawn from Gasmata and Cape Hoskins in central New Britain and that U. S. troops now control more than half the jungle-covered island.

Discussing the Japanese plight on New Britain, past which the war has swirled and left it important only as a stubborn island of enemy strength, an Allied headquarters spokesman estimated that one-fifth of the original 50,000 enemy troops on New Britain when the Allied campaign began last December had been killed, captured or lost through disease or starvation.

Rabaul Pounded Again

Rabaul, where he predicted the out-flanked, isolated Japanese will make their death stand, rocked under an 80-ton assault in the latest reported bombing raid.

Other airmen ranged from Boeroe island northwest of Australia to Woleai atoll in the western Caroline islands, hitting such New Guinea targets as Wewak, with 128 tons of bombs, Hansa bay, 131 tons, and Aitape, 69 tons.

Central Pacific bases sent up planes that raked Ponape and Oroluk in the eastern Carolines and four enemy-held atolls in the Marshall islands.

In Army Ordnance lingo, a "Molotov Bread basket" is a large bomb which breaks into several smaller bombs before it strikes the ground.

TESTIMONY OF CHILD IS FACTOR IN CASE

OLTON, April 11 (AP) — Early on the morning of last Oct. 26, six-year-old Jo Ann Hunt ran to a neighbor's house at Littlefield, to report that her mother and father, Dr. and Mrs. Roy Hunt, had been killed by a "bad man."

Dr. Hunt and his wife, 26, were found bound side by side in their bed and James Thomas, alias James Clyde Thomas, alias Jim C. Thomas, today stands accused in one of the most savage killings Texas officers ever tried to solve.

Included in the evidence which Sheriff Sam Hutson of Lamb county, Ranger Maney Gault and many other officers had to go on in seeking the slayer, was the childish testimony of little Jo Ann.

Went To Get Drink

This was her story to officers:

During the night she awoke thirsty and went from her nursery into a kitchen for a drink. She called her mother, who did not reply. The child then went into the parents' bedroom. She said she saw a man, who grasped her shoulders and pushed her into a closet jammed with child's toys.

"Then he threw water on me that smelled like gasoline. He slammed the door and I went to sleep." Because the slightly-gowned child went to sleep despite the cold night, the officers deduced it was an anaesthetic fluid, not gasoline, the intruder threw on her.

Child Spread Alarm

When the child awoke amid her dolls and picture books she went to a neighbors' house and told Mr. and Mrs. L. C. Grissom:

"My mother and daddy are killed. A bad man killed them."

The alarm was given and officers established that Dr. and Mrs. Hunt had entertained Dr. and Mrs. Fred W. Janes until around 1 a. m., a fact which limited the time of the slayings between that hour and 7:50 a. m., when Grissom called officers.

Congratulations To:

Mr. and Mrs. Leslie Pope of Abernathy on birth of a son weighing 5 pounds 11 ounces at 2:20 o'clock Monday afternoon in Lubbock General hospital. Pope is a farmer.

Mr. and Mrs. W. O. Lockwood, Lorenzo, on birth of a seven-pound, five and three-fourths ounce daughter in Lubbock General hospital at 2:53 o'clock this morning. The father is a farmer.

Italians Repel Nazi Attacks

BY EDWARD KENNEDY
Associated Press Staff Writer

ALLIED HEADQUARTERS, Naples, April 11—Italian troops holding Mt. Marrone, mile-high peak 15 miles northeast of Cassino, have repulsed small German thrusts at two points, killing seven of the foe and taking one prisoner—the first announced capture of a Nazi by the new army of liberated Italy.

An American ambush patrol on the Anzio beachhead, meanwhile, trapped a six-man German patrol, three miles west of Littoria, killing three and wounding two. British troops, two miles southeast of Carroceto on the other side of the beachhead, drove off a German platoon with casualties and other Nazi attempts at infiltration in that sector were repulsed.

Shelling, Patrols Continue

As shelling and patrol clashes continued along the main Fifth army front a headquarters commentator said that recent German replacements in Italy have included soldiers who lost some of their toes as a result of frostbite on the Russian front.

The Navy announced that a U. S. destroyer bombarded German positions around the beachhead Sunday and that an American minesweeper on patrol off Anzio shot down a Junkers 88 Saturday night.

Flying more than 900 sorties, Allied planes hammered at German communications yesterday, with medium bombers striking at rail bridges at Orvieto, Attigliano and Poggibonsi, while fighter-bombers hit at others at Fano, Popoli and Falconara. Last night medium bombers blasted the ports of Piombino and Santo Stefano on the Italian west coast. Returning fliers reported a number of direct hits on bridges and new cuts in rail lines.

Shipping along the Dalmatian coast also was attacked. One enemy plane was shot down during the day and two Allied planes were lost.

Heavy Assaults Hit Naziland

(Continued From Page One)

formations thrusting deep into the reich with strong fighter escorts.

The broadcast said that violent aerial combats also were being fought over the Baltic area.

Central Germany Bombed

Berlin radio said the Americans dropped bombs on central Germany and asserted the raiders suffered heavy casualties in widespread operations over central and eastern Germany. Formations leaving reich territory were being harassed by German fighters, the broadcast said.

The Lancasters and Halifaxes making the night assault were disclosed authoritatively to have comprised the largest British armada ever sent against occupied territory.

The main targets of the RAF night raiders, an Air ministry communique said, were railway yards at Ghent, Tours, Tergnier, Aulnoye and Laon in northern France and Belgium.

Mosquitos Hit Hannover

Squadrons of Mosquito bombers thrust simultaneously into western Germany to bomb Hannover and objectives in the Ruhr. Mines also were laid in enemy waters during the night operations from which two planes failed to return the bulletin said.

Approximately 1,500 American planes were estimated to have taken part yesterday in attacks on targets along the French-Belgian coast and in the French interior, during which Marauder medium bombers of the U. S. Ninth Air force dropped their biggest bomb load—more than 1,000 tons.

Total American losses for the day were five bombers and four fighters at least 12 Nazi fighters were destroyed in air combats and many more were reported shot up on the ground.

OIL TALKS PLANNED

WASHINGTON, April 11 (U.P.) — The United States will discuss petroleum problems with Russia, the exiled government of the Netherlands and oil-producing Latin-American nations upon conclusion of the forthcoming petroleum conferences with Britain, a state department official said today.

Babylon was a market place for metals, grains and wool as early as 3,000 B.C.

German Plane Shot Down Over Sweden

STOCKHOLM, April 11. (AP)—A German w. plane was shot down by Swedish anti-aircraft fire over southern Sweden today, and crashed in flames killing the crew.

The incident occurred as the 11th U. S. bomber to land here since Easter came down at Angelholm. The crew was unharmed.

HOUSING APPROVED

WASHINGTON, April 11 (AP) — The National Housing authority today announced approval of a program for construction of a privately-financed housing units at Alice, Texas.
