Commissioners vote to combine precincts for Aug. 9 election

By BILLY HARRIS
Special Writer

Callahan County Commissioners again tabled letting the contract for repairing the windows on the Callahan County Courthouse Monday morning, July 14.

Callahan County Judge Bill Johnson said that because of such a wide range in the dollar amounts on the submitted bids, commissioners decided to check with the contractors for the exact specifications that they bid on. Four bids were opened at 10:00 a.m. and ranged from a low bid of \$13,435.00 to a high bid of \$59,744.44. Contractors from Clyde, Abilene, and Midland competed for the job.

Commissioners had also tabled the matter on June 9 because they received no bids for repairing the windows.

Other items presented at Monday's meeting:

Commissioners decided to combine Callahan County Voting Precincts for the August 9 Texas Constitutional Amendment balloting. Putnam and Baird will vote in Baird; Eula and Oplin will vote in Eula; both Clyde Precincts will vote together (probably at the Lions Club according to Johnson) and Cross Plains Precinct will not combine with anyone. Judge Johnson said these elections have notoriously low voter turnouts, which is the reason for consolidating the precincts.

The motion to combine the voting precincts was made by Farmer and seconded by Hicks.

Lynn Wilson spoke to commissioners concerning damage to her vehicle because of a deep ditch cut by a county maintainer across her gate entrance in Precinct 4. Judge Johnson took her claim estimate for the repairs and said he would turn it into the county's insurance company.

Grider made a motion to pay the bills that was seconded by Holland.

RANDY YORK, RN, MSN

Nurse Practitioner joins Columbia One Source Health Center of Cross Plains

Columbia One Source Health Center of Cross Plains is pleased to welcome new Family Nurse Practitioner Randy York, RN, MSN to its facility. Randy comes to Cross Plains from Tennessee, where he received his Bachelor of Arts, College Scholars in May 1990 from the University of Tennessee in Knoxville. In August 1995, he earned a Master of Science in Nursing from Vanderbilt University in Nashville. Randy has worked in the family nurse practitioner area of medicine since January 1995. His most recent experience centered around a solo practice prescribing treatment for common primary care situations in all age groups. The clinic is very happy to offer his services to the citizens of the Cross Plains area.

The Columbia One Source Health Center in Cross Plains is located at 109 East 9th Street, and can be reached by calling 254-725-7106. Its hours of operation are Monday - Thursday, 8:30 a.m. - Noon and 1-5 p.m. and Friday, 8:30 a.m. - Noon. Please feel free to stop by and welcome Randy to the community.

The meeting will be held in Room 107-108 of the high school building; the purpose to discuss school rules, receive and discuss schedules, locker assignments and get acquainted with the new principal.

Pre-Registration Schedules:

SENIOR - 9:00 a.m. August 5
JUNIOR - 1:00 p.m. August 5
SOPHOMORE - 9:00 a.m. August 6
FRESHMAN - 1:00 a.m. August 6
8th Grade - 9:00 a.m. August 7
7th Grade - 1:00 p.m. August 7.

FALL SEMESTER AND FIRST DAY OF WILL BE
WEDNESDAY, AUGUST 13 AT 8:00 A.M.

Cross Plains EDC, Inc. Would Like Your Help In Survey

The Cross Plains Economic Development Corporation, Inc., has prepared a survey to assess available labor in the Cross Plains area. This survey is being conducted to respond to an inquiry by a manufacturing firm considering Cross Plains as a potential location. The results of the survey will also be used to build a

database for future inquiries.

If you are currently unemployed or are seeking different or part-time employment, please participate in this survey. Filling out this survey could result in a job. You can pick up the survey forms in the Economic Development Corporation office inside the Subway building.

SEA WORLD EDUCATION PROGRAM IN ACTION — Melinda Richardson gets a close-up look at a sea lion under the supervision of a staff member.

Local Student Completes Sea World Ed. Program

Melinda Richardson, a freshman at Cross Plains High School, has completed Sea World of Texas' Careers Camp, an element of Sea World Adventure Camps and the only marine sciences education program of its kind for high school students.

Richardson accompanied Sea World's animal care and training staffs as they performed duties involving sea lions, stingrays, killer whales, sharks, penguins and other fascinating species. Spaces are still available for sessions of the week-long Careers Camp, which is held at the San Antonio marine life park.

Students accompany Sea World zoological and animal training staff members as they perform their daily duties such as monitoring the health of sea lions, recording killer whale behavior, feeding stingrays, preparing food for beluga whales and much

more.

Careers Camp is for students in 9th, 10th, 11th and 12th grades. An application is required for enrollment in Careers Camp, as well as a high school transcript, phone interview, applicant essay and a teacher/counselor recommendation. A committee comprised of staff members from the Zoological, Animal Training and Education departments reviews applications and makes final camper selections.

One spring break session of Careers Camp, plus two spring sessions have already been held. Seven summer sessions, which began June 7, run through August. All sessions of Careers Camp are available for teacher and student groups, clubs or classes.

Call the Sea World of Texas Education Department toll-free for more information at (800) 700-7786.

DON'T FORGET Cross Cut Centennial This Sunday

On July 10, 1897, Mrs. Carolyn Pentecost Elsberry was laid to rest in the southeast corner of an eighty acre tract of land owned by Mark and Sarah Pentecost: early settlers of northwest Brown County. The solitary stone monument set at the head of Mrs. Elsberry's grave a century ago marked not only the end of a Texas pioneer's life, but the beginning of what would become the Cross Cut Cemetery. On July 20, 1997, the little cemetery's centennial will be commemorated with the dedication of a historical marker granted the site by the Texas Historical Commission. The dedication will coincide with the annual Cross Cut Reunion held on the third Sunday in July each year, and attended by scores of Cross Cut Ex's and their descendants.

The small, perpetual care cemetery is located on State Highway 279, approximately 26 miles north of Brownwood and seven miles south of Cross Plains. In January of this year, the Cross Cut Cemetery Association approved plans for a beautification project to install a new entrance incorporating reclaimed bricks from the old school house which recently fell victim to tornadic winds and is no longer standing. The plans were sent to former citizens, now scattered throughout the country, accompanied by a request for donations to finance the project. The response was overwhelming and the new entrance will be completed in time for the dedication.

The Association has scheduled a formal unveiling and dedication ceremonies of the historical marker at the cemetery site for 10 a.m., Sunday, July 20. Mr. Ferrell Newton will be the featured speaker.

The annual Cross Cut Reunion and luncheon will be held following the dedication ceremonies at noon in the Cross Plains Community Center. The Community Center will be open at 9:00 a.m. for anyone desiring to drop off their covered dish before the dedication ceremonies.

Norman Archibald To Speak At Chamber Banquet

The Cross Plains Chamber of Commerce Annual Banquet is scheduled for Thursday evening, July 24. The speaker will be Norman Archibald, Director of Hendrick Medical Center Foundation. He is a very active volunteer in Abilene working with YMCA, Junior Achievement, and the United Way. He is the current President of the ACU Alumni Association and President of the Abilene High Booster Club. Mr. Archibald is an accomplished speaker who will delight the banquet audience with his skills.

The banquet will be held at the Cross Plains Community Center and will begin at 6:00 p.m. with the popular silent auction. Barbecue steak will be served at 6:30, catered by Jean's Feed Barn. Special presentations will be made to the Cross Plains EMS and Cross Plains Volunteer Fire Department after the meal. Tickets are on sale now through Tuesday, July 22, at the Chamber Office, WTU, Greenwood Insurance Agency, and Citizens State Bank. Tickets will not be sold at the door.

KNOW YOUR 911 ADDRESS

By BILLY HARRIS
Special Writer

Callahan County Dispatch has an urgent request for the people of Callahan County. Please, it at all possible, KNOW YOUR 911 ADDRESS.

Callahan County does not have enhanced 911 at this time and the address doesn't pop up on the screen when somebody calls 911. A phone number is all that appears and the address has to be referenced from a large book if the person calling doesn't know it. This takes precious time from emergency responders while the dispatcher looks up the address, and sometimes when a person has recently moved to a new location the address could be wrong.

Linda Dennis, dispatch supervisor, said, "We're not set up like the television 911 and people sometimes don't understand that. We're getting the enhanced system in the future, but it's not available in our county yet," she added.

If the caller knows their 911 address, the information can be passed along to law enforcement, fire department, or ambulance personnel quickly. A helpful hint: Post the address by each telephone in your house because you may be the one needing help and someone else is calling for you.

Cottonwood Musical Friday

The Cottonwood Quilting Club will be holding their monthly country and western musical on Friday, July 18, at the Cottonwood Community Center.

The musical will begin at 6:30 p.m. The emcee for the evening will be Smokey Callaway. All country and western musicians are invited to attend.

Texas Voters Go To Polls In August

Callahan County voters, along with all Texas voters, will go to the polls on Saturday, August 9, to decide if they want to lower the school taxes on their homestead. The election is being called to decide the fate of a Constitutional Amendment with that amendment being the sole proposal on the ballot.

Early voting on the Constitutional Amendment begins Monday, July 21, and ends Tuesday, August 5. Early voters will cast their ballots at the Justice of the Peace Office on North First Street in Clyde, as well as the County Clerk's Office at the Courthouse in Baird and the Justice of the Peace Office in Cross Plains. Early voting will take place during regular office hours Monday through Friday.

The proposed amendment will increase the residential homestead exemption by \$10,000 from the current \$5,000 to \$15,000, effective to the

tax year beginning January 1, 1997. If approved, the amendment will also allow homeowners receiving the over 65 exemption to wholly or proportionately transfer a limitation on taxes from the exemption of one residence to another.

A teacher pay raise and an additional day of work are also tied to the amendment. If approved by the voters, teachers will work an additional day next year, but will receive an approximate 5.5 percent pay increase. Teachers will work 186 days rather than 185 days while students will continue to go to school 180 days.

The state has allocated the \$1 billion in state budget surplus to replace the local funds school districts will not receive if the amendment passes. If the amendment passes, the state's share of public education funding will increase from the current 47 percent to approximately 50 percent.

PLAINS
PUBLIC
LIBRARY
NEWS**

The library feels as though we have a new beginning to the summer months after the renovation. We would like to express our thanks to the people who helped with the successful bake sale, people who called, donated the baked goods and the people who volunteered their valuable time, and to those who donated money. A big thank you to those people. Since the time that Billie Ruth was in the hospital till now, there has been several donations and memorials given but too many to list at this time, but we do wish to express our thanks to the people for the donations and memorials. Since our time open after the renovation, we had 11 new library cards filed and the circulation of books from then to last week is 218.

OBITUARIES

Beulah Watters

STAMFORD—Beulah Watters, 91, passed away Friday, July 11, 1997, in a local hospital. Services were held at 1:30 p.m. Sunday in Stamford First Baptist Church with the Rev. Jack Riddlehoover officiating. Graveside services were held at 3:30 p.m. in Spur Cemetery, directed by Tankersley Funeral Home. Mrs. Watters was born in Cross Cut and was a homemaker. She moved to Stamford in 1974 from Spur. She was a member of First Baptist Church and was the widow of Clarence Watters, whom she married in 1923 in Cross Plains. Survivors include one daughter, Bobbie Glenn of Stamford; one sister, Pat Trude of Visalia, California; four grandchildren; and four great-grandchildren.

Lee Roy Lyon

BANGS—Lee Roy Lyon, 82, formerly of Rising Star, passed away Thursday, July 10, 1997, in a Brownwood hospital. Services were held at 3 p.m. Saturday in Higginbotham Funeral Home Chapel in Rising Star with Dick Williams and Jimmy Allen officiating. Burial was in Rising Star Cemetery. Mr. Lyon was born in Rising Star and married Pernie Hammonds in 1946 in San Antonio. He was a veteran of World War II, and the Korean and two Jima conflicts, and retired as a master sergeant in 1964 after a 24-year career in the U.S. Air Force. He moved to Bangs in 1991 from Devine and was a member of American Legion and Bangs Baptist Church. Survivors include his wife, of Bangs; one son, Kelly Lyon of Devine; one daughter, Kay Beth Lyon of Midland; two brothers, Herman Lyon of Cleburne and Jerry Lyon of Mason; three sisters, Virginia Harvey of Stephenville, and Carrie Emma Woods and Mary Frances Kent, both of Mason; three grandchildren; and one great-grandchild.

Children's Crusade at Believer's Fellowship Begins Monday

Bob Wallace, pastor of Believer's Fellowship on Highway 36, invites all area children to attend the Children's Crusade July 21 through 24, beginning at 7:00 p.m. Jim and Pauline Holloway will lead the crusade with Bible stories, songs, puppet shows, treats and prizes. All children are encouraged to bring a friend and have fun learning about Jesus and his love for them. If you need a ride or know of a child who needs a ride please feel free to call (254) 725-6607.

Signup begins for new conservation program

Signup for the new conservation program (EQIP) will be from July 14 through August 1, at the Callahan County Farm Service Agency (FSA) in Baird.

Environmental Quality Incentive Program (EQIP) is for farmers and ranchers with serious soil, water, and other natural resource problems said Scott Odom, County Executive Director of the Callahan County FSA office.

"Producers will be required to sign 5 to 10 year contracts, even if only 1 year of cost-share is needed," said Odom. Contract are for a maximum amount of \$50,000 with a maximum 75 percent cost-share.

Odom said Natural Resource Conservation Service (NRCS) will prioritize all applications after August 1. NRCS conservationist and the producers will make an inventory of natural resources, identify natural resource problems, determine treatment needs, and agree upon the land management and structural practices the producers will install. Also, producers will agree upon cost share levels and incentive payment levels.

Odom said producers interested in inquiring about EQIP should call the FSA office at 915-854-1049 or the NRCS office at 915-854-1349 or come to the offices located at 141 W. 4th St., Baird.

Eligibility for participation in all programs administered by FSA is established by law without regard to race, color, religion, sex, age, national origin, marital status, physical or mental handicap.

Attention: Legionnaires

A special meeting is called for Tuesday, July 22, at 7:30 p.m. at the Legion Hall in Baird. The purpose of the session is to elect officers for 1998.

If you are delinquent in your dues, you may pay at the time and be eligible to vote.

Please attend, your support is needed.

Submitted by Ruth Strickland, Adjutant, Eugene Bell Post 82.

2 — CROSS PLAINS REVIEW

JULY 17, 1997

Ticks Remain A Problem

The tick problem is continuing to cause various diseases and illnesses throughout the Callahan County area. An infestation of ticks can cause great discomfort to a dog or cat, contribute to generalized skin problems, and create anemia leading to death. They also pose a serious threat by transmitting diseases from infected to non-infected dogs or cats.

Tick-borne diseases have been diagnosed with increasing frequency in the last few years. With the spread of these diseases into our area, including the infection of humans, the frequency of their diagnosis is expected to continue to increase. Suspicious animals should be tested so infected ones can be treated to eliminate the reservoir of the disease and prevent its spread.

Even though we are seeing these new tick-borne problems, the most common complication in our area is severe infestation resulting in anemia and occasionally death. If dogs become infested with ticks they should be dipped, sprayed or powdered as frequently as recommended to kill the ticks. If they have access only to a limited area, a tick eradication program should be followed in that area to eliminate ticks that may be harboring disease organisms and to prevent re-infestation. All label instructions on any dip, spray or powder should be strictly followed for safety and effectiveness.

Cats will occasionally be affected by tick problems. Ticks seem to be located around the head and in the ears, but fleas are still their most common external parasite.

Humans may become seriously ill with Rocky Mountain Spotted Fever or Lyme Disease if bitten by an infected tick. Check yourself and your children for ticks whenever in tick-infested areas such as woods, underbrush and watered lawns. See a doctor if you develop fever, chills, rash, headache or muscle aches 3-10 days after tick bites.

After the recent rain, our problem is expected to last the remainder of the summer. Your veterinarian will be able to help you with a disease control and tick elimination program.

Coleman Volunteer Training

ABILENE — Hospice of the Big Country will be conducting a Volunteer Training Program beginning on August 2, in Coleman. This course, comprising 30 hours of training for Hospice Volunteers, will be held at First Presbyterian Church, 400 West College, in Coleman.

Volunteers will learn several specialized skills that will enable them to work with terminally ill patients and their families. Currently, Hospice of the Big Country, based in Abilene, serves families throughout 19 counties of the Big Country. There is a very real need for volunteers as Hospice of the Big Country is currently serving patients in Coleman, Ballinger, Winters, Santa Anna, Brownwood, Cross Plains, Rising Star and at several ranches close by these communities. Hospice professionals and volunteers provide invaluable services to these families, offering nursing help for the patient as well as guidance for family members.

For more information regarding this Volunteer Training Program, call Mary Lois Duke, Executive Director of Development, at Hospice of the Big Country, (915) 677-1191 or at 1-800-588-0300. Hospice of the Big Country is a nonprofit agency.

LeaJean Wyatt Named All-American Scholar

The United States Achievement Academy announced that LeaJean Ann Wyatt of Cross Plains has been named an All-American Scholar.

The USAA has established the All-American Scholar Award Program to offer deserved recognition to superior students who excel in the academic disciplines. The All-American Scholars must earn a 3.3, or higher, grade point average. Only scholars selected by a school instructor, counselor, or other qualified sponsor are accepted. These scholars are eligible for other awards given by the USAA.

LeaJean, who attends Cross Plains I.S.D., was nominated for this national award by Mr. Tieman, the high school counselor.

She will appear in the All-American Scholar Yearbook, which is published nationally.

"Recognizing and supporting our youth is more important than ever before in American's history. Certainly, winners of the All-American Scholar Awards should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the United States Achievement Academy.

LeaJean is the daughter of Tony and Terry Wyatt of Cross Plains. The grandparents are Joe and Jean McWilliams and Lester and Betty Wyatt all of Cross Plains. Great-grandmother is Rosalea Bonner of Cross Plains and great-grandfather is Rev. J.H. McWilliams of Amarillo.

Happy 18th

Lovely Granddaughter

Love, Granny

BONEHEADS AT THE 'HITCHIN RINGS' — Local Kiwanis Club hosted the elite group and showed off the new sidewalks which also reclaim the nostalgia of the past.

Cross Plains Invaded By Boneheads

On July 8, The Bonehead Club of Dallas made its 5th Annual Trek to Cross Plains for a joint meeting with the Kiwanis Club. Ten uninvited members of the Mother Club of the Universe were greeted by non-violent members of the local Kiwanians carrying placards expressing negative opinions about Boneheads. However, nothing could deter the Boneheads from having their usual cornball fun at the expense of the locals.

John Adams, the Cross Plains gad-get-conceiving, gemutlich inventor, was given the Bonehead of the Day Award for unusual flying procedures with his ultra-lite parachute plane, as well as being designated a Rookie Catcher.

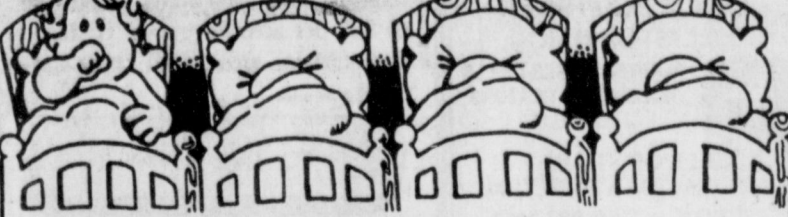

Before the Boneheads departed from Cross Plains they were "hitched" to the newly installed rings that were and are used to tie wagons, horses, donkey, mules and Boneheads on Main Street.

Programs such as this are presented weekly by the local Kiwanis Club every Tuesday at the Dairy Queen. Visitors and members are always welcome.

DRIVER...TEAMS OR solo willing to team. New pay increase! Great equipment, bonuses, medical & dental insurance & more. Experienced drivers call Danny Herman 1-800-331-3725.

Heartworm: Growing problem in Callahan Co. area with increase mosquito number

Dogs with heartworms are being diagnosed on a regular basis in our area. Twelve cases have been diagnosed since the first of the year and more cases are sure to be found before the end of the year. Many of these cases would not have been found until clinical signs of heart disease were evident, but increased awareness of the problem has increased the testing for heartworms. Our area was once thought to be a low incidence area, but with the rapid increase in the numbers of heartworm cases we must take a more aggressive approach to the problem.

Heartworms are on the increase: Mild winters with increased rainfall resulting in more mosquitoes and year around exposure; owners traveling with their dogs either to or from areas with severe heartworm problems; owners more aware of the problem which results in more testing of infected dogs. Heartworm checks and preventatives must be initiated to decrease the incidence of the disease.

This is such a deadly disease that it is well worth reminding owners of certain facts:

—The net result of heartworm disease is the serious mechanical damage it causes to a dog's heart, lungs, liver and kidneys. But while it is stopping up kidneys and blood flow, there are few outward signs of all of the internal damage being caused until the disease is very far along.

—Mosquitoes are key carriers of heartworm disease. When an infected dog is bitten by a mosquito, blood is carried away which may include tiny, immature forms of heartworms called microfilaria.

—It takes about three months for these larvae to travel through the

tissues of the body to enter the heart. Dozens of these larvae to travel through the tissues of the body to enter the heart. Dozens of these larvae (some of which can actually become up to 14 inches long) become adults with in another three months. By that time, much of the mechanical damage just mentioned has become fact.

Thanks to research and modern preventative medicine, there is a lot you can do to avoid heartworms in the first place or see that it is successfully treated if it hasn't progressed too far.

—A blood test is the only way to detect heartworm disease in its early stages.

—Since it's possible for an infected dog to have adult heartworms without microfilaria, an X-Ray examination and other lab tests may be needed to confirm heartworm infection.

—After the disease has progressed, symptoms can include frequent coughing, sluggishness, rapid tiring and finally, labored breathing.

—If caught in time, a series of injections of an organic arsenical drug can be used to kill heartworms. Then another drug can be used to get rid of the microfilaria.

—No vaccine is available for heartworm disease. You can give regular doses of a medication which can prevent infective larvae from developing into adult heartworms. This can be in the form of a tablet of a chewable treat once a month.

Also, recently a preventative for cats has become available. Cat heartworms are on the increase nationwide but are not at the high incidence levels as in dogs. We have diagnosed one case in feline heartworms.

FISHIN' FOR FUN-DING BASS CLUB

Fishin' for Fun-ding held its organizational meeting Thursday night at the Multi-Purpose Center. The proposed rules were discussed and adopted with the following changes.

A Junior Division was created for 14 years and younger. These fishermen will not be required to pay a membership fee, may fish with live bait, may weigh in any legal species of fish, and the winner of each tournament will receive a rod. Juniors will be required to wear life jackets at all times and be accompanied by an adult.

Fishing from the bank will be allowed.

Meetings will be held on the second Thursday of each month at 7:00 p.m. at the Multi-Purpose Center.

No tournaments will be held on Sunday.

Membership dues are \$5.00 per month per person, payable on or before the tournament date. Dues are payable WHETHER OR NOT THE MEMBER FISHES THE MONTHLY TOURNAMENT.

There were approximately 15 persons present and the club now has a membership roll of 11 paid members and one Junior member.

Officers elected were: Sam Fleming, President; Joe Graves, Vice-President; Bob Pipes, Treasurer; Mary Graves, Secretary; Eva Fleming; and Mary Graves, Co-Tournament Directors.

The first tournament will be held at Lake Brownwood at Flatrock on Saturday, July 26, 1997.

Membership is open to ANYONE, whether they fish or not. The monies will be used to provide scholarships to graduating seniors from Cross Plains High School. Any person interested in joining should contact one of the officers or J.O. Koenig's Family Store.

Junior Rodeo Slated for July 24, 25 and 26

The Cross Plains Roping Club will be hosting a KXIX Qualifying Junior Rodeo Thursday through Saturday, July 24-26. Performances will begin at 7:30 p.m.

Contestants 10 years and under, 11-14 years, and 15-19 will be eligible to participate. A jackpot will be held nightly.

Call (254) 725-7458 after 5 p.m. for further information.

"State of the Arts" license plates available

AUSTIN - The Texas Commission on the Arts is reminding all Texans that the *State of the Arts* specialty license plate is available from local County Tax Assessor Collector offices throughout Texas. These beautifully designed plates resemble the Texas flag and include the words "Texas - State of the Arts."

The cost of the plate is \$25 annually, in addition to regular vehicle registration fees. Of this amount, \$20 is placed in the Texas Cultural Endowment Fund and will be used to preserve and secure the arts and culture of Texas for future generations. Texas is the first state in the union to develop a true endowment for the arts, and at least fourteen other states have followed this innovative lead. The Texas Commission on the Arts hopes to someday operate off the interest generated by the Texas Cultural Endowment Fund.

"The arts are a source of human

insight and understanding about the world and ourselves. They connect us to the past and help us imagine new possibilities for the future," said John Paul Batiste, Executive Director of the TCA. "The Texas Commission on the Arts has committed itself to encouraging creative solutions to the challenges facing Texas as we approach the 21st Century."

Currently the arts and cultural industries of Texas provide over 72,000 jobs and contribute over \$1 billion annually to the economy of Texas. Revenue for the Texas Cultural Endowment Fund is being generated through sales of *State of the Arts* license plates, public/private initiatives, philanthropic efforts, and corporate support.

Applications for the *State of the Arts* license plate are available from local County Tax Assessor Collector offices or by contacting the Texas Commission on the Arts at (800) 252-9415.

State Boating Group Praises New Water Safety

The state's largest boating industry group has praised the comprehensive new Texas Water Safety Act of 1997 signed into law by governor Bush, calling it a step which not only will make boating in Texas more enjoyable but also sets a standard nationwide for addressing safety issues. The Boating Trades Association of Texas, representing boat dealers, manufacturers and their customers across the state, said the passage of HB 96 will make our waterways safer by establishing funding and an effective infrastructure and for increased boater education and law enforcement of the state's water safety code.

House author of the bill was Rep. Keith Oakley (D-Terrell), chairman of the House Public Safety committee, which was charged with studying water safety during the last legislative interim. Senate sponsor was Sen. Gonzalo Barrientos (D-Austin).

Key Provisions of the bill, which go into effect September 1, include the following:

- Mandatory boater education for violators of the Texas Water Safety code
- Creation of local and state marine safety enforcement officers
- Mandatory education for vessel operators born after September 1, 1984
- Reallocation of fine money collected from violators to assist local entities
- Refined requirements for the operation of a vessel livery

Pain may be eliminated for millions

(SPECIAL) -- A drug that is exciting researchers in the treatment of pain has been formulated into a new product known as "Arthur Itis," and is being called a "Medical Miracle" by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that *Arthur Itis* relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. *Arthur Itis* is available immediately without a prescription in an odorless, greaseless, non-staining cream or new easy applicator liquid form. *Arthur Itis* is guaranteed to work or your money back.

Heart Disease: Still a Threat

The American Heart Association says heart disease is the nation's No. 1 killer.

- Heart attacks accounted for 1 of every 4.7 U.S. deaths in 1994*
- About 250,000 people die each year of a heart attack within one hour of symptoms and before reaching a hospital
- 45 percent of all heart attacks occur in people under 65

* The most recent year for which statistics are available.

FIRE ANT CONTROL TREATMENT
F.A.C.T. (915) 529-3228

HOW DOES F. A. C. T. WORK?

Our system is 100% environmentally safe, no chemicals or pesticides. Using the correct water temperature (210-220 degrees) and low pressure applied directly to the mound, this application will kill the queen and render the nest incapable of reproduction. The QUEEN is the reason the mound is there. Killing the queen is our main objective. Most Fire ant mounds extend deep into the ground. The mound consists of various tunnels and chambers. The queen's chamber is generally located in the lower regions of the mound. With this in mind, it is easy to see why most fire ant poisons never reach the queen's chamber. Once the queen is killed, the worker ants that did not get killed inhabit the mound until their life cycle is over, usually 4-6 weeks. If the queen was not killed, the worker ants will rebuild the mound within 2-3 days and a second treatment is required.

Our system of fire ant control is effective and is safe to use around children, and unlike pesticides will not harm pets, birds, or other wildlife. Our system is not harmful to underground water, lakes, and streams like current products used for Fire Ant Control. The best biological control of the Imported Fire Ant is to encourage the preservation of the native species. Our system, "F.A.C.T." does not attack these native species or other non-targeted organisms.
