## TEXAS CERTIFIED HYBRIDS

### FOR GREATER YIELDS

#### HYBRID SORGHUM FACTS FOR 1958

As Producers in this time of low milo prices we are aware that the FACTS-OF-YIELD and not hear-say fiction are the difference in profit and loss.

#### HERE ARE THE FACTS

That make Haydon Texas Certified Hybrids your best and safest buy to make a profit in 1958:

- Only Texas Hybrid Sorghums are Certified by the State of Texas.
- Haydon Texas Certified Hybrids are best acclimated to local conditions for highest yields because they are crossed and produced locally under the rigid supervision of Ray Joe Riley, graduate Agronomist and Registered Plant Breeder.
- Haydon Texas Certified Hybrids are Winter Tested in Mexico where they are rated by the Texas Agricultural Experiment Station.
- Haydon Texas Certified Hybrid 620 was the only seed which received a "No. 1-Very Good" rating in 1958 Mexico Tests.
- Haydon Texas Certified Hybrids are processed by State Inspected facilities owned and operated exclusively by R. B. Haydon Seed Farms. This modern processing plant is open all times to public inspection.
- Haydon Texas Certified Hybrids are backed by the "Haydon Hart of the Plains" branded label and the State of Texas.

#### HERE ARE THE RESULTS

of the facts behind Texas Certified Hybrids Yield Records:

Winner of the statewide hybrid grain sorghum production program was Mr. Hubert E. Setliff of Route 1, Plainview, Texas. His yield was 10,195.6 pounds per acre from Texas 620 under irrigation.

The dryland winner with a yield of 6,454.8 pounds per acre was Walter F. Schafer of Fayette County, Texas with Hybrid RS 610.

The other winners, too numerous to mention, all planted and harvested Texas Hybrids.

- In 11 states, conducting tests, Texas Hybrids have out-yielded standard varieties including Martin up to 40% under all conditions.
- Texas Hybrids led all other hybrids and standard varieties at the High Plains Field Station of the Texas Research Foundation at Halfway.
- In average field tests in Castro County Haydon Texas Certified Hybrid 620 netted an average of \$16.20 per acre over Martin under the same conditions.

#### Another High Production Mark

Mr. Jay Boston, outstanding Castro County farmer and holder of the county sorghum yield records, had one 60-acre field of Haydon Texas Hybrid 620 that in the verified opinion of all who looked at the field would make 9000 pounds per acre (inclement weather conditions prohibited accurate testing of this crop). Mr. Boston believes in Haydon Texas Hybrid enough that he intends to plant it 100% this year.

### New Service For Long Distance Telephone Users

A new service for all users of long distance has been inaugurated this month by General Telephone Company of the Southwest. Starting with the March telephone bills, customers will receive the original record, or toll ticket, for each long distance call charged to their telephone number.

These original toll tickets, which are made up by the operator at the time the long distance call is placed, will be enclosed with the regular statement. The total charges for telephone service, including federal tax, will appear on the face of the bill, and the toll tickets will replace the itemized statement of long distance calls. This new service will permit subscribers to check details about each call charged to their number. Adjustments for incorrect charges will still be handled, in person or by telephone, at the local telephone company business office, but the ticket in question MUST either be mailed or brought to the local office.

Before mailing the original toll ticket to subscribers, the telephone company will have recorded each ticket on modern micro-film, which will give the telephone company a permanent record of all long distance toll tickets.

The local district manager has asked the subscribers bear in mind that the operators are instructed to spell names, that will appear on toll tickets, as they sound, rather than delaying the call to verify correct spelling. He emphasized that calls are charged against the telephone number, and not necessarily the name appearing on the toll ticket.

Mark Cooper, public relations director for the company, stated that this new service is for the convenience of customers, and it is hoped that long distance users will find the service helpful.

Mrs. Raemon Cole and Mrs. Raymond Rudd visited Mrs. T. E. Alair, Monday. Mrs. Alair is suffering from a sprained ankle.

PL—

Mr. and Mrs. Price Hamilton and Mr. and Mrs. Robert Riley went to Tucson, Ariz. Thursday and returned Monday night.

### Farm Housing Program Expanded

An expanded farm housing loan program, designed to speed up farm building construction improvement as well as act as an additional anti-recession measure, was announced today by Walter T. McKay, Farmers Home Administration State Director, according to Truman J. Jones, the agency's local County Supervisor.

Now an owner of a farm in agricultural production and on which the operator plans to produce at least \$400 worth of farm commodities for sale or home use may qualify for the 4 per cent long-term housing loan provided that he meets other standard eligibility requirements.

Formerly an eligible applicant had to own a farm that produced a more substantial part of the operator's annual cash income.

Loans may be made to build, improve, or repair farmhouses or other essential farm buildings, and to provide water for farmstead and household use. Truman J. Jones said that in addition to financing major construction, the loan funds can help meet many other needs for farm and farm home modernization such as adding bathrooms, utility rooms, better kitchens, and many other improvements to the home as well as to farm service buildings. While tenants and farm laborers are not eligible, the owner may borrow to do construction work or make improvements for them.

The loans are made to farm owners who need credit to finance building improvements or repairs, but find that adequate credit is not available through banks or other regular credit channels. The interest rate is 4 per cent and loans may be amortized over periods up to 33 years.

Eligibility for loan assistance is determined by the three-member County Farmers Home Administration committee, and applications are now being accepted in FHA county offices.

Mrs. Lura Kelley visited her daughters, Mrs. Earl Miller and Mrs. Fred Nix in Lubbock recently and attended several Revival services conducted by Evangelist Angel Martinez, at the First Baptist Church there.

FOR THOSE WHO ARE SICK

Read What These Patients Of This Clinic Have To Say About Chiropractic:

#### HEADACHES: CASE HISTORY:

Headaches have a removable cause. A middle aged mother had suffered from headaches for so many years she couldn't remember when they first began. Working and taking care of her family with these head pains she grew more nervous. She tried several remedies with out results.

She was eventually brought to the Clinic for a spinal analysis and spinal X-ray to locate the cause of her trouble, pleurisy, palpitation of the heart and high blood pressure of 200. After a course of Chiropractic service she reported no headaches at all. Besides this recovery, she said she was not dizzy any more, blood pressure was down to 156-100, all chest pains and sinus pains were cleared up. When your personal opinion is based on fair investigation and not on conditional emotions, you become a satisfied patient. It will pay you to investigate now.

#### HIGH BLOOD PRESSURE: CASE HISTORY:

Woman, age 40 came to the Chiropractic Clinic suffering from the following ailments: extremely high blood pressure, sinus with catarrhal drainage, pain in shoulders and rib area. HEADACHES, very nervous unable to breathe deeply, continual cough, constipation, thyroid disorder, kidney and stomach trouble. After a spinal examination including spinal X-rays corrective adjustments were begun to remove pressure from the nerves affected, and to realign the spine. Under recommended service, this woman's health was restored. She states, "I have finally found the way to get well and stay well."

#### — OFFICE HOURS —

Monday, Wednesday, Friday 9 a.m. to 12—3 p.m. to 6 p.m.

Tuesday, Thursday, Saturday 9 a.m. to 12

#### RUPTURED DISC (Back Trouble)

#### CASE HISTORY:

Man, age 31, came to the Chiropractic Clinic after reading a case testimony describing a condition similar to his. He had been confined to the hospital with extreme back pain which was aggravated by a spinal tap which in turn started terrific headaches. He was medically diagnosed "ruptured discs" and was put into a steel brace before submitting to a spinal fusion operation from which he was told it would take a year or more to recover, in an effort to avoid an expensive and dangerous spinal fusion operation he consulted Dr. Brooke Green. After an examination consisting of nerve analysis and spinal X-rays, this man began corrective spinal adjustments to remove pressure on nerves causing his trouble. His pain was lessened from the first adjustment. His condition continued to correct rapidly and in less than six months he was doing heavier mechanic work than before his back trouble. Such patients urge everyone to TRY CHIROPRACTIC FIRST to correct the cause of their disease or ailment.

HOW MANY OF THESE MUSTS WILL YOUR NEXT WAGON HAVE?

LOOK FOR TENNESSEE ERNIE FORD STAR OF THE FORD SHOW ON TV EVERY THURSDAY NIGHT

1. STYLING THAT WILL STAY IN STYLE  
Ford Station Wagon styling is Thunderbird-inspired. So you know it's going to be in style for a long time to come. And Ford offers you six different body styles to choose from.
2. ALL-NEW V-8 ENGINE  
Ford V-8 power is all-Thunderbird, too... with new Precision Fuel Injection that pays off in still better gas mileage. And it can be yours in all Fords (including the lowest-priced wagon of the low-price three).
3. MOST MODERN "SIX"  
The Ford Mileage Maker Six is the most modern and most economical Six in its field. It's the 1958 version of the engine that scored most miles per gallon in last year's Mobilgas Economy Run.
4. SINGLE-CONTROL LIFTGATE  
Loading and unloading is a cinch with Ford's single-control latch. Just a flick of the wrist and both lift-gate and tailgate open. You can close both gates with one hand, too.
5. GENUINE FOAM-RUBBER CUSHIONS IN FRONT SEATS OF ALL MODELS  
Only Ford wagons offer you the added luxury of genuine foam-rubber front seat cushioning in every model. And all Ford wagon seats are scientifically contoured over non-sag springs for greater riding comfort.
6. LOWEST PRICE POSSIBLE  
Because Ford sells nearly half again as many station wagons as its nearest competitor, Ford can sell these fine wagons at half the line-car price.
7. TRADITIONALLY MOST WANTED AT RESALE TIME  
Ford Station Wagons, dollar for dollar, have traditionally commanded top prices on the used car lots. Another reason why your investment in a Ford wagon holds up better.
