Panel Told To Launch Study On Air Safety

WASHINGTON (AP) — President Eisenhower today ordered his Air Coordinating Committee to make a special study aimed at eliminating midair collisions "to the maximum degree."

The White House said Eisenhower's action was prompted by the collision in Maryland Tuesday of an Air National Guard jet and a commercial airliner. That crash took a dozen lives.

At the same time, Eisenhower arranged to confer later in the day with two House members who are members of a committee investigating the Tuesday crash.

Rep. Prince Preston (D-Ga) said he and Rep. Cliff Clevenger (R-Ohio) got word from the White House that Eisenhower would see them (at 3:30 p.m. EDT).

Preston and Clevenger are the top members of a House Appropriations subcommittee which was rebuffed by federal air officials Wednesday night on a subcommittee stopgap plan aimed at halting civilian-military air crashes.

The subcommittee voted to take the issue directly to Eisenhower. Preston said a White House aide, Jack Anderson, came to his office this morning with word of the appointment.

Eisenhower's Air Coordinating Committee is headed by retired Air Force Lt. Gen. Elwood R. (Pete) Quesada.

The White House announcement by Press Secretary James C. Hagerty said "at the request of the President, E. R. Quesada, chairman of the Air Coordinating Committee will hold a series of special meetings of his committee, starting tomorrow (Friday), designed to further accelerate air safety actions and to eliminate to the maximum degree possible midair collisions.

"Mr. Quesada will report as soon as possible to the President on measures already taken on recommendations to the Congress and on the results of these special meetings..."

Administrator James T. Pyle of the Civil Aeronautics Administration meanwhile, was telling a Senate Commerce subcommittee "We are not going to solve this problem overnight."

Military-civilian collisions have taken 61 lives in a month, spurring new demands in Congress for new air safety measures.

Pyle said a new control system to be put into effect on all major U.S. airlanes will require that both civilian and military planes fly by instruments with safety spaces between them.

"This will reduce our exposure to a minimum," Pyle told a Senate Commerce subcommittee on aviation headed by Sen. A. S. Mike Monroney (D-Okla).

Monroney, opening the Senate hearing, said there must be an "end of dual system of traffic control."

He has introduced a bill to set up a new independent federal aviation agency with broad authority to regulate the use of all U.S. air space by both civilian and military aircraft.

SAYS MEN FEAR WOMEN—Dr. Lydia Sicher, Los Angeles psychotherapist, says all men are afraid of all women—including their wives. She says it is a matter of male inferiority, the same inadequate feeling that makes men seek to be Casanovas. (AP Wirephoto)

Battle Erupts In Tunisia

By GODFREY ANDERSON

PARIS (AP) — Fighting between French and Tunisian forces erupted in Tunisia today, heaping new North African troubles on Premier Pierre Pflimlin's government.

President Habib Bourguiba said in Tunis the fighting broke out after French planes dropped a bomb Wednesday on the airport at Gafsa, in south central Tunisia 25 miles from the Algerian border.

The French had accused Tunisia of trying to provoke a clash with French troops at a time when the government in Paris is trying to regain control of neighboring Algeria from French rightists.

French troops and planes have been technically restricted to their bases by Tunisian orders since the bombing of a border village in February touched off a crisis between France and its former protectorate.

A Conservative leader lent a hand to hard-pressed Premier Pierre Pflimlin by going off to see Gen. Charles de Gaulle, who has offered to assume full power in France.

The leader, Antoine Pinay, was reported urging De Gaulle to use his influence over insurgent military men and French colonials in Algeria to bow to Paris' authorities.

Pflimlin was speeding progress of constitutional reforms aimed at strengthening the executive authority and make it more difficult for the National Assembly to turn cabinets out of office.

Pflimlin's new military chief, meanwhile, prepared for a mission to Algiers aimed at bringing the Gaullist generals there back under the control of Paris. A military envoy from Algiers already was in Paris.

The Premier put his constitutional proposals in shape for Cabinet consideration in a conference last night with political leaders, who have given him overwhelming support so far.

The chief aim is to end the rapid turnover in French cabinets which has so often stymied French policy and produced the demand for a strong-man regime headed by Gen. Charles de Gaulle.

The heart of the reform plan reportedly is a constitutional amendment requiring the opposition, before it can vote out a government, to come up with a new premier and program acceptable to the Assembly majority. Provision also would be made for dissolving the Assembly and holding new elections when the Cabinet and the deputies deadlocked without acceptable alternative.

In the past, dissident coalitions of left and right have overthrown one premier after another but never been able to agree on a program to rule together. This has been a major aspect of the "regime of parties" De Gaulle assailed in offering to take over the government.

In his first major step to reestablish the government's control in Algeria, the Premier ordered Gen. Henri Lorillot, new chief of staff for the combined forces, to cross the Mediterranean. His departure date was a closely guarded secret to protect him from the colonialist hotheads in North Africa.

Officially, Lorillot's mission was to discuss military operations in the Algerian war with Gen. Raoul Salan, the territory's military dictator who is supposed to be exercising authority for Paris but who has been voicing pro-De Gaulle sentiments. Despite his announced purpose, it was assumed Lorillot also would go into Salan's ambiguous position in the crisis.

The government possibly had some clues to Salan's actions already. His chief of staff, Col. Juille, has been in Paris two days for official talks and was preparing to return to Algiers.

Truman Says Attacks Hurt U. S. Prestige

CHICAGO (AP)—Harry S. Truman told newsmen today the attacks on Vice President Nixon in South America damaged the prestige of the United States.

The former President also predicted the Democrats will win the 1958 and 1960 elections if there is no change in current conditions.

He said he has no favorite for his party's presidential nomination, but suggested there is plenty of good timber.

Truman held a news conference in the Sheraton-Blackstone Hotel shortly after he arrived in Chicago to make a speech at a $100 a plate Democratic dinner tonight.

Asked if this nation's prestige had been damaged by the violence attending Nixon's good-will trip to Latin America, he replied:

"Apparently it did. Those people have always been our friends."

He said that the dispatch of Marines to the Caribbean while Nixon was having trouble in South America will make, a good subject for the coming political campaign.

"The vice president represents the country and should be treated with every courtesy in the world," he said.

Truman told reporters that "if conditions continue," the Democrats will win the 1958 congressional elections and take over the government in 1960.

Jobless Pay Measure Has Panel Okay

WASHINGTON (AP) — The Senate Fiance Committee today approved a House-passed bill authorizing the federal government to advance money to the states for a temporary extension of unemployment benefits. The vote was 11-4.

Chairman Harry F. Byrd (D-Va) said the anti-recession measure, endorsed by the Eisenhower administration, will be brought up for action in the Senate next Tuesday.

The committee rejected by a 10-4 vote a substitute proposal of Sen. Paul H. Douglas (D-Ill) to liberalize the emergency measure and, to strengthen the unemployment insurance system on a permanent basis.

Douglas, who called the House bill ineffective, said the fight will be carried to the Senate.

A key feature of the bill, and a center of controversy, makes state participation in the emergency program optional.

Participating states could draw federal funds to extend by as much as 50 per cent the number of weeks in which insured workers could draw unemployment compensation.

In most states this would mean an additional 13 weeks, but both the amount of benefits and their duration vary from state to state.

The cost of the program, assuming all states participate, has been estimated somewhat in excess of 600 million dollars.

However, the bill provides for reimbursement of the federal advance. The payroll tax on employers in participating states would be increased, beginning in 1963, unless the money had been otherwise repaid by the states.

STAMP OF APPROVAL—Stephanie Buetens, a New York registered nurse, has a good reason to grin and call her friends. The stamps she holds are worth $42,000 according to a philatelist. Miss Buetens was given the stamps by a grateful patient in 1955. The portfolio, honoring United Nations, consists of 5,000 stamps worth three cents each when issued by United Nations in 1954. The nurse learned of her good fortune after checking with a professional rare stamp dealer she heard by chance on a television show. (AP Wirephoto)

Living Costs Reach Peak

WASHINGTON (AP)—Another record high in housewives' grocery costs sent the government's living cost index to a peak in April.

Officials who announced the new rise today had some good news for consumers, however. They said some food prices are declining in May and that the over-all level seems to be reaching a somewhat stable level for the summer months.

Ewan Clague, Labor Department statistics commissioner, told a news conference that "in a broad generally way I'd say the index has shot its bolt—theres no question about it, the big rises are now over.

The government index rose two-tenths of 1 per cent between March and April, reaching 123.5 per cent of the 1947-49 base period.

The April rise was wholly due to higher food prices, particularly fresh fruits and vegetables. Prices for meats and fish also were higher.

The April living cost level was 3.5 per cent above April 1957. It represented the 18th increase in the past 20 months. It has declined only once in the past 28 months, despite the business recession.

The new rise means a pay increase to about half a million workers based on labor contracts geared partly to changes in the government index. Most of the workers will receive boosts on June payroll of about two or three cents an hour. Some will get as high as five cents an hour more.

Another 750,000 workers normally would get pay adjustments based on the April index increase. This includes employes of the major auto companies. Labor contracts for these workers are expiring at the end of this month.

The automatic raises go to workers in the aircraft and electrical manufacturing industries.

The two-cent increase which the auto workers would have received under the old contract is expected to be a factor, at least, in calculating new wage rates now being negotiated in Detroit.

Clague said food prices — the main element which has been boosting the index—usually hit a peak about July every year and declined in August.

Clague indicated belief that enough consumer items are showing decline tendencies to make him think that retail costs soon will level off.

Housing, medical care and personal care items all increased in April although clothing and transportation costs declined. The transportation items were influenced principally by lower prices for gasoline, new cars and tires. Used car prices rose slightly, indicating more people are turning to second-hand automobiles.

Food items alone increased by seven-tenths of one per cent in April, reaching another record.

A boost of 4½ per cent in fruit and vegetable prices represented the joint effect of seasonal influences plus continued effect of adverse growing conditions in the winter and spring.

Ruling Made On Taxes For Gas Products

AUSTIN (AP)—Gas products are not taxable as real property but are taxable as personal property, an attorney general's opinion said yesterday.

The opinion said that gas owned by Sun Oil Co. under leases which it holds is subject to the property taxation as long as it is not severed from the ground. But after processing, the products do not constitute land property subject to taxation but should be taxed as personal property.

L. P. Lollar wrote the opinion for Atty. Gen. Will Wilson at the request of Starr County Atty. Frank Nye Jr., of Rio Grande City.

Sun omitted from its ad valorem tax properties the products or proportions of the liquids extracted from processing gas through contract with the producers. Nye said this "plant operator's portion" totaled $2,165,120 in 1956 and Starr County officials claimed it should be subject to the ad valorem taxes.

Jury Deliberating Gun-Running Case

By B. F. KELLUM

BROWNSVILLE (AP)—A jury in U.S. District Court began studying today the fate of 35 men accused of conspiracy to run arms to the Cuban rebel leader, Fidel Castro, last March.

"No sympathy or prejudice must be allowed to deflect your judgment," U.S. Judge James Allred told the jury. "We have nothing to do with the internal affairs of Cuba. The policy of this country is represented by laws and treaties and the punishment is up to the judge."

"The government is concerned only with the violation of U.S. neutrality laws and not in the internal affairs of Cuba," U.S. Atty. William Butler of Houston stated in opening lawyers' arguments.

Col. E. E. Matthews, Brownsville defense attorney, said: "I am interested in democracy anywhere in the world and am proud to represent this group. They are not the kind of men we see as defendants in a courtroom. They are just a group that wanted to fight for democracy."

U. S. Atty. Bryan Odem of Brownsville said it wasn't the jury's problem. "To send these boys to the penitentiary. That is up to the judge."

The only defense witness was Capt. Jose Boliver Medina, Ecuadorean captain of the ship Orion, aboard which the Coast Guard seized the men and arms March 27 in the Gulf off Brownsville.

He said his ship was 15 or 16 miles offshore when a Coast Guard cutter rammed it and armed U.S. officials boarded the vessel and forced it into Port Isabel, Tex.

His testimony was aimed at showing the ship was outside the U.S. territorial limits when boarded.

House Passes Postal Hike

WASHINGTON (AP) — The House passed and sent to the White House today a bill to raise the cost of a first-class letter from 3 to 4 cents and on airmail letters from 6 to 7 cents.

The rate hikes will take effect Aug. 1 if President Eisenhower signs the bill.

The measure also carries wage increases for post office workers aggregating 380 million dollars a year—more than Eisenhower proposed.

The House sent the compromise measure to the White House after brief discussion. The Senate passed it Wednesday 88-0.

The bill provides for an overall increase in postal rates of an estimated 550 million dollars annually.

The compromise bill does not contain the Senate provision permitting military personnel having Army Post Office or Fleet Post Office addresses abroad to send letters free.

House conferees insisted on elimination of the provision.

British Costs Up

LONDON (AP) — The Ministry of Labor said today the British cost of living index jumped 2 points to 110—between mid-March and mid-April. The index is based on prices of January 1956 as 100. The jump was attributed mainly to rising food prices.

Road's Route Being Cleared

City workmen have started dismantling of the J. O. Dodson house at Thirty-first Street and Avenue S to clear right-of-ways for widening and straightening of the Big Spring highway.

The road will be straightened at the "S" curve, and will be widened to four lanes from the Deep Creek Bridge to the intersection of the Roundtop road and highway 350 near the entrance to Cogdell Memorial Hospital.

The house and property was purchased from Mrs. J. O. Dodson by condemnation for a fee of $27,500.

Work will begin on construction of the highway about July 1.

Armed Hoodlums Paralyze Panama

By LUIS C. NOLI

PANAMA (AP)—Gangs of hoodlums armed with clubs, rocks and bottles defied National Guardsmen today in the heart of this paralyzed city.

The hoodlums appeared to have taken over from students who had called for a general strike at midnight in protest against school conditions.

Buses stayed in the barns and private cars avoided the downtown section as violence and destruction raged unchecked.

The Guardsmen appeared to be avoiding an open clash. They chased away gangs which battered down traffic lights and smashed a store window but seemed unable to cope with all the violence.

Thousands of persons were forced to walk to work. The streets in the heart of the downtown quarter were strewn with garbage cans. At least three homemade gasoline bombs exploded in scattered areas.

Youngsters ranged down Central avenue, the city's main thoroughfare, smashing parking meters.

The National Guard, which acts as both police and army, also is the object of the students' wrath since a high school boy was killed in a rock and tear gas clash between students and Guardsmen Monday.

High school and university students demanded that President Ernesto de la Guardia Jr. fire three Guard commanders as well as Education Minister Victor Juliao by midnight Wednesday. When the deadline passed, the students called for a general strike. They said they had the support of the labor unions.

High school and university students charge Juliao has failed to provide proper high school facilities.

The government has warned it will enforce a state of siege if violence gets out of hand. But the absence of troop reinforcements showed no move was made immediately to challenge the students.

Judge Paul Plans To Retire Aug. 1

HARRISONBURG, Va. (AP)—The federal district judge who issued the first desegregation order for Virginia's public schools will retire this summer.

John Paul, 74-year-old Republican named to the federal bench late in 1931 by President Hoover, said he has written President Eisenhower of his desire to retire Aug. 1.

Father Time Cuts Down Man With Ax

BROWNSVILLE, Tex. (AP)—Father Time has cut down "the man with the ax," whose associates agreed with his calculation that he was born 124 years ago.

Francisco Gomez Marfill, who, if his memory was correct, was born while his adopted Texas was part of Mexico, died Wednesday of old age.

Until he became ill six months ago, Gomez Marfill walked about this south Texas city with a single-bladed ax, his trademark, always balanced on his shoulder. He was a wood cutter as late as 1950.

Skies Mostly Clear Over Texas Today

By The Associated Press

A little ground fog cluttered up the coast and Houston had a trace of rain during the night for the only precipitation Texas weather stations recorded Thursday.

Predawn temperatures varied from 73 at Galveston to 52 at Junction.

More clear to partly cloudy weather was forecast, with a few showers along the coast.

Highs Wednesday ranged from 97 at Presidio to 77 at Brownsville.

Algerians Say They Are Saving France

By DAVID MASON

ALGIERS (AP) — Optimism as intense as the brilliant Mediterranean sunshine is sweeping through the streets of Algiers.

"Algeria is saving France," acclaim splashy posters along the palm-lined avenues.

The desperate slogans of the 3½-year fight against Arab nationalists — "Algeria must remain French"—are virtually lost in the flood of events since the stunning defiance of Paris here nine days ago.

The quick success of the bid for power by disgruntled generals and French settlers has given their leaders a heady sense of mission to shock France into wiping out its bickering, blundering political system and again make the nation a vigorous world power.

Front-line students of the complex Algerian mind find it difficult to see where it all will end. Confusion heaped upon paradox obscures the immediate future.

Some pressing questions have emerged from what is now being called "the Revolution of May 13." That was the day civilians rioted against the possibility that Premier Pierre Pflimlin might seek negotiations to end the Algerian war. The riots led to establishment of military-civilian juntas throughout Algeria which seized governmental authority in defiance of Paris.

The questions are:

1. If Algiers cannot force political changes on Paris, will Algeria secede from France?

The answer appears to be no. One big reason is the territory's strong economic dependence on the homeland. Another is the close personal and cultural ties between Algeria and France. And for another thing the bulk of France's conscript army in Algeria probably would mutiny before it would fight to protect an independent Algeria.

2. What has happened to the Arab rebellion?

The Algiers Committee of Public Safety, which is running the show, claims the capital is calm and has virtually stopped and the rebels are rallying to it. Independent information seems to confirm at least the first part of this. A high-ranking officer in a hotspot of eastern Algeria said rebel troops are retiring into the interior, apparently to await new orders.

Trujillo To Kansas City

KANSAS CITY, Mo. (AP)—Free-spending Lt. Gen. Rafael Trujillo Jr., arrived in Kansas City today, apparently to resume military classes at nearby Ft. Leavenworth, Kan.

Trujillo left the school about two months to go to California. He rented a $2,500-a-month Beverly Hills mansion and spent most of his time visiting Hollywood night spots in the company of movie star Kim Novak.

The 29-year-old son of the Dominican Republic strongman refused to answer any questions here.

Trujillo's wife and six children are in the Dominican Republic.

The general has said a Mexican divorce will be final in July.

Miss Novak, asked if she was in love with Trujillo, said "You know I can't talk of anything like that now. He's still married."

Wilson Modifies Ruling On State School Land Leases

By FRANK N. MANITZAS

AUSTIN (AP)—Atty. Gen. Will Wilson backstepped today on the School Land Board's procedure in making oil-gas lease awards on state lands.

The official opinion issued to the land board was a direct result of a controversy concerning the leasing of a 90-acre tract in the Rio Grande off Hidalgo County.

Harrell Drilling Co. of Houston submitted on March 4 a high bonus bid of $91,551 for the proven land. Other bidders protested when Sen. Gene Parkhouse of Houston, 67, who died of a lung infection.

Today's opinion apparently assures Harrell drilling of receiving the lease.

At a later meeting, Wilson said the Land Board had acted illegally the past nine years in awarding leases without first formally approving the minutes.

In his opinion today, Wilson said leases could be awarded prior to approval of minutes, although they should be checked for accuracy.

"The board has the legal duty," the opinion said, "to approve such minutes, if satisfied to their accuracy, and is without authority to reopen the matter for new bidding on another basis, the approval of the minutes being merely ministerial."

Wilson said "I am sure that this is what the board will do."

Testimony before the land board [illegible] method of leasing procedure—which the board could have used—might have meant an additional $324,294 in revenue for the state. The money goes to the permanent school fund for the operation of public schools.

The board meets Saturday.

"It is our opinion that the board accepted the high bid on March 10, and it has no authority under the law to reopen the matter," wrote Asst. Atty. Gen. Arthur Sandlin who prepared the opinion.

Harrell submitted the highest bonus bid of six companies seeking the lease. Under the agreement, the state would get $91,551 cash immediately, plus one-sixth royalty on production.

Parkhouse and others claimed the land board should have leased the land on a fixed bonus and a high bid royalty basis because the land was in proven production area. Under this method, the [illegible] would pay the bonus asked for by the state. The company getting the lease would be the one submitting the high royalty bid. Royalty bids generally range from 20 to 55 per cent for the state, although some have gone as high as 90 per cent.

Billy Bridewell of Tyler was the second high bonus bidder on the tract with a bid of $91,601.

Many Attend Colman Rites

SANTA BARBARA, Calif. (AP) — Many motion picture colleagues turned out for the quiet, simple funeral of British-born actor Ronald Colman.

Easter hymns were played during the 15-minute service yesterday. There was no eulogy. Colman, 67, who died of a lung infection.

Colman's widow, Benita Hume, was accompanied to All Saints-by-the-Sea Episcopal Church by actor William Powell. Richard Barthelmess, who appeared years ago with Colman and Powell in the film "The Three Musketeers," took the arm of the actor's daughter, Juliet, 16.

WEATHER

REPORT TEMPERATURES [illegible]

East Texas: Considerable cloudiness through Friday. Few showers mainly near coast this afternoon and tonight. Scattered thundershowers Friday. No important temperature changes.

South Central Texas: Partly cloudy through Friday. A few showers mainly near coast. No important temperature changes.

North Central and West Texas: Partly cloudy through Friday with no important temperature changes.

Demoted Professor Declares Teachers Afraid To Talk

By HERMAN SCOTT
Greenville Herald-Banner
Written for The Associated Press

COMMERCE, Tex. (AP)—Teachers at East Texas State College botbed of a controversy over the general studies program, "will not talk for fear of reprisal," says demoted Dr. L. D. Parsons, head of the Department of Chemistry since 1941.

"I made this statement last week when I appeared before the board of regents in Austin," said the veteran member of the East Texas State faculty. "I, for one, am not afraid to talk because I soon will be eligible for retirement anyway, and I can not impose on students."

Parsons told the Greenville Herald-Banner he was one of three department heads at the college who had been asked by President James Gee to step down "because we are not in sympathy with the general studies program."

His future plans cannot be announced, Parsons said, "until I am advised of the ruling of the regents. I do not know whether I have been elected professor of chemistry, or just what has happened."

He produced a letter signed by Dr. Gee, which was worded, "I take my own better judgment—nominated you to the board for employment as professor of chemistry effective 1 June 1958. A similar nomination has been made for the forthcoming academic year, 1 September 1958-31 May 1959."

The letter signed by the president was dated May 12, 1958.

"I did not now until then what my exact status was," Parsons said.

Digging into his files, Parsons came up with a stack of letters written to him by Dr. Gee and his replies. They all dealt with the opposition of the Chemistry Department head to the general studies program.

"The only differences I have had with Dr. Gee have concerned general studies," Parsons commented.

Parsons implying that everything was sort of "hush-hush" concerning the general studies subject on the East Texas campus, said "the situation is such that I feel exactly like a mouse in a bear trap," he added. "A lot of others feel the same way."

Declaring that he was misquoted in reports which said he agreed with the board of regents that he was not entitled to a public hearing when the board met in Austin, Parsons said, "I believe I was entitled to a public hearing and I still think so."

The hearing he said, was held with no regents present. Dr. Gee was there, too, Parsons added. "I had presented my case and had been questioned by the regents. Dr. Gee was asked if he had anything to say. He didn't."

Regents were told, Parsons said, that he didn't know about other departments at East Texas State, but as far as physical science is concerned the general studies program is really an abomination under the Lord. No student should be subjected to a course with no more value than this course has."

Chicks' Heads Transplanted

NEW HAVEN, Conn. (AP)—Mira Pavlovic, Yale zoologist, reports having reared baby chickens whose heads were transplanted while they were still embryos in the shell.

Miss Pavlovic, 28, a Yugoslav scientist who came here from Paris in 1957, said the feat provides new information on the compatibility of tissues.

She said she performed the transplants on 100 embryos and six of them hatched. One lived 70 days, and another 35. Others lived two, four and nine days, and one died shortly after it was hatched.

Studies are now being conducted to determine the cause of five of the deaths. The one which lived 35 days died of a digestive disturbance. A lack of appetite was common in the others.

The experiments were performed on Rhode Island Reds to which the heads of a black breed were transplanted. The chicks displayed no different behavior characteristics from normal chicks.

New Probe Into Taxes Scheduled

AUSTIN (AP)—A new probe into current tax revenue and state tax collections will begin May 29 in Houston, the Senate General Investigating Committee said yesterday.

Committee Counsel Gene Lebrden said eight to ten witnesses would be subpoenaed, including some state employes.

Rites Are Conducted For Ward Infant

Graveside rites were conducted at 10 a.m. today for Juanita Ward, infant daughter of Mr. and Mrs. John Ward, Bassridge Addition. The child died Tuesday night.

The Rev. Roy Womble conducted the rites in the Snyder Cemetery where burial was under direction of the Bolger Funeral Home.

Bonds Are Posted By Two Suspects

Bonds of $3,000 each have been posted by Luther "Krip" Tucker and Anderson Davis, Sr., Snyder Negro men charged yesterday with sale of liquor in a dry area.

Bondsmen for Tucker were F. J. Chapman and E. E. Wallace, and Pat Beene was bondsman for Davis.

TODAY'S MARKETS

(AP Wirephoto)

NEW YORK (AP)—Stocks continued active as the stock market widened its gains in brisk trading early this afternoon.

Gains of fractions to around a point were posted by key stocks.

Another jump in the cost of living to a record high, bringing with it automatic pay boosts to thousands of workers, was a market factor.

Steels, rails, aircrafts, base metals and oils did well.

Indications from some steel industry spokesmen that there would be a price boost and industry's increasing output from very low levels were news elements accompanying the rise in steels.

Market analysts said, however, that an important factor in the rise of steels was the "squeeze" on short sellers. There has been a big boost in the short position of the leading steels. Short sales are sales of borrowed stock made in the hope the stock can be bought at a lower price and repaid. The continued rise in steels has thus put pressure on the "shorts" to cover their sales before a sustained price advance brings their heavy losses.

U.S. Steel, Republic Steel, Lukens Steel and Youngstown Sheet all rose about a point and Bethlehem added a fraction.

Inspiration Copper showed a net fractional loss as it halved its dividend.

Gains of about a point were made by American Tobacco, Kennecott, International Nickel and Caterpillar. Also higher were General Motors, J. I. Case, North American Aviation, Curtiss-Wright, Sinclair, Union Carbide and American Cyanamid.

U.S. government bonds advanced.

Big Spring Sets Rodeo

The Big Spring Rodeo Association has announced that plans are complete for the 25th annual performance of the Big Spring Rodeo, June 12, 13, and 14.

Everett Colburn, veteran producer, will again be at the helm of this show, with his usual fine array of rodeo stock, tops in announcers, clown acts, and specialty acts. Among the specialty acts this year will be the famous Moore Family.

Comprising the major events will be calf roping, saddle bronc riding, bareback riding, bulldogging, and bull riding. There will also be a milk cow milking contest. The Girls Barrel race will be still another feature of the rodeo.

A big parade will proceed through the downtown section of Big Spring at 4 o'clock p.m., on June 12. Attractive prizes are offered the first three winning floats in the amount of $50, $30 and $20.

Sheriffs posses and riding clubs from the neighboring towns and counties have been invited to march in the parade. An appropriate trophy will be presented the outstanding posse at the first night performance. After the parade the posses will be honored with a barbecue at the rodeo grounds, with the rodeo association and the Big Spring Mounted Patrol acting as hosts.

This years purse will amount to $5,300.00 plus entrance fees.

Tax Refunds In District Hit Record

A record number of tax refunds were made by the Dallas District of the Internal Revenue Service by May 9 of this year, according to A. E. Fogle, Jr., Administrative officer of the Abilene office. Tax refunds amounting to $64,379,186 have been forwarded to 685,576 taxpayers. Sixty-five hundred other North Texas taxpayers' tax refunds have been held up because of faulty preparation of the returns. The Internal Revenue Service is making every effort to clear the errors on these tax returns as soon as possible. Taxpayers were requested not to contact the Internal Revenue Service concerning their refund until after July 1.

Fogle stated that "24,960 North Texans had possible erroneous deductions in their tax returns that requires a pre-refund audit before the refund can be made." The Internal Revenue Service is advising each of these taxpayers of a specific time and date for reporting for an interview or is requesting specific information by mail concerning the deductions claimed.

Taxpayers involved in the pre-refund audit program are being scheduled as rapidly as possible by the Internal Revenue Service, however, this audit program continues until September 30. Taxpayers who have received notice that their return has been selected for a pre-refund audit do not have to write or call the Internal Revenue Service since they will be contacted as soon as possible by the auditor assigned to their case.

BIRTHS

Mrs. and Mrs. Wallace Hatfield, 2102 Fortieth Street, are the parents of a son born at Cogdell Memorial Hospital, weighing six pounds three and one-half ounces, born 8:11 p.m., May 21.

Firm Plans Films For TV

HOLLYWOOD (AP) — Four Star Films, Inc., today announced plans to produce 28 million dollars worth of television films for the 1958-59 season.

The company is owned by actors Dick Powell, Charles Boyer and David Niven.

Four Star has 312 half-hour television films in preparation for six different series.

ART EXHIBIT READY—Janice Young, left, watches as Lera Anne Hogan puts the finishing brush touches to a landscape which is on display in room 112 of the Snyder High School building. Works of all art students are being publicly exhibited today through Monday. Lillian Jones, art teacher, said that everyone is invited to visit the exhibit at any time. (Lee Watson photograph).

WOMEN

Girls Look Good In Shirtsleeves

By DOROTHY ROE
Associated Press Womens Editor

THIS IS THE YEAR to take off your jacket and run around in shirtsleeves, says Leonard Fisher, a bachelor designer who has definite ideas about what girls should wear and why.

"Not every girl can wear the chemise blouse, any more than every girl can wear the sack dress, says this handsome young man, who designs high-priced, high fashion blouses for one of the countrys leading manufacturers.

"For fall, the overblouse is the thing to wear with suits, but it need not be loose or shapeless. The most flattering style comes just to the hipbone, and is snugly banded there. I like a standaway neckline, to give a long-necked look to the wearer and also to show her jewelry. The French-cuffed three-quarter sleeve also is important.

"When I design a chemise blouse I make it with an elastic belt which may be worn at the hipline or pulled up to the waistline, giving a bloused effect.

Practically all suit blouses for fall will be overblouses of one kind or another, giving a costume effect when worn without a jacket.

Fisher predicts that double-layer chiffon blouses will be more important than ever next fall, and he also will show costume overblouses in a satin-backed wool print with a shaggy finish giving a brushed look.

For summer wear his best seller has been a V-neck overblouse in drip-dry pique, worn as a top for skirt, shorts or bathing suit, with a turban to match.

Hillhouse Attending Course In Oklahoma

NORMAN, Okla. — Noval Hillhouse of Snyder is attending a five-day course on conference leading at the University of Oklahoma.

Hillhouse, plant superintendent of the Sunray Mid-Continent Oil Co., will receive a certificate from the university Friday.

The short course, offered at OU by business and industrial services, extension division, is No. 2 in a series of six courses for supervisory personnel.

Miss Springer Candidate For Arts Degree

Columbia, Mo. — Miss Janice Springer of Snyder is a candidate for an Associate in Arts degree from Stephens College. Commencement exercises for the 125th graduating class will be held Tuesday morning, May 7 with degrees conferred on approximately 600 candidates by Dean of Instruction and Acting President, James G. Rice.

The four day Commencement program begins Friday, May 23 with the first of two commencement balls. Traditionally, fathers of graduating seniors are escorts for the occasion. "The Reluctant Debutante" is scheduled for weekend performances at the Stephens Playhouse and art exhibit is open to the public.

The annual honors convocation takes place Saturday morning, followed by a chapel organ concert. An aquatic demonstration in the afternoon at the Stephens Lake and a horse show in the evening complete the day.

Baccalaureate services will be held Sunday morning, followed by a commencement luncheon. Music majors and the Burrall Symphony Orchestra will present a senior concert that afternoon. Parents will attend a special Vesper service Sunday evening and then an evening prayer service with the students.

Department open houses and visits with faculty advisers are on Mondays schedule. An old Missouri Barbecue for male guests only will be held at the Lake Monday afternoon. A reception in the ballroom for women guests will feature a fashion show of Susie Stephens Originals. The evenings musical program, "Annual Encores," concludes pre-Commencement activities. Commencement exercises will be held at 8:30 a.m. Tuesday in the Assembly Hall.

Miss Springer is the daughter of Mr. Marsh Springer of 3300 Cherry.

Most of us unwrap a new dust cloth or cleaning cloth and put it right to work. But these should be washed before use to avoid possible scratching of furniture from the factory finish. Washing first also makes the cloth more absorbent.

To touch up your navy and black dresses and suits try touches of yellow, mauve or red. Pretty foil for a dark blackground. Lots of white linen collars and cuffs this spring for a fresh sparkling look.

WOMEN'S CALENDAR

THURSDAY

Snyder Garden Club meets at 9 a.m. at home of Myrttle and Faye Harrell for Wild Flower Pilgramage.

Sandbox Set Needs Plenty Of Pinafores

BIG GIRLS aren't the only ones with figure problems. Sometimes little girls need a bit of slimming, too.

For the chubby little girl, a princess-cut pinafore with vertical trimmings can do wonders.

Local sewing center experts suggest that you make several in crisp solid-color cotton, trimmed with tiny flowers and edged in small scallops. Use the tape to outline the V-neck and run it down the side seams of the dress, nipping the waist and flaring the skirt. The optical illusion willmake the small wearer look taller and slimmer.

The same effect may be achieved by using some of the new jumbo rickrack trimmings in contrasting color.

If you own a new slant-needle automatic sewing machine or an automatic zigzagger attachment, you can get further decorative effect by fancy stitching on the braid. Select a scallop stitch, an icicle stitch or a zigzag stitch, and sew along the edges of the tape, stitching it to the dress.

It's wise to cut out several of these little pinafores at once, and use the assembly-line technique in sewing. This way you can turn out three or four garments in not much longer than it would take to make one.

SLIMMING PINAFORE: For chubby little girls. Easy to make, with tape trim.

Mrs. Nell Mason Hostess To Hermleigh H-D

HERMLEIGH (Spl.) — The Hermleigh Home Demonstration Club met in regular session Tuesday afternoon in the home of Mrs. Nell Mason, in Snyder.

The President, Mrs. Oma Houston, presided over the business session. Minutes of the last meeting was read by Mrs. Ocie Vest in the absence of the secretary, Mrs. Grover Wall. A treasuery report was given by Mrs. G. E. Chorn.

Refreshments were served to eight members and one visitor, Mrs. Rachel Lassiter. Members were, Mrs. Oma Houston, Mrs. G. E. Chorn, Mrs. Ocie Vest, Mrs. Frank Nachlinger, Mrs. E. E. Brock, Mrs. T. E. Shelburn, Mrs. Mason, and Mrs. Roy Patterson.

Fluvanna P-TA Installs Officers

The Fluvanna Parent-Teachers Association met Monday night and held their installation of officers for the 1958-59 year.

Those installed were: Mrs. Earl Belew, president; Mrs. Paul Turner, vice-president; Mrs. Sam Burner, secretary-treasurer; Mrs. L. M. Dawson, parliamentarian, and Mrs. Ray Fulford, historian.

The evening program was presented by the grade school students.

The P-TA would like to thank everyone who has helped in making the past year such a successful one. The next meeting will be held after school starts in the fall.

County Line H-D Holds Meeting

CUTHBERT (Spl.) — The County Line Home Demonstration Club met Tuesday in the home of Mrs. Cecil Erwin for their regular meeting.

The program was a lesson on preparing and freezing [illegible].

Members present were, Mrs. W. W. Hester, Mrs. Harold Jester, Mrs. L. A. Browne, Mrs. Preston Morris, Mrs. Jake [illegible] and Mrs. Erwin.

Miss Ruby Butts, agent, and Mrs. Butts, mother of the county agent was visitors to the club.

The next meeting will be May 27 with Mrs. Harold Hester. Visitors are welcome.

Spread thinly sliced sandwich bread with equal parts of Honey and peanut butter mixed together. Slice in finger lengths and serve with soup or salads.

NEWS FROM DUNN

By ELWANDA STEWART

The Dunn Methodist Church was host to the Buford Methodist Church Sunday for a Quarterly Conference. A basket lunch was served at noon. Principal speaker for the meeting was Rev. Clyde Smith, district superintendent from Big Spring.

Mrs. Houston Cotton spent Tuesday with her sister, Mrs. Joe Moser in Colorado City.

Mr. and Mrs. Graham Smith and boys, visited Mr. and Mrs. R. D. Glascock in Snyder, Sunday.

Mr. and Mrs. Hubert Clements of Ira, were Sunday guests of Mr. and Mrs. Harold Wade.

Mrs. Bettie Smith visited Mrs. Julian Hammond in Colorado City, Thursday. She is visiting her daughter, Mrs. Zula Miller and children in Snyder, this week.

Mr. and Mrs. Clyde Bolding and Mrs. Grady White were in Springtown Sunday to attend funeral services for their aunt, Mrs. Edd Welch.

Jerry Bob Cotton a student at Texas Tech, Lubbock spent last weekend with his parents, Mr. and Mrs. Houston Cotton.

Rev. and Mrs. A. B. Teague are in Houston this week attending the Baptist Convention.

Jimmy Stewart has returned home from Cogdell Memorial Hospital where he was a patient for two weeks.

Mrs. J. W. Crawley has returned to her home in Weatherford after visiting her daughter, Mrs. Mark Holmes and family.

Mrs. Hadden Jones and daughter of Hobbs, N.M., visited Mr. and Mrs. B. L. Walker this week.

NEWS FROM CUTHBERT

By JULIA GUNN

Mr. and Mrs. Billie Treadaway are announcing the birth of a daughter, Susan Marie, on Sunday May 18 at Big Spring.

Mrs. J. A. Sadler Sr. of Colorado City, and Mrs. Myrtie Dunn, left Monday for Dallas to attend the 50th wedding anniversary of Mrs. Dunn's sister, Mrs. W. H. Lampkin and husband.

Mr. and Mrs. and Mrs. Charles Sesma and children of Albuquerque, N.M., and Mr. and Mrs. Bobby Rhea of Colorado City, were dinner guests of Mr. and Mrs. Lewis Dunn, and Donnie Monday evening.

Tuesday the Dunn's gathered for a family reunion at the Dunn Ranch. Those present were, Mr. and Mrs. J. C. Britton, Mr. and Mrs. Bobby Rhea, Mr. and Mrs. Lester Williams of Colorado City, Mr. and Mrs. Elmo Dunn, Mr. and Mrs. Lewis Dunn, Mr. and Mrs. Buck Dunn, Mr. and Mrs. Chas. Sesma and children, and Mrs. M. E. Fetner.

Mrs. Alma Smart of Pasadena, Tex., was visiting friends at Cuthbert Tuesday. She is also visiting relatives in Colorado City for awhile.

Mrs. R. Hemphill Hostess To Cosmorama Club

The Cosmorama Club met Wednesday at 3:45 p.m. at the Martha Ann Womans Club with Mrs. Ross Hemphill, hostess.

Mrs. Clyde Hall, Jr., president, presided over the business meeting.

The program for the afternoon was presented by Misses Faye and Myrtle Harrell, with the theme 'Flowers and Arrangements.'

Myrtle Harrell told the group the importance of planning and planting gardens and landscaping. Faye demonstrated the art of arranging and the steps that should be remembered in building an arrangement.

Refreshments were served to 23 members.

LETTERS TO EDITOR

(Letters from the readers of the Daily News are always welcome, provided they are signed by the writer and give his correct address. They will be printed subject to the publisher's discretion, based on whether the material contained is libelous or the language offensive. Letters should not exceed 300 words.)

To The Daily News:

Maybe I shouldn't express myself this time, but I want to. I think it's a dirty shame when we don't have money enough to have a nice place of recreation for our young people, to spend it on a bookmobile in a little place like Snyder.

Who in the whole county couldn't go and get a book or have a neighbor to bring it, if they had time to read?

I think we're just rying to keep up with the Joneses in copying what in a large city might be of great value.

Mrs. J. E. Sorrells,
Knapp, Tex.

Watching people walk can be a funny pastime. Those who toe out or toe in excessively draw attention to a waddling gait that is [illegible]. To correct such a walk if it is merely one of habit, pretend to walk a straight line. Point your toes straight ahead and keep them as close and as parallel as possible to this line.

Heat Honey with melted butter and serve over stacks of thin pancakes.

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THINGS ARE LOOKING UP in the forming of a Snyder Teen Age Baseball League.

Three of the proposed four teams in the league have sponsors with the prospects good of a fourth sponsor to come in.

Just about everything is in readiness, for the Teen Age League with exception of the fourth team sponsor.

The interested persons here in seeing this league formed were confident enough that the four sponsors would be found that they went ahead and elected officers the other night.

At the time they elected officers only one sponsor was assured but since that time two others agreed to sponsor a team and it's pretty certain that the fourth will be secured before the week is out.

Well-Rounded Program

The Teen Age League will certainly give our town a well rounded kid baseball program.

Until this year the boys graduating from the Pony League were more or less left out in the 'cold' as there was no other league for them to turn.

Now the kids know that there is a league for them from the time they start out in Little League on through high school.

Graduates of the Teen Age League may have a year or two left in high school but they'll have enough experience behind them to compete in the adult City League.

The Teen Age League will play its games on the high school practice field. This field is in very good condition and only some alteration in the lighting system needs to be done before it will be pronounced ready for the Teen Agers.

Texas Electric Co has agreed to take care of the alterations in the lighting system.

About 75 boys have already signed up for the Teen Age League here, and we hope that fourth sponsor can be located soon so the boys can get started playing quickly as possible.

The league is getting a late start as it is and it wouldn't do to have any more delays.

We'd like to turn your attention to the Snyder Invitational golf tournament that gets underway tomorrow.

Golfing Duty

success of a tournament lies heavily on the turnout of local golfers.

The more local players turning out the better impression it makes on the visitors. And the better the tournament, of course, the better the chances are that our visitors will return for future tournaments.

If our memory is correct, the out-of town players out-numbered the local contestants in last year's invitational tournament here.

Snyder welcomes the out-of towners whole-heartedly but then we at least ought to match the number of our visitors in the tournament field to make a good impression.

So, if you got some free time, why not journey out to the Country Club this weekend and get in on the fun.

The course is in its best shape ever and this coupled with the fact that good weather is forecast should make playing golf enjoyable this weekend.

WARMING UP—Shown are five local golfers during a warm-up round for the 4th annual Snyder Country Club Invitational Tournament this weekend. Sitting, left to right, are Ken Sewell, Clyde Hall and Ross Carroll. Standing are John Conley, left, and Ed Free. Qualifying for the tournament ends tomorrow with match play set for Saturday and Sunday. (News Photo)

4th Annual Snyder CC Tourney Opens Friday

Firing begins tomorrow in the 4th annual Snyder Country Club Invitational Golf Tournament.

Tomorrow is the official qualifying day although the tourney has been open to qualifiers the past week.

Only those who will be bidding for medalist honors are required to qualify tomorrow.

Host pro Shanty Hogan expressed hope yesterday that at least 100 golfers would make up this years's tournament field.

Included in the field will be the defending champion, Bill Carlson, of Austin and Abilene Christian College. Carlson is a senior at ACC this year.

Carlson defeated Frank Freer of Lamesa in last year's finals.

Freer is also expected to return this weekend. Freer won the title here in 1956.

The other previous tournament winner here was Dr. Dean Strack, then of Snyder, and now of Dallas.

Out-of-towners already on hand for the tournament are Buddy Avary of Bonham and J. B. Segar of Fort Worth.

Avary is the current city champion at Bonham and he warmed up with a 34 his first time around here yesterday.

About 15 have already posted qualifying scores with several more due to qualify today. A majority of the field, though, will qualify tomorrow.

City champion Max Milam will head the local delegation in the tournament here. Other's prominent in the local circles are Donald Ray Scott, two time city champion; Shelby Coker, Dr. R. J. Kidd, James Manning to name a few.

Carl Jones will serve as the official tournament starter for the second straight year.

Hogan is the tournament chairman and Ed Free and Marshall Erwin will serve as co-chairmen.

After qualifying ends tomorrow, match play will begin Saturday with two rounds and the two final rounds on Sunday. The Championship and First Flights will play 18 hole matches all the way through while the remainder will play nine-hole matches. The reason for this is to relieve some of the heavy traffic on the nine-hole course.

Entry fee for the tournament is $10. This will cover green fees and a ticket to the barbecue Friday night.

AGAINST ECTOR TODAY

Tiger 9 Seeks Series Clincher

The Tiger baseballers went after the bi-district championship of Districts 1-AAA and 2-AAA this afternoon in Odessa where they were scheduled to take on the Ector Eagles in the second game of the series.

Coach Speedy Moffett's charges won the first game, 5-2, behind the three-hit pitching of sophomore Dick Hayes here Tuesday.

Another sophomore, Norman Gladson, will try to wrap it up for the Tigers today. A victory today would give the bi-district title to the Tigers and a right to challenge Mineral Wells for the regional championship.

Mineral Wells captured the 4-AAA crown and drew a bye into the regional finals.

An Ector victory today would necessitate a third game to decide the champion. The third game would be unreeled in Odessa tomorrow at 4.

Odessa coach Bob Pufal is expected to call on big Mike Kropp to face the Tigers in today's tilt. Kropp, like Gladson, is a sophomore. He has a 2-4 record for the season.

Kropp is also the leading Odessa batsman. The pitcher-outfielder pounded the ball at a .550 clip in eight District 2-AAA games. Kropp drove in both runs in the series opener with the Tigers with a bases loaded double in the first inning.

Tuesday's victory put the Tigers one game over the .500 limit, 15 wins and 14 defeats. The loss Tuesday leveled off Ector's season record at 8-8.

Coach Moffett was expected to go with the same lineup that opened against the Eagles Tuesday. That would be Coleman John, catcher; Jimmy Allen, first base; Kenny Drake, second base; David Hale, third base; Gary Vice, short stop; Richard Mahan, left field; Neil Boyd, centerfield; and Johnny Drake, right field.

Gladson will be seeking his 7th win of the year today. He has dropped five decisions.

LL FARM LEAGUE TO ORGANIZE HERE TONIGHT

An organizational meeting of the Little League Farm League will be held tonight at Central Elementary, Mutt Herod, local little League coordinator, has announced.

The meeting will get underway at 7:30.

Herod urges all fathers of the boys who will be playing in the Farm League to attend tonight's meeting and also any interested persons.

Tonight's meeting will include both the National and American Farm Leagues. Four teams will be organized in each league. Farm Leaguers will be suited out this year for the first time.

BLANKS CARDS, 1-0

Robin Roberts Back In Groove

By JOE REICHLER
The Associated Press

Robin Roberts is back where he belongs—among the elite of the pitching fraternity.

Once the premier pitcher of the National League, Roberts won only 10 while losing 22 last year. There were widespread rumors that his days with the Philadelphia Phillies were numbered.

It was not until his last exhibition start this past spring that the 31-year-old Roberts was assured of a starting berth again.

Now Robbie the great is Philadelphia's fair-haired boy again. Last night when he hurled the Phillies to a spine-tingling 1-0 triumph over red-hot St. Louis. Furthermore, he broke up a scoreless duel with Sam Jones with a ringing eight-inning double that drove in the lone run.

The San Francisco Giants defeated Cincinnati 5-4 in 10 innings to increase their first-place margin over Milwaukee to 2½ games. Los Angeles made it two in a row over the Braves, 2-1 and Chicago thrashed Pittsburgh 5-1.

In the American League, the New York Yankees scored their eighth straight victory and their second in a row over Chicago 5-2. Baltimore moved into a second place tie with Kansas City, beating Detroit 8-1. Cleveland beat Boston 3-2 in 11 innings and Washington snapped Kansas City's five-game winning streak 6-1.

The Phillies, held to one hit through seven innings by Jones, set up the winning run when Willie Jones singled to open the eighth. Chuck Essegian forced Jones, but tempting to sacrifice, but Roberts came through with a double off the centerfield wall, scoring Es.

It also was Robbie's fourth straight complete game, his third straight victory and evened his season record at 4-4.

Willie Mays won the game for the Giants with a 10th-inning home run, his 12th of the season. Willie also had two singles and his sacrifice fly brought in the tying run in the seventh when the Giants wiped out a 4-2 Cincinnati lead. Mary Grissom, third Giants pitcher, [illegible] with Hal Jeffcoat losing [illegible].

Gino Cimoli drove in both Dodger runs with his fifth home run in the first inning and cut down Milwaukee's bid for a tie in the seventh with a strong throw from center field that nipped Wes Covington at the plate. Don Drysdale won his second game for Los Angeles. Bob Ruth lost it.

Walt Moryn drove in three runs with a home run and single and Taylor Phillips hurled a five-hitter for his second triumph in Chicago's victory over Pittsburgh. Bob Porterfield was the loser.

BRAVES VS. CARDINALS

National LL Leaders Meet

Play resumes in the American and National Little Leagues at Little League Park here tonight.

Meeting in the first game tonight will be an American League contest pitting the Von Roeder Seed Indians and the West Texas State Bank Athletics at 7 p.m.

The Kiwanis Braves and Rotary Cardinals of the National League will meet in the second game.

The Braves and Cardinals will be battling for the league lead. Each won its first start earlier this week and currently share the lead with 1-0 records.

Both the Indians and Athletics will be looking for their first win in the young season.

Following are the Little League standings to date:

AMERICAN LEAGUE

TEAM	W	L	PCT.
White Sox	1	0	1.000
Yankees	1	0	1.000
Athletics	0	1	.000
Indians	0	1	.000

NATIONAL LEAGUE

TEAM	W	L	PCT.
Cardinals	1	0	1.000
Braves	1	0	1.000
Giants	0	1	.000
Cubs	0	1	.000

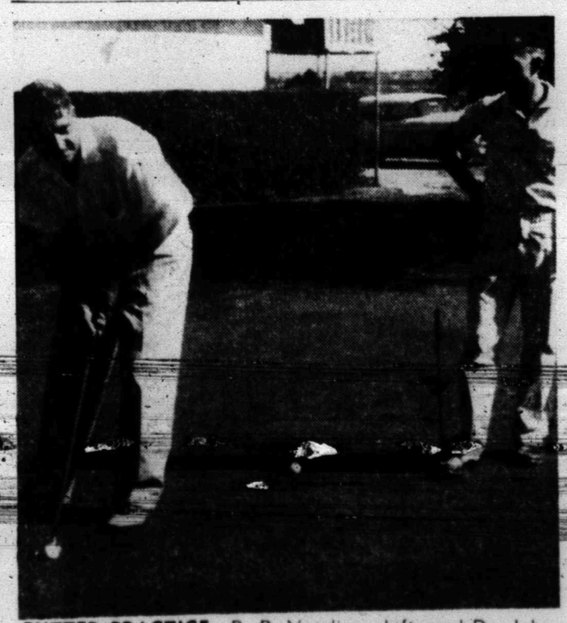
This week's schedule:

THURSDAY

7:00 — Indians vs. Athletics.
8:30 — Braves vs. Cardinals.

FRIDAY

7:00 — White Sox vs. Yankees.
8:30 — Giants vs. Cubs.



PUTTER PRACTICE—R. B. Vandiver, left, and Dr. John Raines are shown brushing up their putting game in preparation for the 4th annual Snyder Invitational Golf Tournament starting here tomorrow. Vandiver is the low qualifier this year with a 78. (News Photo)

Rainbow Mkt. Becomes 3rd TA Sponsor

The Snyder Teen Age League had its third sponsor today.

Rainbow Super Market joined the sponsor's list today that left the league only one shy of reaching its quota of four.

Previously signed as sponsors were the Optimist Club and Furrs Foods.

There are several prospects for the fourth team sponsor.

The sponsorship fee is $375 which covers the cost of 15 uniforms, bats, balls and other equipment for one team.

Donations are also being solicited for league expenses. It has been estimated that at least $300 will need to be raised to meet the initial league expenses.

A sum of $75 had been raised toward this goal as of this morning. McCormick and Sons Oil Distributors have contributed $50 and Basin Wax $25.

Any others wishing to contribute to either the league fund or sponsor a team are asked to contact league president Clifford Hale or secretary-treasurer W. F. McMennamy.

The Teen Age League will be composed of boys ages 15 and 16 years.

STANDINGS

Thursday Games

Unknowns Keeping Indians In Race

By JOE REICHLER
The Associated Press

No Herb Score. No Bob Lemon. No Early Wynn. And very very little of Mike Garcia, the last of Cleveland's Big Four.

Only Ray Narleski, Don Mossi, Cal McLish and Hoyt Wilhelm, four rescued reliefers. And such practically unknowns as Jim Grant, Don Ferrarese, Bob Kelly and Dick Tomanek. Yet the Indians are putting up a stubborn battle.

They demonstrated that again yesterday when they turned back Boston 3-2 in 12 innings. Tomanek, an unheralded left-hander, went all the way. The victory boosted Cleveland back into fourth place.

Baltimore made it two straight over Detroit with an 8-1 triumph while Kansas City was beaten by Washington 6-1. The New York Yankees continued their massacre of the rest of the league by defeating the Chicago White Sox 5-2.

In the National League, the San Francisco Giants increased their first-place margin over Milwaukee to 2½ games with a 10-inning 5-4 victory over Cincinnati. Los Angeles nipped the Braves 2-1, Robin Roberts pitched Philadelphia to a 1-0 triumph over St. Louis and Chicago defeated Pittsburgh 5-1.

The Indians finished sixth last year, largely due to an extraordinary run of injuries. The jinx has hit again this year. Lemon, Score, Garcia, Vic Wertz, Larry Doby and Carroll Hardy all have been out with injuries or illness.

Buffalo will play host to the 1959 Women's International Bowling Congress tournament.

Junior Editors Quiz on NATURE

QUESTION: What makes leaves turn green?

• • •

ANSWER: This girl is admiring the bright green leaves of a plant and wondering why the mushrooms at the left are not green like most other growing things. It is because leaves of plants, trees and grass contain a chemical substance called chlorophyll, which mushrooms don't have.

Even with chlorophyll, leaves would not turn green if they didn't receive water and sunshine. Water, which is trapped by the plant roots, is transported to the leaves, giving them life and permitting tiny cells to manufacture chlorophyll. When exposed to the sun, the chlorophyll turns green. The more the sun shines on a leaf, the greener it becomes.

• • •

FOR YOU TO DO: Place a board over a small section of grass in your yard. Lift it after a few days and you will see that the grass there has faded because of lack of sun.

• • •

(For sending in this question Vera Louise Harrell of Hertford, N.C., wins $10. Send your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: Who built the first steamboat?) 5-22

Governors Head Homeward Today

By JACK BELL

MIAMI BEACH, Fla. (AP) — The nation's governors headed homeward today from their golden anniversary conference without having pegged any star performer for the 1960 Democratic and Republican presidential nominations.

In four days of meetings, the governors covered subjects ranging from the size of the National Guard to a proposal for a White House conference on the recession.

They heard Secretary of Defense McElroy and Secretary of the Treasury Anderson explain what the federal government is doing—and why it hasn't done more—to combat the business slump.

But behind the scenes governors who consider themselves available for their party's top nomination two years from now maneuvered for position and publicity to help their cause.

The general opinion among those who had no national ambitions was that none of those who displayed their wares made much headway in a field from which the party nominees traditionally are chosen.

Democratic Gov. Robert B. Meyner of New Jersey, who would like to be the 1960 Democratic nominee, stumbled over a coalition roadblock in his efforts to win the chairmanship of the conference. Southern Democrats and conservative Western Republicans gave the plum to Democratic Gov. Leroy Collins of Florida.

This helped Collins in his obvious bid to become a compromise representative of the South on a 1960 Democratic ticket that would avoid any showdown stand on the school segregation issue.

In the Democratic ranks, Governors Abraham A. Ribicoff of Connecticut and Averell Harriman of New York generally were credited with outshining their colleagues. Neither is considered presently available for the 1960 presidential nomination.

Gov. A. B. Chandler of Kentucky said that after looking over the field of availables, he is not at all embarrassed to be running openly for the 1960 nomination.

On the Republican side, there was an admitted lack of presidential talent among GOP governors. They seemed generally to take it for granted that Vice President Nixon will be their party's 1960 nominee.

Republican Gov. William G. Stratton of Illinois, the retiring chairman of the conference, put out some tentative feelers for the vice-presidential nomination. Almost no other Republican even touched a toe in the national waters.

The cross-section feeling among the governors seemed to be that current economic conditions make it likely the Democrats will increase their margins in both houses of Congress in the November elections.

The governors passed up their chance to question McElroy and Anderson about economic measures in favor of a vigorous attack on the administration's proposal to reduce the level of the National Guard from 400,000 men to 360,000.

Triangle Seen In Man-Wife Crash

BRIDGETON, N.J. (AP) — It's a quiet country crossroads called Harmony.

A young wife and husband met there by accident Tuesday night in a roaring, flaming rendezvous that ended in the husbands death.

And Wednesday police said that at the end of the road there may have been another man, a man waiting for a date with 19-year-old Mrs. Vera Wright.

She kept him waiting.

Mrs. Wright was critically injured when the car she was driving smashed broadside into her husbands auto.

The husband, Lester, also 19, was dead 10 minutes after being pulled from his blazing auto.

Walter Robinson, 56, of Newfield, owner of the car that Mrs. Wright was driving was being questioned by police.

State Police Sgt. William R. Conway said his office was looking into discrepancies between statements made by Robinson and Mrs. Wright.

Conway quoted Robinson as saying he had been the womans boy friend for about a year and that Wright knew and apparently did not disapprove of their relationship.

He told police the Wrights had quarreled the night of the accident because Mrs. Wright wanted Robinsons car to drive home.

According to Robinsons statement, he and Mrs. Wright had made a date for later in the evening. The date had been arranged in Wrights presence, he said.

The statement said husband and wife drove off at the same time.

The womans version of the affair, police said, was that her husband drove off angrily after the argument and that she borrowed Robinsons car to follow him home.

She said nothing of the reported date or of any relationship with Robinson.

Regardless of which version is correct, Conway said, the couple "might have been more or less racing to their Bridgeton home.

He said each car could have taken one of several routes, adding, "They happened to meet at one of the country crossroads.

Says Soviets Have ICBM

CLEVELAND (AP)—A leading nuclear scientist says the launching of Sputnik III was final evidence that the security of the United States is measured in minutes.

Dr. Ralph E. Lapp, a leader in the wartime Manhattan Project and who later directed nuclear scientific branches for the War Department, said last night the launching of the latest Soviet satellite eliminated all doubt that the Soviet Union had an intercontinental ballistic missile.

He addressed the annual banquet of the American Foundrymen's Society.

The recent firing of a 3,000-pound satellite, he said, was evidence that the Soviet Union could fire nuclear missiles from its bases to this country in 20 to 30 minutes.

He said efforts to end the atomic race should be intensified and expressed the opinion that a ban on nuclear tests probably was possible since the Soviet Union had as much to lose as this country.

Globemaster Force Hiked

WASHINGTON (AP)—The United States has nearly doubled a force of Globemaster transport planes sent to Europe amid outbreaks in Lebanon and Algeria.

The Defense Department said last night 13 of the three-deck planes went to join 18 others which left for Germany, starting Saturday morning. The Pentagon said 8 of the 13 took off later Saturday and 5 headed across the Atlantic since then.

Basing the 200-passenger planes in Europe would put them in position to evacuate Americans from the Middle East and North Africa, if the need arose.

Reds Offer Italy A Pact

ROME (AP) — In an obvious attempt to help the Communists in Italy's parliamentary election Sunday, the Soviet Union has sent two peaceful coexistence proposals to Rome. Italian officials gave them a cool reception today.

One was a new offer of a 20-year nonaggression pact. The other was a request that the Italian Parliament join the Soviet Union in opposing rearmament of West Germany.

The pro-Western Christian Democrats, who have dominated all postwar Italian governments, are seeking a majority Sunday for policies which include continued adherence to the North Atlantic Treaty Organization. Their chief opponents, the largest Communist party in the West and its allied left-wing Socialists, are campaigning for neutralism.

Long Range Oil Outlook Called Bright

DENVER (AP)—The domestic oil industry should emerge from its present difficulties in better physical and financial shape than ever in the next few years, two experts agreed today.

The comment came in separate interviews with Frank Porter, president of the American Petroleum Institute, and Capt. Matthew Carson of the Interior Department's Oil and Gas Division. Both will address the Rocky Mountain Oil & Gas Assn. convention today.

Porter said he expects the free world's oil surplus to continue at least for several years, but added:

"The future is bright as can be for the industry. If the economists are right, we'll use all the oil we can produce world-wide."

The API president said he expects oil prices to remain at least at their present level for the next year or so, noting that between two and three million barrels of oil is available from shut-in wells in the United States.

He referred to completed wells from which no oil is being taken.

Carson, head of the voluntary oil import program, said the plan is proving successful in reducing the amount of oil entering the United States from foreign countries, thus accelerating domestic activity.

He said the program is having the desired effect of stimulating the domestic oil industry without injuring the nation's relations with foreign oil-producing countries.

New Denial Of Meg's Romance Is Puzzling

LONDON (AP) — A Buckingham Palace denial of another report that Princess Margaret will get engaged to Peter Townsend after all puzzled British newspapers today.

The press wondered why the palace had bothered to deny the report published in a Geneva paper from its London correspondent. The report followed a dinner meeting of Group Capt. Townsend and the 27-year-old princess, who announced in 1955 she wouldn't marry him because he is divorced.

The palace explained it issued the denial because the report was picked up by a British news agency and distributed throughout the world which tended to lend the report authority.

WHAT YOU HAVE

Unlimited Variety In New' Flavorful Molded Salads

Molded salads are the housewives' answer to many meal problems these spring days.

The salads are easy to fix and easier to serve. Cool and tempting, they perk up appetites on days when the temperature reaches a summer-degree.

For the housewife in a hurry, salad in molds are particularly goodeas they can be prepared in advance. The sky is the limit in the ingredients used. No longer are jellied salads limited to the old stand-by, mixed fruits.

Chicken and salmon can be added to a molded salad and served as the main dish to surprise the family.

ALMOND CRANBERRY SALAD
1½ cups cranberry juice cocktail
1 envelope (1 tablespoon) unflavored gelatin
1 tablespoon lemon juice
½ cup diced canned apricots (drained)
¼ cup blanched slivered almonds.

Measure ¼ cup cranberry juice. Sprinkle gelatin to top. Heat 1 cup cranberry juice. Remove from heat. Stir in gelatin, remaining ¼ cup cranberry juice and lemon juice.

Chill until slightly thickened. Stir in almonds and apricots. Pour into lightly-oiled 1 pint mold or 4 molds, each ½ cup.

Chill until firm. Unmold on favorite greens. Makes 4 servings. To make 6 to 8 servings, double recipe.

AVOCADO STRAWBERRY RING
1 package lemon-flavored gelatin
½ teaspoon salt
1 cup hot water
1 cup cold water
1 tablespoon lemon juice
3 tablespoons mayonnaise
1 avocado, pared and mashed
1 pint fresh strawberries

Dissolve gelatin and salt in hot water. Add cold water and lemon juice. Chill until thickened. Stir in mayonnaise and avocado, blending well.

Pour into a 3-cup ring mold. Chill until firm.

Slice strawberries. Unmold avocado ring and fill center with strawberries. Makes 5 servings.

GREEN OLIVE SALAD
1 package lime-flavored gelatin
¼ teaspoon salt
1 cup hot water
1 cup cold water
3 tablespoons vinegar
¾ cup sliced stuffed olives
½ cup sliced sweet pickle

Dissolve gelatin and salt in hot water. Add cold water and vinegar. Chill until slightly thickened. Fold in olives and pickles. Pour into molds.

Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serve as relish with roast or other meat. Makes 6 molds.

CHICKEN JELLIED SALAD
2 envelopes unflavored gelatin
2½ cups chicken stock, bouillon or consommé
1 cup cooked peas
3 hard-cooked eggs, chopped
2 cups diced, cooked boned chicken
1 cup diced celery
1 cup chopped sweet fresh cucumber pickles
2 tablespoons chili sauce or catsup
1 teaspoon Worcestershire sauce
Freshly groupd pepper

Soften gelatin in ½ cup cold chicken stock for 5 minutes. In a saucepan, heat remaining chicken stock. Remove from heat and stir in softened gelatin until dissolved.

Chill until syrupy. Fold in remaining ingredients. Pour into 6 or 8 oiled individual molds. Chill in refrigerator until firm. Unmold and serve with mayonnaise. Garnish with pickle slices. Makes 6 to 8 servings.

SALMON-CHEESE LAYER MOLD
1 envelope unflavored gelatin
¼ cup water
1 tablespoon mayonnaise or salad dressing
1 tablespoon French dressing
1 tablespoon prepared mustard
1 teaspoon salt
1½ cups cooked, flaked red salmon
½ to 1 cup diced celery
2 tablespoons chopped sweet pickle relish
½ cup drained, diced pineapple
1 cup sliced, ripe bananas

Use fully ripe bananas, those with a yellow peel flecked with brown. Soften 1 envelope of gelatin in water. Dissolve over boiling water. Combine mayonnaise, french dressing, mustard and salt.

Add to salmon, celery, sweet pickle relish, pineapple and bananas. Add dissolved gelatin, mixing well. Turn into a 9-inch heart-shaped pan or mold. Chill until firm.

For cheese layer:
1 envelope unflavored gelatin
¼ cup milk
3 cups creamed cottage cheese
¼ cup finely chopped onion
½ teaspoon salt

Soften 1 envelope of gelatin in milk. Dissolve over boiling water. Combine cheese, onion and salt. Add dissolved gelatin, mixing well.

Pour over salmon layer. Chill until firm. Unmold on platter. Garnish with pimiento strips. Arrange a mixed green salad around the mold. Makes 8 to 10 servings.

Ease Into Summer Life

ST. LOUIS (AP) — If you're an average American, don't jump into strenuous summer activities with too much zeal. Your heart can't take it.

That is the advice given by Dr. Simon Dack, New York City, editor of the American Journal of Cardiology. He was here to attend the annual convention of the American College of Cardiology—a group of heart specialists.

The doctor said most Americans lead a sedentary life during the winter, then tend to start charging across the golf course, furiously spading the garden or leaping about on tennis courts as soon as summer arrives.

He advised the summertime athletes to break into it gradually "just like professional athletes train themselves."

159 YEARS OF MASONRY—The five Steinberg brothers above, including Si S. Steinberg, owner of Highland Park Cleaners here, have amassed a total of 159 years of membership in the Masonic Lodge. Leading the Masonic longevity with 41 years is Nathan N. Steinberg, Corning, Ark., second from left, with Sol S. Steinberg, Paragould, Ark., left, and Jacob Steinberg, Jr., Cardwell, Mo., center, having been Masons for 40 years, and Harry C. Steinberg of El Dorado, Ark., second from right, with 25 years, and Si Steinberg, right, with 13 years. They posed for the above picture during the Spring reunion held in Little Rock, Ark., recently. All are members of the Valley of Little Rock Scottish Rite Bodies, and Si is also a member of the Suez Shrine Temple of San Angelo.

Two Teenagers Are Slain

ALBION, Neb. (AP) — An honor student and the daughter of a prominent farm family died in a burst of gunfire last night from the rifle of a rival for the girl's attention.

The shots that shocked this town of 2,132 population were fired by Kermit Keeshan, 17. His father William is a former county attorney and mayor in Albion.

Keeshan tried to kill himself with a bullet in the head after he killed Jerry Sherwood, 18, and Diane Zaruba, 17. He is expected to recover.

Young Sherwood, whose father Lynn is a former school board president, was killed at the rooming house where Diane stayed while in school.

Diane was slain despite the bravery of housewife Mrs. Frank Svoboda, who said she didn't have time to get scared, as she tried to keep Keeshan from Diane.

Deputy County Atty. Ray Medlin Sr. said Keeshan, carrying a 22 rifle, found Jerry with Diane.

Apparently there was a struggle between the boys and then a shot that hit Jerry in the heart.

Diane ran screaming from the house toward the Svoboda backyard, where Mrs. Svoboda was working.

A shot hit the running girl in the leg, but she hobbled onward to the side of Mrs. Svoboda, who waved her on to the Svoboda back door.

Mrs. Svoboda stood quietly as Keeshan raced up, then, when he came to a halt, slapped him hard in the face. He dropped his gun.

The housewife turned, walked to her back door and stood guard in front of Diane.

But Keeshan picked up his gun. He advanced and fired again at Diane, who was crouched behind Mrs. Svoboda. The shot hit her in the chest.

Keeshan then turned and walked back to the room where Sherwood had died. There he tried to kill himself.

Lynn Sherwood, whose term as school board president expired last week, was scheduled to be the high school commencement speaker tonight when he would have given his son his diploma and a University of Nebraska regents scholarship.

Miss Zaruba's parents, Mr. and Mrs. Albert Zaruba, farm in rich territory about 15 miles from Albion.

Creditors To Get Payment

AUSTIN (AP)—Creditors of the now-defunct U.S. Trust and Guaranty Co. of Waco will receive another $144,000 as a result of a sale approved yesterday.

Dist. Judge Charles Betts approved a sale in that amount of Arkansas municipal bonds, now held by State Receiver-Liquidator James Williamson. He said the money he distributed among the creditors of the company, which collapsed in 1955.

More than 9,000 creditors received 31 per cent of their claims several weeks ago when $2,181,000 was distributed.

Dr. Sears Receives Hoblitzelle Award

DALLAS (AP)—Dr. Ernest Sears, who transferred a rust resisting quality from a wild grass to wheat, received the $10,000 Hoblitzelle Award last night.

The money, a gold medallion and certificate, were given to the research geneticist at Texas Research Foundation's annual awards dinner at nearby Renner.

Dr. Sears is stationed by the Department of Agriculture at Columbia, Mo.

Some Ex-GIs Have Trouble Paying Off 'Dream Farms'

By GARTH JONES

AUSTIN (AP)—Some of Texas' ex-GIs are having plenty of trouble paying off dream farms and ranches they bought under the veterans land program—5 per cent down, 40 years to pay.

The unusual plan of the state buying farms and ranches and reselling them to ex-servicemen on easy terms is the only bonus Texas offered veterans of World War II and the Korean fighting.

This week State Auditor C. H. Cavness reported that more than 15 per cent of the 16,000 GI purchasers are behind in their payments. A total of 324 loans have already been foreclosed or turned back.

"I lived on the place for about one month," Cavness quoted one disgruntled GI purchaser as saying. "At which time I informed the real estate agent from whom I had made the purchase, that I thought I had been 'taken-in', for instead of having a well of water on the place, it had an underground cistern."

After a court battle, Cavness said, the attorney general managed to recover $12,123 from a fast-talking seller for the cistern subterfuge.

Cavness' audit report shows 30 land promoters are repaying the state for fake block deals uncovered during the investigation and prosecution of former Land Commissioner Bascom Giles who originated the land program. Eight of these repentant promoters are delinquent to the tune of $52,483, as of Aug. 31, 1957.

Six of these fraudulent land deals, involving 122 veterans, are still pending. A total of 35 court judgments were obtained on contracts involving 15,264 acres of land but only five of these have been paid in full.

Cavness' report on the controversial land program—the first audit since Jan. 5, 1955—shows 2,443 veterans were delinquent in payment of their land loan installments on last Aug. 31, by a total sum of $711,257.

Veterans may pay as little as 5 per cent down and spread the rest of the payments over a 40-year period with 3 and 3½ per cent interest.

However, the figures show that 1,095 accounts were delinquent after payment of only one or part of one installment. The audit shows some loans still on the books after being delinquent for nine payments, or 4½ years.

The report said 25 extensions had been granted while 104 cases have been sent to the attorney general to start forfeiture action. Of the 324 completed forfeitures there have been 37 accounts reinstated and 148 tracts have been resold to other purchasers.

As of Aug. 31 there were outstanding veterans land bonds totaling $98,935,000 from the original authorized 25 million dollar and 75 million dollar issues.

A space simulator which creates artificial space for laboratory testing of space vehicles has been constructed by the National Advisory Committee for Aeronautics.

OUR VIEW

The Cotton Control Case

The National Cotton Council is up in arms over the acreage outlook for 1959, claiming that cotton farmers need an increase rather than a decrease in cotton land allowable for next year.

They make a good case for the industry, pointing out, among other things, that a shortage of better quality U. S. cotton already is forcing mills to use lower grades and encouraging substitution of rayon for cotton.

The latter situation is something that the cotton industry has been trying to combat for years, and it stands to reason that any situation which might "force" mills to look for substitutes would alarm cotton men and everyone else where cotton production or processing is a major factor in the economy.

Meanwhile, a House subcommittee in Washington has disclosed that it is preparing a new bill which would give cotton farmers a choice between two acreage control plans. One would hold acreage allotments at approximately the current levels for the next three years and continue price supports at "normal" levels, estimated at about 84 per cent of parity for next year.

The alternate plan would increase acreage allotments by about 30 per cent, but would also cut the price support level to about 65 per cent of parity.

Easing of acreage controls most certainly appears advisable at this time. In fact, controlled acreage for any type of farm crop seldom works out in practice as it is envisioned on paper.

When acreage is reduced, farmers often manage to step up the yield per acre on land which they are permitted to plant. However, such production may cost more in the long run than a similar yield on greater acreage, because the increase in average yield usually comes as a result of more concentrated effort, more expense for insecticides, fertilizers and other agricultural aids.

Consequently, legislation to control production is at best a stop-gap practice, and past experiences indicates that it backfires more often than not.

Nixon Not Likely To Battle Dulles

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Vice President Nixon steps right into Secretary of State Dulles' back yard and calls for a reappraisal of American policy toward Latin America. Dulles has not admitted a single error in handling Latin Americans.

Does this look like the beginning of a head-ramming contest between the two men? It's not likely. Nothing Nixon has publicly proposed so far, or is expected to propose, goes much beyond generalities.

Since both men are key members of the Eisenhower administration — and haven't locked horns since they took office in 1953 — there's no reason to expect conflict now.

Nixon, the most likely Republican presidential candidate in 1960, will hardly do anything to split the party or hand the Democrats brickbats for free. And Dulles has enough troubles all around the world without taking on Nixon.

The vice president, home after facing mob violence in Peru and Venezuela and hostile demonstrations almost everywhere he went in Latin America, talked to a National Press Club luncheon Wednesday.

He took a poke at the diplomats who work for Dulles' State Department — but this was far from a poke at Dulles — by saying it's high time the diplomats in Latin America pay more attention to labor leaders, students and newspapermen there.

He jibed at them for spending too much time and attention on the cocktail and white tie dinner circuits.

While Dulles brushed aside at his Tuesday news conference any idea that there is broad anti-Americanism in Latin America, Nixon did say it would be a great mistake to attribute to the Communists all the troubles he encountered.

He pointed out such causes of Latin-American resentment — which he said the Communists exploited — as these: a belief this country has supported dictatorships, and a decline in Latin-American exports to this country.

Dulles has acknowledged some economic factors are behind the Latin-American demonstrations. And he talked at length on American policy towards dictators without indicating any change.

It is understood Nixon in a couple of weeks will recommend to President Eisenhower and Dulles some ideas for offsetting Communist influence in Latin America. For instance: a colder attitude towards dictators.

But Nixon himself on his tour created some ill will for this country by stopping off in Paraguay and showing friendship for South America's last remaining dictator, Paraguay's President, Alfredo Stroessner.

Brian Bell, Associated Press reporter in Argentina, wrote of the effects of Nixon's visit with Stroessner as follows:

Diplomatic sources in Buenos Aires said Nixon's visit to Paraguay might have triggered the riots he encountered later in Peru and Venezuela. Bell quoted one diplomat as saying: "When Nixon included Paraguay in his trip many South Americans took this as a direct slap at their hard fight for democratic government. It is difficult to see why Paraguay was included in Nixon's tour."

Hysteria Probably Won't Start War

By HAL BOYLE

NEW YORK (AP) — Sidewalk scrawls of a Pavement Plato:

History can be a record of hysteria. It is unlikely that hysteria will momentarily cause World War III.

The spokesmen of the two major world powers — the United States and the U.S.S.R. — have been making angry noises at each other since the end of their mutual victory at the end of World War II.

Each probably feels himself bigger than he is —each is gnawed by inside as well as outside fears.

Each throws a larger shadow at the moment than either wants to have to live up to by force.

All around the world since the end of World War II people have looked at two menus—the bread they have, the bread they want.

In civilized as well as uncivilized countries the people have reached toward the bread they want. Their desire is the same. The method of reach varies. Agreement has made fewer headlines than violence. But has it given less bread?

Violence in human relations gives off a great boom in terms of sound. The real test in judging a change, is whether—after the echoes have died—the people who made the change feel it was worth the effort.

Would agreement without violence have cheated their dreams, their children, or themselves? This is the way to weigh war. Is the reward of going to it worth more than the cost of staying away from it?

In looking over previous civilizations and trying to figure out why they went to war, a Side-street Socrates, always asking questions, would have to query:

"For this you were afraid?

"Did you measure your tears? Did you got to war for a purpose or to escape from one boredom to another?"

"Why does peace lack the human cement of unity that war creates?"

I am optimist enough to feel in my heart and brains and bones that World War III isn't likely within 10 years.

Why?

Because:

1. The tumultuous reach for political liberty by the submerged people of this earth is balanced by the desire of the so-called civilized people for a higher standard of living.

2. At least for another decade the powers that can now precipitate a major conflict have more to gain by landscaping their own lawns than they do by trying to tear the other guy's house down. They all know this.

There is a reason under the sun to build, and this is the season. One repairs his roof after the last hurricane, even though there may be another.

I have a poor man's faith that the man in the world's street is as of now more lonesome for improvement than disaster.

Plane Crash Fatal To West Texans

BROWNFIELD, Tex. (AP)—A light plane crashed and burned yesterday, killing two West Texas oil field workers.

Charles Gryder Jr. and Jim Youngblood, 19, both of Denver City, were killed.

The Department of Public Safety said the plane apparently developed engine trouble.

Living Costs Are Cause Of Concern

NEW YORK (AP)—The still rising cost of living plagues more people than its strange stablemate the slowdown in industrial output. And President Eisenhower has warned a gathering of leading industrialists against going along with the theory that just because prices have kept rising steadily for so long "the consumer is not price conscious any more."

He also has reminded them that the nation's great economic strides in the past were due to "the daring of this nation's businessmen in pricing for volume and taking their chances on profits."

Others have gone much further along this road than the President.

Some have criticized the pricing policies of industry, holding that liberal wage rises were handed out freely because management felt prices could be hiked without any protest from the consumers.

Some have been critical of industries that cut back output to maintain high prices rather than looking earnestly for new markets or stimulating demand through lower prices.

And some doubt if the industrial recession will be licked until the cost of living comes down enough to let people buy again.

The government's consumer price index, due shortly, is expected to show another rise, with food prices still high and the cost of services continuing its slow but steady rise.

But cracks in the price structure are beginning to show. They have come in industrial materials which many companies can get now for less than they had to pay a while back.

Rising labor and transportation costs kept most companies from passing any of this along in the form of lower prices on their end products.

But lately weakness in sales volume has brought some changes. There have been a few price cuts, but mostly the price concessions have taken the form of discounts or the dropping of extra charges or cutting the costs of services.

At the retail level lower prices, when they happened, were mostly at the expense of the merchant's profit margin or in special sales promotions. Consumers have found that shopping around often turned up bargains.

Most makers of consumer durables have insisted that sales weakness for their products hasn't been due to higher prices. But the search for other reasons hasn't been entirely convincing either.

So perhaps President Eisenhower was saying more than just a truism when he reminded his businessman audience that "a price policy designed to bring increasing volume should be nothing short of an article of faith for every businessman."

SEEN THESE PEOPLE AROUND SNYDER?—Alden and Marion Stevens headed up the 12-person research group which rated restaurants and accommodations for the new Mobil Guide—a 330-page traveler's guide to good food, lodging and sight-seeing in Texas, Arkansas, Oklahoma, Louisiana and New Mexico. Members of the research group personally inspected every restaurant, motel or hotel rated by the Guide, which has been published by Simon & Schuster in collaboration with Magnolia Petroleum Company. The Mobil Guide, $1, is available at Mobil stations in the five-state area, and at newsstands, drug stores, supermarkets and wherever Pocket Books are sold

Fresh Corn Is Plentiful Now

By The Associated Press

Florida and Texas corn is in abundant supply and reasonably priced this week, the Department of Agriculture says.

Other fresh vegetables in the best buy category are yellow squash, cucumbers, blackeye peas, cabbage, carrots, potatoes and new-crop onions.

Film pack carrots from California and bunched greens, green onions and radishes from Colorado, Oklahoma and Kansas arrived at Texas markets for the first time this season. Other fresh vegetables are mainly from Florida and South Texas, with shipments about the same as last week.

Slightly lower in price, but in fairly light supply in most sections of the state are okra and tomatoes. Shipments of tomatoes from South Texas are increasing and price declines developing each day. A few vine pink tomatoes from California also hit the market this week.

Higher in price are green beans, cauliflower, eggplant and lettuce. Celery prices are about unchanged and still high.

Bananas, Texas and Arizona grapefruit and California oranges and lemons are priced about the same as a week ago, but best quality apples and avocados are slightly higher. Mexican sugarloaf pineapple and California strawberries are reasonably priced.

Cured hams and frying chickens are featured as best meat buys this week. Fresh pork roasts, pork chops, bacon and sausage are priced about the same as last week. Beef chuck and shoulder roasts, ground and stew meats continue to be featured in most areas at unchanged prices.

Egg prices are generally steady, with large Grade A remaining the best buy when considered on a per pound basis. Milk and dairy products are in good supply and favorably priced. Most grocery stores continue to offer large stocks of green beans, peas and corn on a "so many cans for a dollar basis. Pears, peaches and mixed fruits are also prominently displayed in most stores throughout Texas.

Frozen items favorably priced include green peas, brussel sprouts, lima beans and corn.

Teen-Agers Give Advice

STOCKTON, Calif. (AP) — Teen-agers advice to parents:

"Don't let teen-agers have cars until they can buy them with their own money."

It came today from students at Stockton College and Stagg High School. It's one suggestion made in a poll conducted by the junior college public relations class after Thomas Callahan, a student, was killed in an automobile acident May 10.

Other recommendations for traffic safety:

Suspend first offender's license for 30 days.

Prison Term, Fine Levied In Tax Case

DALLAS (AP)—E. V. Martin of Kilgore was sentenced to 13 months and a $5,000 fine yesterday after being convicted of income tax evasion.

U.S. Judge Whitfield Davidson sentenced Martin after he was convicted Tuesday on five counts.

Attorneys for Martin filed notice of appeal and Davidson released him under a $3,000 appeal bond.

Martin was convicted of evading income taxes for the five years from 1951 through 1955.

Australia and New Zealand are looking to the United States to buy more meat. They explain that we have plenty of beef for steaks, but the U. S. needs more meat for hot dogs and similar small items.

Methodists Urge Tougher Liquor Laws, Rap Racing

DALLAS (AP)—North Texas Methodists urged the Legislature yesterday to tighten state liquor laws and said a return of race horse betting to Texas would mean "moral degradation."

The annual conference of the church asked that local option elections be limited to one within a 12-month period in any county, precinct or municipality.

"The present laws are entirely unfair in that they permit a number of elections. They are so written that they are entirely on the side of the liquor forces, and we make our protest against these unfair laws," said a petition adopted by the conference.

The conference noted what it called a "well organized plan to bring parimutuel betting on horse races to Texas. It said "The very worst gambling elemts" and a business loss would follow such a move.

The conference was told by Dr. Chess Lovern, pastor of the First Methodist Church of Lubbock, that churches and Christians should be taking the lead in working toward racial integration.

"How long can burning issues wait for Christian solution?" She asked.

"Entertainment, sports and the armed services have already stepped out ahead of us. Schools and churches, who should most likely offer relief from race stigma, are the most segregated.

The Rev. Mr. Lovern said "intermarriage is not our problem. Our problem is the unjustness . . . the unconcern . . . and unbrotherless.'

He added that future generations will have to deal with the problem but if "we handle our problem in a Christian manner it will help our children solve their problem in a Christian manner.'

Dr. Travis White, president of Midwestern University, Wichita Falls, called for stronger religious leadership in tax-supported colleges.

The success of Christianity on college campuses alone, he said, falls on the strength of spiritual leadership, Dr. White said.

1919 Model-T In Demand At $350

NEW YORK (AP) — How many people do you think would like to buy a 1919 model-T Ford coupe in good condition for $350?

The Dry Dock Savings Bank offered just such a deal the other day, as part of an attention-getting advertising program featuring unusual things to buy.

A newspaper advertisement pictured the car and said: "If you want a car with plenty of headroom and lots of nostalgia, here she is. A postwar model—World War I that is—she was born in 1919 and is still in good running condition. Eelectric starter — or crank it by hand if you insist."

The bank got 50 quick phone calls and letters, not only from this area but from Pennsylvania and Massachusetts. The inquiries are still comig in.

Only about half the inquiries were from people with car hobbies. The others just saw the ad and got to thinking what fun it would be.

Miss Sally Dominick, who handles the bank's ad program, makes arrangements with people who have unusual things to sell, checking carefully to make sure they are bargains in their way and of top quality.

When people see the ads and inquire, they are mailed circulars giving all details so that direct contact may be made with the sellers.

The ads have featured such things as $300 ship models, $995 telescopes, fencing lessons and Mexican burros for $85 each. Most popular items so far were the telescopes and burros.

Now about that 1919 Ford again. Just so prospective customers would have a better chance at a car, Miss Dominick listed on her fact sheet a 1913 Ford touring car and a 1915 Ford pickup truck restored as a hobby by a real estate man. He was willing to sell for $1,000 and $750, respectively.

What happened?

The fellow with the touring car and pickup changed his mind.

Instead, he rushed out with a $350 check and snapped up the coupe.

Graham Goes Before Panel

SAN FRANCISCO (AP)—Evangelist Billy Graham appears today before a California Assembly subcommittee studying pronography.

Graham, who addressed 12,500 persons last night in the fourth week of his crusade at the San Francisco Cow Palace, had told the committee he never has seen any pronographic material, but agreed to explain his views on the corruption of youthful morals.

The committee is holding its second day of public hearings on the effect of "girlie" magazines on teen-age morals. Police testified obscenity and lewdness should be more precisely defined by law.

Graham told his audience a Christian "may stumble but it is not his practice to sin."

There were 206 "decisions for Christ" last night.

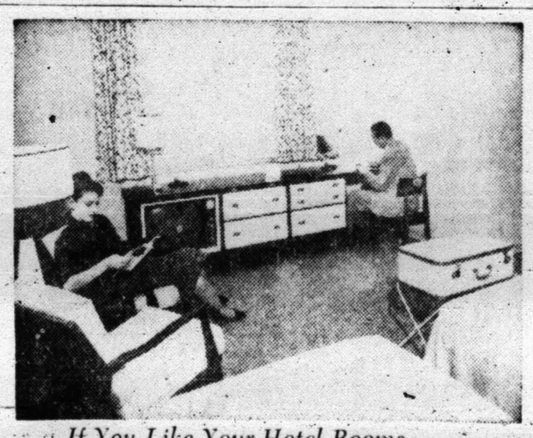
Search Launched For Heart Disease Victim

LOS ANGELES (AP)—A search is on for a missing 6-year-old who will die of heart disease without his daily dosage of digitalis.

Maurice Bolduc reported that the patient can live only a few days without his medicine.

The medicine has always been hidden in his daily candy.

Chances of finding Peanuts are poor, Bolduc said he left his dog [illegible]



If You Like Your Hotel Rooms Big and Comfortable . . .

. . . Try the new "King Size" bedrooms just finished at The Adolphus. Three hundred square feet (15 x 20)! *Two* baths, *two* closets, *twin* beds! Radio and TV, too. Soundproofed, beautifully decorated, luxuriously furnished. On your next trip to Dallas ask for a "King Size" room. Our *Connecting Garage* is mighty convenient, too
