

WHO COULD EAT A PET LIKE THIS? - Jessie Morris, daughter of Mr. and Mrs. Lewis Morris, cradles one of her mother's prize turkeys in her lap and wonders, with Mr. Turkey, who could think of having this proud bird for Thanksgiving dinner. In The Words Of A Child

What Is Thanksgiving?

Authentic in its Americanism, the holiday celebrated this Thursday has come to mean many things to many persons. Seeking to learn how the young, young generation describes "Thanksgiving," we paid a visit this week to the kindergarten class of Miss Jackie Crabtree.

We learned that each of the little boys and girls were familiar with the word "Thanksgiving" and a number were eager to tell the "Newspaper Lady" just what they thought it was all about. A few others, hesitated because of language disadvantages or the quality of timidity were reluctant to speak.

Yet all recognized the word "Thanksgiving." Their familiarity explained, in part, by Miss Crabtree's later explanation "We have been talking some about Thanksgiving."

Little Julie Arroyas and Cindy Silvas said Thanksgiving would mean getting to visit their grandparents.

Glen Davis described the holiday as "having a big dinner --- maybe turkey."

"Turkey" was Teresa Zamora's first impression of Thanksgiving and she eagerly answered "yes" when asked if she liked the drumstick.

Hector Fuentes said he was "glad" Thanksgiving was coming and he hoped to have "turkey for dinner."

"Thanksgiving is when you have turkey and you give thanks," said Kory Noack. Asked to say for what he was thankful, Kory quickly answered, "I'm thankful for God and for Jesus."

Little Joy Muller softly answered that she, too, was "thankful for God." She said Thanksgiving made her think of "eating turkey and going to Grandma's."

Thanksgiving Day dinner looms appealingly for Cory DeBerry who says it is the holiday "when you eat turkey and chicken and pie and cake."

Linda Moore answered the "what is Thanksgiving?" query with solemn sincerity as she said, "You give thanks. We're going to have chicken and we're going to my grandmothers." "What are you thankful for? she was asked. Her answer, without hesitation, came, "I like to share."

Andy DeLeon describes the upcoming holiday with "It is giving thanks. Thanks for lots of things."

"What do you think of when you hear the words Thanksgiving Day?" this reporter asked young Albert Aviles. His answer, "You think about turkeys. And going to see Grandma and Granupa."

"Turkey" said Sophia Alaniz.

Santos Reyes said Thanksgiving "is a holiday -- go pick our turkey." And asked if he planned to go visiting for the day he nodded with a smile, "Yes. We're going to Hart."

Overcome by shyness, Crystal Hamby could only manage to say she was "glad it's Thanksgiving" and to nod affirmatively when asked if she planned to eat turkey.

Lupe Costillo thought of several meanings of Thanksgiving. "You eat turkey and after Thanksgiving it's Christmas. You thank God. He gives us food and He gives us water and . . ."

"It's a holiday," said Patricia Daniel in describing Thanksgiving. "People eat turkey -- they have salad. You thank God. It's a fun day."

"What are you thankful for?" She was asked.

"I'm thankful for food and that Jesus helps people."

"Do you know what Thanksgiving means?" we asked Keith Hancock. Nodding his head, he answered readily, "You be thankful. It's where you have turkey. I love turkey. And you play till it's time to eat."

Tammie Smith was very quiet to answer her inquiry. "Thanksgiving is a time when it's a holiday when you give Jesus thanks."

"What do you think about when someone says 'Thanksgiving'?" she was asked. "You think about Jesus," she answered. "And about turkey and dressing."

Perhaps, had we had more time, little Bobby Walden would have remembered even more things to tell us about the meaning of Thanksgiving.

Very seriously he answered, "It's the time to give thanks to God."

"What are you thankful for?" we asked. "I'm thankful for God, for my mother and my daddy, my little brother, my Grandmother, my Granddad and Mimmaw, and you," he added.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

Thanksgiving! What a glorious time. Isn't it a shame that we take just one day a year to really express our thankfulness? Or do we still take that one day for that purpose? Has it become, instead, "feast day" and "football day"? (I'm meddling)

Too belatedly to really give it justice, I came up late this week with the idea of asking our little kindergarten students "What is thanksgiving?" It was an inspiring experience.

Thanks to their teacher, Miss Jackie Crabtree, they'd been hearing a bit of what thanksgiving really means. Had there not been that hindrance of language communication, I'd have had a wonderful story.

It's pretty difficult trying to ask a small child if he or she knows what thanksgiving really is when they don't even understand the words I use. And I don't understand their words so there we are, neither understanding what the other has to say.

As usual, there are those very shy ones who would much rather the old lady just went away and left them to their kindergarten lessons.

Then there were the little eager to talk ones - including one that thought I would never get to him. They were real cute. And they amazed me with their understanding. I'm not sure I could have answered those questions when I was five years old. Probably my answer would have been, "I don't know."

All this brings about the pondering within my small bit of "gray matter," -- what are we really thankful for? It's a good self-evaluation to make. Especially at this season.

With all our trials and our troules there are still so many things for which we need to give God the thanks that to name them "one by one" would take from now till Thanksgiving.

My list is long and yet there's much I forget to mention. To borrow from one of those little five-year-olds, "I'm thankful for YOU."

MRS. BILLY CARSON & RACHEL

Cook Of The Week

Seafood connoisseurs are in for a treat this week with authentic recipes from the "Bayou Country." Cook of the Week honors are bestowed on a transplanted Texas, Mrs. Billy Carson, who was reared in Bayou la Batre, Ala., a section of the south that is rich in historic traditions.

Emma Lou and Billy met when both were students at Graceland College in Lamoni, Iowa. They had been married a year when Emma became a Texan. The young Carsons lived about two years in Dimmitt and came to Olton four years ago.

An avid Mustang fan, Emma Lou enjoys West Texas and Olton, in particular. She has been charmed by the friendliness of the people of her adopted home.

Emma says she likes fall and winter seasons in Texas but still prefers Alabama in the springtime.

Presently, Emma Lou and Billy and their little fifteen-month-old daughter, Rachel, are planning Christmas in Alabama with her parents, two sisters and three brothers (one is Emma's twin).

Emma Lou's mother is a former teacher, now a guidance counselor. She is active in the historical society of Bayou la Batre which is rich in Spanish, French and Indian lore.

Her dad was able to visit here this summer and is keenly interested in the agricultural aspect of the area.

Emma Lou loves helping her farmer husband with the many tasks always awaiting a farm family, especially the countless errands.

The Carsons live northwest of town on the Roy Hooper farm. Rachel has thoroughly enjoyed "fixing up" her home and is currently at work on Rachel's room. Turning dark paneling into antique white, Emma Lou laughingly told an Enterprise reporter, "I should have my picture made with a paint brush in my hand since I'm forever painting something.

Members of the Reorganized Church of Jesus Christ of Latter Day Saints, Billy is presently serving as pastor of the local congregation and Emma is treasurer. She was recently elected Christian Education Director of the Western Texas District, an area that reaches from Midland to Amarillo. She also teaches an adult class.

Emma likes to cook and sew but her "favorite thing" is reading. She has indefinitely postponed her work towards a college degree because "the most important thing right now is to be with Rachel during her impressionable years."

The seafood recipes Emma shares are from a favorite cookbook, "Treasured Recipes and Cooking Secrets of the Bayou."

HOW'S The Electric Company DOING?

Let's ask J. T. Burk, stores superintendent . . .

"Crossarms are such a common sight that you probably don't even notice them. But we have thousands of crossarms in our system . . . and they're necessary to bring electricity to you. Ten years ago, one of these crossarms cost $3.43, but today an identical crossarm is $11.46."

That's a whopping 234% increase . . . a reason electricity may be costing you more these days. Even so, electricity is still a big bargain . . . because it's always there when you need it.

Seventh Grade Footballers Win District, Injuries Hurt Eighth Grade Gridsters

"We were feeling we could win the Super Bowl," says Coach Tom Duncan of his seventh grade footballers in their season finals Nov. 6 against Morton, after the locals overcame an early lead by their opponents.

"They scored first, on the third play of the game, and got their extra points. It was 8-0 at the end of the first quarter. But we came back with a 12 yard pass to Ken Smith. Tommy Cabrera ran the extra to make it 8-8."

Cabrera ran 75 yards for another TD in the third and the extras were no good. In the fourth, Lance Phares ran 10 yards for the final TD. Extras were not good.

"We had good effort and attitude. A few penalties nearly killed us."

The team finished the season 7-1 and undefeated in the district.

Eighth graders posted a 3-5 season record and a 1-3 district effort.

"We feel the seventh grade played real good offense and defense for the season. The eighth grade played real good defensively."

For the season, the seventh grade won over Lockney 6-0; stopped Levelland 28-18; fell to Floydada 6-26; fought Abernathy to a 0-0 finish; beat Dimmitt 12-6; edged Friona 8-6; tromped Littlefield 26-14 and whipped Morton 20-8. In the 0-0 battle with Abernathy, the seventh grade Colts had more possession and did not allow Abernathy inside their 40 yard line.

Eighth grade footballers beat Lockney 6-0; tied Levelland 0-0 (but had the most penetrations); fell to Floydada 0-30; lost to Abernathy 6-24; were stopped by Dimmitt 0-12 and by Friona 0-6. They clobbered Littlefield 42-0 and lost their final outing by 0-6 to Morton.

Injuries plagued the eighth graders this season.

Basketball play gets underway Nov. 24 with seventh and eighth grade boys traveling to Hale Center. Olton's seventh and eighth grade girls will host Hale Center.

JV, Varsity Host Cooper Girls, Win Season Opener, 46-24

Junior Varsity girls basketball team played Lubbock Cooper here Saturday night to open the season and won handily 46-24.

High point scorers were Dusty Kinnison, with 26 points; Ann Criswell, 6 and Lorenda Couch, 6.

Defensive standouts were Janet Huguley with 5 defensive rebounds and Tony Brown, 8. Coach Larry Ledbetter praised both the offense and defense for a real fine job.

Tuesday night, victory was theirs again as they met Idalou on their courts. They brought home a win 26-24.

Dusty Kinnison scored 13 points and Nancy Britton scored 6. On defense, Lisa Brimhall and Sherri Hutson were named outstanding.

Ledbetter commented that the girls came from behind to win the game, with the score at half time 20-16 in Idalou's favor.

Varsity girls played Lubbock Cooper also Saturday night and lost by one point in the last few seconds of the thriller. Score was 56-57.

Elaine Rodrigues sunk 24, while Alice Brown scored 20 points and Kim Foster, 8.

Defensive, players, Jeanie Davis had 10 rebounds; Marla Faver, 5 and Cindy Moore, 5.

Coach Ledbetter said of the Varsity girls, "They had a real good game . . . Lubbock Cooper is about as good as team as you'll meet."

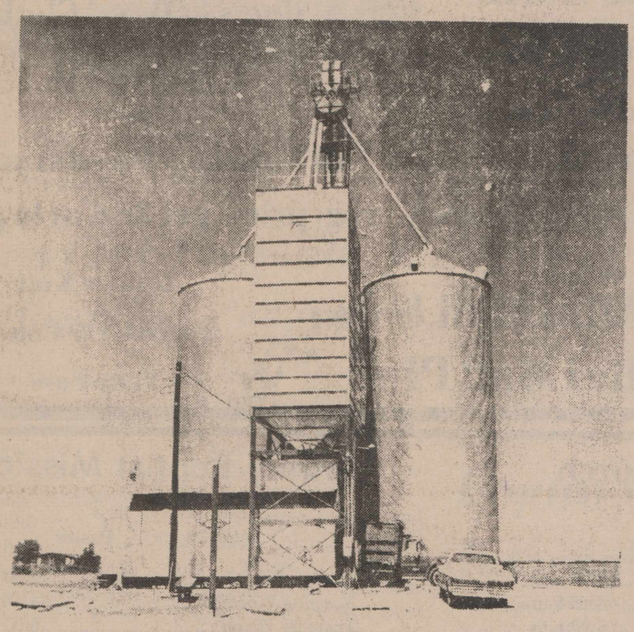

Tuesday, at Idalou, the girls were victorious, 50-46.

High point girls were Faye Brown with 20; Elaine Rodrigues, 18 and Kim Foster, 8.

KELLI SMITH & MELISSA MCFADDEN

4-H'ers Win Honors

Melissa McFadden and Kelli Smith, Olton 4-H'ers, won blue awards and became division winners in the Lamb County 4-H Food Show held Saturday in Springlake-Earth school cafeteria. The two will participate with other blue award winners in the District 2 4-H Food Show Dec. 6 on the Texas Tech campus in Lubbock.

Miss McFadden, daughter of Mr. and Mrs. Royce McFadden, won in the snacks and beverages category. Breads and desserts was the category in which Miss Smith, daughter of Mr. and Mrs. Landon Smith, received honors.

(Recipes of the two prize winners are listed below.)

Forty-nine 4-H'ers and three "pee wees" competed in the County Food Show. Other winners in the junior division were Cindy Ham, Sudan 4-H, main dishes and Arlie Ellis, Springlake-Earth 4-H, side dishes.

Senior winners were Dina Jo Hampton, Springlake-Earth 4-H, breads and desserts; and Dawn Branscum, Springlake-Earth 4-H Club, snacks and beverages.

Melissa's recipe:

BANANA CRUSH PUNCH
5 c sugar
6 c water
1 46 oz can pineapple juice
2 12 oz cans frozen orange juice concentrate, thawed
1 12 oz can frozen lemonade concentrate, thawed
6 bananas
7 28 oz bottles of 7-Up or equal amounts of lemon juice and ginger ale

Dissolve sugar in water. Add juices and mashed bananas. Stir well. Put all ingredients except 7-Up in clean milk cartons and freeze ahead of time. Take out of the freezer two hours before serving. Have 7-Up chilled and combine in large punch bowl with banana mixture, pouring 7-Up slowly into side of bowl. Yield: 6 dozen servings.

Note: I combine sugar and water in an 8 qt sauce pan and heat just until sugar is well dissolved. Let cool. Also, to mash the bananas, I use a blender and use some of the lemonade concentrate in with them to prevent them from turning dark.

Kelli's recipe:

APRICOT FOLD-OVERS
4 oz sharp process American cheese
½ c butter
⅓ c sifted flour
2 T water
1 c dried apricots
1 c sugar

Grate cheese. Cream cheese and butter. Blend sifted flour into creamed mixture. Add water and mix well. Chill 4 to 5 hours.

Meanwhile, cook dried apricots. Drain well. Stir sugar into hot fruit; cook and stir till mixture boils and becomes smooth. Cool. Divide chilled dough in half. Roll each to 10 inch square. Cut into 1½ inch squares. Put 1 teaspoon filling in each square. Seal. Bake at 375 degrees 8-10 minutes. Makes about 2½ dozen.

Mustangs Win

BY FREDDY STOCKDALE

Helped by a 27 point second half outburst, the Olton Mustangs trounced the Dimmitt Bobcats 33-12, to wrap up their second District 3-AA championship in a row.

It wasn't that easy, though. The Bobcats, fighting for their lives and a possible three-way tie for district honors, looked tough in the first half. At halftime, the score stood 6-6, with Dimmitt playing steadier than Olton.

But on the first play of the second half, QB Jimmy Parker scrambled 80 yards for a touchdown, and the Mustangs were on their way toward the championship.

Dimmitt started the game from their own 18 and drove 11 yards to the 35 before having to punt. The punt rolled dead at Olton's 18 yard line where the Mustangs took over, first and ten.

Parker went quickly to his passing game and hit Michael Franks at the 39 for 21 yards. Parker again looked for Franks but the pass was incomplete. Then Parker turned to tailback Glenn Johnson on three straight carries to bring the Mustangs into Bobcat territory. Parker and Johnson combined runs down to the 31 where the Mustangs were faced with a fourth and two situation. Parker tried to pick up the first, but was stopped short and the Bobcats took over.

Four plays later, the Bobcats were forced to punt, but got the ball back quickly after Dimmitt's Gaines Howell intercepted a Parker pass at Olton's 39. Ten plays later, the Bobcats took advantage of the break. With 10:06 left in the first half, Dimmitt QB Ronnie Lawson hit Kyle Touchstone from nine yards out to put the Bobcat's on the scoreboard first. The PAT was no good, and the score was 6-0 in favor of Dimmitt.

Olton finally got a chance to score with 3:02 left in the half. The Mustangs started from their own 20 yard line. Michael Franks started the drive by catching a seven yard pass from Parker. Fighting the clock, Parker hit Mark Stroebel on passes of 13 and 46 yards. Then Parker tried to find Stroebel in the endzone. The pass was incomplete, but pass interference was called, giving Olton a first down on the Bobcat one yard line.

Glenn Johnson capped the drive with a one yard plunge with only 32 seconds left. Olton's try for two failed and the score at halftime was tied 6-6.

The Olton fans might have been a little uneasy as the two teams ran onto the field for the second half. But Jimmy Parker put any uneasiness away, because on the first play of the second half, he ran around left end, and following perfect blocking, sprinted into the endzone from 80 yards out. The Mustangs' try for two again failed and Olton held a 12-6 edge over the Bobcats.

Olton got a break on the ensuing kick-off when Ruben Saldivar recovered the on-side kick at Dimmitt's 47.

The Mustangs drove to the 14, but then were stopped by Dimmitt's defense. Kevin Workman came in to try a 31 yard field goal. The kick was blocked, so the Bobcats took over on their own 20.

Olton's defense held the Bobcats to only three yards in three plays, forcing them to punt.

Steve Johnson returned the Bobcat punt to his own 25. Parker, who ended the night with 205 yards rushing and 149 yards passing, hit Stroebel at the 48. On the next play, Parker ran around right end. He was tackled after a two yard gain, but on the way down, he flipped the ball to Glenn Johnson. Johnson found clear sailing ahead - 52 yards worth - for a TD, with 6:34 left in the third quarter. Johnson, 149 yards for the night, cashed in the two-point conversion and the Mustangs had exploded to a sudden 20-6 lead.

But the Bobcats never gave up. Midway through the fourth quarter, the Bobcats recovered a Mustang fumble at Olton's 48. Dimmitt's Brad Dulaney, replacing the injured Lawson, hit Eddie Chavers for a 52 yard touchdown pass. The PAT failed, but the Bobcats were only behind by 8; 20-12.

Olton recovered the ensuing on-side kick off at their own 47. Leslie Gary combined running talents with Johnson and Parker as they smoothly ground out yardage and the clock. With 1:46 showing on the clock, Parker sneaked in from the one to put the game out of reach, 26-12.

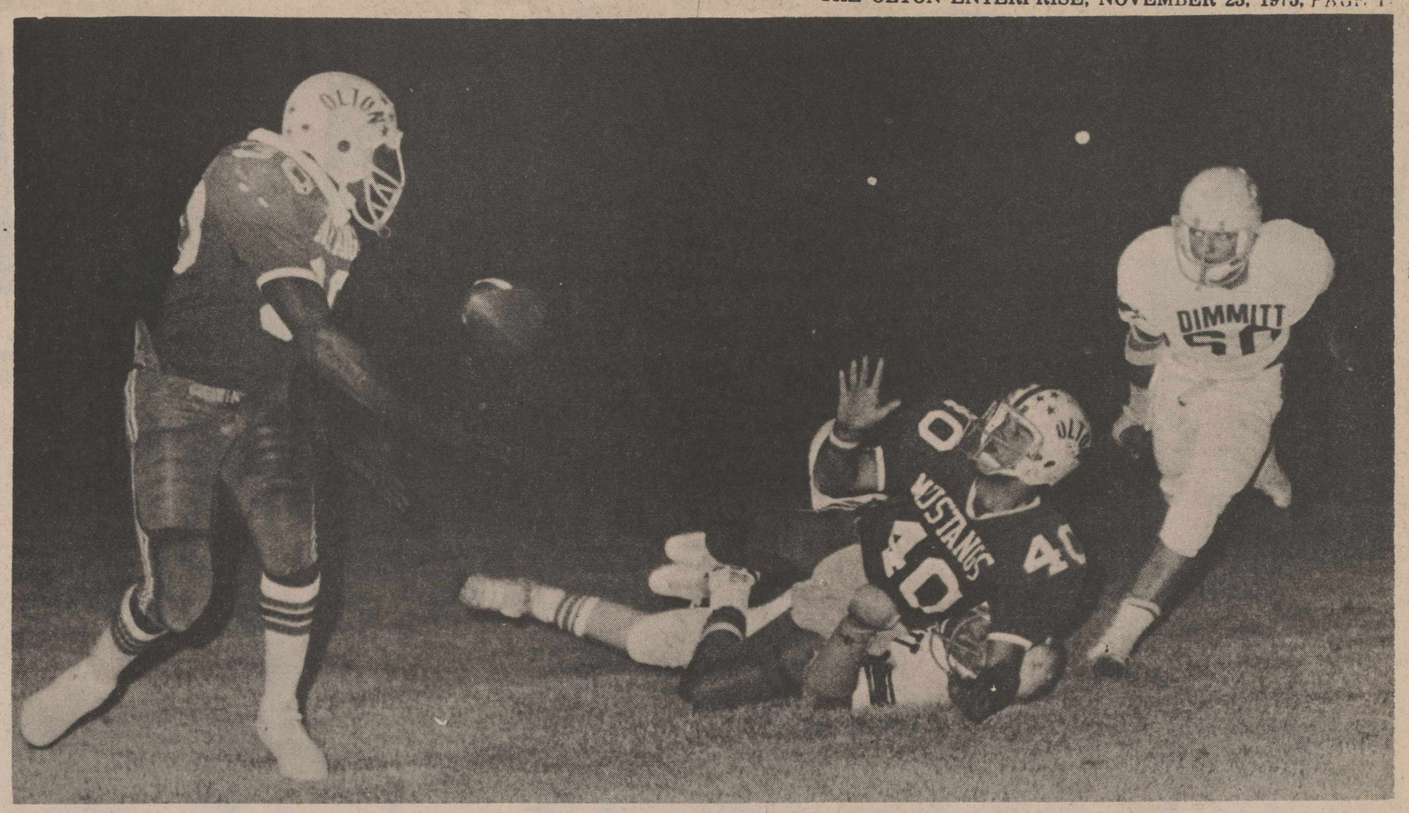

The Bobcats desperately tried to put one more on the scoreboard on their side, but Kevin Workman stepped in and picked off a Dulaney pass.

Then Buster Lloyd ended the scoring with a 63 yard jaunt. Parker kicked the extras and the final score was 33-12.

Reflecting on the game, Coach Ed Miller pointed out the outstanding play of Buster Lloyd, Jimmy Parker and Glenn Johnson - especially the second half. Lloyd showed great blocking and led Parker on his two long runs.

Miller also brought out the fact that, during the past few decades, Olton has won district every seven years; and the championship always came in pairs.

By their victory, the Mustangs earned the right to face Floydada next Saturday night.

"HERE, YOU TAKE IT QB Jimmy Parker seems to be saying, as he pitches the ball to Glenn Johnson. The play resulted in a 52 yard touchdown to give the Mustangs a 20-6 lead over the Dimmitt Bobcats.

Coming in the fourth quarter, Kim Foster scored 6 points enabling the Fillies to win by a 4 point lead.

Defensively, Jeanie Davis and Marla Faver each had 5 rebounds.

Ledbetter praised Kim Kinnison for her efforts in making five "key steals" which gave the team a lift.

"We didn't play as well as we should have against Idalou. We played inside, if we'd shot more outside, we would have beat them more," he commented.

"Offensive players, Faye Brown, Kim Foster and Elaine Rodrigues did a fine job. Faye had 6 offensive rebounds."

Summing up the outlook for the two teams, Ledbetter said, "Considering who we played the first two games, we are pleased with our performances. We are getting experience and we are going to come on stronger as we play more. We are short in defensive, but quick. Nine girls on the varsity got into the ball game and played a lot. I won't be afraid to put in any one of my players, so this gives us depth."

Tuesday, the J.V. girls will play at Tulia, beginning at 5 p.m., followed by the Varsity girls.

Ledbetter said, "It'll be a close ballgame. Tulia is real big, 5'10" on each end. The shortest girl is 5'7"."

Across The County Line

By Mrs. C.D. Tanner

Mrs. E.C. Freeman, vice president, presided at the Oct. 21 meeting of the Northwest Home Demonstration Club.

Roll call was answered with "My first gift of flowers."

A letter of thanks from Mrs. Wynon Mayes, Hale County Extension Club, was read expressing gratitude for participation in the health fair.

Announcement was made of a course, "Sewing the way you are" to be held Nov. 5 at the Agriculture Center, Plainview, from 1:30 to 3 p.m.

Mrs. J.R. White gave the council report. She said 200 persons took the home tour.

The Club Christmas party was set Dec. 5.

The annual Chamber of Commerce dinner was discussed and committees named. The dinner will be Nov. 6.

Mrs. Elmo Snelling will present the program Nov. 4 with Mrs. Dwight Lewis as hostess.

A program "Flowers are Forever," was presented by Mrs. Wynon Mayes. She gave a recipe for "Silica gel" for preserving flowers; ½ yellow cornmeal, ½ Borax and 1 teaspoon non-iodized salt to each quart of mixture. Flowers should be picked at driest time of day; stems cut very short. Cover bottom of container to be used with layer of gel; place flowers upright; then add extra mixture around flowers until petals are covered. Seal container with tape and place to dry for about 5 days, begin testing for dryness in about three days.

When dry, the short stem can be attached to wire with silicone tape and wrapped with floral tape.

Mrs. Mayes displayed flowers, toad stools, etc. she had made. She also demonstrated making flowers out of brown market bags. "Tackey glue" must be used.

Dear Sugar:

It's been all of 3 minutes since I haven't seen you. I sure do miss you. I can't wait to see you again. I hope you will strap on a kiss that will make me faint dead away.

Did you ever get all your problems straightened out? I mean did you ever decide if we were going to date anymore? I sure hope so. We ought to date because we were made for each other. I can't help it if I got my front teeth knocked out in a fight. You can't help it if your nose is not straight. What do you expect from running into a door?

I got to go now, because I'm due in the office. I got caught with a dip of snuff in class.

See ya around. This is your snuff-dipping, bull-riding cowboy saying "I love ya more and more every smooch!"

SOMETHING TO BE THANKFUL FOR!

How fortunate we are to be living in a land that has been blessed with such great abundance for so many years. As each family gathers around the table this Thanksgiving Day, there'll be choruses of "oohs" and "aahs" over the beautiful turkey Mother has prepared and the bountiful spread before us. When you stop to think about it, we have a lot to be thankful for—let us express our gratitude by attending Thanksgiving Day services at one of the many churches in our community.

Four-Day Film Revival Scheduled At Hopewell

Hopewell Baptist Church is announcing a new approach in revival effort, a four-day Film Revival.

According to the Rev. Sherman Lawson, pastor, four films will be shown in revival atmosphere. The films, he states, are in reality sermons with dramatization, presenting the Gospel with great clarity.

The public is cordially invited to attend any or all of the film showings. The first film to be shown, "The Burning Hell" will be narrated by evangelist Estu Pirkle. Taken from the ook of Luke, the film paraphrases the story of Lazarus and The Rich Man, to make it one of the screens greatest stories. It will be shown without charge at Hopewell Baptist Church, corner of 5th and B, Nov. 30 at 6 p.m. and again Dec. 1 at 7:30 p.m.

"The Burning Hell" which stars a host of Christian performers and hosted by Evangelist Estus Pirkle is probably the first motion picture in the history of films to attempt documenting the miseries and torments of a literal burning hell.

Hollywood know-how is credited for much of the realism in this film made by the Nashville based Ormond Organization. Ron Ormond who spearheads the company spent most of his life in the Hollywood studios as both producer and director until he and his family were saved and moved south to Tennessee.

A special "hell set" had to be constructed in which to accomplish that end. But prior to the construction of the "hell" and other sets, much time was spent in the Holy Land to do special scenes. Headed by Evangelist Estus Pirkle, seventy people made the long trek to the Middle East to appear in scenes at Mount Sinai, Caesarea and Emmaus. "to add authenticity," Tim Ormond will tell you.

Young Ormond who works as first assistant to his veteran film producing dad will also tell you that his tour to the Holy Land was the greatest experience of his life.

"One of the great things about this film," Evangelist Pirkle added, "was how it effected so many lives. People were saved even while the picture was being made."

"Some of the outstanding 'special effects' and scenes in 'The Burning Hell' are just unbelievably real." This from Ron English, Circulation Manager with the Sword of the Lord America's largest religious weekly publication.

His reference undoubtedly alluded to such spectacular scenes as the Korah-Moses Confrontation from Numbers 16:16, 32. Lazarus being escorted to Heaven by the Angels and Lazarus sitting in the bosom of Abraham. The Lake of Fire; the Bottomless Pit and other equally fascinating Bible-inspired sequences.

The cast includes hundreds and is honored by the guest appearances of these internationally known preachers. Doctors R.G. Lee, Jack Hyles and Bob Gray.

Also as a part of the four-day "Film Revival", two other films will be shown: "The Footman" - Dec. 2, at 7:30 p.m. and "Danger Trail" - Dec. 3, at 7:30 p.m.

Pecan Harvest In High Gear Across State

AUSTIN–Pecan harvest continues to increase throughout Texas as cooler weather causes nuts to fall, and indications are that the 1975 pecan harvest will be a good one.

Although the crop has been plagued by an unusual number of insect and disease problems in some areas, it it expected to show a 45 percent increase over last year's crop, according to Agriculture Commissioner John C. White.

Pecan harvest is forecast at 55 million pounds, reflecting an increase of 17 million pounds over the 1974 crop.

Pecan scab has caused the most problems this year. In some untreated orchards, scab is causing droppage and poor quality nuts.

Harvest is expected to increase as cool weather and frost cause trees to defoliate.

CONSTRUCTION DELAYS

Lengthy environmental assessment reports may soon be called for by the Environmental Protection Agency before certain new agricultural and industrial operations can be constructed. An agricultural engineer in waste management with the Texas Agricultural Extension Service says that the proposed EPA regulations would subject new feedlots and certain other agricultural "point sources" to the Environmental Impact Statement (EIS) Program established under the National Environmental Policy Act of 1969.

Re-Upholstering Tips Told By Extension Agent

Re-upholstering a chair or sofa may extend its life -- but there's more to selecting appropriate upholstery fabric than meets the eye, Mrs. Dorothy Powell Lamb County Extension Agent says.

"Some of the prettiest fabrics may be the worst performers, and it's no 'cost cutter' to use fabrics designed for garments or draperies either."

Turning to positive points for fabric selection, the agent advised selecting sturdy fabrics -- those that are tightly woven. Pull on the fabric to be sure yarns don't slip. All yarns used in the weave should be about the same size to reduce abrasion, she noted.

"Beware of fabrics with heavy latex or acrylic backings. Only a thin coating for reinforcement and stabilizing of yarns is necessary. A heavy backing may be a substitute for better fabrics," the agent warned.

"Also, check the label for fiber content -- the blends using a greater percentage of man-made fibers will usually be stronger. Nylon and olefin fibers are also highly stain resistant.

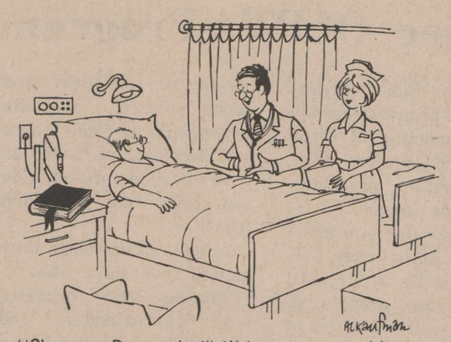

"Even in easy-care, stain repellent fabrics, light colors and solids will show soil faster and require more care. So select tweeds, strips, plaids, or other patterns in deeper colors for better wearing," she suggested.

And don't forget plastics -- they're a good choice in a room that gets a lot of living. Plastics are available in many design varieties and colors. Some of the newer ones "breathe" making them cooler and more comfortable.

But avoid plastics that aren't fabric-backed -- they won't wear well. Also plastics aren't indestructible -- they can tear and some household cleaners, polishes, and nail polish remover will "eat through" them, she said.

Sew Scarves At Home For Season High Fashion

Sewing fashionable scarves at home takes little money or time to produce this season's top accessory, Mrs. Dorothy Powell, County Extension Agent says.

Depending upon the size and shape desired, one-fourth to one yard of lightweight fabric is adequate. Enclose raw edges by making the scarf double. Fringe, overcast or hem the edges for a single thickness.

Newest looks for scarves are as belts, draped across one shoulder in a triangle or as a head wrap. Wear small scarves in multiples. Twist any size tightly into a tope for a novel effect, she suggested.

Extending the scarf look, shawls abound in large triangles, rectangles and squares. Create a suit effect by making one to coordinate with a skirt, dress or pants. Add decorative braid, fringe or ruffles. Any shape can be made from 54 to 60 inch wide fabric.

Other accessory fashions needing only a little fabric are vests, brimmed hats, wrap belts or soft fabric bags. Synthetic suedes and leather, corduroy, denim and quilted fabrics are ideal choices, Mrs. Powell said.

METRIC SYSTEM

Congress legalized the use ot the metric system in the United States as long ago as 1866, according to Mrs. Janice Carberry, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

COLD AND RAIN IN SEPTEMBER, DROUGHT IN OCTOBER has reduced the forecast for upland cotton production in the High Plains this year, according to Agriculture Commissioner John C. White. Even with this reduction, however, Texas farmers expect an increase over the 1974 of nearly 2½ million bales.

Cotton Forecast Reduced; Total Set at 2.8 Million Bales

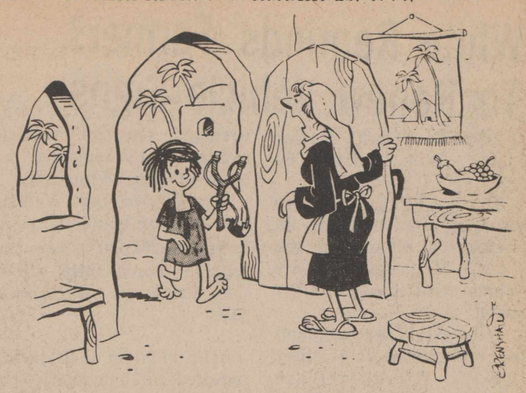

AUSTIN–The forecast for upland cotton production in Texas this year has been revised downward slightly as a result of unusual weather conditions on the High Plains.

Production, first forecast at 3.025 million bales, is now forecast at 2.86 million bales.

The revised figure still reflects an increase over last year's short crop of only 2.462 million bales, according to Agriculture Commissioner John C. White.

Yield per acre is expected to average 343 pounds, a considerable improvement over last year's drought-plagued yield of 269 pounds.

Following a period of excellent growing conditions during August, the cotton crop on the High Plains was hit with unusually cold, wet fall weather. This resulted in heavy defoliation of leaves which is expected to reduce both yield and quality potential.

Make a joyful noise unto the Lord, all ye lands, Serve the Lord with Gladness: Come before his presence with singing. Know ye that the Lord he is God: It is he that hath made us and not we ourselves; We are his people and the sheep of his pasture. Enter into his gates with thanksgiving.

And into his courts with praise: Be thankful unto him and bless his name. For the Lord is gracious; his mercy is everlasting; And his truth endureth from generation to generation

White Reminds Farmers To Renew Vehicle Signs

AUSTIN–"Farm tractor struck from behind by auto."

Such headlines are becoming less common in newspapers, thanks to the Slow Moving Vehicle emblem used throughout the nation.

"However, the emblems lose effectiveness as they age,'' Agriculture Commissioner John C. White reminded farmers.

Recent studies have revealed that although the orange fluorescent centers are highly visible in daylight when they're new, they fade gradually, White stated.

Every two years, farmers should replace the emblem center, either by applying a pressure sensitive triangle overlay or by replacing the entire emblem, White said.

Slow Moving Vehicle emblems can be purchased at farm implement stores or general merchandise stores specializing in automobile parts.

The emblem is a symbol required on machinery that normally operates at a speed of 25 miles per hour or less.

According to state law, the emblem should be mounted base down on the rear of the vehicle between three and five feet above the road surface.

The emblem is to be maintained in a clean, reflective condition.

"He can really play that thing!"

Include Texas Farm Products On Christmas Gift List

AUSTIN--Keep Texas agricultural products in mind when planning holiday gifts this year.

"Texas food and fiber make excellent gifts. Wool, mohair and cotton garments are always appreciated, as are Texas food products," Agriculture Commissioner John C. White said.

An easy way to solve the problem of what to give persons on your list who have everything is to give Texas citrus gift packs.

Now is the time to order the gift packs, according to Commissioner White.

One way consumers can make certain they order fruit from a reputable firm is to contact the Texas Citrus and Vegetable Growers Association (Box 671, Harlingen, Texas 78550) for the names of shippers who are Association members.

Association members must observe strict standards for quality of fruit and efficiency in delivery.

Average prices of the gift packs range from $5 to $20.

The Ruby Red grapefruit is the most popular of Texas citrus. Texas oranges also are available for shipping.

The Star Ruby, similar to the Ruby Red but deeper in color, is available on a very limited basis.
